Favorable Terms of Leases Reason Given By Berry For Urging Money Contribution

Ex-Senator Jones of Maine Tells Why and How He Paid \$3,225

Only One Witness Today — Valley Railway Charges Taken up Next Tuesday and Date For Resuming Timber Matter Then to Be Set — Premier Fleming Contents Himself Today With Obscure Place

The fear that their company would not be on as good a basis with the government if they did not pay, and that by making the payment of \$15 a mile to the "campaign fund," this danger would be eliminated, was a reason given by the general manager of the Partridge Pulp & Paper Company this morning for his company's contribution.

Ex-Senator N. M. Jones was the only witness at this morning's session of the Dugal inquiry, and he told of making a payment of \$3,225 to W. H. Berry on October 4, 1913. Mr. Berry had been urging the payment since July and had yielded, after conference with his associates, as he believed that by so doing they felt that they would be placed on a better basis with relation to the provincial government.

There are six other witnesses to be called to support the charges, but as none of them were available this morning the hearing of the timber charges was adjourned.

The commission will resume on next Tuesday, when they will proceed with the hearing in the Valley railway charges, and at this time the later date for continuing the timber lands case may be fixed.

The commission was urged by some of the counsel to hear the railway charges in Fredericton on account of the greater convenience in gaining access to the railway company's, and the government's books and papers, but the commission decided that the first session, at least, would be held in St. John.

The test usually occupied by Premier Fleming was again conspicuously absent this morning. A close survey of the court room revealed the fact that Hon. Mr. Fleming was present, however, for a short time. He occupied a seat in a corner in the midst of the casual spectators.

Why They Were Asked to Pay

When the morning session opened ex-Senator Nathaniel M. Jones, manager of the Partridge Pulp and Paper Co. Ltd., was sworn and took the stand. He said that his company had 250 1/2 miles of crown lands. In July, 1913 they had 226 1/2 miles. They paid to the government for the bonus in 1913, \$10,825 for their own lands and \$27.50 for lands held jointly with James Robinson.

Q—Do you know W. H. Berry?

A—Yes.

Q—What is his position?

A—Chief scaler of the province.

Q—Know him long?

A—Not very.

Q—Did you have any conversation with him about the payment of bonuses?

A—Yes.

Q—When?

A—About July 1, 1913.

Q—Where?

A—In the office of John E. Moore, St. John.

Q—What did he say?

A—The object of the meeting was to discuss the bonus to be paid to the government fund. Mr. Berry said that, in view of the terms which had been made in connection with the bonuses that the large holders of crown lands should contribute to a campaign fund. I questioned him as to the reasons why. He said that favorable terms had been given after some controversy among members of the government.

Q—Did he mention the name of any member of this government?

A—No. He said that some of them wanted \$100 but the premier had been successful in arranging the matter at \$100 per square mile.

Q—Did he say anything to you about the premier's wishes in the matter?

A—He said that all the other license holders had agreed and they felt that we should come in.

Q—Did he say that the premier felt this?

A—No, but I inferred that the government.

Mexican Mediation Proceedings Seem About To Fail

CHOICE OF A MAN THE CAUSE

No Agreement as to Successor to Huerta Seems Possible — Villa Says There Are No Differences Between Him and Carranza Affecting Situation

Niagara Falls, Ont., June 19.—The American and Huerta delegates today hold firmly to opposite views explaining the type of man desired by each side for provisional president of Mexico.

Having gone on record before the world, the prospect is that neither side will give way, and that a deadlock will result in a complete breakdown of mediation.

Later today there is expected to be a conference of the mediators and the two sets of delegates. It may be determined then whether any common ground remains for an agreement.

Only abandonment of the academic discussion on type of man and continuance of the search for an individual acceptable to all parties, can the situation from this hopeless state toward the channel of possible solution.

The American delegates still have upon them to submit, but the Huerta delegates have opposed energetically all persons suggested.

The chairman suggested that the counsel first take up the actions and then the impressions.

Q—Was anything more said by you or Mr. Berry at that conference?

A—I told Mr. Berry that I would take the matter under advisement and consult with my associates. Personally I refused. I afterwards consulted my associates.

Q—What impression was left in your mind as a result of the conversation with Mr. Berry as a fact?

A—The chairman suggested that the counsel first take up the actions and then the impressions.

Court and Counsel at Empress Inquiry Say Nice Things

LORD MERSEY'S QUESTIONS

Seeks to Learn About Watertight Compartments—Steering Gear Was All Right, Says Officer

Quebec, June 19.—The morning session of the Empress of Ireland wreck inquiry was opened today by mutual explanations from C. S. Haight of counsel for the Storstad owners, and Lord Mersey.

Lord Mersey said that he desired to dissociate himself from any remarks he might have made yesterday, which gave the impression that he did not believe them anxious to do any such thing, and was most anxious to make this explanation to the court.

Lord Mersey said he was pleased Mr. Haight had given him the opportunity to state that he considered Mr. Haight's conduct of his part of the case hitherto as irreproachable.

Butler Aspinall, K. C., accepted the explanations gracefully, on behalf of A. E. Houlihan, who was sitting with him in handling the case for the C. P. R.

Lord Mersey wanted evidence from the engine room to learn if possible how the engine room had been flooded.

International Patrol to Clear Atlantic of Derelicts

Cutters To Be Stationed One In Western, Other In Eastern Waters of The Ocean—First Time By Co-operation Among Nations

Washington, D. C., June 19.—To form the North Atlantic of derelicts, the revenue cutters Seneca and Miami, early in July will establish an international patrol in these waters, as authorized by the International Maritime Conference in London last year.

At present the two cutters are working out of Halifax in the Atlantic against wrecks which may cross the paths frequented by steamers between Europe and America. As soon as the danger of icebergs has passed, the two cutters will search for derelicts, which imperil shipping.

One of the cutters will make its headquarters somewhere in the Azores and confine its duty to the European end of the trans-Atlantic route. The other will make its headquarters either in Newfoundland or Nova Scotia, and limit its efforts to the American end of the well-travelled coast.

The cutters will use gun-totons to demolish the derelicts, they are equipped with wireless and, through other vessels, similarly equipped will keep all posted as to the location of obstructions, but this will be the first international co-operation to clear the high seas of derelicts.

A majority of the derelicts in the North Atlantic are carried from the shores of the United States, by the Gulf Stream and other currents, towards Europe and drifted by currents off the European coast. The two cutters will use gun-totons to demolish the derelicts, they are equipped with wireless and, through other vessels, similarly equipped will keep all posted as to the location of obstructions, but this will be the first international co-operation to clear the high seas of derelicts.

