## PANDORA RANGE

HOLDS FIRE ALL NIGHT

The good housewife always feels like bestowing upon the Pandora a cheerful "good morning."

Why? Because the Pandora always has a nice bed of hot coals as a reward for checking off the dampers closely before retiring to rest.

In five minutes after turning on the drafts she will have a good, strong fire.

Should she sleep two or three hours longer than usual there will still be a fire ready for her.

The fire-box, flues and dampers are so scientifically arranged that the Pandora can be

regulated to hold a fire from 24 to 36 hours.

Pandora owners never have their sleep disturbed with dreams of making a new fire in the morning.

If your local dealer does not handle this most perfect of all ranges, write direct to us for Free Booklet.

## Grand Lodge I.O.F. Meets in Annual Session at St. Stephen

Crescent Lodge, Bridgetown, Sends a Number of Delegates.

The fifty-second annual session of the Grand Lodge Independent Order of Oddfellows will open in St. Stephen on the fourteenth of this month. Delegates from all the lodges of the Maritime Provinces will be in attendance as well as delegates from the various Rebekah Lodges of the Provinces. It is expected that over 400 delegates will visit the border city during the three days.

The Grand Encampment will open on Tuesday, August 13th. The Rebekah Assembly will also be held on this date. The Grand Lodge will open on Wednesday and will conclude on Thursday, the 15th.

A public meeting and excursion on the St. Croix river will be features of the occasion. At the public meeting C. N. Skinner, of St. John, and a gentleman from the United States will be the chief orators.

Among the business before the Grand Lodge will be the proposition for a new constitution. This matter was laid over from last year and was left in the hands of a committee composed of Robert Hawkins, Pictou; S. L. Stewart, Chatham, and C. B. Allan, St. John. The committee have given notice of some amendments to the constitution.

Following are delegates from Bridgetown attending the Convention—Mr. and Mrs. J. W. Peters, Miss Mercedes and Miss Minnie Pigott, Miss Lottie Berry and W. Avar Marshall.

## A Graceful Tribute to the Late Dr Sawyer

The following brief tribute to Rev. A. W. Sawyer, D. D., L. L. D., was uttered previous to the session in the Baptist Church in Bridgetown, N. S., on Sunday morning, August 11th, by Rev. Arthur S. Lewis:—

Since last we gathered in this house our denomination in these provinces has sustained an irreparable loss by the somewhat sudden death of the Rev. A. W. Sawyer, D. D., L. L. D., for twenty-seven years the President of Acadia College, Wolfville.

For forty-three years an able and honored professor in that institution. I cannot let this service pass, the first service of worship since his death, without a word of personal tribute to the memory of this great and good man.

Dr. Sawyer was pre-eminently a teacher. The professor's chair was his throne and he accepted it with a grace and dignity worthy of the state's highest honor. Few men have such an ample equipment for the professorship; and few devote themselves to it with more singleness of devotion. His mental processes were performed with the utmost precision. His power of analysis and synthesis was the marvel of every student who ever entered his classroom. Never did he simply skim over the surface of any subject but always dove to the bottom of it, whether it be psychology, metaphysics, history, biology, theology, or sociology, and came to the surface again ready to make known the conclusions he had reached. "Those of you who know him best will recall, with what marvellous breadth of view, and with what clarity of thought and expression his pronouncements on any subject were delivered. Never were his statements in the least confusing; they were invariably framed so as to convey one meaning and one only. As a teacher Dr. Sawyer possessed the

ability to make students think for themselves. By a series of searching questions he would guide the student into the truth; encourage him to trust his own mental processes and reach his own conclusions. In this respect he was without a single peer. Students who have gone from his classroom into the classrooms of the greatest educators and teachers in America and on the Continent bear universal testimony to this fact.

Never has our denomination in these provinces had a more humble servant than Dr. Sawyer. Had he desired it he could easily have occupied a place in one of the great universities of the world, side by side with the greatest scholars and educators of our time. But he chose rather to devote his splendid gifts and equipment to the service of the little college at Wolfville.

How great a debt our denomination owes him for this magnificent service none can fully estimate. For 40 years, and more, he has been pouring into the young men and women who have passed through the halls of Acadia the results of his painstaking investigations and mature judgments, and now he has entered into his reward. I am sure we cannot but feel this morning that the institutions at Wolfville, our denomination, and the life of these provinces generally, are appreciably poorer for his going. I, for one, miss something precious and precious out of my life. But when I say this morning I am glad to have known him and loved him, I am certain I but express the sentiment of every student who has ever sat under this great master. The memory of this great-hearted, pure-minded, earnest follower of Jesus is among my most treasured, a summons and an inspiration to the service of Him whom he served with untiring devotion.

HEALTH AND BEAUTY.

"Beauty is nothing more or less than the external evidence of a high degree of mental and physical health," declares Dr. W. R. C. Latson, writing on health in its relation to womanly beauty, in the January Outlook.

He goes on to show how the mental condition affects the digestive processes so necessary to health. "Any excitement, fear, anger, regret, haste, or other unfavorable mental condition will disturb its action to such an extent as to prevent its work being properly done."

The rules of diet are embraced in two words, moderation and simplicity. The eating of much meat is inimical to permanent health for beauty. Fresh fruits and salads of lettuce, celery, water-cress, and such fresh green leaves that grow in the sunlight are good. Highly flavored dishes are to be avoided, and one should drink freely of pure water on rising, on retiring, and between meals.

