

ABOUT CANADA'S

NEW RIFLE.

Will be Ready Soon For General Distribution

Military Expert Talks of Points of the Ross Rifle, the New National

Weapon.

(Toronto Globe.)

The new arm for the Canadian militia is now being turned out at the factory in Quebec, and will soon be issued to the permanent corps...

By rotating it one way the bridge is pulled slightly towards the muzzle, elevating the sight leaf, and depression is obtained by a movement in the other direction.

LIGHTER THAN THE LEE-ENFIELD.

FIELD.

In the first place the new rifle weighs only eight pounds, one and one-quarter pounds lighter. This is obtained by hollowing out the woodwork in the stock and the metal in the barrel towards the muzzle...

The lead is a severe one, the lands or ridges being continued to the place where the bullet rests in the breach. In the Lee-Enfield the lands are sloped down to about half an inch, and the bullet gets a short start before it meets with the friction of the ridges.

THE BOLT A GREAT IMPROVEMENT.

One of the worst faults of the Lee-Enfield rifle was the system of locking, and in this respect the Ross rifle is unsurpassed. The Enfield bolt required two motions, throwing upward and pulling back. The Ross needs to be pulled straight back only and a push forward will compress the firing pin and spring and lock the breech.

MAGAZINE IN THE STOCK.

The Ross magazine is another good point, as it is inside the stock and does not project as in the Lee-Enfield. When the rifle is held in the left hand the fingers can press the magazine platform and the right hand having taken a few loose cartridges from the pouch the magazine is kept close the bolt.

FOR LONG-DISTANCE WORK.

The back sight differs from any other sight in the market, in the leaf being curved, and in the method of fine adjustment for elevation. It is hinged towards the muzzle and supported by a movable bridge on the sight base, which is stamped with the ranges from 100 to 2,200 yards.

THAT STAB-LIKE PAIN IN THE SMALL OF THE BACK COMES FROM THE KIDNEYS

AND CAN BE CURED BY DOAN'S KIDNEY PILLS

It is not the back that is aching, but the kidneys which are situated beneath the small of the back. Therefore, dull pain in the back, or sharp, quick twinges, are warnings of sick kidneys—warnings of kidney trouble.

Doan's Kidney Pills are made from the purest roots and herbs, and have a remarkable healing and toning effect on the kidneys.

Price 50 cents per box, three boxes for \$1.25, all dealers or The Doan Kidney Pill Co., Toronto, Ont.

quietly working along other lines in the interest of greater facilities for meeting modern educational demands, and was able this morning at the chapel services to announce to the professors and students of Acadia University that on Friday last he had received from Andrew Carnegie, Esq., New York, the written promise of a gift of thirty thousand dollars for a new science building.

Mr. Carnegie's attention was called to the praiseworthy generosity of the friends of Acadia in connection with the first and second forward movements, and so satisfied was he with this, that in making his own gift, he has imposed no condition in the way of a new fund.

PROBABLY OTHER SUGGESTIONS WILL BE MADE AND SOME men will say, why not wait a little and get the very latest ideas, but if such men had their way very little would be done in the world.

THE BOLT A GREAT IMPROVEMENT. One of the worst faults of the Lee-Enfield rifle was the system of locking, and in this respect the Ross rifle is unsurpassed.

WHO HAS ASTHMA?

Let them know of the One Permanent Cure.

Doctors advance different theories as to the cause of Asthma. The cause isn't material—it's the cure you want.

Internal remedies are useless—no good. But use the ozonated air cure, "Catarrhoxone," and asthma won't hang round very long.

FOR LONG-DISTANCE WORK. The back sight differs from any other sight in the market, in the leaf being curved, and in the method of fine adjustment for elevation.

FIRE AT AUGUSTA, ME.

AUGUSTA, Me., March 5.—Fire tonight in the basement of the Bussell & Weston store, one of the largest dry goods stores in the city, caused a loss of \$35,000.

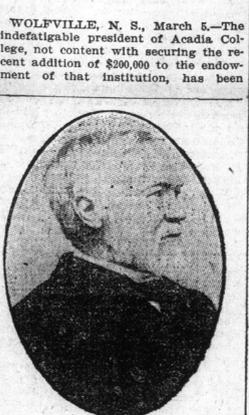

Advertising is an older institution than most people believe. It is first mentioned in the book of Ruth—Chevalier Caesar Augustus Barratt, Am. Passenger and Freight Agt., London and Northwestern Railway of England.

ANDREW CARNEGIE GIVES \$30,000

For Science Building at Acadia University

Important Announcement Made by Dr. Trotter—No Conditions Attached to the Gift.

WOLFVILLE, N. S., March 5.—The indefatigable president of Acadia College, not content with securing the recent addition of \$300,000 to the endowment of that institution, has been

ANDREW CARNEGIE.

quietly working along other lines in the interest of greater facilities for meeting modern educational demands, and was able this morning at the chapel services to announce to the professors and students of Acadia University that on Friday last he had received from Andrew Carnegie, Esq., New York, the written promise of a gift of thirty thousand dollars for a new science building.

NO BLAME ATTACHED TO TRAIN HANDS

Jury Return Verdict in Case of Late William Gardner.

MONCTON, N. B., March 6.—We, the jury empanelled to enquire into the death of the late William Gardner, find that the cause of his death was death by accidentally falling from a moving train and attach no blame to the train hands.

Advertising is an older institution than most people believe. It is first mentioned in the book of Ruth—Chevalier Caesar Augustus Barratt, Am. Passenger and Freight Agt., London and Northwestern Railway of England.

R. L. BORDEN TELLS U. S. POLITICIANS ABOUT ELECTION SYSTEM OF CANADA

NEW YORK, March 6.—Former Governor Franklin Murphy of New Jersey presided at the session of the national conference for the reform of the primary and election laws held here today.

For the discussion of ballot reform, Clinton Rogers Woodruff of Philadelphia, delegate of the National Municipal League, presided. Albert S. Bard, chairman of the union committee on ballot reform, read a paper on that subject, describing the various forms of ballots, and the spread of the Australian system.

THE MUNICIPALITIES COMMITTEE recommended bills to enable Fredericton to add industrial enterprises and to amend the act incorporating the Central railway, but as the announcement which I made in the house with regard to the offer we had received deprived them of all their ammunition they had to adopt a new plan of campaign and mass all their attacks on the attorney general.

THE MUNICIPALITIES COMMITTEE recommended bills to enable Fredericton to add industrial enterprises and to amend the act incorporating the Central railway, but as the announcement which I made in the house with regard to the offer we had received deprived them of all their ammunition they had to adopt a new plan of campaign and mass all their attacks on the attorney general.

