Another Wreck Off Cape Sable

STEAMER BOUND FROM ANTWERP TO NEW YORK, BURNED TO THE WATER'S EDGE, 15 OF HER CREW BURNED, 38 OTHERS RESCUED.

Battered by tempest and ravaged by fire, the tramp steamer St. Cathbert, bound to New York from Antwerp, was abandoned off Cape Sable, on the coast of Nova Scotia, on Monday afternoon, after her crew had faced grim death for days in fire and storm.

Captain Lewis and thirty-six members of the crew were rescued after a thrilling and desperate battle with mighty waves by the White Star liner Cymric, which stood by the blazing craft for nine hours.

Fifteen of the crew of the St. Cathbert, who took a desperate chance for life, were drowned in an attempt to leaving the burning steamer on Sunday afternoon, the lifeboat having been swamped in the heavy seas which tossed the helpless vessel with her part-striken crew.

This, in short, is the tragic story of one of the most sensational disasters in the annals of North Atlantic navigation.

A Clean Watch

Means good time for years to come. True economy in a time-piece lies in cleanliness. The delicate parts doing indispensable work will soon wear themselves to ruin, destroying their high finish and perfect fit, when running in accumulated dirt and grime.

As a rule, your watch should be cleaned and oiled once a year. We have a complete set of tools and can manufacture any part of a watch movement. My experience is as follows:—Graduate Allen's Watchmakers' School and member of the American Watchmakers' Society, Chicago.

Five years with the American Waltham Watch Factory and ten years at repair work.

WRECK OF A PARROBORO SCHOONER

SOUTHWEST HARBOR, January 21.—Alarm for the safety of the crew of the unknown three masted schooner wrecked on Little Duck Island ledges was relieved last night when a gasolin steamer returned to the scene of the wreck. The life savers were in tow of the steamer and its bold navigators reported that the schooner was the Percy C. of Parrishboro, and that her crew had been picked up by a cutter bound east.

As no previous information had come from a point nearer than eight miles from the wreck, the news was awaited with great interest and the fears of those on shore who thought both crews had been lost were relieved.

The schooner was bound for Parrishboro. The Percy C. sailed from Parrishboro, N. S., Tuesday in command of Captain Hux of Parrishboro.

She ran into the wind storm late Wednesday afternoon and evidently attempted to make this port. As evidence of this her bows were stove in and her fore topmast gone and her hull is rapidly going to pieces.

As the craft was wrecked near the beach at the point of the island, the crew found themselves only about half a mile from Great Duck Island, on which there is a light house. They put off in their boat and succeeded in reaching Great Duck Island. As there were six or seven of them the accommodations were not sufficient to keep them in the night, so most of them found shelter in a fisherman's camp close by. There they remained Wednesday night and some time yesterday were taken off by a steam cutter, whose name was not learned, but which was bound east, probably for St. John.

THE HEROIC WORK OF LIFE-SAVING CREW.

The predicament of the schooner and crew was not known until Thursday afternoon, when it was observed by the crew of the Cranberry Isle life saving station, which has no communication with the shore. At four o'clock they put off in their life boat to cover ten miles in the teeth of a howling nor'easter, with the thermometer hovering around zero. Towing was successful. Arriving at the wreck, which it had been deserted and was doomed.

Then realizing it was too late to return to the station, they proceeded to Great Duck Island, and spent the night in the same camp occupied the previous night by the sailors.

As the wind held strong, they were unable to return to their station to-day either by rowing or sailing, and were forced to remain on the island through the day.

THE LIFE-SAVERS TAKEN IN TOW.
The anxiety of those on shore for their safety was great, and at noon Captain Fred P. Phippen, with two others started away from Little Duck in his sloop, which is fitted with gasoline power, to investigate. They took the ten life-savers in tow and after a well-fought battle with the elements, managed to take them to their station this evening.

