## Kerensky Government Facing Grave Situation

### Crisis in Russia One of Grave Danger, Brought About by Insubordination in Army and Spreading of Teuton Propaganda.

By Courier Leased Wire.  
London, July 26.—The situation in Russia, according to a despatch to The Times, is declared to be gravely dangerous and is attributed to the indiscipline of the army and German propaganda, "the impudence of which is almost past belief." Petrograd, the writer says, is exhausted by the continued political excitement and the people are craving a stable government. Decisive and swift action is necessary above everything else.

Trial of persons proved to have connection with German propaganda with immediate death penalty of those guilty of the more severe offences would have an immeasurable affect. The government's declaration of itself as a committee of public safety has caused a feeling of relief and a strong handling of the outbreak in Petrograd caused the extremists to vanish but the cancer is uncured. The roots are still there and a further operation is necessary.

The masses are too much out of hand to be deterred by anything but a reintroduction of the death penalty. "The problem before the government is immense," concludes the correspondent. "They stand on the brink of a precipice. If they can hold back the country the situation is saved. If not the country will rush into chaos and anarchy."

### Resigns Post

Petrograd, July 26.—General Polovtseff, military governor of Petrograd, who recently was severely attacked by Minister of War Kerensky for failing to put down rioting in the capital, has resigned. General Erdelli, commander of the Eleventh Army, has been appointed his successor.

### Pole Leader Arrested.

Copenhagen, July 25.—General Piludski, organizer and former commander of the Polish legions, has been arrested by the German authorities while attempting to leave Poland on a false passport.

General Piludski's flight marks the culmination of the differences between the Poles who desire to form an independent Polish army upon the nucleus of the legions and the German authorities, who insist that the Polish forces must be under German control. General Piludski had hitherto been hailed as a Polish patriot and the Polish legions held up as a symbol of the national movement against Russia. Both the legions and their commander were assigned to prominent roles in the proclamation of the Polish kingdom.

The Germans now discover that General Piludski is a republic conspirator, with leanings toward Russia.

### Capital Punishment

Petrograd, July 26.—The commander-in-chief and the commanders of the various armies at the front have insisted that restoration of discipline in the army inevitably would necessitate infliction of the death penalty, the government has agreed unanimously to restore capital punishment. The measure is of temporary character, to have effect until the end of the military operations. The inquiry into the recent

### DEFENDER OF BALKAN INTEGRITY

Greece Aligned With Entente Against the Central Powers

### VENIZELOS SPEAKS

Greek Troops Actually Fighting Against Bulgars in Macedonia

By Courier Leased Wire.  
Athens, Tuesday, July 24.—On the eve of the assembling of parliament, Premier Venizelos received a correspondent of the Associated Press and made the following statement: "The reassembling of parliament, which was dismissed by the arbitrary action of Constantine, is the formal resumption of democratic government and the rule of the people in line with the ideals and principles of which the United States gives a conspicuous example. No longer have we a royal autocratic ruling by the divine right of kings and not responsible to the people, but rather a constitutional monarchy in which authority is exercised within strict limits.

Greece is now aligned with the Entente Allies. Relations with the Central Powers have been broken, and a state of war actually exists, as Greek troops are fighting against the Central Powers in Macedonia. A formal declaration of war was made by the provisional government and it is unnecessary to renew it.

"The increase of the Greek army and co-operation with Serbia will restore the Balkan forces to their proper role of defenders of the integrity of the Balkans. France and the other protecting powers are leaving us a free hand and all the allies recognize Greece's position as a sovereign and independent nation."

### Chamber of Deputies

Athens, July 26.—The chamber of deputies convened yesterday, heard Premier Venizelos read the decree of convocation and then adjourned for a few days for the election of officers.

### Entire Division of Mutinous Troops in Eleventh Army is Blown to Pieces by Korniloff's Order.

By Courier Leased Wire.  
London, July 26.—A despatch to The Post from Petrograd says that under General Korniloff's drastic measures to restore order in the Eleventh army, one whole division thereof was blown to pieces by their own artillery to avenge the insults which all loyal troops, especially the artillery, have been silently enduring for the past four months from these traitorous rascals.

### BRITISH TANKS USED.

London, July 26.—Special dispatches from Petrograd ascribe to British armoured cars a gallant part in covering the Russian retreat in Galicia. The infantry deserted them, hence their stand was unavailing, but the German advance was held up sometime. The commander-in-chief personally congratulated the British commander, Locker Lampson, and presented twenty six crosses of St. George to his men. The British casualties were only five wounded, and the cars later co-operated with the Russian cavalry in front of Tarnopol.

### ARTILLERY SAVED.

London, July 26.—A despatch to the Exchange Telegraph from Copenhagen says German correspondents of Galicia report that although the German and Austrian troops captured great quantities of munitions, armoured cars and wagonloads of food, the Russians saved their large artillery. Many of the heavy guns captured by the Germans had previously been destroyed. The correspondents said that the conquered territory is of the greatest importance, the corn in most places being ready for harvesting.

### PRUSSIAN PIRACY IS PICAYUNE

Sub Campaign Rapidly Failing; No French Ships Sunk in Week

### ITALY'S LOSS LIGHT

Austro-German Ships Seized by Siam Found to be Damaged

By Courier Leased Wire.  
London, July 26.—For the week ending midnight July 22, not a single French vessel, either over or under 1,600 tons was lost, according to an official statement issued yesterday. Six French merchantmen were attacked unsuccessfully during that time by submarines. Ships of all nationalities, numbering 1,063, entered port, and 937 departed.

### Italian Losses

Rome, July 26.—Two Italian steamers were sunk and one small sailing vessel was damaged during the week ending midnight July 22, says an official announcement issued yesterday. Five hundred and ninety-three vessels with a gross tonnage of 389,815, arrived and 550 of a tonnage of 483,456 left port.

### U. S. Ship Sunk

London, July 26.—The American sailing vessel Augustus Welt was sunk last Saturday. The crew was saved. No details of the sinking have been received.

The Augustus Welt was a wooden vessel of 1,221 tons. She was owned by A. R. Reed of Waldoboro, Maine. Its port of registry was Boston.

Bangkok, July 26.—The machinery of Austro-German steamers, which were seized by Siam, who declared war against the Central Powers July 22, was found to be damaged. All male subjects of enemy countries have been interned and all enemy business will be wound up.

Nine steamers, aggregating 19,000 tons were seized by the Siamese government with its entrance into the war. They were owned chiefly by the North German Lloyd Co.

## Tremendous Losses For Germans On Aisne Front

By Courier Leased Wire.  
Paris, July 26.—German assaults were repelled last night along a front of about two miles on the Aisne front, from a point east of Hurethise to La Boverie. The French official statement issued this afternoon says that at the cost of tremendous losses the Germans were able to penetrate into certain elements of the French first line trenches.

North of Auberville, in the Champagne, the French penetrated the German trenches, the statement says, and inflicted heavy losses on the Germans. On other parts of the Champagne front the artillery bombardment was intense. Fighting lasted all night, the French repelling every attack made by the Germans.

The Germans also renewed their assaults on the French position at Hurethise Farm, but the attack broke down under the trench fire of the French.

The reciprocal artillery on the left bank of the River Meuse, in the Verdun region, was maintained with the usual excellence.

### Post Attacks Vain.

London, July 26.—(Via Reuter's Ottawa agency)—Reuter's correspondent at French headquarters writes: "In the last battle for the plateau the best German troops were thrown in against the same French division holding the ground which repulsed the boches on July 19. The Germans attacked with the Fifth division guards, preceded by detachments of shock troops. They had the advantage of attacking on ground

where the French artillery could not be effectively used owing to the cliff-like steepness of the plateau, while their own artillery was able to cut off the French first line on the slope of California—Casemates from their support trenches.

"The Germans have nothing to show except thousands of casualties for their great effort.

"In another engagement between first rate French troops and the very pick of the German army, the latter were clearly and unmistakably defeated. The news will be read with feelings of pride and relief in every French household."

British Headquarters in Franco, July 26. (By the Associated Press)—The German and British lines in France and Belgium, which have been comparatively dormant for several weeks, so far as any large offensive is concerned, have tensed perceptibly in the last few days. Out of the stiffening have grown numerous fierce artillery duels, especially in Flanders. The Germans have developed what is known among the British as "nerves"; that is, they have become exceptionally sensitive to any movement of their opponents which deviates from the routine and (Continued on Page Six.)

### Appalling Blow to Allies is Collapse of Russian Army --Troops Demoralized, Gunners Shot Down by the Infantry Forces

By Courier Leased Wire.  
London, July 26.—An appalling blow is the description of the Russian collapse given in a despatch from Petrograd to The Post. Never in the war has Russia put afield such enormous armies. British and French guns and gunners, flying machines, aviators and British armored cars were added to the unprecedented technical strength of the Russians themselves to make this particular front equal to anything. The artillery was planted in such admirable natural prepared positions as amounted to the ideal. There were places where the artillery lay in absolutely dead ground not 300 yards from the enemy trenches. Big guns were ideally placed thanks to the character of the terrain.

