A

MESSAGE from His Excellency the Lieutenant-Governor, by Mr. Secretary George :

Mr. Speaker,

to the second second second second

و يو از درم درم درم معمدتش م م در دميد

His Excellency the Lieutenant-Governor commands this House to attend His Excellency, immediately, in the Council Chamber.

Accordingly, Mr. Speaker, with the Houfe, went up to attend His Excellency in the Council Chamber ;

And being returned,

Mr. Speaker reported that the House had attended His Excellency in the Council Chamber, where His Excellency had been pleased to make a SPEECH; of which Mr. Speaker said he had, to prevent mistakes, obtained a Copy, which he read to the House, and is as follows:

Mr. President and Gentlemen of His Majesty's Council,

Mr. Speaker, and Gentlemen of the Houfe of Affembly,

T is with fatisfaction, I again meet you in General Affembly ; feeling affured, from your. former conduct, that your deliberations will be directed to promote the honor of His Majefly's Government, and the fafety and profperity. of this Province.

When we last met, the critical situation of affairs, occasioned by the war in which His Majesty is justly engaged for the defence of his **Crown**; the independence of his People, and the commerce of his Subjects; filled our minds with ferious apprehensions; it is, therefore, with great pleasure, I now congratulate you on the favourable alteration in the afpect of public affairs.

The patrictic and determined spirit of the Spaniards, to maintain the independence of their nation, and result the usurpation and despotsion of France, has enabled His Majeffy to discontinue hostilities against Spain.

The friccels which has hitherto attended his Majefty's great exertions in this juft and glorious cause affords the most flattering hopes, that the friendly connexion to long withed for by both nations, and now to happily formed, will be permanent. The The glorious victories obtained by his Majefty's armies in Portugal, have enabled his Majefty to fecure the dominions of an ancient Ally, from a cruel and rapacious enemy.

The conftancy and fuccefs with which his Majefty's Ally, the King of Sweden, has maintained the honor and independence of his Crown, against a formidable confederacy, allow us to hope, under the bleffing of Divine Providence, that the rest of Europe, animated by fuch glorious examples, will join in the noble efforts now making for her peace and independence.

The readiness with which the Colonies of Spain and Portugal have united with the Mother Countries, has completed the overthrow of measures planned for the destruction of British Trade, by a general confederacy, formed under the influence of France; and the present flourishing state of the commerce and revenue of Great-Britain, proves that the arts and intrigues of France cannot materially affect them.

When I turn my thoughts to the affairs of this Province, I find much to congratulate you upon :--We can now fully and fairly effimate the effects of the Embargo, fo long and fo rigoroufly imposed on the commerce of the United States, by the Government of that country. The manner in which their general reftriction of trade has been carried into execution, leaves no doubt as to the real object intended to be accomplished by it. The project has totally failed; and the British Nation has derived fufficient experience from the measure, to be convinced that her Colonies and Commerce can be as little affected by the Embargo of America, as by the Blockading Decrees of France. New fources have been reforted to with fucces, to supply the deficiencies produced by fo fudden an interruption of commerce; and the vast increase of Imports and Exports of this Province proves that the Embargo is a measure well adapted to promote the true interest of his Majesty's North-American Colonies.

The abundant crops of every kind, with which it has pleafed the Almighty to blefs this Province; the great increafe of Agriculture and Fisheries, and the confiderable fupply of timber which we have fent to the Mother Country—The augmentation of our Revenue; and, above all, the just fenfe which the people of this country entertain of the happiness they enjoy under his Majesty's truly paternal Government, afford ample cause for congratulation, and give unquestionable proofs of the prosperity and rapid increase of this valuable Province.

After the close of the last Seffion, I took the earliest opportunity to give effect to the Act then passed for the better regulation of the Militia Forces; and I feel great fatisfaction in informing you, that twenty-fix Battalions are completely organized, and placed in a state of training and instruction; and I have every hope, from the general zeal and good disposition of the people, that the Province will acquire a great degree of permanent fecurity from the measure,—I have already caused a large proportion of the Militia to be armed and accounted; and I have ordered the Quartermaster General to lay before you the proper accounts of this expence, that measures may be adopted to liquidate and pay the fame, in conformity with your Resolution relative thereto.

The tour I made through the midland and western Districts of the Province, afforded meajust conception of many local points; and particularly the importance of good public roads.—I have paid every attention in my power to the expenditure of the monies voted for that fervice; and the proper accounts in that Department are directed to be laid before you.—Besides calling your attention to that important object, I must also recommend to you such measures as may be judged beneficial for the improvement of the Agriculture and Fisheries of this Province; and to encouage Settlers to occupy and cultivate the waste lands. Genilement Gentlemen of the Houfe of Affembly,

The limited period to which the Revenue Laws are continued being near at hand, that object will require your immediate attention. I have no doubt you will grant fuch Supplies as fhall be neceffary for the fupport of his Majefty's Government, and for increating the proferity and fafety of the Province; for which purpofe I have directed the proper Officers to lay before you the accounts of receipt and expenditure of the Revenue for the paft year. If the means which the continuance of the prefent laws may provide for the exigencies of Government the enfuing year, fhould be inadequate, your experience will fuggeft fuch further aid as fhall be neceffary, and jeaft inconvenient to the general interefts of the Province.

Gentlemen of his Majefty's Council, and Houfe of Affembly

In obedience to his Majefty's commands. I thall thortly proceed on a particular foreign fervice: it affords the fatisfaction, that, during my temporary ablence, the Civil Administration, in conformity to his Majefty's Instructions, will devolve to the Honorable ALEXANDER CROKE. The experience I have had of his knowledge, integrity and ability, leaves no doubt in my mind, but that his belt exertions will be ufed to promote the honor of his Majefty's Government, and the true interest and welfare of the Province. To your confidence, therefore, I flrongly recommend him; and Lindulge every hope, that, on my return, I shall find the fame unanimity prevailing in the feveral Departments, which I have hitherto experienced.

GEORGE PREVOST.

On motion, ordered, that Mr. Hutchinfon, Mr. Robie and Mr. Tonge, be a committee to prepare an Addrefs in anfwer to his Excellency's Speech.

Mr. Hutchinfon reported from the committee appointed to prepare an Address in answer to his Excellency's Speech, and prefented an Address accordingly, which he read in his place, and afterwards - delivered it in at the Clerk's Table, where it was read, and is as follows:

#### TO HIS EXCELLENCY

#### SIR GEORGE PREVOST, BARONET,

Lieutenant-Governor and Commander in Chief, in and over His Majesty's Province of Nova-Scotia, and its Dependencies, Sc. Sc.

