VOL. XIII., NO. 167. TEN PAGES THURSDAY MORNING, NOVEMBER 24, 1921 FAIR AND COOLER TWO CENTS

SMUGGLERS AND OFFICERS MIX IN BLOODY BATTLE OVER 650 GALLONS OF CHOICE WINES

Smugglers at First Had Better of the Fight But Eventually Lost Out.

CREW OF SCHOONER ISMA UNDER ARREST

The Schooner Has Been Under Suspicion All Summer; Shadowed by Restless.

Sydney, N. S., Nov. 23—Six hundred and fifty gallons of choice French wines, valued at over \$16,000, was the prize for which smugglers and revenue officers engaged in a pitched battle on the beach at Mainland, fifty miles from Sydney, last night. Blood flowed freely. The smugglers at first had the better of the fight, but reinforcements from the revenue cutter Restless finally turned the scale in favor of the law, with the result that, after the contraband had been captured and re-captured several times, the schooner Isma, her crew and several alleged smugglers were placed under arrest and will be conveyed to Sydney for trial as soon as the weather permits.

Liquor Rushed Away

Several casks of liquor, which were hurried off in motor trucks under cover of the excitement, were intercepted by an armed party of customs officers from Glace Bay, re-captured and brought back to the Restless.

The Isma has been under suspicion all summer and two months ago was seized at Port Morien on a charge of having landed 65 gallons of liquor there, but the prosecution failed.

At 3 o'clock this morning a man standing in Royal avenue, the city's main artery, was shot. He was watching shooting which was taking place in York street. During the afternoon a woman was killed and two men and two women were wounded and taken to hospital. Some of those in hospitals are said to be in a serious condition.

When the disorder broke out in the York street area this afternoon, the streets were almost impassable. Tram car service had been suspended. Two men boldly lay down on the pavement.

Meanwhile, Gus O'Neil, Collector of Customs at Glace Bay, had heard of the Isma's projected trip, and set out in an automobile with four armed deputies. On their way to Mainland they met the fleeing motor trucks, held them up, and recovered the stolen casks which they took on with them to Mainland, where they were surprised to find that the Restless had anticipated them.

In spite of the constant patrolling of a cruiser and two armed cutters, which have made numerous searches and seizures, smuggling operations on the Cape Breton coast this summer have been the boldest and most extensive in the history of the oldest customs officers.

Weather conditions are expected soon to put an end to the business for a few months at least.

Officers Capture Moonshine Outfit And Its Operator

Said to be the Largest Ever Seized in Cape Breton.

Sydney, N. S., Nov. 23—The largest moonshine still ever captured in Cape Breton was seized by inland Revenue Officers at Bell's Creek, eight miles from the city today. Wolschank, an Austrian, alleged to be the owner of the outfit, was caught asleep in a loft near to still. The boiler has a capacity of 150 gallons and large vats nearby contained the "mash" several gallons of which were seized.

Begins Plan To Oust Conservative

Toronto, Nov. 23—Arna D. McIntosh, Progressive candidate in West Hastings, today began his fight to oust E. Gus Porter from the seat of West Hastings which he was declared yesterday to have won by acclamation.

Gordon Waldron, K. C., U. E. O. solicitor, is the champion who will fight McIntosh's battle, and he will at once take the matter up with Oliver Mowat at Biggar, the Chief Electoral Officer for Canada.

ULSTER PREMIER DECLARES RECRUITS ARE NOT FOR REGULAR MILITIA

London, Nov. 23—Sir James Craig, the Ulster Premier, has ordered the withdrawal of what has been described as a secret circular issued recently from the divisional commission of the Royal Irish Constabulary at Belfast, which, according to Dublin despatches, said the government was considering the desirability of forming the unauthorized Loyalist defence forces into regular military units, to be called out in grave emergencies.

The Ulster premier declared today that he approved recruiting for special constabulary in event of the truce being terminated, but not for the formation of recruits into regular military units.

"The constabulary," he added, "was never transferred to the government of northern Ireland. Recruits may be taken as policemen, but not into a military force for organization."

EIGHTEEN WERE KILLED DURING BELFAST RIOTS

Five Killed in Yesterday's Sniping and Sporadic Outbursts of Shooting.

Belfast, Nov. 23—When darkness fell tonight the death roll, as a result of the disorders of the past few days, reached a total of 18. The wounded numbered 75.

At 3 o'clock this morning a man standing in Royal avenue, the city's main artery, was shot. He was watching shooting which was taking place in York street. During the afternoon a woman was killed and two men and two women were wounded and taken to hospital. Some of those in hospitals are said to be in a serious condition.

When the disorder broke out in the York street area this afternoon, the streets were almost impassable. Tram car service had been suspended. Two men boldly lay down on the pavement.

Women in York-Sunbury Working Like Old Timers

Will Play An Important Part in Rolling Up Big Majority for Government.

Special to The Standard. Fredericton, Nov. 23—The campaign in York-Sunbury is progressing steadily in favor of R. B. Hanson, K. C., the Conservative candidate. The organization which has been working as well as ever and will produce the same results.

The Women's Committee, which did so effective work in the by-election in May, on behalf of R. B. Hanson, K. C., the Conservative candidate, are active and are to be depended upon to roll up a big majority.

There's Still Hope of Settling The Irish Question

London, Nov. 23—Lord Birkenhead, speaking at a luncheon shortly after leaving the Conference with the Sinn Fein delegates today, said it would not be right to invite his hearers to a too sanguine view of the "difficult and critical negotiations going on respecting Ireland," but he could say the door which excluded hope was not yet definitely closed.

BRITISH LABOR LEADER WISHES CANADA LUCK

Congratulates Premier on Firm and Definite Stand at This Crucial Time.

MEIGHEN POLICIES NEEDED IN CANADA

Provide the Only Practical Solution to Tide Canada Through Threatening Crisis

Special to The Standard. Ottawa, Nov. 23—Roderic Wright, the famous British Labor leader, who recently concluded a tour of Canada, has written a remarkable letter to Premier Meighen. The letter, written from the Empress of Britain, while Mr. Wright was returning to England, follows:

"Empress of Britain Oct. 24. Right Hon. Arthur Meighen, My Dear Prime Minister:—I went to Montreal for the purpose of attending your meeting, but failed to obtain admission in the hall. I was greatly disappointed, but I was delighted, after perusing your speech, and desiring to congratulate you on your firm and definite stand at this particular period when the World is passing through a stage of transition. The old political shibboleths must be scrapped, and only by hard thinking and honest dealing are we capable of surviving the terrible financial aftermath of this World War. I am convinced, in my own mind, that the policy for which you stand is the only practical solution at the moment to tide Canada through this crisis. Otherwise, Canada will become a mere adjunct for the purpose of dumping the surplus commodities of the U. S. A., which means poverty and starvation for the industrial classes, and a bitter experience for which you in Canada will have to pay a awful price.

At this moment in Canada it is absolutely imperative to combine the forces on Canadian issues and to rally as a united force against the warring elements that will lead into chaos 'politically,' and land you on a lee shore amongst the wreckage of democratic fallacies that will not bear the test of time. If the democracy is to survive and stand the test of time, it must be based on science as well as sentiment. Anyhow, it is all in the lap of the Gods at the moment, and I pray that your health will stand the terrible strain of this strenuous contest of a general election, and I feel persuaded that your honesty and sense of sportsmanship you have displayed so far will be recognized by the Canadian people and eventually place you in the position of a great leader to make Canada take her place amongst the great nations of the World and our Empire, and become, eventually, the happiest place on your great continent.

This is my wish and the sincere desire of one who loves Canada. I wish you God's speed in your noble efforts for a United Canada.

So good 'bye, yours sincerely PETER WRIGHT.

Best Men Needed In Parliament

Premier Murray of Nova Scotia So Informs Electors of Kentville.

Kentville, N. S., Nov. 23—Premier Murray of Nova Scotia, speaking here tonight in support of Liberal candidates in Kings county, said that in view of the great financial responsibilities due to the war, Canada needed the best government and the best members of Parliament it was possible for the electors to send to Ottawa.

The Liberal party in Nova Scotia was offering the best of its men, men of outstanding ability and recognized integrity, and the electors would doubtless seize the opportunity to send them to Ottawa, he declared.

Sherbrooke is Disappointed

Sherbrooke, Que., Nov. 23—Sherbrooke citizens have been disappointed at the prospects of having Marshal Foch as a visitor on December 13, and great preparations have been in progress for a reception to the noted general. It turns out, that Marshal Foch will only be here for five minutes and at such an hour—three o'clock in the morning—that there will be no occasion for an extended welcome. This fact is creating much disappointment.

IRISH SITUATION REGARDED IN GOVERNMENT CIRCLES AS CRITICAL BUT NOT HELPLESS

EYE-WITNESSES GIVE STORY OF ESCAPE OF PRISONERS FROM KILKENNY JAIL

Dublin, Nov. 23—Further details were today by persons claiming to have been eye-witnesses of the escape of forty-seven political prisoners from the Kilkenny jail, the night before last, through an underground passage of their own digging.

These eye-witnesses related their amazement, while passing along the road near the jail, at seeing a portion of the roadway break and two men emerge from underground. The two men, according to the story related today, ordered the passersby to halt, herded them into a nearby cottage and locked them in while the prisoners' comrades emerged and made their way across the countryside.

Immediately after the last man left the hole, according to the story, the alarm was given and the military police rushed out in lorries, scouring the country throughout the night without success.

PREMIER MEIGHEN ENTERS UPON FINAL STAGE OF STRENUOUS ELECTION CAMPAIGN IN ONTARIO

Addressed Three Meetings Yesterday. His Appeal Following the Line Pursued in Eastern Provinces—Described King's Railway Prophecies as Very Flamboyant, and Said Liberal Leader Was Hardly Ever Known to be Right.

Pembroke, Ont., Nov. 23—Three meetings, two of them impromptu and the last one in the Armories, have formed a gathering of 4,000 people, for the opening of the final stage of Premier Meighen's strenuous election campaign. The Premier left the capital late this afternoon to address a meeting here. At Arriprior and then Pembroke large crowds had gathered on the platform to hear Mr. Meighen. In the first named town he spoke briefly from the platform of his car. At Arriprior he shouldered his way through a good-natured crowd, which must have numbered some thousand individuals, mounted a baggage truck and delivered an address which was only brought to a close by the warning bell of the locomotive.

Met By Large Crowd. When the Premier's train arrived at Pembroke he was met by a lengthy procession of men and boys bearing torches, which escorted him to the Armories. Here he was welcomed by the mayor and members of the city council and was presented with the first letter to pass through the city delivery of Pembroke.

Premier Meighen's appeal followed the lines which he has pursued thus far in his Eastern campaign. He devoted some time to a discussion of the railway situation, declaring that for its establishment he had before their eyes, the Premier said. Operating revenues were now exceeding expenditures, excellent service was being given to the public, and the day would come when the great load of fixed charges would be removed.

"Today this country is possessed of the largest single unit and the greatest railway system of any nation, or any private company in the world," the Premier asserted, in discussing the Canadian National Railways. Mr. King's prophecies in regard to the railways are very flamboyant, but I have listened to him for nine years and never know him to be right yet," the Premier continued. He asked what the Liberal leader would do with the majority of his supporters who were opposed to public ownership, if returned to power. The Premier emphasized the importance of continuing the operation of the national system under independent management.

LIVELY SCENES ENACTED AT CONTRADICTION MEETING HELD AT ST. STANISLAUS

As Result One Man Lies in Montreal Hospital With Leg and Arm Broken, and Numerous Persons Were More or Less Badly Bruised.

Valleyfield, Que., Nov. 23—Lively scenes were enacted at the contradictory meeting today at St. Stanislaus between Hon. De Costa Monty, Postmaster General, Government candidate for Beauharnois and his Liberal opponent, M. L. Papineau, and as a result one man lies in a Montreal hospital with an arm and leg broken and numerous persons were more or less badly bruised.

The audience, for a time after the opening of the debate, confined its demonstrations to lusty cheers for the two candidates, but, as the charges and counter charges waxed more and more fervid, the temper of the gathering gradually rose, until, finally, a small group broke bounds and charged the platform, proceeding to handle, without ceremony, anything and everything that came to their hands and in a flash were the center of a surging throng, in which fists and any other available weapons were freely used.

Gov't Willing to Apply Strong Moral Pressure to Bring Ulster to Truce

COERCION WILL NOT BE EMPLOYED

British Disappointed That Sinn Fein Has Not Withdrawn Boycott on Ulster Goods.

London, Nov. 23—After today's meeting between the Sinn Fein representatives and the cabinet committee, the Irish situation was described in government circles "as critical but not hopeless." Premier Lloyd George explained to the Sinn Fein that the government was willing to apply strong moral pressure to Ulster and to offer Sir James Craig, premier of Ulster, attractive financial inducements to persuade him to agree to the only possible settlement—an all-Ireland parliament.

But, if these proposals were rejected, either by the Sinn Fein or Ulster, he declared, the government would not introduce any act in Parliament which would include Ulster against her will. The government explained that to force Ulster to accept would require the sending of troops, in defiance of the pledge of all parties against physical coercion.

Mr. Lloyd George will discuss the question further with the Ulster premier on Friday, after which Sir James will return to Belfast for the formal re-opening of the northern Parliament.

Disappointment is felt by the government that, notwithstanding the truce, the Sinn Fein has not withdrawn the boycott on Ulster goods. The Sinn Fein maintains that the boycott was provoked by the discharge of Catholic workmen from Belfast shipyards, and considers it an essential aid to the republican cause.

WOMEN CROWDED THE SEAMEN'S INSTITUTE

Head Intelligent Discussion of Leading Political Questions of the Day.

Women from all parts of the city turned out in splendid numbers yesterday evening and crowded the hall of the Seamen's Institute, to hear the remarks of the Conservative candidates, Hon. Dr. J. B. M. Baxter, Federal Minister of Customs and Excise, and Dr. Murray MacLaren. It was a wonderful representation of the women of St. John, and they keenly manifested their interest in the political questions of the day. Great enthusiasm was evinced from time to time by the large number present who applauded the platform of the Government who had granted to them the full right of franchise.

