NO BUCK PASSING There then remained only the other alternative of "passing the buck" to the leader of the Tory party or of summoning parliament, in order that the responsibility of unravelling the tangle might be carried to the House of Com-

might be carried to the mons.

"But what right would Mr. King, himself, deprived of his parliamentary mandate, have to entrust Mr. Meighen, the leader of a minority group, with power in opposition to the clearly expressed will of the electoral majority? Because he commands the most numerous, so far as one can see, is numerous, so far as one can see, is not necessarily the majority of the Interior Schrameck admitted to the newspapermen upon leaving the cabinet council. It bears the title: "An extraordinary tax on all property."

CONFIDENCE MATTER

The Tory press, led by the Montreal Gazette, makes a great parade of the principles of the British constitution; it overlooks the most incontestable of these principles, at least since the revolution of 1688, and that is that the cabinet should have the confidence of the popular chamber. Who is there who will claim even among his most ardent partisans, that Mr. Meighen at present enjoys this confidence? But, they reply, neither does Mr. King enjoy it. That is what remains to be seen, and the only manner in which that can be affirmed is to summon the house so that the majority of the membership might decide who, Mr. King or Mr. Meighen, or more correctly, the Liberal or the Conservative party, should exercise power. Mr. King has done so, and he has acted well. In all logic and reason, he could not do otherwise.

LEADERS IN QUANDARY.

"So much for the constitutional theory. Out side of that there is a side to the situation, that is at once grotesque and disquieting. It is that the three party leaders have been placed in a quasi-impossible situation, that of governing alone or of arriving at an understanding that would lead to a fusion of two of these groups. Worse than that, Mr. King and Mr. Meighen have been placed in such a position that each of them is right with respect to the other and wrong with respect to the other and would not govern without an absolute majority. He has fought relentlessly for the destruction of the Progressive party. He has only half succeeded and he cannot retain power except through the favor of the Progressive members, whom he elowed to be elected by an entente, tacit or secret, in opposition to all his professions of public faith.

QUEBEC, Nov. 7—The report of Mr. Justice Letcilier, who investigated the civic affairs of Quebec, particularly with regard to the referendum that required the rate payers to pass on a loan for \$300,000 for various public works, takes to task Mayor Samson and the members of the city council. The report was issued yesterday and charges negligence on the part of the city authorities in connection with the which it was accompanied, and also charges inertia on the part of the council in dealing with the violations when the facts became known.

Various acts of illegality are charged against administration, which while not reflecting on the personal integrity of the public bodies, nevertheless have placed the city in a position from which it may eventually suffer.

Parliament opens on December 10, providing all legal requirements can be met, for a session without parallel inn the history of the Dominion. IS TAKEN TO TASK TEST OF STRENGTH.

Primarily it will be a test of strength between Liberals and Conservatives, for there is little public business beyond the usual supply so far indicated. Batification of the trade trady between Canada and the West Indies, however, still remains. The treaty has been signed by all the parties, but still needs approval of the Dominion Parliament and of the West Indian legislatures. Premier King vigorously defended the treaty during the election campaign. Mr. Meighen criticized it. Approval of the treaty may provide a lively issue.

FEWER MINISTERS.

When the House opens, cabinet ministers will be reduced in numbers. Premier King and Hon. G. P. Graham, who of the defeated ministers alone remain in the cabinet, will have to find constituencies before they can take their seats in the new House. Should they be unable to do so by the opening, Hon. Ernest Lapointe, Minister of Justice, is the senior member of the government remaining, and in the normal course of things would lead for the Liberals. Hon. J. A. Robb, Minister of Finance, and the new acting Minister of Finance, and the new acting minister of Immigration, comes next in seniority. Premier King's intentions in regard to his own position, it is intimated, however, will be matle known later in the day.

Decision of the government to call Parliament for December 10 has caught to all parliament for December 10 has caught public departments by surprise. There will now have to be much hurrying up if estimates are to be ready.

Ships Buying Fish Are Trading

ST. JOHN'S, Nov. 7—An international tribunal at Washington, presided over by Senator Verinckle of Belgium, has handed drawn a decision in the claim of the American fishing schooner owners against the Newfoundland government for rebate duties on vessels buying herring along the Newfoundland shore, claiming them to fishing and not trading. The decision, according to news reaching here today, was in fagor of Newfoundland, and throws out the claim, which amounted to approximately \$35,000. It was decided that vessels buying herring were trading and not fishing.

the middle of the present month. A feature of the evening will be an illustrated lecture by Prof. E. L. Harvey, of U. N. B., on "The Discoverers of Canada." The council of the club hopes to be able to have on exhibition a unique collection of the Medici Society's reproductions of the works of old masters. For the six lecture meetings of the season the club has a very inviting programme. Ven. Archdeacon A. H. Crowfoot, president, will give an illustrated lecture on "Classic Fainting"; Mrs. Silas Alward will deal with the "Pre-Raphaelites" and James F. Browne will provide an evening on Frans Schubert, the creator of the art song. Musical illustrations will be given with Mr. Browne's address.

