FOUR YEAR OLD GIRL KILLED BY MOTOR CAR DRIVER UNDER ARREST

Della McGee Tried to Run Across Yonge Street When She Was Struck and Died on Way to Hospital—James Scott Gave Himself Up, and Says Avoidance of Accident Was Impossible.

Intent only on beating her cousin in a race little Della McGee, four years, ran to her death in front of a motor car at 845 yesterday afternoon. James Scott, driver of the car, is under arrest on a charge of manslaughter.

The accident happened at the corner of St. Mary's and Yonge street. With her cousin, James Leonard, who lives next door, Della was returning home from St. Basil's School. The two started to race. Della was in the lead, but when they reached Yonge street the boy stopped at the edge of the pavement.

Falling to notice the approach of the machine, the little girl ran out into the street, with the intention of reaching her home at 811 McMurrah street before Leonard reached his. The car knocked her down and one wheel passed over her neck.

She was rushed to the Hospital for Sick Children. When the ambulance arrived there, however, the little girl was dead.

Scott states that he was only 15 paces away when he saw the child. He attempted to swerve, but the distance was too short to prevent an accident. Later he surrendered himself to Detective Twigg.

The police took charge of the car and have retained S. Visick, an expert at 45 St. Vincent street, to make a test of the machine. Dr. Elliot will open an inquest at the morgue at 3.30 this afternoon and Mr. Visick will testify as to the possibilities of swerving in a distance of 15 paces.

FATALLY HURT BY HYDRO POLE

Four-Year-Old George McNally Died of Injuries Sustained While Playing in Storage Yard.

George McNally, four years of age, died in the general hospital yesterday afternoon. The boy, who lived with his parents at 59 Edwin avenue, was playing in the storeroom of the Hydro-Electric Commission on the street on September 26, when one of the concrete poles rolled on him, injuring his back. Coroner Dr. Wigham will open an inquest at the morgue at 3.30 today.

RUN OVER BY WAGON

W. Bartlett Stepped From Behind Car and Was Knocked Down by Horse.

After throwing the switch for a street car, W. Bartlett, 697 Dundas street, stepped from behind the car in front of a horse and wagon, owned by Gunn's Limited, at the corner of Roncesvalles and Howard Park avenue yesterday. Bartlett was knocked down by the horse and run over by the wagon. He was picked up in an unconscious condition and carried into a house nearby. Dr. W. Burr then had him removed to his surgery at 479 Roncesvalles avenue. Bartlett was able to go home later.

FELL FROM CAR

Mrs. Wm. Trotter of Port Credit, fell off the steps of a street car at the corner of Queen street and Roncesvalles avenue, about 9 o'clock last night. She was taken in the police ambulance to the Western Hospital, suffering from scalp wounds and a sprained back. Her condition is not regarded as serious.

AGED VETERAN KILLED BY CAR

G. H. Pidgeon, 94 Years Old, Died Instantly When Struck by Street Car in Hamilton.

(By Staff Correspondent.)
HAMILTON, Wednesday, Oct. 1.—George H. Pidgeon, 94 years of age, a veteran of the Crimean war and well known in the city, was instantly killed about 10.20 last night, when he was struck by an eastbound street car at the corner of York and Locomotive streets.

Pidgeon had been to a down town show and was walking home when he met his death. The motorman of the street car stated that he rang the gong of his car when he saw the old man on the track, and at the sound of the bell, Pidgeon stepped in the middle of the track and was struck and thrown to the side of the tracks before the car could be stopped.

USED HIS TEETH ON POLICEMAN

Because he could not reach the officer with the beer bottles that he was using as weapons, John Keenan sank his teeth in the wrist of Constable C. Matthias (107) last night. The constable had called at 424 Alice street to order the occupants to leave the premises.

About 7.30 a young Jewess complained to the police at No. 2 station that the tenants of the house owned by her father would not pay the rent. She said also that the tenant was keeping a disorderly house.

When Constable Matthias stepped into the house, a short time later, he was met by Keenan. The latter had just armed himself with two beer bottles. Wielding these freely he savagely approached the officer, making dire threats as he did so.

Seeing that the odds were against him Matthias adopted a clever ruse. He retreated before Keenan, who followed down the stairs. At the foot of these the constable suddenly seized Matthias by the wrists and wrenched the bottles out of his hands. In attempting to get free Keenan hit Matthias. Keenan is charged with assault, while Alice Kline, who was only released yesterday morning for being a frequenter of a disorderly house, is charged with being disorderly.

WRECK VICTIMS VERY LOW

CHATHAM, Ont., Oct. 1.—(Canadian Press.)—Miss Ethel Lafferty, the Chatham schoolteacher injured in the Grand Trunk wreck Thursday night, is still alive. The spinal column was broken just below the shoulder and the patient is paralyzed from this point down. Little change has been noted in her condition at the general hospital during the last few days. It is extremely doubtful if she will recover.

SHOT WIFE, THEN DYNAMITED HIMSELF

George Shaw, Massachusetts Farmer, Followed Woman From Whom He Had Been Estranged to Cemetery, Fatally Wounding Her There—Sat on Explosive and Was Blown to Atoms.

WEST PELHAM, Mass., Oct. 1.—(Can. Press.)—George Shaw, a wealthy farmer, shot his wife, Jennie E. Shaw, probably fatally, here today, and then blew himself to pieces with dynamite, which he placed in a stump and set upon.

Mrs. Shaw had come from Hartford, Conn., to place flowers on her son's grave. Shaw, who was about 50 years of age, had not seen his wife since January, 1911, when she left him, until she drove past him in a carriage near his home today. She was accompanied by her daughter, Mrs. H. W. Griffin, of Chicopee, and Mrs. Wm. Barnes, of Springfield. All carried flowers, which were to be placed on the grave in the West Pelham cemetery.

Following his wife later he caught up with her in the doorway of the caretaker of the cemetery and began firing at his wife with a revolver as she sat in her carriage.

Women Thrown Out.
The horses of both teams became frightened and ran away. Mrs. Shaw's horse threw the three women out. Shaw ran up to his wife when she fell and pounded her over the head with his hat, and with the revolver until she was insensible.

Leaving her apparently dead, the man made his way across the fields to his home a mile and a half away. When search was made for him a little later a strong smell of dynamite was noticed near his house and in an open lot at the rear bits of his body were found scattered.

Investigation showed that Shaw visited a steam sawmill behind his house and had taken away several sticks of dynamite.

BORDEN FAILURE SO SAYS LAURIER

New Administration Has Accomplished Nothing, His Charge at Peterboro Meeting.

PETERBORO, Oct. 1.—(Special.)—Sir Wilfrid Laurier was the attraction tonight, and a crowd of five thousand filled the roller rink, half of the audience being ladies. The opera house was also opened, and the Liberal also addressed an enthusiastic gathering there.

A large banquet was presented to Sir Wilfrid Laurier when he arose to speak at the main meeting. The opposition leader did not make a lengthy speech, and most of his time he raised his voice for the apparent purpose of assuring the crowd that he had always stood for the interests of Canada at heart since taking on the "crown of thorns," as he termed it. He stood for the principle of equal rights for all. He would rather be defeated ten times over than go to victory as the Borden Government had done, he said.

Sir Wilfrid reiterated his charge that the Borden Government had accomplished nothing since coming into power, and took up the naval question as a weapon against the government. As justification for his naval program, a Canadian navy, he recalled the statements made by Lord Milner.

Murphy's Lament.
"Slendered out of office," was the cry of Hon. Charles Murphy, the first speaker. He was sure, however, that the signs of the times were all in favor of the Liberals, as the people, he believed, were aware that a mistake had been made in defeating the Laurier Government. He attacked the ministers of the government along the lines, ridiculing the Borden ministry with his usual vigor.

Hon. Sidney Fisher's speech became tiresome to the crowd, and when he spoke of concluding there was applause. He continued and was interrupted to such an extent that he gave way to Sir Wilfrid Laurier.

