RADICAL CHANGES IN BANK ACT DEMANDED

Finance Minister's Proposal Doesn't Go Far Enough in the Opinion of a Large Number of Members on Both Sides of the House of Commons.

OTTAWA, Jan. 22.—(Special.)—The one theme under discussion here today is the fate of Mr. White's bill to revise the Bank Act. That the bill cannot pass in its present form is certain.

From a political standpoint Sir Wilfrid Laurier and his lieutenant from Halifax, made an earnest blunder. The latter declared himself in favor of the present banking system, and Sir Wilfrid went out of his way to applaud Mr. White's declaration against the substitution of government issues for bank circulation.

SKILLED WORKERS FOR ONTARIO FARMS

Dominion Grange Will Bring Experienced Men From the Old Country to Obviate the Shortage of Labor and Will Appoint Permanent Organizers Here and in England.

Because shortage of labor continues to be one of the greatest setbacks on Ontario farms, the Dominion Grange, at their meeting in Victoria Hall last night decided to work in co-operation with the government and other immigration agencies in bringing out skilled farmers from the old country.

FIXING VALUES ON LAKE SHORE

City Thinks Prices Asked by York Radial Railway Are Out of Proportion.

The Ontario Railway Board again listened to argument yesterday on the appropriation by the city of the Mimico section of the Toronto and York Radial Railway Company. Figures were presented by the valuers, Sydney Small and Arthur Frankland, on the value of the real estate on the line, which is 11.3 miles long.

LABOR MINISTER SHINING MARK FOR CRITICS

Hon. Mr. Crothers' Attitude Toward Striking C. P. R. Employees Vigorously Assailed by Opposition—Undue Friendliness of Government to Railway Charged.

OTTAWA, Jan. 22.—(Special.)—The house was lethargic this afternoon after the debate on the Bank Act, which became rather exciting at times at last evening's session.

LABOR MINISTER SHINING MARK FOR CRITICS

Mr. Rowell spoke for an hour, his remarks on three subjects were punctuated with loud applause, and at the close he was tendered an ovation. He first took up the working men's compensation act, and said it was absolutely necessary that in Ontario we should have a department of labor and public health to work out problems which had to do with working men.

SKILLED WORKERS FOR ONTARIO FARMS

Continued From Page 1. because farmers could not employ men to help reap the harvests. This loss was especially in connection with the apple crops. Thousands of bushels of apples were left on the trees because men of any sort were unavailable. In order to overcome this serious difficulty the grange has decided not to rely on the Salvation Army and the government immigration agencies, but to take a hand in the business of bringing out farm hands themselves.

G. H. Mooney of Ripley, Ont., delivered an address on the labor problem. He said that this question was the most difficult the grange had to solve. A great deal of money was being lost each year because men could not be secured. The lure of the city, which brought about depopulation of rural Ontario, was another cause of the hardship with which farmers contended. The west also attracted a great many men who could do just as well in old Ontario.

Submit It to People. The naval question caused considerable discussion. The attitude of the grange was decidedly against a donation of any sort to Great Britain, it being the belief that a large contribution or the establishment of a navy was unnecessary, and threw additional burdens upon the shoulders of the farmer, who had sufficient trouble in meeting taxes. It was decided to draw up a petition to the government, asking that the question be put to the people and let their decision be final. Most of the discussion was with respect to organization. Many speakers bemoaned the fact that the grange was not making the progress it should. Greater organization was necessary to deal satisfactorily with the great issues confronting the farmer. It was considered that the appointment of a permanent organizer, who would do nothing else but attend to the needs of the organization, was absolutely necessary if the grange was to handle the problems of the farmer in a satisfactory, business-like manner.

The election of officers takes place today and it is likely that Henry Glendinning will be re-elected master and the other officers sustained. Want Reciprocity. Mr. Glendinning delivered his annual address to the grange during the morning session. Every phase of farming was dealt with in a forceful manner by the master. He again declared the necessity of reciprocity with the United States of natural products and an increase of British preference. Some of the things he favored were: Parcel post system, local option in assessment reform and a referendum on the naval question. He denounced militarism in schools. He declared that farmers in general were suffering heavy taxation to assist favored interests, "which tried to pay dividends on stock much of which is watered."

He said, in part: "Much has been said and written about the low production of Ontario farms. Farmers are scored for the falling off in the number of live stock marketed. To the man who farms from behind a desk in the city it is quite plain that the farmer is entirely at fault, but the falling off in marketable stocks can be traced to a cause over which the farmers had little control. The years 1909-1910 and 1911 had very light rainfalls in June in each year. This light rainfall was coupled with high temperatures that dried and parched the ground. The young clover and grass plants on freshly seeded fields perished for lack of soil moisture, and this resulted in short crops of hay the following year, which had to be met by reducing the number of stock on the farm.

Good Time Coming. "I am not using this argument to defend aliphed methods of farming, but to point out the real cause of the present shortage of stock going to market. The fine catches of seed last summer will do much towards the restocking of farms. "Shortage of labor on the farm continues to be one of the greatest hindrances to successful farming. Electricity has been put forward as a solution of this vexed problem. There is no doubt but electrical power would assist in many ways in reducing man-

Don't Want Good Roads. It has been proposed by the federal government to expend a large sum of money in building leading roads through the country for the benefit of farmers. There are very few roads in the country that can be called leading roads. Towns, villages and railway stations are plentiful, and all roads leading to these places, which are only a few miles in length, are the leading roads so far as farmers are concerned. Few farmers take long drives either from their homes or to their places of business. They are interested in automobiles, either as manufacturers, salesmen or owners. We are opposed to any expenditure on roads by the federal government. We believe that roads should be built by the provinces and municipalities.

Make Life Attractive. We talk about rural depopulation. The whole road is down-grade towards the cities. Our cities are full of people who have left the farm and would gladly return if they could to the old home, but they have not the means. Old age is creeping upon them, and in many cases with gloomy prospects ahead. "What shall we do to counteract the movement towards the city? We should first endeavor to find out what are the principal attractions that the city presents over the country to the young people. Of these perhaps the social conditions are the most attractive. We should get better acquainted with our neighbors. We do not know them as we should. Many Resolutions. In the afternoon an abundance of resolutions touching on various subjects were passed and will be sent to the provincial and federal governments. The grange went on record against militarism in public schools. A resolution in favor of local option in taxation pointed out that municipal and county councils should have the right to exempt improvements if they saw fit to do so. In the resolution on the naval policy, the grange pointed

out that it was against a contribution or a Canadian navy and that the people, and not politicians, should have the final say. They desired that a referendum containing three questions should be submitted to the people, these to be: 1. A contribution of Dreadnoughts; 2. A Canadian navy, and 3, to remain as we are. Resolutions favoring reciprocity of natural products with the United States and wider British preference were also passed.

LET CANADIAN LAW COURTS SETTLE CANADIAN DISPUTES. Guelph Herald: The plea made in parliament by W. F. Maclean, for making the supreme court of Canada the court of last resort for Canadian litigation has many strong supporters to the people of this country. There is no reason why any case should be taken to the old country for final settlement, and there is every reason why a privilege which gives an undue advantage to the litigant with the longest purse should no longer be tolerated.

Ottawa Journal: Mr. W. F. Maclean, in a speech of courageous tone, objected to the continual reversing of the decisions of Canadian courts by the privy council. He contended that in cases involving the interpretation of federal, provincial and municipal legislation, the Canadian supreme court should be the last court of appeal, while only constitutional matters should be referred to the privy council. Ottawa Citizen: At the present time Canada's supreme court is supreme only in name. Its decisions may be appealed from to the privy council of the United Kingdom, and there overruled. It is surely rather a disgrace to be thus placed. Canada must depend upon the opinion of an exterior court, and Australia has been more wise or fortunate. For would be in no sense a repudiation of the imperial bond or partnership.

STAND TOGETHER FOR OWN BENEFIT

Firemen and Policemen Decided to Keep Watch on Municipal Affairs.

When the ex-members of the police force and fire brigade held their joint meeting a warm discussion arose over the management of municipal affairs. The association resolved to stand firmly together for the mutual benefit of the two forces.

It was also decided to watch the manner in which the council handled civic business. The meeting was unanimous in believing that it would be better policy were the aldermen and controllers to mind their own business and not be interfering with the work of the different departments and thereby causing bungles. The general opinion was that more attention should be paid to reports from the executive heads of the different departments.

The following officers were elected: President, Joseph Johnston; vice-president, T. W. Brackenside; secretary-treasurer, James Stephen; chaplain, William Archibald; sick committee, William Archibald, Thomas Brackenside, Andrew Andriolles, William Archibald, sr. and William Wallace.

The association spent a very pleasant evening. After all liabilities had been settled there was a balance in the treasury of \$19.85.

TRUST COMPANY SEEKS VERY BROAD POWERS

Finance Minister Objects to Granting Privileges Sought by British Columbia Institution.

OTTAWA, Jan. 22.—The banking and commerce committee today considered a bill respecting the Dominion Trust Company, sponsored by H. H. Stevens of Vancouver, which seeks power to receive deposits, provided the money received shall not be mixed with other money, but form a special fund. Mr. Stevens explained that the company had been incorporated in British Columbia, but last year was given a Dominion charter. It had been receiving deposits and simply asked Dominion authority for something already done. Security for deposits would be given the shape of "guaranteed" government and municipal bonds.

Objection was taken to the proposal to authorize the company to receive deposits on any terms, since the authorization might establish a precedent, and any other company in Canada might seek the same privileges. In the opinion of the minister of finance, there were a good many difficulties in the way of granting the right. The bill was allowed to stand over. After slight amendment, the bill of Arthur Meagher, Portage la Prairie, to incorporate the Canada Western Mortgage Company, with a capital stock of \$5,000,000, was reported.

CITY MUST HAVE MORE HUMBERLAND

Property on West Humber Side Would Be Useful in New Boulevard.

