THE TORY CANDIDATE

Mr. Editor: The Woodstock Press has raised the issue squarely before the people. We had hoped that an appeal would have been made to overlook Mr. Fleming's transaction with the crown lands and Valley railway but to hold him up as a man of spotless character is the most blatant hypocrisy ever practised. In other words they expect the people to vote that all Mr. Fleming's acts were right, such as—

(1) To know and approve that huge sums were being grafted from the lumberman of the province.

(2) To appoint a personal friend and fellow citizen as treasurer of that fund and to draw from it for his own private business.

(3) To go in person and demand money from a contractor and receive it with his own hands. It is not so much that they place a discredited man before the people for election, as the justification of his wrong, that should arouse every citizen who loves his country, to denounce such a principle.

The clergymen that are ex officio champions of morality should unite in asking at least, if Mr. Fleming is to appeal at all to the people, if he should do so as a man who acknowledges his wrong but begs for a chance to do better in the future, not as one who upholds his wicked transactions and asks the people to support him in it, for that is the issue we must join as placed before us by the Conservative party of the constituency.

Mr. Fleming in his own letter states the commission used him unjustly and injured his character. How could it injure his character if it found him, as the Press claims, free from blame?

The Press says he is a poor man, but does not say in what way. We know he is not poor in earthly riches. It may mean future prospects, but we do know he is poor in ideas of what a modest and patriotic citizen should do in his position. He ought to be ashamed to ask his party to uphold him. Many a man has gone into exile of his own free will to keep disgrace from his country, but his man, in his selfishness, asks not only personal support, but the people to sanction the illegal and immoral acts he has committed, thus lowering our already low political standard and setting an example and precedent to be followed by future baneful public men who, to save themselves, would stoop to anything.

If Mr. Fleming is so poor, why did he leave a salary of \$5000 a year for only a chance at getting the pay of a member at \$2500, for they tell us he resigned voluntarily.

Again they tell us that Mr. Fleming resigned solely for the purpose of running against Mr. Carvell. If that is his motive we join issue with him. Is that the breadth of the man, that he would leave the highest office in N. B., for the sake of venting personal spite? Willing to sacrifice \$2500 a year simply for personal spleen? Truly if we send him to Ottawa he may get angry at someone and resign again.

We want bigger men than that. This matter of fighting men personally because we may dislike them has gone too far. We want men that took more to the interest of the country. Not once has Mr. Fleming stated that he felt it in his country's interest that he resigned but only to fight Frank Carvell.

Lastly, if we seek outside opinion in this matter we have

ample evidence, both from pulpit and press. Only lately Principal Mackay of Vancouver Theo. College said that such a man should not be advanced for any public position whatever.

CLEANING UP

This spring The Observer was forestalled on its annual "clean up" admonition by the people going into the work with good zeal without being told. Let the good work go on. See to it that the first of May will dawn with every bit of the rubbish cleared off the streets, and not only front yards, but back yards, alley ways and the hidden places be made clean.

Vines should cover unsightly fences and outbuildings, and wherever there is a chance for a tree to grow one should be planted.

Vacant lots are too often used for dumping purposes and portions of the west side of Main street present a deplorable condition in respect to this.

It is never a good plan to haul your refuse away and dump it on some one else's property, or on the river shore. All that will burn should be destroyed by fire.

Fords Still Selling Fast

R. L. Phillips, the Ford auto. man was here on Monday and sold two more cars, making eight he has sold in Hartland this season. The purchasers are Rex L. York and Scott Sipprell. At other points—Woodstock, and the other county villages—Mr. Phillips has met with similar success. He covers four counties, and his friends are now realizing that he made no mistake in leaving the firm of A. F. Randolph & Son, with whom he has had an excellent connection for many years, to engage his time exclusively to selling Fords. He does not attribute his success to extraordinary selling ability on his part, but to the fact that the people know that if they pay five or six hundred more they will not get a better car, and often one not so good.

Mr. Phillips was on his last trip for Randolphs and was accompanied by Mr. Hatfield who succeeded him.

