

### YOUNG WOMEN AVOID PAIN

This One Tells How She Was Benefited by Taking Lydia E. Pinkham's Vegetable Compound.

Regina, Sask.—"For two years I suffered from periodic pains and nausea so I was unable to get around. My mother had me take Lydia E. Pinkham's Vegetable Compound, and I am much better and able to go about all the time, which I could not do before. I recommend Vegetable Compound to my friends if I know they suffer the same way, and you may publish my letter if it will help any one, as I hope it will."—Miss Z. G. BLACKWELL, 2078 Oiler Place, Regina, Sask.

### Lift off Corns!

Doesn't hurt a bit and Freezone costs only a few cents.

With your fingers! You can lift off any hard corn, soft corn, or corn between the toes, and the hard skin calluses from bottom of feet. A tiny bottle of "Freezone" costs little at any drug store; apply a few drops upon the corn or callus. Instantly it stops hurting, then shortly you lift that bothersome corn or callus right off, root and all, without one bit of pain or soreness. Truly! No humbug!

### Inspector Wilson's Annual Report On Prohibition

Report of the Chief Inspector under "The Intoxicating Liquor Act, 1916," for the year ending October 31st, 1919. Fredericton, N. B., Dec. 31st, 1919. To the Hon. Robert Murray, Provincial Secretary-Treasurer, Province of New Brunswick. Dear Sir: I have the honor to submit this my Third Annual Report as Chief Inspector under "The Intoxicating Liquor Act, 1916" for the year ending October 31st, 1919.

The officers consist of:  
1. Chief Inspector.  
1. Stenographer and Clerk.  
1. Stenographer (temporarily)  
22 Inspectors.

(1) The number and descriptions of licenses and the names of applicants to whom licenses were granted are given in Schedule "A."  
(2) The number of prosecutions conducted by the department was:—Convictions, 578; dismissals, 96.

Twelve appeals by defendants have been taken to the Supreme Court against magistrates' decisions. One of them was an appeal called *Ex Parte Crawford* case which was decided by the Court of Appeal sustaining the magistrates' decision, showing that Jamaica Ginger having been sold and used as a beverage was an intoxicating liquor and came under the provisions of "The Intoxicating Liquor Act, 1916."

(3) The number of licensees convicted under the Prohibition Act was: four, one wholesale and three retail.  
(4) General remarks as to the working of the law within the province.

Since the first of November, 1918 we have experienced in the province of New Brunswick, as elsewhere, an abnormal condition. Great crime waves have been sweeping over the world and in this province we have felt them more or less. "The New York Evening Post" says: "It is the condition that has followed all wars. It is the back-wash of the military tides. The psychology of it may be the suspension of the civil law by the military or the suspension of the moral law by the irregularities of war. Another possible reason is the confusion in the period of reconstruction which emboldens the criminal to seek an advantage."

Another condition hard to overcome was that which was created by the influenza epidemic. This covered a period of several months and was accentuated with a recurrence of the "Flu." Some doctors asked that provision be made so that liquors for medicinal purposes might be obtained much more readily. This request, in the face of stern necessity, was granted and it is only fair to state that in some quarters the measures taken were greatly appreciated.

While on the other hand it is only fair to set forth that there were many who did not scruple to take advantage of the occasion to obtain liquors for other than medicinal purposes.

The conditions created by the epidemic were intensified by the ending of the war and the return of the soldiers. The influences operating during the years of tension and trial being suddenly withdrawn, a changed condition was immediately noticeable. Every province in the dominion has had this same problem which has been described by John Garrity, Chief of Police in Chicago, as "the inevitable aftermath of the war."

The many restraints throughout that have held men for four years were relaxed and many things that were considered unlawful during the days of war are now considered lawful. When these restraints were lifted and the period of rehabilitation had come a changed condition was inevitable. This change found expression by a great many returning to old habits and to old haunts.

A serious cause for complaint is found in the attitude of some few of the doctors in the province of New Brunswick, twenty-four of whom have been before the courts in various sections and have been convicted. We have had some doctors who freely resorted to the issuing of prescriptions and the number issued by several of them appear to be altogether beyond reason. During the last few months we have been keeping a record of the number of prescriptions written by the different medical men which record is most illuminating showing that contrary to expectations the senior doctors or the leading doctors in the community do not prescribe liquors freely, but that the Juniors do. This constitutes a problem that is worthy of very serious consideration and adequate means ought to be sought and found to deal with doctors who persistently and flagrantly violate the law.

Throughout the year it was suggested that an advantage might be found in increasing the number of licensees under "The Intoxicating Liquor Act, 1916." It was felt that where there were one or two drug-gists in a city holding a license that they not only had a monopoly of the business, but that there was an unfair discrimination against those who had not obtained a license. From the view point of sobriety the move was unfortunate, as no sooner was the number of licensees multiplied than drunkenness increased. Our experience has taught us that wherever the greatest facilities for drinking are made there we shall have the greatest amount of drunkenness.

The enforcement of the act has gone on quite steadily, the various inspectors facing their difficult tasks as best they could under the adverse circumstances that confronted them during the abnormal period of the "Flu," the ending of the war and throughout the year. The officer's task is not an enviable one at the best of times and has been exceedingly difficult these last twelve months. The strange mentality operating and the very nature of their tasks making it at all times hard, quite often risky and seldom pleasing. Possibly no class or set of officers is so beset with temptation or opposition as a prohibition inspector and yet the work of enforcement has gone along in this province fairly free from the embarrassments and impediments that usually hamper and hinder officers of the law. One difficulty experienced here, as elsewhere, is to obtain the class and type of men who will make efficient officers and that class when obtained are usually hard to hold.

We have found it necessary to have an interchange of officers throughout the province during the year because of so many holidays, exhibitions, horse races, joy days and picnics. That method was suggested as several of the committee had asked for help to control the large crowds that came to the different places of entertainment. Many requests came from clergymen who were having church picnics or some other series of attractions requesting that men be sent to assist in keeping order. Many places where the men went their help was greatly appreciated by those in charge.

Throughout the year several of the inspectors have been subject to severe punishment inflicted upon them while in the performance of their duties. One inspector on account of injuries received was on the sick list for several months. Another was severely beaten and assaulted while the third had his hand badly

hit by a violator of the law whom he was trying to arrest.

The inspectors have disclosed in their investigations considerable illicit manufacture of spirits and several prosecutions have been brought by the officers of the Inland Revenue Department, conviction following as the result of the work of the inspectors.

The outstanding affair in the history of the province, however, was the visit of the Prince of Wales to the city of St. John in August last. Tremendous crowds gathered to welcome the heir apparent to the British Throne. Never before have we had such a concourse of people assembled on one occasion and yet the testimony of the Chief Commissioner of Canada, R. G. Chamberlain, was to the effect that the crowds were easy to handle because of their sobriety and that it would have been a much more difficult task if liquor had been in evidence.

It is recognized that at certain times and certain places there are waves of intemperance occasioned by a supply of liquor arriving in these communities, but these occasions have been reduced as near to the minimum as possible. The testimony of those best qualified to speak concerning conditions throughout the province is that improvements are noticeable in practically every sphere of life. It has even been suggested in well informed circles that the reason for the abundance of money being spent throughout the province is because that less money is being spent on liquor and more on the necessities of life.

The collector of customs for the port of St. John is our authority for stating that before adoption of prohibition the amount of duty collected on spirituous liquors here was from \$35,000 to \$40,000 per month, but that since the adoption of prohibition the amount collected has been from \$2,000 to \$2,500 per month. This may be one explanation of why so much money is available in the country.

Before closing this report I beg to submit for your consideration the following recommendations:

(1) That in view of the many serious, flagrant and continued violations of "The Intoxicating Liquor Act, 1916" that Sections 31 and 46 be changed so that the maximum quantity a doctor may prescribe for a patient in a town, village or city may not exceed more than eight ounces of intoxicating liquor, this not to include Alcohol for external purposes. This recommendation comes because of conferences and discussions with doctors in this province.

(2) That in view of the fact that drug stores are increasing and that

**Cause of Early Old Age**  
The celebrated Dr. Mchenhoff, an authority on early old age, says that it is "caused by poisons generated in the intestine." When your stomach digests food properly it is absorbed without forming poisonous matter. Poisons bring on early old age and premature death. 15 to 30 drops of "Seigel's Syrup" after meals makes your digestion sound.

# BEAVER FLOUR

MAKES BETTER BAKINGS

THE reason why BEAVER FLOUR makes such light, flaky pastry, and such excellent bread, is—it is a blended Flour.

BEAVER FLOUR is a combination of the world-famed Ontario Winter Wheat scientifically blended with enough Western Hard Wheat to give it strength—the resulting product is flour unsurpassed for high quality and richness of flavor.

Try BEAVER FLOUR and note the marked improvement in your bakings.

17 JOHN ST. N.B.

**Inspectors Wilson's Annual Report On Prohibition**

(Continued from page 2)

the proprietors of said drug stores are making application for a license I would recommend that no license be granted to any druggist, but that it be given to parties whose only business is attending to that one particular affair and that the government regulate the price of liquors.

(3) I would also suggest that for the more efficient working of the enforcement of the prohibition act that the province be divided into five separate districts and that each district be supervised by a senior officer who would be responsible to the chief inspector for the carrying out of his duties and that in each district there be junior officers responsible to the senior. This would enable the officers to much more efficiently enforce the law and then it might be possible to make some arrangements for these officers to have some other duties and to be related to some other department I would propose that the province be divided into districts as follows:

- (1) St. John and Kings counties with headquarters at St. John.
- (2) York, Sunbury, Queens and Charlotte counties with headquarters at Fredericton.
- (3) Westmorland, Albert and Kent counties with headquarters at Moncton.
- (4) Northumberland, Gloucester and Restigouche counties with headquarters at Bathurst.
- (5) Madawaska, Victoria, and Carleton counties with headquarters at Edmundston.