Physical exercises are especially important, and the best kind of exercise obtainable in general is free outdoor play, the kind that combines free motion with laughter and fun, and in which there is little sense of strain or effort. To play strenuous games such as basket ball, Dr. Latson says, is injurious. Any game calling for a combination of severe mental and physical effort brings lines of anxiety to

## \$29,240,000 Fine Imposed on Standard Oil Company

Chicago, Ill., Aug. 3.—Judge Kenesaw Mountain Landis today, in the United States district court, fined the Standard Oil Company of Indiana \$29,240,000 for violation of the law against accepting rebates from railroads. The fine is the largest ever assessed against any individual or any corporation in the history of American criminal jurisprudence, and is slightly more than 131 times as great as the amount received by the company through its rebating operations. The case will be carried to the higher courts by the defendant company.

The penalty imposed upon the company is the maximum permitted under the law, and it was announced at the end of a long opinion in which the methods and practices of the Standard Oil Company were mercilessly scored, the exact language of Judge Landis being:

"We may as well look at the situation squarely. The men who thus deliberately violate this law wound society more deeply than does he who counterfeits the coin or steals letters from the mails."

Judge Landis commenced reading his decision at 10 o'clock and occupied about an hour in its delivery. He reviewed the facts in the case, took up the arguments of the attorneys for the defence and answered them and then passed judgment upon the company, which he declared violated the law for the sole purpose of swilling its dividends.

The court held that the railroads have no more right to make a secret rate for a shipper than a board of assessors would have to make a secret assessment of any particular piece of property.

The court expressed regret that the law failed to provide more serious punishment than a fine, but insisted that the penalty should be sufficiently large to act as a deterrent and not of such a size as to encourage the offender to persist in lawlessness.

At the conclusion of his opinion, and after announcing the amount of the fine, Judge Landis directed that a special grand jury be called for the purpose of inquiring into the acts of the Chicago & Alton Railroad Company, it having been proved in the case just closed that the oil company accepted rebates from the corporation. This jury is summoned for August 14.

The decision of Judge Landis aroused almost as much public interest as did the presence of John D. Rockefeller and other officials of the Standard Oil Company in the court room on July 5. The crush was so great that a large force of deputy marshals had much difficulty in controlling the crowd that was anxious to force its way into the court room.

OBJECT LESSONS.

It is not often that we hear of merchants retiring from business and entering an asylum, but such was the fate of a well-known citizen who lost \$30,000 some time ago in mining stocks, and was afterwards taken to an asylum, where he will, it is feared spend the rest of his days. Men who cannot stand financial losses, should never go into mining deals, when they have a legitimate business of their own to attend to. Another case was mentioned to us of a lady in command of a well-known hotel, who had a safe investment paying 6 per cent. a mining concern paying double that rate of interest, but it only paid dividends for a little over a year and has not paid a cent since. The result has been the lady referred to has had to earn a living by going out to-day labor.

DESTRUCTIVE STORMS IN THE WEST.

Sinclair, Man., Aug. 6.—The worst hail storm in the existence of the old-settler visited this neighborhood about eight o'clock last evening, and thousands of acres of splendid crops are completely demolished. The hail is two miles wide and the length at present writing cannot be ascertained, but is not less than ten miles. The storm was accompanied by a high wind and there is hardly a whole pane of glass in the track of the storm.

Monte, Man., Aug. 6.—There was a very severe hail storm last night. Many of the farmers hauled out hail as big as hens' eggs. Some of the farmers had a lot of windows smashed, and other damages done.

Ruston, Man., Aug. 6.—The worst hail storm that ever visited this district happened about 8.30 yesterday evening. Windows were smashed in every house in the town, garden stuff was pounded into the ground, and grain reaching four or five miles each side of the town is more or less damaged.

**INTENSIVE CULTIVATION OF POTATOES.**

The ideal soil for the potato crop is free and light enough to offer no great resistance to the development of the tubers, a soil well supplied with organic matter, so as to be rather moist, but not wet, and plenty rich enough to supply the plant food necessary. The success of potato culture is largely dependent upon the preceding crop. In a rotation with clover, cowpeas or other leguminous plants, the stubble furnishes organic matter in the soil and adds to the store of nitrogen. Corn after sod may precede potatoes. This is one of the best rotations used in New Jersey. Clover sod is all right, new ground is always good for a crop of some kind. Just as the plants are beginning to appear above the ground, the field should be harrowed, inclining the teeth of the harrow backward. Subsequent cultivation should be frequent, so as to accomplish these same needs. The first cultivation may be deep, but experience and exact experiments generally favor nearly flat or level cultivation. Excessive hilling during cultivation intensifies the injurious effects of dry weather and results in breaking many of the feeding roots between the rows. The cultivating should be completed before the tubers begin to form. If done after the tubers are formed it should be with a shovel plow in middle of the rows and shallow if a severe frost is apprehended soon after the plants come up. The tops should be covered by throwing a furrow cover each row.

The diseases of the potatoes with which we are blight and leaf spot. These can be prevented by applying bordeaux. The latter disease may appear at any time after the plants are from 4 to 6 inches high. At first, the oldest leaves show grayish-brown spots. The disease progresses rather slowly, the spots gradually becoming larger, especially along the edges of the leaves, but does not advance rapidly. For the blight and this disease there is nothing so effective as bordeaux prepared as follows: Pour into a 45-gallon barrel about 30 gallons water. Then weigh about six pounds blue stone, the in a piece of coarse sack and suspend just beneath the surface of the water by means of a string tied to a stick laid across the top of the barrel. In another vessel four pounds fresh lime carefully by pouring on small quantities of water at a time, the object being to obtain a smooth, creamy liquid from the lime. Then fill the barrel with water. As soon as the blue stone is dissolved, which will require about one hour, take a pailful from each barrel and pour them at the same time into a third vessel to effect a thorough mixing. The bordeaux will then be ready for use. For insects add two pounds arsenate of lead or four ounces paris green to each 30 gallons bordeaux. In insect spraying when the plants are about six inches high and continue spraying until four to six applications have been made. If the season is rather rainy it will be best to apply as often as every ten days.

