THREE FATALITIES RESULT IN PARIS OF MAY DAY RIOTS

Hundred and Two Were Wounded and 103 Persons Under Arrest.

Paris, May 2.—Official figures issued today give the casualties resulting from the disorders yesterday as three dead and 102 wounded, of whom six remain in hospitals, two of them in a dangerous condition. The arrests aggregated 103.

The foreigners among those arrested are to be deported. Alexandre Blanc, extreme Socialist deputy, who was injured in yesterday's clash with the police, will be prosecuted on a charge of abuse of the police. Parliamentary immunity, it is stated, will not apply to his case, which, it is asserted, was a flagrant offence. M. Blanc was one of the deputies who met the Germans in Switzerland during the war at an international Socialist conference.

The strike of the railroads for nationalization of the railways, which is to be joined tomorrow by the miners and dockmen, has resulted thus far in hindering traffic only on four of the five big systems—the Eastern, Northern, Orleans and the Paris, Lyons & Mediterranean. Temporarily, however, the state line which runs to Havre is tied up.

"The strike is a complete failure," said Yves le Troquer, the minister of public works, today. Services on all lines were curtailed today. The Parisian forces were operating about 50 per cent except the Lazare State System, which canceled all trains from the capital.

Will Protect Workers. The government's explanation to fight the strike for nationalization has been voiced by M. le Troquer and Premier Millerand. M. Millerand said the government is prepared to do its duty in the maintenance of order and to protect the men who remain at work. M. le Troquer expressed confidence in the outcome of the situation. He explained that "e had foreseen the conflict, and that as a result, the railways, public services and industries had been provided with greater supplies of coal than they had had at any time since the signing of the armistice.

In carrying out its policy to break the strike the government again has (Continued on Page 12, Column 7.)

HOUSEWIVES WILL GET THEIR BREAD

Strike of Bakers and Drivers Delayed for One Week.

Housewives will still be able to supply their needs in bread, the Journeymen Bakers' Union having decided to delay action until the fate of the daylight baking bill is known. This was the vote taken at a largely attended meeting held on Saturday night, and another held on Sunday afternoon at Occident Hall. "Our reason for delaying the strike is to concentrate all our efforts upon the passage of the bill in the provincial house, calling for day work only in bakeries," stated an official of the union. If there is no third reading of the bill, and it fails to pass, then there will be no recourse open to us but to strike. We understand that the bill will come up for its third reading in a week. It was further stated that the union believed that the strike of the bakers in Hamilton would be best assisted if the Toronto bakers remained at work and subscribed to the Hamilton funds.

ALL SWEDEN MOURNS THE CROWN PRINCESS

Stockholm, May 2.—The entire nation has been plunged into mourning by the death yesterday of Crown Princess Gustave Adolph of Sweden, daughter of the Duke of Gothenburg, King Gustave, who was in Nizza, and Queen Victoria, who had just arrived at the bedside of her sick mother in Baden, have been notified and are returning for the funeral. The official report of the physicians who attended the crown princess gives the cause of death as general blood poisoning or pyemia. She had suffered from inflammation of the ear, which necessitated an operation last December, and this was followed by maxillary suppuration. Last Friday morning erysipelas developed around the right ear, but the crown princess still appeared to be in no danger. She was able to be up Saturday morning, but suffered a sudden change of the worse and died within a few hours. Weakness of the heart, augmented by the crown princess' expectant motherhood, was given as the contributing cause of her death.

The Toronto Bicycle Club had its first run of the season on Sunday afternoon, when a couple of hundred enthusiasts joined the party, in the upper corner of the picture is the club champion, Harry Martin, whose record is well over 300 miles in 24 hours on the Hamilton Highway.

LAND AGITATION IN WEST IRELAND SPREADING FAST

Much Damage to Live Stock and Property and Houses Fired Into. BITTER FIGHT COMING. London, May 2.—The land agitation in west Ireland is continuing to make rapid headway, according to a despatch to The London Times, and has spread to County Clare. Cattle driving and other forms of intimidation are said to be of almost daily occurrence. Grazing lands are stripped of their stock, fences and gates are broken, walls are smashed, and houses fired into by armed parties. Large and small holders alike are the victims. The despatch says it is openly boasted that the "coming fight in the west for land will be one of the biggest things the country has seen for some time."

It is pointed out that the country is full of young men who were unable to emigrate during the war, and that their activities cannot find an outlet within the few acres possessed by their parents, says The Times. The police barracks at Gortin, County Tyrone, was burned yesterday by 40 armed men, who held up the village and prevented interference. The police buildings at Plumbridge also were burned.

JAPANESE ACTIONS IN SIBERIA BLAMED

International Railway Board Sends Identical Telegram to Their Governments. Vladivostok, May 2.—The members of the International railway board, with the exception of the Japanese member, yesterday forwarded to their governments an identical telegram, which places them on record as protesting against the actions of the Japanese military in Siberia. The telegram charges the Japanese with actually delaying the evacuation of the Czechs, instead of assisting them, for which purpose, it is stated, the foreign troops are supposed to be in Siberia. It adds that the railroad committee believes that representation to the Tokyo government would result in securing a proper observance by the Japanese command in Siberia of the inter-allied railway agreement.

The railroad board, says the telegram, "having examined reports of the actions of Japanese troops in the railway districts are of the opinion, first, that General Semenov systematically set aside the terms of the allied railway agreement; second, that the Japanese military acquiesced and themselves usurped the functions of the allied railway board; and, third, that the Japanese military by placing troops at principal points on the Chinese eastern railway, which the allied agreement assigned to the Chinese to guard and allowing such detachments to interfere with matters affecting railway traffic, provoked conflicts resulting in needless loss of life to Chinese, Russians and Czechs, and also jeopardized the movements of trains."

LLOYD GEORGE ILL ORDERED TO REST

London, May 2.—Mr. Lloyd George has been ordered by his physicians to remain in bed for a few days because of what is described as a mild attack of bronchitis and fatigue from his San Remo activities. The premier's indisposition first became noticeable at Friday's Irish conference, at the conclusion of which he cancelled his appointment to visit the King Friday night at Windsor Castle.

GEN. TOWNSHEND PAYS VISIT TO CITY

Says Holy War Likely if Sultan Turned Out of Constantinople. Major-General Sir Charles V. F. Townshend, K.C.B., D.S.O., arrived at Toronto from New York late on Saturday night and went immediately to the York Club, where he will be a guest until his departure for Hamilton on Tuesday. General Townshend may be best remembered for his part in the Mesopotamian campaign up till the fall of Kut-el-Amara, at which battle he was the outstanding hero. He has a historic connection with Canada, his ancestor, Viscount Townshend, having been associated with Wolfe at the capture of Quebec in 1759.

Must Use Tact. Because of the prominent part played by General Townshend in the campaigns against Turkey in Mesopotamia, his views on eastern questions may be taken as authoritative. In an interview yesterday, Sir Charles expressed the belief that the military measures being taken to enforce the peace treaty with Turkey must be handled with extreme tact and diplomacy. He gave as his opinion that if the sultan were turned out of Constantinople, all Mohammedan countries would unite in a holy war under the green flag of the Prophet. Although he favors military measures, he understands the situation and realizes the need for diplomacy in handling the Mohammedans.

Ex-Premier Clemenceau of France made the statement that "the surrender of Turkey shortened the war by (Continued on Page 6, Column 4.)

FIVE IN OKLAHOMA KILLED BY TORNADO

At Least Eight Seriously Injured and Buildings Are Demolished. Muskogee, Okla., May 2.—Five persons are known to have been killed and at least eight seriously injured in a tornado which swept the countryside north of Chelsea late today. Passengers on a passing railroad train said they saw several buildings near Choteau picked up by the storm and demolished. All Missouri, Kansas and Texas railroad wires were leveled by the storm. According to reports reaching the despatcher's office by roundabout lines, the storm struck Lusta, a small town northwest of Choteau.

THE CASE OF P. C. LOGIE.