Respectfully submitted,  
**W. D. WILSON,**  
Chief Inspector.

**HAD RHEUMATISM FOR FIVE YEARS**

No Return of the Trouble Since Taking "FRUIT-A-TIVES"

**MR. JOHN E. GUILDERSON**  
P. O. Box 128, Parrsboro, N. S.

"I suffered with Rheumatism for five years, having it so badly at times I was unable to get up without assistance. I tried different medicines I saw advertised and was treated by doctors in Amherst, also in my home town, but the Rheumatism came back.

In 1916, I saw in an advertisement that 'Fruit-a-tives' would stop Rheumatism, and took one box and got relief; then I took them right along for about six months and the Rheumatism was all gone and I have never felt it since.

Anyone who would care to write me as regards 'Fruit-a-tives' I would be glad to tell them what 'Fruit-a-tives' did for me."

**KING OF ALL "RAINMAKERS"**

Secret of Success of Solly Greencup, Who is Well Remembered in the West, Was Simple.

Given an ingenious mind and an eye to business, a live man can make money out of almost any old thing.

Perhaps you remember the extraordinary success scored some years ago by Solly Greencup, the rainmaker. If not, you can read his record in a portfolio of newspaper clippings collected all the way from Nome to San Diego, from eastern Oregon to western Kansas.

Solly Greencup, indeed, occupied for a while a position unique in the annals of meteorology. Scientists might doubt and cynics might scoff, but whenever Solly went after the rain clouds he always got 'em. Moreover he didn't work on "the heads-I-win, tails-you-lose" principle of some other rainmakers. Solly Greencup, when he once decided he could produce rain in a given district, always backed his opinion with hard cash. If he asked the farmers to put up \$1,000 for an inch of rain, he put up another \$1,000 himself as a forfeit in case he failed. And he always won.

Greencup never explained his methods. All the farmers wanted was the rain. All Greencup wanted was the money. With this result both were satisfied. His apparatus consisted of a flag pole, an electric battery, a kite with a metal tail and an air balloon filled with a mysterious gas. If scientists demanded the reason for these contrivances, he shook his head and smiled.

Sometimes Greencup would have to stay a long time in a locality before he could find the exact combination necessary to coax the wet forces into action. Sometimes he had to confess that the dries were too strong for him. But as soon as he posted his forfeit and set up his apparatus the desired moisture followed in a few days.

Once in Elsinore valley he gave the ground a good soaking for a paltry \$2,500, thus saving a \$1,000,000 grain crop. Of course, he made a tidy fortune, yet at the time no one considered his charges exorbitant. And everybody admitted he was a good sport. As he grew wealthy Greencup never gave himself further nor assumed the title of "professor." These things were afterward remembered to his credit.

A few years ago Greencup went permanently out of the rainmaking business. In a street car accident he lost his left foot, which had to be amputated above the ankle. After that for love or money he refused to experiment with the weather.

When the secret of his success was finally revealed some carping moralists called him make-believe. He never claimed, like another famous personage, to be in partnership with the Almighty. But at least he had done something that nobody in the world had ever done before.

He had capitalized a corn.

**\$45,000,000 THEFTS FROM CARS SHOWN.**

Booty Double That in Any Pre-war Year.

Wholesale looting of merchandise in transit on the railroads of the United States caused a loss of approximately \$45,000,000 in 1919, according to United States Railroad Administration statistics made public recently.

This is estimated to be more than double the losses sustained in any pre-war year, but it is pointed out that the increased cost of the commodities stolen, roughly estimated to average 85 per cent must be taken into consideration when comparing the losses in the days of low prices with losses now. Nevertheless there has been a steadily increasing number of packages stolen, and the organization combating the thieves have met an increased momentum in diverting goods from their owners.

A technique of robbery has been developed so highly that the methods of "master thieves" are similar in the United States, England, France, Italy and Argentina according to a recent report of the United States Chamber of Commerce in Argentina. Detectives, however, are inclined to discredit that organization's belief that a new dispersed international organization is at work stealing merchandise.

Substitution is the usual method used by the thieves. Sometimes boxes supposed to contain valuables are found at their destination to be filled with calico or other cheaper grades of cloth, but as a rule, waste paper is found. These are referred to as "concealed losses" by railway men, and are especially difficult to trace, as the shipment leaves and arrives apparently in good condition, and it is almost impossible to discover at what point the theft occurred.

The silk industry has been one of the most severely hit in the last year, and so great has the loss become that the Ryland Administration has been considering excluding raw silk from the privilege of freight transportation by rail. The Merchants' Association of New York through its traffic bureau, has protested against such an exclusion, advocating some less radical measure to minimize or prevent the theft of silk.

**Big Private Telephone Exchange.**

The size of the private telephone exchange grows with the erection of every hotel or office building of any considerable proportions. The largest ever constructed is that of a New York hotel which has been recently opened to the public. It occupies 3,105 square feet of floor space, having an operating room 110 feet long by 15 feet wide, a terminal room 30 feet long and 25 feet wide, a restroom 23 feet by 15 feet and a locker and wash room 30 feet by 14 feet. The operating force consists of one chief operator, one assistant chief operator, eight supervisors and 110 attendants. The switchboard consists of twenty-three positions. Thirteen positions are equipped with teleautographs used for paging and announcing only. The switchboard has a capacity of 3,340 extensions and 180 trunks. The hotel has telephone service in each of its 2,500 rooms, and there are forty public telephone booths served by four switchboards connected with the main switchboard. The following gives some idea of a few of the items which make up part of the telephone system: 630 fuses, 1,170 condensers, 2,400 relays, 5,850 lamps, 38,500 jacks, 750,000 soldered connections, 7,926,000 feet of wire.

**Britons Build Biggest Plane.**

The Tarrant Aircraft Construction company of Farnborough, England, has just finished building the biggest airplane in the world. It is a triplane, the middle plane of which is 131 feet wide. Above and below this are two planes, each 98 feet long. All these planes are 15 feet 2 inches deep. The body is 78 feet long (20 feet longer than the biggest biplane), and the height is 37 feet. The pilot's seat juts out 12 feet beyond the line of the planes. The body of the machine resembles a whale in length and girth, with a great blunt-ended nose. Between the planes are six Napier-Lion engines, each developing 500-horsepower. Four of them operate two-bladed tractor propellers; two of them four-bladed "pusher" propellers.

**Jap Industry Hard Hit.**

During the war the Japanese zinc industry was very prosperous and large profits were made on ore which was imported from Australia and the French Indies. The signing of the armistice, however, has dealt a hard blow to this industry, and it is reported that it costs \$200 a ton to produce Japanese zinc, while the market price is only \$187 a ton. It is expected that this will result in a request for subsidies and import protection, since the deposits of Japanese ore are of such inferior quality that competition with imported ore cannot be met successfully.

**Stiffness**

It is astonishing how quickly Minard's Liniment relieves stiffness and lameness.

**Gives Great Relief**

Mr. A. R. Cabot, 26 Park Ave., Quebec, Ont., writes: "My husband has used Minard's Liniment frequently, always with good results. Friends of mine use it for rheumatism and tell me that it gives great relief."

Mr. Fred Johnson, Box 735, Thorold, Ont.—"I suffered very much with rheumatism in my face last winter, was obliged to try Minard's Liniment, and was relieved immediately after first application. I preserved in using it, and it has entirely gone. The winter I can go out without tying up my face and cover the cracks in my ears. I have told several people about Minard's, and others are using it."

**You Just Try NR For That Indigestion**

Get your organs of digestion, assimilation and elimination working in harmony and watch your trouble disappear. NR does it or money back.

**One Day's Test Proves NR Best**

The stomach only partly digests the food we eat. The process is finished in the intestines where the food is mixed with bile from the liver.

It must be plain to any sensible person who realizes this, that the stomach, liver and bowels must work in harmony if digestive troubles are to be avoided or overcome.

This fact also explains why sufferers from indigestion, also suffer more or less from headaches, biliousness and constipation.

If you are one of the many unfortunate persons who cannot eat without suffering afterward, if you are constipated, have bilious spells, headaches, coated tongue, bad breath, variable appetite, are nervous, losing energy and feel your health slipping away, take this advice and get a box of Nature's Remedy (NR Tablets) right today and start taking it.

Give it a trial for a week or two and just see how much better you feel. See how quickly your sluggish bowels will become as regular as clock work, how your coated tongue clears up and your good, old-time appetite returns. See how splendidly your food will digest and how your energy, "pep" and "ginger" revive.

Just try it.

You take no risk whatever for Nature's Remedy (NR Tablets) is only 25c a box, enough to last twenty-five days, and it must help and benefit you to your entire satisfaction, or money returned.

Five million boxes are used every year—One million NR Tablets are taken by ailing people every day—that's the best proof of its merit. Nature's Remedy is the best, safest thing you can take for biliousness, constipation, indigestion and similar complaints. It is sold, guaranteed and recommended by your druggist.

"BUY AT HOME"

Indications Of Another Advance In Wheat Flour

Ottawa, March 31—A material advance in the price of flour in Canada is indicated in an announcement made here on behalf of the Canadian millers by George A. MacDonald representing the Quaker Oats Company and head of the delegation of representative millers which waited upon the government today to discuss the serious situation which Canadian millers are facing as a result of the action of the Canadian Wheat Board in continuing the restriction in the price of flour on the Canadian market and the lack of export markets for Canadian flour. The increase will be necessary to meet the increasing cost of manufacture it is understood. The scarcity of mill feed in Canada is directly traceable to the lack of a market for flour and the consequent decrease in the volume of domestic milling, the millers state. They have asked the government to modify the regulations of the wheat board and to co-operate with the millers in inducing foreign buyers to take a reasonable proportion of Canadian wheat as flour rather than as wheat. Vast quantities of flour said to be available in the United States for export complicates the Canadian problem. It is said that more than 4,000 men have already been thrown out of employment by the forced closing down of some of the mills of which there are about five hundred in Canada.