In formation regarding the guns of the Eleventh Army almost staggers belief. It appears that the infantry shot down their own gunners in order to get their horses or shot down the gun horses in revenge as they retreated leaving practically all the artillery of the Eleventh Army in enemy hands.

As far as the artillery and technical appliances of the Seventh and Eighth armies are concerned there is also no hope of their being saved. The Germans were already a couple of days ago across the best road on the shortest line of retreat. The rate of the enemy's advance on the western wing has accelerated and the gun positions are behind the line now occupied by the Germans. It is becoming an exceedingly anxious question whether the Eighth Army will succeed in getting away at all, but it is making the best haste eastwards.

### Balkan Conference.

Paris, July 26.—"There must be no confusion in to-day's Balkan conference with that proposed by Russia for the revision of war aims," says The Journal des Debats discussing the session which opened yesterday. "If any such question were to be under discussion the United States would not have been content to send only one admiral to the deliberations," the newspaper adds. It hopes the eventualities will not make such a conference urgent in the eyes of the Russians to whom the enemy has spoken vaguely of peace, without, however, saying a word about the future of the conquered Russian people.

The Journal des Debats lays great stress on examining the new situation created by Greece's changed attitude, including the new military situation due to Greece's army of 200,000 and new methods of provisioning Greece, which are largely an affair of tonnage, introducing naval problems.

Dismissing again rumors that the conference would take up peace aims, the newspaper concludes: "For the moment it is necessary to win. The Paris conference has for its program the better arranging of ways and means on the Balkan front. That is all and that is not enough." The Temps points out that the conference falls on the third anniversary of Austria's breach with Serbia, which upset all Balkan affairs and unleashed a war that cost the lives of millions of men. The paper then sketches in detail events at the outbreak of the war, their far-reaching consequences and responsibility of such men as Emperor Tisza and Emperor William, and the unchanged attitude of nearly all of Germany toward war.

### TAX PROFITS

Melbourne, July 26.—(via Reuter's Ottawa Agency)—The government on the second reading of the war-time profits tax bill announced that the tax would be fifty per cent for the year ending 30th June, 1916, and 75 per cent after that date. The tax would be levied on excess profits during the war, compared with profits before the war. Exemptions include agriculture, fruit growing, dairy and allied businesses.

### AGITATION PLANNED BY SINN FEIN

Disturbance in House of Commons Planned When Ginnell Spoke

### DETECTIVES CALLED

Reported That Government Has Unearthed Bombing Conspiracy

By Courier Leased Wire.  
New York, July 26.—An Associated Press cable dispatch from London says: According to the lobby correspondents of the newspapers, the action in having secret service men placed in the parliament buildings was to counteract a demonstration by Sinn Feiners who, it is reported, had come to London especially to make a disturbance in the House of Commons when Laurence Ginnell, Nationalist, announces his resignation of his seat as a Nationalist and his adhesion to the Sinn Feiners.

### Plot Discovered

According to one version, the government has been informed of an alleged Sinn Fein plot to throw bombs or discharge revolvers from the strangers' gallery in the House of Commons, or blow up the House. Hence the Speaker's reference yesterday to physical violence and his promise to ascertain whether the continued presence of secret service men in the building was necessary.

### FREIGHT INCREASE.

By Courier Leased Wire.  
Washington, July 26.—The Interstate Commerce Commission today in accordance with its findings in the fifteen per cent rate case, granted the railroads' application for an increase of ten cents a ton in freight rates on bituminous coal from mines in Illinois, Kentucky, Tennessee and Alabama, to points in Mississippi Valley territory.

BEARS TOOK TWO FROM THE LEAFS

Double Bill Went To League Leaders When Toronto Twirlers Failed

Toronto, July 26.-After giving Newark the once-over in that disastrous double bill yesterday afternoon, which the Bears took from the Leafs by 3 to 1 and 10 to 5 respectively, one can find any reason why they should be leading the league except that the local club is without the necessary pitchers to demand the position, and, once having acquired it, hold it. To fall before the Bears in this crucial series is a hard blow to the team, but in no department of the play except on the mound did Newark appear to have anything on Toronto; in fact, in the first game the Leafs outbit the Bears, and, besides, had a clean misplay column, as against three boots for the visitors.

Mr. J. G. Turritt protested against the principal of placing men on the principal of placing men on the land who were accustomed to farming. Returned soldiers who had been farmers before they left might well take advantage of the measure, but the bill applied to returned soldiers from an entire range of the Empire. He doubted whether more than one in fifty would make good.

Mr. Donald Sutherland expressed the view that it would be better to allow the soldiers who belong to the Eastern provinces and who do not desire to pioneer in the West, to remain in the East, even if it was necessary to let them more money.

**LASTING GLORY OF LEGION NEVER LISTED**

**There's a Legion That Never Was Listed; That Carries No Colors or Crest; But, Split in a Thousand Detachments, Is Breaking the Road for the Rest**

(By a British Comrade)  
In connection with Britain's effort in the war, everyone has read with grateful pride of the fine work and brave deeds upon all the fronts of the Scots, the Irish, the Welsh, the Indian troops, the Canadians, the Australians, New Zealanders, South Africans, Newfoundlanders and most other branches of the British Empire family.

But there is another group that is distributed haphazard along our lines in France and Flanders, Macedonia, Palestine, Mesopotamia and elsewhere whose presence is often sorely felt by our enemies, though the group is hardly ever mentioned anywhere. Its individual members have earned a surprising number of awards for distinguished service so that, as individuals, our house hears a good deal of them. But not as a group. By the accident of circumstances, members of this group are sometimes labelled "Canadian" or "Australian"; but when they belong to home units they naturally get no label indicating their membership of any particular group. They simply have a notable part, of the British effort in the war.

Twenty years ago and more the Empire's poet told the world a good deal about this group, after long and affectionate study of many of its members. He wrote: "There's a legion that never was listed."

That carries no colors or crest. But, split in a thousand detachments, is breaking the road for the rest." The same poet referred to the members of the group as "The Gentlemen Rovers Abroad," and there are few families of note in England which have not contributed a younger son to the band. Germany has never bred any equivalent to the "Legion that Never Was Listed."

And perhaps that is one reason why her leaders misled their Emperor in 1914 with the assurance that the members of this scattered branch of our House, like the settled branches in the different Dominions, welcome the excuse provided by war for cutting the painter and severing all connection with the mother country. It naturally was not possible for the people of the machine-made, machine-drilled parvenu German

necessities of travel, so furiously hurried had been their voluntary uprooting. None of them were satisfied by the rate at which their steamers carried them, hurrying over all the seven seas to the recruiting offices of Mother England, where, had they so chosen, they could have made their attestations in a hundred different dialects, and recorded their last place of residence in all the most remote and out-of-the-way settlements of the world's farthest beaches.

Invaluable Services.  
In the fighting lines of the different British Fronts these men have ever since been rendering quite invaluable services. The adventurous spirit of enterprise which first sent them on their travels and secured them the freedom of the Legion that Never Was Listed had found abundant scope among the hazards and chances of front-line life. The self-reliance and unflinching resourcefulness acquired by them in their different bids for fortune and misery among the world's outside places, have been of priceless value to them and to our cause in No-Man's-Land in the trenches, on patrol, in attack and in defence.

And, aside from the distinction they have won in actual contact with the enemy, they have accomplished miracles, and put in an enormous amount of steady, persistent effort in the Allied cause—the cause, as they saw it, of Liberty, freedom, justice, and democracy against the arrogant menace, the lawless assault of the Central Empires' military despotism. At the same time, hushed about their various ventures, many thousands of Britain's gentlemen, adventurers who never have claimed citizenship of any other land than that of their birth, in these grey islands, flung aside, as though of little worth and no importance, all the multifarious concerns into which, with all the rather reckless enthusiasm of their wanderer kind, they had sunk their whole capital of energy, ability and money, and raced headlong for the nearest homeward bound steamer.

Many of them actually left houses, cultivated lands, mines, pearling ventures, machinery, contracts, half-completed "deals," concessions, dear bought treasure of one kind and another, literally to take care of themselves, to be seized by the first comer, to revert to the jungle or the wilderness from which they had been won.

The Legion that Never Was Listed received no rallying up notices; no touch of compulsion was ever laid upon them, or, in the nature of things, ever could be; and a thousand obstacles lay between them and the carrying out of the one ambition which at this moment possessed them: to the exclusion of all lesser things. Many of them lacked passage money and must needs work their passages; others lacked the ordinary

**Hunting Ground of Hurons . Now Favored Holiday Haunt**

ON MUSKOKA LAKES

The regions pictured here are in the Highlands of Ontario, and were the hunting grounds of the Hurons before the ships of Spain turned to the westward from Palos. The Hurons selected in these Highlands of Ontario some of the loveliest districts in Canada. The scenic beauties, the health giving atmosphere and the excellent fishing are now attracting a steadily growing army of visitors. One day's journey from most of the large centres places the traveller in Muskoka, Lake of Bays or Algonquin Park, and the Grand Trunk lines thread the territory in such a manner that every point is made easy of access. From the train you may visit the outfitter stores and then launch out into the deep woods by canoe. Whole families now spend their vacations camping in Algonquin Park. Fleets of steamers give service over the Muskoka Lakes and the Lake of Bays. While these districts have lost none of their primitive loveliness every form of recreation has been provided, including golf links for the devotees of the royal and ancient game. There are modern hotels for the lover of social life and quiet spots for those who wish to be near the heart of nature, while in Algonquin Park log cabin camp hotels have been constructed back from the beaten paths of travel, which combine primitive surroundings with the comforts found in hotels in large cities.

