Parliament Shuts Through the Night to Permit Prorogation Tomorrow

FRANCHISE BILL PASSES AFTER FIVE DIVISIONS; UNIONIST LEAD VARIES

Ottawa, June 28.—(Special)—At midnight the opposition had divided the house five times, putting on record their objections to the franchise act. The government majorities ranged from 19 to 53 with the Farmers party jumping from one side to the other as they were instructed. Tonight showed that while the farmers as a body might have an opinion within their party there was no independence of thought or action. Parliament seems seized with the idea that the franchise is a most important public issue while many claim it is only of interest to politicians and the interest in parliament shows how far that body is from public opinion. The new act for the time gives the same franchise through the Dominion and the same method of compiling the lists. Its fairness has not been challenged.

Meet Fuel Problem. To meet the fuel problem the commonsense today on resolution by the prime minister made the railway commission fuel controller for Canada. This is to meet the situation in the United States as well, where the interstate commerce board has full authority. Parliament recognizes the serious situation in eastern Canada and the proposal was unanimously endorsed. General regret was expressed that more boats were not available for Nova Scotia coal for the St. Lawrence area.

To Continue Wheat Board. The bill giving the government authority to continue the wheat crop in control of the wheat crop was carried (Continued on Page 2, Column 4).

ENTHUSIASM FOR WILSON AND LEAGUE OF NATIONS AT DEMOCRATS' CONVENTION

Several Contentious Subjects May Delay For Three Days Presentation of Platform—Fights Over Prohibition, League and Ireland Expected.

San Francisco, Cal., June 28.—The rules committee of the Democratic National convention decided tonight on the following order of procedure: Speeches nominating presidential candidates shall be made before the presentation of a platform; but balloting will be held only after the platform is adopted.

San Francisco, June 28.—From the shadow of the Golden Gate, the hosts of Democracy met on a demonstration that swept the great gathering off its feet.

It was a half hour before the outburst evoked by a sudden display of the president's portrait could be stilled. Again and again, as his name was mentioned, the cheers broke out anew, to culminate in the shout of approval that adopted and sent to the White House tonight a striking testimonial of his party's faith and pride in the man who has led it through troublous years.

Arrangements for the first national political convention to be held in the far west had been well made. The great hall, its clean architectural lines almost unmarred by added decorations, was ready, and thru a dozen wide entries thousands poured in with little delay or congestion. They found a wide octagon space awaiting them, with a massive organ rearing its stockade of pipes above the platform, and the other sides rising to a far line of seats under high windows, framing squares of California's bluest skies.

In the centre of the hall where the delegates sat rolled within a wide square of seats, an immense ceiling was suspended, colored in soft, blue tones that rested the eyes and lent something of quiet dignity to the scene. Below, a forest of standards bearing the names of states and territories was the only reminder of national conventions of the past. Perched high beside the organ in a special gallery, a military band whiled away the time.

The Star Spangled Banner. When Vice-Chairman Klemmer of the national committee gave the signal, a burly southerner "attention," the sharp staccato call rang out over the uproar of conversation. The first notes of The Star Spangled Banner rang (Continued on Page 7, Column 2).

'T'WILL BE A BIG DAY FOR TORONTO TORIES

Speeches and Sports Will Mark Rally in Exhibition Grounds.

A largely attended meeting of the chairmen of the Liberal-Conservative ward associations and others specially named to arrange for a united Toronto Conservative demonstration last night, was held at the Ryrie Big, grand stand have been procured for Wednesday afternoon, evening, July 28 next. An excellent program of sports is being arranged and free invitations will be extended thru the various Conservative associations in the city.

The ladies' auxiliaries of the ward associations will meet on Friday night to arrange for their part of the demonstration.

NOT PLAIN SAILING FOR DEMOCRATS AT FRISCO

Bryan Can Always Be Relied On to Furnish Breakers Ahead For Party Ship—McAdoo Seems to Have Advantage Over Cox and Palmer.