RECENT DEATHS

SACKVILLE, March 5.—The death of Mrs. Dennis Murphy of Malden, N. B., occurred on Thursday. Mrs. Murphy's death was not unexpected, as she has been gradually failing the past two years, consumption being the cause of her decease.

MONCTON, N. B., March 6.—The death occurred at 6.30 o'clock last night of Mrs. Archibald McWilliams, aged 78 years, one of Moncton's landmarks.

YARMOUTH, March 6.—Phillip Rafuse, a resident of Salem, while lighting his kitchen fire on Tuesday morning, dropped dead. He leaves a widow and large family. He was sixty-four years old.

BRADFORD, Goodwin, Tusket Lakes, died yesterday of pneumonia, after a very short illness. He was forty years of age and leaves a widow and six children.

A MISTAKEN IDEA. To think that warts can't be removed. Why Putnam's Wart and Corn Extractor will remove any wart without pain in a few days. Try "Putnam's" yourself and see if this is not so.

For 33 Years

Shiloh's Consumption Cure, the Lung Tonic, has been before the public, and this, together with the fact that it sales have steadily increased year by year, is the best proof of its merit.

Shiloh

as a cure for Coughs, Colds, and all diseases of the lungs and air passages. Those who have used Shiloh would not be without it. Those who have never used it should know that every bottle is sold with a positive guarantee that, if it doesn't cure you, the dealer will refund what you paid for it. Shiloh

Has Cured

thousands of the most obstinate cases of Coughs, Colds and Lung troubles. Let it cure you.

"Last winter I coughed for three months and thought I was going into Consumption. I took all sorts of medicine, but did not see any good until I used Shiloh's Consumption Cure. Four bottles cured me. Before that time I was so weak I was not able to speak, my lungs were so sore I could not breathe, and I was so thin I could not see my ribs. I have given it to several people and every one of them has been cured."

ROAD COMMISSIONERS.

To the Editor of the Sun: Sir—Permit me to make a few observations concerning a particular transaction which transpired at the recent session of Charlotte county council.

To be brief I might say that I have been waiting patiently for some writer to cite the case other than myself, as I feel assured they would have handled it in a much better light. Howbeit, as no one seems disposed to touch upon it, I will ask permission to trespass upon your columns briefly in referring to it.

By an almost unanimous vote the council passed a resolution memorializing the government to vest the power in the council to appoint the road superintendents. This was done after a motion had been made and withdrawn to ask for an expression of opinion as to the "merits and demerits" of the new highway act.

Now in our humble opinion we think the council acted very unwisely in this particular instance. Under the old act the council had the power to appoint the commissioners, and what was the result? Nearly every year we had a new man to look after our roads. This meant new methods in taking care of our roads, hence the reason for our highways growing worse instead of better year after year.

POSTAGE AND LITERATURE.

The new British postmaster general in refusing to lower the postage on British periodicals sent to Canada is making a characteristic John Bull blunder and ignoring an opportunity to benefit British trade with this country and imperial relations generally to an extent out of all proportion to the slight loss to the postal department the change might involve.

Under present conditions American newspapers and periodicals are carried across the border and through all parts of Canada at the domestic rate, while the British publisher is handicapped by a rate which renders competition prohibitive.

The greatly increasing importation of American manufactures into Canada of recent years is to a great measure due to this circulation of American advertising literature.

But the British postmaster general has plattered a top-penny-half-penny postage stamp so tightly over his eyes that he can see nothing past its edge.

There is another aspect to this Yankee literary invasion which should soon be carefully considered by the Canadian government, and that is its effect in suppressing the development of Canadian literature.

Canadian publishers have as much right to protection as any other producer and at present they are confronted by conditions which make the success of expensive Canadian periodicals very difficult if not impossible.

THE CENTRAL RAILWAY LEASE. Hon. Mr. Hill gave notice in the legislature last night of a motion favoring the perpetual lease of the Central railway to a syndicate of unknowns on the terms of the offer announced by the government a few days ago.

Mr. Hill must be in possession of some information on the matter which is not shared by the house, for there has been nothing yet made public to warrant such a motion.

In the first place the government has declared within a few days that the road, under its present management, will soon be clearing \$40,000 a year. The syndicate's offer is only \$21,000 a year, so its acceptance would mean an annual loss to the province, on the government's own figures, of \$19,000 a year, which is quite a lot of money these hard times.

Then there is the possibility of the O. T. P. needing the line, which possibility is undoubtedly in the eyes of the prospective purchasers and which would greatly enhance its value. If there is any money to be made at that end of the deal it might as well go into the provincial treasury as into the pockets of Messrs. Greenshields or their clients.

Also it must not be forgotten that 999 years is a very long time and very many people will be born and will dwell in this province during that time. While the government is only a thing of today its acts will carry over long after its members are forgotten dust and ashes. It is a serious business, this legislating for the future, and not to be approached hastily and inconsiderately. The government should possess itself of considerable more information than it has yet given out before any wise action can be taken on this important matter.

MAKING DISASTER A BLESSING.

In an interview since his return to Ottawa, Mr. Butler, deputy minister of railways, says that he is now drawing up plans for new I. C. R. shops at Moncton, which will be thoroughly up-to-date in their construction, and which, by the economy possible in their management, will greatly reduce the expenses of this department of the government road.

The saving possible by new methods in the repair and construction of rolling stock is so great that some American roads have recently demolished their old works. In some instances the result has been a lessening of the expenses connected with this part of railroad work by half. Mr. Butler's experience along this line has been ample and it may be considered certain that the new shops will be inferior to none in plan and equipment, and that the ultimate result of what seemed a great disaster will be a saving to the I. C. R. and a great boon to Moncton and the maritime provinces generally.

The newspapers whose business it is to support the local government declare that the attorney general's recent speech, in which he characterized honorable gentlemen opposite as "wifful and malicious liars," was warm and forcible but contained nothing improper or unjustifiable, while Mr. Hazen's retort was vicious, brutal, degrading and ungentlemanly.

Opposition papers say that Dr. Fugaley's ebullience was vulgar, slanderous and in bad taste and that the opposition leader's rebuke, under the circumstances, was fair and temperate and objectionable. Those who read both sides will come to the conclusion—the correct conclusion—that the violence and temper displayed in the debate was discreditable to both politicians and out of keeping with their good records in this regard.

The courage and confidence with which Mr. Chamberlain faces the situation in Great Britain is aptly illustrated by the following quotation from his recent speech on the address in the British parliament: "I remember that Sidney Smith was very disheartened at the tremendous defeat of his whig friends. It struck him to go out and sow some mustard and cress in the garden. A few days later it was sprouting according to its usual custom, and he saw that the general operations of nature were proceeding without interruption. He then began to recover."

