### TOWN COUNCIL.

Special Meeting Held on Tuesday Evening.

#### NEW TOWN MARSHAL

Report of Police Magistrate Showing Fines Collected \$327.50

A meeting of the Town Council was held on Tuesday evening. Present—Couns. Taylor, McLennan, Blackhall, Joudry, Andrew, Vantour and Miller.

Coun. Taylor was appointed to the chair in the absence of the Mayor and Deputy Mayor.

A communication from David K. Cool offering to sell a lot of land on Water St. to town was referred to Public Property and St. Com.

Mr. James Reid, M. P., was appointed to represent the Council at the meeting of the Canadian Association for prevention of Tuberculosis to be held at Ottawa on 18th and 14th March.

The report of Police Magistrate Matheson from Sept. 5 to Feb. 13 was read, showing amount of fines collected \$327.50 and costs amounting to \$27.65.

Coun. Vantour from the Fire Com. reported on the claim of H. R. Murray for loss of furniture and hotel business by fire, recommended that same be not entertained. Report adopted.

Mr. Donald McBeath was appointed a Measurer of Fuel.

Coun. McLennan from the Police and License Com. recommended that Adam Dickinson of Chatham be appointed Town Marshal for Campbellton at a salary of \$55.00 per month, his duties to commence April 1st.

Report was received and adopted. Mayor Murray and Couns. Taylor and Blackhall were appointed a committee to prepare draft of bill for presentation to the legislature.

The following report of a committee of the N. B. Board of Underwriters on the Commercial Hotel fire was read and ordered to be filed.

Your committee, in accordance with instructions contained in the Board Minutes of 24th December, 1906, have carefully investigated the various statements made regarding the fire which totally destroyed the "Commercial Hotel" at Campbellton, N. B., on the 10th December, 1906 and report as follows:

1st. That none of the Fire Hydrants were frozen at the time the fire occurred. That they are drained dry at a depth of six feet below ground and are regularly tested during the winter, daily during mild weather and twice daily during severe weather.

2nd. That the report respecting the Fire Department having been obliged to excavate a trench under the line of the Intercolonial Railway, in consequence of the I. C. R. refusing permission to pass the hose over the line.

(Continued on fifth page.)

### Your Doctor

Can cure your Cough or Cold, no question about that, but why go to all the trouble and inconvenience of looking him up, and then of having his prescription filled, when you can step into any drug store in Canada and obtain a bottle of SHILOH'S CURE for a quarter.

Why pay two to five dollars when a twenty-five cent bottle of SHILOH will cure you as quickly?

Why not do as hundreds of thousands of Canadians have done for the past thirty-four years: let SHILOH be your doctor whenever a Cough or Cold appears.

SHILOH will cure you, and all druggists back up this statement with a positive guarantee.

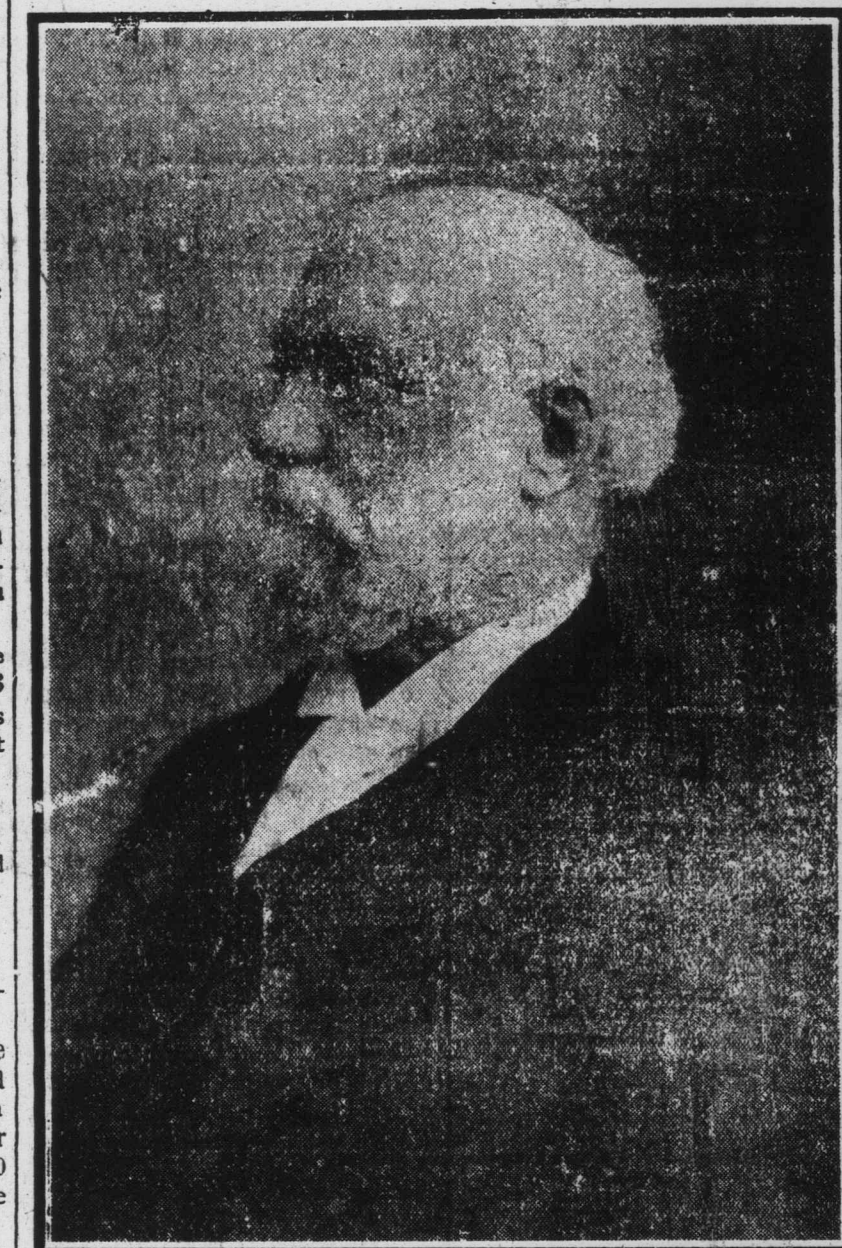

The next time you have a Cough or Cold cure it with

**SHILOH**

### Governor Snowball

#### Falls Dead in Street.

Veteran Business Man and Prominent Political Leader Goes to His Long Rest.

Hon. Jabez Bunting Snowball

lieutenant-governor of New Brunswick, dropped dead in Fredericton at 6.55 Sunday evening, while on his way to church. He had not been in very good health for some time past, but up to the last he was able to attend to his official and social duties. During the week he attended the forestry convention and at each and every session was a prominent participant.

At the reception on Thursday evening Gov. Snowball, with the members of the government, received the guests at the parliament building and had a happy greeting for every one. Saturday evening his honor gave the usual weekly state dinner at the Queen's Hotel, and those who were present speak of the governor as being in the best of spirits and a most genial host. He seemed apparently in excellent health. Sunday morning he rose at the usual hour and after breakfast walked to the morning service at the Methodist church. That afternoon he rested quietly in his room in the Queen's Hotel. About a quarter to seven in the evening, accompanied by his faithful attendant, Fred McKenzie, he started from the hotel for the cathedral, walking down Queen street, as was his custom, at a brisk walk. When he had reached the corner just above the cathedral, he turned and said that he thought he had walked too rapidly and was not feeling well and that he had better return home.

Mr. McKenzie took his honor's arm and the two turned and proceeded back towards the Queen. Soon the governor collapsed and fell over into Mr. McKenzie's arms. Mr. McKenzie supported him against the snow bank of the road and sent word to the Queen by a boy who happened to be passing for them to send for a doctor. The boy delivered his message to Mr. McCafferty, the latter telephoned Drs. Atheron and McGrath, and Mr. Osman, M. P. P., and John Sullivan of the hotel staff started down at once to assist Mr. McKenzie. With him

they carried the governor up to his room in the Queen.

When the doctors arrived they found life extinct. Death must have followed within five minutes from the time of collapse, a case of heart failure. The governor had been suffering from grippe for the past two weeks, and the physicians said that grippe often resulted in sudden heart failure as in his case.

Premier Tweedie, who was in Chatham, was notified at once, as were the deceased's family and Sir Wilfrid Laurier. Mrs. Snowball and daughter, Miss Lillian, were visiting in Toronto, where his honor proposed joining them in a few days.

The body was taken home by special train on Monday.