**EAT What You Want** without distressing after effects. There is a reason why you should know that you are eating a medicine that will unfailingly counteract dyspepsia and other stomach troubles.

**HAWKER'S DYSPEPSIA CURE** gives quick relief to stomach troubles, regulates and invigorates the digestive system, and permits proper eating without distress and pain. Give Hawker's Dyspepsia Cure a chance to relieve your suffering. Sold at all drug and general stores. 50c. The Canadian Drug Co. Limited, St. John, N.B.

10 CENT "CASCAETE" IF BILIOUS OR COSTIVE

For Sick Headache, Sour Stomach, Sluggish Liver and Bowels—They work while you sleep.

Furred Tongue, Bad Taste, Indigestion, Sallow Skin and Miserable Headaches come from a torpid liver and clogged bowels, which cause your stomach to become filled with unassimilated food, which poisons and ferments like garbage in a well barrel. That's the first step to nitid misery—indigestion, foul gases, bad breath, yellow skin, mental fogginess, everything that is unwholesome and unattractive. A Cascadet will give you relief and straighten you out by morning. They work while you sleep—10 cents from your druggist will keep you feeling good for months.

Tete-A-Gauche To Supply The North Shore With Power

Water Power Commission Find This Only Available Site With Storage Capacity - Will Give Manufacturers of That Section Cheaper Power.

The New Brunswick Water Power Commission in its report to the Government recommends that the North Shore, from Newcastle to Campbellton, be supplied by a development on the Tete-a-gauche, that being the only site available where the necessary storage capacity can be obtained. The report is as follows: "The third district under consideration is the North Shore, from Newcastle and Chatham to Campbellton and the problem is to find a way if possible of supplying all these towns with light and power from a central plant. There is no possible power site near Campbellton where power could be developed at a cost in proportion to the comparatively small requirement of a town of this size. The only large stream on the North Shore that has any considerable power possibilities is the Nepisquit, and this is now being developed by the Bathurst Lumber Company for their own use in supplying power to operate their present and contemplated pulp and paper plant. After a careful study of this situation we were forced to the conclusion that the only available stream is the Tete-a-gauche which rises between the head waters of the Nepisquit and the Upsalquitch. It is a comparatively small stream draining about 100,000 acres.

Warfare Starts Among Liberals

Mr. Mersereau of Sunbury Resents Insult of Colleague - Promises to Say More on Floor of House.

Fredericton, April 2—Mr. Mersereau, M. L. A., for Sunbury, who sits at the right of the Speaker, is disgusted with the actions and expressions of one of his own members. At a meeting of the Municipalities Committee yesterday afternoon when an important bill affecting the finances of Municipal Councils was under discussion, warfare was started among the Liberals. Dr. McGrath, of Newcastle, in the course of his discussion cast a reflection upon the business ability of Councilors by referring to them as "Moss Backs." Mr. Mersereau who is a Councilor for Sunbury, jumped to his feet to resent the insult. He said: "I take exceptions to the uncalled for remarks of the gentlemen from Newcastle. There are just as substantial and business-like men in our Council as are found in any group of men, business or professional. It is no wonder the people of the country are turning against this Government when one of its members gets on his feet and makes such a remark. And, sir, I shall have more to say about it on the floor of this House." The member from Newcastle retorted to the roots of his hair while the member from Sunbury was livid with rage. The affair caused Liberal leaders much concern while others looked on with considerable amusement.

GRANTS ANNUAL PASSES

C. P. R. Encourages Loyalty in Service.

The C.P.R. to encourage loyalty in service, and recognize the principle of co-operation has, through the president, Mr. E. W. Beatty, announced a new departure which will, doubtless, be much appreciated. This is the granting of annual passes to officers and employees and their wives under the following classifications: Employee on a general superintendent's district, who has had continuous service for a period of not less than ten years, will be granted an annual pass good over district on which employed. Such employee, who has had continuous service for twenty years and over, will be allowed annual pass good over eastern or western lines upon whichever employed. Employee of any other department of the service will enjoy the same privilege as above, stating the territory over which pass is desired. Head office employees who have had fifteen years' service will receive annual passes over eastern or western lines where employed. Women employees are to be treated the same as men in this connection. This action expresses the policy of the C.P.R. to aim at the contentment and loyalty of the employees of whom there is an army of 50,000 at present, including all classes. The Pension Fund, a free gift of the company, was the thought of Lord Shaftesbury. The employees contribute nothing. Already the operation of the fund has wrought great benefit. The effect of it has been to increase the contentment and loyalty of the employees, to give the sense of mutual co-operation and to stimulate the general progress and interests of the company. The Pension Fund, which offers protection in declining years. Millions of dollars are involved in the operation of the fund since its institution.

Had Not A Well Day In 17 Years

Halifax Woman Gave up Hope and Is Soon Restored To Health by Tanlac

"Honestly, I don't remember a single day during the past seventeen years that I could say I was well, but since I have taken Tanlac I feel twenty years younger," was the statement made the other day by Mrs. Mary Brunt, who lives at 865 Parrington St., Halifax, N. S. "For seventeen years I had been troubled with indigestion," continued Mrs. Brunt, "and had fallen off until I weighed only ninety-three pounds and had given up all hopes of ever being rid of my troubles. Often I would give way and faint purely from weakness, and I was so bad that I would be in bed two and three weeks at a time. I had almost no appetite at all and it seemed that no matter what or how little I ate I couldn't retain it. In just a few minutes after I had eaten anything I would feel sick at my stomach and at times I went for months hardly able to keep a bite of food down and was continually belching up a sour liquid. Most of the time all I ate was a small piece of dry toast and a cup of tea, but even this would come up again. In fact, I couldn't retain even a dose of medicine. I was troubled with terrible headaches and my nerves were in a dreadful condition, and night after night I would hardly close my eyes at all. I tried every medicine and treatment I knew of and to say I was discouraged wouldn't begin to express it. Not long ago I spent six weeks in a hospital, and although I felt better while I was there, as soon as I came out it was the same old story again. I then took a trip down to Boston and through the New England States, hoping the rest and change would help me but all the time I just kept getting worse and worse. "A neighbor of mine had taken Tanlac and it had done her so much good that she persuaded me to try it, but I will admit I took it more to please her than anything else, for I had about lost all confidence in medicine. I am certainly glad now that I took it, for before I had finished my first bottle I began to improve and by the time I had taken my fourth bottle I was feeling so fine I could hardly wait to feel any better. I have a splendid appetite and for the first time in seventeen years I am able to eat a good meal and enjoy it and already I have gained seven pounds. I can retain everything I eat, for it digests perfectly with no bad effects at all, and I feel better than I have in twenty years. The headaches are gone and my nerves are so steady that I can sleep all night long like a child. I am perfectly delighted with the way Tanlac has given me back my health, and as long as I live I will never be able to praise it too highly." "Tanlac is sold in Newcastle by E. J. Morris and in Redbank by Wm. M. Sullivan.

Club-Root of Turnips Cabbage Etc.

Clubroot of turnip and related plants causes a considerable loss in the eastern provinces. Diseased roots are greatly swollen, distorted and sometimes rotted. Once established the disease remains in the soil indefinitely unless precautionary measures are taken. CONTROL

If the following precautions and practices are adopted the disease can be greatly reduced if not completely controlled:— (1) Plant only on disease free soil. A comparatively new piece of land which has never been planted with turnips, cabbage, rape, etc., and which hence may be regarded to be absolutely free from the disease is preferable. Under no circumstances use a field which has previously produced a club-root infected crop unless it has been heavily limed and the lime has had three or four years in which to free the soil of the organism. (2) Liming is a good practice—Considerable benefit may be secured by applying three tons of air slaked lime or five tons of ground limestone any time before planting the crop, but the best results are obtained when the lime is applied immediately after the diseased crop has been harvested and a period of three or four years allowed to elapse before turnips or cabbages are again planted. Liming will not only control club root but turnips and cabbages do better on soils rich in lime than where lime is lacking. Acid reacting fertilizers encourage the disease. (3) Manure—Manure from stock fed on club-rooted turnips should not be used as it invariably carries the disease and infects the soil to which it is applied. Where possible it is good practice to apply to the turnip crop only such manure as comes from animals whose turnips have not been fed on. (4) Rotation—Rotation of crops on the same soil, but not other than one in eight years, thereby all diseased roots, or turnips, should be destroyed. Keep down all weeds of the mustard family. Raise cabbage and cauliflower seedlings on disease free soil and never throw infected soil from seeding boxes where it may be spread to clean fields.

**MENS HATS**  
Charming New Shapes and Colors in Spring HATS are on Display.  
Stetson, Borsolino, King, Walthausen, Brock, Boston and numerous other domestic and foreign makes.  
There's a HAT here to suit your own particular style—and there's a price here to suit the size of your pocketbook

**Criminals Like Smart Clothes.**  
A world upside down, or, at any rate, not certainly right side up, of few continual surprises. Nothing is quite like it used to be and much is shockingly different. So you read that in the dock at the Central Criminal Court in London one frequently sees the latest fashions in men's and women's wear.  
"It is," says a writer in the London Daily Mail, "a sign of the times."  
"Twenty years ago the average criminal was ill-educated, ill-mannered, and slovenly in appearance. Today many thieves, men and women, are intelligent, punctilious in behaviour, and dressed in the height of fashion.  
"Recently a notorious West End sharpener, confident that the jury would acquit him, ordered his motor-car to be ready to take him home! It was a sad blow to his dignity and prestige when some one else ordered Black Maria for him.  
"The modern criminal who infests the West End craves for the best of everything. He dines in the best restaurants, drinks the most expensive wines, smokes the choicest cigars, and makes love to pretty women. His clothes are faultless in material and style.  
"And among the women 'crooks' are just as fastidious. Parisian gowns cover them; rare jewels adorn them; sparkling eyes and a ready wit carry them anywhere. They all spend money as freely as a war profiteer. One woman—a clever jewel thief—appeared in the dock wearing a dress for which she had paid 70 guineas. Her \$300 fur coat had been stolen by another thief, otherwise, no doubt, she would have worn that in court.  
"Thieves have been making enormous profits. Furs, clothes, cigars, and jewels to the value of hundreds of thousands of pounds have been stolen during the year, and they have been sold again at practically their full market value. Receivers—the people to whom thieves dispose of their booty—willingly pay high prices for all kinds of wearing apparel, because, although vast quantities have been recovered by the police, the risk of detection is comparatively small and there is always a generous return on the money expended.  
"Many cases of which many hundreds have disappeared, have also a tragic side. As there has been no danger in dealing with them, the consequently the thieves themselves are only about a tenth of the amount value."

