FORESTERS FIGHT IN CHICAGO

Chicago, Nov. 22.—Congressional investigation of the financial affairs of the Independent Order of Foresters as they affect American policy-holders may be one of the possibilities of the wrangle in the order that led representatives of the National Convention of State Commissioners of Insurance to meet in Chicago today with the head of the organization at the Hotel LaSalle. Complete mystery surrounded the nature of the report that the commissioners have prepared, but it was said that unless adequate remedies were taken at once to protect policy-holders in this country from any lien in the way of special assessments, the entire matter would go before Congress and action be demanded on treaties with Canada, where the home office of the order is, to force protection.

THE KINDERGARTEN

The movement to have the kindergarten made a part of the public school system in the city of St. John is one which ought to succeed. New Brunswick in this, as in the case of technical schools and some other matters relating to education, is behind most other provinces. So far as St. John is concerned, it may be hoped that the time is near when we shall have satisfactory technical school instruction made available for the older children, and the kindergarten made available in all the school buildings for the benefit of the little children.

The reports submitted at the annual meeting of the Free Kindergarten last evening showed that the most valuable work is being done. For the current year the estimated expenditure is \$2,400, of which \$600 is granted by the city council. It becomes necessary for the ladies who are so unselfishly laboring from year to year, to keep the kindergarten schools open, to raise in one way or another some \$1,800. Of course the amount will be raised, but it will involve a good deal of hard work on the part of a few persons. The citizens at large might well have the cost of the kindergartens added to their tax bill, and the increase would be so extremely small as hardly to be noticed.

Mr. T. H. Estabrooks suggested at last night's meeting that a vote be taken at the time of the civic elections, the voters being asked to indicate their willingness or otherwise to have the kindergarten made a part of the public school system. If a favorable vote were recorded, no doubt it would be no difficulty would be encountered in securing from the legislature the necessary authority for the adoption of the system.

Whoever has taken the trouble to learn about the actual benefits conferred upon little children by the kindergarten course does not need to be told of its great value to the community. At the present moment the St. John school buildings are over-crowded, and there must soon be an additional building erected on the west side and one on Douglas Avenue. It should be decided in the construction of any new school buildings to provide not merely for kindergarten classes, but for the use of the buildings for social center work.

The board of school trustees naturally regards innovations from the viewpoint of those who have to make the money at their disposal as far as possible, in order to meet the urgent demands upon them. When the citizens make up their minds, however, that something more must be done, they will also provide the funds, and thus simplify the task of the school board. There should be no haggling about the question of the cost of providing the children of the city with the best opportunity to secure the benefits of education, and the kindergarten is regarded in countries where most attention is paid to education as an essential part of the system.

THOSE WEST SIDE BERTHS

Now that Mr. Swan, the harbor expert, to whom reference was made by Hon. Mr. Rogers, has arrived in St. John, the city council and board of trade should do everything possible to facilitate his study of the harbor situation. It is important that a decision be arrived at as quickly as possible upon the question of the length of the new harbor berths at West St. John. As soon as that is decided, the building of the berths should be begun, and the minister pledged himself to see that this was done, as well as that the two steamship berths now under construction should be pushed forward with such speed as will guarantee having them in readiness for use a year hence. All that the city is called upon to do at the present time is to decide the question of the length of the steamship berths, and advise the government of its decision. Mr. Rogers and Mr. Haun expressed themselves strongly in favor of retaining the 400 foot neutral strip, and Mr. D. McNeill holds the same view. The citizens will doubtless attach considerable weight to the views of the harbor expert on this point. Whatever the decision, the citizens must take care that the blame for any delay in providing needed facilities on the West Side cannot be laid at their door.

FREE PUBLIC SERVICE

A very interesting movement in England is the organization of the Cavendish Association, whose purpose is to enlist young men of culture and of leisure in voluntary public service, or perhaps it would be better to say social service. At a meeting held in London recently Premier Asquith and the Archbishop of Canterbury were on the platform, and at a meeting in Manchester were Sir Edward Grey and Lord Hugh Cecil. It is therefore clear that the movement is one which appeals to men of opposite political and religious sympathies. From a report of the meeting in Manchester, we learn that Sir Edward Grey stated the object of the association to be "to get men, especially young men, to take up as far as they had time and opportunity some form of public service, so that they might feel they were in the

best and fullest sense citizens making some contribution to the service of the state." It is proposed that the association have branches all over the country, and each local branch will have members experienced in public work who could say to the young men of leisure, "These are the things which in our district want doing, and this is the way they ought to be done."

Sir Edward Grey in his address declared that the need of the state for public service is greater than ever before. It is necessary to solve the problem of how to make life in a crowded industrial community tolerable to those engaged in industry. Those who stood aside from public service would neither understand the problems nor the way in which they might be solved. Sir Edward significantly observed that "citizenship does not consist in the possession of rights, but in the performance of obligations, and the rendering of service to the state." The Cavendish Association puts before its members the Christian spirit, and lays stress upon the motive from which people should work. Lord Hugh Cecil pointed out that the association endeavored to put an end to divisions, and bring all classes of people into common touch. It would aim to get at the bottom of the distresses of society, in order to avoid if possible special treatment.

In his address at the London meeting Premier Asquith said that from those possessing a liberal education and any surplus of means or leisure there is due a voluntary tax upon what in our consciences we must most of us admit to be in large measure an unearned increment of social advantage. That is a notable phrase, and is worth thinking about. The Archbishop of Canterbury declared that there was a common spirit of social service marking all classes in the country at the present time which was in striking contrast with the ideals set forth half a century ago in Disraeli's *Spirit and Kinship's* *Alton Locke*.

There is much significance in the fact that such a movement as this is inaugurated with the hearty support of the foremost churchmen and statesmen of the time. The social conditions which exist in all countries reveal such extremes that universal unrest has been aroused, and the student of affairs, whether churchman or statesman, or a plain man of business, realizes the need of social service, animated by a really Christian spirit broad enough to put aside sectarianism and unite in earnest effort for the common good.

There was a time when Canada was sorely grieved because an embargo was placed by the home government on Canadian cattle. Now Canada is placing an embargo on cattle, sheep and swine from the old country.