A despatch from Victoria, B. C., says that a big lumber concern there which has been employing Chinamen for years has decided to employ none but white workmen hereafter. Sentiment or union coercion has nothing to do with the action, it is claimed. Though Chinese labor costs less money the management has determined that native workmen give so much value for their wages that they are cheaper in the long run. If this is true it robs the yellow peril bogey of a lot of its menace as far as this country is concerned.

GLEAINED COMMENT.

NOT DESERVING OF GOOD LUCK. Three Germans were sitting at lunch recently and were overheard discussing the second marriage of a mutual friend, when one of them remarked: "I'll tell you what. A man that marries de second time don't deserve to have lost his first wife."—Life.

UNANSWERABLE REASONS.

There are two unanswerable reasons why the west ought not to complain of the Intercolonial. One is that Canadian government has spent more money on the canals, which have never paid anything, than on the Intercolonial, and the canals have been made free of tolls. The other reason is that the freight traffic on the Intercolonial, which has been carried below cost, is on Ontario, Quebec and western products en route to the sea. Those facts ought to stop the complaints.—Charlotte Town Guardian.

HAMILTON, Ont., March 7.—The grand jury brought in true bills at four o'clock yesterday against fourteen plumbers charged with conspiracy. The trial will begin today and may last a couple of days.

THE JUDGES.

Cries of horror still come from the Laurier press at the very recollection of the criticism of the Canadian judiciary that was recently made on the floor of the Manitoba legislature.

There seems to be something so unspeakably terrible in raising the voice in protest against the decision of an unjust judge that these papers can only squeal in horror, without attempting to put their objections to the criticism into plain English.

The sweeping denunciation of the judiciary is not merely unjust—it is indefensible. But judge-worship is not merely stupid and sickening—it is immoral.

If, on the other hand, judges become possessed of the idea that their position makes them immune from criticism, they would be less than human if they did not in time abuse such immunity.

The only safe and sane course in dealing with the judges is to avoid all criticism where its justification is in any doubt, and to be unsparring in denunciation of any deliberate wrong, which a judge is obviously guilty of.—Winnipeg Tribune.

NEW TIES.

An ordinary news despatch from Halifax states that the last of the Imperial troops sailed away from Canada and the steamship Lake Umbagog, on March 5. Thus quietly and without much attention another of the links which have bound us to the Empire has been broken. The last of the British garrison in Canada has departed, and henceforth the dominion undertakes its own defense. The event marks an epoch in Canadian history.

It is only three years less than a century and a half since, on the thirteenth of September, in the year 1759, the battle of the Plains of Abraham was fought and the first garrison of British troops established in Canada. But what wonders of history are compressed in that comparatively brief period!

No story that ever was told is so full of incidents deserving commemoration, and it will not be without a certain regret that the older generation of Canadians will see in their minds' eye the ship bearing the last of the British troops disappear below the horizon. But, though this last expression of the protection on which we still must depend should have been flung from our shores, though the King's soldiers have gone, the flag they planted on these shores still flies, and Canadian manhood assumes to a certain extent the duty of guarding it, and the precious heritage it represents.

DIFFERENCES.

The king can drink the best of wine—So can I, And has enough when he would dine—So have I, And can not order rain or shine, Nor can I; Then where's the difference—let me see—Betwixt my lord, the king, and me? Do trusty friends surround the throne—Night and day, Or make his interest their own? No, not they! Mine serve me for myself alone—And that's one difference which I see; Betwixt my lord, the king, and me, Do knaves around me live and wait—To deceive? Or fawn and flatter when they hate? And would oppress my state? By my leave? No, heaven be thanked! and here you see, More difference betwixt the king and me. He has his foils with jests and quibs, And when he'd play; Great are his arms and his ships—But not a child to kiss his lips—Well-a-day! And that's a difference sad to see, Betwixt the lord, my king, and me, I wear a cap and he the crown—What of that? And he's the king and I'm the clown—How happy I am, wretched he, Perhaps the king would change with me.—Charles Mackay.

TORONTO, Ont., March 7.—Robert Mowat, manager of the Dominion Brokerage Co. of this city, was arrested here yesterday on the strength of a telegram from the Ottawa authorities stating that a warrant had been issued for arrest on the charge of false pretences. He was remanded. Detective O'Meara, of Ottawa, reached the city last night with the warrant, which charges Mowat with obtaining \$701.22 from the Merchants' Bank on a sale of last. The charge arises out of a sale of Mowat's brokerage business in Ottawa, over which a civil suit is pending.

TORONTO, March 7.—A plan whereby the ratepayers of the city will be asked to provide \$130,000 for the benefit of a fund for members of the fire department has been formulated by the fire and light committee, to be submitted to the city council. At present the fund for disabled or retiring firemen amounts to about \$40,000. Actuaries engaged to report on its condition stated that to place the fund on a sound basis \$120,000 would be required. The deputation which sought the increase for firemen last year promised that the men would devote ten per cent. or more of their salaries to the fund, which promise appears to be forgotten.

LOOKS THAT WAY.

Write says emphatically that conditions in Russia are different from those of every other country. The world has had some such suspicion of this for some time.—Bangor News.

COMMISSION MAY DEAL WITH JUDICATURE ACT

Legislative Committee Finds Difficulty Reading Through the Voluminous Rules of the Measure.

FREDERICTON, March 7.—The select committee appointed to consider the judicature bill met this afternoon at Mr. Allen in the chair. The other members of the committee present were Messrs. Tweedie, Hazen and Clarke. The attorney general, who is also a member of the committee, has not yet returned from Montreal. The Barriers' Society was represented by Dr. Earle and the St. John Law Society by Messrs. Wallace and Pickett.

Mr. Allen stated that the rules were copied mainly from the English and Ontario acts, and that where this was done the wording of the rule was altered, so that cases decided elsewhere in the country might apply. The larger part of the rules are from the English statutes.

In reply to a question from Mr. Wallace, Hon. Mr. Tweedie said that the Barriers' Society had asked for the judicature act and that the clerk of the pleas had communicated with the barristers throughout the province, and a great majority of them were in favor of the change.

Dr. Earle—There is no doubt that a very large majority of the barristers are in favor of the act. The opinion of the bar was that an act should be drawn up similar to the English act because the English and Ontario reports are no longer of any use to us in practice.

Hon. Mr. Tweedie—It is also complained that when a case is taken to the supreme court of Canada the judges do not understand our practice. Mr. Pickett—Our young men are all in favor of the act, many of whom have studied law at Dalhousie and are familiar with the practice.