FELLOWES' NEW JOB

Grand Trunk Railway Wants Seven Additional Tracks Across Spadina Ave.

Assessment Commissioner Forman has been asked to report on the expropriation of land on the west side of the Humber River mouth, in order to facilitate the Humber boulevard construction.

The Dominion Railway Board has an objection to lowering the foundation on the Yonge street subway to permit of an 18-foot passage, providing the extra expense and land damage are assumed by the city.

More Tracks at Spadina. An application was received from the Grand Trunk Railway for permission to construct and operate seven additional tracks at the grade across Spadina avenue, to permit ingress into the yards now located on the old Government House grounds.

Fellowes' Predicament. In order that control may be fully advised of the position taken by Works Commissioner Harris, he stated to the board of control yesterday that he had relieved Engineer Fellowes of his duties pertaining to the office of deputy city engineer and charged him with the revision and revisiting of waterworks distribution system and preparation of plans for the future in this regard.

These duties Mr. Fellowes is well qualified to perform, said he, on account of his knowledge of existing conditions gained during his period of service of upwards of 20 years.

WHITE PLAGUE SERUM IS BASIS OF FRAUDS

BERLIN, Jan. 22.—(Can. Press.)—Dr. Friedrich Friedmann, who last November announced at a meeting of the Berlin Medical Society the discovery of a cure for every form of tuberculosis, has received the promise of an audience with the minister of the interior tomorrow, when he will place his tuberculosis serum at the ministry's disposal.

He has been moved to take this action by the fact that a number of physicians have been exploiting what they assert is the Friedmann serum, but which Dr. Friedmann says is not.

City Wants Radials

Contrary to the advice of Corporation Council Geary, the city is going to again seek legislation at the next session of the provincial legislature for power to acquire three types of ban lines, viz.: The Toronto Suburban, Mimico and the Scarborough System.

It is difficult to conceive of any arguments that were not advanced last session," said Mr. Geary, "and I do not think that an application such as this would meet with success, except, perhaps, as to the Toronto and Suburban within the city.

WEDNESDAYS ARE UNLUCKY DAYS

For Ernest Burleigh, Who Got Three-Year Sentence Yesterday.

Convicted in the police court of bigamy Ernest Boyd Burleigh, aged 29, was sentenced to three years in the penitentiary, Burleigh had been married in Calgary to Stella Lillian Gilbert early in the summer and shortly after was arrested for selling her, which he did not own.

Later, when being examined by Detective Miller, Burleigh remarked: "Wednesdays have been fatal days for me. It was on a Wednesday I was first married, and on the same day of the week I married a second time. It was on a Wednesday that I got my sentence, and I was due to come out next Wednesday, and now to-day (Wednesday) I am given three years."

ROCKEFELLER TO GIVE EVIDENCE

Money Trust Committee Will Use Giant's Power Despite Strong Protests.

WASHINGTON, Jan. 22.—(Can. Press.)—An attempt to alter the money trust committee's decision to insist upon an examination of William Rockefeller, despite his physical condition, was defeated today in a rather stormy executive session of the committee. Against the wishes of Chairman Pupo, the committee reiterated its decision, directing him and Counsel Samuel Untermeyer to make arrangements for Mr. Rockefeller's examination.

Chairman Pupo announced after the executive session that he would arrange with the counsel for Mr. Rockefeller and endeavor to make the examination as soon as the committee concludes its oral hearings. He said he would probably visit Mr. Rockefeller with Mr. Untermeyer next week. Mr. Rockefeller is now at Palm Beach, Fla.

The incident was re-opened by the appearance of Dr. Walter F. Chappelle, personal physician to Mr. Rockefeller, who verified his affidavit setting forth that an examination of his patient might cause serious complications.

APARTMENT BYLAW.

Ex-Controller Maguire headed a deputation which appeared before the board of control yesterday to protest against the creation of a fourth apartment house on Oriole road by T. B. Stewart.

Mr. Maguire claimed that two of these structures have been put up contrary to the bylaw. He said that the contractor had obtained a permit for the construction of an apartment house on Deer Park crescent, but was going to utilize it for the construction of an apartment on Oriole road.

"According to your interpretation of the bylaw," said Controller McCarthy to Mr. Fairly, "anybody can open a street on their property in a restricted district and construct an apartment house on it."

HELEN GOULD IS QUIETLY WEDDED

Only Seventy-Five Relatives and Friends Attended Ceremony at Lyndhurst.

HOUSE BOWER OF ROSES

But Simplicity Was Dominant Note—Showered With Tokens of Love.

NEW YORK, Jan. 22.—(Can. Press.)—In the presence of seventy-five relatives and friends gathered in the spacious and flower-bedecked parlor of Lyndhurst at Irvington-on-the-Hudson, Miss Helen Miller Gould, daughter of the late Jay Gould, admired or beloved by thousands of persons whom she has befriended, became today the bride of Finley J. Shepard, eastern representative of the Missouri Pacific Railroad, whom she met in the exciting moments of a railroad wreck.

Simplicity was the dominant note of the wedding ceremony, and the great house, which might have been crowded with friends who would have been glad to have honored the bride, gave admission only to a limited number of relatives and most intimate friends, but in addition there was a group of servants of Mrs. Shepard's big country home which the wedding ceremony was performed.

Numerous and beautiful as were the wedding presents seen at Lyndhurst today, they were but a part of the many tokens of love bestowed upon the bride not only by her immediate friends and relatives but by the officers and men of the United States navy, by whom she is held in high esteem for her work in behalf of the naval branch of the Young Men's Christian Association and many other organizations to which she has given aid.

The interior of Lyndhurst was a bower of roses, anemones and other flowers, and the house, a turreted castle, stands high upon the brow of an eminence overlooking the Hudson, far back from the main highway.

Festoons of smilax and asparagus decorated the foyer and hallways leading to the parlor where the wedding ceremony was performed and within the parlor, where the improvised altar stood, were groups of palms, ferns and flowers of broad white ribbon, while the walls were almost hidden by festoons and sprays of smilax and asparagus and other ornate of American beauty and other roses.

Frederick Service, the money trust committee's long lines of white ribbon the bride entered the parlor leaning on the arm of her brother, George J. Gould, and attended by her bridesmaids, Miss Helen and Dorothy Gould.

Joined by Mr. Shepard and his brother, Louis Shepard, the best man, the wedding proceeded to the altar, where the Presbyterian service was read by the Rev. Dr. Daniel Russell, pastor of the Methodist Presbyterian Church, and a close friend of both Mr. Shepard and his bride.

The ceremony took place at 12.40 o'clock, and lasted barely five minutes. While the party was approaching the altar the strains of the Wedding March by Mendelssohn were heard from an adjoining room. During the reading of the marriage service Handel's Largo was played softly by the organ.

Brother Made Responses. George J. Gould made the formal response in giving his bride in marriage. The bride was attired in a beautiful white satin wedding gown, trimmed with real old point lace, the gift of her sister, the Duchess de Talleyrand, while her two little attendants carried baskets of roses.

Among the guests at the wedding were the Duke and Duchess de Talleyrand, Mrs. George J. Gould, Mr. and Mrs. Frank J. Gould, Mr. and Mrs. Edwin Gould, Mrs. Charles Gould, Mrs. Anthony J. Drexel, Jr., Dr. Henry M. MacCracken, chancellor emeritus of New York University, Dr. and Mrs. W. W. White, Mr. Charles H. Dillingham, and Mrs. Ida Northrup.

MORE SEATS IN SENATE BUT NOT IN COMMONS

Bill Applying to Upper House Prompts Senator Cloran to Make Query.

OTTAWA, Jan. 22.—(Can. Press.)—Before the orders of the day, were called in the senate, Senator Cloran asked: "If it is the intention of the government to press the measure mentioned in the speech from the throne for additional representation in the senate without making due provision concurrently for adequate representation of the increased population of Canada in the house of commons?"

Hon. Mr. Loughheed replied: "The government has under consideration the question of filling the vacant solicitor-generalship. To the heart of New York via Grand Trunk, Lehigh Valley R.R. and Tubes. BACK TO OLD LAND TO BOOST CANADA

More Than Twelve Thousand Western Canadians Doing Missionary Work in Britain.

WINNIPEG, Jan. 22.—(Can. Press.)—Western Canadians, 250 in number and spending \$300 each, crossed the Atlantic for Great Britain and Europe this last holiday season, according to official figures compiled by J. Bruce Walker, commissioner of immigration here.

Through the agency of this vast array of immigrant emissaries and thru the redoubled efforts of the department of immigration, Mr. Walker expects to see all records for immigration eclipsed this year.

AGREED TO DIVIDE BUSINESS IN STEEL

William Corey, Formerly Big Magnate, Tells of Agreement With Foreign Interests.

NEW YORK, Jan. 22.—(Can. Press.)—Wm. Ellis Corey, former president of the U. S. Steel Corporation, told a news conference today that he had signed the U. S. Steel Corporation agreement to divide the corporation under the Sherman anti-trust law, furnished the details of the agreement, which he has been able to obtain in support of his allegation that the corporation participated in an international steel cartel.

Mr. Corey followed Theodore Roosevelt on the stand, after the latter had repeated his testimony given two years ago before the Stanley investigation commission, concerning the acquisition of the Tennessee Coal and Iron Company by the corporation during the panic of 1907.

Mr. Corey testified in a room in a downtown office building. He said that as late as 1911 an understanding had existed with foreign steel manufacturers under which the steel corporation agreed not to compete with them in their own countries, and foreign manufacturers in turn agreed not to seek business in the U. S.

SHE COULD NOT HOLD CUP OF TEA

Doctors Agreed Toronto Nurse Had Bright's Disease.

Dodd's Kidney Pills cured her after five years' suffering—Felt a benefit after first box.

TORONTO, Ont., Jan. 22.—(Special.)—Mrs. Alberta Goin, a nurse, living at 40 Wright avenue, this city, has been interviewed in regard to her reported cure of nervous or kidney trouble by Dodd's Kidney Pills. She states the report is true in every particular.