The normal death of the vines is the signal for digging the main crop. The time for digging is when the tubers are ripe in early digging is best. As a rule, the ground is in a better condition, and so are the potatoes. I think they retain their flavor better. My practice is to dig early and cover with hay and a little soil to keep the sun and air from them. Then before it gets too cold, remove them to the cellar for the winter. It will do to put them in a very dark cellar where they should always be kept cool and dark.

**Just Our Own**

**Dear Hostess:**

I think your new column is a fine thing and I, for one, have benefited thereby already.

So many new recipes (so called) are as so many pitfalls for the unwary feet of the young housekeeper. But it is altogether different with those found in "Just Our Own." They have all been tried and tested, weighed in the balance and not found wanting—in any of the necessary ingredients. I have tried Anastasia's salad dressing and found it delicious. I have also followed Junipia's recipe for scalloped salmon and can recommend it. I wonder if any of your readers have ever cooked steak a la haricot. It is not a particularly good warm weather dish as it needs to cook a long time, though it could be made on a baking day without additional fire.

It is, however, a very nice way of cooking a steak which is not quite as tender as it should be.

**STEAK A LA HARICOT.**

Take a good sized onion and fry carefully in butter until nicely browned. Lay your steak, in a whole piece, in the pan with the onion (a deep frying pan with a cover should be used). Salt lightly and smother with new carrots cut in rings. Fill the pan with water and cover letting it boil slowly for, at least, two hours. When perfectly tender take steak from the pan and serve on platter with mashed potatoe butter. Remove any pieces of carrot from the liquid and slightly thicken for gravy, adding a little Worcester sauce. If the meat should be without much fat, quite a large piece of butter should be used to fry the onion. I tried this a few days ago, cooking the remainder of a steak, the other half of which had been broiled the day before with the result nearly as impeccable and far previous as a piece of sole leather. We found our Haricot steak not only very tender but very nicely flavored. I varied the recipe slightly by using small new potatoes with sprouts of parsley instead of the mashed potatoe butter.

I hope some of "Just Our Own" will try this and tell me how they like it. In which case I shall feel like coming again.

And now, with sincere appreciation for our new column and with best wishes for its continuance and development,

I remain, dear Hostess and "Just Our Own,"

Very sincerely yours,  
HAPPY HOUSEWIFE.

On sandy loam soil, valued at \$50 an acre, because of location, Mr. J. B. Sturdevant, of Danville, Va., grew 35 bushels of Myrick oats. It is worthy of the note that this crop was cut with the old-fashioned sickle, and that the cost of threshing is not shown at 1 1/2 cents per bushel. The particulars about the mode of threshing are not fully given.

**SUCCESS WITH RASPBERRIES.**

(N. E. Homestead.)

We plant them out in the fall when convenient, 3x5 feet, giving clean and frequent culture. We use mostly commercial fertilizer. Our method is two parts of treated ground bone to one part high-grade sulphate of potash, about 600 pounds to the acre. It is better than too much nitrogen, as that tends to produce tender wood and consequently winterkills. Our plantations are started by setting the sprouts, which usually spring up in abundance and are treated as weeds except when wanted for sets. We remove the old canes as soon as convenient after the fruit is off, leaving them there till the spring pruning, when they are all raked out together.

In pruning the new wood grown the last season is shortened back quite a little. Then we give clean culture as before till July 15th, then let them remain till after fruiting. The varieties we have used for 20 years and have seen no reason to change, save the Hazell for early and Culbert for late.

Streets of Casablanca Filled with Dead.

A despatch from Tangier, Aug. 8 says the Jewish quarter of Casablanca has been sacked. 300 persons were massacred in the streets. The city is said to be full of dead bodies, and the Moorish quarter is a scene of horror. The warships continue to drop a casual shell into groups of 100 on the beach in order to prevent the French sailors from approaching the town. The Europeans who are either on board ships or in the hospitals, are guarded by 1,000 soldiers. The warships continue to drop a casual shell into groups of 100 on the beach in order to prevent the French sailors from approaching the town.

Paris, Aug. 8.—Special despatches received here from Tangier report the situation as being more alarming on the coast than in the interior. Cad Salo, the Administrator of Customs at Rabat, is said to be openly preaching a holy war among the Muslims, as the result of which the French Consul has been distributing arms among the Europeans. In addition, a fanatical priest, named MacLain, at the head of a horde of followers, is influencing the anti-foreign sentiment.

Annapolis Rifleman Captured Team Prize

Ottawa, Aug. 8.—The result of the Canadian Rifle League match shot throughout Canada are made public. Among city corps the first team prize goes to Ottawa, and the individual championship to Toronto. The rural corps team prize was taken by Annapolis County, Nova Scotia, and the individual championship by an Annapolis Rifleman. The Rifle Club Association championship was won by Prince Edward Island, and the individual prize by a Prescott man. In the competition among the city corps the 63rd Ottawa first team team with a score of 3774, the 10th Toronto first team with second with 3762, and the First Halifax Artillery third with 3721. The Royal Canadian Engineers first team came eighth with 3625, and the 66th Regiment, Halifax Rifles, tenth with 3610. The individual champion of this series and of the League shoot was Sgt. William Kelly, of the 10th Toronto with 398 points, and next to him was Sgt. Maj. Dymond, of the R. C. R. Halifax, with 390 points.

In the second series which was confined to mounted, rural and departmental corps, the Military College mounted corps, the Mounted Police, the 69th Annapolis, N. S., regiment finished first with 3694 points, and D. and H. Companies team of the 74th Moncton Regiment was second with 3640 points. The individual championship of this series was won by Lt. Spittal, of the Army Service Corps, Ottawa; second was Lt. Shafer, 69th Annapolis, and third, Sgt. Yoshill, 16th Artillery, Winnipeg.