Lord Haldane tells the people of Great Britain that there is no cause for gloomy forebodings in relation to the defence of the Empire. Of course the armament makers and militarists do not agree with Lord Haldane, but their motives will not commend their predictions to an observant public.

With a harvest valued at \$110,000,000 the province of Saskatchewan may fairly regard the outlook with cheerfulness. Incidentally it may be remarked that New Brunswick has had a very valuable harvest, and is enjoying the benefits of a market which would have been made still more profitable if reciprocity had been adopted. In New Brunswick as well as in Saskatchewan a larger free market will stimulate production.

We are told that the Intercolonial Railway will have a million dollar surplus, and that the government is ambitious to have this surplus greatly increased. It would be much more to the credit of the government and to the advantage of the people of Canada if, instead of attempting to roll up a big surplus, the management would make the railway of wider use throughout the territory which it serves. The trains which are being hauled for the C. P. R. between St. John and Halifax, the first of which went forward today, will not add to the surplus of the Intercolonial, whatever it may do for the Canadian Pacific.

Railways Need the Money. Washington, Nov. 24.—That railroad earnings are not commensurate with the increased cost of operation, higher taxes and wages, and additions to equipment necessary to meet commercial demands of the country, was submitted today to the Interstate Commerce Commission by representatives of the railroads arguing for an increase in freight rates.

GOOD LIBERAL EXAMPLE
(Moncton Transcript)
The Moncton Liberals have every reason to be gratified at the response on Friday evening to their request for a re-organization meeting. It was the largest re-organization meeting held in the history of the Liberal party in Moncton city, save during the enthusiasm of a general election. Many who were unavoidably prevented from being present, intimated during the day their sympathy with the meeting and their determination to leave no stone unturned to help restore prosperity to the country by the return of the Liberal party, with its progressive policy, to power. The meeting was an enthusiastic one, and unity was its dominant keynote. The officers who conducted the club so successfully, were re-elected with an isolated change or so, and which changes were their own wishes. The club has the finest political club quarters in the city, with a hall large enough for ordinary public meetings. It is understood to be the intention to hold a series of meetings during the winter months and with one possible exception these will be all withheld until after Christmas and New Year's holidays. The resolutions passed expressed the views of the Liberal Club, and are largely the recognized views of the Liberal party generally. There were, of course, some resolutions of a more particularly local interest than general. The outlook for the Liberal party is bright. The dominant note of the club's policy will be untiring zeal in promulgating the gospel of Liberalism, and energetic vigilance in promoting the interests of Liberal principles. The clubs throughout the county might do well in early getting upon a working basis. It is better to be ready before the elections than to get ready after.

It Is Not Too Early To Think About Christmas
For some thought is required to choose gifts which will be most appropriate for different friends. For members of your immediate family, nothing could be more acceptable than one of our BRASS BEDSTEADS with Spring and Mattress to fit. Or, if they are satisfied with the present bed, one of the new SPRINGS or MATTRESSES, or both, will be sure to give you great satisfaction. They are being made better today than ever before, and the fortunate recipient will get more solid comfort for more hours each day than any other gift could possibly afford.
Think It Over.

POPE'S FOLLY AMERICAN
Lube Herald.—The members of the coast survey now at work on the line between this country and Canada, have been in evidence in this section during the last few weeks, and have created many odd looking markers defining the boundaries. It might be remarked that a piece of land, the title of which has been somewhat in doubt for a good many years, is now settled to be American soil—the island of Pope's Folly, just off the town of Lube. This little public has no particular history except that a misguided man once tried to live

SHOES
Made in St. John
We have had made by J. Humphrey & Co., in a St. John factory, several lines of Boys' Girls' School Shoes that will fit long felt want.

Every particle of material in the shoes is honest leather and the vamps run right down under the caps. The upper stock is high-grade box-calf, that keeps appearance, and stands the hard wear.
You must see these shoes to note the well shaped new lasts, the weight of sole and shank and the good features that make them so desirable and to stand possible more than once.

MANY SEE CHORUS GIRL AT OPERA HOUSE; ENJOY PLAY GREATLY

Large Audience Attends the First Presentation of Stock Company's Bill For This Week

Because a girl happens to be a member of the "merry, merry" or because she sings and dances in the chorus of "The Moonlight Maids" or other such musical comedies, does not imply that she is deserving of all the harsh things sometimes said of chorus girls. That was shown plainly last evening at the Opera House in the presentation of Rose Stahl's great success "The Chorus Lady" by the Thompson-Woods Stock Co. to a large and appreciative audience. Incidentally it was shown that the life of the chorus girl is not all one gay round of pleasure.

In the title role, that of Patricia O'Brien, Miss Brandt won further laurels for her histrionic crown. She arose to every demand made of her, and it was in many places a very trying role. She lived the life of the pretty chorus lady, slung to a remarkable degree, and ignorant in the knowledge of schools, but most wise in the ways of the world, and both in the gay scenes, then no trouble seemed to present itself, and in the strongly dramatic parts where powerful emotion was required, Miss Brandt gracefully and easily responded to the demands of the role. She bore the burden of the play herself, for it is distinctly a one-woman show, and the hearty applause which greeted her was most heartily deserved.

Miss Marjorie Davis, the ingenue of the company, who has become very popular here, was sweet and winsome as "Pat's" innocent sister, untutored to the scenes and puffed to the chorus by the life and though her role was not altogether pleasing, she made herself particularly available to the audience.

Miss Bridges had a very likeable role as the old Irish mother, with her big, good-natured heart showing itself in her every act and word, and especially in her love for her daughters and she gave a very pleasing rendition, also contributing to much of the comedy. The other ladies in the cast, Misses Delmore, Great Bishop, Derby, Walker, and Baird, the latter both of St. John, all made much for the success of the piece.

Mr. McHenry took the most out of a part which did not call for a display of the ability which he has proven himself to possess and as Dan Malloy, a young admirer of "Patricia" with a true Irish heart, he made an admirable sweetheart.

