STRONG EVIDENCE AGAINST DR. McLEOD

Crawford and Howard Plead Guilty and Turn State's Witnesses

Former, on Stand, Swears Boston Physician Planned the Dismembering of Susan Geary's Body and How to Dispose of It—Good Progress Made at Trial Monday, and Many Witnesses Forge a Chain Around Former Kings County Man.

DR. PERCY D. McLEOD.

Boston, Nov. 27.—(Special)—Judge Stevens and a jury started this morning upon the formal judicial inquiry into the death of Susanna Agnes Geary, the victim of the so-called "dress suit case mystery," for the purpose of placing the responsibility thereon, and made such rapid progress in the investigation that, before the day's work ended, a jury had been impaneled, two of the three defendants at the bar, Louis W. Crawford and William E. Hunt, alias Howard, had pleaded guilty to being accessories after the fact, and Dr. Percy D. McLeod, formerly of Kings county (N. B.), was the sole defendant at the bar.

Dr. McLeod was also charged with being an accessory, the principal in the case, according to the indictment, being Mary S. Dean, alias Dana, alias Gilchrist, who has not yet been apprehended. Dr. McLeod is represented by Yancy, Innes & Mansfield who defended Charles L. Tucker at the murder trial.

Dr. McLeod, being out on bail, had a seat outside the bar enclosure, and near him sat his wife, who came into court with him. Before adjournment was taken for the day, twenty-five witnesses had been examined. Among these were Crawford, one of the defendants, who said that Dr. McLeod not only suggested dismemberment but delivered to him at 68 Winthrop street, where the girl died, the suit cases containing her dismembered body.

SIR EDWARD GREY AGAINST HIS LEADER

Repudiates the Idea of Irish Home Rule as Announced by Sir Henry Campbell-Bannerman—Austen Chamberlain Says There is No Split in the Cabinet.

London, Nov. 27.—Lord Rosebery's emphatic repudiation, in his speech at Bodmin, Cornwall, of the home-rule policy of Sir Henry Campbell-Bannerman, leader of the Liberal party, as outlined by that statesman when speaking at Strirling (Scotland), Nov. 23, which seems to have widened the breach in the party at the moment when a dissolution of parliament is threatened owing to the split in the Unionist party over the fiscal question, is the latest sensation in the political circles of the United Kingdom.

STRIKE CRISIS PASSED; LONGSHOREMEN LOSE

All Lines Unite to Give No Increase Over Last Year's Figures

Suggestion of Compromise on Basis of Portland Rates Rejected by Donaldson Superintendent—Forty-two More Men Arrive, Forty More Now on Way, Forty-five More to Leave Montreal Tonight—Port Can Not Let Business Go, or Men Allow Outsiders to Do the Winter's Work—Steamship Companies Claim Strike is Broken; Laborers Still Declare They Will Hold Out—Mayor Won't Pre-empt at Meeting.

The turning point in the strike has been passed. The longshoremen, whether they realize it or not, have lost the battle. The steamship companies have demonstrated that they can get along without the local union. With the men who arrived yesterday and who will arrive today and tomorrow the companies can handle the vessels in port and such others that are coming, some of which will discharge at Halifax all but a little of their cargo.

MONTREAL TURNS DOWN CARNEGIE LIBRARY

Question of Clergy Censoring Books and Location of Building Lost the \$250,000 Offer.

Montreal, Nov. 27.—(Special)—The city council has killed the by-law passed more than two years ago, for receiving \$250,000 from Andrew Carnegie for the establishment of a public library. The question of the clergy censoring the books and the location of the building has been the subject of the library building, which killed the scheme.

THEY NEED WORK

The following incident gives some indication of the feeling among members of men in the Longshoremen's Association: A "long" man called at the house of a well known citizen last evening and asked for some assistance. He had been standing, he said, about Water street all day, and was suffering from cold. He, with many other members of his association, was willing and anxious to go to work at the old rate. It was the general feeling of the union with money and property behind them who were holding out and compelling the others to go with them. It may be added that money was given him to assist him over the present crisis.

HOW THE SHIP LABORERS' UNION RUINED QUEBEC PORT

Vessels Forced To Withdraw

Exorbitant Demands of the Men and Their Bull-dozing Tactics Killed a Once Splendid Business--A Warning to St. John.

