MARKED ADVANCES IN EDUCATION

Are Urged by Commission on P. E. Island

Advise General Consolidation With 60 per cent Salary Increase, and Pensions for Teachers—Create a Land Tax

CHARLOTTETOWN, P. E. I., Feb. 25.—The report of the Education Commission, consisting of D. C. McLeod, K. C. Dr. Robertson, Principal of Prince of Wales College, and E. J. G. Trenchard, Editor of the Impartial, appointed by the Provincial Government in 1908 to investigate the whole system, submitted a report to the Legislature today. It is the most important statement on the question since the passing of the free school education act of 1917. The commission which took evidence all over the province, found that people generally paid a compliment to the work of teachers, and showed great interest in the general intelligence of the province, but there was a general desire for improved schools. The commission recommended an increase in teachers' salaries from fifty to sixty per cent, also two schemes of expansion, one to cost \$242,000, the other \$300,000, the latter about double the present cost. Without consolidation, but with increased salaries the increase would be \$85,000.

The advantages of consolidation are strongly emphasized in the report. Among other things, it advised a more professional training and higher qualifications for teachers with more professional training and higher qualifications for inspectors, and more of them. In "text books" the main change recommended was the adoption of the new series of Ontario readers. A pension scheme for teachers whereby they could draw an annuity after the age of sixty, was recommended.

Physical training and military drill, a measure of enforced attendance, prominent place for nature study and manual training as courses are also recommended.

The commission would not recommend any way means for meeting the increase in cost which the changes involved. They say that the people showed willingness to pay for improved schools and unanimous opinion is in favor of the local government to collect all school taxes and pay over to the districts the amounts.

SEWERAGE PROBLEMS AT LANCASTER HEIGHTS

Joint Committee of City and County Councils Discussing Matter This Afternoon

The problem arising from defective drainage which has been a source of considerable unpleasantness to the residents of Lancaster Heights, will be discussed at a meeting of the joint committee appointed for the purpose which will be held in the City Hall at three o'clock this afternoon.

Many complaints have been made by residents of West St. John regarding the flow of sewage from the dwellings on Lancaster Heights on the other side of the city line. As there is no sewerage system outside of the city limits, this has been a source of perpetual trouble and in response to requests the joint committee was appointed. It is composed of three members from the Municipal Council and three from the County Council and the convenor is Ald. Scully.

The committee will go into the matter thoroughly and may give the complainants an opportunity to be heard. Efforts will be made to find a solution of the difficulty that will be satisfactory to all parties.

HALIFAX OR AMHERST TO DEFEND STARR TROPHY

M. P. A. A. Will Saction St. John City League—Yarmouth Team Plays Here Tonight

There will be no hitch in the sanction from the M. P. A. A. for the St. John City Hockey League. A. W. Covey, the local representative of the governing body, has recommended that the sanction be given. Manager Clawson said today that Mr. Covey had written a strong letter, expressing his approval of the local team's action. The sanction is expected immediately. The announcement is made that the Amherst Ramblers and Halifax Crescents will complete the Nova Scotia Hockey League, the winning team to defend the Starr trophy against the All-St. John septette. The M. P. A. A. has given sanction to several suspended players on either side to play hockey during the investigation into the professional charges. Both clubs claim that they can put fast teams on the ice.

MOVE TO SHORTEN FEDERAL SESSION

Western Members Feel Time is Being Wasted

Round Robin Being Prepared Looking to the Elimination of Much Un- necessary Talk.

OTTAWA, Ont., Feb. 25.—A considerable number of members of parliament, particularly those from the west who are compelled to be absent from their homes during practically the whole session, are joining in an agitation for expediting the business of parliament, stopping the present waste of time in long speeches and vain repetitions, and thus bringing the session to an early close. A round robin with this object in view is now being circulated by the western members on both sides of the House. When the House met in November it was hoped that progress could be reached by Easter. At the present rate of progress, however, and with considerable over a score of members still wanting to talk on the naval bill it looks as if the session would last until well into May. Prolongation of the session is not due to any extra proposal of government legislation, but rather to the loquaciousness of private members. The government intends to get through all government bills now on the order paper, including the naval bill, no matter how long the session lasts.

TALKED TOO MUCH TO SUIT HIS ENEMIES

Unknown Men Cut Out Green- thal's Tongue

Five Searched New York for Him and Committed Murderous Assault— Police in the Dark.

NEW YORK, Feb. 25.—Detectives today searched the city in vain for the five men who role all over the west side in a taxi cab yesterday and stabbed him eight times and slashing his face. The motive for the attack was not clear, but it was believed to be a political one. The man, who was named Greenthal, was a member of the Green Party. He was found lying on the sidewalk, and was taken to a hospital. He is now recovering from his wounds. The police are in the dark as to the identity of the men who attacked him. They are searching for them in New York and other cities. It is believed that the men were hired by some one to kill Greenthal. The police are also looking for the man who was committed a murderous assault on him. The man was found in possession of a revolver and a knife. He was taken to a hospital and is now recovering from his wounds. The police are in the dark as to the identity of the man. They are searching for him in New York and other cities. It is believed that the man was hired by some one to kill Greenthal.

FATALLY HURT TRYING TO SWALLOW A BAYONET

Becherer Couldn't Slow the Steel Away— Managed a Mouthful of Carpel Tacks.

NEW YORK, Feb. 25.—Albert Becherer, a victim of vain-glorious zeal to day, a victim of vain-glorious zeal to rise in a doubtful act. Becherer was a sword swallower, and urged by the plaudits of his audience when he swallowed down a half-dozen nails and a handful of tacks he attempted to swallow a bayonet. Just what happened no one knows, but the sword swallower ran yelling from the stage. Becherer said he had punctured himself in several places.

TROOPS ON THE WAY TO SUBDUCE SUGAR CUTTERS

Natives in Guadeloupe are Under Police Guard—Already Several Have Been Killed.

POINT-A-PITRE, Guadeloupe, Feb. 25.—Forces of police have gone to St. Francois to protect the natives there, several of whom have been killed during the disturbances arising from the strike of sugar cane cutters. The strikers have gathered in considerable numbers about St. Francois and are pillaging the surrounding country. They are killing domestic animals for food. The foreign consulates are guarded by the police. Several sugar-grinding factories have been burned. Governor Gautrat today announced the arrival of reinforcements of troops from Martinique and that the French armored cruiser Victor Hugo was on the way here to aid in preserving order.

