LOSE HEAVILY IN EFFORT TO WIN BACK GROUND FROM BRITISH

Several German Counter Attacks Fail and Haig's Men Continue Closing In On St. Quentin—News From Other Fronts

London, Sept. 25—German troops last night counter-attacked the British lines above Griscourt northwest of St. Quentin where advances have recently been made by Field Marshal Haig's troops. The British commander, in his official report today, announces that these attacks were repulsed. Heavy losses were inflicted on the Germans, who delivered several attacks.

British posts in the region to the east of Arras, near Sauchy-Cauchy, also were attacked and here likewise the enemy was driven off.

The process of closing in on St. Quentin was continued by the British, who made progress in the Griscourt neighborhood, and also in the Selency region, west of St. Quentin.

One thousand prisoners were captured in yesterday's operation, particularly in the St. Quentin region.

FAIL AGAINST FRENCH.
Paris, Sept. 25—German troops last night made an effort to regain some of the valuable ground recently won from them by the French near the western end of the Chemin des Dames. They attacked in the region of the Molsy Farm, in this area, but according to today's war office statement the effort was an entire failure.

In the course of the night the artillery was active in the region of St. Quentin and between the Ailette and the Aisne.

On the Vesle front a lively artillery fire was maintained.

French troops repulsed German raiding parties in the Champagne and in Lorraine and in the latter region carried out an incursion into the German lines.

Tokio, Sept. 25—(By the Associated Press)—Japanese troops took possession of Biakovitschek, the capital of the Amur province, the capture of which was reported several days ago, on September 12, after the Bolshevik elements had left the town. Three Japanese gunboats accompanied the Japanese transports up the river.

Austrian Report.
Vienna, Sept. 24, via London, Sept. 28—Austro-Hungarian general headquarters issued the following statement today on operations on the Italian front.

The plateau between Canove and di Valbella the enemy on Monday succeeded in penetrating to the front line, after intense artillery fire, French and Italian storming detachments penetrated to the front line, but a counter-thrust drove them back.

British Raid.
London, Sept. 25—In Flanders last night a successful raid was carried out by the British in the neighborhood of Waterghem. In this and in other prisoners were taken.

American Front.
Sept. 25—(By the Associated Press)—10 a. m.—Airmen of both armies were active early today and increased artillery action was noted along the lines of the old St. Mihiel sector. Bright skies have replaced the clouds and rains of recent days and aerial observers were sent out by both Americans and the German.

In Macedonia.
London, Sept. 25—East of the Vardar river in Macedonia the Germans and Bulgarians are forcing back on Velebit, twenty-five miles southeast of Uskub, according to a Serbian official statement.

OUR AVIATORS KEEP UP EFFECTIVE WORK
Amsterdam, Sept. 25—Forty-seven air raids were made on German towns during August, according to an official statement issued at Berlin. This statement says that seventy-nine persons were killed and 118 injured.

DUFFERIN IS GUTTED IN THE EARLY MORNING

King Square Hotel Wrecked By Serious Fire

Hundred and Seventy-five People Within Walls At Time And All Get Out Safely—Mr. Bostonwick To Rebuild On Modern Lines

Filled to capacity with patrons, with the apartments of the clerical and managerial staff given over, historic Dufferin Hotel, corner of King Square and Charlotte street, fell a prey to flames early this morning and is now badly wrecked. The King Square wing and the rear of the main brick building, especially the upper floors, are partially consumed and what's left is ruined with water and general damage.

There were in the vicinity of 175 people in the building when the fire started, counting kitchen and dining room help, who were assembling for duty. When Chef Sharp discovered the fire in the section in which the kitchen and serving parties are located, the alarm was taken up by one of the parties on the upper floor and in a few seconds most of the large householders awoke and scampering to safety outside.

By this time the smoke had grown dense and stifling and flames shot out of corners here and there and ate their way through the roof of the King Square wing. By the time the fire department responded to Box 78 streams of men and women partially clad were taking refuge in the offices of the Unique Theatre and whatever buildings could be found open.

AUDITOR-GENERAL KNEW NOTHING OF THE NOTE

Mr. Loudon Not Taken Into Late Government's Confidence in This phase of Potato Transaction—Bank Manager a Witness

W. A. Loudon, provincial comptroller-general, was the chief witness at the morning session of the inquiry into the potato transactions, which is being conducted by James McQueen, K. C., in the court house.

Special interest attaches to Mr. Loudon's evidence as it showed that the government of that day had gone out of their way to conceal from the auditor-general, as he then was, the nature of the transaction which marked the settlement with A. C. Smith & Co. for the surplus potatoes.

The witness told of the details of the business as they appeared in the provincial records, of the way in which payments were made and of the settlement. B. F. Smith was the only shipper who was given the privilege of drawing on the government when he forwarded his potatoes and when the accounts were closed it was found that he owed the government a substantial sum, not only for shortages but also for interest paid by the government on his drafts.

The manager of the Bank of Nova Scotia at East Florenceville gave evidence that he had been unable to find a letter from J. B. Daggett authorizing the extension of credit to Mr. Smith, but correspondence with the head office showed that such a letter had been received. He had found one letter from Mr. Daggett, in which the latter drew attention to the fact that Mr. Smith had drawn on the government for one carload at a price five cents higher than the contract.

The inquiry continues this afternoon.

PROVINCIAL COMPTROLLER.
Wilson A. Loudon, comptroller-general of the province for the last four months and previously auditor-general for twelve years, was the first witness when the inquiry was resumed this morning.

Mr. Loudon said that he had audited accounts in connection with the potato transactions. The total quantity purchased was 68,608 barrels. Of these 48,681 barrels were bought from B. F. Smith.

The method of payment was as follows: Payments for potatoes were made by invoices were presented to the provincial treasurer. He passed them to the witness to audit; if found correct they would be returned for payment. They had to be properly completed, made in an explanatory manner and have extensions and additional certificates. Some were certified as to exact quantity before payment. B. F. Smith's drafts were paid 60 per cent.

Some were certified as to exact quantity before payment. B. F. Smith's drafts were paid 60 per cent. The understanding that he should refund the department was the only person who drew on the department. He believed the others were paid after sorting. The arrangement with the bank at Florenceville was made with the witness' knowledge.

B. F. Smith was paid for potatoes in all \$47,761.55. That was the amount of the invoices accompanying bills of lading. Mr. Smith was overpaid, when the shortages were deducted, by \$2,375.70. Another claim the department made against him was for \$71.88, for interest paid on his drafts, which were held while awaiting the arrival of the potatoes.

London, Sept. 25—Marshal Foch, commander-in-chief of the Allied armies on the western front, who dislikes interviews, and rarely grants one, received a few newspapermen at his headquarters on Tuesday. Among those received was the correspondent of the Telegraph, who thus records the marshal's brief utterances, made in an explanatory manner with the use of hardly any verbs.