The Art Class students will have charge of the programme of the April meeting and at the final meeting Miss Caie will give an address on "Canadian Art, Its Aims and Accomplishments."

Through dark days, in the face of mighty obstacles, the Builders persevered until their track pierced the Rockies and spanned the Continent.

Winnipeg marks the next important step in the movement for Maritime betterment and for greater Canadian co-operation and unity. The delegation going from the Maritimes will be engaged in a mission of the most vital nature, and every Board of Trade in these provinces should be sharply awake to the importance of the occasion.

Winnipeg marks the next important step in the movement for Maritime Beneath a silver lover's moon, Upon the wave-washed sand; Her eyes like diamonds looked in mine, My heart was filled with love divine, The while I held her hand. The while I held her hand. The while I held her hand in the word, That only waves and breezes heard, And cloudys of fleecy lace; Out there upon the beach's sand I stole a kiss, and held her hand—Or she'd have slapped my face.

Stout confidence in the future o The work thus done constituted much more than the building of a Canada marks the message of President road. It gave the previously separ- Beatty in connection with the fortieth ated British provinces the physical anniversary of the completion of the action by which they were joined.

Afterwards, from that long line of steel, branches and connections were put forth, enabling the back country to be opened up. Then, not content with conquering the land, the guiding forces of the C. P. R. launched, in due time, their ships upon both oceans, reaching Europe on the one hand and the Orient on the other. The days of doubt and discouragement were followed by a period of confidence and expansion, and results justified abundantly the hopes and ambitions of those early captains of transportation who ever looked to the hopes and ambitions of those early captains of transportation who ever looked to the hopes and ambitions are not less than the period of confidence and expansion, and ambitions of those early captains of transportation who ever looked to the hopes and ambitions of those early captains of transportation who ever looked to the hopes and as we shead the Greater in the land, the guiding forces are fleet upon what has been accome and expansion, and reflect upon what has been accome and expansion, and the conversation of the Heckville Bugle:

"It looks as if they were victims of a conspiracy, for the books they read, ideal by the necessity of the conversation of their elders, who can be a confidence on the sults.

"It looks opened up. Then, not content with conquering the land, the guiding forces plished. Also, he expresses the belief of transportation who ever looked to far horizons and saw ahead the Greater Capada of the future.

The people of Canada to-day are confronted with grave railway problems, largely through the circumstances which led to so much new construction under private enterprise in the days when the Grand Trunk Pacific, the Canadian Northern and the Transcontinental were projected and carried to completion. A falling off of immigration and the depression caused by the war prevented Canada from enjoying the growth which might otherwise have justified much of the new railway mileage. As a result, the Canadian National system has been running behind financially at a ruinous pace, and that fact has caused thoughtful men to cast about for some means of cutting down these losses until the traffic demands of the country have overtook lim was richly deserved. including co-operation between the two great railway systems, and even their amalgamation, but as yet no conclusion has been reached. But in all the discussions of the problem there has been evident a public determination that the C. P. It has been rightly felt that no expedient resorted to in an effort to pull the C. N. R. out of the hole would be justified if it threatened the existence, or the reasonable prosperity, of the C. P. The "skeeter" now no longer sings—The frost has stilled her buzzing The County Speech (Collier's.)

The arguments against going are many and of force. But the arguments for going are of greater number and of greater force. Within the church walls, worldly though we may be, something stirs within us, some wee small voice speaks, as nowhere else. Within that church we learn much of the Sermon on the Mount, and we feel more. Of course, you recognize Christ's Sermon on the Mount as the best of all guides through this life of ours—that it points the one right path. Get back of that minister or priest by being a worker with him from inside the walls. Help him through your knowledge of the outside world to understand this modern day and generation and its needs.

The "skeeter" now no longer sings— The frost has stilled her buzzing wings; And the house flies—how sick they're

HOW SHALL MEN DRESS?

(Kingston Standard.)

It is refreshing to see that all the orders about dress are not confined to the fair sex. A press despatch from Vancouver says that the Burnaby school principals have been instructed to inform their staffs that woman teachers must dress modestly, and that the men must uphold the dignity of their profession in their appearance. We should like to hear how the men are to dress in order to uphold their dignity.

The Mutual Life Pays its Claims Promptly

DELAYS in the settlement of life insurance claims add financial worry to the distress of the bereaved family. The Mutual Life of Canada has always made a special feature of prompt payment of claims, being the first company to waive the 30 to 90 days time limit for settlement, which was the custom in pioneer days.

It is not the desire of the Mutual Life to take advantage of technicalities to postpone or contest settlement of claims. The purpose of this company is to be a refuge and a comfort in time of family trouble and stress. The widowed and the fatherless receive the full benefits provided for them by Mutual policies at the earliest possible moment, and with the least possible

PREMIER BAXTER DENOUNCES CONTRACT FOR GRAND FALLS POWER

PAPER CO. TIES COMMISSION IN EVERY DIRECTION, HE SAYS

Sees Desirability of Private Corporation Being Formed to Develop Grand Falls if International Company Insists on Pact Being Carried Out

SITUATION IS "SIMPLY INTOLERABLE"

Conferences With Representatives of Fraser Companies and Bathurst Company Convince Premier That Whole Burden is Placed on Shoulders of People for Benefit of Foreign Firm

DECLARING the Grand Falls power contract between the New Brunswick Electric Power Commission and the International Paper Company, consummated during the regime of ex-Premier Veniot, to be a "monstrous injustice," in that it "fetters the action of the Power Commission in every possible direction," Premier Baxter yesterday roundly denounced the agreement in the course son.