CLERGY ENDEAVOR TO SETTLE STRIKE

All Unite to End Glace Bay Trouble

Had a Conference Yesterday With Mr. Butler—Another Today With Miners' Representatives.

GLACE BAY, Feb. 25.—All of the clergymen of this town of all denominations, held a protracted meeting yesterday to discuss the present state of affairs in connection with the strike. Rev. Dr. Thompson was chairman of the meeting and it is understood that the whole situation was thoroughly canvassed and discussed. So far as can be ascertained no definite conclusion was arrived at, but it is reported that the clergymen were unanimous in the view that the workmen who are on strike should be advised to return to work as soon as possible. General Manager Butler, with his assistant, Mr. McDougall, were present at the meeting. It is said that they outlined the conditions upon which the men would be accepted on the works. These conditions were regarded as satisfactory and another meeting is being held today by the clergymen at which representatives of the striking miners will be present.

THE DALAI-LAMA HAS LOST HIS JOB

China Deposes Him for Organ- izing Revolt

Went Back From Peking With Fairy Tales to Lull His People—Tried to Reason With Him But Was Missing.

Peking, Feb. 25.—The Chinese government has deposed the Dalai Lama as head of the Tibetan government and in an official statement issued today explained its action on the ground that the nominal ruler had deserted the Capital during an attempt by him to organize a general revolt. The arrival of the Dalai Lama upon his official duties at Lhasa from Peking circulated with British trade in Tibet was injurious to Tibet. The Lama then took measures to thwart this trade, whereupon China became alarmed and ordered 2,000 troops to go to Lhasa with the object of preserving the peace and affording protection.

WINTER WEATHER IN THE EAST AND WEST

New Hampshire Has a Cold Snap, and Washington the Worst Storm of the Season.

ANDOVER, N. H., Feb. 25.—Shivering beneath its heavy blanket of snow, Central New Hampshire last night and early today was visited by the coldest weather of the present winter. Thermometers registered 25 degrees below zero. Recent snow storms have been followed in each case by gales and the drifts on many of the mountain roads are fully fifteen feet deep.

TRAGEDY PREVENTED BY RETAINING WALL

C. P. R. Passenger Express Derailed in the West

British Columbia Hotel Burned—Fall Wheat in Kent County, Ont., Killed by Peculiar Weather.

HAZELTON, B. C., Feb. 25.—The Hazelton Hotel, owned by Theo. Olson, was destroyed by fire yesterday. The fire started in the kitchen and spread to the main part of the hotel. The hotel was a three-story building and was one of the best in the city. The fire was caused by a gas stove which had been left burning. The hotel was insured for \$10,000. The fire was extinguished by the fire department. The hotel was a popular place for tourists and was a source of pride to the city.

MURRAY GIVEN TWO YEARS FOR HAVING THREE WIVES

Enterprising Hubby of Chatham Girl Sen- tenced Yesterday After Pleading Guilty.

BOSTON, Mass., Feb. 25.—After pleading guilty to the charge of polygamy yesterday in the municipal criminal court, John J. Murray of Chatham, was sentenced to a term of two years in the Charles St. jail. The plea of guilty was a surprise to nearly everyone in the court. The sentence of two years is one of the longest terms yet given by this court to the Charles St. institution. Three marriage certificates were produced in court which showed that Murray had been wedded first to Catherine Donovan in Chelsea, who died in 1895. The latter part of that year he was married to Isabelle Fone in South Boston, and in 1907 he was married to Catherine Stapleton of Chatham, N. B. In spite of the marriage to the last woman named he was living with the Fone woman in Charlottetown when placed under arrest.

TALK ARBITRATION IN PHILADELPHIA STRIKE

Company Ready to Consider the Suggestion

More Cabs Running Today Than at Any Time Since the Trouble Began— Disorder at Bethlehem.

PHILADELPHIA, Feb. 25.—Encouraged by the success that met its efforts to run its cars yesterday and even last night, the Philadelphia Rapid Transit Company began, at day-break this morning to open up additional lines, some of which have not been in operation since the strike began. Cabs of laborers shortly after midnight started the work of clearing away obstructions which had been on the tracks since they were abandoned last Saturday when the strike was first declared.

THE DALAI-LAMA HAS LOST HIS JOB

China Deposes Him for Organ- izing Revolt

Went Back From Peking With Fairy Tales to Lull His People—Tried to Reason With Him But Was Missing.

PHILADELPHIA, Feb. 25.—The limited number of cars in operation were not well patronized, however, sympathy with the striking workmen and conductors and fear that the attacks on the cars might be resumed at any time, caused thousands of persons to continue riding in wagons and other improvised conveyances. The elevated and subway line, however, was operated in its capacity and the railroads which have increased their schedules for stations within the city limits, continue to do a thriving business. The authorities hope that the great improvement in law and order noticed yesterday will continue.

CONSTRUCTION COMPANY SEEKS INCORPORATION

Letters Granted to Big Six Coal Company —Mills-Eveling Co. of Sussex, Applying.

PHILADELPHIA, Feb. 25.—The proposal of clergymen of Philadelphia that both sides submit the case to arbitration, has not yet borne fruit. The strikers through National Organizer C. O. Pratt, have expressed their willingness to arbitrate. The company, however, notified the churchmen's committee that the appeal to arbitrate will be duly considered at the meeting of the Transit Company's board of directors. The date for the next regular meeting of the directors is March 7.

CONSTRUCTION COMPANY SEEKS INCORPORATION

Letters Granted to Big Six Coal Company —Mills-Eveling Co. of Sussex, Applying.

Organized labor is backing the strikers strongly. Frequent meetings are being held by leading union organizers from all parts of the country who are here to aid the informants and conductors in every way which their experience can suggest. The Transit Company announced today that it has decided to give the matter of arbitration a second and special consideration today at a special meeting of the board of directors. President Krueger notified the secretary of the churchmen's committee that if he could get a quorum of directors together the proposal will be considered this afternoon. There is a belief that the directors will repeat their former declarations that the company has nothing to arbitrate and that it will manage its affairs in its own way.