The Democratic national convention has assembled at San Francisco, and for the moment the interest of the delegates is centred upon the platform. Mr. Bryan is still determined that the president's league of nations shall not be approved without reservations, and that a stirring prohibition plank shall adorn the platform. He is likely to be beaten on the league of nations issue in the committee on resolutions, but may win out on his bone-dry prohibition plank. The fight will then be transferred to the floor of the convention, where the league will certainly be endorsed and something like a compromise agreed on in regard to the prohibition plank.

The human interest, however, attaches to the treated in the committee and a good deal of the skirmishing over the platform will have for its purpose a lining up of delegates for or against Mr. Bryan and for or against Governor James M. Cox of Ohio, who is the candidate with the biggest following before the conven-

tion. The actual balloting will not commence before Wednesday, or possibly Thursday.

May Pivot on Ohio. Governor Cox's chief asset is the fact that he has been twice elected governor of Ohio on the Democratic ticket. Ohio, with Cox as the Democratic candidate, would become the battleground in the next campaign. The state went Republican at every presidential election from 1856 to 1908, but cast her electoral vote for Mr. Wilson in 1912 and again in 1916. The Bull Moose sentiment was rampant in Ohio during the lifetime of Theodore Roosevelt, and Senator Harding, the Republican presidential candidate, fought this sentiment tooth and nail, even to the point of personal attacks upon Mr. Roosevelt. He might lose the state in Governor Cox. On the other hand, the open hostility of the National Anti-Saloon League seems to menace Cox with defeat in the convention. Labeled as a wet candidate, he will probably find it (Continued on Page 4, Column 3).

BIG PROFITS MADE IN ANTHRACITE

Ex-Secretary of War Labor Board Testifies Before Coal Commission.

Scranton, Pa., June 28.—Charges of profiteering and monopolistic control in the anthracite coal industry were made before the anthracite coal commission today by W. Jett Lauck, former secretary of the United States War Labor Board, and now consulting economist of the United Mine Workers of America. Mr. Lauck appeared in hearings on the demands of the anthracite workers for wage increases that will bring their earnings to a level with those of the bituminous workers, with a minimum wage of \$6 a day. "A survey of the anthracite industry," said Mr. Lauck, "shows an increase in net profits of the principal operators for the period 1916-1918 over 1912-1914 of nearly 90 per cent, as compared with an increase in production during this period of less than 12 per cent. "The net income earned by these companies on their capital stock outstanding during the period 1916-1918 ranged from 25.4 per cent to 34.6 per cent, as compared with a net income in 1912-1914 ranging from 14.2 per cent to 18.9 per cent. "The actual increase in profits during the war years of the coal companies which market their own product is indicated by the income account of the Philadelphia and Reading Company. This company, which had a selling device for concealing its profits, increased its production only 1.8 per cent during the war years, but increased its profits nearly 500 per cent, and its profit per ton of output 457 per cent."

SAY PULMOTOR IS WORTHLESS

Evidence Is Given at Inquest Into Drowning of Walter Johnston.

CITY IS SCORED

"We find that Walter Johnston, 14 years of age, came to his death on June 19th by accidental drowning. We also find that the city should provide better protection for its bathing beaches, and should take more pains to guard against holes where sewage is dumped into the lake. Also we think that the city should install telephones at all bathing beaches, which we are sure would be a great aid in life-saving. Furthermore, we are of the opinion that the efficiency of the pulmotor should be investigated, as evidence at this inquest has shown that as a means of resuscitation it is of little if no value. This was the verdict returned by the coroner's jury at the morgue last night in the inquest into the death of Walter Johnston who was drowned at Sunnydale bathing beach two weeks ago.

George Braham Wouldn't Take Anything For the Good Tanlac Did Him.

"I wouldn't take all the gold you could pile up around me if the good Tanlac has done me," said George W. Braham, of 31 Grove avenue, Toronto, recently.

"When I returned from overseas I was pretty much of a wreck. I used to have fainting spells, and my nerves were in such a bad state that I used to jump at the least sound. My stomach was always out of order so that whatever I ate upset me. I never knew what it was to have a good night's sleep, and I always got up in the morning feeling tired and weary. I was steadily losing weight, and finally got as weak as a rat."