Hon. Mackenzie King followed his leader with an attack on Conservative papers, which, he said, were withholding information.

Hon. George F. Graham was another speaker.

FRANCE IS GOLD TO BALKAN POWERS

Banking Interests, Taking Cue From Government, Will Refuse to Lend Money to Beligerents — Stancloff, Bulgarian Minister, Says Alliance Means to Force Turkey's Hand.

PARIS, Oct. 1.—(Can. Press.)—The French diplomatic representatives in the Balkan states have received instructions from the French Government to continue to exercise all possible proper influence in order to prevent a war between the Balkan states and Turkey.

It is understood here also that French banking interests, which usually take their cue from the government, will categorically refuse all requests for loans made by states which eventually may become belligerents, and the Balkan nations are to be informed of this attitude.

No collective plan of the great powers to bring about a peaceful solution of the crisis is yet in sight. For the moment they are using pressure individually in the hope that this action may be successful.

That Bulgaria, Serbia, Greece and Montenegro have agreed to mobilize their armies and act together against Turkey is the statement made today by Dr. Stancloff, the Bulgarian minister here, in an interview published in the Temps.

"This is an historic event of great world importance," he continued, saying that Bulgaria's financial situation was good and that funds in the treasury were ample to sustain a war.

World Should Welcome Concert.
Dr. Stancloff added that twelve Bulgarian officers, who were studying in French military schools, had been ordered to resign the colors. The Balkan powers, he said, were confident that the world would welcome the new concert, because it puts into action counsel long ago offered by the powers, which had as their sole motive the amelioration of the intolerable condition of Christians in European Turkey.

The Greek and Serbian ministers confirmed the accord, and declared that their countrymen would no longer stand the aggression of Turkey. They were ready to make any sacrifice to help their Christian brethren under Ottoman domination.

The Turkish ambassador to France, Rifat Pasha, said: "Turkey has no intention of permitting the Balkan states to interfere in its internal affairs, and it cannot be overawed by mobilizations."

He hoped a way would be found to prevent war, but admitted that his optimism was faltering.

BIG CONTEST TOMORROW

Get Your Shears and Be Ready to Clip First Proverb Picture—Will Be Easy to Solve.

Tomorrow the novel and entertaining Pictorial Proverb Contest of The Toronto Daily and Sunday World, with 5000 in rich and attractive prizes, will begin.

Thousands are ready for this interesting and fascinating competition, and it will be a clash of "wits" never to be forgotten.

The first proverb picture will be an interesting subject, and ought to be familiar and well-known to all. In fact, most of all of the entire series of proverb pictures will be quite easy, as the illustrations will be drawn in such a manner as to plainly point out the proverb represented. The lines, figures and subjects shown in the cartoons will have some bearing in suggesting to your mind the proverb it represents.

The only thing necessary will be a little concentration of the mind; a little reading up on the proverbs, contained

DEMAND REJECTED BY TURKEY ARMY MOBILIZATION IS BEGUN WAR NOW APPEARS INEVITABLE

The Balkan Situation

Turkish cabinet decides to begin mobilization of army and to reject Serbia's demands regarding passage of ammunition thru Turkish lines.

Serbia refuses to allow ammunition from Germany to pass thru Serbian territory.

Balkan states are practically certain to demand that Macedonia be granted autonomy, a request Turkey is bound to refuse in the opinion of diplomats.

King Ferdinand has been appointed chief of the united armies of the Balkan states, and Crown Prince Constantine of the Greek forces following mobilization.

Cretans will join Greece against Turkey.

Despatches from capitals of Europe hint at collapse of attempt to act in concert to prevent war, altho Berlin advices are less pessimistic.

Unconfirmed report says Turkey will seize all Greek vessels in Turkish waters.

SITUATION IS STRAINED TO POINT OF BREAKING LONDON FEARING WORST

Rumor That Turkey Will Seize All Greek Vessels in Turkish Waters is Regarded as Most Ominous—European Powers Not in Concert.

LONDON, Oct. 1.—(Can. Press.)—With the exception of Roumania all the Balkan countries are placing their armies on a war footing, but no step has yet been taken indicating an outbreak of hostilities.

A despatch, dated at Constantinople at 11 o'clock tonight, announced that the foreign minister "will without any communication from Bulgaria or Serbia, and no definite move of combined action on the part of the great powers has been made."

Short of actual hostilities the situation could hardly be worse. The report that Turkey has decided to seize all Greek vessels in Turkish waters has an especially warlike appearance, while it is further reported that Greece is about to proclaim the annexation of Crete.

The Turkish ambassador to France, Rifat Pasha, said: "Turkey has no intention of permitting the Balkan states to interfere in its internal affairs, and it cannot be overawed by mobilizations."

He hoped a way would be found to prevent war, but admitted that his optimism was faltering.

Everything is in readiness for Annual Conference of Ontario Sunday School Association at Hamilton.

Secretary Halpenny of the Ontario Sunday School Association has received reports from the Hamilton committee of arrangements showing that everything will be in readiness for the entertainment of the 700 delegates to the principle convention to be held there Oct. 21 to 24.

The Hamilton local committee is divided into five subcommittees as follows: Assignments, Chairman R. S. Wallace; Reception committee, Chairman E. H. Dalling; public buildings, Chairman A. E. Manning; business, Chairman George C. Copley; decoration, Chairman J. H. Horning.

Toronto will be strongly represented among the convention's speakers, and the large number of delegates.

Mayor George H. Lee will tender a civic welcome to the convention in Centenary Methodist Church on Tuesday evening, Oct. 22.

Among the proposed speakers will be Rev. W. A. Brown, Chicago; Mrs. M. J. Baldwin, Philadelphia; Mrs. J. J. Eaton, Toronto; Mrs. J. R. Hamilton, Bradford; Mrs. C. J. Galt, Atherley, Ont.; Mrs. E. W. Serbia's Note to the Porte Meets With Flat Refusal— Serbia Stops Ammunition From Entering Turkey— Faint Hopes Still Entertained of Settlement by European Powers.

CONSTANTINOPLE, Oct. 1.—(Can. Press.)—The cabinet, after a prolonged meeting tonight, decided to order a partial, not general, mobilization of the Turkish army. The exact orders are for the present secret.

The cabinet also rejected the Serbian demand respecting the transport of ammunition thru Turkish lines. This action is in reply to a note sent to the Porte by the Serbian minister, Dr. Nedjadovitch, in which he requested the Porte either to sanction the passage of ammunition, at present detained by the Turkish authorities, or return it to France.

Serbia has now stopped consignments of ammunition from Germany for Turkey, while Bulgaria has suspended freight traffic between Turkey and Bulgaria and commandeered all the cars for military service purposes. Will Not Grant Macedonia Autonomy

Altho no communication has yet been presented to the Porte by any of the Balkan states with reference to Macedonia, it is the opinion of an influential section of the diplomats here that they will formulate a demand for Macedonian autonomy, which Turkey is certain to refuse. War will then be inevitable unless the powers succeed in restraining Bulgaria and Serbia most effectively by a threat of occupation by Austria and Russia on hostilities against Turkey. But it is doubtful if they will be unable to agree on such joint action. Consequently it is regarded as not improbable that Austria, backed by Germany, will act singly. Or it may be that war can be stayed off by assembling a European conference.

Preparations Justified?
On the other hand, there is a section of the diplomats in Constantinople which believes that the Bulgarian and Serbian mobilization and Greece's military preparations are merely a bluff, designed to frighten Turkey into instituting sweeping reforms in Macedonia.

The council of ministers sat through the day from 10 o'clock in the morning. In addition to the ministers, Hadi Pasha, the chief of staff, and Abdulrahman Pasha, the commander of the reserves in European Turkey, were present.

It is reported that the Turkish Government is about to address a circular to the powers in which it repudiates responsibility for the crisis which it says has occurred in consequence of the provocative attitude of the Balkan states.

