THE LOCAL SITUATION

Several problems present themselves for solution to our citizenry and these problems must be dealt with immediately. Our people must throw off that inertness which will take too firm a hold of them if they do not make a bold effort to shake it off. The hitches which have occurred in the matter of incorporation are now at an end. The parties who have delayed this matter by an unfounded protest are to blame for the delay. Their protest at the most was vexatious and frivolous. It however, served the purpose of putting the friends of incorporation to a great deal of trouble and annoyance which should not readily be forgotten. It is better that a new start be made because it will leave no room hereafter for cause or quibble, besides it is in such matters best to be on the safe side so nothing may be ripped up and our little commonwealth put at defiance. Before our town can have a civic head and a council it will be necessary to deal with two or three matters of vital importance affecting the prosperity of the place. A bridge across the Bow river has not only become a necessity but it is positively required in order to retain the trade to the north. Our people are moving in the right direction when they are asking for a grant for this bridge. The arguments in favor of a grant are overwhelming and we cannot see that Dominion Government can refuse to aid a work which is to be constructed across a river connecting two ends of the most important and most traveled trails in the North-west. When Sir Hector Langevin comes here on his official visit which will be in a few days, the delegation which will wait upon him on behalf of the bridge and other matters cannot too strongly impress upon the Minister of Public Works the fact that the work is to connect with a trail that runs to the Mackenzie river in the north and we may say goes to Mexico on the south. The Edmonton trail is one of the most important in the country, and it is absurd to suppose any longer that the people of Edmonton and the north can pay exorbitant ferry rates when they can avoid it even if they have to select another point of debarkation than Calgary. The people of Calgary do not wish to see an important trade diverted just because of high ferry rates. A bridge across the Bow is needed and it is only necessary to work for it to get it. Stress must also be laid upon the necessity of a Court House and Jail here and we hope that this necessity will be shown in a favorable light to Sir Hector. The Dominion Government have done nothing as yet for Calgary, our people are approving them for the first time. They have contributed largely to the Dominion Treasury, and so reasonable a request as the assistance proposed is not likely to be refused. The improvements asked will be of a permanent character and they are absolutely needed. We therefore hope that our people will put forth their best efforts and when Sir Hector Langevin comes here we trust they will surely convince him that the works asked are not luxuries but absolute necessities.

Our distinguished friends in high position in the east who have lately visited us are fond of telling "big Injun" stories. Dr. Sweetland had no sooner got off his Don Quixottisms to the Ottawa papers than Senator Ogilvie is heard from in the columns of Munchausenism and it is like the original. Ever since Senator Ogilvie broke through the Bow river bridge and made his incontinent struggle for the shore he has not been the same man. There may be some logical connection between the fact that the Senator is interested in a ranche and his severe conclusions on this country from an agricultural point of view, but we are pained to see so genial a senator go so much out of his way to do this country injury. What has this part of the country done against Senator Ogilvie?

The narrow gauge traveler still comes and goes. In the space of a few hours he can tell more about the country than the man who has put in his thirty years. It is about time that the visitations of the narrow gauge traveler ceased. The manner in which he galls the eastern reader would be positively refreshing but for the painful circumstance that fiction is not fact. The Manitoba Press while making similar complaints in regard to the misrepresentations that are persistently made about Manitoba, does not hesitate to give ready space to every Munchausen who writes about the North-west and the greater the misrepresentation the more it appears to be welcome.

We can only say that we will second any and all efforts made to secure a burial ground for great purposes. The only cemetery here is the one on the R. C. Mission. Rev. Father Lacombe has more than once kindly allowed interments in one portion of it but this cannot always be expected. As the question of a public cemetery must be dealt with by our town authorities as soon as incorporation takes place we trust that the matter will be referred to the town council as soon as one is elected. We have no doubt that they will take immediate action in the matter as soon as they are in a position to do so.

Mr. J. H. Brock, photographer of Brandon, is here and he has opened in a magnificent view of this locality. Mr. Brock left Brandon on the 15th of May last. He has spent two months in Regina and the balance of the time at other points. We are glad to hear that he has been doing a rushing business.