Paying it Back

It is rumored that Edgar B. Teed, the treasurer of the fund collected from the lumbermen, has paid back 50 per cent of the amount to the various contributors. He had between \$50,000 and \$60,000. The rumor says that an arrangement was made to pay the lumbermen 50 per cent down, and that they are to accept 40 per cent more at a later date as final payment. This leaves 10 per cent and all the interest in the hands of Mr. Teed, who also told the Royal Commission that he had reserved \$1,000 for his own trouble. Mr. Teed appears to have come out of the affair very well financially, if this rumor should prove to be correct.

SPECIAL NOTICE TO SUBSCRIBERS

The cash in advance price of The Observer is \$1.00 per year. Yet for the first three years subscriptions were taken at 50 cents, and from Oct. 20, 1912, to Oct. 1, 1914, at 75 cents. Since 1st October the price has been strictly one dollar.

There are at this time several hundred subscribers in arrears, the total amount aggregating nearly \$1000. We must have this money, and we need it now. We had contemplated making a list of all delinquents and handing them over to a collection agency. This would mean that we should have to pay the agency 25% commission.

We do not want to make hard feelings with any one of our subscribers—we want no quarrel in our family of readers. Of course it ought not offend any person to be asked for the money he honestly owes—indeed, the only person to be offended is him who waits for his pay.

We think we have found a way out of our difficulty and can cement more solidly, rather than rend, the good feeling between ourselves and subscribers.

If we have to lose 25%, as we would to a collection agency, why not give the subscriber the benefit of our loss? After the thought came to us we made our decision in less than a minute. We are going to give every subscriber an opportunity to pay up all he owes The Observer at 25% discount. Bills are now going out and UNTIL MAY 10th we will accept subscriptions from anywhere in Canada at the rate of 75 cents a year!

This is a most generous offer and we expect our subscribers, recognizing the fact, will respond speedily.

We think this offer so fair and generous that those who owe will insult us if they do not accept it. So, therefore, promptly on May 10, 1915, every subscriber owing us for a year or more will be sued for the full price of the paper. There will be no exceptions. Of course the cost of suit will come out of the subscriber.

But so great is our faith, we do not believe a single subscriber will permit himself to be sued. Subscribers are urged to remit just as soon as they get their bills, and the manager will feel doubly obliged.

To those who have paid at \$1.00 a year: We realize all must be treated alike. Every subscriber in Canada who is now paid a portion of a year in advance is given the opportunity of paying a full year still further in advance by remitting a postal note for FIFTY CENTS.

Come, friends, will you do your part to ease our financial burden?

The word "we" has been used throughout this article when in reality there is only one of us—and this article is the direct personal appeal of the Manager to YOU.

Send remittances to "The Observer Ltd., Hartland, N. B."

CONSUMPTION TAKES HUNDREDS OF PEOPLE

Hundreds of people succumb to consumption every day. Science proves that the germs only thrive when the system is weakened from colds or sickness, overwork, confining duties or when general weakness exists. The best physicians point out that during changing seasons the blood should be made rich and pure and active by taking Scott's Emulsion after meals. The cod liver oil in Scott's Emulsion warms the body by enriching the blood; it peculiarly strengthens the lungs and throat, while it upholds the resistive forces of the body to avoid colds and prevent consumption. If you work indoors, tire easily, feel languid or nervous, Scott's Emulsion is the most strengthening food medicine known. It is totally free from stupefying drugs. Avoid substitutes. 14-42 Scott & Bowne, Toronto, Ontario.

Vol. VI. APRIL 22, 1915 No. 45

THE TORY TAX

We have now had a week of the stamp tax and know what it feels like. The Observer calls this a Tory tax instead of a war tax for the reason that the Tory government might easily have curtailed expenditures sufficiently to obviate this special drain on the public. We can quote the words of Sir George E. Foster to substantiate this assertion.

When the Liberals went out of power the government treasuries were full and the income millions greater than the government expenditures. In three short years the treasuries are empty and expenditures have gone upward many millions in excess of what it was before. That shows a condition of rank extravagance.

