Brotherhood.

Through the day with sympathy, The world needs love - so oft without the healing touch We meet and part. The day is empty at its close. We fail to say. And careless, through lack of thought, We go a day. The tears and griefs of human kind Make no appeal. And burden press them low, but yet We do not feel. We live in such a busy age. The greed and grind - 'Tis oft we lose the blessed art Of being kind.

At the Front.

Perhaps, these three words, 'at the front,' and many of the recitals that invoke this title have nothing of the real thing but the same. I have the good fortune to be able to offer you a few true impressions, lived and taken indeed here on the line of fire, says Xavier Sager, writing from Flanders. One does not always do what one would wish. For these long days, notwithstanding our ardent desire to rejoin the advance guard, we are blocked at the back of the army. It is not permitted to us for the moment to take part in the combat. It is our turn to rest; tomorrow it will be necessary to have men fresh and rested to take the place of those who are slain, wounded, missing.

The German advance on Paris, its arrival almost at the gates of Paris, their swift advance to the east and even swifter retreat - well, it all reminds me of the hunter. The speaker was Paul Rainey, the big game hunter and cinematographer of New York? He went on: 'A hunter, taking a chew of tobacco, said in a general aloof: "Yesterday morning I struck a grizzly's trail. I followed it up until sundown. Then I liked back to camp."

When Blood is Poison. The blood must be filtered, otherwise you are poisoned. If the kidneys fail the liver is overworked, and becomes torpid. By using Dr. Chase's Kidney-Liver Pills you get both these filtering organs working right, and also ensure healthful action of the bowels. For this reason these pills are an ideal family medicine. They cure biliousness, constipation, chronic indigestion and kidney disease.

Locomotor Ataxia. My nerves were very bad, and I could not sleep at night, nor could I control my arms or legs," writes Mrs. Robt. Bustard. Maxwell, N. B. "Dr. Chase's Nerve Food cured me of what I believe was the early stage of locomotor ataxia or paralysis. I cannot describe what I suffered, but now I am entirely cured."

Do not undertake to keep too many fowls. A small flock well managed will give a larger profit than a flock that is compelled to take care of itself.

It is stated that Romanians can put 700,000 men into the field. And if, also does quite a large proportion will be put there permanently.

Do not let this trouble you. It will lead to chronic indigestion. In the mean while you suffer from nervousness, sick headaches, nervousness, depression and a general feeling of uneasiness. CHAMBERLAIN'S COLIC, COLIC AND LIVER TABLETS. They relieve indigestion, gently but surely cleanse the system and keep the bowels in perfect order. Sold by Chamberlain Medicine Co., Toronto.

Don't Hawk, Spit, Sneeze, Cure Yourself! Breathe 'Catarrhazone!' Gives Instant Relief, Clears Out Nose, Throat and all Breathing Organs. In this sickly climate, repeated colds very easily drift into Catarrh. The natural tendency of Catarrh is to spread through the system in every direction. Exposure to cold or dampness intensifies the trouble and nasal catarrh is the result. Unless a complete cure is effected, inflammation passes rapidly to the throat, bronchial tubes and then to the lungs. You can't make new lungs - hence consumption is practically incurable. But Catarrh can be cured, except in its final and always fatal stage. Catarrh sufferers, meaning those with colds, sore throat, bronchial

trouble, etc., can all be cured right at home by inhaling 'Catarrhazone.' In using Catarrhazone you don't take medicine into the stomach - you just breathe a healing plucky vapor direct to the lungs and air passages. The parent bacteria and the germs which multiply are thus sent to every spot where catarrhal trouble exists germs are killed, foul secretions are destroyed, nature is given a chance and cure comes quickly. Colds and throat trouble can't last if the pure healing vapor of Catarrhazone is breathed - sneezing and coughing cease at once, because irritation is removed. Use Catarrhazone to prevent - use it to cure your winter ills. It's pleasant and safe and guaranteed in every case. Complete outfit \$1.00. Smaller size 50c. at all dealers.

What's the idea of using the production 'we' so often in your article? 'Well,' replied the editor, 'it's a matter of self protection. In case anybody takes offense I want to sound as much as possible like a crowd.'

Sick Headaches Permanently Cured. DR. WILLIAMS' PINK PILLS CORRECT THE CAUSE OF THIS TROUBLE. There are few ailments that cause more genuine misery in the home than attacks which are generally termed sick headaches. The attacks are often periodic and when the mother of a family is prostrated at intervals there is not only her own suffering to consider, but the discomfort caused the other members of the household. Sick headaches arise from a variety of causes, and most of them can be relieved or cured through the timely treatment of Dr. Williams' Pink Pills. Mrs. Hugh Docherty, Rossville, Sask., says: "I suffered for years with what the doctors called nervous prostration and sick headaches. When these spells came on I could not work nor walk, and the pain in the head was almost unbearable. At times the pain in my head was so dreadful that I feared it would drive me mad. I tried four different doctors at times, and not only took bottles of medicine, but quarts of it, but to no avail. Then I quit taking medicine altogether and tried dieting, but it made no difference. I was still an agonizing sufferer. Finally my husband urged me to try Dr. Williams' Pink Pills and got me a supply. After taking the Pills for a few weeks I felt a little better and I gladly continued their use. My nerves began to feel stronger, the terrible headaches came with less frequency, and after taking the Pills for some months disappeared altogether. From that day to this I have had no return of the trouble, and all who know my illness regard me as cured. I am now a healthy woman. I truly thank Dr. Williams' Pink Pills for what they have done for me."

