MAY IT PLEASE YOUR EXCELLENCY :

The House of Commons have elected me as their Speaker, though I am but little able to fulfil the important duties thus assigned to me.

If, in the performance of those duties, I should at any time fall into error, I pray that the fault may be imputed to me, and not to the Commons, whose servant I am, and who through me, the better to enable them to discharge their duty to their Queen and Country, humbly claim all their undoubted rights and privileges, especially, that they may have freedom of speech in their debates, access to Your Excellency's person at all seasonable times, and that their proceedings may receive from Your Excellency the most favorable consideration.

The Honorable the Speaker of the Senate said:—

MR. SPEAKER,

I am commanded by His Excellency the Governor General to declare to you that he freely confides in the duty and attachment of the House of Commons to Her Majesty's person and Government, and not doubting that their proceedings will be conducted with wisdom, temper, and prudence, he grants, and upon all occasions will recognize and allow, their constitutional privileges.

I am commanded also to assure you, that the Commons shall have ready access to His Excellency upon all seasonable occasions, and that their proceedings, as well as your words and actions, will constantly receive from him the most favorable construction.

His Excellency the Governor General was then pleased to open the Session by a Gracious Speech to both Houses.

*Honorable Gentlemen of the Senate :*

*Gentlemen of the House of Commons :*

It is my pleasing duty on the opening of a new Parliament to congratulate you on the auspicious circumstances under which you will begin your labors.

*Canada* is in the enjoyment of peace and prosperity, and all her industries, agricultural, manufacturing and commercial, are in a healthy and improving condition.

Following the example of my distinguished predecessor, I paid a visit of some length to *British Columbia* last season. The great natural resources of that Province promise that as soon as the *Pacific Railway* is completed, an impulse to its prosperity, commensurate with the progress made elsewhere, will be assured. Meanwhile, the disposal of the lands set aside in aid of the Railway to actual settlers will add to the importance and wealth of the Province.

While passing through the *United States* I was rejoiced to observe many evidences of regard for the Empire of which this country forms so large a portion. May this friendship, which is so fully returned by us, be as enduring as it is natural and advantageous to the mutual interests of both great nations.

The steady flow of settlers into *Manitoba* and the *North-West* Territories last year, and the assurances received of an increased immigration during the coming season, promise well for the early development of those fertile and salubrious regions.

It is important that the laws relating to the representation of the people in Parliament should be amended, and the electoral franchises existing in the several Provinces assimilated. A measure for this purpose will be submitted for your consideration.

I am advised that the Judgment of the Lords of the Judicial Committee of the Privy Council delivered last June on the appeal of *Russell versus the Queen*, goes to show, that in order to prevent the unrestrained sale of intoxicating liquors, and for that purpose to regulate the granting of shop, saloon and tavern licenses, legislation by the Dominion Parliament will be necessary. Your earnest consideration of this important subject is desired.

Your attention is specially invited to a measure regulating Factory Labor and the protection of the workingman and his family.

Bills for the consolidation and amendment of the laws relating to the Customs, the Militia, and the Public Lands, will be laid before you.

Among other measures Bills will be presented to you respecting the Civil Service, the Acts relating to Banking and the examination of Masters and Mates of vessels navigating our inland waters,

I am glad to be able to inform you that the progress of the *Canadian Pacific* Railway has been quite unprecedented. Traffic can now be carried on the main line from *Thunder Bay* to within fifty miles of the crossing of the *South Saskatchewan*, a distance of over one thousand miles. It is confidently expected that the *Rocky Mountains* will be reached during the present year, and that within the same period substantial progress will be made on the *Lake Superior* Section of the Railway, and the track laid upon a large portion of the road now under contract in *British Columbia*.

I have also pleasure in stating that the traffic on the *Intercolonial Railway* is largely in excess of any former year, and that the balance in favor of the road shows a gratifying increase.

*Gentlemen of the House of Commons:*

The accounts of the last fiscal year will be laid before you.

You will be pleased to learn that, notwithstanding the expenditure on Capital account amounted to more than seven millions of dollars, the surplus of the Consolidated Revenue, together with the proceeds of the sales of the lands in the *North-West* during last year, were more than sufficient to cover that expenditure, and that the net debt at the close of the year and the amount of interest paid thereon were less than for the year previous.

The Estimates for the ensuing year will also be submitted. They have been prepared with all due economy consistent with the necessary development of the varied resources of the Dominion.

On the first of January, 1885, the large 5 per cent. loan will mature. A Bill will be submitted authorizing the issue of Debentures bearing a rate of interest not exceeding 4 per cent. for the redemption of this loan.

*Honorable Gentlemen of the Senate:*

*Gentlemen of the House of Commons:*

The subjects I have mentioned to you are of much importance, and I commend them to your consideration, with full confidence in your discretion and patriotism.

His Excellency the Governor General was pleased to retire, and the House of Commons withdrew.

The House resumed.

The Honorable Sir *Alexander Campbell* presented to the House, a Bill intituled :  
"An Act relating to Railways."

The said Bill was read for the first time.

The Honorable the Speaker reported His Excellency's Speech from the Throne, and the same was then read by the Clerk.

On motion of the Honorable Sir *Alexander Campbell*, seconded by the Honorable Mr. *Montgomery*, it was

*Ordered*, That the House do take into consideration the Speech of His Excellency the Governor General on Monday next.

On motion of the Honorable Sir *Alexander Campbell*, seconded by the Honorable Mr. *Montgomery*, it was

*Ordered*, That all the Members present during this Session be appointed a Committee to consider the Orders and Customs of this House and Privileges of Parliament, and that the said Committee have leave to meet in this House, when and as often as they please.

Then, on motion of the Honorable Sir *Alexander Campbell*, seconded by the Honorable Mr. *Montgomery*,

The House adjourned until Monday next, at Three o'clock in the afternoon,

## Monday, 12th February, 1883.

The Members convened were

The Honorable *DAVID LEWIS MACPHERSON*, Speaker.

PRAYERS :

The following Petition was brought up, and laid on the Table:—

By the Honorable Mr. *Flint*,—Of the President, Directors and Company of the *Grafton Harbor Company*.

The Honorable the Speaker presented to the House,—A List of the Shareholders of the *Quebec Bank* as on the 31st December, 1882.

And also,—A List of the Shareholders of *La Banque d'Hochelaga* as on the 31st December, 1882.

Ordered, That the same do lie on the Table and they are as follow:—

(*Vide Sessional Papers, No. 19.*)

The Honorable the Speaker presented to the House the Report of the Librarian. The same was then read by the Clerk, and it is as follows:—

TO THE HONORABLE THE SENATE OF CANADA, IN PARLIAMENT ASSEMBLED.

The Report of the Librarian of Parliament respectfully sheweth:—

Since last Session, the Library Staff have been busily engaged—in addition to their ordinary duties—in a careful comparison of the books on the shelves with the titles entered in the Catalogues; a work which is necessary, every few years, in order to ascertain existing deficiencies, attributable either to the gradual, but unavoidable destruction, through long continued use, of books in frequent circulation; or to the occasional loss of books, for which no account can be given. The result of this investigation has proved very satisfactory. The number of volumes missing and unaccounted for, is but small. At the same time, it has been deemed advisable, for the greater security of the collection, to exercise an increasing vigilance in restraining the access of the general public to the galleries surrounding the Library.