Crown Prince to Lead Greek Army.
ATHENS, Oct. 1.—(Can. Press.)—Crown Prince Constantine has taken the oath as generalissimo of the Greek army. He at one time held the post of commander-in-chief, but in 1909 the army reform bills passed by the chamber of deputies, abolished his right to hold that office.

Later Prince Constantine has been inspector-general of the army.

KING FERDINAND TO COMMAND BALKAN FORCES.
LONDON, Oct. 1.—(Can. Press.)—A despatch from Sofia says that a convention between Bulgaria, Serbia, Montenegro and Greece has named King Ferdinand as chief of the united armies of the Balkan states.

CRETE WILL JOIN GREECE
CANBA, Crete, Oct. 1.—(Can. Press.)—The Cretan Government has admitted to the foreign consuls its intention to join with Greece in the action against Turkey. On the consuls pointing out the possible consequences of such action, they were informed that the Cretans had determined to share in the fate of the mother country.

JOSEPH SHEARD A WONDERFUL OLD MAN

Born in Toronto 70 Years Ago,
He Fished and Swam in
Creek at Yonge and Shuter
Streets—His Library
Contained Many Rare and Valuable Books.

In the death of Joseph Sheard, Toronto has lost one of her oldest and most honored citizens. On Sunday Sept. 29, 1912, at the home of his youngest daughter, Mrs. H. J. Armstrong, 63 Hepburne, after a brief illness, he passed away.

He was the son of the late Joseph Sheard, once mayor of Toronto, and brother of Dr. Chas. and Henry Sheard and the late Matthew Sheard.

Born in Toronto seventy years ago last August, he watched it grow from infancy to its present colossal dimensions. It was his delight to tell of the days when Yorkville was a bush, and the wooden sidewalks stood on posts; of the days when he fished and bathed in the creek that ran across Yonge street at Shuter; and the time when he watched the first locomotive steam into Toronto.

He received his early education at the Toronto Academy, a combination of elementary and high school, which existed before the public schools were properly established. He passed the entrance examination at the age of ten years. Later he attended night school. During his youth he worked for several years as architect in his father's office. At the age of twenty-five he left Toronto to take up farming near Brampton.

It was while there that he joined Dr. Jas. L. Hughes in his campaign for member of Peel County. Side by side they traveled many weeks, canvassing every town and village in the county, and Mr. Sheard's vivid and strikingly fluent orations awakened in many a gathering a Conservative influence and enthusiasm. "I shall never forget the night," he often said, "when Mr. Hughes and I drove from one place with a buggy-load of flowers behind us."

Farmed thirty-five years, then retired to his late home, 158 Hallam street, Toronto, where he spent the rest of his life. He was a just and a member of the board of the House of Industry. In his library there may be found books of rare and every value. He accumulated after years of patient searching among the bookstores of Toronto. He could quote by the hour from Greek poetry, and every visitor to his home was always invited to read or hear selections from his latest purchase. Ever the student, he was impressed by his stupendous power of memory, his great fluency of exposition and the high aspirations of intellect.

Breadth of Thought.
He was a man of wonderful breadth of thought and magnificent generosity. A member of the House of Industry, he was an ardent lover of nature and believed in the ultimate predominance of good over evil. "I have no religion," he would say, "that when I leave this body I will go to a better life. This life is like an orange; we take from it all the good we can, then throw away the skin."

He was well known in the Masonic Order, having been a prominent member of the Tonic Lodge, Brampton. He was an honorary member of York Pioneers, and an extensive land owner in Toronto.

He leaves four sons and four daughters, of whom two girls and two boys are in Toronto, the others in Peel Co. The funeral took place at the home of his daughter, Mrs. H. J. Armstrong, 63 Hepburne st., Toronto.

The pall-bearers were: R. H. B. Blain, M.P.; J. W. Owens, M.L.A.; A. D. Spence and Alexander W. Wright.

FIRE DESTROYS GALT FACTORY

Lack of Water Pressure Causes
Damage of \$150,000
to Robe Factory.

GALT, Oct. 1.—(Special.)—At 5 a.m. fire broke out in Galt robe factory, North Water street, and within two hours entirely destroyed the buildings and plant, causing a loss of \$150,000, on which is insurance totaling \$89,000; 78 employees are out of work.

The institution was owned and controlled by Newlands & Co., who have an extensive factory devoted to woolen fabric on Almsley st. The company had a large lot of new machinery stored awaiting additions to the robe works building. The firm will likely rebuild.

Mr. Stauffer, manager of the Newlands Company, has been telegraphed to at Vancouver.

The origin of the fire is unknown. It was discovered late and the firemen had no chance to cope with the flames, more especially as the water supply was inadequate. At the pumping station 120 pounds was registered and yet the hose was unable to reach the building. Investigation is in progress to discover the cause of this remarkable condition of service.

For years Galt has been immune from serious fires, and the present disastrous conflagration will probably result in a reorganization of the fire protection system and better handling of the water supply service. Galt has no fire alarm telegraph, no steam engine and only a call brigade. It was the first time in the history of the waterworks that the fire supply had failed. Large extensions are consequently being made and a new management installed recently. The suppression is a block in the main caused the trouble, resulting in the present heavy loss.

CANADA'S GREATEST PIANO SALE CLOSING TONIGHT

Pre-Removal Sale of the R. S. Williams & Sons Company, Ltd., 143 Yonge St., Ends With a Whirl—Seventeen Instruments Left.

The Moving Clearance Sale of the R. S. Williams and Sons Co., which ended tonight, is one of the most remarkable piano sales ever held in Toronto.

It has been a sale of new instruments exclusively. Bargain prices, easy terms, sterling quality and strong guarantees have made it very successful. In fact, it has been such a success that the Williams firm have but seventeen instruments left, and would not have even these were it not for the incoming shipments of new instruments ordered for their new building opening, which has been delayed.

Their new building has been delayed. The public's gain, as they have included these new 1912 and 1913 models in their clearance, with just as big reductions as they made on their regular stock. This gave the public an exceptional opportunity, which they were not slow to take advantage of, and it will be safe to say that when their doors close tomorrow evening at 10 o'clock their stock will be entirely cleaned out.

Anyone who is contemplating purchasing a piano or player-piano should visit their showrooms without delay, either this evening or early tomorrow, and secure one of these remarkable bargains. The seventeen instruments consist of ten pianos and five player-pianos of six different makes, including the famous New Scale Williams and Weber of New York, both world-renowned instruments.

Their remaining few pianos have been an added inducement that has enabled many moderate homes to secure one of these splendid instruments, and their removal has certainly been a godsend to many homes. It will be a glorious ending to the biggest piano event Canada has ever seen.

NAVAL POLICY NOT DISCUSSED

OTTAWA, Oct. 1.—(Special.)—There was another session of the cabinet this afternoon, but the naval question was not discussed. Much routine business was cleared, however, in preparation for the coming session and a number of small contracts were awarded. A site for a drill shed to be erected at Port Arthur was purchased for \$7000; also one at Peterboro for \$30,000.

FRED ARMSTRONG WILL RUN AGAIN

Ward 4 Conservatives Want Him For President—Handsome Gold Watch Given to Harry Saunders.

At a well attended executive meeting of the Ward Four Conservative Association yesterday, Mr. Fred Armstrong, at the request of members of the members, consented to again run for the presidency for the coming year. Members were lavish in their praise of the work done by their president during the past year, and felt that it was under his guiding hand that the association had made such good headway.

Another pleasing event taking place was the presentation of a valuable gold watch to W. H. Saunders, chairman of the ward four picnic committee. This also special will leave Toronto 9.30 a.m. p.m. same date. Secure tickets at city ticket office, northwest corner King and Yonge sts. Phone Main 4200.

POPULARITY MERITED

Vigil O. Strickler Claims Christian Science Satisfies All Demands.