Mr. Weyler had a distasteful part as Crawford, an unscrupulous young clown, and since he made himself heartily disliked, it is safe to say that he played the part to the satisfaction of the people. He made the role of the piece that of the old father of the chorus girls, given to Mr. St. John, and Dan Malloy, a young admirer of "Patricia" with a true Irish heart, he made an admirable sweetheart.

Healthy, Wrinkle-Free Skin Easy to Have

(From The Woman Beautiful.)
A dull, drab, muddy complexion, or an over-red, blotchy, pimply complexion, can be a quite simple, harmless and inexpensive method, be changed to one of flower-like radiance and purity. One ounce of common mercurochrome wax, sold by druggists generally, will remove the most unsightly complexion in from one to two weeks. By its remarkable absorptive power, the withered, faded or discolored layer of thin, also in visible particles. This is done so gently there is no inconvenience, and no trace is left on the skin except that of enhanced beauty. The wax is smeared on like cold cream before retiring, and removed in the morning with warm water. If the skin be wrinkled or saggy, a face bath made by dissolving 1 oz. powdered saxatile in 1 pt. witch-hazel will be found most effective. Combining both astringent and tonic properties, this tightens the skin and braces up its supporting muscles.

Victims of Drink AND Drug Habit

Cared at the Gattin Institute.
Any victim of the Drink or Drug Habit, no matter how entrenched, can be cured at the Gattin Institute. The Gattin Treatment is harmless, positive, and effective. We guarantee more permanent cures than all other so-called "Drink and Drug Cure" institutions combined.

The GATTIN TREATMENT operating under charter of the Government of the Provinces of Ontario, Quebec, and New Brunswick, is no experiment, but has been administered with continuous success during the past fifteen years, and is the original and only cure that has stood the test of time.

However, like all great successes, it has many worthless imitators, and for your protection, we urge careful investigation.

The Only Original and Reliable Treatment for the Drink and Drug Habit is the Gattin Treatment.

CANADA'S PEAT INDUSTRY

"Canada's peat industry has become an economic factor of considerable importance. It has passed beyond the experimental stage and is now on a basis for extensive development," writes J. G. Adams, B. A. in this week's issue of the Journal of Commerce, Montreal in an illustrated article on Canada's Peat Industry.

more than \$6. In Canada already more than 40,000 acres of peat bog have been surveyed and explored "but there is an almost incalculable amount of peat between the Atlantic and the Pacific, much of it still unknown. Over this area the peat averages possibly twenty feet in depth and when it is remembered that one acre of peat one foot deep will yield approximately 200 tons or that an acre twenty feet deep will yield about 4,000 tons one may understand, in some small degree the importance and value of this almost unlimited supply of fuel.

TEACHING THE YOUNG IDEA

(Vancouver Province.)
Oregon is showing the way for the right sort of child labor, pleasant and profitable for the little folk and full of promise for the agricultural uplift of the community. In competition for prizes

offered by the state educational authorities and citizens, 50,000 children got busy raising garden truck, chickens or pigs, and this autumn the state and county fairs have had exhibits from 75,000 of Oregon's school population of 128,000. Printed bulletins of instruction are issued by the state agricultural colleges, rising generation of farmers may solve the cost of living problem. Here is something worth a trial in other places.

ARE AGITATED IN INDIA

Investigation of Troubles in South Africa Urged

BOTHA OPPOSES IT

Say Autonomy Must Be Respected and That Indian Viceroy Must Not Interfere—Objects to Statements in British Press

(Canadian Press) Simla, India, Nov. 25.—The effect in India of the agitation among the Hindus in South Africa, where they are protesting against the restriction of Asiatic immigration, is serious.

The Indian government cabled twice in the last few days, impressing upon the Viceroy of India, Lord Curzon, and formerly secretary of state for India, the need of an impartial investigation into the charges made by the Hindu workers that there was ill-treatment in the mines of South Africa.

The South African government, as a self-governing state, had, he said, every right to deal with the present situation in its own way. He uttered a serious warning about the possible mischief of citizens in the British press to be treated of Indian coolies, and said that if any genuine case of cruelty brought to the notice of the union government, it was ready to make a thorough investigation. So far, there was nothing to support the allegations.

A NARROW ESCAPE

Moncton Transcript—Miss Holland, of Bathurst, was brought to Moncton on Saturday and removed to the city hospital in a critical condition. On Wednesday Miss Holland swallowed two artificial teeth on a plate. The teeth stuck in her gullet, and medical aid was summoned, and it was later decided to remove her to the Moncton hospital where a X-ray examination located the teeth. A delicate operation was successful.

To Provide Funds Must Increase The Assessment

Extra Expenditures For Schools Will Affect City Budget - North End Survey and Coal Pocket Discussed By Common Council

The comptroller's annual report on the books and finances of the board of school trustees for the year ending June 30, 1913, was the cause of some discussion at the weekly meeting of the common council yesterday afternoon...

The question of renewal of the city of the leases of certain lots was also discussed, the suggestion being made that an increase of from ten to twenty per cent. be made in rentals of ground, the buildings on which are not owned by the city.

More talk about the Dominion Coal Company's pocket at Rodney wharf resulted in no action, in view of the fact that an official application for the renewal of the lease has yet to be made by the company.

Routine matters were also dealt with. Those present were Mayor Frink, president; Commissioners Agar, Wignone and McLellan, with the common clerk. The board of health, it was decided to place sanitary arrangements between No. 4 shed and the immigration coal bins on the west side, at a cost of \$45.

The commissioner further recommended that the request of the agents of the Donalson line for the establishment of a will stop at wharf No. 4 at West St. John be not complied with, and that an application by the same company for permission to erect a landing ramp or platform in Water street near the McAvity building, be also not complied with.

The commissioner also reported, recommending that the chamberlain be authorized to collect \$40 from the Denver Driveway Company for damages to the ladder at berth No. 3 and \$10 from the Norton Griffiths Company for damage done at berth No. 4.

The commissioner recommended further that renewal leases for the term of seven years, each from May 1 last, be issued as follows, upon the common clerk being satisfied that the several persons are entitled thereto:

D. J. Gillis, lot No. 855, Dukes ward; annual rent, \$20. Mathew Cavanaugh, lot No. 9, block G, Dukes ward; annual rent, \$20.