**Prize Awarded!**

Some little time ago we advertised to give a Raymond Sewing Machine to the customer who would purchase a property that would strike the average of the first ten sales made after the advertisement appeared. On investigating our list, we find that the Messrs. Simpson, of 105 Park Ave., are the customers who purchased the property, the amount of which struck the average. We therefore declare the award to these gentlemen, and have notified them accordingly. The list of sales appeared a few weeks ago.

We offer for immediate sale, very fine property on Marlboro Street. 2-storey buff brick residence, containing 4 bedrooms, parlor, dining room, kitchen, Kelsey furnace, complete bath, cellar full size, laundry tubs, city and soft water and sink, stone sills, back and front stairs. Price only \$3,500. Owner is leaving city and consequently immediate sale must be made. Call at once for further particulars.

Thursday, July 26th, 1917.

THE SITUATION

Amid the dark outlook of affairs, as far as Russia is concerned, as a factor in the war, there comes the one gleam of recent satisfaction in the fact that Rumanian and Muscovite troops have scored a victory in the Southern Carpathians. In the operation, they captured a couple of villages, several prisoners and some heavy guns. The official despatch adds that "the powerfully organized enemy line has been broken on an extensive front."

AN INCOME TAX

The Dominion Government has implemented its promise to introduce an income tax.

To this end Sir Thomas White, Finance Minister, yesterday in the Dominion House introduced such a measure and it inaugurates a move in the right direction.

Unmarried men and widowers in receipt of \$2,000 per annum, will come under the levy and for others the commencement is at \$3,000. There is a rising rate running from 4 per cent on incomes up to \$6,000 to 25 per cent on incomes of over \$10,000.

No doubt effective measures will be taken to see that incomes actually pay on the basis of their total for it is a notorious fact that the municipal rate of 2 1/2 per cent, on incomes of over \$1,500 has been continually dodged. As the war continues and the financial demands on the Dominion become steadily more onerous, a still further increase would be in order as necessity demands.

Without doubt the step inaugurated will be generally met in the proper spirit and it is to be hoped that it will not be allowed to interfere in any way with the generous giving which has hitherto characterized contributions to the Patriotic, Red Cross and other funds. Those who have must be prepared to give liberally of their substance in these times of crisis.

NOTES AND COMMENTS

Old Sol is evidently determined to run the rest of the month off in heats.

And while you are removing the oozes from your fevered brow, just remember that on one of the fronts British soldiers are fighting at 115 in the shade.

Zerensky these days, not only needs to be argued eyed, but also to be a centipede about the feet, in order to cover all the ground at home and on the front.

Any one who can throw chilly glances these days, is worth while cultivating.

Hamilton Times (Liberal):—We have had a declaration of principles from the English-speaking Liberal conspirators, and a similar declaration from the Liberal members and candidates. Now let us have a declaration from Sir Wilfrid Laurier. If he cannot lead us under the banner of conscription, then we will have to get another leader for Ontario or go it alone. Speak now.

MRS. MOONEY ACQUITTED

San Francisco, July 26.—Mrs. Rena Mooney, one of five defendants in murder cases growing out of the bomb explosion here last summer and which have excited world wide interest, was acquitted late yesterday. After trial, that had lasted nine and one half weeks, the jury deliberated fifty one hours before reaching its verdict of "not guilty." Seven other indictments are pending against Mrs. Mooney, but it is uncertain, according to the district attorney, whether she will be tried again.

Thomas J. Mooney, her husband, and Warren K. Billings, have been convicted and sentenced to death and life imprisonment. Both have appealed. Israel Weinberg and Edward A. Moran, the other defendants remain to be tried. As the foreman announced the verdict, Mrs. Mooney, a comely young music teacher, jumped from her seat and kissed each juror. Friends, relatives and her attorneys showered her with congratulations.

AGRICULTURAL FRANCE

Paris, July 26.—With the object of assuring France's agricultural development and preventing a labor crisis the Academy of Agriculture has unanimously demanded of the authorities that vessels which are being used to carry food to the army in the orient shall be employed on their return to bring phosphates from Algeria and Tunisia. The Academy further requests that motor culture be introduced on large as well as small estates that war material factories shall be instructed to employ their resources in labor for the construction of tractors as soon as an armistice is declared and that schools of motor culture for the benefit of farmers be instituted in all districts.

WAR CAPTAIN READY

New York, July 26.—The War Captain, said to be the first steel ship ever built in American waters for Great Britain was sent down New York bay yesterday on her trial trip and was declared by Captain Daniel Flynn its commander, to be fit in every way. The War Captain is of 3,500 tons and on the trial easily maintained a speed of 10 1/2 knots an hour. It was built for the Cunard Line, all of whose ships heretofore have been laid down in British yards. Five similar vessels are under construction here for the same company.

MONTREAL AFFECTED

Montreal, July 26.—This city expects to contribute probably nearly half of the revenue Finance Minister White expects to raise by his new income tax. The revenue is placed between fifty and twenty million. Mer who will be affected are high salaried officials of the C. P. R., the G. T. R., the Bank of Montreal, the Royal Bank, Merchants Bank, Molsons Bank, and the other important financial enterprises here, and the large manufacturing concerns.

CANADA OBTAINS LOAN FROM U.S. FINANCIERS

Short Time Credit Granted By American Government; Loan To Be Floated By J. P. Morgan & Co.; Total of \$100,000,000

New York, July 26.—J. P. Morgan & Company announced today that arrangements had been perfected for the flotation of a \$100,000,000 loan of the Government of the Dominion of Canada, which will be offered to the American public upon a basis to yield approximately 6 per cent. The loan will be unsecured, and it will run for two years.

The loan to Canada will be the first foreign government transaction that has been undertaken since America's entrance into the European war. It was first thought that the United States might make advances to Canada just as it has given credits to Great Britain, France and other enemies of Germany, but when it was found that the government at Washington was not disposed to lend money to Canada, New York bankers were asked to do the financing. They readily consented, but pointed out that in the circumstances it would be necessary to obtain Secretary McAdoo's consent. Sir Thomas White, Canadian Minister of Finance called on the Secretary to discuss the matter, and upon the announcement by Mr. McAdoo that he had permission the Morgan firm issued the following statement yesterday afternoon:

The Morgan Statement "We are authorized to state that the Dominion of Canada will shortly offer to American investors, upon approximately a 6 per cent basis, \$100,000,000 of its two-year notes, adopting this method of offsetting part the trade balance in excess of \$100,000,000 now existing against Canada and in favor of the United States. The comprehensive statement issued by Secretary McAdoo at Washington indicates clearly the attitude of the Federal Treasury in this matter."

The proposed loan is the third to be raised here by the Dominion of Canada since the outbreak of the war. While the first loan of \$5,000,000, consisting of \$25,000,000 of one year 5 per cent notes, which matured in August, 1916, and \$20,000,000 of two year 5 per cent notes, which matured in April, 1916. It was in the form of 5 per cent notes, \$25,000,000 maturing in five years, \$25,000,000 in ten years, and \$25,000,000 in fifteen years.

The price at which the new loan will be offered to the public is higher than that of the earlier issues, none of which was sold on a basis higher than 5 1/2 per cent. J. P. Morgan & Company sent out letters last night inviting participation in the syndicate that is being formed. While all the names have not been made public, it is understood the list will include the National City Company, Harris, Forbes & Company, Brown Brothers & Company, Lee, Higginson & Company, the Guaranty Trust Company, and the Bankers' Trust Company.

WASHINGTON Optimistic

Washington, July 26.—The Russian military situation was acknowledged at the Russian embassy today to be intensely serious, but it was said to be not critical as had been reported in some reports. While the Galician army has admittedly suffered a severe setback, it was pointed out, there is at present no indication that the Russian army has spread throughout the whole army or to other armies on the thousand mile front. Official reports are lacking, but it was pointed out that a detachment in one regiment alone in a key position might require a general retreat.

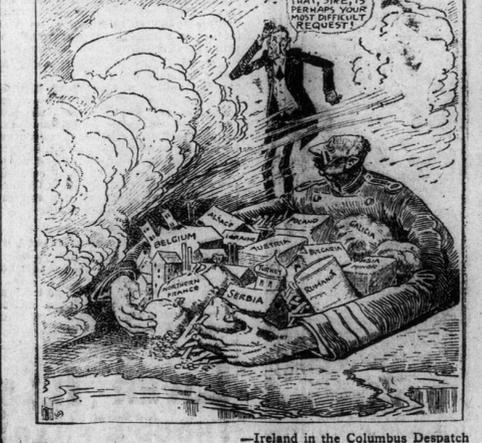

RESTRICTION MODIFIED

Petrograd, July 26.—In an order to-day modifying the decree relating to press restrictions, the provisional government authorized the publication of periodicals that incite insubordination or disobedience to orders, or the non-execution of military duties, as well as to acts of violence and civil war. Editors responsible for the publication of articles of this character, it is announced, will be brought to trial.