The team championship for the third series, competed for by the Civilian Rifle Associations sent to the Bellevue Club, at Southport, P. E. I., with 3701 points, second was the Bridgetown, N. S., Club with 3679 points, and third the Truro first team with 3621 points. Kentville R. A. came eighth with 3535; Moncton R. A. tenth with 3519. St. John City 19th with 3267; Truro second team twenty-third with 3222; Sussex twenty-sixth with 3161; Woodstock, N. B., thirty-sixth with 2915; Easttown, N. S., forty-ninth with 2929; and Hartland, N. B., fifty-fourth with 1588. The individual champion of this series was Lt. Rankine, of Prescott, with 394 points, and second was A. Mullin, also of Prescott, with 392 points.

Prefers Mulch System—My idea is not to cultivate orchards, for I have had the best success with the mulch system. Apples grown that way brought me a silver medal at the St. Louis exposition and also rewarded me with the highest prices in the market. Trees given the mulch culture are in the finest possible condition. If the time spent in cultivation were given to more thorough spraying, it would require less labor and the gain would be better proved. In 1905 one of my nine year old trees produced 21 barrels fine fruit aside from the wind-falls which it was possible to save, owing to the mulch keeping them clean. I expect to do well, or even better this year.—Dennis Penn, Eew Haven County, Ct.

Headaches Mean Your Blood Is Poisoned

If your bowels, kidneys or skin are not ridding the system of waste matter, the blood is laden with impurities, which inflame the nerves. It is these irritated nerves that make the head ache. Powders and pills won't cure, they merely drug the nerves into unconsciousness and relieve for a short time.

"Fruit-a-lives" cure Headaches, Neuralgia and Nerve Pains

because they purify the blood. They act directly on the three great eliminating organs—Bowels, Kidneys and Skin—and restore them to healthy action, thus ridding the system of all poisons. "Fruit-a-lives" are fruit juices—naturally changed, by the process of combining them, into a far more active medicinal compound than natural juices. See a box for full particulars. Price, a box \$2.50. At all dealers or direct from Fruit-a-lives Limited, Ottawa.

RUSSIAN RAILROAD WORK

At a recent meeting of the Russian Council of Ministers it was resolved that a second line of rail be laid down along the Siberian railway. The great need of the track is being doubled but, in view of the many calls for aid made on the imperial treasury, it was decided that the projected work for this year shall be carried out only between Achinsk and Irkutsk. The ministry of ways of communication asked for the sum of 42,000,000, so that the work can be begun, but the Council of Ministers made a grant of only 42,500,000.—Engineer.

MINARD'S LINIMENT CO., LIMITED

Gentlemen,—In June, '98, I had my hand and wrist bitten and badly mangled by a vicious horse. I suffered greatly for several days and the tooth cuts refused to heal until your agent gave me a bottle of MINARD'S LINIMENT, which I began using. The effect was magical; in five hours the pain had ceased and in two weeks the wounds had completely healed and my hand and arm were as well as ever. Yours truly, A. E. ROY, Carriage Maker.

ADULTERATED FLOUR IN FRANCE

As the result of an investigation several millers and flour dealers in France have been arrested for mixing foreign flour with flour. A wealthy miller and an itinerant dealer have been prosecuted, the former receiving a sentence of a year's imprisonment and \$100 fine, the latter three months' imprisonment and a similar fine. The man who furnished the samples indicated that it could be mixed in flour in the proportion of 2 to 5 per cent.

MEDICAL GATHERING

The second meeting of the Medical Society of Annapolis and Kings County was organized in Middleburg, in June last—was held in Berwick on Friday, August 2nd, and a most interesting and every way successful meeting was held. Instructive papers were read by Drs. DeWitt, of Wolfville, Springfield, Middleton, Morse, of Lawrencetown, and Birt, of Berwick.

A very hearty reception and lunch was given the visiting members by those resident in Berwick. After the meeting a sumptuous dinner was enjoyed at the Hotel Berwick. The officers present were: Dr. G. E. DeWitt, President; Dr. Balfour, Alexander, and Dr. Spongole, Middleton; Vice-Presidents, Dr. W. F. Reid; Secretary-Treasurer, Dr. J. B. March, Berwick, and Dr. L. R. Morse, Lawrencetown, members of Executive Committee.

Other members present were Drs. W. B. Moorehead, W. S. Woodworth, Kentville; Payzant, Wolfville; J. A. Morse, Port Williams; Covert, Cambridge; Kilian Woodville, Burns, Bridgetown; and Birt and S. E. Shaw, Berwick. Drs. X. L. Anthony, of Stockert, Montana, and H. M. Shaw, of Ashland, Oregon, were present and were elected honorary members. The next meeting will be held in Bridgetown, in January, 1908.

Public Interests Demand That the Titanic Struggle be Brought to an End.

St. Antonio, P. Q. Spynley, Aug. 8.—The two giant corporations on whose success the industrial development of Eastern Nova Scotia, in no small measure depends still face each other in battle array. After nine days of taking evidence the Steel Company today closed its case and tomorrow at 2:30 p. m., E. M. Macdonald, K. C., will open the defence on behalf of the Coal Company.

So far the case of the Steel Company seems to be that the Number Six coal furnished is not fit for the purpose of making coke. Experts have been produced some of whom stated that coal containing sulphur in excess of one per cent could not be used for cooking at all, while Mr. Jones deposed that he could use coal provided it did not contain more than one and three quarters per cent of sulphur.

