TORONTO MAN'S ESCAPE

Private Paterson Tells How German Shell Interrupted Spelling Lesson.

Canadian Associated Press Cable. LONDON, March 22.—Eight more Canadians have fallen in the Canadian Hospital at Shorncliffe, bringing the total number of patients since the institution opened to over two hundred. One, Major Higginbotham, has died.

There is Private Louis Paterson, Toronto, 4th Battalion, who has sharp wounds in both feet and one arm, and to use his own words "heardly knows what part of his body has not been hit by shrapnel." He is as cheerful as a cricket, and declares his wounds are nothing to mention.

Private Outhbert of the Patricia's, Winnipeg, who got a bullet in the arm, laconically remarks here were plenty of them to go round. I was not there an hour before I got my dose. It was hit about the same time as a fellow Patricia named Wormald from Montreal. Their beds at Shorncliffe are within a couple of yards of each other.

A large number of the wounded Canadians at Shorncliffe were able to go on the lawn yesterday, the weather being so balmy by abrupt contrast. Many of the wounded Canadians were seated in a basket chair remarked: "You ought to hear that row from the batteries as they are being fired rather you ought to pray to be saved from hearing it."

The following Canadian wounded have been received into Netley Hospital during the week-end: Privates McDonald, M. McLean, W. Moore, W. H. Daldry, T. Prichard, J. B. Bay, A. Chamberlain, Sergeants W. J. Bay, A. Steele, Bugler W. J. J. MAJOR-GEN. STEELE DEFINITELY CHOSEN?

BELIEVE ENGLAND ENLISTS WOMEN

Credulous Germans Told of Failure of Male Recruiting in Britain. Special Cable to The Toronto World. LONDON, March 22.—The Daily Express quotes the following extraordinary article from The Frankfurter Zeitung, based on the belief that Great Britain, owing to the failure of male recruiting, has now decided to put women in the field. "It is, indeed, painful to see how the English are driven to the last expedients in order to obtain recruits. The supply of eligible men having practically ceased, all eyes are now turned to the women. The suffragettes, it is argued, have given substantial proof of their pugnacious tendencies. If these are in evidence in case of so large numbers of champions of female suffrage, they must equally form part of the character of the great bulk of English women. Hence a propaganda directed upon the auspices of Earl Kitchener is now being actively carried on among the women of England. In one large girls' school not far from Dover, more than 200 wooden rifles were distributed among the pupils, who are now being drilled and practiced. Thus we are faced with an irruption of Amazons on the battlefield of Flanders. Let them come, the heroic virgins. We shall receive them with a thunderous salute of shells. Their sex shall not save them. On the contrary, it will draw against them attacks the more violent by artillery and rifle fire, because we know that for every English woman a killing moral effect much greater than that which the death of six men could produce would recoil on the hands of the English authorities. Let them come, then, these charmers."

Spring Overcoats That Have Distinction and Swing. The showing of spring overcoats at Dineen's, 140 Yonge street, is strikingly smart and well suited to appeal to men with exclusive tastes. Some are loose-fitting, others form-fitting, and all cleverly cut. Colors are grays, browns, blues and blacks. You realize the need of a light overcoat for wear at each end of the rather treacherous spring days that are ahead of us.

GERMANS' WAR MACHINE RUNS OUT OF FUEL

Men Only Trained to Be Parts of It, Have Reached Limitations. Special Cable to The Toronto World. PETROGRAD, March 22.—There is a universal feeling here that after several months of arduous and increasingly successful warfare against the well prepared German powers we are now on the eve of reaping the harvest of our long sustained and strenuous efforts. Russia, whether she has seven million or ten million men under arms, has sufficient for all the purposes of her strategic scheme. The Germans for months past have been driving in wedges all along the Russian strategic front with the net result of losing thousands of lives on the field without gaining any but the slightest impression upon the Russians. Thanks to their methods of fighting, the Germans being always the attackers, have put very much more heavily than the Russians, but even supposing the losses were equal, the German case is no better. The German war machinery is worn out, and the German men have only been trained to be parts of the machine. The limitations of that over-ruled war machine have, it is believed, been reached. In the next few weeks a great crisis upon the machine of war against the machinery of Germany will be made and there is little doubt about the result.

RUSSIA WILL SOON CALL ON MANHOOD OF NATION AGAINST ENEMY

RUSSIANS TAKE ANOTHER TOWN

Special Cable to The Toronto World. PETROGRAD, March 22.—Russian troops continue successfully to prosecute their invasion of East Prussia by way of Courmeur and after considerable resistance in which they won an engagement, they captured the strategic town of Gumbinnen. The capture of this town is a serious blow to the German position in the front from the Vistula to Memel no important change is recorded. The capture of Gumbinnen is not taken cognizance of by the Russian war office. It is believed here that the capture has inspired to encourage the German people.