Hon. Dr. Baxter, in a very able address dealt particularly with the railway question. The Minister of Customs and Excise, as he has done in public speeches on many other occasions, pointed out that the Government had not yet actual possession of the Grand Trunk Railway, but as soon as the railway had been turned over to the Government, it would for the first time in the national life of Canada be in a position to say that Canadian goods over Canadian railways shall go through Canadian ports.

Hon. Dr. Baxter also produced and read a letter from the President of the Canadian Government Railways, D. B. Hanna, bearing date, Toronto, November 18, 1921, in which Mr. Hanna pointed out that the management of the National Railways had no jurisdiction whatever as yet over the Grand Trunk Railway. L. P. D. Tuley, K. C., presided as chairman.

Dr. Murray MacLaren declared that this election would mark the first time that the tota woman body of this country had an opportunity to exercise the franchise. To a woman, a well regulated household naturally appealed. If, therefore, it was shown that owing to the mismanagement and improper policy of the Laurier administration, a heavy financial burden had been placed upon the country, then the women would not be impressed with a party who had been responsible for such a condition.

(Continued on page 2)

WOMEN CROWDED THE SEAMEN'S INSTITUTE TO HEAR HONEST DISCUSSION OF GOVT AFFAIRS

Hon. Dr. Baxter and Colonel MacLaren Intelligently Review Political Situation of Canada, Pointing Out the Value of Meighen Policies to the Dominion—All Mooted Questions Thoroughly Gone Into—Great Enthusiasm Shown by Large Number of Ladies Present.

(Continued from page 1)

The speaker pointed out the disastrous railway policy which had been carried into effect by the Liberal Government, and referred to the building of the transcontinental railway from Moncton to Winnipeg and from the latter city to Prince Rupert. Three lines of railway had been built over a desolate area of 300 miles in the Prairie Provinces, where one line, that of the Canadian Pacific Railway, would have sufficed.

The Laurier Government had appointed the Transcontinental Railway Commission, and not one of the members of that Board had had any experience in connection with the construction of railways. An investigation had been conducted into the management and construction of the railway lines which were built under the Board. The result was that it had been conclusively proven that millions of dollars had been uselessly expended, and on the road from Moncton to Winnipeg alone, the sum of \$40,000,000 had been expended, and it was tragically proven that the construction of the railway lines had been built many years ahead of their time.

Government Burdened

The Meighen Government had been burdened with this railway legacy handed down to it by the Laurier administration. The Government had been forced to assume the railways or allow them to go into bankruptcy.

Where Does King Fit?

Mackenzie King aspired to be the Premier of this country. What were Mr. King's capabilities. He had not gone overseas, but the speaker did not wish to raise that point as there may have been reasons for this. Mr. King had, however, gone to the United States, where he took a position with the Rockefeller Institute, a considerable distance from the scene of war activities. In the institute, Mr. King had indulged in research work and had written a book on the "Industry of Humanity." Dr. MacLaren did not desire to question or make observations in regard to Mr. King's work, if he thought it was his duty to be in the Rockefeller Institute at that time writing a book.

During the war while the men were fighting overseas the women of Canada had been doing their utmost and striving themselves in many ways. At this time Mr. King was pursuing his research work in the United States.

Answers To Correspondents

WORRIED—If the children are susceptible to chapped hands and to chilblains they probably don't dry themselves thoroughly after washing. What you should do is let them rub their hands and face thoroughly with CAMPAN'S ITALIAN BALM after each washing and particularly every night and morning. This is the best preventative of chapped hands and chilblains that I know of. You can buy CAMPAN'S ITALIAN BALM at any Druggists. 40c. a large bottle. MARGARET.

Died

CRAIG—Suddenly on November 21st, 1921, at his residence, 142 Princess street, Robert S. Craig, leaving his wife, two daughters and one brother to mourn.

Funeral—Thursday from his late residence. Service at 2:30 o'clock.

COUPE—At 187, German street, on Wednesday, Nov. 23, 1921, Robert Edward Coupe, in his 76th year.

Funeral on Friday from Trinity church. Service at 3 o'clock. Please omit flowers.

CARD OF THANKS

We desire to express our thanks to the Great War Veterans' Association of St. Stephen, the American Legion boys of Calais, Maine, the Calais City Band, and the many friends who sent flowers and displayed so many acts of kindness at the time of the recent death of our son, Francis G. Maxwell.

PREMIER ENTERS INTO THICK OF ONTARIO FIGHT

Found People of Western Canada Thoroughly Interested in Campaign.

BULK OF FARMERS TO VOTE FOR GOVT

They Desire to Encourage Frankness Against Duplicitous in Public Life.

Special to The Standard.

Ottawa, Nov. 23.—Premier Meighen looking great despite the tremendous vigor of the campaign which he has been waging, spoke for eight hours in his office here today before embarking upon a final campaign into the thick of the fight in Ontario. Asked regarding his tour in the West, the Premier replied:

View of West.

"I found the people of Western Canada interested almost exclusively in two subjects—grain marketing and the tariff. On the marketing question every kind of manoeuvre was being resorted to to divert the attention of the farmer from the government's definite and ordinarily most acceptable plan. Reports from all parts indicated that the farmers were fast making up their minds to vote for a plan that they understood, and not for men who had no plan at all. On the tariff the propaganda of the last ten years has generally not been without effect. Thousands, however, will vote for the government out of a desire to encourage frankness as against duplicity in public life. On the whole, the people of the West showed the keenest interest, and desire to apply the test of reason to public issues. I am not in the habit of making prophesies and leave that exercise to those who are destitute of argument, but I am confident of a splendid showing from Western Canada on the 5th December."

Mr. Meighen's final two weeks in Ontario will exceed all his past performance in the present campaign. Thus far, in the opinion of old observers here, he has waged a fight which, from the standpoint of sheer physical vigor, has never been paralleled in a Canadian election. In eight weeks he has delivered upwards of 200 speeches directly reaching about a half million electors.

Mr. Meighen's final two weeks in Ontario will exceed all his past performance in the present campaign. Thus far, in the opinion of old observers here, he has waged a fight which, from the standpoint of sheer physical vigor, has never been paralleled in a Canadian election. In eight weeks he has delivered upwards of 200 speeches directly reaching about a half million electors.

Globe's Misstatement

The speaker declared that he had considerable respect for the St. John Globe and its broad-minded criticism. Recently that paper had stated that the grain of Canada was going over the Grand Trunk Railway to Portland. Hon. Dr. Baxter pointed out that he had on many occasions drawn attention to the fact that the Grand Trunk Railway had not yet come under the control of the Government and under the legislation enacted during the regime of the Laurier Government it was bound to give preference to Canadian ports, unless the shipper stated otherwise. The Minister of Customs and Excise had studied the legislation in that matter. As soon, however, as the Grand Trunk Railway actually came under the control of the Government, the latter would for the first time be in a position to say that Canadian goods should pass over Canadian railways and through Canadian ports. That statement had also been made by the speaker on several occasions.

Hanna's Letter Read

Hon. Dr. Baxter proceeded to read a letter from the President of the Canadian Government Railways, H. B. Hanna, bearing date, Toronto, November 18, 1921, in which it was stated: "The point we have been endeavoring to stress from time to time is that the railway company cannot divert grain from one port to another—we must, in every case, respect the bill of lading."

"As perhaps you know, the Management of the National Railways has no jurisdiction whatever over the Grand Trunk Railway, and I am, therefore, not in a position to give you any definite information respecting the movement of traffic on that line."

"That statement from the President of the Canadian Government Railways was conclusive, and in view of the speaker's several previous statements he was unable to account for the articles which had appeared in the St. John Globe. The statements in that paper that he had read, and an attempt should have been made to ascertain the real facts. The opportunity which presented itself to the Maritime Provinces in regard to the railway policy was a splendid one, and would be of immense value to the Port of St. John and Halifax. The Minister of Customs and Excise declared that he asked for support for the two Conservative candidates, in order that he would be in a position to insist that this policy be continued should it apply to the Maritime Provinces."

Decide On Wage Rate At Final Conference

Fifty-Five Cents Per Hour Will be Paid Longshoremen from December 1st.

At a final conference which was held yesterday between representatives of the various shipping lines and the Longshoremen's Association, it was decided that the rate of fifty-five cents per hour will be paid from December 1st next. The present agreement expires on November 30, to which date the longshoremen will receive 70 cents per hour; while the new arrangement will remain in force for one year.

The following were present on behalf of the shipping interests: Capt. Welsh, C. P. R.; Harold C. Schofield, Dominion Line; David Leddingham, Furness Withy & Co. and Wm. Thomson & Co.; Mr. Robb, Shipping Federation; Montreal; Capt. McMillan, C. P. R.; J. T. Kellow, Elder Dempster Steamship Line, New Zealand Line and others; and Thomas Nagle & Wignore.

Jail Sentences For Violators Sherman Anti-Trust Laws

Heavy Fines Were Also Imposed on Those Found Guilty of Offence.

New York, Nov. 23.—Four active members of the life, grain and malt manufacturers and dealers association who were among those who pleaded guilty last week to violating the Sherman anti-trust law, today were given jail sentences by Federal Judge Van Fleet. F. H. Noble, Arthur Shilstone and Albert Schalle, were sentenced to four months in the Essex County jail and fined \$4,000 each. Herman Petri was sentenced to two months in the same jail and fined \$3,500. Twenty-nine other defendants were fined sums ranging from \$500 to \$5,000. Eleven corporations composing the combine, were fined \$4,000 each and six others were fined from \$500 to \$3,500.

Huge Profits From Government Sale of Liquors

British Columbia Cleans Up \$451,606 on Sales in Three Months.

Victoria, B. C., Nov. 23.—The British Columbia government made a profit of \$441,606 on liquor sales for the first three and a half months of operation under the Canada market board from June 15 to Sept. 30, according to a balance sheet filed in the legislature this afternoon, by Hon. J. W. De Be. Farrie, attorney-general, in accordance with the terms of the Liquor Control Act. This does not include the \$121,000 received from the sale of permits. In accordance with the Premier's promises, half these profits are to be divided among the municipalities on the basis of school population. Total assets of the board are placed at \$2,562,751, with liabilities of \$1,961,136.

Montreal Hotels Lowering Prices On Bill of Fares

Montreal, Nov. 23.—That there is a distinct tendency towards lowering of food prices in the majority of the hotels and restaurants throughout the city is shown by a canvass made today of the various eating houses throughout the business section of the metropolis. During the past two months general cuts in the prices asked by the better class caterers have begun to make their appearance, until today, in many cases, the figures on the bills of fare range from fifteen to twenty five per cent below those asked for the same articles a few weeks ago.

Sydney, N. S., Nov. 23.—William Beaton is dying in Gloucester Bay Hospital with bullet in his lung and a foreigner, named Genosis, is held by the police as a result of a shooting at the Striding, near Gloucester Bay. According to information gathered by the Gloucester Bay police, Redmond and two companions got into a dispute with Genosis over some articles purchased in his store. Finally the three made a rush behind the counter to assault Genosis who reached for his gun and fired two shots. The first went wild, but the second hit Redmond, whose condition is reported very critical.

You Must Have Pure Blood And Proper Nourishment

If you would have perfect health, the medicine that will secure this for you is Hood's Serravallo's which will convert all the good in your food into blood, bone and tissue. It creates an appetite, makes food taste good, aids digestion, promotes assimilation, builds up the system. It has given entire satisfaction to three generations in the treatment of scrofula, eczema, eruptions, catarrh, rheumatism, dyspepsia, anemia, and run-down conditions. A volume of testimony unequalled in the history of proprietary medicines proves all this and more. If you need a laxative or cathartic take Hood's Pills.

What satisfaction is it for you to know that McCormick's Biscuits are made and packed in a spotlessly clean factory, pure white both inside and out.

MCCORMICK'S JERSEY CREAM SODA BISCUITS

VISIT TO BOMBAY OF PRINCE HAS BEEN GREAT TRIUMPH

London, Nov. 23.—The entire visit of the Prince of Wales to the Bombay presidency has been a great personal triumph, says a message received at the India office from the governor of Bombay. The departure of the prince for Baroda was made the occasion of another great demonstration, masses of people thronging the platform in an effort to get near the prince's car made it difficult to get the train moving.

The populace, the governor reports, appear to be stimulated by the unfortunate riots of last week to prove their loyalty.

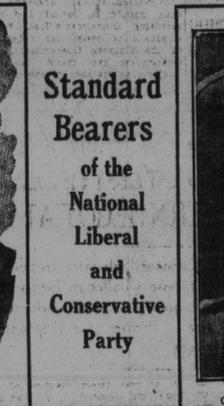

Two more protectionists were taken in late last night at the police station. Peter Winters was arrested about midnight and is being held for the Montreal police.

To Stop a Cold in One Day Take Laxative BROMO QUININE tablets. The genuine bears the signature of E. W. Grove. (Be sure you get BROMO.) 50c. Made in Canada.

The Message of the Candidates

DR. J. B. M. BAXTER

COL. MURRAY MACLAREN

Dr. J. B. M. Baxter, K. C. Col. Murray MacLaren, C. M. G.

Announce meetings in their interests as follows:

Thursday, Nov. 24, (This Evening)--Manor House, Glen Falls. Col. MacLaren, S. W. Palmer, Lt. Col. W. H. Harrison, Dr. J. H. Barton.

Friday, Nov. 25--Agricultural Hall, Loch Lomond and at School House, Garnett Settlement. Col. MacLaren, Dr. J. Roy Campbell, C. F. Inches, Dr. J. H. Barton.

Saturday, Nov. 26 -- Temperance Hall, Golden Grove. Col. MacLaren, W. E. Golding, J. Starr Tait, C. Scott.

Monday, Nov. 28--Temperance Hall, Milford. Col. MacLaren, Lt. Col. W. H. Harrison, M. E. Agar.

Tuesday, Nov. 29--Gardiners Creek. F. L. Potts, S. W. Palmer and J. Starr Tait.

Wednesday, Nov. 30--St. Martins, F. L. Potts, Lt. Col. W. H. Harrison, C. F. Inches and D. Hipwell.

Men and Women Electors Cordially Invited to Attend These Meetings.

