CANADIAN RAILWAYS WILL BE ADVISED TO PAY NEW SCALE RATES. DECLARES G. T. A. PRESIDENT

Railway Association Will Make Recommendation, Fearing That Refusal To Adopt Chicago Award Would Precipitate a Strike—Howard G. Kelley Makes Announcement Before Dominion Railway Commission.

Ottawa, Aug. 20.—(Canadian Press)—Because they believe that failure to do so would precipitate a general railway strike throughout Canada, the Canadian Railway Association has decided to recommend to Canadian roads the adoption of the wage scale passed by the Chicago Labor Board of the United States.

INCREASED RATES ARE NECESSARY TO KEEP RAILWAYS OPERATING

Counsel For C. P. R. Asks That Applications Be Granted in Full.

SEES BIG DEFICIT

W. N. Tilley Says Improvements Impossible With Present Rates.

Toronto, Aug. 20.—The transportation committee of the Canadian Manufacturers' Association will investigate the figures presented by the Bell Telephone Company for increases in telephone rates in various cities.

Ottawa, Aug. 20.—Opening the argument for the railroads before the railroad rates in the railway rates case, W. N. Tilley, counsel for the C. P. R., said that the railroads are in a position of financial distress.

Increased wages for a year under the terms of the Chicago award would cost the company twenty-two million dollars leaving the company an estimated surplus of \$1,000,000 for the next twelve months operating period after the new rates become effective.

Less Purchasing Power. Mr. Tilley, in declaring that the application was based primarily on the fact that the purchasing power of the dollar has decreased since 1915, following the hearing of what were known as the eastern and western rates cases.

For the years between 1915 and 1919, out of \$41,000,000 of surpluses the company had spent \$35,000,000 on improvements and maintenance. This could not have been done but for the surpluses, as the money could not have been raised under the present conditions.

Mr. Tilley declared that the rates must be established that would permit the railroads to at least break even in three years.

When the railway rate hearing opened before the railway commission this morning, Mr. H. Symington, representing the provincial government, said that the province was in receipt of a telegram from the minister of mines, asking the province to stand in support of the railway rates.

Chief Commissioner Carvell said that he had been trying to get the coal interest of Alberta, and other parties interested in freight rates, on the board and discuss the matter.

W. L. Tilston appearing for the Montreal Board of Trade, complained that the application of the railways was not specific enough. He wanted to know what it meant whether it was intended to request an increase in the rates on everything.

P. H. Philpott, representing the Canadian Railway Association, said that the application of the railways was in line with the inter-state commerce commission award.

"We are simply a rubber stamp for the United States," remarked Mr. Tilston.

The chief commissioner objected to this expression. He said that the interests of the public should be considered in the application of the railways.

Mr. O'Leary, representing the city of Buffalo, said that the application of the railways was in line with the inter-state commerce commission award.

Mr. O'Leary died en route to the hospital four hours after the accident without having regained consciousness.

BANDITS POSE AS DETECTIVES, ROB CHINESE CLUB. ESCAPE IN CAR

Secure \$8,000 in Montreal Establishment. One Celestial Beaten Into Insensibility, Another Shot.

Montreal, Aug. 20.—Posing as city detectives, three bandits at an early hour this morning entered the Chinese Mercantile Club on Laguardie street, and after pretending to search the premises for opium, robbed the place of \$8,000 in a fight that took place.

GERMANY MUST ACCEPT TREATY OR BOLSHEVISM

Berne, Aug. 20.—Asked by Swiss newspapers for his opinion on Germany's attitude toward the peace treaty, while passing through Basel on his way to Geneva, Lloyd George replied: "Well, when the Germans have to choose between Bolshevism and the treaty of Versailles, they certainly will choose the latter as the lesser evil."

URGE LONGER TRAINING PERIOD

Important Changes Recommended in Connection With Vocational Work.

Secretary Ed Luce of the soldiers' aid commission has received a report from Ottawa in connection with the complaints made that the veterans were not receiving adequate vocational instruction as a result of complaints made by 1,000 men the vocational advisory board of the soldiers' aid commission at Toronto was referred to a parliamentary committee.

The report received by Secretary Luce follows: 1. That many men, through inaccurate survey or placement, had not received adequate instruction in a suitable occupation at which they could earn a living wage.

2. That there has been too strict an interpretation of the clause in the order-in-council with regard to the disability being "due to or aggravated by service." We recommend that greater latitude be allowed here and that men in every case be given the benefit of the doubt.

3. That there is an unnecessary and needless delay caused by approval of a man's course having to come from Ottawa. We recommend that provincial boards be given authority to grant or deny a course of instruction, subject to the approval of the vocational advisory board.

4. That there is discrimination based on race in the vocational training. We recommend that the arbitrary age limit of 18 years be done away with when it comes to granting a course of instruction or an apprentice. We also recommend that minors be eligible for extension of their training.

5. That the regulation requiring February 15 as the last day for the application of courses has not been given wide enough publicity, and that a very large number of men who otherwise would be eligible were now debarred by this regulation.

6. That the training in industry is in very many cases inefficient, and that it is a burden on the vocational students as cheap labor.

7. That the length of the training in many cases is not sufficient to enable the average disability case to become so proficient that on its completion he can earn a living wage.

LONDON MAY GET NEW HOSPITAL

City May Be Made Centre For Soldiers' Aid Work in District.

London may have a soldiers' aid commission hospital in the near future. The local branch of the soldiers' aid commission has heard considerable comment recently about it not looking after soldiers' children.

The Advertiser today says that the neglect of the soldiers' aid commission is not the fault of the commission, but of the local branch of the commission.