The whole tendency of the evidence was to discredit Nova Scotia Coal wherever mined. The Coal people threaten retaliation, and the spectacle may be presented of each side trying to kill the product of the other. This is greatly to be regretted; inasmuch as the prosperity of this part of Nova Scotia is entirely dependent on these two large industries. Together they employ approximately 12,000 men and yearly expend five or six million dollars in wages.

It is not wanting that public sentiment is strongly in favor of a settlement and, as the Coal Company is operating mines as lessees, which are the property of the people of Nova Scotia, while the Steel Company each year is in receipt of large sums of money both from the Provincial and Federal Governments in the shape of bounties and drawbacks the public have a right to interfere.

So far it is difficult to locate the responsibility for the continuance of the fight. There are those who say that Mr. Jones and Mr. Plummer are adverse to settlement, on any terms, while others say that Mr. Ross will never agree to any settlement which involves a continuance of the old contract. Mediation has been attempted on no less than two occasions, by men whose intervention should never have been accepted by both parties, but so far without result.

Premier Murray sometime ago intervened both Mr. Plummer and Mr. Ross, but what occurred is unknown but it is presumed that Premier Murray thought the psychological moment had not arrived, for he gave it was to discredit Nova Scotia Coal well earned holiday. It is said that he intends to return when the Coal Company has had its innings and make another effort to reconcile the warring factions.—Chronicle.

WORKING WITHOUT WORKING.

A Habit All Brain Workers Should Cultivate to Save Their Strength. (Lippincott's Magazine). The man who can do hard and effective brain work during the day and then go home, banish his cares, and take his ease, is a man to be envied. He is all too scarce. Witness the increase of the men who meet who are prematurely gray or bald or wrinkled. The man without a wrinkle is either a man without a care or a man who has mastered the secret of working without working.

The late Chancellor Ruyson, of New Jersey, one of the hardest worked men that ever sat on the bench of that State, was noted for the number of important cases he tried and the strong and permanent character of the decisions he rendered. Late every afternoon he went home and at once changed his shoes for a pair of comfortable old slippers. In referring to his habit the Chancellor was accustomed to remark:

"When I come home and take off my shoes, I at the same time take off all my cares and worries. When I put on my slippers I slip on also a feeling of ease and comfort. I banish from my mind the cases that absorb me all day at the office or in the courtroom. I am ready to enjoy my library, to play a game of whist, or to entertain company, as the case may be."

That is where all the work-hardened men would like to get. It is purely a personal matter. The will must come in to assist the habit. Unless a man has abused his digestive functions and upset the nervous system, he can, in most instances, acquire what has been called the will habit. When he had learned to go to sleep, and wants to go to sleep, to get the rest a sound sleep affords, he has won half the battle. With a reasonable amount of exercise to add to the sleep, the problem of working the brain and banishing the worry has been very largely solved. Not many visits from physicians, nor much medicine, will be required. The man will have become his own specialist.

WEDNESDAY, AUGUST 14, 1907.

The Western fever, which has raged more or less intermittently the past few years, appears to be abating somewhat. While many of the voyagers will always find "fresh fields and pastures new" alluring, the more mature are becoming observant, of the many returned wanderers who, after a trial of the West, conclude the old home is best after all.

The usual demand for western laborers to harvest the western crop is not unabated this fall, but never was there a better demand for laborers to harvest the home crops, and the man staying at home will put as much money in his pocket and save the price of his ticket.

SEALED TENDERS addressed to the undersigned, and endorsed "Tender for Supplying Coal for the Dominion Buildings," will be received at this office until Thursday, September 3, 1907, inclusive.

Combined specification and form of tender can be obtained on application at this office.

Persons tendering are notified that tenders will not be considered unless made on the printed form supplied, and signed with their actual signatures.

Each tender must be accompanied by an accepted cheque on a chartered bank, made payable to the order of the Honourable the Minister of Public Works, equal to ten per cent (10 p. c.) of the amount of the tender, which will be forfeited if the person tendering declines to enter into a contract when called upon to do so, or if he fails to complete the work contracted for.

The Department does not bind itself to accept the lowest or any tender.

ENGLISH APPLE CROP WILL BE A SHORT ONE. British fruit buyers are gradually adopting the method of purchasing fruit by weight instead of by measure, and this, says Mr. Jackson, Canadian Agent at Leeds, in his report to the Department, will be to the benefit of Canadian shippers, as apples from this country are heavier in proportion to bulk, than are those imported from other countries.

LOWE-WALKER.

On August the 1st, Harry W. Lowe, of Clementsport, son of Mr. and Mrs. John Lowe, formerly keepers of the Alms House, Bridgetown, was married to Miss Annie Walker, daughter of Captain Andrew Walker, of the same place. The ceremony was performed by the Rev. William McNeil, of Annapolis Royal, pastor of the Methodist Church, where the happy couple were married.

On their return a delightful reception was given at the home of the grooms. The bride looked charming and the groom happy. They were the recipients of a number of handsome and useful presents given by their many friends. After enjoying a very pleasant evening and wishing the happy couple success in their married life, the reception terminated, truly enjoyed by all.

Obituary.

WALTER HEALEY.

At Outram, on August 5th, there passed to his eternal rest Mr. Walter Healey, at the ripe age of eighty-one years, leaving a wife and eight children to mourn the loss of a kind husband and loving father, besides a host of friends. Fifty-six years ago, Mr. Healey was baptized by the Rev. William Ridout, and from that time he has ever been found at his post in God's house. He was ever ready in all good work to use his money freely and liberally toward the support of the Gospel. His family are all settled in homes of their own. Gilbert, son of Mr. Healey, Charles in Halifax, and Alfred M., who owns and occupies the homestead, are the sons. Mrs. William Hall, of St. Croix, Mrs. Charles Brown, of Lynn, Mrs. Eljah Ritten, of Hampton, and Mrs. James Bragg, of Digby, are the daughters. The family have the true sympathy of all in their bereavement.—COM.

