ANOTHER THREAT TO INCREASE RATES

Peter Clinch Says Insurance Rates Will be Increased if Service Not Improved.

A meeting of the Town Council was held Friday evening. His Worship Mayor Murray presiding. There were present Councillors Campbell, McKay, Dickie, Jamieson, Bissett and Ingram.

The minutes of previous meetings were read and approved.

A letter from a special committee of the Fire Brigade as follows was read: Campbellton Fire Brigade.

To the Town Council of the Town of Campbellton.

At a meeting of the Fire Brigade held on Friday evening last, the matter of the re-organizing of the Brigade to place it on an independent footing was considered.

For some time past this matter has been on our minds and our experience in the handling of recent fires such as the Empress theatre and Roseberry St. School has led us to believe that the interests of the Town demand that the Fire Brigade should be enlarged to meet requirements.

We have now only fifteen paid men outside of the driver and the steamer men, and it is our idea if the Brigade were enlarged by the addition of eleven more men a company could be formed in each ward under a competent captain who would naturally be expected to be on the scene of the fire first and take immediate action until the arrival of the Chief.

It would then be a matter of pride for each company to make as good a showing as possible, and hence friendly rivalry would be aroused which would make for greater efficiency of the Brigade.

Then, too, it would be possible to handle the larger fires without having to call upon the assistance of the public, however well intentioned, is sometimes not of the best because of lack of experience.

After a thorough discussion of the matter from every point of view a resolution was passed authorizing the undersigned committee to ask your Honors to help to measure the ground to the Brigade to \$1300.00 which would cover the salaries of eleven more men, also to supply equipment for them such as the other men now have.

Trusting that you will give this matter your favorable consideration.

Sincerely yours,
B. O. BATES,
W. J. S. WALSH,
JOHN T. REID.

Committee.

The Restigouche Branch of the G.W.V.A., wrote thanking the Council for their kindness in supplying them with quarters, light and water since organization, and requesting that the request be granted.—Carried.

The Eastern Securities Corporation wrote advising the Town not to issue their Fire Station bonds until next spring as the market was poor for such bonds.—Referred to Finance Committee.

C. O. Foss, wrote re Hydro Electric powers to be developed from Tete-a-gouche River.—Laid on table.

F. W. Holt, C. E., wrote stating that the distance to Walker Brook is 7400 feet or more and four tenths miles.

Mrs. F. Doherty notified town that if water was diverted from Walker Brook to the mill for the purpose of the property she would hold the town responsible for such damages.

This letter was referred to the Town Solicitor for report.

The following letter was received from Mr. Peter Clinch, Secretary of the N. B. Board of Fire Underwriters.

The New Brunswick Board of Fire Underwriters.

St. John, N. B.
Dec. 24th, 1919.

To His Worship, Mayor of Campbellton, Campbellton, N. B.

Dear Sir—

In consequence of the inadequate water supply in Campbellton at present it is proposed to make a heavy increase in the fire insurance rates, but before doing so it was suggested that a delegation from Campbellton with authority to deal with the matter of fire protection should be asked to meet this Board here before the 10th of January. An early reply will greatly oblige.

Yours truly,
PETER CLINCH, Secretary.

His Worship stated that evidently Mr. Clinch did not understand that two pumps were installed at Walker Brook to supply water for fire and domestic purposes.

Coun. Bissett reported that after a lot of correspondence and telegrams a 600 gallon per minute pump had been ordered from the Alice Chalmers Co. to be delivered in forty days. The order was given Dec. 24th.

Coun. Bissett moved that the Clerk Mr. Peter Clinch be notified to fire the present situation, to fire to action.—Carried.

Reports of the different departments were read, and accounts ordered passed.

Coun. Jamieson reported that the Public Property and Streets Committee had made arrangements to provide stone from Mr. Bobb, Duncan at 8 cents per load, and that the stone would be piled at the I.N.R. lot on

BIGGEST REVIVAL IN HISTORY

Inter-Church Forward Movement Plan Great Things.

Canada is on the eve of the greatest religious revival of her history. The Inter-Church Forward Movement has been launched throughout the Dominion with conventions of the five leading Protestant denominations, Anglicans, Methodists, Presbyterians, Baptists and Congregationalists for the coming three months will gather together, clergy and laymen alike, in gathering great and small, in city and in village, to promote a revival of Christianity and a spiritual awakening of the nation on the following heads:

(a) To conserve the spirit of sacrifice brought forth by the war for the advancement of the Kingdom of Christ.