St. John Real Estate Company, lot No. 684, Queens ward; annual rent, \$20. James Strling, lot No. 382, Prince ward; annual rent, \$20.

Bartholomew Rogers, lot No. 941, Dukes ward; annual rent, \$20. Bartholomew Rogers, lot No. 942, Dukes ward; annual rent, \$20.

M. Robertson, lot No. 737, Queens ward; annual rent, \$20. George Tippet, lot No. 8, block D, Lancaster ward; annual rent, \$20.

Rendolph & Bakers, Ltd., lot No. 4 and 5, Greenhead, Lancaster, annual rent, \$250. The resolution was adopted, His worship said that he thought an increase should be made in the rental of all city lots of about ten or even twenty per cent.

The commissioner recommended that the lease to George Burns of a property in Morris street, Marville, at an annual rent of \$20 be entered into for seven years. Adopted. A letter from M. Reekers, explaining difficulties about the payment of his taxes, was referred to the commissioner of finance.

A report of the conditions of the school at Millidgeville, made as a result of a recent petition of residents of that district, was received by the council, and a motion was passed requesting the commissioner of public affairs to send the report to the board of school trustees asking them to forward it to the petitioners.

Complaint had been made that the teachers of the Millidgeville school were not up to the standard of efficiency of those in the city schools, and that certain improvements were necessary in the school. The report stated that the efficiency of the teachers was well up to the standard and contained a recommendation that better heating arrangements be installed in the building, and that some repairs be made.

HER LITTLE SON WAS DYING

Gave Him "Fruit-a-lives" And Saved His Life

Campbellville, Ont., May 29th, 1913. "Our little boy, Lawrence, was sorely affected with chronic indigestion, and the doctor did not think we could recover. He started with a sore mouth and it developed into this other trouble. Everything else just passed right through his system without change. He cried incessantly and life was a misery to him. My husband had been using 'Fruit-a-lives' for indigestion, getting what did him good, might help our boy. We tried 'Fruit-a-lives' giving Lawrence 1/2 a tablet at a time, and the result was marvelous. Today, he is the picture of health, and he is perfectly well."

GORONER'S JURY URGES RESTRICTIONS FOR SALE OF FIREARMS

At the inquest into the death of little Joseph Caples which was held last night by Coroner Roberts, the following verdict was returned by the jury: "We, the coroner's jury, called together for the purpose of considering the death of Joseph Caples, find that the deceased came to his death by a shot from a .22 calibre rifle in the hands of Arthur Donovan, Sunday, November 3, 1913, on the old Westmain road, so-called, in the county of St. John. We believe that according to the evidence the death of Joseph Caples, was purely accidental. We would recommend that the proper authorities, the chief of police, or whoever it may be, be instructed by the government when laws are made relating to the sale of firearms, to advise all dealers in further of such laws. "We would further recommend that a law be enacted prohibiting the sale of revolvers to any person until the name and address of the prospective buyer, and a complete record of such sale, be made and filed by the chief of police. "We would also like to point out to all parents the advisability of keeping firearms from their children." (Signed)—Geo. S. Mullin, Alfred Corbett, Josiah Corbery, Henry Niles, John McManus, and Fred Eddy.

Coroner Roberts in reviewing the evidence concerning the moving picture houses of all responsibility. The pictures before reaching them, he said, have been scrutinized by many censors, and if there is anything improper at all, it is these censors who should bear the blame. He also spoke of the sale of firearms and said that although there was a law in force prohibiting such a sale as was made, the clerk who made the sale was ignorant of it. He therefore advised that some official be given the duty to inform companies, firms or individuals, in regard to laws passed affecting their particular business. This particular case, he thought, was due to parental negligence. He did not wish to blame the parents directly because the effect was unforeseen, but he hoped that this would serve as a lesson in future.

Portland Strike Settled. Commissioner Agar moved that further consideration of the matter be laid over till it could be discussed at great length, and every thing gone into thoroughly. The council resolved into committee of the whole to consider the matter of the North End survey, and after looking over the engineer's plans showing much of the work already done, adjourned.

Portland, Me., Nov. 24.—An agreement was reached today by the longshoremen and steamship agents regarding wages, and every thing gone into thoroughly. The men will have thirty-three cents an hour for day work on all freight except coal, on which they will be given thirty-five cents. They have been receiving thirty cents.

Urges Plebescite on Public Control of Kindergartens

T. H. Estabrooks Says School Board Should Take Over Work - Annual Meeting of Free Kindergarten Association

81, 1913, showed a balance on hand at the end of the year of \$1,109.24. The assets at the end of the previous year were \$1,670.88, while the receipts during the year, including the city's grant of \$500, donations and the proceeds of a tag day, amounted to \$2,222.68, bringing the total to \$2,222.68. The year's expenses totaled \$2,142.70 of which \$1,520 was devoted to the teachers' salaries.

It was pointed out that, while the balance on hand at the end of the last year was slightly in excess of that of 1912, many further expenses, including general increases of teachers' salaries and the addition of a fourth kindergarten, would call for some \$2,400 expenditure during the current year, while of this only \$600 would be provided for by the city's grant.

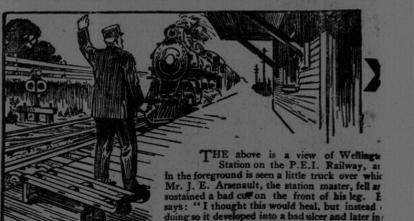

Mrs. Manning Doherty, who had graduated in kindergarten work from the Toronto normal school and taken post-graduate courses in New York, said that it seemed an appalling thing that in this city there were as yet only four kindergartens, as she was convinced that the continuity of study resulting from the conjunction of kindergartens with the public schools was absolutely essential for the fullest development of children.

