TWENTY-SEVENTH YEAR

**SELF-DEFENCE  
ANOTHER PLEA**

Witness is Found Who Swears  
That Two Years Ago White  
Said He Would Kill  
Thaw.

**JEROME OBJECTS TO EVIDENCE**

But Lawyer Delmas Says That His  
Client Will Take Advantage  
of Every Possible Extenuation  
for the Crime.

New York, Feb. 6.—The defence of Harry K. Thaw, under the direction of Attorney Delmas M. Delmas of California, began to assume definite shape to-day, and when adjournment was reached the testimony had been placed before the jury to the effect that Stanford White was heard to make a threat to kill the defendant, and coupled with the display of a revolver; that Thaw's actions following the killing of White on the roof of Madison-square Garden were considered by several eye-witnesses to be "fraternal"; that an uncle of the defendant was insane; that Evelyn Nesbit Thaw passed a note to her husband during the dinner at the Cafe Martin the evening of the tragedy; that District Attorney Jerome has this note and refuses to introduce it in evidence. It has been reported from time to time that in this note Mrs. Thaw, referring to White, wrote to her husband: "That is a blackguard" here.

**Every Legal Means.**

District Attorney Jerome objected to the introduction of this evidence. He insisted that the defence was not understood by him as one of self-defence. Mr. Delmas, who to-day took active charge of the defence, replied that the defence intended to take advantage of every legal defence allowed in the State of New York, be it insanity, self-defence, or any other legitimate justification, for taking a human life. This was the first of a series of interesting replies between the district attorney and Mr. Delmas during the day, and it was agreed that Mr. Jerome had found Thaw's new defence a most worthy of his best efforts. The two men are of widely divergent temperament—Mr. Jerome quick, passionate, and forceful; Mr. Delmas deliberate, resourceful and witty, to whom the district attorney was always "the least of the district attorney." There was never a deviation from this method of address. For the first time since the beginning of the trial the court room during the afternoon was crowded to its utmost capacity by the general public, a large portion of the defence being women. Justice Fitzgerald's warning of the morning that there might be testimony that might well shock the beginning of the trial the court room during the afternoon was crowded to its utmost capacity by the general public, a large portion of the defence being women.

Mr. Delmas then testified that Benjamin Boman, whose testimony had been excluded yesterday, to-day, Boman said that in 1903 he was a doorman at the Garden Theatre, and that he knew both White and Thaw. "Did you ever hear Stanford White make threats against the life of any person?" "Yes."

Mr. Jerome objected to this saying he was not assured of the defence was to be self defence. Mr. Delmas declared that every defence the law allowed was to be taken advantage of, and Mr. Jerome withdrew his objection. A few nights after Christmas, the witness recalled, "Stanford White came up to me after the show and wanted to know if Miss Nesbit had gone home. I said she had, and he replied: 'You see a liar.' I told him to go back on the stage and see for himself."

"When he returned, and as he passed me he pulled a pistol from his pocket and threatened: 'I'll find and kill that blackguard.'"

**PUBLIC OWNERSHIP LEAGUE.**

I approve the formation of a public ownership league and am prepared to give the movement my earnest and personal support.

Name .....

Address .....

There is room for everyone in the Public Ownership League. The World is gratified with the response that have been made to the general invitation to send in coupons, with names and addresses of those who wish to identify themselves with the movement.

It is not essential that the coupons bear one signature only. Several have cut the coupon out of the World, pasted it on a piece of paper, and invited members of the family and friends to sign. Let the coupon contain twenty or more names, and thus extend the list of charter members.

Sign yourself, and make it a point to get twenty of your friends with you in the movement.

As The World said yesterday, arrangements are under way for a meeting of friends of public ownership, to perfect an organization. This will be held in good time, but in the meantime the public are invited to send in their names. That is an easy thing to do. Send them in by mail, or hand them in over the counter of The World business office. If you have not the paper with you when passing, drop in and say you are with us by asking for a Public Ownership League coupon.

**RAILWAYMEN TELL HOW TO PREVENT ACCIDENTS**

Absolute Block System a Necessity—Orders, Too, Should Be Strict.