The gentleman representing the St. John bar then proceeded to point out that the act should be drawn up similar to the English act because the English and Ontario reports are no longer of any use to us in practice.

TEMPERANCE PEOPLE WERE NOT UNITED

George E. Corbett's Views on Con test in Annapolis.

George E. Corbett of Annapolis Royal, who is in the city, says the recent by-election in Annapolis county is no criterion of the strength of the respective parties, as fully half of the conservatives who voted marked their ballots for O. T. Daniels. The temperance people did not stand together either in the support of the candidature of the Rev. Mr. Gaetz, even if they had, or in the support of the several ministers, one of them of the same denomination as Mr. Gaetz, having openly supported Mr. Daniels. In cases of a straight party fight at a general election, Mr. Corbett thinks the result might be different.

WHAT! HO!

If the McNaught bill against treating becomes law Rev. Dr. Carman will no longer be able to take Rev. Dr. Milligan into the King Edward for a friendly chat on the Higher Criticism.—Toronto News.

WILL SIFT CASE OF ELMER YOUNG

State Department Has Ordered an Inquiry As to Detention in Nova Scotia as Witness at the Trial of Hope Young.

BOSTON, Mass., March 7.—Elmer E. Young of Boston, father of six-year-old Minnie Young, for whose murder at Plymouth, N. S., in June last, Hope Young was sentenced to death on the gallows, and after being granted a new trial, went violently insane, has succeeded in interesting the United States government sufficiently in his complaint of illegal arrest and detention in Nova Scotia as a witness in the Hope Young murder case to cause an investigation to be ordered by the state department at Washington.

The investigation has been quietly progressing for several months, and in interview yesterday Elmer Young declared that during the month of December he was taken to Digby, where Hope Young was in jail. He visited the scene of the crime at Plymouth and secured possession of Hope Young's own baby, and according to the authorities attempted to escape the jurisdiction of the crown by making his way to Boston.

A telegraphic request of Deputy Sheriff Burnham of Digby, however, Young was arrested by the police at Yarmouth and later taken back to Digby, where he was detained as a witness in the case, and according to Hope Young's trial, he had testified that he was the father, not only of Hope Young's own baby, but of the murdered child, whose mother was a Marie White of the same town.

At the time of the arrest in Yarmouth Young succeeded in interesting in his own person the United States Consul Carter, who has since died, and who, Young declares, offered on go on his behalf, and visited him in the jail. He makes no complaint of his treatment at the Yarmouth jail, except that he was detained, but complains that, while at Digby, he was confined in an unclean, underground cell and furnished with ordinary prison fare.

In a copy of the report of the present consul to the state department which reached Boston and is now in Young's possession, the present consul at Yarmouth, Edward A. Stewart, as well as Vice-Consul W. B. Stewart of Digby, both report to the state department that Young was given all of his legal rights, and that he was well treated by the jailer at Digby when he reached there, that, as a witness Young, he was entitled to the large, airy cell of the prison, and that he must take the one in the basement, and he had declared that he would prefer to leave her in the better apartment.

Consul Creevey at Yarmouth further declares that Young was given every consideration by the Yarmouth authorities, and that the highest number of words offered on a telegraphic order from Deputy Sheriff Burnham, which he called at the American consulate, was such that it was necessary to forewarn Vice-Consul Stewart of Digby, in his report, says that he was called to the jail by Young when he was first placed there and that his claim of citizenship was not investigated. The facts personally ascertained by Stewart, the crown authorities were acting fully within their rights. Stewart, as well as being United States consul, is clerk of the court for Digby county, and declares that Young received witness fees and mileage for his attendance at the Digby court. This, too, is denied by Young, who claims never to have received a cent of witness fees, but says that, due to the contract, he was obliged to pay his own fare back to Yarmouth. Young has also declared his intention of proceeding against Mr. Stewart on a charge of "treason," because he fills the position of town clerk while holding the office of United States Vice-consul.

WILL ERECT 113 MINERS' COTTAGES

GLACE BAY, March 7.—The Dominion Coal Co. has entered into a contract with Rhodes' Curry & Co., of Amherst, to erect one hundred and thirteen miners' cottages, twenty-three at Dominion No. 1 and ninety at Dominion No. 6.

BOY RUN OVER

FREDERICTON, N. B., March 7.—A young boy by the name of Gamble was run over by a sled this evening at this place and received a compound fracture of the leg. He was brought to the Victoria hospital for treatment.

HARD TO BELIEVE. Mammoth Heist—Was five me. Bill, is ter think dat dere's guys wot akahs, spends good money adverting for work.

A SMOOTH ARTICLE WAS MR. MULLIGAN

Skipped, Bag and Baggage, Owing Many People.

The retail merchants of St. John have the reputation of being rather wary, but a gentleman who drifted into the city during the month of December last proved to be too smooth for them. He walked into about a dozen of the principal merchants in their respective lines with neatness and dispatch. Mr. Mulligan represented himself as a commercial traveller and claimed to be representing the Salada Tea Company. At any rate, he was a pretty hot cup of tea himself. Mr. Mulligan, his wife and five little Mulligans were soon domiciled in a nice flat at 4 Wentworth street. He proved a most satisfactory tenant in every particular except that he failed to pay his rent. Mr. Mulligan during his brief sojourn in the city accumulated a considerable quantity of goods and chattels, all which he bought on credit. He owes a furniture man, a carpet dealer, a stove merchant, his grocer, butcher, a hardware firm, a furrier, druggist and a doctor, and no doubt many others. The only articles left behind by the Mulligans when they moved out were a piano and sewing machine, which are being held by the landlord for rent.

Mulligan and his family slipped quietly out of the city a few days ago, and it is thought went to Quebec. He is estimated that Mulligan got away with about \$700 or \$800 worth of goods. Mary (the housemaid, to her friend)—"We've matins at our church." "Friend—That's nothing, we've linoleum up the aisle, and they burns insects at both services.—London News.

31 Boxes of Gold

300 Boxes of Greenbacks For the most words made up from these letters Y-I-O-Grape-Nuts

331 people will earn these prizes.

Around the fireside or about the well-lighted family reading table during the winter evenings the children and grown-ups can play with their wits and see how many words can be made.

20 people making the greatest number of words will each receive a little box containing a \$10.00 gold piece.

30 people will each win one box containing a \$5.00 gold piece.

300 people will each win a box containing \$1.00 in paper money and one person who makes the highest number of words over all contestants will receive a box containing \$100.00 in gold.

It is really a most fascinating bit of fun to take up the list evening after evening and see how many words can be added.