ADVANTAGES IN CARPATHIANS

The Russian appear to be gaining a decisive advantage everywhere in the Carpathian fighting. Stubborn resistance is being put up by the Austrians and Germans against the Russian advance on Bartfeld. This is being conducted on the Bartfeld roads the Chovany and Lobod, the valleys, and on the left bank of the San, and progress is being made in all these movements. The Russians continue to advance with confidence and determination. FALL OF PRZEMYSL WINS CAMPAIGN FOR RUSSIANS

Failure of Desperate Attempts of Austro-Germans in Carpathians To Relieve Town Led to Surrender—Several Thousand Austrians Captured at Lupkow. BY FREDERICK RENNET. Special Cable to The Toronto World. PETROGRAD, March 22.—At dawn today the Russian infantry struck the last breath from the defence of Przemyśl, and the commandant, General Kusmanek, surrendered the fortress and garrison to the Russian army. The position of the defenders had been hopeless since Friday, when a sortie of the best Honved division was cut to pieces eastward of Przemyśl, where the Russian guns from behind a crest 400 feet high were smashing the inner citadel. Death, wounds, sickness, destitution and loss in prisoners reduced the garrison until it was unable to defend the 25 miles circumference of the forts.

THE ENDING OF THE LONG STRIKE IS OF GREAT IMPORTANCE

It gives Russian control of vital points through the city, mysteriously hidden behind the dense curtain of falling snow, and the Russian spirit and added to the general spirit of enthusiasm. GIVE HONOR TO RUSSIA

Capture of Chief Galician Fortress Most Important Achievement Recorded. PETROGRAD, March 22, via London, 11:05 p.m.—The Przemysl garrison, which capitulated to the Russian army today, surrendered without a fight. The holding of the white flag over this fortress, which was said to be on the point of surrender on a number of occasions, caused little surprise, as it was generally known that it was in a terribly weakened condition, without food or ammunition, and its endurance was only a question of days.

War office advices reports that nine Austrian generals were taken, as well as more than 300 officers and 50,000 men. The Russian general commanding the investing army has been decorated with St. George's Cross.

Enthusiastic Demonstrations. A heavy snowstorm failed to check the enthusiastic demonstrations in which the civil and military populations united when the fall of Przemyśl was announced. The crowds, flooding in deep drifts, which tied up street traffic cheered the officers and soldiers, who remained to participate in the celebrations.

THE GARDEN CONDUCTED BY R. T. TORR. The New Garden. (Continued from Yesterday.) Harbaceous borders should be laid out with a definite regard to permanency, because in order to gain the best results many of our well-known and most easily grown perennials must be in an undisputed position for their own special spot of ground for one year after another.

Take the perennials, for instance. Now, perennials are very exacting in their demands not only of their soil and earth space and feeding ground. If one thinks for a moment of the immense thousands of green leaves and the great succulent stalks, one will understand that perennials require careful attention, plenty of feeding and plenty of time to send out even a few first blossoms.

And just while we are touching on this perennials question, remember that these great perennials should be laid out near a tree, for the tree's sake as well as for the sake of the perennials. Concluding this question of permanency, because it is impossible to go into further details, it is well to turn our new gardeners to study their theory and gain some idea of what is required to well established perennials.

THE MAN BEHIND THE BRITISH GUNS.

summer and autumn season is difficult to realize for those who have not taken up the work.

Another suggestion has been made by officials in the agricultural department, which is in line with the horticulture that has turned out so well.

The advice of the government is to grow vegetables and fruit in back gardens and vacant lots.

There are now plenty of vacant lots, also perhaps farther from King and Yonge streets than they were twenty years ago.

Mrs. Wisenighbour Says:--

"I should have told you the other day, when I was speaking of Eddy's Washboards, that it is just as necessary to have an indurated Fibreware Tub to hold your clothes if you want to make a success of washday."

Mrs. Newlywed Says:--

"I've heard of Eddy's indurated Fibreware. What's the difference between fibre and woodenware?"

"Fibreware is made from compressed fibre, baked at extreme heat. All in one solid piece, it cannot warp or fall apart. No chance of splinters. Wears much longer, looks better, and is light to carry. The latter point you should always take into consideration," concludes Mrs. Wisenighbour.

POLAR CONSTABLE GETS HIS RELEASE James Christie, a Favorite With the Students and Veteran of South Africa, Enlists.

Constable James Christie of Toronto University is released from that capacity until the end of the war by the board of governors of the university to enable him to accept the appointment as sergeant-major of the University of Toronto base hospital.