THE ADDRESS OF THE HOUSE OF REPRESENTATIVES IN GENERAL ASSEMBLY :

May it pleafe your Excellency,

The second secon

The favourable changes which have taken place in the affairs of Europe, fince we last met, have excited general joy in this Province; and allow us to hope a speedy termination, or a successful continuance of the war, in which his Majesty is so justly engaged for the defence of his Crown, and the independence of his Empire.

The high-fpirited and patriotic determination of the Spanish nation, to result the Invaders of their country; the success which have hitherto attended his Majesty's great exertions in support of their just and glorious cause; the constancy of his

Majefty's

Majefty's Ally, the King of Sweden, and the brilliant atchievements of his Majefty's troops in Portugal, which have refcued from the yoke of depotifin the dominions of a faithful and ancient Ally, afford a firong affurance to the world, that the unprincipled usurpations of France, may at length be fucceffully withflood.

The loyalty and affection with which the Provinces of Spain and Portugal have united their definy, with that of their Parent States, cannot but be gratifying to the people we reprefent, as it exhibits to the world an additional inftance to the one aff rded by this Province, of Colonies remembering the debt of gratitude due to the nations from which they derived their origin, and by which their infancy was protected. The effects of this union have proved fo beneficial to the commerce of Great Britain, that we may confidently confider it placed beyond the reach of injury, from the intrigues of France, and the arts of her open or fecret Allies.

We most heartily join in your Excellency's congratulations upon the affairs of this Province; the Embargo folong continued, and rigoroully enforced, in the United States of America, by the Government of that country, has produced upon the profperity of Great-Britain and her Colonies, effects far different from those we believe to have been intended by its authors. The rapidly increased commerce and agriculture of this Province, and the general prosperity of all his Majefty's North American Colonies. have proved to us that, guarded by his Majefty's paternal care, we have, by the bleffing of Divine Providence, but little to wish that his Majefty's dominions do not afford; for these advantages, and for the abundant crops of every kind, with which the Province has been favored, we offer to the Almighty our most humble thanks.

The general spirit manifested by the Militia throughout the Province, for acquiring discipline, affords just grounds for confidence, that the measures adopted by your Excellency for their organization and instruction, will not fail to render this force completely effective, and a powerful resource for defence in case of danger. We shall not fail to make provision for the arms and accoutrements, agreeably to the pledge given to your Excellency in the last Session.

We duly appreciate your Excellency's exertions for acquiring a perfonal knowledge of the Colony you govern, and are much gratified to find that your Tour through the mid-land and weftern diffricts has impreffed your Excellency with a fenfe of the great importance of good roads of communication; the improvement of thefe, the promoting our agriculture and fiftheries, and encouragement of new fettlers, have ever been favorite measures of this branch of the Legiflature, and will continue to engage our most ferious confideration.

We will pay immediate attention to the investigation of the public accounts, and to the making of adequate provision for the honorable support of his Majesty's government, and for advancing the prosperity and securing the fafety of the Province; and, should any additional burthens be necessary for these important purposes, we shall impose them, in the full confidence that they will be cheerfully borne by the loyal people we represent.

Although from the numerous proofs we have received during your fhort adminifiration, of your Excellency's zeal and ability for promoting the interests of this Province, we must confider even your temporary absence as a public loss; yet we cannot regret the occasion which may present an opportunity for the display of your talonts in a more extensive field, for the fervice of our Sovereign, and for an increase of that reputation your Excellency has already to honorably acquired.

Our knowledge of the character and ability of the Gentleman on whom the civil command

计学校 的第三人

command of the Province is to devolve, gives us just hopes that his Administration will be conducive to the interest of the Colony; and we affure your Excellency that nothing will be wanting on our part to render it agreeable to him.

We beg have to offer our prayers for the fuccels of the gallant troops under your Excellency's command; and for your individual health, and fafe and early return to this Province.

Refolved. That the faid Addrefs he prefented to his Excellency by the whole Houfe. Ordered, That the Clerk do wait on his Excellency the Licutenant-Governor, to know his pleafure when he will be attended by the Houfe.

Then the Houfe adjourned until Monday at ten of the clock.

OR the very loyal, liberal, and fpirited Address I have just heard, I beg leave to offer you, Mr. Speaker, and the Gentlemen of the Affembly, my best thanks.

The tribute of gratitude you have to handfomely paid to the Parent State, is as honourable to yourfelves as it will be gratifying to our beloved Sovereign.

I would not fail to express my thankfulness for the prayers you have put up to the Almighty Difpenser of all Victory, for an honorable and glorious termination of the Service to be undertaken by the Armament the King has placed under my command.

A meffage from his Honor the Prefident, by Mr. Secretary George : Mr. Speaker,

His Honor the Prefident requires this Houfe to attend his Honor immediately in the Council Chamber.

Accordingly, Mr. Speaker with the House, went up to attend his Honor in the Co uncil Chamber.

And being returned,

Mr. Speaker reported that the House had attended his Honor in the Council Chamber, where his Honor had been pleased to make a Speech, of which Mr. Speaker faid he had, to prevent millakes, obtained a copy, which he read to the House, and is as follows:

#### Mr. Prefident, and Gentlemen of his Maje/ty's Council,

#### Mr. Speaker, and Gentlemen of the Houfe of Affembly.

IS Majesty having fignified his pleasure, that, during the absence of his Excellency Sir GEORGE PREVOST, on a military service, the government of this province should devolve upon me, I have called you together to communicate to you such his Majesty's instructions, and my acceptance of the important trust.

Anxious as I must feel, to perform the duties of this administration to his Majefty's fatisfaction, and to the benefit of the Province, it cannot but afford me a fubject of great confolation, that this event has taken place at a period when my imperfect abilities may be affifted by the united wifdom of the two great Legiflative Councils, at this time affembled .- Though, in the execution of this office, I may perhaps, receive fome aid from the habitual attention, to the transactions of nations. and to the British laws and constitution, to which my professional studies have been neceffarily directed, and though I may have acquired fome little knowledge and experience in the concerns of this country during a confiderable refidence here; yet, I shall ever confider, that the furest grounds of information, and the fafest rules for my governance, are to be derived from your advice and fuggestions. In what must depend upon my own efforts, I shall endeavour, with the most heartfelt zeal, and unremitting application, to promote the honor of his Majesty's Government, and the fafety, prosperity and happiness of the Province, in a systematic combination with the good of the whole United British Empire ; with which the best interests of every particular part are equally and infeparably connected.