(b) To evangelize.

(c) To recruit for the ministry and the missions.

(d) To raise a total among all the churches, of over eleven million dollars for the purpose of enlarging the work of the church at home and abroad.

This is not church union, it is more. It is the united effort of all the protestants of Canada in a stronger and clearer challenge to service than has ever been heard by Canadians before.

The Forward Movement had its inception over two years ago, when the war was at its height. It was a simultaneous conception with great spiritual needs created by war, planned some sort of a campaign to follow immediately after the war.

The origin of the great Inter-Church Forward Movement is obscure. As far as is known, a prayer meeting held two years ago in the office of Dr. R. P. MacKay, the Presbyterian Mission secretary, was the seed from which the present national movement sprang.

Dr. MacKay invited a half dozen ministers of the different denominations to a prayer meeting, and there was after the war. The gradual growth of the movement was the duty of the churches.

Each denomination, sensing the great spiritual needs created by war, planned some sort of a campaign to follow immediately after the war.

CHRISTMAS AT THE HOSPITAL

Patients Had a Very Merry Christmas—Santa Claus Called.

Christmas at Hospital
The friends of the patients at Hotel Dieu who called to see them on Christmas Day, expecting to find them downhearted and lonely were agreeably surprised to find that even in an hospital, and that a temporary one, it is quite possible to have a "Merry Christmas."

The entire building, offices, corridors, wards and rooms, appeared in festive array. Ceilings and walls were hung with varicolored festoons from which at intervals were suspended the typical Christmas bell.

Through the generosity of the Young Girls' Guild each floor had its Christmas tree on which were hung little gifts, some practical, some humorous, for the patients. The unbending of these trees formed the climax of the days entertainment.

A real live Santa Claus went from room to room, distributing the gifts which, though perhaps of little material value, were rich in the wealth of good cheer which they typified.

The generous Christmas dinner served to the patients was made easy by the donation of charitable friends of the Institution.

There is in addition, the story of how the pupil nurses enjoyed Christmas, the "Christmas Boxes" they received from the members of the medical staff and from the Nuns, but their real Christmas consisted in trying to see that every patient was happy and cheerful. If they themselves were lonely, they did not show it, and they all agreed at night fall that they had had a perfectly happy day.

To all the friends in Campbellton and elsewhere who helped to brighten the Christmas of the Sisters beg to extend their grateful thanks. The local list is as follows:—

SUDDEN DEATH OF CON. JAS. SWETMAN

Well Known Moncton Railway Man Passed Away At St. Louis Hotel Here.

The death of Conductor James Swetman of Moncton took place here suddenly of apoplexy Monday evening about 9.30 o'clock.

Mr. Swetman arrived here in charge of No. 25, Accommodation at 6.40 Monday evening. He had supper at the St. Louis Hotel, as was his usual custom, and after conversing some minutes with the proprietor, Mr. Boudreau, went to the home of his daughter, Mrs. Roy Campbell, where he remained some time.

After returning to the hotel he went to his room, and only a few minutes later was noticed by a guest passing by, lying on his bed in distress. Mr. Boudreau was notified and immediately called Dr. Pinault, but Mr. Swetman had passed away before the physician arrived.

Death was due to apoplexy.

The family in Moncton were notified at once of the sad occurrence and arrangements were made for the removal of the body to that city on the Maritime Express Tuesday morning.

Among all the trainmen who daily run the Canadian National Railways through the various districts, no one was more widely known and more highly respected than the late Conductor James Swetman.

A host of friends throughout the Maritime Provinces, and more particularly among the travelling public, will learn of his death with the keenest regret. He was in the service of the railway for forty years or more, being at the time of his death in the 60th year of his age.

He is survived by his widow two daughters, Mrs. Roy Campbell, Campbellton, and Mrs. Bell LeBlanc, at home, and two sons, James and Graham, both C.N.R. railwaymen of Moncton. Another son, Harry, laid down his life on the battlefields of France, the other two sons having also enlisted but returned home safely.

PIONEER RESIDENT DIES SUDDENLY

John Moffat of Head Tide Passed Away Sunday Morning.

Mr. John Moffat, of Head Tide passed away quite suddenly Sunday morning about 8 o'clock.

He had arisen about the usual time and had eaten his breakfast when he suddenly took a weak turn and expired. He had not been in his usual health for some time, but was around as usual and word of his death came as a great shock to his numerous friends.

