Huerta Refuses to Salute

DEMAND FOR SIGNED PROTOCOL BROUGHT END TO NEGOTIATIONS

Huerta Only Willing to Accede to Proposals of United States Provided Agreement Was Put in Writing— Call for Men and Money to Be Made by Wilson.

WASHINGTON, April 20.—The breach that finally has come with Mexico will make it impossible, it was declared tonight on high authority, for the United States to further protect foreigners in that republic, and foreign governments have been notified of the situation in this regard.

The president, it was declared, not only would ask congress for authority to use the armed forces to uphold the honor of the nation, but also for an appropriation, a deficiency already having been created because of the expensive naval operations in anticipation of Huerta's defiance of this country.

Call on Volunteers. The president tomorrow will probably ask that the senate pass the Volunteer Act which already has passed the house, providing for passing into regular service the militia regiments in the various states.

In preparation for the crisis that

must be met, Senator Shively, chairman of the senate foreign relations committee, and Representative Flood, chairman of the house foreign affairs committee, called meetings for these committees tomorrow.

Representative Flood, who is on his honeymoon, telephoned from New York that he would return at once.

Just before midnight Secretary Bryan issued this statement: "A little after 11 o'clock last night, a brief despatch came from Charge O'Shaughnessy at Mexico City, saying that the president's demand of yesterday had been communicated to the foreign minister and was being carried by him to Gen. Huerta. The foreign minister asked O'Shaughnessy whether in case Gen. Huerta acceded to the demand, a protocol would be signed, providing for a return of the salute. The following despatch was sent to Mr. O'Shaughnessy, in substance: "President Wilson is out of the city. It is impossible to reach him before 8 a.m. tomorrow. Am certain that he would not consent to have you sign the protocol mentioned in your telegram. The salute

The Canadian Northern Situation at Ottawa

Special to The Toronto World. OTTAWA, April 19.—The return of Premier Borden to his office on Tuesday from a short rest in the south will see the shape-up of the business for the balance of the session and the closing of some kind of an agreement between the government and the Canadian Northern by which the Dominion is to guarantee forty-five millions of the bonds of the company.

It is asserted by the company that it will take one hundred millions to complete and equip the road (of over ten thousand miles), and Sir William Mackenzie believes that he will be able to raise all this money on bonds of the company, 45 per cent. guaranteed by Canada and fifty-five millions guaranteed by the provinces and already arranged for.

To market these securities Sir William Mackenzie will need all his

energy and all his backing in London and Canada, and he will need to get a good send-off from the government and parliament. It is claimed that the situation is extremely urgent, and that if an announcement is not made as early as possible to the effect that parliament is prepared to come to the assistance of the road work on construction will have to be greatly curtailed.

The Main Responsibility. Apparently the main responsibility for parliamentary action will be on Mr. Borden rather than on the cabinet or even the Conservative caucus, for after the whole thing has been threshed out it will be Mr. Borden who will have to decide. He can't ask the caucus to decide, he will have to do this himself and ask his followers to endorse.

WILSON ON WAY TO WASHINGTON

President Refused to Discuss Mexican Situation Before Leaving West Virginian Resort.

Canadian Press Despatch. WHITE SULPHUR SPRINGS, W. Va., April 19.—President Wilson detached himself completely from the Mexican crisis today, diverting his mind from worry over what Huerta's answer might be to the ultimatum, by a quiet day in the company of Mrs. Wilson and their two daughters.

Although ready to go to his private car, the president, on receiving word at 8.30 from one of the newspapermen, that a message from Mexico City was en route to the state department, decided to wait in his suite at the hotel for a few hours. He will leave at 11.30 p.m., arriving at Washington at 7.15 in the morning.

The president was walking up and down the private corridor near his suite, anxiously awaiting news tonight. On the main floor below the guests in the hotel listened to an orchestra concert.

At 10 p.m. this announcement was made from President Wilson's rooms at the hotel: "The president will have nothing to say on Mexico tonight."

This followed the receipt of long messages from Washington. The president stayed in his room, and it is believed he occupied himself in preparing an address to be delivered in person before a joint session of congress.