Ottawa, Feb. 6.—(Special.)—The railway commission is considering means for reducing the possibilities of accidents to a minimum, and to-day listened to representatives of the railway organizations and of the railway companies. The questions discussed were the block system and the imposition of a new set of rules on employees. Chairman Kilham remarked that railway accidents were too numerous, by far, and the board had invited the railway men to offer suggestions for lessening them.

Harvey Hill admitted that many accidents were caused by neglect of duties by employees, but others were caused by block systems imposed on them by their employers. He instructed passenger conductors, who were harassed looking after party things. He advocated an absolute block system for passenger trains on all lines, that was, that two trains should not be between two telegraph points at the same time. He denied that the Grand Trunk had an absolute block, as a semaphore was not such when a flagman had to be sent to the point.

Mr. Courtney, for the Michigan Central employees, said that the automatic block system on his line made accidents absolutely impossible. The C. P. R. said that road, even with its present block system, based flagmen, had an accident in a block district.

Mr. Brownlee of the Grand Trunk said that his road had maintained an absolute block on its main lines for years. He admitted to Dr. Mills that they had had rear end collisions on the Grand Trunk but insisted that they were due to disregard of rules.

Western Merchants Take Action to Get Better Railway Service.

Winnipeg, Feb. 6.—(Special.)—The long-drawn-out complaints of the Winnipeg merchants that the Canadian railroads were falling in their duty to the west, in not providing adequate transportation facilities for the product and merchandise of the west, and the demand for a more efficient service, came to a head at today's meeting of the board of trade, when that body decided to appeal to the Dominion government to investigate conditions prevailing and to take steps to prevent the recurrence.

UNCLE SAM (the Fur Trader): "After the corporation coons instead of the bars now, are ye, Teddy?"

**PRACTICAL SYMPATHY.**

The telephone girls, who are fighting for their rights against the Bell Telephone Company, have the sympathy of all humane citizens.

To get their rights, it is necessary for them to fight, and to fight as hard as they are determined to fight means money.

How can the telephone girls, receiving the meagre salaries that they do, afford to pay for the putting up of the fight that they must put up, if they are to get their rights from the Bell Telephone Company?

Consider for a moment the financial backing of the telephone girls, as contrasted with the financial backing of the Bell Telephone Company. This investigation before the commission is a serious business for the Bell Telephone girls, and will require much thrift and frugality on their part to have their side of the case properly presented. But what does the Bell Telephone Company care whether they cost the company \$1000 or \$100,000 to see that their side of the case is pressed home upon the commissioners?

This being so, it is up to the citizens of Toronto, who believe the telephone girls have justice on their side, and are fighting in the interest of honest womanhood and honest humanity, to show their sympathy with the girls by contributing as much or as little as they can afford to the support of their cause.

In this connection, the following letter received by The World, yesterday with an enclosure of \$20, is the sort of sympathy that talks:

"Editor World: Deeming it to be the duty of all citizens to assist the telephone girls in their endeavor to get a living wage for their work, and that they may not be inconvenienced in their fight with the Telephone Company, I have much pleasure in enclosing you my cheque for \$20, which I trust you will become the custodian of for their benefit. I think the telephone users of this city should stand by the girls and assist them in their fight, which seems to me to be one that has been forced upon them. I am sure that if you let it be known that you will become the custodian of a fund for their benefit you will find many others who are anxious to contribute as I am doing.

"Bankers and Brokers, Manning Arcade, Toronto."

Following out the spirit and request of this letter, The World takes pleasure in becoming the custodian of a fund for the assistance of the telephone girls in their fight.

It is altogether up to the citizens of Toronto to show what they think about it by sending in their contributions.

**RAILWAY ROUTE TO HUDSON BAY**

Senator Ferguson Comes Out as Strong Advocate of Transportation Facilities for Northern Sea.

**UNGAVA TO NEWFOUNDLAND**

In Return for Its Territorial Claim on Labrador—Manitoba Should Be Awarded Keewatin.

Ottawa, Feb. 6.—(Special.)—In the senate to-day Hon. D. Ferguson made an important speech on the Hudson Bay route.