From \$20 to \$100 a Head The Motive For Running Risk of Jail Sentence — Three Buffalo Men Dealt With; Given Six Months and Year

Rochester, N. Y., June 19.—Three Buffalo men, convicted of bringing Chinese from Canada, were sentenced in a federal court here yesterday by Judge Hazel. George Swatzenburg, indicted jointly with Thomas ("Dick") O'Brien, after they were caught in a small boat near the American side of the Niagara River at Buffalo, will spend a year in the Erie county penitentiary.

pleaded not guilty, and was held in \$4,000 bail for trial.

John Oberst, caught landing Chinese at the foot of River street, Buffalo, pleaded guilty and was sentenced to six months.

In presenting the cases, United States District Attorney O'Brien said the route of the syndicate engaged in smuggling Chinese had been traced by officials from Toronto through St. Catharines to Port Erie, where the aliens were housed until smugglers got a chance to take them across the river at \$80 to \$100 a head.

The automobile was driven by Alfred Dunlop who escaped without injury.

The street car was crowded with men going to work in the L. C. R. shops and it is a wonder there were not more fatalities. The automobile was coming down Highfield street and the occupants did not notice the street car coming up Main until, on crossing Dunlop, the driver, endeavored to turn the automobile up Main but was unable to clear.

Both occupants of the automobile are held on charges of excessive speeding. Bliss Fowler was a son of Charles Fowler and was highly esteemed.

AGAIN DENY WOMEN VOICE IN ANGLICAN CHURCH VESTRIES

Synod of Huron Motion Fails to Get Necessary Two-Thirds Vote

London, Ont., June 19.—As was the Huron, in annual session here, again denied women a voice in the vestries of the church. A motion providing for the enfranchisement of women, so far as vestry deliberations are concerned, was introduced by John Ransford of Clinton, but was defeated by the following vote: Clerical—For, 77; against, 46.

Lay—For, 55; against, 87.

A two-thirds vote was necessary.

ORANGEMEN PLANNING FOR BIG GATHERING

London, Ont., June 19.—London Orangemen are preparing for one of the biggest Orange gatherings ever held in this country. Five thousand members of the order of the Black Knights will gather in this city on August 12. It is expected that some of the best orators of the order will be present, and an elaborate programme of entertainment is to be arranged.

ALL RESCUED

Glasgow, Scotland, June 19.—The hospital ship Maine, which went ashore on Wednesday in the Firth of Lorne, on the west coast of Scotland, was still fast yesterday. She is badly damaged. The entire crew, together with the patients, of whom were sailors of the British navy, were picked up by other vessels from the ship's boats in which they had been placed after the accident.

THE ROMAN TRIMMING.

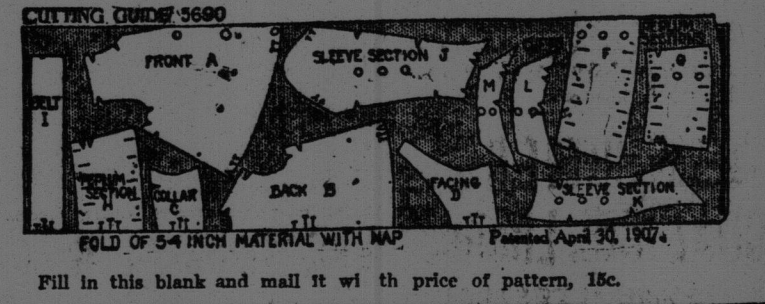

This suit is interesting. The jacket is a design that will be useful for separate wear with different skirts. In this case, however, the skirt corresponds with the jacket and is trimmed with a flourish of Roman silk. Revers and cuffs match the Roman source.

Today's lesson deals chiefly with the cutting of the model, because in this much careful maneuvering is required to get the entire costume from 3/4 yards of 34-inch material. First the silk should be folded evenly. The peplum section (D), collar (C), back (B) and facing (D) all marked with triple T.T.T. perforations, are laid on a lengthwise fold of the goods. The belt may be placed on a bias or straight fold, as preferred, but the stripes are very pretty cut on the bias. The remaining peplum sections, the front of the coat, sleeve section and cuffs are laid on a lengthwise crease of the silk.

For the jacket, the under-arm and shoulder seams are closed and the lower edge of the front and back gathered to the belt measure. Now fit the model and take up or let out seams as may be necessary. Alterations will hardly be needed, however, if the jacket is put together carefully and the measurements are correct. Now sew the large collar to the neck edge and adjust, facing to position on collar and underneath the front. Sew the peplum to lower edge of front and back, centers and fronts even. Bring single large "O" perforation at upper edge to under-arm seam. Adjust the belt, center-backs even.

An attractive tailored suit in soft, thick silk trimmed with Roman striped silk. The jacket has bell sleeves and a five-piece box-pleated peplum.

education of all our royal children. He holds an examination of his illustrious subjects regularly once a month, and a report of their progress is sent to the king and queen. Discipline is maintained in the royal school-room on lines quite as strict as in any other. A printed list of rules hangs on the wall, and any violation of these is punished with extra lessons or detention in the school-room. The princess and princes have their meals in a room adjoining the class-room. Breakfast is at 8.30, lunch at one o'clock, tea at 4.30, and a light dinner is served at seven o'clock. Punctuality is insisted upon on all occasions.

There is only one English royal prince who is still in his nursery days—Prince John, aged nine next July. He has always been the "demon" of the royal nurseries, and many good stories have been told of his pranks.

A few months ago he was in great disgrace, for, having gained possession of his sister's paint box, he daubed his face with streaks of color, and entered the dining-room, where the king was entertaining several very distinguished visitors. "Few boys born of wealthy parents are so restricted in pocket-money as are our princes. They have practically no money to spend, and have to ask their tutors or governesses for anything they may want."

Although he may grumble because he has very few playmates, there is probably no little prince in Europe so spoiled and petted as is Olav, Crown Prince of Norway. An only child, born seven years after the marriage of the king and queen, he is the idol of his royal parents. He is the owner of many wonderful toys, and is the proud possessor of a motor-car that is said to be the smallest practical car in the world. At its highest point it is only two feet from the ground. This magnificent car was given to Prince Olav by Queen Alexandra on the occasion of his tenth birthday.

Queen Maud of Norway is undertaking the complete training of her little son herself, and he spends several hours in her company every day. Prince Olav is a very self-willed young gentleman. One day he had a small friend with him in the palace at Christiania, and the visitor clambered into one of the arm-chairs. "Get out of there," cried His Royal Highness, "that's my father's place!" King Haakon, wishing to comfort the little guest, picked him up and sat him upon his knee. At this Prince Olav became more enraged. "Get out of there, too!" he cried, "that's my mamma's place!" Simplicity is the keynote of life at the court of King Victor Emmanuel and Queen Elena of Italy. The queen is a devoted mother and is never happier than when playing with her children or helping them with their lessons. Every morning regularly she visits the nursery; her love for her children has earned for her the nickname of the "Dabbler."