Mrs. W. C. Matthews, supervisor of kindergartens, told of the practical side of the work. She thought that the fact that many of the children were irritable, though that much should be left to private enterprise. Mrs. W. C. THE above is a view of Wellington Station on the P.E.I. Railway, as in the foreground a little truck over which Mr. J. E. Arsenault, the station master, fell as he sustained a bad cut on the front of his leg. E. I. says: "I thought this would heal, but instead of doing so it developed into a bad ulcer and later into a form of eczema which spread very rapidly and also started on the other leg. Both legs became swollen and sore that I could only go about my work by having them bandaged."

"I consulted a doctor, who treated the sores for a time, but they got no better, so he advised me to stop working. I did not want to do that, and consulted another doctor, having tried every remedy I could think of for six months without avail. The second doctor's treatment gave me no better results. The sores were painful and continued to spread.

"I tried all the salves, liniments and lotions I heard of, but instead of getting better I got worse. "This was my condition when I got my first box of Zam-Buk. Greatly to my delight that first box gave me relief. I continued to apply it to the sores, and day by day they got better.

"I could see that at last I had got hold of something which would cure me. I knew that a chronic case such as mine would take a good deal of time to cure, but it seemed to me that Zam-Buk was altogether different and superior to all the other preparations I had tried, and that perseverance with its use would have the right result. Well, I continued the Zam-Buk treatment, and in the end it cured me completely.

"It is now over a year since Zam-Buk worked a cure in my case, and there has been no return of the sores or any trace of it. It would be impossible to find a case where the sores were worse than those on my limbs, and I think Zam-Buk is a marvelous healing balm or it could not have cured me as it did when all else failed."

Maps Out Programme For McFarland

FROM T. S. ANDREWS

Packer McFarland, who has been in the light of the public since he was a member of the local Bricklayers, Masons and Plasterers International Union...

er Chicago lad. Ritchie has great regard for Packey, and will be glad to have, for he knows as well as any one (having trained with Packey for a time), just what he is capable of doing. Packey today is very close to the famous Nonpareil—Jack Dempsey—that is, in cleverness, style and everything that goes to make up a great fighter; in fact Packey is more clever than the famous Dempsey, and if he allowed himself to get a bit heavier he would not be far from scaling the same, for Jack never weighed more than 147 to 150 at best. Packey has had a long time to make up for the world-wide ever since Hugh McIntosh and the writer signed him to articles three years ago. Packey backed out at that time because his mother entered such strong objections. The mother has since become reconciled to the fact that Packey can not always remain around Chicago and is now willing that he should go.

A despatch says McFarland is to be married next year, and give up the ring naturally takes things easy and goes into the ring close to 140 pounds.

Fast Boxing.

There was a large crowd present in the Oddfellows hall last evening for two clever exhibitions of boxing by some of Jack Power's pupils. There were two six-round bouts and each was fast and interesting. In the first bout Harold McKiel won a decision over Frank O'Leary, and both men put up good arguments. In the second bout Garret got the better of Gallet, and was awarded the decision after a good fast exhibition. Garret had the better of it all through, but both boxers displayed clever work. Mr. Power is training his pupils diligently, and his class will be represented at the amateur championship bouts which will take place in Boston next spring.

Boxing Tonight.

Fredrick Welch vs Paul Bloom, Frankie Burns vs New Jersey vs Art Edwards and Young Sieger vs Young Rummie, New York. Geo. Clip vs Tim O'Neill and J. Hedson vs Young White, Racine.

WRESTLING.

Anderson-Carpenter Tonight. The interest of the sport fans of the city centres this evening on the York Theatre where Anderson and Carpenter will try conclusions on the mat. The fact that Anderson is defending his championship belt should make the contest exciting.

Larry McLean.

The National Commission probably will be compelled to decide whether a man has to pay for the privilege of playing in the world's series. At least that is the way Larry McLean figures the matter. He will lay before the commission. He sat up nights figuring how he came out on the transfer from the St. Louis Cardinals to the Giants which got him into the big show in October. The only answer Larry can figure out is that it cost him \$50. And at that McLean led the Giants in batting against the Athletics, and he took Chief Meyers' place behind the bat in all but the first game, when the chief was injured.

AQUATLO.

Skipper of the Defender. Bristol, R. I., Nov. 23.—Captain Chris Christiansen will be the skipper of the new America cup defender which will be built by the Vanderbilt syndicate at the Herreshoff yards here. This announcement was made by Robert W. Bonnum, 2nd of Boston, the syndicate manager, on a visit here. It is considered probable, however, that Mr. Emswold will handle the wheel of the defender himself as he is a noted helmsman. Captain Christiansen was formerly the late Captain Charles Barry's mate on the old Columbia and Reliance. Of recent years he has been sailing master of the 60-foot sloop "Arcturion," an ex-Commodore Cornelius Vanderbilt of the New York Yacht Club. He is a New York man.

RING.

McFarland to Marry. New York, Nov. 24.—Packer McFarland's oft repeated desire to retire from the ring is now only six months from realization. McFarland is to be married in next May or June to a St. Louis girl, the daughter of a wealthy brewer in that city. Packey who has saved his money and invested wisely until he is now independently wealthy, is to become a member of the firm with his prospective father-in-law and the followers of boxing will see no more of the master boxer of the age.

There is a possibility that McFarland will be seen in a bout or two in this city before he becomes a benedict, possibly against Mike Gibbons, who is the only rival of the Stock Yards champion in the point of cleverness. Gibbons announced here that he would agree to 145 pounds at three o'clock for McFarland, but could not make a lower figure. Despite all that has been said and written about McFarland's weight, McFarland is far from being a middleweight, and his boxing weight is under the lightweight figure.

In a conversation between Billy Gibson and Willie Ritchie both announced their willingness to wager that Packey could make 135 pounds at three o'clock and be at his best for a bout several hours later. He weighed only 140 pounds stripped for his recent bout with Tommy Murphy, and he felt that he had on two extra pounds. If he had four or five pounds necessitating his making a low figure McFarland would train down close to 135 or 138 pounds and no lower.

But with only an occasional bout, where low weight is demanded, Packey

CANADIAN CLUB SECURES SPEAKERS

At a meeting of the executive of the Men's Canadian Club yesterday afternoon, it was announced that Dr. J. W. Robertson, of the Dominion Technical Commission, would address the club on Dec. 4, his subject to be "The Chances for Development in New Brunswick."

