ATHENS AND VICINITY

FARMERS—Do you want to sell a horse or buy one? Do you want to buy or sell a cow? Use the bulletin service in the office of the Merchants Bank of Canada in Athens. We will help you make your purchases and sales.—Ask for the manager.

Ice Cream in Vanilla, Chocolate and Maple flavors at the Bazaar. Violin and Piano Music in Ice Cream Parlor.

ICE CREAM, Fresh Fruits and Confectionery at Maud Addison's

Custom Roll Carding for Home Spinning, or spun into yarn. We also take wool in exchange for Blankets.—Athens, Woolen Mill, J. F. Gordon, Prop.

Hear the New Victor Records while you are enjoying a dish of Ice Cream at E. C. Tribute's

WANTED—Qualified teacher for S.S. No. 10 Bastard. Please state salary and experience. Apply J. E. Barlow, Secretary, Delta, Ont.

Miss Amy Richards, Chantry, spent the week end with her friend friend Miss Ruby Whitmore, Main St.

Mr. and Mrs. Walter H. Smith, and family have returned from a two week's vacation with friends in western Ontario.

Mrs. H. C. Phillips is visiting friends in Phillipsville and Forfor this week.

Mrs. N. G. Scott and Lawrence are visiting with friends at Jasper this week.

Mr. and Mrs. George Beattie and little daughter Helen of Chesterville, also Mrs. Arnold Dockstader and Miss Pauline of Winchester, motored to Athens this past week and we guests of Mr. and Mrs. S. J. Dillabough.

Miss Mary and Master Jamie Brown of Leeds have returned home having spent a week or more of their holidays with their grandma Rappell and Auntie Grace.

Miss Susau Doolan, Redan has returned home having spent the past three weeks in Athens.

Mrs. Fenlong has moved from the corner of Elgin and Wellington Sts. to the home of Mrs. Lillie ou Sarah St.

Owing to a misunderstanding the Films for the Camp Vega Motion Pictures to be held in Cedar Park, on Saturday July 17th were not delivered. Hereafter they will be shown regularly every Saturday night until Sept. 11 inclusive. Dancing will follow, music by the Camp Vega Orchestra Admission to the dance 25c.

We are pleased to see our friend George Purcell is able to be on his job again.

Mrs. Leah Lillie has written a photoplay which has been accepted by a New York producer, entitled "A Woodland Tragedy." Mrs. Lillie is now at work on another play where she gives the entire continuity of the plot. We congratulate her.

Mr. Morley Earl is attending the Grand Lodge, A.F.&A.M., of Canada in Ontario at Niagara Falls this week.

Construction work under the foremanship of Mr. McMahon on the local C.N.R. line was in progress last week.

Mr. H. Bishop and family of Peterboro, made a flying visit at the home of Mr. and Mrs. C. B. McLean this week.

Rev. J. E. Wilson, of the Holiness Movement church, is attending their annual conference at Killarney, Man., and will be absent two weeks.

Mr. John Chassels was home this week and disposed of the remaining stock of goods and accessories of his father, A. M. Chassels.

We notice by the Recorder and Times that Dr. Beaumont S. Cornell has entered into partnership with his uncle, Dr. Chas. M. B. Cornell, of Brockville.

The Misses Beatrice, Mildred and Dorothy Wilson, of Kempsville, motored here last week and were the guests of Mrs. A. W. Kelly.

Misses Jane and Lillian Harte, of Chesterville, who have been visiting their uncle, Dr. J. F. Harte, returned to their home on Tuesday.

Miss Marion Cornell spent Tuesday visiting her mother, who is a patient at Brockville General Hospital.

Miss Ada Leadbeater is visiting friends at Seely's Bay.

Mrs. Ephraim Robeson had the misfortune to fall down stairs on Saturday last and was badly shaken up. Mrs. Niblock is at present attending her.

Berry picking is the order of the day now and the supply is abundant.

Word was received by Mrs. Wm. Hills of this town that her son, Arden Hills, aged 42 years, was found dead two miles from Peace River City, Alberta. He was murdered and had a badly fractured skull. The body was not in a condition for shipping and was buried at once in Peace River.

Mr. and Mrs. A. Henderson motored to Kingston last Saturday with their daughter, Mrs. G. G. Richardson, who spent the past week at her home here. Master Alvah Henderson and Mrs. William Doolan accompanied them.

Miss Edna Henderson spent the 12th at Iroquois, a guest of her friend, Miss Gracie H. Tully.

Mrs. Monford Berney is taking an agricultural course at the Whitby College for a month during the summer vacation.

NOTICE.

Any person or persons found trespassing, smoking or shooting on my premises after this date will be prosecuted to the full extent of the law.
ROYAL MOORE.

Form Right Companionships

So Says Rev. S. F. Newton in Methodist Church Sunday Evening.

The Rev. S. F. Newton, Methodist minister, of Athens, who recently arrived from Montreal, is drawing splendid congregations and creating considerable interest by his practical, heart-reaching sermons.

On Sunday evening last his remarks about companionships were particularly good and seemed opportune. His text was "My God shall supply all you need according to His riches in glory by Christ Jesus," and one source of supply God had provided was companionship with good people. These good people, young and old, were provided for all who desired them, and the preacher said he could not understand how any young man or woman could be so foolish as to seek for a companion or partner for life amongst those whose morals were loose, and the tendency of whose influence would be to send downward instead of upward. He strongly advised any who had thoughtlessly made such associations to "cut" them at once, for surely they must know their companionships should be carefully made and should be such as to "lift them" and not "lower them" morally.

Entrance Examination Results

The Department of Education has authorized the publication of the following Junior High School Entrance results.

Certificates will be sent to the successful candidates and a statement of marks will be sent to those who failed.

Athens Centre.

Admitted by the Board of Examiners: Maud Aigue, Arthur Barber (hon.), Eulah Brown, Kenneth Bulford, Leonard Bulford, Edna Donovan, Nellie Ferguson, Robert Ferguson, Irene Gicord, Kenneth Hall, Tressa Hinton, Gordon Hogaboom, Howard Holmes, Charles Hutchinson, Leonard Johnston, Marguerite King, Samuel King, Evelyn Latimer, Annie Maude, Opal McVeigh, Helen Morrie (hon.), Dora Mulvan, Margaret Olds, Marjorie Olds, Hazel Pattemore, Louise Poole (hon.), Robert Rahmer, Eileen Scott, Vera Shea, Bryce Sheffield, Rena Soper, Alice Stevens, Ella Tennant, Willie Thom, Arthur Thomson, Byron Westlake, Catherine White.
Recommended for admission: Irma Olds.

Jasper Centre.

Admitted by the Board of Examiners: Joseph Donnelly (hon.), Elsie Frayn (hon.), Teresa Hewitt, Alma Kinch, Laura Logan, Charlotte McConnell, Kathleen O'Mara, Loreen Seward, Claude Wood (hon.), Wilma Wood (hon.).

Lansdowne.

Bessie Allen, Robert Allen (hon.), Leona Andress, Edwin Bradley (hon.), Howard Copeland, Bertha Ferguson, Bernice Greer, Mary Hostler (hon.), Laura Kyes, Joseph Marshal, Beulah Mitchell, Basil McKay, Gerald Moore, Floyd Moore, Archie Running, Alex. Steacy, Jean Steacy, Myrta Crozier, Ernest Tackaberry, Anna Wren, Cecil Doak, Alice Landon, Lillian Phillips, Marvin Smith, Floyd Stringer.

Delta.

Grace Aimer, Norman Bracken, Marie Brydon (hon.), Anna Burns, Reta B. Burtch, Verden Burns, Reginald Charland, Nita Davis (hon.), Harold Dennison (hon.), Florence Edgers, Irene Elliott, Anna Edwin, Kathleen Halliday, Charlie Hill, Alice Hill, Sylvia Howard, Audrey Kenny (hon.), Marie Kenny, Winnifred Kenny, Omar Lamming, Howard MacMillan, Carmel MacNamee, Kathleen Maloney, Dorothy Male, Elmer McFadden, Rhoda McMullen, Leonard Morris, Arnold Mainse, Lenna Raison, Ruby Richards, Jean Russell (hon.), Hugh Riman, Harrison Russell (hon.), Bessie Somerville (hon.), George Stone, Florence Sweet, Alberta Wiltse, Lillian White (hon.), Harold Wills, Alison Whitmore (hon.), Travan Wills, Lucille Dowsett.

Township Council

The council of Rear of Yonge and Escott met at call of the Reeve on Friday evening, 16th inst. members all present.

The Reeve explained that the meeting was called to arrange for construction and maintenance of County roads and a by-law was passed appointing George O. Hayes as commissioner for the work in the township, at the salary of \$5 per day for the time he is employed.

Moved by G. O. Hayes seconded by C. B. Howard, that J. C. Peterson be paid one hundred and fifty three dollars for piling 51 cords of stone on town line road between Yonge and Kitley.—Carried.

Moved by G. O. Hayes seconded by C. B. Howard that this meeting do now adjourn.—Carried.

R. E. CORNELL
Clerk.

ICE CREAM SOCIAL

The congregation of St. Paul's church, Delta, are holding an ice cream social and supper on the Fair Grounds, Delta, on Wednesday, July 28th. Come and have a good supper and hear the famous Susie's Band. Admission 50c. Children 35c.

W.C.C.A. PLAN IN LIGHT OF NATION'S DEBT

Value of Proposed Colonization Greatly Exceeds Canada's Obligations.

SOME ESTIMATES

What Influx of 100,000 Farmers Would Mean in Actual Money.

"If the Western Canada Colonization Association settles 20,000,000 acres of idle arable land, it is probable that another 10,000,000 acres, suitable only for pasture, will be used for raising livestock. The value of such settlement will exceed the entire national debt of the Dominion."

"In 1918, the farm production of Alberta, Manitoba and Saskatchewan was valued at \$1,322,804,490, from some 37,897,416 acres under field crops and other lands suitable only for livestock. On the same basis, the idle acres which the Association aims to bring into use have a potential value of \$870,000,000 per annum."

"Divided into 93,750 half-section farms, each of 320 acres, these lands would provide an opportunity for almost 100,000 more farmers, and for a total of at least 400,000 immigrants, counting men, women and children."

"The immigrants sought by the Association will be 'hand-picked' and will be from the United States and the British Isles, principally. Their average wealth may be placed conservatively at \$300 each. This in itself means a total initial accession to national wealth of something like \$100,000,000."

"Such an influx of agricultural settlers would be accompanied by heavy immigration of artisans and other non-agriculturists, with a wealth of probably \$50,000,000 more."

"The annual gross income per farm in Western Canada is now close to \$4,500 including the value of products consumed by the farmer themselves. Allowing for a possible decrease in prices, the annual gross income per farm may safely be placed at not less than \$2,500 for many years to come. Of this amount at least \$1,500 is expended annually in purchases of goods, largely in local stores. One thousand dollars represents the value of products of the farm consumed by the farmer and his household, expenditures on vacations, etc., taxes and payments for personal services."

"Most of the remaining \$1,000 is saved or invested. If the farm, equipment or livestock be mortgaged, or if money is owing otherwise on loans, part of the income may be expended as interest or in reduction of the principal amount of such mortgage or loan. But even such payments mean, for the most part, an addition to national wealth. Depreciation of machinery will be offset largely, if not entirely, by the purchase of new equipment or by farm betterments."

"At a conservative estimate, \$1,000 probably would represent the average net production per farm, after deducting from the gross income expenditures of all kinds except those properly chargeable to capital account. Then, too, of the \$1,500 or more expended for goods, probably \$200 would be used by the producers, merchants or transportation interests, and would go to increase the total national capital. In this way each farm would contribute \$1,200 every year to increase the national wealth of the Dominion."

"For all the 93,750 new farms, the increase would amount to \$112,500,000. But this would be the gain from the product in a single year. Canada would, in effect, receive from the settlement of these idle acres a perpetual increase in national wealth of \$112,500,000. The present value of such perpetuity, reckoned at 6 per cent, is no less than \$1,875,000,000."

"The \$1,500 or more expended by each farm household annually for goods would be distributed among retailers, wholesalers, bankers and manufacturers. Ultimately, much of it would go to the workers. It would provide more employment and attract new capital to supply the additional wants."