The flattering picture of political affairs in general, and the encouraging flatement of the increased revenues, agriculture, fisheries, and commerce of this Province, which were laid before you by his Excellency at the commencement of the Seffion, and the proper objects which were then pointed out to your attention, to give permanency to those improvements, render it unneceffary for me to fay any thing upon those topics.

The prefent afpect of the fubfilting hoftilities, and of our various national relations, and the probability that the Government of the United States will be ultimate-

ly

Wacfuated by enlightened views for the welfare of their country, under the favor of Providence, and through his Majefty's energetic and fuccefsful exertions, feem to promife a continuance of the tranquility which we have hitherto enjoyed, and which affords to bleffed a contraft to the calamities inflicted by the Almighty upon to large a portion of the world. Should any unforefeen events, however, require the employment of a military force, our confidence in the regular troops supplied by his Majefty's paternal care for our defence, is greatly increased by the return of that able and experienced commander Major General HUNTER, and the high ftate of the discipline of the militia, arising from the late regulations, feconded by the fpirit and ardour of individuals, affords a fubitantial pledge, that the Province will likewife find an adequate protection in its own resources, and that its inhabitants are well qualified to difplay the noble union of the characters of the citizen and the foldier.

In the mean time, I must offer up my wishes and prayers for the fuccess of the expedition; and that our worthy GOVERNOR may speedily return, crowned with fresh laurels in addition to those he has already so honourably acquired ; when I may refign, with fatisfaction, the administration of the Province into the hands of those who are fo much more capable of conducting it.

On motion, ordered, That Mr. Hutchinfon, Mr. Robie and Mr. Haliburton, be a committee to prepare an addrefs in answer to his Honor's Speech.

On motion of Mr. Archibald, refolved, that this Houfe will, to-morrow, take into confideration the petition of Ifaac Hatfield and others, freeholders and inhabitants of the County of Annapolis, (prefented to the Houfe in the laft Seffion) complaining of an undue election for the faid County.

Mr. Secretary George delivered to the House, by order of his Honor the President, for their confideration,

A memorial of Lieutenant Colonel John Beckwith, Adjutant General of the militia forces, addreffed to his Honor; and alfo

A memorial of Michael Wallace, Efq. addreffed to his Excellency the Lieutenant Governor.

The memorial of Colonel Beckwith, was read, and is as follows : That the memorialist has done, and still continues to do, the duty of Adjutant General of the militia, fince August, 1707, likewise all the duty appertaining to the office of Quarter Master General from that period, until the 29th June last (when a Quarter Master General was appointed) without any pay or emolument whatever, (excepting an allowance of forage for two horses when actually kept, granted from the army department fince the 25th June laft.)

That the duty of Adjutant General, has, for the last five years, very much increased, and for eighteen months paft, still more, fo as to occupy nearly the whole time and attention of the memorialist, that likewife some expense has been incurred in the purchase of horse equipment, &c.

The memorialist therefore prays for such compensation for past fervices, and allowance for the future, as may be judged right, and likewife the affiftance of a clerk and an office, which are now become abfolutely necellary for carrying on the dury with punctuality and promptitude.

The memorialift has never before come forward with any petition of this kind, having hoped that some provision would have been made either by the Govern-E

Lead of a statistic of factor

ment

ment at Home, or by the Legislature of this Province, for the Adjutant General of the militia.

The memorial of Michael Wallace, was read, and is as follows :

That on the 27th August, 1799, your Excellency's predecessor, Sir John Wentworth, Baronet, appointed your memorialist with four other gentlemen commissioners to procure plans, purchase materials, provide competent workmen, and to erect a: building and offices suitable for the residence of his Majesty's Representative in this-Province, in Halifax.

That one of the gentlemen, fo appointed, declined acting, and the reft having other avocations to attend to, the progrefs and management of this undertaking devolved almost folely upon your memorialist, who alone provided workmen and materials, and diffursed all the monies expended in carrying on the work:

That your memorialist devoted his whole time daily, early and late, for more than eight years, when his official hours as Treasurer of the Province, did not require his attendance, in superintending and directing the various duties, incident to a work of such magnitude in this country, with that zeal and fidelity the trust required, which has never been questioned, to his knowledge.

That, on the 31ft October, 1807, your memorialist's fuperintendance being no honger necessary, he stated his account, and prefented it to Sir John Wentworth, Lieutenant Governor, who directed it to be laid before the House of Assembly during its sitting at the following Session, amounting to  $\pounds$ . 1412 12 10, of which  $\pounds$ . 361 2 10, is for monies actually disbursed by your memorialist in payment of materials, and mechanics' wages, and the residue for the usual commission of 5 per cent. on  $\pounds$ . 21,000 only of the expenditure, which account your memorialist perceives by the Journals of the House of Assembly, has been passed over ad referendem to a Committee.

Your memorialist therefore prays, your Excellency may be pleased to direct that measures be taken to remunerate him for his advances, and laborious exertions in the discharge of a commission he never solicited, nor would have accepted, but at the special define of the Lieutenant Governor, for the furtherance of his Majesty's fervice.

Ordered, That the faid memorials do lie on the table.

On motion of Mr. Haliburton, refolved, that this Houfe will, on Monday next the 12th inftant, take into confideration the foregoing memorials.

Then the House adjourned until to-morrow, at eleven of the clock.

HE House of Assembly beg leave to express their thanks for your Honor's Speech, at the departure of his Excellency the Lieutenant Governor, upon a military service, and for the communication, that, during his absence, the government of the Province has devolved on your Honor.

The thorough knowledge of the excellent Conflictution of your native country which your Henor muft have acquired, not only by extensive reading and fludy, but allo by long observation of its practical operation, and your experience, by many years residence in this Province, of the close analogy of the form of government established here, to that of the parent flate, and of its effects, on the habits and modes of thinking of the people of this colony, impress us with the firongest conviction, that, during his Excellency's absence, the administration of public affairs, will be ably and impartially conducted, to the honor of his Majesty's government; and to the fatisfaction of his Majesty's fubjects, in this Province.

The favourable afpect of political affairs in general, the flourishing flate of our provincial agriculture, fisheries, and commerce; and the well founded expectations of their progressive improvement, afford us the highest prefent gratification, and open to view, the most flattering prospects of future prosperity.