HOUSEHOLD HELPS

Linings for clothes baskets insure the clothes being kept clean. These linings are of unbleached muslin, just the shape of the basket, and tied into place with tapes.

Always empty out any water left before filling the kettle. Very frequently the flat taste of tea is caused by using water that already has been boiled.

When frying doughnuts, it is a splendid scheme to have a dish of boiling water on the stove. As each cake is done, lift it out with a fork and dash it quickly into the boiling water and out again.

To cut hard-boiled eggs in smooth slices, dip the knife in water.

To save time when cooking, mix pepper and salt (proportioned to taste) and keep on hand in a shaker for seasoning vegetables.

If silver is to be stored away for some time, pack it with dry flour, and it will remain untarnished.

Keep a box on the back porch for rubbish, and the yard will be much cleaner.

WAS TROUBLED WITH BOILS AND CARBUNCLES.

There is no more frequent source of illness than that arising from bad blood, for when the blood becomes impure, it is only natural that boils, pimples or some other indication of bad blood should break out of the system.

Boils in themselves are not a dangerous trouble, but still at the same time are very painful, and the only way to get rid of them is to cleanse the blood of the impurities. Cleanse it thoroughly by the use of Burdock Blood Bitters, that old and reliable blood medicine that has been on the market for nearly forty years.

Mr. James Wilds, Plaster Rock, N.B., writes:—"I was greatly troubled, a few years ago, with boils and carbuncles, and the doctor told me I was in a bad condition. My appetite failed me, I began to lose strength, and was pretty well run down when one of my friends recommended Burdock Blood Bitters. After using three bottles I began to feel like another man. My troubles soon left me, and to-day I can certainly give Burdock Blood Bitters a high recommendation to my friends."

NOVELTY IN CORPORATE MANAGEMENT

Wider Scope of Modern Life Insurance—Superintendent Emmet Warmly Commends Metropolitan Company

The report of the New York State Department of Insurance on the triennial examination of the Metropolitan Life Insurance Company has just been published by the state. Under the law, revised by Governor Hughes, this examination must be made every three years.

About twenty examiners of the insurance Department devoted nearly a year to the work, and Mr. Emmet, as superintendent of the department, wrote an extended report of the report. In this report, Commissioner Emmet not only made an analysis of the company's condition as a business corporation, but of its activities along the broader lines of social service among industrial workers, health education and the conservation of human life. He points out that the company, now having more than thirteen million policies outstanding, has assumed such proportions that it is practically brought into immediate contact with approximately one-eighth of the population of the United States.

Extracts from the report of Mr. Emmet appear in the advertisement of this strong company which appears on another page of this paper.

A NOTABLE CHANGE

The vagaries of the St. John Standard are the source of some anxiety to its friends. When Mr. Brankley told the Royal Commission that he went with Mr. Berry, at Mr. Berry's solicitation, to Mr. Fleming's room in the Barker House in Fredericton, received first from Mr. Fleming a certificate of character for Mr. E. R. Teed, whom he had never seen before, and was then told by Mr. Berry that Mr. Teed was the man who was to receive the graft money, the Standard decided that the time had come to remove the report of the enquiry from its front page, bury it inside the paper, make it as brief and unimportant as possible, and dwell editorially upon the fact that after all there are always election funds, and both parties raise and use them.

stands for the abolition of the bar. Those who vote against him vote in favor of the retention of the bar. It is the latter, the cause of temperance and of prohibition will receive a very decided setback.

A "carnival of graft" says the Globe. Tell it to the Standard.

What will the people of other provinces now say about politics in New Brunswick? ♦ ♦ ♦

The Royal Commission is doing its work well, and is justifying the confidence expressed by the press and the public. ♦ ♦ ♦

Messrs. Dugal, Carvell and E. S. Carter have established the fact that they are useful citizens of the province of New Brunswick. ♦ ♦ ♦

Isn't that fine? The Globe says the enquiry has revealed "a carnival of graft." Not so the Standard. That upholder of political righteousness is far more troubled over the sad moral state of the Times, as revealed by its publication of an affidavit which it had a perfect right to publish, since the document was read and commented on in open court, than over the fact that in Premier Fleming's room a man, "vouched for by Mr. Fleming, was indicated by Mr. Berry, a government official, as the man who should receive the graft secured from the lumber operators. Also the Standard trembles for the future of Mr. Carvell, and no doubt it regards Mr. Dugal's case as entirely hopeless.

But the Standard is not clamoring for the return of Mr. Berry to give evidence. Why should he speak? Why have the enquiry at all? Or as the Standard crushingly observes:

"Why then should the Telegraph or the Times persist in attempting to make the public believe that the present case is the first time in history when men were invited to give of their money to assist a political party? The contention is against common knowledge and common sense, and in putting it forward with show of sincerity the Telegraph and Times merely insult the intelligence of their readers. Why not call a spade a spade and have done with such rank hypocrisy?"

Why, indeed? It is true that some skeptical persons may point out that on this occasion only lumbermen were approached, and only at a time when they were seeking renewal of their licenses from the government, but why argue over such trifles? What is \$60,000, or \$100,000, to a rich province like New Brunswick? Who cares how victories are won so long as they are won?

ROBLIN WAVES THE FLAG.

The provincial election in Manitoba will be held on July 10, and Premier forty or more of the forty-nine members to be elected will be Conservatives. The Liberals advocate direct legislation, and Mr. Roblin asserts that this would be an abolition of responsible government. How he is able to arrive at such a conclusion it is somewhat difficult to perceive; but he goes further and says that the Liberals thus propose to introduce an element of republicanism "that is foreign and repugnant to every man that loves British institutions and the British flag." Of course Mr. Roblin must wave the flag. The Tories regard it as a legitimate part of their political stock in trade. There has been flag waving in New Brunswick, but some of those who waved it are not today regarded as high-souled patriots to the same extent as when they coupled solemn pledges of devotion to the old flag with other pledges to administer the affairs of the province in the interest of the people. The Ottawa Free Press very properly observes:

"Sometimes we have been inclined to believe the man who most parades his flag, who waves it on any and every occasion, is among the least loyal to that flag. We get the suspicion that he is trying to hide something beneath the folds of his flag."

THE ONTARIO CAMPAIGN.