The increase in the number of books within the past year was above the average. For although the balance of the ordinary grant for purchases (after deducting sufficient to defray accounts accumulated before its receipt), was inconsiderable; yet, through the liberality of Government, a sum of about fifteen hundred dollars, standing to the credit of our contingencies—was permitted to be used to purchase certain valuable books, unexpectedly offered for sale by auction at *New York*, in December last. These books belonged to the late Dr. *E. B. O'Callaghan*, the well-known historian, formerly a leading member of the Lower *Canada* Parliament, whose accumulations upon early Canadian history were of peculiar interest and value. Mr. *L. P. Sylvain* was deputed from this office to attend the sale, and though the competition was keen, and prices generally ruled high, he succeeded in buying a number of books which will form a noteworthy addition to our collection of works on the history and literature of this country.

And here I cannot refrain from adverting to the loss sustained by the Dominion in the death, last summer, of Mr. *Antoine Guin-Lajoie*, who was the principal Assistant in this Library from 1856 to 1880, when he was compelled to retire from the service, through failing health. Mr. *Lajoie* was highly esteemed and widely appreciated in *Canada*, not merely because of the exemplary discharge of his official duties, and for his private worth, but especially for his literary ability, which had secured him a place in the front rank of French Canadian authors. Of late years, he had been chiefly addicted to historical studies, and had amassed a large store of useful knowledge on the history of *Canada*, which, had his life been spared, he purposed to embody in some connected treatise. Meanwhile, he was always ready to render intelligent assistance to all who sought his aid, upon topics of enquiry on which he was known to be familiar, and all frequenters of this Library have reason to regret the loss of his extended information, and of his readiness in turning it to immediate practical account.

The charge of the department of Canadian history had been appropriately assigned to Mr. *Lajoie*; and it is in this direction that, since his increasing infirmity obliged him to relax his efforts, and finally to relinquish his work,—the deficiencies of this Library have been most apparent. The selection, however, as Mr. *Lajoie's* successor in office, of Mr. *Alfred De Celles*, gives promise that this loss will be amply made good, for Mr. *De Celles* past reputation as a student and public writer is a pledge of his competency to discharge with increasing zeal and efficiency the duties which will devolve upon him in the future. I have, therefore, requested him to assume the special charge of Canadian and American books, and to spare no endeavor to make this portion of the Library as perfect and complete as possible.

Since 1890 (when Mr. *De Celles* was appointed) the Library has been suffering from diminished pecuniary resources, owing to an excessive expenditure in former years for the purchase of Law Books, principally for the use of the Supreme Court. This excess was met and covered by reducing current expenditure, as well on behalf of the Law Library as for miscellaneous books, and no extra grant was solicited from Parliament. But the time has now arrived when I would respectfully suggest that a considerable augmentation of the Library, in all its departments, is imperatively called for, in order to maintain its credit and to increase its usefulness as a public institution.

The past year has been memorable in our annals for events of much import in relation to the mental growth and advancement of this Dominion. The attention of learned societies, both at home and abroad, has been awakened to the present condition and future prospects of *Canada*, to an extent hitherto unprecedented. Eminent scientific associations have met for the first time, or have announced their intention of soon assembling, on Canadian soil, to prosecute their philosophical enquiries. Moreover, through the energy and foresight of His Excellency the Governor General, a Canadian Royal Society of Literature and Science has been instituted. In the deliberations of this new association, which includes representative men from the several Provinces of *British North America*, each of whom had achieved distinction in some field of labor for the public benefit, we have proof that the mental activity of our people has kept pace with the rapid and extraordinary increase of the country in population and material wealth. To meet the intellectual wants of such a class, and to aid their literary labors, by making due provision for the requirements of those who devote themselves to study and research, strenuous efforts should be made to enlarge and perfect this, the only public Library in *Canada*. The Government have spared no pains and grudged no outlay which they considered needful to develop the physical resources of this vast Dominion; it is not, therefore, unreasonable to anticipate that they will be equally prepared to recommend to Parliament whatever may be needful to promote its intellectual progress, and to supply the higher wants of Canadians, in their mental and scientific cultivation. I therefore confidently rely upon the willingness of Government to recommend, and of Parliament to grant, whatever sums of money may be required, in the future, to place and to maintain this Library in an adequate degree of completeness and efficiency.

Perhaps I should add, that no difficulty would occur in accommodating a very considerable increase of books, in the existing apartments. Pursuant to the directions of the Library Committee last Session, several thousand volumes of English and American Law Reports have been removed to the Supreme Court Building; for the greater convenience of the Court. This affords space for other works; besides which, the shelving elsewhere available would readily suffice for the deposit of many thousand additional volumes.

The charge of the Library Accounts has been recently assigned to Mr. *James Fletcher*, of this Department, whose previous experience in the Bank of *British North America*, enables him readily to undertake this duty. Heretofore, and until the Library of Parliament was constituted a distinct Department, the Clerk of the Senate was the official custodian of moneys voted by Parliament for the purchase of books. He deputed this service to Mr. *R. W. Stephen*, Assistant Accountant to the Senate; who, for several years after he ceased to be officially responsible for the

same, continued punctually to keep Accounts on behalf of the Library. In reporting the introduction of the new system, which has been effected by desire of the Auditor-General, I gladly avail myself of the opportunity to record my thankful recognition of the value of the services which Mr. *Stephen* has gratuitously performed for so long a period, and my hope that they may not remain unrewarded.

Within the year the Library has been enriched by a considerable number of Donations; a complete list of which is hereunto appended, together with an enumeration of the works deposited under the Copyright Act.

Conspicuous amongst the Donations, in value and bibliographical interest, is the gift received from Mrs. *John Carter-Brown*, the widow of the late *John Carter-Brown*, of *Providence, Rhode Island*, the eminent and learned Book-collector, whose magnificent Library of early printed books relating to this continent, is probably the finest and most complete in either hemisphere. The donation consists of a copy, in 4 volumes, of the Catalogue of Books, concerning *North and South America*, to be found in this Library, and which were printed between the years 1482 and 1800. This catalogue is enriched with *fac-similes* of early title pages, of illuminations and portraits, of copies of ancient maps, and similar embellishments, and is annotated by an experienced American scholar, Dr. *John Russell Bartlett*. Very few copies of this catalogue were printed, and these only for private circulation. Mrs. *Brown* has received applications from several of the great Public Libraries of *Europe*, and from many similar institutions on this continent, for a copy of the catalogue, but she thought there should be one, at least, in the Dominion of *Canada*. She, therefore, generously responded to my earnest appeal for one of these remarkable and sumptuous catalogues, to be deposited in the Library of Parliament.

I would also call attention to the list of Books received from General *Horatio Rogers*, an American officer of distinction, who visited this Library about a year ago, for purposes of literary research, and who, in grateful recognition of the assistance then afforded him, kindly forwarded to the Library, the Books enumerated in the Appendix, under his name.

The number of volumes in the Library, last year, was estimated at 100,800. Since then the total number has increased to about 104,000.

All which is respectfully submitted.

ALPHEUS TODD,  
*Librarian of Parliament.*

The Order of the Day being read for the consideration of His Excellency's Speech from the Throne at the opening of Parliament,

The Honorable Mr. *Robitaille* moved, seconded by the Honorable Mr. *O'Donohoe*, That the following Address be presented to His Excellency the Governor General to offer the respectful thanks of this House to His Excellency for the gracious Speech which His Excellency has been pleased to make to both Houses of Parliament, namely:—

To His Excellency the Right Honorable Sir JOHN DOUGLAS SUTHERLAND CAMPBELL (commonly called the Marquis of Lorne), Knight of the Most Ancient and Most Noble Order of the Thistle, Knight Grand Cross of the Most Distinguished Order of *Saint Michael* and *Saint George*, Governor General of *Canada*, and Vice-Admiral of the same, &c., &c.

MAY IT PLEASE YOUR EXCELLENCY:

We, Her Majesty's dutiful and loyal subjects, the Senate of *Canada*, in Parliament assembled, humbly thank Your Excellency for your gracious Speech at the opening of this Session.