NEWS OF SPORT

SAYS PITTSBURG HAS SHULTZ, QUAKER STAR

P. r. a. Fans Hear That the National League Leaders Got "Toots"—Keeler Given His Release.

PITTSBURG, Pa., Feb. 24.—Frank "Toots" Shultz, premier college pitcher of the country, who last season annexed the collegiate championship for the University of Pennsylvania, has been signed by this statement, but it is known positively that Shultz was signed several weeks ago, with the understanding that the fact of his signing was not to be given out until after next June, when he is graduated from the University. He fears that he will not be allowed to play on the college nine should it become known. It is understood here that Roy Thomas is directly responsible for the signing of Shultz. Three years ago, Thomas notified Dreyfuss to keep his eye on the local boy, and Barney headed the tip.

Both games in Black's alleys went 3-1 last evening. Electricians managed to save themselves from being four-holed by the Pirates, winning the second string by two points. Griffiths opened with a string of 109 in this game and kept up well enough to average 86. M. R. and A. took three strings from J. M. Humphrey & Co. Douglas rolled a peculiar game in this contest, making 50 and 70 on his first two strings and jumping to the nice score of 118 on the final score: Griffiths... 109 89 90 288 98 Phinney... 96 70 71 237 79 McLean... 82 84 289 82-3 Cronin... 88 95 91 274 91-2-3 Crowley... 84 88 77 239 89-1-4 469 435 423 1287

SILVER CUP FOR MR. McMONAGLE

His Plymouth Rocks the Best Ever

Big Show Over—Exhibitors Well Pleased With Mr. Roberson's Decision.

The poultry show was well attended yesterday, and the many visitors were highly pleased with the exhibits of birds. The feature of the day was the starring of the association silver cup. This handsome cup was awarded yesterday afternoon by the judge, Geo. Robertson, to Mr. McMonagle's Plymouth Rocks for the best of one variety. Several persons were awarded first prizes for four birds of one variety, but Mr. McMonagle's Plymouth Rocks were decided to be the best on exhibition. He had on exhibit cock and hen and cockerel and pullet. Each of these took a first prize. The judging was completed at four o'clock yesterday afternoon. All the exhibitors consider Mr. Robertson's judging highly satisfactory, and are much pleased with the awards made. The Black Minorcas and Cornish Indian game fowls of John F. Reid of the Hillside poultry yards are attracting considerable attention. The show closes tonight.

GOVERNMENT HAS A MAJORITY OF 31

First Test of Strength—Both Facious of Nationalist Party Abolish

LONDON, Feb. 24.—The first trial of strength in the new parliament occurred tonight at a crowded session of the House of Commons, when Austen Chamberlain's fiscal amendment was rejected by a vote of 251 to 254.

Speeches were made by Arthur Balfour, leader of the opposition; Chancellor Lloyd George, Minister of Finance; and the Hon. J. B. Hodge, president of the Board of Education; A. Bonar Law and others, none of whom, however, gave any new support to the fiscal policy.

Although victorious only by the narrow majority of 31, the government regard the result as very satisfactory, inasmuch as there was no crossing and no evidence of any intention on the part of the disaffected groups to overthrow the ministry.

All the Nationalists, the O'Brienites as well as the Redmontes, abstained from voting. The Laborites voted with the government, and three Liberals, Hillaire Bell, Horatio W. Bottomley and J. C. Wedgwood abstained.

GREAT EXCITEMENT. Division was taken amidst a scene of great excitement and the figures as announced were received with tremendous approval cheering. The premier, having given notice that he would move on Monday that government business would take precedence over all other business until March 24, the house adjourned.

The government's existence now will depend upon the production of a plan satisfactory to the Nationalists and the Radicals for dealing in a drastic manner with the house of lords' power of veto.

Freeman's Journal of Dublin tomorrow morning will say: "It cannot be stated with too much emphasis that the Irish party has not only secured a breadth from the policy which John Redmond has laid down, but it has also secured a veto scheme and press it to an issue. The Irish party will enter upon a policy of vigorous opposition to the government, with the result that the ministry either will be defeated in a few days or will be contented to open a contemptible exhibition of the art of Balfour's supporters."

Freeman's Journal further explains that it was not out of consideration for the government that the Nationalists abstained from voting, but because they did not desire to commit themselves to a tariff reform policy or to take a step which would divert the issue of the next election from the house of lords to tariff reform.

Meetings of Liberal and Radical groups daily are sending deputations to Premier Asquith urging him to take a strong line on the veto question.

THE GEM. A programme which will please the most fastidious nature, has been selected for tonight's show. Besides the regular programme, "Twelfth Night," Shakespeare's comedy, will be repeated, by request. Many hundreds of the Gem's patrons have asked for a repetition of this film. Tonight will be the last opportunity of seeing this subject. The feature of regular programme is a Pathé subject, "The Bare Back Rider," which, as the title indicates, is a story of circus life. This subject contains pathos which will appeal to all. Perhaps no subject which contains the gamut of human affection has ever been shown in this city. A Rose of the Philippines, is a splendid love story, the scene being laid in those islands. The hero is an American army officer, who has fallen in love with a native girl. He receives a letter from his father and thereby hangs the story. "Never Again" is a burlesque or a temperance worker — a woman who belonging to a club whose duty is to put down the drink evil, calls at her husband's office in time to see him take a drink, at the sight of which she faints. The only restorative handy is the whiskey and from the office bag they all apply the remedy. "When

MISS RAY HOPE, Nickel Monday.

On Monday the Nickel presents a new array of talent in which Miss Ray Hope shines as a film reader. Her opening number will be Edison's lovely first story "Laddie," the tale of a pet dog and a dear old mother. "Mr. Robson will sing the ragtime hit "The Dainty Bombshell," and there will be other attractions besides the new picture.

GRAND CARNIVAL TONIGHT.

A great attendance is expected at the carnival in the Victoria rink this evening. Many are the original ideas being worked out by the competitors. The event is under the auspices of the Canadian Order of Foresters, and the members are diligently working to make the carnival the most successful skating event of the season, and there is little doubt that such it will be. Hundreds of tickets are disposed of to both skaters and spectators, and the prize will present a most brilliant spectacle.

CITY CHAMPIONSHIP RACE NEXT TUESDAY.

The most interesting race of the season, and the one which may decide the city championship, and the identity of the party to hold the handsome silver cup, Tuesday's race is the half mile, and it will certainly be a fight from the start to the finish between Logan, Belyea, Wright, Ingram, Coleman and several other speedy men. Logan has been doing some wonderful work at the half mile during the last few weeks, and he and Belyea are sure to give each other a wonderful race. Belyea is determined to win, and the race, it is expected, will draw the largest attendance of the entire season.

