YARN FROM THE YARD.
Just so! Your public—Monkhouse, the old detective, sat back with the cigarette that he always riveted attention—your public knew about as much of that affair as the Rajah himself, and he went away blissfully unconscious that Scotland Yard had been holding its breath for a solid month. No, I shall give no name to the obscure restaurant, run by a foreigner, where the beautiful scheme was hatched. I was sitting at one of the tables there. Yes, I was sitting there, and I was waiting for the man in the dark suit and the gentleman in the frock coat to appear. They came at last, and I saw the man in the dark suit looking at the gentleman in the frock coat with a look of intense interest. The gentleman in the frock coat was the Rajah, and the man in the dark suit was the detective.

Cart and Wagon Axles, Cow Bells, Wire Screen Doors, Window Screens, Green Wave Wire, Barbed Wire, Fencing, Counter Scales, Weighing Boxes, Steelyards, Carpet Sweepers, Blasting Powder and Fuse, Spring Bombs, Guns, Revolvers. To arrive from Belgium 35 Single and Double Barrel Breach Loading Guns.

Barber's Toilet Clippers, Horse Clippers, Lawn Shears, Aordoons, Violins, Bows and Fixings.
Farming Tools, All Kinds.
Mower Sections, Heads, Knife Heads, Mower Section Guards, Rivets, Oilers.

CERTAINS OF GOLD COINS.
Some El Dorados for the Enterprising Burglars.
Collectors of coins sometimes dispose of their treasures in peculiar ways, but the young American lady who recently appeared at a fancy dress ball as "Money" surely hit on a novel manner in which to show the gold and silver pieces that had taken her father years to accumulate. Her beauty was possibly the best part of her get-up. Golden dollars, scores of them, connected by chains of gossamer fineness, with here and there a diamond or pearl, formed this unique headpiece, which, despite its weight and beauty, must have proved rather weighty.

A London lady, who may be said to possess one of the finest collections of fourpenny pieces and foreign coins of similar size, has completely covered the top of an ordinary silver roasting table with the tiny coins. The work was done under her own supervision, a strong mixture being employed to securely fasten the pieces. The spaces between the silver pieces are enamelled pale blue and cardinal, the whole forming a design of rare beauty, such as may not be seen elsewhere. It is almost impossible to disconnect the silver discs, unless foul play be employed; therefore the lady's vanity is not disturbed when she observes her guests lounging over the valuable table.

In the roof plate of an upper set of false teeth, of a well-known actress, is a golden coin, which on account of its value and for superstitious reasons the lady wishes to always have about her—hence its peculiar abiding place.

A YARN FROM THE YARD.
Just so! Your public—Monkhouse, the old detective, sat back with the cigarette that he always riveted attention—your public knew about as much of that affair as the Rajah himself, and he went away blissfully unconscious that Scotland Yard had been holding its breath for a solid month. No, I shall give no name to the obscure restaurant, run by a foreigner, where the beautiful scheme was hatched. I was sitting at one of the tables there. Yes, I was sitting there, and I was waiting for the man in the dark suit and the gentleman in the frock coat to appear. They came at last, and I saw the man in the dark suit looking at the gentleman in the frock coat with a look of intense interest. The gentleman in the frock coat was the Rajah, and the man in the dark suit was the detective.

I had no tangible proof yet. All the same I was ready to stake my hard-won reputation on the instant that I saw the man in the dark suit and the gentleman in the frock coat. I saw the man in the dark suit looking at the gentleman in the frock coat with a look of intense interest. The gentleman in the frock coat was the Rajah, and the man in the dark suit was the detective.

upon days before, so designed that he and his confederates could be arrested quietly on the very scene of the contemplated crime. He was sitting at one of the tables there. Yes, I was sitting there, and I was waiting for the man in the dark suit and the gentleman in the frock coat to appear. They came at last, and I saw the man in the dark suit looking at the gentleman in the frock coat with a look of intense interest. The gentleman in the frock coat was the Rajah, and the man in the dark suit was the detective.

"It must not fall," I whispered. "I suppose I come back with you and talk over with the Rajah." "The others?" he stared, vaguely. "No, each may work for himself. I shall not be in the way of the Rajah, and—ah—something with something new a cloak—writing to all those I let over there—Nina and the others. I want to be alone. At one o'clock, I shall meet you just here, in the street, in front of the bank. He put a hand to his forehead and fairly walked away from me. Hurry back to the Yard with my report—follow him on the cheek—settle the matter what we wanted before daylight! Follow him! He had struck along a quiet street in the direction of the bank, and I was turning a corner. I hung back a second or so, took a look at my watch, and saw that it was half past one. I saw the man in the dark suit and the gentleman in the frock coat. They were standing in front of the bank. I saw the man in the dark suit looking at the gentleman in the frock coat with a look of intense interest. The gentleman in the frock coat was the Rajah, and the man in the dark suit was the detective.