On the 5th instant, Hon. J. B. Snowball had completed his five years as governor. He was born in Lunenburg, N. S., on Sept. 24th, 1857, his father being the Rev. John Snowball, Methodist Minister. When quite young his family moved to Newfoundland, where they remained for eleven years. He was educated at Mt. Allison, where he graduated, and in the meantime his father was transferred to Chatham. He continued on last page.

### PREMIER'S SPEECH.

At The Forestry Conventing Last Week.

Lumber has been and for a long time must continue to be the principal source of our export trade. Indeed if the hopes of those who are promoting the Forestry Convention are realized, lumber will never cease to be a large source of revenue to New Brunswick. Nearly the whole of our territory was at one time covered with magnificent forests and this attracted the attention of the French Government which required large Pine trees for the masts of its navy. More than two hundred years ago masts were being sent from the St. John River to France for the use of the French Navy and when the country came into the possession of the English, the same business was continued on a still larger scale and the ships that carried the Flag of England all over the world and which fought at Camperdown, the Nile and Trafalgar, were supplied with masts and spars from the forests of New Brunswick. For many years after the foundation of the Province large areas of territory in this province were held as Crown reserves for the supplying of masts to the Navy and many complaints arose in consequence from persons engaged in the lumbering industry who maintained that many of these reserves were improperly closed to the lumberman and the settler.

The lumber trade of this Province was at first confined to the export of pine timber to Great Britain and this trade grew to large proportions after the close of the Napoleonic Wars. As the Crown Lands of the Province were under the control of the British Government until the year 1833, we have no statistics available of the export or production of lumber during the early part of the nineteenth century.

The Custom House was also under the control of the British Government, but in 1821 during the session to the Legislature, a motion was carried in the House of Assembly for an address to the Lieutenant Governor praying that he would be pleased to order to be laid before the house, an account of the entries of all ships and vessels together with an account of all goods, wares and merchandise imported and exported at the different ports of this Province during the past year. At that time there was but one port in New Brunswick, that of St. John, Miramichi, St. Andrew and other ports being merely out-ports. The Government sent in the returns for the years 1819 and 1820 and from this it appears that in 1819, 247,394 tons of pine lumber were exported (Continued on fourth page)

Practically all makers of good clothes in Canada use Hewson Tweeds. Look for the tag that guarantees PURE WOOL.

## Bargains in Glassware

We have just received a large assortment of Glassware which while it lasts will be the biggest value for the money, ever offered in town. It includes Sugar bowls, Cream pitchers, Spoon holders, Butter coolers, Pickle dishes, Glass bowls, Spoon trays.

You have your choice for only 10c each. Large half-gallon glass water pitchers, 15c each.

**W. H. Marquis & Co**

## Indigestion

Stomach trouble is but a symptom of, and not itself a true disease. We think of dyspepsia, flatulency, and indigestion as real diseases, yet they are symptoms only of a certain specific nerve sickness—nothing else.

It was this fact that first correctly led Dr. Shoop in the creation of that now very popular Stomach Remedy—Dr. Shoop's Restorative. Going direct to the stomach nerve, alone brought that success and favor to Dr. Shoop and his Restorative. Without that original and highly vital principle, no such lasting accomplishments were ever to be had.

For stomach distress, bloating, biliousness, bad breath, and salivary complaints, try Dr. Shoop's Restorative—Tablets or Liquid—and see for yourself what it can and will do. We sell and cheerfully recommend.

## Dr. Shoop's Restorative

A. McG. McDONALD.

### Driven to Drink

Many a good man has been by home laundry work, with lumps of starch and waves of blueing decorating his shirt front, and saw edges on his collar to annoy him. It makes his heart glad when he can see his linen immaculate and find with a snow white color and artistic finish that he can have put on by extending only a few cents. It is worth dollars in comfort and satisfaction to have your linen laundered at the

### FOURTEEN KILLED.

### Pennsylvania Railway Train Goes Over Embankment.

Pittsburg, Pa., Feb. 28.—The "Pennsylvania Special," the Pennsylvania Railroad's fast train between New York and Chicago, was wrecked a few minutes after midnight to-day while rounding a sharp curve at Black Diamond, Pa., about seven miles east of Johnstown. The train was westbound and was running 35 minutes late when the accident occurred. At 8 o'clock this morning it was known between 30 and 40 persons were injured, many of them seriously. Some twelve persons are said to be missing and they are said to be buried under the train. The following are among those probably fatally injured taken to a hospital at Altoona, Pa.: Samuel F. Nixon, of Nixon, and Summerman, theatrical proprietors, fractured skull and fatality injured and taken to Altoona. T. Wood Wilson, Marion, Ind., serious; About 25 of the injured passengers were brought to this city on the first section of the St. Louis express which arrived here at 5.30 o'clock. Ambulances from the McKinley General Hospital met the train at the Union Station and the seriously injured were taken to that institution. Many of the injured were foreigners and most of these were given medical attention in the Union Station. J. J. Kerr of Chicago in speaking of the accident, said: "As near as I can judge we were going at the rate of fifty miles an hour. When the train struck the curve at Black Diamond there was an awful jar the engine and smoker remained on the track, but all the Pullmans went over a sixty foot embankment. There are probably a number of passengers beneath the wreckage."

**Another Great Discovery.**  
A well known gentleman in Black Bay, Ont., Mr. John Cowan, has discovered an absolute specific for Rheumatism, and writes: "I was afflicted with Sciatica and chronic Rheumatism which I contracted years ago. The disease had a great hold in my blood, and it was hard to make any impression on it. Reading of Ferrozone I was convinced of its merit and it's certain the best I have ever tried. Why it just drove away the Rheumatism. Even stiffened old sufferers will experience quick results. The reason is that Ferrozone acts through the blood and thereby destroys the cause of the disease. Price 50c per box at all dealers."

### HYMAN WILL

### RUN AGAIN

London, Feb. 23.—Hon. S. C. Hyman was unanimously chosen by a mass meeting of Liberals Friday night in Hyman Hall, as their candidate for the forthcoming by-election. Chairman Gibbons announced that Mr. Hyman would not be able to take part in the election.

### FIRE AT MONCTON

The most serious of the recent epidemic of fires in Moncton occurred Thursday evening, gutting three business establishments in the central business portion of the city, as well as the residences above the stores. The fire, breaking out in the rear of McDonald & Bourgeois' tailoring store on Main Street near the corner of Botsford, spread into Miss Magee's restaurant in the same building, and also into the building directly west, occupied by Forbes & Charters. All the losses, which will total in the vicinity of five or six thousand dollars, are covered by insurance except the damage in the residence of Mrs. Cole, over Forbes and Charters' store.

The alarm was sent in from Box 23 at the foot of Botsford street, and the firemen made a quick response. The chemical engine with its short run from Mechanic street, was the first to arrive on the scene, and the flames were then pouring out the back of the McDonald building occupied by Miss Magee's restaurant, and the McDonald & Bourgeois tailoring shop, while the F. Jones building in which Forbes & Charters establishment is located was also in flames. The chemical preparation had some little effect in staying the flames, but they had already made good headway inside and the real work of fighting the fire began with the arrival of the apparatus.

The two steamers were quickly in action, pumping heavy streams of water onto the fire. One engine was located at the foot of Botsford street, the other at the corner of Wesley. Ropes were passed across the streets but had little effect in keeping the crowd back, many being anxious to get inside to aid in carrying the goods from the different stores in the burning buildings crowding so closely that the firemen were seriously hampered.

The fire was extinguished after a three hour fight. The hardest part of the firemen's task was in the ell on the rear of Forbes & Charters' building. The firemen were stationed upstairs, on the inside and had a stiff fight with the flames, which, as quickly as they were extinguished in one place, broke out in another. The smoke was very dense in this part of the building and the heat intense but the firemen worked vigorously, chopping away portions of the wall clearing out the window sashes, and finally getting the blaze under control. Heavy streams of water had been kept on both buildings all through, and by the time the fire was finally extinguished, the buildings had been pretty thoroughly waterlogged. The water did a good deal of damage to the stock in the stores, especially so in Forbes & Charters' establishment, where the goods suffered by rough handling. The firemen were successful in keeping the flames confined to the rear portions of the buildings and the only damage in the front is by water, and breaking of glass.

### GASPE.

As some time has elapsed since any news from this district has appeared in the columns of our local paper, I will endeavor to send a few items which I trust may be of some interest to our readers.

The winter here as throughout the Dominion has been a severe one with regard to cold weather, the average for the month of January being 17½ degrees below zero. The past week has been milder and by a somewhat higher temperature, with occasional snow flurries making the main roads in bad condition for travellers.