"My sickness," Mrs. Goin says, "was caused from a nervous breakdown and what the doctors called incurable Bright's Disease, brought on by cold and long weeks of nursing. I suffered for five years, and was treated by three doctors and was a patient in two hospitals, but gradually got weaker. Reading the experiences of other sufferers like myself led me to try Dodd's Kidney Pills. At that time I was so weak and nervous I could not hold a cup of tea without spilling some of its contents. It felt a benefit after taking the first box of Dodd's Kidney Pills, and eight or nine boxes cured me so completely I can now walk a mile without fatigue."

BACHRACK BOYS ARE SENTENCED

Brothers Sent Down For Eighteen and Three Months Respectively.

ASKED FOR LENIENCY

Judge Denton, However, Said Whole Affair Was Very Discreditable.

Julius Bachrack was sentenced to 18 months in the Central Prison, and his brother, Emmanuel Bachrack, to three months, by Judge Denton, in a criminal session held yesterday afternoon. The Bachrack brothers are well-known business men, and at the sessions last May were found guilty of conspiring to procure an abortion. Sentence was delayed to allow an appeal.

Crown Attorney Greer, in moving for sentence, referred to the fact that the case had given the crown a great deal of trouble. He laid emphasis on the fact that Emmanuel had nothing to do with the young woman's condition which brought about the operation, and said that it was just through his desire to help his younger brother out of a difficulty that he participated in the conspiracy.

H. H. Dewar, K.C., who appeared for the prisoners, said that so far as the conspiracy was concerned, it was no premeditated act. Emmanuel had just obeyed a strong impulse of brotherly affection. He also asked leniency for Julius, stating that the young man was still in his teens, and therefore, could not appreciate the nature of the act he had committed.

TO INCORPORATE LUTHERAN SEMINARY.

BERLIN, Jan. 22.—(Special.)—Among the private bills to be introduced in the legislature this session is one to incorporate the Evangelical Lutheran Seminary of Waterloo. It will be introduced by C. H. Mills, M.L.A. for North Waterloo.

PROVERB CONTESTANTS SOON TO KNOW WINNERS

Examining, Checking and Filing the Many Thousands of Proverb Sets Now Completed.

The work of picking the winners in the Toronto World's Great \$5000 Proverb Contest is nearly completed, but it must still be some days before the successful contestants can be made known.

Practically 19,000 sets of answers were sent in in this great contest, and, naturally, the work of examination is a slow and tedious task. Great care has been exercised by the examiners to prevent errors from creeping into the work, so that at the close those who are adjudged the winners will have won fairly.

Every contestant was duly informed from time to time thru the contest stories and special announcements, and thru the published rules, which appeared nearly every other day, of the privilege to use five answers' of the contestants. Liberal allowance was also made in allowing contestants to incorporate the slightly different wordings of proverbs of the same meaning upon one and the same coupon, and contestants who have submitted their answers in this form, and where the correct answer is given, have been given full credit. Because contestants failed to study the rules closely, which they were so often advised to do, or because they did not take advantage of submitting more than one answer, or because they failed to avail themselves of any of the liberal privileges extended to them, is no fault of the Contest Department, and contestants should blame no one but themselves.

Contestants Must Watch The World Closely For Exact Date of Announcement of The Winners.

Thousands of letters commenting upon the Proverb Contest as one of the most interesting and entertaining features ever conducted were enclosed with the sets of answers.

Contestants should watch The Daily World closely for announcement of the exact date upon which the winners will be published.

Many sets of answers have also failed on account of the trifling mistakes in spelling and punctuation. Many of the contestants seemed to think that it was only necessary to hit at the proverb rather than to be punctual and accurate in their writing.

HYDRO-ELECTRIC RADIAL LINE FROM TORONTO TO PORT PERRY

Continued From Page 1.

essential features are: To serve power, light, transportation for both passengers and produce, and communication.

"I can see nothing in the way of a successful operation of this line," said Mayor Hocken. "Granting the worst that could be said against municipal ownership, there is no doubt that its results are much better than under private control." He was glad to see such a large gathering, which was a good omen for the future.

"You are the pioneers in this work," said Mr. Hocken. "Others are sure to follow. If we get 10 out of 12 municipalities in support of this scheme, it will be carried out. (Applause.) It means enhanced prosperity for the province as a whole, because we will shortly see the counties interlaced with such radials."

A. F. Wilson gave an outline of the scheme as wanted by the municipalities, and acted as master of ceremonies. He introduced each speaker from the rural districts.

C. H. Silver of Unionville, clerk of Markham Township, moved that: "In the opinion of this meeting it is advisable that the Hydro-Electric Commission of Ontario enture into the matter of a municipal electric railway for the district east and north of Toronto, and furnish the municipalities interested with a full report upon the same as to cost, organization and operation, and that the commission be requested to make such investigations and reports as may be deemed desirable." This was unanimously received.

Everybody favored it. Practically everybody spoke, and each speaker's remarks were in the affirmative.

"The same poles and wires will carry

the power for industrial and farm purposes as well as for railway transportation," declared Mr. Wilson. "The province would never feel a bonus up to \$4000 a mile to help us. Private enterprises have received more. The line will probably cost \$20,000 a mile, and a large proportion of the cost will be provided by bonds guaranteed by the municipalities, and, if possible, by the legislature. The bonds would pay four per cent.

"Not one cent would go to watered stock on this line," continued he, "and at the end of 30 years the sinking fund would pay for the construction. The whole scheme will work out like the hydro system, every cent of profit would go to the betterment of the railway. It would offer special transportation for farm truck and dairy produce, thus tending towards Standardization of the high cost of living in the city. The City of Toronto has given \$200,000 towards good roads. We appreciate that, but we want to join with us in guaranteeing the bonds of this undertaking."

"Our municipality is willing to do anything that will make this a success," said Reeve R. A. Fleming of Markham. These remarks were reiterated by Reeve J. J. Cornell of Scarborough.

The people of Pickering would be ready to back the undertaking, put in Reeve W. Sparks. Reeve George Garrow of Port Perry, Dr. Moore, Reeve of Whitby, and many others, expressed their willingness to support the project.

STANDARD BUSINESS MANAGER RESIGNS. KINGSTON, Jan. 22.—(Special.)—R. J. Hooper, for many years business manager of The Kingston Standard, has resigned, leaving for St. John, N. E., to reside. He will enter one of the largest wholesale houses there as principal secretary. The Standard staff presented him with a solid leather suit case.

WOMAN TRIED TO END LIFE. SARNIA, Jan. 22.—(Special.)—Driven to desperation by a flood of domestic troubles and beaten frequently by her husband, Mrs. James J. Ver attemped this morning to jump into the icy waters of the St. Clair River. The woman is the mother of six children and works hard at different jobs.

It is likely that the matter will be investigated by the police.

Governor's Son Boxes In Tournament Tonight

SAN FRANCISCO, Jan. 22.—Assurance was given today by officials in charge of the Pacific Coast Amateur Boxing Tournament to be held in the Olympic Club tomorrow night, that Archie Johnson would appear as an aspirant for the welterweight title.

Pressure has been brought to bear from many sources to induce the young athlete to forego his intention of competing in the tournament, but he said tonight that he would be a contestant.

Archie's first opponent will be Ernoe Clark of Los Angeles, a welterweight known for cleverness and hard hitting.

THURSDAY MORNING, JAN. 23, 1913.

THE BANK ACT DISCUSSION.

The two main points urged by Mr. Maclean (South York) in the opening debate on the bill to renew the bank charters, were that any renewal should be for two years only, and that a commission be forthwith appointed to study the conditions here and the laws elsewhere, and to then draft new banking and currency laws on the most progressive lines.

Other countries have found a way to nationalize their finances and their notes issue, to limit the banks to a fixed rate of interest, to limit the amount to be retained by way of reserve, to limit the amount of dividends to be paid to shareholders, and to compel the banks to share any excess of profits that is left after providing for these things, with the state.

FINANCIAL CONDITIONS. The money squeeze which was keenly felt through the Dominion the last two months of 1912 is gradually passing. There were many contributing causes for the financial tightness, but the principal blame is now placed on the Balkan war. The crop-moving period in Canada is always a critical time for the banks, and the intersection of the European trouble last fall made the position more difficult.

COMMISSION GOVERNMENT IN INDIANA. Indiana is the latest of the United States to get busy over the reform of its municipal system of government.

Under the management of a city rests with the mayor and commissioners, who appoint all officials and employees under the civil service rules. The board of councillors has power to review and to approve or veto all legislative acts of the board of administrators.

tration and may remove any or all of its members for cause. The Indiana system also includes the right of initiation, referendum and recall, as in other commission government plans, nor can any franchise grant become operative without a popular vote. This effort to harmonize popular representation with expert administration and supervision has some points of novelty and its operation will deserve attention.

AUSTRALIA BUILDING HER NAVY. Those who challenge the ability of Canada to build her own ships should reconsider their attitude in the light of what is being done in Australia. A special despatch to The Boston Christian Science Monitor states that Cockatoo Island, in Sydney Harbor, New South Wales, has been selected as the site of the first naval building yard of the Commonwealth.

CRITICISM OF PUBLIC ENTERPRISES. Why is it that those who criticize publicly owned and operated services and utilities in the interests of franchise-holding companies employ other standards than those they apply to these companies? There are very few, if indeed any, instances where private operation of public services did not show losses in the first place and that fact has been frequently put forward as an excuse for exacting high dividends in later years.

But it found a Following. W. F. Maclean said that a commission should be set up to study the banking methods before the bank charters are given their decennial renewal, found acceptance on both sides.

THE BANKING BILL DEBATE

As Viewed by the Gallery Correspondents.

Mr. White a Lecturer and Expositor. The energetic apostle of a restless Conservatism, who is again running amuck in his party, told the minister of finance in strident tones.

