HOUSEHOLD HELPS

A quick way to clean currants when making cakes is to put the fruit into a colander with a sprinkling of flour, and rub it round a few times with your hand. It is surprising how quickly the stalks are separated and come through the small holes. If an iron is allowed to get red-hot it will never retain the heat as well again. The flat-iron is badly abused if allowed to stand on the range and in a dusty place. Irons should be put away to cool as soon as done with, and then kept in a cool place away from dust till wanted again. When washing and rinsing colored materials add a tea-spoonful of Espom salts to each gallon of water, and even the most delicate shades will neither fade nor run. Serge or merino dresses, which have been dyed black, can be safely washed in this way without any risk of the dye running.

THE PAGUIN SKIRT. The most formidable rival of the Russian tunic skirt is the Paguin skirt. A pleasing version of the new model is featured here. It looks well in Delhi silk in either plain or figured design, having a waist trimmed with lace or a contrasting material. Five yards of 28-inch material will be needed for the dress, with 1 yard of 40-inch all-over lace for the upper part of the waist. The foundation is a three-piece model, and this is made first by taking up a dart in the gore as perforated; then join gores as notched. Close back seam from large "O" perforation to lower edge; finish edges above feet placed. Turn inverted pleat at center-back, creasing on slot perforations; bring folded edge to center-back seam; stitch from upper edge to small "o" perforation and press; tack lower edge of pleat to position. First lower edge at side seam, bringing "m" perforations to seam and tack. Join bonnet sections as notched, and sew to foundation. Leave left side seam of the tunic free above large "O" perforation, but join sections as notched. Pleat near lower edge, bringing the two "T" perforations each side of seam over to the seam and tack. Gather upper edge between double "T" perforations. Arrange on foundation, centers and side seams even; stitch upper edges together. Adjust a washing or a straight strip of canvas 2 inches wide to position underneath upper edge of skirt for a stay; stitch upper edges together. There are many fashionable forms of girdles to go with these dresses. Nothing is better than one of Russian silk, however.

SENATOR THORNE IS HOST TO THE GOLFERS

Senator W. H. Thorne entertained the members of the golf club at dinner last evening after a field day known as "Senator Thorne's day," when prizes were given by the senator for the winners in special competitions. F. A. Peters, who won the Thorne cup a few days ago, was the winner of the first prize, a beautiful golf bag, which was presented by Sir Frederic Barker, P. S. Niabet won the second prize presented by George McAvity. The third was won by F. W. Fraser and presented by Rev. E. B. Hooper. Senator Thorne in a humorous speech presented the fourth, a sort of consolation prize, to C. F. Sanford. About fifty members of the club were present at the dinner and the senator made a fine speech, in which he told of the foundation of the club and its early members. Speeches were also made by Sir Frederic Barker, George McAvity and President J. U. Thomas. At the conclusion Mr. Thomas, after most pleasing references to the senator, asked Judge Barker to propose the health of the host, which he did with much warmth and in happy phrases. Senator Thorne spoke at some length in reply, and he never was heard to better advantage. He was given three times three with rare vigor, and Aid Lang Synne and the National Anthem closed the proceedings. "Senator Thorne's day" will go down upon the records as history.

