QUEEN'S COLLEGE, UNIVERSITY OF

KINGSTON, MAY, 1860.

The Board of Trustees of Queen's College again beg to lay before the Synod of the Presbyterian Church of Canada in connection with the Church of Scotland, a brief Annual Report, together with Statements of the income, expenditure, and financial position of the College. With the view of affording full information in regard to the Institution, the accounts have been prepared with great care by the Treasurer, to whom the Board feel under deep obligations for his disinterested and laborious services. In addition to shewing the expenditure of the University during the past year, the accounts will be found to contain under appropriate heads, statements in regard to the capitalized resources at the disposal of the Trustees, and also the income and expenditure of the Bursary Fund

A considerable encrease in the total number of enrolled students again affords satisfactory evidence of advancement. At the closs of the

Session the Roll was as follows:

Faculty of Theology, Medicine,

Of the Students in Arts, 26 have intimated their intention to enter the Divinity Hall, so that Queen's College is now training 37 young men

for the Ministry of our Church.

At their last Annual Meeting the Board of Trustees, after long deliberation, and deeply impressed with the urgent necessity of obtaining a permanent Principal, decided upon sending a deputation to Scotland, consisting of the Rev. Dr Barclay and Alex Morris, Esq These gentlemen discharged their important and delicate mission with eminent success, and the Board have the high gratification of announcing as the result, that the Rev. Wm. Leitch, late of Monimail in Scotland, has accepted the Principalship of Queen's College, and will enter upon the duties of his office before the commencement of next Session. The testimony from every quarter of the Church of Scotland in favor of the Rev. W. Leitch's qualifications and eminent fitness for the office, has been so ample, so unanimous, and so cordially expressed, that the Board of Trustees cannot but regard this appointment as one likely to prove conducive to the best interests of the College; and from the active part which the Principal elect has taken in the business of the Church at home, the Trustees believe that this appointment will bring a valuable acquisition to the ranks of the Ministry in Canada.

During the past year the Board have had to lament the loss of two of their number, the Hon. James Crooks and John Mowat, Esq., who were among the earliest supporters of the College, their names being en-rolled in the Royal Charter. The late Mr. Mowat has given practical proof of the great interest which he took in Queen's College, by a bequest in his will, endowing an annual competition Bursary. As the first instance of such commendable liberality, the Trustees cannot refrain from thus recording their sense of the value of the gift, and expressing

the hope t ample.

The f Trustees anxiety. modation could onl seriously diminutio Fund amo of the sur the Synor

Synod Comn eral fo lection Trong the hope that other members of our Church may follow so good an ex-

The finances of the College have had the earnest attention of the Trustees during the past year, and the review has occasioned much anxiety. As the number of Students yearly encreased, further accommodation and class-rooms were found necessary. This urgent want could only be supplied by a considerable sacrifice of capital, thereby seriously encroaching upon the annual revenue which could ill bear any diminution. The effort made a few years since to collect a Building Fund among the congregations of the Church has only realised one third of the sum required, and the Trustees again respectfully crave the aid of

the Synod to meet the deficiency. A welcome addition to the annual revenue of the College may this year be expected from the Provincial Government, who have encreased the annual grant from \$3000 to \$5000. The Trustees however are strongly impressed with the necessity of securing for Queen's College a sure and liberal endowment by replacing the large sum taken from their capital in erecting much needed Buildings, and by every other means within their

During the past few months the management of the munificent endowment for the maintenance of University Education in Upper Canada, revised and regulated by Provincial Statute in 1853, has engaged public attention, and a Committee of the House of Assembly was appointed to investigate the matter. The funds at the disposal of the University of Toronto have long been ample, not only for the support of the University and of the College in connection therewith, but also to foster and aid other Collegiate Institutions in the western section of the Province. The Act of 1853 was undoubtedly framed with this latter object in view, and for several years the Trustees have waited in the hope, that their just and legal rights might be recognised by a suitable appropriation from the University Funds Recent investigations, however, into the management of these Funds, have shewn how little prospect there was of any such recognition, and an excellent opportunity for such a step being afforded by the action of the House of Assembly in appoining the University Committee, the Executive Committee of the Board of Trustees addressed the petition, of which a copy is given herewith, to the Governor General and the two Houses of Parliament.

In the subject under consideration of the University Committee, Queen's College had a deep interest, and the Executive Committee therefore requested the Rev. Dr. Cook to watch the proceedings at Quebec, and to give necessary evidence on behalf of Queen's College. The result of these important investigations has not yet been made known, but in meantime the Trustees have done all in their power to advocate and maintain the claims of Queen's College to a share of the University Funds, without being in any way pledged as to future action, or to any

surrender of their Chartered privileges.

The grateful acknowledgments of the Trustees are again due to the Colonial Committee of the Church of Scotland, for the annual grant of £300 stg., and especially for having this year encreased their grant in aid of the Bursary Fund from £30 stg. to £50 stg.

At last meeting of Synod, a Committee was appointed on the Bursary Scheme, to watch over the same, and to report to next meeting of Synod. The Trustees earnestly trust that the action of this important Committee may result in placing the scheme upon a permanent and liberal footing, and would respectfully express the hope that an annual collection in aid may be requested from all the congregations of the Church. Planted by the hand of Providence in a new and rising country,

whose population is rapidly encreasing in numbers, and yearly spreading over vast districts but lately recovered from the forest, it cannot fail to be the earnest wish of every devoted member of our Church, that she may keep pace with the growing wants, and meet the requirements of her adherents, in every settlement where they may have found a home. The facts and sta istics brought before each succeeding Synod but too surely prove that this degree of progress has not yet been reached, and often are large congregations, who would gladly welcome and support a minister, left to the fostering care of other denominations, or in some cases wholly destitute of the hallowed ordinances of religion The poverty of early settlers in the backwoods, their distance from each other and from more favored congregations, may to some extent account for this deficiency, but at the same time it must with painful regret be admitted, that the number of young men consecrating themselves to the sacred calling of the ministry falls far short of the demand for their services, and also of what might reasonably be expected from an enlightened christian community.