We fincerely hope that the United States of America, will continue that pacific fystem, by which they have to greatly benefitted, amidit wars, convultions, and revolutions, of the States of Europe. But, if the tranquility of this colony, fhall be threatened by any unexpected events from without, we have the fullest confidence, that the valour of his Majesty's regular troops, and the spirit and improved discipline of a patriotic Militia, directed by the abilities of our prefent commanding General, will fecure us against all attempts to invade the Province, or to diffurb its peace.

The Chairman reported from the committee that they had made further progressin the business to them referred, and that the committee had directed him to move for leave to fit again on the confideration of a fupply; which report the Houfe agreed to.

[Mr. Hutchinson, pursuant to leave given, presented a petition of William Sabatier and others in behalf of the merchants and other inhabitants of the town of Halifax ; and the fame was read, fetting forth, That in confequence of the late indulgencies granted to foreigners in fupplying the West-India islands, and the depression thereby occasioned to the trade of this Province, and others his Majesty's North American Colonies, the petitioners were appointed, at a public meeting held in Halifax, a committee to folicit his Majelty's Minilters on that fubject, and to watch over, and and endeavor to promote, the general commercial interests of the community.) The petitioners beg leave to avail themselves of this opportunity to express their well-founded belief, that the present is the most important crifis for the agriculture and trade of the Province which it has ever known; and they confidently flatter themfelves.

 $\mathcal{O}$ 

themselves that the General Assembly, viewing the subject in the same light, will liberally support that general interest, the opportunity of promoting which so effectually, may never again return.

That the petitioners, or their predeceffors, have had various communications with his Majefty's Ministers, and other eminent characters in England, on the subject in question ; and by those communications it appears that the interests of this country have materially fuffered for want of a public agent intimate with its concerns, capable of pointing out the nature and extent of its refources, and of answering with pertinence and propriety fuch queftions as are usually put when Government require full and correct information ; the petitioners might allude to many inftances where a deficiency of this fort has evidently exifted, but particularly refer to one which occurred in the last Session of Parliament, before a committee of the House of Commons appointed for the purpose of relieving the alledged diffress of the West-India planters, when it was proposed and recommended by their report, to allow American veffels to carry away all the principal articles of the produce of faid illands, thereby giving new facilities to the intercourse with foreigners, to the manifest discouragement of this Province. In this report of the committee, founded on the examination had before them, the interefts of these colonies are almost totally unnoticed] which the petitioners conceive were entirely owing 🐞 the want of an agent capable of anfwering the questions that were put, and giving the requisite information; and praying that the General Affembly will be pleafed to appoint a perfon properly qualified to act as a special agent for this Province, respecting its trade and fifheries, and the intercourfe with his Majefty's iflands in the West-Indies, and that he may be invefted with full power and authority to communicate with his Majefty's Ministers upon those important subjects.

Ordered, That the petition do lie on the table, to be perused by the Members.

Ordered, That the two first Bills as reported from the committee, be engroffed.

A meffage from the Council, by Mr. Cogfwell :

Mr. Speaker,

The Council have agreed to the refolution of this Houfe for appointing. Nathaniel Atchefon, Efq. fpecial agent for the Province.

The Council have agreed to the Bill, entitled, An Act to regulate the expenditure of monies hereafter to be appropriated for the fervice of roads and bridges, without any amendment.

The Council have passed a Bill, entitled, An Act to revive and make perpetual an Act, entitled, An Act for the fecurity of navigation, and for preferving all<sup>2</sup> ships, veffels, and goods, which may be found on shore, wrecked or stranded, upon the coasts of this Province; and for punishing perfons who shall sheal shipwrecked goods; and for the relief of perfons suffering loss thereby, to which Bill they defire the concurrence of this House.

And then the meffenger withdrew.

And the faid Bill was read a first time. Refolved, That the Bill be read a second time.

Mr. Hutchinfon reported, that the managers had held a conference yefterday with a committee of the Council, on the fubject of the Bill for granting to his Majefty a further duty on rum, and that they had received from the faid committee, a written paper, which he read to the Houfe, and is as follows : His Majefty's Council, anxious that the difficulties they feel in paffing the Bill, entitled. An Act for granting to his Majefty a further duty on rum, and other diffilled fpirituous liquors, for the purpofe of defraying the expence of providing arms and accoutrements for the Militia of this Province; fhould be correctly reported to the Houfe of Affembly, have inftructed the managers appointed to hold a conference with the committee of the Houfe of Affembly on the fubject matter of that Bill, to ftate, in writing, the fubftance of fuch conference, and to requeft the committee to report the fame to the Houfe :

First-His Majesty's Council feeling most fensibly the engagement, entered into the last Sessions of General Assembly by both Houses, to provide ways and meansto pay the expense of the arms and accoutrements fupplied the Militia) are defirous to concur with the Houfe in every measure necessary to fulfil such engagement, and least any misunderstanding should arise respecting the reasons which at present induce the Council to withhold their affent to the Bill now before them, you are to state :

Secondly—That the Bill departs from the ulage and practice of both Houles as to revenue matters; that the prefent fyltem of revenue commenced with the Act of 33d GEO. 3d. chap. 1, which imposed a duty of 6d. per gallon on rum then within the Province, or hereafter to be imported into it, and whether reference be had to the ulage and practice which prevailed in the formation and continuance of the prefent fyltem, or in the formation and continuance of any fyltem prior to it, having for its object raising a revenue from fpirituous liquors, it will be found, that the duty was imposed as well on the uncontumed flock on hand as on what should be thereafter imported, and you are to flate that, in the opinion of his Majefty's Council, juffice requires that it should be for the following reafons, which, amongft many others, may be offered :

First—If his Majely's Council should affent to the Act as now framed, it would afford to the present holders of a stock of spirituous liquors, an advantage equal to fifty per cent. on the existing excise duty over the merchant who should import the same articles after passing of this Bill.

Secondly—It would also permit the contractor for fupplying his Majefky's navy, to difpole of the whole of his prefeat flock for the confumption of the Province, without the fame being charged with the new duty, and would open a door for many other frauds which it would be difficult to detect.