GREAT INDIAN PICTURE AT THE "STAR."

"The Sioux's Daughter" is to be the chief of the Star Theatre's films in North End tonight and Saturday. This will be a change from the social and historical dramas of the past week, and the excitement of the plains will be great fun for young and old. Then there will be a spectacular picture of the historical type entitled "The Roman," something of interest about the conquerors of the world in the olden times when Caesar was alive. "The Wonderful Coat" and "A Persistent Leaver" will supply the laughing matter and Mr. Newcombe is to sing the dainty Egyptian serenade, "Anina," one of the prettiest numbers in a long while. Big Saturday matinee. Strong bill for Monday, don't miss it.

MORE FOR THE MONEY.

The present Industrial Policy of the metropolitan provinces more assurance for the money than any other similar policy ever before issued.

SUNLIGHT SOAP. HOUSE CLEANING. Instead of being a monotonous drudgery becomes a pleasure when Sunlight helps you. Remember Sunlight does all the work, at half the cost and in half the time of other Soaps. Follow directions.

the doctor also arrives, he also prescribes whiskey. The result is that the victim is slightly "under the weather" which state she meets many of her sister workers. Can you picture the effect? As shown this subject is simply great, and funny in the extreme. Other subjects will be shown of an interesting and instructive nature. Tomorrow afternoon will be children's day at the Gem. Souvenirs will be given to all who attend and a special programme, with the leading features of tonight's show will be given. Mr. Harney in illustrated song and the latest orchestral selections.

BIOGRAPH LOVE STORY AT THE NICKEL.

Still another good change of bill at the house of wholesome, pure entertainment, the Nickel. This time the leading feature is to be a Biograph love-story, "The Course of True Love," a production in which all the favorite players and matinee heroes perform. The gorgeous production of Shakespeare's "Hamlet" will be again shown, and from the favorable comments made upon this picture last evening it is certainly considered one of the finest classical films of the year. A southern story entitled "The Feud" will conclude the pictorial part of the show. Holmes and Buchanan, who introduced more novelties yesterday, will give six times in "The Yama-Yama Man," a bogie-man song, and Mr. Buchanan's farce-comedy with the characterization of an old maid. This will be great fun for the kiddies Saturday afternoon.

Some lively selling going on at the "Removal Sale" at F. W. Daniel and Company's yesterday and today. Features are interesting for tomorrow. Big crowd expected Saturday night and a big start with many extras to see them. Don't miss seeing the fun when you are up town tomorrow night. See advertisement on page five.

About 6.30 o'clock last evening the West Side fire department was called out for a fire in the small shed, between numbers 5 and 6 sheds at Sand Point. The shed in which the fire was contained the furnace, and it was around the chimney that the blaze was caught. A slight delay was experienced in getting water, but the blaze was extinguished in great quick time. The damage was very slight.

The Westfield Outing Association held their annual winter outing at Westfield yesterday. A large number left on the 1.10 train and still more express at 5.06, enjoying themselves with winter amusements at their summer homes and returning to the city about ten o'clock. A pleasant time was enjoyed by all and the members are looking forward to the time when they will be able to spend their vacations at Westfield.

A serious break was discovered yesterday afternoon in the three inch water pipe in Humbert's alley, off Leinster street. It is supposed that the break was caused by some lead blowing out of the pipe. The water was turned off in the alley and a gang of men was put to work digging to ascertain where the break was. The work will likely be completed this morning. It was stated last evening that it would be necessary to turn off the water on Leinster street between Sydney and Carmarthen, and on Carmarthen street, between Princess and Leinster, before daylight.

A rather amusing incident took place last evening at the Ottawa Hotel. About 11.30 o'clock a gentleman, accompanied by a large Newfoundland dog, entered the office. The man remained for a few minutes. When he made his exit from the office he unintentionally closed the office door, leaving the dog in the office. He had not gone very far when the dog, seeing no other way of escaping, made a bold dash through the large plate glass window in the office. The glass was smashed and the dog was badly cut about the head. The animal, however, scampered away after his master. Some of the hotel staff tried to locate the man and dog, but the search was fruitless.

THE STAR ST. JOHN N. B., FRIDAY, FEBRUARY 25 1910

THE ST. JOHN STAR is published by THE SUN PRINTING COMPANY, (Ltd.) at St. John, New Brunswick, every afternoon (except Sunday) at \$3.00 a year.

ST. JOHN STAR.

THE SUN AND STAR

A statement was published in a local paper yesterday to the effect that the Sun and Star had been sold and would be absorbed by another company. Similar reports have been published in other papers recently. The statement is not true. The Sun and Star have not been sold and are not in process of being sold.

NEW BRUNSWICK'S MINERAL

In the development of its mineral wealth, New Brunswick's progress is slow. The question of why this is the case offers opportunity for interesting theorizing. Year after year the report of the Surveyor General, covering as it does practically all the mineral industries in the province, fails to record any marked advance in one direction or another.

In the Grand Lake district there has been a reduction in the output of coal. It is alleged that this is due to lack of shipping facilities. Possibly that is true, but if so it is a reflection on the progressiveness of the provincial government and of those who are interested in the mining. Coal is certainly there and surely there should be sufficient energy among those who will profit to provide whatever facilities are needed in order that the production may be properly increased.

Copper mining has not reached the commercial stage. A small quantity of manganese has been shipped, the oil and gas business is in the experimental stage, and small expenditures are contemplated at the Alberte Mines. Aside from the gypsum deposits, the Queens County coal areas and the anthracite mines at Lake George, New Brunswick appears to be doing almost nothing in the production of minerals and very little in those mentioned.

Now, it is to be presumed, we will have another fire-water scare arising out of last night's incident at Saint Point. It is stated there was quite an unnecessary delay in turning on the water at Union Street. Let's have an investigation under oath right away. No use trying to explain the thing by reason.

The Star has received a large number of letters bearing on the controversy. His Honor Judge Forbes, and certain Jewish residents. These communications add nothing of value to the discussion but are, as a whole, severely critical of one or other of the parties directly concerned. Their publication would simply tend to intensify whatever feelings may have been created. Judge Forbes has said what he felt like saying, and Rabbi Amur has replied for his people. This should be sufficient.

