INCREASE OF FAITH WILL BANISH EVIL

Good in Every One if It Can Be Found, Declares Professor of Yale University.

Faith, as the most important thing in the world, was the subject of the sermon by Prof. A. P. Stokes of Yale University, to university students and officers of the P. S. I. at Convocation Hall yesterday morning. With the increase of faith, he declared, that all the evils of present day life would be abolished. He took his text from Hebrews xi, which was described as the great faith chapter of the New Testament. Besides being incorporated in the conception of faith, were His faith in God, His faith in Himself under the leadership of God, faith in His fellow men, and also a faith in the coming of the King-om of God and in eternal life. The manner in which Christ lived each of these ideals was shown by Rev. Mr. Stokes, by illustrations from His life. "There is some good in every nation and in every person under heaven if it only can be found and developed," declared Prof. Stokes. "It is the Christian's right and duty to believe that ultimately the right will prevail and the Kingdom of God will come. Unless we have this faith we will be unable to bring this condition of affairs about. We must have a faith that death is not the end. It is necessary to believe in the resurrection because Jesus did. At the bottom of all our lives we arrive something that is the ultimate, on which our whole existence and the fabric of civilization is based, and that essence is faith."

HIGH SCHOOL TEACHERS GIVING GENEROUSLY

At the recent meeting of the executive committee of the Toronto High School Teachers' Association, interesting reports were made of the activities of 1915 in the matter of contributions to the Patriotic, Canadian Red Cross, Belgian Relief, and University Base Hospital Funds. It was reported that \$893.45 had passed thru the association to these funds, besides generous individual contributions to these various other patriotic objects, including the British Red Cross, and Examiners' Machine Gun Funds. The executive recommended that the same standard of 1915, regarding the minimum of individual contributions, be adopted for the High School Teachers' Association contributions to the patriotic fund for 1916. Plans were also considered for future meetings of the association.

ITALY'S QUEEN GREETS MONTENEGRIN MOTHER

Affecting Scene Witnessed at Rome Station Between Queen Helena and Queen Milan.

BOTH WOMEN WEPT

Guarantees of Italy and Allies Accepted for National Restoration.

ROME, Friday, Jan. 21.—(Delayed.)—There was an affecting scene last night at the central station between Queen Helena of Italy and her mother, Queen Milena of Montenegro, who, accompanied by her daughters, Princess Xenia and Princess Vera, reached Rome about 9 o'clock on her way from Brindisi to Lyons, France, where the Montenegrin court is to take up its residence.

The Italian royal court and Queen Helena, with the Prince Royal Umberto and Princesses Yolanda and Yolanda, were at the train to meet the refugees, and under the painful circumstances, the king discreetly left the mother and daughter together, both weeping, to console each other. The Italian royal children embraced their grandmother fervently and the party remained together for several hours. After spending the night in Rome the members of the Montenegrin royal family continued on a special train to Lyons.

The fact that the king and queen met the Montenegrin Queen is taken as evidence of good faith that Montenegro will cling to the alliance with Italy and the other entente powers to the end. The Messaggero says: "At the last moment Montenegro preferred national honor and accepted the guarantees of Italy and her allies for national restoration, as in the case of Serbia and Belgium."

ARRIVE AT LYONS.

LYONS, France, Jan. 23.—Queen Milena of Montenegro and her daughters, Princesses Xenia and Vera, arrived here Saturday from Rome. They were accompanied by Montenegrin officials. President Poincaré sent a representative to welcome the queen, who is staying at a hotel.

YOU know your child lives and thrives on good milk. Do you know whether you are giving him the best, the purest, the richest? Can you say this about the ordinary milk you are getting as you can about the Farmers' Dairy milk? It is from the best Ontario farms. From milking to bottling the milk is never once exposed to contamination by air.

"This Rich Milk Is Good For Baby"

Above all you must know that the Farmers' Dairy milk is the richest milk you can buy. It contains one-tenth—a big proportion—more cream than the standard demanded by the city authorities. Don't deny your children a moment longer of this rich, fresh, pure milk.

WOMAN WILL LECTURE AT COLLEGE OF FRANCE

Mlle. Loteyke Will Open Course on Effects of Fatigue on Motor Functions.

WORKED WITH BLOCH

Constructed Complete Psychology of Soldier With Principles for Training.

PARIS, Jan. 23.—For the first time in its history a woman is to deliver lectures at the College of France. Mademoiselle Loteyke will begin on Monday a course on the effects of "Fatigue on the Motor Functions."