In the Civil Service 10,000 men are required to do the work of 2,000 under Liberal rule. The Conservatives say the business of the country has increased to such an extent as to make this necessary. Then came a raise of 7 1/2 per cent on the tariff followed by the "war stamp" tax, because, the Tories say, the business of the country is decreasing.

These conflicting conditions form a complexity The Observer cannot figure out.

There is one thing certain, the cost of this war added to the government expenditure by the Liberals during their last year in power would not equal the Tory expenditure of the past year, excluding the cost of war. In other words the Liberals would not have found it necessary to either raise the tariff or impose the stamp tax. This statement is not made from theory, but from the actual figures in government reports.

People of Canada of all classes and creeds have given generously and joyfully to the Red Cross Society and to the Patriotic Fund, and must continue to give, and will do so gladly, but the majority of them resent most heartily being forced to contribute in direct taxation hard earned money to go to enrich the Tory grafters that handle it.

Canada will give her last man and her last dollar to save the empire, if need be, but she resents being bled white to maintain the Tory carnival of extravagance.

HAS THE NER E FOR IT

Within a few days after this scathing denunciations of two Conservative members who shared in the spoils of war, Premier Borden, who promises sure justice to those caught grafting from the war appropriation, was overwhelmed with congratulatory telegrams from Conservatives all

over the country. The Fredericton Mail is wagering dollars to doughnuts that J. K. Fleming was not among those tendering congratulations.

The Mail does not yet know its Fleming. We in Carleton county know that the Prince of Plunderers is capable of just such hypocrisy as this.

EDITORIAL NOTES

It is said that prominent members of the Tory cabinet are averse to plunging the country into an election at this time, among the better thinking ones being Premier Borden and Sir George E. Foster. Still a strong element of the party, including "Bob" Rogers and P. E. Blondin, who said it was necessary for his people to shoot holes through the Union Jack in order to breathe the air of freedom, are keen to wave that old flag as an election banner.

In an address delivered at Fredericton last week Rev. W. H. Smith, referring to Premier Borden's action, said "I believe this is the first time in the history of Canada that a political leader has had the courage to stand up and read offenders out of his party." The late leader of the New Brunswick government had not the courage to read himself out, and was reluctant to go when he was told.

"Whoever heard of any rake-off man or go-between being compelled to disgorge under Liberal rule" boastfully asks the Woodstock Press. How proud our innocent Woodstock contemporary is because ex-Premier Fleming forked over that little eighteen thousand and odd dollars when he was forced to do so.

The Toronto Globe asks "If Borden expels DeWitt Foster and Garland, what is he to do with the candidature of ex-Premier Fleming of New Brunswick, convicted of grave wrong-doing?"

Is Fleming to be counted an honest man because he "disgorged"? Would he have "disgorged" if he had not been compelled to?

J. K. Fleming did not write an editorial for The Press this week. If he did Bro. Melaney wisely used his discretion with it.

Soldiers Sail

Although no mention of the fact has been made in the St. John papers, a letter received here on Tuesday states that the transport carrying the Army Service Corps quietly slipped out of the harbor on Saturday last on the first leg of their journey to the battle front. They were to call at Halifax and then proceed to England, from whence later they will go to the front.

Base Ball Outlook

Hartland has at the present time enough base ball hopefuls to organize the strongest team ever got together here, and it is quite certain that we shall have some good games this summer. All the boys are resident in the place and when properly organized they hope to meet other teams either here or on their own grounds.

The Burt flat has been secured for a diamond. This is an ideal spot, perfectly level and convenient of access.

It is hoped that Florenceville will put their usual strong team in the field, and, also, that Centreville will form up.

Tory tax today and forever as long as the Tory government lasts.

Real estate is still active on Hillcrest avenue, which is less than five minutes walk from the post office and is high, dry, and bathed in pure air and sunshine. Building will soon be going on apace, and a few lots, that will continue to increase in value are still available. Ask F. A. Aiton about them—at the drug store.

The engagement is announced of Charlotte Ethelinda Drake, daughter of Wm Drake of Avondale, and Frederick D. Flewell. The wedding will take place at five o'clock on Wednesday afternoon, April 28, at the home of the bride.