L. P. D. TILLEY, General Chairman.

RESTORATION TARIFF

Want the Right to Tariff Rates—Desire Term to be Agreed

Washington, Nov. 23.—A plan for restoration to China of tariff rates was presented to the Far Eastern committee of the Washington Conference today by Wellington Koo, the Chinese delegate. A substitute was appointed to discuss the subject. Dr. Wellington Koo said that the Chinese financial affairs, and general discussion, the question referred to the tariff sub-committee comprising one member from the nine powers. An adjournment then taken over Thanksgiving official postponement on the proposal was in part:

"Mr. Koo proposed to restore to China the right to fix and to adjust the import tariff rates, to be proposed at a maximum rate of 10 per cent. It was agreed that the Chinese would like to enjoy and have freedom within that maximum, the right of differentiation among different classes of commodities as the present financial condition of the Chinese Government was to require some immediate relief. It appeared hardly possible to propose that on and after January 1, 1922, the Chinese tariff be raised to 12 1/2 per cent as stipulated for in the treaty of the United States, Great Britain and Japan.

Supporting Reasons

"Among the reasons he all support of the proposals of the one delegation the following are:

1.—The existing customs, in China, constitutes an infringement of China's sovereign right to tariff rates at her own discretion.

2.—It deprives China of the right to make reciprocity arrangements with the foreign powers. W.

ARMS DELEGATION FRAME OF MIND OF FAR EAST

France Questioned Right the Whole of China Interpretation of Geneva Conference—Premier Support from Other

Washington, Nov. 23.—When arms delegates quit work Thanksgiving Day recess the considerations embraced the points of interest in their discussion. The effort to apply accepted principles to specific cases was the main theme. The Far East would bring definite commitments, or only lead to discussion.

Whether, in view of the of France and the general situation, any serious attempt be made to agree on a limited armament.

Whether a way can be found in consideration of details naval limitation plan, which would be smooth, but too arbitrary some of the delegates.

Of these questions the force brought sharply to the fore

The Kidney

The office man and the worker suffer alike from ailments of the kidneys. Backaches and headaches among the symptoms. In cases Bright's disease soon develops, others suffer from blood pressure until hardened arteries set in.

In order to forestall painful fatal disease prompt action be taken at the first sign of trouble.

Mr. A. D. MacKinnon, wood, Inverness county, writes:

"I can highly recommend Dr. Kidney-Liver Pills to all suffering with weak kidneys. I suffered from disease for a long time. I may say that for three years I was nearly troubled with headaches, and an acute sense of weakness which temporary relief. I was finally cured by Dr. Chase's Kidney-Liver Pills after using a few boxes was completely relieved. I have also used Dr. Ointment with the best results never fail to recommend these wonderful remedies."

Dr. Chase's Kidney-Liver one pill a dose, 25c a box, dealers, or Edmondson, B. Co., Limited, Toronto.

RESTORATION TO CHINA OF TARIFF AUTONOMY ASKED

Want the Right to Fix and to Differentiate the Import Tariff Rates—Desire That Autonomy be Restored After Term to be Agreed Upon.

Washington, Nov. 23.—A plan for the restoration to China of tariff autonomy was presented to the Far Eastern Committee of the Washington Conference today by Wellington Koo, one of the Chinese delegates. A sub-committee was appointed to thresh out the subject. Dr. Wellington Koo addressed the Conference today at length on Chinese financial affairs, and, after a general discussion, the question was referred to the tariff sub-committee comprising one member from each of the nine powers. An adjournment was then taken over Thanksgiving. The official communiqué on the Chinese proposal says in part:

"Mr. Koo proposed to restore to China the right to fix and to differentiate the import tariff rates, but, as it appeared hardly possible to establish a new routine all at once, he said that full autonomy should be restored to China after a certain period to be agreed upon. In the meanwhile, China would impose a maximum rate and would like to enjoy and have full freedom within that maximum, such as the right of differentiation among the different classes of commodities. In the present financial condition of the Chinese Government was such as to require some immediate relief, it was proposed that on and after January 1, 1922, the Chinese import tariff be raised to 12 1/2 per cent, as it was stipulated for in the treaty with the United States, Great Britain and Japan.

Supporting Reasons
Among the reasons he alleged in support of the proposals of the Chinese delegation the following is the gist:

"1.—The existing customs, regime in China constitutes an infringement of China's sovereign right to fix the tariff rates at her own discretion.
"2.—It deprives China of the power to make reciprocity arrangements with the foreign powers. While all

foreign goods imported into China pay only five per cent, Chinese goods exported to foreign countries have to pay duties of a maximum rate. Example: For opium, the rate is 100 per cent. "3.—It constitutes a serious impediment upon the economic development of China.
"4.—As the system now stands, there is only one uniform rate and no differentiation of rates. The disadvantage is obvious, because it does not take into account the economic and social needs of the Chinese people. China is in need of machinery and metals for which China would like to impose a tariff rate even lower than the five per cent. For luxuries, such as cigars and cigarettes, they ought to pay heavy tax, perhaps in order to prevent their injurious effects upon the morals and social habits of the people. As it stands, therefore, the Chinese tariff is not scientific at all.
"5.—The present tariff has occasioned a serious loss of revenue upon the Chinese exchequer. The item of customs duties is an important one in the budget of nearly all countries; for instance, Great Britain raises 12 per cent. of its revenue from Customs duties; France 15 per cent.; and the United States 25 per cent. before the world war, but the customs revenue in the Chinese budget, as it now stands, becomes comparatively insignificant feature.
"6.—The present regime makes it exceedingly difficult for the Chinese Government to ask for a revision. It was shown in past experiences in 1912 and in 1918.
"7.—Even if the effective 5 per cent should be levied, the revenue resulting therefrom will still be hardly adequate to meet the requirements of the Chinese Government, as the Government has many functions to perform in matters of modern education, sanitation and public utilities, etc."

ARMS DELEGATES IN SCRAPPY FRAME OF MIND OVER PHASES OF FAR EASTERN NEGOTIATIONS

France Questioned Right of Chinese Delegates to Speak for the Whole of China—Chinese Challenge British Interpretation of General Principles Already Adopted by Conference—Premier Briand Presses for Guarantee of Support from Other Powers.

Washington, Nov. 23.—When the Arms delegates quit work for the Thanksgiving Day recess these considerations embraced the central points of interest in their discussions: Whether the effort to apply generally accepted principles to specific cases in the Far East would bring definite accomplishments, or only lead to futile debate.
Whether, in view of the position of France and the general situation in Europe, any serious attempt should be made to agree on a limitation of armament.
Whether a way can be found to hasten consideration of details on the naval limitation plan, which is proceeding smoothly, but too slowly to satisfy some of the delegates.
Of these questions the first was brought sharply to the fore tonight

by several direct clashes of opinion among the delegates of the Far Eastern negotiations. At today's executive session of the nine delegations, the right of the Chinese delegates to speak for the whole of China was reported to have been questioned by France, and later a British interpretation of the general principles, already adopted, was challenged by some of the Chinese.
Briand Presses His Case
Earlier in the day the land armament problem had been debated behind closed doors by the delegates of the big five powers, without further result than the appointment of a sub-committee to consider collateral subjects like the use of airplanes and poison gases. Premier Briand, France, making his farewell speech to the Conference, pressed his argument that his country dared not disarm unless she had guarantees from the other powers, and although the general discussion drew renewed expressions of sympathy from every other national group, no one proposed any formal joint declaration of policy.
On the side of the naval reduction programme, developments were so completely out of the picture that some of the delegates showed impatience and pointed out the possible danger that the negotiations might become confused by too exhaustive a discussion of details. It is possible the naval experts will be asked to stipulate their methods so as to expedite action.
Tomorrow will be a day of rest so far as meetings of the Conference and its sub-divisions are concerned, although it may see some real progress through consultations among the various individuals and groups.

Special Session of U. S. Congress Has Adjourned
It Passed Legislation Embodying All of Executive's Legislative Requests.
Washington, Nov. 22.—The first and special session of the sixty-seventh congress of the United States ended late today after President Harding had visited the Capitol and signed measures enacted in the closing hours. The House adjourned at 4:41 and at 4:37 o'clock the Senate quit work.
The special session was called soon after the inauguration of President Harding. It passed legislation embodying virtually all of the executive's legislative requests made in his opening address at a joint session April 12.
Establishment of a technical status of peace with the former Central Powers and enactment of a long train of reconstructional legislation were the primary achievements.
Hearings were held on the subject of permanent tariff revision, but beyond extending the time of the present emergency tariff measure, no definite action was taken. The regular session will convene Dec. 5.

The Kidneys
The office man and the outdoor worker suffer alike from derangements of the kidneys.
Backaches and headaches are among the symptoms. In some cases Bright's disease soon develops, others suffer from high blood pressure until hardening of the arteries sets in.
In order to forestall painful and fatal diseases prompt action should be taken at the first sign of trouble.
Mr. A. D. MacKinnon, Kirkwood, Inverness county, N.S., writes:
"I can highly recommend Dr. Chase's Kidney-Liver Pills to all suffering from weak kidneys. I suffered from kidney disease for a long time. I may also say that for three years I was nearly always troubled with headaches, and no treatment seemed to do more than afford temporary relief. I was finally told of Dr. Chase's Kidney-Liver Pills, and after using a few boxes was completely relieved. I have also read Dr. Chase's Clinician with the best results, and never fail to recommend these wonderful remedies."
Dr. Chase's Kidney-Liver Pills, one pill a dose, 25c a box, all dealers, or Edmondson, Bates & Co., Limited, Toronto.

Municipal Council Finance Committee
Pay Overdraft to Industrial Home—Nurses' Home Balance—Bills Ordered Paid.
The finance committee of the St. John Municipal Council met yesterday in morning and afternoon sessions, in the office of the county secretary, J. King Kelly, Prince William street. There were present His Worship Mayor Schofield, Commissioner Thornton, Commissioner Jones and Councilors Golding, Bentley and Anderson.
Owing to the increased allowance charged for the maintenance of the boys in the industrial home, it was decided that an overdraft of \$1,927 be paid to the home. The treasurer was also ordered to pay to the coroners the sum of \$1,000, and a further sum of \$200 was allowed to pay the coroners' account.
Lancaster and Indiantown will get the face of the warrant for this year amounting to \$1,600. Bonds amounting to \$4,500 were ordered sold covering the balance due on the construction of the Nurses' Home. It was also brought out in the course of the discussion that the total cost of the construction of the Nurses' Home, including the appropriation of the land, is \$204,202.90.
The sum of \$1,200 was ordered advanced to pay the board and maintenance of the patients in the Jordan Memorial Hospital at River Glade.
It was further ordered that the amount of \$11,427 be ordered financed on behalf of the Lancaster fire wardens to cover the cost of the installation of the new fire hydrants in Bescondale and Fairville.
In regard to the payment of office rentals, the sum of \$400 was ordered to be advanced.
On account of the large number of criminal cases and the expenses involved, the treasurer was authorized to borrow the sum of \$1,500 to pay witness fees.
Coroner Dr. Gilmore presented a bill for \$1,488.58 for excise war tax for material placed in the construction of the Nurses' Home. This matter was referred back to the hospital committee for recommendation.
Raymond F. Green, who purchased the Geo. C. Fixman farm on the Golden Grove road, wrote to the secretary to the effect that he had paid Mr. Hanna's income and poll tax. He asked that the amount of the income and poll tax be refunded, and a refund was ordered, if satisfactory to the county secretary.
B. Mooney & Sons presented a bill for \$1,488.58 for excise war tax for material placed in the construction of the Nurses' Home. This matter was referred back to the hospital committee for recommendation.
Raymond F. Green, who purchased the Geo. C. Fixman farm on the Golden Grove road, wrote to the secretary to the effect that he had paid Mr. Hanna's income and poll tax. He asked that the amount of the income and poll tax be refunded, and a refund was ordered, if satisfactory to the county secretary.

Salts If Backachy And Kidneys Hurt
Stop eating meat for a while if your Bladder is troubling you.
When you wake up with backache and dull misery in the kidney region it generally means you have been eating too much meat, says a well-known authority. Meat forms uric acid which overworks the kidneys in their effort to filter it from the blood and they become sort of paralyzed and logy.
When your kidneys get sluggish and clog you must relieve them, like you relieve your bowels; removing all the body's urinous waste, else you have backache, sick headache, dizzy spells; your stomach sours, tongue is coated, and when the weather is bad you have rheumatic twinges. The urine is cloudy, full of sediment, channels often get sore, water scalds and you are obliged to urinate two or three times during the night.
Either consult a good, reliable physician at once or get from your pharmacist about four ounces of Salts, take a tablespoonful in a glass of water before breakfast for a few days and your kidneys will then act fine. This famous salts is made from the acid of grapes and lemon juice, combined with lithia, and has been used for generations to clean and stimulate sluggish kidneys, also to neutralize acids in the urine so it no longer irritates, thus ending bladder weakness.
Dad Salts is a life saver for regular meat eaters. It is inexpensive, cannot injure and makes a delightful, effervescent lithia-water drink.

Board Upholds Wage Decrease on Grand Trunk
Road and Brotherhood Took Wage Dispute to Arbitration, Brotherhood Losing.
Ottawa, Nov. 23.—(Canadian Press)—The majority report of the board of arbitration in the wage dispute between the Canadian Brotherhood of Railroad Employees and the Grand Trunk Railway upholds the general decrease in wages of 12.5 per cent. made effective by the railway in July last. The opinion is expressed, however, that the method adopted in distributing the reduction resulted in the lower paid employees suffering greater decreases than those receiving higher pay. The board recommends that an effort should be made by further negotiations to adjust these inequalities.
The report is signed by John M. Godfrey, chairman, and by H. H. Vaughan, the Grand Trunk Railway representative. A minority report will be made by Peter Beresovitch, K. O., M. L. A., the representative of the employees. The sessions of the board were held in Montreal and Toronto during October and November.
It will be remembered that, following the sessions of this board in October, that an agreement was reached between the Grand Trunk Railway Company and certain of its employees. It was afterwards alleged by the C. B. R. E. that these employees did not have the authority to enter into an agreement with the company. Subsequently, the negotiations were reopened before the board. In the majority report it is stated that, as far as the board is aware, representatives of three other organizations, who signed the agreement, have not repudiated their action. The report sets forth that the employees signified their willingness to accept certain reductions, but that they contended that

Prettier Teeth Next Week
If you will now start this delightful test

This is to offer you a way to whiter teeth, cleaner, safer teeth. Such glistening teeth as millions now enjoy.
Any dealer named below will give you the means. Get it and watch the effects. See your teeth grow prettier—note how clean they feel.
Dentists everywhere advise this method. Millions of homes have adopted it. Try it for your own sake. Learn what it means to you.
To remove the film
Your teeth are coated with a dingy film. It is viscous—you can feel it with your tongue. It clings to teeth, enters crevices and stays. It clouds the teeth and causes most tooth troubles.
The ordinary tooth paste does not effectively combat it, so the tooth brush has left much of it intact. As a result, teeth lose their luster. And, despite all brushing, tooth troubles have been constantly increasing.
The film is what discolors, not the teeth. Film is the basis of tartar. It holds food substance which ferments and forms acid. It holds the acid in contact with the teeth to cause decay.
Germs breed by millions in it. They, which

Science combats it
Dental science has long sought ways to combat that film. The ways have now been found. Able authorities have amply proved them. Leading dentists everywhere advise their daily use.
The methods are embodied in a new-day tooth paste—Pepsodent. It combats the film wherever it may linger. In this way it brings surprising results which one quickly sees. Over 5,000 new people daily are trying out this modern method.
Fights acids too
Pepsodent brings three other effects which authorities now desire.
It multiplies the salivary flow—Nature's great tooth-protecting agent. It multiplies the starch digestant in the saliva. That is there to digest starch deposits which may otherwise form acid.
It multiplies the alkalinity of the saliva. That is Nature's neutralizer for the acids which cause decay. Pepsin is also included.