The children as best as it sees it. "I will carry out this act if I have facilities to work with. There are no soldiers' aid commission hospitals in London, and only one is needed, as the majority of the children in that hospital are from Western Ontario."

"If we could get a hospital here, the city would be made the centre for Western Ontario, and we could look after the soldiers' children who are in the Children's Shelter. During the time I have been secretary of the local branch of the commission, I have not seen a child to the Toronto hospital. I did not deem it wise, because the local Children's Shelter looked after them with the greatest of care."

It will not be known for a week or so whether a hospital will be built in London, although the head office practically gave assurance that one would be built in Western Ontario. As London is the foremost place dealing with the re-education of soldiers, and their children, it is expected it will be located here.

Britain With All Her Troubles Will Come Up Again With Smile

Ottawa, Aug. 20.—By the Canadian Press.—Great Britain is having her troubles and lots of them, but she will pull out all right, and maintain her smile upon civilization, is how Sir George Perley, Canadian high commissioner in London, expressed himself today to the Canadian Press.

FATHER OF EIGHT WHO RUNS AWAY WITH WIDOW IS TARRED AND FEATHERED BY OWN SONS

Brantford, Aug. 20.—William Rose of Echo Place found himself chastised severely by his own sons and some of the neighbors the other night, and the verdict of the village was that he well deserved it. He left a family of eight children and shipped over to Buffalo with the widow of his brother, killed in France, and on his return he promptly was captured by his own sons and some of the neighbors, and after a sticky tar bath he was put into the feathers and left to his fate. He has since disappeared.

PENSION BOARDS IN EVERY MUNICIPALITY

Major Murphy Tells of Newly Established Commission.

Major T. J. Murphy of this city has just returned from Toronto, where he attended a session of the Ontario government commission on mothers' pensions, of which he is a member.

The commission is organized at present in organization, and several sessions will be necessary before the machinery of the project will be in working order.

Local boards will be established, said Major Murphy, in every county, city and separate town, and in the judicial districts throughout Ontario. These boards will be organized and will forward them to the commission in Toronto, which will send out investigators to investigate the cases.

POLISH ARMY MARCHING ON BREST-LITOVSK

Siedlce and Bielsk Captured by Right Wing of Army. REDS' HOLD BROKEN. Thousands of Bolshevik Prisoners Taken by Poles in Counter-Offensive.

Washington D. C., Aug. 20.—Brest-Litovsk has been occupied by the Polish army, according to advices received today by the state department from the United States commissioner at Berlin.

Warsaw, Aug. 20.—The extreme right wing of the Polish army is marching on Brest-Litovsk, according to an official statement of the military ministry shortly before last midnight. The right wing has captured Siedlce and Bielsk, about 120 miles from Warsaw.

The Polish left wing has taken Pultusk about 35 miles north of Warsaw, and is continuing its progress in the direction of Miawa. In the centre the Polish forces are marching in the direction of Ostrohenka, 22 miles southwest of Lomza.

Gen. Bonny's soviet cavalry, however, is progressing in the direction of Lemberg, the sector from which the Poles have been obliged to withdraw in order to reinforce the northern front, the Temps says.

300 HOUSES UNDER CONSTRUCTION IN CANADA'S CAPITAL

Ottawa, Aug. 20.—At Ottawa nearly three hundred houses are in course of construction or have been built this year. Building permits to the middle of the present month show that 250 permits have been issued for residences, outside of apartment houses, of which there are about half a dozen. About one hundred buildings have been erected for purposes other than residential.

GOVERNMENT TO BE URGED TO TAKE SOME MEASURE TO RELIEVE HOUSING SHORTAGE

Problem Will Present Itself Again When Summer Ends—More Newly Married Couples Than Recently Constructed Houses and Apartments—Situation Reported To Be Becoming More Serious.

Toronto, Aug. 20.—With the return to the cities within a few weeks of thousands of city people who have been spending the summer months in the open, the housing problem in Canada—as, indeed, in many other parts of the world—is becoming more and more acute.

Reports from many Canadian cities indicate a very little house-building has been done during the summer months, owing to the high cost of labor and materials. There are not nearly enough new houses or new apartments to supply the summer's crop of newly married couples.

Provincial governments and municipal councils have been unable to supply the summer's crop of newly married couples. It has been suggested that the Dominion Government should take the matter up, but it is obvious that the Dominion Government cannot broadcast soldiers and other organizations have on several occasions mentioned the matter incidentally before the Federal Government, and it is expected that during the coming fall a determined effort will be made by such organizations to have the Dominion Government take up the question as a matter of public policy.

30,000 PEOPLE IN MONTREAL SAID TO BE WITHOUT HOMES

Montreal, Aug. 20.—The housing conditions in Montreal, while better now than they were, are by no means normal and it is expected that the situation will become very critical when all the people who are at present away for the summer return to the city.

IRISH SKIES CLEARING.
Holding promise of clearing skies for Ire-
land is the cable from Dublin that leading
moderates of both factions will gather at the
Irish capital to discuss a way out of the present
deplorable situation. These men are on record
as approving a measure of self-government
similar to that of Canada, Australia and New
Zealand, and recent utterances and actions of
Premier Lloyd George indicate that he is pre-
pared to make the concession. This would give
Ireland an advanced system of home rule but
would not remove the control of the crown. This
moderate view is the stand taken by the sanest
and most solid sections of the Irish populace,
the hard-working small farmer, who has been
able to become prosperous through British land
legislation, the merchant, the stockman, the
banker. These progressive, steady-going ele-
ments of Ireland see their prosperity and secu-
rity disappearing through the confusion and dis-
order brought about by the Sinn Feiner. They
know that separation would cut off to some ex-
tent the present splendid market at their door.
So far this element has been at the mercy of
the extremists of both sides, compelled to at
least morally support the infamous campaign of
murder and outrage that has turned Ireland into
a hell. That they have got together, taken a
stand for moderation, is distinctly an encour-
aging sign. United they hold a powerful influ-
ence that can be used to good effect upon the
irreconcilables of both factions.