The police commissioners will on Tuesday consider certain charges against P. C. Logie. The deputy chief of police has stated that these charges do not concern the public and has refused to allow them to be made public through the newspapers. It has been stated that these charges arise out of a recent case in which P. C. Logie gave evidence. That case was fought through the public courts and it naturally follows that the sequel to it should also be open to the public. An open investigation into the charges against Logie would tend to disarm possible criticism to the effect that they result from an effort to "get back" at Logie for statements he made as a witness reflecting upon police administration. The commissioners would be well advised to act in a perfectly frank manner in dealing with this highly contentious case.

GET TOGETHER FOR GRATITUDE, ADVISES DEFENDER OF KUT

Thoroughly in Sympathy With Those Who Saved the Empire. TURKS CHIVALROUS. "My comrades, let me offer you these words of advice in regard to your various associations—use economy of price and raise up your ranks and your claims, your just claims, will be listened to. If I were in parliament I would say to the government, why spend time discussing silly schemes about building palaces, making new roads when you are not acting fairly towards the men who won the war? That question had to be faced—it was unjust. If the British lads—and in British I include the G.W.V.A. and so I did—used by Sir Charles Townshend, the hero of Kut-el-Amara, last night, in concluding a powerful and amusing address at the Allen Theatre, Richmond, was "Crowded Beyond Doors."

The meeting was under the auspices of the central branch of the G.W.V.A. and so great was the demand for admission that the doors (Continued on Page 12, Column 3.)

RADICAL LEADERS' PLANS FELL FLAT

Strikes and Destruction of Property in U. S. Did Not Materialize. Washington, May 2.—Plans of radical leaders for countrywide May Day demonstrations involving strikes and the destruction of life and property, fell flat, department of justice officials claim, because the authorities were forewarned and issued timely notice to the public. Reports received here show that a number of strikes were instituted over the week-end, but in nearly every case it is declared, these were local in nature, and due to the regular May Day explanation of wage contracts.

GRACE FOR MOVING.

Prince in New Zealand Strike Identifies Himself With People

Auckland, N. Z., May 2.—The Prince of Wales resumed his tour of New Zealand by train today, the strike of the railwaymen having been ended. This afternoon the prince reached Taumarunui, having been welcomed everywhere with enthusiasm. An interesting incident connected with the strike is related. Prior to the settlement of the walkout the prince was told there would be no difficulty in finding men to run the royal train. "Will they run trains for the people?" the prince inquired. "At present they will not," a railroad official replied. "That being so," the prince responded, "they cannot run trains for me, I am one of the people." The Prince of Wales will now be able to carry out his tour of the northern part of the island of New Zealand. His train left Auckland this afternoon. The battle cruiser Renown will sail Monday to meet the prince at Wellington. The tour of the prince thru northern New Zealand had been abandoned owing to the obstinacy of the locomotive engineers and other striking railroaders, and the prince had arranged to leave Auckland yesterday, on board the Renown for Wellington. The calling off of the strike, however, induced the prince to alter his program.

NEW FEDERAL PLAN AIDS IN COMBATING HIGH COST OF LIVING

Hold Meat Prices in Check by Ensuring Ample Forage Crops. ADVICE TO STOCKMEN FORECAST OF DIVIDEND

Ottawa, May 2.—(By Canadian Press)—With every probability that meat prices will remain fairly high for some time to come, and with a desire to do everything possible to combat as far as humanly possible, the present high cost of living, the federal department of agriculture is planning an extensive campaign to overcome at least one element of the difficulty by inaugurating a comprehensive campaign for an increased acreage of forage crops in Canada for the coming year. Dr. G. H. Griedale, assistant to S. A. Toimie, minister of agriculture, stated tonight that while every member of the government recognized that the potential possibilities of the livestock in this country were enormous, it was essential that something more be done to develop them to the fullest possible extent in order that a sufficient quantity of good feed could be provided to carry the stock over long and severe winters. This applied particularly to the western provinces, where the serious droughts of the last two seasons have caused great hardship to the cattle here by cutting off the supply of prairie hay, which, with every case, it is declared, these were the whole feed supply of these animals during the winter. "The possibilities for the production (Continued on Page 6, Column 7.)

MORDEN ANNOUNCES TERMS OF CANADA'S HUGE STEEL MERGER

Forty-One Per Cent. of Half-Billion in Stock to Be Issued at Start.

Montreal, May 2.—The new British Empire Steel Corporation, the largest consolidation in the British Empire and second only to the United States Steel Corporation, has now emerged from the nebulous stage into that of definite existence as an imperial organization. Capitalized at \$500,000,000, this Canadian consolidation of steel, coal and transportation companies associating the iron and coal deposits of the Atlantic seaboard of the Dominion with the steel-making experience and financial resources of Great Britain is now an accomplished fact, according to Colonel W. Grant Morden, who today outlined the aims and projects of the great merger and stated that the division of the share capital of the corporation was to be as follows:

GENERAL INCREASE IN PENSIONS LIKELY TO BE RECOMMENDED

Some Expect Federal Committee Will Favor Twenty-Five Per Cent. Advance. NO WIDOWS' REDUCTION

Ottawa, May 2.—(By Canadian Press)—The deliberations of the special committee on pensions are being watched with interest by pensioners in all parts of Canada, for the question of continuing the present bonus to pensioners, and also the matter of readjustment of the pensions scale are being thoroughly gone into. The committee hopes to issue a report, but will keep the details of that report until it has finished investigation re-establishment. There is an expectation, however, that the report from the committee to the house of commons will recommend a general increase in pensions with amendments to the act about half-way between the proposals of the G.W.V.A. and the pension commissioners. From various sources the committee has been advised that an increase of 25 per cent. is necessary if pensioners are to be saved from hardship, and many members of the committee seem to favor such increase. To Overcome Hardship. In the case of widowed mothers whose pensions are being reduced because of other income, the committee is expected to make some provision that there shall be no reduction, whatever may be earned or derived from other sources. Many instances have been given where widowed mothers and other aged dependents of soldiers were suffering thru a too strict interpretation of the present clause of the act, and members of the committee seem to be generally of the opinion that these deductions are penalizing thrift. The extension of time of allowing disability pensions to tuberculosis and major amputation cases has also been urged on the committee. In order to reach a decision on the present case, an examination is being (Continued on Page 5, Column 3.)

GERMANY APPEALS TO DISFRANCHISE

Inhabitants of Plebiscite Regions Begged to Remain German. London, May 2.—The German government has sent the Germans of Upper Silesia, Schleswig-Holstein, Malmédy and the Saar region an appeal saying that although the inhabitants of these regions are subject to a plebiscite and cannot participate in the Reichstag elections June 6, there is no doubt when the time comes for a decision, these regions will show by a crushing majority their desire forever to remain attached to Germany, says a Brussels despatch to The London Times. The government and the national assembly, the despatch adds, have agreed to postpone the plebiscite elections for these regions and places immediately adjacent to them until the question of their nationality is decided. Meanwhile, deputies sent to the national assembly by these districts will be considered deputies of the Reichstag.

JUST OUT OF THE WORKROOMS—DINEEN'S

A stylish Fur Scarf or Neckpiece is a very comfortable garment just now. Spring furs are quite the craze in London, Paris and New York. In the warmer climates of Florida and Southern California, nearly all the ladies are wearing costly fur neckpieces, and in Toronto they are also very popular. The new furs down from our workrooms are made in Natural Animal Scarfs, Shoulder Capes, Flat Scarfs, Choker Neckpieces, in Moleskin, Fitch, Ermine and Fox Scarfs, in the following colors: Taupe, Cinnamon, Lucille, Georgette, Pointed and White Fox. The buyer gets the benefit. Dineen's, 140 Yonge street.

ALDERWOMAN CALLS SPADE A SPADE

Mrs. Hamilton Outspokenly Denounces Hiding of Truth on Venereal Disease.

Cannon, who served at Kut El Amara, were present at the Union Station on Saturday night to welcome Gen. Sir Charles Townshend, K.C.B., D.S.O., on his arrival in the city, on behalf of the Beaches branch.

