Barlasch of the Guard

By HENRY SETON MERRIMAN

(Continued.) As the slow autumn approached, it became apparent that Dantzig no longer interested the watchers. Vitis became the base of operations. Smolensk fell and, most wonderful of all, the Russians were retreating on Moscow. Dantzig was no longer on the route. For a time it was of the world forgotten, while, as Barlasch had predicted, free men continued at liberty, though their names had an evil sound, while innocent persons in prison were left to rot there.

Desire continued to receive letters from her husband, full of love and war. For a long time he languished at Konigsberg, hoping every day to be sent forward. Then he followed Murat across the Nieman, and wrote of weary journeys over the rolling plains of Lithuania.

Toward the end of July he mentioned the arrival of de Casteln at headquarters. "With him came a courier," wrote Charles, "bringing you dear letter. I don't believe you love me as I love you. All all events, you do not seem to tell me that you do so often as I want to tell you. Tell me what you do and think every moment of the day—And so on. I have no difficulty in writing as you wish, and I do not find it difficult in setting forth his feelings. The courier is in the saddle."

scarcely sustain its own sparse population, and had nothing to spare for an invading army. This had once been Poland, and was now limited to Russia; but Russia did not care, and the friendship of Lithuania was his many, human friendship which we make sacrifices to preserve—not worth having.

All the while the Russians retreated, and, stranger still, the French followed them, eking out their twenty days' provision. "I will make them fight a big battle, and beat them," said Napoleon; "and then the emperor will see for peace."

But Barclay de Tolly continued to run away from that great battle. Then came the news that Barclay had been deposed; that Kutusoff was coming from the south to take command. It was true enough; and Barclay cheerfully served in a subordinate position to the new chief. September brought great hopes of a battle, for Kutusoff seemed to retreat with less despatch, like a man choosing his ground—Kutusoff, that master of the waiting game.

Early in September, Murat, the impetuous leader of the pursuit, complained to Napoleon that a cavalry charge had not been pushed home. "The horses have no patriotism," he replied. "The men will fight on empty stomachs, but not the horses."

An ominous reply at the beginning of a campaign, while communications were still open. At last, within a few days' march of Moscow, Kutusoff made a stand. At last the great battle was imminent, after a hundred false alarms, after many disappointed hopes. The country had been despoiled of its riches. The Boyardo, running in a wide valley than many of the rivers, which are merely great ditches, accumulated its waters in the waiting game.

"At last," wrote Charles to Desire, on September 8th, "we have a great battle. There has been much fighting the last few days, but I have not heard of it. We are only twenty miles from Moscow. If there is a great battle tomorrow, I shall see Moscow in a few days. For we shall win. I have found out from one who was near him that the emperor saw a comet on the day before yesterday. He thought it was a bad omen. He thought it was a sign that you are French, would militate against the work I had been given to do. He sent at once to Konigsberg, and to come to the work there. De Casteln is the man that the emperor is pleased with me. De Casteln is the best friend I have; I am sure of that. It is said that he will not make proposals of peace when you are in Moscow. In a month I may be back at Dantzig, Desire."

And the next would have been for Desire's eyes alone, had it ever been permitted. For next in succession to his wife's eyes were those of more human love-letters; and those who read the love-letters of another woman's pen. De Casteln had written the letter for the dawn surprised him where he wrote in a shed by the miserable Kaluga, a street which runs to the Moscow. And it was the dawn of September 7, 1812.

RAILWAY CASH

A Lot Of It Is Loaned On Call On Wall Street—Over \$11,000,000 Last Week.

Last week one banking house loaned on call in Wall Street over \$11,000,000 of money owned by railroad corporations. It is estimated by a railway chairman that there is over \$200,000,000 of railway money loaned on call in Chicago and New York at present time.

The loaning of railway money on call in Wall Street is a usual practice. Rail Island, Canadian Pacific, Great Northern, Union Pacific and Pennsylvania are at times very heavy lenders in the street. When these companies sell bonds, unless the proceeds are to be used immediately, it is not at all unusual to put in the hands of the professional lenders to keep it earning sufficient returns to pay the interest on the securities sold. During the tight money period two years ago the Canadian Pacific's loan by railroad corporations was reported to have been \$10,000,000.