The fact that so many clergymen are supporting the Liberal party in its "abolish the bar" policy in the Ontario provincial elections has completely changed the aspect of affairs, and it ought to mean a tremendous increase in the vote for Mr. Rowell and his candidates. A circular letter signed by Rev. Dr. Carman and Rev. T. Albert Moore calls upon the Methodists of the province to rally to the support of the policy to abolish the bar. This shows that the leaders of the temperance and religious forces of the province realize that if they do not vote in accordance with their prayers and the resolutions passed at conventions the whole cause will suffer enormous injury. At a meeting in Cornwall one night this week, at which Mr. Rowell, leader of the opposition, was the chief speaker, no less than five clergymen of the city were on the platform. It is true that some hard-headed Tory members of churches have protested against what they call dragging the church into politics, but whether there are enough of them to return Sir James Whitney to power remains to be seen. The issue is clear cut. Mr. Rowell

TRADE REPORT

The report of His Majesty's trade commissioner to the Dominion of Canada and Newfoundland for the year 1913 has just been published. The report contains a survey of the following trades:—Dry goods, chemicals and drugs, groceries, India rubber, leather, jewelry, metals, machinery, machines, machinery and hardware, earthenware, china, and glass, building materials, paints, and varnishes, paper and stationery, miscellaneous, as well as statistical tables dealing with the various trades, showing the value of the importation under the trade heading of the articles which are component parts of that particular trade.

The report should be of considerable value to those dealing with British manufacturers and merchants as well as agents having or contemplating connections with United Kingdom manufacturers by reason of the comparison made in dollars of Great Britain's trade with the Dominion in comparison with the trade of other countries. Useful information is also given regarding the appointment of agents and the handling of products of British manufacture. The edition is limited and application for copies, which will be supplied at the nominal fee of \$1 each, postage paid, should be made immediately to His Majesty's trade commissioner, 8 Beaver Hall Square, Montreal, Quebec.

Fishermen Safe

Fishermen Evans and Tyner, of Chance Harbor, reached their home port last Wednesday night after having been adrift in the bay since Monday night in a disabled motor boat. The men had a trying experience as they were compelled to wait for long periods at intervals during two nights, but they suffered no serious results from their prolonged exposure.

Useful for Over 500 Purposes. Gillett's Lye BATS DIRT.

LIGHTER VEIN.

She was standing on a chair on the pier watching the racing. On a chair behind her two Frenchmen. She turned around and said:

"I hope I don't obstruct your view?" "Mademoiselle," quickly replied one, "I much prefer the obstruction to the view."

Brown (to Dobbs, who produced the great sensational drama)—"Well, old man, how did your piece go?" Dobbs—"First class. I know several men who were present every night and who sat through the whole show."

"Is that so? Who were they?" "The musicians."

Native—Yes, I says the squire be proud. He gave us that bootiful free library.

Tourist—I'm glad you appreciate it; but you don't look like a reading man, either.

Native—No, sur; I don't use the library, but my old woman gets the job 'o' cleanin' it out!

A Chattanoga man recently met on the highway an aged dandy of his acquaintance with his arm in a sling. "Is your arm broken?" asked the Chattanoga man, solicitously. The old fellow grimaced. "No, boss, it ain't broken," said a friend one day, in speaking of the boy, "that you are not firm enough with your study."

"On the contrary," said the mother, "I sometimes fear that I am much too harsh."

"Indeed!" "O, I don't mean to say," the fond mother hastened to explain, "that I have ever really taken any summary action, but I have talked to him a great deal."

"And what have you said?" "Richard! Richard!" and other severe things.—Lippincott's.

THE EMPRESS. Quebec, June 19.—Assertions by James Francis Galloway, a quartermaster, that the Empress of Ireland did not steer well, that her wheel jammed only a few hours before the collision which sent her to the bottom of the St. Lawrence on the river, and that the crew of the steamer Alden could verify these statements, and the denials of these claims by responsible officers of the liner, made today's session of the dominion commission inquiring into the wreck one of quickly changing and gripping interest from start to finish.

DR. CHASE IS NO STRANGER. In This Home—Receipt Book and Medicines Kept at Hand All the Time.

There is no better safeguard against disease and suffering than a good cathartic medicine. In the great majority of homes Dr. Chase's Kidney-Liver Pills are constantly kept at hand, because they quickly awaken the action of liver, kidneys and bowels, and cure the most common ills of life.

Mrs. Thos. Smith, Jamestown, Ont., writes: "Dr. Chase is no stranger in our home, for we have two of his Receipt Books in the house. My father and my husband's father each had one, and I have been familiar with it ever since I was a child. It was only natural that we should use the Kidney-Liver Pills, and we found them so satisfactory in regulating the digestive system and curing the common ills of life that we always keep them on hand. Many a time these pills have saved me much suffering and prevented serious disease. We also keep the Ointment in the house all the time."

Balfour as a Lesson To Public Speakers

(An Entertaining Sketch By T. P. O'Connor)

(T. P.'s Weekly.)

Mr. Balfour is always unexpected. I have seen him during his parliamentary career descend from apparent omnipotence to the abyss of failure...

Indeed, it struck everybody that the house was about to hear one of those confused and ineffective utterances which are characteristic of Mr. Balfour...

When Mr. Balfour got up on Wednesday afternoon in the House of Commons, he had no indication whatever that he was about to make perhaps the most remarkable speech of his career...

Set down this in cold print, the words may not appear to rise to the heights of the effect which they produced...

Mr. Balfour has changed a good deal since first I heard him nearly forty years ago make his first speech...

One must add to these things the peculiarity of his position at the present moment. What joy and what sorrow parliamentary life can bring a man...

(Continued from page 1.)

Toronto, June 19.—General Villa has issued the following statement:

"I have received many telegrams from different newspapers in the United States, asking what is the matter between General Carranza and myself. I have already said through the Associated Press that there is nothing between General Carranza and myself, which has in any way altered my military policy. I now will go further and say that there never will be any difference between General Carranza and myself, that will interfere with the work by the Constitution.

COURT HEARS EVIDENCE AS TO THEFT OF OATS

Silas Dunham, Harry Mallett and Minor Akery, arrested yesterday, were before the police court this morning for further hearing on the charge of stealing grain from the Maritime Commercial Mills. Dunham said Akery, the watchman, told him he could have the oats and got him a scoop and told him to pick out a good bag besides showing him where the grain was kept. He said Akery told him he could have the oats at the same price the others got it for, namely fifty cents a bag which he was to pay on Saturday. He also said that if he took the empty bag back he was to get four cents for it.