Present the coupon for a 10-Day Tube. Note how clean the teeth feel after using. Mark the absence of the viscous film. See how teeth whiten as the film-coats disappear. Watch the other good effects, and read the reasons in the book we send.
This ten-day test will be a revelation. It may bring to your home a new era in teeth cleaning. And the benefits to you and yours may be life-long in extent. Cut out the coupon now. Present it today so you can start at once.
719-Can.
10-DAY TUBE FREE
Present this coupon, with your name and address filled in, to any store named. It is good for a 10-Day Tube of Pepsodent.

ST. JOHN, N. B., THURSDAY, NOVEMBER 24, 1921.

GRAIN SHIPMENTS TO PORTLAND.

In reply to an enquiry by Dr. Baxter as to the quantity of grain being shipped to Portland and whether the C. N. R. had any authority to order it routed otherwise, Mr. D. B. Hanna, President of the C. N. R. Board of Management writes as follows, under date Nov. 18th:—

"The point we have been endeavoring to stress from time to time is that the railway company cannot divert grain from one port to another—we must in every case respect the bill of lading.

"As perhaps you know, the management of the National Railways has the jurisdiction whatever over the Grand Trunk Railway, and I am, therefore, not in a position to give you any information respecting the movement of traffic on that line."

Even this explicit statement of facts from the man best qualified to give an authoritative answer, will probably not deter The Globe from continuing its campaign of deliberate misrepresentation regarding shipments of grain to Portland.

RIGHT FOR ONCE.

Speaking in North York on Tuesday evening the Hon. Mackenzie King said:

"This country is in need of a strong administration which will lay down strong policies and principles and govern according to them, and without any of the log-rolling which inevitably must follow coalition."

For once Mr. King is right. The foregoing utterance is about the truest summing up of conditions that has ever been credited with the country. Very badly needs a strong administration, and it will get one with the return of the Meighen party to power. But it will not get one if the Meighen party falls to get a majority, for the coalition with the Progressives which would become necessary if the Liberal party is to take office, will only result in a bout of log-rolling, which Mr. King expresses such objection to.

It is impossible to have a strong administration if it has to depend upon the support of more than one party, a coalition of Liberals and Progressives, which is the only alternative to more or less discordant policies and the efforts of the leaders would be sorely taxed to keep these conflicting elements in line, so that progress could be made. With two or more elements differing in principles and policies, how could a government which was expected to do very much, instead of such a coalition bringing strength, it would be one continual source of weakness.

For this reason, among many others, it is imperative that Premier Meighen be returned to power with a sufficient number of supporters to enable him to carry on. The Conservative party is at least a united party, agreed on its policies and with only one leader, and that leader a man in whom it has the most supreme confidence.

WHY LABOR MUST SUPPORT PROTECTION.

Every member of a Labor Union must be a believer in a Protective Tariff from the very fact of his membership in a Labor Union. A Protective Tariff is enacted to protect Canadian labor and Canadian manufacturers against unfair and unequal competition from abroad.

Labor Unions even go further than this because they aim to protect against possible unfair competition by workmen of their own country, in fact, against workmen living in the same city, possibly in the same street.

Canada's industry requires protection against foreign competitors but will take its chances against home competitors. Theoretically, like Mr. Crear, often make the academic charge that Protective Tariff is immoral and selfish and solely for the benefit of the manufacturer, and is not reflected in the wage-earner's pay-envelope. We have heard such men say that if some other country can produce goods cheaper than we can, then it is an imposition on those engaged in that particular industry in this country not to be permitted to buy the foreign goods. What those engaged in the home industry will do when driven out by foreign competition is a subject carefully ignored by these academic critics.

Industries to which Protective Tariff apply have some measure of protection against foreign competition, but Labor Unions have protection against both foreign and home competition and, consequently, Labor

THE NEW BRIDGE.

The opening of traffic of the new C. P. R. bridge, yesterday, although it took place without any ceremonial display of any kind, is nevertheless an incident of more than passing interest. It serves to remind us of the great development in traffic which has taken place in recent years, to an extent in fact that has made the old bridge of no practical value in its present condition. It serves to remind us too of the immense services rendered to the country by the Conservative party under Sir John Macdonald, who made the construction of the C. P. R. possible, and who had faith enough in the future of the country to back the construction in the face of the most determined opposition. The C. P. R. has been one of the most potent factors in the development of Canada, and it is, thanks to the patriotism of Sir John and his colleagues, that the country boasts such a magnificent railway.

The Grand Trunk Railway provides the transportation facilities for the greater part of the grain produced in Ontario. This grain has naturally been shipped via Portland. The acquisition of this railway system by the Government will enable the latter to make its own regulations governing traffic upon the road, and care will undoubtedly be taken that Maritime Province ports get their proper share of this traffic. When this is done, the people of these provinces will have to thank the Meighen Government for acquiring the Grand Trunk and thus making the routing of grain down here possible, instead of having so much of it sent to Portland.

Russia under the Soviet rule is described by one writer as a sphinx. But the sphinx has lasted too many centuries to make the comparison entirely apt.

Notes by The Office Boy

"Reynold, old man," said the Reception Girl to me yesterday, "what's all this Arrangement Convention about?"

"Well, it means that they want to compel everybody to disarm a time," says Reynold.

"What about that?"

"I think it'll be a good thing," she says, because I was at the movies with a particular friend last night and he absolutely refused to disarm when I told him to, because the folks round could see him."

One of the fellows was telling me about a friend of his who called for his girl a few nights ago. Her mother met him at the door and told him to get into the parlor. "See here, young man," she says, "are you sure you can support a family?"

"Sure I can," says he. "Well you'd better come and look us over," she said, "there's twelve of us altogether." The chap picked up his hat and left, without waiting for the girl.

I was talking yesterday to a chap I know who lives in the country and who's been out of the country for some time in the summer and autumn. So I asked him if there was any truth in the saying that lightning never strikes the same place twice. "The reason may be," he says, "because as a rule there's nothing left of it, because there's nothing left of ours."

I see Henry Ford is willing to buy the battleships that are to be scrapped and make fivers out of them. Somebody specifies that there shall be substantial reductions in the duties on boots and shoes. Mr. Ernest Lapointe, the Liberal member for Quebec, helped to make that Liberal platform and, like all other Liberals, he is pledged to it. What are the people of Quebec, engaged in and dependent upon, the boot and shoe industry, directly or indirectly, going to do about it? Will they vote against their own material interests, because certain politicians have told them that Mr. Meighen is an enemy of their race without, however, being able to submit a scintilla of evidence in support of their statements, although repeatedly challenged by the Premier to do so.

WHAT OTHERS SAY

Great Britain and Protection
(London Free Press)

Mrs. Grant Needham, of Toronto, who addressed a meeting in London on Tuesday night, pointed out as having held up as an example to her audience, Great Britain, as a country which has a tariff for revenue as compared with other nations which have a protective tariff. Apparently her idea is that Canada should adopt the British system.

Mrs. Needham is evidently as ignorant of political history as Mr. Somerville, or else she is deceiving the electors.

Since the war British industries have found themselves in a serious position. Faced with high protection walls all over the world, the great British industrial plants have been largely idle. The employment of labor in Canada has been a flexible as compared with the old country. There has been an overwhelming demand from all sides for some form of protection. The Government has been met by the Government and on August 12, 1921, the British Parliament passed a measure called "The British Tariff Act," which has been frankly a return to the protection system. The first part of the bill places some 5,000 articles, including all what are called "key" industries, on a tariff basis of no less than 33-1/3 per cent, or some 10 per cent higher than the average British tariff.

This second part of the bill carries provisions against "dumping," whether by reason of collapsed exchanges or in the ordinary acceptance of the term, "dumping" being defined as the sale of goods in the United Kingdom below the selling price or cost of production in the country of origin. The cost of production is defined as the cost of the goods plus 95 per cent of the wholesale price at the works, less internal duties levied in the country of origin, or, if the goods have been sold through established through actual sales, a reasonable price computed on wholesale prices charged for similar goods.

This section of goods to which a tariff of 33-1/3 per cent, ad valorem, in addition to any other customs duties which may apply, in the case of any article which may be listed for such tariff by the Board of Trade, is to be subject to an order bringing the additional 33-1/3 per cent duty into effect whenever it is found that imported articles are being sold or offered in the United Kingdom below their cost of production, or at prices, by reason of depreciated exchange, much below those at which similar goods can be manufactured profitably in the United Kingdom, if the Board of Trade should decide that employment in the United Kingdom is likely to be affected seriously as a result of such importations. All Board of Trade orders made under this section are subject, however, to confirmation by the House of Commons.

The British Government now exacts a rate of 25 per cent on goods imported from Germany and, in the case of "key" industry products subject to the Board of Trade surtax, the import duty may be as high as 92-2/3 per cent, ad valorem. It must be remembered also that the present exchange situation represents a high protection to British manufacturers against competition from this continent. Exchange alone at the present time gives a protection of over 20 per cent against imports from the United States.

The plain facts of the case are that there only one country in the world today where there is an agitation for "a tariff for revenue" or for "free trade" in Canada. The United States, Australia, New Zealand, Germany, Japan, every industrial country, are raising their tariffs. There is never such an opportune time for the launching of an anti-protection campaign.

THE LAUGH LINE

Easy to Get On With.

First Her—"You have a new housemaid, Mrs. Youngwife."

Second Her—"Yes, I got her about a week ago."

First Her—"How do you like her?"

Second Her—"Very much, indeed. She lets me do almost as I like about the house."

Of Course!

Mrs. Beame was admiring Mrs. Deare's baby.

"Oh, what a darling!"

"The dear! Goo-goo! Ho-o! Da!" replied the baby.

"The dear!" exclaimed Mrs. Beame. "He's trying so hard to talk."

"Yes; he talks that way all day, but he doesn't say anything," retorted Bobbie, the five-year-old brother of the baby.

"The baby is so much like his father," Mrs. Deare commented apropos of nothing, of course.

One Version.

Cooper—"He who fights and runs away."

Hooper—"Invariably finds, on his return, that his wife is as anxious as ever to resume the argument!"—Answers.

Getting Over the Difficulty.

Willie was only seven, nevertheless he was allowed to go for an outing with the choir boys. His little suit was brand new when he set out, but when he returned the entire seat of his trousers was gone.

His mother met him at the door on his return, and said: "Oh, Willie, sorry you didn't walk home like that!"

"It's all right, mother," replied Willie. "No one saw me, for I walked all the way backwards."

All Fair in Love.

Miss Beant—"I wonder if Mr. Nicellow is going to the reception?"

Mr. Sharpello (is rival to Mr. Nicellow)—"Um—let me see—it's a dress affair, isn't it? Of course! How stupid of me! If he goes he'll need his dress suit!"

"Presumably."

"The Miss Beant! I feel sure you will meet him there. I saw him coming out of a pawnbroker's shop with a bundle under his arm."

THE MAN WHO WORKS HARD SHOULD FOLLOW THIS ADVICE.

Perseverance and will power he should have, but whether he has strength and vigor is another question. Hard working men often have headaches and suffer from bilious fits. The occasional use of Dr. Hamilton's Pills keeps a man feeling fit and fine, keeps him always at his best. Headaches, indigestion, poor color are quickly remedied by Dr. Hamilton's Pills. Dr. Hamilton's Pills keep the system clean and pure, tone up the blood, drive away tiredness and lassitude. No medicine for men is better than Dr. Hamilton's Pills, 25c. all druggists or The Colman-Boyer Co., Montreal.

Boots and Shoes.
(Exchange)

Quebec city is the biggest boot and shoe making centre in Canada. The Liberal government increased the duty on fine shoes from 25 to 30 per cent, because the manufacturers of that city and other places said they could not compete with the cheap production of the United States factories. Due to the larger market in the United States.

Mr. Crear says if Canada cannot produce boots and shoes as cheaply as

Claims Cancer Prize For New Discovery In Its Treatment

London Physician Finds Alum Will Benefit in Internal Cases.

London, Nov. 23.—A claim for the \$100,000 prize said here to have been offered by the Cosmopolitan Cancer Research Company of Brooklyn for an "authenticated treatment that will at least alleviate cancer if not cure it," has been made in behalf of Dr. Reginald Larkin of London. Dr. Larkin's theory is that the cancer germ is always found in association with some form of rheumatism and that in internal cases the use of alum will benefit where operations cannot be performed, or following operations.

Dr. Larkin personally had no hand in claiming the American reward. He is exceedingly modest about his work and is loath to discuss it. His most vociferous champion is Dr. W. Knight, a pathologist who consulted him when suffering from internal cancer. The presence of a cancer was proven by X-ray plates and specialists suggested an operation. This fact and the contrast of failure of my treatment of many external cases of cancer with the same remedy suggested to me a new clue in the treatment of the disease.