These loans are heavy at the present time. Charles F. Smith, president of the Union Pacific, says that the rate of interest on these loans is 4 per cent, 5 per cent, 6 per cent, 7 per cent, 8 per cent, 9 per cent, 10 per cent, 11 per cent, 12 per cent, 13 per cent, 14 per cent, 15 per cent, 16 per cent, 17 per cent, 18 per cent, 19 per cent, 20 per cent, 21 per cent, 22 per cent, 23 per cent, 24 per cent, 25 per cent, 26 per cent, 27 per cent, 28 per cent, 29 per cent, 30 per cent, 31 per cent, 32 per cent, 33 per cent, 34 per cent, 35 per cent, 36 per cent, 37 per cent, 38 per cent, 39 per cent, 40 per cent, 41 per cent, 42 per cent, 43 per cent, 44 per cent, 45 per cent, 46 per cent, 47 per cent, 48 per cent, 49 per cent, 50 per cent, 51 per cent, 52 per cent, 53 per cent, 54 per cent, 55 per cent, 56 per cent, 57 per cent, 58 per cent, 59 per cent, 60 per cent, 61 per cent, 62 per cent, 63 per cent, 64 per cent, 65 per cent, 66 per cent, 67 per cent, 68 per cent, 69 per cent, 70 per cent, 71 per cent, 72 per cent, 73 per cent, 74 per cent, 75 per cent, 76 per cent, 77 per cent, 78 per cent, 79 per cent, 80 per cent, 81 per cent, 82 per cent, 83 per cent, 84 per cent, 85 per cent, 86 per cent, 87 per cent, 88 per cent, 89 per cent, 90 per cent, 91 per cent, 92 per cent, 93 per cent, 94 per cent, 95 per cent, 96 per cent, 97 per cent, 98 per cent, 99 per cent, 100 per cent.

TERRIBLE PAINS ACROSS BACK

SUFFERED EIGHT MONTHS WITH KIDNEY TROUBLE. WOULD HAVE TO STAY IN BED FOR THREE DAYS AT A TIME.

Doan's Kidney Pills CURED HIM

Mr. Thomas Fitzgerald, Hamilton, Ont., writes us as follows: "I was a great sufferer from kidney trouble for eight months. I had terrible pains across the small of my back. I would have to stay in bed for three days at a time and could not do any work. I tried several remedies but of no avail, and also physicians but they were of no use. One day a neighbor of mine advised me to try Doan's Kidney Pills. I was so much discouraged I told him I was tired of trying anything, but he urged me to try one box. I purchased one, and before I was through using it, I found a change for the better so I got five more boxes, and I have had no trouble with my kidneys since. I would not be without Doan's Pills in my house."

THE EVENING TIMES.

ST. JOHN, N. B., DEC. 13, 1905.

AN OBJECT LESSON

Perhaps the Times should revise a former statement to the effect that most of the capital for new industries must come from abroad. It was noted that a great deal of money had been sent away from this city for investment in mines and other speculative enterprises—and much of it lost—that might have been profitably invested in home industries; and this paper was of opinion that at the present time it might be difficult to secure enough home capital not otherwise invested to go very far toward the establishment of new factories. But at this time in the morning's Telegraph is very suggestive. It is to the effect that eight hundred dollars per week has been going out of this city for investment in a loan company in Toronto. Eight hundred dollars per week would be worth \$41,000 per year. It is perhaps fair to assume that many other outside schemes are attracting St. John money in like manner. If so the aggregate, if invested in a prosperous home industry, would give employment to a very large number of artisans and add greatly to the prosperity of the city.

How can such a state of affairs be brought about? What can be done to make St. John people have faith in their town as the people of Amherst, for example, have faith in their town? What can be done to make the St. John man or woman with a little money to invest look about for an opportunity to invest it at home, instead of scouring the continent for an investment that in many cases proves a losing venture? We hear of the local failures, but nobody is eager to tell about losses in outside investments.

The writer remembers a story told him by a St. John man who wanted to enlist local sympathy in a St. John enterprise. He went to one and another citizen and everywhere received commendation and assurances of sympathy, but very little financial encouragement. He learned later that one citizen who professedly had not a dollar to invest outside of his own business was really indulging in foreign speculation.