Now is the time to buy FUR GOODS. Why? Because prices are away down. People buying in the season have to pay full prices. Now you can get them at a big discount. It will pay you to provide now for another season. Credit given at Carr's, to parties in good standing.

The Mission Band of the United Baptist church held a sock social at the home of Scott Siprell on Tuesday evening. The band includes young people of 16 and under and a large and merry gathering spent a very pleasant evening in games and various amusements. The younger members were marshalled by Mrs. B. Seeley while Mrs. Winnifred Kierstead chaperoned the older ones. These two ladies wish to thank those who assisted in making this a success. The sum of \$10.65 was realized.

OWES HER LIFE TO "FRUIT-A-TIVES"

Cured Both Stomach Trouble

PALMERSTON, ONT., June 20th, 1913.
"I really believe that I owe my life to 'Fruit-a-tives'. Ever since childhood, I have been under the care of physicians and have been paying doctor's bills. I was so sick and worn out that people on the street often asked me if I thought I could get along without help. The same old Stomach Trouble and distressing Headaches nearly drove me wild. Sometime ago, I got a box of 'Fruit-a-tives' and the first box did me good. My husband was delighted and advised a continuation of their use.

Today, I am feeling fine, and a physician meeting me on the street, noticed my improved appearance and asked the reason. I replied, 'I am taking Fruit-a-tives'. He said, 'Well, if Fruit-a-tives are making you look so well, go ahead and take them. They are doing more for you than I can'.

"Fruit-a-tives" are sold by all dealers at 50c. a box, 6 for \$2.50, trial size 25c. or sent postpaid on receipt of price by Fruit-a-tives Limited, Ottawa.

Autos have made their appearance on our streets, and with the warm sun it seems as if summer had come.

KEEPING THE LID ON

The government at Fredericton and its supporters have decided that the lid must not be lifted.

They refuse to have an investigation of the charges made in connection with the patriotic potatoes. They decline to give the people full information about the vast amount of securities held by the Prudential Trust Company in connection with the Valley Railway. They refuse to inquire into the charges to the effect that W. H. Berry, while a government official, received from men doing business with the government through him large sums for his personal use. They have had enough of investigations. The one that was made in connection with the \$2,903 paid by the Dalhousie Lumber Company to Mr. Berry, and by him turned over to Mr. Brankley without showing the transaction in the public accounts, and without letting the deputy minister know anything about it, was proved to be true. Then there was the inquiry before the Royal Commission, which resulted in the retirement of Mr. Flemming from the legislature, and the Southampton Railway inquiry, which resulted in the retirement of Mr. Pinder from the public accounts committee. The government wants no more inquiries. It remembers what has happened in the matter of inquiries in the last year both at Fredericton and at Ottawa and it has some knowledge also of what is going on in Manitoba. The people must not be given too much information. The more they get the worse it is for the party. Hence the lid is kept on.—Times.

What of Flemming?

Sir Robert Borden, says the Standard, has "read W. F. Garland, M. P. for Carleton (Ont.) and Arthur DeWitt Foster out of the Conservative party. Their constituencies may send them back to Parliament, but the Conservative party on Parliament Hill will have none of them." If Sir Robert is so fiercely virtuous, what is his position in regard to J. K. Fleming, official Conservative standard bearer in Carleton-Victoria?

Fire At Houlton

That's what Mr. H. J. Eastwood, of Carleton Place, Ont., says about Gin Pills.

"I have taken Gin Pills and find them good for pain in the joints, Swollen Hands and Ankles, and all symptoms of Kidney and Bladder Trouble. We always keep them in the house."

Gin Pills FOR THE KIDNEYS

If you are feeling badly, perhaps it is your Kidneys or Bladder that is causing the trouble. If there is pain over the Bladder—if the urine is hot and scalding—too free or scanty—if the urine shows brick dust deposits or mucus—if there is constant pain in the back—restless sleep and loss of appetite—then you certainly need Gin Pills. Get them to-day and feel better to-morrow.