"The British army is better than ever. It fights better than ever. All of its losses have been made good and it is a more splendid army than it was before. The Americans are splendid and are wonderfully gallant in the field. Twenty fresh Americans arrive in France every day."

"The French army is the same good old army that it was in 1914. No more to be said."

THESE BELIEVED TO BE GERMAN 'TERMS'

London, Sept. 25.—There is good reason to believe that the programme adopted by the social democratic party of the Reichstag on Monday was not only inspired by the German government, but actually embodies Germany's peace terms, according to Rotterdam included in the resolution.

The resolution adopted included the unrestricted endorsement of the Reichstag peace resolution of 1917. It was also provided for in the resolution which declared in favor of Germany joining a league of nations based on a possible settlement of all disputes and general disarmament.

There were non-committal declarations on the restoration of Belgium, and on the restoration of Serbia and Montenegro, and a declaration that the peace must not hinder the conclusion of peace. It was urged that all occupied territories be given up on the conclusion of peace to democratic parliaments which are to be established.

Autonomy for Alsace and Lorraine was also provided for in the resolution which also declared for universal, equal, secret and direct suffrage for all the German federal states.

NOMINATED FOR POST OF GOVERNOR OF MASSACHUSETTS

Boston, Sept. 25.—Richard H. Long, a Framingham manufacturer, was nominated for governor by the Democrats at the primaries yesterday defeating William A. Gaston, a Boston banker, and Edward F. Barry, a former lieutenant governor by more than a two to one vote.

The Republicans nominated Lieutenant-Governor Coolidge for governor without opposition. Channing H. Cox, speaker of the state house of representatives, defeated Guy A. Ham for the Republican nomination for lieutenant governor by more than a two to one vote.

A despatch to J. M. Robinson & Sons says that Governor Edge of New Jersey views the Republican nomination for United States senator at primaries, and that ex-Major Fitzgerald of Boston is named for congress.

GERMAN MINE SINKS SWEDISH GUNBOAT

19 LIVES ARE LOST. Copenhagen, Sept. 25.—The Swedish gunboat Geinild is reported sunk by striking a German mine in the Skagerrack, with the loss of the chief officer and eighteen men.

Persistent rumors are current that another Swedish gunboat struck a mine a few days ago and that a greater part of the crew were killed.

CORN AND OATS

Chicago, Sept. 25.—Corn developed considerable strength today as a result of noticeable falling off in the number of arrivals. Besides pit offerings were light, and shorts and commission houses were buyers.

Government buying gave strength to oats. Other trading, though, was light. After opening a shade to a quarter cent higher, with October at 73.8 to 73.1, the market continued to slip. Most of the provisions responded to advances in the value of grain and hogs.

GOVERNOR-GENERAL HAS NEW GRAND-DAUGHTER

Montreal, Sept. 25.—The second grandchild of the Duke and Duchess of Devonshire was born yesterday at Elmwood, Cartierville, when a daughter was born to Captain and Lady Maud Mackintosh. Both mother and daughter are reported to be doing well.

Wives Sometimes Object To Life Assurance But Widows Never Do

Many a man has failed to insure because of his wife's noble but misguided scruples. She didn't want even to think of her husband being taken from her. The thought of money forcing itself into such a tragedy filled her with horror. Such a woman overlooks the awful plight of a family left destitute. It is a husband's duty to protect his family from want and suffering after his death. A wife who opposes her husband in performing this duty is unfair to him, to herself and to her little ones. A few dollars each year invested in an Imperial Income Policy will secure the payment of a regular, monthly income to a man's family after he's gone. Audience Enthralled at Singing of Miss Morrisey and Playing of Jeel Belov

A concert as enjoyable as the demonstration which accompanied it was given yesterday afternoon in the Imperial Theatre. Miss Marie Morrisey, a well known contralto, was heard in a recital, assisted by Jeel Belov, violinist. The audience was given an opportunity to compare their numbers with their reproductions on the Edison phonograph and at times when the singer or player stopped and the instrument continued, it was almost impossible to distinguish the difference. The programme was greatly enjoyed not only for its musical merit but because of its novelty, and the large audience showed unmistakable appreciation of the affair, which had been arranged through the courtesy of W. AT THE HOSPITAL

It was reported at the hospital today that Miss Jessie McAvity is slowly improving, and that the condition of George Kimball is much improved.

THE K. C. DRIVE

C. A. Owens, provincial organizer for the Knights of Columbus Army Hut drive, said today that of 33,000 indications, their objective of \$25,000 would be reached by the end of the week. Their fair came to a close last evening, but owing to the number of dolls and teddy bears left on hand the drive will be continued tonight. The band will be in attendance.

MILITARY

There has been no word yet as to who will succeed Lieut.-Colonel Powell as assistant adjutant-general for military district No. 7. While it is generally understood that Major S. S. Wetmore of head-quarters staff, at present acting A. A. G., is very liable to receive the appointment, it was learned this morning that the district is in the running. In the event of Major Wetmore getting the appointment, Major Victor Heron would likely succeed him as D. A. A. and Q. M. G. Major Heron is at present the staff officer for the district.

LIBERTY F. F. SMITH'S RETURN

Lieutenant J. F. Smith of the Royal Canadian Regiment, who has been in the Royal Victoria Hospital, Montreal, undergoing treatment, returned to St. John West, on last Saturday very much improved in health, but suffering from what is hoped will prove only temporary blindness.

Lieutenant Smith went from St. John with the First Contingent as a member of the 1st Field Ambulance. After serving twenty-five months in training with the 1st Contingent, he received a commission and was appointed to the R. C. R.'s which he served until invalided home three months ago.

GREAT MASS OF COAL IN G. P. HOSPITAL AFIRE FOR A WEEK

For a whole week 100 tons of coal stored in the bunkers of the new power house of the General Public Hospital has been on fire, the trouble being due, it is believed, to spontaneous combustion. Gangs of men have been working continuously turning over the coal and trying to extinguish the fire, which still is smouldering.

Speaking of the fire this morning, J. King Kelly, K. C. county secretary, said that this incident alone proved the wisdom of building a separate power house, as if this fire had occurred in the old quarters, under the hospital, it would have made the institution uninhabitable.

Hon. Jules Allard Re-elected. Quebec, Sept. 25.—The mother of Hon. Jules Allard, provincial minister of lands and forests, died suddenly today at her home in St. Francis Du Lac.

AUDITOR-GENERAL DID NOT KNOW OF NOTE

(Continued from page 1) government. His present duties included those formerly performed by him and others in addition. It was not part of his duties to know if contracts had been made for the sale of potatoes in Col.

Referring to the bank book, Mr. Taylor drew attention to the letter "C" appearing opposite credit items, and asked what it stood for. The witness replied that he understood it to mean cash. Asked the meaning of the letters "L.D." opposite another entry, the witness said he did not know what it stood for. "You are an expert auditor and you do not know that is all I want to ask," said Mr. Taylor.