In his lecture in Massey Hall last night Vigil O. Strickler attributed the spread of Christian Science to the fact that it supplied what people sought to-day—a demonstrable religion. Every one would admit, he declared, that it produced a happy and contented mentality. The spread of the propaganda had been due to what he had done, not to what had been claimed for it. "Sooner or later," he declared, "every person will adopt that system of religious teaching which brings the largest measure of hope and hope and consolation, and so long as any remain who are suffering from unhappiness, or sickness, or sin, Christian Science will offer to them a sure means of finding divine help."

MITCHELL WINS DAMAGE SUIT

Sued Gerhard Heintzman Company For Injuries Received and Obtains \$1000 Damages.

The jury awarded James Mitchell \$1000 damages in his suit for \$2000 against Gerhard Heintzman in the civil action yesterday for injuries sustained when struck by defendant's motor wagon on the night of Jan. 15, when plaintiff was attempting to board a Yonge street car at the corner of Yonge and Shuter streets. Mitchell claimed he had taken due precautions on the night in question. He stated that he received no warning of the motor's approach. He also claims that he is permanently injured in one arm, his back and his eyes have suffered considerably by the shock. Defendant, on the other hand, while admitting going eight miles an hour and passing a standing car, claimed Mitchell was at fault and was negligent when crossing the road.

STRIKE TALK BY THE GARMENT WORKERS

Mass Meeting Held in Effort to Unite Its Forces and Endeavor to Effect an Agreement With Local Employers—Will Submit Resolutions to Them.

A mass meeting of the Toronto branch of the United Garment Workers of America was held last night in the Musicians' Hall, University avenue, to consider ways and means of getting all the garment workers of Toronto into the union, and also to discuss the grievances of the operators employed by the contractors for the Scotland Woolen Mills Company of Toronto. It is stated by H. D. Rosenblum, general organizer of the U. G. W. of A., in connection with this matter, that the strike is inevitable if the following demands are not complied with and the other grievances are not settled satisfactorily.

1. That this is to be a strictly union shop.
2. That forty-nine hours shall constitute a week's work, and that all overtime workers shall be paid time and a half.
3. Any grievances as to rate of wages, hours of employment, or any other small grievances, to be settled by committee of the union and committee of the operators.

No Danger of Strike
By this means they claim there will

be no danger of strikes or trouble occurring in the factory. If the company does not recognize the union and these demands are not complied with, a strike will be called this morning, and if necessary, all other branches of the trades, such as cutters, pant makers and the vest makers also will strike. "I wish to state, however, that the union does not want trouble, but we are looking for trouble, but we want better conditions for our people to work under," added Mr. Rosenblum. "Our aim is to work peacefully with any firm that will treat us right, as we depend upon the work to furnish our bread and butter. I also want to make a statement on behalf of the organized garment workers in reference to the strike of the Journeymen Tailors' Union, with merchant tailor stores. This body of men, which amounts to thousands, if necessary, will assist the tailors in their bitter struggle. I desire to do all that I possibly can to win these bitter fights."

Will Not Sign.
In an interview with the general manager and also the contractor of the Scotland Woolen Mills, they stated they are willing to comply with any demands put to them by the United Garment Workers of America, and wish to do, whatever is fair and right with them, but they will not sign agreements or contracts.

RAINY RIVER POWER CASE

Waterways Commission Will Hear Arguments Today at Ottawa

OTTAWA, Oct. 1.—(Special.)—The international joint commission which is in session here considering a number of matters affecting the interest of Canadians and Americans along the border line, met this afternoon, but owing to the absence of witnesses, important in the Rainy River case, adjournment was taken until tomorrow. C. W. Keefer, K.C., of Port Arthur, representing the Ontario Government, asked that no steps be taken by the commission towards reaching a decision until the agricultural interests affected by the alleged overflow of water, can be fully heard.

Leather Will Cost You More

Tanners' Section of Toronto Board of Trade Pass Resolution Affecting Scarcity of Hides.

At a large and representative meeting of the tanners' section of the board of trade, held yesterday, the unprecedented situation as to hide prices was discussed.

In view of the phenomenal increase in the cost of raw material, the unanimous conclusion was reached that leather prices must go higher.

After a lengthy discussion, the following resolution was adopted:

"That in view of the unabated strength, in fact the record price of hides and skins in America, and throughout the world, from which no relief is in sight, and in consideration of the great and world-wide shortage of cattle and hides, the decrease in range cattle alone being in proportion to the population about 34 per cent, this meeting deems it absolutely necessary and vital to the tanning industry that a further advance on all lines of leather of 10 per cent. to 15 per cent. be obtained."

MISSIONARY RALLY

Dozen Speakers From Foreign Lands at Metropolitan Church.

A well-attended Toronto District Missionary Rally was held by the Epworth League at the Metropolitan Church last night. It was addressed by a dozen missionaries from China and Japan, who are home on furlough. They will be tendered a reception at the Metropolitan Church tonight.

THEY'RE OFF! AT HILLCREST

Aid, McBride's Autumn Races Opened Auspiciously — Another Bad Day For the Favorites.

Hillcrest was opened auspiciously yesterday in fine and chilly weather. The track had dried out tolerably well, and fast time was the order. Gilplan got a running start in the fourth, beating the barrier and the favorite, and making a new track record for five furlongs. It was a bad day for first choices, only two of them getting the eye of the judges first. There was a splendid crowd in attendance. The president, Aid, Samuel, McBride was here, there and everywhere looking to the comfort of his guests. The twelve books did a rushing business.

FIRST RACE—Five furlongs:
1. Michael Rice, 110 (Russell), 7 to 1, 2 to 1 and even.
2. James, 108 (Dreyer), 5 to 1, 2 to 1 and even.

THE LESSON FOR CANADA.

At this period of her development Canada occupies an unusually favorable position that may easily be lost unless it is protected by prudent action. The proximity of the United States has in some important ways adversely influenced Canadian development, but on the other hand it has provided object lessons of which Canadians would do well to take advantage. The republic one hundred years ago stood very much as stands the Dominion, and the important question for Canadians is whether they intend to repeat blindly the policies that have produced the problems now embarrassing their neighbors, or whether they will be wise enough and prudent enough to profit by others' experience. It takes a wise man to profit from his own experience and a wiser to draw lessons from an experience other than his own.

Myron T. Herrick, the United States ambassador to France, contributed an article to the September number of Moody's Magazine on "Banks for the Farmer." In it he referred to the unsatisfactory status of the United States, of the agricultural industry. Whereas its population increased 21 per cent. from 1890 to 1910, the amount of land used increased but 4.2 per cent., although the improved area made an apparent increase of 16.3 per cent. But while in 1899 the production per head of population was 58.4 bushels, in 1909 it had fallen to 48.1 bushels, a decrease of over 9 bushels per head, in ten years. That this was due to preventable causes is shown by the fact that the average yield of wheat in the United States is about 15 bushels, as compared with 28 in Germany, 29 in France, 32 in England, and 33 in the Netherlands.

Even more remarkable are the statistics regarding the production of potatoes, which reached in France 190 bushels per acre, 226 in Germany, 135 in Russia, and 289 in Belgium. In the United States the production in 1911 was but 89 bushels to the acre, and this year these valuable tubers had to be imported into the United States and also into Canada. Notwithstanding all the boasting about the advance in agricultural training made on this western continent, the prevailing system of husbandry must be at fault when these large differences exist. Mr. Herrick thinks it to be in part due to the difficulty experienced by farmers on the North American Continent in obtaining funds on favorable terms. In both Germany and France co-operative credit banking societies have been established lending money on reasonable terms both of interest and repayment. Similar institutions are springing up in other European countries, and one of their best results is the encouragement of the small landholder. In the United States 37 per cent. of all the farms are cultivated by tenants, an increase of 16 per cent. since 1900. Canada ought not to encourage a tenant system which has produced more trouble than benefit wherever it has become the established order.