IRISH CONVENTION

Dublin, July 26.—Event fewer people assembled on College Green this morning to witness the arrival of the delegates to the Irish convention in session here. No individual caused any demonstration either of admiration or hostility. The complete absence of public excitement is treated by the Dublin press as on the whole a healthy sign. The unanimous election of Sir Horace Plunkett to be chairman of the convention is welcomed by the newspapers of the various political sides.

DAILY TALKS

NO. 4—THE MEANING OF DISCIPLINE

Discipline is the vital quality which enables a military force, or any similar body of men, to cope efficiently with the situations of warfare, as for instance, when a few cavalry or police clear the streets of hundreds of armed rioters, or school children are marshalled and marched in orderly fashion out of a burning building.

The discipline which a soldier should possess, must be regarded from two points of view—the collective and the individual. Collective discipline may be understood on considering the statement that the battle of Waterloo was won on the play fields of Eton. The Duke was supposed to have said this after he had been watching a game of cricket and a boat race at school. Also that Langemarck and Vimy were won on the playfields of Ridley, St. Andrew's, Upper Canada, the Collegiate Institute, and Public Schools throughout Canada, where the officers and men pulled together, played the game for the benefit of their side and were sustained throughout by a strict sense of discipline which they had acquired at school. Discipline, therefore, from a collective point of view, may be understood as "Playing the game" or a common effort for the benefit of personal interest. Individual discipline, on the other hand, is built up, mainly from self-control. It is a factor of discipline which must be acquired by each one for himself, and every man has to work hard to obtain it.

Everybody has something to fight against in his nature—one is born selfish, a vice intensified, another has a violent temper; then there is over-indulgence in pleasure. A man who wants to attain true discipline must overcome such failings and get control of himself; this accomplished, he is more likely to be a valuable asset to the Citizen Army or Militia as the effects of personal discipline extend beyond the individual, and have indeed a powerful influence of those around him.

QUIET IN SPAIN

Madrid, July 26.—Quiet is gradually being restored throughout Spain which has recently been in a state of unrest, due to strikes and other causes. An official despatch from Valencia says that martial law has been lifted and that the situation is absolutely normal in the entire region. Striking workmen will resume labor to-morrow in other cities.

MINISTERS OF GOSPEL PUT TANLAC TO TEST

Well-Known Ministers of the United States Come Out Openly and Fearlessly and Tell What They Know to be the Truth About the Medicine That Has Helped Them.

Rarely will a minister of the Gospel endorse a proprietary medicine. The preacher's higher calling, the influence he commands put a grave responsibility on his every word. He will not jeopardize his reputation by commending a thing without first assuring himself it is all right. His word carries as much weight in the home, on the street, or in the public print as in the pulpit.

When ministers of some of the greatest communions in the land endorse Tanlac their words carry conviction. They say what they know to be the truth. They have put Tanlac to the test of personal service and have not found it wanting. The proprietors of Tanlac have received countless testimonials from people in every walk of life, earnestly commending it. Among them are a number from prominent ministers of various churches. A few of these are printed below.

Rev. W. C. Norton is pastor of the Wesley Memorial Church of Jacksonville, Fla. He says:—"I suffered from chronic indigestion for years. I seldom slept well and had severe headaches. Since taking Tanlac I feel as well as ever I did—sleep splendidly and eat anything I want. Tanlac has restored my health and I feel it my duty to recommend it."

Rev. A. H. Sykes, pastor of Watkins Park Presbyterian Church, Nashville, Tenn., says:—"Mrs. Sykes suffered from stomach and kidney troubles and a nervous breakdown. Tanlac restored her health—she is gaining strength and flesh rapidly—her full restoration is but a question of time."

Rev. E. G. Butler, pastor of Central Baptist Church, Muskogee, Okla., says:—"I had attacks of acute indigestion. Results from taking Tanlac have been most satisfactory—am glad to recommend it as the best medicine I have ever tried."

Rev. F. M. Winburn, Methodist, San Antonio, Tex., says:—"I had no appetite—suffered from weakness and general debility—could not work without quickly tiring. Found Tanlac just what my system needed. I consider Tanlac a good medicine to build up run-down systems."

Rev. R. J. Taylor, pastor St. Pleasant Baptist Church, Franklin, Tex., says:—"Grippe left me in very bad shape—had indigestion, nervous headaches—could not sleep well. Tanlac gave me a good appetite, strengthened my nerves, I sleep well as ever—have gained five pounds."

Rev. A. L. Tull, Methodist, Atlanta, Ga., says:—"My granddaughter was a nervous wreck from indigestion. Tanlac gave her an appetite she can eat anything. She is on the road to recovery."

Rev. Jas. H. New, Baptist, Clarkston, Ga., says:—"My wife had severe cramps, headaches, was very nervous, badly run down, weak and thin. Tanlac caused her troubles to disappear—she never complains now."

Rev. A. J. Vallery, former superintendent, Bethany Home, Monroe, La., now of Memphis, Tenn., says:—"Three years ago I had a general breakdown with indigestion—had rheumatic pains in legs. Since taking Tanlac am relieved of indigestion—rheumatic pains have stopped—feel like a new man. I give Tanlac my unqualified endorsement."

Rev. John M. Sims, Baptist, Atlanta, Ga., says:—"I suffered from nervous indigestion and inactive liver—indigestion badly impaired. Tanlac corrected these troubles entirely—gained ten pounds taking two bottles."

Rev. W. T. Roby, Pastor West Lonsdale Methodist Church, Knoxville, Tenn., testifies from personal experience as to the great benefit he derived from taking Tanlac for disordered stomach.

No greater praise can be given a remedy than the unsolicited testimony of men whose lives are devoted to the betterment of their fellow men. Their integrity cannot be doubted. They serve their calling with great purity and sacrifice. Tanlac has helped them—they say so because they want to do you good.

Tanlac is sold in Brantford by M. H. Robertson Company.

NEWFOUNDLAND FOOD PROBLEM VERY SERIOUS

Inquiry Into Increased Cost of Living By Government Commission

By Courier Leased Wire. St. Johns, Nfld., July 26.—Mid-summer, heralding the approach of colder weather, finds the colony of Newfoundland seriously worried with the problem of food supply and control for the coming year. Not only is the island as a whole dependent upon the United States and Canada for its supplies of flour, pork, salt beef, sugar and many other articles of food, but hundreds of communities along its seaboard of 6,000 miles are cut off from importation of any commodities during five months of the year. These settlements are served only by a freighting fleet of steamers and schooners which bring in a year's food supply from St. Johns and other large towns during the seven months that navigation is possible.

A government commission which has been inquiring into the causes of the increase in living costs is preparing legislation for the creation of a food control board. Little headway toward obtaining assurances of sufficient food to carry the colony through the long winter can be made however, until the United States and Canada have decided on their own food control measures, so that the food control board can be learned. The colony possibly will be able to raise a sufficient supply of potatoes and other vegetables.

One Legged French Hero

By Courier Leased Wire. Paris, July 26.—The newest member of the Legion of Honor is Private Charles Caulet, who, despite the amputation of his leg, risked his life to save a child who was drowning when the steamer La Madjerda was torpedoed. Caulet plunged into the water, rescued the child and, by his coolness and courage, set an example for others—that materially aided rescue work.

The French passenger steamer, La Madjerda was sunk by a submarine while voyaging between Oran, Algeria and Marseilles. The survivors were picked up by a British vessel, the Coliseum, which was taken to various ports. La Madjerda was a vessel of 1918 tons gross.

Two German Ships Sunk

By Courier Leased Wire. Amsterdam, July 26.—Two German vessels have been sunk and two German steamers have been taken to England by British destroyers, according to the correspondent at Texel, one of the Frisian Islands, of the Amsterdam Telegraph. A German steamship which had been torpedoed, the correspondent adds, has arrived at Donholder.

RESCUE WORK

By Courier Leased Wire. Glouce Bay, N.S., July 26.—In an atmosphere of choking gas and tremendous heat, the crew of rescuers worked heroically through the night to liberate the survivors, if any, of the ninety-two "gumboot" when a mischance on a New Waterford shaft of the Dominion Coal Company's mines there brought down a heavy fall of coal, cutting off the retreat of the men in that part of the pit yesterday. Workers were not hopeful that anybody isolated by the explosion could possibly be alive, because if they escaped from the effects of the detonation, the gas would choke them. The last of the opening way for the victims was proceeded with very slowly on account of the suffocation of two of the volunteer rescuers yesterday.

FLAG'S SENT ABROAD.

By Courier Leased Wire. New York, July 26.—The Stars and Stripes and the Union Jack, which fraternized on neighboring flag poles during late international polo matches in 1911, 1913 and 1914 at Meadowbrook, have been sent aboard the the Hurlingham Club, by the polo association. With the flags went a letter signed by Chairman Henry L. Herbert, saying it seemed appropriate that the flags which had flown side by side to display the friendship of the two countries in sport, should be presented to their polo rivals. Several of the players who were seen on the Meadowbrook polo field have been killed in action at the front.