In a country enjoying that measure of prosperity and progress with which it has pleased God to bless our land, young men of ability and education cannot easily be attracted by mere worldly prospects held out in the Church, nor can they shut their eyes to the fact, that almost every other calling offers better prospects, in a pecuniary sense, for themselves and for their families. Were the attraction a merely pecuniary one, our College Halls might possibly be filled with students, but the piety and spiritual life of the Church could scarcely be expected to survive the charge. It is a higher and holier motive than this which must ever be the means, under the guiding hand of Providence, in leading young men of piety and promise to engage directly in their Master's service, and to

devote their talents to the work of the ministry.

Deeply impressed with the growing wants of the College and the Church in this respect, and with the desirableness of endeavoring to bring statedly and faithfully under the consideration of our christian parents and pious young men the call to the work of the ministry, and the claims of the Church the Trustees venture respectfully to give the matter a place in their Report, trusting that the venerable Synod which is about to meet may take such action as in their wisdom shall seem expedient. The call to the Gospel ministry, information regarding the destitution of our land, the setting forth of those things which recommend the sacred calling to parents and youth, might well engage the attention of our ministers and congregations on a stated Sabbath in every year, and could not fail to receive respectful consideration. While thus using the means and pointing out the duty, special and earnest prayer might be offered up in public and in private, for the College and for those assembled within its walls, as well as for the outpouring of the Holy Spirit upon the rising generation of the Church, and that the Lord of the Harvest would send forth from among them labourers into this corner of his vineyard.

An occasion such as has been indicated above would indeed afford most fitting opportunity for uniting earnest prayer with liberal offerings in aid of the cause, for a general collection to supplement and encrease the usefulness of the Bursary Scheme. Many young men of talent and promise are now restrained from entering upon a College course by anxiety in regard to their maintenance while so engaged, and until a suitable provision for all such can be held out, the services of not a few will be annually lost to the Church. To meet this deficiency a general collec-

tion is urgently needed.

In that striking passage of Scripture so often quoted for the encour-

agement of sing promise be there may Lord of

JNO. HAMILTON,

agement of the Change FUND, and at the comestate best and age stag promised, and may premise be fulfilled: well seven for our example cost the glorious

The following is a copy of the petition of the Executive Committee of the Board of Trustees of the University of Queen's College, presented to the Legislature:

To the Honorable the Legislative Assembly of Canada, in Provincial Parliament assembled.

THE PETITION OF THE EXECUTIVE COMMITTEE OF THE BOARD OF TRUSTEES OF THE University of Queen's College, Humbly Sheweth:

That the Preamble of the Act of 1853, establishing the University of Toronto and University College, fully admits the desirableness of different University Colleges in different localities in a growing and widely extended country like Upper Canada, and the 54th Section of the same Act further recognizes the right of these Academical Institutions to a portion of the public endowment set apart for the University Education.

That there is no instance of any one College in Great Britain, or Ireland, being, as is practically the case with the University College of Toronto, endowed to a vast amount with Public Funds at the disposal of Parliament for University purposes, to the exclusion of all others, and such a system would be as injurious and

unjust, as it would be unprecedented. That your Petitioners, therefore, never imagined that the Government intended to endow one College only for the whole of Upper Canada; but on the contrary, were led, from the tenor of the Act itself above referred to, to form the expectation that after providing for the necessary expenses of the University, and for the maintenance of University College, Toronto, a considerable portion of the Endowment Fund for University purposes in Upper Canada would fell to be divided ment Fund for University purposes in Upper Canada would fall to be divided among the other University Colleges of the country, either with or without the condition of affiliation.

That the expectation thus naturally formed by your Petitioners has not been realized, and they have reason to believe that the extravagant expenditure of the University Fund renders it unlikely to be so, so long as things remain as they are

at present.
That your Petitioners therefore are compelled to have recourse to your Honorable House, in order that a thorough investigation of the whole matter may take place, and that your Honorable House may review the Act of 1853, of which the practical working has been, while it contemplates one University altogether distinct from any one Collegiate Institution, to merge the University into the University College of Toronto, and while it contemplates several Colleges, to foster one College

That your Petitioners are prepared to consider, in a candid and liberal spirit, any plan of settlement—either with or without affiliation of the different Colleges to one University for Upper Canada, which shall tend at the same time to maintain a wholesome rivalry between them, and more widely to diffuse the benefits of Academic instruction throughout the Province.

demic instruction throughout the Province.

That, for the cause of a higher education, for its more general diffusion, as well as in justice to other Institutions, which as yet comparatively unaided, have each done as much for the advancement of learning as the enormously endowed University College of Toronto, or more—Your Petitioners apply to your Honorable House assured that, unless an Act of the Provincial Parliament is to be nullified and set at naught with impunity, you will take immediate and effectual measures for remedying the evils of which your Petitioners have just reason to complain, and for finally settling this important question in a wise and equitable manner.

And your Petitioners will ever pray.

Signed at Kingston, in name and by appointment of the Executive Committee of the Board of Trustees of the University of Queen's College, this ninth day of April, one thousand eight hundred and sixty.

> JNO. HAMILTON, Chairman.
