

Imperial War Secretary Asks Lord Dundonald to Return Home

BRITISH HOUSE OF COMMONS MEMBERS REARMS PERSONAL CONDUCT IS SAID TO BE UNDESIRABLE

Lloyd-George Accuses Him of Stirring Up Strife Between the Two Races in Canada—Arnold-Forster Has Told Him to Return Home Without Taking Part in Political Controversies.

Winston Churchill, along with whom rose Arnold-Forster, the latter giving a side of considerable comradery, seconded the motion, declaring that no motion for adjournment had greater reason behind it.

Arnold-Forster, secretary of state for war, welcomed Mr. Churchill as the spokesman of the opposition. This debate was not calculated to contribute to the public advantage.

Lloyd-George: I spoke as a member of the house of commons, with as good right as the right honorable gentleman. (Opposition cheers.)

Mr. Healy believed Dundonald had attacked the government of Canada because it was French and Catholic. It was very useful to have the French Catholics on the side of the British empire in the Boer war.

SITUATION IS MOST GRAVE RUSSIA MUST BACK DOWN

London Papers Print Details of Seizures in Red Sea in Display Type.

London, July 20.—Once again the leading English newspaper's editorial is in the gravest tones on the Russian seizure of British vessels. Even the conservative Standard declares that the nation looks to the foreign office to take more effective action than the ordinary conventions of diplomatic intercourse prescribe.

The case is not one of fastidious treatment. If nothing is done officially to relieve the painful strain, the irritation of this country may grow into stubborn resentment. We cannot, even for the sake of peace, sit down under a series of undignified provocations.

The paper declares that either the volunteer fleet steamer St. Petersburg is an armed pirate or Russia has violated the treaty of Paris. The action of Earl Percy, under secretary of foreign affairs, who in the house of commons Monday asked General Laurier, Conservative and Unionist, to postpone until Thursday a question which he proposed as to regarding the doings of the Russian volunteer fleet steamer St. Petersburg in the Red Sea, the paper regards as unnecessary and dilatory.

The Daily Telegraph admits that "dangerous issues to international law have been raised by every circumstance of ostentatious provocation and that the nation must realize that a far-reaching question has arisen."

Intense apprehension prevails at Cardiff and other British coal ports, and the chartering of vessels for the far east is practically at a standstill.

Admiral Sir Edmund Robert Fremantle, in the Daily Chronicle, says "the crisis no doubt is grave, but I hold that our safest course would be at once to inform the Russian government that our cruisers have orders to prevent our merchantmen being interfered with by vessels which we cannot admit to be men of war, and to request that their proceedings be discontinued, and that they be immediately recalled to Russian ports after their prizes have been released."

The Daily News declares that the cabinet yesterday drew up a strong protest which will be forwarded to St. Petersburg. The cabinet, the paper says, had an interchange of views with the admiralty and a program of action in the case of eventualities was decided upon. It was decided also to protest to Turkey.

Telegraphers May Strike G.T.R. Appeals to Its Men

Strike Vote Taken But Minister of Labor Now Has Matter in Hand.

Montreal, July 20.—(Special)—The G.T.R. officials, fearing that telegraphers' strike would be called, have made a personal canvass of the men, but matters are now in the hands of the minister of labor, who is applying the Railway Labor Disputes Act.

Under the act, under such and other circumstances affecting the regular running of railways, the minister may take such steps as he may see fit to take for the purpose of settling the dispute.

It looks as if this day will bring forth a serious state of affairs for the Grand Trunk Railway. After months of negotiations, a strike vote of the telegraph operators was called for a fortnight ago and carried.

On Monday Manager McLaughlin sent out a general circular to the station agents and operators, declaring that the strike vote circular was decidedly misleading and that the company's statement of the negotiations, after granting increases in pay amounting to many times the amount of the annual at the first conference in November, the company were unable to satisfy the men's demands.

As to "extra pay for work performed on Sundays and holidays," the company explains that when the basis of compensation was changed from a daily to a monthly rate, the work to be performed had been considered and an amount added to cover this.

General Kuroki's Headquarters in the Field, via Fusan, July 19.—More Russian troops were engaged yesterday in the battle of Motien Pass than in previous engagements. There were probably only double the number of those which took part in the fight at the Yalu River, while opposed to them were only one brigade and one battalion of the Japanese.

Chicago, July 19.—The crisis in the stock yards strike will come to-morrow afternoon. The piled-up masses in the stock yards, which are certain to become involved in the controversy if it is not soon settled, had a conference this afternoon lasting five hours, and at its conclusion sent a letter to the packers asking for a joint conference between representatives of the strikers, of the packers, and of the shippers.

Montreal, July 19.—The Caledonia Society executive met to-night and decided upon the tenor of the address which they will present to the Earl of Dundonald on the evening of the 23rd, when they desire that at least every Scotchman in Montreal shall shake hands with the general.

WARMTH STILL WITH US AND ICEMAN GETS BUSY

Thunderstorm a Disappointment, But To-Day May Be Somewhat Cooler.

Yes, it was hot yesterday. There was a decided unanimity of opinion everywhere when the matter would incidentally, as the weather usually does, creep into a conversation. There were various comparisons made as to the extent of the torridity.

Yesterday the temperature registered 33 degrees at the Observatory, but we were tagged below Ottawa, which leads the Dominion with 94 degrees. Other places were as follows: Dawson, 42; Fort Stanley, 34; North Bay, 30; Ottawa, 34; Montreal, 30; Quebec, 33; Halifax, 72; New York, 80; Philadelphia, 80; Washington, 32; Albany, 36; Chicago, 78; Buffalo, 78; St. Louis, 88.