MEIGHEN'S "ECONOMY."
Two billions of dollars is the amount of
Canada's national debt, according to an official
statement. It is interesting, to note in view of
Mr. Meighen's loudly-proclaimed intention to be
economical, that within the last year the Ottawa
administration, of which he was a leading mem-
ber, added more than sixty-five millions to the
debt. Piling one stupendous sum upon another
can end but one way—collapse and disaster. A
new hand is needed at the wheel if Canada's
ship of state is to escape the rocks. Care in
spending and a statesmanlike use of the coun-
try's natural resources are required if the debt
is to be kept down and wiped out. Mr.
Meighen's whole parliamentary record shows
little indication that he is the man for the job.
On the other hand, the Liberal platform and
the Liberal leader's public career hold promise
of a businesslike administration that will include
development of rich natural possibilities and of
advance socially and industrially.

WOMEN JURORS.
In Great Britain woman suffrage has slid
along to its corollary, jury service. Women
are hereafter to take their turn along with men
on jury panels, except that wives will not be
called upon unless they have property in their
own right. How soon will this come about in
Canada?

The British are seeing to it that husband
and wife shall sit together on a jury. How
could they ever agree? There must be a jury
divorce. Or rather one of the couple must be
looking after home affairs.

Women will doubtless make wonderful
jurors or juries. Keeping silent during the
hearing will be something of a trial to them-
selves, but when the jury has withdrawn, its
deliberations will be full of eloquence. The
case will be logically threshed out, and be-
sides women's logic, memory and command of
language, there is also their intuition to be
taken into account. Woe to the criminal who
has to face all through his trial the curious and
intuitive eyes of the severe juries. Their en-
forced silence during the law's delays will
only make the explosion of the verdict more
terrible when it comes.

The great question of costume and hats
will have to be considered, and perhaps even
solved. Ladies will naturally "doll up" for such
solemn occasions, like English peeresses for
their court functions. It is easy to imagine
that many a courting will take its start from
a courtroom introduction. Being thrown together
on shipboard is not to be compared, for novelty
and excitement, to joint action on a jury. Tea
will have to be served to the members, the fore-
lady perhaps "pouring." Trials will take on a
social character, with a dance round the pris-
oner's empty box to close the proceedings, ex-
cept in the case of a capital punishment. Oh,
the days that the new generation is going to see!
Life in the courts, formerly marked by heavy
words and heavy bills, will fall to billing and
cooing. Women will have their way.

A PARLIAMENTARY ANECDOTE.
R. B. Bennett of Calgary, formerly one of the
stalwart Conservatives in the House of Com-
mons, has been appointed a governor of Dal-
housie University, at Halifax. While a law
student there Mr. Bennett was a pupil of Hon.
William Pugsley, at that time a member of the
law faculty, and with whom he was destined to
have many an encounter on the floor of the
House of Commons in later days.
On a certain occasion Mr. Bennett was steer-
ing a rather tortuous passage in endeavoring to
fix the blame for certain happenings on the then
minister of public works, his old teacher. At
the conclusion Mr. Pugsley rose, and with that
suave manner for which he was renowned, said:
"I must compliment the gentleman from Calgary

on the way in which he has made much out of
little during the last half-hour."
Mr. Bennett was on his feet at once. "Any
facility I may have in that way I owe to my
former master," he said with a gracious wave
of his hand and a courtly bow.
"Ah," said Mr. Pugsley, "but the pupil had
far outrun his master."
The retort was greatly enjoyed by both sides
of the House.

A PRECEDENT FOR THE U. F. O.
Some of the U. F. O. leaders profess to have
little use for the lawyers as lawmakers. One
might wonder whether they have ever heard of
the famous "Unlearned Parliament" at which
Henry IV. summoned at Coventry in 1404 at a
time when he was hopelessly impecunious.
Henry, in his writs to the sheriffs, directed them
to return no members who had ever studied
law or pleaded in the courts. Henry seems to
have held the view that those who raised con-
stitutional points and led the debates into dis-
cussions on prerogative or the old rights of
the crown were those who had received a legal
education. But though the lawyers on this
occasion were absent, there was enough busi-
ness talent among the "unlettered knights" to
raise a long discussion about the unsatisfactory
administration of the realm and its finances.
They debated and wrangled for thirty-eight days
before they gave Henry his money. An old
chronicler says of this body: "It was stiled
Parliamentum Indocorum; but not that it con-
sisted of more blockheads than parliaments
ordinarily do."

EDITORIAL NOTES.
The Polish war machine appears to be hit-
ting on all cylinders.
Meighen announces that he is a stand-
patter. That way lies stagnation.

A noted American alienist says all baseball
fans are crazy. So now anybody can kill the
umpire and get away with it.

Pancho Villa and Bill Hohenzollern have
been compared to one another. When Pancho
hears of the insult he may be moved to new
atrocities.

The Sandwich council has found itself not
guilty, as charged by Rev. Mr. Spracklin. And
still theatrical people complain of a lack of
comedy situations.

AN IMPOSSIBILITY.
[Saskatoon Phoenix.]
The Canadian people have learned at least one
sound lesson as the result of Union Government.
They know now that statesmen cannot be made
out of politicians.