The Rajah Dhu Djalene reached London late last night after his visit to Scotland. His Highness was reported to be in the best health and spirits, and proceeded straight to his apartments at the Cosmopolitan Hotel. It is understood that, although the Rajah had been in Scotland for some time, his visit was strictly informal. "Etc., etc."

In two sections I snipped out the item with my thumb nail, held it up to the light, and saw that it was indeed a pellet. A backward dip, and the pellet lay near his feet. Would he bite? For another minute I held my breath; then his cigarette dropped. When he picked it up the pellet was gone. Yes, it was in his hand. My heart gave at the certainty that there sat the man selected to be an Indian province agent, and put a big blot on Britain. For a time he never moved, then, almost before I knew it, he was seated opposite me, and had clutched and pocketed the paper with the dangerous elimination.

"Vows etc.," he breathed. "Keep to English here. I have been shadowed by Naples and Paris detectives. The Rajah is a detective, a plain-clothes inspector was boxed in under the seat in case of emergency. He was sitting in the car, watching in readiness—no carry the word and one to follow wherever I went. The mine was underwritten in every direction.

"Eight o'clock! There was Marching round the corner. Facing at his eternal cigarette, he walked firmly up, I saw him pick it up and he smiled. "But where is it?" he whispered. "It was always there." "That was unexpected, but it mattered nothing—might lead to something good. We should be alone together in any case. Not another word passed between us, but as we went I managed to scribble on my linen cuff. "Have home searched moment we leave it." We were going towards Soho, as I expected, and barely ten minutes had elapsed when our man stopped, looked up and down and whispered: "Here it is!" I dashed him sideways, and was out on the landing. A glare of lanterns, my man with two constables, sprang upon me. One of the scoundrels lay unconscious, another took light, and the third was seized as he swung up the stairs. I dashed him sideways, and was out on the landing. A glare of lanterns, my man with two constables, sprang upon me. One of the scoundrels lay unconscious, another took light, and the third was seized as he swung up the stairs.

"You—you raw fools!" I gasped, roared the Strand. "I caught sight of my chief, just about to cross the road. I dashed him sideways, and was out on the landing. A glare of lanterns, my man with two constables, sprang upon me. One of the scoundrels lay unconscious, another took light, and the third was seized as he swung up the stairs.

"Hullo, where have you been?" he asked. "You're white enough! Got to him? Yes, to be sure, twenty minutes ago, bomb and all, just with the papers on him, we cleared. The man's mad, he made a clean rush for the front entrance. It was all over quietly in one minute. Meanwhile, with a chuckle, the Rajah is not due in London for another two hours—change in the programme that was not announced to the papers! There were only five in it, it seems. Arboretti and himself we've got, and the other three—

"Are safe in the cells," I said. "And then, for the first time in my life, I dropped back into the cab and quietly fainted."

ECENTRIC ROBBERS.
Extraordinary Reasons for Committing Burglaries.
In July of 1898 a man broke into the castle of Count Lambert, near Englebeck, Germany, and totally disregarding jewellery to the value of \$10,000 that was lying about, deputed with a volume of fine, two water-color sketches, and a photograph of Count Lambert. Although an expert burglar he seems to have followed a career of crime more from a love of the work than from any desire of gain, often indeed, as in the foregoing instance, preferring some trifle to an article of considerable value.

When arrested he confessed to having committed in the course of the year no fewer than 398 burglaries, more for the love of exercising his skill than for the sake of booty, which almost always consisted of some insignificant article. Indeed, to such an extent did he carry his contempt for the more sordid side of his "art" that if at any time he abstracted jewellery he invariably disposed of it for next to nothing.

Another member of the fraternity who may be said to work for love of the gentle art of burgling is a stylish young Parisian, who, though possessed of a fine villa in the suburbs of the French capital and an income of \$2,500, has such a weakness for house-breaking that without hesitation he risks both liberty and reputation for the excitement of his profession, had an especial fondness for violins.

Of which he owned a valuable collection that had been feloniously stolen. His prototype seems to have been one Klet, an Austrian, who, at his death in the early thirties, was found to be in possession of some thirty violins—many of them of considerable value—the proceeds of depredations committed in his own and other countries.