There were none the worse for their twenty-six hours' experience of suffering from the cold, but Captain Frank Stanley of the life-saving crew was severely frost-bitten and others affected somewhat.

A Doctor's Statement

Base St. Paul, C.C. Que. March 27th, 1907.
"Dr. T. A. Sloum, Limited, Toronto, Ont., Gentlemen:—

My many thanks for Psychine and Osmolium. I have used them with very great satisfaction both in my own case and in that of my friends. It affords me much pleasure to recommend a remedy which is really good in cases for which it is intended. I am, yours very truly,

DR. ERNEST A. ALLARD.
Doctors recognize that Psychine is one of the very best remedies for all throat, lung and stomach troubles and all run down conditions, from whatever cause. It is the prescription of one of the world's greatest specialists in diseases of the throat, lungs and stomach, and all wasting diseases. Ask your druggist for it, at 50c and 1.00, of T. A. AN OLD FASHIONED BLIZZARD

With the Unusual Accompaniment of Thunder and Lightning—Hospital for Insane at Dartmouth Struck.

Snow, hail, thunder and lightning were the accompaniments of a terrific storm which visited the province on Saturday night, in Bridgetown, the storm commenced early in the evening and continued till after midnight. In Halifax the storm raged for ten hours and shortly after midnight the Nova Scotia Hospital at Mount Hope Dartmouth was struck by lightning and badly damaged. The Herald says:—

"Between one and two o'clock in the morning the wind was blowing at fifty miles an hour, according to the gauge at the Citadel, the city was in total darkness, and a most vivid flash appeared, followed by the greatest roar of thunder that has ever been heard in the history of Halifax. It seemed as if all the thunder storms of years had been rolled in one. It shook buildings of all kinds, houses, and even the police station rocked for a second. Those who were unfortunate enough to be on the street were momentarily blinded by the flash of light, and shocked by the heavy thunder."

The large one hundred and twenty foot chimney which rises away above the Nova Scotia hospital, in Dartmouth, and which is on the east side of that building next to the boiler-house, was the victim of the branks of the wild electricity of the heavens. The terrific clap of thunder which drove consternation to the heart of every citizen in Halifax and Dartmouth, was the echo which followed the straining of the big chimney. This large smoke stack which is reinforced from the top down for about sixty feet, was struck in about the middle, the lower part of the chimney being to this strong case the main part of the structure was not damaged."

The Chronicle states further that:— "It was the worst storm that has swept over the water front for years and the damage to shipping in port and to the wharves will amount to several thousand dollars. Fortunately when the gale broke the tide was low and it had been high the damage would have been much greater. The majority of the vessels at the wharves were laid up and had no persons on board to look after securing them with extra lines in the early stages of the storm, and as a consequence those lying at the south side of the wharves were badly chafed and otherwise damaged by grinding against the piles."

NO REASON FOR SUCH LOW PRICES FOR FRUIT

(Kentville Orchardist.)
There seems to be a feeling among a large number of fruit growers in this county that the present prices returned for fruit shipments are far below what they should be. This idea is confirmed by facts that reach our ear direct from England that in the retail market in most of the fruit centres the people who are purchasing single barrels or small quantities are paying from 84 to 85 per barrel.

The fault of the return of low prices of about one dollar per barrel for fruit may not lie with the commission merchants in Great Britain. They sell in most instances to wholesalers who, when they come to be plenty of fruit for all, would seem to be agreed to pay only a very low figure in the auction chambers, and this would have big profits for themselves in retailing the fruit. Of course when the supply is very limited these wholesalers would naturally bid against each other in order to obtain the fruit they required and thus high prices would obtain.

Last week we were shown a letter from a man prominent in business circles in Liverpool, G. B. He is a native of Nova Scotia but has resided in Liverpool for about twenty years. He has a deep interest in the province and keeps posted on the prices of Nova Scotia fruit. In a letter dated Jan. 10th, he writes from Liverpool to a fruit grower in this county as follows:—"I don't know how your fruit may have realized, but prices for good fruit over here are, and have been a long time, above the average; a good barrel of Nova Scotia apples from the retail dealer costing from 22 to 23 shillings and fancy varieties up to 30 s."

