THE QUEEN'S DECISION. (From the Montreal Advertiser.) Once on a time her naughty boys, And bro hers all to boot,

Fell out about a humming top,

And long and hard they fought;

They tought and called each other liars, And tore each others bair, And would have cut each others throats, Bus for their sisters ffair.

These lovely damsels, rural belies,
To end this bloody war,
Advised the scamps to let the case
Be settled by their Mar: The sniggling cascals acquiesced,
(They meant to guilt his mother,)
And set their chisseling plans afoot
To circumvent each other!

Their Ma's decision just was such As might have been expected,
The youngest urchin got the top,
The others feel neglected;
And have begun theirs feuds afresh, (Their family's curse and shame,) Regardless of their solemn vows, Their honored mother's name!

HIGHWAY ROBBERY NEAR GUELPH. The Guely h Advertiser states that on Tuesday night ab ut nine o'clock, as Mr. Jones Roe, f that town was procee in; along the Brock Road with his team, te was acco ted by min who requisted a ride in his wegg n. Permission being granted, he got in, but they had not proceeded over forty yards urber, when ano her man suddenly sprong up from the road, plesen ed a pit lat Mr. life, and simul aneously with the threat, the man who was in the waggon struck or. Roe a violent blow on the head, which felled him.

Mr. Roe cied, "Don't kill m'; I'll give you all I've got." The man in the wagg n then began to ransack his prokers, and tore out his breast pocket in which was the sum of \$2 874cts. They were dissatisfied at the small amount found, and demand d mon, but Mr. Roe declared he had no more; and after some oaths and threats, they de ampetento the woods. Mr. Roe, as he hid to pass through some lonely places on the road, had placed the sum of \$510 in his boot, and

yet at other charge by the Government in case with a cinic actor, who made money reference to the Queen's decision. He took a choice c n'ingent upon the support of Par-liament; and this fact is u ged as a reas n on one side; excited y pain, the for not proceeding with the erection of the requisite building at Ottawa. If the Leader speaks oracularly, it is manifest that Ministers are preparing to go back to the position an-nounced by Mr. Cartier at the close of last ression. It were folly to f ign surprise at the cortemplated desertion; which, however felt at the tergiversation displayed by Mi sters in dealing with this question.

BURGLAR KILLED -A farmer living near Dar sville, Living stone County, was awak need the other night by a noise in his stable, and seizing a cub, went out and found two men n the act of steating his horse, and inquired who is there?" when one of the thieves presented a pistol, but without waiting for him to fire, the la mer dealt h m a stout blow over the head, which almost instantly killed him.

The other the f made himself scarce. There was about \$400 found on the body of the dead man, but nothing affor ing a clue to his iden-tity.—Oquawka (Ill.) Spectator.

LORD GLYDE'S OPERATIONS IN

On the 28th November the commander in Chief entered Lucknow but what his future intentions are we have not been informed. It is probable be may remain in that city until some time 'next month, when he will proceed in the direction of the Gagra to overlook the movements of the various columns now living its backs, and which are preparing to give a blow to the insurgeous in Byraitch districts.

The following communications from Oude

have been received: QUDE, November 27 .- As I anticipated

in my last, Beinic Meddoo, on the 24th received a good besting from the British forces under the presonal command of Lord Clyde. The whole affair had been so planned that success in the capture and destruction of that chief seemed on this occasion about to be realized. At present no very clear accounts of the action are generally known, but after the usual prejude of mu kets.

NORTHERN PACIFIC RAILROAD. A compen of engineers, under the pay of the British governmen', has been surveying the northern part of our confinent, going westward for the purpose of locating a route for a railroad to extend from the Pacific Ocean to the Gulf of St. Lawrence. The have already principally explo ed the valley of the Saskatchewan, a d report a midclim ate to the Rocky Mountains, with but little snow du ing winter. Early in the spring, another party of engin ers will start from V ctoria to meet those coming from the east. Coal cas been found on the rute already surveyed, and the country seems to be quite practicable for a reitroad. " A company of British capita ists in L ndon originated this scheme, and the object is to contruct a great northern railroad, f r the purpose of attracting the trade from China, by Vancover's Island, through Canada by the Grand Trunk Railroad to the Atlantic Ocean.