Deceased, who was 79 years of age was one of the pioneers of Restigouche. He was born at Campbellton and when a young lad he was sent in the ship Anna Bella, one of the ships built by the Moffats to Scotland where he received his education. Later he was associated with his brother George and Robert in the lumber business under the firm name of George Moffat & Co.

At Head Tide he for years ran a water power lumber and grist mill, which were destroyed by fire.

He is survived by one son George of British Columbia, who was on a visit to his home.

The funeral was held Tuesday afternoon and was very largely attended.

WOODSMEN ON HOLIDAYS BENT

All the Way From the North
Shore on Way to Homes in
York County.

(Wednesday's Telegraph)
A large number of woodmen arrived in St. John yesterday on their way to their homes to spend the holidays. Those from camps in north eastern New Brunswick, most of whom were bound for points in York county, said the operators had little difficulty recently in obtaining full crews, although early in the season they had scarce and returned soldiers who had that the operators had little difficulty war, were reluctant to return to their gone to the woods yearly before the former winter employment in October. No, however, many veterans were in the woods. The wages vary from \$65 to \$75 a month.

The men reported that the camps were unusually free from sickness this season, the influenza not having appeared again. The food is generally abundant and of excellent quality and complaints are few.

In fact, the only complaint that was heard at the Union station was that the lumber cutters at points along the International division of the C. N. R. had difficulty in getting train accommodation when they desired to reach Campbellton. On Monday, the men arriving here said, seventy-five woodmen assembled at a platform eleven miles from Campbellton, but the east-bound accommodation would not stop. The train was already jammed with lumber cutters who had emerged from the woods at other points, a score even riding in a box car. Some of the party of seventy-five hired teams, which carried them and their baggage to Campbellton, and the remainder walked eleven miles. All were able to reach the town in time to board the east-bound Maritime express train at an early hour yesterday morning. Most of the woodmen say they will return to the northern woods after the holidays.

There has been little loss time in any of the lumber districts. The men worked through the recent cold weather, the biting westerly winds not penetrating to the camps, except on exposed tracts or elevations.

The lumbermen speak highly of the Restigouche region as a lumbering country. The International division of the C. N. R. is handling a heavy freight traffic, carrying much lumber, camp supplies and freight routed for the United States which passes over the St. John river railroad bridge between St. Leonard's and Van Buren (Me.).

In Westmorland county the lumber operators are unusually busy. Hon. Dr. E. Smith, mining clerk and mines, of Shediac, who has not lumbered for two years, is busy this season, and will start his mill in the spring. A large concern which does business in northern New Brunswick and in Quebec has established an employment bureau at Moncton.

GIVE "SYRUP OF FIGS" TO CONSTIPATED CHILD

Delicious "Fruit Laxative" can't harm
tender little Stomach, Liver
and Bowels.

Look at the tongue, mother! If coated, your little one's stomach, liver and bowels need cleansing at once. When peevish, cross, listless, doesn't sleep, eat or act naturally, or is feverish, stomach sour, breath bad, has sore throat, diarrhoea, full of cold, give a teaspoonful of "California Syrup of Figs," and in a few hours all the food, constipated waste, undigested food and some bile gently moves out of the little bowels without griping, and you have a well, playful child again. Ask your druggist for a bottle of "California Syrup of Figs," which contains full directions for babies, children of all ages and for grown-ups.

PRINCE HAD A LOT OF BAGGAGE

Was Overladen With Accumu-
lation of Presents From Places
He Visited.

The Prince of Wales set out on his
travels with a very modest im-
portant. As an officer in France he
had to struggle through on the 30-lb.
allowance for personal belongings,
though most army battalions would have
liked to believe their officers lived up
—or rather down—to this Spartan
limit. He sailed from England with
a very small baggage. He returns
overladen badly. His Indian head-
dresses alone required immense boxes
to carry them around. There are also
almost innumerable presents of all
sorts from places he has visited, sou-
venirs of a very wonderful trip. So
the bluejackets on the Renown had
some "Royal luggage" to handle on
the return home.