TWO ADMIRALS IN CONFERENCE

Commander of American Warships Called on British Admiral at Vera Cruz.

Canadian Press Despatch. VERA CRUZ, April 19.—The British rear-admiral, Sir Christopher Cradock, who arrived here today from Tampico, aboard the cruiser Essex, was visited by Rear-Admiral Frank F. Fletcher, in command of the American warships, immediately after the Essex anchored.

The two admirals had a conference lasting more than an hour, but nothing is known relative to their plans.

Vera Cruz is very quiet, many Mexicans not even being aware of the tension existing between the two governments.

DID MAN DROWN WHEN CANOE UPSET?

Steamboat Men Say They Saw a Man Sink in the Bay After Another Had Tried to Rescue Him, But Police Are Inclined to Discredit the Story.

Although the police discredit the story, there seems to be no doubt that a man lost his life in the bay on Wednesday of last week, as the result of his canoe upsetting. The rumor that a drowning had occurred reached the police, and after making a few inquiries they abandoned the clue, stating that the persons who claim that a drowning had taken place were suffering from a hallucination. To their knowledge no one had been reported missing, and they thought that the matter was not worth further investigation. One officer on duty at the Yonge street wharf volunteered the information that after reasonable inquiries had been made, the story was discredited. Asked as to whether inquiries had been made from the men on the boats which are tied up at the wharves, the police admitted that nothing had been done in that direction.

On Wednesday morning at about 9 o'clock, when a fresh breeze was ruffling the water of the bay, a deckhand

Bryan Kept Wilson Posted on Mexican Situation Thruout Sunday Over Telephone— Battleship and Torpedo Flotilla Ordered to Join Movement to Tampico.

Canadian Press Despatch. WASHINGTON, April 19.—Thruout the day the Mexican crisis occupied the absorbing attention of officials, dispelling the usual calm of a beautiful midday Sunday. President Wilson arrived at White Sulphur Springs, W. Va., early in the day, after a night ride from Washington, and there joined Mrs. Wilson.

Secretary Bryan remained up practically all night, awaiting some definite word from Mexico City. He was at the state department until after midnight, and on going home continued telephoning to those in the cipher room at the state department until 4 o'clock this morning.

Shortly after 9 o'clock Mr. Bryan had received two messages from Mexico City. Both were from Charge O'Shaughnessy. The first was merely formal, stating that the message of President Wilson, giving Huerta until 6 o'clock tonight to yield, had been communicated to Portillo y Rojas, the minister for foreign affairs, and that a reply would follow. The second despatch was in the nature of a

DANE ACCEPTS NEW POSITION

T. & N. O. Commissioner Will Go to Europe for Dominion Government—Geo. W. Lee Succeeds.

Fred Dane has resigned from the Timiskaming and Northern Ontario Railway Commission. He will accept a position in the trade and commerce branch of the Dominion Government under Hon. George E. Foster, which will take him to Europe. He is succeeded by Geo. W. Lee, mayor of North Bay. Mr. Lee has been general agent for the T. & N. O. Railway for nine years.

Mr. Dane has been a member of the T. & N. O. commission for eight years, and held also the post of land commissioner. He is one of the most prominent Orangemen in Ontario, and has given general satisfaction by his work and his thorough knowledge of conditions in Northern Ontario. He has been instrumental in opening up a large section of the north to settlement.

He was asked by The World last night about his new appointment, but refused to say even that he had resigned. The government, he said, would give out all the information.

Mr. Lee's appointment meets with general satisfaction in the north, where it was thought that a Northern Ontario man should be appointed to the commission. During his term of office as general agent for the T. & N. O. he has familiarized himself with conditions in the north country and has a thorough knowledge of railway operation.

YALE STUDENTS GLAD OF WAR PROSPECTS

NEW HAVEN, Conn., April 19.—Two thousand Yale students paraded the campus tonight, cheering the news of Huerta's refusal to salute the flag. Headed by an impromptu band and singing patriotic songs, the student throng serenaded former President Taft, President Hadley and Secretary Stokes.