A few rules are necessary for absolute fair play. Any word authorized by Webster's dictionary will be counted, but no name of person. Both the singular and plural can be used, as for instance "grape" and "grapes."

The letters in "Y-I-O-Grape-Nuts" may be repeated in the same word. Geographical names authorized by Webster will be counted.

Arrange the words in alphabetical classes, all those beginning with A together and those beginning with B to come under B, etc.

When you are writing down the words leave some spaces, in the A, B, and other columns to fill in later as new words come to you, for they will spring into mind every evening.

It is almost certain that some contestants will tie with others. In such cases a prize identical in value and character with that offered in this class shall be awarded to each. Each one will be requested to send with the list of words a plainly written letter describing the advantages of Grape-Nuts, but the contestant is not required to purchase a pkg. These letters are not to contain poetry, or fancy flourishes, but simple, truthful statements of fact.

For illustration: A person may have experienced some incipient or chronic ailment traceable to unwise selection of food that failed to give the body and brain the energy, health and power desired. Seeking better conditions a change in food is made and Grape-Nuts and cream used in place of the former diet. Suppose one quits the meat, fried potatoes, starchy, sticky masses of half-cooked oats or wheat, and cuts out the coffee. Try, say, for breakfast a bit of fruit, a dish of Grape-Nuts and cream, two soft-boiled eggs, a slice of hard toast and a cup of Postum Food Coffee. Some amateur "doctor" says "A man would faint away on that," but

my dear friend we will put dollars in your pockets that the noon hour will find a man on our breakfast hunkier and with a stronger, heartier and clearer working brain than he ever had on the old diet.

Suppose, if you have never really made a move for absolutely clean health that pushes you along each day with a spring in your step and a reserve vigor in muscle and brain that makes the doing of things a pleasure, you join the army of "plain old common sense" and start in now. Then write a minute list of words, as the Grape-Nuts list of words, as the Grape-Nuts training you use to be and how you are now. The simple facts will interest others and surprise yourself. We never publish the list of words, but we do publish the names of the winners and when requested give the names by private letter.

There is plenty of time to get personal experience with Grape-Nuts and write a sensible, truthful letter to be sent in with the list of words, as the contest does not close until April 20th, 1906. So start in as soon as you like to building words, and start in using Grape-Nuts, but this statement out and keep the letters Y-I-O-Grape-Nuts before you and when you write your letter you will have some reason to write on the subject "Why I Owe Grape-Nuts."

Remember 331 persons will win prizes, which will be awarded in an exact and just manner as soon as the list can be counted after April 20th, 1906. Every contestant will be sent a printed list of names and addresses of winners on application, in order to have proof that the prizes are sent as agreed. The company is well known all over the world for absolute fidelity to its agreements and every single one of the 331 winners may depend on receiving the prize word. Many persons might feel it useless to contest, but when one remembers the great number of prizes—(331)—the cost of seeing how many words can really be made up, evening after evening and the good, natural fun and education in the competition, it seems worth the trial; there is no cost, nothing to lose and a fine opportunity to win one of the many boxes of gold or greenbacks.

We make the prediction that some who win a prize of gold or greenbacks, will also win back health and strength worth more to them than a wagon full of money prizes.

There are no preliminaries, cut out this statement and go at it, and send in the list and letter before April 20th, 1906, to Postum Cereal Co., Ltd., Battle Creek, Mich., and let your name and address be plainly written.

CONSIDERING STAR LINE SUBSIDY

May Run Steamer From St. George to St. John

Fifteen Thousand Dollars for General Repairs to Provincial Hospital—

Other Routine Business.

FREDERICTON, March 8.—House met at three o'clock.

The bill amending the Woodstock incorporation act was read a third time and the following bills, a second time: To incorporate the Coverdale Log Driving Co.; authorizing St. John city to call in certain debentures and issue others in their place; respecting borrowing of money and issuing debentures by St. John city.

Mr. Tweedie submitted statement of revenue and expenditure of the General Public Hospital for the year ending Dec. 31st, 1905, also the 4th annual report of the N. S. Deaf and Dumb Institute.

On the item for roads and bridges Mr. Hazen called attention to the bridge at Bathurst where the contract was awarded to Mr. Smye for \$6,484, and who afterwards received a further sum from the government beyond his original contract, so that the cost of the bridge was more than that of the next lowest tenderer.

Mr. Hazen—The new wharf at Upper Shefford is a great improvement, but I would like to ask if anything is to be done for the wharf at Burton's Court House. It is now unfit for use and it would be a great pity if it was allowed to go to destruction.

Mr. Hazen—On account of the new wharf at Ormoco being built on the locality myself next summer and I am most interested in them. The need for repairing the wharf at the Cedars, in Kings county.

Mr. Hazen—Instructions have been given to my hon. friend for his anxiety in regard to Kings county. We have found it necessary to press these matters on the attention of the department.

Mr. Hazen—The department has decided to rebuild the Young bridge. We have also a very voluminous report recommending that the lower St. George bridge should be rebuilt.

Mr. Hazen—The department has decided to rebuild the Young bridge. We have also a very voluminous report recommending that the lower St. George bridge should be rebuilt.

SHOULD LEASE CENTRAL RAILWAY. FRENCH CRISIS BRINGS DANGER

Hon. Mr. Hill Will Move to That Effect.

Government Has Not Yet Made Any Grant for St. John Exhibition— Dr. Anglin Today.

FREDERICTON, March 7.—The House met at three o'clock. The following bills were read a second time:

Tonight Mr. Hill gave notice of motion that in the opinion of this House it was in the interest of the province to accept the offer to lease the N. B. Central railway, as announced by Hon. Mr. Tweedie some days ago.

To legalize marriages, respecting taxes in St. John city, to regulate the construction and operation of buildings in St. John, act relating to side wharfrage and top wharfrage in St. John, to enable the city of St. John to open a street railway in Carleton and Lunenburg.

The following bills were introduced: Mr. Robertson to authorize the city of St. John to permit railways to run along its streets and highways.

Mr. Robertson to authorize the city of St. John to permit railways to run along its streets and highways. Mr. Robertson to authorize the city of St. John to permit railways to run along its streets and highways.

A PLEASANT TIME

DIGBY, N. S., March 7.—Grand Master Charles R. Smith of the Jurisdiction of Nova Scotia A. F. and A. M., with District Deputy Grand Master Fred L. Shaffer, officially visited King Solomon Lodge at Digby, last evening.

Mr. Hill opposed this grant as not beneficial to the province generally. The money could be better expended in New Brunswick. He did not believe in the grant of \$5,000 to agricultural societies.