Mr. White's Silken Gloves. Globe: Hon. W. T. White, minister of finance, and Mr. A. K. Maclean of Halifax, the financial critic of the opposition, plodded thru their parts with ultra-conservative caution.

But Sir Edmund Osler is Satisfied. Telegram: The minister of finance has a bill which is eminently satisfactory to the banking interests.

W. F. Has an Ineffective Voice. Telegram: When the member from Donaldis cried "Wolf, wolf," in fact, six separate wolves, the ministry was not hurried into paroxysms of fear.

But it found a Following. Telegram: Gradually the idea of W. F. Maclean that a commission should be set up to study the banking methods before the bank charters are given their decennial renewal, found acceptance on both sides.

Sam Sharpe Disturbs the Lecturer of the Evening. Telegram: The usual onslaught upon Hon. W. T. White began when a grenade was tossed from behind by Sam Sharpe in Toronto.

PROF. J. C. ARLIDGE IS DEAD WAS A PROMINENT MUSICIAN

For the Past Thirty Years He Was Organist and Choirmaster of Many Toronto Churches—Played For Royalty on Many Occasions.

Churchill Arlidge died at his residence, 107 Summerhill avenue, yesterday morning. The end came suddenly after seven weeks' illness.

He was born at Stratford-on-Avon, England, and his first ocean voyage to Canada was in 1873, but after a year's stay he returned to England, in 1874 he came again to Canada, after which he became a permanent citizen of Toronto.

He was born at Stratford-on-Avon, England, and his first ocean voyage to Canada was in 1873, but after a year's stay he returned to England, in 1874 he came again to Canada, after which he became a permanent citizen of Toronto.

In 1874, while organist of the Carlton Street Methodist Church, he was privileged of opening the new church organ, which was installed in that year, and from the year 1884, when he became permanently settled in Toronto, he never was without an engagement as church organist and choirmaster, which position he held for many years in Christ Church, Dear Park. His latest church was St. John's Anglican Military Church on Portland street.

Prof. Arlidge was flute soloist at the great concert, held in the Mutual Street Rink in 1884, and at the same concert, held in Berlin, Ont., 18 years ago. All the sons and daughters of Mr. and Mrs. Arlidge are musicians of a high character, especially in vocal entertainments.

GREAT VIOLINIST APPEARS TONIGHT

Eugene Ysaye Appears With Symphony Orchestra at Massey Hall.

Massey Hall tonight will witness one of the largest audiences that have ever gathered at a Symphony Orchestra concert, when Mr. Ysaye will have the assistance of the greatest living violinist, Eugene Ysaye. The program will be of superlative merit and consists of the Violin and the Beethoven concertos by Ysaye and the orchestra, and Mr. Ysaye is giving the Wagner "Worship to Die Meistersinger" and the symphonic poem "Ulava" by Smetana, and the Berlioz "Triton." "Dance of the Will" and "The Wisp." The doors of Massey Hall will be open at 8.15 sharp, and patrons of the concert are requested to be in their places in good time.

RICHELIEU GIVEN FINE PORTRAYAL

Mr. Mantell Presented Lytton's Wonderful Play of Tempestuous France.

THE STRING QUARTET

Excellent Program of Chamber Music Played by Toronto Musicians.

While of a later date than Shakespeare's play, the story of Lord Lytton's "Richelieu" is of no less tempestuous times than those from which the bard drew his grimmet dramas. Robert Mantell last night at the Alexandra departed from his Shakespearean series to give this play of France, but the diversion was a delightful one and quite excusable. There is not the profound and fearful tragedy that characterizes Shakespeare, the story is thrilling and lucid, and Mantell acted well the crafty yet kind-hearted cardinal, with his secret aims, underplayed by regal opposition and furthered by cunning spies. Feeble in figure, yet keen in mind, unwavering in purpose, yet of gentle disposition, the interpretation of the cardinal's character was one that called forth all Mantell could give. His well modulated voice in the elocutionary passages, and his ability to portray a restrained passion, were shown to good advantage, and made a deep impression.

The PRICE OF BREAD

IT is the same old story. The members of the Bakers' Association want to make more money out of the bread business and what way is easier than for all to join in RAISING THE PRICE OF BREAD.

I HAVE kept the price of bread at the lowest possible figure—5 cents a loaf—for fourteen years. What chance have other bakers to force the public into higher prices, when the biggest bakery in the city keeps its prices down. Toronto would be paying 7 cents a small loaf for bread now if it had not been for me. The price would certainly have been raised to 7 cents, because no such good excuse as that had ever been found before for raising bread prices. Many attempts have been made to force up the price of bread, but each attempt has failed. In this crisis in Bread Prices, our customers may be assured that—

Geo. Lawrence Will Not Raise the Price of Bread

THE quality of Lawrence's Bread is not confined to any one loaf. The quality is all that a mixture of the choicest brands of flour, the greatest skill, and the best of all kinds of material can make it. Aged flour, the best yeast on the continent, the most approved timing of dough, the latest mechanical inventions for saving handling, and everything that is sanitary, go to make up a

QUALITY LOAF
from every point of view

WHY I CAN SELL FOR FIVE CENTS

The first point regarding my ability to sell a Big Loaf for five cents is this: "I can save thousands of dollars a year by good buying." Not buying cheap materials, but by watching the ebb and flow of the market, and buying in extra large quantities at favorable times. I buy the best flour milled in Canada, and buy it in 100,000 bag lots at a time. By buying this way I not only save money, but am able to keep flour on hand long enough to let it thoroughly "age," which is one of the secrets of good bread. We never run below 3,000 to 5,000 barrels of flour stocked ahead for "aging" purposes.

My Cash System has been a great economy in my business. On the old Credit Plan I lost thousands of dollars from bad accounts. This is now saved, and goes towards the bettering of my product and lowering the price.

Another reason why I can sell bread cheaper than other bakers is my very large turnover. Besides I am my own Manager and Superintendent, and have no expensive staff to keep. Every part of my business, while conducted efficiently, is conducted economically. This again leaves me thousands of dollars for improvement of product, which other bakers spend in salaries.

WHY LAWRENCE'S BREAD IS THE BEST! No matter how much machinery and system may be introduced into a bakery, it is still the brain and skill of the expert that makes the bread. The good, bad and indifferent all derive their qualities from the skill of the baker. Machinery is only to save time in merely mechanical operations. We have all the latest machinery, but the quality, superiority and true deliciousness of Lawrence's Bread is the result of the skill of one man—Mr. Charles Lawrence. This exceptional individual has given a life-long study to bread making, and a life-long devotion to the development of his art, under conditions and with materials entirely of his own choosing, where every circumstance is managed with the view to producing a perfect loaf of bread. That he has produced a perfect loaf, every user of Lawrence's Bread can testify.

ONE PRICE TO EVERYBODY One price is my motto. We have never cut our price a fraction of a cent for any hotel or restaurant, no matter how big the order. Our customers will get our bread at the same price. One price to all—and that the lowest. One quality—and that the highest. Every customer, big or little, gets the same price—"and it's the best bread in the world for the money."

OUR was the first bakery to recognize the Union, and we were the first to adopt the Union scale of wages, and a nine-hour day. In addition to this, we have always paid extra for overtime. We have never practised the custom of overworking our bakers, and every man has received full compensation for full time. Our drivers receive higher wages than formerly, and our records show that in every department wages have been advanced. No one can say, "Lawrence's Bread is produced by cheap labor." We defy any baker to show a higher pay sheet than ours.

LIBERALS DIFFER ON NAVAL POLICY

Difference of Opinion Arises Among Members of Canada Forward Club.

Canada Forward Club, the new Toronto young Liberal organization, elected its officers Tuesday night. These are: President, John Lewis; first vice-president, C. A. Moss; second vice-president, W. J. McLarty; secretary, H. J. Welsh; and treasurer Donald Matheson. The fight centred on positions for the executive, of which there are six, and resulted in the following men being elected: J. T. Clark, M. O. Hammond, Stanley Kerr, J. M. Langstaff, W. J. McGuire and Craig Mackay.

A motion brought up at the last meeting of the club by President Lewis, which embodied the principle of self-government and parliamentary control over taxation, was subjected to an amendment, introduced by W. J. McLarty, as follows: "That the national safety of the constituent parts of the empire is a common and indivisible interest and ought to be subject to a common control." This brought up the question of the \$35,000,000 grant, and whether Canadian-controlled ships or a united British navy was the better policy.

The difference of opinion among the members on this subject caused surprise, and after considerable discussion it was decided to again take the matter up at the next meeting, which is to be held in about two weeks' time.

POLISHED CHASSIS A FINE EXHIBIT

Stevens-Duryea Display at National Automobile Show Attracting Much Interest.

One of the most interesting of all the exhibits in the National Automobile Show is, as usual, the polished chassis in the Stevens-Duryea display, which gives the motor enthusiast a chance to study every detail of construction in the car which has been the pioneer in practically every radical improvement of American motor-cars since the beginning.

The fundamental principles on which the Stevens-Duryea is built are always the same, but there are one or two new features in conjunction with them. The unit power plant which was introduced in the Stevens-Duryea at the show nine years ago, has since been adopted in practically all fine cars. In this year's model the Stevens-Duryea people have enlarged their engine to furnish increased power for the larger car, but the space it occupies is smaller than previous engines have needed, because of a more compact arrangement of valves. By extra machining of every part the engine has been made more silent than ever. A special feature of it is the water-jacketing of the valves, and so perfectly does the Stevens-Duryea method of water-jacketing prevent undue wear and expansion that it is possible to adjust all valves and operating mechanism to a point where sound is entirely eliminated.

The flexible attachment of the power plant to the chassis by three-point support is, of course, retained. It maintains a direct drive, no matter how the chassis may be dipped or twisted by unevenness of the road.