Mr. Chas. Patterson returned home on Sunday reporting a hard time from a trip to New Carlisle with Richard Mullen and son who are on their way to their home in the west after spending a few weeks here among friends and relatives.

The grim reaper "Death" has visited various homes in this locality leaving behind its train of mourners. Mr. Richard Patterson an old resident of Gaspe Bay South was laid in his last resting place a few days ago, also Mrs. Wm. Patterson and Mr. Horatio Davis of York died quite recently.

Much anxiety was felt for some time owing to the outbreak of Diphtheria at Fox River. We are happy to say that by stringent means of the Board of Health it is being gradually stamped out but not before carrying off several young children.

Although the winter has been and for some it has been pleasant and enjoyable for others as numerous parties and entertainments of different kinds have taken place during the past month. A concert and tea was held in the hall at Grand Gorge on the night of Feb. 8 and was largely attended the sum of \$72.00 being the amount realized proceeds in aid of the school at that place. On Feb. 17th a tea was served at the home of Mrs. P. Coffin under the auspices of the Ladies Guild St. Matthews Church.

We are pleased to note that Mr. Alex. Asch of Peninsula who has been confined to his bed by a severe illness is regaining health.

An accident which might have proved fatal is the case of Mr. E. Coffin. His son Allan was fooling with a rifle not knowing it was loaded when it suddenly discharged, the bullet striking his father in the heel and coming out the sole of his foot. Medical aid was summoned and the wounded party was attended to but it will be some weeks before he will be able to get round again.

A young man by the name of Walter Virgin living on the south side of the Dartmouth River about seven miles from Gaspe, was committed suicide a few days ago by cutting his throat with a razor. No motive for the deed was brought on by sickness is supposed to be the cause of the trouble.

Alphonse Blouin, Provincial Land Surveyor is engaged at the present time running lines for various parties on the north side of Gaspe Bay.

Quite a number of commercial travellers have visited this vicinity lately getting orders for spring shipment of goods.

The work began last summer on the new mill at Gaspe Basin is being steadily carried on. We expect every month to see it in operation.

Work in Caspe County is increasing very rapidly it is a great boon to the inhabitants.

### Cataract Cannot Be Cured.

With LOCAL APPLICATIONS, as they cannot reach the seat of the disease, Cataract is a blood constitutional disease and in order to cure it you must take internal remedies. Hall's Cataract Cure is taken internally and acts directly on the blood and mucous surfaces. Hall's Cataract Cure is not quick medicine. It was prescribed by one of the best physicians in this country for years and is a regular prescription. It is composed of the best known, combined with the best purifier acting directly on the mucous surfaces. The perfect combination of the two ingredients is what produces such wonderful results in curing Cataract. Send for testimonials free.

F. J. CHAPMAN & Co., Proprietors, Toledo.

Sold by Dr. Cates 75c.

Take Hall's Catarrh Pills for constipation.

### BLACK CAPE

The annual business meeting of the Presbyterian congregation was held in the church at New Richmond on Wednesday afternoon.

Mr. and Mrs. George Willet of Caplin River are receiving congratulations on the arrival of a daughter.

Mr. F. Blois of New Carlisle was in this vicinity on Wednesday last in the interest of the Bon and Gaspe Telephone Co.

Rev. E. R. Roy of the Matapedia valley mission held service at Poma da cottage on Friday evening.

Mr. James Finlay of Caplin representing the Singer Mfg. Co. passed through here on Monday on his way up the coast.

Sold by T. Wran & Co.

Minard's Liniment Cures Colds, &c.

### S. A. Immigration.

This branch of the work has become one of the strong factors of the Salvation Army, and has been inaugurated for the sole purpose of helping humanity. This scheme has been endorsed by all leading statesmen and government officials. The scheme has a two-fold purpose first, to relieve the overcrowded labor market in the old country, and second to try and supply the great demand in this country. Up to the present time the Salvation Army has brought to this country upwards of 56,000 people, and this year will bring to this land of promise 25,000 souls, of which 10,000 will pass through the Maritime Province. Among these people will be found all kind of laborers and mechanics including, teamsters, quarrymen, laborers for railway construction, general laborers and factory workers. The first boat will leave the old country Feb. 28th, and as the demand is so great we would urgently advise all those desirous of help to apply at once to Adjutant Jennings Box 477 Halifax, N. S.

It's a pleasure to tell our readers about a Cough Cure like Dr. Shoop's. For years Dr. Shoop has fought against the use of Opium, Chloroform, or other unsafe ingredients commonly found in Cough remedies. Dr. Shoop, it seems has welcomed the Pure Food and Drug Law recently enacted, for he has worked along similar lines many years. For nearly 20 years Dr. Shoop's Cough Cure containers have had a warning printed on them against Opium and other narcotic poisons. He has thus made it possible for mothers to protect their children by simply insisting on having Dr. Shoop's Cough Cure. Sold by A. McG. McDonald.

### DISOBEDIENCE BRINGS PUNISHMENT.

Permit me through the columns of your paper to publish an incident that happened lately in our midst. I think it will be a warning for grown up boys to listen to the command of their parents. The father of a large and respectable family being foreman of a camp for a lumbering concern took his sixteen year old boy to work for him, the father always treated him kindly for he was indeed a kind father. As usual they came home for Christmas to spend a few happy hours together having their mother and children. The boy in question would not return with his father to the camp, though his father offered him good inducements. "What said the father" as long as you won't come you can't get the wood for the house and haul the ice, but mind you now I don't want you to go portaging.

No sooner had the father gone to his work, when the boy took his own notion to go portaging, for he had that in his mind for some time and that is the reason why his father forbade him before he departed. Notwithstanding the appeal of his good mother not to go he started his own way to portage on a fifty mile road with only a portmanteau and a bag. He had that he was all alone at a camp one night and having gone to sleep he was awake by the roaring of flames around him the camp was all afire he sprang to his feet and leaving part of his clothing and provisions behind hurried out when the roof fell in behind him. Had he remained in the camp but one moment longer he would have been consumed in the flames and nothing would remain to tell of the horrible tale but his charred bones. Was this not a punishment from heaven? The father came so near his end? I'm certain every one will say yes. It goes to show what importances Almighty God attaches to the strict obedience of father and mother.

### For Rheumatic Sufferers.

The quick relief from pain afforded by applying Chamberlain's Pain Balm makes it a favorite with sufferers from rheumatism, sciatica, lame back, lumbago, and deep seated and muscular pains. For sale by all druggists.

### WEAK TIRED WOMEN

How many women there are that get no refreshment from sleep. They wake in the morning and feel tired and when they want to bed. They have a dizzy sensation in the head, the heart palpitates; they are irritable and nervous, weak and worn out, and the lightest household duties during the day seem to be a drag and a burden.

### MILBURN'S HEART AND NERVE PILLS

are the very remedy that weak, nervous, tired out, sickly women need to restore them the blessings of good health. They give sound, restful sleep, tone up the nerves, strengthen the heart, and make rich blood. Mrs. C. McDonald, Portage la Proux, Man., writes: "I was troubled with shortness of breath, palpitation of the heart and weak spells. I got four boxes of Milburn's Heart and Nerve Pills, and after taking them I was completely cured."

Price 50 cents per box or three boxes for \$1.25, all dealers or the T. Milburn Co., Limited, Toronto, Ont.

## A TRAINED NURSE

After Years of Experience, Advises Women in Regard to Their Health.

Mrs. Martha Pohlman of 35 Chester Avenue, Newark, N. J., who is a graduate Nurse from the Blockley Training School at Philadelphia, and for six years Chief Clinician at the Philadelphia Hospital, writes the letter printed below. She has the advantage of personal experience, besides her professional education and what she has to say may be absolutely relied upon.

Many other women are afflicted as she was. They can regain health in the same way. It is prudent to heed such advice from such a source.

Mrs. Pohlman writes:

"I am firmly persuaded, after eight years of experience with Lydia E. Pinkham's Vegetable Compound, that it is the safest and best medicine for any suffering woman to use."

"Immediately after my marriage I found that my health began to fail me. I became weak and pale, with severe headaches, nervousness, sleeplessness, melancholy, 'all-gone' and 'want-to-be-left-alone' feelings, blues and hopelessness, they should remember there is one tried and true remedy, Lydia E. Pinkham's Vegetable Compound at once removes such troubles."