HUERTA MAKES FINAL REFUSAL TO ACCEDE TO DEMANDS OF U.S.

War Cannot Now Be Averted—Mexican Government's Flat Declaration That No Further Concession is Consistent With National Dignity Has Brought End to Negotiations—Congress Will Today Pass Resolutions Constituting a Virtual Declaration of War—Program of Refusal Must Be Carried Out, Says Washington Administration.

MEXICO CITY, April 19.—The Mexican foreign minister, Senor Portillo y Rojas, announced tonight that it would be impossible to agree to the demand of the United States that the flag of that country be unconditionally saluted, because that flag was not insured, because it was not flying from the launch, and because the marines were set free even before an investigation, and the officer responsible for the arrests was himself arrested and held for trial.

The foreign minister further announced that the Mexican Government would agree that both flags be saluted, the American flag first, and then the Mexican flag, this arrangement to be made by a protocol signed by the American charge d'affaires, Nelson O'Shaughnessy, and the Mexican foreign minister.

NOT COMPATIBLE WITH DIGNITY. The United States Government, Senor Portillo declared, had refused permission to Charge O'Shaughnessy to sign such a protocol, and demanded an unconditional salute by Mexico, which Mexico felt was incompatible with her dignity.

In conclusion, the foreign minister said: "Mexico has yielded as much as her dignity will permit. Mexico trusts to the fair-mindedness and spirit of justice of the American people."

UNCONDITIONAL SALUTE BELOW DIGNITY OF MEXICAN PEOPLE. WASHINGTON, April 19.—Gen. Victoriano Huerta, provisional president of Mexico, flatly refused tonight to accede to the unconditional demands of the United States that he salute the American flag and congress will be asked by President Wilson tomorrow for authority to use armed forces to uphold the honor and dignity of the nation.

NOT FORMAL DECLARATION. President Wilson at midnight was on his way to Washington from White Sulphur Springs preparing to read a message to congress in joint session as early as it can be arranged tomorrow. In the meantime American war fleets were moving down both coasts on their way to Mexican waters to carry out the president's plan for reprisals.

The crisis thus reached does not mean that there will be a formal declaration of war, because the United States could not declare war against a government which it does not recognize. President Wilson will seek authority, however, to send armed forces into Mexico, to seize first the Ports of Tampico and Vera Cruz and the railroad trestle leading to Mexico City. The president directed that a cabinet meeting be called for 10.30 o'clock tomorrow, when the final arrangements for a pacific blockade of Mexican ports will be made.

NO OFFICIAL DECLARATION OF WAR BUT REPRISAL WILL BE CARRIED OUT

WASHINGTON AROUSED TO PATRIOTIC FERVOR

Streets Thronged Last Night and Some Demonstrations Inspired by Music.

Canadian Press Despatch. WASHINGTON, April 19.—News from Mexico was awaited by the people of the capital with the keenest interest. All thru the evening the streets were thronged, and crowds gathered in front of the newspaper offices. In the hotel lobbies the crisis was the one topic of conversation and some of the crowds, inspired by the playing of the "Star Spangled Banner" and "America," engaged in patriotic demonstrations.

Senators and representatives, anxious to receive some official word, besieged the White House and the state and navy departments with requests for information.

WAR DECLARATION MAY BE ISSUED BY CONGRESS

Joint Session Will Hear What Wilson Has to Say, Committee Will Pass Resolutions and Entire U. S. Naval and Military Services Will Be Called Out for War.

WASHINGTON, April 20.—Majority Leader Underwood will undoubtedly offer a joint resolution in the house when it meets at noon today, providing for a joint session of congress within an hour. The joint session will hear what the president has to advise on the Mexican situation, and probably before the president returns to the White House a resolution will have been offered in each house in separate session. The chairman of the foreign affairs and foreign relations committee will offer the resolutions, which will immediately be referred to the respective committees. Hurred sessions of the committees will report the resolutions and before adjournment on either side of the capital they will be passed by both houses and laid before the president.