"One evening I said to my wife, 'I think I'll try a bottle of Tanlac.' I did, and the result was wonderful. It just seemed to meet my needs from the start, and has relieved me of all my troubles. It gave me a good appetite so that I can now eat well and my food agrees with me. My nerves are so steady and I no longer have the fainting spells. I sleep fine and I'm stronger in every way. If there's any medicine that's worth its weight in gold, it's Tanlac, and I want to express my gratitude for what it has done for me."

Tanlac is sold in Toronto by Tammen drug stores and by an established agency in every town.

FLEMING RAPS RAILWAY BOARD

Says Power Vested Is Incentive to Strike—Labor Men Reply.

Said R. J. Fleming yesterday to the press: "The province has created a body which has the power to take our system away from us—to seize the property of Toronto Railway shareholders, to destroy the company's credit, and to impair the value of the shareholders' assets. Such a power, vested by law in the Ontario Railway Board, is a direct incentive to strikes."

Labor opinion regarding these sentiments is that the arguments works both ways. Many of those interviewed yesterday stated that the "unjustifiable powers" referred to by the general manager of the Toronto Railway Company was not peculiar to the Ontario Railway Board.

TUESDAY MORNING, JUNE 29

Why is McAdoo Popular?

If government operation of railways be so unpopular in the United States, why is it that Hon. William G. McAdoo, who operated the United States railways for a considerable period as the representative of the government, is today one of the most popular men in the United States, and bids fair to have the presidential nomination forced upon him? Only a few days ago Mr. McAdoo gave to the press a vigorous defence of his railway administration. The government, he said, had pulled the railways out of a hole, and as soon as they were given back to the companies they fell into the hole again.

The experience of the public with the roads since they passed under corporate control has opened the eyes of a good many people who were denouncing government operation. If Mr. McAdoo be nominated as director-general of railways will be under review during the whole campaign, and his election would mean a long stride toward railway nationalization. The farmers, the railway men, and a large number of people in the United States openly advocate government ownership and operation, while others are ready to admit that it is inevitable. Canadians should not interpret public opinion in the United States by what they see in the New York press.

The White Collar Boys.

A press despatch from Winnipeg announces that sixty per cent. of the settlers going upon the land served by the Canadian National Railway are the "white collar poor" and we are told:

Sixty per cent. of the settlers now taking up farms along the C.N.R. line are back-to-the-land bookkeepers, tradesmen, artisans, shopkeepers, clerks and other folk who are seeking relief from the high cost of living in the cities.

We hope these adventurous souls will prosper and that they are not going upon the land without some experience in farming. Evidently they have some capital, because it is a long journey out West, something must be paid for the land, a habitation of some kind must be erected, and the settler must have food and fuel, not to mention live stock and implements, while he is waiting for his first crop to be sown and harvested.

The problem still remains for the white collar boy who would find the fare to Winnipeg a considerable hedge to get over. How is the bookkeeper, the clerk and the professional man in reduced circumstances to profit by the back-to-the-land prescription? Evidently he must have the land to go to, and this reminds us that the Farmers' Sun is authority for the statement that there are thousands of abandoned farms in Ontario. Let the white collar boy call at our neighbor's office and find which of these farms is most available.

We fear, however, that the "abandoned farm" is always in the next county. A white collar boy in Connecticut recently sought to find and take possession of one of these abandoned farms, but he returned to town pursued by watch dogs and constables and with a bullet in his shoulder from a spring gun. Some of the farms were owned by men who lived in town, but they were not sufficiently abandoned to invite settlement.

Half Educated Mediocrity.

Alfred Noyes, the English poet, in his lectures at Princeton University, has been arraigning intellectual Bohemism for nearly all the troubles of the world, including the great war. In a desperate attempt to be smart or original, the modern writer, in his opinion, has worked exclusively along destructive lines. Respect for religious and civil authority has been sapped and established institutions have

been brought into hatred and contempt. Just as Voltaire, Rousseau and other literary geniuses paved the way for the French revolution, and the reign of terror, so, in the opinion of Mr. Noyes, our present day writers have brought about the Bolshevism which has triumphed in Russia and hopes to triumph throughout the world.