We rejoice to hear that *Canada* is in the enjoyment of peace and prosperity, and that all her industries, agricultural, manufacturing and commercial, are in a healthy and improving condition.

We learn with much interest that since we last assembled Your Excellency has paid a visit of some length to *British Columbia*. We are glad to hear Your Excellency's expression of opinion, that the great natural resources of that Province promise that as soon as the *Pacific* Railway is completed, an impulse to its prosperity, commensurate with the progress made elsewhere, will be assured, and that, meanwhile, the disposal of the lands set aside in aid of the Railway to actual settlers will add to the importance and wealth of the Province.

It is with the greatest pleasure we learn that while passing through the *United States* Your Excellency was rejoiced to observe many evidences of regard for the Empire of which this country forms so large a portion. We heartily participate in Your Excellency's hope that this friendship, which is so fully returned by us, may be as enduring as it is natural and advantageous to the mutual interests of both great nations.

We receive with gratification the information that the steady flow of settlers into *Manitoba* and the *North-West Territories* last year, and the assurances received of an increased immigration during the coming season, promise well for the early development of those fertile and salubrious regions.

We humbly agree with Your Excellency that it is important that the laws relating to the representation of the people in Parliament should be amended, and the electoral franchises existing in the several Provinces should be assimilated, and we assure Your Excellency that our most careful attention will be given to the measure for this purpose, which Your Excellency has been pleased to inform us will be submitted for our consideration.

We thank Your Excellency for informing us that you have been advised that the Judgment of the Lords of the Judicial Committee of the Privy Council delivered last June on the appeal of *Russell versus the Queen* goes to show, that in order to prevent the unrestrained sale of intoxicating liquors, and for that purpose to regulate the granting of shop, saloon and tavern licenses, legislation by the Dominion Parliament will be necessary. In compliance with Your Excellency's desire, our earnest consideration shall be given to this important subject.

Our best attention, Your Excellency may be assured, will be given to any measure regulating Factory Labor and the protection of the workingman and his family which may be submitted to us, and also to the Bills for the consolidation and amendment of the laws relating to the Customs, the Militia and the Public Lands, which Your Excellency has been pleased to say will be laid before us.

It affords us pleasure to learn that among other measures Bills will be presented to us respecting the Civil Service, Banking and the examination of Masters and Mates of vessels navigating our inland waters.

We beg leave to assure Your Excellency that we share the gladness with which Your Excellency has been able to inform us that the progress of the Canadian *Pacific* Railway has been unprecedented, and that traffic can now be carried on the main line from *Thunder Bay* to within fifty miles of the crossing of the *South Saskatchewan*, a distance of over one thousand miles. We also rejoice to know that it is confidently expected that the *Rocky Mountains* will be reached during the present year, and that within the same period substantial progress will be made on the *Lake Superior* Section of the Railway, and the track laid upon a large portion of the road now under contract in *British Columbia*.

We participate in the pleasure Your Excellency also has in stating that the traffic on the Intercolonial Railway is largely in excess of any former year, and that the balance in favor of the road shows a gratifying increase.

We agree with Your Excellency that the subjects you have mentioned to us are of much importance, and we beg to assure Your Excellency that they shall receive our most careful consideration, and we thank Your Excellency for the confidence which you have been so graciously pleased to express in our discretion and patriotism.

After Debate,

On motion of the Honorable Mr. *Kaulbach*, seconded by the Honorable Mr. *Read*, it was

*Ordered*, That further debate on the said motion be postponed until to-morrow.

The Honorable Sir *Alexander Campbell*, Minister of Justice, informed the House that he had a Message from His Excellency the Governor General under his Sign Manual, which His Excellency had commanded him to deliver to this House.

The same was then read by the Clerk, and it is as follows:—

*Lorne*.

*The Right Honorable the Earl of Kimberley to Governor General, the Marquis of Lorne, K.T., G.C.M.G.*

MY LORD,—I have received and laid before the Queen, the Address to Her Majesty from the Senate and House of Commons of *Canada* in Parliament assembled, which was transmitted in your Lordship's despatch of the 16th of May.

I am commanded by Her Majesty to request that you will convey to the Senate and House of Commons, Her appreciation of the renewed expression of their unswerving loyalty and devotion to Her Majesty's person and Government.

Her Majesty will always gladly receive the advice of the Parliament of *Canada* in all matters relating to the Dominion, and the administration of its affairs; but with respect to the questions referred to in the Address, Her Majesty will, in accordance with the constitution of this country, have regard to the advice of the Imperial Parliament and Ministers, to whom all matters relating to the affairs of the United Kingdom exclusively appertain.

the past year," and the "Parliamentary Printing Account Annual Statement from the 1st July, 1881, to the 30th June, 1882." all hereto annexed; which, having been adopted, they respectfully recommend for the consideration of both Houses.

REPORT OF THE SUB-COMMITTEE.

COMMITTEE ROOM,  
20th March, 1883.

The Sub-Committee of the Joint Committee of both Houses on the Printing of Parliament to whom was referred the audit of the Printing Accounts for the past year, and to ascertain if any changes were necessary in the distribution of the documents, printed on the recommendation of the Committee, beg now to report as follows:—

The annual statement of the Parliamentary Printing Accounts, with vouchers, receipts, cheques, &c., were submitted to them by your Clerk, and although these accounts and vouchers had been previously audited by the Auditor General, and certified to by him, as being correct, still, your Committee in accordance with their usual practice, made a careful examination of these accounts, and are now happy to report that they found them correct, and the books, cheques and vouchers kept in excellent order.

The Sub-Committee direct its attention to the distribution lists, and they find that it is impossible to make any very great changes at present; the number of Blue Books and Documents printed are only sufficient to supply the distribution as it now stands, leaving a very small margin as a reserve.

The Sub-Committee would recommend that before the prorogation of Parliament the Committee should take the matter of distribution under its serious consideration, and if possible arrange with the Government to utilize, in its distribution the large numbers of copies of the Blue Books, &c., printed by it for the different Departments. It is clear to your Committee that in some way additional copies of the various documents printed by you, must be provided for circulation.

The attention of the Sub-Committee was called to the inferior quality of the paper supplied by the Contractor, and directions were given to your Clerk, to write to the Contractor on the subject, and we hope the cause of complaint will be removed.

It must be gratifying to the Committee to perceive that a very large reduction in the cost of the printing service controlled by you has again been accomplished; the cost of the service in all forms for 1880-1881 being .....

the cost of the service in all forms for 1880-1881 being .....	\$50,155.63
Same service for 1881 and 1882 .....	38,709.24

Reduction .....	\$11,446.39
-----------------	-------------

The cost of the service is now less than the Sub-Committee believed it ever could be brought to.

The Sub-Committee is strongly of the opinion that in arranging for new contracts, efforts should be made to secure a better style of Printing and Binding.

The Sub-Committee in view of the possible necessity of extending the distribution List, and thereby increasing the cost of the service, think the appropriation asked for should not be less than the amount provided last year, say \$60,000.

In conclusion your Committee are happy to be able to report, that your Clerk and the distribution Staff have performed their respective duties in a highly satisfactory manner.

All which is respectfully submitted.

 REPORT OF THE CLERK OF THE COMMITTEE.
 

---

*To the Chairman and Members of the Joint Committee of both Houses on Printing:—*

GENTLEMEN,—I beg to submit the annual statement of the Receipts and Expenditure on account of the Printing of Parliament for the fiscal year ending 30th June, 1882.

To this statement the Auditor-General has given his certificate of examination in the following words:—

“I certify to the correctness of the above account, so far as my duties give me a knowledge of it. I have no means of determining the quantity of paper or other material on hand.”