Had the Proof. Abner was a boy who lived in a thrifty country community where, from a point of economy, his hair was school one afternoon the teacher read the story of Daniel and Samson, where Abner sat right up and began to take notes. "I knowed it! I knowed it!" he exclaimed with an air of positiveness when the story was completed. "That's just exactly what I have been tellin' mother!" "Do you mean," kindly inquired the pleased teacher, "that you have been telling her about Deilah and Samson?" "No," was the prompt response of Abner, "I have been tellin' her that it don't pay to let a woman cut a feller's hair."

Corns Applied in 5 Seconds Cured Quik. Sore, blistering feet from corn-punctured toes can be cured by Putnam's Excelsior Quik. It's a soothing, astringent, drawing pain, ointment, makes the feet feel good at once. Get a 25c. bottle of Putnam's Quik.

A little type, A little ink, Has often caused A man to think And put hard times Upon the blink. A conceited man usually stands alone in his opinion.

Danger Signals Warn You of Approaching Paralysis. Slowly and Surely Exhaustion Goes on Until Collapse of the Nerves is the Natural Result. You may be restless, nervous, irritable and sleepless, but you think there is nothing to be alarmed at. You have no appetite, digestion is impaired, and there is irregularity of other bodily organs. You feel tired in body and mind, and find that you lack the energy to attend to the daily tasks. You may not realize that these are the symptoms of nervous prostration, and the danger signals which warn you that some form of paralysis is the next step of development. Dr. Chase's Nerve Food is the most successful restorative for the nerves that has ever been offered to the public.

Wonderful for the Blood

CURES BILIOUSNESS, HEADACHE, LAMENESS AND TIREDNESS. You don't need to be told how you feel - blue, sort of aches, poor appetite, vague pains, tired in the morning. This condition is common at this season. Fortunately there is prompt relief in the form of a medicine which immediately relieves the system of all poisons and disease-producing matter. Thousands have been entirely depressed, so worn out as to be despondent, but Dr. Hamilton's Pills have cured them. I can speak feelingly on the power of Dr. Hamilton's Pills, writes C. T. Fearman, of Kingston. "Last spring my blood was thin and weak. I was terribly run down, had awful headaches and a gnawing, empty feeling about my stomach. I couldn't sleep or work until I used Dr. Hamilton's Pills, - they did me a world of good." At all dealers 25c. box.

Loyalty. The grain elevator man and his friend were discussing market conditions as they walked down one of the principal streets of Montreal. Suddenly the former's hat blew off and before it could be recovered, rolled into a mud puddle. "It does look pretty bad," he asserted, evening it ruefully, "but I'm starting home tomorrow and I'll buy a new one at Bill Davis' store. No, sir - as his friend pointed to a barber's shop near by - "I'll wear this hat, but as it looks up our way we've got to do it. Forgetfulness of that obligation nearly put us out of business four years ago and but for Jimmy Walsh, one of our local bankers, we'd have been done for."

"You may laugh," he continued, "but it's a fact, we very nearly came to grief one year through buying supplies out of town. A farmer's wife began it. She got hold of a trial order. The goods came; other women saw them, were pleased with the idea of shopping in the city, and did likewise. And having begun, they continued until business at Bill Davis' store fell off to an alarming extent. They seemed to have forgotten all about the fact that Bill had carried the community for six months on credit, and that the money which they were sending out of town ought to have gone to him. Then we had a poor season - the worst harvest we've ever known. Presently there was no cash to be had, and then, of course, the mail order business stopped. Trade began to come back to the store; but it was nearly all credit trade.

"And Bill was already in a tight place. He had counted on the harvest to bring the farmers in with money enough to tide him over with his jobbing house. Disappointed in this he found himself worse off than ever, his credit was strained to the breaking point, and the jobbers threatened to close him out. One day a draft on him came through the bank, and Jimmy Walsh, the banker, came over himself to see Bill about it. But Bill couldn't pay, though there was nearly three thousand dollars on his books. He was discouraged and almost ready to give up - just when we couldn't afford to lose him, too.

"You would like very well, eh," said a brave soldier, the father of two

RHEUMATISM IS SLOW POISONING because the entire system becomes permeated with uric acid. To relieve rheumatism Scott's Emulsion is a double help; it is rich in blood-food; it imparts strength to the functions and supplies the very all-food that rheumatic conditions always need. Scott's Emulsion has helped countless thousands when other remedies failed. Refer to the bottles.

THE ACADIAN.

WOLFVILLE, N. S., MAR. 5, 1915.

Editorial Brevities.

The Murray Government of Nova Scotia is this year face to face with the biggest deficit in the history of the Province. This deficit will total over \$200,000 and new methods of taxation will doubtless have to be devised to meet the financial emergency which faces the Province.

The American steamer Dacia has been captured by a French cruiser and taken into the French port of Brest. The Wilhelmina has been thrown into a prize court in Britain. The Allies are in perfect harmony in regard to the matter of the seizure of supplies destined for Germany and any American protest must be made to all of them.

From this time forward thousands of Canadians will watch with anxiety for news from the front. The Princess Patricia's Regiment was the first of the troops raised in Canada for the Empire's service in the Great War, and the men of that regiment behaved with great gallantry. Now many thousands of the Dominion's sons are at the front, and are proving that Canadian valor will be of service in turning the invaders out of France and Belgium. In a very real sense now the war is ours.