Time for Plain Speaking.

If we would eliminate such words from our every day language, she declared Mrs. Hamilton, but because we think it to be necessary a terrific toll is being taken, one in every eight out of a population of half a million suffering from this dread disease. The speaker said that a great increase was seen in the operations on women in lunatic asylums, all arising from contact with venereal disease. According to Mrs. Hamilton a large proportion of sufferers, especially young people, are innocent, and when confronted by the medical man, were often heard to ask the question, why were we not told of this? Much of the trouble is caused thru a mistaken notion of parents as to their duty to their children, but said the speaker, psychologists tell us that when a child asks for something it should be told just as much as it understands, and the phraseology should be carefully considered.

Would Teach Sex Hygiene.

The gift of life-reproduction should not be lightly taken, the speaker added and that the church itself should be the shrine of purity. Mrs. Hamilton would have sex hygiene taught in the normal school, if we would have our children properly trained in sex matters. This was already being done in England and the United States, Mrs. Hamilton said that buying and selling prostitution was a violation of the great instinct, and the greatest of God's gifts, love, should never be disregarded. She also said that unless the country took the matter up seriously Canada would go down in rottenness as some of the older countries had already gone, but with the co-operation of the Dominion government she was hopeful that this menace to our national life would be prevented.

GOT TO SERVICE TWO HOURS LATE

Punctual Pastor, Meets Congregation Returning; Day-light Saving Muddles Many.

Some confusion was experienced among the churches thruout the east end yesterday in connection with the change of time, particularly with regard to the morning services.

A number of pastors observed the new time altho unable to communicate with the majority of the members of their congregation, while others set the time for morning services as usual. It is safe to state that many worshippers thruout the eastern section of the city were considerably late, while others were one hour too early for morning services.

In the evening all churches held their usual quota of worship.

Rev. L. Terry, pastor, Hope Methodist Church, Danforth avenue, stated to The World that many members phoned for information regarding the hours of service, and that he telephoned many of his disant members the hours set for services.

A story was told in the east end yesterday regarding certain ministers who put his clock back one hour instead of forward by mistake, and on arrival at his church at 11:05 a.m. new time, was surprised to meet the remainder of his congregation returning to their homes after waiting two hours for their preacher.

POTATO EMBARGO URGED BY WOMEN

Want Dominion Council to Memorialize the Federal Authorities.

Hamilton, Ont., May 2.—The price of potatoes can be better reduced by the placing of an embargo on them by the boycott method is the opinion of the Hamilton Local Council of Women. It was decided at the quarterly meeting held yesterday, to ask the National Council to memorialize the federal government to place an embargo on potatoes.

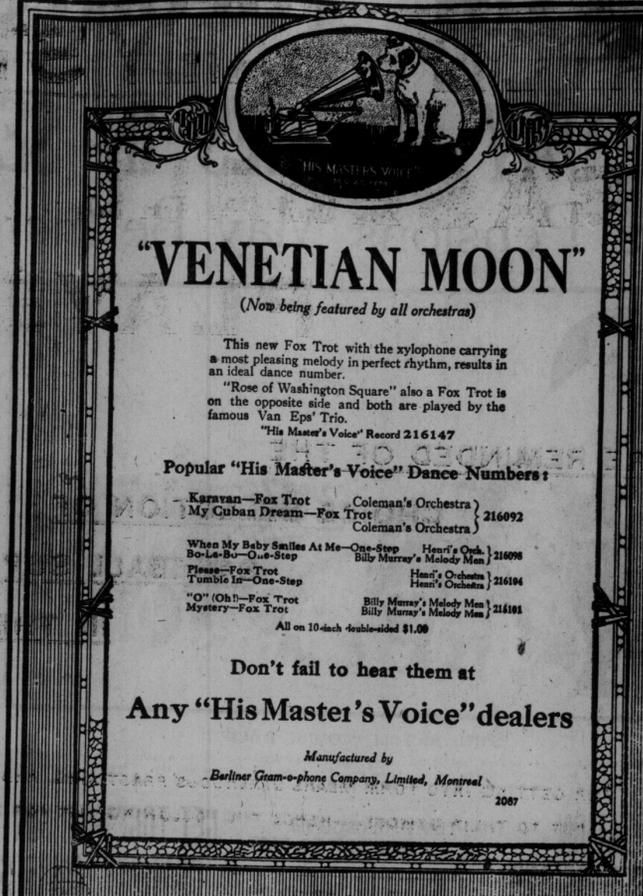

The decision was reached after a discussion on the potato boycott launched by the women's federations. Mrs. H. V. Parsons, Toronto, corresponding secretary of the National Council, who was present, spoke on the cars of potatoes in Canada last year and the present supply and price.

Altho The Woman's Century Magazine never received any financial aid from it, a resolution was passed that the council of the National Council, who was present, spoke on the cars of potatoes in Canada last year and the present supply and price.

Britain's Refusal Sends Russian Envoys Home

London, May 2.—Russia's trade delegation at Copenhagen has decided to return to Russia owing to the reported refusal of Great Britain to admit Maxim Litvinov to England, and because no answer was received to its appeal to the San Remo conference that the trade negotiations be transferred to some other country.

A dispatch to The Daily Herald says a despatch to The Daily Herald from the Danish capital, in which the Danish government's refusal to accept the trade negotiations, was probably be sent to the central committee of the Russian cooperative societies and endeavor to place small orders.

SENATOR PRINGLE DEAD IN OTTAWA

Sudden Passing Mourned by Friends in Public and Private Life.

Ottawa, May 2.—Senator Clive Pringle died at the Chateau Laurier Hotel this afternoon at 1.45. Death was due to heart trouble, from which he suffered for many months. He was born in Grafton, Ont., was 49 years of age and a son of Mr. and Mrs. Frederick Pringle of Grafton.

Ottawa, May 2.—(Special)—"Senator Clive Pringle had the most personal friends of any man in Canada," said one of the colleagues of the late Senator Pringle today. "Few men enjoyed the friendships of life so much as he. A giant physically, he was equally great in generosity and loyalty."

FAMINE IN BREAD FACED BY OTTAWA

Nearly All Union Bakers on Strike—Situation is Serious.

Ottawa, May 2.—The union bakers of the city, with certain minor exceptions, have gone on strike. The striking bakers claim that tomorrow only one-quarter of the people of Ottawa will be able to get bread, and after tomorrow bread will be indeed a scarce article.

The master bakers conceded the demands of the men as to wages, but refused to agree to a closed shop. Moreover, as announced by the Bread Company, the largest bakers in Ottawa, the price of bread tomorrow will advance one cent a loaf. The Bread Company being a non-union shop, is not affected by the strike. However, the company announces that it has raised the wages of its men to harmonize with present cost of living, and the increase in the price of bread is the only alternative.

HAMILTON

Hamilton, May 2.—Practically all the journeymen bakers are out on strike. The plumbers of the city are still at work, but it is feared that they will strike on Tuesday.

James B. Adams died at his home, 113 Forest avenue, yesterday afternoon. He had resided in Hamilton for over 60 years.

The Hamilton Rowing Club annual meeting was held yesterday and was the most largely attended in the history of the club. W. H. Cooper was elected president.

Declaring a day of prayer for the Northwest Mounted Police, who were disgraced their uniforms, until now it is hard to tell whether the officer is a human being or an animal. Ald. A. A. Heaps of Winnipeg this afternoon, at a meeting held in the Princess Theatre, discussed the Winnipeg strike and appealed for financial aid for the defence committee.

WOUNDING CHARGE.

Thomas Growlowski, 16 Centre avenue, was arrested by John, 577, on Saturday night, charged with wounding Male Mocher, 2 Army street. The police alleged that the men commenced quarrelling over a game of cards and in the struggle that followed, Growlowski drew a knife, stabbing Mocher in the left leg. Mocher was removed to the General Hospital.

DUKE ADVISED DAUGHTER DEAD

Crown Princess Gustav Adolph of Sweden Passes.

Stockholm, May 1.—Crown Princess Gustave Adolph of Sweden, who before her marriage was Princess Margaret of Connaught, died here this afternoon.