The only observation necessary for me to make on this certificate is ;—that the vault where the paper is stored is open at any time, on application, to the inspection of the Auditor-General. The counting of the bundles of paper therein, and the requisitions of the printer, will determine the quantity on hand; of other material we have none that I know of.

The statement shows a decrease in the Expenditure as compared with that of the preceding year.

The appropriation for the Printing services was reduced last year from \$70,000 to \$60,000.

The above statement might warrant a further reduction if the Committee should think it advisable.

*William Cairns*, one of the Sessional Messengers, has resigned his position in the Distributing Room. It is absolutely necessary the vacancy should be filled as speedily as possible, as temporary assistance had to be obtained to keep the work from accumulating.

The several services have been performed in the usual manner; but I must again call the attention of the Committee to the variation in the shade of colour in the paper. This is specially noticeable in the Blue Books. I have several times complained to the Contractor but he seems to think it impossible but that such will occur in each separate making.

All which is respectfully submitted.

HENRY HARTNEY,

*Clerk, Joint Committee on Printing.*

The Honorable Mr. *Allan*, from the Joint Committee of the Senate and House of Commons, appointed to assist His Honor the Speaker in the direction of the Library of Parliament, presented their First Report.

*Ordered*, That it be received.

The same was then read by the Clerk, as follows:—

The Members, on behalf of the Senate, of the Joint Committee on the Library of Parliament, beg leave to present a First Report:—

The attention of the Committee has been specially directed to the necessity, at the present time, of making adequate provision for the enlargement and perfecting of the Library; which has fallen considerably into arrear, in the important sections of works in relation to the North American Continent, and in regard to subjects of Scientific enquiry, mainly on account of large expenditure incurred in the purchase of Law Books, since the establishment of the Supreme Court.

Last Session, upon the advice of the Committee, it was agreed to transfer to the Supreme Court Building, the series of English and American Law Reports. Experience has shewn the inexpediency of separating the Reports from the text-books on law. In consideration, therefore, of the desirability of rendering the Library of the Supreme Court as complete as possible, and at the same time of relieving the Library of Parliament from the great outlay required to maintain this collection in a proper state of efficiency, the Committee have decided to recommend that the bulk of the Law-books be permanently transferred to the Supreme Court Building, that the Department of Justice be henceforth responsible for the maintenance and management of this Law Library, and that it be no longer regarded as forming part of the Library of Parliament: subject, however, to a right of preferential access by Members of both Houses to these books, whenever and wherever they may require to consult them. Such text-books only to be retained in the Library of Parliament, or hereafter added thereto, as may be necessary for purposes of legislation.

In agreeing to the Report of the Sub-Committee on this subject, which is heretofore appended, the Committee desire to express their opinion that the Library of Parliament cannot be brought up to a reasonable degree of efficiency for its intended uses, or rendered creditable to the Dominion, without an increase of the present annual Grant. They propose, that for the ensuing five years, the sum of Twelve thousand dollars, at least, should be appropriated, annually, for the augmentation of the Library; especially in the direction above stated, leaving it to the Department of Justice to apply for whatever moneys may need to be voted on behalf of the Law Library assigned to the use of the Supreme Court.

The Committee would beg to call attention to the Report of their Sub-Committee upon the question of salaries payable to the Library staff: and they request the concurrence of both Houses to the recommendations contained therein.

They have duly considered the application, herewith submitted, of *J. G. Bourinot, Esq.*, Clerk of the House of Commons, for aid in the publication of a work upon which he has been engaged for some years, in the elucidation of the Practice and Procedure of Parliament. Being satisfied of the merits and usefulness of this treatise, the Committee advise that Three hundred copies of the same be purchased, for the use of Members of both Houses, at the price of Five dollars per copy.

The Committee are desirous of procuring a complete set of all the printed Journals, Statutes, and official records of the several Provinces, now forming part of the Dominion of Canada, from the earliest date; as well as of the official publications of Canada, since Confederation; which shall be retained for reference in the Library only, and not permitted to be taken out of the Building. They have accordingly instructed the Librarian to make application for such Books in all available directions; and they invite the co-operation of the Executive Government in the furtherance of this undertaking.

**SPEAKER'S CHAMBERS,**  
HOUSE OF COMMONS, 5th April, 1883.

The Sub-Committee, to which was referred the question of the annual grant to the Library, beg leave to report as follows:—

The Sub-Committee felt that the first question to be settled was that of the Law Library. They have come to the conclusion that the present arrangement, whereby the reports are kept in the Supreme Court building, and the text-books in the Library of Parliament, is quite indefensible.

These books should be kept together, and under one management.

They recommend that all the text-books, save earlier editions and text-books on constitutional law, and such others as should be found in a general Parliamentary Library, as, for example, works on Criminal Law be kept with the Reports in the Supreme Court building: that this Law Library be placed under the control and management of the Department of Justice, which should apply for the necessary votes for its maintenance and management, and that it be no longer treated as part of the Library of Parliament; subject however to the reserved right of Members of both Houses to preferential access to, and use in the Library and the Parliament buildings of any of the books.

They recommend that the future purchase of law books for account of the Library of Parliament be restricted to the Provincial and Supreme Courts reports, and to text-books on questions of constitutional law, which will involve only a limited expense.

They find that the result of the expense for law books since the establishment of the Supreme Court diminishes so seriously the purchases in other branches, that the Library has fallen sadly in arrears.

There is a lamentable deficiency on the subject of books on North America, a subject in which our Library ought to be complete.

The older books wanting on this subject can be obtained only at occasional times and at high prices.

They find also that the Library is very deficient in books on scientific subjects, and that in this respect large arrears have to be made up, as well as considerable yearly purchases to be made.

They would call the attention of the Committee to the fact that a large proportion of the yearly grant is necessarily expended in the purchase of books in the French language, and consequently that the annual charge of this Library must be heavier than for most public libraries where the bulk of the purchases are in one language.

Nevertheless, the grant compares very unfavourably with the resources at the command of other Libraries, as will appear from the Memorandum appended to this report.

On former occasions the state of the public revenues rendered it inopportune to propose an increase to the grant, but the Sub-Committee feel that under the present circumstances they would be wanting to their duty if they were to hesitate to propose that step.

They believe that a special grant should be made for five years of \$2,000 a year, to be devoted exclusively to the purchase of books on North America; and that the general grant should for the same period be in addition at least \$10,000 a year; and they recommend that this proposal should be submitted to Parliament for its concurrence.

They recommend also that all the rare and specially valuable works in the Library be placed in a separate room, and that special precautions be taken by the Librarian for their preservation.

All which is respectfully submitted.

GEORGE A. KIRKPATRICK.

OTTAWA, 21st March, 1883.

MEMORANDUM of Annual Expenditure on behalf of certain large Public Libraries: compiled from official sources.

*Boston Public Library*, (containing 400,000 vols.), has an annual grant from the city of \$115,000; in addition to an income arising from trust funds.

*Cincinnati Public Library* (123,000 vols.) expended, last year, \$51,465.

*Astor Library; and Lenox Library, New York.* Each possesses an endowment of over \$1,100,000.

*Manchester Public Library*, (160,000 vols.), expends annually about \$55,000.

*Library of Congress, Washington*, (400,000 vols.) has an annual grant from Congress, for increase and management, of \$52,840.

*Melbourne Public Library, Victoria, Australia.* (Nearly 100,000 vols.) Grant, last year, was \$25,000.

*British Museum Library*, expends annually about \$50,000 in the purchase of books; besides enormous additions under the Copyright Act: \$12,500 for the purchase of manuscripts; and about \$45,000 for binding and repair of books.