It is rather significant that Germany's anxiety about food supply seems to have become exceedingly acute now that Great Britain's new army is moving towards the battle line. Has Germany at last begun to realize how nicely she was humbugged with the British outcry for conscription and the press complaints that volunteers were not forthcoming for the defence of the British Isles? Does she really at last begin to reckon with the fact that the British Empire's dependencies are pouring their quota of troops into Europe, and that in the aggregate the British Empire's army will be vaster than was ever conceived possible. How many men has Great Britain under arms? The Kaiser would like to know. It was said the other day it was a million, and then a million and a half, but then the army is still growing. It is not known how many troops the British Empire has under arms, but the Imperial parliament a few days since voted money for the maintenance of three million of men in the field apart from the Indian army. In the first five months of the war Great Britain spent daily on her army about five millions and a quarter of dollars, but after all it suddenly jumped to nearly nine millions daily! This fact is significant.

W. C. T. U.

The Francis Willard Memorial week of prayer was observed by the Wolfville W. C. T. U. Wednesday afternoon was given as Francis Willard day. This meeting was of a very high order and showed some of the history of the Union, its origin and development.

Thursday was British Empire and Temperance Day. This session was packed full of facts, and was much enjoyed by all present—a real eye opener.

Friday was observed as membership day. Twelve new members were secured to unite with the W. C. T. U. the following Friday. Mrs. Ada Powers, Provincial President, was with us and spoke in her own free and easy style. At the close of the session refreshments were served and a social time enjoyed. Friday evening the service was held in the Presbyterian church and Mrs. Powers spoke on World and Dominion W. C. T. U. work, which was very instructive. The Rev. Mr. Miller moved a vote of thanks to the Provincial President, seconded by Dr. DeWolfe.

Saturday afternoon was devoted to the juvenile department where object lessons were used to develop youthful minds along right ways of thinking and acting.

The Union wishes to express their sincere thanks to the Presbyterians for the use of their church edifice, also to all who in any way helped to make our meetings the success we feel they were. All this comes by having a wide awake president who not only knows how to work, but how to get others working.—Com.

Day of Prayer for Colleges.

Last Lord's Day, Feb. 28th, was observed as the day of prayer for colleges. A special service of prayer was held in College Hall at 9:30 which was quite largely attended by the lady students and a few of the men. In the afternoon at the same place an address was delivered by Dr. W. N. Hutchins, who chose as his subject, 'Strength.' He spoke of the importance of strength, the elements of strength and the method of gaining strength. It was a strong and impressive appeal to youth to estimate the importance and true nature of strength and seek to attain it. The address was characterized by masterly expression, aptly reinforced by well chosen illustrations. It was also characterized by vigor of thought and a fine vein of spirituality. It was most favorably received. In the evening he was listened to by a large number of our youth, who were all keenly interested. He spoke with equal impressiveness to the general theme of 'Being Good,' being his message on Golden Rule, 23 in all the things we well spent and should result in deepening the feeling for and strengthening the purpose of young youth with respect to the higher meaning and value of life.

Home Service.

Don't let the quiet, patient workers who have since the outbreak of the war given a part of every day to the accomplishing of something for the cause be discouraged if their efforts do not seem to them to occupy a prominent place in the sun. A faithful attendance at the sewing club, a bit of each day's income laid aside, a word to cheer in some household where it is needed, the sane optimism of the Briton, a faithful adherence to the duty that is ours, whether it calls us to business day after day, or sends us drilling in khaki in the squares, is patriotism in its largest form. Concentration, application, patience, a steadfast holding in the faith that is our heritage, these are the every day demands. The men and women who are calmly ordering their lives week after week, month after month, along these lines are the men and women who are doing a patriotic work of which they need not feel ashamed. They are inspiring confidence, hope and faith in their fellowmen; they are strengthening the bands that unite the Empire, and they are upholding the principles of Christianity upon which civilization rests. Home service may not seem brilliant service, but the patient accomplishment of little services results very often in large achievements, both mentally and materially. Perhaps this quotation from a recent article by Norman Angell may serve as an inspiration. It is as true of individuals as of nations:

'Belgium has done this great service for all of us: She has shown how great a little country may be, and how little a great one may become. She has shown that the real nobility of patriotism is not a matter of wide territory and political power, and does not need to be nourished by these things; while the action of Germany towards Belgium has shown that power and size may well destroy all that makes patriotism worth while.'

Kitchener a Genius.

In a recent discussion of the personality of Lord Kitchener, Harold Begbie insists that the War Minister is devoid of many of the qualities of genius attributed to him by contemporary writers. He says Kitchener is not a military genius in the same class as Napoleon, for instance, but he states that Kitchener possesses certain peculiar qualifications which make him an excellent man for the place he holds at present. Kitchener's unusual and most remarkable qualities are, in the opinion of this observer, his passion for efficiency and his disregard of every thing described as 'red tape.' He is possessed of bulldog tenacity, and his plan is to work steadily along certain well defined lines until he gets to his destination.

Begbie says Kitchener's most creditable and remarkable performance since he assumed the direction of the British forces in this war is his holding out against popular pressure exerted to have the raw new British forces sent into the field as soon as organized. This, he says, shows Kitchener at his best. The old soldier knew the Germans and he knew the kind of war they were able to wage. He stuck to the recognized, safe and sure military principles. The temptation of popularity did not bother him. He insisted that his men should be trained and tried before they took the field, and he had his way. As a result, the Germans today have lost their original habit of jeering at the raw levies England intended to put into the field, and are making desperate plans to block as far as possible the transportation of these troops to the continent. They are forced to fight not untrained troops, but men ready and prepared for the field.