No other female medicine in the world has received such widespread and unqualified endorsement. The needless suffering of women from diseases peculiar to their sex is terrible to see. The money which they pay to doctors who do not help them is an enormous waste. The pain is cured and the money is saved by Lydia E. Pinkham's Vegetable Compound.

It is well for women who are ill to write Mrs. Pinkham, Lynn, Mass. The present Mrs. Pinkham is the daughter-in-law of Lydia E. Pinkham, her assistant for many years before her decease, and for twenty-five years since her advice has been freely given to sick women. In her great experience, which covers many years, she has probably had to deal with dozens of cases just like yours. Her advice is strictly confidential.

Lydia E. Pinkham's Vegetable Compound Succeeds where Others Fail.

When women are troubled with irregular, suppressed or painful periods, weakness, displacement or ulceration of the female organs, that bearing-down feeling, inflammation, backache, bloating (or flatulence), general debility, indigestion, and nervous prostration, or are beset with such symptoms as dizziness, faintness, lameness, excitability, irritability, advice is strictly confidential.

Why might a sparrow be offended if you were to call him a pheasant?—Because he would not like to be made game of.

What is that which a woman often looks for, but never wishes to find?—A hole in her stocking.

Chamberlain's Cough Remedy a Favorite.

"We refer Chamberlain's Cough Remedy to any other for our children," says Mr. L. J. Woodbury of Twining Mich. "It has also done the work for us in hard colds and croup, and we take pleasure in recommending it." For sale by all druggists.

each month. W. M. E. A. Le Gallais, Sec'y.  
D. C. Fifth

**"IT'S ONLY A COLD,  
A TRIFLING COUGH"**

Thousands have said this when they  
caught cold. Thousands have neglected  
to cure the cold. Thousands have filled a  
Consumptive grave through neglect.  
Never neglect a cough or cold. It can have  
but one result. It leaves the throat or  
lungs, or both, affected.

**Dr. Wood's  
Norway  
Pine Syrup**

Is the medicine you need. It strikes at  
the very foundation of all throat or lung  
complaints, relieving or curing Coughs,  
Colds, Bronchitis, Asthma, Croup, Sore  
Throat, and preventing Pneumonia and  
Consumption.  
It has stood the test for many years, and  
is now more generally used than ever. It  
contains all the lung healing virtues of the  
pine tree combined with Wild Cherry Bark  
and other potent remedies. It stimulates  
the phlegm and mucous, and aids  
nature to easily dislodge the morbid ac-  
cumulations. Don't be humbugged into  
accepting an imitation of Dr. Wood's Nor-  
way Pine Syrup. It is put up in a yellow  
wrapper, three pine trees the trade mark,  
and price 25 cts.  
Mr. Julian J. LeBlanc, Belle Cote, N.S.,  
writes: "I was troubled with a bad cold  
and severe cough, which assumed such an  
attitude as to keep me confined to my  
house. I tried several remedies advertised  
but they were of no avail. As a last resort  
I tried Dr. Wood's Norway Pine Syrup  
and one bottle cured me completely."

**FALL TIME TABLE**  
Atlantic & Lake Superior Railway  
In Effect August 11th 1906

ANSLOW BROS., Publishers,

CAMPBELLTON, N. B. Feb. 28 1907

### INDEMNITY DUE.

Now that the responsibility for being definitely placed, we trust the Beaver Brook tragedy has that the Dominion government will give a prompt and hearty response to the demands for indemnity preferred by the widow of the man killed in the wreck and by the injured survivors. The case is a clear one against the government, no matter upon which man or men the responsibility is ultimately shouldered.

The workmen hurt in the accident are all entitled to damages. The ones least injured have suffered considerable loss, and many will not be able to work for a long time to come. Several will never again be the strong vigorous workers they were before, and one has passed away leaving a widow with two helpless children to be provided for. Such men as those, whom danger found at their posts returning from work in one place and ready to resume their labor on a moment's notice, are the backbone and sinew of the nation. They are the men whom the world needs and without whom progress cannot be made nor civilization exist. They above all others are entitled to receive bountifully at the country's hands, especially at their remuneration has never been of such a nature as to enable them to lay sufficient by to insure comfort in a rainy day.

### A LEADER GONE.

One of New Brunswick's most prominent and successful business men and political factors has passed away in the person of the late Honorable J. B. Snowball, lieutenant-governor. Like the Hon. Andrew C. Blair, he was taken away in comparative health and without any warning. In the midst of his duties he was called away to a higher life with a wider sphere of action. Ever a busy man, he built up industries on the Miramichi, that will long endure. The Canada Eastern Railway will be one of his monuments. And there are many others. To the bereaved family we extend our heartfelt sympathy. They will be partly consoled by the knowledge that many besides themselves will miss his kindly smile and assisting hand.

### NEW ZEALAND.

The Colony of New Zealand, which has government ownership of all railways, telegraphs and telephones; woman suffrage; compulsory non-sectarian education; compulsory arbitration of all industrial disputes; an 8 hour working-day in all occupations; and the limitation by law of all landed estates, appears to prosper more than any other English-speaking country in spite of her Socialistic legislation. There is neither pauper nor millionaire, it is said, now in New Zealand.

The High Commissioner of the colony in London has received in a cablegram the following statistics for 1906: Population, 909,000; value of imports \$74,214,000; value of exports, \$78,350,000. Principal exports: Wool, \$32,484,000; frozen meat, \$14,000,000; butter, \$7,604,000; phosphorus, \$3,776,000; kauri gum, \$2,686,000; cheese, \$1,664,000; output of sawmills, \$10,220,000; output of grain mills, \$5,144,000; output of breweries, \$2,786,500; and output of bacon factories, \$1,236,000. The total commerce of New Zealand is \$166 for each inhabitant. That of the United States is about \$34 for each inhabitant, that of Great Britain itself \$122 for each inhabitant.

### N. B. MAN FOR WINNIPEG.

Not only in British Columbia, where three of them were recently elected to the Provincial Parliament, but also in Manitoba the men of New Brunswick blood are to the front in political life. Kempton McKim, son of Andrew McKim of Moncton, went west some four or five years ago, became president of the Typographical Union and also of the Trades and Labor

Congress in Winnipeg, and is now the Canadian Labor Party's candidate in the provincial election for Winnipeg West.

### PREMIER'S SPEECH.

(Continued from first page)

from the Provinces, 25,545,000 feet of pine boards and planks, 6,616,000 shingles, 5,850,000 staves, 6,325 masts and spars, 6,099 cords of lath wood and 18,890 hoghead shooks. In 1820, 207,899 tons of pine lumber were exported 20,970,000 feet of boards and planks, 11,682,000 shingles, 8,001 masts and spars, 5,039 cords of lath wood and 6,387,000 staves.

In the year 1824, the year before the great Miramichi Fire, the export of pine timber from the Province was \$21,211 tons, of this 41,384 tons went from Miramichi, 114,116 tons from St. John 25,975 from St. Andrews and 24,279 from Richibucto. In the same year 5,992 masts and spars were exported of which 1,918 went from St. John, and 1,559 from Miramichi. The exports of boards and planks amounted to 21,383,000 feet more than half of which went from St. John, 6,471 cords of lath wood were exported of which 3,080 cords went from Miramichi and 1,435 from St. John. It will be seen from these figures that at that period the exports of lumber from Miramichi exceeded that from St. John.

In 1825 the year of the great Miramichi fire, exports of pine timber from New Brunswick reached the very large total of 416,105 tons of which 175,000 went from St. John and 158,000 from Miramichi. The export from Miramichi would have been larger but for the fire which took place in October and burned many of the vessels that were in the port for the purpose of carrying away timber as well as the timber itself. That was a period of wild speculation in Great Britain and also in New Brunswick which was followed by a period of reaction and a financial panic which ruined many people on both sides of the Atlantic.

In 1826 the export of timber from the Province fell to 283,000 tons a result that probably was due as much to the commercial panic of that period as to the destruction of the North Shore forests by the great fire.

In 1830 the exports of pine timber from the port of St. John which then included Miramichi but not St. Andrews, amounted to 190,000 tons and in 1831 to 232,500 tons.

In 1832 the export of pine timber from St. John and Miramichi was 187,000 and for 1833 208,000 tons. It will be seen from these figures that the pine timber trade was already beginning to decline.