Veniot, to be a "monstrous injustice," in that it "fetters the action of the Power Commission in every possible direction," Premier Baxter yesterday roundly denounced the agreement in the course of a statement yesterday.

The Premier's statement results from conferences held recently between the New Brunswick Power Commission and representatives of the Fraser Companies, Ltd., and Bathurst Company, Ltd. Both companies declare the agreement restricts their development, and Premier Baxter concurs with them by declaring that it has created a situation which is "simply intolerable."

After discussing the agreement, Premier Baxter comes to the conclusion that, in the event of the International Paper Company insisting upon holding to the letter of their bond, the only way out is "for a private corporation to be formed to acquire the lands within the province of New Brunswick necessary for the prosecution of the enterprise, and to develop Grand Falls with purely Canadian water."

Unless the International Paper Company is willing to give way, the Premier contends that it would be impossible for the province to develop along the lines of public ownership as it is tied by the contract with the International and cannot get power for existing

THAT CONCERT
To the Editor of The Times-Star:
Sir,—During the progress of the controversy re the concert given in the Imperial Theatre on Sunday evening, Nov. 1, I have studiously maintained an absolute silence in spite of the fact that my name has been mentioned more than once, and in spite of the further fact that, as secretary of the Evangelical Alliance, I, probably, am better acquainted with the "facts"—please underline that word—than any other per-

It was also declared that since the work now so well begun must be followed up, and also every effort made to arouse a new spirit of confidence and energy among our own people, to the end that every industry based on our natural resources may be stimulated and advantage taken of every available market, the Maritime Board of trade must take on new life and should be supported by every Board of Trade in New Brunswick and Nova Scotia, as well as by the Federated Boards of Prince Edward Island. the chair. HAS woman, the homemaker, al-If You Would "Get Your Man," Cling to the Shy Type, Keep the Sporty One Guessing, Give the Childhood Sweet heart Absent Treatment, Feed the Widower and Cry Real Tears for the Business Man.

A YOUNG WOMAN in love with a man who—as an old lady of my acquaintance says—"comes and sits and sits and never courts" wants to know how to lead this dilatory lover up to the proposing point.

Well, my dear, it all depends upon the type of man with which you have to deal. The tactics that succeed with one man fail with another. You don't go shooting elephants and rabbits with the same bore of gun, nor will all fish bite at the same bait. Study your man and adapt your methods to him.

SOME MEN like to be pursued. Other men want to be the hunter instead of the prey. Some men crave only the peach that hangs highest on the tree, and that they would have to risk their necks to get. Other men have so little pep to them that they lie on their backs under the tree and wait for a ripe peach to fall into their mouths.

Heree in planning your campaign, map

Hence, in planning your campaign, map out the terrain of the man's disposition and character and adapt your strategy to it.

If the man is of an affectionate yet shy nature, wear your heart upon your sleeve. Nothing appeals to that sort of a man as much as knowing that a woman is in love with him. He is the preordained support of the clinging vine and any woman can have him who festoons herself about his neck.

HE NEVER has the nerve to pull away the hands that cling to him.

Millions of men of this type have been married by women they
would never have thought of picking out as wives for themselves just
because they couldn't bear to hurt the poor little thing that loved them
so much and wanted them so badly. And, anyway, by Jove, just the fact
that the woman was so crazy about him showed what superior sense and
taste and judgment she had!

So you can be pretty sure of catching this sort of a man if you run after him hard enough. It will flatter his vanity to have you make the dates, and call him up over the phone to ask why he didn't come to see you last night, and write him six letters to his one. And when, upon an auspicious day, you let him see that you are breaking your heart for him he will avert the tragedy by popping the question.

ON THE OTHER HAND, if the man is of the cocky, sporty type, the kind of a man who fancies himself, it is fatal to let him find out that you have marked him for your own and are hot on his trail. That will put him on his mettle to outwit you, and in vain will you spread your snares before him. He has scented them, and he will dodge every pitfall that you have dug for his feet.

Flout that sort of a man. Break engagements with him. Pretend that you have dates with imaginary admirers. That will wake him up and make him notice you. The harder to get you are, the more he will want you. The more you flee from him, the more desirable you will seem to him. It is always the bird on the wing and not the barnyard fowl that intrigues that variety of man.

IF YOUR MAN is one that you have grown up with, or that you have known for a long time, you must try the absence treatment. Perhaps you have become a nabit with the man. For years and years he has been coming to see you, depending upon you for companionship, for sympathy, for understanding, and he has done it so long that he has ceased to see you as a woman or to realize that you are necessary to his happiness.