Town Council.

At the regular meeting of the Council on Wednesday evening the Mayor and full board were present except Coun. Porter, who was detained by illness.

The estimates for the coming year were presented, amounting in all to \$20,988.72. The estimated revenue from all sources is \$21,001.13. The rate of taxation for next year will be the same as last, 2 per cent.

A draft bill entitled, 'An Act Concerning the Old Cemetery,' was considered and it was decided to send the same to the legislature for enactment. This provides for the taking over of the old cemetery by the town, for the purpose of keeping it in a presentable condition.

The report of the Finance Committee showed receipts during month \$534.02 and expenditure of \$782.13. The bank overdraft on March 1st was \$2660.17, compared with March 1st, 1914, when it stood at \$5745.91.

A delegation from the Wolfville Board of Trade, composed of Dr. G. E. DeWitt, G. R. H. Starr and Burpee I. Bishop, addressed the Council on the matter of the consolidation of the Poor Districts of the County and more efficient provision for the care of the poor and lunatics in town. This matter will be considered by the Council.

Baby's Own Tablets a Great Blessing.

Mrs. Jas. E. Melman, Gogoggin, N. S., writes: 'I gave Baby's Own Tablets to my baby boy for constipation and he had troubles and I have found them a great blessing. I think the Tablets should be in every home where there are young children.' The Tablets are an absolutely safe remedy for little ones, being backed by the guarantee of a government analyst to be free from opium and narcotics. They are sold by medicine dealers or by mail at 25 cents a box from The Dr. Williams' Medicine Co., Brockville, Ont.

FISH

Married at Victoria.

A very interesting event took place on Friday evening at the home of the bride's parents, 124 Fairfield Road, when Maguerite McLean, only daughter of Mr. and Mrs. J. O. Stinson, was united in marriage to Hilton Burpee Witter, manager of the Royal Bank of Canada at Ladysmith, B. C. Rev. J. G. Inkster performed the ceremony in the presence of the relatives and immediate friends of the principals. The bride who was unattended, looked very charming in a gown of white chiffon and shadow lace, with tulle veil and orange blossoms. During the signing of the register, Miss M. E. Livingston sang 'Perfect Day.' Many handsome presents were received by the young couple, who left on the evening boat for Vancouver. After a tour of the coast cities they will make their home in Ladysmith, B. C.—Victoria, B. C. Times, Feb. 6th.

The Sailing.

Our boys are going. In the busy street You see the Kluck—hear the tramp of feet. The blare of music. Past the hours by. That separate us from the last good-bye. Our boys are going. O, the hearts that ache, The tears that fall in secret for their sake! The lips that falter o'er some loved one's name Whose going sears some hearts like scorching flames! Our boys are going—and the tears will flow, We're not human, and we loved them so! And death is everywhere, it sea and sky And from trench where Prussian shells scream by. Our boys are going. O, with bravest cheer, Then let us hide our loneliness and fear, And do our duty, though our hearts may bleed, Our boys are going. Let us say "God-speed!" EVELYN S. TUPES, Wolfville, March 1st, 1915.

The Civil Service Commission announces a general competitive examination for admission to the Royal Naval College, Halifax. Examination will be held on May 12th, at Halifax, Sydney, Yarmouth and other centres.

Local Happenings.

On Wednesday, Mar. 10, Kentville and Windsor play off for the championship of Western League.

Mr. J. G. MacKay will preach next Sunday in the Presbyterian church both morning and evening.

The choir of the Wolfville Methodist church are now preparing a cantata which they intend presenting on the evening of Good Friday.

Wolfville and Kentville play their second game in Kentville on Mon. Mar. 8th. Special train leaves Wolfville at 7 p. m., returning after game. Everybody come.

The big game of the season is coming off on Friday, Mar. 12th. When Windsor play Wolfville their return game. Game at 8 p. m. Special train leaves Windsor at 7 p. m., returning after the game.

A Twilight Recital will be given in the Baptist church next Wednesday, March 10th, at a quarter to five, by Miss Beatrice Rockwell, assisted by Miss Helen Knowles, contralto. A silver collection will be taken at the door.

It is announced by the Department of Agriculture at Ottawa that the first edition of ten thousand copies of the Agricultural War Book is exhausted. Another and larger edition is being printed to provide copies to meet applications that have for some time been accumulating.

THE ACADIAN is very glad to be able to present to its readers this week another contribution from the pen of our clever young townsman, Mrs. Tufts. 'The Sailors' is an exceedingly artistic production and its timely sentiment will meet with a sympathetic response from every lover of true poetry.

TO THE FRUIT GROWERS.

GENTLEMEN: It has been commonly reported that it will be impossible to procure Lime Sulphur from the Niagara Spray Co. on account of their factory being destroyed by fire. This is not the case. The Niagara Spray Co. is in a position to supply NIAGARA LIME SULPHUR, SWIFT'S ARSENATE OF LEAD, SOLUBLE SULPHUR and YIELD a hurry to place your order.

Early last week Anstie Lyons, of North Mountain, this county, was missed from his home. Diligent search was made by his friends and neighbors and on Saturday last a crowd of 500 men including sixty recruits from the Canadian contingent at Kentville were out scouring the woods. The body was found at the foot of a precipice in the woods about two and a half miles from his home. A verdict of accidental death was returned.