WILL MAKE CANADIANS.
[Hamilton Times.]
Canada is getting many old country and United
States settlers to fill up the waste places of the
Northwest. We do not know that we could get
any better. We are not afraid of the Americans
proving anything but good Canadians.

A HAPPY MEDIUM.
[Belleville Daily Ontario.]
The movies occupy a very worthy place in the
world both as amusement and as education, but
you cannot bring up a generation of men and
women of the minds of that generation what it
would be if it were brought up more on the church.
Even balladry would be an admirable alternative.

DEAR BERRIES AND DEAR SUGAR.
[Montreal Gazette.]
Bradstreet's weekly report of Montreal trade
conditions says that large quantities of strawberries
were sold in the fruit markets in the last few days
at as low as five cents a box retail. The reason
given is that sugar is so dear, the making of pre-
serves by housekeepers is on a very small scale
and the berries are being sold in the city stores at
25 cents to 45 cents for very small and for ordinary boxes
respectively. It was the combination of dear
berries and dear sugar that kept the business down.

PASSING OF THE SEASONS.
[Quebec Telegraph.]
It seems as though we had just ceased to
grieve about the late spring, with its excessive
rains and lack of sun, and now midsummer is upon
us and signals of approaching autumn are in view.
The hay fields, but yesterday standing and green,
are now brown, the brown under the torrid sun.
Where on the verge of the woods a deer might have
lain hidden, not a score of miles from town, and
within an hour's walk of the city, the wind
within an hour's walk of the city, the wind
yellow green is commencing to show at the head
of the oats. The streamers of the occasional patches
of corn rustle with a rustling as the wind
steals over the field and stirs the pale green leaves.
The birds hatched in spring and early summer
are abroad teaching their first lessons of life. Robins
and chipmunks and some sparrows and other familiar
friends have become more than ever, and from each
company of the black rascals encountered is heard
the call for food of the exuberant young. In
the deep dark green of mature frondage has
overpread woodland and swamp, and the leafy
canopy hides all beyond. Where in winter one
could see the trunk of the tree, now the stems and
branches, now the vision is limited to arm's length.
So the season has marched along. Yet now
appear signs more tangible and more sure. Swallows
are roosting on the telegraph wires and the evidence
of an approaching departure for the south. Blackbirds
are gathering in flocks and resorting to the wet
meadows, where wild plants will soon mature their
seeds.

Ever since the end of last winter all things
have been growing. Now comes the season of
ripening, to end in maturity, to be followed by the
season of rest, and so the annual cycle repeats
itself.

IT'S TIME FOR A CHANGE.
[Farmers' Advocate.]
If we may be allowed to use an out-worn polit-
ical slogan, it can well be said regarding our present
social conditions that "it's time for a change"; not
in our laws and institutions only, but in the hearts
of Canadian citizens. Nine-tenths of the people
have been kicking and knocking and slandering for
five years, while the other tenth have been lining
their pockets and waiting for something to happen.
But nothing has happened because there is no solid,
reliable leadership. One must rant and
"knock" to be a leader, while a booster is looked
upon with suspicion or rushed away to the nearest
alienist and examined as to his sanity. The cool,
level-headed, conscientious servant of humanity is
swallowed up in the mob, and the sound of his
voice is not audible. Governments, good and bad
alike, are tottering, because the church is struggling
to retain its grip on the people who were once
sober and devout. Soap-bow orators with
nothing at their command but a flow of invectives
and indecipherable verbiage will draw a crowd, while
a sane lecturer would not attract twenty-five people
in a small town if there happened to be a moving
picture show or some other place to go. Some
farmers, too, are so dissatisfied with conditions that
they go about reforming the world while the thistles
grow up in their fields and infest the neighboring
farms whose owners are prosperous and contented.
Everyone has a different tale to relate, a different
desire to be gratified, a different rate of inter-
est. It is a time for some good hard thinking.
"Divine discontent" has brought about many good
reforms, but discontent is carrying all classes out
into the night. Agitation is all right when we
agitate for something definite, something tangible.
There should be some well-defined principle for
which to strive. Let us construct; let us build
something, rather than tear down and demolish.

COULDN'T HOLD PEN IN HIS HAND

Was Disabled by Rheumatism—Gains Twenty Pounds and Gets Rid of Trouble.

"For two years I was not able to do a
stroke of work and could only lay
around and suffer. I had lost the use
of my right arm and hand entirely, and
could not so much as hold a pen to write
my own name. And yet today I can do
as good a day's work as any man thirty
years younger than myself. I haven't
felt finer or better or stronger since I
was a boy than I do today, and I give
the entire credit for this remarkable
change in my condition, to five bottles
of Tanlac."
Surely a more remarkable tribute was
never paid to any medicine than this
simple straightforward statement of the
facts made by John Pixton, a well-
known farmer of Treherne, Manitoba, to
the Tanlac representative recently. In
describing what the medicine did for
him, Mr. Pixton said:
"For five years I didn't have a well
moment. My trouble started with acute
indigestion. My food would sour and I
would get so full of gas as to be hardly
able to breathe. I rarely ate meat and
nothing could induce me to eat cheese
because I knew it would nearly kill me.
Then I had severe cutting pains across
my back just over my kidneys that felt
as if a knife was being stuck into me
and stay and get so stiff that I could
scarcely walk or bend over. Occasion-
ally I would have a pain shoot through
my entire body that felt like an electric
shock. I was told that nothing gradual-
ly got worse until I was helpless. I
spent over a thousand dollars on medi-
cines and liniments, but they failed to
do me any good at all, and I had just
about given up in despair.
"Then one day I read in the papers
the statement of an old schoolmate of
mine, telling of the good Tanlac had
done him. I made up my mind to try
it, and now I think it is the greatest
medicine in the world. I've taken five
bottles of it altogether, and I want to
say that I haven't had a twinge of
rheumatism since. All the stiffness and
soreness has gone out of my knees, and
I can walk along at a good gait for any
distance as good as anybody. I can use
both arms and hands and the pains in
my back have also disappeared. I now
enjoy a good meal; my food agrees with
me, and I have gained twenty pounds in
weight. It is fully a year since I took
my last dose of Tanlac, but I remain in
perfect condition all the time and
don't give up in despair.
"I wonder I am enthusiastic about Tanlac,
and never hesitate to recommend and
praise it to everybody."
Tanlac is sold in London by Standard
Drug, Limited, and by an established
agency in every town.