He said the resources of the Hudson Bay and communication to Europe via Hudson Straits were frequently discussed in the senate from 1878 to 1894. In these discussions the route was discredited by interests affected by the St. Lawrence navigation. There was no doubt wisdom in proceeding with deliberation, but the time is near at hand when the question will have to be energetically dealt with.

A glance at the map reveals the wonderful position of the great Canadian sea. Churchill is situated 250 miles west of St. Louis, and St. Paul. The distance to Liverpool is the same as from Montreal. Churchill communicates with the open sea as directly as Halifax.

Value of Hinterland.

Developments in the Yukon and at Cobalt have given a glimpse of the value of our hinterland. The territory surrounding the bay contains valuable minerals, the extent of which can only be ascertained when the country is supplied with means of communication. Valuable timber grows along the rivers flowing into the bay, and water power exists almost everywhere on these rivers. The fisheries of the bay and inland waters of Ungava and Keewatin will, when developed, become one of the best resources of the Dominion.

Hudson Bay has a sea coast within the temperate zone of over 2000 miles. Dr. Robert Bell, in 1877, during the months of July, August and September, found the temperature along the East Main coast, as follows: Sea, 53 degrees; rivers, 61 degrees; air, 62 1/2; the mean temperature of the air being only 2 1/4 of a degree lower than the average temperature of the same period at 10 principal stations from Halifax to Fort Simpson, on the Mackenzie River. Mr. Tyrrell gives the average dates of the opening and closing of Churchill harbor in all the years from 1884 to 1894 as follows: Average day of opening, June 19; average day of closing, Nov. 15; average period of navigation, 5 months.

**BUY THE STOCK OR THE PLANT?**

Mayor Coatsworth is Undecided as to Better Way of Municipalizing Electric Light Company.

"If the city should want to get control of the electric light company I would be in favor of the purchase by the city of stock in the company," said Mayor Coatsworth last night. "My idea has rather been to get control of the plant."

Speaking of the good results that had come from the purchase of gas company stock, the mayor remarked, "The gas company is another question. We now proceed along the line of expropriation that we are following with regard to the electric light plant. If we are to get the whole thing it would be best to buy the plant."

The mayor added that the actual plant might be found to be worth a good deal less than the stock. He has not, however, made up his mind that it would be a wrong move for the city to seek for power from the legislature to buy up the new issue at par.

"I wouldn't like to give a definite opinion at the present stage," he explained. "It would all depend upon how the plant panned out, and I have not gone fully enough into the matter yet."

Hon. Mr. Tarric Writes of the Ostracism of Mr. Lavergne.

Montreal, Feb. 5.—(Special.)—La Patrie, the paper of J. Israel Tarte, is out with an editorial on the Laurier-Lavergne incident.

"It must be admitted," says La Patrie, in substance, "that upon questions of great importance and of party policy, private members should support their party, even though its policy may not appear to them as the best, but it is not necessary for party discipline to forbid a member to use his independent judgment on matters of detail and where no important matter of principle is involved."

The "ostracism" of Mr. Lavergne, it concludes, is causing unfavorable comment from the young men of the Liberal party.

WOMAN'S WORLD.

FRENCH BLOUSES

There is a pretty new lingerie collection which outvalues the more elaborately trimmed waists in its charm of color. It is a colored lawn "over waist" in delicate pale or light blue and made from one of the popular patterns with low cut arms and neck. A few fine tucks are set in along the front and the whole is edged with an insertion of lace embroidery interlacing along the shoulders. This is worn over an embroidered "net" waist with sleeves of full Valenciennes edging and under this is worn a silk slip in the same shade as the outside lawn.

IN THE MARKETS

St. Lawrence Market, cold as it was yesterday, had its quota of prudent housewives, looking for the best prices, which ran like this:
Poultry: Chicken—Broilers at 15c a pound; "old hens for boiling" at the market—market expressed it, 30c and 10c a pound; geese, 12c; ducks, 14c and 16c; turkeys, 15c to 20c.

MEAT

Round steak 12-1-2c a pound; sirloin 15c; porterhouse 15c to 17c; sirloin roast 15c; wing and rib roast 12-1-2c.

KILLED FEMALE SUFFRAGE

Guthrie, Okla., Feb. 6.—The constitutional convention today killed the provision providing for woman suffrage by adopting a clause extending the right of suffrage to males only.