*The Library of Cornell University, New York*, has an income of nearly \$50,000 per annum.

A new Library has recently been established in the *State of Indiana*, with funds amounting to \$750,000, which are to be spent in the purchase of books within the next ten years. And in the north-west part of *Chicago*, a sum of over \$2,000,000, has been bequeathed to found a Free Library in that part of the city; in addition to the large Public Library which has existed in Chicago since 1872.

The Sub-Committee, to which was referred the question of the Salaries of the Library Staff, beg to report as follows:—

1. The Joint Library Committee on the 13th day of April, in A.D. 1880, reported on the whole subject and fixed the salaries and the principle which should regulate increases, (See Commons Journals, page 232) and this Report has since been acted on.

2. Mr. *Laperrière* applies to be made a Chief Clerk; but the Sub-Committee have not been able to take the view that such an officer is necessary for the proper performance of the public business in the Library; and they cannot recommend the step.

3. A difficulty has arisen in the cases of Messrs. *Fletcher* and *Campbell*, owing to the change in the classification of Clerks made by the Civil Service Act of last Session.

In order that these two gentlemen may obtain the \$50 increases for the current and the next year, for which they are eligible under the Report already mentioned, and for which they have been recommended, it is necessary under the ruling of the Auditor General, that there should be a recommendation of the Committee, concurred in by Parliament.

The Sub-Committee are satisfied that Messrs. *Fletcher* and *Campbell* are entitled to these increases, and they recommend that this view should be adopted by the Committee, and recommended to Parliament for its concurrence; when doubtless the necessary votes will be submitted.

4. Mr. *L. J. Casault* has applied for an increase to his salary, which was fixed by the former Report at \$350 a year, with his residence.

The Sub-Committee are of opinion that the emoluments of Mr. *Casault* are adequate to the office of Chief Messenger and Caretaker, but they have ascertained that Mr. *Casault* having acquired a very comprehensive knowledge of the library has made himself extremely useful in assisting in the discharge of the duties towards Members and the public which devolve on the Clerks in the library; and in consideration of his special qualifications and services the Sub-Committee recommend a further and final addition to his emoluments of \$50 a year.

But the Sub-Committee recommend that in the event of a vacancy in Mr. *Casault's* office the whole question of the emoluments attached to that office be considered open; as according to the impression of the Sub-Committee the salary should be reduced were the duties limited to those of Chief Messenger and Caretaker.

The Sub-Committee make no other recommendations on the subject of salaries, as the application of the principles of the Report of 1880 seems to settle satisfactorily all questions arising as to the other officers.

3RD APRIL, 1883.

THE HONORABLE G. A. KIRKPATRICK,  
Speaker of the House of Commons.  
&c., &c., &c.

DEAR MR. SPEAKER,—During the past ten years I have employed a large portion of my leisure time in the preparation of a treatise on the rules, usages, and procedure of the Senate and House of Commons. This work has been very carefully compiled from the most authoritative sources in England and Canada. It explains the origin of every rule and usage, and the practice in reference to the same. It shews the difference, whenever any exists, between the practice of the Canadian Parliament and the practice of the English Houses. In all doubtful and unprovided cases, the practice of the English Parliament is set forth and sustained by many references. It has been my object throughout to give the work that practical scope which my official experience of fifteen years in the two Houses proves to me will be most useful to the Parliamentarian.

This work is divided into twenty-two chapters, each of which is a very full exposition of the particular subject therein treated. These chapters are also divided

into distinct parts, so that a reference may be made in an instant to any special point. For example:—

CHAPTER XIV.—*Public Bills.*

- I. Introduction of Tax or Money Bills.
- II. Procedure in presenting Bills in the two Houses.
- III. Bills relating to Trade.
- IV. Bills involving charges or burthens on the people, considered first in Committee of the Whole.
- V. Second Reading of Bills.
- VI. Motion that the House go into Committee of the Whole.—Instructions.
- VII. Reference of Bills to Select Committees.
- VIII. Notice of Amendments in Committee of the Whole.
- IX. Bills reported from Select Committees.
- X. Proceedings in Committee of the Whole.
- XI. Report from Committee of the Whole.
- XII. Bills not referred to Committee of the Whole.
- XIII. Third Reading of Bills.
- XIV. Motion for passage of Bills.
- XV. Bills communicated to either House and proceedings in case of amendments thereto.
- XVI. Royal Assent to Bills.
- XVII. Revival of a Bill.
- XVIII. Bill introduced by mistake.
- XIX. Expedition in Passage of Bills.
- XX. Bills once introduced, not altered except by authority of the House.
- XXI. Mi-takes during the passage of a Bills, and method of correcting the same.
- XXII. Loss of a Bill during a Session.
- XXIII. The same Bill, if once rejected, not to be again presented in the same Session.
- XXIV. Acts may be amended in the same Session.

This method of dividing each chapter taken in connection with a copious Index, ought to make the work much more easy of reference.

The Chapters on Private Bills will also be found very useful, since it has been my aim to cite the various precedents which illustrate the large constitutional scope of Dominion legislation.

I have also thought it advisable to give in an Introductory Chapter a brief review of the various constitutional changes which have led to the establishment of the very liberal system of parliamentary government that Canada now enjoys. In this Chapter, the reader will find a digest of the various constitutional enactments under which the British North American Provinces have been, and are now governed, as well as references to such authorities as are necessary to a clear understanding of our parliamentary system.

The labour necessary to perfect this work has been very considerable, but I shall be quite content if it answers the purpose for which it is intended. My own experience at the Table of the House has shewn me that a work of this nature, carefully compiled, ought to be invaluable to the Parliamentarian.

It is my desire to have this work published in time for the next Session of Parliament. The labour of reading the proofs and preparing the Index will necessarily require several months. I may also add here that the precedents will be brought down to the end of the present Session.

I feel it due to myself to say, that had I devoted the same amount of time and labour to other studies of more general interest, I might have received far larger compensation than I am ever likely to receive from the publication of a work whose circulation must be necessarily confined to Canada. I have, however, felt that the

Members of the two Houses will fully appreciate my desire to devote myself to those studies which may render my services more useful to Parliament.

I would therefore respectfully submit the result of my labours to the careful consideration of yourself and other members of the Committee on the Library of Parliament. Should the work meet with the approval of the Committee, I would fain hope that they will make such a report as may encourage me to publish it as soon as possible in a creditable style and form.

I have the honour to remain,

Respectfully yours,

JNO. GEO. BOURINOT.

*Ordered*, That the same do lie on the Table, and it is as follows:—

### MINING REGULATIONS.

DEPARTMENT OF THE INTERIOR,  
DOMINION LANDS,  
OTTAWA, 19TH APRIL, 1883.

*Regulations to govern the disposal of Mineral Lands other than Coal Lands.*

1. These regulations shall be applicable to all Dominion Lands containing mines of gold, silver, cinnabar, lead, tin, copper, iron, or other mineral deposit of economic value, with the exception of coal.

2. Any person may explore vacant Dominion Lands not appropriated or reserved by Government for other purposes, and search therein, either by surface or subterranean prospecting, for mineral deposits, with a view to obtain under these regulations a mining location for the same.

3. A location for mining, excepting for iron, shall not exceed twenty acres in area. Its surface boundaries shall be straight lines not more than four in number. Its length shall not be more than three times its breadth.

Its boundaries beneath the surface shall be the vertical planes in which its surface boundaries lie.