If the board of trade committee, or any committee of citizens can exhibit a statement showing that some particular industry could be started here with a practically assured prospect of success, this ought to be a good time to do it, and to appeal to St. John people themselves to take stock in it rather than in speculative enterprises in distant places, of which they know little and which confer the benefits arising from the expenditure upon other places. But this of course does not lessen the need of action to awaken the interest of outside investors in the advantages possessed by St. John as a centre for manufacturing purposes. The meeting held in the board of trade rooms last evening should be productive of good. It should set people thinking. There is great need of local patriotism in this matter. This is not a scheme of the board of trade, but a movement for the good of the whole city. Those who have practical ideas should make them known, so that out of the variety of counsel there may come a result of practical benefit.

BOSTON ELECTIONS

Mr. John F. Fitzgerald, Democrat, was easily victorious yesterday over Mr. Louis A. Frothingham, Republican, in the contest for the mayoralty of Boston. The Baptist minister, well known in St. John, who is reported to have said in a sermon on Sunday night that he did not care to see Boston ruled by the Irish is probably not satisfied with the result, for the new mayor, district attorney and many of the aldermen are of Irish descent. While there were two other mayoralty candidates in the field, the struggle soon narrowed itself down to Mr. Fitzgerald and Mr. Frothingham. The former was denounced by the Republicans as a demagogue and the latter by the Democrats as the tool of the corporations. Neither charge was justified to the extent that it was hurled from public platforms and printed in the papers, but the campaign was a hot one. When it was over Mr. Frothingham took his defeat cheerfully and sent a message of congratulation and good wishes to Mr. Fitzgerald. Both are young men, both have been in politics for some years, and, as the Boston Post remarked, there was no reason to fear that the city would go to the bad, whichever of them became the mayor. The new mayor and the district attorney, Mr. John B. Moran, are both strongly pledged against graft in all forms. This is popular at the present time, but the test will come in their administration. As an illustration of the strenuous nature of political campaigning in Boston, it is worth noting that on Saturday Mr. Fitzgerald made thirty short speeches, being whirled from one place to another in an automobile. It was ten or twenty minutes talk, a cheer and a whistle—and repeat.

IN SASKATCHEWAN

It is generally conceded that Premier Scott will win today's election in Saskatchewan, though not with such a sweep as was the result in Alberta. Mr. Haultain has great personal strength. He has, however, to fight again the patronage of two governments and the outspoken opposition of Archbishop Langvin. It would be remarkable if under these conditions he were not defeated. The result in Alberta showed that there is no great public protest in the new provinces against the school clauses of the autonomy bill. Mr. Haultain makes them an in-

due in the Saskatchewan campaign. A Regina dispatch to the Toronto Globe says there are no indications of a hand held either way. The correspondent says it is claimed that the government will carry six seats in the north and nine in the south, which would leave ten altogether for Mr. Haultain. This, he says, is perhaps a reasonable estimate, although he expresses doubt if Mr. Haultain can secure ten seats out of the twenty-five. The latter is conceded to be a better organizer and campaigner than Mr. R. B. Bennett of Alberta, and his personal strength is admitted; but the odds are against him.

THE NAUGHTY WEATHER

The weather set in milder last night, and the soft spell continues. Rain has been falling heavily at intervals this afternoon. The streets are slushy, walking is very disagreeable, and a check has been given to the eagerness of Christmas shoppers. Umbrellas and rubbers are in demand. The day has been so dark at times that artificial lights have been kept burning in stores and offices not well lighted by windows. Even in the well lighted Times office it has been necessary now and then for members of the staff to turn on their desk lights to read with ease. Naturally, nobody likes this sort of weather at this time of year, and the merchants especially are dissatisfied.