MILD RESOLUTION ON PULPWOOD PROBLEM

Forestry Convention Recommends Limited Cut

Greater Protection From Fires and Timber Pirates Urged—Water Power Policy—Closing Session.

At the afternoon session of the Forestry Association at Fredericton yesterday there was a discussion of Mr. Lavitt's paper, "Mr. Williams, of Pennsylvania, said that by sowing fine seed on the first sod good results had been obtained."

Mr. Warburton of P. E. I. read a paper on "Relation of Forestry to Game Protection," by Mr. E. J. Campbell. The writer suggested that in future in all grants of land by the government, a strip of fifty feet wide on each side of all streams be maintained perpetually in trees, and this would provide game covers and improve the fishing.

Hon. W. C. H. Grimmer read a paper of Penobscot on manufacturing of tar and turpentine in New Brunswick. The paper mentioned that an axe or saw cannot be used on the trees in Canada, the roots are cut and the trees pulled down. The tops, branches, bush, etc., are burned before May 1st.

W. H. Berry, chief scaler of New Brunswick, read a paper on "Conditions as they obtain in New Brunswick, re conservation of forests." If logs of the modern size are cut black spruce can be cut every fifteen years in the northwestern part of the province.

Senator Edwards said that settlements in timber limits in Quebec had destroyed millions of dollars worth of timber. He stated that the province had established merely for the purpose of taking timber.

Mr. Snowball said the same trouble existed in New Brunswick. Church and school settlements were being established, with rotary mills in connection merely for the purpose of cutting timber without paying what should be paid into the provincial treasury.

He hoped the government would take steps to stop the cutting of timber without paying what should be paid into the provincial treasury. Resolutions were passed by the association endorsing the report of the committee of the house of commons recommending that the available forest land upon the eastern side of the Rocky Mountains be converted into a permanent forest reserve.

Upon the proposal of G.G. Fitch that it be recommended that the executive committee consider: (1) The establishment in each province of separate branches to look after local problems.

(2) The appointment of a committee of five members to study the possibility of having a universal log rule for the whole Dominion.

(3) The publishing of the forestry journal monthly instead of quarterly, and also the use of larger type. That this convention recommended to the executive committee the advisability of appointing a committee of five to consider the fire laws of the several provinces and suggest legislation in their opinion would more effectively prevent and control fires.

The convention closed last night when Abraham Kinloch, inspector of the Dominion Forest Reserve, delivered a lecture in the Opera House on "Forestry in Canada." President Edwards said that the convention was one of the most successful yet held.

The Evening Chit-Chat

By RUTH CAMERON

"The kindly-earnest, brave, far-seeing man, Sagacious, patient, dreading praise, not blame, New birth of our new soil, the first American!" —Lowell

Does that suggest to you whose birthday it is today? It is unlikely that the United States will ever celebrate Abraham Lincoln's birthday as a national holiday. But that does not mean that the twelfth of February need go entirely unobserved.

It does not seem to me that I ever read the biography of a man who cared so much about mothers. Almost all great men have acknowledged their debt to their mothers, but few so beautifully as Lincoln in that famous sentence— "All that I am or hope to be I owe to my angel mother."

And it does not seem to me that any other man I have ever read about had such a deep interest in other peoples' mothers as Lincoln had. When he went to William Scott, the "sleeping sentinel," and talked to him about his fault and pardoned he did not forget to ask about his mother.

"Then he asked me about mother, and how she looked," said Scott, in telling about the interview. "And I was glad I could take her photograph from my bosom and show it to him. He said how thankful I ought to be that my mother still lived, and how, if he was in my place, he would try to make her a proud mother, and never cause her a sorrow or a tear."

A mother's plea for her son was almost always irresistible to him. Again and again he granted the older women who came to plead for their sons' favors he did not give to younger and more attractive women. Quite often, because of his care of state, Abraham Lincoln did not have time for dinner or supper, but when his attention was called to the fact that one mother had lost five sons in the war he had time to write the following letter which, well known as it is, I am going to quote bodily because I love it so.

"Dear Madam—I have been shown in the files of the War Department a statement of the adjutant-general that you are the mother of five sons who have died gloriously on the field of battle. I feel how weak and fruitless may be any words of mine which should attempt to beguile you from the grief of a loss so overwhelming. But I cannot refrain from tendering to you the consolation that may be found in the thanks of the Republic; and I pray that our Heavenly Father may assuage the anguish of your bereavement and leave you only the cherished memory of the loved and lost, and the solemn pride that must be yours to have laid so costly a sacrifice upon the altar of freedom.

Yours sincerely and respectfully, "Abraham Lincoln." If those who love Abraham Lincoln would make the twelfth of February a day on which they did special honor to their mothers, in which they sought out somebody's mother whose health for some reason was empty, and tried to brighten her life a bit, I think that Abraham Lincoln would be more content with such an observance of his birthday than any more formal honor he could receive.

Oh, tell us, tell us where we'll find, A word to rhyme with "Month." The only one we tell to mind, Is "Fifth, fourth, third, twelfth, month."

"Mr. Mr. James, I don't see how with your salary you can afford to smoke such expensive cigars," remarked a merchant severely to one of his clerks. "You're right, sir," responded James. "I can't; I ought to have a bigger salary."

"But how do you tell the red from the white?" asked one of the guests. "Oh," replied the landlord, "your soon get to know them by their shape."

ACADIA WINS CUP AND CHAMPIONSHIP

WOLFVILLE, N. S., Feb. 25.—By defeating the Mount Allison sportsmen last night Acadia captured the Sumner cup and incidentally won the intercollegiate hockey championship. The score at the end of the second half stood 9 to 2, although Mount Allison proved dangerous on several occasions.

The line-up: Acadia. Position. Mt. Allison. Goal. Robinson. Seaman. Point. Curry. McKee. Black. Boons. Murray. North. Pattillo. McDougall. Eaton. Cameron. Left Wing. Corey. Pattison. As St. Joseph's University are champions of New Brunswick, a match may shortly be arranged with Acadia. Kings College and St. Francis Xavier did not compete in the intercollegiate league.

CURED OF CONSTIPATION

Mr. George Andrews of Halifax, N.S., writes: "For many years I have been troubled with chronic constipation. This ailment never comes single-handed, and I have been a victim to the many illnesses that result from it. I have taken medicine after medicine I have taken in order to find relief, but one and all left me in the same hopeless condition. I decided that nothing would help me but the one ailment that caused so much trouble, yet at last I read about these Indian Root Pills.