IN SOCIETY

Mrs. S. D. Westman, 341 West Bloor-street, will receive on the second and third Fridays in February. Mrs. William Brown, 371 Markham-st., will receive on the second and third Fridays in February.

THIS IS THE PACKAGE.

Don't let the fakirs, imitators or substitutes take you into camp. If a gold brick artist or a green goods man should offer you any of their wares you would be justly indignant at their assuming that you were so verdant. You have just as good reason to be indignant when you are offered an imitation of or a substitute for Sanitas Toasted Corn Flakes, the original and only genuine ready-to-eat cereal food on the market.

The annual meeting of the Church of England Deacons and Missionary Training House will be held in St. Paul's schoolhouse, Bloor-street, tonight at 8 o'clock. Addresses will be delivered by Rev. Dyson Hague of London and Rev. Canon Dixon.

The following course of lectures, entitled "Famous Frenchwomen" will be delivered in the Convocation Hall, Trinity College, at half-past three on Saturday afternoons during February and March: Feb. 9, "Joan of Arc"; Feb. 16, "Madame de Maintenon"; Feb. 23, "Madame de Sevigne"; Feb. 30, "Madame de Staël"; March 6, "Madame de Pompadour"; March 13, "Madame de Mazarin"; March 20, "Madame de Montespan"; March 27, "Madame de Maintenon"; USE OF "THE LISTENER" PROBED BY COMMISSION

Judge Winchester Also Refers to the Inadequate Wages of Telephone Operators.

Two little flurries of excitement yesterday swept over the pretty audience attending the telephone commission's investigations, when Judge Winchester criticized the company after an admission made by...

gram to the president Jan. 31, and a letter from Montreal to Mr. Dunstan dated Feb. 1, but there must have been other pertinent letters exchanged before and since those dates. Witness stated that he thought the letters produced were all that could possibly have immediate bearing on the case at issue; however, he promised to produce any others exchanged before or since.

in discussing a reduction of the load with the long-distance girls recently? "Merely to explain that this new system of hours, etc., would still further lighten their work."

Mr. Curry then resumed his cross-examination, which brought forth the assent of the local manager to the effect that he had shown the commission the various local premises personally. He had explained to them that the reason for shortage of lockers in the Main, Parkdale and North offices was owing to the fact that the full complement was not completed in manufacture. Enough lockers were in process of construction to provide each girl with a cabinet in which to store her wraps.

"Well, at the meeting of managers in Montreal, was there any thought of bettering the operators' conditions?" "We discussed bettering the whole service," was the evasive reply. "Should the salaries paid to managers have any bearing with the problem?"

Mr. Dunstan couldn't say, but thought if the company was increasing its profits, the executive should be increased accordingly. The company's stock was quoted at 100 par and selling at about \$90,000,000 subscribed, and was paying an eight per cent dividend.

REINSTATING THE GIRLS. 150 Telephone Operators Have Been Given Positions Afloat.

It may develop that the Toronto telephone mix-up and subsequent organization of a supervisors' monitor and operators' union in the city, will form the nucleus of a strong international ladies' organization along trade union lines.

The majority of girls present had been re-engaged by the company. It was stated that the girls were reinstated, but none of the pickets, supervisors nor prominent figures in the disturbance have been notified as yet to go back. Quite a number of the strikers have been employed at other positions.

Mr. Dunstan denied that this department was for the sole object of keeping tab on the operators. Its principal purpose was to detect faults in the service, but he supplemented, most notably by the listening board, work done by the supervisors, slow service, clicks, etc.

FREE TO MEN UNTIL CURED

All men with very few exceptions were made strong and should be so through life. Many have abused the grand privilege and through dissipation have become weaklings, puny, lack confidence, can't face the slightest difficulty, have draining losses, impotence, varicose, rheumatism, kidney back, etc. and are mere playthings in the hands of their associates. How deplorable! But all these men can be made full of strength, vigor and life if they will only turn to the right source. Electricity cures these cases. I have been curing thousands every year for nearly forty years. So positive an agent for my world-famed Dr. Sanden Electric Belt will do that if you will call or send for one you can use it.