Health and Beauty Helps (By Mrs. Mac Martyn) ALICE: You are quite right in assuming that you would not have dandruff if your hair were healthy. Dandruff keeps your hair from growing, it is doubtless the cause of all your other "aids." It is the decomposed matter sent forth by the oil glands. Sounds horrid, doesn't it? But it can be relieved wonderfully by this simple remedy made at home: Dissolve one ounce quinine in 1/2 pint alcohol, then mix with 1/2 pint water and you have a tonic for the scalp that is far better than any ready-prepared stuff. Twice a week rub a little well into the scalp. It will inspire your hair to a lustrous, healthy growth. Shampoo with Cantrox. MIRA D.: You are probably one of the millions who need a tonic because they stayed indoors too much this winter and ate too much meat and too few vegetables. You evidently need a good tonic and blood purifier. Get one ounce of karden and half a cup of sugar and dissolve in half a pint of alcohol. Then though cold pure water to make a full quart. Take a tablespoonful of this before each meal. Its action is to sharpen appetite, assist proper assimilation, regulate the liver and thereby purify the blood. There is no better general tonic that I know of, either. ATHLETIC: You certainly do not have to give up all outdoor pleasure just because you tan and freckle so easily. Here is how you can have your good times—and your good looks, too. Prepare a lotion by dissolving 4 ounces of sparman in 1/2 pint of hot water. Add 2 teaspoonfuls of glycerine. Let stand until cold, then bottle. Apply this morning and night and it will act like magic to keep away the bad effects of exposure to sun and wind. Many women find it a splendid substitute for ordinary face powder; it keeps away the shine of perspiration and imparts a natural healthy glow without an artificial look. In fact, it seems like a part of the skin. MIDDLE-AGED: I have every sympathy with your objection to "facing the light" if your complexion is not good and wrinkles are beginning to show, but I am sure you are mistaken in saying it is "ruined." All it needs, probably, is toning up. When the skin is lined and flabby it can be restored to fresh firmness by this simple means. Get one ounce of almond and mix with two teaspoonfuls of glycerine, add 1/2 pint cold water, stir and let stand two hours. Apply freely and note the contracting of the skin, which acts as a pore cleanser and stimulator of circulation. It positively will not grow hair. I have found great benefit in this lotion because of its healthy effect on the pores and outer cuticle as well as on the tissues beneath. E. L. D.: I sympathize with you in the "stickiness," as you call it, of your hair. I am glad I can tell you just how to relieve it as well as dandruff and at the same time avoid the brittle dryness caused by soap shampoos. Get some cantrox at your druggist's and dissolve a teaspoonful in a cup of hot water. Never use soap. The cantrox is enough, leaving the scalp perfectly clean and the hair fluffy, giving the appearance of an abundant growth whether you have it or not. MRS. B. W.: From what you say about your eyes, I am sure all they need is a little care. Get an ounce of erythro and dissolve in a pint of soft water. Drop two drops daily in each eye, or oftener if the lids are inflamed. This treatment faithfully used restores brightness and color to the eye as well as clear sight. Many actresses use erythro to make the eyes sparkle, and it has this effect without the slightest harmful results. B. B.—Your excessive flesh will be even more troublesome as the weather grows warmer, and you are quite right to take some simple means of reducing it. Ask your druggist for 4 ounces of paromita. Dissolve this in one and a half pints of water. Take a tablespoonful of the solution after each meal. This is simple, safe and sure. Paromita merely aids nature in establishing a normal assimilation of food. You do not have to exercise violently or restrict your diet. Betty Dean's Beauty Book—\$5.00—Adv.

THE SILVER BLACK FOX INDUSTRY

The story of the Silver Black Fox Industry reads like a chapter from the Arabian Nights. Do not open an umbrella to dry it, nor yet stand it on its ferrule. Either method is destructive, the former because the ribs will become warped, and neat, tight rolling impossible for a short time, and the second because the water collecting about the top will rot the covering. Leave the umbrella closed, but not rolled and turn it handle downwards, then when the silk is perfectly dry rub it with a woollen cloth to restore the gloss.

On Friday the Imperial has No. 10 of the Kathlyn series of pictures entitled "A Warrior Maid." THE ROYAL COMMISSION.

We begin to see, as the Valley Railway inquiry goes on, why the Frederick Gleason is not particularly anxious to have all the facts come out. A transaction in the stock of that incorporeal journal to the extent of \$1,000 figured in the evidence yesterday, and the present whereabouts of those ten shares of stock, which appear to have been accepted cheerfully at par by the railway construction company, has not been disclosed.

The evidence submitted yesterday shows that the payments to Hon. H. F. McLeod, who was then provincial secretary, for legal services, amounted to \$4,789.32. Mr. J. N. W. Winslow, postmaster of Woodstock, also appears to have received between \$8,000 and \$4,000 for "special services," in addition to \$3,800 payment for land in Woodstock, which it is said is now held in the name of Mr. Winslow and Mr. Ross Thompson, the managing director of the construction company.

A GARDEN SUBURB

An interesting experiment in developing a garden suburb is being carried out by what is called the Massachusetts Homestead Commission, its purpose being to provide workmen's homes at moderate cost, with due regard to site planning, a limited number of houses per acre, a limited dividend, and participation by the residents—or, in other words, co-operation. The site selected is at North Billerica, twenty-seven miles from Boston. Here the Boston & Maine Railway established its repair shops this year, and will ultimately add ten thousand or more to the population of the town. Twenty-one thousand dollars has been raised in mortgages, and land valued at \$6,000 has been turned over for stock, while several thousands of dollars of free capital have been pledged.

cheap land, and low construction cost—the moral support of the B. & M. officials is added assurance of its success from the start. In fact many operatives have already signified their intentions of living on the tract.

"The fifty-seven acres held under option have been taken over and a company formed, including as two of its directors the superintendent of the B. & M. shops and the president of the local board of trade, who has actively promoted the establishment of the suburb from the start. A greater or less portion will be turned over to a co-partnership society for development by that method. In another section houses will be sold outright on instalments, each owner taking up ten per cent. of value in stock. In a third section houses for rent will be built and in the fourth district the company will construct special buildings as the demand arises for shops, lodgings, boarding houses, etc.