The Manitoba Free Press not long ago referred to the "sparse" population of the North-west. It now discovers that the country is thickly populated. The Free Press has a convenient vision.

REGINA has been a much abused city. Any one who visits it, however, cannot approve of the abuse. The Regina is a hospitable and enterprising. The city is surrounded by a splendid agricultural country. The prairie, especially where the Government offices and the Fort are located is high and commanding. For the country it is decidedly preferable to the low flat prairie noticeable in south eastern Manitoba.

Mr. J. Nelson, of North Fork says that the crops this year will be splendid. His wheat is nearly four feet high and heavily headed, and he has oatbages which weigh five pounds. The grain will be ripe about the middle of this month. He says that during July it rained nineteen days on the North Fork.

Mr. W. S. Lee, who lives up in the mountains has been experimenting with fruit trees. He planted some last year but they were put in to late and did not come to much. This year he has planted more. His orchard consists of apple trees, walnut, cherry plum and crab-apples; also ash, maple and elms, and gooseberry and raspberry bushes. The fruit trees have grown about twenty-two inches.

This week we drove out to Slide Out, and had a look at some crops there. At the rancho of Messrs. Bell & Patterson we saw some very fine grain. These gentlemen say it is the best they have ever raised there. When it is considered that this grain has been cropped constantly for eight years, it speaks volumes for the soil on Belly River. Mr. Patterson, who visited Ireland last winter, brought some different varieties of seed and is trying them. A small patch of barley sown, averages about six inches long. The oats brought from the old country will scarcely ripen this year as they were put in too late, but they are very fine. There were several varieties of potatoes from the Emerald Isle which are to the common potato. Several hills of common potatoes were dug up at random and showed an average of 17 good sized ones. This much about the western country is going to yield a very bountiful harvest this year. Plenty of water and litter or no water; it proves what could be done in some localities by irrigation.

GENERAL NEWS.
GENERAL.
London, Aug. 11.—The British forces in Egypt, now numbering 8,000 men, will be raised to 10,000, in view of the intention to send an expedition to relieve Gen Gordon at Khartoum.

DEBATE IN THE COMMONS.
In the House of Commons to-day Lord Harrington said it would be impolitic to describe the steps which the government was about to take for the relief of General Gordon. Sir Stafford Northcote moved for an address to the Crown, praying that the House might be informed of the details of Lord Northcote's mission to Egypt. He expressed gratification at the collapse of the Egyptian conference, and said he objected especially to the Anglo-French agreement so much talked of before, the assembling of

the conference. This agreement he characterized as "a most alarming instrument," and professed to have serious doubts whether it was yet dead. The Government might resume it at any moment.

The government has ordered one thousand row boats for the Nile expedition in passing cataraacts. Six thousand men and one thousand tons of coal will be sent to Wady Halfa which will be made the base of operations.

In the Commons to-day Mr. Gladstone said that Lord Northcote was sent to Egypt to make enquiry and advise the Home Government concerning the true position which the Sudan disasters and Egypt's financial troubles had created. Mr. Gladstone reminded the House that he had the Egyptian conference succeed in adopting the French agreement it was entirely dependent on the will of Parliament. The powers to be given to consider the agreement were entirely of a negative and restraining character and had in view the prevention of excessive outlay. The financial troubles of Egypt, the speaker said, had entirely changed the aspect of affairs there.

Paris, August 11.—Barre's French diplomatic agent in Egypt, who has been recalled, views the prospects, returned on August 31. He goes under order to hasten a settlement of the indemnity demanded for losses by Frenchmen by the bombardment of Alexandria.

REGINA has been a much abused city. Any one who visits it, however, cannot approve of the abuse. The Regina is a hospitable and enterprising. The city is surrounded by a splendid agricultural country. The prairie, especially where the Government offices and the Fort are located is high and commanding. For the country it is decidedly preferable to the low flat prairie noticeable in south eastern Manitoba.

Mr. J. Nelson, of North Fork says that the crops this year will be splendid. His wheat is nearly four feet high and heavily headed, and he has oatbages which weigh five pounds. The grain will be ripe about the middle of this month. He says that during July it rained nineteen days on the North Fork.