Thirdly—You are to flate that the provisionary clause to the first fection directs a different course to be pursued in obtaining a drawback of this duty, from the mode already appointed by law. His Majefty's Council can see no advantage to be derived from such alteration, and are of opinion that a drawback of this duty should be allowed and paid according to the rules and regulations now existing, and particularly as it would seem doubtful whether a provision is made for a drawback on the run supplied to his Majesty's navy and army, the omission of which would be contrary to the instructions on that subject fent by his Majesty to this Government-

Fourthly—You are also to ftate, that the fourth fection of this Bill, which obliges the collector of the port of Halifax, to collect this duty without fee or reward, and the collectors of the other ports of the Province to collect the fame on a commission of two and a half per cent. appears to his Majefty's Council, to be wrong, both on principles of policy, as well as justice ; but, without entering into the policy of the measure, it will be neceffary to observe, that by an Act made and passed in the 47th year of his Majefty's reign, chap. 16, the allowance to be made to the different collectors is permanently fixed and established, and it would be fubversive of the rules and principles of Legislation, by a clause thus introduced into a temporary Act to suffer public officers who hold their fituations and emoluments on the faith of a permanent law of the Province, to be deprived of what is their legal right. If this was an Act to diminish instead of increasing the duty, the officers could not complain, but to increase the duty without an increase of emolument, would be contrary both to the letter as well as the spirit of the Act referred to.

Ι£

If his Mojelly's Council could only confider the value of the emolument of which this claufe deprives the officers, it would not be an object worthy of notice, but the meature has a tendency to establish a mode of proceeding to which his Majefly's Council cannot affent.

Fifthly—You are also to flate that it is the opinion of his Majefty's Council, that this Bill does not provide a fufficient revenue to liquidate and pay, within a reafonable time, the expences already incurred, as well as those hereafter to be incurred for the fame fervice, and therefore, does not, in the opinion of his Majefty's Council, fulfil the engagement entered into the laft Seffion, and more efpecially as the Bill is only to continue for one year, during which time it is impossible to expect that it will more than difcharge a very fmall part of the debt ; and however the prefent General Affembly may confider itself pledged for its further continuance, a new House may not think itself bound by the resolutions of a former one ; his Majefty's Council is therefore of opinion, that the engagements being to pay without any qualification, that the duty fhould either be made fufficient to pay the debt within one year, or otherwise continued until the whole debt fhall be paid.

On motion, the Houfe proceeded to take into confideration the foregoing paper received from the committee of the Council in conference, and thereupon,

Refelved, That a committee be appointed to prepare an answer to the faid paper. Ordered, That Mr. Hutchinfon, Mr. Haliburton, Mr. Lawson, and Mr. Robie; be a committee for the above purpose.

On motion, referred, that the Honorable Andrew Belcher, the Honorable Michael Wallace, the Honorable Richard John Uniacke; Fofler Hutchinfon, Simon B. Robie, and William Lawfon, Efquires, be appointed and authorifed jointly to correspond with the Agents of this Province on the feveral subjects referred to inthe petition of the Halifax merchants, and on the general interests of the Commerce and Fisherics of the Province; provided that all their letters, previously to their being forwarded to the faid Agents, shall be submitted to the Lieutenant Governor, or Commander in Chief, for the time being, and be approved of by him.

Refolved, That it shall be lawful for the Lieutenant Governor, or Commander in-Chief for the time being, from time to time, to draw out of the Treasury of the Province, by warrant in favour of the perfons named in the foregoing Resolution, any fum or fums of money not exceeding two hundred guineas, to be remitted by them to the special Agent of the Province, to enable him to defray any expences which may be incurred for the purpose of carrying into effect the objects of the faid resolution.

Ordered, That the Clerk do carry the foregoing refolutions, to the Council, and defire their concurrence to the fame.

Mr. Robie, purfuant to leave given, prefented a Petition of G. P. Monk, Captain of His Majefty's Ship Centurion, on behalf of himfelf and the officers of faid fhip, and the fame was read, fetting forth : that the faid fhip being flationed in the port of Halifax, the officers, under the prefent Revenue Laws of the Province, are obliged to pay the Provincial duties on all the Wines confumed by them on board the faid fhip, while the officers of his Majefty's other fhips on this flation, are al-

lowed

lowed a drawback on the Wines received on board, when bound on a cruife, and fuch flock ferves them also while in port, fo that the petitioners are the only officers of his Majefty's Navy on this flation who are liable to pay fuch Provincial duties; and praying relief from the House.

Ordered, That the petition do lie on the table to be perused by the members of the House.

Then the Houfe adjourned until to-morrow at eleven of the clock.

PRAYERS.

On motion, the House resolved itself into a committee of the whole House, to confider further of a Supply, for the support of His Majesty's Government.

Mr. Speaker left the Chair;

Mr. Pyke took the Chair';

Mr. Speaker refumed the Chair.

The Chairman reported from the committee, that they had made further progrefs in the bufinefs to them referred, and that the committee had directed him to move for leave to fit again on the confideration of a fupply, which report the Houfe agreed to.

Mr. Robie reported from the committee appointed to prepare an answer to the written paper received from the committee of His Majesty's Council, in conference, yesterday, and prefented an answer accordingly, which he read in his place, and afterwards delivered it in at the clerk's table, where it was read, and is as follows:

The Houfe of Affembly having confidered the objections flated by his Majefty's Council in conference, to paffing the Bill for impoling and appropriating an additional duty of four pence per gallon on Rum and other diffilled fpirituous Liquors; have directed their committee to flate to the Committee of his Majefty's Council :

FIRST—That it does not appear to the Houfe of Affembly that the Bill departs from the ufage and practice of both Houfes in Revenue matters, as in the laft Seffions of the Affembly an Act was made imposing an additional duty of fix pence per gallon on Wine, with which duty the flock on hand was not charged, to this Act His Majefty's Council gave their affent, without making any of the objections they

now

now fuggeft, although the duty being much greater than that imposed by the prefent Bill, must in the fame proportion have afforded a greater advantage to stock holders.

The Affembly confider that, as the usage has been both ways, every Bill of this kind fhould make the duty attach or not upon flock on hand as exifting circumflances shall mike it proper to apply to such stock, or justice shall require an exemption, which in the present inflance is the cafe : it is flated by His Majesty's Council, that the Act would afford to the prefent holders of a flock of Spirituous Liquors, an advantage equal to fifty per cent. on the exifting Excife Duty over the merchant who imports the fame articles after the paffing of this Bill : but, in the opinion of the House, this apparent advantage is much more than counterbalanced by the many expences and loffes to which those articles are liable during a ftorage of feveral months, and that perfons who import those articles after this Act shall be passed, have an advantage of more than four pence a gallon over flock-holders, which ought not to to be increased by an application of the duty to the flock of the latter.