"A recent survey among its subscribers, made by one of the large farm papers in Western Canada, showed that 50 per cent of the farmers carried life insurance; 46.3 per cent had telephones; 47.2 per cent owned automobiles; 36 per cent had gasoline engines; 34 per cent had pianos; 30 per cent owned threshing outfits; 20 per cent owned tractors; 20.4 per cent owned trucks. The figures indicate the tremendous demand for goods and services which would result from the successful utilization of nearly 100,000 new farms. That demand would mean increased prosperity for every interest in the Dominion."

"The settlers and their families would spend at least \$140,750,000 annually, principally on manufactured goods. To meet this demand, not less than \$125,000,000 would be needed for industrial undertakings. The opportunity would attract new capital from the United States and elsewhere, and it would attract new capital from the United States and elsewhere, and it would be safe to count on an accession of at least \$75,000,000 in this way."

yearly increase of \$71,531,350 in the gross income of the railroads. Besides the transportation services, grain dealers, commission merchants, millers, meat packers, cold storages, creameries, and many other interests would share in such new business. On the average the products would be turned over three times before reaching the consumer. This would mean a turnover of more than \$10,000 for each farm, or probably \$1,000,000,000 in all. Such business would provide employment for many more persons, and the actual net profit or savings would not be less than 3 per cent. This would represent an addition to the national wealth of \$30,000,000 per annum in perpetuity at 6 per cent, is \$500,000,000."

"The increase in national wealth which would result from the accomplishment of the aim of the Western Canada Colonization Association may, then, be summarized as follows:

Table with 2 columns: Item, Value. Includes New wealth brought by settlers (\$150,000,000), Present net worth of new farm production (1,875,000,000), New capital attracted from abroad for industrial undertakings (75,000,000), Present worth of new wealth resulting from profits on handling new farm production (500,000,000), Total (\$2,600,000,000).

"Besides, there would be the wealth created by the thousands of new non-agricultural immigrants who would accompany the influx of farm settlers. In comparison, Canada's national debt is less than \$3,100,000,000, and the net debt about \$2,000,000,000. Utilization of the idle lands of Western Canada in its value to Canada not only would offset the entire net debt of the Dominion but would leave a surplus of more than half a billion dollars for development of the Dominion's natural resources."

SUNDAY HOME

Sweeter than any song My song that found no tongue; Nobler than any fact My wish that failed to act; Others shall sing the song, Others shall right the wrong, I find what I begin, And all I fall of wit, What matter, I or they? Mine or another's day? So the right word be said, And life the sweeter made. —John Greenleaf Whittier.

BEGINNINGS IN SMALL WAY

What a splendid river the Thames! How broad, and deep and strong! It carries thousands of ships on its bosom. When you see that river you would hardly think that it has a very small beginning, but it has. I have seen the place where it begins, and I have jumped over it. There isn't half as much water flowing there as runs down your street when a pipe has burst. How then does it become so great? By just going along and doing its best, and keeping on its way; for, as it goes, other little rills of swells and broadens and becomes the mighty river that it is.

That is the way people grow wise. And that is the way to grow up as God wants us. Nobody becomes good all at once; salvation, that is God's good Spirit in the heart, always begins in a small way.

In one form or another co-operation is one of the greatest forces of the day. Without co-operation we should probably never have emerged successfully from the great war, and without well-considered co-operation on the part of all classes we shall never restore our country to that state of peace and prosperity which we desire here to enjoy. Individualism in these days is impossible, since never was more clearly demonstrable that "no man liveth unto himself." Social life, business life, and Christian fellowship alike demand jointly that we should all take our share in the endeavor to make this country what we have heard described as "a land fit for heroes to dwell in." But striking phrases count for nothing unless they are backed up by action, as we are continually finding out in our daily lives. Here and there we find efforts made with varying success, but the real great national effort still remains to be made—and we must make it or become a mere heterogeneous crowd of little partisans without hope of achieving anything on a grand scale.

It was struck the other day with a passage from a Bulletin of the Pennsylvania Manufacturers' Association. It seemed so applicable to our own needs here, both material and religious that I venture to quote a portion of it, as affording food for thought. "We need co-operation, but co-operation must be on an equitable basis. There will be no going around if we get to a basis of justice, and build up a foundation of fairness for all concerned. The affairs of our great country must not be conducted for the benefit of one section or one class, to the injury of another section or class. There should be such harmony and correlation as to bring a mutuality of interests, and a consequent beneficial result to all. We are a nation of many classes, industrial and social, but largely interdependent, and when friction comes there must be compromise if a common ground of agreement can be reached."

The same spirit was shown recently in a remark made by Mr. John Walsh, Conciliation Commissioner of the United States Department of Labor. "We must get back to God's teachings, and must have brotherly love in our hearts to make the world great undertakings go forward," he told a party of would-be strikers at Wheeling, and in the end the Golden Rule was agreed on, and put into practice with excellent results. The whole body of craftsmen in the district declared their belief that the teachings of Christ constituted a platform upon which all men can agree. If other bodies will follow that example, what a splendid prospect might be opened up before our eyes. Men can be moved frequently through appeal to this simple lesson of brotherly love. If more of us practiced the teaching it would not be long before the world would be safe for liberty and justice.

Co-operation does not by any means infer the loss of individuality, although its results are reached through the combining of the best efforts of all concerned; it is an everyday illustration of the old axiom that "Union is strength." The man with one aim can accomplish what no single unit could possibly achieve. Now co-operation to be of the fullest value to the world must have a Christian basis. We recognize this in our efforts to arrive at church unity, and every step in this direction is of value in its contribution towards reaching our goal. We may be progressing slowly but the marching armies are gradually drawing nearer to each other, and to the consummation of the great aim. The Church of God must include all our sects; it would not be complete without them.

SUNDAY SCHOOL LESSON

Lesson IV, July 25, 1920.

DAVID SUCCEEDS SAUL AS KING.

2 Samuel 2: 1-7; 5: 1-5.

Commentary.—I. David Made King of Judah (2: 1-4). 1. After this—After the death of Saul and Jonathan in the battle at Gilboa, in which the Philistines defeated the Israelites, shall I go up—David knew that he was to become king of Israel and he sought divine guidance as to how he should enter upon this work. We can not detect any ambition in David. He inquired of the Lord at Abiarbar, the high priest, unto Hebron—David and his followers were then living in Ziklag, which had been granted to him by the Philistines. He was to go into purely Israelitish territory. Hebron was a city in the patriarchal period (Gen. 13:18; Josh. 10:3). It was the centre of the tribe of Judah, and was a fitting place for him to occupy. The region was mountainous and could be easily defended. David was familiar with this country, as it was but a few miles from Bethlehem, his native place. The northern part of the land of Israel was troubled by the Philistines and parts were loyal to the house of Saul. 2. Jezebelites.—The Jezreel which was the country of Abinoam was in the land of Ishbosheth, as was also Carme, the home of Abigail. God's plan in the beginning was that a man should rule; but one living wife, and this is still his plan in patriarchal and later times polygamy was in a sense permitted. 3. As he had been loyal to him during the life of his exilic, with his brethren—they had come to have a friendly settled abode at Ziklag, west of Hebron.—These were smaller cities situated near Hebron and perhaps occupied upon it. David provided for his supporters and their families in the new location. 4. The men of Judah came to David and were friendly toward him.—They had come to have a friendly settled abode at Ziklag, west of Hebron.—These were smaller cities situated near Hebron and perhaps occupied upon it. David provided for his supporters and their families in the new location. 5. They were friendly toward him.—They had come to have a friendly settled abode at Ziklag, west of Hebron.—These were smaller cities situated near Hebron and perhaps occupied upon it. David provided for his supporters and their families in the new location.

II. David made king. God's great purposes can not be thwarted. They move majestically to fulfillment through entangled circumstances, and over all opposing agencies cannot be long been assured of the throne of Israel. The anointing by Samuel had been such a promise and pledge. Saul and Jonathan, the former reluctantly, the latter with noble unselfishness, had acknowledged and proclaimed the divine purpose. In the history we can trace the growth and bracing of David's character. The time of preparation is not lost. Jesus had his enthusiastic and eager disciples "tarry," and never were days more effectually spent. David became more chastened, more ennobled and trustful in spirit, more complete in consecration, and fixed in purpose. The anointing at Hebron at the commencement of his kingship is to mark the passing of the scepter from the tribe of Benjamin to the scepter of the tribe of Judah; of which has come the "Prince of Peace," whose reign shall be universal and of whose kingdom "there shall be no end." We have abundant scripture warrant for regarding David as a type of Christ, who did not disdain to be called his Son. David was anointed king, Jesus was anointed with the Holy Ghost.

III. The secret of David's success. True success always involves righteousness of character and aim. The underlying principle is always the same. To attain wrong ends is never success, but defeat and disaster. The secret of David's success was, first, faithfulness. Whether shepherd, courier or captain, the same quality was manifest. It is the manner rather than the measure of service which is the basis of reward. David's second quality was discretion. "He behaved himself very wisely" (1 Sam. 18: 15). "The Lord was with him," and all his conquests were achieved "in the name of the Lord" (1 Sam. 17:45). The real test of success is the end. The value of action and processes is always determined here.

Evolution of a Happy Thought.

Mark Twain's favorite example was a man who was busy for weeks with the proverbial one-armed paper hanger with hives. Eureka, we begin to see a light. You've heard about "as busy as a bee." Well, isn't it stupid; hives, bee—see? Vodeville stuff.—Indianapolis Star.

ceived the same divine promises. This was one reason why all should be under one king. 2. thou... I'd-quest out and brought in Israel—A second reason for allegiance to David was, that he had been a successful leader against Israel's enemies. Thou shalt feed my people Israel—The king is represented under the figure of a shepherd. David had been a shepherd and knew that a shepherd should provide pasture, water and protection for his sheep. The king should have a tender care for his subjects, a captain—David was to be more than a provider for his people. He was to rule over them and to be their military leader. It seemed essential, in view of the numerous enemies that were ready to attack Israel, that there should be a strong military power in the government, but we remember that God mightily defended his people when they obeyed and trusted him.

3. Elders of Israel—The leading men of the various tribes. Made a league—The people had declared that David should be the king of all Israel, so he entered into a solemn covenant with them, they promising to do certain things on their part and he pledging that he would do certain things. Before the Lord—The covenant was made as a solemn religious ceremony, in the presence of the supreme King of Israel, whose vice-regent David was.—Cam. Bib. They anointed David king.—This was the third time he was anointed for the kingship of Israel. 4. Thirty years entered upon their duties. Joseph was made ruler of Egypt at thirty. Jesus entered upon his public ministry at this age. This was the age of maturity. 5. In Hebron—His capital during the seven and a half years in three years—Jerusalem was a stronghold, a part of which was held by the Jebusites until David had become king of all Israel. The hill Zion is the southwest portion of Jerusalem. The deep valley of Hinnom lies on the north and east. David gained possession of Jerusalem and made it his capital during the last thirty-three years of his long reign.

Questions—What events are recorded in David's life from the time he spared Saul's life in Hachilah to his being made king at Hebron? What question did David ask the Lord? Why did he send a message to Jabesh? Who came to David after he had been reigning seven years? How many cities and what purpose? How many cities did he have? How long did David reign in Jerusalem?

PRACTICAL SURVEY

Topic—True success and how to win it.

I.—Connecting events.

II.—David made king.

III.—The secret of David's success.

I. Connecting events. The battle of Gilboa left Israel in a condition of defeat and disorder equal to that of Apehek (1 Sam. 4). The ark, however, was not captured and David was called to be their deliverer. Following their success the Philistines overran the country west of Jordan and occupied the deserted cities (1 Sam. 31:7). On the field of battle, Saul perished, also Jonathan, the prince royal, and their apparent heirs the throne. David laments their fall in a magnificent composition, at once reverent and magnanimous. There is no expression of triumph over his slain enemy. There is a noble-minded forgiveness of his own injuries. He presents the brightest view of Saul's merits his faults and exalts his valor. Saul is "the anointed of the Lord," and king over Israel, and is to be honored even in death. In both speech and action David throughout all his connection with Saul sustains every word of the lament. Most tenderly and beautifully he celebrates the surpassing and steadfast affection between Jonathan and himself.