BUILDING RECORD

The great demand for lumber in the American market is due to the great activity in the building industry. Note these figures from the New York Commercial:

"The big increase in building for the preceding months of the year were maintained in November, and the business continues upon a satisfactory basis in all parts of the country. During the month just closed, permits were taken out in 22 of the principal cities of the country, according to official reports to Construction News, for the construction of 9,763 buildings involving a cost of \$41,365,518, against 8,627 buildings and \$33,547,140 for the same month a year ago, an increase of 1,138 buildings and \$7,818,378, or 22 per cent. New York shows a gain of 24 per cent., Brooklyn 38, Philadelphia 75, St. Louis 75, San Francisco 122, Cincinnati 66, St. Paul 131, Pittsburgh 43 and Omaha 443. Denver follows this strong lead with 223 per cent, and Washington with 152 per cent. Chicago was the only large city to show a falling off, with a loss of 12 per cent."

A MERITED REBUKE

The courtesies being extended to retiring officials of the big insurance companies who have been found out has aroused the ire of the New York financier, which thus sharply calls the directors to account: "It is a pleasure to note that resignations of disgraced insurance officials and directors are becoming more frequent of late, but what can be said of the ostensible amiability of the boards of directors of these companies which leads to resolutions of respect and regret over the retirement of men beset with every form of wrong practice, and worse? Is it an occasion for tears and lament that a man who, on his own oath, is guilty of misappropriation of thousands and thousands of dollars of the money of policy-holders, should step down and out? Is public esteem for a life insurance president increased by his statement in print that the retirement of an exposed director 'had not been asked for, and was purely voluntary?' or to read that another officer, forced to give up his position under fire, 'will remain a trustee of the company?' "Are directors so lost to the sense of duty that they condone offenses already proven, and further, endorse them by keeping official company with the men who have confessed guilt? If so, it is a matter of congratulation that the plundered policy-holders are not so lost to shame. When these seltsame easy-going directors hasten back to their banks and other business affairs, do they pass resolutions of esteem for the misguided clerk who may be caught in some petty embezzlement? The board of directors which endorses an official caught with his hands plunged in the company's treasure box is establishing a queer code of honor for the young man entering business life, and the evil thus inspired will live long after the name of every pliable insurance director in the country is forgotten. It is high time that these men learned that a feeling of disgust is being expressed among honest men over such a course of stupidity and fat-headedness."

The war on the combining plumbers in Toronto goes merrily on. Two associations have been fined \$5000 each, and seven master plumbers have been fined from \$250 to \$500 each. But there are yet "some 150 members of the Master Plumbers' Association under charge of conspiracy before the police magistrates, and some fifty others have to face charges of having unlawfully conspired by deceit, falsehood and other fraudulent means to obtain money by fraud." After the plumbers have been dealt with, other combines will receive attention. The people are having their innings.

While St. John is talking about new industries, the farmers of the province might consider the question of supplying the home market with eggs, butter, beef, poultry and some other products brought in from other provinces.

HARCOURT

HARCOURT, Dec. 12—Rev. R. Hensley Slavert, Presbyterian minister, went to Wilmet Valley (P.E.I.) yesterday for a few days vacation, before the Strait navigation closes.

Miss Kate M. Keswick of this place has resigned her school at Coldbrook, an adjoining school, and has engaged to teach next term the intermediate department of Hexton Superior school.

Miss Agnes Birt of Aedaville, who had to give up one of the Harcourt primary departments some time ago through ill health, will not be able to resume her school work this year.

James Walsh's new hotel at Kent Junction is nearing completion. It takes much custom that has hitherto come to the Harcourt hotels. People who travel over the Kent-Northern used to take dinner here. Now they are served at Kent Junction.

James King, of the I.C.R. train service, has lately finished a fine one and a half story dwelling house, on his lot next door to the Anglican rectory. James Campbell of Ross River was the contractor.

Miss Maggie Wellwood is still confined to her house by illness. Robert Wellwood has been ill several weeks, but is somewhat improved this week.

There have been several cases of diphtheria in children lately; but all the patients are recovering. Word has been received here that Miss Mildred Mackay of this place, who went to Manitoba last spring, was recently married at Neepawa (Man.) to George Cooker of that place, formerly of Millerton (N.B.).

SACKVILLE

SACKVILLE, Dec. 12—Ruby Rebecca Lodge entertained their sister, Amherst Lodge, last evening. Mrs. McDonald, president of the Rebecca Assembly for the maritime provinces, was present, and gave an interesting address. Misses Henry and Moffat of Amherst also spoke briefly. Supper was served by Ruby Lodge.