4. Any person having discovered a mineral deposit, and desiring to be protected in his claim to acquire a mining location, under these regulations, in order that he may work the same, shall, to entitle him to such protection, proceed as follows:

He shall mark the location on the ground by placing at its four corners wooden posts, not less than four inches square, driven not less than eighteen inches into the ground, and showing that length above it. If the ground be too rocky to admit of so driving the posts into it, he shall build about each of them to support it and keep it in place, a cairn or mound of stones, at least three feet in diameter at the base, and eighteen inches high. On the most north-easterly post he must mark with a cutting instrument, or with red chalk, his name in full, the date of such marking, and the letters ML. 1., to indicate that the post is a Mining Location post No. 1. Proceeding next to the most south-easterly post it shall be marked ML. 2, and with his initials. Next, the most south-westerly post shall be marked ML. 3, and with his initials; and lastly the most north-westerly post with his initials and the letters ML. 4. Furthermore, on one of the faces of each post, which face shall in the planting thereof be turned toward the post which next follows it in the order in which they are here named and numbered, there shall be marked in figures the number of yards distance to such next following post. If means of measurement are not available, the distances to be so marked on each of the posts may be those estimated.

(In this manner any subsequent prospector, informed of these regulations, will, on meeting any one of the posts, be enabled to follow them all round, from one to another, and avoid encroachment either in search or in marking out another location in the vicinity for himself.)

5. Having so marked out on the ground the location he desires, the claimant shall next, within sixty days thereafter, file with the local agent in the *Dominion Land Office* for the district in which the location is situate, a declaration on oath according to form A in the schedule to these Regulations (which may be sworn to before the said agent, or may have been previously sworn to before a Justice of the Peace or Commissioner) setting forth the circumstances of his discovery, and describing, as nearly as may be, the locality and dimensions of the claim marked out by him as aforesaid; and shall, along with such declaration, deposit with the Agent the sum of fifty dollars to the end and for the purpose set forth in the second clause hereafter.

6. The Agent shall give him a receipt, according to form B in the schedule to these Regulations, for such deposit. This receipt shall authorize the applicant, his legal representatives or assigns, to enter into possession of the location applied for, and during the term of one year from its date and subject to the royalty prescribed in clause 19 of these Regulations, to take therefrom and dispose of any mineral deposit contained within its boundaries.

7. The deposit of fifty dollars shall be paid into the Receiver General by the Land Agent, along with and in like manner as other revenue from *Dominion Lands* in his district, and in the event of the mining applicant fulfilling all the conditions prescribed by these Regulations, the said deposit shall be deemed payment by him to the Government for the survey of his location.

8. At any time before the expiry of one year from the date of his making his application and deposit as aforesaid, it shall be open to the applicant to purchase the location on filing with the Local Agent proof that he has expended not less than five hundred dollars in *bona fide* mining operations on the same, such proof to consist of his own sworn statement, setting forth in detail the nature of such operations and the amount expended, and to be accompanied and confirmed by the affidavits of two disinterested persons.

9. Should the applicant, or his legal representatives as aforesaid, fail to prove within one year, the expenditure prescribed, or having proved such expenditure, fail within that time to pay in full, and in cash, to the Local Agent, the price herein after fixed for such mining location, then any right on the part of the applicant or of his legal representatives in the location, or claim on his or their part to acquire it, shall lapse; and the location shall thereupon revert to the Government and shall be held along with any immovable improvements thereon for disposal, under these regulations, to any other person, or as the Minister of the Interior may direct, and the deposit paid by the applicant shall be forfeited to the Crown.

10. The price to be paid for a mining location shall be at the rate of twenty-five dollars per acre.

11. If, on account of its remoteness or other cause, a mining location cannot, at the time of the payment of the deposit of fifty dollars by the applicant for the purpose, be surveyed by the Government for that sum, he shall be subject to the alternative of waiting until the employment of a surveyor by the Government on other work in the vicinity of the claim, renders it possible to have the survey made at a cost not exceeding fifty dollars, or of sooner procuring at his own cost its survey by a duly commissioned surveyor of *Dominion Lands*, under instructions from the Surveyor General; in the latter case, on receipt of the plans and field-notes of the survey and approval thereof by the Surveyor General, the claimant shall be credited on account of royalty due, or to become due, with the fifty dollars deposited by him to defray cost of survey.

12. Where two or more persons lay claim to the same mining location the right to acquire it shall be in him who can prove he was the first to discover the mineral deposit involved, and to take possession by demarcation, in the manner prescribed in these regulations, of the location covering it.

13. Priority of discovery alone shall not give the right to acquire; but a person subsequently and independently discovering, who has complied with the other conditions prescribed in these regulations, shall take precedence of the first discoverer if

the latter has failed to comply with the said other conditions. Provided, however, that in any case where it is proved that a claimant has in bad faith used the prior discovery of another and fraudulently affirms that he made independent discovery and demarcation, he shall, apart from any other legal consequences, have no claim, and shall forfeit the deposit made with his application.

14. Not more than one mining location shall be granted to any individual applicant.

15. The Minister of the Interior may grant a location for the mining of iron not exceeding 160 acres in area. Provided that should any person making an application purporting to be for the purpose of mining iron, and thus obtain, whether in good faith or fraudulently, possession of a valuable mineral deposit other than iron, his right in such deposit shall be restricted to the area hereinbefore prescribed for other minerals, and the rest of the location shall thereupon revert to the Government for such disposition as the Minister of the Interior may direct.

16. When there are two or more applicants for any mining location, no one of whom is the original discoverer, nor his assignee, the Minister of the Interior, if he sees fit to dispose of the location, shall invite their competitive tender, or shall put it up to public tender, or auction, as he may deem expedient.

17. An assignment of the right of an original discoverer to purchase a mining location shall be endorsed on the back of the receipt or certificate of assignment, (Forms B and C, in the schedule hereto), and the execution thereof shall be attested by two disinterested witnesses; upon the deposit of the receipt or certificate with such assignment executed and attested as herein provided, in the office of the Local Agent, accompanied by a registration fee of two dollars, the Local agent shall give to the assignee a receipt in the Form C in the schedule hereto, which certificate shall entitle the assignee to all the rights and privileges of the original discoverer in respect to the claim assigned; and the said assignment, with the registration fee of two dollars, shall be forwarded to the Minister of the Interior by the Local Agent, at the same time and in like manner as his other returns respecting Dominion Lands, and shall be registered in the Department of the Interior; and no assignment of the right of an original discoverer to purchase a mining location which is not unconditional and in all respects in accordance with the provisions of this clause, and accompanied by the registration fee herein provided for, shall be recognized by the Local Agent or registered in the Department of the Interior.

18. If application be made under the next preceding clause, by the assignee of an original discoverer, to purchase a mining location, and such claim is duly recognized and registered as hereinbefore provided, such assignee shall, by complying with all the provisions of clause 8, become entitled to purchase the location for the price and on the terms prescribed in these regulations, whether or not his assignor may have previously acquired a mining location under them.

19. The patent for a mining location shall reserve to the Crown, for ever, a royalty of five per cent. on the sales of the products of all mines therein; and also on the sales of any timber or wood that may be on the location.

20. Returns shall be made by the grantee sworn to by him, or by his agent or other employee in charge of the mine, at monthly or such other intervals as may be acquired by the Minister of the Interior, of all products of his mining location and of the price or amount he received for the same.

21. The Minister of the Interior may direct mining locations to be laid out wherever, from report of the Director of the Geological Survey or from other information, he has reason to believe there are mineral deposits of economic value, and may sell the same to applicants therefor, who, in his opinion, are able and intend in good faith to work the same; or he may from time to time cause the said locations to be sold by public auction or tender. Such sales shall be for cash, and at prices in no case lower than those prescribed for locations sold to original discoverers, and shall otherwise be subject to all the provisions of these regulations.