# BOOM WORKERS ORGANIZE

A union of the workmen on the south west boom was organized at Chelmsford by E. J. Tighe of St. John, on Tuesday evening. Sixty-six men joined the union. An executive committee of seven men was appointed, five of whom were James Gallant, Thomas Dawson, Ambrose Harrigan, John Clarke and Everett Clarke.

# OBITUARY

## MR. JOHN SINCLAIR

Word was received today advising of the death of Mr. John Sinclair in California on Sunday last from heart trouble. The late Mr. Sinclair was born in Douglastown 71 years ago and has lived for a number of years in Glen Blair, California, U.S.A. Deceased is well known here and has a host of friends who will regret to hear of his sudden death.

Mrs. James O. Fish is a sister of deceased and Messrs. William and Hubert Sinclair are nephews.

# Why Sugar is Dear

Normally the world's consumption of sugar increases about half a million tons a year; but the production in 1919 was about two million tons less than in the year before the war, although many forces had in the meantime enormously stimulated the demand even above the normal annual increase.

In plain language, the trouble with sugar, is that the world's demand far exceeds the supply. People want more sugar than there is. This is not true of every particular spot in the world, but it is true as a whole. Prices are bound to rise, there is sure to be a scarcity here and there, and mistakes and irregularities of merchandising are certain to happen when there isn't enough to go around—A. W. A. Atwood in American Review of Reviews.

# Laying Contest

The Dominion Experimental Farms are conducting Laying Contests at six of their branch farms in the various provinces as well as at the Central Experimental Farm, Ottawa. No contest is held in New Brunswick but breeders from this province have entered eight pens in the contest at the Experimental Farm, Nappan, N. S.

Contests began Nov. 1st, 1919 and run for 52 weeks. At the end of the 15th week (last summary available) the average production per pen at Nappan was greater than at any other of the branch farms, its nearest competitor being Brandon, Man. It was, however, considerably lower than the average production at the Ottawa Contest. But if the average of the eight New Brunswick pens were compared with the average of the Ottawa contest New Brunswick had a lead of 7.2 eggs per pen.

The report of the 20th week (ending March 19th) shows New Brunswick pens occupying the first five places, also eighth, ninth and thirteenth for the total eggs laid to this date. For the weeks production only the eight New Brunswick pens occupied the first eight places except that one other pen tied with one from New Brunswick for third place. All except one pen of the New Brunswick entries are Banded Plymouth Rocks of strains imported by the Poultry Division of the Department of Agriculture. Their record indicates that they are equal in stock of the other provinces in the egg production. They are the best year need of sending to the upper provinces for high egg producing stock.

# Thankful Mothers

Once a mother has used Baby's Own Tablets for her little ones she would use nothing else. The Tablets give such results that the mother has nothing but words of praise and thankfulness for them. Among the thousands of mothers throughout Canada who praise the Tablets is Mrs. David A. Anderson, New Glasgow, N. S., who writes:—"I have used Baby's Own Tablets for my children and from my experience I would not be without them. I would urge every other mother to keep a box of the Tablets in the house." The Tablets are mild but a thorough laxative which regulates the bowels and sweetens the stomach; drives out constipation and indigestion; breaks up colds and cures coughs and soothes sore throats and soothes the nerves. They are sold by medicine dealers or by mail at 25 cents a box from The Dr. Williams' Medicine Co., Brockville, Ont.

**FRANCIS YEO**  
The death of Mr. Francis Yeo, of Upper Nelson, occurred at the Miramichi Hospital on March 22nd. Mr. Yeo was a native of Alberton, P. E. I., but had lived on the river for a number of years. Mr. Yeo was a carpenter and was always held in high esteem by his fellow men. Deceased was seventy-one years of age and is survived by his widow, two sons, Robert and Oliver and one daughter, Mrs. Sanford Connors, of Blackville, also one brother, John, of Millerton. The funeral took place on Wednesday from his late residence to Saunderson burying ground, Nelson, Rev. N. T. Montgomery officiating at the services. The pallbearers were Messrs. John Betts, J. J. Clarke, Wm. Carnahan, Abram McKinley, Michael Mahoney and Peter O'Neill.

**Futility Of Wet Efforts Asserted**

**Benefits of Prohibition Too Clear to Permit of Nullification by Congress, in Opinion of Council for the Anti-Saloon League.**

Washington, District of Columbia.—The latest attack on national prohibition is to be found in bills memorializing congress to provide for 31-2 per cent beer. One of the states in which the liquor interests have been able to obtain action asking for such national legislation is Maryland. In regard to its attitude, Wayne B. Wheeler, general counsel of the Anti-Saloon League, said yesterday that it was useless for the Maryland legislature to ask congress to change a law which it had but recently adopted by a vote of two to one, especially as every vote since that time had indicated that congress had not changed its mind in regard to the value of prohibition. He also pointed out that the decision of the supreme court had said in effect that congress was justified in adopting the one-half of one per cent standard, its decision holding that "it is deemed impossible effectively to enforce prohibitory law or other law regulating the manufacture and sale of intoxicating liquors as liability is made to depend on the issuable fact whether or not the particular liquor made or sold is intoxicating." "A 31-2 per cent beer means the retention of the old beer saloon, with its corrupt influence on the community and the policies of the state and nation", said Mr. Wheeler.

"The liquor interests, according to the sworn testimony introduced before the judiciary committee, have been for years the most perfectly organized and corruptly active force in American politics. If state legislatures and all state executive officers, after a federal law is adopted, should use their influence to sustain it, rather than to join an outlawed evil in trying to bring it back to life, it would greatly benefit the community."

"It has been proven repeatedly that 31.2 per cent beer, which the proposed bill sanctions, is intoxicating. It is about the same as ordinary beer before the war. Every one admits that you can drink enough of 4 or 5 per cent beer to produce intoxication. One-third more in quantity of 3-12 p.c. beer will produce practically the same effect as a 5 per cent beer."

"The remarkable results of prohibition are a complete vindication of the action by congress in passing the national prohibition code", declared Mr. Wheeler. "Comparing the first six months under national prohibition with the last six months of open saloons, crime has decreased about 50 p.c. The chief of police in Cleveland said that murders have decreased one-half since prohibition went into effect. In many places branches of the criminal court are being abolished because they are not needed. Arrests for drunkenness have decreased nearly 60 per cent."

The inebriate ward of the General Hospital in Philadelphia closed its doors July 1, 1919. The Danvers State Hospital in Massachusetts has decreased its cases for alcoholism over 60 per cent. Poverty is decreasing rapidly. In Beloit, Wisconsin, the chairman of the board in charge of the poor house announced recently: "Prohibition is robbing the poor house of its tenants." Accidents are decreasing. Mr. Stanley, president of the Cleveland Street Car Company, stated that shutting off of liquor had reduced the danger of accidents and removed the underlying cause of fights. Labor and business have been greatly benefited. The president of the Guardian and Trust Company, Cleveland, Ohio, says a record of all banks show an increase in savings deposits which can be attributed to prohibition.

"In Bloomington, Illinois, the home of brewers and distillers, there are twice as many men under employment as were formerly in the employment of the distillers and brewers. Tramps are going to work and becoming instruments of production because there are no longer free lunches and the saloon stove, says an official of the New York Central Railway Company.

"With decreased crime, misery and poverty, and increased wealth and productive power, the nation will not suffer long from the loss of revenue." Mr. Wheeler concluded.

**The French Canadian Horse**

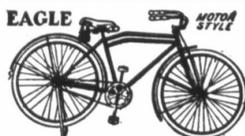

That automobiles, trucks and tractors are replacing horses for certain kinds of work in many places is admitted by all. But when one thinks about the very congested city districts where trucks will never be profitable on short hauls, the long winter months, in most northern sections, during which tractors will necessarily be idle, the hilly or even very rolling farms where too much power is lost in propelling the machine itself, it is clear that the horse less age is still very far distant. That the automotive industry is rendering a service to the country at the same time as it is piling up dividends is certain; that it will in time crowd the horse away from farms is not believed by anybody who has given the question serious consideration.

Drafters have always and will always be profitable to the breeders who produce them. But there are a large number of farmers who like a good general purpose animal, one that can be hitched to a carriage without looking out of place, and that can make his turn at farm work with a willing disposition, a fast walk, lots of courage and endurance. To pretend that drafters are the only class of profitable horses to raise is to go too far, just as it is not right to say that tractors or trucks are always the most economical for the farm or the city.

The old time French Canadian pony, as he was called, was admitted to be a little horse of iron. The first animals of this breed came to Canada from France where they were chosen amongst the best to be hatched. Through natural selection, by the survival of the fittest, only those remained which had the most vitality, enough to withstand the cold climate and the deep winter roads of their new country. This made of them a breed which can probably develop and keep on developing more power per hundred pounds of live weight than any other one. Their qualities were so well known that they were used to form certain families of the Morgan and of the Standard Bred, so that their blood is flowing in the veins of some of the gamest and fleetest horses in America. The Honorable Sydney Fisher has well said of the French Canadian "He never gives out, it does not matter what he is at."