As long as you let things go along in that sort of a rut, he will never marry you, Things are too satisfactory just as they are, so you must jolt him awake, and the best way to do this is to suddenly go off somewhere and let him miss you. Let him be lonesome for you. Let him have nowhere to spend his evenings; nobody to chum around with, or to brag to, or to tell his troubles to.

MONTH'S ABSENCE, or setting up a rival, will practically always bring this type of man to the proposing point. When he thinks he is about to lose you, he will foreclose his option on your heart and hand.

If your man is a widower, your best ally is your gas range.

Any woman who has a widower beau is an idiot who trots him around to cabarets and makes him take her to restaurants to dinner.

WHAT the poor dear is pining for is the comfort of home and home cooking, and all that any lady spider needs to do to beguile him into her parlor is just to set a little table for two, with a pink shaded lamp and a pie that she avers she made with her own hands.

If your man is very bashful, you will simply have to push him over the brink and virtually do the proposing yourself.

HE WILL never summon the courage to make the fatal leap himself, so cut out the lovemaking and just take it for granted that you are going to be married, and get on with the wedding preparations.

Mention casually what kind of an engagement ring you prefer and the bashful man will get it for you. And he will be too scared to remember who popped the question or how it is that you came to be entitled to one.

If your man is romantic and sentimental, steer him up against, the right sort of background.

ANY MAN who can resist making love to a woman in a fluffy frock on a moonlight night, with music pulsing in the distance, is so hard-boiled she is lucky not to get him.

If your man is of the common or garden variety, try tears on him. No man ever yet popped the question to a woman when she was gay and laughing. There is something about laughter that neutralizes sentiment.

BUT ONCE let a woman break down and weep, and a man begins pat-ting her shoulder and saying, "There, there, now," and before he knows it he has got his arm around her and she is sobbing on the second button of his vest and he has undertaken the job of comforting her for life.

This is a little trick that widows work, and that explains why they can outmarry all other women. There is no other risk so hazardous as that of wiping away a widow's tears.

OH, THERE ARE plenty of ways of leading a man up to the proposing point. And most women know them all. DOROTHY DIX. Copyright by Public Ledger Company.

ways been assailed by longings for adventure? If so, she has stifled them until recently. But in these tradition-shattered days a woman dare do anything, and many are yielding to the lure of travel in strange lands.

Mrs. Delia J. Akeley, of the Brooklyn Museum of Arts and Sciences, has the dinstinction of being the first white woman to cross-darkest Africa without even the escort of a white man.

Mrs. Akeley started from Lamu on the east coast of Africa on Octo. 16 of last year. On the second leg of her journey she entered the jungle at Kasinyi, on Lake Albert, and arrived at Matadl on the Congo river Sept. 3 last. She still had three of her 12 gun cartridges left and five specimens of jungle animals unknown to science.

One of the most critical moments of her trip was when she was besieged by pygmies — a yellow skinned Congo tribe averaging four feet in height—who coveted her gun to hunt marauding elephants. She distributed her palm wine, tobacco and salt among the little men, and during the attendant rejoicings she escaped.

Leon Errol's Bad Leg Wins Him Movie Fame

By JACK JUNGMEYER.

NEW YORK, Nov. 7—To win repute as a screen comedian one must devise or stumble upon some specific grimace or gesture or memorable piece of property, and work it until it is accepted as a ludicrous characteristic.

In the case of Leon Errol, who won his spurs as a film funster in "Sally,"

the specific gesture that always gets a howl of delight is a wobbly leg which gives way at most inopportune moments. It will fail him, this leg, in Sam Rork's "Clothes Make the Pirate," and a succeeding First National product, "The Lunatic at Large."

Errol got his hunch for that precious and high-priced bit of funny business from a low-lived pet dog he once undertook to train for a vaudeville act.

LONDON, Nov. 7-Ever since the armistice the problem of a baby's inion of the Belgian courts.

In December, 1918, the wife of a Belgian soldier arrived at Brussels with a ive-months-old baby, which she said had been born to her in a London hospital. Her husband was killed in the renches, and she claimed a share in he estate of the grandfather on behalf The family demanded an inquiry-

The family demanded an inquiry—the grandfather had died of grief on the death of his son—and the young widow's papers were found to be all in order. The court consequently ordered the family to pay the amount claimed. Further inquiries followed, a commission was sent to London, and it was learned that no child was born to the widow in the hospital, but that her friend had had a baby in the institution. It was stated that the widow had adopted her friend's child. The family thereupon demanded that the widow should submit to a medical examination, but this she refused. Soon afterwards she died.

Further demands for an examination of the body were made, but the proceedings dragged on, and eventually the doctors declared that no definite decision could be reached. The court's decision was upheld, but an appeal followed, and a final decision has yet to

LONDON, Nov. 7—Paris is trying to persuade women to grow their hair again, and shingled Parisiennes have even been induced to wear false curls with their evening frocks.

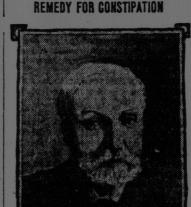

London women, however, refuse to go back to long hair, and there is no doubt that a proportion of them will never abandon the shingle. It was stated recently that Miss Viola Tree had decided to grow her hair. When a "Daily Express" representative asked Miss Tree yesterday how far she had completed the process, she replied, "I cannot make up my mind to let it to be a castle Gaol for reburial in All Saints' cemetery.