If, in addition to these reasons, it is confidered, that great trouble; expence and rifk, will be caufed to holders of flock in taking an account of it; and the Affembly, if they had imposed any duty at all upon the flock on hand, could not have made that duty equal to what is imposed upon future importations, and, as much expence would be incurred by the Province in taking fuch account, that part of the Bill will be found lefs exceptionable than His Majefty's Council may have thought it. With respect to that part of the objection made by His Majesty's Council, that fraud may be practifed by the Contractor for fupplying His Majefty's Navy, the Affembly do not think there is reason to fear much, but although they think the Bill in that particular right as it now is, yet they can have no objection to the addition of a claufe to prevent him from disposing of any flock he may now have on hand for the fupply of the Navy, or for the prevention of the fraud feared by His Majefty's Council.

As to the third objection urged by His Majefty's Council, the Affembly think there is not the least foundation for it; as the Bill contains a clause of reference to the former law, and the duty is liable and entitled to all the restrictions and regulations contained in it, one of which regulations allows a drawback on Rum fupplied to the Navy.

On the fubject of the fourth objection, the Affembly obferve, that with refpect to the want of policy in not allowing a commission to the Collector of Halifax; as his Majefty's Council have not thewn how it is impolitic, but confine themfelves to a general affertion, the Affembly can only answer in a general way that they entertain a different opinion.

The flatute of the 47th of his present Majesty's reign, gives a certain commission to the Officers of Excile, but the Affembly think that only a rule to determine what fhall be received by them, when laws impoling a duty shall be filent on that fubject; but admitting for a moment it were otherwife, it can never be pretended that the flatute can apply to any other than the ordinary revenue of the Province; the prefent duty forms no part of the ordinary revenue, it is an extraordinary tax to raife money for a new but important purpole, and the Affembly confider them.

felves bound to apply as much as possible of the proceeds of that tax to the uses for which it is railed, and as the Assembly think the Collector of Impost and Excise at the port of Halifax, the best paid for his fervices of any Provincial Officer, and his duty is increased in a very trifling degree, by the present Bill, they did not think proper to add to his emoluments.

One part of the fifth objection urged by His Majefty's Council, affords another reafon to the Houfe for not allowing commiffions to that officer, namely—that money enough for the purpose for which the tax is imposed will not be raifed by the Bill, and if fuch is the cafe they would furely be unjuftifiable, were they to confent to make an unneceffary application of any part of it.

The objection made by His Majefty's Council, goes too far, it would prove that, however circumflances might make it neceffary to increase the revenue, a proportionable reduction of the commission, for collecting it, ought not to take place, although the increase of trouble in collecting is not in proportion to the increase of revenue. The adoption of the principle contended for by his Majefty's Council, wouldbe attended with this well founded objection, that the Legislature had encreased the emoluments of an officer already well paid, not according to the increase of his duties but in proportion as the impositions upon commerce, and the burthens of the people became heavier.

As to the fifth objection of His Majefty's Council, the committee are inftructed to flate, that it was not the intention of the Affembly when they entered into the refolution to provide for the payment of arms, &c. to difcharge the fame in one year, but by inftalments, with which they confidered His Excellency the Lieutenant-Governor would be well fatisfied ; and it is the opinion of the Houfe, that the refolution of the Affembly, concurred in by His Majefty's Council, will at all times be obligatory as well upon the prefent as upon any future Houfe of Affembly; who must either continue those laws which raife a duty to difcharge the faid debt, or fubfitute fome other equally or more productive and beneficial.

That the Houfe deem it inexpedient to extend the duration of the Aft beyond is that of the other Revenue Laws; that when the fubject comes before the Affembly in a future Seffion, they may be able to arrange the revenue in fuch a manner, as toappropriate a larger fum of money for the payment of the debt already incurred, or hereafter to be contracted, for arming the Militia, in cafe it fhall appear, after ayear's experience, that the prefent Bill will not produce a fum fufficient to difcharge the fame within a reafonable period.

On motion, *refolved*, that a further conference be defired with the Council, by committee, on the fubject matter of the last conference, and that the Clerk do request the fame.

The Clerk reported that the Council had agreed to the conference, as defired by this Houfe, immediately, in the committee room of the Council.

Ordered, That the managers who managed the laft conference; do manage this conference, and that they do deliver to the committee of the Council, the foregoing answer to the written paper received from them in conference on Fridaylaft.

And the names of the managers were called over.

And they went to the conference.

And being returned,

Mr. Robie reported that the managers had been at the conference, and also had obeyed the order of the Houfe, in delivering to the Council the answer of this Houfe to the paper received from them in conference.

Mr. Mortimer reported from the managers, and accordingly prefented an answer to the paper received from the Council, and he read the fame in his place, and afterwards delivered it in at the Clerk's Table, where it was read, and is as follows :

The House of Assembly are of opinion, that the monies which might become payable under the Bill, for granting a bounty on the importation of Salt, could be paid out of the Treasury of the Province, without causing any embarrassement of former appropriations, or of the ordinary establishment, but as his Majesty's Council are of a different opinion, the Assembly think that the possibility of inconvenience may be prevented by a clause being added to the Bill, to defer any payments under it, until former appropriations are paid, in case there should not be money sufficient for payment of those appropriations, and of the bounty. The Assembly agree with his Majesty's Council, that a duty equal to the bounty should be imposed upon all Salt exported from the Province, or supplied to the vessel of foreigners, provided the bounty shall be payable upon taid Salt, and the Assembly will, if his Majesty's Council concur in these fentiments, prepare and add fuch clauses to the Bill, as shall be payed or those purposes.

The committee of Council are directed to flate that the Council, having been induced to concur in the votes fent up for granting monies during the prefent Seffion folely in the expectation and from the firm conviction, that the Houfe of Affembly, meant to provide ways and means amply adequate to the expenditure, and inferring from the proceedings of the Houfe, that no fuch intention now exifts on their part, deem it neceffary explicitly to flate the difficulties they have in giving; their affent to the Appr priation Bill, now before the m.

Firft.—Becaufe after the moft careful inveltigation of the accounts upon their table, and which are also before the House, it appears to the Council, that the fums appropriated by the Bill, coupled with former appropriations not yet discharged, and the various sums payable for falaries and other fervices chargeable by law on the Treasury, will very far exceed the monies which by any reasonable computation can be expected to be paid into the Treasury during the current year; thereby affording just grounds for alarm at the prospect of involving the Province in a heavy debt, which may not only prove very injurious to the general interests of the country, but may also greatly embarrass the Executive in discharging the sums neceffary for the support of his Majesty's government in this Province.