In Russia the writings of Tolstoy and others may have prepared the educated classes to welcome a revolution. The nihilist movement in that country was largely the work of university students and graduates, including not a few members of the nobility. The great bulk of the population took no part in the effort to overthrow the government of the czar, and probably never read or heard of the writers who were causing such ferment. In the English speaking world it is to be doubted if literary men have done much to cause political changes or shatter political institutions. On this side of the ocean Henry George is almost unique as a writer who turned the attention of people generally to fundamental economic problems. Yet state ownership of all land has few supporters, and every effort to introduce the mildest form of single tax meets with stubborn resistance.

There is, however, a crook in nearly every human mind which at one time or another inclines the possessor towards Socialism, Bolshevism, or some other form of revolution. Wealthy men who would howl like Indians if the doctrines of Socialism were applied to them and their estates are discovered every now and then to be financing a Socialist newspaper or a Socialist party. Editors of the leading Socialist papers in New York city say that the public would be dumfounded if they knew the real names of their contributors. The man who has made the most money out of watered stock and other abuses in our economic system will have a sudden feeling of revulsion against the whole system and want to destroy it. As a rule, however, he holds on tight to his wad.

Literary Bolshevism are probably doing little harm because their writings are little read except by other literary Bolshevists. The power of the written word seems to have disappeared amongst us, even as has the power of the spoken word. A writer with a wonderful pen or novel just as a real orator might cause the very stones to rise in mutiny. But with the universal spread of education we have landed in what Mr. Noyes calls "the hood of half-educated mediocrity." The real harm is not being done by "intellectual Bolshevism" but by Bolshevism who are not intellectual. It is the crude, coarse appeal of the secretly circulated paper in a foreign tongue among newly arrived immigrants which is to be feared, and the no less crude poster or circular in English which is apt to appear whenever any disturbance threatens the peace and good order of a municipality.

Mr. Keoves, addressing the court for defence, said: "The psychology of the man is important. If the court did not know the psychology of the man, the evidence brought before them might leave suspicions in the minds of people who heard it, but when the psychology of the man is appreciated it explains away any suggestion that the things mentioned in the charges can be connected in any way with anything that may be called scandalous."

The judge-advocate, in his summing up, said the evidence for the prosecution, put at its highest, would not warrant the court in convicting Major Clark of behaving in a scandalous manner.

PLAGUE IN VERA CRUZ IS NOW UNDER CONTROL.

Vera Cruz, June 28. — During the past week, only four cases of bubonic plague have been reported. There are eight cases at present in the hospital here. Of those previously admitted with the disease, four have died and two have recovered. The navigation companies have decided to renew their services to this port in view of the fact that the epidemic appears completely under control.

CANADA'S RIGHT TO VOTE IN LEAGUE

Dominions' Exclusion Impossible, Says Democratic Chairman.

KEYNOTE SPEECH

Attacks Republican Platform As Reactionary and Provincial.

San Francisco, June 28.—The league of nations covenant was championed as the "Monroe doctrine of the world" by Homer S. Cummings, temporary chairman of the Democratic national convention, in his keynote address at the opening session today.

Of the peace treaty's defeat in the United States senate, he said: "No blacker crime against civilization has ever soiled the pages of our history." He declared for endorsement of the peace treaty and the league of nations by the United States without reservations of any nature, including a vote in the league assembly.

Dealing with this phase of the subject, he said: "There is great pretence of alarm because the United States has one vote in the international assembly, against the six votes of Great Britain, Canada, Australia, New Zealand, South Africa and India. This popular argument against the league of nations is as insincere as it is stupid. It ignores the fact that the executive council, and not the assembly, is the governing body of the league, and that our country is one of the five countries having permanent membership in the council. The colonial votes exist only in the assembly.