"Briefly stated the company proposes to solve permanently the increasingly difficult housing problem on the areas under its control—by elimination of speculative profits, distributing the payments for the home, wholesale operations, constructing houses of durable materials, limiting the number of houses per acre, scientific planning along advanced garden suburb lines, providing community buildings and playgrounds, laying out allotment gardens, and promoting the formation of a co-partnership society."

The three moose who strayed into Carleton this morning may have heard that there was good browsing around Sand Point and the breakwater. The deeper the probe goes in the St. John Valley Railway inquiry the more wide-spread becomes the conviction that there must be an appeal to the people.

The people of New Brunswick would give something to know what passed between Lieut.-Gov. Wood and Acting Premier Clarke in Fredericton yesterday. The minister of labor in the Borden government does not show any marked eagerness to get on the firing line on the Atlantic Coast, any more than on the Pacific Coast.

St. John Valley Railway bookkeeping as a system appears to have left something to be desired. It is also to be noted that there were directors of this company who did not direct, and stockholders who paid nothing for stock.

The people of New Brunswick must now realize that those who protested against an additional bond guarantee to the extent of \$6,000,000 for the St. John Valley Railway were well advised, and that their counsel should have been heeded by the legislature.

"Does baby talk yet?" asked a friend of the family of the little brother. "No, replied the little brother. "He doesn't need to talk. All he has to do is yell, and he gets everything in the house worth having."

"He—The hand that rocks the cradle rules the world. Don't forget that."

"I woke up last night with the feeling that my new gold watch was gone. The impression was so strong that I got up to look."

"Well, was it gone?" "No, but it was going."

Good Gracious. Jones was out late and his wife sat up impatiently awaiting his return. When he at last appeared she received him with a few remarks and Jones promptly went to bed. On his wife proceeding thither a few minutes later she was amazed to see him sitting up in bed holding an umbrella over his head.

"Good gracious!" she exclaimed. "What on earth are you doing?" "Well," said Jones, good-naturedly, "I only thought there was going to be a storm."

Where Shall I Invest My Money?

This is a question that often bothers us when we have any surplus money. Some people are born rich and do not have to provide for independence, others are looking for investments that will bring them in good dividends. The Silver Black Fox Industry in P. E. Island has made thousands of investors wealthy. In 1913 alone, 30 companies paid to their shareholders an average cash dividend of 105 p. c. Is there any other industry that would do this? 1914 dividends will be even greater than before. Now is the time to invest. Send in your application today to the

Foxes Capitalized at \$17,000 PER ANNUM. This capitalization included all the expenses for the first year up to September 1, 1913. In other words, the breeding stock will be ranches, cared for, fed and all expenses paid for the first year without any cost whatever to the shareholder. Instead of paying the 10 per cent to \$1.48 per cent. increase charge paid to most ranches this money will go directly into the pocket of the investor.

The History of The Industry

If you inquire, you will find that the majority of rich men in P. E. Island have made their money in the Fox Industry, which, while yet in its infancy, shows the probability of making a great many more rich men. This being the case, you should not let this opportunity of increasing the earning powers of your money pass without giving it your careful consideration.

Directors ARE Reliable Men

This is a most important feature when you consider that these are the men that you must look to for a square deal. Read the list over carefully and you will certainly conclude that an investment here is as safe with better prospects than money in the bank. This Company has only a limited amount of stock for sale. Secure yours today. This is a gilt-edge proposition.

STAR THEATRE AND STREET CAR STRIKE

People Flocking To Well-Conducted Little Theatre and Seeing a Corking Good Show

Why worry about the traffic conditions in town when you can stay right near your home in North End and see a corking good show at the Star, Union Hall. The cars are running on a much reduced schedule because of the strike but the popular little theatre opposite Douglas avenue is running right on the dot with a complete line of strictly high class picture plays of which the following are the leaders: "By Usenet Hands" a splendid Selig drama; a couple of Latin comedies "Poker Paid" and "This Ain't John" while the extra special feature is a detective story entitled "Every Thief Leaves A Clue." For tonight only a fourth big story has been added—something with plenty of action in it—"The Hop Raiders," a Kalela Indian subject photographed on the Indian reserves in the United States. A brand new bill for tomorrow.

"Many a girl," said the philosopher, "thinks she has broken her heart when she has really only sprained her imagination."

HIS HEALTH IN A TERRIBLE STATE

"Fruit-a-tives" Healed His Kidneys and Cured Him

Hagererville, Ont., Aug. 20th, 1913. "About two years ago I found my health in a very bad state. My kidneys were not doing their work and I was all run down in condition. I felt the need of some good remedy, and having seen "Fruit-a-tives" advertised, I decided to try them. Their effect I found more than satisfactory.

Their action was mild and the result all that could be expected. My kidneys resumed their normal action after I had taken upwards of a dozen boxes, and I regained my old-time vitality. Today, I am enjoying the best health I have ever had.