Here is food for reflection for the apple speculator who is losing from one to two dollars per barrel on the fruit he is shipping, as well as for the grower who is not realizing more than half the price he anticipated at the early part of the season. If the consumers in Great Britain are still paying from four to five dollars per barrel for their fruit there should be some plan devised by which growers and consumers should get nearer together and not contribute large sums to keep wholesalers and middlemen.

ATTACK ON HINDOOS AT LIVOAK, CALIFORNIA
British Consul at San Francisco has Requested Governor to Make Full Investigation.

MARYSVILLE, Cal., January 31.—In connection with the attack on seventy Hindoos by a mob at Livock, Butte county, last Sunday, British Consul Henson, at San Francisco, has requested Governor Gillett to make a full investigation of the affair and to cause protection to be given to the Hindoo residents of Livock. Governor Gillett has instructed the district attorney to prepare a comprehensive report for the British government.

"FRUIT-A-TIVES" SAVED HIS LIFE
Mr. Dingwall was Superintendent of St. Andrew's Sunday School in Williams town for nine years and License Commissioner for Glengarry—and Tax Collector for Charlottetown—for fourteen years continuously. Read how strongly Mr. Dingwall comes out in favor of "Fruit-a-tives."

Williams town, Ont., April 25th, 1907.
I have much pleasure in testifying to the almost marvelous benefit I have derived from taking "Fruit-a-tives." I was a life long sufferer from Chronic Constipation and the only medicine I ever secured to me any real good was "Fruit-a-tives." This medicine cured me when everything else failed. Also, last spring, I had a severe attack of bladder trouble with kidney trouble, and "Fruit-a-tives" cured these complaints for me, when the physician attending me had practically given me up. I am now over eighty years of age and I can strongly recommend "Fruit-a-tives" for Chronic Constipation and bladder and kidney trouble. This medicine is mild like fruit, is easy to take, but most effective in action.

Y. M. C. A. Notes.

The Y. M. C. A. entertainment given Monday evening was a marked success. The attendance was good and everything went off well. The senior basket ball game between the Roses and the Mayflowers came off with a score of 7 to 8 in favor of the Roses, while the junior game between the Wizards and Miracles resulted in a score of 1 to 5 in favor of the Wizards.

In the relay race the boys suffered an ignominious defeat by the girls and are vowing vengeance when they race again.

The flag drill, which was rather long and intricate, occupying about ten minutes of marching and counter-marching was splendidly done by the circle, who went through with it without a slip, without the slightest prompting and in perfect time to the music.

The music of our town banders also very much enjoyed, and many favorable comments were heard as to their playing.

The proceeds of the evening were \$11.50 clear of expenses.

A weak Stomach, means weak Stomach nerves, always. And this is also true of the Heart and Kidneys. It's a pity that sick ones continue to drug the Stomach or stimulate the Heart and Kidneys. The weak nerves, not the organs themselves, need this help. This explains why Dr. Shoop's Restora five has, and is promptly helping so many sick ones. It goes direct to the cause of these diseases. Test this vital truth, and see.