"Can you not guess what they mean?" A—Local deposit, perhaps. Q—Or local discount? A—It might be. Q—Don't you know that is what those letters mean in bank circles? A—They might mean either. Q—But you prefer to believe that they mean local deposit? A—That is the way I take it. This concluded Mr. London's cross-examination.

DEAF-MUTES BAD AVIATORS

Report to the contrary thought to be part of Hon. Propaganda. The war department has disposed of another general public misapprehension by issuing a statement to the effect that deaf-mutes will not be accepted for service in aviation. Hundreds of young men have been encouraged to seek careers in aviation, but it is not to be expected that deaf-mutes will be accepted for service in aviation. The government has been conducting two separate investigations at once—one to discover the source of the misleading information and the other to "make special tests of the accuracy of deaf-mutes in sensing motion."

The bearing of the sensitivity of the middle ear upon the sense of equilibrium and direction was fully shown in these tests. Several normal men and deaf-mutes, blindfolded, were taken successively by the same pilot in the same machine over the same course above a government aviation grounds. They were told that after reaching a certain level the aviator would execute evolutions and were requested to record the directions taken. The passengers' normal internal ears made correct notations of the deaf-mutes failed to note changes even of as much as ninety degrees. The latter admitted that they were entirely in the dark as to their positions, and one said that he had been "virtually lost in space." They could not differentiate between the deepest right or the deepest left banks, nor could they sense the difference between climbing or driving in a practically vertical position. Some of the passengers with normal ears reported changes in direction as slight as 5 per cent.

The official statement is made by the war department that "it would be ridiculous for deaf-mutes to attempt to fly." The turning chair tests further imposed upon candidates for the flying service have shown that one possessing a normal ear mechanism has good direction of movement in the air, and that those who fail to pass the test have a poor sense of direction and equilibrium. The reports which led to the investigations referred to are interesting illustrations of the lengths to which enemy propagandists will go. Government officials are convinced that the story which raised the hopes of some hundreds of deaf-mutes for this branch of patriotic service was of German origin. The military purpose served by this particular form of mischief was remote. It could only result in causing incidental confusion in the minds of those who were seeking places in which to be useful, or in adding slightly to the work of recruiting officers. It will strike the average man as a piece of ineffably silly nonsense. But the German propagandists are not always sensible as they have shown in many other ways.—Oregonian.

N. B. CASUALTIES

Ottawa, Sept. 25.—Today's casualty list includes E. R. Eres, Bell Island, Nfld., died of wounds; J. E. Paris, St. Stephen, killed in action; E. Lezot, Green River; C. G. Whittaker, St. John, G. I. Jagoe, Clifton, gassed; W. G. Bishop, Friesland, N. B.; C. A. Swan, Harvey; R. M. McGrath, Chatham, wounded; H. Wylie, address not stated, discharged from hospital; P. L. Robertson of Robertson, N. GIVE YOUR CHILD A CHANCE!

It isn't right to let a child toil under the handicap of defective vision. Poor eyes make backward progress. They not only affect their work, but their nerves and health as well. Do not let your child suffer through defective eyesight. There is the slightest chance of eye trouble, bring him in and we will set all doubts at rest.

Good Marks in School

Depend on good eyes. A child who cannot see the blackboard or book clearly soon loses interest and has difficulty in doing his work. The little one is not stupid. He is fighting against a defect in his refraction which glasses would overcome. With proper care the trouble will be outgrown in a few years and the glasses be no longer needed.

Wage Adjustment Conference With Western Union in New York—New Kind of Union

(New York Times, Monday)

The general officers of the Association of Western Union Employees, a new organization of more than 20,000 workers in all departments of the Western Union Telegraph Company, arrived in New York last night to hold a wage adjustment conference with company officials on Wednesday afternoon. In addition to the question of increased wages—already agreed to, but the amount undetermined—working conditions and collateral questions will be submitted for adjustment.

The association, which represents a new idea in the relationship between large employers and employees, was formed by the employees themselves because of what the leaders termed the unsatisfactory methods of President Kennerly of the Commercial Telegraphers' Union of America. The new organization, totally divorced from outside union influences, was formed in Chicago several months ago when many telegraphers resented the wording of a call to strike, issued by the old union officials.

"We felt that the union leaders were trying to stir up trouble," said James G. Hayes of Toledo, secretary-treasurer of the association, at the Hotel Continental. "and so we decided to form our own union. We succeeded in getting 12,000 men to enter almost at once, due to widespread dissatisfaction. After we had perfected organization we submitted the plan of organization to President Kennerly of the Western Union, and he, favoring it from the first, succeeded in winning over his associates to approval of it."

"Our association aims to settle all differences by arbitration, instead of by strikes. Our constitution forbids the use of the strike weapon. The employees finance the organization, elect their own officers and run it without outside advice. We believe that the radical methods between employers and employees are things of the past. We now have more than 50 per cent. of the country's telegraphers holding paid-up membership in the organization.

"We realize that it is necessary for a closer relationship between the hired man and the hired in order that they may meet half way on questions of wages and working conditions. We think that the true Americanism of labor may best be expressed by a willingness to put that relationship on a fifty-fifty basis. Our association aims to accomplish the settlement of differences under the slogan 'Work while settling your claims.'"

"In the few weeks we have been treating with the company's officials we have succeeded in getting for the men time-and-a-half overtime, a 10 per cent. increase in wages, adjustment of working conditions, strict enforcement of the seniority rule in regard to promotions or easy assignments, and the reinstatement of men who had been dropped because they belonged at that time to the outside labor organization. We have also obtained for the men a standardization of wages, no matter where the telegrapher may be working his wire."

Mr. Hayes said the association officials had held a conference recently in Washington with Postmaster General Burleson, who had heartily approved of the organization. He said that at Wednesday's conference the question of a new wage scale would be taken up, and the association would demand that it be made retroactive as from Aug. 1.

He said the spirit of patriotism and desire to do nothing that would in any way interfere with winning the war had smoothed the way for the new organization. According to Hayes, the "family union" idea of settling disputes will shortly be adopted by the express companies of the country. He said officials of Wells, Fargo & Co. had obtained a copy of the association's constitution with a view of adjusting it to the express business.

In addition to Mr. Hayes, the officials here are Joseph P. Hayes, of San Francisco, H. M. Swartz, Kansas City; J. C. Lawrence, Chicago; W. A. Reynolds, Atlanta, Ga.; Park Harrington, Boston; A. S. Connor, St. John, N. B.; R. E. Fischer, Houston, Texas; Paul Rainey, Salt Lake City; Allan Hixson, Los Angeles, and D. F. Murphy, and R. E. Tucker, of New York.