London, May 1.—The Duke of Connaught received news here of the death in Stockholm of his daughter, Crown Princess Gustave Adolph of Sweden, amidst hundreds of congratulatory messages sent him on his seventieth birthday.

Crown Princess Gustave Adolph was the eldest daughter of the Duke of Connaught, former governor-general of Canada. Before her marriage to Crown Prince Gustavus Adolphus of Sweden on June 15, 1905, she was Princess Margaret of Connaught. Since her marriage she has borne five children, four boys and a girl. Her mother, the Duchess of Connaught, died on March 14, 1917. The princess, who was born Jan. 18, 1882, was often termed the "tomboy" of the royal family because of her fondness for out-

of-door life. She is also survived by her brother, Prince Arthur of Connaught, and her sister, Lady Alex. Ramsay, wife of Commander Alex. R. M. Ramsay, R.N. Lady Ramsay is familiarly known in Canada as Princess Patricia, after whom one of Canada's premier fighting forces—the Princess Patricia's—was named after its formation in 1914.

Expect a Further Attack On the Merchant Marine

Ottawa, May 2.—(By Canadian Press)—That the Canadian government merchant marine is due for some further rough handling from members of the opposition is indicated in several questions which are scheduled to come before the house of commons, early next week. A significant item will appear on the order paper on Monday afternoon, when J. H. Sinclair (Antigonish and Guysboro), will ask if the rates of freight charged by vessels of the Canadian Government Merchant Marine, Limited, are subject in any way to the control of the United States shipping board.

GERMAN EX-ARMY OFFICER INSANE

Frederick, N.B., May 1.—Sheriff John E. Hawthorn, upon his return from taking prisoners to the marine penitentiary at Dorchester, is quoted as declaring that Werner Horne, the former German army officer, who attempted to blow up the International bridge on the Canadian Pacific Railway at St. Croix, has gone insane. Horne has been working in the tailor shop since he entered the penitentiary, and has been a model prisoner, it is said. He will be deported to Germany if the Berlin government will take him.

COMMONS STENOGRAPHERS' WAGES ARE QUESTIONED

Ottawa, May 2.—(By Canadian Press)—Salaries of messengers and other attendants of the house of commons, compared with the wages paid to male stenographers, will form the basis of a question to be asked on Monday by P. F. Casgrain (Charlevoix-Montmorency). He wants to know if salaries of the messengers and attendants have been raised to \$4 per day, as from the first of April, 1919, while the salary of the male stenographers on the members' stenography staff has remained at \$3.50 per day. Mr. Casgrain asks the reason for such a difference, and what the government proposes to do in regard to it.

GUELPH EXPECTS RECORD IN BUILDING ACTIVITY

Guelph, May 2.—(Special)—After a dull period in the building line in Guelph since the new year, reports for the month of April show that building operations are now going ahead at full swing, and prospects are that the year 1920 will break all previous records. The customs receipts for the month of April showed an increase of \$13,760.82 over the corresponding month last year. Special to The Toronto World. Ottawa, May 2.—Rumors are still coursing thru the corridors of parliament that Sir Robert Borden may come back sufficiently recovered to take up the duties of premiership, and, therefore, that there will be no necessity for the Unionist caucus soon to be held to take up the question of a new leadership. Another is that Hon. Dr. Reid, who has gone to the States to see Sir Robert, will ask to be relieved from office—that he must desires a rest. IRISH REPUBLICANS BUSY IN TORONTO

Call for Dominion-Wide Agitation Against British Rule in Ireland.

Friends of Irish freedom met in St. Mary's Hall yesterday afternoon and passed a resolution condemning Britain's methods, her honesty, her status over Ireland, and calling for a Dominion-wide agitation on behalf of the "lawful government of Ireland." It was moved by Ed Donnelly and seconded by Fred Totten, as follows: "Whereas, the English government is no longer a de facto government over three-fourths of Irish territory, and whereas, the lawful government of the republic of Ireland is prevented from functioning by an English army of occupation, and whereas, the verdict of a coroner's jury charges the British government with instigating the murder of the mayor of Cork, therefore: Be it resolved, that this meeting of Canadians of Irish blood, called under the auspices of the Toronto branch of the Friends of Irish Freedom, joins hands with the Irish race in Australia, the United States and elsewhere, in protesting against the brutal arrogance of an imperial power that treats her war pledges as scraps of paper, and violates the elementary laws of international justice, by denying to the Irish people what England forced Germany to concede to Schleswig-Holstein and to Poland, and by adopting the deportation methods of Von Bissing in Belgium by the wholesale deportation of Irishmen to England, where they are held without charge or trial, and this meeting further pledges all present to carry the agitation into every part of the Dominion until the rights maintained by Englishmen in their own land are recognized in Ireland."

A CROSS-TOWN SUBURBAN TRAIN SERVICE

The prospect of three or four weeks of racing at Thorncliffe track this summer, and the lack of street car accommodation in the city, has suggested some kind of organization, directed by the city, to induce the C.P.R. to put on a cross-town shuttle train, once an hour each way, between Dundas street (just across the Humber) thru Lambton, West Toronto, Dufferin street, Bathurst, Avenue road, Yonge street station, Leslie, Agincourt (perhaps Whitby and Oshawa). The workmen to and from Leslie, and people in the west who want to get downtown by Yonge street cars, and a lot of people who live along the C.P.R.'s cross-town line between the Humber and the Don, would use this service and save a lot of time. Mayor Church may ask for a report on the scheme.

Murdered Man's Bankbook Dug Up in Cellar

After three hours of digging, the missing bankbook of Ramoden Hassan was dug up on Friday in the same cellar where the body was found two weeks ago. A handkerchief with the bankbook and Hassan's belt and some papers were also found in a corner of the cellar at a depth of two feet. The bankbook and other articles were burned and charred and soaked in blood. The bankbook had been found by the police, Dosey leading the police in all developments of the case.

GENERAL INCREASE IN PENSIONS LIKELY

(Continued from Page 1.)
Amendment to the figures of the department of soldiers' civil re-establishment would cost the government \$1,000,000. "Due to Service" Clause. Some changes are also expected in the act in regard to the "due to service" clause as it stands at present, and affects aggravation of a disability. These are necessary because during the war soldiers were given a certain measure of life insurance, and pension was paid on a disability incurred while on service. In some cases a man became eligible for pension thru an accident which might as easily have occurred had he still been a civilian. Now, it is expected, a disability will have to be attributable to service before any pension is paid. Several members of the committee feel quite strongly on the clause which debars from pension the widow of a soldier married to him after the appearance of his disability. They claim that in the case of many pensionable disabilities there is nothing to prevent the man from marrying, and one or two have suggested that the prospective bride who postponed her marriage to a soldier until he returned from overseas is being penalized as against the woman who was married, perhaps on the eve of her husband's departure for overseas, and drew separation allowance and assigned pay during his absence. Suggested an Amendment. An amendment to the act was suggested to guard against any tendency of a woman marrying a soldier on his deathbed, in the hope of drawing pension, but members of the committee claimed this would be subject to too strict interpretation. The suggestion of the pensions board to fix a permanent disability after three years, had met with strenuous objection, for it is claimed in some cases that a man's disability may never be at such a state that it could be classed as permanent. However, if any change to this effect is made, it is expected that there will be added a clause which would allow the pensioner to have his case reviewed at any time his disability increased. Commutation of Pensions. The commutation of all pensions under 20 per cent, is also creating much discussion. If any provision along these lines is made, the extent of commutation is expected to be reduced to men with disabilities up to ten per cent. This would bring the Canadian act more on a footing with the United States act, the pensions board officials have stated that a man with less than ten per cent disability in the United States receives no pensions. In any such clauses which may be inserted in the act, it is fully expected that commutation will be made voluntarily, and also that pensioners shall have the right to return for a further review in the event of disability increase or a new disability making its appearance. In interests of Economy. BULLETIN TELLS WHICH PLANTS ARE POISONOUS

The old saying that "One man's meat is another man's poison" appears to be true in the case of different kinds of live stock. It is a fact that some plants which poison horses are not injurious to cattle or sheep, and some which cause loss among cattle and sheep are not eaten by swine and horses. In Bulletin No. 39, second series of the experimental farms, "Principal Poisonous Plants of Canada," by Miss Faith Fyles, B.A., obtainable free upon application to the publications branch, department of agriculture, Ottawa, a list of plants which do injury to the various classes of animals is given. The bulletin, which is prepared for live stock owners, gives information regarding poisonous plants and enables the farmer to distinguish the most harmful species in his neighborhood so that he may be able to avoid pasturing animals on infested areas until the danger is past. The yearly loss due to plant poisoning is known to be on the increase, but the amount of the loss is not ascertainable because many fatalities are attributed to other causes thru lack of knowledge of poisonous plants.