A new and striking feature shown by the polished chassis in this year's Stevens-Duryea exhibit is the novel spring suspension. One member of the spring is longer than the other, so that it vibrates in a different "time." There are three cars in the exhibit besides the polished chassis, and the seven-passenger touring car is fitted with Rudge-Whitworth detachable wire wheels, with the Hook detachable rim, which is the latest design in wire wheels, and gives all the advantages of the wire wheel combined with the most modern detachable rim. It might be mentioned that the Stevens-Duryea is the only manufacturing firm exhibiting a set of genuine Rudge-Whitworth wheels with the Hook rim.

REMARKABLE TRIP

Royal Edward Gave Further Vindication of Supremacy.

The "Royal Edward" of the Canadian Northern Steamships, has given a further vindication of her assumption of supremacy in the Canadian Atlantic Service, by her remarkable trip from Bristol to Halifax, which was completed last Friday.

The "Royal Edward" holds both summer and winter records, each of which however, was made in comparatively good weather, but the governing weather conditions for the last five weeks have been such as to disorganize all traffic in the Atlantic Steamship lanes.

The crack liners of New York have been delayed several days by storms and some steamers were withdrawn from service, because of the present violence of the weather. It is more remarkable that, in a storm, unparalleled in the knowledge of the most experienced masters, the "Royal Edward," leaving Bristol on the evening of January 8th, should arrive at Halifax on the forenoon of the 17th.

The "Royal Edward" traveled thru the most violent storm centres, and although speed was at times reduced to less than 100 miles per day, the steamer docked safely, in good order, and only a few hours behind her schedule time.

CONTRABAND GEMS SOLD

NEW YORK, Jan. 22.—(Can. Press.)—Cut diamonds, weighing 40 7/8 carats, smuggled across the Canadian border and confiscated by the government, were sold at auction here today by a United States marshal, for 25 per cent more than valuation placed upon them by the government. The government appraisers thought the gems were worth \$2004, they brought \$2513.

FIFTY MILLION BUILDING YEAR FORWARDED BY A TWENTY STOREY STRUCTURE

Royal Bank Building at Northeast Corner of King and Yonge Streets Will Cost Two and a Half Millions—Many Large Construction Projects Will Make This a Record Year for Toronto.

Six months from now the Empire's tallest building will be commenced at King and Yonge streets. As intimated first in *The World* some weeks ago, the ground floor corner of the Royal Bank building will be a twenty storey structure. Plans were yesterday passed by the board of control with a recommendation that council approve.

J. and L. M. Wood are financing the construction of the building, the ground floor corner of the Royal Bank building will be a twenty storey structure, to-day six months' notice will be given to the tenants. The present structure will be removed and the work rushed ahead to a completion July 1, 1914. Ross and Macdonald of Toronto are the architects, Messrs. G. J. C. Company of New York will be the contractors, also this is not finally settled.

Prepare for Tubes.
The builders will go down two storeys or more to bedrock, and will make provision for a tube station that the financiers realize will some day be needed. The building will go 250 feet into the air, and will be three storeys higher than the projected McConkey Hotel and four storeys higher than the C.P.R. on the opposite corner, and six storeys higher than the first of the Toronto skyscrapers, the former Traders' Bank building. The structure will cost \$2,400,000; the land was bought at \$1,150,000.

The Front Row.
This twenty-storey structure puts Toronto right into the front row on this continent. Few American cities can boast of twenty storey buildings as Toronto will own when these buildings now projected are finished. This will be a record year in building permits. Already more than a half of last year's total is in sight, and it is estimated that 25,000,000 worth of building work was done last year. The figures must be repeated this year and most certainly increased.

Many Big Expenditures.
These figures must be repeated this year and most certainly increased. It is estimated on all sides that our dwelling needs were not nearly met. So it is quite easy to see our ordinary expenditures reach instead of \$25,000,000 last year, \$30,000,000 this. In 1912 only \$22,229 were spent for offices. Now to enumerate what is in sight: The new Royal Bank building, \$2,400,000; McConkey Hotel, \$2,000,000; King Edward extensions, \$2,000,000; all this to start by summer. Now add the Dominion Bank, which is not going to lag behind; the Bank of Commerce, which will likewise begin something big; the Union Bank's extended wings; the Ontario Bank's extended wings; the Imperial, Ottawa and Merchants who are ready to throw their hats in the ring. And that is not all. The National Trust, the Central Canada Loan, the Trust and Guarantee, and other big concerns are preparing to do a fifty million dollar building year isn't too much to expect.

The World has not to the best advantage.
The banks haven't yet fully made up their minds. In 1912 they will do. But they will not stay idle. The World has not to the best advantage.

Authority that interests, that while friendly are not connected with the Bank of Commerce, have tied up both the Manning and Baldwin estates and properties occupied by the McConkey restaurant. It looks more every day as if the Bank of Commerce would build its new Toronto house at the northeast corner of King and Bay streets. That is something that has been in the wind for months, and developments are shaping up rapidly.

The Dominion Bank hasn't.
The Dominion Bank hasn't decided what site building it will put up at the southwest corner of King and Yonge streets, so intimated Darling & Pearson, the architects, yesterday. "The plan," it was said, are not ready yet.

Fine Looking Buildings.
That the new Bank building will be a magnificent structure, is shown by the details. The exterior is somewhat similar in design to the former Traders' Bank building, and the plans provide the following accommodation: On the ground floor, at street level, offices for brokers and other financial institutions; on the second floor, a bank of three elevators, a lavatory and another entrance from the office entrance on the east side, thus giving to the tenants on the floors above, convenient access to the banking premises. The office entrance leads from the King street, on the east side, to a bank of three elevators, a lavatory and another entrance from the office entrance on the east side, thus giving to the tenants on the floors above, convenient access to the banking premises.

Plenty of Space to Rent.
The present plans show an arrangement providing for four large offices, giving a total area on each floor of about 9000 square feet, or a total area on the office-floors of 150,000 square feet. On each floor ample lavatory accommodation will be provided, also a spacious vault. Safe-deposit vaults will also be placed in the basement for rental to tenants and others requiring them. The equipment will include the latest and most improved mechanical and electrical appliances that can be furnished. The elevator service will have traction type machines and will be quick, comfortable and absolutely safe. A vacuum cleaning plant and high-grade plumbing will ensure sanitary conditions, and vacuum steam heating will guarantee comfort to the tenants under all weather conditions.

Faced With Limestone.
The building, when constructed with skeleton steel frames, terra cotta fireproofing of floors, partitions and furring of exterior walls. The exterior will be faced with Indiana limestone, except the base, which will be gray granite. All exterior doors and the windows throughout are to be of metal.

When this building is finished and turned over to the tenants for occupation, it will take its place with the best among office buildings recently erected in Canada and the United States, and will be the highest office building in the Dominion. In Toronto these days of building effort and achievement.

Psoriasis All Over Body

Doctors Said Incurable, But Now There is No Sign of Disease, Thanks to Dr. Chase's Ointment.

Psoriasis is one of the most dreaded of itching skin diseases. It is a sort of chronic eczema. The itching it causes is almost beyond human endurance, and doctors are accustomed to give it up as incurable. But here is a case that was given up and pronounced incurable. The result proves that Dr. Chase's Ointment is almost a sure cure in curing the worst form of itching skin disease imaginable.

Mrs. Nettie Massey, Conson, Ont., writes:—"For five years I suffered with what three doctors called psoriasis. The itching was so bad, that one of them told me if anyone offered to guarantee a cure for \$50.00 to keep my money, as I could not stand it any more. The disease spread all over me, even on my face and head, and the itching and burning was hard to bear. I used eight boxes of Dr. Chase's Ointment, and I am glad to say I am entirely cured, not a sign of a sore to be seen. I can hardly praise this ointment enough."

The soothing, healing influence of Dr. Chase's Ointment is truly wonderful. Eczema, eczema, psoriasis, ringworm and scores of such tormenting ailments are relieved at once, and as certainly cured if the Ointment is used persistently. Mothers and Dr. Chase's Ointment invaluable in preventing and curing the skin troubles of babies, such as chafing, irritations of the skin and baby eczema.

Dr. Chase's Ointment, 50 cents a box. All dealers or Edmondson, Bates & Co., Limited, Toronto.

FIVE-VOLUME SET FOR \$1.98 IS READY

Readers will have another chance tomorrow to take advantage of *The World's* great book bargain. Everybody's Cyclopædia is offered for \$1.98 and one coupon.

The set is complete in five volumes, bound in beautiful English cloth, and the regular selling price is \$12 per set. The \$10.92 saved on the purchase price of this set would pay for *The Toronto World* for three years and four months.

This great reference work treats 35,000 subjects in all branches of knowledge. Its biographical sketches include celebrities of the earliest times down to those of today. It contains a chronological history of the world from the beginning of all history down to the present. It contains educational charts which record the progress of the entire world.

Many families possess a cyclopædia of some kind. Most of them are out of date and practically all of them are too large to handle. They are of little value for educational purposes because they are too heavy for children to use, and one must search three pages after page to find the desired information.

But in *Everybody's Cyclopædia* you find your subjects in an instant, with all the facts relating thereto, and all set forth so clearly that a child may quickly grasp the meaning. This reliable, ever-ready reference book should be in every home, even the one who may have other sets.

STEAMER BROKE IN TWO BUT CREW WERE SAVED
LIVERPOOL, Jan. 22.—(Can. Press.)—The British steamer *Ulmestera*, from Baltimore Jan. 9 for Liverpool, is a wreck in the River Mersey. She ran aground today and refused assistance from a lifeboat. A heavy gale blew up, and in the high seas the vessel was carried overboard. The captain ordered the crew to jettison the cargo, and while this was in progress the steamer broke in two and heeled over with the decks awash. The crew scrambled on the bridge, from which perilous position they were rescued by a steam pilot cutter in a blinding snowstorm.