FREE TO MEN UNTIL CURED

Not a penny on deposit or in advance. I will take your word for results, and only charge a fee of belt - many cases as low as \$4. My wonderful success has brought forth many imitations of my belt, but my valuable experience to advise and guide my patients cannot be imitated. It and my belt can be had free until a cure is effected, but only at address as below.

FREE TO MEN UNTIL CURED

Call and get one to-day, or write. I also send two best books ever written upon health and strength of men. Free, sealed, by mail.

TWO CENTS A MILE IS ON THE WAY. The ordinary reader might think from what he sees in the papers that the two-cent-a-mile agitation is not making much headway in the house of commons at Ottawa.

At this moment, fraught as it is with important consequences for Toronto's future provision of a cheap electric light and power service, what are its representatives in the leg-

lature doing to aid the city council in its fight against the stock manipulation proposed by the franchise-holding corporation? Mr. W. K. McNaught has come out boldly for the city—where do the Hon. R. A. Fyfe, the Hon. J. J. Foy and Mr. Thomas Crawford stand? They, equally with their colleagues, are members for the city, and should be found on the side of the citizens in a matter which is entirely in accord with the hydro-electric policy of the government.

Here is a public-service corporation, face to face at once with a government bill designed to protect municipalities against improper issues of capital stock and against improper expenditures of its capital and with a demand for immediate expropriation, seeking to secure itself at the expense of the city, whose franchise it holds.

THE HAMILTON STREET RAILWAY. The World read in a newspaper that the board of railway commissioners for the Province of Ontario had decided not to enforce something that was enforceable as against the Hamilton Street Railway, because it was not making money.

THE STREET RAILWAY COMPANY'S MEETING. Pleasant indeed for the shareholders—were the proceedings at the annual meeting of the Toronto Street Railway Company, held yesterday. A net profit was announced of \$516,085.66—equal to 10 1/2 per cent. on its common stock capitalization of \$4,900,000—whereof \$460,341.17, or 8 per cent. went to the stockholders, and the surplus of \$56,744.49 to the contingent fund and profit and loss account.

SWEET CAPORAL CIGARETTES STANDARD OF THE WORLD

THE RAILWAYS AND THE BOARD OF RAILWAY COMMISSIONERS FOR CANADA.

Fifty-Eighth Article. The scene at Ottawa during the consideration by the railway committee of the two-cent-per-mile rate bill was one that will not soon be forgotten by the people of Canada, one man standing practically alone, fighting the battles of the people, while against him were a host of the hired men of the carrying companies and nearly all the members of the committee.

Instead of discussing a subject which is intensely interesting to the people, the Hon. Mr. Emmerson, with the assistance of the railway committee, arranged to send the bill to the board of railway commissioners for consideration, notwithstanding the fact that, only a few days before, he made the statement that the board of railway commissioners were utterly unable to accomplish the work allotted to them.

## NEWS FROM COBALT

A telegram received from D. B. Rochester, manager of the Cobalt Lake Mining Company, Limited, dated February 1st, 1907, says: "Discovered to-day vein, mostly native silver, eight to ten inches in width." (Signed) D. B. Rochester. An assay from this shows 19,875 ounces to the ton in silver. This would mean a money value of about \$200,000 per car. A few shipments of this grade of ore would pay enormous dividends to the stockholders and would enhance the value of the Cobalt Lake Shares materially. This is one of the greatest strikes ever made in the Cobalt Camp and its importance can hardly be overestimated.

We can still supply a limited amount of this stock at 85c per share, certificates subject to delivery by the Syndicate. Price will be advanced to \$1.00 per share shortly. All orders must be accompanied by remittance in full for the number of shares wanted.

To insure securing stock at 85c, wire orders at our expense and follow with remittance.