CANADIANS SHOULD GUARD THEIR FORESTS

The greatest danger to our forests seems now to come from the making of pulp for newspapers. Already the United States pulp manufacturers have nearly destroyed their own forests, and they are now seizing upon Canadian areas—purchasing them, of course, at good prices, but denuding the land and devastating the forests with the certainty of impoverishing whole townships. In nine months of last year 483,896 cords of pulp wood were sent to the United States from Canada. The yearly export from Canada to the United States is from 800,000 to 1,000,000 cords! Prices are going up rapidly. Spruce and poplar trees are the most in demand. The consumption is continually on the increase. Over 30 states of the union are legislating to check the devastation of their own forests, and devising means of renewing the rain already wrought. It is stated that American companies have secured from 12,000 to 15,000 square miles of spruce forest in Canada to supply the paper mills of Maine and New York. Canada ought very vigilantly to guard her forest treasure and to start new forests wherever possible. Newfoundland has sold large areas to English and American companies. Canadian universities are now beginning to teach and train young men to take charge intelligently of our forest interests. There is no good reason why our woods should not be as carefully tended as the forests of Germany, France, and Scandinavia. The forest, duly guarded, yields its crop of timber every fifteen years, and the crop never fails. Canada should guard her forest wealth as carefully as European peoples do. This much we owe to posterity notwithstanding the devices of all-devouring trusts and syndicates.

DEATH AS THE RESULT OF COLD AND HUNGER.
Man, Who Had Been Searching for Work, Found Famine and Frost Bitten, Subsequently Dies in Hospital.
BOSTON, January 31.—The mercury at midnight last night recorded four degrees above zero. One death was recorded yesterday as a result of the cold. Henry King, who had lost his position at Ashland, Maine, where he was employed in a saw mill, started out to find work, and had reached Newton, where he was overcome by the cold. He was found famished and frost bitten in a Newton cemetery, and was taken to a hospital, where he died late yesterday. He was 22 years old.

Writing By Wire.

The Wonders of the "Telewriter."

Is the telegraph instrument, with its code of dots and dashes, doomed? One may well ask the question after learning about the "telewriter," the latest scientific marvel, by which it is possible to write a message which is produced simultaneously miles away in facsimile writing. This wonderful machine has already been brought to such a state of simplicity and perfection that it is in use in several London offices, and ere long will probably be used as largely as the telephone is today. As a matter of fact, the machine consists of a sender and receiver with telephonic attachments, and it is connected to the ordinary telephone line without interfering in any way with its service. The sending portion of the telewriter is a little table with a roll of paper, on which the message is written with a pencil connected to two arm-like levers, which control the resistances. As the pencil writes the message, the receiver of the instrument at the other end traces the facsimile in ink. The telephone can be used in the ordinary way when wanted, while the simple act of taking up the pencil switches the telewriter into action. The instrument is useful in a hundred ways where the telephone might be undesirable. For example, messages in the sender's own hand-writing can be sent instantaneously to someone without any third party overhearing as is possible in the case of a telephone. A message can be signed, and the signature is just as convincing as if it were the original, while the time which would be taken in sending a messenger is saved, and yet a record of the message can be kept. The chance of bogus messages is thus reduced to a minimum. A remarkable feature of this machine is that sketches and designs can be sent by wire. As soon as the sender's pencil is taken up, the pen of the receiver, miles and miles away, comes out of the ink, moving as if by magic traces exactly what is written or drawn at the other end. Amongst other things it is proposed to use the telewriter for advertising purposes, and ere long we may expect to see writing without hands being done in shop windows in order to attract the passer-by.

My case was a most difficult one, and the doctors had practically said that I could not get well. Fatal Accident at Windsor.
WINDSOR, January 30.—A dreadful accident occurred in Dun and Allen's saw mill, near Doddridge station, on the Midland railway, yesterday, in which William Reader, son-in-law of John Turpie, lost his life. Mr. Reader was spiking boards away from the big saw, and as the carriage was being drawn back the dog in some way crossed the log and before anything could be done, was literally cut in two. Mr. Reader was an Englishman by birth, about forty years of age and leaves a wife and three small children.

CHAMBERLAIN TO GO ABOARD.
LONDON, January 27.—Joseph Chamberlain arrived in town yesterday to be in touch with his political friends at the opening of parliament. Although the improvement in his health continues, Mr. Chamberlain has no intention of taking his seat in the commons at the present session. He will make a trip on the continent soon.