Prof. Kidner, superintendent of manual training schools of N. B., was in town today. Thomas Gass of Rodd's drugstore has accepted a position at Moncton, at Cook's drugstore, and will enter upon his new duties the first of the year. Mr. Gass' place here will be taken by Grover Hermes, post office clerk.

Miss Bly of Truro is the guest of her sister, Mrs. P. F. Murray. Mrs. Wm. Tait, formerly of West Sackville, leaves on Friday for Brandon, Manitoba, where she will spend the winter with her sister, Mrs. W. McLean.

The marriage of Miss Cora B. Allen, daughter of Mr. Silas Allen, Cape Soper, and Ernest E. Ward is announced for the 27th inst.

FROM DOCK TO CABINET

The acquisition of cabinet rank by John Burns makes an epoch in imperial government. He is an avowed but a practical Socialist, who believes that the best propaganda work is done by hard-headed administration. That is why he has worked day and night as a London county councillor for the last seventeen years. Burns has been in jail—it was an episode of the Trafalgar Square riots in 1887, when the police earned much malediction. He has also held the chairmanship of the London County Council. He knows he was meant for labor, not for cravat.

ANOTHER MAIL BAG STOLEN

Moncton, N. B., Dec. 12—(Special)—Dr. Carter, post office inspector, was here today investigating the case of a stolen mail bag from Moncton station. The bag, in question, was taken off the C. P. R. train Halifax Monday afternoon, and was to have been put on No. 1 express leaving for St. John at 6 o'clock.

The missing bag was found by snow shovellers this morning at Robinson's Creek Bridge, about a mile from the station. The bag had been cut open and the contents extracted. It is not known whether the bag contained letters or parcels of value.

BILLIARD CHAMPIONSHIP

NEW YORK, Dec. 11.—Cable advices from Paris state that the billiard contest for the world's championship at 18-inch ball line, one shot in balls, will be played in that city, Jan. 15, the contestants being Maurice Vignaux and Willie Hoppe. In accordance with the rules, the contest will be of 90 points. The last contest played for the emblem was between Vignaux and George Sutton, played in Paris, and the former won.

Rev. Samuel Howard, who a few years ago toured Europe, and has since delivered occasional lectures on his trip, spoke last evening in Victoria street. Baptist church on his travels through Switzerland. Personal experiences were related, the scenery, customs of the people were described, and many interesting incidents told of the evening was one of much pleasure to the audience, which was large.

MASSON, P.Q., Nov. 16th, 1906. I have much pleasure in reporting to you the great benefit I have received from taking "Fruit-atives" and I feel that I cannot say too much in favor of a medicine which has done me so much good.

Every part of the body is constantly decaying and being renewed. The dead cells, or tissue waste, should be removed by the skin, kidneys and bowels.

"Fruit-atives" keep the organs clean and healthy. "Fruit-atives" act on the skin, stimulating the millions of minute glands and opening the pores so the waste can escape.

FITZGERALD IS ELECTED

As Mayor of Boston--Beating 8380 Votes--Other Election Results.

Boston, Dec. 12--The Democrats were victorious in Boston today, the municipal election resulting in the election of former Congressman John F. Fitzgerald, in a field of four candidates.

The vote today was unusually heavy for a city election, more than 90,000 votes being cast out of a total registration of 114,000.

It was evident tonight that Mr. Fitzgerald did not receive a full party vote. This was particularly noticeable when the returns were received from ward 8, a Democratic stronghold, which gave Mr. Frothingham an overwhelming plurality.

In the South Boston district, the home of other Democratic leader, who is opposed to Mr. Fitzgerald, Mr. Frothingham received an unusually large vote for a Republican candidate.

Mr. Fitzgerald's plurality is 3,237 less than the vote cast for Judge Dewey. It is known that Judge Dewey was popular among a certain element of the Democrats and it is believed that he also received substantial support from Republican voters.

The city declared in favor of licensing the liquor saloons by a great majority. Boston, Dec. 12--The municipal election for the coming year were settled today for the eighteenth Massachusetts outside of Boston, by the election of legislative bodies and a choice in sixteen of them of chief magistrates, mayors in two cities having two year terms.