In 1840 the export of pine timber from St. John and the North Shore Ports amounted to 261,118 tons of which St. John contributed 109,326 tons, Miramichi 68,242 and Dalhousie 45,639 tons. By this time the deal trade had begun to assume considerable proportions. The first spruce deal ever made in New Brunswick was got in the year 1819, and the first cargo of deals which consisted of only 100,000 superficial feet was shipped to England in the year 1822. In the year 1840, 79,383,000 feet of deals were shipped from St. John and the North Shore ports of which St. John contributed 48,755,000 feet and Miramichi 19,078,000 feet.

Ten years later or in 1850 St. John and the North Shore ports which were then included in the same Customs District exported 168,219 tons of timber which was a heavy decline from the figures of 1840. The custom house returns as published do not show how much each port contributed to this total. Meantime the deal trade had greatly increased for the export of

spruce deals in 1850 reached a total of 127,129,000 feet 21,091,000 feet of boards were also exported from the port of St. John and out-ports.

In 1830 the export of pine timber from New Brunswick had fallen to 39,291 tons by the export of deals had risen to upwards of 240,000,000 superficial feet and of board scantling, and planks to upwards of 25,000,000 feet.

In the fiscal year 1870-1 the export of pine timber from New Brunswick had fallen to 4,210 tons while 14,231 tons of birch timber were exported. The export of deals amounted to 74,723 standards valued at \$1,882,553. The export of planks and boards was 61,307 feet valued at \$571,132. The total value of the forest products of New Brunswick exported that year was \$3,048,628.

In the fiscal year ending 30th June 1881 the forest products of New Brunswick exports were valued at \$4,068,241 and in addition \$671,255 worth were exported not the produce of Canada. In that year the export of Pine timber was 11,865 standards of deals valued at \$2,866,679 and \$31,432,000 feet of boards.

In the fiscal year 1891, the forest exports of New Brunswick were valued at \$3,982,734 besides \$1,314,327 worth, not the produce of Canada. This included the produce of New Brunswick 2,574 tons of Pine timber, 4,906 tons of Birch timber 111,865 standards of deals valued at \$2,866,679 and \$31,432,000 feet of boards.

During the fiscal year 1899-1900 the forest exports of New Brunswick were valued at \$6,706,339 only 20 tons of pine timber were exported during that year while the export of birch timber amounted to 7,105 tons. The export of Spruce deals was 159,785 standards valued at \$4,717,564. The export of boards was 70,822,000 feet valued at \$718,971. This total export of \$6,706,339 worth of forest products probably included a million and a quarter dollars worth of wood goods not produced in New Brunswick. The Customs Department having made a change in the classification of their goods exported, and counting as the produce of Canada, lumber sawed in St. John from logs cut in the State of Maine, and floated down the St. John River. Since then there is no way of distinguishing the exports of the different provinces because the tables of trade and navigation published by the Dominion Government only give the value of the exports of each Province without classifying the kind of goods exported. The following figures furnished by Snowball & Company give the exports for the past year.

These figures which I have quoted show how the lumber business of this Province has changed during the past 80 years. The white pine which was so abundant in New Brunswick formerly has now practically disappeared, while the Spruce, which was so little regarded in the early days of the Province has now become our leading export, and promises to continue so for many years to come.

Last year the revenue obtained from this source amounted to about \$250,000 in addition to the revenue obtained from Game Licenses, Fishing Licenses and other sources. Not less than 108,635,000 superficial feet of spruce and pine and 14,982,000 superficial feet of fir were cut on Crown lands in the Province of New Brunswick. There were also large quantities of hemlock, cedar, pulp wood, railway ties and other lumber, the stumpage from all of which collected by the Government amounted to \$172,529.

If you are at all particular about your shoes come see our new spring shoes.

McRae's Shoe Store.

The I. C. R. station at Sackville was entered last week, and between \$40 and \$50 stolen. There is a clue to the burglar.

V. O. Chamberlain I. C. R. police has resigned and goes off duty to Mr. Chas. Dobson, jr. will, it is understood be appointed to fill the vacancy.

The name of the Seven Mile Ridge is to be changed by request of the owners of that office. The new name has not yet been fixed on, but will be changed soon.

N. B. McDonald would like to know how much comfort she deeply touched she has been by kind expressions of sympathy which reached her from different places. Feeling shown has helped to lighten her sorrow, the burden of which has been shared by so many friends.

Yesterday afternoon Inspector Noble sent two boys by the name of Laine for stealing coal from the I. C. R. yard, a mere child was allowed to go but the elder was before Magistrate Matheson and was fined five dollars or 30 days jail.

Mail service between Campbell and MacKendrick P. O. on the Seven Mile Ridge has been improved by request of the residents of that district. Beginning tomorrow the mail will be carried on Mondays, Wednesdays and Fridays.

Mr. and Mrs. Campbell of the Army who have been stationed at Fairbairn, Ontario. Their next meeting will be conducted on March 3rd.

By desire to express their thanks, the "Events" to the many soldiers of the army who have so liberally lent their during their stay in Moncton.

Twenty-five men are now employed new I. C. R. shops at Moncton and more will be taken on at a short time. The foundation of the locomotive shops will be commenced. By spring, when buildings are ready, 600 men will be needed.

Death of Mrs. Hinton took place at Bathurst on Sunday. The lady left three sons and a daughter. Her brothers are Jno. Newcastle, and James of North and the sisters; Mrs. Ram of New York, Mrs. E. P. ton, Newcastle.

Woodstock, Saturday, J. K. ng, M. P. P., B. F. Smith, P., and Mayor Donald Munro nominated as the opposite candidates at next provincial election. Messrs. Morrison and Messrs. of Newcastle were among speakers at the convention.

John M. Case of Waterloo, St. John, while in the alone Saturday night, fell in at, breaking a lamp and setting it on fire. She was taken to death. She had been for years with a weak and had complained that she had refused to have medicine. She was found lying on the bed to lie down, when she died, the lamp shattered and her hair.

On 15th inst., Mrs. Wm. ister of Mr. Jas. Falconer castle died in Ottawa Hospital after a long illness. Her husband and son Wm. were absent on a survey in the west. It was so long, her death was sudden and unexpected. The lady was nearly 68 years old, her husband, five children survive. They are: Robert, Mrs. of Cincinnati; Harry, of York; George, of Montreal; Mrs. Leach of Salem, Mass.; Mrs. Pretty, who lives near

Just received a large consignment of phonographs and records. Phonographs \$10, 20, and 30. Records 40c each or \$4.80 per dozen. Anslow Bros. Campbellton.

## Personal Mention.

Robert Brunton of Pasphebiac was in town Tuesday.

Horace Cole of St. John was here on business on Wednesday.

B. Goodman of New Richmond was at the Royal yesterday.

Chas. Manny of Newcastle is in town today.

W. McLeod Day of St. John is in town today. He leaves tomorrow for Gaspe coast.

Mrs. J. H. Ward who has been visiting her daughter, Mrs. H. S. Alexander left last evening for her home in Belleville, Ont.

Major T. W. Lawlor of the 12th Battery C. F. A. passed through Campbellton last evening on his way to Ottawa.

Dr. Doherty left for Montreal this morning for a few days.

Couns. Miller and Blackhall attended the Forestry Convention at Fredericton last week.

Mrs. H. J. Barry and daughter Pearl left Bathurst on the 25th, for Vancouver, B. C.

Mr. Harry Culligan of Jacques River was in town last week.

Was Henderson of New Richmond at the Royal on Tuesday.

Messrs R Moffat and D. A. Arsenau returned Tuesday morning from Fredericton.

## THREE KILLED.

C. P. R. And Midnight Expresses Collide Head on at Brookfield

In a head on crash between the C. P. R. express which left Moncton about 6 o'clock Tuesday evening, and the west bound midnight express at Brookfield, near Truro at eleven o'clock last night two were killed outright, a third died in the hospital at Halifax from injuries sustained, and others were more or less hurt. The dead are:

Samuel C. Keith, of Sussex, baggage master on No. 9 express, the west bound train.

Luther Hill, Truro fireman on the C. P. R. express.

J. Flavin, Truro, engineer on the C. P. R. express who died shortly after the accident in the Halifax hospital.

A passenger named Hasler had his shoulder dislocated. No other passengers were seriously hurt.

Don't miss the Fun Tonight

Stores close at 8 o'clock tonight and everybody's going to the sports. It promises to be the largest affair of its kind ever held in Campbellton. Besides great exhibition of speed skating by our local flyers and many funny races such as the Chinamen race, potato race, hurdle race, bag race, etc.

Hilton Belyea the famous oarsman and coming champion amateur skater will skate against time and make records for 1/4 mile, 1/2 mile and mile for our new rink.