Monday Morning, May 3.

Fizzling May Day.

There's a reason for the paucity of the attendance at Toronto's May Day celebration in comparison with the demonstration last year. In 1919 the crowd nearly filled the Arena.

The difference between the absentees and the denouncers is that the absentees have declared their adherence to constitutional methods as the right way to achieve social reconstruction.

Anybody who thinks that a new heaven and a new earth can be acquired overnight, by violent method, fools himself.

But the only people in Canada who have taken over a semblance of a community, the Doukhobors, are much maligned.

I think that, also in practice there is a great freedom, yet in actual theory the status of the dominions is of a subject character.

It is interesting, by the way, as indicating how the idea remains in England that there must be some centrally supreme body in London.

Contrary to what has been everywhere believed, there is, then, an imperial cabinet—a very different thing from an imperial war cabinet.

The abstention of practically all the well known labor leaders from participation in the extremity of May-dayism, is a good sign in a dull sky.

The center is a pathetic figure these days, and the merciless landlord ought to be, if repentance is not a vanished grace. It is merely to refrain from using truthful figures about the cost of shelter, and anyway, everyone knows or hears how grinding they are.

Misery loves company, but there is no comfort in being told that in all

other places things are just as bad, and in some a great deal worse. Winnipeg suffers, cruelly from a shortage of houses and consequent high rents.

They do some things pretty well across the sea. Early in the war a British law was passed which kept rents down to pre-war prices.

What would the Canadian renter say, if his monthly charge were only thirty per cent. above what it was in May, 1914? He would feel as if the age of manna had recurred.

Centralizers Keep at It.

The fear of Canada acting like the nation her membership of the league of nations proclaims her to be impels many interesting expressions on both sides of the Atlantic.

The Mail and Empire intimates of it is folly for Canada to think of becoming a self-governing as Australia and South Africa.

I think that, also in practice there is a great freedom, yet in actual theory the status of the dominions is of a subject character.

SYNOPSIS OF PRECEDING CHAPTERS.

Alice Fairbanks had won her way thru life by her optimism. Her father dead, her mother an invalid, the family poor, Alice has always had hard work and no pleasure.

DISCOVERY.

Alice never knew how she went thru that class. There are some women who have the ability to think and act quickly under any circumstances.

CHAPTER 73.

"God bless you, there are some women who have the ability to think and act quickly under any circumstances.

So she sat perfectly still and was miserable and thoroughly frightened.

There before her was David—David, the man she had been engaged to for a few blissful months, whose image had never been entirely banished from her heart.

For more than an hour he talked, outlining the work for the term, while the rest of the class took occasional notes, and while Alice kept her head down, her pencil motionless against her note book, hoping she was not betraying her inward agitation.

How rich his voice was, she thought, full of pleasing inflections, unlike the dry, monotonous tones of the former lecturer. She could not help but notice, too, what an excellent lecturer he was, now he was talking what could be a very dry subject and making it so thoroughly fascinating.

The class came to an end, and Alice rose last, protected by the figures standing in front of her.

She hunted up the protected bench where she had first met him. A small boy stood there, a note in his hand.

"Is there a Miss Fairbanks here?" he asked.

"Yes, I am," she answered.

"I mustn't see him," Alice repeated. "You can't avoid it. To run away would be cowardly."

"How did you know?" Christine asked eagerly. "The trouble will be that I mustn't see him," Alice repeated.

Ross Horses Win and Lose

CAREFUL WINS THE OPENING FEATURE

Defeating Ross Entry in Two- Year-Old Stake—Another For Boniface.

Pimlico, Md., May 1.—What promises to be one of the most notable race meetings in the history of the Maryland Jockey Club, was inaugurated at Pimlico track this afternoon. Everything was propitious for the opening, the track was in splendid shape, in fact, the whole plant looked up and spruce as the opening chase course at Pimlico is now one of the safest and best in the country.

The clubhouse contingent turned out strong this afternoon. Society from Washington, Baltimore, Philadelphia and New York were well represented at the Green Spring Valley and Long Island set made their presence felt during the running of the inaugural Steeplechase.

The feature of the opening program was the Pimlico Nursery Stakes for two-year-olds at four and a half furlongs, in which W. J. Salmon's Wrack Lily, Careful again showed a clean pair of heels and won the race in easy fashion. Intriguing, owned by J. K. I. Ross, was the runner-up all the way, but at no time menaced the leader. The race carried a net value of \$2,100 to the winner.

Winning today's stake marked Careful's fourth straight victory in many starts. The inaugural Steeplechase at two miles, was won by R. Farr's Arc de Triomphe gelding Royal Arch, which fended cleanly through and had little difficulty in disposing of Genevieve B. in the final quarter. Genevieve B. showed game performance and lasted well for the place.

W. L. Coe's Clopatra, making her first start of the season, was most fancied in the Woomer Stakes, but the best she could do was to finish third, after making up considerable ground when she started. The winner turned up in H. P. Whitney's Arcturus, which under a confident ride by P. Collett, drew out with little effort to score a handy victory.

Boniface, owned by J. K. I. Ross, kept his place in the winning ways when he managed to nose out Bonadine in the Merchants' Handicap. Bonadine appeared to have the race, his mare, when entering the stretch, but weakened slightly when the winner challenged in the final quarter. Boniface showed a good performance for a first out.

THORNCIFFE HORSES ARRIVE AT WOODBINE

Including Three King's Plate Candidates Looking in Good Shape.

The arrival of the Thorncliffe stable horses at Woodbine Park on Saturday added local interest to the daily training news, that is becoming more plentiful as the date of the opening for the forthcoming race meet draws nearer. Less than three weeks will now elapse before the joyful shout, "They are off!" will be heard for many blocks. The racing division of the Thorncliffe stable comprises nine horses, headed by the aged and consistent foreign-bred race mare, Easter Lily, that was last seen in color towards the close of 1917, when a three-year-old. Easter Lily is now a well-developed, well possessing lots of substance and a grand set of legs.

The stable mare for representation in the King's Plate from three candidates: Alice in Wonderland, by First Night—Fair Anne; Rose, by Nealon—Rose Lawrence, and Fair and Warner, by First Night—Fair Anne.

While not a handsome lot to look upon, the platers have all shown considerable in their training, and Fair and Warner has the advantage of a little racing experience, having run unplaced in the plate last year. She has not shed her coat as yet, and looks quite untidy and plain, yet she is the biggest of the trio and is a strong-boned miss, that knows no limb ailment.

Rose Richmond is very striking because of a broad flash in her face, which shows in sharp contrast to her rich chestnut color. She sports an eyecore in a split, but this has been killed and causes no further worry.

Alice in Wonderland is rather small, compactly built filly, of a somewhat moody temperament, one that should race at any position without taxing the strength of her jock. Those that know her claim she has speed, and that's what is required for a winner.

The balance of the stable is composed of two-year-olds, and for the most part they are fine-looking lots, with the brown filly, Southern Shore, claiming the beauty honors. She is the best of the set of the farm's former premier stallion, Orme Shore (now dead), and one of the highly-regarded blood mares, Southern Maid. This handsome miss is a dark-brown in color that many will claim to be black when fitted for the gray. Her conformation is typical of the breed and entitled to honors in most any showing, being as well developed as many older colts. Her bones is nearer the fine type, but substantial, flat and flinty. The stable boys say she has speed and will contribute to the old horse's fame as a sire of race horses.