ALL FAMOUS PLAYERS AND MANY WONDERFUL SCENES IN THE MILLION DOLLAR MYSTERY

Great Serial To Start at the Unique Monday

Never before has such a tremendous and costly effort as well as prodigious character as a picture story as The Million Dollar Mystery, which will start at the Unique next Monday and continue for twenty-three weeks, one episode to be presented every Monday and Tuesday following. The production will be over nine miles in length and will exploit love, adventure and romance in a manner hitherto thought quite impossible. For the first time pictures of the ocean's bottom, mysterious life and vegetation will be shown, with other remarkable and costly scenes. The characters of the story are portrayed by some of the foremost artists in the moving picture world, including Miss Marguerite Snow, Miss Flo La Badie, Miss Lila Chester, Jas. Cruise and others. The opening chapter, "The Alibi in the Night," starts the ball of mystery rolling and, judging from the interest already evinced in this serial, the Unique will try to crowd houses next Monday and Tuesday.

RECENT DEATHS

Captain Garrett Belyea, formerly captain of coastwise vessels out of St. John, died yesterday at his home in Wickham where he had been living on a farm since he retired from the sea about thirteen years ago. He was fifty-one years of age and had been ill for the last four weeks with double pneumonia. He took a turn for the worse last night and passed away this morning. He leaves his wife and two daughters, Edna and Malitta; also two brothers, Captain Fred Belyea, of Meaford street, St. John, and Gilbert on the old homestead at Wickham. There are also four sisters, Mrs. Oscar Saunders of Gonzales Point, Mrs. William Webster, Mrs. George Webster and Mrs. Herbert Webster of Wickham. Captain Belyea was an active member of the Baptist church. The funeral will be held on Friday afternoon at two o'clock.

Frederick Taylor, formerly of Moncton, N. B., died recently in Sealy, Texas, of heart disease. For twenty-five years he was connected with the Colorado and Santa Fe railroad as conductor and superintendent. He was sixty-two years of age and leaves his wife, one son and one daughter, Mrs. R. A. Bray of West St. John is a sister.

Word received in Fredericton yesterday tells of the death of Mrs. Fred Glynnick at the home of her daughter, Mrs. Henry Atkinson, in Panuel, Mass. The deceased who was sixty-seven years of age left Fredericton summer months ago. She was an active member of the church of Fredericton and two daughters, Mrs. Henry Atkinson, at Panuel, and Mrs. Elliot Peterson of Portland, Me., survive.

CATS NURSE FOXES
In Sackville on last Sunday a blue fox belonging to one of Sackville's numerous companies, gave birth to twelve little ones. Shortly after their birth, the mother destroyed three of these valuable little animals. Later the management

held a meeting and it was decided that the nine remaining foxes must have a true and faithful mother. The country was scoured for miles. In course of time two suitable mother cats, who had recently given birth to their offspring, were brought into requisition and the remaining young foxes are being nourished and cared for by their foster mothers.

MONEY IN HENS
O. D. Wells, the largest individual poultry raiser in Somerset county, Maine, is enlarging his plant at Sackville from a capacity of 800 hens to 1200 hens and he plans to employ a man throughout the year. Up to the present time since he started six years ago he and Mrs. Wells have managed the plant. His net profits have increased each year and when he had 700 hens he made \$1800 profit in a year and last year with 800 hens he made a net profit of \$1500 a year. The new addition is 106 feet long.

THE SPRUCE-BUD WORM
The Bathurst Northern Light is informed that great devastation has been wrought in the forests near Bathurst by the ravages of the spruce bud worm. On all sides all varieties of trees have been attacked and stripped of every vestige of foliage. One party, a guide, who has just returned from a trip to the head of Nine Mile Brook, says that unless something is done soon to stop the advance of these pests, a very large area of valuable timber land will be destroyed. Reports from other sections of the province indicate that the worm is attacking the trees there also, with the same result.

TWO WEDDINGS
St. Anthony's church in St. Marys was the scene of two weddings yesterday. James Barry, of Durham Bridge, and Miss Mary Gelin, of Durham, were united in marriage by Rev. Father Ryan. The other wedding was that of Maurice McEwen and Miss Laura Merrill, both of St. Marys.

NEW HOME TREATMENT for Banishing Hairs

(Beauty Topical)

With the aid of a delatone paste, it is an easy matter for any woman to remove every trace of hair or fuzz from face, neck and arms. Enough of the powdered delatone and water is mixed into a thick paste and spread on the hairy surface for about 2 minutes, then rubbed off and the skin washed. This completely removes the hair, but to avoid disappointment, get the delatone in an original package.

MONTREAL MEN HERE FOR THE CARS!

(Continued from page 1.)

10.30, 10.45 and 10.52, longest interval between cars, thirteen minutes.

Prince William street, southbound, 10.25, 10.37, 10.45, longest interval twelve minutes.