There are now four stallions with fifty mares and fillies, all pure bred and registered, at the Cape Bouge Station and at the new St. Joachim Horse Farm. These are used to study problems of breeding, feeding housing and management. They form, it is freely admitted by all, the largest and best stud of the breed in existence today. One of the points towards which efforts are concentrated is the production in a fairly consistent manner, of a breed of horses weighing between 1200 and 1300 pounds, which may be used either on the road or on the plough, a low-set, thick animal, with a short back, a strong loin, giving him a general conformation which will make him an easy feeder and a cheap producer of power.

Whoever is interested in this class of horses will be quite welcome either at Cape Bouge or at St. Joachim.

## A CLERGYMAN'S RECOMMENDATION

The Zam-Buk Co.  
Dear Sirs:

Appreciating what your balm has done for me, I should like an opportunity of recommending it to others who may be similarly afflicted. For the last forty years I have had a patch of eczema on my right hand. I tried in every possible way to get rid of it—had treatment from several doctors and tried innumerable remedies, but received no lasting benefit. If a remedy eased it or cured it for a time, it always returned as bad as ever. One of my friends is a great believer in Zam-Buk, so I decided to give it a trial and sent first for a sample. You can imagine my amazement when even this small quantity brought me more relief than anything I had ever before used. I continued the use of Zam-Buk for two weeks, by which time the eczema, although of forty years standing, had entirely disappeared. That was one year ago, and there has been no return of it.

Yours sincerely,  
(Name of clergyman, from whom the above letter was received, will be given upon request)

# ZAM-BUK

Send this advert, name of paper and to whom (for postage) to Zam-Buk Co., Toronto, for free trial box.

## Do not forget to file your Income Tax Return on or before the 30th of April, 1920

Dominion of Canada  
  
Department of Finance

**ALL persons residing in Canada, employed in Canada, or carrying on business in Canada, are liable to a tax on income, as follows:—**

1. Every unmarried person, or widow, or widower, without dependants as defined by the Act, who during the calendar year 1919 received or earned \$1,000 or more.
2. All other individuals who during the calendar year 1919 received or earned \$2,000 or more.
3. Every corporation and joint stock company whose profits exceeded \$2,000 during the fiscal year ended in 1919.

### Forms to be used in filing returns on or before the 30th of April, 1920.

**ALL INDIVIDUALS** other than farmers and ranchers must use **Form T 1.**

**FARMERS AND RANCHERS** must use **Form T 1A.**

**CORPORATIONS** and joint stock companies must use **Form T 2.**

### Penalty

Every person required to make a return, who fails to do so within the time limit, shall be subject to a penalty of twenty-five per centum of the amount of the tax payable.

Any return, whether taxable, or otherwise, who fails to make a return or provide information duly required according to the provision of the Act, shall be liable on summary conviction to a penalty of \$100 for each day during which the default continues. Also any person making a false statement in any return or in any information required by the Minister, shall be liable, on summary conviction, to a penalty not exceeding \$10,000, or to six months' imprisonment or to both fine and imprisonment.

### General Instructions.

Obtain Forms from the Inspectors or Assistant Inspectors of Taxation or from Postmasters.

Read carefully all instructions on Form before filling it in.

Prepay postage on letters and documents forwarded by mail to Inspectors of Taxation.

Make your returns promptly and avoid penalties.

Address **INSPECTOR OF TAXATION,**  
ST. JOHN, N.B.

**R. W. BREADNER,**  
Commissioner of Taxation.

### OUR NATIONAL ECONOMIC PROBLEM.

The following interesting extract from an article by Mr. E. W. Beatty, president of the C. P. R., appeared recently in the Montreal Gazette:—

"So much for the manner in which the transportation machinery of the country is carrying out its obligations to the Canadian producer. Other aspects of the transportation problem are less satisfactory. There are many people who look upon Canadian Railways as custodians of magic fortunes which cannot be exhausted. That bookkeeping should be as simple and inexorable in its tale of losses and vanished profits to a railway as it may be to a corner grocer, is to these people unthinkable. It apparently does not occur to them that to no public is it more important than to the Canadian public that the good reputation of the railway securities in the world of credit and investment should be carefully guarded. To those, however, who understand those things clearly and who view the matter from the standpoint of broad public interest, it is at once apparent that the Canadian public pays a very low rate for the quality of service rendered, and that a time is rapidly approaching when, if Canadian railway securities are not to be made less desirable to investors than almost any other kind of industrial security, railway rates will either have to go down, or railway operating costs go down. Such persons recognize that it is not because the situation of the railways is an easy one that certain companies have been able to show net earnings—very low net earnings compared to the actual cash invested in the industry—but because in the past the shareholders of such companies have been, as they are to-day, courageous persons willing to supply the means for constructive enterprises in which no one but themselves has any faith, and because their officers have been skilled, resourceful and loyal business men, assisted by staffs filled with the spirit of pride and devotion to their work. This, indeed, is the thing which has made it possible for Canadian railways to have succeeded so fully during the war without making anything like the demands that foreign roads—less efficient in serving their community, yet earning the same rates and paying the same wages—have made up their public exchequers. I do not believe that the strain upon the railways, and this tendency to weaken the general reputation of Canadian Railway securities should continue. The servant, after all, is worthy of his hire, and railway capital is not less worthy a servant than other forms of capital whose earnings have not been so consistently depressed.

"The net earnings during the war years, of those companies which showed net earnings, which have been much lower had the Canadian railways been making expenditures for maintenance and improvements in accordance with the conditions which would have justified, but which conditions prevented during that period. These arrears have now to be made up. During 1919 the Canadian Pacific laid 70,000 tons of steel rail. In place of, say, 2,000,000 tons worth \$40 in 1914, the Canadian Pacific laid 4,344,000 tons at \$5c per ton. The occasional advance in the rate of railway wages is well known. Further advance may be necessary within the very near future, as indicated by discussions in the United States. The price of coal for locomotives was \$2.09 in 1913. Now it is \$4.77. The cost of hauling an average train (freight or passenger) one mile has risen from \$1.604 in 1913, to \$2.484 in 1918. It is higher to-day. The operating expenses of one mile of line in 1915 were \$4.153; in 1918, \$7.246, and to-day they are even greater. On the other hand, railway rates, taking all classes of revenue together, have advanced scarcely 25 per cent. I venture to say no other industry in the Dominion can show such moderation."

### Girl Found With Squaws Committed to Children's Aid Home

Mary Celina Doyle, the ten year old girl who was taken from the care of a number of squaws living in Moncton on Thursday night, was brought by the authorities before Sitting Magistrate MacDougall and after the evidence of police officers had been taken, was then committed to the Children's Aid Home. The child was taken in charge by Mrs. (Dr.) W. A. Ferguson, representing the home, and in future will be properly looked after.

Evidence produced by the officers showed that the girl had received cruel treatment at the hands of her fussy guardians, oftentimes receiving the most severe whippings when she did not please them.

From information received by the authorities it is learned that the girl formerly belonged to Bartibogue or vicinity, and was given by her step father to an aged couple who were to look after her. As they grew older, the couple found difficulty in keeping their promise, and when a couple of squaws came around one day, the little girl was virtually traded off to them in exchange for some needed articles. Thus she finally was brought to Moncton where she now will remain, comfortably looked after and educated.

### Spring Pruning

If pruning is to be done this spring SEE THAT IT IS COMPLETED BEFORE THE SAP IS FLOWING TO ANY EXTENT. Do not think it is necessary to take out a lot of wood from every tree. Much damage may be done by annual butchering. If the orchard has light annual pruning it will only be necessary to (1) remove all dead or broken branches (2) to head in any branches which may be too rangy. (3) to remove cross branches or (4) to thin out where the tree has become absolutely too thick.

IF THE ORCHARD IS OLD AND HAS BEEN NEGLECTED; which is evidenced by lack of growth, and barren arms for many feet from the main trunk, a vigorous heading back of the top is necessary to force out new growth FROM WHICH NEW FRUIT-PRODUCING WOOD CAN BE SELECTED.

Handle the young trees carefully. Do not make it a practice to head back 1/4 or 1/2 annually. Watch the crotches and always keep one branch in the lead to avoid weak crotches. Cut out where the variety produces a long rangy tree, suppress the strongest growing branches the most and the weakest the least.

**POINTS TO REMEMBER**

In cutting back a main branch and one of its strong growing laterals do not cut both to the same length. Permit the main branch to retain the lead, otherwise two branches of equal dimensions will result which will produce a very weak crotch; a constant source of trouble.

Whenever given the option of selecting either a branch growing at a sharp angle to its parent or one growing almost at right angles, choose the latter, it will make a stronger crotch in future years.

Always cut back a bud, cutting as close as possible without injuring the bud itself. By paying attention to the position of the bud one can do much to decide the form the tree shall take.

Study each variety you are dealing with and adopt a system most suited to its needs. Do not attempt to apply very hard and fast rules to your whole orchard.

It is not a question of how MUCH pruning one can do, but how LITTLE one can do and still retain the desired shape, vigour and productivity of the tree.

## NO MORE CHILBLAINS!

Mr. J. A. McFarlane of Nanapan, Ont., had chilblains so bad that he couldn't wear boots. Egyptian Liniment relieved them. Don't suffer from chilblains this winter. This liniment is also for Frost Bites, Burns Scalds, Cuts, Bruises, Sore Chest and Throat, Neuralgia, etc.

### The Miramichi Lumber Cut Over 190 Millions

Fredericton Gleaner: More than 100 million feet of lumber has been cut on the Miramichi this season and is now ready to be brought out by the spring's driving operations which will soon commence.

The cut on the Southwest Miramichi amounts to more than 100 millions—some say 103 million feet are the exact figures—and the increase over last year's operation is almost 70 per cent, the output last year being about 60 million feet. The big operators this year are the Fraser Companies Ltd., whose total cut on the Southwest Miramichi amounts to about 31 million feet, while the Miramichi Lumber Company are next with 25 millions, and D. J. Buckley has about 16 million feet.