Mr. W. S. Lee, who lives up in the mountains has been experimenting with fruit trees. He planted some last year but they were put in to late and did not come to much. This year he has planted more. His orchard consists of apple trees, walnut, cherry plum and crab-apples; also ash, maple and elms, and gooseberry and raspberry bushes. The fruit trees have grown about twenty-two inches.

This week we drove out to Slide Out, and had a look at some crops there. At the rancho of Messrs. Bell & Patterson we saw some very fine grain. These gentlemen say it is the best they have ever raised there. When it is considered that this grain has been cropped constantly for eight years, it speaks volumes for the soil on Belly River. Mr. Patterson, who visited Ireland last winter, brought some different varieties of seed and is trying them. A small patch of barley sown, averages about six inches long. The oats brought from the old country will scarcely ripen this year as they were put in too late, but they are very fine. There were several varieties of potatoes from the Emerald Isle which are to the common potato. Several hills of common potatoes were dug up at random and showed an average of 17 good sized ones. This much about the western country is going to yield a very bountiful harvest this year. Plenty of water and litter or no water; it proves what could be done in some localities by irrigation.

GENERAL NEWS.
GENERAL.
London, Aug. 11.—The British forces in Egypt, now numbering 8,000 men, will be raised to 10,000, in view of the intention to send an expedition to relieve Gen Gordon at Khartoum.

DEBATE IN THE COMMONS.
In the House of Commons to-day Lord Harrington said it would be impolitic to describe the steps which the government was about to take for the relief of General Gordon. Sir Stafford Northcote moved for an address to the Crown, praying that the House might be informed of the details of Lord Northcote's mission to Egypt. He expressed gratification at the collapse of the Egyptian conference, and said he objected especially to the Anglo-French agreement so much talked of before, the assembling of

the conference. This agreement he characterized as "a most alarming instrument," and professed to have serious doubts whether it was yet dead. The Government might resume it at any moment.

The government has ordered one thousand row boats for the Nile expedition in passing cataraacts. Six thousand men and one thousand tons of coal will be sent to Wady Halfa which will be made the base of operations.

In the Commons to-day Mr. Gladstone said that Lord Northcote was sent to Egypt to make enquiry and advise the Home Government concerning the true position which the Sudan disasters and Egypt's financial troubles had created. Mr. Gladstone reminded the House that he had the Egyptian conference succeed in adopting the French agreement it was entirely dependent on the will of Parliament. The powers to be given to consider the agreement were entirely of a negative and restraining character and had in view the prevention of excessive outlay. The financial troubles of Egypt, the speaker said, had entirely changed the aspect of affairs there.

Paris, August 11.—Barre's French diplomatic agent in Egypt, who has been recalled, views the prospects, returned on August 31. He goes under order to hasten a settlement of the indemnity demanded for losses by Frenchmen by the bombardment of Alexandria.

Along the Line.

The traveler who has to pass on does not get much of a chance to see Regina. His train arrives during the hours of repose. This is an arrangement of the railroad company and it is not appreciated by Regina, but it is likely to be changed as soon as daily trains run to Calgary. It is late at night when our train pulls up at the Capital Street Chimes inform us that the N.W. Council has adjourned. A private telegram to him, received at one of the stations on route give the information, and it is confirmed upon my arrival. I put up at the Windsor Hotel. Mrs. Kelly, proprietor. The two principal hotels in Regina are the Windsor House and the Palmer House. They are both good hotels, and as I stopped at the former I can recommend it. The traveler can get a good bed at the Windsor. At the Windsor the table d'hôte is perhaps better than anything west of Winnipeg which is saying a good deal. In the Windsor they adopt the capital style—dinner at six, and Mrs. Kelly is very attentive to those who come from a distance. Regina upon inspection is a much larger place than it appears from the car window.