WOMAN'S STATEMENT WILL HELP CAMPBELLTON

"I hated cooking because whatever
I ate gave me sour stomach and a
bloated feeling. I drank hot water
and olive oil by the gallon. Nothing
helped until I tried simple buckthorn
bark, glycerine, etc., as mixed in Ad-
ler's-ika." Because it flushes the EN-
TIRE bowel tract completely Adler's-ika
relieves ANY CASE sour stomach,
gas or constipation and prevents ap-
pendicitis. THE INSTANT action is
surprising. A. Mcg. McDONALD,

STOPPED MANUFACTURING SUGAR AT ST. JOHN

ST. JOHN, Dec. 24.—It is announced
today that the Atlantic Sugar Re-
fineries have stopped manufacturing
owing to lack of raw sugar, and the
manufacturing part of the plant will
be closed until January 1. This will
put about 200 men out of employment
for that length of time. The fac-
tory will not be closed, however, as
shipping of stock on hand will be con-
tinued and the mechanical and repair
departments will be at work. Local
wholesalers, it is said, have only small
stocks of sugar now and are antici-
pating a scarcity before the factory
commences operation again.

CAPTAIN ADAMS WAS TAKEN BY SURPRISE

Improvement So Remarkable
After Taking Tanlac He Hard-
ly Knows Himself.

"For one whole year before I
took Tanlac there was hardly a day
that I didn't have a severe headache
and hardly a night when I got over an
hour or two of sleep," said S. S.
Adams, when he called at the One
drug store in Vancouver, B. C. Mr.
Adams served as Captain in the En-
glish Army, and at the time he made
this statement he was registered at
the St. Francis Hotel, 600 Cordova,
West, Vancouver. Mr. Adams further
stated that he would leave for the
Orient in a few days to accept a man-
aging position with an English firm
in Japan.

"For the past year," continued Mr.
Adams, "I had gastritis in its very
worst form and gas would press again-
st my heart and make it palpitate so
bad that I would get busy and some-
times while I was eating I would get
to feeling that dizzy that I would
have to get up and leave the table
without finishing. My appetite was
almost gone and even the smell of
food would sometimes turn my stom-
ach, and I had to be extremely care-
ful about what I ate so as not to suffer
from gas. My nerves were shattered
and the least little noise out of the
ordinary would upset me completely.

"I tried medicine after medicine but
nothing would do me any good, and I
was about to give up trying to find
anything else when my attention was
called to a testimonial in the paper
about Tanlac. I decided to try it, and
I want to say right there that it took
me by surprise and that it is simply
remarkable how I have been restored
to health. I have a splendid appetite
and no matter what or how much I eat
I never suffer from stomach trouble
in any form. My nerves are steady and
quiet, and I can sleep all night long.
I am not troubled with headaches or
dizzy spells any longer, and I feel so
different in every way that I hardly
know myself. I am leaving for the
Orient in a few days and before I go
I feel that it is my duty to make it
known that Tanlac is a great thing and
statement and let the people know
it will do every bit of what they say
it will."

Tanlac is sold in Campbellton, by
Thomas Wran, Druggist.

Where Words End, Music Begins

Words, in them-
selves, are but poor
interpreters of emo-
tion. Where words
end, music begins.
Where words only
suggest, music satis-
fies; it utters with a
clear, vibrant voice
what otherwise
would remain
unuttered.

Music will allow
you to express your

innermost thoughts and ideals.
But how, you ask, can you create this music
since you are no musician nor the master of any
instrument?

The NEW EDISON

"The Phonograph with a Soul"

has stored up in its magic discs the music of the
world's greatest musicians—the soul-children of the
music masters. And this music The New Edison
will Re-CREATE for you, in your own home, exactly
as you would hear it in the grand opera houses and
the famous concert halls.

You should read the beautiful book "Edison
and Music" and the booklet "What the Critics
Say" containing evidence that proves Edison
superiority. Ask for copies when you
come to hear the New Edison.

A GOOD NEW YEAR'S RESOLUTION.

One of the best New Year's resolutions we know of would be for you to make up your mind to send a copy of The Graphic to the recognized most popular home paper, to that absent friend or relative each week. And to save you the trouble of mailing it just let us have the address and we will attend to the sending. The recipient will thank you throughout the whole year, and he or she will be kept in close touch with the old home town—because The Graphic gives all the news. Now, they like to read the paper and the story papers, too. And at times the paper needs an extra—other than—don't you?

But when they want some other read, they'll turn away a frown. They want The Graphic from their Old Home Town.

Should he or she reside in Canada the paper will be mailed to address given us for one year \$1.50, or if residing in the United States the price will be \$2.00 per year. Send in the address today.