Watch Flower, by the famous race horse, Calgary, and out of Gold Bud, is a

KENTUCKY DERBY NEXT SATURDAY COSSACK SIZES UP THE HORSES

A local follower of the horses has seen much of the Kentucky Derby candidates at work this spring in the States, and writes as follows about the chances of the horses in the rich classic that will be decided next Saturday at Churchill Downs:

Of all the candidates, there are two that I would like to see running deck-and-neck and catching the judges' eyes for one-two. These are Golden Broom and the Swimmer. Of these two, Golden Broom, with four white legs and a white face, can run like a streak of lightning. By Sweeper, his sire, he represents the great line of Bonnie Scotland and the dam, Ben Brush, broodmare, and Sweeper's dam brings in thru her sire a strain of Wisdom by Blink-holes, son of Katoonian and the immortal Queen Mary; Uncas, the sire of Unco Guild, the dam of Havello, which latter was the winner of the Two Thousand in 1912; Sweeper II, is dam of Stockwell, the mighty Havello II, is dam of Sweeper and grand-dam of Golden Broom on the sire's side.

Thru the dam Zuma she comes in the great line of Hanover thru Hamburg, and Fannie Gray thru Hamburg, what the sire of Elizabeth, dam of Zuma, was the dam of the two Thousand, the Nabob, ex Princess. Nutbourne is the sire of Kingly Vale, the sire of St. Edith, the dam of St. Gatien, the sire of Meddler.

Will Never Quit.
In the face of this, dare say until proved that he cannot stay the distance? Four white legs and a white face will never fail until played out in the States. The Swimmer is a dark chestnut colt, inclined to be dappled, without, if my memory is correct, a white spot on a solid color, and a good color. He is a long-striding colt and a slow beginner, but the finisher, whether he starts or drive down to the wire. Believe me, it is a treat and a picture to see him come in the finishing stretch. Whether he starts or drive down to the wire, believe me, it is a treat and a picture to see him come in the finishing stretch. Whether he starts or drive down to the wire, believe me, it is a treat and a picture to see him come in the finishing stretch.

The Canadian Constancy.
Commander Rose, in Constancy, a filly, King Thrush and Royal Jester, seems to have the race in his hand and may run on Derby day.

Constancy is by Ambassadors, dam by Melton, and as good as any two-year-old in the States. Royal Jester, who stay the distance, is fit and not troubled with flukes, vagaries. There are two well thru the dam. The sire needs no comment. He is full brother to Brown Prince, who won from 1 1/2 to 2 1/2 miles with the weight up.

Differences in taste are not more varied than differences in physical structure.

The tendencies and type of men are pictured in the Semi-ready physique type system—where allowance is made for seven distinct types, with 14 variations from each type. It covers the man who says "I can't be fitted," for he can.

In colours, in textures, in styles and in proportions this collection of Semi-ready tailored clothes has the advantage of the worth price-label-in-the-pocket, a value based on the cost of the fabric—always.

SALVATION ARMY BUSY YESTERDAY

Choir and Bandmen Assist in Three Festival Services.

It remained for the songsters to provide the music at the various Salvation Army services throut Toronto yesterday, as the bandmen were engaged in the Bandmen's Council, three services being held in Victoria Hall, Queen and Berrt streets.

There were morning, afternoon and evening sessions, Commissioner W. J. Richards being in charge of each. He was assisted by Col. John McMillan, chief secretary, and other officers of the headquarters staff.

"Passion for Souls" was the commissioner's subject. He pointed out that music was secondary in the Salvation Army, and that the real object was to lead people to Christ. The work of the bands was merely a means to that end. He called for a reconstruction in the lives of the bandmen, that they might the better achieve the goal.

The meetings were not open to the public, and were in connection with the annual Bandmen's and Songsters' Festival, which was celebrated in Massey Hall Saturday evening. Five hundred musicians were on the platform, 200 being songsters and 300 instrumentalists. A splendid program was given, consisting of songs and band selections by various corps bands, as well as by the massed bands.

There was a large and very appreciative audience. A feature was the soprano solo, "Just As I Am," by Mrs. Capt. Laurie. The massed bands were under the direction of Staff Bandmaster P. W. Beer.

AMONG THE BLOUSES.

Many of the new over-blouses are lavishly embroidered. The lotus design is becoming very popular and is effective if worked in solid embroidery, with stem finished in Indian Punjab stitch. Large flowers with dark centres, the petals shaded into lighter tones, are very lovely if care is taken in blending the different shades. Drapings and birds are particularly striking and often take the place of the small flower clusters.

Then, too, there is the over-blouse trimmed with lace. A handsome model is of glove silk, with a front panel and cuff trimming of flat lace.

There are limits to what a dumb animal will stand; but a woman can talk—and she will endure anything on earth, so long as you will let her go on TALKING about it.

Divorce is the parachute, which lets us down safely from the storm clouds of love's "Seventh Heaven."

Of course, a man doesn't really want to break any woman's heart; but he can't help feeling secretly thrilled at the thought that he probably goes about chipping them, at every turn.

This is the time of year, when a man stops bragging about his brute strength, and begins "babbling" about "brain-fag," whenever his wife's eye casually wanders toward the lawnmower and the curtain rods.

A man can nobly give up a great love, for the sake of conscience or duty—but it's awfully hard for him to relinquish a piquant little flirtation that has just begun to be interesting.

The whole art of martial happiness consists in treating the person you love best in the world as considerably and politely as you would a casual acquaintance; but you never know how hard that is, until you have to share the same flat, the same breakfast table, and the same dollar.

BASIS OF MARRIAGE IS TOO MATERIAL

A. E. S. Smythe Urges Need of Higher Ideals of Comradeship.

A. E. S. Smythe, president of the Toronto Theosophical Society, and general secretary of the Canadian Theosophical Society, speaking last night at Foresters' Hall, upon the relationship of reincarnation to marriage, expressed the opinion that the argument of the Christian church, based upon the so-called Scriptural command, "Them whom God hath joined together, let no man part," was wrong in principle, and the command should read: "Whom God hath sundered, let no man bring together."

Mr. Smythe deprecated the tendency of the Christian system to either base its laws of divorce upon merely physical misconduct or to condemn it altogether, pointing out that the more occult schools of thought realized that incompatibility of temperament, disharmony and other of the more emotional factors in the social fabric were important in the consideration of divorce. Above all else, did Mr. Smythe condemn the cult of twin affinities as mere excuses for unnatural means of walking out from the path of duty. Marriage was essential to the lesson of all-round harmony in life, and its greatest lesson was devotion to duty, long-suffering patience and resolute endurance. There was no doubt that people were brought together so they might better learn the principles of unselfishness and sacrifice which were necessary to the highest evolution of the soul. Another important consideration was the law of Karma, that no man or woman could do injury to another, or in any way trample upon the laws of Nature without reaping the harvest in the course of time. Hence the unhappy marriages with their disharmonies and final disasters.

RIGHTIOUSNESS SPELLS TRUE CIVILIZATION

Dr. Ribourg Shows Need for Kingdom of God in Social Intercourse.

Rev. Dr. Ribourg, preaching at Saint Alban's Cathedral, Sunday evening, on "Thirsting for Righteousness," said in part:

"When we say that a man is true or righteous, we mean that he fits into civilized human society and is harmonious with it as the atom fits its proper place in the crystal or the cell in the structure of muscle or nerve. Every right or true act, word or life fits somewhere and goes to make social harmony as each musical note belongs to a symphony.

"The unrighteous person is the discordant note in the harmony of the world. It is unrighteous people who are causing the jars that impede progress and prosperity.

"As we view the world's situation today we must necessarily conclude that there is a large number of unrighteous people whose self interest and selfishness are bringing discord instead of harmony in the world. The policy of 'all for oneself and the devil to the hindmost' is not built on righteousness, it is built on selfishness, which is really unrighteousness.