THE NEXT PRESIDENT.

Theodore Roosevelt will be the next president of the United States. Mr. Wilson may get a larger popular vote than any other candidate, but Mr. Taft is not far ahead in saying that he will not receive the electoral vote of a single northern state. Mr. Bryan three years ago failed to carry any northern state except Nebraska, Colorado and Nevada. Were Mr. Wilson to carry the same states as Mr. Bryan and no other he would sustain a worse defeat, because the reapportionment based upon the census of 1910 has reduced the proportional strength of the south in the electoral college.

West of the Mississippi the entire country is for Roosevelt. Mr. Taft concedes this; no experienced observer with any reputation for bias has gained it. The New York American, who supporting Wilson, does not claim for him a single western state, but intimates that Taft will carry Utah and perhaps Wyoming. The Nebraska Democrats are rent by dissensions.

In addition to the far west, Roosevelt has New York, Ohio, Illinois and more than a fighting chance in several states of the solid south. Taft will carry Pennsylvania, Vermont and possibly the other eastern states; at any rate, they will not go to Wilson.

The point constantly overlooked by Canadians is the fact that the president is elected, not by the people of the United States, but by the various states thru presidential electors. These

electors will be voted for by the people in November, but the presidential election by the electoral college will occur a month later. Unless Mr. Wilson has a clear majority in the electoral college over Taft and Roosevelt combined, Mr. Roosevelt will be elected. The Taft electors will not vote for a low tariff Democrat; they will go to Roosevelt.

The indications are, however, that Roosevelt will have more electors than Taft and Wilson together. The great movement for freedom and human rights, exemplified by the universal triumph of the Progressive movement everywhere between the Allegheny Mountains and the Pacific Ocean will, in our opinion, so overflow the country as to carry Mr. Roosevelt to the White House upon a tide of popular enthusiasm unequalled since the "Tippecanoe and Tyler Too" campaign of 1840.

HOW ONTARIO CAN BRING ABOUT BETTER RAILWAY TREATMENT.

Get the province busy on a system of provincial-owned railways.
Run a provincial line from Toronto to Hamilton, to the Falls, to London, to the Detroit River.
Another line east.
Bring the Timiskaming line from North Bay to Toronto.
Get the Intercolonial into Toronto.
Connect the city lines of Toronto, Hamilton, Guelph, etc., with the provincial lines.
Then see whether the Canadian Pacific and Grand Trunk magnates in Montreal will ignore the reasonable demands of Toronto and other places in Ontario for adequate services.

A NEW ISSUE.

Some days ago The Regina Leader complained quite bitterly of the proposed reciprocity agreement between Canada and the British West Indies. The agreement, by the way, has been ratified by the West Indian Colonies, with the approval of the colonial secretary; nothing now is needed but the approval of the Dominion Parliament. The complaint of The Leader is to the effect that the Canadian preference is to be given, not by reducing existing duties in favor of the West Indies, but by increasing the duties by 20 per cent. on imports from other countries.

Now, as a matter of fact, the only articles of import at all affected in the way charged by The Leader are cocoa beans, lime juice, and limes.

Why then does The Leader read its garments and refuse to be comforted? Will a duty upon limes increase the cost of living in Saskatchewan. To many of our readers the lime is merely a species of lemon. Does it make a more subtle appeal to The Leader?

We learn upon inquiry that the lime is extensively used in preparing a popular summer drink known to the trade as "gin rickety"; it is not a beverage likely to be served at the King's Hotel. But it may none the less be well known in Regina. Perhaps The Leader thinks that the new agreement insidiously increases the high cost of living by making more costly the insidious "rickety."

Has The Leader at last found a slogan for the Liberal party casting about for a national issue? Anything would serve the purpose better than reciprocity. But has Mr. N. W. Rowell been consulted?

SOUTH AMERICAN TRADE.

Commenting editorially on the attitude of cheerful expectancy with which Canada are anticipating the completion of the Panama Canal, The Philadelphia Record remarks that it will not be matter of surprise if, for many years after the opening, the bulk of the trading is carried on in British vessels. To a great extent, it adds, the Americans have ceased to be a maritime people.

That this forecast is likely to prove correct is shown by the dependence of United States shippers and importers on British ships. From the annual report on commerce and navigation for 1911, it appears that out of close on \$27,000,000 of exports from the United States to Brazil, nearly \$20,000,000 were carried under the British flag, while it also floated over \$93,191,117 of imports as against \$620 arriving in United States vessels. Much the same are the Argentine figures.

TOE THE LINE.

The Kingston Standard wants everybody to know that it is not against the proposed melon-cutting by the Canadian Pacific Railway Company, but again glances the question by saying that it sees no objection to the company offering new capital to the public at 200 or even 175.

Why does The Standard lug in the phrase "to the public"? It knows perfectly well that the new stock will not be offered to the public by the company at any price. The stock will be allotted to the stockholders at 175 or 200 and by them sold to the public, if any is sold, at 275 or 300.

In short, if the public ever get the new issue of stock, the public will pay at least \$60,000,000 more than the company will get. This \$60,000,000 will go to the stockholders as a rake-off or melon. The company can raise the \$100,000,000 it needs by issuing 4 per cent. debentures, or by issuing \$40,000,000 of 10 per cent. common stock. It prefers, however, to issue \$60,000,000 of 10 per cent. common stock. In order to provide the melon and in this way it will fasten a perpetual tax of \$2,000,000 per year upon the traffic of the railway.

Will The Standard toe the line and tell us if it favors the company adopting the new capital to its stockholders at 175 or 200?

YOUNG LIBERAL: I wonder why he prefers windblows to sound fruit?

MONTREAL WILL HAVE TABLE SYSTEM

C. N. R. Will Connect Its New Model Townsite Behind the Mountain With the Station Near the Harbor, a Distance of Four and a Half Miles Away.

Altho Toronto has been agitating for a tube system for several years, Montreal will beat its record by securing that mode of transit first. This will be brought about by the Mount Royal model city project of the Canadian Northern Railway Company at Montreal. The tunnel connecting the City of Montreal with the new model townsite is to be run a distance of four and a half miles thru the centre of Montreal to connect with the new Canadian Northern station to be erected near the Montreal Harbor. Entrances to this tunnel, thru which subway trains will be run on the third rail system, will be provided by means of shafts sunk every few blocks. At the head of these shafts will be subway entrances built along the same lines as those in New York and other cities where tube systems are in operation.

WANTS TO BE A GOAT

Kingston Standard: "It is unfortunate that The Toronto World had not waited to read our article on the C. P. R. stock issue before classing us as against the so-called 'melon,' as it did in its yesterday's issue. However, The World has now an opportunity to know of its error, into which it was led, we presume, by our earlier article depicting speculation in their own stock by C. P. R. directors, who, having had advance information of what was contemplated, were in a position to reap the advantage of it. We do not know as a fact that such speculation was entered into, but we have reason to believe that it was, and accordingly we expressed ourselves against this sort of speculation, not only in our first article, but in our longer one on Thursday, in which, nevertheless, we ventured the opinion that, all the facts considered, the proposed issue would be fully justified if offered to the public at 200 or even at 175.

C. N. R. Montreal Tunnel

T. S. Darling, head of the Canadian Northern Railway Company Land Department at Montreal, states that the tunnel under the Montreal mountain is now over seven hundred feet in length and that the progress at present being made with it is most rapid. The C. N. R. have 425 men now at work on the tunnel and this staff will probably be doubled when men will be available with the return of the harvest hands from the west. At the present time the N. E. are unable to secure all the men they require.

MANY APPEALS FROM WARD THREE

Busy Session For Court of Revision as Result of Increased Assessments—Ald. McMurrich May Run For Mayor—Report on Hydro-Electric Finances.