II. David made king. God's great purposes can not be thwarted. They move majestically to fulfillment through entangled circumstances, and over all opposing agencies cannot be long been assured of the throne of Israel. The anointing by Samuel had been such a promise and pledge. Saul and Jonathan, the former reluctantly, the latter with noble unselfishness, had acknowledged and proclaimed the divine purpose. In the history we can trace the growth and bracing of David's character. The time of preparation is not lost. Jesus had his enthusiastic and eager disciples "tarry," and never were days more effectually spent. David became more chastened, more ennobled and trustful in spirit, more complete in consecration, and fixed in purpose. The anointing at Hebron at the commencement of his kingship is to mark the passing of the scepter from the tribe of Benjamin to the scepter of the tribe of Judah; of which has come the "Prince of Peace," whose reign shall be universal and of whose kingdom "there shall be no end." We have abundant scripture warrant for regarding David as a type of Christ, who did not disdain to be called his Son. David was anointed king, Jesus was anointed with the Holy Ghost.

III. The secret of David's success. True success always involves righteousness of character and aim. The underlying principle is always the same. To attain wrong ends is never success, but defeat and disaster. The secret of David's success was, first, faithfulness. Whether shepherd, courier or captain, the same quality was manifest. It is the manner rather than the measure of service which is the basis of reward. David's second quality was discretion. "He behaved himself very wisely" (1 Sam. 18: 15). "The Lord was with him," and all his conquests were achieved "in the name of the Lord" (1 Sam. 17:45). The real test of success is the end. The value of action and processes is always determined here.

Cheap Form of Insurance

You are insured against corns and bunions by the purchase of a single 25c bottle of Putnam's Corn Extractor; it cures painlessly in 24 hours. Try Putnam's Extractor, 25c at all dealers.

She Wanted Progress.

"No, sah, Ah don't never ride on dem things," said an old colored lady looking in on the merry-go-round. "Why, de other day I seen dat Rastus Johnson git on an' ride as much as a dollah's worth an' git off at the very same place he got on at, an' sez to him: 'Rastus, I sez, 'yo' spent yo' money, but whar 'yo' been?'" Boston Transcript.

THE POULTRY WORLD MARKET REPORTS

EXTRA CARE FOR SUMMER CHICKS. (J. Harry Wolsieffer, in Philadelphia Record.)

The fanciers claim that for them June is one of the best months to raise their future winners. These men are as a rule skillful breeders, and the winnings at the big winter exhibits prove their claim as such. No bird can win under the well-known judges of national reputation at any winter exhibit of note without being almost perfect as to physical qualifications as well as feathers and other minor points. So to do this the fowls must be some merit in the June-hatched chick, and especially if it is to compete at some winter show. However, the beginner does not see or do many things that the skillful breeder never neglects, and this does not mean those who raise poultry for exhibition alone, but for the small army of beginners that start each year with poultry for eggs and meat. Pullets will not produce eggs unless they are properly fed and cared for. These young fowls cannot produce unless they have full development, and this takes place early or late, as the caretaker makes it.

Few realize that to have the poultry develop and produce on time, according to the breed, depends wholly on the care given them. Many breeders are blamed each year by purchasers of eggs for hatching day-old chicks, and stock, when they do not get the expected results, when in perhaps the majority of cases they are to blame in failing to comply with the necessary essentials. Poultry needs the same care that other live stock needs; yet so many think that chickens can make good and shift largely for themselves. Even on the farm with the ideal conditions, unless care is given them they cannot do their part, and this is the reason that, as a rule, the farm flock does not pay, when it should be a paying proposition above all other branches as a side line.

Of late, with high feed prices, the farmer has commenced to realize this, and with the shortage of help many flocks have been reduced in size, instead of increased, as they should have been. In the old days of cheap feeds and labor the loss was not felt so much, but to-day it is different. But a few new commercial plants have been built within the past two years, due to the rapid rise in lumber and wages. Those plants that are in operation after the war commenced to run at their full capacity, but have not enlarged, so to keep pace the late-hatched chick has become popular, and the indications are that this year and next are sure to be large in eggs for hatching and chicks.

However, it is well to warn the purchaser that certain essentials must be followed to be successful. It is taken for granted that the eggs for hatching come from the best quality stock. The same must be said for the day-old chick, for no skillful car can ever overbalance chicks that are from poor stock and, unfortunately, there is yet too much of this kind of stock in the country. In their haste to overbalance the shortage made during the war, they hatched from all the available stock they had when close culling should have been practiced to a greater extent. In this the fancier has led, for they well know that only the finest specimens can win, and that like begets like to a great extent.

So close culling is strictly adhered to in the majority of cases. The commercial poultry keeper would do well to follow this well-known rule—quality counts. The June-hatched chick should always have plenty of room. It goes without saying that the poultry quarters should be well ventilated and kept clean and free from lice and vermin. The late-hatched chicks to do their best should have more room than that given those hatched earlier. They should also be confined by themselves. Good results cannot be obtained if the older chicks are allowed to run with them. They need not be pampered, but must have extra care. Water, the one thing so often neglected, is far more important than many think. Clean, fresh water should be paced before them at all times. Because the water vessels are full does not mean that this requirement has been filled. Cool water must be available the greater part of hot days. Warm water they will only drink when forced to. A good poultry house and fresh water are the first two things to look carefully after. Feeds that are not forcing, but contain all the elements to build body and feathers, can be purchased. Cheap feeds should be avoided, as they cannot contain all the growing stock requires in the proper amount. One cannot skip on the feed bill and expect the stock to do their best. One cannot go wrong when they purchase the grains and dry mash that the leading feed firms put up.

One need not waste feed, but it is seldom that a mistake is made in overfeeding the growing stock. Rather during these days underfeeding is the practice, with the result of having the stock retarded in their growth. Provide shade in some form that the stock may be protected during the hot part of the day and not be compelled to find relief in the hot poultry house. If the chicks do not have free range, green food in some form should be fed. The lasting effects upon those which had green feed in the natural season is apparent. It is the little details that count in success with poultry and the main essentials, such as good poultry quarters, clean, fresh water, plenty of room for the chicks, green food in some form.

Winnipeg Exchange

Table with 2 columns: Commodity, Price. Includes Oats, Wheat, Barley, Flax, etc.

MINNEAPOLIS

Minneapolis—Flour unchanged to 20¢ higher. Carload lots, family patent quoted at \$14.20 to \$14.40 a barrel in 98-pound cotton sacks. Quotations—Bran, \$49.00; Wheat, No. 1 Northern, \$2.90 to \$3.00; Corn, No. 3 yellow, \$1.52 to \$1.55; Oats, No. 3 white, 80¢ to \$1.00; Barley, \$1.03 to \$1.24; Flax, \$3.40 to \$3.65.

St. Paschal, Que.—At a meeting of the St. Paschal Dairy Board 255 boxes of cheese were sold to A. W. Grant, of Montreal, at 27 1/2 cents, and 175 packages of butter to Ayer, of Montreal, at 57¢.

Woodstock, Ont.—On the local cheese board to-day 480 colored and 240 boxes of white cheese were offered. The highest bid on the board was 23 cents, with no sales. On the curb part of the offering was disposed of at 24¢ cents.

CONSTIPATED CHILDREN

Children who suffer from constipation, indigestion or any of the other ailments due to a clogged condition of the bowels will find prompt relief through the use of Baby's Own Tablets. The Tablets are a mild but thorough laxative which can always be depended upon to regulate the bowels and sweeten the stomach. They are absolutely safe and are sold under a guarantee to be entirely free from opiates or other injurious drugs. Concerning them Mrs. Thomas A. Boutot, Lake Baker, N.B., writes: "I am pleased to state that Baby's Own Tablets were of great help to me when my baby was suffering from constipation." The Tablets are sold by medicine dealers or by mail at 21 cents a box from The Dr. Williams Medicine Co., Brockville, Ont.

RAIN ADDS FIVE BUSHELS AN ACRE

Lethbridge, Alta., July 25.—One and one-half inches of rain fell over the whole of Southern Alberta from the Rockies to Saskatchewan, and from Calgary to the boundary, last night, and according to Experimental Farm experts, the storm means an added five bushels to the acre on the Southern Alberta crop this year. It is estimated that the Lethbridge railway division will ship 25,000,000 bushels of all grains this year, as against 38,000,000 bushels in the big crop of 1915. Ten days ago it looked as if Southern Alberta would have a poor crop.

Partridge Tires
Game as Their Name

Extravagant claims and exaggerated statements may sell tires—but they can never make tires give mileage or service.

About Partridge Tires little need be said. Their reputation for durability and dependability under all road conditions, justifies the statement "You can't buy better tires."

A JEWEL IN THE ROUGH

Stephen Wood's cabin was a little higher up in the gulch by several yards, and the claims of the two men had been staked out side by side. A great friendship had grown up between the two, such a friendship as common danger, common privation, common aims, and Nature's awful loneliness drives any two human beings in each other's proximity into. But besides this friendship there was a quiet liking on Talbot's part for this weak, impulsive, boyish character, so unlike his own, and on Stephen's side a warm admiration for all Talbot's qualities that he could not and yet wished to emulate. He, as others, was completely excluded from the elder man's confidence, and knew nothing of his past or what was likely to be his future; but then Stephen was one of those people always so deeply absorbed in himself, his own aims and views, that he never noticed that his manifold confidences were never returned in the smallest degree. He would come to Talbot's claim in the evening, seat himself on the seat beside the fire, and talk incessantly. Talbot would permit him to do so until he felt tired, when he would rise and quietly tell him to go. Stephen would hastily apologize and retire to return the following night quite unabashed, with more views and aims to impart. In the first week of their acquaintance Talbot had heard

Cook's Cotton Root Compound.

A safe, reliable, and purifying medicine. Sold in three degrees of strength—No. 1, \$1; No. 2, 50c; No. 3, 25c per box. Sold by all druggists or sent prepaid on receipt of price. Free pamphlet. Address: THE COOK MEDICINE CO., TORONTO, ONT. (Formerly Windsor.)

all about his home life—about the little English village, and the red-brick, ivy-covered school-house, where he had been master since he was eighteen, of the village school-mistress he had loved, because she was so good, and had abandoned, presumably for the same reason; of his doubts, fears, hopes, wishes and intentions—more after ten months he knew no more of Talbot than he did the day of their first meeting.

The cabins of the men employed by both Stephen and Talbot were dotted over the gulch, some higher and some lower than their own; while a number of the men lived some distance off, a few of them even had lodgings in the town.

When at last Talbot reached his cabin door this evening, darkness had completely fallen; there was no light from within to guide him, but with his half-frozen fingers he managed to unlock the outer door, and he and his tired beast went in together. The first thing he thought of when he had closed the great door behind him and lighted up the passage was to unpack the animal and put him up in the stable which he had built opposite his own cabin door; and it was fully an hour before, having seen the beast comfortably installed, he turned into his own room and stuck a light. Here there was only one living thing to greet him, and that was a shabby little black cat that leaped off the bed in the corner and came purring to meet him. One morning he had found this cat lying on his claim with a broken leg and carried it back to his cabin, where he had set the leg and nursed the miserable little creature into recovery. Denbigh his foreman, who had seen Talbot sitting up for two whole nights to watch the helpless animal, had carried away the impression that the cold, quiet, hard and selfish man, as he appeared to the miners, had another side to his character that they never saw. It was familiar with, and she came mewing and purring with delight toward him. Talbot, who was ready to

his loss, and the offender being beyond his reach, his anger buried against any man near him, and apparently chiefly against his employer.

A week passed before Stephen appeared at the gulch; then one evening after dark, when Talbot was sitting back in his chair, lozing after the cold and fatigue of the day's work, a loud banging came on his outer door, and when he opened it, Stephen, looking very flushed and animated, came into the quiet little room, laden with packages and with a general air of excitement about him.

"Well, how are you? Halloo, Kitty!" this as he stumbled over the little black cat at his feet. "Well, I've had such a glorious time! I wish you'd stay down there, too; that girl is just the finest creature I've ever seen. Have you anything for a fellow to eat? I'm perfectly famished. Look here; I've brought you up some cans of things and a bottle of rum, the very best. I say, you look dreadfully blue. What's the matter?"