BERLIN, January 29.—The government's annual programme, embracing estimates of expenditures of more than \$100,000,000 annually for ten years, passed to the second reading in the reichstag yesterday, only the Socialists and Poles opposing it. Her Bebel, the Socialist leader, while asserting that the upper classes alone demanded fresh armaments, for which the masses were compelled to pay, pointed out the dangers of continued increases in sea power. He said that every fresh proposal to increase the German fleet undoubtedly was aimed solely at Great Britain, who had determined to maintain her mastery of the seas. She might one day come to the conclusion like Japan did in 1904, that "if I don't strike now I'm lost." Admiral Von Tirpitz, secretary of the admiralty, replied, that he absolutely was unable to conceive how the German fleet proposition could excite Great Britain. "We are building against no one," he said, "and have no occasion for doing so. As to Great Britain, I do not know where German and British interests clash in such a manner as to call forth an appeal to arms."

SALEM, January 21.—An indictment of 123 counts was returned today against Speaker John N. Cole, of the Massachusetts house of representatives by the Essex county jury, charging him with soliciting reduced fares on the Boston and Maine railroad at different times for school children in violation of the public statutes. The penalty for each offense is a fine of not less than \$100 nor more than \$1000. Chapter 111, sections 2, 3 and 4, of the revised statutes prohibits certain public officers, including members of the state legislature from soliciting for themselves or any one else, free passes or reduced fares on any railroad. Notices of the indictment was sent to Speaker Cole at the state house this afternoon, where he presided at the regular session of the house, and it pointed out that he will be arraigned before Judge Brown in the superior court to-morrow morning.

Freight Blockade

Without a Parallel

CHICAGO, January 30.—A special meeting of the American Railway association has been called for Chicago, February 7, for the purpose of adopting measures to stop the tremendous loss occasioned by the present movement of empty cars on the railroads of the country. It is the first special meeting in the history of the association and the emergency is regarded as great. It is stated that since the falling off in traffic began several million dollars have been wasted by the railroads in their efforts to send the empty cars of other railroads home and thereby escape the penalty of fifty cents a day for the use of a foreign car. This penalty was imposed by the association less than one year ago to accomplish the very thing which the railroads are now anxious to stop. At the time that the fifty cent penalty was imposed, however the railroads were more than 150,000 cars short of the desired to insure the speedy return of freight equipment to the road owning the cars and prevent roads which were short of equipment from retaining and using empty cars being hurried to the owners or home roads. This movement costs an immense amount of money and the railroads have come to the conclusion that it would be better to permit the cars to remain where they are until they are needed. It is therefore proposed to suspend the operation of the per diem rules, beginning March 1, and continuing until the situation again demands a penalty. Railroad men declare that the present situation has never had a parallel.

Conspirators at Lisbon.

LISBON, January 31.—For the purpose of escaping the censorship, the following dispatch is sent to the frontier for transmission:—
Lisbon is outwardly calm, but there is a steady increase of nervousness and excitement among all classes of the people owing to the rumors of plot and counter-plot and the persistent activity of the police, who daily and nightly examine the houses of suspects and make arrests. On the night of January 28, there was a bloody fight in a small restaurant on the outskirts of Lisbon. Suspecting the presence of a crew of conspirators, the police surrounded and raided the restaurant. The authorities were right in their surmise, and they found the plotters armed with revolvers. The plotters were not by a volley of bullets and one of them was killed and four were wounded. The conspirators managed to keep the guardians of law and order at bay until they made good their escape. Later the same night a score of suspected agitators were arrested and imprisoned in one of the fortresses. Several of the leaders of the parties, including Deputy Alameda, Deputy Claret and Viscount Viçosa, have been thrown into prison. The house of Senator, another of the dissent leaders, is under constant police surveillance.

Winter still And plenty of it

The regular monthly meeting of the Town Council took place last evening.

Steamer Boston has relieved the Prince Rupert on the Bay route.

The choir of the Methodist church is preparing for a Service of Song to be held on Saturday evening, 16th, inst.