TONIGHT AND SATURDAY AT A strange adventure in Central America is the prime film subject at the Keith house for the week-end. This is called "The Silent Death." There will be an exciting railway melodrama, "Race With The Limited," a Lubo comic, "A Trip to the Moon" (cartoon) and a rollicking farce "So Long, Count!" and the smallest man in the world, the chief actor. As a special extra feature Saturday the Championship Polo between England and America will be shown in motion pictures. This is the first wonderful game in which the Englishmen proved their vast superiority over the Americans. It is a spirited sporting film. Arrangements have been made to show actual photographs of the great St. John fire of 1877 on Monday, the greatest fire in the history of the twentieth century of the catastrophe.

How Pigeon's low rent enables you to buy that summer suit for much less than you pay up town.

HALIFAX Has another new one for today's game. He is "Tee" Doyle, who arrived on the morning train from the city to occupy the slab in this afternoon's game. The line-up of the visitors has received a generous shake-up and the result expected is a sturdier class of ball. St. John will appear practically the same as yesterday, with Donovan on the mound.

LANE-HENDERSON At the residence of Rev. Dr. W. O. Raymond, Summer street, last evening, Miss Mary J. Henderson daughter of Joseph H. Henderson of Henderson Settlement, Queens county was married by the archdeacon to Frank Lane, Jr., of this city. Mr. and Mrs. Lane have the best wishes of many friends. They will reside at 86 Paddock street.

SAY SLIP IS BLOCKED Complaints have been received at City Hall from Messrs. Clark and McKean that they have experienced difficulty in moving their scoops in and out of King street slip on the West side on account of the fact that one of the fishermen who has a fishing license for that section has built a wire across the entrance to the slip. They say that previous to this year the licensees had fished there with seine nets which were not liable to obstruct traffic. City Engineer Murdoch this afternoon will investigate the matter and define the low water line at that point.

Steamer East Ashore. Weymouth, Eng. June 19.—Futile efforts were made by tugs this morning to refloat the steamship Baclow of the China Line of the North German Lloyd which went ashore yesterday in Black-bay, while on a voyage from Yokohama to Hamburg. She stuck fast on the rocks. All her passengers and baggage were taken ashore last night.

HUDSON BAY CO. RECEIPTS FALL OFF

Income From Lands About Half of Previous Year—Dividend of 40 Per Cent

London, June 19.—Reports of the Hudson's Bay Company which have been issued to shareholders show that the company has suffered from the financial and commercial depression prevailing in America. At the same time the new governor, Sir Thomas Skinner, points out that several remittances in the form of land for twelve months to March 31 last amounted to \$248,983. This compares with \$267,724 in 1912-13 and \$294,809 in 1911-12. In 1912-13 the circumstances were exceptional as in that year the company disposed of a large number of town lots in Edmonton and received for them less than \$27,250, which was not included in the receipts for that year. Unsettled lands now on the amount carried forward to the land account is \$20,028. Unsettled lands now on the amount carried forward to the land account is \$20,028, 4,061,876 acres and compares with 4,061,876 acres a year ago.

MORE THAN THE \$2,500 IN THE MISSING MAIL BAG

The mail matter in the missing bag which disappeared from St. Stephen and St. John contained, in addition to the \$2,500 in cash for the Bank of N. B., several remittances in checks and drafts for large amounts, including one for \$1,000 on account of the Hudson's Bay Company. As soon as these papers were missed the owners were notified and payment stopped. It is possible to cash them and thus cause any additional loss. Detectives are still working on the case.

To Greet New Cardinal

Ottawa, June 19.—Sir Wilfrid Laurier, Hon. L. P. Pelletier, Hon. Bruno Nantel, Hon. C. J. Doherty and possibly Hon. Louisbourg will go to Quebec to participate in the ceremonies connected with the return of Cardinal Beign. ROOSEVELT TO TRY AGAIN

A New York despatch to J. M. Robinson has an exclusive interview with Theodore Roosevelt in which he criticizes President Wilson's policies and says he will run for president in 1916.

The Best Quality at Reasonable Prices. Take Care of Your Child's Eyes.

At birth almost all eyes are longer up and down than from front to back. This causes "far sightedness." As the eye grows, it assumes its natural spherical shape. But sometimes growth continues after school age, and unless corrected with properly fitted glasses, permanent injury to the vision, which a few years use of glasses would have prevented, results.

Many children unconsciously force accommodation of the eyes, thereby, delaying notice on the part of their parents of defective vision. But such over-exertion of the delicate muscles of the eye cannot be kept up without serious injury.

Have your child's eyes examined by one of our optometrists. The good that will result, if any defect in vision is discovered, will be worth a fortune to the child.

USE THE WANT AD. WAY

THE EMPRESS

(Continued from page 1)

The Hon. Mr. McLeod wanted to know what the divers had discovered in their work.

Mr. Beattie, C. P. R. counsel, said that he was at work and would give a report. He admitted that they were working in the interests of the underwriters, the owners of the building, and the postmaster general of Canada.

Percy Hillhouse of the Fairfield Ship-building yards, Glasgow, where the Empress was constructed, testified as to the watertight compartments, the doors to them and the lost accommodation. He showed that the Empress was carrying 800 more people than she had on board at the time of the sinking.

Lord Mersey Takes Witness Lord Mersey himself undertook the examination of the witnesses on the bull-heads, and, according to Mr. Hillhouse said they were extended to the upper deck. He said that with even the two large compartments in the middle of the ship filled, the steamer would have floated and water must have got in somehow else.

Lord Mersey asked for particulars about the direction in which the bulwarks, the holds and the gangways were laid out, and whether they were laid out in all cases carried from the doors to the upper level, where they were worked by hand, which he had to be turned round or worked backwards and forwards. None of the doors were worked from the bridge.

Lord Mersey said he had been asked to put a question as to whether there were all plates to the doors and Mr. Hillhouse said there were. Lord Mersey asked how long it took to close the watertight compartments, but the witness could not supply the information himself.

Tested On May 23 Captain Stanton, life saving superintendent of the C. P. R. said that the Empress of Ireland's lifeboats, belts and other equipment had been tested at Quebec on May 23, 1912, and found in the condition. It took on that occasion thirty seconds to close the watertight doors in the engine room.

It took between three and a half and four minutes to close them all on the decks.

Lord Mersey said that he had heard it suggested that bodies were found on the deck but under water. Captain Stanton replied that the belts would have been fastened and put on right at all. He could not say if passengers were instructed in the way of putting the belts on, but there were clear instructions with each one, however.

Lord Mersey—"Do you think people read the instructions?" "I think they would for curiosity."