MRS. DELANCY HARRIS.

The death occurred at her home, Granville Street, on Wednesday night last of Mrs. Delancy Harris, for many years a well-known resident of our town.

Mrs. Harris had passed her three score years and ten and had outlived all her immediate family, her husband having predeceased her eight years ago. She had no children but a number of Mr. Harris' children are living.

Of a retiring disposition Mrs. Harris' circle of friends was not extended at those who knew her best appreciated her true worth.

During her illness, which covered a period of some months, she was attended by Miss Edith Crosskill.

Among her bequests was \$300 to the Church of England and \$500 to Providence Methodist Church, having been an attendant at the services of both churches.

The funeral was held from her late residence on Saturday afternoon and was conducted by Rev. E. Underwood G. F. Johnson and C. Jost.

HOW TO TEST FLOUR.

How to know when food stuffs are "good," is a puzzle that faces the inexperienced housekeeper at every turn. From market to butcher, from butcher to grocer, the same perplexity awaits her, but she can escape many mistakes by keeping a pad to jot down things she has proved, and has reason to know will be good.

Good flour should be creamy, not dead white, nor yet have that bluish cast that some flours have. It should not feel damp, sticky nor clammy. It should not form into lumps when pressed in the hand; it should have some elasticity, some "life," as the millers express it. When made into dough it will be elastic, easy to knead, staying in round, pliable shape with a springiness that is quite noticeable.

Ontario fall wheat flour, with its rich, mellow flavor, provides that beautiful brown crust in well made bread. Manitoba flour provides the gluten. The two combined and blended in just the right proportions, give the good qualities of both, with their faults eliminated.

This Blended Flour stands every test. It has already gained a deservedly popular place in the esteem of good housekeepers, and in fact they declare the Blended Flour is far ahead of any other that can be bought today.

The best way to assure yourself of the quality of flour is to buy a little and try it. You will save yourself some trouble, however, if you begin by using Blended Flour, then you won't want to use any other. Blended Flour is certainly best for bread, and best for pastry.

R. F. Connell, who suffered serious injuries by being thrown from his wagon two weeks ago, is able to resume his work.

In addition to the successful B's mentioned in last week's Monitor, Rhoda Bent obtained 489 marks and Charles Parker 454.

The subjects of the sermons in the Baptist Church next Sunday, August 18, will be morning—"Jesus' estimate of man"; evening—"The old versus the new man."

The annual shoot of the Provincial teams takes place at Bedford this week. The Bridgetown Rifle Club is represented by F. L. Milner, B. M. Williams, J. L. Foster, Hon. Bishop L. C. Barry, H. L. Bastin, H. W. Cann, H. Lister and H. L. Fleming.

Col. LeCain, Capt. F. W. Bishop, Lieut. E. C. Schaffner, Capt. J. H. Charlton, Lieut. H. Carter, Capt. G. B. Yocum, Capt. J. E. Morse, Sergt. Major E. Saunders, Sergt. Major N. Daniels, of the 60th regiment, are attending the rifle shoot at Bedford.

L. W. Archibald, wife and child, of Charlottetown, P. E. I., spent Sunday in town, among friends. Mr. Archibald was formerly secretary of the Y. M. C. A. in town and now holds a similar position in Charlottetown.

D. G. Harlowe returned from England Saturday on the Allan liner, Victoria, after a most successful business trip in the interests of his firm. Mr. Harlowe intimates that information of special interest to the farmers of Annapolis County will be given later.

Steamer George L., Captain Lewis, of Digby, brought a party of over one hundred tourists to Bridgetown on Monday. Captain Lewis says that excursions on the river are very popular this summer. His steamer is now chartered every day for the next month.

The annual meeting of the People's Fish and Game Association, was held in Dartmouth, on Aug. 8th, with a good representation. F. D. Boughey, of Annapolis, is the next president; G. W. Stuart, Truro, 1st, vice-president; O. A. Nickerson, Yarmouth, 2nd vice-president, and Rev. D. Hemmison, Halifax, secretary. The February meeting will be held in Yarmouth.

A conservative picnic for Western Nova Scotia is to be held at Middleton on Saturday, August 24th. The speakers are to be R. L. Bowden, M. P., Hon. George E. Foster, J. G. H. Bergerson, M. P., and F. W. Hanwright. Trains will be run to Lunenburg, Digby and Wolfville. The Bridgewater band is expected. A base ball match is being arranged and the ladies of the town are preparing a tea meeting for that day.

The members of the Bridgetown Quadrille Club gave one of their popular dances Monday evening in Ruggles Block. About forty guests were present. The ladies were all very prettily gowned, and the delightful time was spent by all. Music was furnished by an orchestra from the Bridgetown Boys' Band and is deserving of special mention. This was their first appearance, and the music was far above the average. Our boys have talent, help them along.

One of the latest building additions to our town is the handsome residence erected by J. Harry Hicks. It presents an imposing and handsome appearance, being built on the American suburban home plan, and with its wide verandah and large pillared windows it suggests a sense of comfort. The rooms are particularly well arranged. Besides the large and airy, and nearly all equipped with folding doors. The halls are finished in native oak. The finish is now in the hands of A. R. Bishop, painter, and it is expected that the work will be completed before the end of the month.