*Ordered*, That it be received, and

The same was then read by the Clerk, as follows:--

THE SENATE,

COMMITTEE ROOM No. 2,

TUESDAY, 22nd May, 1883.

The Select Committee appointed to examine and report upon the Contingent Accounts of the Senate, beg leave to make their Third Report, as follows:—

Your Committee have examined the Clerk of the Senate's accounts from the first day of January to the thirty-first day of December, 1882.

The accounts show that the total amount received by the Clerk up to the thirty-first of December, 1882, including a balance on hand from the previous year of five thousand four hundred and forty-three dollars and eighty-seven cents (\$5,443.87), is one hundred and fifty-three thousand two hundred and ninety-three dollars and fifteen cents (\$153,293.15). The Clerk has accounted to the satisfaction of your Committee by the production of vouchers for the expenditure of one hundred and forty-two thousand six hundred and twenty-four dollars and forty-seven cents (\$142,624.47). He deposited to the credit of the Receiver General, one thousand two hundred and forty-two dollars and thirteen cents (\$1,242.13). The balance at the credit of the Clerk of the Senate, viz., five thousand nine hundred and fifty-nine dollars and ninety-three cents (\$5,959.93) was cancelled by the Auditor-General on the 30th June, 1882, leaving a balance in the Bank of *Montreal*, at *Ottawa*, to the credit of the Clerk of the Senate on the 31st December, 1882, of three thousand four hundred and sixty-six dollars and sixty-two cents (\$3,466.62) to be accounted for in next year's account.

The accounts are kept in a clear and satisfactory manner, and each item of expenditure is accompanied by the requisite voucher. Your Committee would recommend that no article of any kind, Stationery excepted, be purchased for the Senate without first being sanctioned by either the Speaker, the Chairman of the Committee on Contingent Accounts, or the Clerk of the Senate, and that to meet unforeseen petty expenses the sum of one hundred dollars be allowed to the Housekeeper of the Senate for expenditure, vouchers for which he will have to furnish to the satisfaction of the Committee on Contingent Accounts.

Your Committee have carefully examined the invoices for the Stationery furnished during the past year, and find the same correct. In making the examination the Committee obtained the assistance of Mr. *Young*, Chief Clerk, in the Stationery Office, Department of the Secretary of State. Mr. *Young* found the prices charged to the Senate, the ordinary trade prices, and such as are always charged when goods are ordered through one house, which necessarily has to buy many articles outside its own stock.

Your Committee are not prepared for the present year to recommend a change in the purchase of Stationery, but have directed the Clerk Assistant to purchase certain articles from first hands.

Your Committee advise that this branch of the Expenditure remain with the Clerk Assistant, that officer having in the past been specially charged with its administration, and with the ordering of the papers for the Reading Room; they recommend that hereafter no Stationery beyond that contained in the trunks, distributed at the beginning of each Session, be delivered out of the Office, except upon a requisition signed by a Senator, or by the Clerk or Clerk Assistant; that all paper distributed during the Session for use in the Offices and by Senators, should bear the Senate stamp, unless Senators specially request otherwise, and that the Housekeeper be required to account for all Stationery issued to him for distribution.

Your Committee recommend that the Clerk of the Senate be authorized to pay to the Receiver-General, out of the Contingencies Fund, the sum of one hundred and twenty-one dollars (\$121), being the amount payable from 1st July to 1st October, 1882, on account of Superannuation abatement from the salaries of officers and servants of the Senate.

Your Committee recommend that, as a recognition of the merits of Mr. *Neil McLenn*, Clerk of Private Bills, on his retirement from the service of the Senate, the Clerk of the Senate be authorized to pay to him a gratuity of one year's salary, from the first day of May, instant.

Your Committee recommend that, pending the revision of the salaries of the officers of the Senate, a gratuity of two hundred dollars be paid to Mr. *A. A. Boucher*, Third Clerk Assistant and Chief French Translator, and the same amount to Mr. *A. Garneau*, French Translator.

Your Committee recommend that Mr. *S. I. Jones*, Keeper of the Newsroom, be permitted to retire from the service of the Senate on the first day of November next, with a gratuity of one year's salary from that date, and that Mr. *Thomas Wheeler*, Bank Messenger, be appointed Newsroom Keeper from that date.

Your Committee also recommend that a gratuity of fifty dollars (\$50) be paid to Mrs. *Potier*, for many years a charwoman employed by the Senate, on her ceasing to be so employed.

All which is respectfully submitted.

ROBERT READ,  
*Chairman.*

That the said Bill be not now read a third time, but that it be amended by adding the following words:—

"And provided further, as to the subsidy mentioned as payable to the Great American and European Short Line Railway Company towards the construction of a railway from the Strait of *Canso* to *Louisburg* or *Sydney*, that if the said Company shall not have begun and vigorously prosecuted the actual work of construction on the said railway within two years from the passing of this Act, the said subsidy shall be payable to any Company who shall establish to the satisfaction of the Governor in Council their ability to complete the said railway, and who shall be approved by the Governor in Council."

HOUSE OF COMMONS,  
WEDNESDAY, 23rd May, 1883.

*Resolved*, That a Message be sent to the Senate informing their Honors that this House hath passed an Address to His Excellency the Governor General, expressing the desire of this House, on behalf of those whom we represent as well as on our own, to give expression to the general feeling of regret with which the Country has learned that His Excellency's official connection with *Canada* is soon about to cease; and that we are, however, happy to believe that in the Council of the Empire in the future, and whenever opportunity enables him to render her service, *Canada* will ever

find in His Excellency a steadfast friend with knowledge of her wants and aspirations and an earnest desire to forward her interests; and that His Excellency's zealous endeavours to inform himself by personal observation of the character, capabilities, and requirements of every section of the Dominion have been highly appreciated by its people, and that we feel that the Country is under deep obligations to him for his untiring efforts to make its resources widely and favorably known; and that the warm personal interest which His Excellency has taken in everything calculated to stimulate and encourage intellectual energy among us, and to advance science and art, will long be gratefully remembered, and that the success of His Excellency's efforts has fortified us in the belief that a full development of our national life is perfectly consistent with the closest and most loyal connection with the Empire; and that the presence of His Illustrious Consort in *Canada* seems to have drawn us closer to our beloved Sovereign; and that in saying farewell to His Excellency and to Her Royal Highness, whose kindly and gracious sympathies, manifested upon so many occasions, have endeared her to all hearts; and that we humbly beg that he will personally convey to Her Majesty the declaration of our loyal attachment, and of our determination to maintain firm and abiding our connection with the Great Empire over which she rules;—and requesting their Honors to unite with this House in the said Address.

*Ordered*, That the Clerk do carry the said Message to the Senate.

Attest,

J. G. BOURINOT,

*Clerk of the Commons.*

The said Address to His Excellency the Governor General was then read by the Clerk as follows:—

To His Excellency the Right Honorable Sir JOHN DOUGLAS SUTHERLAND CAMPBELL (commonly called the Marquis of *Lorne*), Knight of the Most Ancient and Most Noble Order of the Thistle, Knight Grand Cross of the Most Distinguished Order of *Saint Michael* and *Saint George*, Governor General of *Canada*, and Vice-Admiral of the same, etc., etc.

MAY IT PLEASE YOUR EXCELLENCY:—

We, Her Majesty's dutiful and loyal subjects, the Commons of *Canada* in Parliament assembled, desire, on behalf of those whom we represent, as well as on our own, to give expression to the general feeling of regret with which the Country has learned that Your Excellency's official connection with *Canada* is soon about to cease.

We are happy, however, to believe that in the Councils of the Empire in the future and wherever opportunity enables you to render her service, *Canada* will ever find in Your Excellency a steadfast friend with knowledge of her wants and aspirations and an earnest desire to forward her interests.