**Missouri Pacific the Weak Issue at New York—Locals Tentatively Steady.**

The market today has developed irregularly, with some selling of Great Northern and Canadian Pacific in the latter part of the day. The local market was in evidence. Statements of railroad earnings included net decrease for December by Reading and Deyser & Rio Grande, decrease for the fourth week of January by S.R. and Great Western and Colorado & Southern, St. Louis & W. & M. Pacific. Following the cut in dividend on the latter, the market was depressed. The other leading concerns have cut their dividends, and the Federal has today made another reduction in quotas. The latter action in Missouri looking to 200,000,000, and some depressed No. Pacific, which was poorly supported against a lack of orders. It is estimated that railroad earnings this coming year to the extent of over \$125,000,000, owing to difficulty in securing funds. The Vanderbilt lines are understood to have taken similar action for their system at a meeting today. The various industrial companies usually reply to orders from the railroads are looking to show expansion. It is a condition to enable the railroads to make more contracts. It is hoped that in the near future the president will indicate more clearly his intentions regarding future railway legislation. It is now generally believed that freight rates will be advanced, but the increased cost of labor and materials. This action immediately have important effect on net earnings. Some minor improvements in our currency system may be passed by the present congress. It is believed that the head rate is predicted for Distillers in Steel will reduce some of the heavy percentages for betterments now being made. Later on it is probable that U.S. Steel will reduce some of the heavy percentages for betterments now being made. Later on it is probable that U.S. Steel will reduce some of the heavy percentages for betterments now being made.

**POCKET BOOK TURNS DAGGER**  
Attempt to Assassinate Son of Late King Milan.  
Constantinople, Feb. 6.—George Christou, son of the late King Milan of Serbia, by Mme. Christou, had a narrow escape from assassination last night. An unknown man suddenly attacked Christou and attempted to plunge a dagger into his chest. The assailant, however, struck a thick pocket book in the way of the scabbard. His mother's life has been threatened on previous occasions. Christou was the husband of the late queen, and is the son of the late King Milan of Serbia.

**CONFIDENCE IN SWETTENHAM**  
Legislative Council Passes Motion by Four Votes to Two.  
Kingston, Jamaica, Feb. 6.—At a meeting of the city council held yesterday, at which the attendance was small, Philip Stern, the representative of Kingston in the legislative council, proposed a motion expressing unqualified confidence in Gov. Swettenham. After the usual reading of the motion, which was carried by four votes to two. The passing of this motion has created a feeling of confidence in the governor, and it is believed that the motion will be a landmark in the history of the island.

World Office, Wednesday Evening, Feb. 6.  
 Liverpool wheat futures closed to-day 1/4 to 3/4 higher than yesterday, and corn 1/2 to 3/4 higher. At Chicago, wheat closed 7 1/2c higher than yesterday, and corn 1/2c higher. Winnipeg car lots to-day, 17; year ago, 18. Chicago car lots to-day, 19; year ago, 18. Northwest cars to-day, 13; year ago, 12. Primary receipts to-day, wheat, 229,000 bushels; corn, 288,000; year ago, 201,000; wheat, 168,000; corn, 188,000. Total receipts, 497,000; year ago, 389,000. Total exports, 1,257,000; year ago, 1,150,000. New York, Feb. 6.—The report that Russia is buying grain to relieve the famine situation caused excitement in the wheat market today and added over a cent per bushel to the price. It was believed that the Russian news meant practically a prohibition of exports from that country, in which event, Europe would have to buy more freely here.

**Be Dyspeptic is to Be Miserable**  
 Helpless, Confused and Depressed in Mind, Forgetful, Irritable, Drowsy, Languid and Useless.  
 This disease assumes so many forms that there is scarcely a complaint which it may not resemble in one way or another. Among the most prominent symptoms are constipation, sour stomach, variable appetite, heartburn, water-brash, gas in the stomach and bowels, distress after eating, etc.  
**BURDOCK BLOOD BITTERS**  
 is a positive cure for dyspepsia, and all diseases of the stomach, liver, bowels or blood. It stimulates secretion of the saliva and gastric juices to facilitate digestion, moves acidity, purifies the blood and tones the entire system.  
 Mrs. M. A. McNeil, Brook Village, N.S. writes: "I suffered from dyspepsia, loss of appetite and bad blood. I tried everything I could get but to no purpose; then finally started to use Burdock Blood Bitters. From the first day I felt the good effects of the medicine. I can eat anything now without any ill after effects and am strong and well again."  
 Price \$1.00 per bottle or 6 bottles for \$5.00.