"Life in the west gulch in the winter isn't partic'larly exhilarating," answered Talbot, quietly, as he went about his preparations for Stephen's supper.

"How have the men been—all right?" questioned Stephen, as he took off his coat and settled himself in the best chair.

"They have been working pretty steadily, but I notice a difference in them since that fellow Marley has been here. He has been stirring them up, doing a lot of mischief, I think."

"You must assert your authority, I suppose," remarked Stephen pompously, stretching his feet out comfortably in the cheerful blaze. "Perhaps he doesn't know who's master here."

"He will very soon find out, then," returned Talbot grimly, that Stephen looked at him sharply. "Well, what's all your news?" asked Talbot, as he desired to get away from the question of his men.

"I don't know that there is much, except I've been having a good time. You've looked after my ground and seen to the workings, haven't you? Thanks; I knew you would, and so I felt I could stay down town a little. You're a better hand at handling men than I am, anyway—women, too, for that matter. Do you know that you impressed Katrina awfully? She has talked about you to me. You are so good-looking, so distinguished; she wants to know whether you are a count or a prince in disguise, and all sorts of things."

Talbot smiled.

"It's extremely kind of her," he said, quietly.

"Oh, I know she's not the kind of a girl you admire," said Stephen in rather a nettled tone. "You wouldn't look at a saloonkeeper's daughter simply because she is a saloonkeeper's daughter. You like a girl in your own rank, all grace and dignity and good manners, and awfully clever and intellectual, and gifted and educated and all that."

Talbot merely laughed and remained silent—a habit he had which successfully baffled questions, innuendoes, and suggestions alike.

"And anyway your passions are engaged somehow, somewhere?"

"How do you know that?" asked Talbot, with hardening of his mouth.

"Know it! Why, otherwise you could not lead this dog's life as you do, and you could not be indifferent to a beautiful girl like Katrina—for she is beautiful—she's not pretty or nice, but she's 'twainight beautiful," returned Stephen, emphasizing his remarks by striking the table.

Talbot said nothing, but put more wood in the stove in silence.

"Your supper is ready now. If you are famished, as you said, you'd better have it, and discuss Miss Poniatovskiy afterward," he remarked.

Stephen turned to the table.

"Won't you have something, too?" he said.

Talbot shook his head.

"No, thanks, I'm not hungry."

"You assetic creature, you never are," replied Stephen, as he began to carve into the cold bacon.

"Well, you know how I detest her surroundings," he began after a few minutes, "and drinking, and saloons, and almost everything she does, but then I can't help liking her. She is so different from any girl I've ever seen. She attracts me, she holds my thoughts, and if I could get her to give up all that, if I could alter her views—"

"You would be doing away with that difference from others that is the basis of your attraction," put in Talbot, dryly.

"Well," returned Stephen after a minute in a sulky tone, "we are all like that—a man falls in love with a girl because she is a girl, and then immediately wants to turn her into a married woman."

Talbot laughed.

"Good!" he said. "You are quite right."

"It's the altering process we like, and we want to do the alteration ourselves. I showed her my pocket Greek Testament yesterday," he continued. "And was she interested?" inquired Talbot, dryly.

"Not so much as she was in the shooting gallery," admitted Stephen. "I told her how a Bible at a man's heart had often saved his life; and she said a pistol had done that, too, and she'd rather trust the pistol."

Talbot laughed.

"You say you like altering. I should think in Katrina you've a splendid field. If you want to get her down to the school-mistress pattern, you've employment for a life-time."

Stephen flushed, as he always did at any allusion to the girl he had loved as the type of all the virtues, and yet had tired of. Good people are always more or less interested in and attracted by the wicked, while the wicked are not generally the least

SUMMER ASTHMA—HAY FEVER

—sleepless nights, constant sneezing, streaming eyes, wheezy breathing—

RAZ-MAH

brings relief. Put up in capsules, easily swallowed. Sold by reliable druggists for a dollar. Ask our agents or send card for free sample to Templeton's, 142 King St. W., Toronto. Agents, all Toronto and Hamilton druggists.

drawn toward this reckless daughter of the saloons partly through the sense of her general badness; it formed unconsciously a sort of charm for him, whereas his goodness did not act at all in the way upon her. To her eyes it was his one great drawback, an overwhelming disadvantage.

He finished his supper in silence, and the two men drew in close to the fire to smoke—that is to say, Stephen did not smoke, as he did not like the talking. He consumed Talbot's tobacco, and filled Talbot's cabin with its fumes. Talbot himself did not smoke.

Stephen's return to his own claim freed Talbot from the double share of work he had been doing for the last week, and he remained on his own claim all day, tramping from one end to the other, directing where a new shaft should be made, overseeing closely all the work that went on, and doing a good deal of it himself; and in those days he became more clearly conscious than ever of the difference that was growing up in his men's manner toward him. There was a veiled insolence in their replies to his questions, a certain want of promptness in obeying his orders, which caused a curious gleam to come into the quiet gray eyes as, apparently without noticing it, he passed on.

(To be continued.)

Kidney Back Pains Permanently Cured

DR. HAMILTON GUARANTEES PROMPT AND THROUGH CURE

I can cure you. I have a remedy that has never failed in kidney disease. My wonderful preparation is known as Dr. Hamilton's Pills of Mandrake and Butternut. I guarantee Dr. Hamilton's Pills will restore the worst case of kidney suffering.

Pain in the back, sides and hips will be relieved. Dizzy spells, headache and reeling sensations will be quickly remedied. Distressing bladder complications, frequent calls, brick dust and sediment I guarantee will entirely disappear under Dr. Hamilton's Pills. If your run-down and languid condition can't be cured by Dr. Hamilton's Pills, then you are hopeless. In thousands of cases Dr. Hamilton's Pills have restored health and more; they have built up constitutions that defied further inroads of kidney disease.

Purely a vegetable remedy, free from injurious minerals like mercury and calomel, mild enough for children to use, where can you find a remedy in efficiency to approach Dr. Hamilton's Pills.

To be candid, you can't. All dealers sell Dr. Hamilton's Pills, in yellow boxes, 25c.

Finger-Prints of Families.

There is nothing unreasonable in the theory of Prof. Larson of the University of California, based on investigations begun in 1913 at Bostony University, that there is a similarity of finger-prints among members of a family sufficiently marked to enable scientists to trace family groups and determine positively whether a given individual is really a member of the family to which he claims relationship.

Down to Brass Tacks.

This is a printer's slang phrase. When a compositor exhausts the type in his "case" and "gets down to brass tacks," it means that he is down to rock-bottom, or gone the limit.

Minard's Liniment Co., Limited.

Dear Sirs:—This fall I got thrown on a fence and hurt my chest very bad, so I could not work and it hurt me to breathe. I tried all kinds of Liniments and they did me no good.

One bottle of MINARD'S LINIMENT, warmed on flannel and applied on my breast, relieved me completely.

C. H. COSSABOOM.

Rossway, Digby Co., N. S.

Liberty Demands Full Loyalty.

We honor Liberty in name and form. We set up her statues and sound her praises. But we have not yet fully trusted her. And with our growth, so grow her demands. She will have no half service.—Lord Macaulay.

Requisite on the Farm.—Every farmer and stock-raiser should keep a supply of Dr. Thomas' Electric Oil on hand, not only as a ready remedy for ills in the family, but because it is a horse and cattle medicine of great potency. As a substitute for sweet oil for horses and cattle affected by colic it far surpasses anything that can be administered.

FOR THE INVALID

Sudden illness sometimes demands invalid food that can be quickly made. And when a housewife must play the part of nurse, quickly and easily made invalid dishes are again in demand. This is the easiest sort of beef or mutton broth: Order a pound of lean meat and put it through a chopper. Cover it with a pint of cold water and let it stand fifteen minutes. Then boil slowly for thirty minutes and strain it. Season it with salt and pepper and serve very hot.

SPOON COOKING.

Eggs, unless contrary to doctor's orders, always form a staple of invalid diet. A nicely poached egg is appetizing and nourishing and can be eaten by anyone who is not on a strictly liquid diet. If you have only one egg to poach, you can do it in a big iron or granite spoon or ladle. Put a little butter in the spoon, melt it, and hold the spoon in a saucepan of boiling water. Hold a cover over the saucepan so that the top of the egg will cook. Serve it on a little round of crustless toast, softened for the moment in the steam.

Coddled eggs, too, are easily digested. To make them, have the water boiling hot, put in the eggs, cover them tightly, take from the fire and let them stand six or seven minutes.

Custard, of course, is a good invalid dish. For soft custard, heat a pint of milk, sweeten it to taste, beat two eggs up thoroughly; gradually add the hot milk to them and stir in a double boiler until moderately thick. Flavor with a drop or two of vanilla.

ORANGE WHIP.

Orange whip is appreciated by invalids. Whip the white of an egg stiff and add a little sugar, a little orange pulp and a little orange juice—not enough to thin the egg perceptibly. Grape juice, orange juice and lemon-ade can usually be given as beverages to anyone ill. But the doctor's permission should, of course, be obtained.

Toast tea is thirst-quenching to anyone who has a fever, and it is harmless. To make it, soak well-made brown bread in water for 30 minutes, then drain off the liquid. Serve it slightly chilled. This barley water may not seem to be a quickly-made dish, but it is easily made, and is ready in the morning if started at night: Wash a tablespoonful of pearl barley, add two or three lumps of sugar, the rind of a lemon and the juice of half of one. Pour a quart of boiling water over it, let it stand eight hours—or overnight—and strain it.

THE STITCH IN TIME.

The old adage that a stitch in time saves nine may be well illustrated to one's advantage on ironing day. If a small pin cushion in which there are threaded needles is attached to the ironing board, small rips and tears can be easily mended at the time of ironing. This will save the necessity of again examining the clothes or of putting them away with small holes in them.

WARMED-OVER POTATOES.

Place potatoes you wish to warm back of stove. After an hour they will become like fresh-boiled ones.

Relieves Asthma at Once. If you could read the thousands of unsolicited letters received by the makers from grateful users you, too, would realize the remarkable curing powers of Dr. J. D. Kellogg's Asthma Remedy. All cases, incipient and chronic, are benefited by this great family remedy, and many of them are cured. Why suffer or experiment with worthless preparations when the genuine Kellogg's can be purchased everywhere.

Ancient Jewels.

That women of ancient times were not less fond of jewelry than those of to-day might reasonably be taken for granted. But the remarkable fact (as recently ascertained by archaeologists) is that the jewelry they wore—at a period, let us say, 1,000 years before the birth of Christ—was fully equal in artistic workmanship to the best products of the twentieth century.

Salt Used as Money.

The value of salt is recognized in all countries, and in those parts of the world where it is scarce it is used as money. In some parts of Abyssinia bars of salt and rifle cartridges are the only small change in circulation. The bars are ten inches long and two inches in length and breadth. Five or eight "salts" make one dollar, depending on the distance of the source of supply. Three cartridges have the value of one salt.

Clay and Cork for Insulation.

A new heat insulating material, composed of a mixture of a special clay and cork, has been discovered by a Norwegian engineer. The clay and cork mixture is burned and the result is the formation of a very light substance that is said to be eminently suitable for all heat insulating purposes.—Indianapolis News.

Miller's Worm Powders never fail. They immediately attack the worms and expel them from the system. They are complete in themselves, not only as a worm destroyer, but as a highly beneficial medicine for children, correcting weak digestion and restoring the debilitated system to healthfulness, without which the growth of the child will be retarded and its constitution weakened.

Much Sameness in Mankind.

Console yourself, dear old man and brother; whatever you may be sure of, be sure at least of this, that you are dreadfully like other people. Human nature has a much greater genius for sameness than for originality.—Lowell.

A pleasant medicine for children is Mother Graves' Worm Exterminator, and there is nothing better for driving worms from the system.

NURSING FOOD AND GOOD HOURS

Help You to Resist Disease—Aid These With a Tonic to Keep the Blood Pure.