George O. Donovan, an engineer of the Empress, said he was in charge of the steering gear. He inspected it every day, but he had never found anything wrong with it, and never saw anything in the steering gear. He said that the ship's list, after the impact, about twenty seconds, water came in through the steering gear, but he did not see the return of Cardinal Beign. The cardinal will be accorded a public reception in Quebec on Tuesday, the 23rd, while on the 24th he will be banquets.

The members of the opposition and the cabinet ministers named will go in their capacity as private citizens, while several members of parliament will also attend.

THREE MILES OF NEW WATER PIPE WILL BE LAID

Almost three miles of water pipe will be laid by the civic water and sewerage department this year. Of this 5,000 feet will be for extensions in districts which have not previously enjoyed the advantages of a city water supply, and 10,000 feet will be for renewals in the present service.

Work has been commenced in Beauséjour avenue, Murray & Gregory's road, and Brunswick Place, but the other work will be delayed until the arrival of a further supply of piping. A large contract for cast iron pipes was awarded this week, with the proviso that it shall be delivered by August 1. It is probable that some of the pipe will be here by the middle of July, and will thus enable the work to proceed.

The details of the work are as follows:

- Renewals, East Side.**
- Durham street between Main and Metcalf.
 - Wentworth street between St. James and Britain.
 - Wright and Prospect streets.
 - Richmond street between Exmouth and Brussels.
 - Elliott Row between Pitt and Crown.
 - King street between Pitt and Crown.
 - Crown street between Elliott Row and Crown.
 - Queen square, south side.
 - Sewell street, between Dorchester and Coburg.
 - Wintler street between Stanley and Factory.
 - Charlotte street between Broad and Vulcan.
 - Wentworth street between Mecklenburg and Queen streets.
- Renewals, West Side.**
- St. John street from Victoria to Union street.
 - Protection street.
 - Tower street from Lancaster street to Lancaster Heights road.
 - Ship street.
 - Market Place.
 - Winlow street from Ludlow street to Market Place.
- Extensions.**
- Cedar Grove Crescent.
 - Regina avenue.
 - Sand Cove road.
 - Beauséjour avenue.
 - Murray & Gregory's road.
 - Brunswick Place.
- And other extensions now under consideration.
- St. Thomas' Encenia**
- Encenia exercises of St. Thomas' college Chatham, were held in the opera house on Wednesday evening. His Lordship Bishop Barry presided. A very entertaining programme was carried out. Twenty-one boys taking the commercial course wrote examinations from Dominion Business College, Toronto, and all were successful. G. C. Savoy, W. L.

COM. McLELLAN AND PATROLMAN BRIGGS TESTIFY

At the opening session of the police inquiry, conducted by Mayor Frink, Patrolman Briggs and Commissioner McLellan gave evidence.

Police Officer Briggs, sworn, testified that he was ordered to watch Durick's drug store by Sergt. Kilpatrick. On April 9th, about 10 p. m., Com. McLellan met him at the corner of Harrison and Main streets, and said: "Briggs, what seems to be the trouble?"

Witness said: "Where do you mean? Durick's?"

The commissioner said: "Yes." Witness said Durick was selling liquor under doctor's certificate. The commissioner wanted to know how he knew, and witness said he had had the drug list up the other day and fined \$100. Witness told commissioner that Sergt. Kilpatrick told him to watch the place as much as possible on Saturday and Sundays on account of complaints coming from the outside. Witness told the commissioner that he was not a son-in-law of Kilpatrick's; then the commissioner said:

"Briggs, you do your other rounds as well as watching this place and I will see about Kilpatrick later." The commissioner added: "Briggs, I have no fault to find with you, but take my tip, you do as I tell you, and you will come out better in the end."

On the Monday morning following witness went to the chief's office and asked if he had a right to take orders from Kilpatrick. He then reported to the chief what the commissioner had said to him.

On the next Saturday Durick offered him \$10, but he did not take it.

Witness had a conversation with Commissioner Potts concerning the meeting with Commissioner McLellan on April 19, and Commissioner Potts asked him if he would be willing to appear if the matter was brought up. He met Commissioner Potts at the latter's request.

To Commissioner McLellan witness said he had been detailed to do special duty; looking after boys and girls around the ship yards.

Q.—Did I in any way say to you that you should not watch Durick's?

A.—You told me to do my other work as well as hanging around this corner.

Commissioner McLellan was then examined. He said he had been in Dr. Robert's office, and coming down the street, went into Durick's to buy a cigar. As he was going out he heard a boy of sixteen or seventeen say: "Tall fellow has been across the street for three-quarters of an hour" and heard the name of Briggs mentioned.

He went across and advised Briggs he was sent to the North End to do special duty and that it would be far better for him to attend to the duties he was sent to perform than to spend his time watching Durick's or any other place.

The Mayor.—A statement in the handwriting of the chief contains these words:—"Commissioner McLellan then said: "This is a frame-up game between Kilpatrick and others to hurt me in my election."

A.—I did say to him, "So far as Kilpatrick is concerned this is a frame-up to hurt me in my election." My reason for saying so was that I heard Sergt. Kilpatrick had been very active in connection with other matters pertaining to the police which were intended to injure me.

The Mayor.—A further statement is made, "You let up on this matter?"

Did you make any such statement? A.—I never did.

The Mayor.—It looks as if there was a motive in having the original resolution moved and this communication behind it. Have you, Commissioner McLellan, any knowledge of an attempt to discredit you by the submission of this letter of resolution?

A.—I have no knowledge that could be proved, but I expect if the investigation is continued to prove my suspicions.

The Mayor to Commissioner McLellan.—Did Mr. Durick ask you, or any of his friends, to take Officer Briggs from his position opposite his store on Main street?

A.—I swear he did not.

The enquiry was then adjourned.

SUNDAY AUTOS

UNDER THE BAN

The Methodist Delegates Declare Against Pleasure Riding on That Day

(Toronto Mail and Empire)
That the peaceful quiet of the Sunday is fast becoming but a memory and that very soon Canada will have the open Sabbath now common to the United States was the burden of the plea at yesterday's morning session of the Methodist conference. The plaintive note was first struck by the reading of the report on Sabbath observance which expressed in favor of the desirability of a more energetic enforcement of the Sunday laws in relation to business in restaurants, hotels, and other places of refreshment, declaring that there was no need for the sale of fruit, confectionery, tobacco and cigars in such places on the Lord's Day, and also declared against the keeping open of places for the sale of soft drinks and the Sunday drug store, the transaction of real estate business, and work done on Sunday by exhibition boards. The committee also recommended that steps be taken to prevent all games on the Sabbath, particularly golf and gambling, and also Sunday teas, traveling, and the practice of Sunday work.