Campbellton, N. B. Jan. 1st, 1920.

1920.

There is not a doubt but that the year just closing has been one of the most prosperous in the history of Campbellton. There has been no unemployment, wages have been high and business generally good.

During the year there has been considerable activity in building lines with building permits amounting to \$165,000.00 issued.

What of the year we are just entering?

At this early date it gives every promise of being an unusually prosperous one.

The establishing of new mills, the large increase in the lumber cuts; the planning of new buildings to be erected during the coming season all speak of healthy growth and prosperity for Campbellton.

It is to be hoped that at one plan for needed improvements to our streets and services.

Campbellton should have an Exhibition at least every two years and we hope that the matter of organization of an Exhibition Association will be speedily undertaken.

Then there is the matter of Hydro Electric development. Campbellton is only twenty-five miles from a site which with the expenditure of a very reasonable amount, power for industrial purposes could be developed and sold which would make this whole territory a live of industry.

Again there is the erection of the bridge connecting Campbellton with Cross Point. There is not a doubt but this undertaking could be pushed through if all went at it in the right way.

We trust that early in the year will see the reorganization of the Board of Trade, which has been, if not dead, practically sleeping.

Citizens of Campbellton, with the birth of this new year may we all have reborn in the spirit of the time—progress, push and enterprise.

WHAT WILL 1920 BRING?
(Editorial by Lee C. Kitson).

Mr. Peaceful Citizen, have you asked yourself the above question? Is the entire world awaking with genuine enthusiasm, or are we only blowing bubbles? Will there be a satisfactory truce between capital and labor and who is going to build the bridge? What are we confronted with for the coming year?

Time with its inevitable changes and changes take place every twenty-four hours; there are new theories; new ideas; idealists, and that old phantasm, "There is nothing new under the sun" verily has lost its flavor for Kullerud King Wilhelm fell down and broke his crown and who came tumbling after. We are face to face with gigantic and colossal problems; industrial revolution; radicalism; Bolshevism; propaganda; anarchists and full fledged graduates of the school of agitation and how are we going to combat them? Bolshevism has been terrorizing the whole universe; it is a cat-in-the-hat disease and its career has been like a great black pall of death and destruction and it is nestled in the very arms of discontent and inhumanity.

Mr. Citizen, the inhumanity in your church, your business, your office, your social life, your physical life, your industrial life, is constructing concrete foundation for the advancement of Bolshevism.

Nature has done wonders. Her power seems to be inexhaustible, and to be convinced we only have to look around us, but has Man and Woman done their part?

The danger signal is up! The Red Flag must be carried for it must not bear fruit in a country where liberty and Freedom loved so dearly cast so much, and there must be no intervention against those who died—but not in vain.

Europe is in distress! With open arms she is waiting for relief, and out of her internal, volcanic eruption, and chaotic condition what can we expect? Her hope, her existence, her salvation depends upon Canada and America and shall we respond the same as we did to the Call of Arms. If we do not put our shoulder to the wheel of reconstruction, financially and morally; Europe's fate cannot be determined or measured. But first, last and always charity should begin at home.

Germany's rapid strides into the commercial and industrial hemisphere since the days of Pickens have been phenomenal,—for she has launched herself into the market arena and will be as hereafter a large factor in commercial supremacy and competition. Will there be another international war? I must confess with the least mental reservation that there will be. The handwriting is on the wall. Junkerism has not, and does not admit defeat openly. France will always be in danger, and more than ever since Napoleonic days.

The ratification of Peace Treaties does not abolish wars. A League of Nations does not establish permanent peace; they can be side tracked; side swished and capitulated and even pigeon holed.

What will 1920 bring? The world's

PRINCE OF WALES' GREATEST SPEECH

Rights of Dominions Set Plainly Before British People By Prince.

London, Dec. 19.—The London newspapers make a great feature editorially of the latest and greatest speech of the Prince of Wales—that delivered yesterday in the Mansion House after he had been officially welcomed home on behalf of the City of London. "Beyond doubt the reality of the loyalty and conviction of duty which inspire the peoples of the Empire have captivated the imagination of the Prince," says the Times. Which continues: "Upon the rights of the Dominions he insisted with ardor. He says that they should be more vividly realized in Great Britain, but he rises to an even more lofty conception—that of seeing the whole Empire entrusted with a duty to humanity. That duty, if the British peoples are to be true to their greatness, the Empire will not desire to evade."