Kentville, Wolfville, Middleton and Annapolis were the Valley towns honored by a visit from the Governor-General and his party while en route from Halifax to St. John. No doubt an invitation from Bridgetown which has attractions equal or superior to some of these towns would have been honored by an acceptance, but none was extended. The view-ogal party passed through Bridgetown on Monday afternoon from Middleton arriving at Annapolis at 6 o'clock. After a drive about the town and garrison, the view-ogal party, the town council and a select few of the townspeople were entertained at Mayer Owen's, and later in the evening proceeded to Digby, where they embarked for St. John next morning.

While a party of American tourists were in bathing in the beautiful waters of St. Mary's Bay, near Speich's wharf, Barton, on Thursday, the 1st inst., Mrs. Dodge, of Brockton, Mass., walked out into deep water and had a narrow escape from being drowned. Her companions ran for assistance. Mr. Charles R. MacDonald, of New York, aged 64, leaped into the cold water and rescued her just in time. Mr. MacDonald had not been out swimming for many years and risked his life to save the lady from a watery grave. She was indeed very grateful and her companions think that the New York gentleman should receive proper recognition from some government or at least a Carnegie Medal.—Courier.

WITTY ANSWERS.

Many a loud and telling rebuke are laid to the account of Douglas Jerrold. It will suffice to recall one. "What's going on?" said a bore, stopping Jerrold on the street. "I am," and the speaker suited the action to the word. Akin to this was the answer of John Wesley to the blustering swaggerer who pushed against him on the path, with the insulting remark, "I never make way for a fool." "Always do," said Wesley, quietly stepping aside, and then placidly pursuing his way. A similar anecdote is told of Lord Kitchener of Khartoum, who, while walking in St. James Park, was accosted by an effusive stranger, who grasped his hand and said: "Hello, Lord Kitchener! I bet you don't know me!" The general gazed at him unmoved. "You win," he remarked, laconically, and walked on. The Misses Ethel Boynton and Mary Lawrence, of East Jeffrey, N. H., and Miss Ada Howe, of St. John, have been guests at Pleasant View Farm recently. Mrs. Gertrude Shaw, of Waltham, Mass., spent a few days here with her father, Captain William Somerville, of the tern schooner Charlevoix during the past week. William R. Rice moved into his new quarters last week. This store is neat and attractive, it being the first one in town to have a mosaic ceiling. The walls are sheathed and finished in oil, and two large plate glass windows and a plate glass door adorn the front, making it light and airy, and one of the best business stands in town.

MORGANNILLE.

Miss Jessie Sargent, of East Jeffrey N. H., who has been visiting Miss Jessie Harris, has returned home. Miss Eleanor Brouton, of Jamaica Plains, Mass., is visiting her friend, Miss Minnie Morgan. Mrs. Clarence Morgan and daughter, Hazel, have returned home from Digby, where they have been visiting friends. Miss Jessie Harris is visiting her sister, Mrs. Heber McNeil, North Range. Misses Eva Harris and Ethel Morgan have been spending a few days at Bear River. About twenty-five of our young people enjoyed a drive to the house of Christopher Harris, one day recently. An enjoyable day was spent by all.

Ham, of Dorchester, Mass., and Mrs. Mabel Warring, St. John, are guests of Mrs. C. H. Martell. Mrs. Norman Frazer and two children are guests of Mrs. Valentine Long. Rev. Ira and Mrs. Baird are guests of Mrs. R. Dukeshire.

"I had Chamberlain's Colic, Cholera and Diarrhoea Remedy to be the best remedy in the world," says Mr. C. L. Carter, of Skrum, Ala. "I am subject to colic and diarrhoea. Last spring it seemed as though I would die, and I think I would have done so had I not had Chamberlain's Colic, Cholera and Diarrhoea Remedy. I haven't been troubled with it since until this week, when I had a very severe attack of both. I took a bottle of the twenty-five cent size Chamberlain's Colic, Cholera and Diarrhoea Remedy, and this morning I feel like a new man." For sale by W. A. WARREN.

WEDDING RECEPTION.

(Lowell, Mass., paper.) Mr. and Mrs. Oal Samuel Young, who have recently returned from a pleasant trip, were given a very delightful reception last evening at the home of their parents, Mr. and Mrs. Charles M. Young, in Stevens street. The affair lasted from 8 o'clock until after 10, and there were friends and relatives present to wish Mr. and Mrs. Young success. The tables were prettily decorated, and the receiving couple stood under a canopy of green. All of the presents were in evidence, and they were numerous and very handsome. The brides were Miss Bessie I. Moores, a sister of the bride, who was formerly Miss Ora Pauline Moores, and Miss Mima M. Veinot. Miss Jessie Frost and Miss Grace Longmore received, and Miss Ethel Noyes, Miss Lizzie Shepard and Miss Della Baker served. Among those present from out-of-town were Mr. and Mrs. Frank M. Stiver from Brockton, Mrs. Herman Hodgson and son from Haverhill, Mrs. George Donald from Wakefield, and Mr. and Mrs. Lou Pecker from Wakefield.

MRS. ALDRICH CAMERON.

Mrs. Aldrich Cameron recently passed away Wednesday p. m., July 31st. The change came suddenly. She was out in her hammock the day before as usual. Soon after retiring Tuesday night she found oppression in breathing, suffering extremely for twelve hours. Shortly before the end came, she was relieved and after leaving some love messages, sweetly closed her eyes to enter her mansion "incorruptible, undefiled, that fadeeth not away" to behold her Saviour face to face. Mrs. Cameron was in Maine, not able to reach home until Friday p. m. His three brothers from the United States came Saturday. The funeral service conducted by Pastor Martell, assisted by Rev. J. A. Corbett, was at the residence of Alex. Millett, Clements vale where Mrs. Cameron spent the last weeks of her life. Two solos, "Face to face," by Herbert Johnson and "There is a land mine eye hath seen" sung by Mrs. Clara Corbett, Jamaica Plains, were much appreciated by all. Mrs. Corbett sings with great expression and has been cultured voice under perfect control. Much sympathy is felt for Mr. Cameron in his bereavement. He and his wife will long be remembered in this place by the good they have done.