"Nor should we forget that France has but one vote; Italy has but one vote, and Japan has but one vote. If there were any injustice in the arrangement, surely these nations would have sensed it and objected to it. Cannot Exclude Dominions. "Moreover, the United States insisted that Cuba, Haiti, Liberia, Panama, Nicaragua, Honduras, Guatemala should each be given a vote as well as the nations of South America, including the nations which are bound by vital interests to the United States, or indeed, directly under our tutelage, we have more votes in the league of nations than any other nation. How these nations in good faith urge that they be given a voice, and that they deny a voice to such self-governing nations as Canada, New Zealand, and the rest, which, relatively speaking, made far more sacrifices in the war than our own country? It is an opportunity to be heard in the league, and the safety of each nation resides in the fact that no action can be taken without the consent of all.

Mr. Cummings dealt in detail with the other objections which have been put forward by opponents of the league of nations and cited the Republican and Progressive platforms of 1916 as part of the record placing the United States in favor of such a league.

"What nations stand outside?" he asked. "Revolutionary Mexico, Bolshevist Russia, unspeakable Turkey and—this United States. Declaring the Democratic party's stand on the question, he said: "We will not submit to the repudiation of the peace treaty or to any process by which it is whittled down to the vanishing point. We decline to compromise our principles or pawn our immortal souls for selfish purposes. We do not turn our backs upon the history of the last three years. We seek no avenue of retreat."

Attacks Republican Platform. Only passing reference was made to the Irish question by Mr. Cummings. Referring to the platform adopted by the Republican party, which he characterized as "reactionary and provincial" and subjected to a severe criticism, he said: "The oppressed people of the earth will look to it in vain. It contains no message of hope for Ireland, no word of mercy for Armenia, and it conceals a sword for Mexico. It is the work of men concerned more with material things than with human rights."

A large part of Mr. Cummings' speech was taken up with a defence of the Wilson administration and a review of the work it has accomplished. He paid a high tribute to President Wilson and dealt at length with the attacks which have been made against him by his political opponents. Malice followed him to the peace pact, he said, and widespread propaganda made it imperative when he returned from Paris to "make a struggle for that which had been won at incalculable cost. This meant wreck

REVISED SUIT TAX MADE RETROACTIVE

Applies to Ready-to-Wear Clothing If Not Paid For.

Ottawa, June 28.—(By Canadian Press).—Men's clothing made to measure is not taxable at a lower price than \$50 for suit or overcoat under a new ruling of the minister of inland revenue today. This tax is retroactive to June 17 on clothing delivered since that date and not paid for. Clothes that have been paid for are not subject to a refund of any taxation paid. Consideration was given the fact that tailors cannot make up men's clothing at the same prices charged for ready-to-wear factories. The absence of a distinction between the two on taxable price, therefore, worked a hardship on tailors and the government accordingly made a new basis of taxation for tailored clothes.

COURT-MARTIAL ACQUITS OFFICER OF ARTILLERY

London, June 16.—A charge of scandalous conduct, unbecoming an officer and a gentleman, brought against Major H. Brent Clark of the Royal Garrison Artillery well-known in the army as the "Human Martini" collapsed at a Woolwich court-martial on Saturday. There was a further charge of conduct prejudicial to good order and military discipline.

The first charge, the court decision on the second will be promulgated in due course. It was stated that Major Clark, who held strong views on what he called "the human army," had invited gunners to his quarters, had played cards with them, invited them to drink, and had allowed them to sit with their tunics off and their shirt collars undone.

Evidence as to Major Clark's irreproachable character was given by Major Mr. Keoves, addressing the court for defence, said: "The psychology of the man is important. If the court did not know the psychology of the man, the evidence brought before them might leave suspicions in the minds of people who heard it, but when the psychology of the man is appreciated it explains away any suggestion that the things mentioned in the charges can be connected in any way with anything that may be called scandalous."

QUET IS RESTORED IN CENTRE OF ANCONA

Rome, June 28.—Quiet was restored today in the centre of Ancona, according to despatches from that city. The anarchists who have been creating serious disorders there retiring to the suburbs. The central party of the city was cleared when a detachment of carabinieri, protected by artillery, marched thru the quarter, where the anarchist forces had been in possession.