The Middleton Outlook says:—The efforts to open an out-door rink have been abandoned. The weather has been most unfavorable for the scheme.

Digby despatches report much damage to shipping and wharves, during Saturday night's storm. Some damage is also reported on the Bay of Fundy coast.

The handometer calendar that has come to our notice this season is that presented by Mr. J. W. Beckwith. It is a fine engraving of Windsor Castle with the Thames in the foreground.

Those who were waiting for snow in order to replenish their woodpiles, should hasten to take advantage of it. Our winter is full of surprises, and it is uncertain what a night may bring forth.

There is an unusual amount of illness about town at present. Several of our residents have been suffering from severe attacks of la grippe and a number of children and one or two adults are afflicted with chicken-pox.

The annual meeting of the Carleton's Corner water district was held last evening. The usual business was transacted and the following commission were appointed for the present year:—Jas. Quirk Oliver Ruffee and Henry Fredericks.

Rev. J. B. Woodland, at one time pastor of Temple Baptist Church Yarmouth and more recently stationed at Shelburne and Lockport, has purchased the Leader, a weekly newspaper published at Parrsboro, and will conduct it along independent lines.

All members of Court Bridgetown, I. O. F. No. 3360 are requested to meet at their Hall this (Wednesday) evening for the purpose of arranging for the funeral of Bro. John MacLean on Thursday afternoon.

The steam ferry service between Annapolis Royal and Granville, which was suspended for a time, has been resumed under a year's contract with the municipality. The hours will be as formerly—leaving Annapolis on the four and half hour between 8 a. m. and 7 p. m. in winter and 7 a. m. and 6 p. m. in summer.

The many friends of the Rev. and Mrs. Reeks, of Round Hill, will regret to learn that there is now no hope of Mrs. Reeks' recovery. It will be remembered that she was badly burned by the upsetting of a lamp some four months ago. A great deal of skin-grafting had to be done and this promised well, but about two weeks ago signs of collapse became evident, since which she has been gradually growing weaker until the end of last week she became unconscious, in which state she still remains at time of writing.

Just as we go to press, we learn of the death of Mrs. Reeks. The funeral will take place on Friday.

In the Monitor's write-up of the houses constructed in Bridgetown during the past season it was inadvertently in error in crediting Mr. John Brown of Lawrenceton, with the building of the double dwelling constructed for Mr. A. D. Brown and Mrs. Lockett. Circumstances prevented Mr. Brown from undertaking the work, as was expected, and the building was done under the supervision of Mr. Major Stocum, who is one of Bridgetown's best artisans, and whose work in this instance does him high credit.

The Digby Courier says:—Mr. R. E. Felton, of Lawrenceton, has a rare piece of horse flesh in his colt "Brenton King." He has a bonafide offer of \$500.00 for him. Brenton King won first prize last fall at the provincial exhibition in Halifax in the standard bred class for two year old stallions. This colt was bred by Capt. L. B. Morton at Morton Lodge stables and was sold to R. E. Felton as a yearling. He was sired by "Kingborough," 2:16 and has Mona Brenton's 2:29 1/2 for his dam. He is seal brown in color and in all other respects is a perfect image of "Brenton" 2:06 1/2, brother of his sire, and at present shows more speed than any colt Mr. Felton ever owned at the same age.

ASK YOURSELF THE QUESTION. Why not use Chamberlain's Pain Balm when you have rheumatism? We feel sure that the result will be prompt and satisfactory. One application relieves the pain, and many have been permanently cured by its use. 25 and 50 cent sizes. For sale by W. A. WARREN, BRIDGETOWN, W. W. WADE AND BEAR RIVER DRUG STORE, BEAR RIVER.

PERSONALS

Mrs. I. B. Freeman leaves today for a short visit to Yarmouth.

Rev. E. O. Read becomes co-pastor of the Baptist church, Middleton.

Mr. Avar Anderson is recovering from a severe cold with a threatened attack of pneumonia.