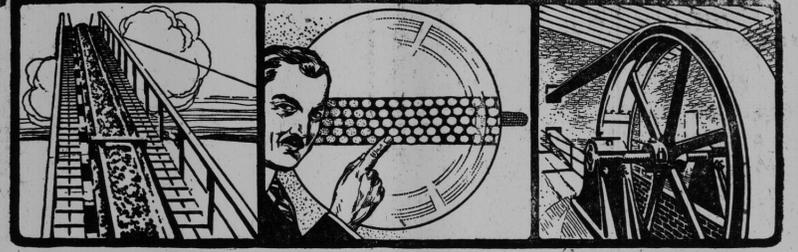

Speeding 'em up on Fry's Cocoa

The best way to get the most work out of the "human engine" is to give it the food that has the most energy in it. Of all foods, certainly this means FRY'S COCOA—the great food beverage that is all delicious nourishment. If you have to work harder these days, try a regular course of FRY'S. You will need less of other and more expensive foods. There is concentrated strength for muscle and brain in every single cup.

TABLET UNVEILED.
A bronze tablet in memory of Elias Hardy was unveiled by Chief Justice McKeown in the court house yesterday afternoon in the presence of a large number of spectators. Elias Hardy was the second common clerk of this city and one of the practitioners before the first courts in the province as well as a member of the first legislative assembly of New Brunswick. The tablet was placed in the court house by the New Brunswick Historical Society.

Dominion Rubber System Belting Insures Maximum Service

Dominion Rubber System Belts are built to a scientific quality standard which insures the proper width, thickness and type of construction to efficiently serve a given purpose.

Dominion Rubber System Belts are **one-piece belts**—with absolute uniformity, dependability, economy and satisfaction built into each foot.

The layers of strong endless fabric are saturated and embedded in special rubber which gives a toughness that is practically indistinguishable.

Its rubber surfacing has a tested pulley grip greater than that of any other belt made, hence it allows minimum power leakage.

Where water, acids, oils, dust, grit, belt-shifters, etc., soon ruin ordinary belting, there is a type of Dominion Rubber System Belting that will withstand the severest punishment and eliminate many replacements and delays.

The largest users of belting in Canada have proved the value and efficiency of our belting in actual service and through the special free service of our belting experts, have cut costs and speeded up production.

This free technical service is yours to command whether you are a customer or not and it opens the door to the entire facilities of the largest rubber organization in Canada with a fifty year record for producing dependable products.

If your belting problems need emergency service, phone or wire our nearest branch.

GERMAN PEACE TALK.

Germany is preparing for another peace note. This is clear from the speeches in the Reichstag and the comment of German newspapers on President Wilson's terse reply to the recent suggestion for a peace conference made through Austria.

own development in their own way, and which would put back the whole progress of civilization, which, as I believe, consists in the growing friendly intercourse between nation and nation of such a kind that while each influences the other, each may nevertheless, in conformity with its own character, its own history, its own national aspirations, give to the common task that work which they are best fitted to carry out.

Meanwhile, it is well for us to remember that the talk of pacifists have no place in the countries of the Entente while our armies are bleeding and dying for the cause which must triumph if civilization is to live.

GERMANY AND RUSSIA.

The Kaiser in his interview published the other day expressed his righteous horror at the dreadful doings of England in Russia. "Well," said he, "I once entered a restaurant where they weigh you before eating and then after eating, and then charge you by weight. I had a good feed, and was charged ten shillings. The next time I went I took in my pockets bricks, weights, iron rods and such like, and weighed and then went upstairs and had a banquet three times as big as the last. I went down and was weighed again, but they couldn't make it out."

"Couldn't make what out?" asked the club members.

"Why," answered the quiet man, "they owed me four-and-tuppence."

GAS IN THE STOMACH IS DANGEROUS. Recommends Daily Use of Magnesia To Overcome Trouble. Caused by Fermenting Food and Acid Indigestion.

Gas and wind in the stomach accompanied by that full, bloated feeling after eating are almost certain evidence of the presence of excessive hydrochloric acid in the stomach, creating so-called "acid indigestion."

Acid stomachs are dangerous because too much acid irritates the delicate lining of the stomach, often leading to gastritis, food fermentations and sour, creating the distressing gas which distends the stomach and hampers the normal functions of the vital internal organs, often affecting the heart.

It is the worst of folly to neglect such a serious condition or to treat with ordinary digestive aids which have no neutralizing effect on the stomach acids. Instead get from any druggist a few ounces of Bisulphate of Magnesia and take a teaspoonful in a quarter glass of water right after eating. This will drive the gas, wind and bloated feeling out of the body, sweeten the stomach, neutralize the excess acid and prevent its formation and there is no sourness or pain. Bisulphate of Magnesia (in powder or tablet form—never liquid or milk) is harmless to the stomach, inexpensive to take and the best form of magnesia for stomach purposes. It is used by thousands of people who enjoy their meals with no more fear of indigestion.

HOW COL. MCKENZIE MET HIS DEATH

Capt. A. L. Barry of Newcastle in a letter to his wife gives further particulars regarding the death of Lieut-Col. A. E. G. McKenzie, O. C. of the 26th Battalion.

He said that they were acting staff captain to the colonel. They were both standing talking when the colonel was caught in machine gun fire. He himself was thrown by the ground with the concussion.

Other Casualties. Rev. J. A. Trudel, curate of St. Mary's church in Newcastle, was advised recently that his youngest brother, Private Omer Trudel, had given his life.

At the time of enlisting he was a student in college.

Lieut-Colonel Ings, formerly commander of the 100th Battalion, now at his home in Charlottetown, has been advised that his son, Lieutenant Ings, has been killed in action.

Private Ings was a native of Syria.

Mr. and Mrs. Montgomery McLeod of Nelson were advised recently that

their son, Private James McLeod, had been killed in action.

The names of eleven New Brunswick men who appear in the midnight casualty list are as follows: Wounded: W. Spencer, Riverside; J. J. Lozier, Tracadie; E. W. Knapp, Seckville; H. T. Frost, Oak Point; C. I. Gorman, St. John. Killed in action: H. E. Young, Milltown; Gassed: A. W. Snares, Fredericton; C. Anderson, Chatham. Ill: G. W. Allen, Bayfield; J. F. Gilbert, St. John.

MISS MCKEIL PROMOTED. Word was received by relatives in Fairville, yesterday, saying that Nurse Sister Theodora R. McKel had been appointed temporary matron of Hospital No. 18, at Hastings (England). Miss McKel was decorated not long ago by His Majesty, King George, with the Royal Red Cross, the highest decoration which can be bestowed on a nursing sister. Miss McKel has many friends in St. John and Fairville who will be glad to hear of her further advancement in her profession.

Keeping up with the Joneses One great bar to the practice of thrift to-day is the tendency to let others set for us our standards of living. MRS. Jones appears on the street in a new gown and at once her neighbour vows she'll have one like it. Or if a new motor car is delivered to a certain home, a nearby family, not to be handicapped in the social race, plan to discard their old car for a new one. And so it goes from one thing to another—a ceaseless, senseless competition which often ends in debts, distress and disaster. Such silly rivalry is bad enough indeed in normal periods. It is positively unpatriotic in times like these when the country needs all available labor and material and every available dollar with which to carry on the war. It is perhaps difficult for us to appreciate that the purchase of things we do not really need may be the direct cause of loss of life on the firing lines. But you can't escape the fact, no matter how unpleasant the thought, that millions of individual selfish demands at home may prolong the war by causing a shortage of the very things essential to our success at the front. For the money we spend in satisfying these desires represents equipment, clothing, shot and shell that are so urgently needed for our boys in France. Remember that when you are tempted to spend foolishly in an effort to "keep up with the Joneses."

