DEATHS.

At St. John, N. B., on Sunday evening last, And e, the beloved wise of Mr. Archibald Fracer, and only daughter of ne lete Mr. George Eaten, of Halifax, N. S.

June 11th in the 331 year of her age, Catherine Eleanor, wife of Thornas Magee and third deaghter of George Glazebrook.

On Thursday morning, the 13th inst, at the advanced age of 56. John Jost, a native of this city and one of its oldest inhabitants. His death was as his life-calm, quiet, unot trusive-claiming no as his life-carin, quiet, uno crossive claiming no attention, except that which he had long sought, and no doubt obtained,—that when the energies of tired nature failed, and "the weary wheels of life stood still at last,"--his freed spirit should be received to the " bosom of his l'ather and his God He retired at his usual hour at night and was found dead in his bed in the morning. Happy were it for the world if all passed through life, as harmlessly and blamelessly as he.

His Funeral will take place tomorrow, Sunday, at 2 o'clock, P. M. Friends of the family are requested to attend without further notice.

Bishops and Presbyters.

Dr. Bancroft, Chaplain to Archbishop Whit, itt, and his successor in the See of Canterbury, was the first who asserted in England the divine right of prelacy, and the superiority of the order of bishops over presbyters. It was in a sermon preached at Paul's Cross, January 12, 1588. Hitherto, even among high churchmen, the difference had been ascribed wholly to human appointment. Sir Francis Knollys told the Archbishop that Dr. Bancrott's opinion was contrary to the command of Christ, who prohibited all superiority among the apostles. He requested Dr. Reynolds, of Oxford, to give his opinion of this new doctrine. In his letter, Dr. Reynolds observes : "That all who have laboured in reforming the Church, for five hundred years, have entitled bishops or priests, have equal authority and power by God's word: as the Waldenses, next Marsilius Patavinus, then set themselve ararray around a societable indicates possible who as not to respect to the particular persons? After some interruption the first Resolution, as given in our last, was carried amidst loud

Mr. S. M. Peto, M. P. for Norwich, and one of the Treasurers of the Baptist Missionary Society, said,-The resolution, which I have the honour to propose for the adoption of the meet-

ing, is as follows :-That the circumstances of special encourage-

ment and promise in which several of the principal Missions in heathen lands are now placed, resulting from the gracious visitations from above with which they have been favoured, and the peculiar facilities for prosecuting the work which various Providential arrangements now present, -impose upon the Society the imperative obligation to make every effort within its power for the purpose of raising those Missions to a state of greater vigour and efficiency. Mr. Chairman and dear Christian friends,-I have had the honour to receive from the Committee of your Society a request to represent a sister Society on the present occasion, and be assured I accept that invitation with heartfelt satisfaction, with true affection, with a hearty desire to reciprocate in every effort you make, and to tender to your Society my warm affection and my Christian love. (Applause.) It is time, Mr. Chairman, when we contemplate a world lying in dark- the chiefs in a savage state are capable of such ness and shadow of death itself, that we should forget our differences, and all of us, who agree in cardinal matters of faith, who owe their salvation to one common source, who are animated by one faith, by one hope, looking forward to the same heaven as our final home,-we are not looking out for fresh fields of Christian the cause of God in the world at large than any ought all to tender, on great occasions like this, the right hand of Christian fellowship and of hearty Christian support. (Applause.) Though a member of another denomination, I may say with great truth, that I have known, valued, and loved your Society; and perhaps, sir, it may not be out of place, on the present occasion, for me to refer to the fact of my having had the honour, for many years, of being one of the largest employers of industrial labour in this country; your Society placing so great a value upon, and agement and promise, which have manifested of his glory. (Hear, hear.) Sir, I like this re and I beg to tender my personal acknowledgments to your Society for the great good, for the constant and unwavering exertion, which it has made, for the elevation of the working classes. ADDRESS.

To the Rev. John McMurray, Grand Worthy Patri arch of the Order of the Sons of Temperance of Aova Scotia.

RESPECTED AND WORTHY BROTHER.

The Members of Victoria and Queen's Own Divisions Sons of Temperance beg leave through the undersigned to express on the eve of your departure from Liverpool, the deep obligations your residence in this place; and their regret at your removal from amongst them.

They believe that the present prosperous state of the Temperance Cause in this place, is attributable in a great measure to the unabating and untiring zeal which during the last year, as in those preceding, you have manifested in its onward progress and success; - and the unani mity and good feeling which pervades the several Divisions of the Order to the principles of brotherly regard, and moral rectitude which as Grand Worthy Patriarch you have laboured to in cleate.

We believe that all the good which you have so often in our hearing predicted will yet result trem the Order to which we belong; it has aldy gladdened many a heart in this place, and are ted many from a course, which tended on Lake all honean institutions it may have contestions, but so long as its Members true to it principles, at I true to themives, they will not only avoid the evils of which in by without its pale are apprehensive, but eeve more good than any other branch of the

ecel Temperance cause can accomplish. We are happy to say that the nature of our the flore has been such that we could have het voor residence amongst us had been pro-Southerart however from us in obe at e to the calls of your "sacred office" as a Minister of the Grapel," and we beg in cating to teacher you car best a shee for the we'tare and happens of yourself and family in

Institution, there are those in our midst, whose co-operation we might reasonably have expected, but who, in this great branch of moral reform, do not think proper, or do not feel it to be their duty, to come up with us to the help of the

Lord against the mighty. Brethren -allow me to urge upon your attention the necessity of unwearied diligence in this cause. The battle is not to be fully won without a greater struggle. A wide field still lies before us ;-one which demands a course of self-denving and untiring zeal, and a deportment toward our opponents characterized by consistent firmness, combined with becoming forbearance, while we maintain entire confidence as to the successful issue of our bloodless warfare.