The cut on the North West Miramichi amounts to a strong 60 million feet. The Buckley Lumber Company have about 10 millions coming out and so have the Ritchies, Burchills and one or two other concerns. The Miramichi Lumber Company's cut on the Northwest Branch has been about 7 millions, bringing their gross output up to about 36 million

**Women's Auxiliary of Holy Trinity Church Blackville Meets**

Newcastle, March 26—The annual meeting of the Women's Auxiliary of Holy Trinity Church, Blackville, was held at the home of Mrs. Justus Underhill one evening last week. Miss Ethel Underhill, the president, presided. The annual reports of the various secretaries were given all of which were satisfactory. The results of the election of officers for the ensuing year were as follows:  
President—Miss Ethel Underhill.  
1st Vice-President—Mrs. Millet Underhill.  
2nd Vice-President—Mrs. James Smith.  
Rec-Secretary—Mrs. Justus Underhill.  
Cor-Secretary—Mrs. Alfred Underhill.  
Treasurer—Mrs. Geo. Long.  
Doyce Secretary—Mrs. Wm. Mc Connell.  
Supt. of Jun. W. A.—Mrs. Ernest Stephens.  
Delegates to the Diocesan meeting at St. John in April—The President; substitute, Mrs. James Smith; the Junior Superintendent; substitute, Mrs. Long; delegate, Mrs. Justus Underhill, substitute, Miss Leontine Underhill.  
The chief feature of the evening was an address by Mrs. Bate, wife of the rector of Newcastle, who gave much useful information and answered many questions regarding the work of the W. A. At the close of the meeting refreshments were served.

**MEETING OF MILLERTON TEMPERANCE ALLIANCE**

A large and representative meeting was held in the Hall, Millerton on Monday evening for the purpose of forming a branch of the N. B. Temperance Alliance, as a preparation for the forthcoming plebiscite on prohibition.  
Mr. John Betts was elected chairman, and introduced to the meeting the Rev. F. E. Boothroyd, who in an able address outlined the present situation and the future policy of the Temperance forces. After this a branch of the Alliance was organized as follows:  
President—Mr. John Betts.  
Vice-Pres.—Rev. Ernest Rowlands.  
Sec'y-Treasurer—Mr. J. D. Lyon.  
Members of Executive—Mrs. W. G. Thurber, Mrs. P. M. Henderson, Mrs. W. McN. Matthews, Mrs. Annie Clouston, Mrs. Chris. Crocker, Mrs. D. A. Manderville, Mrs. Alex. Chiff.

**DERBY LITERARY CLUB**

The above club held its weekly meeting at the Parsonage on Thursday last March 25th. Rev. E. Rowlands in the chair.  
Many and various were the questions in the Question Box, and it took some time to dispose of them all. This part of our programme grows in interest and is much enjoyed.  
The subject for the evening was "The life and works of Longfellow." Miss Pauline Crocker gave the essay and great credit is due to her for the able manner in which she handled her subject, making it both instructive and entertaining. Roll call was answered by a quotation from Longfellow, and two selections "The Arrow" and "Its Song" by Miss Jossie Lyon and "The Builders" by Mrs. E. Rowlands were given.  
The Club chose sides and made arrangements to prepare for another debate to be held in about three weeks time.

**PRESIDENT BEATTY ON Y. M. C. A. WORK.**

In a foreword to an attractive little pamphlet issued by the Railway Y.M.C.A. of Canada, Mr. E. W. Beatty, President of the C.P.R., pays a tribute to the work of this association.  
"The high value of the work," says Mr. Beatty, "of the Young Men's Christian Association in the interests of men and boys has come to be generally and properly recognized, particularly on account of its efforts and accomplishments on behalf of our soldiers during the recent world war."  
"Among the various spheres of the Association's activities not the least valuable is the work of the Railway Branches which minister to the intellectual, the social, the moral and the physical needs of railway men respectively of race or creed."  
"The inception of this work on the Canadian Pacific Railway dates back to 1906 when the building at Revelstoke, B.C., was erected, and so well satisfied were the Company's officers with the experiment tried there that 9 additional branch associations have since been established. These provide home surroundings and comforts for men in train service when away from home and to many employees located at outlying points they afford the only home facilities that are available to them."  
"It is not only that good meals and clean beds and baths are provided, but the educational advantages, the recreational facilities and the opportunities for social intercourse amidst wholesome surroundings must necessarily contribute to the well being of the men and benefit the community in which they live, and the Company with which they are employed."  
"The eminently satisfactory results of this work on the Canadian Pacific lines in the past for which I desire to express my admiration and appreciation, have without doubt been achieved through the earnest and cordial co-operation of the Company's employees with the Association's officers and staffs, and with the continuance of their united efforts the future success of the work can, I feel sure, be confidently entrusted to them."

The Railway Y.M.C.A. provided 140,000 meals to railway men and served 2,000,000 meals in 1919. Its buildings are valued at \$580,000.

**TO SUBSCRIBERS**  
It is our intention to draw sight drafts on all subscribers who are in arrears to the Union Advocate. Before doing so, we would respectfully request those in arrears, to kindly send in the amount due by them at once. By so doing the necessity of drawing drafts will be eliminated. We have a large amount due us by subscribers, and have repeatedly asked for their remittances. Some have responded, others have not, and we are compelled to take the above measure. It costs money to run a newspaper, and since newspaper has advanced to such a high figure, we must collect our subscriptions which are in arrears.  
When remitting kindly notice the date of the tag on your paper and if not paid up to 1930, compute from date of tag to corresponding month in 1930, at \$1.50 per year, and thus be sure that your remittance is correct.

**GUNMEN IN A FATAL DUEL**  
Newark, N. J., Mar. 31—Two gangs of gunmen had a revolver battle in a restaurant here Sunday in which the leader of each faction was killed and another man was badly injured. The dead shots are Arturo Papal Ardo and Patsy Benesiano. The former received twelve bullets in his body.  
Walls, mirrors and windows of the place were riddled with bullets and the police later found six abandoned revolvers in the room.

**RENOUS SCHOOL STANDING**

### REMOVAL NOTICE

I have removed my Dental Office  
 from the Morrison Block to the  
 5th floor building, where I will be  
 pleased to attend to my customers.  
 J. D. McMillan

### How A Young Boy Got A New Start

He served a jail sentence in the  
 home of a Salvation  
 Army Officer

When a reporter for the police  
 court news says “He was handed  
 over to the Salvation Army,” what  
 becomes of the man? Not long ago  
 a young chap, in whom there is  
 much hope, served his sentence in  
 the home of a Salvation Army Offi-  
 cer. Special circumstances surround-  
 ed his case. Special consideration  
 was given by the authorities. The  
 boy was saved the humiliation of a  
 jail term. He was set right and in-  
 tends to stay right.

A prisoner who gives evidence of  
 trustworthiness and intention to go  
 straight is sometimes released on an  
 order-in-council. He can com-  
 plete his term at his work. From  
 the very beginning of the case the  
 services of the Salvation Army are  
 requisitioned.

The wages of the men are col-  
 lected by the Army, and turned  
 over—every cent—to his depend-  
 ents.

“What happens when a man goes  
 to a situation?” We asked Brig-  
 adier Fraser, the Army's Parole  
 Officer.

#### Free If He Behaves

“He is entirely free so long as he  
 behaves. We visit him once a week  
 We collect his wages and pay them  
 over to his dependents. There is no  
 charge, no deduction from the  
 amount. It goes in its entirety to  
 wife or mother as the case may be.”

Recently a stowaway reached Can-  
 ada. He came from Scotland. He  
 was arrested soon after arrival in  
 connection with the theft of a horse  
 He was sentenced to Burwash. Adju-  
 tant Adams, the local Prison Officer  
 of the Salvation Army, brought his  
 case up for consideration. The lad  
 had been dealt with by the Army  
 Officer and showed signs of having  
 undergone a change. He was dis-  
 charged. The Government paid his  
 fare to Montreal. The Salvation  
 Army saw him through to St. John,  
 N. B. There he was met by another  
 Officer of the Army who saw that  
 the boy was given an opportunity  
 to work his way back home.

Brigadier Fraser takes a tremen-  
 dous interest in the parole work. He  
 is not alone in this. Mrs. Fraser  
 is known at “the farm” as “the lit-  
 tle mother,” and is constantly help-  
 ing the Brigadier with the problems  
 that present themselves. Her spe-  
 cial work is visiting the wives and  
 families of men whose liberty, tem-  
 porarily, has been taken from them.  
 She takes a great interest in “the  
 boys,” and they are happy when  
 she is around. She conducts most  
 of the religious meet-  
 ings at Langstaff and Concord.  
 These are the men's and women's  
 divisions of the Toronto Municipal  
 Farm.

#### Pays a Tribute

Dr. Lavelle, the new Parole Com-  
 missioner for Ontario, speaks highly  
 of the assistance he receives from  
 the Salvation Army. He has gone  
 so far as to say that he does not  
 see how he could get along without  
 it.

“This is Brigadier Fraser,” said  
 that Officer in answer to a phone  
 call. Then the following was heard  
 “I am sorry. He was taken ill this  
 morning and we had to get a taxi  
 to take him home. He is very sick.  
 There are two or three children  
 and the mother ill with the flu. No  
 there was neither coal or food, but  
 I am arranging for both right away  
 I think he should go to a  
 hospital.”

The subject of the conversation  
 was a man on parole. He's making  
 good too. Arrangements were made  
 to send him to a hospital of his own  
 denomination. By this time, how-  
 ever, many mothers and fathers  
 were waiting to see Brigadier Fras-  
 er, and thus we leave him ag'n en-  
 grossed in his task.

### For Sale

Good Screened Sydney COAL.

### GIVE “SYRUP OF FIGS” TO CONSTIPATED CHILD

Delicious “Fruit Laxative” can't harm  
 tender little Stomach, Liver  
 and Bowels.