Quebec, Nov. 25--There are two sides to the story of the ship laborers and the port of Quebec. The former obtained incorporation many years ago as a benevolent association, authorized to make by-laws, etc., and these by-laws have been made to apply to the rate of wages, hours of labor, and other conditions of work, which it is claimed by shipping merchants have resulted in driving most of Quebec's shipping business away from it.

STEAMER SICILIAN LANDS 1000 TONS OF ST. JOHN CARGO AT HALIFAX ON ACCOUNT OF STRIKE.

Halifax, N. S., Nov. 26--(Special)--The Sicilian, the second mail boat of the season from Liverpool and Moville, arrived here at 11.30 Saturday morning, after a splendid run. She brought ten saloons, eighty-four second cabin and 238 steerage passengers, 106 for United States points, and the rest for Canada.

STRIKE SITUATION BECOMES MORE TENSE

C. P. R. Said to Have 300 Montreal Union Longshoremen for Their Steamers

The strike situation was more tense yesterday and more of the element of excitement entered into the developments of the day. But the general summing up last night shows the opposing interests still arrayed on either side of the dividing line, each claiming satisfaction over the progress of events.

some means were to be taken as suggested by an evening paper to ascertain by secret ballot, the individual opinion of the laborers of the Longshoremen's Union. And I think if this were done, you would find that eighty per cent of the men were willing to come back to work.

It was said yesterday that the C. P. R. have completed arrangements for three hundred members of the Montreal Longshoremen's union to give them work all year around. The season in Montreal is about finished and the contract is said to be on the basis of the summer rate at Montreal, and the 30 cent here in the winter season.

As to Licenses for the Sailors. In reference to the question of the right of crews of the steamers to do the unloading and loading without license a delegation of the Longshoremen's Association consisted Geo. V. McInerney, K. C. P. R. and on his advice called upon Mr. Kelly, subsequently had an interview with the recorder, and the case was presented for his consideration. The recorder will give his opinion this morning.

Even if the crews were paid an additional wage, he said, it could merely be regarded as a means of livelihood. An almost parallel case, The Telegraph's informant added, could be found in the employment of a railway company putting men in foreign territory.

Removal of the Fences; Arbitration Favored by Board of Works. At a special meeting of the board of works yesterday morning it was unanimously decided that the fences at Sand Point, ordered up at the previous meeting, should be at once removed and a resolution urging arbitration was passed.

It is understood that the Head line steamer Bengore Head, will be worked by the Longshoremen at the 35 cent rate. The South African steamer Oriana and the Furness liner Evangelina, both due here now will also probably pay the 35 cent rate.

It was not within his province to say. The chief of police said he had advised the barricades and thought they had done good work. He was satisfied there would have been trouble if they had not been erected. He would not recommend their removal. His men were now working day and night but he was able to keep the city quiet.

Ald. Baxter advocated the removal of the fences at the present time but when the trouble had quieted down would vote for proper fences and gates.

More Men Arrive. Another lot of men, numbering 43, arrived at noon Monday from Montreal, and all but one were safely secured by the steamship men.

The majority of the Longshoremen, thinking the laborers would be taken directly over to the Alcides, rushed to the C. P. R. wharf where the tugboat Lord Roberts was in waiting. The steamship men had erected a bank movement and taken the laborers through the sheds and on board the Sicilian which had just arrived, from here. Two gangs were afterwards put on board the tug and taken over to the Donaldson line Alcides.

Charlotte, the Fifteen-year-old Daughter of Wm. B. Fawcett, Shot Herself in the Breast and Will Likely Die. Sackville, Nov. 25--Upper Sackville was the scene of a tragic event last evening. Charlotte, the fifteen-year-old daughter of Wm. B. Fawcett, shot herself in the breast.

Interviewed on the situation he said:-- "We could get all the men we require at the thirty cent rate, and will do so if the local men persist in their refusal to work for the rate which prevailed last year."

The members of the association are certainly standing in their own light, as the result of their action will be that we will discharge all our western freight at Halifax instead of St. John. Halifax is a much cheaper port in every way. The rate of wages is lower and the other charges and expenses less. We would, however, prefer to give St. John all the business."

Mr. Allan was asked today what he had to say in reply to the stevedores' offer to take contracts at the same rate per ton or standard as is paid in Portland, and they would pay the men thirty-five cents per hour.

Sackville Girl Attempts Suicide. The unfortunate affair occurred about midnight. She placed the muzzle of the gun to her breast and discharged its contents, inflicting a terrible wound. Drs. Calkin and Secord, who were summoned immediately, consider the case a hopeless one. Temporary insanity is assigned for the rash act.