But this was not all, for Rev. Dr. Speer discovered that "the most vital question had not been made the subject of a recommendation." He referred to the automobile, which, he said, may be a blessing and a benefit during the week but could become a curse on Sundays. Sabbath was the busiest day in the whole week at public garages, he had been told. He was not getting at the garage people, who were obliged to keep a gang of men on the Sabbath by the class of people who wanted Sunday pleasures, of people who wanted Sunday pleasures.

Rev. John Locke condemned the motor cycle as a "newer and greater abomination." Like some people it made a great deal more noise than was necessary. It disturbed the tranquility of the Sabbath, should make such an outcry against the automobile people and, Dr. Speer retorted, that the question was whether the conference approved of a system that compelled men to work seven days a week, and harder on the Sabbath than on any other day. The opening of parks on a Sunday with bands was also condemned before the report and recommendations were adopted by the conference.

WOMEN'S CLUBS PUT BAN ON SEX NOVELS

Movement Started to Keep Them Out of Public Libraries

Chicago, June 19.—Delegates to the biennial meeting of the General Federation of Women's Clubs, led by Miss Lottie B. Stearns of Madison, Wis., have started a movement to put the "sex novel" out of literary commission. Miss Stearns is a member of the Wisconsin State Library Board, and acted as chairman of a conference here on literary extension.

It is proposed, as one blow to books dealing frankly with plots involving sex problems to boycott them at all branches, and as another that members of women's clubs pledge themselves not to buy, read or permit their daughters or sons to read such books.

"A wise librarian," said Miss Stearns, "never puts a book on his shelves unless it answers affirmatively one of these questions—will it inform, will it inspire, will it refresh?"

"The province of the novel is to refresh and sometimes to inspire. The greatest problem which librarians have to meet is the enormous output of books. With some publishers it has struck 'Sex O'Clock' and librarians have a hard time knowing the titles and authors only, to discriminate concerning that sort of thing."

Policeman O'Leary gave evidence yesterday afternoon in the case against Stiles Dunham and Harry Mallet charged with stealing oats from the Maritime Corn Mills on Wednesday night. The defendants said that Minor Akerley the watchman, told them they could take the grain and pay him fifty cents for it on Saturday night. Akerley denied the charge but is being held with the others.

PRESBYTERIAL OF ST. JOHN CELEBRATES SILVER JUBILEE

Woodstock, N. B., June 18.—The twenty-fifth annual meeting of the St. John Presbyterian, which convened here yesterday and today, has been one of the very best. Every session was marked by a spirit of devotion creating an atmosphere about this quarter-century birthday which will not easily be dispersed. The Presbyterian was organized by Mrs. James Ross in 1889, in the vestry of St. Paul's Presbyterian church, Woodstock, and it seemed peculiarly fitting the jubilee should be celebrated here.

The report from forty-six auxiliaries shows \$2,403.15 for foreign missions; home missions, \$1,481.

Mrs. J. R. McIntosh, St. John, read a valuable paper on "The Christian Home"; Mrs. R. A. Jamieson, St. John, a paper on "The Region Beyond"; Mrs. C. J. Purdy, of Moncton, a paper on "Personal efforts"; Miss Grace E. Stevens, of St. Stephen, spoke on the growth of the presbytery.

The jubilee meeting Wednesday evening was addressed by Rev. James Ross, superintendent of home missions. Rev. Wm. Janvier, of Lorneville, spoke on "Needs in the home field."

In the allocation of home mission moneys, \$100 will go to Courtenay Bay mission; \$400 to special work at Miramichi; \$900 for work among foreigners in the maritime synod.

Miss Cora Sinclair gave a resume of her work in the home mission field.

The officers of the presbytery presented Mrs. James Ross, of St. John, with a beautiful fur-lined coat.

MAINE BOY CALLED PRODIGY IN LANGUAGE

Maine boasts of a 4-year-old boy prodigy in Ralphard Winslip. Peters of Showegon, who is a native of Boston. He can read the most difficult literature, pronounce any word in the English language correctly and repeat from memory difficult selections from modern classics after hearing them read once.

His brilliancy has attracted attention from the medical profession and noted specialists have examined him.

The boy lives with his grandparents, Mr. and Mrs. Ralphard A. Deah. He is the son of Mr. and Mrs. Lester Peters of Boston, but he has lived in Showegon since he was an infant.

He took up reading when but 3 1/2 years old. One day, according to his grandparents, he was lying on the floor when he got hold of a paper. He soon began to study the page and was soon asking his grandmother questions.

It was not long before he began to put letters together. His pronunciation came easy. He advanced so rapidly that his grandparents became alarmed and consulted a physician.

If he hears a song once he will immediately repeat the words and sing the tune as if he had been trained for several days.

He reads the Bible a great deal to his grandparents and then he will explain what each paragraph means. He likes to read such books as "Peck's Bad Boy," and he will read a book of this size through in a few days.

He is now beginning to learn his figures and already has learned each numeral upon a calendar. This method of learning them was of his own initiation. He can write each one as found in the print.

TO THE PUBLIC:

THE State of New York, through its Department of Insurance, has completed the examination of the Metropolitan Life Insurance Company which it is required by law to make every three years. The Chief Examiner, in concluding the report, said:

"The treatment by this Company of its policy-holders in the prompt payment of their claims, in the voluntary payment of millions of dollars in bonuses, and in its social welfare work—features of the Company's business which deserve commendation."

The Superintendent of Insurance, the Hon. William Temple Emmet, in approving the report, wrote an extended review from which we make extracts:

THE COMPANY'S GROWTH AND MANAGEMENT.

"The administrative officers of the Company . . . have so increased the assets of the Company as to make these equal the resources of many states and even nations. They have at the same time steadily cheapened the cost of insurance to policy-holders, both by direct means and by the distribution of bonuses."

[The report shows that the Company has given back \$35,367,293 in bonuses to industrial policy-holders in nineteen years.]

"They have extended the Company's business to such an extent as to bring it into contact now with approximately one-eighth of the population of the United States."

[The number of policies outstanding December 31, 1913, was 13,957,748.]

"That this notable growth has involved no sacrifice of efficiency in the handling of administrative details, but, on the contrary, has been the direct result of constantly increasing efficiency, is shown by the comparatively small losses sustained by the Company in proportion to the large investments made."

ITS POLICY-HOLDERS SATISFIED.

"The fact that the percentage of lapses due to the abandonment of their insurance by policy-holders is constantly decreasing, speaks eloquently to the same effect."

[The lapse ratio of industrial policies has decreased 31.7 per cent. in eight years.]