King and Britain, northbound, 10.26, 10.36, 10.45, ten minute intervals.

Prince William street, northbound, 10.22, 10.40, 10.52, longest interval eighteen minutes.

Haymarket square, eastbound, 10.19 and 10.29, a twenty minute service, which is also being maintained on the same line with the service last evening began to divide until between 8.30 and 9 o'clock, the entire service was suspended. The striking street railway men conducted three demonstrations yesterday, all in an orderly manner. More than 100 strong they paraded about the streets last evening, headed by a band. Many cheered them. Sidney Mosher, the leader of the strikers, said last evening that since the strike was declared, fifteen of the men who had not previously been members of the union had joined the railway men.

Other labor organizations of the city are considering giving support to the railway men.

At a largely attended meeting of the carpenters and joiners held in the rooms of the Trade and Labor Council last evening the following resolution was unanimously passed:

"The members of local union, 919, Brotherhood of Carpenters and Joiners, refuse to travel on the cars of the railway and will induce their families and citizens to do likewise during the present strike."

At a meeting of the Tongshoremans last evening held in the rooms of the following resolution was passed:

"Whereas, The St. John Street Railway employees are now on strike with the intention of bettering their conditions of employment and to secure recognition of their union; therefore, be it resolved, That Local No. 278, International Longshoremen's Association, General Cargo Workers give their hearty sympathy and financial and moral aid, also calling upon all members of it to walk instead of riding on the cars during the present strike."

The Union Depot was crowded with people last evening and the street railway men who are on strike marched in uniform to the station to meet Hon. W. T. Crothers, minister of labor, but on the arrival of the train it was learned that the minister had proceeded from Moncton to Ottawa, much to the disappointment of the union men and their sympathizers.

Sidney Mosher, the men's representative said that Mr. Crothers had promised him in Halifax the day before he came here that he would come to St. John to endeavor to arrange a settlement. Expressions of disgust have been heard since the action of the minister was learned of.

At 2.45 o'clock this afternoon Clarence Ward, the mayor's clerk, received an order from the St. John Railway Company for fourteen labor licenses. These it is thought, are for the men who arrived from Montreal this morning. The licenses are at the rate of \$5 each.

In Prince William street this afternoon all the way from the Customs House to the corner of King street the driver of a street car, which was obliged to travel at the pace of the slower vehicle. Not until King street was reached did the man start his horses from a walk.

PAYMENTS TO GOULD, TIDY SUM IN ALL.

(Continued from page 1.)

A.—We paid \$4,000 on account.
 Mr. Gotthard—This matter is still before another court, and I do not think this witness should be committed to saying that the company assumed the obligation.
 Mr. Carvell—That is quite right.
 Q.—Do you know that there was a note given for \$16,000.
 A.—No; there was a liability of that amount and on account of it a note for \$4,000 was given by A. R. Gould. The note was taken care of by a check of the construction company.
 Q.—What does the voucher say?
 A.—Charged to A. R. Gould on account of the note.
 Q.—What is the memo on the voucher?
 A.—"Organization expenses," in Mr. Thompson's writing.
 Q.—How was this distributed?
 A.—It was not; the whole amount of \$16,000 had been distributed.
 Q.—And included in the cost of the road as shown by J. D. Seely.
 A.—Yes.
 Q.—Have you any knowledge of the completion of the railway.
 A.—No.
 Voucher, Sept. 30, 1913, showed a payment to Weldon & McLean for the St. John Valley Railway Company's charter and \$25 to D. A. Brown for preliminary report on route.
 Q.—Do you know for which company Weldon & McLean's services were rendered, the St. John Valley Railway Co. or the Quebec and St. John Railway Co.?
 A.—No.
 Mr. Carvell—If you look at Weldon & McLean's receipt you will see this is before the St. John and Quebec Railway Company was chartered. Does this mean that Mr. Macdonnell bought the charter of the earlier company?
 Mr. Teed—It looks more like their receipt was made to cover the charter of the earlier company.
 Another voucher, dated July 31, 1913, showed a payment of \$10,000 to the American Surety Co. of New York. The witness explained this was their premium on a bond to the government for the completion of the railway.
 A similar payment was made on January 31, 1913, for the same amount.
 Mr. Carvell—This was made to ascertain a payment to the National Surety Company for \$600 for "interest and premium" on a bond to the government.
 Q.—Have you an account with William Goodman?
 A.—Yes.
 Q.—You know who he is?
 A.—Yes, he is treasurer of the St. John and Quebec Railway Co., New York.
 Q.—Have you received money from him?
 A.—From the company, through him. Our ledger account is with the railway company.
 Q.—How much have you received?
 A.—All the money received by the construction company was credited to the railway company.
 Q.—But how much of it came from the railway?
 A.—I could not say without figuring it up.
 Q.—How did your money come?
 A.—By checks from Mr. Goodman and Mr. Gould.
 Q.—Have you no definite record of the amount of money actually paid to the construction company by the railway?
 A.—I might be able to figure it.
 With the aid of account books and ledgers an effort was made to ascertain this. Some difficulty was experienced in separating the amounts of cash for the enforcement of a new wage scale, and the amounts paid in New York and credited to having been received by the trust company. Mr. Carvell displayed some interest on a voucher for \$40,000 which fell in the latter class and it was offered in evidence. The voucher included \$30,194.16 for the cost of the preliminary survey of the line, and \$9,805.84 for loans by the Prudential Trust Company.
 The witness proposed to make up a detailed account of the transactions between the two offices, at lunch time, and the commission took recess, to resume at 2.30 o'clock in the afternoon.