GROWING DEAF WITH HEAD NOISES? TRY THIS. If you are growing hard of hearing and fear Cataract Deafness or if you have roaring, rumbling, hissing noises in your ears go to your druggist and get 1 ounce of Parmitin (double strength), and add to it 1/2 pint of hot water and a little granulated sugar. Take 1 tablespoonful four times a day. This will often bring quick relief from the distressing head noises. Clogged nostrils should open, breathing become easy and the mucus stop dripping into the throat. It is easy to prepare, costs little and is pleasant to take. Anyone who is threatened with Cataract Deafness or who has head noises should give this prescription a trial.

TIMBER SALE. The lands which were advertised for sale on the 25th of September, 1918, and postponed, will now be held at the Crown Land Office, Fredericton, N. BUY SALT FISH.

In accordance with the suggestion of the Canada Food Board, Pacific producers are putting up salt herring in small pails. They are procurable in this form as far east as Winnipeg. The Maritime Provinces are continuing to supply flannel haddies by the box as well as other varieties of salt dried fish. The supply of fresh cod has suffered as a result of submarine activities but there is no danger that the market will feel the shortage, for the Pacific could be depended upon during the winter for frozen fish, if by any chance the Atlantic supply were to fail.

Food Board Flashes For Feminine Folk

The class in dairying which was to have been started at the Ontario Agricultural College, Guelph, in October, has been postponed, but will probably start some time in January, so that would-be dairymaids do not need to be discouraged.

The Ontario government is considering the recruiting and training of girls for the cheese and butter factories. The chief dairy inspector for eastern Ontario declares that his best cheese-makers have been women. He feels strongly that the standard of cheese-making would be improved if there were at least one woman in every factory where there are two assistants.

A month's training would be sufficient, and wages vary from \$85 and board a month to \$90 and board. He claims that men and women should be able to earn the same salaries. Something like five women could be placed in eastern Ontario in this capacity next summer.

AMERICAN CAPRONI MEETS TEST IN AIR

Equipped With Liberty Motors, It Reaches Altitude of 14,000 Feet, Carrying 3,000 Pounds

Mineola, L. I., Sept. 24—The American-built Caproni biplane, equipped with Liberty motors, has surpassed expectations of Allied officers in the first of a series of altitude, weight-carrying, and speed tests to determine its qualities as a bombing plane. In a flight of an hour the airplane reached an altitude of 14,000 feet, carrying three men, gasoline for a five-hour flight, and 1,000 pounds of lead. Allied army officers said they thought the test was extremely successful, and particularly because a brisk wind was blowing throughout the flight.

Captain d'Annunzio and Lieut. Julian Parvis of the Italian Flying Corps piloted the machine throughout the test, and they were accompanied by Captain H. Harris, an American army officer, who made observations with instruments and kept a record of the flight. The average weight of the men was about 170 pounds, so that the plane was carrying a burden of almost 8,000 pounds.

Major-Gen. J. Franklin Bell, commander of the eastern department, and an official observer of the flight, and the official brand of the department of military aeronautics, was delegated by Major-Gen. William L. Kenly, in command of the department, to compile a report. John D. Ryan, second assistant secretary of war in charge of the aviation programme, was represented by J. Gilmore Fletcher and William Erb. Bevilone, head of the Italian mission, with other Italian, French and Canadian officers, observed the flight so that they could make reports to their aviation departments upon the efficiency of the Caproni as a bombing machine.

The Caproni plane used in the tests has been flown over New York city several times by Captain Resnati and Sergeant Gianfelice Gino, who came to this country to aid in its construction, and other planes. It is equipped with three Liberty motors of five horsepower each, and the propellers have a rate of 1,500 revolutions a minute. Much admiration for the performance of the motors was expressed by the Allied officers. Other tests for speed will be made within a few days.

CENTENARY IN METHODISM.

Celebration of the Anniversary in Toronto Is Being Arranged for November.

The Toronto Centre District Methodist churches are arranging to celebrate the centenary of Methodism in Toronto during the week of Nov. 17, closing with an historical pageant on Sunday, the 24th, at a great popular meeting, and in six churches musical programmes will be provided.

Rev. A. Lloyd Smith requested the churches in the district to co-operate in a teachers' training drive, and in the boys' work conferences which are to take place this fall.

CHAPLAIN HOOPER'S ADDRESS.

The Easiest Way To End Dandruff

There is one sure way that never fails to remove dandruff completely and that is to dissolve it. This destroys it entirely. To do this, just get about four ounces of plain, ordinary liquid arvon, apply it at night when retiring; use enough to moisten the scalp and rub it in gently with the finger tips.

By morning, most if not all, of your dandruff will be gone, and three or four more applications will completely dissolve and entirely destroy every single sign and trace of it, no matter how much dandruff you may have.

You will find, too, that all itching and digging of the scalp will stop instantly, and your hair will be fluffy, lustrous, glossy, silky and soft, and look and feel a hundred times better.

You can get liquid arvon at any drug store. It is inexpensive, and four ounces is all you will need. This simple remedy has never been known to fail.

Every Woman Needs IRON at Times

If women would only take Nuxated Iron when they feel weak, run-down, tired out—when they are blue, nervous and haggard—there are thousands who might really build up their red corpuscles, become rosier-checked, stronger and healthier and be much more attractive in every way. When the iron goes from the blood of women, the healthy glow of youth leaves their skin and their charm and vivacity depart. A two weeks course of Nuxated Iron works wonders in many cases. Satisfaction guaranteed or money refunded. At all good druggists.

NUXATED IRON

Lemon Juice For Freckles

Girls! Make beauty lotion at home for a few cents. Try it!

Squeeze the juice of two lemons into a bottle containing three ounces of orchard white, shake well, and you have a quarter pint of the best freckle and tan lotion, and complexion beautifier, at very, very small cost.

Your grocer has the lemons and any drug store or toilet counter will supply three ounces of orchard white for a few cents. Massage this sweetly fragrant lotion into the face, neck, arms and hands each day and see how freckles and blemishes disappear and how clear, soft and white the skin becomes. Yes! It is harmless.

Old Government Made Total Loss on Surplus Of Patriotic Potatoes

Rev. J. B. Daggett, Former Secretary of Agriculture, Tells How They Covered up Loss of \$32,861—Amount Was to be Made Good by the Party—Story of Actual Payment Yet to be Told

An apparently frank revelation of at least a portion of the inside facts relating to the patriotic potato transactions of the former provincial government was made by Rev. J. B. Daggett, then secretary for agriculture, before Commissioner McQueen at the afternoon session of the inquiry yesterday. Mr. Daggett explained that the government sustained a total loss on the shipments of the surplus of approximately 16,000 barrels which were sent to Cuba. When he informed Hon. J. A. Murray and the late Premier Clarke the latter advised that it would not look well to have the loss made public as some people might think the money had been stolen. He advised that the party should make it up and that the amount be financed accordingly. Arrangements for the note were made accordingly. Mr. Daggett could not swear who paid the note.