The Morning Post says: "The star of England still rises high in the firmament and it is to that beacon the young prince points us, appealing to all to work together to one end."

The Daily Telegraph says: "The Prince as having by his candid statement and far-seeing speech set up the new ideal of Empire in the sight of all men."

The Daily Chronicle says that the Prince has said exactly the word the times requires just as his father did in the same place after a similar return.

The Daily Mail, seizing upon the remark that "our privilege and task is to show the way," observes: "If we are not greatly mistaken, this wonderful young man is going to be uncommonly helpful in telling us how to do it."

Half Will Be Used to Raise Salaries of College Professors.

New York, Dec. 25.—John D. Rockefeller yesterday gave to a mankind a Christmas present of \$100,000,000, half to the General Education Board to raise the salaries of college professors in Canada, and the other half to the Rockefeller Foundation to aid in its work of combatting disease through improvement of medical education, public health administration and scientific research. It is estimated that Mr. Rockefeller's public gifts now approximate \$450,000,000.

The trustees of the Rockefeller Foundation also are authorized to utilize both the principal and the income of their gift in connection with which Mr. Rockefeller added, that if the Board "Should see fit to use any part of this gift promoting medical education in Canada, such action would meet my cordial approval."

The action will be taken according to the Foundation, who stated last night that the trustees would be asked to set aside \$5,000,000 for this purpose.

A professor was teaching his evening class in English composition. "I would like you to consider this sentence, gentlemen, and tell me how you would punctuate it," he remarked: "A lady was passing along the street smiling pleasantly."

"What about a dash after the lady, sir?" came the quick query from one member of the class.

greatest dopsters and state-men and even astrologists are bewildered; but we are more or less reconciled in watchful waiting and if Capital versus Labor calls a halt there will be written on the calendar of time, the rebirth of Peace; Prosperity and Happiness and the complete demobilization of Bolshevism, and its execution must not be delayed.

Unquestionably, we should freely give and truly say A MERRY CHRISTMAS, 1919 and A HAPPY NEW YEAR in 1920.

THE SISTER'S FAITH.

Ford Will Bring Them Back.

The Sister's Faith—Ford Will Bring Them Back

MANY are the stories of the popular Ford automobile, but Hillsboro related in its local paper recently what it calls the best of the season, and the facts in the case are true. It happened in one of the leading churches of the city that the pastor took for the text of his sermon, "Better Church Attendance."

The pastor held that the automobile has taken more people away from church than any other thing. He concluded with the exclamation: "The Ford car has taken more people to hell than any other thing that I can mention." Whereupon an old lady in the congregation began to clap her hands and moan "Praise the Lord! Praise the Lord!"

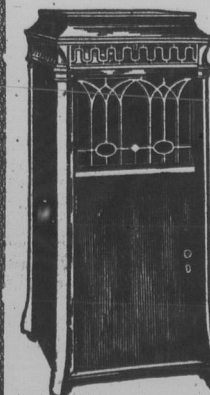

"What's the matter sister?" asked the pastor. "The Ford never went any place that it couldn't make the round trip, and I am sure that all of those people in hell will be back," she answered. "So praise the Lord."

RECORDS BROKEN
IN XMAS TRADE

Merchants Say They Never Had Better Season—Buyers Plentiful.

Campbellton's Christmas trade beat all previous records, so the majority of merchants say. Right up to closing time Christmas eve business was brisk and stocks were fairly well cleaned out.

It seemed as if money was plentiful as all were buying freely and were willing to pay the price for articles desired.

The Christmas turkey was selling for from 62 to 80 cents, geese 50 cts., per pound and chicken 35 to 40 cents.

TWO MASSIVE AMATEUR PRODUCTIONS TO BE STAGED IN CAMPBELLTON

About the middle of next month it is expected that an epoch will be marked in the annals of amateur theatricals in Campbellton. Two massive productions are under consideration, one to be a rather elaborate musical revue, embodying the latest salon dances, cabaret novelties, latest song successes and spectacular tableaux.

The other is to be a special presentation of the famous Broadway comedy dramatic success, "The House Next Door". Mr. S. C. Hurley, formerly manager of the Opera House with the assistance of Mr. Jos. Burkhardt, a well known comedian, singer and dancer will direct the performance, which fact in itself insures a brilliant success. The production will be staged under the auspices of the Catholic Girls' Guild, the proceeds going to the Hotel Dieu.