Gray and Davis, of Boston, Mass., have perfected and put on the market an Electric Self Starter for Ford automobiles which is now being installed on Ford cars by the Wolfville Garage. One was put on Mr. C. E. Wright's car the first of February and has given him perfect satisfaction. It works equally as well as the starters on other more expensive cars and will add just one hundred dollars to the price of the car. We understand that the Ford dealer here will sell cars this season either with or without the starter.

RAIN COATS - Great reductions in Rain Coats. Get one now and save money. J. D. CHAMBERS.

Mr. F. J. Porter, Bond Dealer for the county of Kings, received his first carload of the new 1915 touring cars on Monday last. They are now on the floor of his salesroom where he invites public inspection. The new stream line body with cowd dash, bullet lamp, electric lights, gold hood, invisible horn and the new style windshield are among the new features that make the Ford a classic looking car, and at a price that will appeal to the good judgment of the multitude. The Ford is all made in Canada, therefore the new war tariff will not in any effect the price of the car.

GRAHAM'S Post Card Views are becoming very popular - they are made for people who want the best.

WHITE WEAVER - Now Coast Covers and Princess Ships, from 25c up. J. D. CHAMBERS.

The volunteers from Acadia University for the British Canadian Mounted Rifles Regiment for Co-operation service next month will drill at Kentville on Monday, the student body accompanying them to the train here and giving them an enthusiastic send-off. The students who left are Arthur W. Rogers, 15; Norman McEwen, 16; J. West Lewis, 16; George M. Morrison, 16; John R. Smith, 17; and Leonard C. Eaton, 17. John C. Brown, of Greenwich, Fred Jordan, Newtowville, John Novell, Sgt-Major Loug, Gaspereau, A. D. Atwell (Sgt.), Stanton Redden, Black River, John Woodham, Wolfville; John Smith, N. E. Margaree, Clifford Jordan, H. A. Jordan, Gaspereau, are also members of the regiment from this vicinity who are drilling at Kentville.

We have these coats in a good variety, of shades, and the

Balmaccan is the Right Style.

Call and see them while we have a good assortment.

Prices \$10.00 to \$16.00.

C. H. BORDEN WOLFVILLE.

Obituary.

At the homestead, Paradise, Annapolis county, Feb. 27th, aged 85 years, entered into rest Charlotte, daughter of the late W. H. Troop, E. q., at one time a resident of Wolfville, and widow of Avar Longley Esq., who represented the county of Annapolis almost continuously from 1859 to 1881, and was commissioner of railways for Nova Scotia from 1864 to 1869. He was also for a number of years a governor of Acadia College.

Mrs. Longley before her marriage, associated with an older sister, conducted a private school for young ladies in a building, (now removed) on the Ryan's property, east Main street, Wolfville. For fifteen years Mrs. Longley suffered from a bronchial affection, and for the last four years of her life was almost wholly confined to her room, but her intellect was clear until the end, and she ever maintained an intelligent interest in the affairs of her own church and community, and the outside world as well.

The funeral, held at the residence of her eldest son on Monday p. m., March 1st, was largely attended. Comforting words were spoken by Rev. J. D. MacLeod, pastor of the Baptist church, Paradise, Rev. Mr. McNaught, a former pastor, and Rev. Haddon Balcom, a family friend. In the passing of this noble and gifted woman her immediate family, her friends and the community in which she so long resided have sustained a loss, but they cherish the imperishable memory of a beautiful character, and a life devoted to high ideals of Christian service. The deceased is survived by two sons residing in Paradise, and two daughters, Mrs. T. R. Wallace and Miss Longley, now residing in Wolfville.

11th Annual Convention. CANADIAN SEED GROWERS' ASSOCIATION.

The 11th Annual Convention of the Canadian Seed Growers' Association will be held at Ottawa on March 11th and 12th, 1915. The day sessions will be held in the Carnegie Library Hall, Metcalfe Street, and the evening meetings in the Railway Committee Room of the House of Commons. The sessions this year are expected to be of special interest and importance, in view of the unusual conditions which prevail in Canada at the present time. The matter of increased production is intimately associated with the use of better seed. The means which are being taken to produce seed of better

quality and breeding in larger quantities will be discussed by experts from the different Provinces, and will therefore occupy the chief attention. Some of those who will address this Convention are Dr. Jas. W. Robertson (President), Dr. C. C. James, Prof. R. A. Zavits, of Guelph, Mr. George H. Clark, Seed Commissioner, Ottawa, Mr. J. H. Griadale, Director of Experimental Farms, Ottawa, and Dr. Chas. E. Saunders, Ottawa. The Reports of the Board of Directors and of the Secretary will show the progress which has been made in the growing and handling of Registered Seed during the past season. It is hoped that a large number will be present on the occasion of this Convention.

Personal Mention.

(Contributions to this department will be gladly received.)

Miss Jean I. Hardy, spent the week end in Wolfville, guest of Miss Ruth Woodworth of Acadia College.

Miss Robinson, of Annapolis, is visiting in town for a few weeks, at the home of Mr. and Mrs. Ralph Creighton.

Mr. A. L. Davidson, M. P., arrived from Ottawa on Monday evening on his way to his home at Middleton, and spent the night here.

Prof. Haley has been called to Norwich, Conn., by the sad news of the death of Dr. Wilcox, Mrs. Haley's father, which occurred in that city on Feb. 25th.

Mrs. L. F. Bleckhorn, of Canning, was the guest of her brother, Mr. C. A. Patriquin on Tuesday night. Mrs. Bleckhorn was on her way from Halifax, where she had been visiting her son, a member of the 25th Regt.