"No harmony nor peace can exist among men without the righteous spirit of co-operation and good will. Such spirit would inspire men to do to others as they would others to do to them.

"The solution of all social and industrial discords could easily be found if all men, employers and employees, would let the principles of Christian righteousness inspire their motives and control their actions.

"The kingdom of God, which is a kingdom of righteousness, cannot exist in society unless it exists first in the heart of every individual. The

HER ADMIRERS FIGHT FOR BEAUTY'S HAND

Colored Drama Nearly Ends in Bright Red Tragedy.

Dramatis personae: Two negro boys and a little negro girl.

Time: Sunday night.

Place: First Baptist Church, University and Elm streets.

A little negro girl, just 14 years of age, is said by the police to have been the cause of a quarrel between Benjamin Granger and Sam Morgan, two of her admirers, which took place in the First Baptist Church, University and Elm streets, last night. Had not fate taken a hand in the game, the consequences might have been different. As it was both participants were arrested by P.C. Johns (577) on a charge of being disorderly.

Granger is alleged to have drawn a razor, but in making a lunge at his opponent and erstwhile friend the blade of the characteristic weapon snapped in two, otherwise Morgan might not have escaped unscathed. The negro girl is said to have been a spectator to the quarrel from curtain to curtain.

"What's in a Name?"

Facts about your name; its history; its meaning; whence it was derived; its significance; your lucky day and lucky jewel.

By MILDRED MARSHALL

EULALIE.

Th Eulalie, or Eulalia, as it is sometimes preferred, has a Spanish origin as well as pronunciation. The name has come to be used as purely American. Perhaps no other name has a more beautiful or pathetic history. It means "fair speech," and comes from the Greek term for that phrase.

The first Eulalia known to history was a child of twelve, who possessed such extreme of Spanish piety that she escaped from her parents' guardianship and entered Merida, proclaiming herself a Christian and enduring martyrdom in the persecution of Diocletian. The great Christian poet Prudentius has written of the child's beautiful faith and cruel suffering, and spread her fame throuout Europe. The Russians call her Evallia, and the Serbians, Ewallia or Lelica.

Another virgin martyr called Eulalie died at Barcelona. Her relics spread into Guisene and Languedoc and named the villages of Ste. Aulazie and Ste. Eulalie. Both Eulalia and Eulalie are used interchangeably in France and Spain. Eulalia is frequent in England, appearing in very early times in church registries in Devon and Cornwall.

Eulalie's talismanic gem is the agate. If worn by her as an amulet, it will protect her from danger and give her courage and energy. It promises her a pleasant disposition and the gift of persuasion, by which she will always attain her heart's desire. Tuesday is her lucky day, and 2 her lucky number. The wild rose is her flower. Unanimously Protest Against Decision of Authorities to Move Cripples Elsewhere.

At a meeting on Friday night the following resolution was unanimously passed by the executive of the Originals' Club, who have ordered a copy to be sent to the prime minister of Canada, the prime minister of Ontario, his worship the mayor of Toronto, all local, federal and provincial members of parliament, the officials of the department of soldiers' civil re-establishment at Ottawa and Toronto, and to all other veteran organizations and newspapers in the city of Toronto.

"The executive committee of the Originals' Club, in meeting assembled, and with full authority to act for the club, have unanimously resolved to do all in their power to induce the authorities to reconsider their decision to close Euclid Hall and move the helpless returned soldiers therein to other quarters.

"We pray all to whom this resolution is addressed to use their utmost powers in putting forth every effort to induce the authorities to leave our helpless comrades in the home they have known so long and learned to love.

"We are in sympathy with their desire to remain near their friends, we are of the opinion that no expense should be spared in making these homes comfortable and happy.

"Certainly the reasons given by the authorities for the removal of these soldiers is paltry, and should never be considered for a moment.

Have Sympathy of Public.
"We further believe that the sympathies of the public for whom these homes gave even more than life, is entirely with them in their desire to remain where they are in Euclid Hall.

"We also protest against the removal of any disabled soldiers from the place or places where they are now comfortably settled near their friends, and we have in mind particularly in this regard the removal of disabled soldiers from Newmarket to London, Ont.

"We wish to add an appreciation of the efforts made by his worship the mayor, our representatives in parliament, for the action they have already taken in this matter, and also the newspapers of the city for their efforts in bringing this subject before their readers and the returned men, and we add our whole strength to their efforts. We call upon all loyal citizens to enter their protest against the removal of our disabled comrades, and thereby prevent a hideous injustice, also an appalling scandal."

CHORISTER DESERVED PRIZE.
Master Raymond Sears, one of the two Toronto boys who won in Father Flynn's contest for the Paulet choir of New York, sang the Latin version of Gounod's "O Divine Redeemer" at the offertory in St. Francis' Church yesterday. The voice of the boy singing with its beautiful notes fully justified the selection of the leader of the Paulet choir.

Soviet Declares Amnesty For Certain Criminals

London, May 2.—A wireless despatch, received from Moscow today, says that in order to enable prisoners to participate in productive work, the soviet government has decreed an amnesty, except for those condemned as counter-revolutionaries or thugs, bandits, or dangerous criminals. Persons released will be divided into two categories, namely, minor offenders, who will be liberated absolutely on giving an understanding to engage in useful work, and graver offenders, who will be assigned to work under the surveillance of local labor mobilization committees.

Washington, May 2.—Sir Auckland Geddes, the British ambassador, yesterday received a delegation from the Zionist organization of America, which called to thank the British government on behalf of the American Jews for accepting the mandate for Palestine which was awarded it by the supreme council at San Remo. The ambassador was invited to address an extraordinary convention of the Zionist organization to be held in New York on May 9.

PLAYS, PICTURES AND MUSIC

T. C. C. Minstrels.
The attraction for the Princess this week is one that brings back memories of the palmy days of minstrelry in the time of George Frimousse, for the Toronto Canoe Club will present their seventh annual show during the entire week of May 10, with a matinee on Saturday, and in other years, Jack Strathdee, musical director, and Will G. Kelly, organizer and interlocutor, have been in charge of the production, and they have chosen an especially brilliant cast this season from the membership of the club, on form has clever corps of end men, buck and wing dancers, soloists, soft shoe dancers and chorus of over one hundred voices. The seat sale opens at the Princess on Thursday of this week, at 9.30 a.m.

Sir Oliver Lodge at Massey Hall.
Sir Oliver Lodge, the eminent British scientist, who is to speak in Massey Hall on "The Continuity of Existence" Monday evening, May 10, is the author of more than twenty books and other publications on science, religion and psychological research. About two years ago he created a sensation throughout the world by the publication of his psychical work, "Raymond," or "Life and Death," in which he described how he was able to communicate with his son, Capt. Raymond Lodge, who died on the battlefield during the great war. As a public lecturer, Sir Oliver has won a high reputation. Those who heard him speak in Toronto on a former occasion are well aware of his magnetic personality. The seat sale for this forthcoming lecture will open at Massey Hall on Thursday morning, May 6, at 9 o'clock.

At the Star This Week.
I. H. Herk, the eminent burlesque producer, will offer at the Star Theatre this week his brand-new show, the "Singing" Billy Watson Show, with the famous comedian, "Singing" Billy Watson, at its head. It has been Mr. Herk's purpose to produce a show which would make Mr. Watson's capabilities as a versatile comedian stand out in the most never stood out before. For that reason he has secured a book which is rich in its fun possibilities, and which enables Watson to be twice as funny as ever before. Every situation is a scream and every bit of dialog is laugh-producing. There is a splendid chorus and a cast of high calibre, which includes Lawrence Brooks, Al Dupont, Chas. Brown, Purple, Will Rogers, Sadie Banks, Gladys Blum and Myrtle Andrews. Mr. Herk has also been most lavish in his expenditure of money for the scenic artistry is especially rich, and the costume extravagance is on the basis of big musical comedy successes.