Christie is a South African war veteran and served with considerable distinction in most of the important engagements of the war. Since coming to Canada after the troops were disbanded he has proved highly efficient as the university constable. He was very popular with the students as well and it was under his guidance that they went to Hamilton for two seasons in succession to play the Hamilton Tigers in the final for the Rugby championship.

Christie is the sergeant-major of the University Battalion of the O.C.T.C., but will of necessity have to sever his connection with that unit when he leaves with the hospital for France.

LIBERATED EUROPE OUTCOME OF WAR

Sir Edward Grey Sees End of Era of Sword Rattling.

BLAME QUITE CLEAR

Germany's Consent to Conference Would Have Made Solution Easy.

LONDON, March 22.—(Thru Reuters' Ottawa Agency).—Sir Edward Grey, the foreign secretary, speech delivered to a public meeting this afternoon reviewed the European issues leading up to the present war, and made plain the determination of Great Britain to insist upon the extinction of German militarism as well as upon the right of the smaller nations of Europe to their unimpeded independence.

Speaking of the origin of the war, Sir Edward Grey emphasized the fact that the struggle might have been avoided by European conference, Germany, he added, judging from her knowledge of the Balkan conference, she could have counted upon the good will of Great Britain. But, he said, Germany refused every suggestion of a conference, and on her part for all time the appalling responsibility for the war, Sir Edward Grey affirmed, amid loud cheers, that this was the fourth time within living memory that Prussia had made war upon Europe, "and we are determined," he said, "that it shall be the last."

Strove for Peace. The foreign secretary added that it would have been far easier to settle the dispute between Austria and Serbia, which Germany had made the occasion of this war, than it had been, successfully to get thru the Balkan crisis. Germany knew that Great Britain then sought no diplomatic triumph. We did not give ourselves to any intrigue; we pursued impartially and honorably the end of peace, which we were ready last July to do with some against us. We have given no recent years to Germany every assurance that no aggression upon her would receive any support from us. We have stood aside however aggressive Germany herself might be to our neighbors.

France, Italy and Russia were ready in July to accept a conference. We knew that after the end of the war the Hague tribunal had been made the car himself proposed to the Kaiser that the dispute should be referred to the Hague tribunal. The German government had prepared for war as only a people who planned could prepare.

TRANSFER FAILS HOOFEDS BALK

President Gilmore Still Has a Nine-Club League on His Hands.

CHICAGO, March 22.—President James A. Gilmore of the Federal League is still battling with a nine-club circuit. He returned Tuesday from Indianapolis, where he failed to convince the many owners of the Hoofeds that for the good of the organization the club should be transferred to Newark.

"I made the Indianapolis club a contract offer, but it was refused," said Mr. Gilmore, as he wearily chewed the business end of a toothpick.

"Does that mean the Hoofeds will act as arbitrator of the difference between the league and Kansas City club?"

"Well, it may," was the answer. "I don't know. It's a question of fact."

SMOKE NUISANCE TO BE COMBATED

Cities Will Be Provided With Means for Quick Treatment

SETTLE JURISDICTION

Question of Poolrooms and Licenses for Same Discussed

Cities will hereafter be provided with the means for the expeditious treatment of smoke nuisances, and parties who have by unscrupulous methods evaded the present law during the past few years will be brought to book without difficulty. The Municipal Bill working towards this end, passed a second reading in the Legislature yesterday, with the assent of both sides, and promises to progress rapidly in the committee without opposition.

Hon. W. J. Hanna in answer to a query from Mr. W. Rowell stated that legislation would be brought down to definitely settle the jurisdiction of municipalities in granting licenses to pool rooms. Difficulty has arisen in some parts of the province where city councils have refused licenses and the applicants have secured charter privileges for clubs or societies in spite of municipal opposition.

The government will allow the minister of lands and mines to refer in case of dispute over the rights of lumber companies to use provincial waters, progressed a further stage. It was stated that in some instances water courses have been diverted for private uses, and prompt action has become imperative.

TRIBUTE PAID TO ABSENT PRESIDENT

W. A. McLean Unable to Be Present at Opening of Roads Convention

DELEGATES WELCOMED

Co-Operation of Government Assured and Freedom of City Given

The second Canadian and International Good Roads Convention opened yesterday at Convocation Hall with about 100 delegates in attendance. In the absence of President W. A. McLean, who is ill and unable to attend, the chair was taken by U. H. Dandurand, mayor of Montreal, hon. president. Hon. J. S. Hendrie, hon. president, welcomed the delegates on behalf of the province, while Mayor Church spoke on behalf of the city, and E. J. Michaud, deputy minister of roads, of the Province of Quebec, also made a brief address.

Secretary George McNamee read a letter from President McLean, regretting his inability to be present, and on the suggestion of the chairman, Oliver Hezwood, of the Ontario Motor League, moved a vote of regret at his illness. He paid a high tribute to Mr. McLean's ability and his work for good roads. The motion was seconded by Arthur Hewitt and passed unanimously.