Yesterday was the last day for receiving the appeals in connection with the assessment on ward three, and as a result a large number of applications were received. The department was not in a position to give the exact number, but it was stated that they were numerous enough to insure a busy session for the court of revision. Thus far, however, the court has made comparatively few changes and it is expected that the reduction for the assessment of the whole seven wards will amount to less than \$1,000,000. Last year the reductions made aggregated \$1,444,628, but with the increase in the number of assessments to \$1,199,190. Officials in the assessment department, however, claim that the reductions this year have been on the whole both less in number and smaller.

McMurrich May Run

Ald. McMurrich has been mentioned as a prospective mayoralty candidate next January, and yesterday the aide-de-camp admitted that he was considering the matter. He stated, however, that he would be guided by the number and the personality of the other aspirants for the mayor's chair. Ald. McMurrich was a candidate for mayor in 1897, when he was defeated by R. J. Fleming.

A BOLD STATEMENT FROM NEW YORK

The New York Journal of Commerce has a very interesting comment on the C. P. R. application to issue new stock. The Canadian Pacific's influence was shown in the support of Premier Borden in last year's election, and unless the Borden Government sanctions the application, the Canadian support of the present government will be withdrawn. The government has merely the veto power; it can simply approve or reject the proposition made by the Canadian Pacific after such proposition has been approved by the stockholders.

WILL INSPIRE MIXED FARMING THROUGHOUT WEST

C. P. R. Will Dispatch "Better Farming" Special, Fully Equipped, to Western Provinces to Encourage Much-Needed Mixed Farming, Because of Its Importance.

Arrangements are now being made by the Canadian Pacific Railway for a "better farming" special train, fully equipped, to cover the western section of Canada, for the purpose of educating the people to cultivate mixed farming. The country is suffering thru a scarcity of mixed farming, not only in the west, but throughout the eastern provinces, the C.P.R. declare, and the time is now arriving when something will have to be done to encourage the industry, and that wheat farmers realize the importance of mixed farming and the fact that there is a huge market for home produce of this kind. The "mixed farm special" is scheduled to commence its journey on Oct. 28 and will continue thru the month of November.

Live Stock Included

The Hon. Duncan Marshall, minister of agriculture for Alberta, is making the arrangements and has received every possible assistance from the railway company. The equipment of the C.P.R. train will consist of two carloads of pure bred stock, two passenger coaches fitted for lecture rooms, one baggage car for displays of grains, grasses, weeds and dairy produce; a carload of poultry, one sleeper, one diner and one box car. Schools will be held for three hours at all stopping places, beginning at 9 o'clock in the morning and 2 o'clock in the afternoon. Arrangements will be made in advance at all points, and no time will be wasted.

Some Officials

The following officials will accompany the train: Prof. W. J. Elliott of the department of natural resources, C. E. Lewis, provincial superintendent of fairs and institutes; H. A. Craig, superintendent of demonstration farms; and other provincial officials.

Commence at Calgary

The train will be made up in Calgary and there will be on board special lecturers, attention being particularly directed to the breeding of live stock and the raising of poultry, dairying, hog-raising and vegetable-growing. One of the interesting collections on the special will be the noxious weeds in different stages of growth. "I intend to have every section foreman and every section man on our road," said one of the prominent railway officials, "see that display of noxious weeds, in order that our right of way may be kept clean, and I have no doubt that the farmers will need an introduction to these weeds quite as much as the railwaymen. This feature alone should attract the farmers to the train."

IRELAND

President Falconer Says Their Task is to Hold Opportunity Down and Take From It All They Can Obtain—Organ Recitals During the Coming Winter.

"Opportunity will just give you what you force it to give and no more, and if you are to attain any success in life, you must take hold of every opportunity by the forelock. On the other hand, do not let it measure out 'oo much athletic exercise, but just get sufficient of each and you will discover that you have made a good bargain. Your task is to hold Opportunity down and get from him all you can obtain."

This spoke Dr. Falconer, president of the University of Toronto, at his opening address to the students at Convocation Hall yesterday. After welcoming them to the seat of learning for another academic year, and presenting his felicitations for their subsequent success, he dwelt upon the great turning of the academic tide back to the older countries, specifically mentioning Great Britain. He also spoke of the provisions whereby an interchange of university students had been effected, which will give them opportunities of studying that which would be of the greatest advantage to them. In the same manner, British students could attend Canadian universities.

Developing Intellectually
When answering his own question as to why there was such a great turning backward during the summer's recess, he said, "It is because we belong to the old land, and we cannot live our intellectual life in this land without drawing upon the immense resources, intellectual, moral and social which exist there. The ordinary Canadian boy can swim, and excel in athletics in general, but in order to de-

Conditions of Contest

The Toronto World Proverb Contest is a test of skill and diligence, designed to encourage thought and research on the part of the young and provide a pleasant mental diversion for everyone.

Every day, for a period of seventy-five (75) days, there will appear in The Toronto Daily and Sunday World, an illustration, cartoon or other presentation of a commonly used and well-known English proverb, and similar to the sample proverb picture and answer published on this page.

The Toronto Daily World will award PRIZES AGGREGATING OVER \$5000 IN VALUE to readers of The Daily and Sunday World who send in the correct or nearest correct answers to the entire series of illustrations. The first proverb picture will appear in The World, Thursday, October 2nd.

The correct answers, to serve as a basis of awards, are being selected according to their common use by the Contest Manager, and three representatives of The Daily and Sunday World, and will shortly be placed under seal in a Safety Deposit Vault.

1. The Toronto World's Proverb Contest is open to all readers of The Daily and Sunday World in Canada, except on the part of The Daily and Sunday World and members of their families. Anyone not excepted as above mentioned may enter the contest by simply becoming a regular reader of The Toronto Daily and Sunday World.
2. Contestants must write the Proverbs represented by the illustration upon the coupon provided therefor and which will appear on Page 2 of the Daily and Sunday World every day during the Contest. Answers may be written with pen, pencil, or typewriter, and arranged in any manner to suit the contestant.
3. Each picture represents only one proverb. Where contestants are not certain as to the correct proverb represented, they will be permitted to send five (5) answers (not more) to each proverb illustration. If the correct answer is given, incorrect answers will not count against a contestant.
4. Only one answer may be written upon a single coupon. Extra coupons must be used for additional answers, and all coupons of the same number must be kept together in making up the set.
5. Different members of a family may compete in the contest, but only one prize will be awarded to any one family or household, and only one set of answers will be accepted from any individual contestant.
6. Answers must not be sent in until the last proverb illustration has been printed. After the last picture has been printed, contestants must arrange their coupons in numerical order, fasten them securely together and deliver or mail them in a neat, flat package (not folded or rolled) plainly addressed to the Contest Manager, The Toronto World, Toronto, Canada, within the time specified in Rule 7.
7. The time of receiving answers will have no effect upon the awarding of the prizes with this exception: all answers must be delivered at the Office of The Toronto World or bear postmark of mailing of not later than midnight, October 28, 1912, twelve days after the close of the contest.

Rules of the Contest

List of correct answers will remain under seal until called for by those whose names will be announced in due course, and who will have the right of the examination of the answers and awarding of the prizes. Correct answers will also be included in The Toronto World's Book of Proverbs, which will be published as a guide and reference for use in the contest.

Contests for the prizes, contestants need only supply the proverbs by the illustrations that will appear daily, and send in their answers at the close of the contest, according to the rules. The person who sends the correct or nearest correct list of answers to the entire series of five (5) illustrations will be awarded the first prize. The person who sends the second nearest correct list of answers will receive the second prize, etc. Entry may be made any time before the contest is entered.

Rules follow:—

1. Answers will be awarded to Toronto and Sunday World readers who send in the correct or nearest correct answers to the entire series of seven (7) Proverb Illustrations.

2. In the event of a tie between two persons, the contestant sending the nearest correct list of answers will be the winner. Where two (2) or more submit the same number of answers upon the same illustration, the value of the prize will be divided equally among those tying.

