He had heard of her tri-umphs abroad, he knew she had turned the hearts and heads of New York, that owing to a distant kinship his mother had secured her for this house party, that men raved over her, although they said she had no soul-he knew all this, and yet she came to his bedside and greeted him in a pretty friendly fashion and called him Reggie. After that day there was always a look of bright ex-

The Origin of This Favorite Sport of Childhood and Youth.

This favorite sport of childhood and youth is of French origin and very high antiquity, having been introduced into England in the train of the Norman conquerora. Its French name, "Colin Maillard," was that of a brave warrior,

mailard, "was that of a brave warrior, the memory of whose exploits still lives in the ohronicles of the middle ages. In the year 999 Liege reckoned among its valiant chiefs one Jean Colin. He acquired the name Mailard from his chosen weapon being a mallet, where-with in fight he used literally to crush his opponents. In one of the fends which were of perpetual recurrence in those times he encountered the Count de Lourain in a pitched battle, and, so de Lourain in a pictue bacte, and, so runs the story, in the first onset Colin Maillard lost both his eyes. He ordered his esquire to take him into the thickest of the fight, and, furiously brandishing his mallet, did such fearful execution that victory soon declared itself for him. When Robert of France heard of these feats at arms, he lavished favor and honors upon Colin, and so great was the fame of the exploit that it was commemorated in the pantomimic repre-sentations that formed part of the rude dramatic performances of the age. By degrees the children learned to act it for themselves, and it took the form of