Mr. Hazen considered Mr. Hill's criticism of the Amherst grant well-founded and suggested winter exhibitions be held on our soil where our farmers could attend it.

Mr. Farris said some years ago the dominion government was anxious to have winter fairs held in the maritime provinces.

Provincial News

SUSSEX, N. B., March 5.—Tonight was probably the biggest Masonic night in the history of Sussex. Zion Lodge had an early session in order to clear the decks for action and later in the evening was visited by District Deputy Grand Master Alex. Campbell of St. John, and nearly a score of St. John brethren. For the occasion Zion Lodge had a complete set of new officers from the ranks of the past masters of the lodge and it is unnecessary to state that there was a treat given to those in attendance. The officers were filled as follows: Rt. Wor. Bro. Geo. Coggon as W. M. Wor. Bro. Henry Teakles as S. W. Wor. Bro. J. A. Humphreys as S. D. Wor. Bro. H. A. White as S. D. Wor. Bro. C. H. Fairweather as J. D. Wor. Bro. Jas. Kirk as Chap. Wor. Bro. Robt. Morrison as Treas. Wor. Bro. M. Huestis as secretary. Wor. Bro. J. B. McLean as D. of C. Wor. Bro. D. H. Fairweather as S. S. Wor. Bro. C. W. J. Upham as S. S. Wor. Bro. J. J. Daly as I. G. Wor. Bro. Coggon, Tyler.

CHIPMAN, N. B., March 5.—Senator King leaves for Ottawa today. Captain McLean, who has been home for a few weeks' vacation, expects to take charge of his vessel again in a few days. The young people of the Baptist church are practicing for a concert to be given about the 23rd of this month. The members of the Presbyterian church and congregation have posters out for a pie social and fancy sale on the 15th and 16th of this month. A very interesting programme was carried out on Friday afternoon in the high school assembly room, by the pupils of the advanced grades. For over an hour a number of visitors and all the pupils in the building were well entertained by music, dialogues and recitations. The new hotel is getting near completion every day and when it is finished will be a great addition to the place. Mrs. Hammond of St. John, is a guest of Mrs. G. H. King. Miss Orchard of St. John, paid a short visit to her parents, Mr. and Mrs. Arthur Orchard, last week, returning Saturday to St. John. Arthur Orchard and family have moved into their new house. Mrs. John Briggs gave a high tea on Wednesday night, which was very much enjoyed by those present. It was for the benefit of the Baptist church. Coal is being carried over the Central railway in large quantities from Miramichi.

BATHURST, March 2.—The death of Mrs. Emma Miller, widow of Samuel Miller of Bathurst, occurred at the home of her daughter, Mrs. Cantin, here on Thursday morning. The deceased lady was born in Bannockburn, Ireland, 78 years ago, came to St. John with her parents when only four years of age, and for the last fifty-three years has made Bathurst her home. Three brothers, John and Henry of Boston, William, and one sister, of St. John, survive, besides two sons, Samuel T. and John of Bathurst; two daughters, Mrs. Cabot of New York and Mrs. Annie Gattain of Bathurst. The late Thomas Miller of the Portland Rolling Mills, St. John, was also a brother of the deceased. Mrs. Marjory J. M. Stockton, widow of J. Wesley Stockton, died at the residence of her daughter, Mrs. Lemuel B. Harrison, Newtown, Kings county, Saturday morning in the 84th year of her age. She is the mother of F. W. Stockton, barrister, of Sussex. Her husband was a lawyer in St. John. Her maiden name was Lombart.

HARTLAND, March 5.—Special meetings are being continued in the Reformed Baptist church by the pastor, Rev. S. A. Baker. Six persons have been baptized and eight have joined the church. The missionary tea of the Main street United Baptist church was held at the home of Mrs. L. E. McFarland Friday evening, 2nd inst. A pleasant time was had. L. E. McFarland, who was confined to his bed for several weeks owing to injuries received from a fall, is able to be out again. Special trains are running day and

night to collect traffic that accumulates so fast along their lines. Hartland is the shipping centre for the county. Large quantities of hay, oats, timber and laths, etc., are continually being shipped from this station. Mrs. Chas. Crandall and husband of Melrose, Mass., who have been spending the winter with Mr. and Mrs. Chas. Gilpin, parents of Mrs. Crandall, left for home on Saturday, 3rd inst. The roller rink is well patronized this winter. Rev. C. T. Phillips has sold his driver recently purchased in St. John to Donald Plummer of Port Fairfield, Me.

MILLERTON, March 5.—The rectal given by Prof. Redden and his talented family in the Temperance Hall Thursday evening was much appreciated by those who attended. As the night was cold and the roads not in good condition on account of the recent heavy snow, the number who attended was limited. The interest in work of missionaries is advancing among the churches of this place. Two mission bands for the juveniles of the congregations of the Presbyterian and Methodist churches have been formed. The study of the countries and people where the different missionaries are working are taken up, and the offerings go towards the support of certain missionaries. The death occurred today at his home in Upper Nelson of Fergie, fourth son of James Harper, at the early age of 20 years. He had been ill for some time with consumption. A father and mother and a large family of brothers and sisters are mourning the loss of a promising life early closed.

STORIES OF CARELESSNESS IN SMALLPOX CASE DENIED HAMPTON, N. B., March 7.—The story circulated by a lumberman of Westford though calculated to alarm those unacquainted with actual conditions in regard to the smallpox outbreak, is seriously discounted by the reports of the attending physicians and the statements of the officials of the local board of health. First as to Kennedy's camp. This has been thoroughly cleaned up and disinfected and all the men are now in good health. No complaint has come from the people of Westford to the authorities with regard to the action taken, but on the contrary much satisfaction has been expressed as to the promptness and efficiency of the measures adopted. Even at this stage the patient's body and clothing are kept well disinfected, as is all other articles which he uses about the place. In every way used about the place. Instead of slops and debris being thrown out to flow upon a neighbor's property or towards the road they are, after careful disinfection placed in a hollow back of the house, from whence contamination is impossible. Those on the ground also report no apparent diminution in the lumber output. Teams are on the road as usual, and the men are still at work in the woods. All these statements can be verified by those in actual charge. The childlike matter still awaits the opinion of the attorney general.