Look at the tongue, mother! If  
 coated, your little one's stomach, liver  
 and bowels need cleansing at once.  
 When peevish, cross, listless, doesn't  
 sleep, eat or act naturally, or is fever-  
 ish, stomach sour, breath bad, has sore  
 throat, diarrhoea, full of cold, give a  
 teaspoonful of “California Syrup of  
 Figs” and in a few hours all the foul,  
 constipated waste, undigested food and  
 sour bile gently moves out of his little  
 bowels without pain, and you have a  
 well, happy, contented child. “Califor-  
 nia Syrup of Figs” which contains full  
 directions for babies, children of all ages  
 and for grown-ups.

### TRADES UNIONISM A CRIME.

But That Happened to Be a Century  
 Ago.

Only a hundred years ago it was a  
 crime to belong to a trade union,  
 says Tit-Bits.

It was not until the year 1824 that  
 this system was put an end to. Even  
 then it remained a penal offence to  
 “molest or in any way obstruct an-  
 other person for the purpose of in-  
 ducing such person to belong to any  
 club or association or to contribute  
 to any common fund.”

It was not until 1871 that the first  
 Trade Union Act was passed, and  
 that unions were able to register as  
 friendly societies.

At once sixty-six unions registered  
 themselves; their property was legal-  
 ly vested in trustees, and in their  
 names a union could sue or be sued,  
 while it could proceed summarily  
 against any persons who embezzled  
 or misappropriated its funds.  
 Since that date never a year has  
 passed without the adding of new  
 trade unions to the constantly-grow-  
 ing list. The largest number regis-  
 tered in any one year was in 1889,  
 when there were sixty-five; the  
 smallest in 1884, when only twelve  
 were registered. To-day the number  
 of trade unions exceeds seven hun-  
 dred.

There are unions with member-  
 ships running into hundreds of thou-  
 sands, and with branches extending  
 all over the kingdom; there are little  
 unions that are hardly ever heard of,  
 with but a score or so of members.  
 Some years ago the Cabinet Makers'  
 Federation of London had actually  
 but a dozen members, while the  
 Paper Stainers' Union, a very an-  
 cient one, had only fifty.

Other small unions are those of  
 the barometer and thermometer  
 tube blowers, and of the tin canister  
 and preserved provision case makers.  
 There is probably no trade or in-  
 dustry which does not boast a union  
 of some sort. For instance, keepers  
 of London coffee stalls, those useful  
 institutions where the night worker  
 can always find refreshment, have  
 their own association. So, too, have  
 the dock watchmen, about whom Mr.  
 W. W. Jacobs writes so delightfully.

There is even a “street  
 sellers and peddlers,” and a “Street  
 Trades' Brotherhood.” The oldest  
 trade union in existence is said to  
 be that of the United Society of  
 Brush Makers.

#### In Muscat Harbor.

Muscat, or Masqat as it is more  
 correctly spelled, is situated at the  
 extreme southeast end of the Gulf  
 of Oman. It possesses a fine natural  
 harbor, protected from all winds ex-  
 cept those from the northwest. The  
 town stands huddled in the war cor-  
 ner of the harbor, with two old forts  
 standing guard over it on either side.  
 All over the rocks surrounding the  
 harbor are the names of the ships  
 which have anchored there for the  
 last 100 years, painted in large white  
 letters by the crew, and visible from  
 every side without the aid of glasses.  
 This curious custom has been follow-  
 ed by every naval ship which has  
 visited Masqat for nearly a century,  
 and the history of the British navy  
 in the Persian Gulf is “writ large on  
 those torrid rocks. There are few  
 places in the world hotter than this  
 coast of Oman and the waters of Mas-  
 qat, in which the visitor can bathe  
 without risk of sharks, is at times  
 unpleasantly warm.

The sultans of Masqat have for  
 long had intimate relations with the  
 British Government, and though their  
 power, which once extended not only  
 over the whole of Oman, but as far  
 as Zanzibar, is now considerably cur-  
 tailed, they are rightly regarded as  
 the most important of the independ-  
 ent rulers of the territories sur-  
 rounding the gulf. The present sultan  
 has the most polished and courtly  
 manners, and receives European  
 visitors with a welcome unmatched  
 even among Orientals. His palace is  
 richly and tastefully furnished, and  
 to be led by him up the winding  
 staircase to the reception hall, while  
 he repeats at intervals the formula  
 of welcome, “Bismillah, Bismillah,”  
 and to sit on a Persian rug and taste  
 the delicacies he provides, surround-  
 ed by a vast concourse of attendants,  
 all gorgeously dressed and armed  
 with gold-hilted swords and daggers,  
 is an experience not lightly to be for-  
 gotten.—Christian Science Monitor.

#### Ireland Is Prosperous.

Samuel S. McClure, publisher, has  
 just paid a three months' visit to Ire-  
 land, where he said he found a  
 “paradise.”

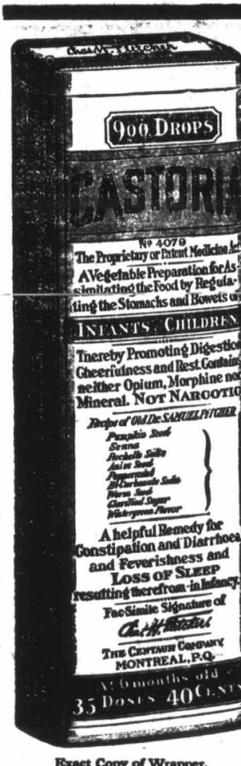

“Ireland is the most prosperous,  
 comfortable and law-abiding country  
 in the world,” said Mr. McClure.  
 “The people are well dressed and well  
 housed. One has to read outside  
 papers to learn of trouble and un-  
 settled conditions there.”  
 “I found that Irish banks have de-  
 posits of more than 100,000,000  
 pounds, and have been forced to form  
 alliances with English banks in or-  
 der to find an outlet for their money.  
 There are 5,000,000 head of cattle in  
 Ireland, or half as many as in Can-  
 ada. Ireland has exported as much  
 food to England since 1913 as either  
 the United States or the Argentine.”

#### A Self-made Briton.

From general utility boy to gen-  
 eral manager sums up the career of  
 Mr. Charles Addington, the new man-  
 ager of the Great Western Railway  
 in the Old Country.

Forty-three years ago he began at  
 the bottom of the ladder, as a boy of  
 thirteen. To-day he controls the rail-  
 way which possesses the longest  
 mileage in Britain.  
 His favorite yarn concerns a pas-  
 senger who remonstrated with the  
 guard on the slowness of the train.  
 “If you don't like the speed, get out  
 and walk,” said the guard.  
 “No, thank you,” was the reply. “I'm  
 not in such a hurry as all that.”

Ireland has only one policeman,  
 and his beat is in Rathjavin.

# Local and General News.

**SUGAR ADVANCED**  
Sugar has advanced \$1.00 per 100 lbs. The increase occurred on Thursday.

**BASKET SOCIAL AND DANCE.**  
A Basket Social and Dance is being held tonight in the Douglastown Hall. A choice program of music is to be rendered.

**BAPTIST CHURCH SERVICES**  
The Baptist Pulpit next Sunday morning will be supplied by Rev. F. T. Bertram and in the evening by Rev. W. D. Wilson. The Rev. Mr. Wilson will conduct the service at Lower Derby in the afternoon.

**TO ORGANIZE IN RESTIGOUCHE COUNTY**  
The Rev. E. A. Kinley intends going to Restigouche County the latter part of this week to organize the Forward Movement Campaign in several localities there, which had the regular date postponed.

**MUSIC AT HAPPY HOUR**  
The management of the Opera House have increased the number of musical instruments in their orchestra, having added a cornet and set of traps. This is a very marked improvement and the general public will no doubt show their appreciation.

**RESUMED DUTIES**  
Rev. W. McN. Matthews of Millerton (N. B.) resumed his duties on Sunday after being laid aside some two or three weeks as the result of injuries sustained from a fall. Rev. F. E. Boothroy preached in the churches of Millerton congregation last Sunday.

**FIRE ON THURSDAY**  
A fire in Mrs. Mary McCarthy's residence, Lower King's Highway last Thursday afternoon at 3 o'clock necessitated the calling out of the Fire Dept. The fire originated in the kitchen, but was speedily extinguished on the arrival of the firemen.

**REAL ESTATE DEAL**  
Dr. J. E. Park has purchased from Mr. George McKay the property on Pleasant St. occupied as a Blacksmith Shop by Mr. Angus McIvor, and situated between the Waverly and Union Hotels. The Doctor purposes to commence building a residence and office early this spring which will be a decided improvement to this street.

**SURPRISE PARTY**  
The young people of the Methodist church held a surprise party for Miss Blanche Parker last Thursday evening. Miss Parker, who has been employed by Moody & Co. for the past few years, has accepted a position with R. N. Wyse & Co. Moncton. She is a member of the Methodist choir and will be missed by a number of friends.

**METHODIST BIBLE CLASS MEETING**  
The annual meeting of the Young Ladies' Bible Class of the Methodist church was held on Thursday evening at the home of Miss Edith McLean, when officers for the ensuing year were elected as follows:—President, Miss Edith McLean; Vice-president, Miss Inez M. Copp, Treasurer, Miss Bessie Dick; Secretary, Miss Janet L. Copp; Teacher, Rev. F. T. Bertram. Lookout Committee, Misses Edith McLean, Bessie Dick, and Mrs. Robert J. F. v. Social Committee, Mrs. B. F. Maltby, Misses Lydia Copp and E. Lynn Price. Sick and Visiting Committee, Misses R. M. Rogers, Bessie Jeffrey and Louise Atchison.

## Country Girl's Ideals of Big City Fascinations Shattered by Treachery

How Judith Rutledge's idealistic conception of life in the great cities was sent crashing on the rocks of a harsh reality is the theme of "Her Kingdom of Dreams," starring Anita Stewart and which will be seen at the Happy Hour Theatre, Wednesday.