The Best Quality at a Reasonable Price

Why Men Take Pride in Their Watches

There's a sound, logical reason for that pride. His Watch is a man's most intimate possession. He has it with him always—asks it many times a day to tell him the exact minute, and receives, unalloyedly, an accurate, truthful answer. He depends on it in his business and at leisure—unconsciously he invests it with a personality—it is really his intimate friend.

And because you, like other men, will reason thus, is why you should carry a fine Watch. There you'll be proud of your Watch at all times and in all places.

You'll find a complete stock of fine Waltham, Elgin, Hamilton, Howard and Decatur Watches at Sharpe's.

Step in and examine them.

CONFERENCE ON ULSSTER HAS NOT FAILED

Another Session Tomorrow, Despite Gloomy Predictions Made Before Today's Meeting

London, July 23—The third and what was feared by many would be the last session of the conference of the party leaders to try to reach a settlement of the Ulster problem assembled today at Buckingham Palace. Since yesterday's meeting it seemed to have become the general opinion that a deadlock had been reached and that the possibility of a settlement had almost vanished.

As the members arrived the great throng of people gathered noticed that they looked more serious than on the preceding days. Scarcely any responded with smiles to the greetings of the crowd. James Lowther, the speaker of the House of Commons, conversed with the Duke of Devonshire on his way to the palace.

A militant suffragette rushed out of the crowd and through the palace gates and threw a stone at a window but the missile fell short. She was arrested.

The extreme pessimism and the anticipation of a definite breakup of the conference were not justified, however, as later in the day an official announcement was made that the conferees would resume their discussions tomorrow.

After the adjournment Premier Asquith was in audience for ten minutes with King George, whom he informed of the situation. John Redmond and John Dillon drove direct to Downing street where they lunched with Lloyd George. London, July 23—The tidings over today's critical session created a decidedly more hopeful view. Among Liberals and Unionists there exists an impression that a settlement will be reached if not by the conference itself, then outside of it. The Nationalists show less confidence on this point.

The finding of a solution still hinges entirely on the discovery of a compromise in regard to whether the counties of Tyrone and Fermanagh shall be included in the area which the adherents of Sir Edward Carson demand shall be allowed to vote as a whole on the subject of exclusion from the control of the Dublin parliament.

The Nationalists are quite ready to allow the four eastern counties of Ulster to vote as a single area, but say that Tyrone and Fermanagh must each be allowed to cast a separate county vote as suggested originally by Premier Asquith.

HERE IS GOOD SIGN

New orders have come to the steel company within the last few days. The Gary mill, which hitherto has rolled only three days a week, started rolling today a week yesterday, and there was a proportionate increase in all other departments.

The Best Quality at a Reasonable Price

Why Men Take Pride in Their Watches

There's a sound, logical reason for that pride. His Watch is a man's most intimate possession. He has it with him always—asks it many times a day to tell him the exact minute, and receives, unalloyedly, an accurate, truthful answer. He depends on it in his business and at leisure—unconsciously he invests it with a personality—it is really his intimate friend.

And because you, like other men, will reason thus, is why you should carry a fine Watch. There you'll be proud of your Watch at all times and in all places.

You'll find a complete stock of fine Waltham, Elgin, Hamilton, Howard and Decatur Watches at Sharpe's.

Step in and examine them.

Tracing Peculiar Payments Of The Valley Railway Funds

Ten Shares of "Gleaner" Stock Attached To \$1,000 Voucher For "Advertising" — Hon. Mr. McLeod's Bill Totalled \$4,739.32 — Big Sums For J. N. W. Winslow—Land Deal Not Explained

Delving into the records of the Quebec and St. John Construction Company F. B. Carvell brought to light some more peculiar and interesting payments at the afternoon session of the Dugal inquiry yesterday.

One of these was a payment of \$1,000 made to A. R. Gould for "advertising" and it was shown that the only value known to have been received for this money was ten shares of stock in the Frederick Gleaner.