"That was indeed a lucky day for me, for I was so impressed with the statements made that I determined to give them a fair trial. They have regulated my stomach and bowels. I am cured of constipation, and I claim they have no equal as a medicine."

For over half a century Dr. Morse's Indian Root Pills have been curing constipation and clogged, inactive kidneys, with all the ailments which result from them. They cleanse the whole system and purify the blood. Sold everywhere at 25c a box.

ONTARIO LIBERALS DEFER CONVENTION Father Acquitted of Charge of Criminal Neglect A Record Catch—Berlin After the Stanley Cup—Baqet for Meadows—Dog Catcher Bit on.

TORONTO, Feb. 25.—The Ontario Liberals at a caucus yesterday decided against the holding of a convention this summer. Constance was expressed in Hon. A. G. MacKay and he will remain leader of the party. QUEBEC, P. Q., Feb. 25.—Arthur Paker, who was charged with neglect of his three-year-old son, thereby causing the death of the child, was acquitted by the jury here yesterday. A verdict was brought in that tubercular meningitis was the cause of the boy's death.

VANCAUVER, Feb. 25.—A new world's record for a halibut catch has been established by the steamer King Fisher off the coast. As a result of one day's work the catch reached the large amount of 200,000 pounds. BERLIN, Ont., Feb. 25.—The Berlin hockey sportsmen, champions of the Ontario professional league, have sent in their challenge for the Stanley cup to the trustees. The local team is the fastest turned out in recent years and should do well in the matches for the coveted trophy.

GUELPH, Feb. 25.—A magnificent demonstration was tendered Fred Meadows here last evening. The mayor and civic authorities gave a banquet in honor of the great runner. Meadows is the champion middle distance runner of the world. He won the recent distance event in New York. HAMILTON, Feb. 25.—The official dog catcher of this place is suffering from severe bites, which he received in going his rounds a few days ago. Unless his condition improves the authorities will send him to the Pasteur Institute in New York.

TORONTO, Feb. 25.—During the present month 110 cases of typhoid have been reported at the Board of Health. This is the largest number for any month since 1892. An enjoyable evening was spent last evening in No. 1 Salazar's Corpa rooms, when that organization was at home to the members of No. 2 Company. Captain Price on behalf of the members, presented a large portrait of King Edward to No. 2 Company. The programme was of more than usual excellence. There was an orchestra of twelve pieces and D. Arnold Fox presided over the piano. The entertainers of the evening were: Harold Allison, M. F. Kelly, A. Gordon Rainnie, Robert Holder, John Tongue, C. Dickinson, soloists. Each of their numbers was highly enjoyed. George Stevens and Harold Williams played a trombone duet.

Suffered Terrible Pains From His Kidneys. Perhaps no other organs work harder than the kidneys to preserve the general health of the body, and most people are troubled with some kind of kidney complaint, but do not suspect it. There is no way of getting the kidney pions out of the system except through the kidneys, and no medicine so effective in taking them out as Doan's Kidney Pills. They help the kidneys to flush off the acid and poisonous impurities which have collected, thus clearing out the kidneys, bladder and urinary passages. Doan's Kidney Pills are entirely vegetable, and may be safely taken by old and young. Mr. Donald A. Melrose, Broad Cove, Banks, N.S., writes: "I was troubled with my kidneys for nine months, and suffered with such terrible pains across the small of my back all the time that I could hardly get around. After taking two boxes of Doan's Kidney Pills I began to feel better, and by the time I had taken three I was completely cured." Price 50 cents per box, 3 boxes for \$1.25, at all dealers or mailed direct by The T. Milburn Co., Limited, Toronto, Ont. In ordering specify "Doan's".

MAKING OF ELECTRIC BULB NO EASY TASK

Unique Processes Through Which Incandescent Lamp Passes

As Flashing Torch Lamp is Charged With 1,000 Volts to See if it Has Perfect Vacuum.

CLEVELAND, Ohio, Feb. 24.—The ordinary incandescent lamp is a very simple device, yet the manufacture of the lamp itself is a very complicated and laborious process, calling for the very best of engineers, inventors and skilled labor. Each lamp in the making passes through twenty-five different departments and through nearly one hundred hands before it is ready for shipment.

The glass bulb when received from the glass factory, looks very much like the complete lamp, except that it has a brass screw there is a glass tube about three inches long. Four-foot lengths of glass tubing, in sizes of diameter, seven-sixteenths and seven-thirty-seconds of an inch; fine copper wire, with platinum ends; an steel wire, filament of carbonized celluloid, a paste of secret composition and the brass screw ends or bases are the other materials used in making up the lamp.

At the third station crossed jets of heat from the blowpipes heat it to pliability and a small plunger automatically presses the end into flange form.

At the fourth station the girl on the opposite side of the disk places in the tube the two small copper wires. At the fifth station the bottom of the tube is given preparatory heat. At the sixth station, which is the most remarkable piece of automatic work, intense heat is blown on it, a clamp presses it into shape, sealing in the copper wires, and the small steel wire is forced up into it, also becoming embedded in the solid glass. They are then placed in wooden trays and allowed to cool. Each stem is carefully inspected before it goes along to form part of the lamp.

The carbonized celluloid filaments, these hairlike loops that emit light in the incandescent lamps as we see them, are coiled end to end, two filaments making four ends, which are placed in the slots of a small machine which clamps them and holds them perfectly steady while the young woman places the two platinum ends of the copper wires of the stem against them and drops a bit of clamp paste on them.

The paste is a secret composition, composed mostly of wax. There are also six clamps on this machine, and when one has passed around the disk, the paste is set and the filaments held firmly intact with the platinum ends of the stem.

DOES CIRCUS ACT THAT KILLS MANY

Double Back Somersault Achieved for the First Time by Acrobat on the Stage.

NEW YORK, Feb. 24.—For the first time in the history of acrobatics the much attempted but never accomplished double back somersault has been achieved. Throughout the country gymnasts and acrobats are discussing the feat, unparalleled in the history of the circus ring, which was done by Charles Siegrist in Kansas City Friday.

Many circus performers, as well as amateur gymnasts, have attempted to turn the double back somersault, and scores of men have broken their necks or backs in doing it. Many of the old time performers declared the feat was impossible, and of late years the attempts to accomplish the "double back top" have been few.