It is not without deep regret that I leave your Town, where I have spent four pleasant years; nor shall I easily forget the very agreeable seasons I have enjoyed in your society, and in intercourse with the brotherhood of our Order; and while the greater and more sacred duties of my life, now call me to another sphere of labour, I shall still cherish a heartfelt interest in your prosperity, and earnestly pray that the God of with His blessing, and give you to witness enlarged and more glorious triumphs in the Cause Truth Virtue, and Honour."

Sincerely reciprocating towards you and your families, the kindly sentiments of regard you have expressed for me and mine, I have the JOHN MCMURRAY, G. W. P. Liverpool, 39th May, 1850.

RAILWAY MEETINGS.

From the Acadian Recorder.

Halifax and Quebec Railway .- Resolutions passed at Bay Verte, &c.

At a meeting of the Freeholders and Inhabitants of Bay Verte and its vicinity, held at the Schoolhouse on Friday, the Sist day of May, 1850, Alexander Munro, Esq. was called to the chair, and Mr. Stephen Gooden appointed Secretary to the

It was proposed by Captain William Silliker, seconded by John Carey, Esq., and unanimously Hesolved-

1. That this meeting regards with unabated interest the completion of the proposed Railway from Dialifax to Quebec as being eminently calculated to advance the presperity of these Provinces by developing their resources and augmenting their trade and population infinitely more than any other measure hitherto submitted to the public, and that it is the duty of every well wisher to his country to use the most strenuous efforts to promote it 2. Moved by C. T. Prescott, Esq., seconded by

Mr. John Munro-That this meeting hears with great satisfaction the progress that has been made in England by "the Canadian Land and Railway Association," and that such Association is deserving of every encouragement, inasmuch as it unites with the accomplishment of so great and useful a work the establishment of a systematic plan of colonization, and the introduction of a useful and

industrious class of settlers. 3. Moved by John Carey, Esq , seconded by Capt. W Silliker—That this meeting is much gra-tified to learn the favourable views of the under-taking entertained by Lord John Russell, as well as the interest in its progress evinced by Lords Stanley and Monteagle, and the other gentlemen who have kindly lent their efforts to promote it.

Moved by Mr. Joseph Harper, seconded by Mr. Jacob Billiker-That it is the opinion of this meeting that this Railway should not be looked upon merely as a commercial speculation, or with view to its pecuniary advantages alone, but should be considered as absolutely required by the geographical position of the British North American Colonies, and most essential to the union, consolidation and preservation of the British dominions in North America, as well as conducive. in a very great degree, to the welfare of the whole

5. Moved by Mr. Thomas Handwright, seconded by Mr. Joseph Harper-That it it shall be deemed necessary to the obtaining a guarantee of Interest upon a sufficient amount of capital from the British Government, this meeting, considering the great increase in the value of all linds lying in the neighbourhood of the koad which must inevitably be produced by its completion, will cheersuch assessment being payable either in a proper vours, formerly conferred on him tion of the land, or in materials for construction of the road, produce or labour, or by an annual pecumary payment for a fixed period, at the option of

the proprietor.
6. Moved by Capt. Wm. Silliker, seconded by JUST RECEIVED,

Mr. Stephen Gooden—That the drafts of the seventral memorials to Lord Grey and Lord John Russell.

ANIMAL GALVANIC CURE ALL—two and the Petitions to the two houses of the Imperial Parlament, be approved and adopted by this meeting; and that John Carey, C. T. Prescott, and Alexander Manne, Pages, and Messrs, Jacob Silvers of the Imperial above, to be had gratis at No. 132 Granvelle St.

EXTRACT OF SARSAPARILLA. The WONDER and BLESSING of the AGE!

The Most EXTRAORDINARY MEDICINE in the WORLD

THIS EXTRACT is put up in Quart Bottles L it is six times cheaper, pleasanter, and warranted superior to any sold. It cures without vomiting, purging, sickening, or debilitating the

We have manufactured 1,500,000 Bottles of this Sarsaparilla during the past year, and are now putting up 5,000 Bottles per Day; using more of the Sarsaparilla Root in one month than all the Saraaparilla Root in the other manufacturers of Sarsaparilla in one

Ladies of pale complexion and consumptive habits, and such as are debilitated by those obstruc tions which females are liable to, are restored, by the use of a bottle or two, to bloom and vigour.

THE NUMBER OF DISEASES mentioned above, as cured by this preparation of Sarsaparilla, MAY SEEM LARGE; but we are, nevertheless PREPARED TO PROVE, by an EXTENSIVE ARRAY OF CERTIFICATES, that such is the FACT. A fraction of the evidence which we possess concerning each disease, would be received before any suni-CIAL TRIBUNAL as complete demonstration. It must be rememocred that all this frightful array of maladies, though appearing in an endiess valuely of forms, are yet similar in their origin and causes: for they all spring directly or inductive from a mediate liberation.
