CREDIT RATES OF PREMUM.

THE great and decided success which has attended this Institution, has induced the Birectors to MEDUCE the RATES originally required in British North America, to the ordinary European Rates. The result of such Reduction is to enable parties to avail themselves of the important benefits to Life Assurance at succh lower Rates of Premium than those of any other Assurance Company I ansucing business in Console.

The Directors have also resolved to extend to British North America the advantages afforded by the HALF CREDIT RATES of FREMIUM which have been so highly approved, and are so generally adopted by Policy Holders in the United Kingdom. The most liberal conditions are likewise offered to the Assured in the limits to which they may proceed by see or land, to other parts of North America without affecting their Interest in their respective Policies.

ERASMUS R. FOSTER, Resident Director. PROMPT adjustment and payment of LOSSES, combined with fair rates of Premium, have entitled this Corporation to rank among the for a similar Institutions in the United States.

The Undersigned will give immediate personal attention to applications for INSURANCE against FIRE on every description of Property, either in Town or Country.