To accomplish the double back somersault calls for the bringing into play of nearly every muscle in the body. The act of hurrying the body through the air from a standing position, making two complete revolutions and landing on the feet called for perfect condition physically and great mental concentration when the entire tension of the nerves was called into play.

Friday night, before going on the stage at Kansas City Convention Hall, he announced to other performers that he was going to turn the double back-somersault before the audience. The other gymnasts were just as much interested in his act as was the audience.

Siegrist went through the rest of his act without innovations, and at the end, while the audience was waiting for the feat was still sounding through the house, he walked to the centre of the stage, and after that he made the feat with a balance, suddenly threw himself backward and made the double turn before his feet touched the floor.

When Mr. Eugene J. Giannini, athletic director of the New York Athletic Club, who was himself one of the foremost amateur tumblers in his day, was told of the double somersault of Siegrist, he said:

"If this man can really perform that feat with any degree of surety he is indeed a marvel in the acrobatic world. To my knowledge there has never been any one who could do it to a certainty. We once had a professional acrobat as instructor in the gymnasium here who could make it once in a great many attempts, but even then he just managed to get his feet under him when he was ready to land. He never tried it with out a couple of assistants holding the waist of the ground to prevent his breaking his neck in case he failed to get his head far enough around."

STOLE PAPERS FROM A LAWYER'S OFFICE

ALBERT, N. B., Feb. 25.—Magistrate Peck was yesterday sent up for trial by Justice Oliver on the charge of secretly obtaining legal documents from the office of Justice Rhodes. The case created much interest in the county. John H. Rhodes was the chief witness. He told of the alleged offense and said Peck was determined to secure the papers. At his office he found important papers in the Hewson case were gone. He saw footprints outside leading to a window.

G. D. Reid also gave evidence, after which the accused was committed for trial. He was admitted to bail at \$300.

The Canadian Express Company will sell by auction on Tuesday, April 5, all unclaimed goods received prior to January. The auction will take place in this city and will be conducted by Auctioneer Potts.

Although there were no diamonds in the case, the United States revenue inspectors ran across something at Vancouver yesterday to enliven the routine of their work. One of the passengers on the morning Boston train was a Nova Scotian fisherman. His trunk was inspected in regulation style by the examining officer, and nothing was found in it but a few articles of apparel, fishing gear and trinkets of no very great value.

In the lower compartment between the false and the true the revenue man found just exactly a dozen pairs of heavy woollen mitts and a dozen pairs of woollen mitts.

MILITARY DRILL FOR THE PUBLIC SCHOOLS

Elaborate System Adopted by Government

Physical Training and Rifle Shooting From Important Features—Provision for Undergraduate Courses of Instruction.

An important announcement is made in the Royal Gazette on the physical training and military drill in the public schools. The agreement in full is as follows:

The New Brunswick educational authorities will enforce more generally their existing regulations which prescribe the physical training of pupils in all public schools, and will further adopt a system of physical training uniform with that of the other provinces of Canada, suitable to the age and sex of the pupils, and will encourage the formation of cadet corps and rifle practice among the boys of suitable age, on the understanding that the Militia Department in its part will:

(a) Provide competent instructors, at convenient places and seasons, to instruct in the physical training of pupils, and to employ in New Brunswick and those under training for such employment to qualify themselves to carry out physical training, until such time as the provincial authorities are prepared to undertake this duty themselves, and will also:

(b) Provide a course of instruction at the University of New Brunswick, in the physical training of pupils, to qualify all male teachers, who so desire, to instruct cadet corps.

(c) Also grant an annual bonus to such qualified teachers as actually instruct cadet corps in advanced military drill and rifle shooting, provided the cadet corps passes a satisfactory inspection, and the teachers make themselves eligible for the bonus by becoming members of the Militia, either by obtaining commissions as a regiment or by becoming members of the Corps of School Cadet Instructors.

(d) The system of physical training adopted should be such as to lead naturally, without change to the system of drill in force for the Canadian Militia. The Syllabus of Physical Exercises for British Elementary Schools, with such modifications as may be necessary, will be followed. The instruction given in the schools will be such as is suitable to the age and physical condition of the pupils.

(e) A regard to the instruction in physical training of the teachers already employed, there appear to be four courses of instruction which will be necessary to be formed and carried out in the schools, which will be necessary to be formed and carried out in the schools, which will be necessary to be formed and carried out in the schools.

CAPTURED AT CAPITAL WITH ANOTHER'S WIFE

Murder Man Ran Off With Mrs. Ship's

—Her Husband Declared Her—Tried to Seal Duga's Case

FREDERICTON, N. B., Feb. 25.—In consequence of a warrant received yesterday from L. McKain, chief constable of Cunningham, Ont., Chief of Police Hawthorne last evening arrested at a boarding house on St. John street a man named Rowland Dugan. The warrant was sworn out by a Joseph Stupley and he charges Dugan with the abduction of his wife, Dugan. It is charged, is a married man and leaves a wife and four small children. Shipley, the husband, arrived here yesterday, and last evening departed, taking his wife with him. Before leaving Dugan gave Mrs. Shipley ten dollars to pay her way back and asked her to return the balance to him. She failed to do so, however, and Mrs. Shipley was caught at Fredericton Junction and handed back the balance and some other articles and was allowed to proceed. Dugan was taken before Magistrate Marsh this morning and remanded.

A case of "Looking before you leap"

BEFORE you select any Commercial School you owe it to your future to investigate the equipment of the school not only as regards the instructors but in the matter of office appliances. No matter how efficient the instructors, they lose much of their value if the equipment is not up-to-date and efficient.

This school is proud of its teachers, and it is justly proud too, of its equipment. A special effort has been made to provide the best office appliances possible to obtain. In fact, we have installed a Burroughs Adding and Listing Machine, and our pupils are taught to use it. About one school in ten has a Burroughs Bookkeeper (over 50,000 of them) coming to realize what a great help the Burroughs is, and it is extremely doubtful if a commercial school graduate could get a position unless he or she had a knowledge of the Burroughs and its appliances will not help him to a better salary.

GEORGE EVERETT.

George Everett died last evening, at nine o'clock, in his home on Pina street, after a lingering illness. He was an employe of Barnes and Co., and was widely known. His death was untimely, as he was only thirty-five years of age.

Mr. Everett was a son of the late proprietor of Everett's foundry, at one time a busy concern here.