Fifteen bodies should have been found and removed, owing to the demolition of the prison, but 11 only were discovered, although the workmen dug down to a depth of 15 feet.

A twelfth coffin was found, but it was empty, and there was no trace of its contents. Three coffins of four bodies are thus missing, and there is no clue to their whereabouts.

SITUATION NOW IS DEEMED DANGEROUS

Parking and Other Matters to determining whether it may be possible to improve the regulations in Taken Up at Meeting

The members of the New Bruns wick Automobile Association presen at the meeting last night in the Board

The matter of the proposed one-way streets on the north and south side of King Square was taken up and a suggestion was made that the parking of cars at corners where they interfered with traffic be put before the proper authorities in order to effect some remedy.

Several provinical matters held over from other meetings were put in the lands of a committee with instruction of a distance of about 175 feet is required to bring a car to a stop from 35 miles an hour.

Mr. Tilton, reporting for the committee which had been appointed to take up the proposal for one-way traffic on the north and south sides of King Square, said he had spoken of the matter to Commissioner W. Mr. Tilton, reporting for the committee of the commissioner appointed to take up the proposal for one-way traffic on the north and south sides of King Square, said he had spoken of the coins bear the date of 1695 (King Charles II.), and it is surmised that they were put in the box as tips to the postmen who collected the letters.

Injuries in Fall at Home in Hampton Prove Fatal

Prominent For Years in Shipping Life at Port of Saint John

Succumbing to injuries received in a fall at his home in Hampton, two days ago, Captain Peter MeIntyre passed away at the General Public Hospital

ago, Captain Peter MeIntyre passed away at the General Public Hospital last evening.

His sudden death will bring keen sorrow to very many friends throughout New Brunswick and in Atlantic ports where he has been most favorably known as a ship owner, ship builder and a captain in coastwise trading. In his seafaring days his skill in navigation and his knowledge of boats were widely recognized. At various times he has been interested in 82 vessels and ships were built for him at yards on the Washademoak, at St. Martins, and latterly at Moss Glen. Captain McIntyre had lived in Saint John for more than 42 years and was the proprietor of a grocery business in Main street. He was not associated with any fraternal organization but was a devout and faithful member of the Main street Baptist church in which he was secretary-treasurer of the Board of Trustees for many years. He was at one time a director of Fernhill cemetery company. A Liberal in politics, Mr. McIntyre was always a consistent voter but took no active part in political campaigns and was never a candidate for public office.

IN FAILING HEALTH.

IN FAILING HEALTH

IN FAILING HEALTH.

He had been in failing health for some time. The family moved from Saint John to Hampton only on Wednesday and on Thursday morning as the captain was going downstairs he took a weak spell and fell, hitting his head on the steps. A doctor was summoned but he failed to rally satisfactorily and it was decided to bring him to Saint John to have an X-ray taken at the General Public Hospital.

He came to the city yesterday morning, accompanied by Dr. J. J. Allingham and passed away at the hospital early last night.

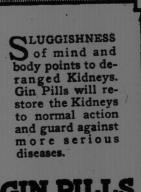

early last night.

Captain McIntyre was a son of the late Alexander and Julia McIntyre, of Springfield, and was born at Cumberland Bay. He is survived by his wife, who was formerly Miss Ada A. Titus, daughter of the late Charles and Eunice Titus, of Upham; one son, Allan A. McIntyre, and two grand-children, Bayard and Audrey McIntyre. He also leaves three brothers, Dr. James A. McIntyre, of Fredericton Junction; C. H. McIntyre, a lawyer in Boston, and George N. McIntyre, of Springfield.

PETER Conference Resolutions M'INTYRE DIES Set Forth Maritime Case

Maritime Conference in Charlottetown, which in the judgment of those present constitutes the case for these provinces, to be submitted to the Winnipeg Conference week after next and to the Dominion at large. Each of these resolutions was carefully considered and debated. The aim of the Conference was to make a fair and reasonable presentation of the case, such as would appeal to the sympathy rather than arouse the antagonism of the other provinces, and which could be maintained by solid argument. It will be noted that matters of purely provincial concern are carefully eliminated; that claims made on the terms and spirit of the Confederation agreement are not exhorbitant; that the matters of immigration, transportation, port development, freight rates, export markets, the fisheries, trade agreements and trade commissioners, the coal industry and Prince Edward Island's imperative need of a better transportation service are all dealt with. The next step is to send a large and influential delegation from each province to Winnipeg, leaving Saint John next Friday. The resolutions follow: IMMIGRATION.