QUEBEC TRAIN ROBBERS RECEIVE LONG SENTENCES

Quebec, June 28.—Hon. Justice Desjardins passed the following sentences this morning in the Harlaque train-robbery: George Topping, the alleged leader of the gang, gets a life term at St. Vincent de Paul; his confederates, Proteau and Levasseur, are respectively awarded a sentence of 25 and 15 years.

She eloped up the receiver, drank a cup of lukewarm coffee, noting subconsciously that Jose must have had a fire ready against the time of her awakening, and again consulted the files before her. Then again she used the telephone, ringing the Lower End office. This time it was another voice answering her.

"Where's Johnson, the irrigation foreman?" "Out in the south fields."

"Send out for both of them. I'm coming right down as fast as a horse will carry me, and I want to talk with them. Wait a minute—I'll tell you when I'm thru with you. Who are you, anyway?" "Williams, the ranch carpenter."

"What are you doing today?" "Ralph needed at the office where you are?" "No. You see—"

"You bet I see!" she cried warmly. "The first thing I see is that I've got more men on the job than I need. If there's no work for you to do, call tonight for your time. If you've got anything to do, go do it."

"Some of the calves, I don't know just how many yet. He insisted on my treating them the old way."

"Slaked lime? Or sulphur fumes?" she asked quickly. "And you insisted on chloroform?" "You've hit it!" he exclaimed, wonderingly. "How'd you know?"

"I haven't been loafing on the job the last six months," she laughed. "I've been at the school at Davis and hobnobbing with some of the university men at Berkeley. They're doing some great work there. Doc, I'll want to talk to you about it. You're going down there, expenses paid, to brush up with a course or two this year. Now, how soon can you get back here?"

"Trevors? Oh, Trevors is fired. I'm running the ranch myself. And, Doc, I need a few men like you! Can you come early tomorrow?—Tonight? You're a God-blessed brick! Yes, I'll stop that murderous sulphur treatment if it isn't too late. Good-by."

She lost no time in calling for Bill Crowdy, the man whom Trevors had put into Tripp's place.

"By the way," she said, when the man with the voice which had sounded so boyish in her ears answered again, "who are you?"

"Ed Masters," he told her. "Electrician, you know."

A glance at the pay-roll in front of her showed that Edward Masters, general electrician, was a new man, and was drawing \$85 monthly.

"What are you doing this afternoon?" she demanded sharply—"Just hanging around the office?" "Is that the way you earn your \$85?" "Not always. But Trevors told me to be on hand today to take some orders."

"And you're an electrician, hanging around for orders? That's your first job. Send the first man you can get to touch one of those calves with the lung worm. And not to do anything else but get ready to talk with me. I'll be down in half an hour."

CHAPTER V. (Continued)

Tripp explained succinctly. He and the general manager had disagreed openly and frequently about that part of the work in which, until the coming of Trevors, the veterinarian had been entirely unhampered. Two months ago Trevors had reduced Tripp's wages and had threatened another cut.

"Just to make me quit, you know," he added. "And I would have quit if it had been any other outfit in the world."

"I know," she said, and she did understand. "Go on. What was the excuse for canning you?"

"Case of lung worms," he told her. "Some of the calves, I don't know just how many yet. He insisted on my treating them the old way."

"Slaked lime? Or sulphur fumes?" she asked quickly. "And you insisted on chloroform?"

"You've hit it!" he exclaimed, wonderingly. "How'd you know?"

DAVID HARUM AT THE ROYAL. Fourth Comedy With Tom Wise in Leading Role Scores Notable Success.

In a way, a reputation as a comedian on the stage is as dangerous as the fame of a wit in the house of commons. When people think a man's business is to be funny first, last and all the time, they are apt to suppose he cannot do anything else.

Tom Wise has the comedian's fortune and his background; and both were admirably shown last night at the Royal Alexandra in "David Harum," which is called a comedy, but is a progressive revelation of a big man's character in a film climax of general interest.