Mrs. Ryan and children, of Truro, have been spending a few weeks in Wolfville at the home of the former's parents, Mr. and Mrs. Johnson H. Bishop. Mr. Ryan arrived on Saturday night and returned with them on Wednesday.

Kingdom of God Near.

THE PRESENT WAR WILL BE THE LAST SAYS LECTURER.

For nearly 2000 years Christians have been praying for 'God's Kingdom' to come, and His Will to be done on earth as in Heaven. During the same period the Gospel of peace and good will has been preached. Now we are confronted with this awful spectacle of nearly all the Christian nations engaged in the most terrible war of all time, and the remainder of the Christian nations ready to enter the conflict. Christians are perplexed, indignant, scornful. What does it all mean? Has the Gospel been a failure?

Over a quarter of a century ago Pastor Russell, of Photo Drama fame, declared that according to Bible prophecy this war would be 'raging in the year 1914, and would continue until the nations were purged and made ready for the 'Second Coming' and 'God's Kingdom.'

Pastor MacMillan, who has been associated with Pastor Russell for many years, will discuss the matter in two lectures next Sunday in the Wolfville Opera House. His topic at 4 p. m. will be 'God's Kingdom,' what it is, evidences that it is near at hand. At 8 o'p. m. he will speak on 'Christ's Second Coming.' Why?

Mr. MacMillan says that he will handle these subjects in a manner that will be convincing and helpful to all who hear, preparing them for the great events of the near future.

'It is nearly stated in the Bible,' he says, 'that this will be the last war, following it the age of universal peace and good will amongst men will be introduced.' Seats Free. No Collection.

Business Men's Class.

Next Sunday afternoon Rev. Thos. Hill will address the Class on the subject, 'My Experiences in the Belgian Congo.' Mr. Hill who has been engaged for many years in work in that section of Africa, will speak with first hand information. Special music will be provided. Do not miss this opportunity.

CASTORIA For Infants and Children.

The Kind You Have Always Bought Bears the Signature of

OLD BACKS NEED HELP

When people get to be 50 and 60 and 70, they need a little help sometime to get through with the day's work. Their backs can't stand the heavy loads, the steady strain, of heavy youth. They need

GIN PILLS FOR THE KIDNEYS

St. Raphael Ont., Jan. 26. 'Four years ago, I had such pain in my back that I could not work. The pain extended to my arms, sides and shoulders. I used many kinds of medicine for over a year, most of which did me very much good. I read about Gin Pills and sent for a sample and used them and found the pain was leaving me and I was feeling better. So I bought one box and before I had used them all, the pain was almost gone and I could keep at work. After I had taken six other boxes, I was entirely cured and I feel as strong as at the age of 30. I had formerly, some 61 years old.' FRANK LEALAND Gin Pills are 'Made in Canada', 50c a box, 9 for \$2.50 at all dealers. Sold in U.S. under the name of 'GINO' Pills. Trial treatment free. If you write National Drug & Chemical Co. of Canada, Limited, Toronto.

THE BLOOD IS THE STREAM OF LIFE

Pure Blood is Absolutely Necessary To Health

"FRUIT-A-TIVES" PURIFIES

These Wonderful Tablets, Made of Fruit Juices, are the Best of All Tonics To Purify and Enrich the Blood.

Pure, rich blood can flow only in a clean body. Now, a clean body is one in which the waste matter is regularly and naturally eliminated from the system. The blood cannot be pure when the skin action is weak, when the stomach does not digest the food properly, when the bowels do not move regularly, when the kidneys are strained or overworked.

Pure blood is the result of perfect health and harmony of stomach, liver, bowels, kidneys and skin.

"Fruit-a-tives", by their wonderful action on all these organs, keeps the whole system as clean as Nature intended our bodies to be clean.

"Fruit-a-tives" tones up, invigorates, strengthens, purifies, cleans and gives pure, rich, clean blood that is, in truth, the stream of life.

"Fruit-a-tives" is sold by all dealers at 50c. a box, 6 for \$2.50 trial size 25c. or sent postpaid on receipt of price by Fruit-a-tives Limited, Ottawa.

Spiritual Horticulture.

There is a delightful and well known book called "The Little Flowers of St. Francis." The little flowers are the beautiful things St. Francis of Assisi did and said. But he was a monk. He gave himself entirely to religious work. He had no business—no worry of any sort. Well, Mr. Frank Crossley, of Manchester, had a very large business; a very trying, risky business; an exciting, jealous business. Yet, he grew the "little flowers" of St. Francis quite as successfully as the saint himself.

"Are you in trouble, my friend?" asked a minister of a man in a Manchester waiting room, whose eyes showed signs of recent tears. "No," was the answer, "but I have been to Frank Crossley to day, and he has treated me exactly as I think Jesus Christ would; and—and—I can hardly bear the kindness." By the perfume, I judge that to be one of the little flowers. And these same flowers pay well for their cultivation. Life becomes very dreary where they are wholly wanting. The care for the cares and worries is a larger care—diviner sorrow.—Rev. J. Morgan Gibson.

TWO NERVOUS WOMEN

Made Well By Lydia E. Pinkham's Vegetable Compound.

Philadelphia, Pa.—"I had a severe case of nervous prostration, with palpitation of the heart, constipation, headache, dizziness, and a general feeling of weakness, restlessness and nervousness. I read in the paper where a young woman had been cured of the same troubles by taking Lydia E. Pinkham's Vegetable Compound so I threw away the medicine the doctor left me and began taking the Compound. Before I had taken half a bottle I was able to sit up and in a short time I was able to do all my work. Your medicine has proved itself able to do all you say it will and I have recommended it in my every household I have visited.—Mrs. Mary Johnston, 210 Signet Street, Philadelphia, Pa.