"This last mentioned development is perhaps the most convincing evidence which could be offered that the Company's policy-holders are, broadly speaking, very well satisfied indeed with what they get in return for the premiums they pay. A very remarkable showing altogether."

ITS SOCIAL SERVICE.

"This Company waited for no changes in existing law before striking out as a pioneer among insurance companies along the pathway of social service on a huge scale."

"For years it has maintained for its policy-holders a nursing service upon a great scale; this has latterly become a veritable marvel of efficiency and practical helpfulness."

[Metropolitan nurses made 1,127,022 visits to sick policy-holders in 1913, for which the Company paid the bills.]

"Leaving out of consideration the mere numbers of those who have been directly benefited by these activities, I think that the example which the Metropolitan has set to other great business organizations by its early recognition of the new responsibilities attaching to all business enterprises which have attained a certain size, is one of the most beneficial of recent occurrences in the field of American business. For years it has through its publications upon the question of health conservation been serving multitudes of people as a sort of University of beneficial instruction upon this most important subject."

ABREAST OF MODERN THOUGHT.

"This great institution, having so very recently been under our critical scrutiny and presenting so many admirable illustrations of what an efficient and enlightened modern business organization on a large scale can do in the way of keeping abreast of modern thought, seems to be in a position where I may properly use it as an illustration . . . that private initiative and enterprise are at their best still capable of doing the finest possible work in fields from which, latterly, all the talk has been that these agencies should be compelled to retire."

SERVICE!

What is "Service" Anyway?

It's Much Talked About But Seldom Defined

As we understand it—and dispense it in our "Mill-to-Man Tailoring Service"—it means giving you what you want, when you want it, the way you want it and at one price to all—\$15. No More—No Less.

It means standing ready at all times to give you the finest of Woollens—"Direct from the Mills"—and the best tailoring that skilled workmanship can produce—last, but not least, it means giving satisfaction. That's "Concentrated" Service.

Under this definition there is only one Tailoring "Service" in the Dominion of Canada—that of the English & Scotch Woollen Co.—because ours is the only organization that can possibly "fill the bill."

That our interpretation of "Service"—our better way of selling Made-to-Order Clothes meets the approval of the majority of men, the rapid growth of our business bears convincing evidence, apart from the host of imitators that are following in our trail. If you happen to be one of the men who have never bought "Mill-to-Man" Clothes, come in—you are as welcome to look as to buy.

SUIT = Your Choice of Any Material

There is no "just-as-good" for good tailoring—where it isn't, style can't be—it won't keep from the edge of a "cutting machine"—it can't be "sliced on"—it refuses to be "processed in"—for it is the gift of the hand, and nothing takes its place. Ours is not a ready-made clothing factory in disguise, but a genuine Custom Tailoring Establishment where hands—not "Power Knives"—do the work. In care, completeness and the clothes themselves ours is the one and only "Mill-to-Man Tailoring Service," and we invite you to test the truth of our statements by giving us a trial order.

ST. JOHN TEAM WINS

Defeats Halifax By Score Of 11 To 4

Opening of Series Between Ancient Rivals—Games Again Today and on Saturday

St. John was too much for the Halifax baseball aggregation in the opening of their three game series on the Marathon grounds yesterday afternoon. Eleven to four was the total extent of the damage. Superior walloping ability on the part of the locals was a feature. Three old-timers were in the visitors line-up, Tommy Howe, on third sack; Grace, once with the Fredericton Tartars, in the right garden, and Dick Waites, last year with the Marathons, on first sack. Halifax drew first blood, tallying three, but the St. John boys tightened up and allowed the visitors but one more run.

Common baking powder is one of the best remedies for the removal of warts and corns. Bind on wet, and moisten the soda several times a day. The warts and corns will quickly disappear.

Always put a cauliflower in plain water so as to draw out any insects. If salt is placed in the water it kills the insects, and they are left in the vegetable.

DOAN'S KIDNEY PILLS

Are The Original Pill For The Cure Of Backache, Lame Back, Weak Back Or Any Other Kidney Trouble.

The fact that Doan's Kidney Pills are the original Kidney Pills has not prevented the placing of other preparations in pill form upon the market under the name Kidney Pills. It is necessary, therefore, that all wishing to secure the curative effects which have made Doan's Kidney Pills so popular everywhere, should see that the trade mark, the Manly Leaf, appears on the wrapper. Without this trade mark you are not getting the genuine Kidney Pills as originally placed before the people by Mr. James Doan, as shown by the following declaration.

DONALDSON OF CANADA, PROVINCE OF ONTARIO.

To wit:
In the matter of Doan's Kidney Pills, I, James Doan, of Kingsville, in the County of Essex, Druggist, do solemnly declare that Doan's Kidney Pills were first manufactured and sold by me on the 14th day of February, A.D., 1885. And I make this solemn declaration conscientiously believing the same to be true, and knowing it is of the same force and effect as if made under oath and by virtue of "The Canada Evidence Act, 1893."

Declared before me at Kingsville, in the County of Essex, this 27th day of July, A.D., 1898.

Dr. Morse's Indian Root Pills

exactly meet the need which so often arises in every family for a medicine to open up and regulate the bowels. Not only are they effective in all cases of Constipation, but they help greatly in breaking up a Cold or La Grippe by cleansing out the system and purifying the blood. In the same way they relieve or cure Biliousness, Indigestion, Sick Headaches, Rheumatism and other common ailments. In the fullest sense of the words Dr. Morse's Indian Root Pills are a Household Remedy.

BALFOUR AS A LESSON TO PUBLIC SPEAKERS

(Continued from page 5.)
was forced a speaker is, the more effective. The following speaker is rarely an

effective speaker. I have seen men over and over again ruined in the House of Commons because they brought there the cruder methods of the platform. That is one of the criticisms I would pass on the methods of the late Mr. Bradlaugh, powerful as he was. In short, the best

motto to the orator, as for the glibber, lies in the old words: Don't press."

When You Come to This Store We Do Not Urge You to Buy, Simply Compare The Values
the styles and the prices you find here with prices you find elsewhere, then your own good judgment will tell you where it's best to buy.

When a man comes to this store to look at clothes, we do not try to sell him something; we would rather that he sell himself. We strive, through sincerity and honesty, to win his confidence—to have him realize that our most earnest desire is to clothe him, so that every article of this apparel is of the best style and grade for him to buy.

The Kitchen Cabinet
Kitchen cabinets are often considered luxuries when they ought to be looked upon as necessities. No woman should walk a mile when one-eighth of it could accomplish the same, or perhaps better, results. It might be possible to bring all the materials at once on a wheel tray if they were all kept in the same place, but they are not, cannot be, even with the things arranged in the best possible way.