Mogul Oil Engines

The International Harvester Mogul Oil Engine is the latest development in internal combustion engine of throttle governor type, an engine that will run on either kerosene oil or gasoline. This feature alone is a great advantage over the ordinary gasoline engine. Furthermore, kerosene has greater explosive power, at considerably less cost, and much less danger in handling. The Mogul Engine is constructed with enclosed crank case and mechanically operated valves and has automatic force feed oiler on 4-12 P. and larger. This engine is made in sizes from 1 to 10 horse power, equipped with magnets at the factory. Every Mogul Engine will develop 20% more than its rated horse-power before it leaves the factory. This 4-12 P. is absolutely frost proof and does not have to be drained off even in the coldest weather. For further information or catalogue apply to the nearest McCormick local agent. COMFORT

Dr. A. Reed Cushion Shoes Mean Foot Comfort

WHY?

In a Dr. A. Reed Cushion Shoe your foot rests upon a soft, pliable cushion.

The principal points of contact—your heel, the ball of your foot, and your toe joints—sink down luxuriantly into the cushion insole, which immediately conforms to every curve of your foot.

Therefore—

FIRST—The weight of your body does not rest alone on these points, but is distributed uniformly over the entire length and width of the bottom of your foot.

SECOND—The arch of your foot is not left to bear your weight without support, but is upheld and strengthened by the cushion insole, which fills every hollow of your foot. The strain is thus taken off the arch of your foot, it retains its natural position and is not in danger of breaking down.

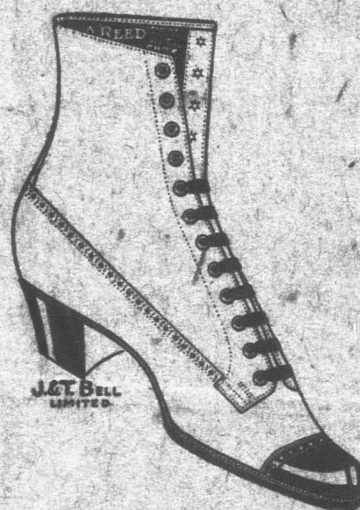

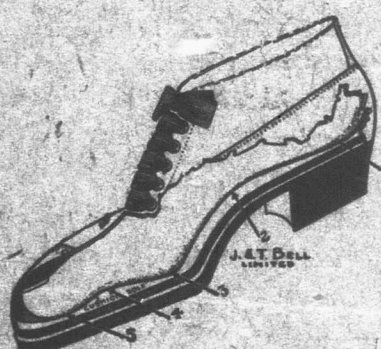

Why Ordinary Shoes Cause Discomfort

In the ordinary shoe your foot rests upon a hard, unyielding leather insole.

Therefore—

FIRST—As this insole cannot give, the principal points of contact—your heel, the ball of your foot and your toe joints—must bear the entire weight of your body.

SECOND—The arch of your foot has no support and is constantly under the strain of the weight of your body. This constant strain weakens your arch, which may eventually break down, causing untold misery.

HEALTH

Prevents Colds, Sore Throat, Pneumonia, Rheumatism, etc.

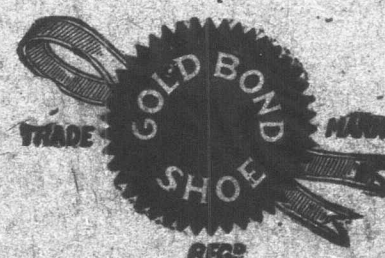

Dr. A. Reed Cushion Shoes cause corns and calouses to disappear and restore a natural, healthy condition to your feet.

Many dangerous diseases, such as colds, sore throat, pneumonia, rheumatism, etc., are contracted through the insufficient protection afforded by the ordinary shoe.