KILLED AT MT. PLEASANT

A distressing accident occurred at Mt. Pleasant last night, the results of which proved fatal. Mr. A. Kew, a contractor, was assisting Mr. A. Woodward of that place in making some repairs to a pump on the property of the latter, and had descended the well to bring up the pump, when a large log near the top of the well, and forming part of it, became loosened and fell, striking Mr. Kew on the head, rendering him unconscious, in which condition he was taken to the Brantford Hospital. He did not regain consciousness, and died shortly before 11 o'clock last night.

Do You Put Winning The War Ahead of Everything Else?

Are you willing to have party politics dropped until after the war has been won? Do you believe that Canada must "carry on" to the end, and support civilization with men, money, munitions and food? Ought every ability and activity of Canada to be devoted to winning the war? Are you determined that honor, duty and patriotism shall prevail over selfishness and indifference? Shall we support those sons, those brothers, those husbands, those fathers who are fighting for us at the front, and shall we send them the aid needed to save them from being killed alone and unaided? Of course you answer YES. Then fill out and mail this coupon and get your friends to do the same.

ARE you helping to win the War? Or could Canada put up a better fight without you? Are you working—saving—paying—to back up the men at the front? Or are you loafing—wasting—spending on selfish indulgences the money that should be loaned to the Nation? Man-power is at a premium! The time and strength of every man in Canada should be devoted whole-heartedly to really useful work—work that will help, directly or indirectly, in the Struggle. Food is short the world over! Every housewife in Canada should devote herself earnestly to the problem of conserving it—of feeding our people well, yet economically and without waste. Everyone should save—and lend the savings to the nation! Canada needs every dollar you can invest in War Savings Certificates, and for every \$21.50 you loan now, she will repay you \$25.00 at the end of three years—or you can get your money back at any time. Certificates are issued in denominations of \$25, \$50 and \$100, which may be purchased at \$21.50, \$43 and \$86 respectively, at any Bank or Money Order Post Office.

INCOME TAX INTRO Finance Minister Rate Will Graduated Ottawa, July 25.—The new Canada will be made to contribute its full share toward the cost of carrying on the war. In the months this afternoon Sir White introduced his income tax proposals and the extent of the tax to be taken of the incomes of the met with decided approval from sides of the House. The Finance Minister proposes to exempt the incomes of single men and widows without children up to \$2,000. From the income of \$20,000 beyond these starting points he takes for the service of the country a share of each individual's income that will jump in percentage as income increases. Thus the man with an income of \$4,000 pay \$80 a year, and the married man with a \$10,000 income will pay \$360 to Federal Treasury and the single \$400. From the millionaire's income of \$50,000 by reason of State will take over \$5,000, and \$75,000 of income will take \$10,000. On incomes beyond \$100,000 mark the tax is an extremely heavy one. Thus the man with a three-million-dollar fortune gets him a return at current interest rates will have to hand over to State something around \$40,000. Tax on Corporations. Corporations and joint stock companies will be required to pay per cent, tax upon net income of \$3,000 per annum. The Act, however, will provide that shareholders who are already taxed under the new tax will be exempt from the tax on their share of such company taxes as represent their interest in the concern. Other words, while the tax on corporations and joint stock companies does not operate as an extra tax on those already paying on income will affect shareholders exempt from the new tax by reason of small incomes and persons living outside the country drawing dividends from companies in Canada. Other exemptions apply to persons heavily taxed already through the war profits tax and other special taxation measures. The new bill will remit income taxation to taxpayers up to the amount they are paying under the War Profits Act and the Special War Revenue Act. The bill will also permit a taxpayer, in stating his income, to deduct all amounts paid to the Patriotic Enterprises. Payable Early in Year. The new taxation, it is expected will bring in a revenue estimated between fifteen and twenty million dollars, which will be payable early in the coming year. The legislation makes the tax applicable to the present year, and allows until February 28 for the filing of income statements. While introduced primarily as a war measure, it is altogether probable that Federal income taxation

# INCOME TAX MEASURE HAS BEEN INTRODUCED IN DOMINION HOUSE

## Finance Minister Brings Down Details of Such Measure —Rate Will Start on \$2,000 and There Will be a Graduated Levy Thereafter

Ottawa, July 25.—The wealth of Canada will be made to contribute its full share toward the cost of carrying on the war. In the Commons this afternoon Sir Thomas White introduced his income tax proposals and the extent of the toll to be taken of the incomes of the rich was with decided approval from both sides of the House. The Finance Minister proposes to exempt the incomes of single men and widowers without children up to \$2,000 and of other persons up to \$3,000; but beyond these starting points he will take for the service of the country a share of each individual's income that will jump in percentage as the income increases. Thus the single man with an income of \$4,000 will pay \$80 a year, and the married \$40. The married man with a \$10,000 income will hand over \$360 to the Federal Treasury and the single man \$490. From the millionaire with an income of \$50,000 a year the State will take over \$5,000, and on \$75,000 of income will take over \$10,000. On incomes beyond the \$100,000 mark the tax is an exceedingly heavy one. Thus the man with a three-million-dollar fortune giving him a return at current interest rates will have to hand over to the State something around \$40,000.

**Tax on Corporations.** Corporations and joint stock companies will be required to pay a 4 per cent. tax upon net income over \$3,000 per annum. The Act, however, will provide that shareholders who are already taxed under the Act will be given a rebate of the amount of such company taxes as represents their interest in the concern. In other words, while the tax on corporations and joint stock companies will not operate as an extra tax upon those already paying on incomes it will affect shareholders exempted from the new taxes by reason of small incomes and persons living outside the country drawing from companies in Canada.

Other exemptions apply to persons being heavily taxed already through the war profits tax and other special taxation measures. The new Act will remit income taxation to such taxpayers up to the amount they are paying under the War Profits Tax Act and the Special War Revenue Act.

The bill will also permit a taxpayer, in stating his income, to deduct all amounts paid to the Patriotic enterprises.

**Payable Early in Year.** The new taxation, it is expected, will bring in a revenue estimated at between fifteen and twenty million dollars, which will be payable early in the coming year. The legislation makes the tax applicable to the present year, and allows until February 28 for the filling of income statements.

While introduced primarily as a war measure, it is altogether probable that Federal income taxation in

modified form, will continue after the war. In dealing with the duration of the Act the Finance Minister said that he would not go so far as to say that the Act should be repealed after the war, but he did believe that in view of the necessity of encouraging men of capital and ability to enter the country, it might be deliberately reviewed.

The announcement was received with satisfaction, and the resolution endorsed with an almost entire absence of criticism, the only question raised being as to the sufficiency of the tax upon unmarried men. The bill based upon the resolution will be given first reading to-morrow.

**War Expenditure Growing.** In moving the income tax resolution Sir Thomas said that the enactment of the military Service bill would result in material acceleration in the war expenditures of the Dominion. By that bill provision was made for calling 100,000 men to the forces of Canada. In view of that and in order to maintain the credit of the Dominion it was necessary that further taxation measures should be adopted.

"Apart from this there has arisen in connection with the military bill, both in this House and in the country, a sentiment a very strong, natural, and in my judgment, a very just sentiment, that those who are in the enjoyment of substantial incomes should substantially and directly contribute to the growing war expenditure of the Dominion," said Sir Thomas.

"In view of this I desire to-day to lay before this House proposals providing for a national measure of income taxation." Sir Thomas said that income taxation was an innovation in Dominion legislation. Hitherto the Dominion had hesitated to impinge on the field of the provinces with direct taxation, but now he brought it down, regarding it as a manifest public necessity to meet the present emergency.

The Minister referred to the cost of administering an income tax measure, and to the advisability of the Dominion not being known to outside peoples as a country of heavy individual taxation.

"However," continued Sir Thomas, "we are confronted with grave conditions arising from the war, with an accelerated war expenditure due to the measure which has just passed the House, and which will enable us to bear our part in this great conflict on an increasing scale. I believe it is the will of the people of Canada that we should continue to exert, to the utmost, our human and material power to the end that final and decisive victory may be attained. No matter what the cost in manpower or treasure may be, I believe it is the will of the people that we should persevere to the end."

**Direct Taxation.** "In view of what I have said as to the financial situation and the increasing demands that will be made upon the people of Canada in this war, it is manifest that the time has arrived when we must resort to this measure of direct taxation. I am confident that the people of Canada, whose patriotism has been so often and so nobly proven, will cheerfully accept this additional burden."

In referring to the increase in the cost of living, and the fact that incomes were municipally taxed, the Finance Minister stated that he had come to the conclusion that it would be proper to allow an exemption from Federal income taxation of \$2,000 in the case of single persons or widowers without dependent children, and \$3,000 in the case of all other persons.

"When we come to the higher salaries," he added, "I regard it as right and proper that the taxation be increased as the scale of income increases. We propose to levy an income tax of 4 per cent upon incomes exceeding \$2,000 per year in the case of unmarried men and widowers without dependent children, and upon incomes exceeding \$3,000 in the case of all other persons, and in addition thereto a super-tax of 2 per cent upon the amount by which the income exceeds \$6,000 and does not exceed \$10,000, a super-tax of 5 per cent upon the amount by which the income exceeds \$10,000 and does not exceed \$20,000, a super-tax of 10 per cent upon the amount by which the income exceeds \$20,000 and does not exceed \$50,000, and 25 per cent upon the amount by which income exceeds \$50,000, 15 per cent upon the amount by which the income exceeds \$50,000 and does not exceed \$100,000, and 25 per cent upon the amount by which income exceeds \$100,000."