ful; it need not be luxurious, but must
have good acoustics. The project in-
cludes one or two smaller halls for re-
hearsals and other purposes, and a
scale, and in addition, rooms for
classes in musical education, and
the necessary arrangements for giving the
public a chance to hear the best music,
either free, or perhaps some days at a
small entrance fee, as in the museums.
An institution of this character would
deserve commendation itself to many in
Quebec.

**"THE LITTLE ROSE IS DUST, MY
DEAR."**
[Grace Hazard Conkling.]
The little rose is dust, my dear;
The elfin wind is gone;
That sang a song of silver words
And coiled our hearts with dawn.
And what is left to hope, my dear,
Or what is left to say?
The rose, the little wind and you
Have gone so far away.

BE PRETTY! TURN GREY HAIR DARK
Try Grandmother's Old Favo-
rite Recipe of Sage Tea
and Sulphur.

Almost everyone knows that Sage
Tea and Sulphur, properly compound-
ed, brings back the natural color and
lustre to the hair when faded, streak-
ed or gray. Years ago the only way
to get this mixture was from a
chemist, who would mix it up for you
and send it to you in a bottle. Some-
times, nowadays, by asking at any
drug store for "Wheat's Sage and
Sulphur Compound," you will get a
large bottle of this famous old re-
cipe, improved by the addition of
other ingredients, at a small cost.
Don't stay grey! Try it! No one
can tell you that you darkened
your hair, as it does it so naturally
and evenly. You dampen a sponge
with water, dip it in the Sage and
Sulphur Compound, and draw this
through your hair, taking one small
strand at a time; by repeating this
application or two, your hair becomes
beautifully dark, glossy and attractive.

McGINNESS-DIXON. On Wednesday afternoon, August 18, Miss Katie L. Dixon, daughter of Mr. and Mrs. John of Bonwick avenue, became the bride of Mr. Peter J. McGinness, nephew of Mr. John T. Todd, 759

William street, Rev. Mr. Norton officiating. The bride was Miss Emma Dixon and the groom, Mr. J. F. Todd. The bride was charmingly dressed in navy blue georgette and carried a bouquet of roses. The happy couple will reside in South London.

McNAUGHTON-READ. A pretty mid-summer wedding was solemnized on Wednesday afternoon at the residence of the bride's parents, Mr. and Mrs. R. H. Read, 835 King street, when their daughter, Edna Louise, became the bride of Mr. Harry W. McNaughton of Walkerville, son of Mr. and Mrs. W. McNaughton, Grosvenor street, Rev. H. T. Ferguson, B. A., B.D., from the Centennial Methodist Church, of which the bride has been a valued member, was the officiating clergyman. The house was profusely decorated with roses, ferns and summer flowers, the color scheme throughout being pink and white.

Promptly at 4 o'clock the bride, wearing on the arm of her father, entered the drawing-room to the strains of the wedding march played by Mr. Bert Weir. The bride looked beautiful in her white bridal gown of accordion pleated tulle, jersey and tulle, with a brodered georgette, trimmed with pearls. A white tulle hat, exquisitely embroidered in pink, completed the costume, and she carried a shower bouquet of pink roses and sweet peas. The young couple were attended by the small niece and nephew of the bride, little Miss Nina Logan, in a dainty white frock, and a young girl, and Master Murray Logan as ring-bearer. During the signing of the register Miss Helen Thompson sang very sweetly "Until".

Following the ceremony and congratulations, the guests, numbering about 55, repaired to the dining-room, where a sumptuous wedding breakfast was served. The table was beautifully decorated, the bride's cake being arranged with the bride's cake and roses.

The groom's gift to the bride was a substantial check, to the flower girl a pair of bracelets, to the soloist a pearl brooch and to the pianist a pair of gold cuff links.

Mr. and Mrs. McNaughton left on the 9:12 G. T. R. train for Windsor, where they will take the boat for a honeymoon trip down the lake, and on their return they will reside in Walkerville.

HOME ECONOMICS MRS. ELIZABETH KENT, MacDONALD COLLEGE.

MEAL-TIME. It is not only what we eat, but how we eat it, that affects our digestion, and hence our health. As Shakespeare has it, "Now good digestion wait on appetite, and appetite on food, the difference is real and great between the animal who desires only to satisfy his hunger, and the man who has not only hunger, but a dozen other instincts, individual and social, to satisfy when he comes to the table."

Meal-time brings the family together, and is thus inevitably a social function, and social life has largely grown up around eating. Everything about the meal should promote cheerfulness and kindness among the members of the family sit down together and to remain together until the end of the meal means much to the atmosphere of the home. Nobody really likes to eat alone. You should see your wife or a mother go and sit with the belated traveler, whose meal would else be a hurried, desolate, Jersey and tulle.

A big factor in the education of the child is in his home training at the table, to appreciate good food, to handle properly the tools of eating, to feel and show consideration for his everywhere, to interchange delegates from industrial and student bodies, as has been done in the United States.