The two chief streets in Regina are broad and long. They run at right angles to each other but the lots like those in Calgary are only 25 feet wide for which we blame Mr. Scarth is to blame. The council building and the Governor's office and Indian Commissioners office are situated north west of the town about a mile distant from the business centre. These buildings are frame and they are situated on the best and highest ground. The C. P. R. people however, located their depot about a mile and a half to the east in a much lower location. Not a single building has been located east or north of it. The electric trolley grove west is showing itself in a marked manner in Regina. Pure cleanliness appears to have actuated some of the railway people in the selection. The Bank of Montreal and the Leader office appear to have struck out for themselves. They are away off on the prairie to the south at least three quarters of a mile from the business centre. The Dominion Land office is another institution that has obeyed this centrifugal tendency. It has struck out for itself in a southerly direction so that Regina is a city of magnificent distances. The Government offices are large and airy. The office of Mr. Hayter Reed, Assistant Indian Commissioner is the first to the left as you enter building. There is a large amount of work connected with this department and it is well and ably managed. Grit papers to the contrary notwithstanding. Mr. Forget, clerk of the council and an assistant was busy engaged in comparing and revising the ordinance with the prairie, and I must again mention the courtesies which he kindly extended to the Nor'wester.

He lives in a neat little cottage close at hand, and he pointed out on the prairie two deer that were lying down about three hundred yards away. They were tame and belong to him and they roam at will not, however, going very far away. One had been wounded a short time before by an enthusiastic sportsman who mistook the pair for wild ones.

A third he had lost by the shot of a sportsman who had made a similar mistake. They return to the house regularly in the evenings and appear to be thoroughly domesticated as any kind of pet. At the kind invitation of the Lt. Governor I paid a visit to his residence and he kindly showed me the garden, in which everything in the vegetable line was growing to perfection. The garden is not large, but everything in it was cooking well. The wheat and corn which are growing on the first sod show that the soil is of excellent quality, though its nature evidently requires that it has to be well worked but it is of inexhaustible depth and of great fertility. The farming of Lt. Governor this year was, however, experimental. The results this year are highly satisfactory, and another reason will witness the farm and on in a systematic way. Lt. Governor Dowdney has some blood stock, including a Black Kentucky stallion which is a noble animal. Regina is to have a fall show this year and Mr. Dowdney expressed the hope that Calgary would be able to send some of the productions of the field and garden a suggestion which I trust our agricultural society will not fail to set upon.

In the bow window of the Lt. Governor's residence is a conservatory which Mrs. Dowdney has under especial care. The vines are healthy and luxuriant especially the grape vine which is looking remarkably well and which next year will bear fruit. The conservatory is occasionally utilized as a ball room. It is a neat little building. The interior is nicely decorated with various military accoutrements. Two immense buffalo heads look down grim and silent on the "many whir" and the circumstance leads to a conversation upon the disappearance of the buffalo from our North west. He has disappeared for ever, and even in a few years his bones will be as much of a curiosity as the relics of the historical east. Lt. Governor drove me to the fort which is situated but a short distance from Government House on a beautiful piece of high prairie. He pointed out the Wascana as he passed and I could not help thinking how much better it would have been for the town to be located on this high ground. True the Wascana is almost a dried up stream in midsummer, but there are times when it contains a considerable volume of water. The fort, which is the headquarters of the Mounted Police is nicely situated. The buildings and officer's quarters are neat and erected after the American frontier fashion, though we think they would look better if they were painted white instead of the pink color which is so unimpressive. Lt. Col. Irvine was not in his quarters so that I did not get a chance of paying my respects to one of Canada's most popular soldiers. Col. Irvine is in command of the post and I heard nothing but the kindest wishes for Col. Herchbriem, the commandant at this post, and who, until recently was stationed at Regina where his family still remain.

The New Mission Chapel.
Rev. Father LaComb extended a kind invitation to us the other afternoon and we accepted it. Proceeding to the new mission chapel we found the worthy father and his staff fully in possession of the new mission which comprises a chapel, residence and school reception room and store room. We were shown the interior economy of the new mission house, and among other apartments we were shown Father LaComb's modest but well selected library and the allegorical catechism which graphically gives the history of man from the creation down to the Christian era.