Whereas, the total population of the three Maritime Provinces in 1921 was 1,000,328; and,

Whereas, with merely the normal natural increase during the previous twenty years, the population in 1921 should have been over 1,240,000;

Whereas, the exceedingly heavy and long continued exodus from the Maritimes has resulted in the very grave detriment of their agriculture,

Whereas, there has been no replenishment whatsoever of this tragic drain, the cumulative effect of which has depressed and stultified the whole life of the Maritimes, and by discouraging productive enterprise in all lines has most seriously narrowed the scope of employment, thereby compelling a constantly increasing number of their young men and women to find a livelihood elsewhere; and,

Whereas, with their seaboard location and fertility, their climatic and scenic advantage, and their rich and diversified natural resources, the Maritime Provinces should be one of the most attractive sections of all

Canada for desirable immigration; and,
Whereas, ever since Confederation, the Maritime Provinces have contributed their proportion of the immigration costs of the country, while deriving no benefit therefrom; but, on the contrary, suffering grievously from the Western Canada settlement propaganda of Federal governments, transportation systems, and others;

Therefore resolved, that in the opinion of this Conference, the Dominion Government should institute and finance an immediate and aggressive immigration policy specifically for the Maritime Provinces, continuing the same for not fewer than ten consecutive years; and that this policy involve adequate organization both overseas and in the Maritime Provinces.

FREIGHT RATES. Whereas one of the chief reasons for the construction of the Inter-colonial Railway was to enable the Maritime Provinces to have access

to the markets of Central Canada; and Whereas to the above end special freight rates were conceded and were for long in effect, but were withdrawn in direct violation of the

Resolved that in the opinion of this Conference the Maritimes should be conceded a revision in freight and express rates, to modify the disabilities under which they lador in marketing their goods in other parts of Canada, detailed representations concerning which will be made to the spirit and intent of the Bri Board of Railway Commissioners for Canada during the general freight rate investigation now being conducted by that body.

PORT EQUIPMENT. Whereas the seaports of the Maritime Provinces are indispensable to the economic welfare and indeed to the very existence of the whole Do-

Whereas it has been and is the declared policy of Canada to route all possible import and export traffic over our own railway systems and

through our own ports; and
Whereas the facilities of the Ports of the Maritime Provinces are totally inadequate to handle even the traffic now offering, to say nothing of the inevitable and rapid increase in Canadian exports and imports in the future; and

Whereas this lack of port equipment now greatly curtails Canadian trade opportunities both in present and prospective markets overseas; and Whereas it is in the national interest to divert to our own ports the largest possible volume of Canadian traffic now moving through foreign

Resolved that in the opinion of this Conference, the equipment of the Ports of the Maritime Provinces should not only meet present requirements, but be well in advance of those of the future; and that in the interests of the whole country and as a national undertaking, immediate steps should be taken by the Dominion Government to this end.

RATES TO SEABOARD. Whereas the development of export markets is of primary importance to the welfare of the Maritime Provinces; and

Whereas these markets cannot be entered by the Maritime Provinces in competition with other parts of the world without a substantial reduction in prevailing rail rates to the seaboard; and
Whereas, at the present time, the Maritime exporter and importer,

during the greater part of each year, is obliged to use St. Lawrence ports, involving longer rail hauls at higher rates than during the winter

Whereas the Ontario and Western exporter today obtains the benefit of identically the same rates to Saint John, West Saint John and Halifax during winter, which rates, generally speaking, do not exceed two cents per hundred pounds over the rates paid by him to St. Lawrence ports

Resolved that in the opinion of this Conference Maritime exporters and importers should, in order to compete in export markets, be granted a substantial reduction in existing rates to the nearest seaport and the rates so established applied equally to and from Saint John, West Saint John, Halifax, Montreal and Quebec throughout the year.

THE FISHERIES Whereas, the fisheries of the Maritime Provinces must play a very important part in their restoration to a condition of prosperity; and Whereas, there is great need of scientific research and an educational

campaign in regard to the handling, curing and marketing in proper condition of our fish; and Whereas, an educational campaign is necessary to create a greater demand for sea fish in central and western Canada; and

Whereas, very large sums are devoted to the promotion of agricul-Therefore resolved, that the Federal Government be urged to make a

much larger annual appropriation for the purpose of developing our fishery resources, and the expansion of export markets. TREATIES AND AGENTS

Whereas, Canada is essentially an exporting country; and Whereas, the development of her export potentialities is therefore of the highest economic importance;

Resolved, that in the opinion of this conference immediate efforts should be made to negotiate favorable trade agreements with a larger number of foreign countries;

Further resolved, that Canada should establish a much larger number of competent trade commissioners to adequately promote her export COAL AND COKE

Resolved, that in the opinion of this conference, coking plants should be established at central points in Canada to render unnecessary the im-

portation of American anthracite; and that legislation should be passed looking to an expansion of the markets for the coal of Nova Scotia, New Brunswick and Alberta. PRINCE EDWARD ISLAND

Whereas, Prince Edward Island is greatly handicapped in develop-ing the trade of that province because of the lack of frost-proof warehouses and deep water terminal facilities; and Whereas, the present car ferry steamer is insufficient during the fall months for the handling of the increasing freight traffic; and

Whereas, in the event of an accident to the present steamer during winter, Prince Edward Island would be entirely isolated so far as freight traffic is concerned, and an auxiliary steamer is necessary; and
Whereas, the service provided by the Canadian National Railways
should be materially improved between Sackville, N. B., and Island

points; and
Whereas, adequate steam service between Prince Edward Island and
the mainland was one of the terms of Confederation;
Resolved, that in the opinion of this conference these various improvements in service should be provided, and that the cost of the ferry and
its operation should be charged to the consolidated revenue of Canada.