GREY MAY RESIGN ON FRANCHISE QUESTION

Defeat of Suffrage Amendment May Cause Serious Split in Aquith Cabinet

NEW YORK, Jan. 22.—(Can. Press.)—Cable to *The Tribune* from London says: The woman suffrage agitation has developed an exceedingly grave aspect. The following statement was made on high authority last night: "If the suffrage amendment is defeated and Sir Edward Grey feels that the decision has not been arrived at on the merits of the case and without consideration of any possible danger to the government, he will feel compelled to vote against the Franchise Bill on third reading and resign."

Child Scalded to Death.
CHATHAM, Jan. 22.—(Special.)—James, the 4-year-old son of Rev. James Wellwood of Raleigh, was scalded to death on his father's farm. Mr. Wellwood was filling a boiler with a barrel of hot water used in the process of dressing the carcasses in the farmyard. The little fellow climbed up on a wagon and fell into the barrel, remaining there some time before

Several Smart Advances in General List---Toronto Rails at Record For the Week.

The Toronto stock market made further progress on its upward march yesterday, a continuation of buoyancy in Brazilian, which sold up to par for the first time since October last, inspiring further bullish enthusiasm. The general list, however, did not participate in the movement to any appreciable extent, so that on the whole it was a "Brazilian" market and nothing else. Trading was so concentrated in the traction issues that most of the other erstwhile favorites were practically neglected.

The upturn in Brazilian since the first of the week has carried the price up just a shade less than 2 points, and since a week ago an advance of upwards of 6 points has been scored. Meanwhile, since Monday over 7,000 of the shares have changed hands. Taken in conjunction with the rather remarkable reports in some of the specialties, this might be accepted as conclusive evidence that the money situation must have improved considerably here. Nevertheless, financial men say that in reality the stringency has not been materially abated. The market movement must therefore be viewed as all the more remarkable on that account.

Balkan Crisis Blowing Over

In conservative market quarters it was hinted yesterday that the boom in Brazilian represents nothing more nor less than the marking up of the price by insiders in an endeavor to create a good market for the stock. It will be remembered that many months ago it was confidently asserted that the shares would be put up above par with that object in view, and only the exigencies of the financial crisis incident to the Balkan affair prevented the realization of such expectations. Now European skies are clearing, and it is said the big interests are confident that the times are opportune for the long-delayed movement.

The general list, while more buoyant, did not display any material movement. E. C. Packers came in for another flurry, the preferred "A" series reaching 156. Sawyer-Massey, Canada Bread and Spanish River improved a fraction each. Twin City was fractionally higher in some broken lots. Toronto Railway was up to a new record in two weeks at 144 1/2. Tocks sold at 39, and Toronto Paper was also fractionally improved. Bell Telephone gained over a point.

EUROPEAN OUTLOOK IS MUCH CLEARER

London Is Confident the Balkan Trouble Is Near an Early Solution---Market Stronger.

LONDON, Jan. 22.--Increased prospects of an early settlement of the Balkan trouble induced local and Continental operators to take a livelier interest in the dealings on the stock exchange today. Stocks were bid up in all sections, and the market had a firm undernote. Consols gained a sixteenth, and good dividends helped home rails, while copper shares recovered sharply with the metal.

American securities opened quiet and unchanged. Trading was light and mainly in the way of covering during the forenoon, when prices advanced from 1-4 to 3-4 over parity. Later New York supported the market, and the early improvement was maintained. The closing was steady. Money continues in good demand and discount rates remain firm, owing to the scarcity of funds and prospective gold shipments.

BALKAN BUGBEAR SOON OUT OF WAY

J. P. Beckell and Co. had the following: The chief favorable influence was the announcement that the grand council of Turkey had voted to yield to the demand of the Balkan allies as set forth in the note of the European powers, which means that Adrianople will be ceded to Bulgaria. The sentiment on the market as expressed in professional circles is still so decidedly bullish as to suggest the existence of a large short interest. The pooling of the recent rally in the market is confirmatory of this view.

QUIET ABSORPTION FOR INVESTMENT

Erickson Perkins and Co. had the following: Stocks held well today, no selling pressure, developing even at the higher level. There were brief periods of fractional reaction, but these were meaningless. The quiet absorption by investors has apparently not ceased. Nervous shorts covered a few stocks, but other shorts were put out. It is apparent from the above that any good news of the first hour would cause a sharp up-lift in prices.

ANOTHER RISE IN SENECA SUPERIOR

Seneca Superior sold at a new high record at \$1.95 in the Toronto mining markets yesterday, making an advance of 55 points over the previous sale. Last year this stock was put out at ten cents a share, so that the appreciation since that time has amounted to 1850 per cent.

HERE'S ONE EFFECT OF THE BALKAN WAR

Loss in Stock Markets Occasioned by Crisis Measured in Big Figures.

Just what amount the Balkan war has cost the world will probably never be accurately known, for it is impossible to more than roughly estimate even the pecuniary losses occasioned by the destruction of war munitions and the cost of upkeep for an army. In addition to various other charges, such as loss of time and devastation of property, there must be added the depreciation in security values occasioned by the crisis in the storm centre. This will, of course, be made up in whole or in part later on, but nevertheless, it must be reckoned with, since it represents an actual monetary loss.

The extent to which the stock markets have suffered by reason of the Balkan affair is plainly evidenced in the fact that at the end of last month the London Exchange stood at its lowest level of the year, and a new low record since 1908. From Jan. 1 to Dec. 31, 1912, the value of 337 representative stocks dealt in depreciated \$76,818,000. Compared with the high-level of the year, April, the depreciation was \$29,418,000.

The following table shows the value of the 337 securities on the 30th of each month, and gives the comparative figures since 1908. (Three figures omitted.)

1908	Nov.	\$2,850,106	Sept.	\$3,358,797
1909	Dec.	\$3,009,490	Oct.	\$3,102,865

BRITISH BANKS ON THE BARGAIN TABLE

Stocks Marked Down to Lowest in Years---Bank of England Declines.

In the general downfall in the London stock market, the gilt-edged investment securities have suffered as much as any other department, and both Bank of England and Bank of Ireland shares, which are among the leaders, have reached their lowest prices in many years. Bank of Ireland sold down to 240, bringing it 5 1/2 points under the current quotation for Bank of England.

It is a rather surprising fact that Bank of Ireland should break below Bank of England, for in the last ten years no parallel of the case has been seen. From 1900 to 1910 Bank of Ireland ranged from 389 to 281, while at the same time Bank of England did not fall above 328, and sold at low as 242 1/2. This is due to the fact that the former paid dividends of not less than 1 1/2 per cent. (less income tax) per annum, and in 1908 and 1910 disbursed 12 per cent. The Bank of England meanwhile paid 8 per cent.

Last year the Bank of Ireland dropped its dividend to 5 per cent, for the first half year, and the recent action of the stock would indicate that there is apprehension lest a further reduction will be necessitated. Another explanation of the reaction is the apprehension as to the effect of home rule on business.

The recent decline in consols and other gilt-edged securities has necessitated the writing down of reserves by the banks, and in 1910 the Bank of Ireland marked down the value of its reserves by \$20,000, and the following year by \$15,000, and this time however, i.e. in two years, it added \$22,000 to reserves. Its capital is \$2,765,231, which compared with the \$2,145,550 of the Bank of England. The low price on the stock of the latter in recent years was 224, struck last year.

BIG DIVIDENDS ARE DUE NEXT MONTH

February Payments Across the Border Estimated at Nearly Ninety Millions of Dollars.

Total dividend and interest disbursements for February, 1913, in the United States, are estimated at \$86,000,000 by The Wall Street Journal. The following table gives the interest and dividend disbursements in detail, showing the capitalization upon which the various payments are made:

Companies	Dividends	Stock
Railroads	\$86,032,541	\$18,708,559
Industrial and mfg.	688,994,752	14,284,107

WAR CLOUDS FADE MARKET BUOYANT

Turkey's Acceptance of Terms Acted as Tonic Just Before Session Ended.

OUTLOOK IS BETTER

Copper Trade More Satisfactory and Money Market Shows Continued Ease.

NEW YORK, Jan. 22.--The advantage gained during the upward swing of the stock market yesterday, was maintained through the day, and further advances were made. Traders on the long side of the market operated more confidently, leaning their weight on the technical strength of their position on the failure of yesterday's sharp up-turn to bring out a supply of stocks awaiting market. The assumed supposed vulnerability of the short interest. There was further covering of short contracts, and at times during the session prices were marked up in response to spirited bidding.

News of the acceptance by Turkey of the peace terms, and at times during a few minutes before the close, and was followed by an outburst of active buying for both accounts, during which prices were lifted to the highest point of the day. Substantial gains were registered among both speculative and investment issues, although the rise of the leaders was smaller than yesterday's.

Copper Trade Improves.

More attention was paid today to favorable factors in the general situation, such as better reports from the copper trade and the continued ease of the money market.

While news of the conclusion of the Balkan war was received too late to determine the full measure of its effect upon the securities market, some development of the sort had been indicated by the strength of European London bought stocks here on a moderate scale. The clearing of the European political situation will have a restraining influence which has borne heavily upon the bourses of Europe, and less directly, upon the home market.

JAMES J. HILL IS A REAL OPTIMIST

Veteran Railroader Sees Prosperity Ahead as Usual---Bullish on St. Paul Line.

NEW YORK, Jan. 22.--James J. Hill arrived here from St. Paul yesterday and expects to remain in the east for ten days. Mr. Hill said that he had been subpoenaed by the Pujo committee to testify before it, but expressed his willingness to do so if requested. There is reason for believing that he will testify the latter part of this week.

Mr. Hill stated that the gross earnings of the Great Northern Railway Co. for the first two weeks of January showed an increase of about \$500,000 and that he thought that the earnings of the present fiscal year would be about \$10,000,000 larger than those for the last fiscal year.

In the northwest Mr. Hill said that he had not been able to discover any falling off in business, but he thought general business conditions as good and optimistic as in his judgment, the east, and that he has bought and which he has consolidated. He explained that this matter was primarily a local enterprise.