2 Cakes Cuticura Soap and 3 Boxes Ointment Heal Two Weeks Old Baby Of Skin Trouble.

"When about two weeks old my baby turned blue, and in a couple of days broke out in a rash. Then she turned sore around her ears and on the top of her head, and on her arms and legs. The skin was red and she scratched till she made it bleed. She could not sleep. I wrote for a free sample of Cuticura Soap and Ointment. It was a great relief, so I bought more, and I used two cakes of Cuticura Soap and three boxes of Cuticura Ointment when she was healed." (Signed) Mrs. Alfred Ryan, 1674 St. Martin St., Montreal, Que., August 10, 1917. For every purpose of the toilet Cuticura Soap and Ointment are supreme. For Free Sample Each by Mail Address post-card: "Cuticura, Dept. A., Boston, U. S. A." Sold everywhere.

appeared in the returns made by Clements to the department of the number of barrels shipped. Q.—"Who Paid the Charges?" A.—"And you paid brokerage charges on the number of barrels shipped?" Q.—"On the barrels shipped by Mr. Boyce?" A.—"The amount is about half of that charged on the other vessel and I take it that the balance of the shipping charges were paid by Mr. Boyce. We did not have enough potatoes to fill the ship and were glad to have Mr. Boyce help to fill it up."

Q.—"Did you get any return from Cuba for any of the shipments?" A.—"I don't know anything about it; I do not remember any of the details." Q.—"Do you remember anything about the schooner Mincola?" A.—"After some hesitation"—"Oh, yes, the Mincola; that was another matter; a private transaction." Q.—"Whose?" A.—"B. Frank Smith's."

Q.—"How many barrels did Mr. Clements return show as shipped to Cuba?" A.—"The statement was put in evidence, the witness explaining that Mr. Clements did business under the name of the New Brunswick Bookkeeping Co. This, he said, showed the shipments." Mr. Hughes asked about 100 barrels shipped by the Chaleur on January 16, 1915. Witness knew nothing of it, not of other similar shipments. The total shown was 2,929 barrels and 3,283 sacks. Witness did not know whether the sacks were uniform. It was reported to witnesses by A. C. Smith & Co. that the returns from Cuba were not sufficient to pay the expenses.

Q.—"It was just by good fortune these few bad barrels were discovered?" A.—"Yes, I was there while they were being loaded into the schooner Irma Bentley. I saw the barrels being put on the Elkin through whom we chartered the vessel, on account of barrels in poor order. There were 200 barrels of potatoes; they were rotten." I told Mr. Clements, our inspector for the cargo, the man who sold them—and asked for an explanation. He was surprised, and after tracing it out, found that they had been harried by mice. Q.—"It was just by good fortune these few bad barrels were discovered?"

Q.—"Who should make it up?" A.—"I took it that he meant the party. I told the premier that if that was done, as I felt partly responsible, I would be glad to contribute. He asked me if I thought that arrangements could be made to finance the amount of it. Mr. Murray gave me the note and I handed it to the deputy provincial treasurer. I told him the facts; that it was a loss and that it was being handed back to Mr. Smith." Q.—"Do you remember the date?" A.—"No, I made no special memorandum of it. Mr. Murray gave me the note and I handed it to the deputy provincial treasurer. I told him the facts; that it was a loss and that it was being handed back to Mr. Smith." Q.—"And Premier Clarke did?" A.—"Yes."

War Summary

New York, Sept. 24.—The Associated Press, tonight, issued the following: In both Macedonia and Palestine the British and French are giving the already badly beaten Bulgarians, Germans and Turks no rest, while in France the British and French are continuing to draw their net more closely about St. Quentin and the remaining elements of the Hindenburg line in this immediate region. In Macedonia the situation of the Bulgarians and Germans daily grows more critical as the Allied forces steadily maintain their pressure against them. In Turkey the latest operations of the British and Arab tribesmen friendly to the Allied cause seemingly forecast the complete destruction or capture of the Ottoman troops in Palestine on both sides of the River Jordan. St. Quentin, through the latest advances of the British and French, is all but enveloped and to the north the strong enemy line protecting Cambrai has been further encroached upon by Field Marshal Haig's men. In Palestine the British on the coast have taken the important town of Haifa and Acre, while east of the Jordan the Turks are everywhere in retreat, hard pressed by the British and the tribesmen of the King of the Hejaz. Inside the big sack, the neck of which was sewen up by the British in their initial drive, many more

Huge Task Is Faced By The United States

Washington, Sept. 25.—In outlining the food conservation programme which the people of the United States must adopt in order to send an American Army of 800,000 or more fighting men to France by next summer, Food Administrator Hoover said it would be necessary to ship abroad for the American armies and the allied and neutral nations 17,500,000 tons of meats, fats, breadstuffs, sugar and feed grains in the year ending July 1, 1919. This huge total represents 5,700,000 tons more than was shipped in the year ended July 1, 1918. The magnitude of the task is further emphasized by the fact that this surplus alone is 197,000 tons greater than the entire annual shipments based upon the average for the three years before the war. Mr. Hoover points out that the huge shipments must be made in order to release hundreds of thousands of tons of allied shipping, now engaged in carrying foodstuffs from South America, Australia and other countries at a great distance from the allied nations, and make them available for carrying American troops and munitions to France. He will, therefore, ask the people of the United States to accept the same food conditions as those which must be met in Europe. With such a programme in operation, he believes, the food supplies for all needs in all the allied countries, including the foodstuffs for the American overseas force, can be supplied without again resorting to wheatless and meatless days.

Ladies! Salute Him!

Discovers drug that loosens sore, touchy corners so they lift out. A noted Cincinnati chemist discovered a new ether compound and called it frezone and little quarter ounce bottles can now be obtained from any drug store for a few cents. You simply apply several drops of frezone upon a tender, corn or painful "blus" and instantly the soreness disappears, then shortly you will find the corn or callus so loose that you can just lift it off with the fingers. No pain, not a bit of soreness, either when applying frezone or afterwards and it doesn't even irritate the skin. Hard corns, soft corns or corns between the toes, also toughened calluses just shrivel up and lift off so easy. It is wonderful! Seems magical. It works like a charm. Millions of women will hereafter keep a little bottle of the wonderful frezone handy and never let a corn ache twice.

THE RING.

Victory for Wilde.