It is the aim of such conferences as this to correlate the activities of girls everywhere, to interchange delegates from industrial and student bodies, as has been done in the United States. It was also recently tried out a system, not yet attempted in Canada, by which boards of the Y. W. C. A. organizations, general members, secretaries and girl members all meet together and talk out problems.

'Y' DELEGATES BACK FROM CONFERENCE OF INDUSTRIAL CLUBS Mrs. John Crawford Gives Report of Discussion on Industrial Problems.

Mrs. John Crawford, the industrial secretary of the local Y. W. C. A., in an interview with an Advertiser representative yesterday gave an account of industrial conference of the Y. W. C. A. at Centre Island, Toronto. Mrs. Crawford chaperoned a party of eight delegates representing eight out of the ten Girls' Industrial Clubs of this city, who attended the conference. Delegates were also present from Kingston, Galt, Guelph and other outside centres. The meetings were held at the holiday house of the Y. W. C. A. at Centre Island.

The conference opened on a Saturday afternoon with sports, an object lesson in baseball being given by the Toronto girls. Saturday evening a number went to the city to hear Miss Violet Tench, one of England's greatest social workers' speakers, lecture on "Social Problems of the Day."

Splendid talks were given in the evening by Miss Pearce, the general secretary of the Y. W. C. A., on "What the Y Stands For," and by Miss Brown of Victoria University on "What the Industrial Clubs Stand Out of." An open discussion, led by Miss Graham of Toronto, followed, in which all sides of the industrial problem as it affects the girls of today were discussed.

Committees of Appeal. The conclusion reached by the delegates as a working solution of this industrial problem was that every industrial organization and firm should be a definite unit in the community. Employees should be represented through a committee composed of the managers and foremen of the plant or firm and a few employees, through the committee there should be right of appeal at any time. A community council of representatives from separate plants should be organized to discuss industrial problems pertaining to the interests of all concerned.

It was agreed that the "Y" as a community center, standing as it does for a desire to raise any branch of industry to an honored profession for the girl of the day should be represented on this committee.

A Call to Service. The girls present agreed that the industrial worker was called upon to serve his country and to contribute to the general morale as fully as a soldier might be, and those present bound themselves to foster and encourage the spirit. As an aiding factor they recommended a judicious division of spare time between self-education and wholesome recreation. The exigencies of the education found in their work alone tended to depersonalize and destroy individuality. The Y. W. C. A. present agreed that this organization could help in this project. It was pointed out that in the United States

TALKS ON HEALTH

BY WILLIAM BRADY, M. D., Noted Physician and Author.

Training the Heart Muscle. Medicine, intelligently prescribed to meet the immediate requirements of the patient who has heart trouble, is a godsend. No one can surmise what that medicine should be, if any medicine is needed, except the physician who has examined the patient personally at the moment. Medicine which may be a valuable aid in recovery and cure today and tomorrow, may do harm if administered day after tomorrow, on account of the changed conditions.

Another popular delusion regarding heart disease is that the subject with a diseased heart must never take any exercise or exert himself in any way if he can possibly avoid it. The truth is that increasing doses of exercise will accomplish more in the way of restoration of normal function in a case of valvular disease or heart trouble than any other means. A physician should be consulted for a course of rest and exercise, and the patient should be taken from day to day, according to his daily observation of the condition of the heart. This system is the thing well-to-do victims of heart disease used to go to Europe to obtain. It is the kind of "cure" administered at the great Spas of France and Germany and as readily obtainable in some of the better sanatoriums on this side of the water. It is available to anybody any place where a doctor's expert care is to be had, whether the patient needs any medicine or not. The swarms of short-cut fact-bearers tell the dear old public so many about "pills and potions" that much people scarcely realize that one of the sturdiest and most successful of the treatment educated physicians prescribe.

QUESTIONS AND ANSWERS. The Ice-Bag and the Appendix. I know of a case in which the ice-bag was applied constantly for a fortnight. It was supposed to be a case of spinal meningitis. I think the abnormal temperature of the head caused by the ice had more to do with the fatal result than the disease itself. ANSWER—When I was a boy, the first case of appendicitis in our town was treated by the ice-bag, and Auntie Bundle was very active at the time, and she used to carry bulletins to all the neighbors. The patient succumbed, and Auntie Bundle issued a bulletin of her own to the effect that the poor thing's stomach was friz by them crazy doctors. An ice-bag often relieves pain, but it produces no measurable change in the temperature of organs or deep tissues beneath.

The Cave Dwellers. I enjoy surf bathing but the sun burns me terribly. I do not tan, but burn right through. Can you suggest some prevention I can use before going into the water to prevent this? (B. M.) In exposure to the sun on the beach, harmful to a child? My family live near the water and the children play on the beach. Should they keep their hats on, or stay indoors, or play under shade in the heat of midday? (G. H.) How many times a week may one go swimming without injury to health? How long may one remain in each time? Does it make any difference whether it is fresh water or salt water? How many days must a girl discontinue swimming each month—a girl 18? Is it harmful for a prospective mother to go in? (Mrs. E. W.) ANSWER—Liberal use of cold cream

EFFIE. By Mildred Marshall. (Copyright, 1920, by the Wheeler Syndicate, Inc.) The delightful little name of Effie, which signifies "fair speech," came into vogue in Scotland at a very early stage in the etymological history. In modern times it is regarded as a contraction of Effie, but it had no early association with the longer name. Effie comes originally from the name Aofie, which has proved the progenitor of so many of our modern feminine names.