One of the very special features will be a one mile race between Thomas Barclay, the speedy local skater and Belyea. Many people think Barclay is travelling fast enough to stand up with the best of them.

Logan is sick and Belyea who claims to be just as fast and who shared honors with Logan at Montreal will be here in his stead.

## ANOTHER ACCIDENT.

NO 33 Left The Rails Near Beresford Yesterday Morning.

The Maritime express coming from Moncton jumped the rails a short distance east of Beresford yesterday morning. The train was in charge of Conductor McLellan, with Driver Geo. Anderson and Wm. Cook, fireman on the engine. The train was travelling at high rate of speed when the accident occurred. All the wheels left the rails except the pony truck of the locomotive which accounts for fact that the engine remained on the roadbed. The tender and a number of cars went over the bank. Wrecking trains were sent from Newcastle and Campbellton and it was not until 6.30 last evening that the passengers, who had been transferred to a special arrived here.

The baggage master of the wrecked train had a narrow escape. The baggage car went over the bank and the trunks etc. were thrown from one end of the car to the other. The baggage master however saw them coming, sprang toward the roof of the car and held himself up by clinging to the lamp while the heavy trunks crashed beneath his feet.

To stop a cold with "Preventics" is safer than to let it run and cure it afterwards. Taken at the "sneeze stage" Preventics will head off all colds and grippe, and perhaps save you from Pneumonia or Bronchitis. Preventics are little toothsome candy cold cure tablets selling in 5 cent and 25 cent boxes. If you are chilly, if you begin to sneeze, try Preventics. They will surely check the cold, and please you. Sold by A. McG. McDonald.

## When Women Suffer.

Look out for weakness or disease. See if there is not a side ache, headache, restlessness and the "blues." These symptoms indicate that you need the gentle assistance of Dr. Hamilton's Pills. They are women's greatest relief, prevent functional derangements, renew the life of the blood, purify and clean the system throughout. No tonic so potent, no results so marked as follow the use of Dr. Hamilton's Pills. Price 25c per box at all dealers.

## TOWN COUNCIL

(Concluded from first page)

is incorrect. The Minister of Railways, shortly after the installation of the Water Service in Campbellton, gave orders that trenches for passing Fire Hose should be cut under the line at each railway crossing and the Trackmaster is held responsible that the trenches are kept open at all times. Your Committee have ample evidence that the trench opposite the Hotel was open at the time the fire occurred.

Your Committee are of opinion that the Fire Department of Campbellton is entitled to great credit for protecting the adjoining buildings from any serious damage, one of those buildings being only five feet and the other fourteen feet from the Hotel.

Your Committee are of opinion that probably the Hotel would not have been completely destroyed, if smaller nozzles had been used in the first instance on the line of Hose attached to the "Siamese," the mistake was rectified during the progress of the fire, but valuable time was lost in making the change.

Your committee have reason to believe that the pressure of the hydrant is seriously affected during cold weather, by the water taps in most of the houses in Campbellton being left open to avoid freezing and suggest that the local authorities should be asked to take steps to put a stop to the practice.

In view of the fact that Campbellton like all framed towns, is subject to conflagration hazard, your Committee recommend that His Worship the Mayor be respectfully requested to have the Fire Department always maintained in a thoroughly efficient state, ready for any emergency which may arise.

Your Committee recommend that a Copy of this Report be forwarded to His Worship for the information of himself and the Corporation.

There was some discussion on the water question, after which it was ordered that the clerk notify the proprietors of Events and Tribune that the water for their motors will be shut off April 1st.

Meeting then adjourned.

## The Deaf Made to Hear.

Deafness because usually due to Catarrh, is quite curable. In a thousand cases this is proved absolutely true. Success invariably attends the use of Catarrh which has cured Catarrh deafness of twenty-five years standing. Penetrating through the passages of the ear, the soothing vapor of Catarrh relieves the inflammation, destroys the seeds of Catarrh and thereby allows nature to re-assess herself. Try Catarrh on yourself, 25c and \$1.00 sizes sold by all dealers.

## UNITED BAPTIST CHURCH CAMPBELLTON.

B. H. NOBLE MINISTER.

Sunday Services, morning prayer meeting at 10.30. Preaching Services at 11 a. m. and 7 p. m.; Bible School at 2.30 p. m.; Midweek Service, Prayer and praise meeting Wednesday evening at 7.30 o'clock. Strangers and non-church are especially invited to each of these services. Seats free.

The class of the Union Brotherhood in connection with the Water Street Union Baptist church is largely representative and is non-sectarian, and is open to all male citizens and to the stranger within our gates. We meet Sunday afternoon at 2.30 o'clock in the audience room. Bible knowledge practically applied is our aim. An informal spirit prevails. Questions are asked and answered at will, but without embarrassment to any one. If you are not "fixed" elsewhere we'd be glad to have you join us. Our watchwords,—

"Human Brotherhood," "Faithful Citizenship," "Divine Sonship."

J. E. MILLER, Pres. H. E. MANN, D.D.S., Sec'y-Treas.

Croup can positively be stopped in 20 minutes. No vomiting—nothing to sicken or distress your child. A sweet pleasant, and safe Syrup, called Dr. Shoop's Croup Cure is for Croup alone, remember. It does not claim to cure a dozen ailments. It's for Croup that's all. Sold by A. McG. McDonald.

is cheap because you are getting extra value in every package.

## Impoverished Soil

Impoverished soil, like impoverished blood, needs a proper fertilizer. A chemist by analyzing the soil can tell you what fertilizer to use for different products.

If your blood is impoverished your doctor will tell you what you need to fertilize it and give it the rich, red corpuscles that are lacking in it. It may be you need a tonic, but more likely you need a concentrated fat food, and fat is the element lacking in your system.

There is no fat food that is so easily digested and assimilated as

## Scott's Emulsion of Cod Liver Oil

It will nourish and strengthen the body when milk and cream fail to do it. Scott's Emulsion is always the same; always palatable and always beneficial where the body is wasting from any cause, either in children or adults.

We will send you a sample free.

Be sure that this picture in the form of a label is on the wrapper of every bottle of Emulsion you buy.

## HAVING A GOOD CRY

By DONALD ALLEN

Copyright, 1906, by Ruby Douglas

Pretty Viola Craydon had come down to visit her aunt in her country home, and for a week she had been supremely happy. There were chickens and ducks and geese, there were guinea hens and doves and rabbits, there were innocent lambskins and frolicking calves, and she had tried to milk a cow, fallen off a fence and churned two pounds of butter. But for Arthur Tyson this dream of bliss might have continued another week, and pretty Viola might have climbed to the roof of the wagon shed, sold paper rags to a tin peddler and gone blackberrying down in the meadow as a continuance of her romantic adventures.

Arthur Tyson had not only fallen in love with her, but he was intending to ask for her hand. He hadn't published his intentions in any of the journals or told the country postmistress what was in his mind, but Miss Viola had a line on him. You can't fool a girl about such things. The man who is courting her may talk about the joys of bachelor life and pretend to be a cynic on affairs of sentiment, but she can read him like a book. When Arthur had said that he would arrive at Viola's aunt's on the 14th—running down in his auto in the forenoon and running back to the city again in the evening—there was a look in his eyes that said there would be something doing.

The 14th came, and then things began to happen. A letter arrived from Arthur to say that his grandmother wanted him to hurry to her dying bedside; a big bumblebee came drowsing along, even as Viola was reading the letter while seated on the veranda, and stung her on the bare arm; a windmill man called on business and tried to flirt with her; she was chased out of the barnyard by a calf and chased back again by a turkey gobbler; the dog got hold of her cute summer hat and chewed it up, and she fell down cellar while going after preserves, and landed on top of the family cat.

Several other vexatious things occurred between the morning of the 14th and noon of the next day, and an hour after dinner Miss Viola made up her mind to have a good cry. If she cried in the house her aunt, who was a sharp eyed old lady, would see her tears and ask questions; if she went to the barn to cry among the cackling hens and new mown hay, the hired man would come stumbling in; if she hid away behind the grape arbor or the current bushes, there were bugs to crawl down her back as soon as she was off her guard.

Down across the meadow and half a mile from the house there was a small grove, and the disconsolate girl finally made up her mind that her tears of sorrow should be shed around the roots of those trees. Her manner of dodging her aunt and getting out of the house and down to the grove would have been called "making a sneak" by some, but a pretty girl who is looking for a crying place should not be judged too harshly.

She found the grove a capital place for her business. There were shade and quietness and the whispering of the summer breeze through the leaves, and Miss Viola went at it and let the tears fall, her chin quiver and her sobbings frighten away the lone chickadee that was taking a daytime nap on a branch above her head.