Innocent Man Is Cleared After Term In Jail

Sentenced To Twenty-three Months in Plot To Defraud; Guilty
One Caught and Convicted After Witness Admits His
Mistake in Identity At Quebec

QUEBEC, Nov. 5.—After spending six months of a twenty-three months' sentence in jail following conviction on a charge of conspiracy to defraud, the innocence of Paul Fafard was established in the Court of King's Bench today and another man, Jack Cleveland, sentenced in his place to the same term.

Fafard and his brother Philippe were identified by Adelard Lauzon, of Chicoutini, as the men who had decoutini, as the men who had decoutini, as the men who had decouting training frauded him of \$20,000 at their trial a year ago. Both were sentenced, Phillippe being still in the penitentiary, but Paul was released on parole after six months. Recently, however, another man, Jack Cleveland, who had been brought from the United States, came up for trial on the same charge and Lauzon admitted that he was mistaken in his identification of Paul Fafard and said that Cleveland was cooutini, as the men who had decouting the penitentiary but Paul was released on parole after six months. Home-made, but Ends
Coughs In a Hurry

A family supply of dependable cough medicine. Easily made and saves about \$2

If you have a severe cough or chest cold accompanied with sore ness, throat tickle, hoarseness, or difficult breathing, or if your child wakes up during the night with croup and you want quick help try this reliable old home-made cough remedy. Any druggist can supply you with 2½ counces of Pinex. Pour this into a 16-oz. bottle and fill the bottle with plain granulated sugar syrup, or you can use clarified molasses, honey, or corn syrup, instead of sugar syrup, if desired. This recipe makes 16 ounces of really remarkable cough remedy. It tastes good, and in spite of its low cost, it can be depended upon to give quick and lasting relief.

You can feel this take hold of accough in a way that means business. It loosens and raises the phlegm stops throat tickle and soothes and heals the irritated membranes that line the throat and bronchial tubes with such promptness, case and certainty that it is really astonishing. Pinex is a special and highly concentrated compound of genuine Norway pine extract, and is probably the best known means of overcoming severe coughs, throat and chest colds. There are many worthless imitations of this mixture. To avoid disappointment, ask for "2½, ounces of Pinex" with full directions and don't accept anything else. Guaranteed to give absolute satisfaction or money promptly refunded. The Pinex Co. Toronto, Ont.

Arrangements For Mac-Tier Cup Still Up In The Air

THE semi-final for the New Brunswick scholastic title between Newcastle High School, winners of the North Shore Schoolboy League by virtue of a victory yesterday over St. Thomas College, and Fredericton High School will be staged at Fredericton on Thankagiving Day, it was announced here this morning by W. E. Stirling, vice-president of the M. P. B. Mr. Stirling said he had notified Newcastle this morning regarding the game and that the final between the winner of the F. H. S.-Newcastle game and Mount Allison Academy would take place about Thursday of this week. It has not been decided yet where the game will be staged. With the provincial title settled, the final for the Marftime crown will take place, probably at Fredericton, in case Fredericton should win out, with Pictou Academy as guests.

emy as guests.

The final for the Maritime intercollegiate title probably will be played
between U. N. B., winners of the eastern section and Nova Scotia Tech, who
clinched the eastern title yesterday by
trouncing King's University at Halifax,

Just what date is a bit uncertain owing to U. N. B.'s dickering for a game in Montreal. FOR MACTIER CUP.

FREDERICTON, Nov. 7—Saturday next, November 14, is the tentative date for University of New Brunswick to play in Montreal for the MacTier Cup, emblematic of the rugby title of Eastern Canada, that is if the cup stays in Montreal, for Toronto British will play the Montreal holders on Thanksgiving day, having challenged in due form. The information is contained in a letter from R. H. Gunn, president

form. The information is contained in a letter from R. H. Gunn, president of the Montreal English Rugby Club, to Manager Tracey Carten of the U. N. B. team. Mr. Gunn says that although the U. N. B. challenge came in late every effort will be made to have the Red and Black play in Montreal. He points out, however, that should Toronto win on Monday University of New Brunswick would have to journey to Toronto for a game at an added cost of \$400 unless Toronto would be willing to meet U. N. B. at Montreal, which is extremely unlikely.

The trip of Toronto to Montreal to play for the cup is assisted by the Montreal clubs to the amount of \$150 each of the three contributing an equal share, which shows that rugby is played in Montreal for its own sake.

NEWCASTLE WON

NEWCASTLE WON

NEWCASTLE, Nov. 6—Newcastle High School defeated St. Thomas' College in a good football exhibition this afternoon by a score of 6 3. In spite of the muddy condition of the field both teams played a fast snappy game. Jack Keating of the locals was the individual star, at one time maiking a 45-yard run for a try. Breth was the pick of the college team. C. H. Morris refereed. Today's victory gives the North Shore Scholastic League to Newcastle. They shall probably play off with Fredericton High School in the semifinals for the provincial scholastic. H. Nixon ... 80 94 85 259 861-8

THE biggest football attraction arranged for this city for some time is carded for Monday afternoon next on the Allison grounds when for the first time in years Dalhousie's Tigers meet the local Trojans. This afternoon, Dal. and U. N. B. clash and on the outcome of that game much interest centres. A win for U. N. B. will give them a strong hold on the Maritime rugby crown while a defeat would mar the escutcheon considerably. It is a particularly bright one just now and it would be a shame to have the Halifax university muss it up.