The lecturer is a Pole, who for fifteen years has been head of the psycho-physiological laboratory of Brussels University. She collaborated with the Pole, Ivan Bloch, known as a pacifist, in researches to determine what would be the conditions under which a future war would be fought, the results being published some years ago. In this publication it was declared:

"The future war will be one of sieges and entrenchments. It will be impossible without immense losses or greatly superior numbers to make frontal attacks. Losses in officers will be considerable. Decisive victories will be rare, for the vanquished will immediately take up fresh positions, prepared in advance. Given equal forces a modern war will last much longer than wars in the past."

Starting from this conception Mlle. Loteyke built up a complete psychology of the soldier, from which she deduced scientific principles for his training. Her work on the study of fatigue has thrice been awarded prizes by the Institute of France, and is the basis of recent researches into fatigue incident to different occupations, so important is the task of teaching new trades to war cripples.

LONGSHOREMEN GIVEN INCREASE AT ST. JOHN

New Agreement Reached With Steamship Companies to Last Four Years.

By a Staff Reporter. OTTAWA, Jan. 23.—The board of arbitration which has been enquiring into the dispute between the steamship companies trading to the port of St. John and the Longshoremen's Association there, has reached an unanimous decision on a new agreement, which will be in force until Dec. 31, 1916, and thereafter year by year, unless there is a 30 days' notice given by one of the parties before each year begins. As in the case of the Crow's Nest miners, a permanent board is recommended to deal with disputes and misunderstandings under the agreement.

The new wage scale is to be 35 cents per hour in winter and 40 cents in summer, with 12 1/2 cents per hour extra on "weekdays" for handling bulk grain and 25 cents extra for bulk grain on Sundays and holidays. These rates will continue until April 30, 1917, when 40 cents per hour, day or night, will be paid throughout the year, with 50 cents for handling bulk grain on weekdays and 61 on Sundays and holidays. Ten hours is to constitute a day's or night's work in winter and nine hours in summer. Men will be paid double time if ordered to work thru the meal hour, and this will continue until they are relieved, and double time will be paid on Sundays and holidays. Fifteen are to constitute a gang.

JESUS' WORKS BASED ON CHRISTIAN SCIENCE

Showed That Spiritual Means Should be Sought to Cure All Ills.

In healing a few sick people in Nazareth, Jesus showed that spiritual means should be sought to cure illness, not only in extreme cases but in minor illnesses, lectured Charles L. Ohrenstein, C.S.B., in a talk on Christian Science, at Massey Hall, Sunday evening. "In restoring sight to the blind, speech to the dumb, hearing to the deaf, in healing leprosy, etc., he showed that God heals all diseases, and that none are incurable to Him," said the speaker. Mr. Ohrenstein said that Jesus' works were based on Christian Science. That Jesus looked upon such works as the result of this science is indicated by that immortal utterance, "He that believeth on me, the works that I do he shall do also."

ANOTHER VERSION OF
ARREST OF OFFICIALS
Seculo of Milan Says British Consul

Labor Denounces Prohibition

THE real strength of a nation is found in its intelligent working men; and no policy that is against their interests can permanently prevail.

Samuel Gompers

Samuel Gompers, the President of the American Federation of Labor:

"Experience has shown the folly of Prohibition wherever it has been tried, and that saloons can be regulated by law.

Edward Hirsch

Edward Hirsch, President of the Baltimore Federation of Labor, said before a Committee of the Maryland House of Delegates:

"All this temperance legislation proceeds on the theory that those who patronize saloons or take a drink are weak or irresponsible, and need a guardian.

Wisconsin Labor

The Wisconsin State Federation of Labor declared:

"In no uncertain terms to all officials (legislative and executive) elected by the votes of the wage earners, that a stringent stand should be taken against any and all measures that lead to Prohibition."

Indiana Labor

The Indiana State Federation of Labor appeals to its membership "to decline to vote for, or aid in any manner whatever, any party or organization that has for its purpose the restricting of the rights of personal liberty of the men and women of the state."

Portland Labor

The Portland, Oregon, Central Labor Council resolved that the effort to bring about state-wide Prohibition "be discouraged and vigorously opposed."

South Dakota

The trade unions of South Dakota call Prohibition "An infamous and obnoxious measure."

Label Trades

The Label Trades Department, one of the most important departments of the American Federation of Labor, at its annual convention in San Francisco, in a resolution introduced by the representative of the United Garment Workers, in a resolution introduced by the representative of the Boot and Shoe Workers, declared that prohibition produces dives where an illicit traffic is carried on, not only resulting in the loss of revenue, but also creating a contempt for all law.

British Labor Opposes Prohibition

And so one might go through the long roll of states. And not the States alone, but Great Britain as well, the labor organizations of which, with such leaders as Ben Tillett and others, are directly opposed to Prohibition.