More Difficult Here

Hon. Mr. Macdormand, in making his speech, referred to the work which the Ontario Government had already done under the road problem was more difficult than in the United States and Europe on account of the sparse population and greater distances, but the government's co-operation could be counted on. He stated that Mayor Church extended the freedom of the city to the delegates and emphasized the necessity for good roads extension. Sir Edmund Walker, an extension. J. A. Sanderson, vice-president of the Ontario Good Roads Association, also spoke.

The convention opened at 10.30 this morning. An exhibition of road building appliances and material is being held at the same time. It is hoped that it will be a success.

HOW TO PREVENT ACID STOMACHS

And Food Fermentation

By a Stomach Specialist.

An specialist who has spent many years in the study and treatment of stomach troubles, I have been forced to the conclusion that the most common complaint of stomach trouble, which causes all the pain and difficulty, is excessive acid in the stomach, aggravated by food fermentation. Hyperacidity irritates the delicate lining of the stomach and the food fermentation causes wind which distends the stomach abnormally, causing that full bloated feeling. Thus both acid and fermentation are the cause of the trouble. The first and only step necessary is to neutralize the acid and stop the fermentation by taking in a little warm or cold water immediately after eating, from one to two teaspoonfuls, three or four times a day, which is doubtless the best and only really effective antacid and food corrector known. The acid will be neutralized and the fermentation stopped almost instantly, and your stomach will at once proceed to digest the food in a normal manner. Be sure to ask your druggist for the brand of magnesia, as I have found other forms utterly lacking in its pecuniary valuable properties.

WILL NOT CHANGE PRESENT TIME

Candidates for Municipal Offices Require Property Qualifications

REQUEST REASONABLE

Premier Says Case Well Put, But Government Will Go Slow

Candidates for municipal offices will require the regular property qualifications for half another year. In spite of an appeal from Liberal and Labor members in the government has declined to make no change until the matter has had special study. Although the bill did not come to a vote, and more discussion of it may be heard, Premier Hearst stated that the government members would not be asked to support it this year. The division will likely take place today, for the cause has been warmly espoused by some representatives of the opposition. Sam Carter of Wellington was very pronounced in his endorsement of the bill, which would amend the Municipal Act by embodying the proposal. He would guarantee that not a penny of Ontario's sons now at the front would be entitled to run for a municipal office at home, because they included the necessary property. If women were represented on city councils fixed assessments, the course of the tax-payers' would be disposed of in short order.

Request Reasonable.

Mr. W. Rowell claimed that the request was reasonable and had been put fairly to the government by labor men. He emphasized the point that no such qualifications were demanded of parliamentary candidates. Labor men on public bodies had proved good servants, and no special charges had been laid against them.

In a brief reply the premier acknowledged that the case had been well put, but that the time for considering should proceed slowly before disturbing present statutes.

LESS CHOICE STEERS OFFERED FOR SALE

Heifers Also Were Fewer on Local Cattle Yards During Yesterday

TRADE WAS STEADY

Values of Week Ago Held for Fat Cattle and Feeders Were Firm

Receipts of live stock at the Union Stock Yards on Monday were 28 cars, comprising 1344 cattle, 1113 hogs, 118 sheep and lambs and 114 calves. There were few choice steers and heifers on sale, not nearly as many as on Monday a week ago.

A more active trade, but none too swift, at about the same values as last week, for fat cattle. Choice feeders, 500 to 600 lbs., were good property, as they were by sales reported and quotations given by the market.

Milkers and springers were in demand at steady values, but few good to choice.

Veal calves, being none too plentiful, sold at firm prices, but there were few of choice quality offered.

Sheep and lambs, being scarce, not enough to supply the demand, prices were held at lower values than on Friday last.

Butchers' Cattle

Choice loads of cattle, \$7.25 to \$7.50, and one load at \$7.75; good at \$7.00, \$7.25; heavy at \$6.50 to \$6.75; medium at \$6.25 to \$6.50; choice cows, \$6.75 to \$6.85; good cows, \$6.25 to \$6.50; canners and cutters, \$4.40 to \$4.50; choice bulls at \$6.25 to \$6.50; common bulls at \$5 to \$5.50.

Stocks and Feeders

Choice steers, 800 to 900 lbs., \$6.25 to \$6.50; 1000 lbs., \$6.50 to \$6.75; 1100 lbs., \$6.75 to \$7.00; 1200 lbs., \$7.00 to \$7.25; 1300 lbs., \$7.25 to \$7.50; 1400 lbs., \$7.50 to \$7.75; 1500 lbs., \$7.75 to \$8.00;