The announcement was greeted with enthusiastic applause, in which many Liberals joined.

When we come to the higher salaries," he added, "I regard it as right and proper that the taxation be increased as the scale of income increases. ## CANADIAN WAR WIDOW HANDS BOUQUET TO QUEEN

On the way to the Canadian Confederation Mass in Westminster Abbey the Royal carriage halted to enable Mrs. Hart McHarg to present a bouquet to the Queen on behalf of the 150 Canadian war widows. Lieut. Col. McHarg, C.O. of the 17th Battalion was killed at St. Julien. He was a famous rifle shot, having won many prizes in Canada, Bisley and the U.S., one year winning the long range championship of the world. He was a Vancouver barrister.

ed to know if British subjects living outside Canada and deriving their income from Canadian soil would be made to pay. Sir Thomas said he had been made to make it as wide as possible. Income was defined, in the bill, as "profit or gain arising from any business in which a person is engaged, salary, income from investments, whether in stocks, mortgages or otherwise."

"This measure," he explained, "applies to incomes of the present calendar year. It provides for returns by all parties subject to the tax before February 28 of next year."

**Deduct Profits Tax.** Proceeding, the Finance Minister stated that the act provided for a number of exemptions. It had been felt that persons called upon to pay the profits tax should not have to pay the income tax, unless it chanced to be heavier than the profits taxes. As a result, it was proposed to allow on the taxation which would be payable by any taxpayer the amount which he paid under the Profits Tax Act for the accounting period of 1917. In the case of partnership each partner would be entitled to deduct such portion of the tax paid by the partnership under the War Tax Act as correspond to his interest in the partnership.

It was also provided that a similar deduction should be made to cover taxes paid under the Special War Revenue Act.

"To A. K. MacLean, of Halifax, Sir Thomas White explained that the tax applied to corporations and joint stock companies.

"We are providing," he said, "that joint stock companies and corporations shall be subject to a tax of four per cent on their incomes, but liable not only to the tax of four per cent, but to the super-tax and in assessing the income of any person subject to the tax we credit him with the amount which has been paid by the company from which he derives dividends."

The Finance Minister explained that it was not possible to impose a super-tax which should be levied on a company with a large income and a relatively large net return on its capital would be discriminated against. Foreign corporations, he said, would be liable in respect to their earnings on their business in Canada.

Sir Herbert Ames asked about the income of a resident of Canada which was already heavily taxed in another country.

**No Tax on Aliens.** "If he is taxed in respect to his dividends in a foreign country, he would be entitled to deduct the amount of such taxation from his income for the purpose of ascertaining the amount for which he should be assessed," said the Minister, "but so far as have not been able to reach a conclusion that he should be allowed to deduct the amount of such taxes from the taxation which he will pay on his income here." Sir Thomas stated that a Canadian Company domiciled here and doing business throughout the world would pay on its entire income. He thought that it would not be possible to tax alien companies in respect to their income in trying to tax aliens in respect to some small investment they might have in Canada since it might have the effect of deterring men from investing money in this country.

E. M. Macdonald, of Pictou, wanted to know if British subjects living outside Canada and deriving their income from Canadian soil would be made to pay. Sir Thomas said he had been made to make it as wide as possible. Income was defined, in the bill, as "profit or gain arising from any business in which a person is engaged, salary, income from investments, whether in stocks, mortgages or otherwise."

"This measure," he explained, "applies to incomes of the present calendar year. It provides for returns by all parties subject to the tax before February 28 of next year."

to the tax. For his part, he considered they certainly should. Also he thought the salaries of civil servants at Ottawa should come within the bill and the Ministers' too.

"They are liable," said Sir Thomas White.

Mr. E. M. Macdonald asked if subscriptions to the patriotic funds would be considered.

Sir Thomas White replied that in the bill he intended to bring down provision would be made entitling any person to deduct from his income, part of his expenses, his contributions to the Patriotic, Red Cross or other war funds approved by the Minister. This did not mean that it would be deducted from the taxation; for instance, a man with an income of \$10,000 who gave \$1,000 to patriotic funds would only be taxed on an income of \$9,000.

E. M. Macdonald criticized the income tax bill, taking the ground that while it hit the moderate-sized incomes it did not sufficiently touch the very large incomes. He cited the instance that a single man with \$20,000 a year would still have \$19,000 a year left to worry along with, which he did not regard as conscription of wealth.

Hon. R. Lemieux then proceeded to dilate further upon the question of tax exemption on interest from Government bonds. He was very much afraid that men with money would dispose of industrial and other securities to buy bonds, and thus cause a serious disturbance to the financial and industrial fabric. The Minister in reply said that he had no fear of any disturbance due to investors selling other securities to invest in Government bonds, since the return on the former was always so much larger than the interest on Government securities. The exemption of interest from bonds was calculated to make bonds more popular and enable them to be floated at a higher price, thus assisting the country generally.

The resolution was then carried.

Omaha, July 26.—Before statewide prohibition went into effect in Nebraska on May 1 of this year, Anton Larson, a farmer living near Omaha, went around to a life insurance company, had himself examined and found that according to the mortality tables he would probably live for forty years.

Then Larson bought himself a forty years supply of liquor and salted it away out at his farm. He built a special house for the liquor and stored it away in the most systematic manner.

There were 4000 gallons of beer, whiskey, brandy, wine and other drinks. Larson had estimated that he would drink 100 gallons every year for the balance of his lifetime. That is nearly a third of a gallon a day.

Under the Nebraska prohibition law an individual can have a "reasonable" amount of liquor in his own home, provided his supply was purchased and laid in before the law went into effect. After the law became effective no further liquor could be brought into the state.

LABOR AFTER WAR VITAL QUESTION

War Cabinet in Old Land Deeply Anxious For Reforms

TECHNICAL TRAINING National Industrial Council Advocated To Secure Co-Operation

London, July 26.—(Correspondence)—The vital question of labor after the war and the relationship between master and men is receiving particular attention in official as well as trade circles.

In a covering letter, Sir D. Shackleton says that the War Cabinet is deeply concerned that timely measures should be taken before the end of the war for the future of industry.

The report recommends the establishment of an organization for each industry representative of employers and employees to consider matters affecting the trade from the point of view of all those engaged in it.

One of the chief factors of the demobilization problem, consists of the guarantees given by the Government with Parliamentary sanction, to restore trade union rules and customs suspended during the war.

National industrial councils are advocated in order to secure co-operation by granting to working men and women a greater share in the consideration of matters affecting their industry.

Means to secure to workers a greater share in and responsibility for determination and observance of conditions of work.

Settlement of general principles of employment including methods of fixing, paying and restricting wages, establishment of regular methods of negotiation with a view to preventing differences between master and man.

Means of insuring to workers the greatest possible security of earnings and employment.

Technical education and training, industrial research, provision for full consideration of inventions and improvements designed by workers and for the adequate safeguarding of the rights of the designers.

Improvements of processes, machinery and organization and full consideration of workers' point of view.

Proposed legislation affecting the industry.

No suggestions are offered in the report on profit-sharing, co-partnership or particular systems of wages.

"We are convinced," says the report, "that a permanent improvement in the relations between employers and employees must be founded upon something other than a cash basis."

CONVENTION OF IRISHMEN ON IN DUBLIN

Sir Horace Plunkett Unanimously Chosen For Chairman of Meeting

London, July 26.—An official report of the Irish Convention given out last night says: "After the opening address by Chief Secretary Duke, presiding, a committee was appointed for the purpose of visiting the convention of the selection of a Chairman. It was announced that the committee unanimously recommended the appointment of Sir Horace Plunkett as Chairman and Sir Francis Hopwood as Secretary."

"The convention unanimously adopted the committee's resolution and adjourned until to-day. Ninety-two delegates were present."

College Green Packed. Dublin, July 25.—The convention which is to attempt to reach a solution of the Irish problem was opened yesterday morning at Regent House, Trinity College. Long before 11 o'clock, the hour for the opening, a large crowd packed College Green to witness the arrival of the delegates.

John Redmond, the Nationalist leader, and Joseph Devlin, one of his prominent party associates, were among the early arrivals. Protestant and Roman Catholic clergymen arrived soon afterward, followed by representatives of public organizations, Trades and Labor Councils, who came in groups.

At the appointed hour all the delegates had taken their places in the assembly hall. There was a noticeable lack of enthusiasm among the spectators.

No press representatives were present at the convention, and the exact nature of the business discussed is therefore not known.

Plunkett, however, is credited with the suggestion that the drafting of the constitution should proceed as for all Ireland, thus leaving Ulster to see what she is really faced with before she objects.

DANE SENTENCED. Copenhagen, July 26.—Philip Beck a Danish wholesale merchant and exporter, was sentenced to two years imprisonment yesterday, thus disposing of a celebrated case for violation of the Danish export regulations.

Beck was arrested in August, 1916, after a German cruiser had captured the Danish steamer Ydun, while bound from Frederikshaven, Jutland, for Copenhagen, with 500 cases of beer on board, consigned largely to Beck.