"I believe that carcinoma, almost if not always, is associated with some form of rheumatism, which yields to a course of alum taken internally. These suggestions are placed on record in order that other practitioners may test the simple but effective treatment in inoperative or incurable post-operative cases."

Dr. Larkin's explanation of his theory and treatment follows:

"Since August, 1918, I have been treating with apparent success cases of internal cancer, as diagnosed clinically. This fact and the contrast of failure of my treatment of many external cases of cancer with the same remedy suggested to me a new clue in the treatment of the disease.

"I believe that carcinoma, almost if not always, is associated with some form of rheumatism, which yields to a course of alum taken internally. These suggestions are placed on record in order that other practitioners may test the simple but effective treatment in inoperative or incurable post-operative cases."

SAW MAN BELIEVED WITH TWO GIRLS

Alexander Day Gives Important Murder Trial Yesterday—Seeing Accused in City on A

(Continued From Page Ten)

Detective Powers was examined by Mr. Vermon. He saw of a \$500 reward offered by the city. It was in the papers he had made one trip to Truro. Windsor detectives had also been working on the case. The local detectives had not been hampered for funds in any way. Through the papers they got people to search. On the third of August, Detective Powers went over to the park early in the morning and he (Powers) saw the bodies went over about 11 o'clock, and stayed until noon. They were taken to the morgue at 2:30 and stayed until after 6 o'clock. The search was kept up every day until the body was found. There were no reports that Paris had been seen there. He knew Humphrey. Had he seen him after the crime. Humphrey had told him of some matter he had stolen from a house on the West side. He did not prosecute. He was the only offence he was told of. The party that the thief was made from did not seem to wish to prosecute. He knew of Humphrey being attacked by a man. He didn't think they were razor wounds. He thought the scratches were made by some sharp instrument. That was the Standard published on the morning of the third. The story was in the Times, but was not sure if it was in the Telegraph. He had never seen George Lovins because of the information of Sheriff Foster, of Carleton county, who had Lovins there and suspected him of the murder. Lovins was dark complexioned and was thirty or so years old. Biddescombe had a pair of pants of Paris. He did not know who had the pants. He thought that Detective Biddescombe had searched the house. He had never said that he would not believe Walter Humphrey, nor that he was simple or foolish. He was looking about Humphrey being a criminal. Humphrey told him. He did not know how much work Humphrey did. When he heard the story from McDonald he had no proof. Humphrey's story he had never known across the river. He did not know if the Standard was published in the latter part of July. The Telegraph came out on the third. He knew the Times had the story. The first Haryest train left the city on the 4th of August. The pants will be produced in court this morning.

Detective Biddescombe.

Detective Patrick Biddescombe was sworn and examined by Mr. Vermon. He had been in Truro for 12 years. He remembered the night of the second of August. The report came in about the McAvity girl about 12:30 from a boy named Humphrey. He made enquiries about the city that night and searched the next day. Detective Biddescombe went over to the park on the 3rd of August with Powers about 11 o'clock and back to town after 1 o'clock. They went back at about 2:30 and were there all afternoon. He remembers the third day of August. He went over alone and picked up an officer on the way over. Commissioner Thornton and Detective Powers were there. He saw the place where the body was and the body was hidden about 75 feet back of Hilyard's barn in very thick brush from the fence. He knew the road to Warner's mill. They had received a communication from Truro in the week before last. Witness then told of arresting Paris on the 19th.

Paris asked "What am I arrested for?" Witness replied, "You know." Paris said, "Go ahead, and tell me; I'm not scared." Chief of Police Fraser of Truro came over on the 20th of September. Fraser was told Paris back to Truro on the 21st or 22nd. The accused wore a blue suit and grey cap on the 19th. Witness had wired and written to Fraser. On the 19th of August, Fraser was several communications. Witness went over on the 16th of September and brought Paris back on the 17th. Mr. Vermon asked question Detective Biddescombe. He had seen the wounds on Humphrey's face and did not think they were done by a razor. He had got the pair of pants from the woman that Paris was living with. He had got a grey coat and the pants. The wounds on Humphrey's face had been done by some sharp instrument. Probably not a razor. He had gone over on the 16th of September and got the pants. The case adjourned until this morning.

Main 3000.

Murray & Gregory, Ltd.

Afternoon Session.

Mrs. Laura Gerow, Water street, W. B., was the first witness called on the assumption of the case in the afternoon. She stated she knew Paris to be. Her home was the next house to his. On the night of the Woodman fire, which she recalled, but not the date, she said she was on the steps of her home watching the fire with her mother and father, Mr. and Mrs. Albert Byers, and her aunt, Mrs. Craft. She recalled Mrs. Craft was talking to Mr. Ford, and Paris was leaning against the pair of pants on the front door, and that her father came along on a bicycle.

She said Paris at the time was wearing khaki pants, but was not dressed by the Crown, but Mrs. Gerow was unable to identify it. She said Paris was wearing a soft hat something like it.

Hattie Lovins.

Hattie Lovins, testified she was eleven years of age, that her home was at 30 Clarence street. Hattie McAvity, she said, lived in the same house upstairs.

The little girl told a story much similar to that given by her at the

On the night of the Woodmen fire, which she recalled, but not the date, she said she was on the steps of her home watching the fire with her mother and father, Mr. and Mrs. Alfred Gerow, and her aunt, Mrs. Craft. She recalled Mrs. Craft was talking to Mr. Ford, and Paris was leaning against the window on the opposite side of the door, and that her father came along on a bicycle.

Hattie Levine, testified she was eleven years of age, that her home was at 20 Clarence street, Sadie McAlaney, she said, lived in the same house, upstairs. The little girl told a story much similar to that given by her at the previous trial. She told of going to Douglas avenue with Sadie McAlaney where they went down the cliff to pick berries. There a man saw her a handful of berries and then started to pick berries for Sadie. He said he knew where to get good berries, and walked to a wire fence; he held the wire down and Sadie went through it with him and beckoned to her to come, but she didn't go. Later she called her father but Sadie had disappeared with the man and didn't answer.

Disappointed By Reception Actress Drops From Sight

London, Nov. 23.—Today's sensation on London's riot involves the temporary disappearance of Miss Khyva St. Albans, an American actress who appeared in two performances at the Garrick Theatre in the leading part of The Painted Lady, a play by a Russian author.

After the audience had assembled for Friday's matinee the play being presented only in the afternoon the performance was suddenly abandoned and the admission money returned by the management. Miss St. Albans, who with her mother had been staying at a leading hotel had apparently vanished. She and her mother checked out, leaving no forwarding address.

Found the Body. James Kimball, Prince Edward street, told of finding the body of Sadie McAlaney on the 9th of August. He said he was walking in the park at about 11 o'clock. He saw a girl who he thought was Paris. He went back to town after 11 o'clock. They went back at about 2:30 and were there all afternoon. He said he first saw a shoulder and then some hair. He told a boy about what he found, and the boy went for some men.

Child's Father. Ronald McAuley, 30 Clarence street, said he was the father of Mary Jane (Sadie) McAlaney. Mr. McAuley said his daughter was nine years old. She was a little lame because of a big trouble. At the time his child was first missing he was in Prince Edward street. He later identified her body in the undertaking parlour.

W. J. Levine, 30 Clarence street, told of his daughter Hattie, accompanied by Sadie McAlaney, bringing his daughter to him where he was working on Douglas avenue. The little girl left to pick berries, and he told them not to go too far down the bank.

Mr. Vernon, he said later he had to leave, but before doing so looked down the bank but saw no one. He had heard a Levine because arrested in connection with the matter. The man was a distant cousin, but he did not know him, and had never seen him.

Dr. H. L. Abramson, provincial pathologist, told of a post mortem examination he performed on the McAlaney child's body on August 9. He said the face was partly decomposed. Death was due to strangulation, and there was evidence of assault. The conditions described by the doctor were most revolting.

RELIEF FOR THE CITY UNEMPLOYED

A force of from ten to fifteen men will be set to work by the water and sewerage department this morning to open a trench for the laying of a water main in Tower street, West End. The men will be recruited from the names of those who have registered on the Mayor's unemployed list. The work is a practical illustration of the city's efforts in attempting to relieve the local unemployment situation. The work will be pushed along to completion. The entire job, it is estimated, will take about two weeks' time.

Gloucester County Gov't Supporters Feel Confident

Bathurst, N. B., Nov. 23.—Before one of the largest crowds attending nomination day proceedings in this county, Mr. Oneiphore Turgeon, Liberal, and Mr. J. Edward Degraze, Conservative, were declared candidates at 2 p.m. by the returning officer, Mr. Gilbert J. Doucet, who had his court in the Court House at Bathurst. About 2500 electors had convened when the Hon. P. J. Veniot, presided, seconded by Mayor J. B. Hachey, that Mr. P. J. Melanson act as chairman of the meeting.

The Hon. Minister of Public Works and Mayor J. B. Hachey arranged the order of speeches. Mr. J. Edward Degraze was the first speaker of the day, and received a rousing ovation from his followers. He made a forceful and eloquent speech in French and dealt in an able manner upon the issues confronting the electors in this election and his remarks were loudly applauded at various periods of his speech.

Mr. Turgeon's speech was in English and he apparently forgot to address the numerous French followers present who came from the lower end of the County under very adverse weather conditions, and who must have been disappointed in being denied the privilege of listening to some of his eloquence in their language. The sentiment, as shown by the applause, seemed decidedly in favor of the Government candidate who, in his 15 minutes reply, scored a triumph over his adversary. Mr. Turgeon came back with a feeble counter reply of not more than five minutes.

When a girl is afraid a young man will flirt with her she wishes he would.

DO YOUR BOWELS Move Regularly, Or Do They BECOME CONSTIPATED

There is no medium through which disease so often attacks the system as by allowing the bowels to become constipated, and there is no other trouble which is so liable to that is more liable to be neglected, because material inconvenience may not be felt, at once, from irregular action of the bowels. When there is not regular action the retention of the decayed and effete matter, with its poisonous gases, soon poisons the whole system by being absorbed into it, causing violent sick and bilious headaches, internal bleeding or protruding piles, heartburn, jaundice, etc.

MILBURN'S LAXATIVE PILLS will regulate the flow of bile to act properly on the bowels, thus making them active and regular, and removing the constipation and all its allied troubles. Mr. Samuel Buckler, Tatamagouche, N. B., writes:—"For over a year I suffered with constipation. I took several different kinds of medicine, but could only get temporary relief. I was told to try Milburn's Lax-Liver Pills. I procured two vials of them, but after I had taken one I found that it was relieved of my trouble. I do not hesitate to recommend Lax-Liver Pills for any kind of constipation." Price, 25c a vial at all dealers, or mailed direct on receipt of price by The T. Millburn Co., Limited, Toronto.

Literature Enriched "Gathered Sheaves"

A. Pauline Raymond Adds Another Gem to Canadian Works.

There is added to Canadian Literature today another gem in book form, entitled "Gathered Sheaves," from the pen of A. Pauline Raymond of this city. This book, which goes to the public today, is full cloth, 6x3 1/2 inches, 174 pages and 24 illustrations. It deals with the National Council of Women at Calgary. It is more than a story of the sessions of the Council which met in the Western City. It is a vivid story of the author's journey from St. John and back again, told in a most interesting, fascinating way. The writer touches upon the various incidents, places and people she met on the trip, and as one "reviewer says," the reader is charmed as he is conducted by his guide from scene to scene in the ever shifting panorama.

Its Greatest Interest "Gathered Sheaves" attains its greatest interest when the writer begins to depict Calgary, and sets forth the impressions received from that city. The reader is charmed as he is conducted by his guide from scene to scene in the ever shifting panorama.

Besides the excellent amount of reading matter from the pen of one especially inspired to produce the work, the book is rich in half tone illustrations. There are half tones of Mrs. W. E. Sanford, National President of the Council, and in "Gathered Sheaves" Mrs. Raymond admits the public to his session.

To Aid Milk Fund The net proceeds from the sale of the book will be devoted to the children's milk fund. Mrs. Raymond is to be congratulated upon the excellence of her work and the book is worthy a hearty reception in all homes.

True Bills Found By The Grand Jury

In Assault Case on Girl, Jury Recommend Rigid Enforcement of Curfew Law.

In bringing in a true bill in the case of the King vs. Harry Ketchum, Theodore Saunders and William Reynolds, charged with assault occasioning bodily harm, in the circuit court yesterday afternoon, the grand jury recommended that, in view of the evidence disclosed, there be a more rigid enforcement of the curfew law and the law relating to street walking. A true bill was also found in the case of Frank Zebherman and Clifford Ritchie, charged with attempting to break and enter the store of Abraham Drankin.

An application for bail for Ketchum made by his counsel, J. A. Barry, was refused by Judge Chandler, who scathingly commented on the case and denounced the three accused with much vigor. In outlining the case to the jury his honor stated that if the jury were satisfied that an assault had taken place they would be justified in finding a true bill against the whole three. Even though the girl was drunk, he said, the fact of their leaving her alone and helpless in such a place, and at such a time, indicated that they were shameless raprobates. The charge was now that they had committed a criminal assault occasioning bodily harm, and the jury would be justified in finding a true bill against them.

ST. JOHN MAN WHO DIED IN TRINIDAD

The "Donald" Campbell found dead in the Miranda Hotel, Trinidad, where he had been ill with typhoid fever (as mentioned on Tuesday) was identified yesterday morning as John James Campbell, son of Catherine and the late Thomas Campbell, 24 Harding street, by a young sister of the deceased who was shown in the Mayor's office a photograph showing the late Donald Campbell in his coffin prior to burial at Port of Spain cemetery. The little girl stated that her brother was called "Don" because when a youngster he had pronounced his first name, "John," as if spelled "Don." The photograph to the Mayor was accompanied by a letter advising that a burial service had been held by Rev. Father LaMarre, a Canadian. The surviving members of the family of the deceased are the mother, three brothers, Willard, Colin and Stephen, and two sisters, Greta and Madeline. The sister who identified the photograph said her brother was 26 years of age early last year. He went overseas with the first contingent as a member of the 2nd Canadian A. S. C. He was in the army almost five years.

A clipping from the Trinidad Gazette recites that the deceased, after working in the oil fields there, had prospected for gold in Venezuela, in company with an American chemist, On return to Trinidad he had suffered from a considerable time from malaria, and only shortly before his death had consented to receive medical treatment.