"Effie of Scotland" is a term frequently used in the history of feminine nomenclature, though the Highland name is now Aofie. Effie spread to other countries through the migration of Aofie into Africa. In the beginning of the twelfth century, Africa, daughter of Fergus of Galway, married Olaf, King of Norway. Olaf and her daughter Effie married Somerled, Thane of Argyll and Lord of part of physical trainer, prescribing precisely what exercise and how much is to be taken from day to day, according to his daily observation of the condition of the heart. This system is the thing well-to-do victims of heart disease used to go to Europe to obtain. It is the kind of "cure" administered at the great Spas of France and Germany and as readily obtainable in some of the better sanatoriums on this side of the water. It is available to anybody any place where a doctor's expert care is to be had, whether the patient needs any medicine or not. THE DOG THAT CHANGED PLACES WITH A BOY. Part Four. Rocks felt sure he would feel uncomfortable in Johnny's stiff collar and cuffs, but as the day went by he found that he did not mind them at all. It was just as if all the outside of him was Johnny the boy, while the inside of him was Rocks the dog.

"Now, I have lots of work to do, run out and play! How Rocks had longed to have the freedom of the world when he had been a dog, and now that he had changed places with a boy that freedom seemed to be his. What romping he could have with his old mother in the back-yard, for he felt sure that Fan, his mother, would have missed him and would be searching everywhere for him to play! Imagine Rocks' dismay when he ran out in the yard and old Fan growled at him.

And that's just exactly what Johnny was asking himself, for the boy who had turned into Rocks was staring at his own image and wondering how it had all come about. Around the corner the Sandman was laughing to himself. Why old Fan, he was responsible for all this—but can we blame him, for before they had gone to sleep the night before hadn't Johnny wished he were a dog and hadn't Rocks the dog wished he were a boy?"

For a "Great" Vacation try the Great Lakes Trip by Canadian Pacific Steamer

FOR when the mercury is playing around in the upper eighties, and you wish Henry Ford would invent a self-refrigerating collar, do you ever stop to remember that the temperature of Lake Superior never rises above 40 degrees? What if you don't spare the time for a long holiday? The Canadian Pacific Railway's Clyde-built steamships make a five-day trip from Port McNicoll to Port William and back, during which you can be as cool as an Eskimo and as comfortable as a clubman.

Roomy cabins, the best of chefs—oh, those broiled Lake Superior whitefish!—on a deck under the lazy awnings—seagulls against the long, northern sunset—and a breeze from a thousand miles of clean pine woods, on duty twenty-four hours in the day.

Then—if you find you've got more time than you counted on—how about a week on the Niagara River, forty miles from Port William, with guides, canoes, and camp fires and white water under the moon—and more speckled trout than you know what to do with?

How do you get there? That's easy. You can write, or see any Canadian Pacific Ticket Agent, or W. B. HOWARD, District Passenger Agent, CANADIAN PACIFIC RAILWAY, 1 King St. East, TORONTO, ONT.

CANADIAN BOXERS EXPECTED TO TAKE HONORS AT ANTWERP

Archie McDiarmid of Vancouver Wins Place in the Weight-Casting Contest.

Antwerp, Aug. 20.—Canada and the mother country figured in the opening events of the sixth day of the seventh Olympiad this morning. P. Hodge, one of the star distance men of the British team, won first place in the final heat of the 3,000 metre steeplechase, while Archie McDiarmid of Vancouver won fourth place for Canada in the 56-pound weight event.

Fetes at the Antwerp Zoological Gardens.

Some Crack Boxers. The list of boxers who are entered to represent the Dominion includes: Harry Turner, Montreal, 112 pounds; Walter Newton, Toronto, 125 pounds; Billy C. Rankin, Edmonton, 125 pounds; Clarence Newton, Toronto, 135 pounds; Albert Schneider, Montreal, 147 pounds; Corp. A. Prudhomme, London, 160 and 175 pounds; M. M. Hecocovitch, Montreal, 160 and 175 pounds.

Great Britain was expected to figure strongly in the boxing events. The British have entered competitors in all of the eight classifications, the other entries including, besides Canada, the United States, South Africa, France, Switzerland, Holland, Norway, Italy and Belgium. The preliminaries in the various weights are to be held in the morning, and afterwards with the finals at night, in order not to conflict with the events at the stadium.

MANUFACTURERS' BALL

In a fast game last night the Grand Trunk practically won the silverware when they defeated the Empire Brass in a Manufacturers' League fixture by the score of 5 to 0.

PONTON GETS SECOND PLACE. Antwerp, Aug. 19.—(By The Canadian Associated Press)—Alex. Ponton, Toronto, was second in his heat in the 200-metre race at the Olympic games today. He was beaten by a yard by Davidoff of New Zealand, whose time was 22 3/5 seconds. Ponton ran a strong race.

BONDS—Toronto, Aug. 20.—Prices advanced on the Toronto exchange this morning, a buying movement started on more optimistic news from Europe and glowing reports of crop conditions throughout the Dominion. Transactions were light in volume, but were spread over a larger number of issues than yesterday. A steady movement started on yesterday's advance, selling up to 148, with the moon close at that figure, while the preferred stock sold at 144 and dividend, Brazilian was steady, but Spanish silver river very light offerings gained 2 points to 115; the preferred stock of 5 points up at 125. Toronto Railway Corporation and Steel of Canada both made fractional advances. TORONTO STOCK EXCHANGE. (Reported by Edward Cronyn & Co.) Toronto, Aug. 20.—

BEGIN ARGUMENT UPON RAILROAD CHARGES TODAY

All Evidence Has Been Put In—Carvell Tries To Speed Up Case.

TO WIND UP THIS WEEK Coyne Contends Increase On International Traffic Will Be Large.