It was suspected the capture was arranged with Beck's connivance to simplify the problem of delivery of the beer to Germany.

The Ydun, on which there were 150 children returning from a holiday in Jutland, was taken by the cruiser Tuto Schwennede, which caused great indignation in Denmark.

BODY FOUND. Quebec, July 26.—The body of a man wearing a soldier's tunic was fished out of the river here yesterday evening. The body is decomposed beyond recognition and must have been in the water for months.

One of the legs had been severely torn off, both hands have gone, and the torso is also deprived of flesh in many parts.

The man is supposed to be a soldier who was drowned; for the body was recovered not far from the winter barracks.

There are two kinds of tea; ordinary tea and Salada Salada is more economical since it takes so much less to make a satisfying infusion.

WAR CHECKS BIRTH RATE IN GERMANY

Decreases Over Previous Years Shown in Figures For 1915 and 1916

Amsterdam, Netherlands, July 26. (Correspondence). Apart from the inroads made upon Germany's male population by the war, the check to the natural renewal of her people is making itself very sharply felt.

The official statistics for 1916 show very clearly what a shrinkage will be evident in the German army levies for these years of war, assuming that the Emperor, or at least his military system, have not disappeared from the German empire before the time for their calling up comes round.

The official statistics which relate to German towns of 15,000 and more inhabitants, show that the number of infants born alive in such towns decreased by 131,068 in 1915 as compared with 1914, and that in 1916 they again declined by 114,557, making a total decrease between the beginning of 1915 and the end of 1916 of 245,625, or 39.5 per cent.

It is clear that such a decline in the numbers of births can by no means be counterbalanced by the simultaneous decrease shown in the mortality rate of infants under one year old, although this is relatively somewhat greater than the shrinkage shown in the number of births.

The mortality rate of infants under one year old, measured by comparison with the number of births, has continually declined since the year 1914.

As the German Press emphasizes with legitimate satisfaction, the rate of infant mortality in the war year 1916 was lower even than in the year 1912, when it stood at 14.1, hitherto a record low rate.

RAILWAY EARNINGS. Toronto, July 26.—Canadian Northern Railway earnings for the week ending July 21st, were \$872,100, compared with \$866,900 for the corresponding period last year.

More than 100 iron moulders are on strike at Guelph, three factories being affected.

SENNETT SIGNED. Mack Sennett, originator of Keystone Comedies and one of the best known producers in the country, has completed arrangements with the Paramount Pictures Corporation for the release of all his productions independently through Paramount.

For several days Mr. Sennett, Arthur Butler Graham, his attorney, and Charles O. Bauman, formerly of the New York Motion Picture Corporation and Triangle, who is associated with Mr. Sennett in his new enterprise, have been in negotiation with Adolph Zukor of the Famous Players-Lasky Corporation and Hiram Abrams of Paramount.

Mr. Sennett will make his production headquarters in Edendale, Cal., for the time being, and within the week. No announcement has been made concerning the personnel of the Sennett Comedies, though it is believed that several players who have been associated with the director in the past will be found in the cast of these new pictures.

Coming directly after the announcement that Thomas H. Ince will produce for hours of his Arterraft, the news of Mr. Sennett's association with Paramount has caused considerable comment in motion picture circles.

Thomas H. Ince has already departed from New York for the Coast to begin active work upon the selection of a site for his studio. He has received several offers from California towns to build him studios, but none to himself, but has not yet selected a location for his enterprises.

# MILLER HUGGINS HAS MADE GOOD

### Little Manager of St. Louis Nationals Showing Great Ability

(By H. C. Hamilton)

One of the most surprising things in the league baseball, aside from the astonishing form shown by the young pitcher, is the truly remarkable way the Cardinals have been playing since a change of ownership gave Miller Huggins a real chance to exercise his true ability. Huggins, a young ball player of the big league, has been playing for several seasons and he's still going strong. Huggins' latest purchase was a young fellow named Goodwin, a right-handed pitcher from the Milwaukee American association club. Huggins' recommendation is zipped into the big circle through the announcement that Branch Rickey first saw Goodwin and decided he was to be purchased regardless of the price to be paid. In view of the fact that George Sisler and Ernie Koob had several others, received their strong recommendations from a new president of the Cardinals, it is safe to say that Goodwin's advance notices will not fall down. Huggins always has been just as good a manager as he is proving to be. The reason he never has proved it with any more vim in reaching high points in the National League standings couldn't be stronger stated in view of the reversal showed when the Cardinals were sold. His David Copperfield work among clubs in the league, in which he fished out over after player and made them do no good, has proved his worth at signing up players.

It was Huggins who located Rogers Hornsby sunning himself in Texas, and gave him a regular job. Also it was Huggins who picked up a youth named Watson one day, gave him a big league job, and lives to see his efforts rewarded by Watson's remarkable success. This year he has trotted out the league's leading batsman—Walter Cruise, and has uncovered a new pitcher in Hortonman who looks mighty sweet. Huggins has developed—not purchased—the makings of a championship baseball club. If he can keep on adding a touch here and there for another year, the Cardinals are due to win a pennant for St. Louis.

### GERMAN SHIPPING

Rotterdam, Netherlands, July 26.—(Associated Press)—A revival in German shipping is the latest curious feature of Rotterdam's water traffic. No fewer than fourteen German steamships arrived in port within forty-eight hours a day or two ago. Their occupation is perhaps still more strange, for, coming in ballast, they are engaged in loading German coal at Rotterdam and carrying it to German, Swedish and Norwegian ports. The coal is mostly brought down the Rhine in barges, the object achieved by this latest move being a lightening of the over-burdened German railways, where, on top of the pressure of war's demands, has come the increase of rolling stock due to the increased wear and tear resulting from lack of sufficient lubricating oil.

The new idea was first tested. One or two vessels laid up at Rotterdam were loaded with coal and put to sea. Hugging the coast, they arrived safely at Emden. Then an occasional German ship arrived to take a cargo of coal. The experiment proved successful.

### LADIES' TUCKED WAIST.

By Anabel Worthington.

The new tucked waists have taken the world of fashion by storm, and one sees them made up in all sorts of filmy materials, such as voile, chiffon, crepe de chine,orgette crepe, batiste and so on. A particularly lovely model is shown in No. 8321, which was developed in Georgia in the original. A collar so wide that it is almost a shopkeeper cape was made of allover lace in a fine pattern. A dainty tie of grosgrain ribbon accents the V-neck. These deep tucks—which may be hemstitched—run around the blouse in a straight line, because the back and front are in one, with a seam on the shoulders. The three-quarter sleeves repeat the tucks.

The waist pattern, No. 8321, is cut in four sizes, 34 to 40 inches bust measure. The 36 inch size requires 2 1/4 yards of 36 inch material, with 1/4 yard of 27 inch all-over lace.

To obtain this pattern send 10 cents to the office of this publication.

### MERRY FAIRY

Once upon a time in Fairyland there lived a tiny fairy. She was so loved and petted by all the other fairies that she soon became so lazy she never turned her dainty hands to do a thing.

"You are spoiling her," said the Queen, "and if you aren't careful she will grow up to think she has nothing to do in the world but play."

Merry Fairy, as they called her, only laughed, but as time rolled by and she still continued to idle her time away the Queen decided to take things into her own hands.

"It's all very well to be merry and light-hearted, but every fairy has work that must be done," said the Queen.

"I've never really thought of it," confessed Merry Fairy.

"Perhaps if you were sent into the world where you had to depend on yourself you'd soon see it is very wrong to be always idle. To-night you must go into the world. And don't return until you have made yourself useful," said the Queen.

So Merry Fairy was sent to the earth on the first silver moonbeam. She settled in an easter blossom and curled down to sleep.

When morning came a soft gray curtain hung before her doorway, and a big black spider sat in front of it.

Merry Fairy watched his great long fingers move swiftly in and out as he weaved the silky threads.

"How I should love to be able to make such lovely laces!" cried Merry Fairy. "Is it very hard?"

Black Spider laughed.

"No, indeed, and I could teach you in a very short time," he answered.

Merry Fairy was quite pleased to think she was going to find something to do, so Black Spider began her lessons right away. By evening Merry Fairy sat before a beautiful piece of lace she had woven herself.

Then some one sighed. Merry Fairy looked up and saw a youth sitting on a log with his face in his hands. Merry Fairy knew he was in trouble and asked him the cause.

"I can find no work, and I'm very unhappy," replied the youth.

Merry Fairy laughed. She told him she had been in the same way until Black Spider had taught her how to make the beautiful laces.

"And if you would like, I might teach you how to make them," said Merry Fairy.

The youth was delighted with the suggestion and came every day until a lovely pattern was completed. He took it to a big fair and received the prize for his efforts. Merry Fairy was quite proud to find she had been useful in helping him.

One evening he came to say goodbye, for a wealthy man, seeing the lace, had offered the youth a great sum to teach the art in his school far away, and the youth asked Merry Fairy's advice.

"Go, friend, work, for in that alone can you find real happiness. When you see another in need of help do the same as I have done for you," replied Merry Fairy.