Mr. Gould drew \$2,000 for "special services" but the check found its way, without endorsement by Mr. Gould, into the hands of J. N. W. Winslow at Woodstock. A check for \$1,000 for Mr. Winslow, supposed to be for legal services, bore the endorsement of Kennedy & MacDonald, railway contractors.

Mr. Winslow received two other checks for \$800 each for legal services. His draft for \$8,500 also was honored. It was explained that this was for a piece of land to be used as station grounds and the witness seemed surprised to learn that the land is now held in the names of Mr. Winslow and Ross Thompson, managing director of the construction company.

Ralph D. Hoban, accountant for the construction was on the stand all afternoon and will continue his testimony today.

The afternoon session opened with Mr. Hoban, accountant for the construction company, again on the stand.

Mr. Carvell asked for the profiles of the railway and they were produced.

Reverting to the last voucher discussed before lunch, one for \$480.67, paid to Hon. H. F. McLeod for legal services, witness said that part of it was charged to the right of way account and the balance, about \$30, to general expense account.

Mr. Carvell drew attention to two items in the bill, one for consultation with Mr. Thompson re Anderson expropriation and letter from Mr. Carvell and also consultation regarding obstruction of construction of railway by Mr. Napier and instructing Mr. Hill regarding same.

WHAT TO DO TO GET FAT AND INCREASE WEIGHT

The Real Cause of Thinness A Physician's Advice

Most thin people eat from four to six pounds of good solid fat-making food every day and still do not increase in weight one ounce, while on the other hand many of the plump, chunky folk eat very lightly and keep gaining all the time.

This folk stay thin because their powers of assimilation are defective. They just absorb enough of the food they eat to maintain life and a semblance of health and strength.

For such a condition I always recommend eating a Sargol tablet with every meal. Sargol is not, as some believe, a patent medicine.

Sargol is a scientific compound of powerful food-building elements known as chemistry. It is a scientific compound which will prepare these fatty food elements so that their blood can absorb them and deposit them all about the body.

Mr. Carvell next took the witness to a check to Lewis & Smille, Ottawa, Sept. 2, 1918, for \$1,235. It was accompanied by a letter from A. R. Gould from Presque Isle to Mr. Ross Thompson, asking that the amount of the check be forwarded as soon as the subsidy fund was available.

Mr. Carvell said there was another itemised account for \$1,000 with Mr. Winslow and that that transaction stood by itself.

Mr. Carvell—This is all charged up to right of way?

Q—Did you receive instructions from Mr. Ross Thompson about that check?

THE QUESTIONS TO BE TAKEN UP RELATIVE TO KIKUYU MATTER

The Times' despatches yesterday contained reference to the Kikuyu problem. The London News and Leader says—

After having for some months dropped out of the ranks of the burning questions of the day, Kikuyu, and the issue to which it gave rise, are about to be brought once more into prominence by the assembling, at the end of this month, of the Central Consultative Body, to which the Archbishop of Canterbury has referred the issues raised by the missionary bishops.

The sessions, a "Daily News" representative was officially informed yesterday, will open at Lambeth Palace on July 27, under the presidency of the Archbishop of Canterbury, and will, of course, be private.

While the Kikuyu issues are bound to dominate the meetings, the Consultative Body is in no sense a tribunal which can decide between the Bishops of Uganda and Mombasa, on the one hand, and their critic, the Bishop of Zanzibar on the other.

Do the provisions of the proposed scheme of federation of missionary societies in British East Africa contravene any obligatory principles of church order, and if so, in what particulars?

The three missionary bishops concerned are all in England at present. Doctor Weston (of Zanzibar) and Doctor Peel (of Mombasa) having been here for several months; while Doctor Willis (of Uganda) returned to Tunbridge Wells on Saturday after a flying visit to his diocese.

The advice given by the Consultative Board will not of necessity be made public at all, though there is little doubt that the archbishop, in announcing his own decision on the points submitted by the Bishop of Zanzibar, will state clearly what is the view of the advisers to whom he has appealed.

Haitian Rebels Escorted Washington, July 23—About fifty Haitian rebels were summarily executed at Cape Haitien today, after the government forces had won a fierce two-hour battle in the streets with 600 revolutionists, who had gained entrance into the town early in the morning, before the garrison was awake.

2.12 pacing class. After Shadellias had captured the first, Napoleon Direct took the second and third. Then Coastless Mobil came to the front, and won the next two heats. Napoleon Direct, however, outperformed Coastless Mobil in a thrilling finish down the stretch, and took the last heat and the race.

The second event of the afternoon, the North Randall stake, for 2.00 class trotters, also furnished several surprises. Margaret Druen, the favorite, captured the first two heats without much trouble. Sienna, who had run third and second respectively in his first two heats, came back strong, and captured the next three and the race. In the second heat Geers drove The Guide in third, being the first time Geers had shown this season. Oakdale won the first event, for 2.00 class trotters, in two straight heats.