"Your teeth are like the stars," he said. And pressed her hand so white, And he spoke true; for like the stars, Her teeth came out at night.

PROVINCIAL BUREAU OF HEALTH SESSION

Yesterday morning a session of the Provincial Bureau of Health was held in the government rooms, where reports of the various officers were heard and discussed, and also reports by the chief medical officer, Dr. O. G. Melvin, on the various services. New matters taken up included medical inspection of schools, the proposed plumbing, hotel and camp regulations.

In attendance at the meeting were Hon. Dr. Roberts, Dr. Melvin, Dr. H. L. Abramson, District Officers Desmond, Wade and Warwick; Miss Metheljoin, supervisor of public health nurses; Dr. J. A. McCarthy, chief of the V. D. division; John Scott, secretary of the York county sub-division board, and Secretary T. M. Burns, St. John.

PUBLIC UTILITIES

The Board of Public Utilities, in session in the Government rooms, yesterday morning, besides disposing of routine business, dealt with the complaint of the Enterprise Foundry Company, Sackville, against the Eastern Electric Light and Development Company. A former order of the board not having been served, a new order was issued, returnable December 28 next, calling on the lighting company to show cause why more adequate service should not be furnished the foundry company.

RED PIMPLES ITCHED TERRIBLY

On Chest, Face, Arms, Burned Badly. Cuticura Heals.

"Ever since I can remember, my chest, face, and arms were filled with dry red pimples. They were excruciating all over me, and itched terribly at times, and increased them, causing them to fester and get sore. Sometimes they would dry away and form scales which burned badly. "Then I used Cuticura Soap and Ointment. I had used them two or three times when I felt better and I was healed with one box of Cuticura Ointment together with the Cuticura Soap." (Signed) Miss Bertha Kaas, Russell, Manitoba, February 19, 1919. Use Cuticura Soap and Ointment for all toilet purposes. Soap to cleanse, Ointment to heal. Soap 25c, Ointment 25c and 50c. Sold throughout the Dominion, Canadian Agents, Lyman, Limited, St. Paul, St. Montreal. Cuticura Soap shaves without soap.

GIFTS THAT LAST

WOMAN'S BALLOT—A DEPORTATION ORDER OR BIGGER PAY CHEQUE

"What good does the vote do you, now that you've got it?" teased a man the other day.

A question like that to more than a million women in this country is a question that has been asked a million times in a week that a wise woman can answer in a year—despite her superior oratorical equipment. But it does not take a woman to answer such a question as this one, and it may help things generally to do so.

Would anyone have lived to see the day of the Minimum Wage Board, if women had not been given the vote? Would modern penicillin ever have got past the talking stage, if women had not the vote?

Would the inequality of property rights ever be remedied, if women were not part of the electorate? Would sensible women not listen to the suggestion that now that they have the franchise it is a useless ornament, to be left in the back corner of a jewelry case. That is the argument which entrenched indignities have forced the male sex to the electorate ever since the introduction of manhood franchise. "And how much better off are you, now that you've got the vote?" has been flung at every worker. Workers are this much better off since every man of twenty-one got the vote.

The fourteen-hour day has been reduced to an eight-hour day. States of remuneration have been credited and quadrupled. Sanitary conditions in factories have been improved beyond recognition. Compensation for workers injured during their employment comes as a matter of law, not of lawsuit. Living conditions have been improved in every way.

Conditions which would have been described as Utopian at the commencement of the nineteenth century are the commonplace of the twentieth.

Women workers have, of course, benefited along with men workers in the vastly improved conditions. But these improvements would have been slow to come if many of them would be still in the future, if men had not had the vote and used it.

The practical value and advantage of the vote to Canadian women is this:

It puts them in a position to directly affect the course of public affairs. Instead of having to wheedle, argue and coax with those dignified beings

HAD BAD COUGH AND SORE THROAT

Never neglect a cough or cold however slight. If you do it can have bad results. It leaves the throat raw, hoarse, or both, affected. A single dose of

DR. WOOD'S NORWAY PINE SYRUP

will help to stop the cough, soothe the throat, and if the cough or cold has become settled on the lungs the healing virtues of the Norway pine tree along with the soothing and expectorant properties of other excellent herbs, roots and berries promptly eradicate the bad effects, and the persistent use cannot but help to bring about relief.

Mr. Albert Mann, Lower Lakeside, N. B., writes:—"About a year ago I contracted a cold accompanied by a very bad cough and sore throat. I went for the doctor, but what he prescribed did me no little good. I began to get discouraged. A friend came to see me and asked me if I had ever used Dr. Wood's Norway Pine Syrup. I told him I had not and sent him right away to get me a bottle. I started using it, and after a couple of days I found I was getting relief, and after taking two bottles the soreness in my throat seemed to be leaving me, so I resolved to continue its use, and after I had used five bottles both my sore throat and cough were gone. I would not be without Dr. Wood's for any money." Price, 50c, and 5c a bottle, put up by The T. Mothers Co., London, England.

FOR WOMEN

Daily Fashion Hint

SMART BLOUSE AND SKIRT

Nothing exceeds the blouse in smartness for general wear, especially when it forms an alliance with a skirt of distinctive design. Crêpe de Chine pussywillow taffeta or satin may be used to develop a model shown, which is trimmed with narrow frills of self-material. Two and one-quarter yards of 36-inch material are required to make it. The skirt is of plaid serge and requires 2 1/2 yards to make.

Neckwear For The Christmas Gifts

For the first time in several seasons the style trend of women's neckwear is clearly defined and the obstacle of a chaotic fashion condition is removed from the path of promoting neckwear for gifts.

An almost every neckwear department there are many types of neckwear which the average customer may confidently purchase as gifts with the assurance that these selections will be welcomed in almost any wardrobe. In this category are the multitudinous variations of the so-called "banyan" styles, designed to wear with the fashionable round neck.

Recently an added incentive has been provided to the selling of these narrow evening collars by giving them the new name, "Puritan." These Puritan collars are in almost every type of material, ranging from the finest acetate finished with the simple binding to broadcloth, kid, brocade, devoré and real lace. Because the Puritan collar is made in fabrics of so many different types and grades it is the logical gift for the customer who is economical in her expenditures as well as for the customer who is in a position to indulge herself in neckwear gifts of the more elaborate sort.

The nation-wide vogue for frocks with the round or with the so-called Jenny neckline has led to the concerted effort to make these dainty evening collars of Puritan and boat-shape types as gifts. Many of the best types of Puritan collars are made in fine fabrics and are worn in the Puritan fashion with the closing in the front or at the back, or else with the closing on the shoulders to suggest the Jenny neckline.

Mrs. Solomon Says--
Being the Confessions of the Seventh-Hundredth Wife

By HELEN ROWLAND

Verily, Verily, No Woman Can Be Happy, Unless She Hath Something to Make Her Miserable, Somebody to "Reform," and Something to Worry About

My DAUGHTER, hear now the Wall of a Good Husband.

"Alas, alas, my Mother!" saith the Good Husband, "what shall I do that I may have honor among men, and prestige in the sight of mine own wife?"

"For lo, I am a steady-going man, and possess neither a wandering foot, nor a roving fancy, nor eyes for any woman save my wife.

"Neither have I a dark brown 'past,' wherewith to mistle her curiously, nor any boasting vice wherewith to 'reform' her.

"Therefore, when I tell my beloved the truth, she listeth her eyebrows and will not believe, and I am written down 'Coward' and 'Prevaricator' in her books.

"When I am detained at the office, she sauteeth up me of flirtation! but when I prove mine innocence, she is exceeding DIS-

APPOINTED, and will not be persuaded.

"Lashew, amongst my bachelor friends, I am known as 'Mistpeedid' and 'Mid Dobbin' and amongst my wife's friends as 'Mistmender' and 'Pitance.' Yes, Janus, the Two-faced, was not more misunderstood than I.

"For lo, I perceive, that it is expected of a man, that he shall have his weaknesses and peccadilloes; and to lack them, is to lose caste with the multitude, and favor among women.

"Yes, I do not yearn for temptation, and my flirtings-days are over. Vamps do not deceive me, and flappers only bore me. I sigh not for a wine-cellar, and get it mine only passion: For business is my deity; and my middle-name is 'Upright!'"

And, behold, I comforted him, saying: "Be of good cheer, my Son. For a 'past' is simple to invent, and a bad reputation may be acquired.

"Lo, ONE flirtation will convince thy wife of thy prowess amongst women, and satisfy forever her longing for excitement.

"Lashew, the invention of one imaginary 'youthful toy' will afford her something to lie awake and think about, at night!"

And what more doth any wife require?

"Go! to! A foolish husband proceeth athis and protesteth his virtue.

And the way of a Good Husband is exceeding hard.

"But a wise husband saith 'IZAZAT so!'"

"And a woman's imagination doth the rest!"

"For, verily, verily, no woman can be happy, unless she hath something to make her miserable; somebody to reform; and something to worry about!"

Obituary

Jane A. Malloch
Campobello, Nov. 21.—The death occurred on Monday, 14th inst., of Mrs. Jane A. Malloch, aged 84 years 10 days, at her home here. Deceased was a patient sufferer for a long time, and passed quietly to rest on Monday morning at an early hour. A burial service was held at the home on Tuesday, Nov. 22, at 11 o'clock, assisted by the Anglican choir, officiating in the Anglican church, officiating in the Anglican cemetery, by very large number of friends and relatives.

The family bereaved are Miss Nellie Malloch, a daughter, at home; Capt. Mendel Malloch, Capt. Daniel Malloch, his residence, 214 St. George, St. John; Mrs. John Marley, of Bangor, Me.; also Mrs. Cammie of Lubec, Me.

R. E. Coupe

Many friends of Robert E. Coupe will regret to hear of his death which occurred early yesterday morning at 147 Germain street. Mr. Coupe was born in 1843 in Chester, England, and the eldest son of Major Robert Coupe of Her Majesty's 15th Regiment. For about forty years he conducted a drug business on Main street, from which he retired ten years ago, his son George P. Coupe, succeeding him. Mr. Coupe is survived by two sons, George P. and Robert E. who live in local business circles. He was a faithful member of the congregation of Trinity church and was deeply interested in the work of the St. Andrew's Brotherhood. He had been a member and on the committee of the Church of England Institute for thirty years. Mr. Coupe belonged to several organizations, including St. George's Society, Marlborough Lodge, Sons of England, Fortinos Lodge, I. O. O. F., and African Lodge, Moncton. He was a man of very high character, a good citizen and his sons will have deep sympathy in their great loss.

The funeral will be held on Friday afternoon on Trinity church where services will be conducted by Rev. R. A. Armstrong and Rev. J. V. Young.

Max W. Allen.

FUNERALS
The funeral of Mrs. Fred S. Crosby took place yesterday afternoon at 2:30 o'clock from her residence, Robbsey, to St. Paul's Church, where services were held by Rev. J. V. Young.

Yarmouth, N. S., Nov. 23—News of the death of Max W. Allen, at Wilkes-Barre, Pa., was received here today. Mr. Allen was a son of the late George Allen of Yarmouth, and had lived in Massachusetts for some years. He leaves a widow, daughter of the late Major Jolly, of Yarmouth, and two sons and one daughter. Death was due to pneumonia poisoning.

Weddings

Donovan-Campbell.
At Holy Trinity church early yesterday morning, Leo J. Donovan, son of Mr. and Mrs. J. J. Donovan, of Main street, was united in marriage to Miss Margaret Campbell, daughter of Mr. and Mrs. Duncan Campbell, of Judique, C. B. The sacred rite was administered by H. Rev. Mgr. J. J. Walsh, V. G., D. P. The bride was given away by her cousin, Allan C. Melnick. The groom was supported by his brother, Harold, and Mrs. Martina Casey, Judique, sister of the bride, who was the maid of honor. Among the many beautiful presents of cut glass, etc., was a silver tea service from the employes of W. H. Thorne & Co., Ltd., with whom the bride was employed, also a silver casserole dish from the firm. The groom was a recipient of a traveling bag from the employes of the immigration department of Quebec, with whom he is employed, also a purse for the bride. The happy couple left on a trip through the provinces at 7:30 yesterday morning, and on their return will reside on Main street.

Downing-Burke.

James Downing, Victoria street, and Miss Margaret Burke, St. David street, were married yesterday morning with nuptial mass, at the Cathedral of the Immaculate Conception, by Rev. W. M. Duke, P. P. Miss Mary O'Regan was bridesmaid, while the groom was attended by his brother, Maynard J. Downing. Following the ceremony breakfast was served at the home of the bride's mother, Mrs. Margaret Burke, St. David street.

City Basketball League Opening

Y.M.C.I. Intermediates Defeated St. David's; Y.M.C.I. Seniors Defeated Y.M.C.I.

35-CITY BASKETBALL—A large number of fans turned out to witness the opening games of the City Basketball League which were played in the Y.M.C.I. gym last night. The first game was between the Y.M.C.I. intermediates, who defeated St. David's by a score of 38 to 24. The second game was between the Y.M.C.I. seniors and the Y.M.C.I. seniors, who were defeated by a score of 44 to 38.

It's Nerve Force from Nuxated Iron

That helps make STRONG, MAGNETIC, FORCEFUL MEN, who make their way; mastering presence feel the moment they enter a room.

NUXATED IRON

contains the principal chemical constituent of active living nerve force in a form which most nearly resembles that in the brain and nerve cells of man. It also contains organic iron like the iron in your blood and like the iron in spinach, lentils and apples. Organic iron enriches the blood and plenty of rich red blood means more nerve force, so that Nuxated Iron not only feeds what might be termed the artificial nerve force to the nerve cells but it stimulates the blood to manufacture a greatly increased supply of nerve force. If you are weak, nervous or run-down, get a bottle of Nuxated Iron today, and if within two weeks' time you do not feel that your increased nerve force has made you feel better and stronger in every way, your money will be refunded, sold by all druggists.

Senior League

In the Senior game the Y.M.C.I. played a much stronger team last year and may be expected to play a strong team in this year's game. It is quite a spirited contest they were unable, however, to penetrate the Y.M.C.I.'s strong working machine, or to break down the combination for which the loss was noted.

The line-up of the two teams in the individual scoring for the Y.M.C.I. is as follows:

Forward: Flood (13), Bennett (18), Malone (18), McCleary (4), Lennon (3), Korrigan (2), H. H. Merceless.