Ascending a neat stairway we reached the chapel, which is on the second story 50x30. The interior is plain and substantial. The altar is a piece of artistic skill. It is ordinary wood and carved by Father Van Vighien of Fort McLeod. The workmanship is marvellous and it denotes skill which is of the highest order. We understand that the artist did not even use a lathe in the work though how with primitive tools he succeeded in turning the wood appears to us a mystery. The window and picture frames are also his handiwork.

Rev. Brother Foisy, who is the church organist, played some excellent music and Father Chap Sans "Vene Creator." The organ is a deep toned and well fills the space. It is well adapted to church service.

Rev. Father LaComb has chosen a nice location for his chapel. Mr. Mervitt is now engaged in staking out the lots.

are 50 by 150 which is a great improvement on those thin first lots which the North-west Land Company have laid out. Three avenues are already laid out viz: Notre Dame, St. Joseph and St. Mary.

The survey corresponds with the old survey of the town except as to the size of the lots.

These lots will soon be in the market and we hope that our citizens will avail themselves of the advantage they offer. They are beautifully situated and are most suitable for residences.

Pere LaComb has now on his hands a blind helpless Indian, abandoned by his tribe. "I cannot turn the poor fellow away, said the great hearted man. I cannot see him abandoned, I will get a tent for him." The poor fellow lay crumpling on the door step, but he knew that although abandoned by his own friends he had still a friend in Pere LaComb. There is something sad about being abandoned by one's friends, something indescribably sad no doubt when to other helplessness is added blindness the picture of woe is complete.

The following are the names of the members of the North-west Council with their constituencies:

Wm. White, Regina, elected. Hayter Reed, Regina, appointed. Col. Irvine, Regina, appointed. Col. McLeod, Fort McLeod appointed. Frank Oliver, Edmonton, elected. Claude Hamilton, Broadview, elected. Col. Richardson, Regina, appointed. Wm. Turfitt, Moosejaw, elected. Judge Rolan, Prince Albert, appointed. Pascal Breland, Wood Mountain, appointed. Ross, Moosejaw, elected. J. D. Geddes, Calgary, elected. Macdonald, Prince Albert, elected. Jackson, Qu'Appelle, elected. Lt. Governor is president of the Council and ex-officio a member.

An English Woman's Will.
A remarkable will has lately come to light by the death of Mrs. Ann Ball, on Ball's Pond England. The value of her estate amounted to \$50,000 which was to be distributed among over eighty different charities. The bequests are mostly of an original character. Among others are \$500 to the Ladies Association for the social improvement of Syrian females; \$50 to a home for starving dogs; \$1000 to be distributed by her executors in sums of \$40 to such deserving persons as they may select who have lost all their effects by fire; \$250 each to six Episcopal curates of the church of England whose respective incomes are less than \$500 per annum and who shall each have more than four children, etc.

which will not grow etc. etc. We intend
to send them to some of the gentlemen
who have lately distinguished themselves
by denouncing the country from an agricul-
tural standpoint.

SOME days ago, at the kind invitation of
Mr. Douglas, teacher of the public school,
we attended the examination of his classes
which took place in the Methodist Church.
We were pleased at the unmistakable ear-
nestness of Mr. Douglas. The classes
were examined in spelling, reading, writing,
grammar, composition and arithmetic and
prizes were freely distributed. In fact
every pupil got a prize and the little ones
were delighted. A number of parents and
visitors were present during the examination
and at the close ice cream was served to all
present. We regret that we omitted to
mention this before but we can assure Mr.
Douglas that the omission was unintentional.

A MEETING was held on Wednesday evening
in the Methodist church to consider the
question of a Protestant cemetery. Mr.
R. Hardesty was appointed chairman and
Mr. Braden secretary. Considerable dis-
cussion took place as to whether the pro-
posed cemetery should be Protestant or
public. It is the intention of the prom-
oters to ask for a grant of land from the
government. Rev. Messrs. Dyke and Ros-
er, Messrs. Reilly, Murdoch, Jarrett,
Armour, Peterson and Elliott addressed the
meeting which was almost even on the mat-
ter as to whether the cemetery should be
Protestant or public. A resolution was
passed that the proposed cemetery be vest-
ed in trustees from the various Protestant
churches and their successors. Mr. Pet-
erson seconded by Mr. Murdoch, moved an
amendment to the effect that the cemetery
be public and be under the control of the
town. The amendment was negatived 8 to
7 and after some further discussion the
meeting adjourned.