REFORM FOR HOUSEWIVES. "A fourteen-hour day for housewives" is the rallying cry of a new labor movement that was hatched in Chicago recently. Its leaders have not only organized the over-worked mothers and wives who are expected to make up its membership, but it is confidently expected that there will be recruits a plenty when the objects of the crusade are more generally known. Some of the energetic club-women already enlisted under the banner have prepared a very instructive table showing the usual sixteen-hour day of the housewife, in comparison with that of the pampered father and husband. They have arranged it in this way:

Table with 2 columns: Hour, Husband. Rows include: Rises and starts fire, Turns over another stove, Preparing breakfast, Rises after being called, Eats breakfast, Also eats breakfast, Gets "chicks" ready, Begins day's work for school, Still sweeping, scrubbing, Begins luncheon, Gets "chicks" off, Returns to work, Preparing for dinner, Quits toll for the day, Serves dinner, Dines, "Doing" dishes, Reads newspaper, Mending or sewing, Goes out to club putting "chicks" to or saloon, bed, Through work, Returns home, or may be still out, Miss Mary McDowell, of the University of Chicago Settlement, gets two morals out of movement where the ordinary sociologist would get but one. She says: "It is the home side of this agitation of the eight-hour day for men that appeals most strongly to me. I believe the men should have shorter hours, mainly because it would mean shorter hours for women at home. The wives of the men who work longer than eight hours each day must get up very, very early in the morning to prepare the breakfast, get the luncheon arranged for the husband to carry with him, and for the children who go to school, and for the older ones who go to the factories or stores. Their day is never ended. The husband comes home late, the supper must be cooked and served, and a thousand and one things done in the meantime, and if the wife and mother gets through her work at 10 p. m., she is doing well."

If you advertise persistently and well, nothing can be more certain than your success.—Ladies' Home Journal. For the merchant in a country town there is no better medium than the local paper.—The Buyer.

Don't Neglect a Cough or Cold

IT CAN HAVE BUT ONE RESULT. IT LEAVES THE THROAT OR LUNGS, OR BOTH, AFFECTED.

DR. WOOD'S NORWAY PINE SYRUP IS THE MEDICINE YOU NEED.

It is without an equal as a remedy for Coughs, Colds, Bronchitis, Sore Throat, Pain in the Chest, Asthma, Whooping Cough, Quinsy and all affections of the Throat and Lungs. A single dose of Dr. Wood's Norway Pine Syrup will stop the cough, soothe the throat, and if the cough or cold has become settled on the lungs, the healing properties of the Norway Pine Tree will proclaim its great virtue by promptly eradicating the bad effects, and a persistent use of the remedy cannot fail to bring about a complete cure. Do not be humbugged into buying so-called Norway Pine Syrups, but be sure and insist on having Dr. Wood's. It is put up in a yellow wrapper, three pine trees the trade mark, and price 25 cts. Mrs. Henry Seabrook, Hephworth, Ont., writes: "I have used Dr. Wood's Norway Pine Syrup in our family for the past three years and I consider it the best remedy known for the cure of colds. It has cured all my children and myself."

MAY GROW SUGAR BEETS IN ENGLISH COUNTIES.

LONDON, March 5.—Farmers in Kent and Suffolk are considering seriously the advisability of growing sugar beet. A large conference of farmers will be held at Tunbridge Wells in the near future, and under the direction of the East Suffolk chamber of agriculture, experimental crops of sugar beet are to be raised on half-acre plots to ascertain the commercial possibilities of the culture. There are many reasons, according to experts, why the cultivation of sugar beets ought to be successful in this county. The sugar beet is a near relative of the great wurtzel, in the growing of which the English farmer has always excelled. It has been claimed that English soil will be particularly suitable, and is likely to crop heavily.

DISTINGUISHED MILITARY OFFICER IS DEAD

HALIFAX, March 5.—Captain Bloomfield Douglas, R. N. R., died at his home in this city tonight. He was 80 years of age and had been employed for late years by the Canadian marine department as inspector of lifeboats at his earlier life in the maritime provinces. He was a member of the British navy and performed important survey and hydrographic work in Sydney and Melbourne, Australia. He is survived by his widow.

YOU CAN'T DOUBT THIS.

Go where you will, but it's impossible to find a family liniment equal to "Ner-viline." Age adds to its popularity, testimonials by the score speak of its pain-subduing powers. Jas. B. Cottam of Mastow, N. S., says: "I wouldn't live without Polson's Nerviline in the house. If you have rheumatic pains in the limbs, soreness in any of the muscles, or in fact any need for an honest liniment, Nerviline fills the bill; I can recommend it highly because I have proved that in one application of Nerviline there is more virtue than in a whole bottle of ordinary liniment."

COMMENT ON HAMILTON'S RETURN

ALBANY, N. B., March 7.—The return to his home in this city of Andrew Hamilton, who for many years has been in charge of the legislative work of the large insurance companies throughout the Dominion of Canada, and who since last June he has been in Europe, was the chief topic of interest and conversation in the legislature and throughout the city. He spent last evening at home with his family and one or two close friends, and had nothing to say for publication. This morning he again denied himself to newspaper men, insisting that while he would have something to say at the proper time, that time would not be to-day. It will probably be several days at least before he makes any statement whatever. In appearance he seems normal, but close friends say that his health is far from being restored.

DOGFISS AND SHARKS DESTROYING THE FISH

WASHINGTON, March 7.—The ravages of the dogfish and sharks among the fisheries of Massachusetts, was discussed by the president today with the committee appointed by the governor of Massachusetts to come here for the purpose. The sharks and dogfish are destroying great number of fish, the ravages being so extensive as to affect the fishing industry, especially mackerel and cod. There is a bill before congress which has for its object the promotion of certain industries that make use of the sharks and dogfish.

DR. A. W. CHASE'S CATARRH CURE... 25c. It is sent direct to the diseased parts by the improved Blower. Heals the ulcers, clears the passages, stops droppings in the throat and permanently cures. Catarrh and Hay Fever. Blower from All dealers or Dr. W. Chase, Medicine Co., Toronto and Buffalo.

PRAYER FAILED BUT MEDICINE SUCCEEDED.

One of Dowie's Converts in a Critical Condition Was Saved by Action of Chicago Health Authorities.

CHICAGO, March 5.—The city health department is justified in forcibly interfering in cases of extreme sickness where the services of a physician are refused by relatives of the invalid, according to an opinion rendered today by Corporation Counsel Lewis. Since the advent of John Alexander Dowie in Chicago many cases of this nature have been brought to the notice of the city authorities, but no definite action has ever been taken until today, when prayer instead of medicine or surgery was used in the treatment of Mrs. Ella Turner, 315 Addison avenue, a believer in Dowie's teaching. The woman had been suffering for over 24 hours and her life was in imminent peril. The woman's cries of pain attracted a neighbor, who reported the case to the police. The police at once advised the health department. Health Commissioner Chas. J. Wilson sent a physician to attend the woman, and her suffering was stopped.