She sat long after he had left, happy to feel that her work had not been in vain. A flutter sounded above her head. Her fairy friends had come to take her back to Fairyland. Merry Fairy was so happy in her work on earth that she begged to stay, and the Queen changed her into a big black spider.

You can find her almost any day weaving the great patches of beautiful laces from blades of grass in the garden and woods. Always busy and happy is Merry Fairy now, for she has discovered that real happiness comes only through keeping busy.

One of the most charming of the new American fall bonnets is shown here. This military turban of navy blue accompanied by the popular long "war bride" veil has a distinction all its own that few hats can even match.

# SIDE TALKS

### BY RUTH CAMERON

"Do you know anyone who has the automobile bug?"

No, I don't mean the mania to possess one of these luxury-necessities.

The kind of automobile bug I mean is first cousin to the hook worm.

Perhaps "automobilitis" would be a less confusing name for this disease.

A neighbor of mine was asked the other day why she didn't go to the meeting of a society which she has long belonged. "Well you know our car was out of order," she explained. "The car was out of order."

Settled it.

The meeting was in a home which my neighbor can reach from her home by electric in three-quarters of an hour. She acquired a car two years ago. Previous to that time she was in the habit of attending meetings that required anywhere from a half hour to an hour and a half's trip on the electric. She thought nothing of it—like the rest of us. But now that she has a car it has come to seem impossible to her that she should use any other means of conveyance. If the car is out of order, that settles it. She can't go.

# WOMAN POSED AS MANN ORDER TO GET TO FRANCE

### "Private Hazel Carter" First U. S. Soldier Back From the Front

### BETRAYED BY VOICE

An American Port, July 26.—The first American soldier to come back from France stood on the deck of an army transport last night and gazed out of troubled eyes on the coldly twinkling lights of a city ever so many times as big as Douglas, Ariz., and in its tenderfoot way, ever so many times as wicked.

There was a damp streak on the soldier's cheek that might have been the trail of a tear, and the soldier's under lip trembled in its struggle to shape words that would sound brave.

"I reckon," said the soldier, "I reckon I must be afraid."

And to prove it Private Hazel Carter, U.S.A. (retired), who wanted to go to the front with Pershing so badly that she just up and went, broke down and cried in a manner so unreserved as to shame the warlike O. D. shirt, the khaki breeches, and the canvas leggings that clothed her.

Betrayed by Her Voice.

So long as Private Carter resisted the impulse to say something her disguise was complete. She managed to keep her thoughts to herself so well that for eight days on the troop train which brought "her" regiment from the border and for five days more at sea, she was accepted at face value by the 1,100 men and officers in the France-bound transport.

Silence became oppressive on the fifth day of the voyage, and Private Carter forgot herself. She permitted her voice to tinkle and the jig was up. Capt. Eugene D. Rideout, the commissary officer aboard the transport, heard. He traced the voice to its owner and half an hour later his company was shy one "man."

Private Carter doesn't know what is going to happen to her. Technically she has been arrested ever since the exposure, with a star on her collar and a military guard outside the door. The guard was more or less of a formality, for Uncle Sam hasn't any intention of administering punishment. Now that she has been safely brought to the home shore she is free to go wherever her little store of money will carry her.

Husband May Suffer.

But military law may not deal as lightly with Corporal Ed Carter, U. S. A., active, who is Private Carter's husband. Somewhere in France officers are sitting up late nights with the regulations, looking for some paragraph that covers the offense of aiding and abetting a stowaway on an army transport in war time.

As Private Carter told her story she broke off more than once to plead, "Oh, I do hope you can do something for Ed. It wasn't his fault. He kept begging me to go back when I was on the train, and he almost cried, when he found me on the ship."

Before Private Carter had gone out on deck and looked at the lights and become completely unmanned, the story had been told. It goes back to Dec. 12, 1915, when Corporal Carter and Hazel Blauser walked into the office of a justice of the peace at Pirtville, Ariz., and Corporal and Mrs. Carter walked out.

### Roll Jelly Cake.

Four eggs, 1 cup sugar, 1 cup flour 1 teaspoonful cream tartar, 1/2 teaspoonful soda, pinch of salt, scant cup of sweet milk; spread on a long tin; as soon as it's baked turn from the tin spread with jelly and roll up immediately.

### Favorite Cake.

One cup of sugar, 1/2 cup of butter, 3/4 cup of milk, 3 eggs, 1/2 teaspoonful vanilla, 1 cup of flour, 1/2 teaspoonful of saleratus, 1 teaspoonful of cream tartar; cream butter and sugar, add yolks of eggs and beat well, add milk and vanilla and beat well, and last of all add whites of eggs (do not beat whites before you add to cake) and beat well and bake.

Larson made one mistake in storing his life supply of liquor. The law provided that the liquor should be kept in the home. Larson had con-

structed a special house for his liquor. It was not actually in his home, so Sheriff Clark raided the place and brought the entire supply down to the court house, where it filled several rooms.

Not only was his 4,000 gallons taken, but the court placed a fine of \$100 on Larson for having liquor in his possession outside of his home.

### Chocolate Marshmallow Cake.

Sift 1 1/2 cups flour with 1 heaping teaspoonful of baking powder (three times), stir 4 ounces of well washed butter with 1/2 pound of sugar to a light cream, all the yolks of 3 eggs, 1/2 teaspoonful of vanilla; beat the whites of 2 eggs to a stiff froth and add them alternately with the flour butter; mix well and bake in 2 jelly tins.

Filling for the cake—Boil 1-8 of a pound of chocolate in 1/4 cup of water with 1/2 cup of sugar till it forms a thread between the fingers; take 1/2 pound of marshmallow candies dissolved in a tablespoonful of boiling water and add to the chocolate; when cool, lay 1 of the cake layers in a flat dish and spread over it 1/2 of the filling, over this put the other layer, spread the remainder of top with chopped nuts.

St. Pierre, July 25—The entire crew of the schooner Cygne of St. Malo, France, which was sunk on the fishing banks by collision with an unidentified steamer a few days ago, were accounted for to-day when word was received here that eight men had been landed at Burgo, N.E. Others had been picked up by a tug and brought here.

### W. W. STRIKES

San Francisco, July 25—One half the lumber mills in Oregon and Washington have been forced to close, due to strikes called by the Industrial Workers of the World, according to a statement to-day by A. A. Baxter, general manager of the Douglas Fir and Exportation Company. The mills are closing down rapidly, said Baxter. "It will not be long before all of them are closed if the I.W.W. agitation lasts. Lumber and airplane construction will be cut off entirely unless some definite action is taken by the government."

#### Held Yankees To One Run In Each Game of Double Header

New York, July 2.—Chicago defeated New York in both sections of a double-header here yesterday by scores of 4 to 1 and 5 to 1. In the first game Cioette pitched his usual strong game against the Yanks, while Chicago bunched seven of its ten hits on Mogridge in the 7th and 8th innings. The visitors won the second game in the first inning when they knocked Fisher out of the box, scoring four runs on five hits, a run by DeLeon and a sacrifice fly. The scores:

First game	R. H. E.
Chicago	00000220-4 10 3
New York	00001000-1 6 0
Batteries—Cioette and Schalk; Mogridge and Nunamaker.	
Second game	R. H. E.
Chicago	40000010-5 12 1
New York	01000000-1 9 3
Batteries, Fisher and Schalk; Fisher, Russel, Love and Walters.	

At Philadelphia Philadelphia hit the deliveries of Dausse and Jones hard and easily won yesterday's game from Detroit, 8 to 3. Myers not only pitched a good ball, but he also scored two runs and made three singles, all of which figured in the run-getting. The score:

R. H. E.	
Detroit	00001101-1 3 2
Philadelphia	0002213X-8 13 1

Batteries, James, Dausse, Jones and Stange; Myers and Schang.

Boston won the first game of the series with St. Louis, 5 to 4, yesterday. St. Louis rushed to an early lead, but Davenport weakened, and with weak hitting by Lavag, the Boston team tied the score in the 5th inning. Walsh singled in the sixth inning, and after Javrin's sacrifice and Gardner's second two batters he scored the winning run. The score:

R. H. E.	
St. Louis	10210000-4 9 4
Boston	10002100X-5 9 1

Batteries, Davenport, Hamilton and Severino; Lamm and Thomas.

At Pittsburgh With a man on second and two out in the 13th inning of yesterday's game, Hans Wagner dropped an assist in Debus and the batsman was safe, the runner scoring from second on the misplay and winning the game for Brooklyn against Pittsburgh, 4 to 3. The score:

R. H. E.	
Brooklyn	000100020001-4 13 1
Pittsburgh	000201000000-3 6 4

Batteries, Debus and Combs and M. Wheat; Grimes, Jacobs and Schmidt.

### SPORTING COMMENT

Steamer Al Demaree seems unable to cast over the Giants as they are at present constituted the balfest ball under the sun. The Mc Graw outfit prior to its reorganization last fall. No longer do the Giants quake when the noted cartoonist makes his appearance, and for them it would do to beat the Al and his little pocketful of rosin hold no terrors. There was a time when it was not so very long ago—that Al Demaree had to do to beat the Giants was to take his place on the mound and dip his right hand in the back pocket of his trousers.