Two drunks were fined the usual amount. Samuel Ferguson pleaded guilty to being drunk but knew nothing of the party. He was remanded to jail.

At the lecture in St. Malloch's Hall on Sunday evening by Mr. Daniel Mullin, K. C., an orchestra will furnish the music. Mr. Mullin's subject will be "The Irish Cause and its Prospects."

The congregation of the First Baptist Church decided with great unanimity to offer Rev. Mr. Waring the opportunity of a European tour prior to his removal to Vancouver, and in order to make this possible they proposed to release him about the middle of March, the pastor to terminate at the end of May. Mr. Waring will probably accept this offer, will likely visit Palestine and Switzerland before returning to Canada.—Echo.

A number of changes are contemplated on the rifle range as a result of a visit of militia officials here some time ago. For some time the Provincial Rifle Association's shots have been hampered while working on the range by inadequate provision in the way of targets. Plans have been prepared for the erection of a number of additional targets, and it is understood that a recommendation has been made in carrying out the necessary work. If the new targets are placed in position it will facilitate the work of marksmen during the provincial meet, and make lighter the work of officers in charge of the practice of men while in camp.—Sunset Record.

EQUITY COURT.

The case of Fawcett vs. Appleby came up in the Equity Court this morning, before His Honor Chief Justice Barker. Horace E. Fawcett, Charles W. Fawcett and Fred Ryan, executors of the late will and testament of Fawcett, deceased, are the plaintiffs, and Allan Appleby, Emily M. Appleby, Murray and Gregory, Limited, George M. Haldar, Daniel C. Slipp, Jack and Gerard C. Ruel are the defendants. This is a hearing on a motion to foreclose a mortgage on the Defendant Appleby's property situated in the counties of Kings and Queens. The first two mentioned defendants are the mortgagees and the rest of the defendants are judgment creditors. The amount involved is \$7,000 and of interest.

A. C. Fairweather, K. C.; W. A. Ewing, K. C., and Stewart L. Fairweather appear for the plaintiffs. Edmund S. Ritchie and W. B. Wallace, K. C., for the defendant, Allan Appleby; E. G. Kaye, K. C., for Mrs. Emily Appleby; K. J. MacNeil for Murray and Gregory, Dr. Silas Alward, K. C., for Slipp; Jack H. A. Lee Fairweather and Gerard P. Ruel, a barrister of Ottawa, appear for the latter. Mrs. Appleby was on the stand this morning for a few minutes. Adjourment was made until 2:30 this afternoon.

SKATERS RETURN WITH BUNCH OF TROPHIES

Fred Logan, Leonard Coleman and Elmer Ingraham, who were a party of supporters, reached the city this morning from Oxford, where they competed in skating races last evening. All the men were placed in the races. They are perfectly satisfied with the trip.

Logan returns to St. John with the Maritime Provinces skating championship. He captured the crown in the race at Charlottetown on Tuesday evening. The local man also got away with similar honors in the 200 and 400 yards. Coleman and Ingraham did not compete at Charlottetown. In the Oxford meet Coleman was third in the 200 yards, while Ingraham finished second in the five mile event.

TEAM OF HORSES WENT THROUGH THE RIVER ICE

The ice in the river has been unsafe in different sections this winter, owing to the mild weather, and only venturesome teamsters would attempt the chance in crossing from one shore to the other at certain places. A number of teams have broken through the ice and several valuable animals have been drowned. On Wednesday last a team of horses owned by Mr. Rice, a farmer, broke through the ice just a short distance above Palmer's Point. The horses were taken out of the water only after considerable difficulty.

FULL COMPLEMENT FOR PETEWAVA

No Team for England This Year; May be One in 1911—New Style of Guns Ordered.

Several announcements made and some of the decisions reached at the recent meeting of the Canadian Artillery Association at Ottawa are of considerable interest to local artillerymen. Major S. B. Smith who represented the 3rd Regt. at the annual gathering returned to the city today. Speaking of the meeting, he said that it was definitely decided that no artillery team could be sent to Europe this year. Plans are being made to send a detachment in 1911, but they have not yet matured. The cost of the trip is about \$1,300 and at present the Militia Department does not see its way clear to contribute more than half this amount, leaving the balance to be paid by the association. The decision of the department makes a more liberal appropriation it is hardly likely that the offer will be accepted.

It was decided that no changes of any importance affecting the annual trip of the local regiment to Petewawa will be made this year. If it had not been for the stand taken by the local representative it is probable that the full complement would not have been granted permission to go into camp again this year. A beneficial change affecting the 3rd regiment is the decision to appoint a regimental quartermaster and a quartermaster sergeant. These offices were abolished at the time the regiment was changed to heavy artillery and the new order will be welcomed. It was announced by Sir Frederick Borden, minister of militia, that in future all field batteries will be required to use the new type of 15 pounders and the heavy artillery will use the 60 pounders, which have recently been introduced. These guns are a great improvement on the old style, greater accuracy and less recoil being among their advantages. The heavy guns have a range of 6,000 yards.

A large amount of business of a routine and technical nature was transacted and some very interesting papers were read. One of the most valuable was that submitted by Sir Percy Lake, reporting the experiences of the Royal Artillery on their four days' trip under winter conditions which was made recently. It was extremely valuable as well as intensely interesting.

The meeting was a very successful one and the attendance was unusually good. Representatives were present from the 3rd Regiment of British Columbia on the Pacific coast, the 15th Field Battery of Sydney on the Atlantic coast and from all intermediate points.

EMPRESS SAILED WITH LARGE PASSENGER LIST

Mount Temple Docked—Grapian's Last Trip—Corsica Eringog 1068 Will Commence Spring Rush. C. R. steamship Empress of Ireland, in command of Captain J. W. Foster, sailed this afternoon about 2 o'clock for Liverpool via Halifax. The steamer carried 50 first cabin, 75 second and 250 third class passengers. The party of marines went aboard the steamer yesterday. These men are on leave from the 3rd Regiment of British Columbia. The Montreal Express arrived today in two sections. The first section with 60 passengers on board arrived about 12:30 o'clock. The special went direct to Sand Point. A small number of passengers will join the steamer at Halifax. Soon after the departure of the Empress, the Mount Temple docked at No. 2 berth at Sand Point. The steamer had a rough trip across the Atlantic. She brought 130 passengers to this port.