Dr. Robertson is a speaker of great ability and the club is fortunate in getting him to come here.

On Dec. 10, W. Evans Derby, a distinguished Englishman and a member of the international peace commission, is to address the club. He is traveling across Canada giving addresses on the peace movement, and in the west his lectures have been most interesting and instructive to large audiences.

Dr. Robertson and Mr. Derby will doubtless have the pleasure of speaking to large audiences.

At the meeting yesterday G. A. Henderson was in the chair in the absence of the president, Rev. G. A. Kuhnberg, and there was a large attendance of members.

The following new members were received: R. J. Wilkins, C. M. Wilkinson, H. H. Vaughan, Rev. W. Townsend, Hugh H. McEllan, Rev. W. H. Barracough, Dr. F. P. Danlop, H. McCullough, Dr. D. D. Mackay, G. H. Barclay, George S. McBeath, W. D. Emack.

The motor boat in which Stephen McCavear and Milford Galbraith went adrift was located by Diver Brent yesterday afternoon. The boat was resting on its own keel at the bottom and it is supposed from the damage done to it, that the boat was sunk by a heavy sea, which drove the boat on the rocks. The search for the body of Milford Galbraith is being continued.

LABOR UNIONS

DECLARE WAR

Indianapolis, Ind., Nov. 24.—Union men, employees of the building trades council, who have been employed on jobs where members of the local Bricklayers, Masons and Plasterers International Union of America, were working, were ordered on a strike today by the trades council officials. Eighteen trades are affected by the order.

The fight between the Building Trades Council and the Bricklayers Union, which is not affiliated with the American Federation of Labor, is national in its scope. As the result of action taken by the American Federation of Labor, the Bricklayers International Union because of over work which is rightfully a part of that done by the Marble Workers Union, a member of the American Federation of Labor.

The action of the building trades against the bricklayers, today, is taken in support of the local Marble Workers Union, who are engaged in the controversy over the laying of inside marble.

Montreal, Nov. 24.—The offer of the Canadian Autocar Company to the city was handed to the council this afternoon. Briefly summarized, it consists of an offer to equip and operate a sufficiently large subway system to take ample care of the congested district of the city in return for a thirty-year franchise, the city to receive one-half of the earnings of the system and the company to provide the plant, cars, power houses, lighting and all details of the equipment at an estimated cost of thirty-three per cent of the total expenditure of the \$90,000,000 project.

The work, if an agreement is reached, is to be commenced in 1914 and is to be finished in 1918 but as the question is so important a one, the directors of the company ask the council that the ratification of any agreement be obtained from the citizens by means of a referendum vote.

MORNING NEWS OVER THE WIRES

The Canadian Dredging Company yesterday was awarded the contract for section five of the Welland Canal, at \$1,945,788; the Maritime Dredging and Construction Company the contract for dredging at Chocolate Cove at \$265,979, and at Oak Point, N. B., at \$6,897.

Attorney General McEldreds at Washington yesterday promised another investigation in the high cost of living if he can find any ground for an alleged cold storage conspiracy. Representative Britton intends to ask for a probe into the cost of meat, it having been shown that the American navy had been supplied with Australian muttons at less cost than American packers' prices.

Owing to an outbreak of foot and mouth disease in Canada, the Canadian agriculture department has put an embargo on British cattle, sheep and swine. The embargo is being enforced by the Branwell and Ballington Booth stock.

AMUSEMENTS

James Bernard was married last Thursday in Newcastle to Miss Beatie Cable although it is asserted that he already had a wife in Campbellton. He was arrested yesterday on a highway charge and pleaded not guilty. His case will come up again on Wednesday.

How Anyone Can Banish Hair or Fuzz

(Modes of Today.) Superfluous hairs are easily and quickly removed with the aid of a delicate paste. Get an original package of delicate paste from your druggist and mix enough with water to cover the hairy surface. Apply and after 2 or 3 minutes rub off, wash the skin and the hairs are gone. No possible harm or injury follows this treatment, and excepting in rare instances, only one application is required to remove every trace of hair. Results are more satisfactory where you get the delicate in an original package.

SUPREME COURT OF CANADA JUDGMENTS

Ottawa, Nov. 24.—Judgments were rendered in the supreme court today as follows:

McPhee vs. Canadian Pacific Railway Company. Appeal allowed and new trial ordered. Special directions as to costs on appeal and motion in court of appeal for British Columbia.

Powel River Paper Company vs. Hatch. Appeal dismissed with costs. Beck vs. Duncan. Appeal dismissed with costs.

Canadian Pacific Railway Company vs. Roy. Appeal dismissed with costs. Winnipeg Electric Railway Company vs. Schwarta. Appeal dismissed with costs.

The hearing in North Shore Power, Railway & Navigation Company vs. Carrier Laine & Company was then taken up. The action was taken by the respondents as plaintiffs in warranty to recover the sum of \$5,888, which they had been obliged to pay under a judgment recovered by Block & Company of Paris, and New York, for a consignment of steel, alleged to have been purchased by the railway company in 1904.

The action was maintained by Judge Malouin at the trial, his judgment was reversed by the court of review, and the judgment now appealed from the court of king's bench set aside. The judgment of the court of review and restored the judgment of the trial judge. The company deny having given an order for the steel in question. Judgment was reversed.

MORNING NEWS OVER THE WIRES

The Canadian Dredging Company yesterday was awarded the contract for section five of the Welland Canal, at \$1,945,788; the Maritime Dredging and Construction Company the contract for dredging at Chocolate Cove at \$265,979, and at Oak Point, N. B., at \$6,897.

Attorney General McEldreds at Washington yesterday promised another investigation in the high cost of living if he can find any ground for an alleged cold storage conspiracy. Representative Britton intends to ask for a probe into the cost of meat, it having been shown that the American navy had been supplied with Australian muttons at less cost than American packers' prices.

Owing to an outbreak of foot and mouth disease in Canada, the Canadian agriculture department has put an embargo on British cattle, sheep and swine. The embargo is being enforced by the Branwell and Ballington Booth stock.