There is a strong feeling here, however, that U. N. B. is going to win but the score will not be large—that much seems certain. If U. N. B. can twist the Tiger's tail to make him roar loud, Trojans will be heartened and prepared to give him another dose. Dal enjoys a distinct advantage over other Maritime colleges in that her resources in material are greater but system and determination can sometimes beat

THEY'RE at it again. The six-day bicycle race starts again in the new Madison Square Garden on November 28 and finishes on December 5 and it is expected the field will be one of the greatest ever assembled. The track at the new Garden is the same as the old one, being 10 laps to the mile and the coming race will be the thirtyninth international grind in New York. Several foreign teams are included. Sometimes we are inclined to question the sanity of the boys who indulge in this quiet pastime but they tell us the races attract enormous crowds and are popular with the metropolitan fans. Up here, we rather like our sport snappy and the idea of dragging an event out for six days and a few nights hardly appeals.

THE passing of Eugene Sandow, the "original strong man," is of more than passing interest. First of all Sandow's early history reads like an advertisement for a physical culture course. Sandow was sickly as a young boy. The art of physical culture, while practiced then, was not in the go-get-'em stage it is now and people generally took little interest in it. Sandow set to work earnestly and eventually showed to the world what was probably the most perfect measurements of his body were striking enough in themselves. For instance, he had, in his prime, chest expansion of 14 inches. The average expansion is about four inches. Sandow used many novel means of proving his strength. It is on record that on one occasion doubters took up his announced willingness to wrestle with a lion, provided the lion's teeth be covered with leather padding. Sandow wrestled with a great beast until judges decided the animal's life was

Inter-Maritime Shoot Next Year at Sussex In June

SUBSTANTIAL progress in the work of the N. B. Rifle Association marked reports of activities for the year presented at the annual meeting of the association here this week. It was pointed out at the meeting that since the war the attendance at the annual shoots had gone up from 48 in 1920 to 120 in 1925, and that the cash prize list has increased from \$900 to nearly \$1,700. Several new trophies have been added since the war, including the following: The Perkins, Trophy, presented by Captain Perkins, Sussex, for teams of five tyros; a challenge cup donated by Lt.-Col. O. W. Wetmore for competition among tyros; the Magee Challenge Cup, presented by Col. Murray McLaren, G. M. G., M. P., in memory of the Atte Major C. W. Magee, for cadets; a cup presented by Lieut.-Col. R. A. McAvity for the member of the non-permanent militia makins the highest score in the grand aggregate; the cup presented by the T. Eaton Company, Ltd., to the competitor making the highest aggregate score at the 600-yard range. In addition to these trophies, the period since the war has seen the presentation over the 800 and 900-yard ranges was introduced as well as competition over the 800 and 900-yard ranges was introduced as well as competition over the 800 and 900-yard ranges was introduced as well as competition over the 800 and 900-yard ranges was introduced as well as competition over the 800 and 900-yard ranges was introduced as well as competition of the 22 rifles. This latter event was very popular and will be enlarged next year. The attendance at this year's meet was the largest in the history of the association, the highest one previous being 105.

CHILDREN'S WEEK IN LIBRARY.
Commencing today, Children's Week will be observed throughout Canada and the United States, the various public libraries co-operating. At the local library, an interesting collection has been arranged by Miss Estelle Vaughan, cheif librarian, showing many ancient relics of the printers' art relating to children's books. One of the most interesting is a small book, with a wooden cover, printed in the United States between 1785 and 1790. Another interesting one was printed more than 100 years ago and gives a music lesson. The case in which these books are on view is in the centre of the lobby.

PANTRY SALES

St. Paul's Needlework Society held a very successful sale of home cooking at the Church of England Institute this morning. Miss Mabel Sidney Smith, the president, was general convenger, and was assisted in serving the many patrons by members of the society. Generous donations were received from members of the congregation. The proceeds from the sale will be added to the poor fund of the church.

The Excelsior Mission Band of Queen Square Church held a very successful pantry sale in the lobby of the Venetian Gardens this morning. Mrs. Roy Shanklin, the president, was in charge and was assisted by Mrs. Leroy King, Mrs. Clayton Teed, Mrs. Ralph Stephenson and Miss Eleanor Rice. A goodly sum was realized for missions.

The case was postponed until next Friday afternoon at 2.30 o'clock. A deposit of \$50 was made. The small deposit was accepted as the prosecution said the evidence was only circumstantial. Vincent Sadovsky put up a deposit of \$200 yesterday afternoon in the court for his appearance in court next Tuesday afternoon to answer a charge of having liquor on his premises in Main street illegally. J. Star Tait appeared for the prosecution in each case.