The power of your body to resist disease and to fight it after disease gets a foothold is one of the most precious possessions you have. You weaken this power when you let your general health run down, your blood gets thin and your nerves unsteady. You weaken it when you worry, when you overwork, when you do not get sufficient sleep, and when you are under-nourished, either because you do not eat the right kind of food or because your digestion is out of order. You preserve your power to resist disease when you keep good hours and eat proper food at regular intervals. You further increase and strengthen resistance to disease when you build up your blood and nerves by the occasional use of a tonic like Dr. Williams' Pink Pills, which are free from opiates and harmful drugs of any kind. The value of these pills as a health builder is fully shown by the experience of Mrs. E. C. Taylor, Hanover, Ont., who says: "At various times since I was a girl of fifteen I have proved the value of Dr. Williams' Pink Pills. At that age I was in a much run-down condition, suffering from many of the well-known symptoms of anaemia. My mother procured a supply of Dr. Williams' Pink Pills, and after taking about a half-dozen boxes I was restored to normal health. Again after my marriage, and before my boy was born, I felt miserable and again took Dr. Williams' Pink Pills, which once more met all my expectations and fully restored my health. My latest experience with these pills was following an attack of pleurisy, which left me completely broken in health. Part of the time I was under the care of two doctors and for three months I was practically between life and death. Again, at my mother's suggestion I started the use of Dr. Williams' Pink Pills. I had not been taking them long before I could tell they were helping me. Day by day I could feel my strength returning, and was soon enjoying good health once more. In view of my experience I think I can safely say there is nothing in the way of medicine better than Dr. Williams' Pink Pills."

Dr. Williams' Pink Pills are sold by all medicine dealers or by mail at 50 cents a box or six boxes for \$2.50 from The Dr. Williams' Medicine Co., Brockville, Ont.

WORTH REMEMBERING.

Velvet drapes may be cleaned with cornmeal moistened with gasoline. Lay the drape on a clean table over a sheet, and rub every portion of it evenly, working the way of the nap. Brush well and hang in the air.

A little glycerine added to the suds in which baby flannels are washed will keep the flannels soft.

You can keep silver bright by occasionally washing it in strong borax water. Let it lay in a boiling hot mixture and wash as it cools.

A pinch of salt allowed to dissolve on the tongue is said to relieve dyspepsia.

For a cure for squeaking boots and shoes, insert anawl carefully between the layers of leather in the sole, and with the machine oil can fill the sole through the little opening thus produced.

Alum water is fine for brittle finger nails. Soak them in such a solution every night till the nails become normal.

Hard elder tincture daily will benefit ague or rheumatism.

GEE, BUT IT'S GOOD FOR A BAD COLD

Nothing Can Touch Catarrh—ozone in Curing Quickly

You may dislike taking medicine—but coughs are the best cured without medicine. The modern treatment is "Catarrh-ozone"—it isn't a drug—it's a healing vapor full of pine essences and healing balsams. It spreads over the surfaces that are weak and sore from coughing. Every spot that is congested is healed—irritation is soothed away, phlegm and secretions are cleaned out, and all symptoms of cold and catarrh are cured. Nothing so quick, nothing so sure, so pleasant as Catarrh-ozone. Beware of dangerous substitutes meant to deceive you for genuine Catarrh-ozone. Large size which lasts two months, price \$1.00; small size 50c; sample size 25c, at all dealers.

For Stuffing Potatoes.

When baking potatoes for stuffing, if the end is cut off before placing in the oven they will stand up much better and look much nicer than if it is cut off afterward.

A Boon for the Biliary.—The liver is a very sensitive organ and easily deranged. When this occurs there is undue secretion of bile and the acid liquid flows into the stomach and sours it. It is a most distressing ailment, and many are prone to it. In this condition a man finds the best remedy in Parmelee's Vegetable Pills, which are warranted to speedily correct the disorder. There is no better medicine in the entire list of pill preparations.

TOO EXPENSIVE.

"Throw any old shoes at the bride!" "Not much. If I had any old shoes to throw away I'd get 'em fixed up and wear 'em."

Corns cause much suffering, but Holloway's Corn Cure offers a speedy, sure, and satisfactory relief.

Whatever makes good Christians makes them good citizens.—Daniel Webster.

NOTABLES SAIL FOR EUROPE

Mr. and Mrs. John Emerson, well known scenario writers, sailing for Europe to-day on the SS. LaFrance. Mr. Emerson is president of the Actors' Equity Association, while Mrs. Emerson is better known as Anita Loos.

Retired

The money you spend during the long years of toil will not help you in the comfortably in retirement, in old age. It is only the money you are saving now that will bring ultimate independence.

PRIZE LIST

- Class 1—Oats (O.A.C. No. 72)**
1. Sheaf Exhibit, 3 inches in diameter, selected from plot. 5 prizes—40c, 30c, 25c, ribbons.
 2. Grain Exhibit from yield of plot (1 peck). 5 prizes—40c, 30c, 25c, ribbons.
- Class 2—Barley (O.A.C. No. 21)**
1. Sheaf Exhibit, 3 inches in diameter, selected from plot. 5 prizes—40c, 30c, 25c, ribbons.
 2. One Gallon Grain grown on plot. 5 prizes—40c, 30c, 25c, ribbons.
- Class 3—Wheat (Marquis)**
1. Sheaf Exhibit, 3 inches in diameter, selected from plot. 5 prizes—40c, 30c, 25c, ribbons.
 2. One Gallon Grain grown on plot. 5 prizes—40c, 30c, 25c, ribbons.
- Class 4—Sweet Corn (Golden Bantam)**
1. Group of 6 ears selected from plot. 5 prizes—50c, 40c, 30c, ribbons.
- Class 5—Field Corn (Wisconsin No. 7)**
1. Group of 6 ears selected from plot. 5 prizes—50c, 40c, 30c, ribbons.
- Class 6—Potatoes**
1. Best 12 potatoes from plot (Irish Cobbler). 5 prizes—60c, 50c, 40c, ribbons.
 2. Best 12 potatoes from plot (Green Mountain). 5 prizes—60c, 50c, 40c, ribbons.
- Class 7—Mangels (Yellow Intermediate)**
1. Best 3 mangels. 5 prizes—50c, 40c, 30c, ribbons.
- Class 8—Beets (Detroit Dark Red) Table Size**
1. Best 6 beets. 5 prizes—50c, 40c, 30c, ribbons.
- Class 9—Carrots (Chantenay), Table Size**
1. Best 6 carrots. 5 prizes—50c, 40c, 30c, ribbons.
- Class 10—Turnips (Purple Top Swede)**
1. Best 6 turnips. 5 prizes—50c, 40c, 30c, ribbons.
- Class 11—Onions (Yellow Danvers)**
1. Best 6 onions. 5 prizes—50c, 40c, 30c, ribbons.
- Class 12—Flowers**
(Arrangement of flowers considered by Judge)
1. Asters (Mixed Giant Comet), collection of blossoms. 5 prizes—40c, 35c, 30c, ribbons.
 2. Phlox (Drummondii). Collection of blossoms. 5 prizes—40c, 35c, 30c, ribbons.
 3. Best Bouquet from Home Garden. 5 prizes—40c, 35c, 30c, ribbons.
- Class 13—Poultry**
1. Best 3 birds from eggs distributed this year (1 male and two females). 6 prizes—\$1.00, 75c, 50c, ribbons.
 2. Best cockerel from eggs distributed this year. 6 prizes—75c, 50c, 25c, ribbons.
 3. Best pullet from eggs distributed this year. 6 prizes—75c, 50c, 25c, ribbons.
 4. Best Pen, any variety (spring chickens, 1 male and 2 females). 6 prizes—75c, 50c, 25c, ribbons.
 5. Best Pen, 1 cock and 2 hens, from eggs distributed last year. 6 prizes—75c, 50c, 25c, ribbons.
 6. Best dozen white eggs. 6 prizes—30c, 20c, 10c, ribbons.
 7. Best dozen brown eggs. 6 prizes—30c, 20c, 10c, ribbons.

Athens, Ontario

WELCOME HOME WATER CARNIVAL FOR SWIMMING CHAMPIONS.

Miss Ethelida Bleibrey and Miss Charlotte Boyle in whose honor a water carnival was held yesterday at the Manhattan Beach Baths, N.Y. The carnival was by way of welcoming home the swimming champs, who have recently returned from Hawaii. Freak games, high diving and swimming contests were enjoyed. Miss Boyle and Miss Bleibrey will probably compete in the Olympic games.

SENATOR REED BARRED FROM DEMOCRATIC CONVENTION.

U. S. Senator James A. Reed, of Missouri, bitter opponent of the League of Nations, who has been barred from a seat in the Democratic Convention in San Francisco, by a vote of the National Committee. It is conceded that this is a sweeping victory for Administration leaders, who opposed him.

CANADIAN MEMORIAL FOR EDITH CAVELL.

The Editor Athens Reporter, Athens, Leeds Co., Ont.

Dear Sir,—My attention has been called to an illustration in your paper of the 15th inst., headed "French Honor the Memory of Nurse Cavell."

The thought occurred to me that it might be interesting to some of your readers to say that we expect shortly to erect a very splendid memorial to this noble woman, Edith Cavell, in Toronto, somewhere in close proximity to the General Hospital, corner of College and University Ave. Some three years ago, when delivering an address at Loew's Theatre to the Women's National Council, assembled here from all over Canada, I made the suggestion that I believed it would be possible to collect sufficient money to erect this memorial, by asking the school children of Ontario, some six or seven hundred thousand, for a penny each. The idea was readily and enthusiastically taken up by the officials of the Women's Council, and by permission of the Minister of Education of this province we immediately began to circularize the schools of Ontario. I am pleased to be able to write you that, as treasurer of this Edith Cavell Memorial Fund, I have several thousands of dollars on deposit, and in the very near future (within a few days) I expect a delegation will be appointed to view the memorial, now in course of preparation. I am sure when this memorial is erected that it will be one worthy of this great heroic woman and the school children of the Province of Ontario.

As I have already said, this illustration has prompted me to write you this short letter, as I know the school children of the Athens High and Public Schools are all interested, inasmuch as they contributed something towards the memorial.

Yours truly,

A. E. DONOVAN.

Wilkes Lake

Mr. Fred Spence, of Charleston, attended the lawn social at Toledo on Wednesday evening last.

Rain is falling heavily here, making it hard for the farmers to take care of their hay.

Mr. and Mrs. A. Leach and children, of Smiths Falls, who have been visiting for the past three days at the home of the former's parents, Mr. and Mrs. T. R. Moore, have returned home.

Picking berries and preserving is the order of the day in this vicinity.

Mr. Ferguson P. Moore, of this vicinity, attended the large celebration at Carleton on Monday last.

Mr. Robert Strong, of Perth, visited friends and relatives here recently.

Miss Hattie Moore, of L. E. C., leaves in a short time for Cobden as a bookkeeper there.

Mr. Lawrence Noonan, of Ballycanoe, called on his old friends and neighbors in this vicinity one day last week.

A large number of young people from here attended the lawn social and dance at Toledo Wednesday evening last.

The strawberry season is over in this vicinity, but raspberries and huckleberries are taking their place.

DR. WARD The Specialist

79 NIAGARA SQUARE, BUFFALO, NEW YORK

Men, Are You in Doubt

As to your trouble? Have you some skin eruption that is stubborn, has resisted treatment? Is there a nervous condition which does not improve in spite of rest, diet and medicine? Are you going down hill steadily? ARE YOU NERVOUS and dependent, weak and debilitated; tired mornings; no ambition—lifeless; memory gone; easily fatigued; excitable and irritable; lack of energy and confidence? Is there falling power, a drain on the system? Consult the old reliable specialist.

SYMPTOMS OF VARIOUS AILMENTS.

Weak and relaxed state of the body, nervousness, dependency, poor memory, lack of will power, timid, irritable disposition, diminished power of application, energy and concentration, fear of impending danger or misfortune, drowsiness and tendency to sleep, unsteady sleep, dark rings under eyes, loss of weight, insomnia. Dr. Ward gives you the benefit of 25 years' continuous practice in the treatment of all chronic, nervous, blood and skin diseases. The above symptoms, and many others not mentioned, show plainly that something is wrong with your physical condition and that you need expert attention.