AMUSEMENTS

James Bernard was married last Thursday in Newcastle to Miss Beatie Cable although it is asserted that he already had a wife in Campbellton. He was arrested yesterday on a highway charge and pleaded not guilty. His case will come up again on Wednesday.

How Anyone Can Banish Hair or Fuzz

(Modes of Today.) Superfluous hairs are easily and quickly removed with the aid of a delicate paste. Get an original package of delicate paste from your druggist and mix enough with water to cover the hairy surface. Apply and after 2 or 3 minutes rub off, wash the skin and the hairs are gone. No possible harm or injury follows this treatment, and excepting in rare instances, only one application is required to remove every trace of hair. Results are more satisfactory where you get the delicate in an original package.

Is a Popular Way to Travel

Tourist Sleepers—light and airy, with big comfortable berths, accommodating two adults, if desired—are carried from Montreal on Fast Transcontinental Express Trains for points in Western Canada, British Columbia, and on the Pacific Coast.

Not as luxurious as the Palace Sleeper, but they meet the requirements of a superior class of patrons just as well—and at half the cost.

ECONOMY AND COMFORT COMBINED.

The Tale The Wagons Tell

My office window faces a street, close to the railway freight sheds.

All day long a steady stream of trucks and lorries lumber by—loaded with boxes, barrels and bales.

One truck I noticed the other afternoon was particularly interesting. No two boxes were the same, and scattered on the end of each was the name of some well-known product—soap, tobacco, socks, breakfast food, cocoa, port, tea, chocolates, perfumery and baking powder.

Gathered there in prosaic wooden boxes were the results of thousands of hand's labor in all parts of the world.

There, behind that obviously prosaic truck-load of freight was the whole romance of modern commerce—the skilled production, the universal demand for food, drink and raiment, and the world-wide distribution of the things we use every day.

And then I speculated why we use these things every day, instead of some other things; and that brought me plumb back to my own job of advertising.

The names of some of the boxes on the lorry were known everywhere to-day, but had been unknown a few years ago; and I saw then more clearly than ever before that Advertising is really a great channel digger. It is like the Panama Canal. You can sail from Montreal to Vancouver now, around the Horn. You can get there, Panama Canal and chop the journey to less than half. A new channel will have been dug.

A Montreal special says that 8,000 longshoremen are quitting work there as the summer season ends, and that many may come to St. John.

POLICE COURT.
One prisoner charged with drunkenness was fined eight dollars or two months in jail in the police court this morning.

WAS HUNTING
A. D. MacTyer, general manager of the C. P. R. eastern line, who has been enjoying a hunting trip in the northern part of the province with a party of friends, returned last evening to Montreal.

C. P. R. MAN TO HALIFAX
George Taylor, formerly chief clerk in the C. P. R. office in Quebec, has been appointed C. P. R. agent in charge of import and export freight at Halifax for the winter season and has proceeded to Halifax to assume his new duties.

SHOT FINE DEER
Wm. A. Shea, C. P. R. brakeman, returned to the city this morning after a hunting trip in the woods near Tracy station. He brought with him a handsome deer which he shot yesterday, not far from Tracy.

THE C. P. R. AND THE GYPSIES
Officials of the C. P. R. deny that they gave permission to a band of Gypsies to camp in Douglas avenue near the Suspension bridge. The site is not owned by the railway and they have no control over it. Instructions have been given to the section foremen to prevent them from loitering or trespassing on railway property.

HOUSE RANSACKED
The home of Mrs. Steiger in Main street was entered yesterday by some persons, evidently expecting to find some money or something else of particular value to them, for they ransacked several rooms. Mrs. Steiger, who has kept a stand in the country market for many years, is away from home during the day, and this is not the first time that her house has been entered in this manner.

MURRAY STREET MISSION
The executive of the Murray Street Mission met last evening and heard reports from the various departments, and also made plans for the winter. W. H. McGowan, an interesting and successful evangelist in the country, was the guest of the evening. The mission is very largely a result of the efforts of Mr. McGowan and his helpers from Murray street. The help of M. S. Stockton has also been very much appreciated.

GAVE LECTURE ON WEST
At a meeting of the Young People's Society of Waterloo street United Baptist church, Mrs. J. M. Coates gave a very interesting and instructive lecture on Western Canada, last evening. Mrs. Coates has recently returned after a trip to the west, and she brought with her many beautiful pictures which were thrown around during her lecture. Rev. A. S. Evans of Upper Gagetown conducted the opening devotional exercises. There was a good attendance.

TEMPLE FAIR PRIZE WINNERS.
A large number of people attended the closing of Temple Fair on Saturday evening. The drawing for the prizes took place, the prizes were won as follows: A barrel of flour to each of the persons holding numbers 1612, 1896, 1005 and 2467; a load of coal to the holders of numbers 4699 and 1004 and a ham to the holder of number 1618. In the event of these prizes not being called for by the end of the week they will be given to the holders of the next lowest numbers.

VISITING KNIGHTS
Knights of Columbus from councils in other parts of the province as well as from parts of the states are expected to visit the city this week for the exemplification of the degree on next Thursday in the rooms of the St. John council. A St. Stephen letter says that several knights from that city and from Calais are planning on coming and the latter city very likely will be well represented because of its being Thanksgiving Day, a public holiday across the border.

"FIRST AID" CLASSES
AMONG MILL MEN, OTHER WORKERS AND LADIES

The annual meeting of the N. B. Branch of the St. John Ambulance Association, being the ambulance department of the order of the Hospital of St. John of Jerusalem in England, will be held in the Board of Trade rooms on Thursday afternoon when the public are invited to attend. Major Birdwhistell of Ottawa, the general secretary, will explain the objects and methods of the association after which officers will be elected. It is proposed to extend the scope of usefulness and have classes formed for first aid to the injured among millmen, machinists and all workmen generally, while classes will no doubt be formed among ladies and young men who last year proved most efficient in learning first aid, and it is therefore hoped that many ladies will attend the meeting tomorrow afternoon.