3. In sending in the answers at the close of the contest, it is important that contestants seal all packages containing answers, and if mailed, contestants should exercise great care to see that postage is fully prepaid at the rate, one cent per ounce, or fraction thereof, in Toronto, and two (2) cents per ounce, or fraction thereof, outside of Toronto, as The Toronto World is not bound to pay postage due on any set of answers.

4. All communications or letters of inquiry concerning the Proverb Contest must be addressed to the Contest Manager, Toronto World, Toronto, Canada.

The Daily Hint From Paris

A FRENCH DRESS

The simplicity of the cut of this dress gives a particularly charming effect.

White challis is the material and pale blue satin foulard is used with it. The dress has clusters of tucks, stiches with coarse blue silk and covered buttons for trimming. The sash is really a drapery and is fastened by hooks to the dress. Hand-embroidered lace collar and cuffs finish the dress effectively.

Miss O'Sullivan's Recital

Seldom is it the privilege of a Toronto audience to enjoy a violin recital of such perfection as that rendered by Julia O'Sullivan, the brilliant young Canadian violinist, at the Toronto Conservatory of Music last night. It was her farewell appearance before departing for Russia, for which country she leaves today to study at St. Petersburg, under Leopold Auer, who numbers among his pupils Kathleen Parlow, Eiman, and several others of the world's great artists.

The opening number, Allegretto Tranquillo, Allegro Animato—Trio—sonata in G major, piano and violin, a duet by Julia O'Sullivan and Miss Mary Morley, was rendered with splendid rhythm and evoked much applause. This was followed by the rendering by the Canadian violinist of Kreisler's Caprice Viennois, "Il pleure dans son coeur"—Debussy—and Ait-Wetner's Tanzeisen, No. 1, "Liebesfreud." Perhaps never before has the conservatory witnessed such enthusiasm as that brought out in response to the rendering by Miss O'Sullivan of these numbers. Time and again she was recalled to receive numerous bouquets—more floral tributes, indeed, than the artist could carry in her arms and which were laid on the top of the piano almost completely covered it.

A fine musical offering was a serenade for violin, viola, piano and organ—Saint-Saens—rendered by Julia O'Sullivan, Frank Converse Smith (violinist), G. D. Atkinson (organist), and Mr. F. E. Blanchford (piano). Miss O'Sullivan was at her best, however, at the conclusion of her performance, when she rendered the difficult prelude, Allegro Moderato, Adagio and Allegro energico in G minor. It was here she showed a finesse of technique and played with such an air of confidence as to arouse the admiration of her listeners.

Miss O'Sullivan was accompanied on the piano by F. E. Blanchford, under whose tutorage she has been while at the conservatory, and he was much congratulated when at the conclusion of the recital Miss O'Sullivan held a farewell reception in the parlors. Every seat in the conservatory was filled last night, and among the audience was numbered many of the leading musicians of the city.

HAS NO USE FOR THEATRES AND WAS NEVER IN ONE

Miss McKeegan, Secretary of Travelers' Aid Association, Says Her Mother Taught Her to Avoid Theatres and Cards.

"I have no use for theatres, pure or impure, I never was in one in my life. When I was very young my mother gave me the ideas of the evils of cards and theatres, and she made me feel that the evil one was never very far from those who had to do with either." With this utterance Mrs. McKeegan, secretary of the Travelers' Aid Association, who, under the auspices of the Y. W. C. A., has been looking after the welfare of young women at the Union Station, made clear her position with regard to certain features of the present day social conditions when she addressed the Vigilance Association at its meeting in College street last night.

Mrs. McKeegan spoke from a deep, self-earned ignorance of the social evil and the conditions surrounding it, and as she spoke, one gleaned the idea that this middle aged Scotch woman, with the smiling, kindly eyes, was helping mainly thru her terribly earnest desire to do good.

She told of a number of young women with whom she had been acquainted in her work at the station, and whom she had saved from what may have been grave menaces to their moral welfare.

One girl of whom she spoke was an attractive country lass of 17 years, who had never been in a railway train before, and who passed thru the city on her way to Buffalo to seek employment. Mrs. McKeegan had driven to warn her of the dangers to the country girl that abound beneath the unfamiliar conditions of the city.

She declared that many girls whose upbringing had been of the best, moral and christian, had proven the easiest prey to the snares and temptations of the evilly disposed. She said that she believed that this very class of girls proved the easiest victims of those who sought to accomplish their ruin.

She spoke of the life of the fallen as short and terrible. She said that in the old land the life of the actress was an unhappy one, admitting naively that the actresses over here might be different.

"Your actresses over here may be different, but they travel all over," she remarked, with a look of wistful doubt.

She told of taking two young English girls who had served as waitresses in a Muskoka hotel to a home. They had been met at the station by two young men who had also worked at the hotel, but of whom they admitted they knew very little.

"I don't say that I have seen anything outrageous," she closed, "but I have seen girls, who, if conditions are as they say they are, were in very grave danger."

The Nursery

Doing Things for Children.

The reasonable requests of children are to be heeded and in so far as possible, satisfied. For children have a right to ask to be helped, to be taught, to be entertained. Answer your child's questions willingly, and when you grant a request, do so graciously. Children are quick to sense the manner of your answer. A grudging or condescending manner destroys the flavor that should mark a granted request, and quite spoils the effect. A child may get what he is after, but he is quite aware of the manner with which it is given, and being a child, he is quickly influenced by example. Soon his manner and actions will show that he has learned an unfortunate lesson only too well.

But do something gladly, promptly and with every evidence of pleasure in the doing, and the child learns a valuable lesson in helpfulness and courtesy.

When you do things for children, try to do them not only intelligently, but with an eye to training the child to do things for himself. It is easier, often, to do a thing than it is to show another how to do it; but such a method does not help the child.

It is no kindness to allow a child to continue indefinitely in a state of dependence. Children are always interested in the why and wherefore of things, and they love to help. Give them every chance you can. It will help you eventually, and it makes for their development.

Seasonable Recipes

Canned Tomato Soup

Two pecks of tomatoes, one dozen medium-sized onions, two large heads celery. Cook tomatoes and onions together, put thru colander and then sieve. Cook celery in plenty of water until soft. Add celery water to tomatoes. Melt one cup of butter and blend one cup of flour; add one-half cup of sugar and one-half cup salt, enough to season. Sprinkle to suit the taste. Add to tomatoes and let boil until thoroughly cooked. After canning, when cold, it will thicken.

Cabbage Dish

A delicious vegetable dish is a combination of celery and cabbage. Take a small cabbage, quarter it and cut up with a head of celery; cook in a little salted water till tender and the water milk thickened with a little flour and seasoned with pepper and salt. Let it cook till the milk is thickened, and then serve sprinkled with chopped parsley. The combination of the two is in effect similar to a sweet mild cauliflower.

Baking Soda

It's invaluable. One can't do without it. Best of all, it costs little. It is necessary to the kitchen. It is indispensable in the dressing room.

Some put a wee bit in pie crust, which makes for lightness.

A pinch is added to tomato soup just before putting in the milk.

The bite of the bacteria-laden mosquito is rendered harmless by moistening with water and covering with baking soda.

The soreness is often removed from a tender tooth by applying this baking soda at frequent intervals.

Indeed, it's a very good remedy for many things, as it corrects the acidity present in the average human system.

"Something wrong with this item." "How, now?" "Says the bridegroom took his wife beneath the floral bell, and 2000 volts were immediately shot thru his quivering frame."—Washington Herald.

PEACHES GOING OUT FOR SEASON

Cool Weather Marks the Finish of the Season and Grapes Are Now Coming In.

Buying was very light at the Toronto fruit market yesterday, and as one dealer put it, the retailers were "walking around with their hands in their pockets, and didn't care whether they bought anything or not." This feature was owing, probably, to the sudden stiffening of peach, pear and plum prices, thru the sudden dropping off of the incoming supply. This dropping off of the peach supply marks the commencement of the going out of this fruit. All the heavy crop is harvested, and dealers state that few more fancy peaches will arrive.