Owner Gets Damaged For Loss of Horse

A decision by the Federal Court, Nashville, Tenn., awarded to W. F. Fadden, jurman of that city, \$25,000 damages in a suit against the American Express Company for the value of six horses killed near Cincinnati two hours after the Pennsylvania Railroad was derailed on July 7. The defense for the trial admitted the accident was due to a wind and this being an act of God neither the express company nor railroad could be held responsible.

Joe Wood May Replace Speaker

Cleveland, Nov. 23.—As O'Connell has been elected to the position of Speaker, Joe Wood may replace him. Joe is a member of the Cleveland team and has been playing in the Y.M.C.I. basketball league.

The defense for the trial admitted the accident was due to a wind and this being an act of God neither the express company nor railroad could be held responsible.

Joe Wood May Replace Speaker

Cleveland, Nov. 23.—As O'Connell has been elected to the position of Speaker, Joe Wood may replace him. Joe is a member of the Cleveland team and has been playing in the Y.M.C.I. basketball league.

Years

City Basketball League Opening

Y.M.C.I. Intermediates Defeated St. David's; Y.M.C.A. Seniors Defeated Y.M.C.I.

City Basketball League opening night was a large number of fans turned out to witness the opening games of the City Basketball League.

The Intermediates game, not withstanding the score, was a hard fought one, and will be remembered as a game of the season.

In the Senior game the Y.M.C.I. played a much stronger team than last year and may be expected to prove a strong opponent.

Italian Press Criticizes Hughes' Naval Proposals

Rome, Nov. 23.—A wave of criticism has followed the expressions of approval with which the press first received Secretary Hughes' proposal for disarmament.

Latest Betting In Old London

London, Nov. 23.—(Canadian Press) The Manchester Standard on Saturday next stands at 6 to 1 against Blundell; 10 to 1, Charlie Bumble; 100 to 1, Devine; 20 to 1, Bumble Bee; and 40 to 1 against Vol Vest Glove, Ticky and Welsh Woman.

HORSES COME AND GO, BUT NOW EXTERMINATOR GOES ON FOREVER

(By G. J. Fitzgerald.) New York—Thoroughbreds come and go, like Tennessee's brook, but Exterminator, the wonderful gelding by Moses, out of Fair Express, by Jim Dore, goes on his winning way season after season, displaying those splendid qualities which command the admiration of lovers of the thoroughbred world over.

Exterminator was bred by P. B. Knight, in Kentucky, and was sold at the Saratoga yearling sales, in 1915, to J. C. Milam for \$1,000. That owner, however, who trained Miss Joy and other good ones the past season, won two races out of four starts with him as a two-year-old, and gave him a preparation for the Kentucky Derby and his other engagements as a three-year-old.

How Exterminator won the Derby and beat Bobcat, War Cloud and others in the mud is history, and how he has gone on winning ever since is known to every student of the turf. He ran 15 times as a three-year-old and won seven races, while he took part in 21 races in 1919 as a four-year-old, and was successful in nine.

While he would not be classed as a champion horse, Exterminator has distinctive qualifications which are immediately apparent to all who know the points of a thoroughbred. His neck is long and symmetrical, and his head is broad with a beautifully modelled forehead.

Italian Press Criticizes Hughes' Naval Proposals

Rome, Nov. 23.—A wave of criticism has followed the expressions of approval with which the press first received Secretary Hughes' proposal for disarmament. The Italian press criticizes the proposals, stating that they would weaken Italy's naval power.

Joe Wood May Replace Speaker

Cleveland, Nov. 23.—As O'Connell has been elected speaker of the Cleveland club, it is considered probable that Joe Wood will be named to replace him.

Owner Gets Damages For Loss of Horses

A decision by the Federal court at Nashville, Tenn., awarded to W. W. Darden, trustee of that city, \$25,000 damages in a suit against the American Express Company for the value of six horses killed near Cincinnati when two horse cars on the Pennsylvania Railroad were derailed on July 7, 1915.

Bowling Results In Local Leagues

Ross Horses Lead In Money Earned

Waterloo Farm Second on the List—Increased Distribution of Prizes is Shown. As a field of racing Canada produced only \$49,950 more for owners in 1921 than it did in 1920, in fact, it has not been that the racing organizations of British Columbia resumed operations there would have been a decided falling off.

Exceptions were furnished by the ever-progressive and liberal Ontario Jockey Club by the Western Racing Association, both of which increased their offerings considerably. The O. J. C. distributed the magnificent sum of more than \$240,000 to owners of horses which raced at its course.

It is to be taken into consideration that the 1920 season was abnormal, and that the Canadian turf year was all that, and perhaps more than could reasonably have been expected.

It was given out early that the power of J. K. Ross would be the main part of its racing in 1921 to the Canadian course.

Montreal, Nov. 23.—The annual meeting of the National Hockey League will be held here on Saturday next. Discussion will be confined to routine business and new subjects which may develop.

Strangler Lewis Defeated Silva

Philadelphia, Nov. 23.—Ed (Strangler) Lewis, former world's heavyweight wrestling champion, defeated Justiano Silva of Montreal, in a one-fall match tonight. Lewis won with a double-arm lock in 17 minutes.

Ty Cobb Dickering For Two Infielders

Ty Cobb, who as a star player didn't believe in starting training until the eleventh hour, has reversed his tactics completely now that he has become a manager. He is training every day of the year. But there is a difference. It's not physical training as required of a player, but mental as required of a manager.

Rookie Catcher Taught Alexander

Some years ago, when the Phillies were ball players and not coaches, their catching staff was wrecked. Charley Doolin, the manager, broke his leg in St. Louis, and a week later Pat Moran threw out his arm trying to catch a double-header in Cincinnati.

Cycling 65,000 Miles Handcuffed

Denver, Nov. 23.—To every state capital in the United States handcuffed to a bicycle. That is the job of Tony Pizzo, 26, of Denver, has cut out for himself. It is a 65,000-mile trip and will take him two years to complete it.

He left Denver on Oct. 5, heading south. Austin, Tex., will be his first capital stop. According to Pizzo's schedule, he will visit the southern capitals during the winter months and ride north again next summer.

It is to be taken into consideration that the 1920 season was abnormal, and that the Canadian turf year was all that, and perhaps more than could reasonably have been expected.

Filipinos To Feel Out Harding On Independence

Manila, Nov. 23.—The Filipino representatives of the Philippines at Washington are being instructed by the Philippine government officials here to feel out President Harding relative to bringing the question of Philippine independence before the Disarmament Conference. In the event Mr. Harding is willing a resolution will be passed by both houses of the Philippine legislature for transmission to the conference through President Harding. The Philippines want America to get the other powers to agree that when independence is granted they will respect the independence and territorial integrity of the islands. The Filipinos desire that they at least be permitted to place a resolution before the conference expressing a desire to see the purpose of the conference realized for the sake of the whole world. The Filipinos are disappointed because they were not invited to send representatives to the conference.

Concealed Weapons Found In Dresden

Dresden, Nov. 23.—The proprietors and workmen of a Dresden factory who for more than a week had refused to permit the Entente military commission to conduct a search of the factory for concealed war material, whose assistance had been denounced to the Entente, finally gave way yesterday and Entente officers found in a walled up secret room of whose existence they had been informed, 150 barrels for field howitzers of the latest pattern. The event is significant because the

Buying of Liberty Bonds Featured New York Exchange

New York, Nov. 23.—Extensive buying of Liberty bonds at the year's highest quotations featured the day on the stock exchange, the share list showing no material alteration from recent professional and uncertain conditions. The demand for Liberty issues, which later extended to other bonds, notably several of the foreign war flotations, seemed to emanate from substantial sources and again was accompanied by indications of easier money.

Loans Eased

Demand loans opened at five per cent but the light inquiry at that figure soon forced the rate down to 4 1/2, with the usual easing from that quotation in private offerings. Much money was available for one to two month accommodations and concessions were made on high-grade commercial paper. Concurrent short selling and covering in stocks of the same descriptions made for confusion throughout the session. The only issues to register more than nominal changes, mostly upward, were specialties of the utility, chemical and minor industrial types. Dealings in rails were unusually contracted and many popular industrial, such as steels, equipments and motors, held within fractional bounds. White oils reflected profit-taking over the impending holiday. Sales amounted to 675,000 shares. Remittances to neutral countries, particularly Holland and Sweden, at gains of 15 to 20 points, featured the foreign exchanges. Sterling was firm, but rates to the other allied countries showed further heaviness. In addition to the five Liberty issues which scored maximum prices, French municipals displayed marked strength. Many domestic rails, especially convertible issues, were at their top prices. Total sales, par value, aggregated \$20,750,000.

CHANCERY COURT

In Chancery yesterday morning before Mr. Justice Grimmer application was made by T. P. Regan to sell real estate, and for the appointment of a trustee in the matter of the estate of John Thomas Humphrey, infant. The application was granted and Charles B. Humphrey, infant, was appointed trustee.

GOSSIP AROUND THE MARKETS

More outside attention will be given to the copper and oils in the next movement upward in the Stock Market, according to preliminary enquiries. Well informed interests in the automobile trade say there will be further elimination of small motor manufacturing concerns, with possibly lower prices in some directions before spring.

United States Imports on Crude

United States imports on crude material in October were valued at \$9,469,477 against \$8,169,268 a year ago. Exports were \$11,222,277 against \$7,631,047 in October 1920. Following request by Railroad officials for attention to tonnage matters, members of Shop Crafts Union seeks conference to discuss wage increase of five cents an hour.

Pierce Oil Corp's Has Advanced

Pierce Oil Corp's has advanced gasoline one cent a gallon in La. and Ark. districts. The market has slowed up somewhat due to tomorrow's holiday, but is strong throughout the list. Specialties such as D. S. U., A. C. D., R. S., and one or two others are being sold in many times, it would be natural to expect a reactionary tendency to prevail in the next few weeks and it is apt to do so, but so far, the market has merely paused around the present level, and shows no sign of declining far. For the long pull, I remain a confident bull.—E. W. Wagner.

Market Comments

E. P. Hutton and Co.—"We feel that the market is temporarily overbought." Josephthal and Co.—"We continue of the opinion that the oil and Public utilities offer the better opportunities for the time being." Halls and Steiglitz—"Copper stocks look best." E. W. Wagner and Co.—"Metal stocks policy has been to get a large turnover by creating the largest possible demand and towards that end their prices have been made attractive. Their contract with the Ford Motor Company of Detroit they have, as already said, the exclusive manufacturing rights in Canada and Detroit to not ship into Canada under free trade the effect would be that the company would escape the payment of the enormous amounts of customs duty to which we refer and which they have to pay on their imported raw materials and semi-finished products. It might be mentioned in conclusion that Mr. Henry Ford does not control the Canadian company. He owns only 10 per cent of the stock of that company. There are 1200 stockholders, most of whom are Canadians."

London, Nov. 23.—The physical character of this enabling Peruvian natives to carry 150 pound packs up sharp inclines at a high altitude without drawing a heavy breath is to be the subject of serious study by a combined expedition of American, Canadian and English scientists. The English members of the party, J. C. N. Barcroft and J. H. Duggan, both of Cambridge University, have called. They are to be joined in Peru by a

Attorney General Raney Guilty of Misrepresentation

Gave Price of Ford Cars in Canada as an Illustration of How Tariff Bleeds Canadians. Ottawa, Ont., Nov. 23.—That Attorney General Raney was guilty of misrepresentation when speaking at Winchester the other day, when he gave the price of Ford motor cars in Canada as an illustration of how the tariff bleeds the Canadian public, is shown by testimony presented before the Commission in the course of its inquiry last week. Raney sought to give the impression that the duty on a Ford car, imported from the United States, amounted to \$250, and that this amount was simply added to the price of the car bought in Canada.

The Facts, However, are These

That, under an arrangement entered into between the Ford Motor Company of Detroit, and the Ford Motor Company of Canada, the latter has exclusive selling rights for all Ford cars in Canada. The Detroit company does not and cannot ship cars to Canada, and a Canadian cannot buy a car from their factory. Consequently the tariff has no effect whatever as to with the increased price. The cars are found elsewhere. The facts, as presented to the Tariff Commission last year, are as follows: 1. That the Ford Motor Company of Canada, with a maximum production of 55,000 cars per annum, cannot and does not produce as cheaply as the Ford Motor Company of Detroit with a maximum production of 1,000,000 cars a year. 2. Further, the Ford Motor Company of Canada is required to pay customs duty on the value of every great and finished product imported into Canada from the United States, which adds to the cost of production in Canada over that in the U. S. Last year they paid by way of customs duties no less than \$2,624,103, equal to 4 1/2 per cent, and in the last ten years they paid over the value of \$10,000,000. 3. That the Ford Motor Company of Canada has not attempted to take full advantage of the protection afforded by the tariff. It has, in the last six years their selling prices compared with United States prices, plus customs duty affected a saving to the Canadian consumer of \$26,915,469, and in taxes to the Government \$9,000,000. They employ 4,155 people and pay an average wage of \$188 per month. As a third of their total business is export.

Eastport Man Is Victim Motor Boat Robbers

Eastport, Me., Nov. 23.—After a fish-selling expedition up the Saint John river, Daniel C. Barnes, of White Head, Grand Manan, this week, finally arrived in this city on his return, stating that he had been robbed of \$175 by masked men, who suddenly confronted him with revolvers and commanded him to hand over the money. He states his motor had stalled late in the afternoon of one of the days and was making repairs when he noticed the rapid approach of another boat, which bore no lights. With the muzzle of one of their guns within a few inches of his head, Mr. Barnes felt no alternative but to hand over his money, passing them a roll of \$175, but retaining \$10, which was in another pocket. The men boarded their boat and made off in the darkness. Party of five Americans and Canadians. The American members are coming from Columbia University. It is the purpose of the party to test the heart and lungs of the natives and to endeavor to learn the secret which enables them to perform apparently impossible feats.