Mr. Tyson hastened to the bedside of his dying grandmother, thinking that it would be a whole week before she would die and be buried and the will mentioning him as sole heir read. Upon his arrival a glad surprise awaited him. It was a case of bilious colic only, caused by eating too heartily of corned beef and cabbage at the advanced age of eighty-three.

He would have hastened away at once, but the grandmother objected. She had a story to tell—a story of how that colic grasped and gripped her and lasted her ten hours before the doctor could bring relief. It took her all day to finish the story, and then it took her nephew several hours in addition to convince her that if he did not hasten back to town the whole United States would turn turtle.

He made things hum when he got started, but it was mid-afternoon of the 15th when his auto arrived within cannon shot of the farmhouse which sheltered the girl he meant to make his wife and of the grove wherein a sad eyed maiden sat and wept—that is, she wasn't sitting there almost before she was sitting right beside her and holding her hand and calling her "poor dear," the story had only been finished when Arthur Tyson leaned forward and kissed her and said that he proposed to see from that time on that she had the legal and moral right to weep in any grove she wanted to without being hustled around the country as an escaped lunatic. The proposal hadn't come in just the romantic form expected, but Miss Viola was a girl of sense and realized that when exigencies arise the machinery of romance may be thrown out of gear.

Of course they were instantly pursued, but three or four of them got a long start. Guards and farmers and farmers' boys and farmers' dogs took up the pursuit with avidity.

As Miss Viola sat in her grove and sobbed and wept and threw sticks at the bugs crawling about her, she was startled by whoops and yells and shouts. She brushed away her tears and repressed her sobs and stepped out of the shelter of the grove to see what was up.

She had heard of a rabbit being routed out of a wood pile and a whole country looting in the chase, and it flashed across her mind that this was an occurrence of the sort. She was soon undeceived. Three men, four boys and two dogs came running toward her, and as she was seen there were cries of:

"There is one of them! Come on, boys! Head her off and don't let her get away!"

Men and boys and dogs bore down on the helpless maiden, and almost before she could scream she found herself grasped by both arms and being hurried along. She had been boosted over a fence and hustled through a thicket and before she could gather her wits, then she began to struggle and protest. It was useless to struggle, and the men and boys laughed at her protestations. When right made her weak and she sank down one of the men took her on and kept business moving.

Before reaching the station and the train they were met by a posse of farmers. The girl revived sufficiently to protest anew, but he answered her:

"Of course she's one of 'em, and a cute wench she is! This is the first time in two years she has escaped us. Bring her along."

Miss Viola was in a distressful condition when the station was at length reached. Her captors were met by shouting men and barking dogs and walls and screams from the two carloads of lunatics, and just then an auto came whooping up and had to pause for the crowd to clear the street. It was useless to conceal the fact that it was driven by Arthur Tyson.

"What's the matter with you, asked of an excited farmer as the machine came to a halt.

"More fun than I've seen in twenty years," was the answer. "Those two cars are full of crazy folks. About a dozen got away, and we've been chasing 'em down. They've just got the last one."

Arthur stood up to look over the crowd. A woman had apparently fainted away, and two or three men were about to pick her up and carry her across to the train. As her shouters were lifted up he caught sight of her face, and next instant things were happening again.

He sprang down into the crowd, elbowed men and kicked dogs right and left, and in a moment was beside the woman. The woman's hair was down and her face covered with dust and grime and her dress torn from neck to

shoulder, but love makes no mistakes in such matters.

The young man had knocked down two men and had the girl on his arm before he asked for explanations. Before they were tendered he had to lay his burden down and perform further pugilistic feats, but in due time the guards, the farmers, the farmers' boys and the farmers' dogs admitted that a mistake had been made.

When the auto resumed its journey the girl was a passenger. She had come to and realized that she was not being taken off to an insane asylum. It was some hours later, when the harvest moon was shining and the whippoorwills were singing, that she told her story, and, though her aunt was sitting right beside her and holding her hand and calling her "poor dear," the story had only been finished when Arthur Tyson leaned forward and kissed her and said that he proposed to see from that time on that she had the legal and moral right to weep in any grove she wanted to without being hustled around the country as an escaped lunatic. The proposal hadn't come in just the romantic form expected, but Miss Viola was a girl of sense and realized that when exigencies arise the machinery of romance may be thrown out of gear.

## DOMESTIC SCIENCE.

The Practical Way of Mastering It as a Profession.

Domestic science as a special branch for teachers is as yet in its infancy, and I cannot inform you of any college or of any university offering scholarships for the entire course. There are, however, funds and small scholarships in several colleges with domestic science courses which will help you to complete your studies if your funds fail and you show that you are peculiarly adapted to the work; also in many of the larger cities domestic science and domestic arts are included in the free night school courses of the public schools and are taught in the night classes of the Young Women's Christian association.

But the woman who has met with reverses and has no funds at her command had best adopt more practical means of establishing herself by her knowledge of domestic science and household economy.

Through the influence of patronesses and the right persons on boards of directors she can perhaps secure an opening as matron or assistant matron or housekeeper of a small charity institution, but it requires powerful influence to overcome the feeling that a trained woman should have the place. Here again the personality or determination of the woman even more than her natural ability as a housewife plays an important part.

If you are brave enough to put your pride in your pocket and enter the linen room of a hotel you can study hotel housekeeping at close range and incidentally be in line for promotion. If you are willing to perform the menial duties of a working housekeeper in a big city until you form acquaintances and work your way into the good graces of the better class of intelligence offices you can secure a position in a family of wealth, but there is absolutely no chance of your securing such a position by correspondence. Anna Steese Richardson in Woman's Home Companion.

## NEW TRIAL.

Ordered For Collins Before  
Chief Justice

PROBABLY IN JUNE

Court Decides that Judge  
Gregory's Charge Was  
Too Strong.

FREDERICTON, Feb. 23.—Thomas Collins, now under sentence of death at Hopewell Cape for the murder of Mary Ann McAulay at New Ireland in August last, will not go to the gallows on April 25, the supreme court having on Friday granted him a new trial. Judgment was delivered on points reserved by Judge Gregory the trial judge and was unanimous.

The judgment of the court was delivered by Chief Justice Tuck who explained that the case had been argued on only one of the three points reserved by the trial judge: "Was there error in assuming it proven that the prisoner had the axe in his hands at the committing of the theft and generally directing the jury from that standpoint?" After making some quotations from the judge's charge, the chief justice said: "There was no direct evidence that Collins committed the crime. It depends wholly upon circumstantial evidence from which the jury might have been asked to say whether guilty or not."

"In answer to the second question I say that there was error; that the learned judge directed the jury that certain alleged facts were absolutely proved that should have been left to

the jury to decide. These points were material and really vital and bearing on the innocence or guilt of the prisoner. Anyone who read the judge's charge, as I have, can come to no other conclusion that it shows marked ability on his part: that he had given all the circumstances of the case careful thought and with an earnest desire that the jury should arrive at a correct conclusion. Looking at the charge in its entirety one may reasonably conclude that it is a powerful one on the crown side as to the prisoner's guilt. But the question here under consideration is not whether or not the prisoner is guilty but rather was he found so on a proper charge.

### CHARGE TOO STRONG.

"Of one thing there can be no possible doubt—that on the 20th day of August, 1906, Mary Ann McAulay was cruelly and foully murdered. There is no doubt also that the prisoner was guilty of theft, that he stole goods in Father MacAulay's house on that same Monday morning, the 20th of August. The goods were seen or found on him and it is admitted by his counsel that he stole them."

"The learned judge gives a detailed statement of what was proved at the trial and to my mind assumes as proved certain matters of which there is no positive proof but from which such an inference might be drawn it properly left to the jury."

The chief justice regarded the trial judge's language in reference to Collins using the axe to break down the door as very strong "and not the proper way to leave a question of fact to a jury."

Continuing, his honor said: "The learned judge assumes that certain things were proved which were not proved at all. There is no evidence by any testimony that Collins had the axe in his own hands nor that he broke down the closet door. If in an ordinary case of larceny the facts are for the jury, how can it should a judge be that they are left when a man's life is at stake."

The chief justice, in conclusion, said that the trial judge was clearly all wrong in assuming that the axe found behind the commode was the one used in battering down the door of the closet, as nothing of that nature had been established by the evidence. The judgment of the court, he said, was that the case should go down for new trial.