BUFFALO AND LAKE HURON RAILWAY .-It is stated that the Grand Trunk Company are about to lease the Buffalo and Lake Hurs on Rai way, by way of securing a communi cation with New York, thus entering directly into competition with the Great Western for the bus ness on which they chiefly depend, with the advantage of a more direct line, especially in the event of the construction of the international bridge at Buff 1. In the event of such an arrangement being carried out and the construction of the Great Southern Railway, the prospects of the Great Western would be material y jojured.

THEATRE-GOING BOYS .- Mr. Elv has a more. bill now pending before the Senate at Albany. to prohibit children from visiting theatres without prents or guardiars. It is notorious that mothers have stood for hours at the door of two of this epiaces, waiting till mideignt anxious, care worn, and thatful that their children would be led into bad-company, included with the second to prison. It is will known that these lads furnish the ladies of the third tier with most of their patrons, and that not unforquently they are compiled to steal to obtain funds to attend.—Evening Post.

A FAMISHED WANDERER.

"I s' ould like very much to hear a story," said a fickle and thoughtless youth to his teacher "I hate se ious instruction; I cau't bear preaching."

"Listen, then," said the teacher. "A wanderer fi led his traveling pouch with savois ments and fuits, as his way wou'd lead h m ar ss a wide desert. MORSE—the inventor of MORSE'S INDIAN FILLS. This philanthrophist has spent the grepart of his life in travelling, having visited Eurasia, and Africa, and North America—has a three years among the Indians of our West country—it was in this way that the Indian Pills were next discovered. Dr. Morse was dirst man to establish the fact that all diseases a first man to establish the fact that all diseases. inst man to establish the fact that all diseases arise from IMPURITY OF THE BLOOD—that our attength health, and life depended upon the vital fluid.

When the various passages become clogged, and do not act in periect harmony with the different functions of the body, the blood loses its action becomes thick, corrupted and diseased; thus causing all pains, sickness and distress of every name; our health we are deprived of, and if nature is not assisted in throwing of the stagnant humors, the blood will become choked and cease to act, and thus our light of life will forever be blown out. How important then that we should keep the various passages of the body tree and open. And how pleasant to us that we have it in our power to put a medicine in your reach namely, Morse's Indian Root Pills, manufactured from plants and roots which grow among the mountainous cliffs in Nature's garden, for the health and recovery of diseased man. One of the roots from which these Pills are made is a Sadorific, which opens the pores he pores of the skin, and assists nature in throwing out the finer parts of the corruption within. The

diseased man One of the roots from which these Pills are made is a Sadorific, which opens the pores of the skin, and assists nature in throwing out the finer parts of the corruption within. The second is a plant which is an Expectorant, that opens and unclogs the passage to the lungs by copious spitting. The third is a Diuretic, which gives ease and double strength to the kidneys; thus encouraged, they diaw large amounts of impurity from the blood, which is then thrown out bountuilly by the urinary of water passage, and which could not have been discharged an any other way. The fourth is a Cathartic, and accompanies the other properties of the Pills which engaged in puritying the blood; the coarser particles of impurity which cannot pass by the other outlets, are thus taken up and conveyed off in greater quantities by the bowels.

From the above, it is shown that Dr. Morse's Indian Root Pills not only enter the stomach, but become united with the blood, for they find way to every part, and completely root out and cleanse the system from all impurity, and the life of the body, which is the blood, becomes perfectly healthy; consequently all sickness and pain is driven from the system, for they cannot remain when the bdy becomes so pure and clear.

The reason why people are so distressed when sick, and why so many die, is because they lo not get a medicine which will pass to the afflicted parts, and which will open the natural passages for the disease to be cast out; hence a larger quantity of food and other matter is lodged, and the stomach, and intestines are literally overflowing with the blood, which throws the corrupted master through every vein and artery until life is taken from the body by disease. Dr. Morse's Pills have added to themselves victory upon victory, by restoring millions of the sick to blooming health and happiness. Yes, thousands who have been racked or tormented with sickness, pain and anguish, but they at once go to work at the foundation of the disease which is the blood. Therefore, it wil