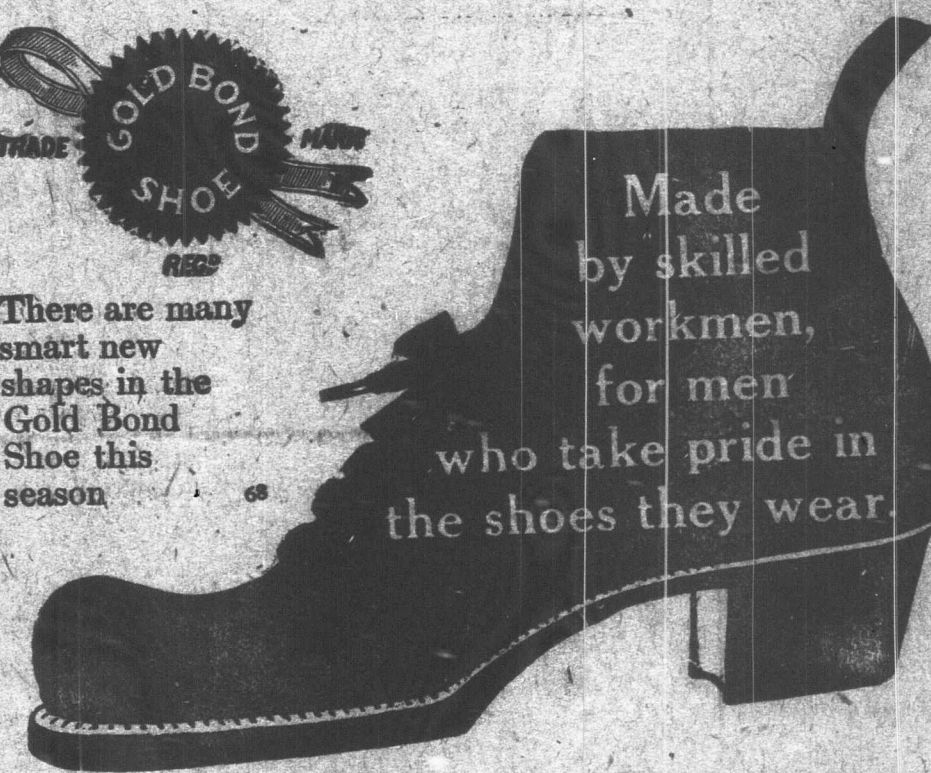

The pores of your feet are the largest and most active of your entire body. Don't let these pores remain inactive by becoming covered with hard, dead skin or callous places, caused by improper shoes. Keep the skin healthy and let your feet breathe through these pores as nature intended.

"Natur-Arch"

Protects Your Feet, Prevents Illness, Relieves the Jar When Walking

There are many smart new shapes in the Gold Bond Shoe this season

Made by skilled workmen, for men who take pride in the shoes they wear.

WARMTH Preserving Healthy Circulation

In an ordinary shoe the hugging of the uppers caused by the spreading of the foot compresses the blood vessels and nerves and prevents a free circulation of the blood. Thus the flow of warm blood is retarded, and pinched, cold feet is the result, just as a tightly fitting glove causes the fingers to become cold.

When you stand in a Gold Bond Shoe there is no compression of the blood vessels and nerves, because the uppers are loosened by the sinking of the foot into the soft, easy insole.

The result is a free circulation of warm blood through every part of your foot, keeping it at an even temperature and preventing it from becoming cold.

Protection

From Cold and Dampness

In an ordinary shoe your foot rests on a leather sole which is porous, and quickly absorbs moisture. Thus cold and dampness are directly conducted to your feet.

Operation Decided On As Only Means of Relief

But the Writer of This Letter Resolved to Try Dr. Chase's Ointment First and Was Cured.

This is not an isolated case, for we frequently hear from people who have been cured of piles by using Dr. Chase's Ointment. After physicians had told them nothing short of an operation could bring relief and cure.

If you could read these letters, coming as they do, day after day and year after year, you would realize what a wonderful curative agent Dr. Chase's Ointment really is. Few ailments are more annoying or more persistently torturing than piles, and when this suffering is promptly relieved by the application of Dr. Chase's Ointment there can be no

MR. BEAUVAIS.

doubt as to where credit is due. Friends and neighbors are told of the results and so the good word spreads, and Dr. Chase's Ointment is becoming known far and wide as the only actual cure for piles or hemorrhoids.