SHORTS STAMPED IN N. Y. COTTON PIT

Erickson Perkins & Co. (J. G. Beatty) wired: A sharp bulge in the Liverpool market, together with urgent news from New Orleans, caused local sentiment to veer toward the bull side today. As a result, prices called sharply during the morning session, with the high prices 40 to 55 points above Monday's low. This representative market is to cause heavier profit-taking, and the market turned easier during the late session. In our opinion, the rally has gone far enough for the time being.

COBALT ISSUES TO COME OUT IN LONDON

LONDON, Jan. 22.--The Toronto Power Co. is arranging for the issue of \$2,000,000 4 1/2 per cent. debentures at 97. Several Cobalt issues are being prepared.

NORTH DOME SUBMITS ITS ANNUAL REPORT

The annual general meeting of the North Dome Mining Company will be held at the head offices, 55 East Wellington street, on Jan. 27.

The balance sheet of the company up to the end of last year shows the assets to be \$2,041,256.05, including the property, which is valued at \$1,000,000. Capital stock amounts to \$2,000,000 and accounts and wages payable to \$41,386.95. The receipts to the end of the year were \$104,103.96, while expenditure amounted to \$102,366.10.

CROWN RESERVE HAD BIG SURPLUS

Net Earnings Last Year Showed Good Increase---Big Balance Is Carried Forward.

MONTREAL, Jan. 22.--The annual meeting of the Crown Reserve Mining Company was held at 2 o'clock this afternoon in the Sallors' institute, a large number of shareholders attending.

According to the annual statement given the shareholders the surplus for 1912 totals \$221,222.90, as compared with \$765,821.76 in 1911.

The profit and loss account shows: Balance from 1911, \$765,821.76; profit from operating for 1912, \$1,124,016.71, against \$1,279,739.79 in 1911; interest from bank, \$9,883.74; total, \$1,900,948.

SWASTIKA CLAIMS WILL BE DEVELOPED

Properties Adjoining Famous Foster Lots in Lebel-Will Be Given a Chance.

SWASTIKA, Jan. 22.--J.T.M. Burnside arrived in camp yesterday, and he and J. P. W. Armstrong, who together own the Burnside claims, are preparing to work their property, consisting of three claims, two in Teck, immediately south and adjoining the Foster-Tough, and one in Lebel.

Veins Nos. 4 and 5 from the Foster-Tough property have been traced on to the north claim, and from a sample taken by Mr. Anderson from vein No. 4 good assays were obtained. In a few days there will be a gang of ten or twelve men working on the property.

BIG COBALTS ARE IN BETTER DEMAND

Nipissing, Coniagas and Kerr Lake on Rampage Again---Cheaper Issues Irregular.

The mining markets developed some irregularity yesterday, a continued buoyancy in some of the Cobalt stocks being off-set to a certain extent by a somewhat reactionary trend in others. On the whole, however, the list showed up to good advantage, and the action of prices was clearly indicative of the confidence of speculators in the outlook for securities. Trading was active, the not up to the records recently established.

In the dividend paying issues it was apparent that accumulation was under way. Higher prices for Nipissing, which reached 16 1/2, a gain of 1 1/2 points, evidenced the fact that the shares were in demand again, and it was freely hinted that the insiders were the purchasers. La Rose sold at \$2.75, unchanged from its recent levels. Coniagas closed at \$2.10 bid, a new high record in its history. Kerr Lake was quoted up to \$3 on the curb.

Beaver on Down Grade.

In the cheaper stocks weakness was shown by Beaver, City of Cobalt and Cobalt Lake. The former lost over two points to 40, City was off 2 to 37 and Cobalt Lake dropped below 48 again. The down-turn in these issues was not viewed with much interest, as the setback was accepted as a purely natural event after the recent bulge and not indicative of anything new. Such issues as Peterson, Chambers, Timiskaming and some of the inactive ones showed strength under a sustained demand. Trethewey rose to 34.

The market on the whole was in a resting mood, but showed some inclination to waver at times. In view of the small floating supply of stock the incoming of a new line of buying should quickly turn the trend to prices, and therefore a resumption of the upward movement is anticipated.

Porcupine were quiet but firm, with Hollinger quoted at \$15.90 bid, ex-dividend. Pearl Lake sold at 29 1/2 and showed resiliency thruout. Vipond rose to 20.

SPLendid FIND IN GODFREY TOWNSHIP

Free Gold Discovery Made in Territory Due West of Porcupine Camp.

PORCUPINE, Jan. 22.--While a gang of men were employed by the Depaulo-Loekie syndicate in sinking on claim number 2285 P in Godfrey, two townships west of Whitney, a valuable vein was encountered at the depth of eight feet, containing free gold right across the vein, which was apparently twelve feet wide, and continued for a considerable distance. It is the intention of the company to continue developments for some time in order to ascertain as near as possible the exact contents.

When the strike was made E. Depaulo immediately went to Sudbury to inform Major Loekie of the valuable vein. The syndicate is quite jubilant over the find. Some assays taken on this vein have run as high as \$18 a ton, and it is believed that the discovery will prove a big incentive to the prospecting and investigating of Godfrey Township.

SHARP RALLY IN CANADIAN PACIFIC

In the sharp rally which occurred in the New York stock market yesterday, following the announcement that the Balkan crisis was practically over, C. P. R. came to the front in an uncertain manner. The shares jumped nearly three points to 247, making a net gain of 5 1/2 points in two days. With the rights added, this quotation was equivalent to about 266.