A few Leno peaches were selling at around 25c a basket, and better qualities ranged all the way up to 90 cents, the price for fancy fruit. Plums, nearly done, sold from 50 to 75 cents. Pears, also scarce, sold to 65 cents a basket. Apples from \$2 to \$3 per barrel, with a few barrels of large cooking apples at \$2 to \$2.50. Small baskets of blue and green grapes brought from 17 to 20 cents, red from 20 to 25 cents. It is a little early for heavy buying of grapes, but the supply continues fairly heavy, and the demand is fairly good.

Bispham Concert Tomorrow

A magnificent program has been arranged for tomorrow night's concert in Massey Hall by Bispham, the great harpist. Two of the popular numbers will be "The Song of the Shirt" and Damosch's "Daddy Dever." The management advertises today that there will be 600 rush seats at 50c placed on sale at the opening of the doors at 7:30. They claim also to offer 500 good reserved seats today at 50c each.

Whether as the great artist, or the genial raconteur, David Bispham is equally entertaining, possessing a fund of information on a multitude of topics. "What is the origin of your name, a name so unusual that it excites the interest of everyone?" he was once asked.

"My name, yes, my poor name," he answered, with a smile—"the pronunciation of which most people wrestle with so unsuccessfully, from Bispham to Bis-pon; and its correct pronunciation, Bis-pan, is so easy. In the English termination "ham," the "h" is never sounded. It is of remote Northumberland origin, its earliest form being Biscop.

MISS WYLIE COMING

"Big Reception and Things of That Kind" in Her Honor.

"We have not as yet received any official communication from Miss Wylie," stated Miss Laura E. McCully to The World yesterday, regarding the Toronto visit of the noted English suffragette. Regarding the general belief that Mrs. Denison has gone to Belleville to meet her, Miss McCully said that she believed Mrs. Denison was detained in Belleville owing merely to breakdown in her automobile. "Oh yes, there will be that kind of a big reception and things of that kind," was Miss McCully's comment on her visit.

Asked whether the Toronto Suffrage Association approved of the militant methods adopted by Miss Wylie and her compatriots in Britain, she stated that the only thing that could be said was that they would not approve of such in Canada. "Oh, no, we do not place any censorship on the methods of the British women," said Miss McCully, "we merely believe that we can gain our purpose here in Canada without resorting to any such means."

TORONTO LOSES AGAIN

Ontario Railway Board Gives Judgment in Favor of Railway Company

Judgment was handed down by the Ontario Railway and Municipal Board yesterday as follows: "The board are of the opinion that it has no power or jurisdiction under the Ontario Railway and Municipal Board Amendment Act, to declare that the practice adopted by the Toronto Railway Company in the care of articles left on the cars is just, unreasonable and improper, and to fix and prescribe some other method of caring for them and restoring them to the owners."

This application was dismissed without costs, but the city was ordered to pay \$20 for stamps on the formal order. The city applied for an order to withhold the company to store lost articles at some place other than the Lansdowne car barns.

MRS. M. LEMON DEAD

Widow of Well-Known Cattle Dealer and Mother of Assistant Postmaster.

The death occurred yesterday of Mrs. Maria Lemon, the widow of the late Edward Lemon, who, for many years, was a large cattle dealer of Toronto. She was in her eightieth year and had lived in the west end of Toronto for fifty years, formerly residing at 129 Dunn avenue. Deceased was a member of the Dunn avenue Methodist Church, and was highly respected and esteemed by all who knew her. Mrs. Lemon had only been ill a few days. She leaves one son, W. E. Lemon, assistant postmaster of Toronto, and seven grandchildren. The funeral will take place from the residence of her son, W. E. Lemon on Thursday at 2 p.m. to Mount Pleasant Cemetery.

LADIES REGRET ST. CLAIR CASE

Such a State of Affairs Would Not Exist if Women Had Votes, They Say.

"That this society thru its executive wishes to place itself on record as opposing a state of affairs which makes it possible for a man to be arrested and convicted for merely publishing what can be done openly and publicly on a stage of this city, without interference by the police. We consider such a state of affairs would not exist if women had votes."

The above resolution was unanimously approved by the members of the Toronto Suffrage Association at their first executive meeting of the season yesterday at Dr. Margaret Gordon's residence on Spadina avenue. Comment on the conviction of the Rev. R. B. St. Clair was of the most severe kind, nearly all the ladies personally expressing their opinions on the subject.

Among other matters of business arising, was a letter which had been written to the Rev. A. L. Gaggie some ten days ago. Rev. Mr. Gaggie, it seems, had expressed himself as opposed to woman's suffrage, and the executive communicated with him, requesting him to meet James L. Hughes in debate on a public platform, this afternoon.

MANDER DON HANTRESS (K SEPT. 3)

INDIANAPOLIS, Ind., Oct. 1. (Can. Press).—Lines upon which a jury is to be chosen for the trial of forty-five defendants, accused of complicity in a widespread dynamite conspiracy against employers of non-union labor, were indicated in the examination of talesmen.

On motion of the government the trial was begun before Federal Judge A. B. Anderson, and the original number of men indicted, fifty-four, headed by Frank M. Ryan, president of the International Association of Bridge and Structural Ironworkers, was reduced to forty-six. The government withdrew the charges against three men. Another defendant was absent because of a broken leg. Orin E. McManigal pleaded guilty and another defendant was reported "not found."

On motion of the government the cases against J. W. Ryan, Peoria, Ill.; Andrew J. Kavanaugh, Springfield, Ill.; and Patrick H. Ryan, Chicago, Ironworkers, were dismissed. The government announced it had no evidence against them to warrant their trial.

John J. and James E. McNamara, serving terms in a prison in California, also were reported "not found." Talesmen were examined by Senator John W. Kern and William N. Harding for the defence and by District Attorney C. W. Miller for the government.

Believed Man Guilty. V. M. Hatfield, a farmer and county school teacher, was excused because he said he had an opinion that the defendants were guilty.

As a former banker, John Burgess of Newcastle, Ind., was asked whether William J. Burns, a detective who arrested McManigal and the McNamaras, was at present employed by the American Bankers' Association. Burgess said he did not know.

One man was excused because he had sons who were members of labor unions. James H. Hurst, a farmer, said "the government would not have to introduce any evidence to convince me these men are guilty. I am convinced already."

Ten more talesmen were excused after expressing similar opinions. Attorney Harding explained to the talesmen that the government's charges were not that the men caused explosions, but only that they illegally transported explosives.

Improved Service Between Montreal and Toronto. Via Grand Trunk Railway Train No. 7, due to arrive Toronto at 9.25 p.m. from Whitby, Oshawa, Bowmanville, Port Hope, Cobourg, Trenton, Belleville, Napanee and points east to Montreal, now arrives Toronto 9.10 p.m. This earlier arrival will be very much appreciated by the traveling public. This train carries up-to-date coaches and parlor-library-buffet car, serving meals (a la carte).

Much of the questioning was devoted to whether the talesmen ever had knowledge of the conspiracy.

Resolution of the board of directors of the company passed at the special meeting March 18. In view of this, how can it be said that the defendant company stands neutral. It is not a case for interpleader. Motion dismissed.

THE \$5.00 BIBLE FREE The Great Educational Distribution by The TORONTO WORLD This is purely an educational campaign. To appreciate this great book one need not be a church member or a religious man or woman. It should be available for EVERYONE, and often referred to and read here and there as the most interesting of all books—the book which has governed the development of the world's civilization. No matter how many Bibles you own, you need this one, as its pictures verify the Bible narrative—giving it a present, living interest.

OMEGA When traveling, your watch is second only in importance to your ticket. So many instances arise when watches are lost or broken, that it is well to have one that is sure to be found when you carry an Omega watch.