There was only one change in the senate regarding the sale of intoxicating liquors, the city of Salem, after several years of hard work, voting by a small margin 21 in a total vote of over 4,800, in favor of closing of the saloons.

THE VALUE OF BEER The Essentials of Quality and Healthfulness. Experience has shown that the prime requisite of a really good Beer are three in number--purity of the materials, treatment in the brewing and proper maturing or aging before marketing.

Perhaps first of importance is the nature and character of the materials used. The Anheuser-Busch Brewing Ass'n., whose product, BECK'S BEER, has come to be considered as a standard over which Beer-Quality is to be judged, have found that materials of the very highest quality must be used, if really good Beer is to result.

This association confirms that it generally admitted among brewers that to produce a Beer of excellence, expensive modern methods of brewing must be followed and the most rigid sanitary precautions observed at all stages.

Anheuser-Busch also contends that the exquisite flavor and acknowledged healthfulness of Budweiser is to be attributed, to a great extent, to their extreme care in maturing and aging. Their storage capacity of over 600,000 barrels makes it unnecessary for them to market their product until perfectly aged, and in consequence it possesses to the greatest degree the quality, mellowness and flavor which has caused Budweiser to be termed by those who know it, "The King of Bottled Beers."

THE TIMES' WASHINGTON LETTER

(From our regular correspondent.) WASHINGTON, D. C., December 8--The fifty-ninth Congress is at last in session. It is the Congress that was elected from thirteen to eighteen months ago. Neither the world nor the United States have stood still since that Congress was elected.

Senator Deveridge of Indiana is, as usual optimistic with reference to the passage of his statehood bill for the admission of Oklahoma and Indian Territory as one state and New Mexico and Arizona as another state. The later combination will make a state that in size will equal if not exceed the area of Texas, Oklahoma and Indian Territory, have a much larger population than any state that has been admitted to the union, and it is said will be entitled to seven representatives in Congress.

With regard to the Parcel Post bill, the main objection to it is stated by the general committee of the five great express companies. The bill would make the post office department a paying institution like the patent office, and it would enable every man, woman and child in the country to wear better shoes, clothes and hats and, in fact, to have everything purchasable at low cost. The bill is opposed to it, and the express companies oppose it through their powerful representatives on the floor of the senate and the little less powerful lobby on the outside.

LAKE LATIMER City Will Allow It to Go Ahead and Do as It Pleases. The city will take no action with regard to lowering Lake Latimer. It was decided at the adjourned meeting of the water and sewerage board yesterday that it would not be wise to interfere between the contractors and that until the lake can be lowered from section 2 on completion of the work matters must remain in statu quo.

A bill was presented on the first day of congress appropriating sixteen and a half millions of dollars (\$16,500,000) for the construction of the Panama Canal, but a majority of congress will not do so. It will doubtless be passed by both houses of congress and receive the signature of the president before the adjournment for the holidays.

OBITUARY Mrs. George Wilson. Mrs. Wilson, wife of George Wilson, of Britain street, died on Monday. The funeral will take place Thursday. Besides her sorrowing husband, Mrs. Wilson is survived by one son, Stanton, in Chicago, and three brothers in California.

NO ONE WHO HAS EVER SEEN OR HEARD THE HELPLESS CHOKING OF A CONSUMPTIVE CAN THINK LIGHTLY OF A COUGH

A single dose of Dr. Wood's Norway Pine Syrup will convince you that it will stop the cough, soothe the throat, and start you on the road to recovery.

DR. WOOD'S NORWAY PINE SYRUP is rich in the lung-healing virtues of the Norway pine tree, skillfully combined with Wild Cherry Bark and the soothing and expectorant properties of other potent medicinal herbs.

HAS NO EQUAL I had a very bad cold which settled on my lungs. I tried many remedies but could get no relief. On the advice of a friend I procured a bottle of Dr. Wood's Norway Pine Syrup.