Mr. Robt. Hoyt, teller of the Bank of N. S., is visiting his sister, Mrs. Davidson of Halifax.

Mrs. Fleming and children, who have been visiting friends in Truro, have returned home. Mr. Fleming also returned from a business trip on Monday.

The many friends of Mrs. W. H. Warren will regret to learn that she has been quite ill for some weeks and is still confined to her bed.

Forward says:—"Our readers will be glad to know that the Grand Division Organizer, Rev. W. H. Warren, expects to start on his work again about end of this week. He expects to touch N. E. Harbor, Cape Negro and Port la Tour, and move from there westward. He says "I am regaining strength rapidly." We sincerely hope he may be able to resist the danger and fatigue incident to the labor and exposure he has to face in the arctic task assigned him. We hope that fraternal sympathy and co-operation will create an atmosphere around and about him in which no chilling influence can abide."

Obituary

JOHN H. MACLEAN.

It was learned with regret and surprise by many of our townspeople yesterday that in the early morning, John MacLean had passed away. Although suffering for several years from an incurable disease, to which a weaker nature would have succumbed, so strong was his will and endurance, that up to a week ago, he continued with the exception of an occasional break of a few weeks to work at his trade, when he was finally unable to leave his bed.

Mr. MacLean learned the business of tanning with the late George Murdoch and has been treated and valued employee with the Bridgetown Larrigan Company ever since the business was first started here. He had many warm friends among his fellow employees as well as among the citizens of the town, and was a member of the Masonic Lodge and of the Order of Foresters.

Mr. MacLean is survived by a wife and four children, of whom three of the latter, Harry, Alice and Arthur are in the States, while one son, Joseph, resides at home. His funeral will be held tomorrow afternoon and will be in charge of the Masonic Lodge.

SAVE MONEY BY BUYING CHAMBERLAIN'S COUGH REMEDY. You will pay just as much for a bottle of Chamberlain's Cough Remedy as for any of the other cough medicines, but you save money by buying it. The saving is in what you get, not what you pay. The sure-cure-you quality is in every bottle of this remedy, and you get good results when you take it. Neglected colds often develop serious conditions, and when you buy a cough medicine you want to be sure are getting one that will cure your cold. Chamberlain's Cough Remedy always cures. Price 25¢ and 50¢ each a bottle. For sale by W. A. WARREN, BRIDGETOWN, W. W. WADE AND BEAR RIVER DRUG STORE, BEAR RIVER.

The storm of last Saturday night was the worst the oldest inhabitant ever saw here.

The recent snow fall has made the hearts of the woolmen happy.

LOWER GRANVILLE.

The great gale of Saturday night did great damage to the smaller wharves and fishing boats along the shores, particularly at Victoria Beach. The tide was unusually high.

We regret to report the death of Mr. John E. Covert, one of our oldest and most respected people. The sad event took place at his residence Karsdale on Saturday, after being confined to his room for four weeks suffering from an internal trouble. Mr. Covert was born at Port Wade, seventy-eight years ago and had always resided in this township. He was an industrious, energetic man, honest and obliging and leaves besides his family a large circle of friends, who deeply sympathize with the bereaved ones. The funeral took place on Monday, Rev. Mr. West officiating, the interment being made in the Baptist Cemetery, Port Wade.

"It was a martyr to nature of the head, throat and stomach. I was so bad the doctors feared consumption. I tried many physicians and medicines. A friend suggested Psychine. I tried it and it was the only thing ever did me any good. I am now perfectly well. It is the greatest remedy the world has ever known. I do not need it for my health now but I use it as a strengthening for my walking matches. I owe much of my physical endurance to Psychine."

JAMES REYNOLDS, Port Hope, Ont. Psychine is the greatest cure for catarrh of the head, throat or stomach in the world. It is a wonderful tonic and strengthening of run down system, acting directly on all the vital organs, giving youthful vigor and strength to the system. At all druggists 50c, and \$1.00 or Dr. T. A.