ATHLETIC

London, July 23—James H. Merrick, Canadian delegate to the Olympic Congress at Paris, called by the Allmania for Montreal today. Discussing Canadian chances in the Olympic games he expressed the opinion that the Canadians' best chances were in the field and track events, especially the former. George Goulding's walking should credit the Canadian teams with many points. In swimming, not only should George Hodgson score again, but the diving and team competitions should afford opportunities for the Canadians to distinguish themselves. There was an excellent chance for the Canadians in some of the rowing events, for instance, the double skiff and the fours without coxswain. The Canadians should also excel in trap, rifle and revolver shooting, provided the Dominion Rifle Association give the games the consideration they deserved. Canada's chances were poor in tennis, fencing and the equestrian events, but good in cycling and yachting. The yacht measurements which have been greatly reduced through English, Canadian and Swedish representations, will give the Canadians an opportunity to build and transport their own yachts. The two classes of yachts which will suit Canadian best are those for six and eight metres with crew of three and five men respectively.

BURGLARS RAID BRAGER'S STORE; FAIL TO GET MONEY BUT STEAL MUCH CLOTHING

Daring Work This—Way In Is Forced From Rear—Cash Register Destroyed in Effort to Get Inside and Safe Tampered With

Burglars forced an entrance into the clothing store of Charles Brager & Sons, 186 Union Street, last night and, after an unsuccessful search for money, contented themselves with carrying away about \$200 worth of clothing and articles of jewelry. A new cash register valued at \$800 was destroyed by the burglars who tried to force it open. It happened that there was not a cent of change in it anyway. The police have been notified. A cap and blood stained handkerchief, giving evidence that one of the burglars had cut himself, were all that was found to give the police a clue. Policeman James Ross and Detective Patrick Killen arrived on the scene soon after the break was discovered by the proprietor, Charles Brager, about eight o'clock this morning, and the handkerchief and cap were taken by them. The robbery must have been planned beforehand and the burglars must have been watching their chance. The rear of the store is entered from Peter's alley. An almost perpendicular rocky hill runs up to the gate which leads to the alley. Care is taken to close this gate every night but the negligence of one of the employees in another store nearby is said to have caused it to be left open last night. Louis Brager, manager of the store, was in there about ten o'clock last night and everything was left secure. It is believed that soon after this, the burglars, for it is evident there were more than one, discovered the gate open off Peter's alley and crawled down the

THE WAVE OF PUBLIC INDIGNATION GROWS GREATER WITH EACH DAY

Northern Light, Bathurst) The whole country now looks to the colleagues of Premier Fleming to intimate to him the impossibility of his continuing in the office to which the high regard of the people has placed him, and unless speedy justice is visited upon him, and the outraged confidence of the province vindicated, they as well, will fall with him. (Chatham Commercial) A few days ago the St. John Telegraph, and also the Times quoted some criticisms on the Fleming government that appeared in these columns last week, but credited them to our neighbor, The World. [The Commercial agrees with the World that Mr. Fleming must go.] (Maritime Baptist) If the people of New Brunswick can continue such conduct on the part of its most trusted parliamentary representative, we are greatly mistaken in their moral fibre. The royal commission may not find the premier guilty of the charge of extortion which has been laid at his door, but its finding will no doubt be such as to make it impossible for Mr. Fleming to remain the first minister of New Brunswick. No one will be surprised to hear of his resignation. It will be surprising indeed, if his resignation is not in the hands of the lieutenant-governor at an early date.

NO HOPE TO SAVE IRON BARK KING MALCOLM ASHORE NEAR YARMOUTH

(Special to Times) Halifax, July 23.—All hopes of saving the iron bark King Malcolm, ashore about ten miles from Yarmouth, N. S., have been abandoned. The captain and crew have left the ship with as much of their personal belongings as they could take away. No effort will be made to salvage the bark. At high tide she is heavily submerged, the plates in her side have been badly battered and loosened and she is fast going to pieces. George Bristol of Charles Bristol and Son, wreckers, said today, "On Sunday morning," said Mr. Bristol, "we had the tug Cruiser and steamer Bridgewater with all necessary wrecking gear aboard each, on the scene of the mishap. We also had divers and a barger of shallow draft and were able to get alongside the stranded bark. Offers made to the captain and to the Norwegian Consul at Halifax to salvage the bark and to take her either to Halifax or St. John were turned down. We did not demand pay for our services in connection with the salvage work unless we floated the bark and towed her safely into either of those ports. The offer was turned down in both instances. I believe that it would have been possible to have gotten the bark safely into deep water and to have brought her into port. Since then the bark has badly settled and it is said that it would be of little use now to save her. The tug Cruiser and the steamer Bridgewater, however, are alongside and the crews of these boats are engaged in stripping the bark. This work is being done at the instance of the captain.