OTHER JUDGES CONCUR. Judge Hanington said that with the guilt or innocence of the prisoner the court had nothing to do. It was their duty to determine whether or not the case had been presented to the jury according to the principles of law governing such cases.

The jury alone are to judge on questions of fact where the evidence is circumstantial. From the statements made by the trial judge in his charge the inference to be drawn by the jury was irresistible that the prisoner was guilty of murder. It was clearly the duty of the court, in his opinion, to order a new trial so that all the facts could be left to the jury.

Judge Barker said that he concurred in the judgment. Judge McL. said that it was clear to his mind that the trial judge had drawn conclusions from the evidence that were clearly within the province of the jury alone. A judge, in leaving a case such as this to a jury, must not assume that certain facts will prove other facts. The trial judge in this case certainly went too far in assuming that the facts had been proven. He should have given the necessary instruction in law to the jury and allow them to decide on the facts.

The chief justice stated that Judge Landry was prevented by illness from being present but he fully concurred in the judgment. In regard to Judge Gregory, he was confined to his home from injuries sustained a short time ago. He also agrees with the conclusion of the court in reference to his charge to the jury and thinks the case should go down for a new trial.

JUDGE TUCK TO TRY HIM. Collins will probably be re-tried before Chief Justice Tuck at the next Albert circuit court, which open June 25.

### WHAT TO DO WHEN YOU ARE BILIOUS.

The right thing to do when you feel bilious is to take a dose of Chamberlain's Stomach and Liver Tablets. They will cleanse the stomach and regulate the liver and bowels. Try it. Price, 25 cents. Samples free at all druggists.

## GOVERNOR SNOWBALL FALLS DEAD IN STREET.

(Continued from first page)

He commenced his career in business in the fifties, entering into partnership with John McDougall, of Chatham, in a general store business which the firm continued, adding a lumber business, which assumed most important proportions. This grew so that J. B. Snowball was known as one of the largest lumber operators in New Brunswick, second only to Alex. Gibson. Some four years ago this business was formed into a joint stock company composed of J. B. Snowball and his sons. In addition to the lumber Mr. Snowball was engaged largely in railway enterprises and built the Chatham branch of the I. C. R. In 1874 he entered politics when he was defeated by Hon. Peter Mitchell. In 1878 he turned the tables, defeating Mr. Mitchell, and sat in the Commons from that date to 1882 when he retired. In May 1891, Mr. Snowball was called to the Senate and remained in that chamber until appointed Governor in 1902.

The deceased was twice married his first wife being the daughter of John McDougall, of Chatham, and his second, who survives, Maggie Ellen, daughter of Rev. Robert Archibald, of Scotland. By his first wife deceased had two sons, William B. of Chatham, and McDougall, of Pasadena. By the second wife he had Archibald, Francis, Laura, Lillian and Annie, the youngest daughter dying last year.

Mrs. J. L. Black of Sackville is a sister of deceased. Mrs. F. P. Thompson of Fredericton, another sister, died a few months ago, while his brother, Judge Snowball died a little over a year ago. The funeral will be held from his late residence in Chatham this afternoon, at 3.30.

## SKIN DISEASE OF TWENTY YEARS' STANDING CURED

I want you to know how much Chamberlain's Salve has done for me. It has cured my face of a skin disease of almost twenty years' standing. I have been treated by several physicians as we have in this country and they did me no good, but two boxes of this salve has cured me. Mrs. FANNIE GRIFFIN, Troy, Ala. Chamberlain's Salve is for sale by all druggists.

## U. S. TREASURY LOOTED FOR \$200,000

Vast Amount of Money Disappears From U. S. Sub-treasury

CHICAGO, Feb. 23.—The Tribune today says: "Somewhere between \$120,000 and \$200,000 was stolen from the local sub-treasury last week. Chief Wilkes, of the secret service, has been keeping by telephone and telegraph of every development in the case, and left Washington today to take personal charge of the investigation made by the authorities."

Secretary Shaw of the treasury department, was told of the theft when here last week, and conferred with Sub-Treasurer Wm. Bolden-Weicke and secret officials. The money was stolen either a week ago Saturday, the next day, or last Monday. The chances are it was abstracted on Monday. The loss was discovered on Tuesday.

"All the money taken was in bills of the denomination of \$1,000, \$5,000 and \$10,000. At first it was believed that there must be some error in the bookkeeping. It was thought to be impossible that such a large sum of money could have been abstracted in face of all the safeguards thrown around Uncle Sam's strongbox."

The ledgermen strenuously denied any error and an investigation showed there was no possible clerical mistake to account for the disappearance of the cash.

"This brought the inevitable conclusion that robbery was the only explanation. Just as certain was the deduction that the thieves were employees of the sub-treasury and were at that moment pursuing their daily tasks. Every man who could have had anything to do with the case was called into Treasurer Bolden-Weicke's office and put through an exhaustive examination and a more rigid cross-examination by Capt. Porter of the secret service. "They stood the ordeal. They knew nothing of the theft and protested their innocence. But it was obvious that someone was lying."

"Day by day since this the investigation has been kept up. Saturday there came a glimmer of light. A faint clue pointed in the direction of a certain clerk, and that, followed up, directed the finger of suspicion to another employee, a clerical associate of the first man. These men were summoned separately. The suspicious circumstances were paraded the certainty of detection and punishment was impressed upon them and they were advised to make a clean breast of whatever part they played in the conspiracy."

"One, thought to be the moving spirit, came through the ordeal calm and self-possessed. The officers put him down as innocent or a master hand at criminality. The other, younger, showed signs of breaking down. Just what he had admitted the secret service men refuse to disclose. The admission he made started the investigators into rapid activity. Half a dozen operatives started out and results are expected soon."

"Every employee of the office is under surveillance day and night and should one or more of them prove to be the thieves, escape will be impossible."

"All have reported for work daily since the discovery was made. When interviewed today Mr. Bolden-Weicke admitted that a theft of \$173,000 had been perpetrated and refused to go into details."

### Never Silt Your Boots.

That doesn't cure the corn. Just apply the old standby, Putman's Corn Extractor. It acts like magic. Kills the pain, cures the corn, does it with out burn or scar. Get the best—it's Putman's.

## Eating Carelessly

frequently causes stomach troubles, but careful eating will never right them. When your stomach is out of condition, it needs help that no food can supply. It must be thoroughly cleansed, settled and strengthened. Food never does this.

## BEECHAM'S PILLS

are the greatest stomach medicine human skill ever compounded. Don't attempt to cure your stomach by dieting. You will half starve and get little benefit. Give Beecham's Pills a chance and you will again know the pleasures of a sound digestion. Appetite will return and the stomach again work without any discomfort. The skin will clear, the face plump out, while people will remark "How well you're looking." These are facts, not fancies. Prove it yourself.

Prepared only by Thomas Beecham, St. Helens, Lancashire, England. Sold by all Druggists in Canada and U. S. America. In boxes 25 cents.

## Bank of Nova Scotia

ESTABLISHED 1822

CAPITAL, fully paid up, \$3,000,000  
RESERVE FUND, 5,250,000  
\$8,250,000

TOTAL RESOURCES, between Capital and Reserve, EIGHT MILLION TWO HUNDRED AND FIFTY THOUSAND DOLLARS.

The Bank's Reserve being 175 per cent. more than the Capital is a noteworthy fact and a matter of interest especially to depositors and those contemplating depositing. OFFICE HOURS: 10 a.m. to 3 p.m., Saturday 10 a.m. to 1 p.m. R. H. ANDERSON, Manager Campbellton Branch

## PATERSON'S The Cough Drop That Cures

SEALED TENDERS addressed to the undersigned, and indorsed "Tenders for North Head Wharf, N. B.," will be received at this office until Friday, March 15, 1907, inclusively, for the construction of a combined Breakwater and Wharf at North Head, Grand Manan, Charlotte County, N. B., according to a plan and specification to be seen at the offices of E. T. J. Stewen, Esq., Resident Engineer, St. John N. B., Geoffrey Stord, Esq., Resident Engineer, Chatham N. B., on application to the Postmaster at North Head, N. B., and at the Department of Public Works, Ottawa.

Tenders will not be considered unless made on the printed form supplied, and signed with the actual signature of tenderers.

An accepted cheque on a chartered bank, payable to the order of the Honourable the Minister of Public Works, for two thousand five hundred dollars (\$2,500.00), must accompany each tender. The cheque will be forfeited if the party tendering declines the contract or fails to complete the work contracted for, and will be returned in case of non-acceptance of tenders.

The Department does not bind itself to accept the lowest or any tender.