The weather in the Northwest and British Columbia has been fair and moderate, with frequent thunderstorms. The crops, according to reports received, give promise of an abundant yield, considering the late spring.

There is one class of men for whom the heat is of only mean interest—the employees of the ice companies. Some of the prominent dealers in the city told The World yesterday that until late last week the ice trade had had the slackest season on record.

It is an ill-wind that blows nobody good, and the present hot wave which is reducing Toronto's heat to the last degree of discomfort is "just what the doctor ordered" for the steamboat industry. The thought of the cooling breezes of Lake Ontario is wonderful.

Derby is an excellent summer wear. It is a light, airy fabric, and has the advantage of being superior to every other fabric in the way of being cool and comfortable.

Metropolitan Office, Toronto, July 19.—(5 p.m.)—The decidedly warm weather has continued to-day from Ontario to the Maritime Provinces, and temperatures of 90 degrees and over have been recorded in many places.

A satisfied policyholder, upon the maturity of an endowment policy, is one who desires to take another in the same company, rather than to institute a parliamentary inquiry, and the contracts issued by the Sovereign Life Assurance Company are especially designed to satisfy the most exacting and everything absolutely guaranteed.

It is very easy for you to take out an Imperial license policy now. Instead of a year later, and the difference of a year in the maturing of your policy may be of very great importance.

LAND COMPANIES GAINING IN ADMINISTRATION OF WEST

Selling Land Bought at \$1 an Acre for as Much as \$10 an Acre.

Ottawa, July 19.—(Special).—Whether the west is being administered with a view to the interests of the land companies or the promotion of permanent settlement of the country, was a question developing from consideration of the estimates of the department of the interior in the house tonight.

Dr. Roche referred to the operation of the Saskatchewan Valley Land Company, which, he declared, was not fulfilling the terms of its contract. The company was selling lands which it obtained for \$1 an acre from \$5 to \$10 an acre, without any assurance that the settlers would be secured to the country. Not less than 150,000 acres of the interior in the house tonight.

Dr. Roche also called the attention of the house to the fact that Mr. Adamson, the member for the Saskatchewan Valley Land Company, is the Liberal candidate for one of the western constituencies. He also called attention to the fact that Mr. Adamson is a member of the Saskatchewan Valley Land Company, and that he is a member of the Liberal party.

Mr. Sifton replied by paying a high tribute to the worth of the Saskatchewan Valley Land Company. He said, "I have not the least doubt that the company is doing a great deal of good for the west, and that it is a great help to the government in settling the west."

A long discussion followed, in which it was agreed with considerable force that the operations of the Saskatchewan Valley Land Company were promoting the settlement of the country.

On an appropriation of \$500 for the settlement of miners, Dr. Sproule asked when the commission which was sent to Europe to inquire into the matter would make its report. Mr. Sifton replied that the report would be made in three or four weeks.

What is the general nature of the report, asked Dr. Sproule. "It shows that electric smelting is a success or failure," he replied.

"It shows," replied Mr. Sifton, "that with a good quality of ore and cheap power electric smelting of ore can be carried on successfully in some parts of Canada. Dr. Sproule declared that such a report would mean nothing, as a good quality of ore could be successfully smelted by the usual methods."

NERVOUS HEADACHE AND NEURALGIA

In mild forms afflict people upon the least excitement, travel or exposure. Only of little consequence now that Nerviline is available to sufferers. Take twenty drops in sweetened water, before the parts and pain disappear almost immediately. Though Nerviline is five times stronger than other liniments, more penetrating and more pain subduing it is very pleasant to take in this form. Nerviline is so quick and so certain that everybody ought to have it at hand for the minor ailments that almost every day brings forth. Pleasant, pain subduing, penetrating, Nerviline is a marvelous healer of pain. Nerviline, certain always, has no equal for all purposes.

AFTER RATING COMPANIES CRIMINAL CODE SUGGESTED

Senator McMillan Thinks That Justice is Often Done to Business Men.

Ottawa, July 19.—(Special).—Commercial agencies making ready reports on the financial standing of business men across the country are the subject of some very friendly remarks in the Senate to-day. The Senator McMillan said the information given by these companies was unsatisfactory and unreliable. Steps should be taken to prevent such liberties being taken with people's names in financial matters without absolute and indisputable knowledge of the facts. Did the government intend to introduce legislation along these lines? Senator McMillan asked. He said he had consulted bankers and business men, who agreed that the reports were of little value. Even if there were cases in which the commercial lists were correct, they were so generally incorrect that they were unreliable.

R. W. Scott reminded the committee that the commercial agencies had existed for nearly half a century, and that they were not to be abolished. He said that the government should not undertake the control. He only knew that the reports were referred to by business men, and that they had correctly described the financial standing of the companies that they dealt with.

Senator McMillan thought the question an important one. He knew of cases where favoritism had been exercised and false representations made. He thought that some legislation was necessary. The commercial agencies should be required to take out a license and pay for exercising the rights they claimed. The agencies had in many cases the opportunity of making or making a man the agents in towns or cities could report as they pleased about men. There should be some way of holding them liable where it was evident that false, erroneous and unreliable reports appear. He thought a bill should be introduced requiring agencies to take out charters, pay an annual sum, and in some way be held liable for incorrect reports.

Senator Edwards said it would be an admirable thing if absolute certainty could be had on every transaction, but that could not be in this world. Mercantile agencies, like individuals, sometimes made mistakes. It would be highly improper for the government to take up this matter. It was entirely a commercial matter. The business man or banker who was so guided by these reports was not a good business man. They were simply assistants to the great object was to secure stability. Banks and business men might be wrong large amounts to-day and not to-morrow. Let your children use only Dr. Hamilton's Pills. Price 25c.