At Loew's This Week.
"Behind the Door," starring Robert Bosworth, at Loew's Yonge Street Theatre and Winter Garden this week, is said to be one of the strongest dramatic productions of the season. The popular musical comedy stars, Burke and Durkin, offering "A Boy, a Girl, and a Piano," headed by the vaudeville, which also embraces "Harrington and Players" in a skit, "The Squab," Fred Rogers, "A Dark Lady's Foolishness," Ford and Goodrich, featuring dance specialties; the Wilhoit Trio, "Just Running Around," and Stars and Lea, music, jazz and syncopation.

"The Idol Dancer" at Regent.
Dancing one's way into the heart of a man is an ordinary experience for a graceful woman if fiction writers are to be believed, but Mary, the ward of old "The Duke," a famous widow known in the South Sea Isles, danced her way to the knowledge of which one of two young men's hearts, she was to occupy. This dance is one of the most fascinating scenes from the latest photodrama production of D. W. Griffith, "The Idol Dancer," the feature attraction at the Regent Theatre this week. It is a love story of the South Sea Islands that will thrill everyone who sees it. It is an idyl of primitive life as deliciously wholesome and entertaining as any story that has ever appeared on the screen. In addition a special prologue and musical program has been arranged by Mr. John Arthur, musical director. In the prologue, Miss Lois Landron will be featured. Unique stage settings and lighting effects will add to the pleasure of the production.

"All-of-a-Sudden Peggy."
If you were the daughter of a widow and she married an English lord, then you were wedded to the lord's younger brother, would your mother's husband be your step father or your brother-in-law? It all happens in Marguerite Clark's latest picture, "All-of-a-Sudden Peggy," at the Strand Theatre this week. Probably when you see the picture, you won't worry about the relationship puzzle for it is a very jolly romantic comedy with Marguerite Clark in her most delightful mood. Handsome Jack Mulhall is the leading man.

Fine Film at Madison.
There will be presented at the Madison Theatre today, tomorrow and Wednesday the exceptionally fine Vitaphone picture, "The Garter Girl," starring delightful Corinne Griffith. The story is by O. Henry, and every scene is instinct with his inimitable style.

THROWN FROM HANDCAR.
Brantford, May 2.—(Special).—Thrown from a handcar on the G.T.R. near Burford, John McClary, section foreman of Burford, sustained concussion of the brain and is in a serious condition.

At Royal Alexandra This Week.

The first revue which the leap year has given birth to will make its bow at the Royal Alexandra tonight. It is "Frivolties of 1920," the initial edition of a sequence of extravagant entertainments which C. M. Anderson—but yesterday the "Broncho Billy" of the cinema—plans for the optical and spectacular refreshment of those who like to see the bubbles fizz up from the bottom of their drama, like it nimble of knee, silk of stocking eloquent of shoulder, vivid of hue, gay and rapid in its tempo, as- tonishing in its variety, flippant and impudent in its address, swagger in its carriage, ultra and immaculate in its settings, melodious, fleet of foot and modern.

"Frivolties" concerns itself with pointing a satirical finger at the social, political and amusement episodes now in the public eye and with providing the milliner, the modiste and the scenic artist with an opportunity to combine in a colorful revel.

The Andersons who to this city practically direct from its long and spirited runs in New York, Boston and Philadelphia, and at the conclusion of its long engagement will resume its tour of the principal cities of the continent.

"The Robins Players."
With his biggest ever Robins Players, Edward H. Robins will next Monday evening inaugurate his coming summer season at the Royal Alexandra Theatre in Thompson Buchanan's after the war comedy success, "Civilian Clothes." This will be the first time "Civilian Clothes" has ever been presented by a resident company, and is in keeping with the Robins policy of "The latest and best in entertainment." The popular Robins Players will again be featured this season at the Royal Alexandra. Seats will be placed on sale Thursday morning.

"Keeping Up With the Joneses."
Gus Hill's most successful cartoon play, "Keeping Up With the Joneses," is the attraction at the Grand Opera House this week. The comedy is mounted with beautiful scenery, gorgeous gowns and the story is based on the popular and far-reaching comics of Pop Mopand. It is described as the finest word in musical comedy, with novelty, dancing, singing, original features, laughter, happiness, revelry and wit—the kind that lingers and keeps one always young and blissful. Eighteen new numbers are introduced. It is a typical show for the masses as well as the classes.

At the Allen.
There is a bill at the Allen this week which should appeal to every taste. In the first place, there is an excellent musical program—of Luigi Romaneli's best efforts, splendidly executed by the Allen premier concert orchestra. The overture will be "The Sicilian" composers' overture to the opera by Verdi.

The feature picture will be "The River's End," James Oliver Curwood's great story of the Canadian northwest. "The River's End" has been considered by many the authors most popular work. It is a Canadian story, the action of the play revolving around an outlaw, his imprisonment, his escape, who captured him and died, and his struggle to find peace and happiness at "The River's End." An extraordinary love story is woven into the play by the mutual attraction of the masquerader and the sister of the man whose name he has assumed.

The comedy "Uneasy Feet," is bright and snappy, and presented in an entirely novel manner—a picture that will delight the boys and girls from 8 to 16.

Original Watson at Gayety.
Replete with brand new features, Billy Watson and his new "Parisian Whirl" comes to the Gayety Theatre this week with an offering that will doubtless cause a greater demand for seats this season than it did last season. This new picture is the rule all week. Everything new is promised by Billy Watson, who has always kept his company in the lead.

This season Mr. Watson and his "Parisian Whirl" has done away with the stereotyped ideas of its kind. It is found a sparkling musical comedy, in two acts and six scenes, laid in and around the famous city of Paris. The picture is said to be more than ordinarily clever in construction and 20 musical numbers are introduced during its action. The personality of the company is exceptionally high, among the well-known favorites being Billy Spencer, Original "Grogan", Edgar Bixley, Pearl Lawler, Phil Walsh, Violet Buckley, Harry Howe, and Pearl Turner, and a gorgeously gowned ensemble of thirty dainty little French girls. As an added feature for this week only, Mr. Watson had engaged Rappi, the sensational violinist who has just returned from Europe, where he entertained the soldiers of the allied forces, who fought in the famous battles of the St. Mehl and the Argonne.

Movement by Western Airmen To Form a Big Association

Calgary, May 2.—Calgary airmen back the Vancouver complaint against the Canadian Air Board. It is charged here that the act is taking the cream of the benefits and ignoring the west's rights. A movement is under way to effect a western association, embracing Winnipeg, Saskatoon, Regina, Moose Jaw, Edmonton, Calgary, Lethbridge, Vancouver and Victoria. It is planned to form this association first, and then try to arrange a satisfactory Dominion amalgamation.

Hats in Pastel-Toned Georgettes of Filmy Beauty

Rose-Strewn, Broad Brimmed Organdie Garden Hats

Great Leghorns Encircled With Field Flowers

The New Shining Vista Straws in Vivid Colorings

Hair and Maline Hats of Gossamer Transparency

One and all express the unprecedented vogue for broad picture-brims, and 'twould seem that nature had divested the fields of flowers and grasses just to shower them with careless grace on brim and crown.

The Mellow Gray of the French Room

enhances the exquisite hats of jade, orchid, walnut and beige vista—the new woven straw which looks like satin-lacquered wicker. Here an orchid hair hat with broad leghorn crown and one bewitching rose for adornment—there a big pink organdie hat with picot edge and French flowers exquisitely applied. Each an individual model—so many designs one scarcely knows how to choose—and what a treasure-trove for brides and bridesmaids!

In the Many Crystal Cases of the Show Room

one finds leghorns massed with field flowers, laden with sweeping strands of pastel-toned ostrich or caught in a maze of shimmering ribbons. Hair and maline hats, too, alone or in lovely combination with leghorn or ribbons.

For Sports, the Motor and the Bride's Travel Wear

The sports section abounds in chic, smaller-brimmed models of white georgette with little wings, narrow white ribbons and touches of ostrich. We saw one fetching white taffeta hat in a boyish shape, whose upturned brim was covered with velvet daisies and a gleaming yellow taffeta Hindoo turban with roll of yellow pheasant feathers.