That the Houfe had no reafon to conjecture that the motives which induced his Majefty's Council, to concur in the votes of the Houfe, for granting monies this prefent Seflion, were grounded on the belief that the Houfe, would provide further ways and means to meet the expenditure. That his Majefty's Council did not make any communication to the Houfe (except a formal notice of the appointment of a committee of public accounts) from the 24th November, the day of openingthe Seflions to the 24th December, when they were pleafed to advife the Houfe of the intentions of the Council, to adjourn until the 28th of that month. And as his Majefty's Council did not chufe to affent even to one of the maay money votes, fent up by the Houfe in the early part of the Seflions, until the Revenue Bills had paffed the Houfe and were fent to the Council, the Houfe drew the fair inference, that the fubfequent affent of his Majefty's Council, to the grants of the Houfe waafounded on a conviction that the revenue provided by thole Bills, would prove fully adequate to the payment of all the monies granted in this Seffions of Affembly.

That the Houfe, after a due investigation of the public accounts and a confideration of the monies and fecurities lodged in the Treasury, are of opinion that the fame some, together with the current revenue will be fully adequate to discharge all claims on the Treasury during the present year, as well for falaries, and other services as for the various purposes contained in the Appropriation Bill. The House therefore do not conceive that his Majesty's Council have just cause to apprehend, either, that the Lieutenant Governor or President, will be placed in a state of embarrassiment or that the Province will be involved in debt.

That with respect to the vote for contingent fervices, the House are not sensible of the necessity of continuing the grant having never received any account of its application. That the House have placed one hundred pounds, at the disposal of the Lieutenant Governor, for contingent fervices during the ensuing year, and if the expenditure of a further sum shall become really necessary in the recess of the Afsembly, the House will readily provide for, or fanction the same, at a subsequent Seffions. The House also instruct their committee to observe, that the not including in the appropriation Bill, a grant of money deemed unnecessary by the House, can afford to his Majesty's Council, no constitutional ground for objecting to the passing of that Bill.

To the laft reafon given by his Majefty's Council for delaying, an affent to the appropriation Bill, viz. "That no provision has been made by the Houfe for the fulfilment of the pledge fo folemnly gives during the laft Seffions, for the payment of the arms furnished by his Majefty to the Militia," the committee are directed to express the great furprife of the Houfe at this affertion of his Majefty's Council, fince the Houfe did in fact, by a Bill, passed this prefent Seffions, impose an additional duty on Rum, and appropriate it in the fame Bill for the express purpose of defraying the debt contracted by the Province for those arms, and the Houfe had calculated that at a moderate computation a revenue of three thousand pounds, would have been raifed thereby annually, to be applied to that specific object until the debt already contracted, should be discharged, and a further supply of arms, be provided for the reft of the militia'; that the House, therefore, cannot but confider that his Majefty's Council, by refusing their affent to that Bill, have been the fole cause of the breach of the pledge to which they refer, and that the House have faithfully performed their part of the obligation.

The committee are further inftructed to ftate; that the House of Assembly, confider themselves to be the conflictutional judges, as well of the articles, on which a duty may be laid with least inconvenience to their conflictuents, as of the amount of that duty, and whether or not it shall be made to operate retrospectively; and that if a difference of sentiment should unfortunately happen in this respect between his Majesty's Council and the House, the opinion of the latter, in a money Bill, should prevail.

That the Houfe cannot difmifs the objections made by his Majefty's Council, without obferving, that as the Appropriation Bill contains no new or unufual claufes, and as no fums of money are included in it but those which are contained in the estimate of his Excellency Sir GEORGE PREVOST, or to which his Majesty's Council have already given their assent, the House confider the passing of the Bill to be a matter of course, required alike by the interests of the Province, and by the confidence reposed by the House in his Majesty's Council.

Then the Houfe adjourned until To-morrow at eleven series clock.

### PRAYERS.

Mr. Hutchinfon reported from the committee appointed to take into confideration the flate of the Province, and he read the report in his place, and afterwards delivered it in at the clerk's table, where it was read, and is as follows :

That it appears to the committee, that, in confequence of his Honor the Prefifident difagreeing to the Bill for appropriating the public monies in the manner agreed upon by this Houfe, with the concurrence of his Majefty's Council, the Province will be thrown into the greateft confusion, and a total fuspension will take place of all those beneficial improvements recommended by his Excellency the Lieutenant Governor, and provided for by that Bill. That the committee have fearched the Journals of the House of Assembly, and find that the practice of applying the public monies by an Appropriation Bill, and cf prefenting that Bill, by the Speaker of the House, to the Governor or Commander in Chief, at the close of the Session, for his affent, originated in the year one thousand feven hundred and eighty fix; and that there is not a fingle instance of fuch a Bill being diffented to after it had been agreed to, as in the prefent case, by his Majefty's Council and the House.

That among other evil confequences which, it appears to the Committee, will refult from the Prefident's rejection of the faid Bill, the Committee beg leave to mention the following :

The public roads throughout the Province, and the confiruction and repair of bridges, will be unprovided for, and a great rifk be incurred of the communication between the Interior of the Province and its Capital being cut off; the Salaries of the Officers of Government, which are unprovided for by the perpetual Acts of the Affembly, will be undrawn; and a general difcontent excited throughout the Province in confequence of a new tax being raifed and appropriated by this Houfe for the payment of Arms provided for the Militia, while the old taxes are continued, and the money arifing from them remains locked up in the Treafury, inftead of being applied as ufual to beneficial purpofes, and to the general improvement of the Province.

That the Committee confider the proceeding of the Prefident to be particularly unjuftifiable at this prefent time, when the States of America fhew a ftrong disposition to declare war against Great-Britain, in which event the people of this Province may be called forth to defend themselves against an invading enemy; and, therefore, instead of weakening their confidence in, and attachment to, the Government, which this Act of the Prefident is calculated to effect, it appears to the Committee that the measures of the Prefident scale been directed to confirm such confidence, and to ftrengthen such attachment.

The Committee, therefore, recommend, the Houfe should adopt the following: resolutions, viz.

Refolved, That his Honor the Prefident, by affenting to all the Bills which have

been

been enacted, this prefent Seffions of the Affembly, for imposing taxes on the people of this Province, and by refusing his affent to the Bill for applying those monies to the important public purposes for which such taxes were imposed, without affigning any reason whatever for such an unprecedented measure, has manifested a diffegard to the interests of this Province, and abused the confidence reposed in him by this House.