London exchanges tell of another remarkable triumph achieved by the old British boxer, Jimmy Wilde, who in a match a few days ago with J. Conn on the Chelsea football ground, scored nearly two stones weight to an opponent at the top of his class and on the twelfth round. At this point Conn was in such a helpless state at the referee very properly stopped the contest. The London Chronicle says: "Wilde is undoubtedly the most wonderful little boxer the ring has known. He is like an under-developed schoolboy of 18, a pale faced youth with frail arms and legs. But he has a great width of shoulder and a striking power that no one realises quite so well as his opponent. As he stood up Conn, who weighed in at 161 lbs., a physical handicap seemed all too big to overcome. From the first round, however, Wilde's outburst of defence could have outlasted him. His speed was amazing; he carried the fight so lightly to his opponent that his own fence was a secondary matter. It was probably Conn's plan to bring Wilde down to his own level of skill

U-BOAT SURRENDERS TO BRITISH DRIFTER

Incident Shows How Allies Have Met U-Boat Menace--Hunters Now Hunted--Depth Charges and Other Devices Play Havoc With Submarines

What may rank as one of the most curious incidents of the war which is being waged on the enemy submarines occurred the other day, when a German U-boat voluntarily surrendered to a British drifter. The point of the U-boat's surrender was a remarkable one in that it was the first time that a submarine had been captured in the open sea. When the policy of piracy was first adopted by the Germans, their submarines had things very much their own way, because few merchant ships were armed and the navy was short of anti-aircraft. For some time the Germans were able to send to sea a large number of U-boats, and officers and men of those vessels rarely enjoyed the pursuit of what they regarded as a sport which was then associated with little danger.

But now the conditions at sea have changed; as Commander Rose, one of the most experienced U-boat commanders, recently explained in a lecture which he delivered at Munich. Instead of being the hunters, the submarines are hunted. The number of patrol craft has been enormously increased since the Germans began to sink merchant ships toward the close of 1914. Some indication of the progress which is still being made is suggested by the action of the navy department at Washington in asking congress to vote nearly 20,000 more officers and men for duty in the new destroyers which are being built in the yards of the United States and will pass into the American fleet during the next twelve months. At the same time British shipyards will also be turning out destroyers and other vessels suitable for chasing enemy submarines.

Many ingenious devices.

Not only is the number of small craft being rapidly increased, but the ingenuity of the Allied navies, and conspicuously of the British navy, is finding expression in a variety of ingenious devices. Considerable success has attended the recent mining policy; the hydrophone, which enables the movements of a submerged submarine to be heard, has been successfully developed and what are described as "depth charges" are being used with increasing results.

Recently a lightly armed British drifter had an enemy submarine under gunfire, and, doubtless much to the drifter's surprise, the commanding officer of the submarine indicated that he and his companions wished to surrender. The position of the British skipper was an embarrassing one. Nothing

are so few flies and mosquitoes is also an unexplainable mystery.

The absence of poisonous reptiles in a country where there is such a resort to the woods and streams as the inhabitants of this unexampled scenic country continually indulge in is surely something to thank the gods for. Lovers of the illimitable open may here tramp along the rocky borders of mountain streams, or, rolled in their blankets, sleep the sleep of the tired, or journey through sylvan shades with no fear of the soul-piercing alarm of the poisonous rattler or the deadly cottonmouth.

Freedom from the less dangerous but more troublesome flies and mosquitoes is no less pleasurable. Those who had experience in the army camps in the south during the Spanish-American war still vividly remember the clouds of flies that made life in those camps almost unbearable. Such quantities of flies attacked the soldiers at mealtime there that it was with difficulty any food was got by them into the mouth. At night these insects are comparatively nil. With the cool summer weather and freedom from insects this is perhaps the ideal camp in the country.

At Camp Lewis, where 80,000 to 40,000 men of the National Army are continually being retrained and trained, the hum of mosquitoes was more fearful than the roar of battle guns could have been.

Some day, when war has ceased and peace has come, when the thousands of soldiers who have been trained at Camp Lewis return to civil life and have time for contemplation, the glories of this Puget Sound country, with its mild climate and its freedom from poisonous reptiles and plague-breeding insects, will arise in their memories with wondrous clarity, and there will be many a man seeking residence in this beautiful wooded country, with its sea-girl shores and its many other natural charms and few disadvantages.

It has been prophesied that Seattle will some day be the meeting place for Orient and Occident and that here will finally be built the great world city. Out of the knowledge disseminated by the soldiers who have experienced its advantages will grow a longing of peoples everywhere to see for themselves the boasted advantages.

The war will have its blessings to offset its tragedies and this will be one of them--that the world will know just what this Puget Sound country has to boast of, and be anxious to share in those advantages.--Seattle Post-Intelligencer.

NEW FIRE NUMBER A PUZZLE

The new fire alarm signal No. 78, which heralded the Dufferin Hotel blaze early this morning, was a puzzler for many. Recently there has been a shuffle of up-town fire alarm numbers and therefore something strange to many of the people who simply rolled over in bed and forgot it. When finding out the facts later on they were greatly surprised.

BURIED TODAY

The funeral of William J. Godose took place this afternoon from his late residence, 33 Exmouth street, to the Cathedral, where burial services were conducted by Rev. A. P. Allen. Interment was made in the new Catholic cemetery. Relatives acted as pall bearers.

The funeral of Mrs. Welsford Marks took place this afternoon from the residence of her son in law, 68 Gilbert's Lane. Services were conducted by Rev. J. H. A. Anderson and interment was made in Cedar Hill.

SUBURBANITES RUSHING HOME

The important roadways leading from popular suburbs are dotted with furniture-laden teams these days, indicating a return from summer abodes before the invading forces of Jack Frost. There is a general abandonment of semi-furnished cottages and unplastered camps and bungalows along the river and far into the railway districts. Some of them are being kept partially furnished for shooting parties as the season is now on. On the whole the last summer was not a very long one in point of fine weather and motoring suburbanites tell tall tales of wet roads and "top-up" weather.

Q. M. S. HAROLD CUNNINGHAM IS MARRIED IN ENGLAND

A very pretty wedding took place in Corby, Lincolnshire, England, on Aug. 21 last, at the home of the bride, when Miss Evelyn Codd was united in marriage to Reg. Q. M. Sgt. Harold W. Cunningham of this city. He was employed with the Bank of Nova Scotia, and having been transferred to Quebec, he enlisted with a Quebec battalion and went overseas with the first contingent. His many friends will wish him much happiness and a safe return to Canada.

SEPTEMBER WEDDINGS

Morrissey-Fitzgerald.