By the way, this is what Col. Goethals, who built the Panama Canal, said to an officious visitor who rather criticized the Government for selling liquor in the Canal Zone:

"These places are not a disturbance; they are a source of contentment. Our laborers here are all human, and our court records show that cases of disorderly conduct are greater in Prohibition towns than in open towns in the Zone.

"Our workmen have got to have their liquor, and if we do not sell it to them, they are going to get it elsewhere."

And Labor is RIGHT!

RECRUITING RECORD SINCE THE NEW YEAR

Over Three Thousand Toronto Men Offered Themselves for Service in Three Weeks.

HELD CHURCH PARADES

Rev. J. J. Callan, Wycliffe College, Appointed Chaplain of Eighth Brigade, Artillery.

Over 2000 Toronto men have offered to join the colors during the first three recruiting weeks of the year. Of these 2000 passed the medical tests, were accepted, and sworn in for active service in the first week of January 840 recruits enlisted, in the second week 790, and last week, 638. This high three weeks' record might have been largely exceeded but for the strong opposition made by the announcement of the early formation of a sportsmen's battalion.

The enlistments on Saturday showed that 40 men were accepted, 23 of whom joining the 166th Queen's Own Overseas Battalion and 17 the 134th Overseas Highlanders' Battalion. This makes the Q.O.B. Battalion 450 strong, and the 134th Highlanders 650 strong.

INDUSTRIAL HARMONY PREVAILS IN DOMINION

Almost Entire Absence of Interruption of War Contracts Noted.

By a Staff Reporter. OTTAWA, Jan. 23.—It is particularly gratifying to observe the almost entire absence of any interruption of the very numerous contracts which are under way throughout Canada for the manufacture of war munitions and military materials of all kinds," said Hon. F. W. Crothers, minister of labor, yesterday.

Under the Industrial Disputes Act, only one strike occurred in 1915, the one in connection with a dispute between the Toronto Hydro-Electric Commission and the electrical workers.

In all 15 applications were received during the year for the establishment of boards. Two boards are in existence at the present time, one in Edmonton over the alleged wrongful dismissal by the corporation of six street railway employees, and one in St. John regarding the longshoremen, a decision regarding which has just been reached.

There have been only two strikes since 1912, one at Toronto, already mentioned, and one at St. John, which was a street railway case, but an agreement was arrived at after further negotiations.

BURNS FATAL TO CHILD.

MANCHESTER COURIER WILL SOON SUSPEND

LONDON, Jan. 23.—The Manchester Courier, established in 1825, one of the oldest Conservative daily newspapers in the provinces, has fallen a victim to the war and announces its approaching suspension owing to the rapid rise in the price of paper.

The Manchester Courier was purchased by Lord Northcliffe in 1904, but it was found impossible to rejuvenate the veteran journal, Northcliffe's name recently disappearing from the front of the dying enterprise.

People of Toronto Must Raise Two Million Dollars! We Have Three Days to Raise It

If we fail to raise it, the women and children that we guaranteed to look after as our share of the bargain when our soldiers first left for the war will be up against it for food, for coal, for clothing, for rent, for medicine.

Have you a right to what they lack?

Do We Dare Fail?

If we DON'T intend to fail them, we must prepare at once for the "On to Victory" Campaign to be put on in Toronto Tuesday, Wednesday and Thursday of this week. Get your money together between now and then. Prepare to come to the big Mass Meeting Monday night.

Don't just say: "How interesting!" Don't just give whatever loose change is in your pocket. Don't think you are excused by signing a cheque. We WANT the cheque. We WANT the loose change.

But we want also—your interest. Put your shoulder to the wheel. Boost! This is a big job and must be done in a big way!

If you are poor—sell your old newspapers to the rag man—for the sake of the fund. If you are rich—forego a pleasure. This isn't charity. It's DUTY.

In the trenches a man who fails in his duty may be shot.

If we fail—the punishment falls on the fighting man just the same through his dependents.

Give Two Dollars for One That You Gave Last Year

Do you remember the Patriotic Fund last year? You thought it was great how the money rolled in, didn't you? So it was—over a million. But—How much of that million do you suppose we have left? Less than \$90,000.

That sum will last just one month! and the last cheques are soon going out.

To guarantee the next cheques, we must have Two Million Dollars. Two to one! The Banks, the Railways, the big rich men and the great corporations have begun already to send in their assurances of support.

But without YOU—you Toronto folk—we won't get the Two Million.

Five cents! Ten cents! A quarter! A bill! Slave! Scrimp! Save! Sacrifice!

If you think you can give a Dollar, determine that it shall be Ten Dollars—and by the mere determination you will find a way to raise it.

The war has been on over a year. Here you are still at home! This fund is part of the price we must pay.

Come to the great Mass Meeting at Massey Hall, TONIGHT, 8 o'clock. Prominent Speakers. Good Singing. Military Bands.