STATUE OF QUEEN VICTORIA AT TORONTO.
The statue to be erected in Queen's Park in front of the Parliament building, at Toronto, Ont., will be a worthy memorial of Queen Victoria. It is by the Italian sculptor Baggi, who has long been one of the foremost exponents of his art in England where he has lived for many years. The statue will be of bronze, a replica of one in Hong Kong. Her Majesty gave the sculptor the honor of the commission, and warmly praised the result. The panels in bronze set into the granite base will represent scenes in Her Majesty's life.

upon days before, so designed that he and his confederates could be arrested quietly on the very scene of the contemplated crime. He was sitting at one of the tables there. Yes, I was sitting there, and I was waiting for the man in the dark suit and the gentleman in the frock coat to appear. A system of insurance against strikes prevails in Australia. Holders of policies are indemnified if strikes occur in their establishments, whether voluntary, or sympathetic. The cost of a policy is three or four per cent. of the annual payroll. This indemnity is only paid for the week preceding the suspension of work.

Use of the most curious plants in the world is what is known as the toothbrush plant, and has nothing particularly striking about its appearance. By cutting pieces of it to a suitable length and fraying the ends, the natives convert it into a toothbrush, and a tooth-powder is also prepared by pulverizing the dead stems.

WHAT CAUSED THE ROW.
Hoot, hoot, hoot! rang through the house at 2 a.m.
Scott? What is that? and the head of the house sat up in bed and blinked at a gas lamp shining through the window.
John, stay where you are. I'll not let you go downstairs to such a noise?
Mamma, what is it? came in an excited whisper from the next room and then the daughter rushed into the parental bedchamber.
Be quiet! I ordered the veteran, as he reached for his military. Stay where you are. I'll fight my way to the front door and out the police. If they start shooting down there don't show a light. I know the house and they don't.
Hoot, hoot, hoot! just as the old gentleman reached the top of the stairs. He went down like a cart-wheel, and made a hole in the floor as big as the bottom of a tub. He laid for 600 miles without grading anywhere.

Horses are becoming higher in price every year. Six years ago the horse market was more than supplied, and good horses could be had at half price. The demand for horses in the armies of the world is one of the reasons for the change. Great quantities of dust collect on the decks of vessels at sea, no matter if they are swept twice or thrice a day. Most of it, too, is found on sailing vessels. The inference is that the sails act as dust collectors, arresting the particles which drift in the air.

Of one thousand men who marry, three hundred and eighty-two marry from younger than themselves, five hundred and nineteen women of about the same age, and only eighty-nine older women.

Miramichi Advance

CHATHAM, N. B., SEPTEMBER 12, 1901.

The "Globe's" Mistake.

Readers of the St. John Globe will, no doubt, overlook its mistake that a general assembly election was to be held in New Brunswick before another legislative session.

The Sun's Method.

At last week's meeting of the Board of Education at Fredericton Mr. J. Flavin Doucet, of Petit Rocher, was appointed an inspector of schools.

The Condition of the Town Streets.

The condition of the streets of the town is necessarily bad just now, owing to the excavations being made for the laying of the water and sewer pipes.

The Assassination of President McKinley.

Shot by a creature to whom he was extending a courteous and friendly hand! The assassin taken and imprisoned.

MR. MCKINLEY WILL PROBABLY RECOVER.

Buffalo, N. Y., Sept. 7.—President McKinley, who on Thursday contributed to making what the papers called the "pro-union day" in Buffalo's history, to-day lies in his bed in a balance, at the home on Detroit avenue of Mr. John G. Milburn.

The American Cup Race.

Two new yachts, the "Constitution" and "Independence"—were built in the United States this year to defend the America cup. The Independence was not allowed to enter into the competition for the honor of defending the trophy.

The Tidal Way.

Mr. J. R. Booth, of Ottawa, who is a millionaire lumber manufacturer is, at last proceeded against by the Department of Justice under the statute which prohibits the dumping of sawdust into water stretches frequented by fish.

News and Notes.

Indiana glass manufacturers are communicating with the government relative to establishing their works in Canada. Prince Chun has made the Chinese Emperor's apology to Emperor William of Germany for the murder of Baron von Kettler.

Chatham Town Council.

The regular monthly meeting of Chatham Town Council was held on Monday evening at 7 o'clock.

The minutes being read and confirmed—The clerk read a letter from Mr. T. Hober, Superintendent of the Canadian Eastern Railway, in reference to the council's communication on the subject of better protection of the public at the level crossings on lower Water Street and the Hochberg Road.

The Mayor read, also, a letter from Messrs. T. A. McLean & Son concerning 185 yards of alleged rock work in dispute and not certified by the engineer for payment in the budget account.

Other communications handed in by the Mayor were ordered to be filed.