WILLIE'S THOUGHTFULNESS.

This story is well in keeping with the spirit of the age. A Bronx man tells it about his little boy. The neighbor's young hospital was very ill, and Willie and the other youngsters in the block had been asked not to make any noise in the streets. The neighbor's door bell rang one day and she opened it to find Willie standing bashfully on her front steps.

"How is he today?" he inquired in a shy whisper.

"He's better, thank you, dear, and what a thoughtful child you are to come and ask."

Willie stood a moment on one foot and then burst forth again: "I'm orful sorry Jimmy's sick."

The mother was profoundly touched. She could find no further words to say, but simply kissed him. Made still lovelier by the caress, Willie began to back down the steps, repeating at intervals his sorrow for his playmate's illness. At the bottom step he halted and looked up. "If Jimmy should die," he asked, "kin I have his drum?"

WAYS OF SCOTCH JUSTICE.

One often hears comments passed upon the administration of the law by local magistrates. But while it may sometimes leave a little to be desired it is not so glaringly crude as it often was in earlier times.

It is on record that the Montrose bailie, after hearing the evidence in a breach of the peace case, fined both the accused and all the witnesses "half a crown."

The witnesses naturally resented this decision, but the bailie, with his mind made up, refused to budge from the position he had taken up, and declared it with the remark:

"It disna matter, he had na business there. Half a crown apiece."

The same bailie was trying another case in which a difficulty arose regarding the non-appearance of a witness. The court was informed that the witness was delinquent. The magistrate, who was a self-made and highly successful business man, and who had gained elevation to the bench solely on account of his command of "siller," had never heard that particular form applied to death, and, thinking it was a legal phrase, bawled out in commanding tones: "Bring forth the delinquent!" which brought down the house—Dundee Advertiser.

HEARTS OR CLUBS.

(From the Canadian Courier)

A certain Miss Brown, of New York, had entered upon social settlement work, with a sympathetic heart towards sufferers in the slums. A woman of this district had been sadly harrowed by her drunken husband and had been taken to the hospital, where she was commiserated by several visitors. On her recovery she went to the settlement house to thank Miss Brown for her interest in the case. Finally she asked the lady: "Ain't you married?"

"No!" was the cheerful reply.

"See," remarked the beauteous one, regarding the spinster with pity from eyes that were still purple and black, "it must be fiero to be an old maid."

"Did you not tell me," the countess whispered, "that your father had an automobile factory?"

"Yes," said the belle of Altoona, "and a motorcycle plant, and twelve dozen repair shops."

"Oh!" he cried passionately, "and you can still doubt my love?"

Pat—What he yer charges for funeral notice in your paper?

Dear Friends in the Puzzle Corner: I think both boys and girls enjoy summer parties. Let me describe a party I was invited to last summer.

It being after school had begun we were excused early and marched two, and two to the house where the party was held.

After reaching our journey's end we all gathered on the lawn and enjoyed a jolly game of "ring," after which many games followed and at last tea was served and each and every one went home very happy.

I must not make my letter too long and tiresome or you will not wish me to write to you again.

1906, Letter "A", No. 1231.

**Supreme Court of Nova Scotia**

Between FRANK LEOPOLD MELNER, Plaintiff and Wilbert Budd Hicks, Defendant

To be sold at public auction by the Sheriff of the County of Annapolis his deputy on Tuesday, the 23rd day of September, 1907, at the hour of ten o'clock in the forenoon, at the Court House in Bridgetown, in the said county of Annapolis:

All the estate, right title, interest, claim and demand which the above named defendant had at the time the judgment recovered against him in this action by the above named plaintiff was registered in the registry of deeds for the registration district of the county of Annapolis, in, to, or upon, the several parcels of land situated and being at Centreville, in the said county of Annapolis, and bounded and described as follows, that is to say:

First—Commencing at a point where the west line of lands owned by John A. Stephens touches the south side of the Main Annapolis Highway, thence following the said west line of John A. Stephens south and south-westerly until it strikes the west line of land formerly owned by John Edgar Bruce, thence following said Bruce's west line until it strikes the Hooper Brook so called, thence turning and running westerly along the said Hooper Brook until it strikes the said Wallace Bruce lot, thence following the east line of the said Wallace Bruce lot to the said Main Annapolis Highway, thence turning and following the south side of the Main Annapolis Highway to the place of beginning, in all twelve acres more or less.

Second—Commencing at a stake or post in the Main Annapolis Highway on the division line between lands of the said Wilbert B. Hicks and Sarah Wilson and running northwesterly on said division line to the Bruce Creek so called, thence turning and running northerly along the centre of the said Bruce Creek to a stake or post which it comes to lands of John A. **Bread or Pastry.**

Beaver Flour is the best for Pastry—just as it is best for Bread.

Is both a "Spring Wheat" and a "Winter Wheat" Flour. It is a blend of Manitoba Spring Wheat in just the exact proportions of each to make the whitest, most nutritious Bread—and the lightest, most inviting, most toothsome Cake, Pie and Pastry. Economical, to say the least.

Dealers, write for prices on all kinds of Fresh, Canned Grains and Cereals. T. H. Taylor Co., Limited, Chatham, Ont.

Everywhere in the country, that intelligent dairy proprietors have been appointed to visit dairy farms and instruct the farmers how to produce better milk, there has been shown at once a great improvement of the product. This shows clearly what a great need there is for a better education among farmers. A great many men do not seem to have the force and energy of character, sufficient to get that education by reading their papers. But when a wise and tactful inspector comes along they will listen and learn.