*Refolved*, That although this unexampled and very extraordinary proceeding of the Prelident will caufe great inconvenience and difficulties to the inhabitants of the Province; and although the Houfe is utterly ignorant of his Honor's reafons or pretences for refufing his affent to the faid Appropriation Bill, yet it will become this Houfe, as far as poffible, to quiet the minds of the people, and to prevent all expreflions of difcontent.

Refelved, That, notwithftanding the ferious injuries the Province muft fuftain by having taxes raifed upon the people, and not applied to the improvement of its roads, the advancement of its commerce, and thole other important objects recommended by his Excellency Sir GEORGE PREVOST, at the opening of this Seffions of the Affembly, and provided for by the faid Bill; and, notwithftanding the high difapprobation with which the Houfe views the unjuftified proceedings of the Gentleman upon whom, by his Excellency's ablence, a brief authority has devolved, it is the duty of the Members of the Houfe, and they do unanimoufly determine, to ufe their utmoft endeavours in the feveral Countiés and Towns they reprefent, to preferve the harmony which has hitherto fohappily exifted in the Province, in the hope that the administration of the Government may fpeedily be refumed by His Excellency the Lieutenant Governor, whofe conduct, during the flort time he refided in the Province, has acquired him univerfal efteem, and affords the ftrongeft affurance to this Houfe, that he will give his affent to a legal and beneficial appropriation of the public monies, and thereby reftore the minds of His Majefty's loyal Subjects to their wonted tranquility.

Refolved, That although the putting a ftop to the ufeful and neceffary measures agreed upon by His Majefty's Council, and this Houfe, for the improvement of the country at this very interesting period of public affairs, will tend greatly to discourage the exertions which the inhabitants of this Province are now making in confequence of the American Embargo, to render themfelves independent of that country for many articles they have been accustomed to import from it, and would justify an immediate and humble request from this Houfe to Our Most Gracious Sovereign to call the author of all those evils to due account, yet, in confideration of the weighty concerns which now engage His Majesty's attention, and as it is hoped that the command of the President in this Province will foon cease, this House at present will content itself with directing the aforesaid Resolutions, and all proceedings relative thereto, to be forwarded to the Agent of the Province, together with the Journals of the House, to be laid before His Majesty's Ministers.

The foregoing report and refolutions were read throughout a first and fecond time, and, upon the question feverally put thereupon, unanimously agreed to by the House.

Ordered, That the proceedings of yesterday and of this day be printed in the ROYAL GAZETTE, and fuch other News-papers as Mr. Speaker shall think proper.

On motion of Mr. Robie, *Refolved*, that a Committee be appointed to join Mr. Speaker in corresponding with the Agent of the Province on the subject of the foregoing Resolutions, and that copies of the said Resolutions, and deal matters relative thereto be forwarded to him, for the purpose of being laid before His Majesty's Ministers.

Ordered,

Ordered, That Mr. Hutchinfon, Mr. Robie, and Mr. Lawfon, be a Committee acordingly.

Then the House adjourned until to-morrow at twelve of the clock.

A meffage from the Council by Mr Cogfwell :

Mr. Speaker,

The Council requeft a conference, by committee, with a committee of the Houfe, refpecting the fupplies neceffary to be granted this Seffion for the fupport of His Majefty's Government, and the general fervice of the Province.

And then the Meffenger withdrew.

The House proceeded to take the foregoing mellage from the Council, into confideration; and thereupon,

Refolved, That the following meffage be fent to his Majefty's Council, by the Clerk of this Houfe, viz.

The Houfe of Affembly having already granted all the Supplies which they deem neceffary for the fupport of His Majefty's Government and the general fervice of the Province, cannot confent to hold a conference by committee with a committee of His Majefty's Council on that fubject; but the Houfe will very readily hold a conference by committee with a committee of His Majefty's Council on the general ftate of the Province, and requeft fuch conference accordingly.

A meffage from the Council by Mr. Cogfwell :

Mr. Speaker,

The Council agree to the conference as defired by this Houfe, immediately, in the committee room of the Council.

And then the meffenger withdrew.

Ordered, That Mr. Hutchinson, Mr. Haliburton, and Mr. Robie, do manage the faid conference.

And they went to the conference.

And being returned.

Mr. Hutchinson reported that the managers had been at the conference, and flated the subflance of the conference to the House.

On motion of Mr. Hutchinfon, refolved, that a Committee be appointed to wait upon his Honor the Prefident, to inform his Honor—that the Houfe of Affembly have ufed their utmost endeavors, during a long Seffion, to complete the important bufine's of the Province, and having finished the Appropriation Bill, to which his Majefty's Council had agreed, and which, after having been submitted to his Honor for his perusal, had been returned, in the usual manner, to the Speaker of the Houfe, without any intimation whatever that any part of the faid Bill was exceptionable—The House fully expected that, agreeably to the usual practice in the Province on the preferatation of that Bill for his Honor's affent, as the last Act of the Sellion, the same would have been agreed to by his Honor, and that the General Affembly would have been prorogued—That his Honor having been pleafed to refuse his affent to the faid Bill, the Houfe conceive the fubject of Appropriation for this Seffion to be determined, and they, therefore, inform his Honor that they have no buline's whatever before them.

Ordered, That Mr. Roach, Mr. Chandler and Mr. Lawfon, be a Committee for the above purpofe.

Mr. Roach reported, that the Committee, purfuant to the Order of the Houfe, had waited upon, and delivered to his Honor the Prefident, the foregoing Refolution of the Houfe, and that his Honor was pleafed to fay to the Committee, that he would take the fame into his confideration, and give an answer to the Houfe.

Then the Houfe adjourned until to-morrow at twelve of the clock.

### PRAYERS.

On motion of Mr. Mortimer, *refolved*, that it is the unanimous opinion of this Houfe, that the prefent funds of the Province, and those which will be derived from the existing Revenue Laws, will far exceed all appropriations to be paid out of the fame; that it is highly impolitic, as well as injurious to the true interests of the Province, to allow of an accumulation of large fums of money in the hands of the Treafurer unapplied : the baneful effects of which have been heretofore feverely experienced; and that it is the unanimous opinion of the House, that after the rejection \* of an Appropriation Bill, it will be illegal for the Treasfurer to pay any sum of money whatever contained in such Bill.

Ordered, That the foregoing refolution be printed in the Royal Gazette, and fuch other newspaper as Mr. Speaker shall think proper.