Your Excellency's zealous endeavors to inform yourself by personal observation of the character, capabilities and requirements of every section of the Dominion have been highly appreciated by its people, and we feel that the Country is under deep obligations to you for your untiring efforts to make its resources widely and favorably known.

The warm personal interest which Your Excellency has taken in everything calculated to stimulate and encourage intellectual energy among us, and to advance science and art will long be gratefully remembered; the success of Your Excellency's efforts has fortified us in the belief that a full development of our national life is perfectly consistent with the closest and most loyal connection with the Empire.

The presence of Your Illustrious Consort in *Canada* seems to have drawn us closer to our beloved Sovereign, and in saying farewell to Your Excellency and to Her

Royal Highness, whose kindly and gracious sympathies, manifested upon so many occasions, have endeared her to all hearts, we humbly beg that you will personally convey to Her Majesty the declaration of our loyal attachment and of our determination to maintain firm and abiding our connection with the Great Empire over which she rules.

The Honorable *Sir Alexander Campbell*, Minister of Justice, informed the House that he and those Members of the Senate and House of Commons who are also Members of the Queen's Privy Council for *Canada*, did wait on His Excellency the

Governor General with the Joint Address of the Senate and House of Commons, expressing their deep feeling of regret at the approaching departure from *Canada* of His Excellency and His Illustrious Consort, and that His Excellency was pleased to make the following most gracious reply:—

*Honorable Gentlemen:*

No higher personal honor can be received by a public man than that which by this Address you have been pleased to accord to me. In asking you to accept my gratitude, I thank you also for your words regarding the Princess, whose affection for *Canada* fully equals mine. It will be my pride and duty to aid you in the future to the utmost of my power.

Now that the pre-arranged term of our residence among you draws to its end, and the happiest five years I have ever known are nearly spent, it is my fortune to look back on a time during which all domestic discord has been avoided; our friendship with the great neighboring Republic has been sustained, and an uninterrupted prosperity has marked the advance of the Dominion.

In no other land have the last seventeen years—the space of time which has elapsed since your Federation—witnessed such progress. Other countries have had their territories enlarged, and their destinies determined by trouble and war, but no blood has stained the bonds which have knit together your free and order-loving populations. And yet in this period, so brief in the life of a Nation, you have attained to a Union whose characteristics, from sea to sea, are the same.

A Judicature above suspicion; self-governing communities entrusting to a strong Central Government all national interests; the toleration of all faiths, with favor to none; a franchise recognizing the rights of labor, by the exclusion only of the idler; the maintenance of a Government, not privileged to exist for any fixed term, but ever susceptible to the change of public opinion, and ever open through a responsible Ministry to the scrutiny of the people;—these are the features of your rising Power.

Finally you present the spectacle of a Nation, already possessing the means to make its position respected by its resources in men available at sea or on land. May these never be required except to gather the harvests the bounty of God has so lavishly bestowed upon you. The spirit, however, which made your Fathers resist encroachments on your soil and liberties, is with you now; and it is as certain to-day as it was formerly, that you are ready to take on yourselves the necessary burden to ensure the permanence of your Laws and Institutions.

You have the power to make Treaties on your own responsibility with foreign Nations, and your High Commissioner is associated for purposes of negotiation with the Foreign Office.

You are not the subjects, but the free allies of the great country which gave you birth, and is ready with all its energy to be the champion of your interests. Standing side by side *Canada* and *Great Britain* work together for the commercial advancement of each other. It is the recognition of this which makes such an occasion as the present significant. Personal ties, however dear to individuals are of no public moment. These may be happy or unhappy accidents. But the satisfaction experienced from the conditions of the connection now subsisting between the old and the new Lands, can be affected by no personal accident.

I therefore rejoice that again it has been your determination to show that *Canada* remains as firmly rooted as ever in love to that free union which ensures to you and to *Great Britain* equal advantages. Without it the maintenance of your Institutions and National Autonomy would not be allowed to endure for a twelvemonth; while the loss of the alliance of the communities which were once the dependencies of *England*, would be a heavy blow to her commerce and renown.

I thank you once more for your words which shall be dear treasures to me for ever; and may the end of the term of each public servant who fills with you the office which constitutes him at once your Chief Magistrate, and the Representative of a United Empire, be a day for pronouncing in favor of a free National Government, defended by such Imperial alliance.

LOBNE.

"MAY IT PLEASE YOUR EXCELLENCY,

"The Commons of *Canada* have voted the Supplies required to enable the Government to defray the expenses of the Public Service.

"In the name of the Commons, I present to Your Excellency a Bill intituled:—  
"An Act for granting to Her Majesty certain sums of money required for  
"defraying certain expenses of the Public Service, for the financial years ending  
"respectively the 30th June, 1883, and the 30th June, 1884, and for other purposes  
"relating to the Public Service,' to which I humbly request Your Excellency's  
"Assent."

To this Bill the Clerk of this House, by His Excellency's command, did thereupon say:—

"In Her Majesty's name, His Excellency the Governor General thanks Her Loyal subjects, accepts their benevolence, and assents to this Bill."

His Excellency the Governor General was then pleased to deliver the following Speech :—

*Honorable Gentlemen of the Senate :*

*Gentlemen of the House of Commons :*

I desire to thank you for the diligence and earnestness with which you have performed your duties during this protracted Session.

The large sums which the buoyant state of the Revenue has enabled you to appropriate in aid of the construction of railways and the great works of internal improvement will be carefully applied and economically expended, and must contribute in a large measure to the prosperity and progress of the Country.

The Dominion Lands Bill which embodies the results of the experience acquired during the last two years will, it is believed, greatly assist and encourage the settlers now flowing in such unprecedented numbers into *Manitoba* and the *North-West Territories*.

The amendments to the laws respecting the Militia will tend to improve the discipline, training and military education of that invaluable force.

The consolidation and amendment of the Statutes relating to the management of the Customs, while protecting the honest trader against fraudulent and dishonest competitors, will free the commerce of the Country from some of the restraints imposed on it by the previously existing laws.

The readjustment of the Tariff and the reduction of duties on the raw materials used in our manufactures, together with the bounty granted on the production of pig iron, must aid in the further development of Canadian industries.

It is gratifying also to know that the financial position of the Public Treasury has enabled you to lower the pressure of taxation by more than a million of dollars.

The Bill for the regulation of shop, saloon, and tavern licenses must have the effect of preventing the unrestrained sale of intoxicating liquors in every Province of the Dominion, and affords an efficient system for its successful operation freed from the suspicion of political bias or control; while at the same time it will not unduly interfere with the rights of those who had engaged in the trade under the authority of Legislative enactments.

*Gentlemen of the House of Commons :*

I return you my thanks for the Supplies you have granted for the various public services.

*Honorable Gentlemen of the Senate :*

*Gentlemen of the House Commons :*

I desire to thank you for the great honor conferred on me by the presentation of a Joint Address. The Princess and I have both been profoundly touched by your words; and the message of which you make us the bearers comes, as we personally know, from a people determined to maintain the Empire.

The severance of my official connection with Canada does not loosen the tie of affection which will ever make me desire to serve this country.

I pray that the prosperity I have seen you enjoy may continue, and that the blessing of God may at all times be yours to strengthen you in Unity and Peace.

Then the Honorable The Speaker of the Senate said :—

*Honorable Gentlemen of the Senate :*

*Gentlemen of the House of Commons :*

It is His Excellency the Governor General's will and pleasure that this Parliament be prorogued until Wednesday the Fourth day of July next, to be here holden, and this Parliament is accordingly prorogued until Wednesday, the Fourth day of July next.