OBITUARY.
Charles Landry.
On November the 29th, Mr. Charles Landry died after a few months' illness at the age of 64 years. He was a highly respected resident of Campbellton. The deceased was born in Carleton Place, Ontario, Canada, and was the son of Mr. and Mrs. C. A. LeBlanc and Mrs. Albert Allard.

The funeral took place on Wednesday, Dec. 3rd, to the R. C. Cemetery. The bereaved family have the sympathy of a large circle of relatives and friends.

EDITOR'S MAIL

Campbellton, N. B.

Editor of the Graphic,

Dear Sir—

Do you not think that if we would engage a Town Manager at a fair salary, that it would be the means of avoiding the many costly mistakes that have been made in the past?

There are some one hundred and fifty towns and cities in the United States which have adopted this form of Municipal Government and not one of them would think of returning to the old and out of date management.

Woodstock, N. B., is the first town in the Maritime Provinces to adopt this form.

By this system the Town officers are on the same basis as a private company, the electors correspond to the stock holders. The council of the Board of Directors and the manager to the company.

This present year our taxes were higher and it would seem that by the old methods that are being followed, we are in for a greater raise next year. I should like to hear from other taxpayers and yourself.

Yours truly,

XYZ.

Girls! Try It! Hair gets soft, fluffy and beautiful—Get a small bottle of Danderine.

If you are for heavy hair that glistens with beauty and is radiant with life; has an incomparable softness and is fluffy and lustrous, try Danderine.

Just one application doubles the beauty of your hair, besides it immediately dissolves every particle of dandruff. You can not have nice heavy, healthy hair if you have dandruff. This destructive scrub robs the hair of its lustre, its strength and its very life. And it not overcomes it produces more dandruff.

It cleanses the scalp, the hair, the hair roots, loosens and die; then the hair falls out fast. Surely get a small bottle of Knowlton's Danderine from any drug store and just try it.

A circular illustration depicting a young man with a laurel wreath on his head, looking intently at a large, spotted animal, possibly a lion or leopard, which is lying down. The man is holding a small object, perhaps a bone or a piece of food, towards the animal. The background shows a landscape with palm trees and a large, bright sun or moon in the sky. The entire scene is enclosed within a circular frame.

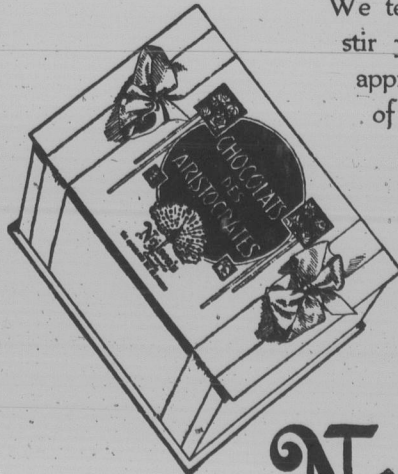

"**A**ND he came bearing gifts."

Marc Antony, Caesar, Dante, Abelard, Henry of Navarre, Francois Villon, Louis XVI. and Napoleon, *all* laid gifts upon the altar of some woman's esteem.

Sweetmeats have always been a "Gift for Queens." In ancient times men bore "sweet spices and fruits" to their ladies.

But they never bore anything comparable to Neilson's Chocolates of to-day.

Dr. and Mrs. J. L. Vanier of Bathurst, spent Xmas with Mr. and Mrs. L. B. Legere.

A. L. Legere of Montreal was a recent guest of his brother, J. B. Legere.

Dr. John J. MacPherson has returned from New York where he has been attending New York Post Graduate Medical School and Hospital.

AVIATORS THRILLING ESCAPE FROM DEATH IN NIAGARA FALLS.

New York, Dec. 26.—The thrilling experience of Captain T. G. Wilcox, of the Royal Air Force, who barely escaped being swept over Niagara Falls in an airplane with a dead motor, and was saved when his machine was stranded on Goat Island, was revealed yesterday by Major Sydney F. Parker at the American Flying Club. He received a letter from Wilcox giving details of the near tragedy. The two aviators recently completed a flying trip of 13,000 miles together.

Wilcox was giving a flying exhibition when a new engine failed to function properly and he landed in the river. "To start the motor he hoisted rapidly down the stream toward the edge of the falls. As the long plume seemed inevitable the flying boat landed in a safe cove off Goat Island.

Again the man looked and counted.

"I will," he decided.