A pretty wedding was solemnized this morning in the Church of Assumption, West St. John, united in marriage with nuptial mass Miss Thomasina Fitzgerald, daughter of Mr. and Mrs. William Fitzgerald, Duke street, West St. John, and William Morrissey, of the C. P. R. staff office. The bride was given in marriage by Rev. W. M. Akery, Rev. I. W. Williamson performed the ceremony. The bride was dressed very charmingly in steel grey silk with bridal veil and orange blossoms and carried a bridal bouquet of roses and maiden hair fern. The house was prettily decorated with ferns, roses and palms. The presents were very numerous and pretty. Among them were a pair of chairs from No. 2 salvage corps, of which the groom is a popular member. A handsome china set came from the employees of Fowler's saw factory, where the groom is employed, also two very pretty pieces of silver, engraved, from the employees of Bond's Cafe, also a check from the managers. The bride has been a valued member of their staff. Mr. and Mrs. Carvell left today on the noon train for the home of the bride and will visit other places of interest before returning to their residence at 151 Victoria street. The best wishes of hosts of friends and relatives are being extended for future happiness and a long life together. Among the out of town guests were Mrs. Archer of Campbellton and Mrs. Sada Baker of Boston.

Harvey-Smith.

A very pretty wedding was solemnized last evening at the home of Mr. and Mrs. James R. Smith, 179 Douglas avenue, when their daughter, Miss Wills D. Smith, was united in marriage to Arthur W. Harvey, son of Mrs. Agnes and the late Fred Harvey of this city. The ceremony was performed by Rev. Henry Penna at the home of the bride's parents in the presence of immediate relatives and friends. The bride, who was given away by her brother, Walter, was contained in a very pretty dress of white crepe du chene with Georgette trimmings and veil with a wreath of orange blossoms and carried a bridal bouquet. She was unattended. Following the ceremony a dainty wedding supper was served. Mr. and Mrs. Harvey left this morning on an automobile tour through the province. Returning, they will reside at 202 St. James street. They are the recipients of a large number of very pretty and useful presents in cut glass and silver.

Bewick-Waters.

At 5:45 o'clock this morning in Trinity church, Rev. D. H. Loweth officiating, Cyril Bewick of 47 Celebration street, and Helen Waters, daughter of the late Harry Waters, of Grand Manan, were united in marriage. A considerable group of friends witnessed the ceremony. Both bride and groom have been employees of the King street offices of T. McAulay & Sons, Ltd., from whom they received a substantial check, whilst fellow employees expressed their good wishes in the form of a chest of silver. Other remembrances such as cut glass ware, fine china, art, furniture and fabrics were showered upon the happy young principals. Mr. and Mrs. Bewick left on the American train at 6:45 on a honeymoon trip as far as Woodstock.

ALONG THE RIVER

September Strawberries — Some Interesting Souvenirs

Mr. Wilkes, at Public Landing, picked a box of strawberries in his garden this week.

Farmers along the river who did not use the Bordeaux mixture find that a considerable portion of their potato crop is affected by rot.

The Ocopee yesterday and today brought down potatoes, apples, pumpkins and squash, and a variety of other products.

Captain Taylor, purser on the Ocopee, has the starting bar of the tug Admiral as a souvenir. Not because it was in the Admiral, but because it was in the Antelope in the states and in the Reindeer in the early fifties. It started the first compound engine made in these parts, if not in the world—invented by Mr. Tibbitts of Fredrickton and first used in the Reindeer between St. John and the capital city. Captain Taylor has gathered at odd times a great mass of information about steamboating on the river years ago. Captain Flewelling is a fine group of photos of five steamers, and one of Indian town waterfront in 1874, showing the steamers Olive and David Weston at the wharf.

PRESENTATION AT THE MCAVITY PLANT

A very interesting event took place at six o'clock last evening in the McAulay munitions factory, Marsh Road, and was the first of its kind which has occurred since the war work was taken up there. It was a presentation to Mrs. Hatfield, Fairville, who is employed on the three to eleven o'clock shift for girls and women. Yesterday marked the twenty-fourth anniversary of Mrs. Hatfield's wedding and her co-workers on that shift called her before them at the supper hour and presented to her a case of knives and a basket of flowers in patriotic colors.

The presentation was nicely made by Mrs. Jeannette Moss who is in charge of that shift and there was a very grateful response by the recipient. It is noteworthy that Mrs. Hatfield's husband and she are both overseas and that herself does not rest idle at home, but is doing her share to win the war.

GETS HELMET FROM BATTLEFIELD

Mrs. MacBormand of this city, was pleased to receive in the mail this week a rather bulky souvenir from the battlefields of France. It was a much battered brass helmet with sweeping brush crest surmounting it and lined within with leather. It has evidently seen some hard usage because it is much dented and bent.

It came from her husband, Trooper Allan MacBormand, who has been across for three years. He went over with the 6th C. M. R.'s in 1915 and is now with the third Canadian division. He has been through a great deal of the severe fighting but fortunately has escaped being wounded. At time of writing he was just going on ten days leave and intended to pay a visit to Scotland. In St. John before the war Trooper MacBormand was a driver for the James Robertson Company.

DEATH OF MRS. CHARLES R. WASSON

Mrs. Charles R. Wasson died this morning at her home, 274 Douglas avenue, after a very short illness. Mr. and Mrs. Wasson and some friends arrived home last Friday after a motor trip through the United States. Mrs. Wasson complained of feeling ill, but nothing was thought of it until a day or two ago when pneumonia set in. She was an active worker of Victoria street church. Mrs. Wasson leaves her husband, two sons, Charles Ester and John Edward, and one daughter, Edith May, all at home. The funeral will be on Friday. Many will deeply sympathize with the bereaved ones in their great loss.

NO MORE COMPLETE VICTORY IN HISTORY

That's What is Said About Allenby's Success in Palestine

London, Sept. 25.—Detailed reports of operations in Palestine lag considerably behind even there. The latest report from the accredited British correspondent, sent from Nebulus on Monday, emphasizes the astonishing thoroughness of the destruction of the seventh and eighth Turkish armies. Remnants of these forces which succeeded in crossing the Jordan River are isolated and are almost entirely without war material.

There has been no more complete victory in history," the correspondent says. "Groups of men have been found sitting under white flags awaiting the acceptance of their surrender."

Aside from more than 200 guns captured, vast quantities of ammunition are lying everywhere, some munition depots covering acres of ground. It is reported that if the Turks try to raise new armies to replace those destroyed, they must call on Germany to supply every gun and every instrument of war, as the Turks manufacture only small arm ammunition.

The correspondent describes a remarkable spectacle around Belet. This area was strewn with wreckage of the retreat. Here alone the British captured eighty-seven cannon, thousands of horse-drawn vehicles, hundreds of motor lorries and field kitchens, water carts and a mass of other implements. This material, mingled with thousands of bodies of Turks, Germans and horses, blocks the roads. Much of the wreckage was wrought by airplanes, which swooped down upon the retreating columns and dropped bombs from a low altitude until whole columns became vast broken masses of men. Those who escaped wounds or death fled to the hills, abandoning everything. Many of these were captured by cavalry, while others sought refuge in the British lines.

NOVELTY SHOWER.

Miss Mary Harrison of 23 Cedar street entertained about twenty-five friends last evening in honor of Miss Mildred Akery, whose marriage to Rev. W. H. Mackay of Sydney, N. S., will take place early in October. The evening took the form of a novelty shower and the bride-to-be received many pretty and useful gifts.