The Great Chance Comes  
As a young girl living with her invalid father in a small western town, Judith frequently longed for the wonders and beauties of the large cities. And, as a reward for that longing, it seemed, an opportunity came to her to visit her Utopia. She was to be a private secretary to James Warren, prominent Wall Street banker.

Once in the employ of Warren, Judith's sincere services led Warren to believe that she could be trusted with his most precious secrets. On his deathbed, he made a final request—that Judith marry his rather unsteady son, Fred.

How this marriage, entered into in a spirit of loyal compliance with the elder Mr. Warren's wishes, developed into a fervent love-match against with episodes revolving about the wrecking of a great financial power, and the exposure of a great scandal, ending with some dramatic scenes that cannot fail to please the patrons of the Happy Hour Theatre.

**BORN**  
At Chelmsford March 29, 1920 to Mr. and Mrs. Earle S. Saunders a son.

**GOOD FRIDAY OBSERVED**  
Good Friday was observed as a Holiday by the merchants in town.

**SCHOOLS RE-OPEN**  
The Public Schools re-open after the Easter Holidays tomorrow (Wed)

**BENEFIT NIGHT**  
Tonight is Benefit night at the Happy Hour for the Miramichi Hospital.

**WHEELS ONCE AGAIN**  
Wheels have now taken the place of runners about town as the warm sun and rains of the past few weeks have practically destroyed the snow.

**RE-SEEKS ELECTION**  
Mayor D. F. Doyle has decided to be a candidate for the Mayoralty in the coming Civic Election which will be held on Tuesday April 20th.

**BILL INTRODUCED**  
Dr. F. C. McGrath, M.L.A., on Wednesday of last week introduced in the Legislature a bill to authorize the school trustees of Newcastle to issue debentures.

**MIRAMICHI HOSPITAL**  
The Secretary acknowledges with thanks the following Master gifts:  
Newcastle Red Cross \$100.00  
Newcastle Scholars 25 doz. eggs  
Hospital Aid, Millerton, 15 doz.

**THREE YEARS SUSPENDED SENTENCE**  
James McFarlane who was before Judge McLatchey in the County Court this morning, charged with the stealing of Oats from The Maritime Produce Co., was given a three year suspended sentence.

**BOY RUN OVER**  
The young son of Mr. John Kingston was seriously hurt last Friday morning by being run over by a sloven. The little lad who had received a drive on the sloven, attempted to jump off but in doing so fell between the wheels and was seriously hurt. Dr. McGrath was called to attend to the little fellow's injuries.

**KIRKWOOD SCHOOL STANDING FOR MARCH**  
Grade V.—Gordon Touchie 77½  
Grade V. (b)—Mary Carmant 80;  
Genevieve Kirk 70.  
Grade IV. (a)—Guy Touchie 78;  
Lela Fairley 68½.  
Grade IV. (b)—Honor McKinley 86.  
Grade II.—Frank Ramsay 70; Burton Touchie 66½.  
Grade I. (a)—Eugene Touchie, Vincent Kirk.  
Grade I. (b)—Harold McKinley.  
Pupils present every day—Gordon Touchie, Guy Touchie, Frank Ramsay, Burton Touchie.  
Absent only two days—Mary Carmant.

**ELECTION ACT AMENDED**  
Hon. Mr. Byrne introduced a bill to amend the New Brunswick's Election Act on Thursday. He explained that the object of the bill was to provide machinery for adding names to voters' lists which had been omitted by Revisors. After the lists have been prepared and forwarded to the Secretary/Treasurer, any man or woman qualified to vote could have his or her name added by making affidavit, setting forth the facts and forwarding the same to the Chairman of the Board of Revisors. In the case of names omitted from voters lists after the same had passed to the sheriff, provision was made for the issuing of certificates by the Secretary/Treasurer, which on presentation to the Deputy Returning Officer would give the right to vote.

**EASTER VESTRY MEETING**  
The annual meeting of St. Andrew's Church was held last evening Easter Monday. The rector presided. The old business being finished, the new officers appointed for the year were—  
Vestry, Church and Treasurer—Mr. J. E. T. Linton.  
Church Wardens—Mr. J. G. Kethro, Mr. A. J. Ritchie.  
Vestryman—Mr. J. W. Davidson, Mr. E. E. Benson, Mr. Harry S. Miller, Mr. F. Uncles, Mr. Frank Morell, Mr. T. M. Maltby, Mr. H. H. Ritchie, Mr. Murray Russell, Mr. David Ritchie, Mr. Horace Kethro, Mr. H. B. Maltby, Mr. H. W. Brightman.  
Delegates of Synod—Mr. J. G. Kethro, Mr. A. J. Ritchie.  
Substitute Delegates—Mr. H. H. Ritchie, Mr. Charlie Sargeant Jr.  
Mr. J. E. T. Linton the efficient treasurer presented a very full financial report which was received and adopted.

**IN LOVING MEMORY OF**  
**LIEUT. F. J. LAWLOR**  
7th Can. Grenadier Guards  
Died of Wounds April 24, 1918  
aged 31 years

**COUNTY COURT IN SESSION**  
The County Court opened today in the County Court House, with Judge McLatchey presiding.

**SMALL INTEREST SHOWN**  
As yet very little interest is being shown by our citizens, in the coming civic election which takes place on Tuesday April 20th.

**IN POLITICAL TIMES**  
The Daily Times of April 3rd 1898 stated:—Hon. Foster Mitchell is actively prosecuting his canvass in Northumberland County.

**SUCCESSFUL SALE**  
The Food Sale held by the Ladies Aid of St. James' Church on Saturday was a most successful affair. The sale was well patronized and the proceeds were most encouraging.

**INCORRECT REPORT**  
The report that the N. B. Telephone Co. Ltd. had purchased the Miller Building, opposite the Post Office for an exchange office, is found to be incorrect.

**RECEIVES CERTIFICATE**  
Marshall W. Bryenton of Casella has received his certificate as Master of Inland Water Tug-Boat, having recently passed his examinations in St. John.

**EGGS FOR HOSPITAL**  
About thirty dozen of eggs were donated to the Miramichi Hospital by the pupils of Harkin's Academy, as a result of the collection made by the pupils.

**AUDIENCE DISAPPOINTED**  
A large audience which was present to view the First Aid pictures in the Opera House on Friday afternoon were disappointed as the pictures were not shown.

**ADDED TO STOCK CARRIED**  
The Maritime Produce Co., have added to their large stock of Flour, Feeds etc. Plate Beef, Pork, Lard Hams, Bacon and Reno Syrup in Kegs. Call and get prices on these lines.

**THE DOMINION PULP MILL NOT SOLD**  
It is understood that the offer of the Howard Smith Co. for the Dominion Pulp Co's properties has been finally rejected by the present ownership and management. Mr. McCabe, who had arranged to leave, will remain. It is said, in his present position.

**WON THRIFT STAMP PRIZE**  
The thrift stamp prize donated to Grade V., Harkins Academy for the best composition was won by Jean Melanson. Those deserving honorable mention are—Isabel Ferguson, Elizabeth Stohart, Funaida Putnam, Blanche Russell, Gwyneth Belyea, Geraldine McMichael, Sybil McCaul, Dora Palmer, Nina White.

**A Good Medicine For Spring Use**  
Harsh Purgatives Should be Avoided—A Tonic Will Restore Your Energy  
Not exactly sick but not feeling quite well. That is the way thousands of people feel in the spring. It is a sign that the trying indoor life of winter has left its mark upon you. Headly tired, appetite feeble, sometimes headaches and a feeling of depression. Pimples or eruptions may appear on the skin, or there may be twinges of rheumatism or neuralgia. Any of these indicate that the blood is out of order, and these symptoms may easily develop into more serious trouble.  
Do not dose yourself with purgatives as so many people do, in the hope that you can put your blood right. Any doctor will tell you that this is true. What you need in the spring is a tonic that will build up the blood and nerve. Dr. Williams' Pink Pills can do this speedily and surely. This medicine enriches the blood, clears the skin, improves the appetite and makes tired, depressed men, women and children bright, active and strong. As an example of the value of these pills we give the statement of Mrs. S. McBurnie, Tallahassee, Fla., who says:—"I have good reason to speak in the highest terms of Dr. Williams' Pink Pills. I was badly run down, failing in weight, and suffering from dizzy spells and weakness. In fact my condition was such that I was hardly able to do my housework. A friend advised me to try Dr. Williams' Pink Pills and after using several boxes there was a noticeable improvement. I continued using the pills for some time longer and found that I had fully regained my old-time health and strength and was able to do my housework without tiring myself and even out as I did before I began using the pills."

**PILES**  
Do not suffer another day with itching, bleeding, protruding piles. No surgical operation required. Dr. Chase's Ointment will relieve you at once and as a certain cure you can see a post, all dealers or Edmondson, Bates & Co., Limited, Toronto. Sample box free if you mention this paper and enclose 10c stamp to pay postage.

**DANGEROUS HOLES**  
Two dangerous holes on Henry Street, near the Post office were repaired last week. The sewer pipes were frozen and the water washed the earth from underneath, causing two large holes which were covered only by a crust of earth.

## Stables' Grocery

During the Housecleaning, the busy house wife will not want to be bothered doing much cooking, but still we must be fed. We have a full line of just what will help.

Robinson's celebrated Home Made Bread, Marven's Pound, Sultan and Fruit Cakes and Fancy Cookies.

Just opened up a large assortment of Christie, Brown & Co., Fancy Biscuits, Armour Veribert Ham, and Windsor Bacon, Davis & Fraser and Hopkin's Sausages, Finnen Haddie, Kippers and Bloaters.

Cape Cod Cranberries, Prunes, Figs, Apricots, Peaches, and Evaporated Apples, Pure Jams and Marmalade. Our 50c Tea is a wonder, Morse's Orange Peels in bulk at 70c. Sugar and Flour are again on the move. How is your Flour Bbl.? Choice Creamery and Daisy Butter. Oleomargarine is selling great, looks and tastes just like Butter.