Men, why suffer long? Let me make you a vigorous man. Let me restore your physical condition to full manhood. Don't be a weakling any more. Make up your mind to come to me and I will give the best treatment known to science—the one successful treatment based on the experience of 25 years in treating men and their ailments.

Dr. Ward's Methods Unrivaled, Thorough and Permanent.

Do you realize that you have only one life to live—do you realize that you are missing most of that life by ill health? A life worth living is a healthy life. Neglect of one's health has put many a man in his grave. I have been telling men these things for many years but still there are thousands of victims who, for various reasons, have not had the good sense to come and get well.

Specialist in the treatment of nervous conditions, nervous exhaustion, rheumatic lumbago, rheumatism, stomach and liver trouble, acute skin diseases, eczema, scabies, psoriasis, piles, fistula, and blood conditions.

OFFICE HOURS: 9 a.m. to 5 p.m. Sundays—10 a.m. to 1 p.m.

FREE CONSULTATION EXAMINATION.

Before beginning treatment you must make one visit to my office for a personal physical examination. Railroad fare will be considered as part payment of fee. Canadian money accepted at full value.

79 Niagara Square, Buffalo, N. Y.

BEEKEEPING AND THE SUGAR SITUATION

(Experimental Farms Note).

Save clover honey for winter stores. With sugar over 20 cents a pound, and the outlook for a possibly higher price and uncertainty of supply, beekeepers will find it advisable to pay more attention than usual to the saving of wholesome honey for wintering the bees safely.

Each colony should have not less than 40 pounds of stores for winter. The honey gathered in June and July from alfalfa and white clover is perfectly wholesome and makes the finest winter stores. Most of the honeys gathered from other abundant sources in June and July are also wholesome but honey gathered from mixed sources in August and September is, as a rule, less so, and is therefore liable to cause dysentery which will weaken or kill the colony before are very injurious. However, buckwheat honey and the honey from certain species of goldenrod and aster that grow abundantly in dry situations, if it ripens before cold weather, are wholesome.

It would therefore be wise to have combs of clover honey in order that several of them may be placed in the hive about the centre. These combs should be given early enough in the fall, that is to say, about the middle of September, to allow the bees time to empty a few cells to make a place for the winter cluster to occupy. Care should be taken that these combs of honey are taken from colonies that are entirely free from American foulbrood. It will be advisable also to save extra combs of honey sufficient to give each colony one more comb in spring, but the honey given in spring need not be of the best quality.

A strong colony of Italian bees containing a prolific young queen often has very little honey in the brood chamber when the supers are removed in the fall. A simple way to supply such a colony with suitable stores for the winter is to give or leave it a super full of clover honey.—F. W. L. Sladen, Apiarist.

Keep Up the Milk Flow During Summer and Fall

(Experimental Farms Note.)

Once more we are entering upon the season of the year when the dairy farmer expects the greatest yield from his cows and his pastures, and if the season is right the land will be fairly "flowing with milk and honey." Unfortunately, however, the season is not always just as right as it might be. Invariably in one section or another there is a drought with its consequent shortage of pasture and decrease in milk flow.

It is important at this time that some form of supplementary feed be supplied, for if the milk flow is once allowed to decline it is almost impossible to get it up to the previous high mark again. A little extra feed at this time will produce more milk than will three times the amount fed after the decline has taken place. Many will have profited by past experiences and have made preparation for the shortage of pasture by sowing a piece of annual pasture or sowing crop. Others again may have some of the previous year's crop of silage to fall back on. In any and particularly the last of the above methods, we have a very efficient means of supplementing the pastures. For those who have not yet made any provision it is not too late to sow an extra acre of corn, some fall turnips, or even a piece of rape. The turnips may be pulled as needed and fed tops and all while the rape may be pastured off in the late summer and fall. Where previous preparation has not been made, cuttings of the regular crops, such as green oats and peas, second-cut clover, and green corn will have to be made to fill the bill.

To speak of grain feeding on pastures at present prices seems absurd, and it will be found to be somewhat of an extravagance except with very high producing cows. Where the grains are obtainable a mixture of two parts bran and one each of ground oats and cotton seed meal is excellent.

Apart from the feeding of the cows, there is the question of water and shade supply. Both are very necessary. Where sufficient protection from the flies, in the form of shade or underbrush is not to be found, it would be advisable to keep the animals in the stable during the hotter part of the day allowing them out in the evening. Where supplementary feed has to be cut and hauled to the cows less waste will be occasioned when fed while inside. Where the cows have of necessity to be out all day they should have protection from the flies by spraying with some good fly repellent.—G. W. Muir, Animal Husbandman.

No Trace of Treasures.

It is regrettable that we know so little about King Hiram from whose sepulchre of Tyre, 100 miles north of Jerusalem, most of the material was shipped for building the famous temple. Probably, like Solomon, he had great stores of jewels, but none of them has been preserved, and, as for Carthage (called Tarshish in the Bible) it was destroyed so utterly by the Romans that no identifiable relics of the kind have survived.—Philadelphia Public Ledger.

A Quick Freeze.

In freezing ice cream remember that time will be saved if you do the freezing in a warm place, as the more rapidly the ice melts the more quickly the ice cream or sherbet will be frozen.

Minard's Liniment Relieves Garget in Cows.

Brown—"Is your son in business?" Smith—"He's a contractor." Brown—"What line?" Smith—"Debt!"

WIT AND HUMOR

"Ah, here is a letter from the old folk!" "What does it say?" "Come home; your tailor is dead."

"I simply love horses." "I guessed so." "How?" "Saw you riding with your arms round one's neck."

Mrs. Minne—"Have you and eggs you can guarantee do not contain chickens?" Grocer—"Yes, marm. Ducks' eggs."

Her Father—"I distinctly saw you kiss my daughter under my very nose." The Old Hand—"Excuse me, sir—under her very nose!"

"Mummie, do lions go to heaven?" "No, Dicky." "Do missionaries?" "Yes, of course." "Well, what happens when a lion eats a missionary?"

Wiseacre—"It doesn't pay to hurt people's feelings, you know." Friend—"Oh, I don't know so much, my friend; the dentist makes a good living out of it."

Suspicious Customer—"What soup is this?" Waiter—"It's bean soup, sir." Suspicious Customer—"I know it has been soup, but what is it now?"

Magistrate—"But your wife says you haven't spoken a word to her for over a year." Politic Prisoner—"No, your worship. I didn't want to interrupt her."

First Modern Girl—"I can't quite make up my mind about Dollie. There's something queer about her."

Second Ditto—"I'll tell you what it is. She has an effeminate streak."

"Look here! Do you say I stole the one-pound note you lost?" "No, I don't say that." "Then what do you say?" "Well, I say that if you hadn't helped me to look for it, I might have found it."

Customer—"You say you can recommend this hair restorer?" Druggist—"Yes, sir. I know a man who took the cork out of a bottle of this stuff with his teeth, and within twenty-four hours he had a moustache."

The Girl—"I think I ought to tell you before we are married. I am a somnambulist." The Boy—"That's all right. I'm a Baptist myself, but I can come to your church one Sunday and you can come to mine the next."

Moved by an impulse he could not resist, he suddenly kissed her. "Oh, Herbert!" she exclaimed, "that's not right." "I'm sorry, Helen," replied Herbert, humbly, "I did the best I know how. Won't you show me the proper way?"

"Water!" called the customer in a restaurant where an orchestra was playing. "Yes, sir." "Kindly tell the leader of the orchestra to play something sad and low while I dine. I want to see if it will have a softening influence on this steak."

Teacher (to class in arithmetic): "John goes marketing. He buys two and a quarter pounds of sugar at 1s. a pound, two dozen eggs at 3s. a dozen and one pint of milk at 8d. a quart. What does it all make?" Smallest Boy (hesitatingly): "Custard."

"My ideal husband," said the romantic girl, "must be a strong, silent man, full of grit, and able to bear the heat and burden of the day without flinching—one who will not hear a word said about me and who will not utter an unkind word himself." "What you want is a deaf and dumb coal-man," murmured the rejected one.

DR. MARTEL'S PILLS FOR WOMENS AILMENTS

Thousands of women have testified in the last 25 years regarding the healing qualities of Dr. Martel's Female Pills. A Scientifically prepared remedy for delayed and painful menstruation. Heat and Tuberculosis.

James B. Murphy and Ernest Sturn (Journal of Experimental Medicine) subject mice to heat and a week later inoculated them with a strain of tuberculosis virulent for mice. These animals displayed a greater resistance than normal.

Minard's Liniment Relieves Diphtheria

Last Word in War Vessels. Superdreadnought is a name given to vessels of the dreadnought type. The displacement is 25,000 tons or more. The speed attained may be twenty-five knots or sea miles (a sea mile is 2,000 yards), and the main battery consists of guns of 13.5 inches calibre or better. A superdreadnought is the last word in naval architecture.

X-Rays in Industry.

Apart from their use in medicine, X-rays are steadily extending their field of usefulness. With new types of tube a ray powerful enough to show up the minutest flaw in a four-inch thickness of steel can be produced.—Chicago Journal.

Nonsense on National Debt.

A great deal of nonsense is being talked to-day about the National Debt. We frequently hear people speak about the gravity of our financial position, writes Roland Walker in Pearson's Weekly.

Some nervous folk declare that the country is staggering under an "impossible load." Even a respectable newspaper recently asserted that we were "heading for national bankruptcy."

What, then, is the truth about our national liabilities? Is the country really in debt? And, if so, to whom is the money owing? Is there any danger that the creditors will put the brokers in and sell up the Old Country?

By the National Debt, of course, we mean the sum of money borrowed by the Government.

Now, life is worth more than money, whether it be the life of an individual or a nation. And during those dark days of 1914-1919 we rightly secured everything we possessed in order to stave off victory.

Money had to be spent like water,

Advertisement for Dominion Medical Institute, featuring a diagram of the human body and text about various ailments like skin, blood, stomach, and lung diseases.

and so we piled up a National Debt which now approximates \$8,000,000,000. Every year, therefore, we must raise nearly \$200,000,000 in taxation from our people in order to provide interest and sinking fund upon this colossal sum.

If we had been compelled to borrow this large sum of money abroad, I admit that there would have been cause for alarm.

In buying liberty for ourselves and our children, we should have sold ourselves into financial bondage to foreign creditors. And every year we should have had to pay our creditors in gold or its equivalent the vast amount of \$400,000,000. That would really have meant placing the whole of the British Isles in pawn to the foreigner for an indefinite number of years.

Fortunately, nothing of this kind happened. When the call for money came, and the Government had to borrow so enormously, the people within these islands put their hands into their own pockets and supplied the cash.

Nine-tenths of the public debt is held by men and women in this country. The rest, it is true, had to be borrowed abroad, chiefly from America, who lent it not in money, but in food supplies and in raw materials for munitions of war. But even the loan from America is more than counterbalanced by the money which we lent to the Allies and to the Allies in order to hasten victory.

To put it plainly, then, the National Debt is owing to ourselves. Britain is the debtor, it is true, but the British people are the creditors: it is merely a matter of national bookkeeping. We tax ourselves on one hand to find the £400,000,000, and then we distribute the same in the shape of interest to our own people.

It is sheer nonsense for people to talk about our being ruined by the National Debt. As a matter of fact, the City and the banks are going on just as usual. If prices have risen, so have wages, and money appears to be more plentiful than ever. Trade is booming, and there isn't the slightest evidence of impending national bankruptcy.

The National Debt is merely a family affair, then, and, as a man does

not usually put the brokers into his own house, neither shall we break up the British Empire to pay back the loan which we have only borrowed from ourselves.

And I firmly believe that, as a result of the nation's patriotism, and the Government's thrift and economy campaign, hundreds of millions which might have been flung away in doubtful foreign investments, bogus companies, useless luxuries, and so on, national debt.

Milestones. One of the many curious effects of the war was the way it put news into cold storage. Almost every day that passes, in England as elsewhere, some story or other is gaining publicity and is being eagerly read and discussed, which if peace had reigned instead of war during the past five years, would have long since been forgotten in the back files of the newspapers. Thus Major Hesketh-Pritchard, one time famous as a cricketer, and now famous as a soldier, has been pouring out news as to the many ingenious devices resorted to at the front in establishing an observation post. There is for instance the case of the milestone. It stood on the summit of little ridge at the cross roads, between the two front line trenches. The French photographed the milestone, had a facsimile made of it in tin steel with a gauze-covered observation hole, and successfully changed the real thing for a dummy by night; in this way gaining a perfect observation post in the centre of no-man's land. Thus some milestones even have greatness thrust upon them.