THURSDAY MORNING
 THE TORONTO WORLD
 JANUARY 23 1913
 BRAZILIAN AT PAR
 HIGHEST IN MONTHS
 BLOWING OVER OF BALKAN CRISIS
 IS REFLECTED IN THE TORONTO STOCK EXCHANGE.
 STOCKS ARE BUOYANT
 SEVERAL SMART ADVANCES IN GENERAL LIST--TORONTO RAILS AT RECORD FOR THE WEEK.
 THE TORONTO STOCK MARKET MADE FURTHER PROGRESS ON ITS UPWARD MARCH YESTERDAY, A CONTINUATION OF BUOYANCY IN BRAZILIAN, WHICH SOLD UP TO PAR FOR THE FIRST TIME SINCE OCTOBER LAST, INSPIRING FURTHER BULLISH ENTHUSIASM. THE GENERAL LIST, HOWEVER, DID NOT PARTICIPATE IN THE MOVEMENT TO ANY APPRECIABLE EXTENT, SO THAT ON THE WHOLE IT WAS A "BRAZILIAN" MARKET AND NOTHING ELSE. TRADING WAS SO CONCENTRATED IN THE TRACTION ISSUES THAT MOST OF THE OTHER ERSTWHILE FAVORITES WERE PRACTICALLY NEGLECTED.
 THE UPTURN IN BRAZILIAN SINCE THE FIRST OF THE WEEK HAS CARRIED THE PRICE UP JUST A SHADE LESS THAN 2 POINTS, AND SINCE A WEEK AGO AN ADVANCE OF UPWARDS OF 6 POINTS HAS BEEN SCORED. MEANWHILE, SINCE MONDAY OVER 7,000 OF THE SHARES HAVE CHANGED HANDS. TAKEN IN CONJUNCTION WITH THE RATHER REMARKABLE REPORTS IN SOME OF THE SPECIALTIES, THIS MIGHT BE ACCEPTED AS CONCLUSIVE EVIDENCE THAT THE MONEY SITUATION MUST HAVE IMPROVED CONSIDERABLY HERE. NEVERTHELESS, FINANCIAL MEN SAY THAT IN REALITY THE STRINGENCY HAS NOT BEEN MATERIALLY ABATED. THE MARKET MOVEMENT MUST THEREFORE BE VIEWED AS ALL THE MORE REMARKABLE ON THAT ACCOUNT.
 BALKAN CRISIS BLOWING OVER.
 IN CONSERVATIVE MARKET QUARTERS IT WAS HINTED YESTERDAY THAT THE BOOM IN BRAZILIAN REPRESENTS NOTHING MORE NOR LESS THAN THE MARKING UP OF THE PRICE BY INSIDERS IN AN ENDEAVOR TO CREATE A GOOD MARKET FOR THE STOCK. IT WILL BE REMEMBERED THAT MANY MONTHS AGO IT WAS CONFIDENTLY ASSERTED THAT THE SHARES WOULD BE PUT UP ABOVE PAR WITH THAT OBJECT IN VIEW, AND ONLY THE EXIGENCIES OF THE FINANCIAL CRISIS INCIDENT TO THE BALKAN AFFAIR PREVENTED THE REALIZATION OF SUCH EXPECTATIONS. NOW EUROPEAN SKIES ARE CLEARING, AND IT IS SAID THE BIG INTERESTS ARE CONFIDENT THAT THE TIMES ARE OPPORTUNE FOR THE LONG-DELAYED MOVEMENT.
 THE GENERAL LIST, WHILE MORE BUOYANT, DID NOT DISPLAY ANY MATERIAL MOVEMENT. E. C. PACKERS CAME IN FOR ANOTHER FLURRY, THE PREFERRED "A" SERIES REACHING 156. SAWYER-MASSEY, CANADA BREAD AND SPANISH RIVER IMPROVED A FRACTION EACH. TWIN CITY WAS FRACTIONALLY HIGHER IN SOME BROKEN LOTS. TORONTO RAILWAY WAS UP TO A NEW RECORD IN TWO WEEKS AT 144 1/2. TOCKS SOLD AT 39, AND TORONTO PAPER WAS ALSO FRACTIONALLY IMPROVED. BELL TELEPHONE GAINED OVER A POINT.
 EUROPEAN OUTLOOK IS MUCH CLEARER
 LONDON IS CONFIDENT THE BALKAN TROUBLE IS NEAR AN EARLY SOLUTION---MARKET STRONGER.
 LONDON, JAN. 22.--INCREASED PROSPECTS OF AN EARLY SETTLEMENT OF THE BALKAN TROUBLE INDUCED LOCAL AND CONTINENTAL OPERATORS TO TAKE A LIVELIER INTEREST IN THE DEALINGS ON THE STOCK EXCHANGE TODAY. STOCKS WERE BID UP IN ALL SECTIONS, AND THE MARKET HAD A FIRM UNDERNOTE. CONSOLES GAINED A SIXTEENTH, AND GOOD DIVIDENDS HELPED HOME RAILS, WHILE COPPER SHARES RECOVERED SHARPLY WITH THE METAL.
 AMERICAN SECURITIES OPENED QUIET AND UNCHANGED. TRADING WAS LIGHT AND MAINLY IN THE WAY OF COVERING DURING THE FORENOON, WHEN PRICES ADVANCED FROM 1-4 TO 3-4 OVER PARITY. LATER NEW YORK SUPPORTED THE MARKET, AND THE EARLY IMPROVEMENT WAS MAINTAINED. THE CLOSING WAS STEADY. MONEY CONTINUES IN GOOD DEMAND AND DISCOUNT RATES REMAIN FIRM, OWING TO THE SCARCITY OF FUNDS AND PROSPECTIVE GOLD SHIPMENTS.
 BALKAN BUGBEAR SOON OUT OF WAY
 J. P. BECKELL AND CO. HAD THE FOLLOWING: THE CHIEF FAVORABLE INFLUENCE WAS THE ANNOUNCEMENT THAT THE GRAND COUNCIL OF TURKEY HAD VOTED TO YIELD TO THE DEMAND OF THE BALKAN ALLIES AS SET FORTH IN THE NOTE OF THE EUROPEAN POWERS, WHICH MEANS THAT ADRIANOPLE WILL BE CEDITED TO BULGARIA. THE SENTIMENT ON THE MARKET AS EXPRESSED IN PROFESSIONAL CIRCLES IS STILL SO DECIDEDLY BULLISH AS TO SUGGEST THE EXISTENCE OF A LARGE SHORT INTEREST. THE POOLING OF THE RECENT RALLY IN THE MARKET IS CONFIRMATORY OF THIS VIEW.
 QUIET ABSORPTION FOR INVESTMENT
 ERICKSON PERKINS AND CO. HAD THE FOLLOWING: STOCKS HELD WELL TODAY, NO SELLING PRESSURE, DEVELOPING EVEN AT THE HIGHER LEVEL. THERE WERE BRIEF PERIODS OF FRACTIONAL REACTION, BUT THESE WERE MEANINGLESS. THE QUIET ABSORPTION BY INVESTORS HAS APPARENTLY NOT CEASED. NERVOUS SHORTS COVERED A FEW STOCKS, BUT OTHER SHORTS WERE PUT OUT. IT IS APPARENT FROM THE ABOVE THAT ANY GOOD NEWS OF THE FIRST HOUR WOULD CAUSE A SHARP UP-LIFT IN PRICES.
 ANOTHER RISE IN SENECA SUPERIOR
 SENECA SUPERIOR SOLD AT A NEW HIGH RECORD AT \$1.95 IN THE TORONTO MINING MARKETS YESTERDAY, MAKING AN ADVANCE OF 55 POINTS OVER THE PREVIOUS SALE. LAST YEAR THIS STOCK WAS PUT OUT AT TEN CENTS A SHARE, SO THAT THE APPRECIATION SINCE THAT TIME HAS AMOUNTED TO 1850 PER CENT.
 HERE'S ONE EFFECT OF THE BALKAN WAR
 LOSS IN STOCK MARKETS OCCASIONED BY CRISIS MEASURED IN BIG FIGURES.
 JUST WHAT AMOUNT THE BALKAN WAR HAS COST THE WORLD WILL PROBABLY NEVER BE ACCURATELY KNOWN, FOR IT IS IMPOSSIBLE TO MORE THAN ROUGHLY ESTIMATE EVEN THE PECUNIARY LOSSES OCCASIONED BY THE DESTRUCTION OF WAR MUNITIONS AND THE COST OF UPKEEP FOR AN ARMY. IN ADDITION TO VARIOUS OTHER CHARGES, SUCH AS LOSS OF TIME AND DEVASTATION OF PROPERTY, THERE MUST BE ADDED THE DEPRECIATION IN SECURITY VALUES OCCASIONED BY THE CRISIS IN THE STORM CENTRE. THIS WILL, OF COURSE, BE MADE UP IN WHOLE OR IN PART LATER ON, BUT NEVERTHELESS, IT MUST BE RECKONED WITH, SINCE IT REPRESENTS AN ACTUAL MONETARY LOSS.
 THE EXTENT TO WHICH THE STOCK MARKETS HAVE SUFFERED BY REASON OF THE BALKAN AFFAIR IS PLAINLY EVIDENCED IN THE FACT THAT AT THE END OF LAST MONTH THE LONDON EXCHANGE STOOD AT ITS LOWEST LEVEL OF THE YEAR, AND A NEW LOW RECORD SINCE 1908. FROM JAN. 1 TO DEC. 31, 1912, THE VALUE OF 337 REPRESENTATIVE STOCKS DEALT IN DEPRECIATED \$76,818,000. COMPARED WITH THE HIGH-LEVEL OF THE YEAR, APRIL, THE DEPRECIATION WAS \$29,418,000.
 THE FOLLOWING TABLE SHOWS THE VALUE OF THE 337 SECURITIES ON THE 30TH OF EACH MONTH, AND GIVES THE COMPARATIVE FIGURES SINCE 1908. (THREE FIGURES OMITTED.)
 1908 Nov. \$2,850,106 Sept. \$3,358,797
 1909 Dec. \$3,009,490 Oct. \$3,102,865
 1910 Jan. \$3,767,144 Nov. \$4,111,463
 1911 Feb. \$4,098,016 Dec. \$4,002,383
 1912 Jan. \$3,728,464 Jan. \$3,603,363
 1913 Feb. \$3,635,000 March \$3,619,769
 1914 Jan. \$3,678,894 April \$3,619,769
 Feb. \$3,678,894 May \$3,619,769
 March \$3,678,894 June \$3,619,769
 April \$3,678,894 July \$3,619,769
 May \$3,678,894 August \$3,619,769
 June \$3,678,894 Sept. \$3,619,769

 High point. Low point.
 BRITISH BANKS ON THE BARGAIN TABLE
 STOCKS MARKED DOWN TO LOWEST IN YEARS---BANK OF ENGLAND DECLINES.
 IN THE GENERAL DOWNFALL IN THE LONDON STOCK MARKET, THE GILT-EDGED INVESTMENT SECURITIES HAVE SUFFERED AS MUCH AS ANY OTHER DEPARTMENT, AND BOTH BANK OF ENGLAND AND BANK OF IRELAND SHARES, WHICH ARE AMONG THE LEADERS, HAVE REACHED THEIR LOWEST PRICES IN MANY YEARS. BANK OF IRELAND SOLD DOWN TO 240, BRINGING IT 5 1/2 POINTS UNDER THE CURRENT QUOTATION FOR BANK OF ENGLAND.
 IT IS A RATHER SURPRISING FACT THAT BANK OF IRELAND SHOULD BREAK BELOW BANK OF ENGLAND, FOR IN THE LAST TEN YEARS NO PARALLEL OF THE CASE HAS BEEN SEEN. FROM 1900 TO 1910 BANK OF IRELAND RANGED FROM 389 TO 281, WHILE AT THE SAME TIME BANK OF ENGLAND DID NOT FALL ABOVE 328, AND SOLD AT LOW AS 242 1/2. THIS IS DUE TO THE FACT THAT THE FORMER PAID DIVIDENDS OF NOT LESS THAN 1 1/2 PER CENT. (LESS INCOME TAX) PER ANNUM, AND IN 1908 AND 1910 DISBURSED 12 PER CENT. THE BANK OF ENGLAND MEANWHILE PAID 8 PER CENT.
 LAST YEAR THE BANK OF IRELAND DROPPED ITS DIVIDEND TO 5 PER CENT, FOR THE FIRST HALF YEAR, AND THE RECENT ACTION OF THE STOCK WOULD INDICATE THAT THERE IS APPREHENSION LEST A FURTHER REDUCTION WILL BE NECESSITATED. ANOTHER EXPLANATION OF THE REACTION IS THE APPREHENSION AS TO THE EFFECT OF HOME RULE ON BUSINESS.
 THE RECENT DECLINE IN CONSOLES AND OTHER GILT-EDGED SECURITIES HAS NECESSITATED THE WRITING DOWN OF RESERVES BY THE BANKS, AND IN 1910 THE BANK OF IRELAND MARKED DOWN THE VALUE OF ITS RESERVES BY \$20,000, AND THE FOLLOWING YEAR BY \$15,000, AND THIS TIME HOWEVER, I.E. IN TWO YEARS, IT ADDED \$22,000 TO RESERVES. ITS CAPITAL IS \$2,765,231, WHICH COMPARED WITH THE \$2,145,550 OF THE BANK OF ENGLAND. THE LOW PRICE ON THE STOCK OF THE LATTER IN RECENT YEARS WAS 224, STRUCK LAST YEAR.
 BIG DIVIDENDS ARE DUE NEXT MONTH
 FEBRUARY PAYMENTS ACROSS THE BORDER ESTIMATED AT NEARLY NINETY MILLIONS OF DOLLARS.
 TOTAL DIVIDEND AND INTEREST DISBURSEMENTS FOR FEBRUARY, 1913, IN THE UNITED STATES, ARE ESTIMATED AT \$86,000,000 BY THE WALL STREET JOURNAL. THE FOLLOWING TABLE GIVES THE INTEREST AND DIVIDEND DISBURSEMENTS IN DETAIL, SHOWING THE CAPITALIZATION UPON WHICH THE VARIOUS PAYMENTS ARE MADE:
 Companies Dividends Stock
 Railroads \$86,032,541 \$18,708,559
 Industrial and mfg. 688,994,75