JACOB I. KIERSTEAD DIED

Was a Brother of Dr. Kierstead of McMaster.

Dr. Kierstead was a native of Collins, Kings county, and until a few months ago lived on the old homestead where he was born. His health forced him to retire from active work some months ago, since which time he has been living with his son. The deceased was a prominent temperance worker, a J. P., and active in the councils of the conservative party. Dr. E. M. Kierstead, formerly of Acadia and now professor at McMaster, is a brother. Two other brothers, Francis of Collins and Isaac of Milford, and a sister, Mrs. E. Kelly of Collins, survive. The children of the deceased are Edwin B., clerk in the post office here; I. T., a dealer in the market; Laura E., residing in St. John, and Annie L., trained nurse at the Bloomingdale Hospital, Worcester. The deceased was a son of the late Rev. Elias Kierstead.

TENNY'S MOTHER ASKS CHARGE OF MURDER.

But Attorney Langdon Will Take No Action Until After the Coroners Inquest

SAN FRANCISCO, March 7.—Mrs. Israel Tennebaum, mother of Harry Tennebaum, better known as "Tenny," who died as a result of his glove contest with Frankie Neil, yesterday, through her attorney, made a demand upon District Attorney Langdon that he issue complaints charging murder against those who were behind the fight. District Attorney Langdon refused to issue the complaint. "I will take no action in the matter," he said, "until after the coroner's inquest, which will be held Wednesday."

NEW ITALIAN AMBASSADOR TO GREAT BRITAIN

NEW YORK, March 7.—A cable despatch to the Herald from Rome says: Signor Tomas Tittoni, former Italian minister of foreign affairs, has been suddenly appointed ambassador to Great Britain in the place of Signor Alberto Pansa, who will now be placed at the head of the ministry. This is the first time Signor Tittoni has been an ambassador and his appointment, together with the recall of his predecessor, has aroused much comment in diplomatic circles.

INMATE OF INSANE ASYLUM PARDONED

BOSTON, March 7.—Herbert E. Hill, who since 1902 has been an inmate of the Worcester insane asylum, following his trial for the murder of his sister, Mrs. Alice C. Riley, at their home in Roxbury, was pardoned today by the governor's council. Dr. Owen Copp of the state board of insanity, testified that not only is Hill sane, having fully recovered from his malady, which he does not believe will ever come on him again, but he has been sane for the past three years, and that his conduct has been exemplary in every way.

WHITE'S COVE

Mrs. E. J. Wright continues in poor health. One day last week while John Gunter was crossing Grand Lake between Scotchcove and Robertson's Point, he broke through the ice and had it not been for the timely assistance of his brother Harry, no doubt he would have been drowned, as the ice for some distance from the place where he broke through was found to be very thin.

VIOLENT HEADACHES.

"I was troubled for a long time with headaches which would come on with such violence that I could not eat or do my work. Headache powders and quick cures did no good. Eight months ago I took six boxes of Dr. Chase's Nerve Food, and I have not been troubled with headache since."—Mr. O. Barber, Simcoe, Ont.

WASHINGTON, March 7.—H. B. Perham of St. Louis, president of the Order of R. R. Telegraphers, stated today that the differences with the Southern Railway Company were being amicably adjusted and that there would be no strike on Friday, as heretofore announced.

LUMBERING IN ALBERT COUNTY

Conditions Better Than Thirty Years Ago.

WOODSMEN'S LOT IS NOT SO HARD—Some Big Operations—Hopewell Hill News. (Special to the Sun.) HOPWELL HILL, March 6.—In spite of the drawbacks occasioned by the scarcity of snow this season, we see a very large output of lumber from this section of Albert county. In addition to the big stationary mills at Albert and West River, with several millions each, numerous portable mills are in operation in many parts of the parish, giving plenty of work and good wages. One of the largest employers of labor this year is Peter J. McClellan of Riverdale, who is operating extensively, with four crews and two mills almost continuously at work. Near the Stannard Lake, Mr. McClellan has cutting logs that are being hauled to the Wright steam mill at Memel, which is running night and day, making deals, boards and laths. Operations will probably be continued by these crews right through the summer. At Midway Mr. McClellan's portable mill has cut over a million feet, and after sawing a cut for Charles Hawkes it will be moved to Albert to saw Mr. McClellan's other cut of a million or more from the Crooked Creek work. It is said Mr. McClellan's payroll reaches between \$200 and \$300 a day. The hauling of the logs from Crooked Creek yards to the big brook is accompanied by some difficulty, which is overcome in a quite ingenious and novel manner. The logs are hauled by teams down the bed of the creek, whose towering sides rise hundreds of feet on either bank, to ascend which, in order to reach the mill above, would be an impossible feat. So, on one high bank, whose steep slope descends nearly a thousand feet, there is placed a small steam engine, from which a wide cable reaches to the bed of the gorge below. When the teams reach this point, with their loads of logs, the cable is hitched, the big rope is attached to the engine, the engine starts, and in a trice the load is sent the ready for the rest of its journey, when the team has been brought up by another route. Thirty or forty loads are hauled up a day in this manner. W. J. Carnwath is doing big work at Memel, where his portable mill is sawing lumber fast. He is operating on what was formerly the Stevens property. At the upper end of the parish the Milton Brothers and others are doing a large business. With so much work the men, who are at all capable, are naturally very little to complain of in the way of wages. At \$35 or more a month, the woodsmen see quite a contrast to the days when \$16 and \$18 was good pay. Other conditions, too, in connection with the life of the toilers of the forests have much improved, a noticeable change being the matter of food. The days of the pork and molasses diet are only a memory, the joys of the present day camps putting in an aggregation of eatables that is simply amazing. Altogether the lumberman's life is not one of all drawbacks, and it will be a bad thing for this section of the country if the timber gets cut away.

STORK BRINGS GEORGE GOULD SEVENTH CHILD.

NEW YORK, March 7.—At her town house, at No. 87 Fifth avenue, a seventh child was born to Mrs. eGo. J. Gould on Saturday. The newcomer is a daughter. The stork called before the family had gathered in the breakfast room, and as soon as the doctor spread the glad news there was general rejoicing. Mr. Gould remained home and answered the many congratulations which came over the telephone. Mrs. Gould has been at Lakewood nearly all winter, but Mr. Gould is busy just now and could not get away from the city except at intervals. Mrs. Gould came to their city home several days ago. She will remain here until the child, which is her fourth daughter, can comfortably be removed to Lakewood. A seventh child is supposed to be lucky and it looks as if little Miss Gould would have her share. Her father must be worth more than \$35,000,000, and if she lives she may be the heir to several million dollars.