Bread Problem in West Indies.

"The West Indian colonies, in common with the rest of the world, have their bread problem. How this is to be met is the subject of an official inquiry, and an interim report of British Guiana Flour Substitutes Committee indicates the lines upon which action can be most usefully taken. Analyses collected by the committee show that the products of tropical origin which most nearly approach wheat-flour in food value are rice, guinea-corn and maize. These materials can be employed alone only in the preparation of cakes. Without wheat-flour they do not give satisfactory bread. Other products," says Nature, "of relatively higher starch content which are of local origin, e. g., cassava, sweet potatoes, tannias, and eddoes, can also be employed in this way, but they yield an article of lower food value and wider nutrient ratio. It is possible, however, by the addition of a proportion of meal, obtainable from locally-grown pulses, e. g., pigeon-peas, black-eye peas, lima, and banavist beans, to bring the nutrient ratio of these more starchy products up to the desired standard. Action upon these lines is recommended, and a proposal is put forward for the establishment of a factory or factories for converting the locally-grown raw materials into non-perishable and marketable products."

Rusty Steel.

To clean rusty steel, oil well the rusty parts and set aside in this state for two or three days. Then wipe dry with clean rags and polish with emery or purple stone. When very rusty and a high polish is desired rub the article with a little slack lime.

A Woman's Trouble

Stratford, Ont.—"I do think Dr. Pierce's Favorite Prescription one of the best medicines for the ailments of women. I had for quite a long time been suffering from a woman's trouble which caused me to become all run-down, nervous, and I doctored but nothing seemed to give me relief until I began taking 'Favorite Prescription.' This medicine gave me such wonderful relief that I am glad to recommend it to others."—MRS. A. GODWIN, 60 Brant St.

NERVOUS AND RUN-DOWN

Brampton, Ont.—"A few years ago I was in a nervous and run-down condition and felt greatly in need of a tonic. A friend who was being helped by Dr. Pierce's Golden Medical Discovery advised me to try it, too. It helped me from the very start and eventually restored me to perfect health. I feel in a position to praise the 'Golden Medical Discovery' very highly and take pleasure in recommending it to all those who are at all nervous, weak or run-down."—MRS. ESTHER PEATSON.

Dr. Pierce's medicines are made of vegetable growths that nature surely intended for backache, headache, pains, irregularities, and for the many disorders common to women in all ages of life. Dr. Pierce's Favorite Prescription is made of lady's slipper root, black cohosh root, unicorn root, blue cohosh root, Oregon grape root and Viburnum. Women who take this standard remedy know that in Dr. Pierce's Favorite Prescription they are getting a safe woman's tonic so good that druggists everywhere sell it in liquid or tablet form. It is without alcohol.

Stones Natural Magnets.

In Nevada are found curious mineral specimens known as "socialite stones." No better name could be given them, since when a few are distributed over a level floor two or three feet apart they will begin to move toward one another to a common centre with an alacrity that is ludicrous.

Camper's first noticed these stones. They had used wrapping paper for a table cloth and weighted the corners with some of the stones spread over the level top of a boulder. A few moments later one of the men noticed that the paper was flapping in the breeze and that the four or five stones were huddled in a group in the middle of the paper like a nest full of eggs. He thought the wind was responsible, straightened them, and added more stones.

The next time he looked around the stones were back in the heap again. Once more he replaced the stones and sat down to watch them. They began to roll and hitch along toward one another again until they were in a pile.

Making It Impressive.

A preacher was describing the "bad place" to a congregation of naval cadets. "Friends," he said, "you've seen molten iron running out of a furnace, haven't you? It comes out white hot, sizzling and hissing. Well—" The preacher pointed a long, lean finger at the lady. "Well," he continued, "they use that stuff for ice cream in the place I have been speaking of."

Minard's Liniment Relieves Distemper.

Whatever makes good Christians makes them good citizens.—Daniel Webster.

Large advertisement for Anchor Plug Tobacco, featuring a large illustration of a plug and text: 'Anchor Plug is the chewing tobacco of superlative excellence. Try a plug today. It Holds its Flavor'.

DEMAND TROOPS OUT OF IRELAND

British Trades Union Congress Takes This Stand

Instead of Deciding On Direct Action.

London cable: The proposal to employ direct action, if necessary, to force the Government to withdraw its troops from Ireland and cease manufacturing munitions for use in Ireland and Russia, was defeated today in the special Trades Union Congress called to consider labor's attitude on the Irish question.

Eight hundred delegates were present, representing 5,000,000 workers. The resolution in favor of direct action, which was proposed by the leader of the locomotive men, was defeated by a majority of 716,000 votes.

The congress later adopted a resolution introduced by the Miners' Federation demanding the withdrawal of all the British troops from Ireland and Russia. This resolution recommended a general strike if the Government refused the demands, but the question of direct action will be left to a ballot of the members of the various unions. Thus the rank and file will have a chance to express their opinion.

On the Irish question specifically the congress adopted a resolution proposed by the National Union of Railwaymen, which asked the Government to call a truce in Ireland and open forthwith an Irish Parliament with full dominion powers in all Irish affairs, with adequate protection of minorities. The resolution called upon the Irish people themselves to use their power to halt all murder and outrage. It was carried by a majority, on a card vote, of 194,000.

ITALIANS FIRE ON THE GREEKS

Who Pursue Turks Into Italian Zone.

British to Separate Greeks and Turks.

Constantinople cable: The Greek suffered one officer killed and thirty other casualties near Ephesus recently, when they entered the Italian zone to capture Turks who were sniping at Greek trains.

The Italians objected and opened a machine gun fire on the Greeks, who charged the Italians with fixed bayonets and routed them.

Italian protests to the High Commissioners here against Greek pursuit of Turkish Nationalists into the Italian zone have been disregarded.

Gen. Paraskopoulos, the Greek commander-in-chief, is in Constantinople conferring with Lieut.-Gen. Sir George Milne, commander of the allied troops in western Asia Minor. Many rumors are in circulation here concerning joint plans by the British and Greeks, in which the French and Italians are not to participate.

The opinion is becoming general here that the Greeks probably will not advance much farther to the eastward, but the latest rumor is that the British will take over a portion of Anatolia. Under this plan the Greeks would occupy the outside Smyrna district and administer it as an autonomous country. Thus a barrier would be provided between the Greeks and Turks, who are such bitter enemies that reconciliation would be difficult if they were left on a long, defenceless boundary.

PYTHON HELD SHIP'S BRIDGE

Victoria report: For a brief trick the bridge of the British steamship Bolton Castle was in the sole charge of a gigantic python following the vessel's departure from Singapore last month, according to a story appearing in the Victoria Times.

On the second night out, while Quartermaster West—a man of temperate habits—was at the wheel, he was startled to see, by the fitful rays of the binocular light, a pair of baleful eyes gleaming at him through the door of the pilot house. The eyes, set in a huge flat head, entered, followed by about 50 feet of snake, and the quartermaster, showing rare presence of mind, left the wheel and fled through the opposite door, yelling for Captain Howe, who was taking forty winks below.

The great reptile, thus left in command, investigated the dim interior of the pilot house while the ship wobbled about off her course, found it not to his liking, and took to the deck again, threw the ship's monkey, which was seated on the rail in a state of chattering terror, and wriggled overboard just as the captain, pistol in hand, reached the bridge.

The snake was one of three shipped in Singapore for a menagerie in the United States. It had smashed its way out of the cage in which it was confined. What success it had in attempting to swim the Pacific is unknown.

Apart from the coal question the German financial experts at Spa Tuesday proposed to the mixed commission charged with the examination of the reparations plans that the Allies approve a subvention of 3,400,000,000 marks for Germany's food supplies during the first year of the treaty.

CARL WANDERER AND WIFE.

Carl Wanderer, a former American army officer, is held in Chicago charged with the murder of his wife, and a ragged mystery man who has been partially identified as Al Watson, formerly of the Canadian army. It is alleged that Wanderer hired Watson to stage a hold-up so that in the excitement Wanderer could shoot his wife, and thus be released to return to the "free and easy life" of the army. After killing his wife, Wanderer shot Watson to prevent his plot becoming known.

WOMEN ON ALL JURIES

London, July 11.—In accordance with an act of Parliament already passed, the Lord Chancellor announces that after July 15, women are liable to serve on juries under the same conditions as men. Husband and wife, will not be permitted to serve on the same occasion.

A CLOUDBURST.

Wall of Water Wipes Out B. C. Creek Zone.

Vancouver despatch: A cloudburst at Cache Creek, four miles up the Cariboo road from Ashcroft, did great damage yesterday afternoon.

A wall of water seven feet high swept down the creek, carrying houses and barns, trees and movable objects of all kinds into the river.

The Cariboo road for 15 miles was badly damaged, the Government road camp being carried away. The post-office was demolished. The Indian rancherie was wiped out. Ten people were rendered homeless, and a considerable loss of domestic stock is feared.

The total damage to crops and property cannot yet be estimated, but it is feared it will run close to \$100,000.

ONTARIO HIGHWAYS.

3,000 Men to Be Employed This Autumn.

Toronto report: Within the next three months over three thousand men will be employed on the Provincial Highways system of Ontario, according to a statement made yesterday by W. A. McLean, Deputy Minister of Highways. Throughout the system this fall repair work will be carried on together with some construction where sections of the highways require it.

At the present time, while some work is being done on the roads, the Department is concentrating its efforts upon securing material and getting the organization in shape. A resident engineer has been appointed for practically every seventy-five miles of highway, 25 having been named altogether. These engineers are locating gravel and stone suitable for crushing, and it is an interesting fact that considerable deposits of splendid road material have been found in districts where the visible supply was small. The engineers have been "prospecting" in districts where gravel and stone have been scarce and likely looking ridges are bored for gravel.

The Government has been systematically taking over the highways designated, up-to-date about 75 per cent. of the roads being in the possession of the Crown.

SINN FEIN AGENT

Sent Down for Bringing Arms for Republic.

London, July 13.—William Barry, an Irish fireman on the steamer New York, pleaded guilty in the Bow street police court here this morning to infringing the Defence of the Realm Act by bringing in from the United States arms, ammunition and a number of letters. The latter were from Irish revolutionists and were intended for ultimate delivery to Arthur Griffith, organizer of the Sinn Fein, and other Sinn Fein chiefs in Ireland. Barry was sentenced to two months imprisonment.

When Barry was first arraigned in the Police Court on July 6th, it was stated that besides the letters two pistols with nearly 300 rounds of ammunition were found on him.

RUSSIAN GOLD FOR CANADA

Soviet Arranges With Dominion Bankers

For \$10,000,000 to Buy Our Goods.

New York, July 12.—Ludwig C. A. K. Martens, chief of the Russian Soviet Bureau here, this morning announced that he had received a cablegram from the Soviet embassy in London, stating that satisfactory arrangements had been made with Canadian bankers for the transfer of 10,000,000 in gold in Canada for the purchase of Canadian goods.

Mr. Martens stated that no further details in regard to the gold shipment were given in the cable, but he believed the arrangements had been made in London by Santori Nuorteva, one of the Soviet representatives who recently toured Canada, interviewing Canadian manufacturers, and who afterwards went to London to conduct negotiations regarding the financing of contracts with Canadian firms. He said the gold would be shipped from Eschonia or from that deposited by the Soviet Government in Scandinavian banks. It would be sent to the Dominion, but he did not know which Canadian bank would handle it. That was a matter which was to have been arranged in London.

At the Soviet bureau this morning the Canadian Press was informed that plans are still in progress for the opening of an office in Canada, but they had not reached a stage where definite announcement of the arrangements could be made. It is said that Dr. Ohsol, head of the Soviet commercial department here, will likely be in charge of the Canadian office.

TO VISIT CANADA.

Viscount Cave will visit Canada in September, and will address the annual meeting of the Canadian Bar Association at Ottawa.