NOTICE OF ASSIGNMENT NOTICE IS HEREBY GIVEN, THAT SAMUEL ROMANOFF, doing business as the City of Saint John, in the City and County of Saint John and Province of New Brunswick, dry goods merchant, made an assignment to the undersigned, JOHN A. SINGLAIR, of the City of Saint John, in the Province of New Brunswick, barrister-at-law, on the 27th day of December, 1905, of all his estate, property and effects, and credits of the said Samuel Romanoff, for the benefit of his creditors, without preference, under the provisions of Chapter 141, of the Consolidated Statutes of New Brunswick, 1903, and a meeting of the creditors of the said Samuel Romanoff will be held at the office of MARGARET A. SINGLAIR, the Assignee, in the City of Saint John, on Wednesday, the 27th day of December, A. D. 1905, at three o'clock in the afternoon, for the appointment of inspectors, and the giving of directions with reference to disposal of said estate, and for the transaction of such other business as shall properly come before said meeting.

CONDUCTOR IN TROUBLE Reports are being circulated about an I. O. R. conductor running on the northern division which, if true, would make it appear the man is guilty of a very serious offence. He is charged with having committed a criminal assault on a thirteen-year-old girl in Moncton, a few days ago. It is said that he was alone in his house at the time, for his wife was attending a meeting. The little girl was peddling needles, and called at the house. Some of the stories are to the effect that she was overpowered, and some to the contrary. The conductor, it is alleged, tried to stave for his conduct by offering money to the mother of the girl, but they were not accepted, and after this she disappeared.

WOULD GIVE NEW INDUSTRIES TAX EXEMPTION FOR TEN YEARS

Manufacturers at a Meeting Last Night Passed a Resolution to this Effect—Suggestion to Make St. John's Advantages More Generally Known.

At a public meeting in the board of trade rooms last evening a resolution favoring the exemption of new business from taxation as outlined in the act of assembly already existing was adopted. The meeting was not largely attended, but an interesting discussion brought out much that might tend to improve conditions.

President H. B. Schofield, of the board of trade, occupied the chair and the following were present: T. S. Simms, W. J. Fisher, J. A. Likely, J. Hunter White, E. B. LeRoy, M. J. Agar, E. L. Rising, C. W. Brown, W. J. Parke, R. B. Emerson, W. J. Haman, T. H. Beakwood, E. A. Smith, Ald. Bullock, Eben Perkins, John Cudlip, W. E. Earle and J. E. Irvine. W. E. Anderson acted as secretary.

Mr. Fisher said an illustrated book giving a resume of the population, opportunities and main industries of the city was one of the plans the committee had under consideration. The main object was to place the advantages of St. John before the manufacturers in Great Britain and the States. The reference of Mr. Simms to the agitation in Chicago against the increasing number of American firms who were locating in Montreal, Toronto and other cities, made it evident that many were crossing the border, and more would do so in the near future.

RAILWAY SURVEYORS MADE A VERY WEIRD DISCOVERY

And an Uninhabited Town of Well Made Empty Houses Far From Civilization in the Northern Ontario Country—Life Was the Only Thing Lacking.

(Ottawa Citizen.) The location of the new transcontinental railway has opened up vast stretches of wild land territory hitherto unknown to all but a few of the most adventurous explorers or sportsmen, and the reports of the engineers, many of whom are only now returning after a year's wide, are of great interest.

There were, indeed, many things to show that these people had not been ordinary Canadian folk accustomed to life in the bush.

The location of the little settlement was excellent. The clearings stretched down to wide plains of beaver grass. Beyond this the ground was moist, and wild cranberries were abundant.

A Plain Statement

Quality of Beer Depends Upon Superiority of Materials, Treatment and Maturity

Purity is a universal essential in all beers. The observance of cleanliness and sterilization will secure it.

Healthfulness, combined with flavor and taste, constitutes real quality, and these are impossible without the very best materials and the highest order of treatment.

Materials: To provide the public with a really good, palatable and wholesome beer of the Highest Quality, we use the best barley-malt, the highest grade hops, superior yeast, and in our pale beers a small percentage of rice.

Corn we never use, although it is not excluded by authority, and has the advantage of cheapness. We use no substitute of any kind to reduce our expense.

Treatment and Maturity: We employ only the most modern methods of brewing, and our present storing capacity of 600,000 barrels is more than that of any two other breweries in the world.

These facilities enable us to age our beer the length of time necessary to guarantee its purity and maturity—not in printers' ink—but in fact.

Quality, depending upon the character of materials and the methods employed, is the real goal for competition among brewers.

At this goal we have been for many years.