Mr. Charles Beauvais, a respected citizen of St. John's, Que., writes: "For 14 years I suffered from chronic piles or hemorrhoids and considered my case very serious. I was treated by a well-known physician who could not help me, and my doctor decided on an operation as the only means of relief. However, I resolved to try Dr. Chase's Ointment first. The first box brought me great relief, and by the time I had used three boxes I was completely cured. This is why it gives me such great pleasure to recommend Dr. Chase's Ointment to everybody suffering from hemorrhoids as a preparation of the greatest value."

Do Not Use Harsh Purgatives—
A Tonic is All You Need.

Not exactly sick—but not feeling quite well. That is the way most people feel in the spring. Easily tired, appetite fickle, sometimes headaches, and a feeling of depression. Pimples or eruptions may appear on the skin, or there may be twinges of rheumatism or neuralgia. Any of these indicate that the blood is out of order—that the indoor life of winter has left its mark upon you and may easily develop into more serious trouble.

Do not dose yourself with purgatives, as so many people do, in the hope that you can put your blood right. Purgatives gallop through the system and weaken instead of giving strength. Any doctor will tell you this is true. What you need in spring is a tonic that will make new blood and build up the nerves. Dr. Williams' Pink Pills is the only medicine that can do this speedily and surely. Every dose of this medicine makes new blood which clears the skin, strengthens the appetite and makes tired, depressed men, women and children bright, active and strong. Mrs. S. E. Stephen, Ponoka, Alta., says: "I suffered severely from headaches, and was badly run down in health. I had tried several remedies with no benefit, until I was advised to try Dr. Williams' Pink Pills, and these have fully restored my health, and I can recommend them with confidence to all weak women."

Sold by all medicine dealers or by mail at 50 cents a box or six boxes for \$2.50 from The Dr. Williams' Medicine Co., Brockville, Ont.

Improve the Streets

Mr. Editor: It will soon be time to receive notice of our road taxes, with the announcement that may be liquidated in cash or statute labor. As far as the village of Hartland is concerned the statute labor is one of the biggest farces that could be perpetrated on a civilized community.

A few men and a couple of teams will take the mud that is being dug from some man's cellar and dump it promiscuously on the roads where with the first rain it is quickly converted into muck through which pedestrians and teams must plough. Then when it dries up stores and dwellings suffer from the dust blown about by every wind that blows. The result is that the roadway is in a worse state each year than it was the year previous.

Now, if the money that is represented by "statute labor", to-

gether with the appropriation the village is entitled to, was placed in the hands of a competent road-maker who would have gravel hauled from the shore of the river, placed properly on the roadway and rolled in, we would have in the course of a year or two a highway that would not only be clean, but solid. The roadway should be rounded to both sides so as to carry the water to gutters at the edges of the sidewalks, which could easily be made with cobblestones. A little care in the construction of these would cause the water to flow to points where it would find its way to the river.

There again, a certain portion of the sidewalks should be treated each year with a coating of asphalt or cement until the portions of the village where there is the most traffic would have clean, dry walks. Main street from Maple to the school house might be treated first, then the other thoroughfares as funds would permit.

As it is at present the so-called "statute labor" and what ever appropriation is allotted to the village is utterly wasted—in fact as I said at first, used for the purpose of making the roadways worse each succeeding year.

This is a matter that our councillors should carefully look into and the taxpayers of the village should give them no rest until this evil is remedied.

PROGRESS

BORDEN AND FLEMMING

Sir Robert Borden, when leader of the opposition delivered a speech at Halifax in the course of which he said:

"Let there be no party funds, the details of which may not be known and the expenditure of which cannot be made public."

J. Kidd Fleming is a loyal supporter of the party led by Sir Robert but he failed to take heed of the injunction of his leader. With the help of one W. H. Berry a government official, Mr. Fleming when premier of New Brunswick, collected a fund from the holders of crown timber lands which amounted to the very respectable sum of \$72000. Although it was claimed that this fund was for party purposes, Mr. Fleming's friends and colleagues disclaim all knowledge of it. The details were carefully concealed from the public until exposed by F. B. Carvell, M. P., before a Royal Commission. This same Mr. Fleming who so flagrantly disregarded Sir Robert's warning is now seeking election to the House of Commons as one of his supporters.