Another Bad Case.

Epworth, Pa.—"About a year ago I was down with nervous prostration. I was pale and weak and would have hysterical spells, sick headache and a bad pain under my shoulder-blade. I was under the care of different doctors but did not improve. I was weak I could hardly stand long enough to my medicine.

"Lydia E. Pinkham's Vegetable Compound has made me well and happy and I have begun to gain in weight and I feel like a new woman.—Mrs. J. W. Hutchinson, R. No. 2, Epworth, Pa.

If you need special advice write to Lydia E. Pinkham, Boston, Mass. (Illustration of a woman's face.)

If You Can Keep Your Head.

If you can keep your head when all about you are losing theirs and blaming it on you; If you can laugh yourself when all men doubt you; But make allowance for their doubting too; If you can wait and not be tired by waiting; Or being lied about, don't deal in lies; Or being hated don't give way to hating; And yet don't look too good, or talk too wise.

If you can dream—and not make dreams your master; If you can think—and not make thoughts your aim; If you can meet with triumph and disaster And treat those two impostors just the same;

If you can bear to hear the truth you've spoken, Twisted by knives to make a trap for fools; Or watch the things you gave your life to, broken; And stoop and build 'em up with worn-out tools;

If you can talk with crowds and keep your virtue, Or walk with kings—nor lose the common touch;

If neither does nor loving friends can hurt you; If all men count with you, but none too much;

If you can fill the unforgiving minute With sixty seconds worth of distant run; Yours is the earth and everything that's in it.

And, what is more; you'll be a man my son!—Kipling.

The care for the cares and worries is a larger care—diviner sorrow.—Rev. J. Morgan Gibson.

They say that opportunity knocks once at every man's door. I don't know the name of the scientist who managed to get such a fine line on the habits of opportunity; but if opportunity does announce itself, the chances are that it may be many a door, and in some cases, when it does knock, I presume, there's no stly at home.

My impression is that opportunity as a rule doesn't knock at all—or very rarely. Opportunity consists in thinking, doing, having a pretty patience and perseverance, possessing the ability to size up a situation, and having the nerve and willingness to take advantage of it.

In a certain village down south there was a physician noted for his reckless automobile driving. One day he answered the phone, a woman's voice asked him if he was going out driving that afternoon.

"No, I hardly think I will leave this afternoon," replied the doctor. "But why do you ask?"

"Well," replied his anonymous questioner, "I want to send my little daughter down town for some thing if you are not."—Everybody's Magazine.

He (describing his war experience)—Just then the enemy got our range. She—You poor fellow! And you had to go without your dinner.

War's shell game whichever way you look at it.

CURIOUS WEAPON USED BY GERMANS

Short Range Trench Howitzer Fires Explosive Shell Weighing More Than Gun Itself

In one of the official stories sent from the front by "Eye Witness" illusion was made to the "minenwuerfer," or trench howitzer, which the Germans are using. This trench howitzer is another of the productions of Krupp, but, though small, it is undoubtedly a factor serious to reckon with in trench fighting.

The howitzer itself is only three feet or so long and weighs 130 pounds. Its mounting is a small affair of about 100 pounds, but it is attached to a heavy bed or platform of 930 pounds dead weight. This complete mass of a little over half a ton is provided with wheels and a couple of handles, and can readily be transported by two men.

Its small size and mobility permit of its being moved about in the trenches. When in position the howitzer, with its bed, is removed from the travelling wheels, and the weapon can then be fired from the ground. It is a decided novelty in munitions of war.

The calibre of the howitzer is less than three inches, but the shell thrown is a sphere over a foot in diameter, weighing, with its charge of high explosive, close upon 200 pounds.

To enable the little howitzer to accommodate such a huge shell, an "adapter" is used. When the howitzer is fired the adapter and shell are forced out together. The two are soon separated, however, the air, forcing its way between them, causing the adapter to fall apart and to allow the shell to travel on its way alone. The lowest elevation employed is 45 degrees, and at this angle the shell travels a distance of 550 yards, the maximum range obtainable. The accuracy of fire is said to be very good.

Although this range is so small, the shell takes no less than 10 seconds in its flight, and reaches a height of 410 feet in the air. It is difficult to imagine the feelings of those in the trenches against which the howitzer is operating, as they see the large circular shell lobbing toward them. The projectile consists of but a thin steel envelope, the greater part of its 200 pounds weight consisting of high explosive.

Four pounds of dynamite or gun-cotton are considered sufficient to demolish breastworks of two to three feet thickness, composed of earth rammed between planks or railway sleepers. It is not, then, difficult to estimate the destructive powers of such a mass of high explosive falling into the trenches.

The effect of ordinary shrapnel shell is obtained by the bullets and splinters of the envelope when the shell bursts. With the "minenwuerfer" shell the effect is almost entirely explosive. The walls of the shell are too thin to be capable of doing much damage and it is not in this direction that the effect is expected.

When the trenches are less than 500 or 600 yards apart a shorter range can be obtained by elevating the howitzer to a greater angle than 45 degrees. At 60 degrees, for instance, the range would be 470 yards. The shell would then reach a height of 620 feet in the air, and would take 12 1/2 seconds to complete the trajectory.