The Mayor read a letter from Mr. J. D. Coakley giving the town the right to carry the sewer discharge pipe through his property adjoining the Dominion public building property.

The Mayor also read a communication from Mr. E. W. Alward, Secretary of the Northumberland Teachers' Institute, requesting the use of the Council Chamber for holding their annual meeting in October.

Granted, on motion of Ald. Maher.

The resolution that the laying of water pipe from the wells to the pumping station at the level of the water table be done by the contractor for the pumping station is progressing favorably.

The contractor for the pumping station is pushing his work along very well and will be ready for the reception of the pipes in laying the water and sewer pipes in the town.

Your committee would recommend the following report: The condition of the town is necessarily bad just now, owing to the excavations being made for the laying of the water and sewer pipes.

The condition of the streets of the town is necessarily bad just now, owing to the excavations being made for the laying of the water and sewer pipes.

The condition of the streets of the town is necessarily bad just now, owing to the excavations being made for the laying of the water and sewer pipes.

The condition of the streets of the town is necessarily bad just now, owing to the excavations being made for the laying of the water and sewer pipes.

Chatham Town Council.

The regular monthly meeting of Chatham Town Council was held on Monday evening at 7 o'clock.

The minutes being read and confirmed—The clerk read a letter from Mr. T. Hober, Superintendent of the Canadian Eastern Railway, in reference to the council's communication on the subject of better protection of the public at the level crossings on lower Water Street and the Hochberg Road.

The Mayor read, also, a letter from Messrs. T. A. McLean & Son concerning 185 yards of alleged rock work in dispute and not certified by the engineer for payment in the budget account.

Other communications handed in by the Mayor were ordered to be filed.

The Mayor read a letter from Mr. J. D. Coakley giving the town the right to carry the sewer discharge pipe through his property adjoining the Dominion public building property.

The Mayor also read a communication from Mr. E. W. Alward, Secretary of the Northumberland Teachers' Institute, requesting the use of the Council Chamber for holding their annual meeting in October.

Granted, on motion of Ald. Maher.

The resolution that the laying of water pipe from the wells to the pumping station at the level of the water table be done by the contractor for the pumping station is progressing favorably.

The contractor for the pumping station is pushing his work along very well and will be ready for the reception of the pipes in laying the water and sewer pipes in the town.

Your committee would recommend the following report: The condition of the town is necessarily bad just now, owing to the excavations being made for the laying of the water and sewer pipes.

The condition of the streets of the town is necessarily bad just now, owing to the excavations being made for the laying of the water and sewer pipes.

The condition of the streets of the town is necessarily bad just now, owing to the excavations being made for the laying of the water and sewer pipes.

The condition of the streets of the town is necessarily bad just now, owing to the excavations being made for the laying of the water and sewer pipes.

DEERING! DEERING!!

DEERING!!!

For the next month or two the MUSIC OF THE DEERINGS will be heard on every farm. It will be sung by the DEERING one-horse-mowers, DEERING two-horse-mowers, DEERING Reapers, DEERING Binders, and the farmers will while using them, join in the harmony and swell the chorus in every field.

Meantime our full staff will be employed in setting up and sending out these machines, as well as MAXWELL'S HAY-TEDDERS and MAXWELL'S LOADERS.

TWO CARLOADS of the DEERING MACHINES have already arrived at Chatham, direct from the factories in Chicago, without making bulk, and more are to follow.

You will be glad to see our friends and show them our full lines of Farming Machines Eastern Canada, and how we protect their interests by keeping in our SECTION AND REPAIR DEPARTMENT, full assortments of all the different machines we have sold since 1880.

Our prices are right and terms easy.

Agents, Why Don't You Send for a Free Prospectus of CANADA'S SONS OF KOPPE AND VELD? It is the latest book out.

An agent just reports 61 sales in 8 days, and another 26 in 4 days. Big Book, sumptuously illustrated, and is so cheap it sells in a night.

Send for a FREE PROSPECTUS before you sleep and make money easy and quick.

THE BRADLEY-GARRATTON CO. LIMITED, BRANTFORD, ONT.

Carried. The Mayor said he had a note from Ald. McLean, who was not well, saying he and Mr. Johnston, treasurer of the Canada Eastern Railway had come to arrangements for safeguarding the public by the crossing of that line in the town.

The Mayor said he had directed the contractor's attention to this matter already. Ald. Murray said he had spoken to the superintendent of the same matter, but nothing had yet been done.

Ald. Murray, seconded by Ald. Maher, moved that the Public Works Committee be authorized to purchase the necessary piping and fittings for one hundred houses; also to fit the stand pipe station with a nine-inch iron, having one gate.