OTTAWA, Aug. 19.—(By Canadian Press)—All the evidence having been put in, argument in the railway rates case will be commenced tomorrow morning. It is expected that the various cases will not be heard until after noon Saturday and an effort may be made to wind up the hearing on Friday evening.

SPARE NO EXPENSE.

Toronto, Aug. 19.—If necessary this city will spend from \$5,000 to \$25,000 in fighting the increase in the Bell Telephone rate, says Mayor Church this morning. "This agitation for higher rates, coming just at a time when prices are subsiding, must be checked. We will organize for a fight at a meeting to be held in the city hall next Wednesday. The city will also oppose any increase in excise charges, and the railway board will be asked to hold a sitting in Toronto on the proposed increase to the Bell Telephone."

KINGSTON ALSO OPPOSED.

Kingston, Aug. 19.—City council last night passed a resolution opposing the proposal of the Bell Telephone Company to increase its rates.

GOVERNMENT DEFEATED.

LONDON, Aug. 19.—(By Canadian Associated Press)—The Government of Victoria, Australia, has been defeated in the House of Assembly by a vote on the public service bill.

JELICOFF LEAVES.

LONDON, Aug. 19.—(Canadian Associated Press)—Viscount Jellicoff left today for New Zealand to assume his duties as governor-general.

Would Mean Million.

Assuming that the international traffic was twenty per cent of the whole, Mr. Coyne then asked if it was not a fact that the decision of the railway commission granting an increase in through rates would mean a million dollars a month to the C. P. R.

Mr. Coyne asked him if a considerable proportion of the business of the C. P. R. was international.

Mr. Moulie replied that the C. P. R. did a considerable international business.

FINISH HEARINGS FOR LAKE CARRIERS

WASHINGTON, Aug. 19.—Hearings were concluded today on the application of about 60 Great Lakes and coastal steamship lines filed with the shipping board for rate increases in conformity with advances granted the railroads by the Interstate Commerce Commission. The board plans to act on the applications before next Thursday, when the rail rates become effective.

Representatives of carriers and shippers testified today, the latter making no protest against a general increase for water carriers, but urging that part of the additional revenues go for "increased facilities."

Application of the Great Lakes Transit Corporation for a freight increase of 40 per cent was opposed as unjustified by F. R. Levine, representing shippers at Duluth, Minn. The corporation has had no deficit, and pays an annual dividend on its common stock, he said.

Mr. C. A. Donnelly of Chicago, representing the Michigan Transit Company during the first six months of this year had only earned three-tenths of one per cent on its investment, while Mr. Zillmer, Cleveland, representing the Cleveland and Buffalo Transit Company, said that company during the last fiscal year lost \$123,115.

MOTHERS' PICNIC WAS HELD AT SPRINGBANK

On Wednesday afternoon the Tecumseh School Mothers' Club picked at Springbank, and invited their husbands and families. A baseball game was played between the men and women, the score being 16 to 31 in favor of the men. Following a program of races and other amusements, the following were the winners in the various events were:

Pat men's race—Mr. Wilson.
Thin men's race—Mr. Tapp.
Fat ladies' race—Mrs. Holtz.
Thin ladies' race—Mrs. McEwen.
Married ladies' race—Mrs. Tapp.
Single ladies' race—Eleanor Boyce.
Single men's race—W. M. McEwen.
Small boys' race—Fred Tapp.
Girls' race—Marguerite Thorne.

LABOR LEADERS ARE OPTIMISTIC ABOUT STRIKERS' RELEASE

Feel Sure Winnipeg Men Will Be Free in the Near Future.

WINNIPEG, Aug. 19.—As a result of an interview with Hon. Hugh Guthrie, solicitor-general of the Dominion, hopes for an early release of the Winnipeg strike leaders are very strong, according to a statement made by F. J. Dixon, M.L.A., who returned from Ottawa this morning. Other men who were in the party that met Mr. Guthrie were: A. E. Smith, M.L.A., of Brandon; Peter Heenan, M.L.A., and Mayor M. MacBride of Brantford, representing Ontario.

Mr. Dixon said that they met Mr. Guthrie and Senator Robertson, and that the results of the meeting were very satisfactory. The solicitor-general, Mr. Dixon asserted, promises to consider the whole matter of the men's release, but would not give a decision concerning them. Mr. Dixon added, however, that the members of the party were optimistic as a result of Mr. Guthrie's promise, and felt sure that the strike leaders would soon be free.

WEST MISSOURI FARM TRANSFERS

THORNDALE, Aug. 19.—West Missouri farms are in great demand this season, and have been changing hands frequently during the past few months. The MacMurray-Wilson real estate firm of London has disposed of the following: A. A. Simmons' 100-acre farm at Kintore to A. Sandie of Ballymore for \$18,500; William Kenney's 100-acre farm, concession seven, West Nisouri, to L. O'Neil, North Dorchester, and H. Mossop's 50-acre farm, concession three, to James Harris of London, for \$5,500. The new owners will take possession this fall.

RELIEF TRAIN WITH REFUGEES FROM FIRE REACHES KAMLOOPS

KAMLOOPS, B.C., Aug. 19.—(By Canadian Press)—A relief train bringing injured and refugees from a great forest fire along the North Thompson River, has arrived here. The fire is supposed to have started on Aug. 1 from lightning, and was fanned into a great flame by a wind early this week.

ENORMOUS LOSS OF LIFE FROM FLOODS

HONOLULU, T.H., Aug. 19.—Tremendous floods are sweeping portions of the islands of Kishu and Shikoku southwest of Honshu, the principal island of the Japanese group, overwhelming towns and villages with an enormous loss of life reported, according to cable advices to Nippu Jiji, Japanese language newspaper.