OUR CHERRIES TO N.Y. CANNERIES

St. Catharines, Ont., July 11.—Cherries, literally by the ton, are being shipped from this district to the canning factories of New York State.

On Monday, a truck was so heavily laden with cherries, that the authorities at the Queenston Bridge insisted that the driver unload part of it and make two trips across. The fruit was being forwarded from the local cold storage plant to Middleport, N.Y.

CAPT. GARIBALDI IN LONDON.

Capt. Garibaldi, grandson of the famous Italian liberator, is here shown with a group of Italian veterans, who laid a wreath on the Edith Cavell memorial monument.

WHERE CANADA'S NEW PREMIER SPENT HIS BOYHOOD.

The above photographs depict scenes connected with the early history of Canada's new Premier, Hon. Arthur Meighen. He was born on a farm at Anderson, Ont., in the house shown on left of top row. On the right is the home on the former Meighen farm at Mary's, where the future Premier lived while attending high school. The First Presbyterian Church, St. Mary's, attended by the Meighen family for over thirty years, is on the left of middle row, with St. Mary's Collegiate Institute, attended by Arthur Meighen, on the right. The bottom picture is of the schoolhouse at Anderson, Ont., where Hon. Arthur Meighen received his early education.

\$2,300,119,030

Net Debt of Canada is Huge Figure.

Ottawa, Ont., July 11.—(By the Canadian Press.)—The June statement of the Finance Department, issued today, bears the mark of important changes. For the first time, deduction is made of non-active assets—such as loans to the Canadian Northern Railway, Grand Trunk Railway and Grand Trunk Pacific—and to this extent the net debt is increased. Again, it has previously been the custom to lump practically all revenue from direct taxation under the heading of miscellaneous, and not to give separately the revenue from business profits tax and income tax, except in the budget following the close of the financial year. Now, the revenue from these taxes is to be shown month by month.

Ordinary revenue during June totalled \$32,168,021 and ordinary expenditure \$40,566,717. In June, 1919, ordinary revenue was \$26,730,316, and ordinary expenditure \$9,042,209. During the three months of the present fiscal year ending June 30, ordinary revenue was \$99,829,097, and ordinary expenditure \$82,120,632.

The net debt, after taking into consideration non-active assets, now amounts to \$2,300,119,030.

The victories of the Greeks, their occupation of Brussa and the demoralization of the Turkish Nationalists have caused a great reaction in Turkish circles, which now show an inclination to accept and sign the peace treaty, according to despatches from Constantinople.

FORMER FRENCH EMPRESS

DEAD.

Ex-Empress Eugenie of France, widow of Napoleon III, died in Madrid, at the age of 94.

SAVES SUFFERING

Painless Cure for Diseases of Gall Bladder.

Chicago, July 11.—A painless method of treating diseases of the gall bladder, which it was claimed, would eliminate surgical operations in more than fifty per cent. of such cases, has been perfected by Dr. Frank Smithies, University of Illinois, it was announced yesterday.

Dr. Smithies' device consists mainly of a small, egg-shaped perforated ball, about one-quarter of an inch in diameter, and one-half inch long, and 54 inches of rubber tubing about the size of a lead pencil. The ball is easily swallowed by patients, and the contents of the gall ducts are painlessly drawn through the tube by suction.

After the silver ball has been swallowed, and correctly placed by X-Rays, a solution is poured down the tube, causing a relaxation of the gall duct.

CHOKED TO DEATH.

Toy Balloon Fatality at Children's Party.

Detroit despatch: Fourteen happy children gathered at 1605 Holcombe avenue this afternoon to help little Raymond Wells celebrate his seventh birthday. An hour later Jack C. Franse, aged six, was dead, the victim of a tragic accident, and the other little guests had dispersed, subbing, to their homes.

Raymond invited seven boys and seven little girls to attend his party. Each small guest received a favor in the shape of a "squawker" balloon.

Six-year-old Jack was captivated with his balloon. He blew it full of air, placed his thumb over the mouth-piece and laughed merrily at the shrill squeak of the toy. A moment later the balloon caught in his throat and he fell gasping.

Before a physician arrived the little fellow had choked to death.

A despatch to the Rome Tempo from Corleto Perticara reports that three persons, including a little girl, were killed and several persons injured Sunday during a conflict between the police and a crowd which was carrying out a demonstration in opposition to the rationing of bread.

END FRICTION OVER SHANTUNG

Britain Will Urge Japan to Make Terms.

Knows Nothing of Reference to League.

London, July 11.—The British Government will not fail to take suitable steps for settlement of the Shantung question, Cecil B. Harmsworth, Under-Secretary for Foreign Affairs, said last night in the House of Commons. The statement was made in reply to a question as to whether the Government would instruct the Ambassador at Tokio to urge upon Japan the advantage of immediate restoration to China of portions of Shantung which were not controlled by Germany before the war.

Mr. Harmsworth declared the Government was fully alive to the advantages of a settlement in the situation. He said it was not aware of any proposal that on influential section of public opinion in Japan favors submitting the Shantung question to the League of Nations. Replying to other questions, he stated the Government had received no communication from the Chinese Government relating to control of the Shantung railway by Japanese troops.

POLISH GOTHAS

Are Worrying the Bolshevik Cavalry.

Warsaw, July 11.—The members of the Kosciuszko aerial squadron are using bombing Gothas along the southern front against the forces of General Budenny, the bolshevik cavalry leader.

The Gothas, which recently arrived, are the largest airplanes in use or any front and have proved particularly effective against cavalry.

General Budenny himself had a narrow escape from the bombing while riding at the head of his forces.

An over-helming number of Bolsheviks have been thrown against the Polish left, which is gradually bending south-west. The Reds are constantly bringing up reinforcements.

From the north-east the Bolsheviks are driving against Vilna, which is being evacuated, but the Poles are determined to defend it, and both sides are being reinforced.

BANDITS SEIZE TOWN.

Plainfield, Near Joliet, Ill., in a Battle.

Joliet, Ill., July 11.—Plainfield, a suburb nine miles west of Joliet, was this afternoon recovering after the town had been taken by ten armed bandits this morning. Seven persons were wounded, and the Plainfield State Bank robbed of \$12,000 in cash and Government bonds. The bandits, after sweeping the main streets of the town with rifle fire, escaped in two automobiles. One of the men was wounded.

Stewart Moore and Paul Walters 17-year-old young man returning to Plainfield noted an automobile in the ditch at the side of the road. When they went to offer assistance, the bandits knocked them down, and fired at their prostrate bodies. The machine was extricated from the ditch before the posse arrived, and the bandits continued their flight.

The Farmer-Banker Alliance

You go to your lawyer for legal advice; to the doctor for medical advice; why not to The Merchants Bank for financial advice? If you want a loan to buy cattle, hogs or equipment—if you want information as to how to invest money—come to those who make a business of financial matters, and are in a position to give you sound and impartial advice.

The inaugural party photographed outside the National Palace immediately following the inaugural. President D. Adolfo de la Huerta is seen in the centre in civilian clothes; on his right is General Jacinto Trevino, and on his left the famous General Benjamin Hill.

Charleston

P. K. Halpin, Prescott, and nephew, Rev. Father Martin, and four companions, of Detroit, Mich., spent a few days last week at the lake, guests of R. Foster.

Albertus Kelsey has been very ill, suffering from poisoning by poison ivy.

Mrs. W. Crozier, Sr., is not so well at present.

Mrs. Beecher has arranged to have moving pictures at Cedar Park every Saturday evening.

Miss Eva Palmer leaves in a few days to enter an hospital in Smiths Falls to train for a nurse.

Mr. Fleishman and party of four, New York, arrived on Friday and are occupying their cottage.

Frankville

Master Curtis Green, Port Arthur, is holidaying at his uncle's, A. Botsford's.

The progress in hay-making is slow on account of so much rain.

The road leading to the lake by way of Horace Slack's has lately been repaired and now many different kinds of vehicles, including automobiles, travel over it.

Mrs. G. M. Levrette has returned home after spending a couple of weeks with her daughters, Mrs. Davis and Mrs. Latham, of Brockville, and Mrs. Kenneth Burch, of Alexandria Bay.

A large number went from here to celebrate the 12th in Carleton Place.

Mrs. Wilkes and son, of Toronto,

have been spending a few weeks with her sister, Mrs. Dr. Throop.

Rev. Mr. and Mrs. Stout have gone to Napanee to visit amongst their friends.

Mr. and Mrs. Wm. Loopy went last week to spend the summer at Bass Lake.

Mr. and Mrs. Bryant, of Lyndhurst, are visiting their sons, William and Edgar Bryant.

Mr. William Bryant has improved his home by putting in a piedmont window and painting the exterior of the house.

Mr. Chas. Ayland is busily engaged painting the house and barn of Mr. W. G. Richards.

Mr. and Mrs. Throop, of Brockville, spent Sunday with their son, Dr. Throop.

Stanley Livingston, of Ottawa, spent the week-end with his parents, Mr. and Mrs. W. D. Livingston.

Mr. and Mrs. A. E. Crammy spent a few days last week with the latter's sister, Mrs. Dixon, of Portland.

Miss Vivian Montgomery, B.A., teacher at Transcona, Man., arrived last Saturday to spend the holidays

DENTISTRY FOR DOGS.

The Brooklyn, N.Y., veterinary hospital operated by Dr. R. A. McAuslin and his brother, Dr. David McAuslin, makes quite a success of Dog Dentistry. Dogs have the same dental troubles as human beings, such as toothache, pyorrhea and other ailings of the molars. Only recently have attempts been made to cure and relieve their sufferings by dentistry. Much of the success in dog dentistry can be laid to the fact that the veterinarians have done everything possible to avoid painful extractions. The speculum, a device placed in the mouth of the animal to be operated on, prevents the dog from biting or even moving his head. The pressure of it is lessened by padding so that there is little if any pain. The device holds the dog's jaws apart while the doctor is working on his molars. This series of photographs shows the method of operating used in the Brooklyn establishment.

AN EVERYDAY SCENE IN IRELAND

The British Tommies in Ireland are taking no more chances against surprise attacks by Sinn Feiners, as the photo indicates. They are seen now with drawn bayonets ready for any emergency.

with her parents, Mr. and Mrs. S. Montgomery.
Mr. Frank Livingston has purchased the farm known as Stowell farm, near Addison, from Clifford Hewitt.

Sand Bay

The recent rains are making the crops look nice and green and also helping the pastures.

Mrs. Wm. McCrady and two sons, from Francis, Sask., are spending part of the summer at her brother's, Mr. John Slack, Woodvale.

Miss Ward, of Earnville, has returned home after spending some weeks visiting her sister, Mrs. Wilfrid Fodey, Sand Bay.

Miss Katie Johnston is nursing at Vernal Cross's, taking care of Mr. Neal Truesdell, who has been confined to his bed for some weeks suffering from a stroke.

Mrs. Wm. McCrady and two sons visited Mr. R. R. McCrady one day last week.

Mr. Heaslip has bought a place at Rockport and intends moving some time in the future. We will be sorry to lose Mr. and Mrs. Heaslip from our neighborhood.

A baby girl at Mr. Joseph Lappan's; also one at Mr. Robert Heaslip's.

Miss R. McCrady has returned home from Long Point where she has been nursing at Harold Tye's.

Mr. Francis Heaslip has sold his farm to Mr. Frank O'Grady, of the Outlet.

Mr. Vernal Cross had a raising on Monday. He is building a new barn. There is a lot of building being done in this part of the country.

Next Sunday Communion service will be held at Fairfax Presbyterian church at half-past two o'clock. There will be no service at Sand Bay.

We should have good roads in this part of the country, for the stone crusher has been crushing at Sand Bay, Warburton and Dulcain for the past two months.

Mrs. Jack Crozier was in Gananoque Saturday attending the funeral of her niece, Elizabeth Slack, daughter of Amos and Mrs. Slack, who died very suddenly. She was only nineteen years of age.

Mr. Alex. McCrady and son, James, visited Athens on Thursday last.

Miss Katie Johnston, Lansdowne, attended the Presbyterian church here on Sunday afternoon. We were all glad to see her, for it is four months since she left Sand Bay.

Mr. E. Herbison is very poorly. He leaves this week for Brockville to stay with his daughter, Mrs. Max Greer.