"Very well, then give it. Of course,

I'm wrong," the minister said cheer-

WINTER CARE AND REPAIR OF FARM MACHINERY.

(Experimental Farms Note.)

"Let him use more machinery then,"

is the stock phrase and cure all pre-

scribed by the "knoutall" of the farm-

er's labour problem. This is just what

he has been doing for a generation

or ever since city wages were distinct-

ly higher than those upon the farm.

Today machinery has doubled its

cost because it does not grow upon the

land by the free agency of sunlight

like crops but is made in cities and by

labour that exacts far more than the

farmer's can afford to buy and to the

extent to which he can substitute

machinery for expensive labor. In

other words machinery is expensive

labour.

Farmer's therefore are going to

house their machinery in some way

since the life of an implement well car-

ried for is prolonged four or five times

the life of machinery which is left in

the open. An energetic farmer will not

allow his horse or cow to stand out in

the rain or snow. He will rush to get

his crop in the ground on time and in

the best possible condition and he will

gather his harvest promptly and care-

fully so that there is the least possible

loss. Many of us will do these things

and still allow a part of the toll earned

revenue to be swallowed up in the

purchase of sky soaring priced machi-

nery or in expensive repairs.

See to it that each implement wears

out and does not rust out. Every one

knows that it should be housed but

housing under any condition and not

properly caring for it other wise, can-

notote very poor care. Machinery may

be just as well cared for if it is allow-

ed to stand in the shade of a tree as if

stored in some of the leaky sheds, op-

en shed, poorly drained sheds or com-

bined implement sheds and hen roosts

which are found.

DO NOT MERELY GO THROUGH

THE MOTION BUT SHELTER CON-

SIDERATELY and before doing so,

season and secure them along with a

First list the repairs needed for next

an assortment of bolts, rivets, springs

etc., in time to have each implement

repaired and ready for use on time. An

implement in repair at all times will

have a longer life and will give more

satisfactory service during its life

one receiving irregular attention. Sec-

ondly clean and oil each machine, and

give all polished surfaces an applica-

tion of some anti-rust preparation.

Asle grease or other lubricant will

answer the purpose.

Another "critter" occupies space in

the implement shed, the twenty-four-

hour-day-iron horse or tractor has ar-

rived on the farm. To insure more ef-

ficient use of this implement next sea-

son there are two things that should

be given special attention. First, take

steps to put it in the best possible con-

dition now, and secondly learn as much

as possible about the fundamentals of

tractor operation. Read carefully the

instruction book; newspapers, books

and magazine articles also furnish a

wealth of information. If possible at-

tend one of the tractor schools which

will be conducted during the winter.

Leave nothing undone that will fit you

to become a more proficient tractor

operator.

A properly fitted work shop is a

necessity on most farms. It provides

a means of acquiring the "knack" in

doing repair work. Again at critical

times, such as harvesting or seeding

seasons, one long trip to town for re-

pairs may cause a loss more than

equal to the value of a well equipped

shop.

Paint, although last mentioned is

no means the least important fac-

tor in prolonging the usefulness of an

implement. Painted machinery on the

farm is an exception rather than a

general rule. The chief utility of paint

is in protecting materials rather than

improving appearance. Paint of good

quality only should be used and the

surface to be painted should be dry

and clean before the paint is applied.

INTERESTING ITEMS REGARDING WOMEN

During the Middle Ages and in the

Renaissance period brides were crim-

son to the exclusion of all other colors.

Miss Emeline McKenzie, Nova

Scotia's first woman lawyer, made her

first appearance in court recently and

won her first case.

The number of women employed by

the railroads of the United States has

been reduced since January 1 from

100,000 to about 75,000.

Between four and five million dol-

lars is the amount estimated to have

been earned by the late Adeline Pat-

ter during her career as a singer.

When a Japanese maiden wishes to

show marked attention to her lover

she uses the sharpened point of her

finger-nail in writing to him.

A number of French girls have

taken up business, as official guides

to pilot tourists desiring to view the

great battlefields of the great war.

Many of the prominent film actresses

are earning an extra penny now-

adays by posing in hats and gowns

made by the fashionable milliners and

modistes.

A recent police investigation in

London disclosed the fact that more

than half of the frequenters of fabu-

lous gambling places in the metrop-

olis were women.

One of the foremost cotton experts

in the South is Miss Minnie Hamlet,

who is secretary and treasurer of a