NEARING END OF THE SEASON ON THE RIVER

The last trip of the steamer May Queen this season was made yesterday. She arrived at Indiantown last evening and is now tied up at her winter berth. The Victoria went to Fredericton this morning and it is expected that she will return to the city tonight or early tomorrow morning on her last trip. The D. J. Purdy will go up tomorrow on what is expected to be her last trip. The Majestic will go as far as the Narrows tomorrow returning on Friday and it is not expected that she will go out again this season. The Ocean will continue to run until the ice makes, going up river one day and back the next. The Champlain, which was taken off the Belle Isle on Saturday, is preparing for her trip to Meteghan and will leave in the course of a day or two. The D. J. Purdy and the Majestic will go through the falls as soon as their season is over to be painted and repaired.

WINTER PORT SEASON OPENS

Manchester Miller Docked At Sand Point Today

OTHERS NEARING HARBOR

Cassandra and Montreal Reported From Sable Island This Morning—First Allan Liner Either Tunisian or Pomeranian

To the Manchester Line falls the honor of opening the winter port season at St. John, their steamer, the Manchester Miller, arriving this morning about half-past three o'clock and docking at No. 5 berth about nine o'clock.

The Miller sailed from Manchester on November 8, and for the first ten days out encountered nasty weather, being compelled to battle against head winds and a rather choppy sea. She, however, made good time on the run across, and for the last week experienced very mild weather. One of the officers told a Times reporter this morning that, not until the vessel had anchored outside the island, did they feel any really cool weather. The vessel came by the southern route.

After discharging about 400 tons of local cargo, the Manchester Miller will sail for Philadelphia in about the balance and load for Manchester. This morning's arrival will be closely followed by the opening steamers of the other lines. A wireless message this morning at 8:30 o'clock from Sable Island reports the Dominion liner Cassandra ahead there and the C. P. R. steamer Montreal fifty miles east at the same hour. This will bring the Cassandra in to port about four o'clock tomorrow afternoon and the Montreal will dock on Thursday morning.

The first Allan liner to arrive here will be either the Tunisian or the Pomeranian; the Tunisian is due to sail from Liverpool tomorrow, while the Pomeranian is expected to arrive here on the 22nd. Both steamers are expected to arrive here about the same date, possibly Dec. 4.

The Bengore Head will start the winter service for the Head Line. She left in Paradise today for Sydney, where she will discharge cargo and proceed to this port to load for an Irish port.

On the steamer Manchester Miller came the following—Cap. Drug Co., two c. sugar sweets; deB. Carrillo, 1200 bags malt; Gandy & Allison, 2000 roof slates; W. H. Hayward, 66 pigs, earthenware; Linton & Sinclair, 4 pigs, earthenware; M. B. A., Ltd., 4 pigs, pigs, mds.; D. W. Newcomb, four c. cotton and yarn; order, 300 bolts, steel rods, thirty bags rice; Vande Co., one bale cottons; O. H. Warwick, twelve pigs, earthenware; C. Masters, one c. iron twist; Wm. Thomson Co., 8 four pigs, dry soap.

The Chlotilde Gups of the Red Cross Line, left New York at six o'clock this morning for St. John with a good cargo. The Carapuet, the second steamer of the Royal Mail Steam Packet Line, is in the way here from London. She is due to arrive on Dec. 2 and will sail for the West Indies on the 11th.

Furness Liner Shenandoah will sail tomorrow for London with 75,000 bushels of grain, 1,200 barrels of apples and 300 standards of deals.

The Victorian of the Allan Line, from Montreal, was reported 635 miles west of Fastnet at one p. m. Monday and is due to arrive at Liverpool on Wednesday at noon.

Allan Liner Pretorian, from Montreal, was twenty-three miles west of Malin Head at eight a. m. Monday. She is expected to arrive at Glasgow tonight.

Donaldson Liner Athena arrived at Glasgow at eleven a. m. on Monday and the Andania arrived at Plymouth at eight a. m. on the same day.

ST. JOHN HOUSEWIVES MIGHT JOIN IN BOYCOTT
Montreal Women Organizing For Dominion-Wide Campaign Against High Price of Eggs

The following Montreal despatch received today should have interest here, in view of the fact that up to fifty-three cents was charged for eggs in the country market on last Saturday. It speaks of a boycott. Perhaps St. John housewives would like to join. The despatch follows:

Montreal, Nov. 25.—Arrangements are being completed whereby Montreal will soon have a women's association, formed on lines similar to that of the Housewives' League of the United States, and it is likely that some effort will be made to solve the problem of "the high cost of eggs."

At the present time, the opinion of several of the leaders of the local women's club is that there is no organization which could take up the work of an "egg boycott" and have it spread through the means of such an association to the various parts of Canada, as it is realized that a local attempt to boycott would be futile.

In the meantime egg prices are soaring and those who have henneries are sending out notices that they will send into the city each day, for seventy-five cents a dozen, eggs laid within twelve hours.

GOING TO MONTREAL
Friends of John A. Marshall, formerly of the Daily Telegraph staff, but lately with the Eastern Securities Co., will visit this city this evening. He has been successful in Montreal, to which city he has been transferred. He will leave for that city tonight to take up his new duties.

BURIED TODAY
The funeral of Edmund E. Kenney was held at 2:30 this afternoon from Mr. Power's undertaking establishment to Fernhill. The services were conducted by Rev. R. A. Armstrong.

Now is the Time When a Man's Overcoat Becomes His Closest Friend--- What Qualities Do You Want in Your Friends?

... Please note that when we sell you an Overcoat, we won't ask you to wear it only in good weather. We don't believe in fair weather friendships.

Wear our Overcoats wherever the best and sturdiest Overcoats in the world can go—for they are garments to be depended on.

Our stock of Overcoats is fresh and ample—fresh with the freshness of a running stream that has no time to stagnate, and ample for all the needs of men who will not tolerate anything questionable in their clothing, while clothing of unquestionable merit can be had for reasonable prices.

The same freshness, newness and plentifulness marks our stocks of Men's Winter Suits, and well it might, for fast as Suits go out, others equally good come to replace them. Merit is the law of life in merchandise, and things in this clothing store are surely moving.