The highest angle at which the "minenwuerfer" can operate is 80 degrees. At this elevation the range would be only 190 yards. Nearly a quarter of a minute would elapse between the moment of discharge and the instant the shell falling into the opposing trenches, a maximum height of 800 feet being attained in its journey. One has but to remember that a crack in concrete can cover 100 yards in approximately 10 seconds to appreciate the slowness with which the shell completes the distance between the trenches when fired at this high elevation.

Where Britain Erred There can be no doubt about it—in the eyes of official Germany, Great Britain was a nation of fools. So was France; so was Belgium.

For years we and our allies, like simpletons, allowed thousands and thousands of men from the fatherland to come to our shores, and when they told us their aim in life was to settle among us as waiters, porters, business men, manufacturers, correspondents, and all the rest of it, we believed them. We did more, we made friends of them.

In short, we treated them as gentlemen, seeing which, official Germany chuckled to itself and called us fools.—London Answers.

Children Cry FOR FLETCHER'S CASTORIA

Are we living in an age of exceptional culture," said the woman with angular features.

"Nelle we are," said former Corn tresser, "but I can't help noticing that people walk right up to the newsstand to buy some pretty fully stuffed with it. It might be good book agent to work of a set of Shakespeare

Study this table, which was prepared before the war. Only one country increased its cattle more than its people in the past ten years. And, in it (Australia) in 1914 there was a tremendous loss of live stock through an unprecedented drought—a fact which the table does not show. Do you need any more argument than this table that there is bound to be an increasing demand for beef?

**** SHEEP. Canadian farmers have been losing great opportunities in sheep raising and sheep feeding. Hundreds of thousands of sheep have been slaughtered to provide winter clothing for the soldiers of the different armies, Australia's losses, through drought in 1914, were very heavy. Canada has been importing frozen mutton from New Zealand since 1914. Under conditions, wool and mutton should prove very profitable for Canadian sheep raisers during the next few years.

**** SWINE. Through the indiscriminate sale of swine in the Canadian West in the past three months, the supply in 1915 promises to be little more than half of 1914. Add to this the fact that the British soldier is allowed 1/2 lb. of bacon per day, and that sausage is the principal meat food of the German soldier, and you will understand the outlook for the future. Those who stay

steadily with swine, year in and year out, make money. Those who rush in and rush out, generally lose money. "Buy when others are selling, sell when others are buying," applies to live stock as well as to Wall Street stocks.

**** DAIRY. Milk cows in Canada increased in Canada from 2,408,671 in 1901 to 3,994,179 in 1911. This increase did not amount to 8% and was less than one-quarter of the population increase of Canada. At the same time, the per capita consumption of milk by Canadians increased 80%. Is there any wonder we had to import 7,000,000 lbs. of butter from New Zealand?

The exports of Canadian cheese have been steadily declining for ten years. Look at the market prices today. Do they not suggest the advantage of increased production? Through cow-testing, selection and better feeding, the

average annual production per cow in Canada did increase from 2,850 lbs. per cow in 1901 to 3,800 lbs. in 1911, but this is only a beginning. Last year one cow in Canada produced 36,000 lbs. The delivery of Denmark, which supply Great Britain with butter and bacon are not satisfied unless their herds average 10,000 lbs. per cow. Let Canadian dairymen work to increase the productivity of the milk cow. Feed for milk. Test your cows. Save your calves. Select your milkers. Feed for yield. Read the Agricultural papers and Government reports and bulletins on dairying.

**** CONFERENCES. Now that you have attended the Conference, or have read about them, get together and talk things over. Also write to the Publications Branch, Canadian Department of Agriculture, Ottawa, for bulletins and reports on live stock and dairying.

A Word to Our Farmers.

The Department of Agriculture, Ottawa, has entered upon a most important campaign, and is advertising in nearly every newspaper in Canada a patriotic campaign and circulating literature specially attracting the attention of farmers to the opportunity they now have of disposing their patriotism by clearing their lands and planting seed, and by so doing increasing largely their products.

There never was a time in the history of the world when the products of our farms are more needed than at the present, nor were prices ever higher than at present.

Information of all details—such as (a) the stock, food products, care of animals, in fact, every phase of a farmer's life, can be had free of cost upon application to the department. These pamphlets are written by prominent farmers all over the country, and are the outcome, not of experience, but of experience, and are well worthy of a perusal by every tiller of the soil, or stock fancier in the country.

We trust our farmers will in the good use of the opportunity thus afforded them and will leave no stone unturned in increasing the products without delay.

Children Cry FOR FLETCHER'S CASTORIA

Are we living in an age of exceptional culture," said the woman with angular features.

"Nelle we are," said former Corn tresser, "but I can't help noticing that people walk right up to the newsstand to buy some pretty fully stuffed with it. It might be good book agent to work of a set of Shakespeare

Study this table, which was prepared before the war. Only one country increased its cattle more than its people in the past ten years. And, in it (Australia) in 1914 there was a tremendous loss of live stock through an unprecedented drought—a fact which the table does not show. Do you need any more argument than this table that there is bound to be an increasing demand for beef?

**** SHEEP. Canadian farmers have been losing great opportunities in sheep raising and sheep feeding. Hundreds of thousands of sheep have been slaughtered to provide winter clothing for the soldiers of the different armies, Australia's losses, through drought in 1914, were very heavy. Canada has been importing frozen mutton from New Zealand since 1914. Under conditions, wool and mutton should prove very profitable for Canadian sheep raisers during the next few years.

**** SWINE. Through the indiscriminate sale of swine in the Canadian West in the past three months, the supply in 1915 promises to be little more than half of 1914. Add to this the fact that the British soldier is allowed 1/2 lb