A MEETING of the committee appointed to
prepare an address to Sir Hector Langevin
on his arrival here, was held yesterday
morning in Major Walker's office. The
following gentlemen were present: Rev.
Father LaCumb, Jas. Reilly Esq., H. G. Bie-
ker Esq., Geo. Murdoch Esq., Jas. Martin,
Esq., R. Hardesty Esq., G. B. Elliott.
Moved by Mr. Reilly seconded by Mr.
Bieker, that Father LaCumb, Major Walker
and Mr. Hardesty be appointed a special
committee to meet Sir Hector Langevin at
Glasgow. Moved by G. B. Elliott seconded
by Mr. Martin, that a sub-committee of
four be appointed to join with the before
named on the arrival of the train, to form a
joint reception committee. The following
gentlemen were appointed: Messrs. Reilly,
Murdoch, Henderson and King.
Moved by Mr. Bieker seconded by Mr.
Murdoch, that citizens be requested to ob-
serve the day as a public holiday. The
following were appointed: the address and
petition committee; Rev. Father LaCumb,
Messrs. H. Bieker, Geo. Murdoch and G.
B. Elliott. The reception committee was
empowered to add to their numbers and
arrange details. The general committee
then adjourned until Saturday evening 23rd
inst.

The wedding bells rang merrily last
Tuesday evening when Mr. S. J. Clarke
and Miss Jenny Finley were united in
matrimony. The marriage took place at
the residence of Mr. M. G. McLean, Step-

hen avenue. Rev Mr. Robertson of the
Presbyterian church performed the cere-
mony. The wedding was attended by a
large number of friends. Mrs. McLean was
the hostess of the evening and she did the
honors in a most charming way. Mr.
Joseph Bannerman officiated as best man
and Miss Murray as bridesmaid. After the
wedding the company enjoyed themselves
with music and dancing until a late hour.
The Nor-wester extends its congratu-
lations to the happy pair, and wishes them
many happy days. The following is a list
of the presents and donors: One lamp,
Messrs. Colvin and Arnest; an ink-stand,
Mr. Thomas Speerman; Mr. and Mrs. Mc-
Neil, case of silver butter knives; John
McDonald, 4 dozen table glasses; butter-dish,
sugar bowl, cream pitcher and linen table
cloth; Mr. G. C. King, looking glass and
bed room set; Mr. James Carroll, a silver

HOTEL ARRIVALS.
At the Royal.
Thursday, Aug. 14. E. H. Johnson and
C. D. Graham, Miles City; J. Leak Winni-
peg; W. Phillips Cobourg; Mrs. and Mr.
Small Toronto; John Bryson, Miss Bryson
Fort Coules; W. R. Carleton Winnipeg;
C. W. R. Hill Branch Columbia;
Friday, W. Wadsworth Inspector Indian
Agency; W. Poekington Indian Agent;
G. Levinge High River.

The last Regina Leader says:—
"We are making arrangements for
having specimens of different cere-
als and produce which may be
brought to us forwarded to Winni-
peg, Toronto and Montreal, (and
probably other centres), to be there
displayed in public places, so that
as much publicity as possible may
be given regarding the capability
of this province. We wish that the
truths regarding our country may
be widely disseminated to counter-
act the false impressions which are
attempted to be made by those
having adverse interests. As this
can only be done with the assis-
tance and co-operation of our agricul-
tural friends, we invite them
one and all, to lend a helping hand
in promoting what will be for the
advantage of the country generally,
and for the ultimate benefit of every
individual in it, no matter in what
occupation he may be engaged.
Any communication as to this mat-
ter either personally or by letter,
will receive our immediate and
earnest attention."
We fully approve of the Leaders
enterprise, so much so indeed that
we have decided to follow suit.
We have already commenced the
collection of samples which we
shall forward to the Great Exh-
ibition in Toronto, and to other places
as the Nor-wester's collection, and
we think our friends throughout
the country will do what they can
to assist.