Better Undertone On Winnipeg Grain Market

Winnipeg, Nov. 23.—With a better undertone to the entire local grain list, wheat showed further strength today after a higher opening and closed with a gain of 1 1/4 to 1 1/2 from the previous close. At the high of the day November touched 1.18 3/8. The two top grades of cash wheat were in demand today. Offerings were fair on the advance in futures, while the premiums were showing a narrower tendency at 2 cents over November for No. 1 Northern and 1 cent under for No. 2. A poor demand exists for No. 3 Northern. This grade is trading at the deliverable difference of seven cents under November. The demand for cash oats was not quite so strong, especially for the lower grades and spreads were reported 1 1/2 cents higher to 1 3/4 cent lower. Future coarse grains were all higher in sympathy with wheat.

Wheat Showed Further Strength After Higher Opening. Closing With Gain.

Rye, No. 2, 30.

Raw Sugar Market Remained Steady

New York, Nov. 23.—The early raw sugar market was steady at 3.87 to 4.11 for centrifugal. The committee reported sales of 18,500 bags of Cubas to output refiners at 2 1/2 cents, cost and freight, equal to 4.11 for centrifugal. Raw sugar futures were irregular, near months showing declines of 1 to 3 points under liquidation, while later deliveries were one to four points net higher on coverings and buying by commission houses. Refined sugar was unchanged at 5.90 to 6.30 for fine granulated. Refiners are still behind on local deliveries. Trading in refined futures were confined to the November position at unchanged prices.

Export Sales Boost Wheat Prices On Chicago Exchange

Chicago, Nov. 23.—Export sales at the Gulf of Mexico, with unexpected higher prices at Liverpool and Buenos Ayres, had a bullish effect today on the wheat market here. The close, though unsettled, was at 1 to 2 1/2 cents net advance. Corn gained 3/8 to 1 1/2 to 7/8 cent; oats 1/4 to 3/8 to 1 1/2 cent, and provisions 5 to 12 cents. Chicago, Nov. 23.—Close: Wheat, Dec. 1.10 3/8; May 1.13 1/4. Oats, Dec. 33 1/4; May, 33 1/4. Pork, Jan. 14.10. Lard, Jan. 8.82; May, 9.00. Ribs, Jan. 7.42; May, 7.80. Dr. Michael Clark Blossoms Forth As Great Prophet

Predicts Ninety-Six Seats for Liberals in the Eastern Provinces.

Nothing Should Occur to Prevent Better Feeling Between English and French People.

W. C. Michel, K. C., of Belleville, chairman of the "Better Understanding" movement has sent out the following letter to each of the candidates in the coming elections in the Dominion, requesting the candidates to urge their friends to do nothing that would prevent a "Better Understanding" between the English speaking and French speaking Canadians: "You may have heard that in the Spring of 1918 at the annual meeting of the Canadian Fraternal Association a movement was started for a "Better Understanding" between the English and French speaking Canadians. Subsequently a splendidly representative gathering of the members of the various fraternal associations of Canada was held at Belleville to further this movement, when the undersigned was elected chairman, and given authority to act in the intervals between meetings.

NEW C. P. R. BRIDGE PASSED INSPECTION

The new C. P. R. bridge at the Falls was inspected and passed yesterday morning at 10 o'clock by Chief Engineer Mountain of the Railway Commission. At 9:30 a special train consisting of a locomotive and three passenger coaches left the Union station for the new bridge and travelled out on the structure. Murray Campbell was engineer and J. C. Johnson, conductor on the special. In the inspection party, besides Chief Engineer Mountain, were the following: J. M. R. Fairburn, chief engineer C. P. R.; P. P. Moley, chief engineer of bridges, C. P. R.; George Whitlock, assistant superintendent of motive power, and the following local officials: General Superintendent Woodman, and Messrs Sewell, DeBrisay, Fraser, Kirby, Ryan, Pickwell and Simpson.

Urges "Better Understanding"

"Judging by newspaper reports of speeches, there has been a tendency in the past, on the part of some speakers to use language that is calculated to create bitterness and prevent a 'Better Understanding'." The Hon. Jacques Bureau speaking at a notable gathering in Ottawa on the 6th of August, 1919, said: "Let us close the gates of time against the past and live for the progressive future. Love and unity are the best for all."

FUR GARTERS ARE FASHION'S LATEST

Dame Fashion's latest fad is garters of fur, which are being made of caracul, seal or broadtail, or any other kind of pelts to match the wearer's suit, coat or dress. The garters are made without shirring the fur. Just the elastic is covered with the proper length of fur and trimmed with a bow of ribbon or velvet. Miss Vivian Spencer, of the "Whirl of New York," while in Chicago, wore a pair of these with rolled socks.

THE WEATHER

Toronto, Nov. 23.—During last night the weather moderated a little in the Western Provinces, while from Ontario eastward it became colder. Present indications are, however, that the temperature will again become severe in the West, and that an important disturbance will develop in the Mississippi Valley.

Forecast
Maritime—Fresh northwest and north winds, fair and cold. Northern New England—Snow or rain and somewhat warmer Thursday; Friday clearing. Fresh easterly winds.

AROUND THE CITY

HERE FOR WINTER
Some of the traffic and customs staff of the Canadian Government Marine Limited, transferred here from Montreal for the winter port season, arrived last night, and others will arrive today. The cashier's staff will not arrive until later.

SEIZED WITH CONVULSION
Alfred Jones, 10 Kitchener street, a boy employed in the Cornwall Cotton Mill, was seized with a convulsion yesterday morning, while at work. He was removed to the hospital, where he soon recovered consciousness, and is improving.

THE WINDSOR HALL
J. H. Duddy returned to the city yesterday from Fredericton where he has been on business in connection with the purchase of Windsor Hall Hotel. Mr. Duddy said that, while no definite decision had been made as to the purchase, everything looked favorable for the completion of the deal within a short time.

DOMINION FAIR
Last evening's prize winners at the fair being held by Dominion Lodge I. O. G. T. No. 45 were:
Door prize, a ham, won by Miss Carrie Duncan, with ticket No. 45; gent's bean toss, a silk umbrella, Fred Duncan; ladies' bean toss, fancy center piece, Miss Gladys Duncan.
Tonight's door prize will be a palliard.

EDUCATIONAL CAMPAIGN
The local Compensation Board is carrying on an educational campaign on first aid and safety first in prominent manufacturing plants throughout the city. The classes are in charge of John Redfern. Some of the classes are held at noon hour and others in the evenings at the office of the Compensation Board.

REAL COLD SNAP
A real breath of winter struck the city yesterday with the thermometer around twelve degrees below zero and a chill, biting northwest wind blowing. It would be cold enough if one was prepared for something of the kind, but after the warm weather of nearly a week, this blast from the north has redoubled effect.

ON INSPECTION TOUR
Fire Chief Blake, Building Inspector James Carleton, and Factory Inspector John Kenny are engaged in a city-wide inspection of fire escapes in hotels, schools, factories and public buildings. The officials are making a thorough inspection and in a number of cases have found where improvements in details would afford more satisfactory protection in case of fire.

RECEIVED MEDALS
Mrs. M. J. Ramsey, 579 Main street, has received the general service and victory medals with ribbons, won by her husband, Corporal D. W. Ramsey, who was killed in action on March 28, 1918. He was an original member of the 24th N. B. Battalion.
Mrs. Letitia Quigley of 82 Prince Edward street has received a bronze medal from King George in memory of her son, Charles Valentine Quigley, who died of wounds received in action. The medal is about five inches in diameter and bears an image of Britannia and the lion, with the name of Private Quigley engraved. Around the outside edge are the words "He died for freedom and honor." The medal was accompanied by a letter from the king at Buckingham Palace. Private Quigley was a member of the 24th Battalion.

VOTERS' LIST
During the two registrations which have been held recently in the city about 2,900 names have been added to the voters' lists. This number, added to the list of 24,840 names contained in the revisors lists will bring the total number of voters in the coming election in the city up to more than 26,000. This will necessitate the opening of additional polling places. The number of voters added to the list throughout the whole constituency of St. John-Albert has not yet been made up.

When the writ for the election was issued there were 123 polling stations in the two counties. Eight more were immediately added, and since the registration, two more have been arranged for. Sheriff Wilson states that he will likely have to provide for another one which will bring the total to 134. Of these 47 are in the city of St. John.

SAW MAN BELIEVED TO BE PARIS WITH TWO GIRLS IN PARK AUG. 2

Alexander Day Gives Important Evidence for the Crown in Murder Trial Yesterday—Other Witnesses Testify to Seeing Accused in City on August 1st, 2nd and 3rd.

Interesting evidence was given for the Crown yesterday in the case of John Paris charged with the murder of Sadie McAuley. Alexander Day, a team owner of the north end, said that on August 2 he saw a man who looked like the accused and whom he believed to be Paris, following two little girls near the place where the body of little Sadie McAuley was found. Evidence of other witnesses who gave testimony at the previous trial was also taken. Hon. J. P. Byrne, attorney-general, and Dr. W. B. Wallace, K. C., conducted the prosecution, while G. H. Vernon, of Truro, represented Paris.

Other witnesses testified to seeing the accused in the city the day before the murder, the day the little girl was killed and the day following. The case will be resumed this morning.

Mrs. Bertha Craft, wife of Frank Craft, 181 Water street, West St. John, testified she resided next door to Paris, that she saw him there on the morning and evening of Aug. 2, she told of her brother and Paris conversing regarding the Cushing mill. The following day, Aug. 3, was her son's birthday, and on that day she saw Walter Humphrey and Paris cross the river in a boat. She also saw Paris on Aug. 1.

Witnesses Saw Paris.
Alfred M. Byers, of Harding street, Fairville, brother of the previous witness, told of the fire at the Cushing mill on Aug. 2. He went to the fire in his bicycle, then wheeled to his sister's in Carleton. He said he saw Paris there between 7 and 8 o'clock. He wore khaki trousers and a light hat with a dark band. He had a light growth of beard and mustache. Ernest Campbell, 153 Water street, West, laborer, said he talked with Humphrey on the morning of Aug. 2. Paris, he said, came along and the three talked about the Cushing and Brittain fires. He handed a bowl on Paris' arm. Paris and Humphrey then went towards the river. Around noon, he said, he saw Humphrey again.

William Sweet, scowman, 33 Watson street, West, said he saw Paris on the evening of Aug. 3, on the Strait Shore below Warner's mill. The witness said he rowed from the Carleton side to the St. John side and brought Paris back to Carleton. Paris wore a blue suit.

Stanley Humphrey, 133 Prince Street, brother of Walter Humphrey, said he saw Paris and spoke with him on the morning of Aug. 3. John Best, 162 Water street, said that on the morning of August 2, he saw Paris and Humphrey in a boat crossing the river towards Warner's mill.

Robert A. Elliott, 47 High street, said he worked with Joe Levine in Bonty street on Aug. 2. Levine's daughter, Hattie, and another little girl went picking berries near the Hill-yard property, but only the little Levine girl came up the hill afterwards. He related his conversation with her about a man who offered the girls berries.

Mrs. Ella Byers, Harding street, Fairville, wife of Alfred Byers, said on the night of the Cushing mill fire she saw the accused dressed in khaki trousers and light shirt.

Alexander Day.
Alexander Day, team owner, 72 Adelaide street, said that on Aug. 2 he was picking up some equipment for the power company. He said he saw a man who looked like Paris standing near Murray & Gregory's road in Douglas avenue. This was between 11 and 12 in the morning. He fixed the date as he was breaking in a colt in double harness on the avenue work.

From the path where the man was seen standing, he said he could enter the park after going over the wall. Looking at the accused, the witness said he looked like the man he saw on Aug. 2, and he believed it was the same man.

The witness said he also saw two little girls, one a little lame, followed by the man whom he believed was Paris. The man had on khaki trousers or overalls, a light shirt, a light hat with dark brown or black band. He said a hat produced in court was similar to the one worn by the man. The witness said the man had a light mustache.

Frank J. Brown Was Shot In The Neck

Watson Power Pulled Trigger of Revolver Thought to be Empty.

A shooting accident happened yesterday afternoon between 1.30 and 2 o'clock at the home of Watson Power, 28 Brook street. Power had a United States 38 calibre revolver which was thought to be empty. He twirled the cylinder around and pulled the trigger, there was an explosion and his thumb, Frank J. Brown, 23 years of age, of 48 Brook street, who was sitting next to him, received the bullet in the neck. Dr. Dalton was informed and ordered the injured young man taken to the hospital.

The bullet entered the side of the neck and lodged in the vertebrae. His condition was regarded as quite serious last night, and it is expected that he will be operated on this morning. The affair was purely accidental, as Power and Brown have always been the best of friends. They have been pals, they were in France together during the war, and have been together since their return.

Watson Power is being held by the police, more as a formality, until Brown's condition is settled.

Students Argue Interesting Case

An interesting civil case involving an action in Tort for damages sustained in an alleged automobile collision at the corner of King and Germain streets, was argued in the King's College Law School by the law students last night. The facts of the case were: "A" driving down King, turned left at the corner of King and Germain, but blew his horn. "B" entering King from Germain did not sound his horn, but gave the signal. "A's" steering gear broke, and "B," increasing the speed of his car to avoid being hit, collided with "A." "B" had stopped his car, the collision would not have occurred. The defect in "A's" car was unknown to him, though apparent for two months.

The plaintiff, "A," brought action for damages and the defendant, "B," counter-claimed. The witnesses were examined and cross-examined by the respective counsel, after which the jury was addressed by Mr. Davidson for the defence and Mr. McInerney for the plaintiff. The jury was then charged by the judge and rendered a verdict for the plaintiff on the defendant's counter claim, and for the defendant on the plaintiff's claim on the grounds that both were equally negligent.

At the close of the case a vote of thanks was tendered to Mr. Teed, lecturer on practice, for his kindness in acting as judge, and for his constructive criticism which was much appreciated.

The officials were:
Judge—J. F. H. Teed.
Clerk and registrar—D. G. Willott.
Court crier—R. W. Seeley.
Plaintiff—J. R. Kelley.
Defendant—E. B. McLatchey.
Counsel for plaintiff—C. D. Knowlton and Ralph G. McInerney.
Counsel for defendant—W. H. Davidson and H. D. Hopkins.
Witnesses for plaintiff—George F. Holley, Stephen G. Mooney.
Witness for defendant—L. Grant Gilbert.

Victoria Ward
Victoria Ward workers favorable to the National Liberal and Conservative party asked to meet in Victoria Rink Monday evening, Nov. 14, at 8 p. m., and thereafter for organization and ward work.