Declaration of War. Congressional leaders were busy studying precedents for the resolution which will confer plenary war powers on the president. The message probably will follow, to some extent, the April 20, 1913, against Spain. That resolution, after reciting the conditions in Cuba and the destruction of the battleship Maine, recognized the independence of Cuba and called upon Spain to withdraw its forces from the island. The resolution then proceeded to "empower and direct" the president, "to use the entire land and naval forces of the United States and to call into actual service of the United States the militia of the several states to such extent as may be necessary to carry the resolution into effect."

Bryan and Colleagues at Work on Statement to Be Presented to Congress Today—Will Show World That United States "Means Business."

Canadian Press Despatch. WASHINGTON, April 19.—Secretary Bryan, in conference with Secretary Daniels, Secretary Tumulty and Boaz Long, chief of the Latin-American bureau of the state department, prepared tonight to issue a statement outlining the outcome of the negotiations and explaining the position of the United States. About 11.30 o'clock Senator Shively, acting chairman of the senate foreign relations committee, reached the White House and joined the conference.

"It's all over," said the senator. "I can have nothing more to say until after I have conferred with the leaders." Messengers were sent for Senators Kern and Gallinger, the Democratic and Republican leaders in the senate, and Representatives Underwood and Mann, the house leaders, who are to arrange for the joint session of congress to be addressed by the president.

"It will show Mexico and the world generally that the United States means business," he added, "and will have a good effect upon our foreign relations generally."

Mexican Ambassador Silent. The Mexican ambassador here received no word during the day from their government, although the officials there waited in momentary expectation that a message from their foreign office might be delivered to them. Senor Alagra, charge of the embassy, with the secretaries, sat in his office thruout the day and until late at night, anxiously awaiting developments. After the final news was conveyed to him that Gen. Huerta had refused to yield, the charge said there was no statement he could make on the situation. Senor Alagra, who has been under a heavy strain for some time past, plainly showed that he was deeply affected by the news.

Wilson's Secretary Says "Matter is Closed" Following Huerta's Obstinate Refusal to Surrender.

WASHINGTON, April 19.—Secretary Tumulty announced just before 11 o'clock that President Wilson had instructed him over the long distance telephone to call a special meeting of the cabinet for 10.30 o'clock in the morning.

Mr. Tumulty also announced that the president was preparing to deliver a special message to congress tomorrow, and that a joint session would be held at the earliest hour the congressional leaders could arrange for it, probably 3 o'clock.

"The matter is closed," said Mr. Tumulty. Huerta, he added, had asked for no continuation of the negotiations and refused flatly to accede to what he called the demand for an "unconditional" salute.

Geo. Goulding Walks 3 Miles in 21.03

GOULDING'S NEW WORLD'S RECORD

Remarkable Three Mile Walk at Buffalo—New Mark by Meyer and Meredith.

BUFFALO, April 19.—Three world's records were smashed at the final indoor games held within the big drill room of the seventy-fourth army last night, and one army record went smash. Alva T. Meyer, I.A.A.C., New York City, set a new world's indoor mark for the 100-yard dash, 9 4-5 seconds. J. B. Meredith of Philadelphia broke the 600-yard run world's time, 1:12 1-5. George E. Goulding of Toronto smashed the two-mile walk special. He held the previous record, the new time being 21.03 4-5.

Alva T. Meyer of the Irish America A. C. made a new world's indoor mark in the 100-yard dash special, racing against Halsey Shelley of the Seventy-fourth Infantry A.A. Meyer dashed the distance in 9 4-5 seconds. The previous world's record was 10 seconds, equalled many times in the Seventy-fourth army by Maxey Long, R. Kerr and K. Clougen.

In the 200-yard run Halsey Shelley beat out Alva Meyer, the latter being injured in an endeavor to pass Shelley on the final turn when he collided with the Seventy-fourth runner, spraining a knee. Shelley's time for the 200 yards was 35 seconds, 2-5 seconds slower than the world's record.

Owing to Meyer's injury the scheduled 400-yard special race, Meyer v. Shelley, was not run.

Again a world's record went to the boards when J. B. Meredith of Philadelphia won the 600-yard run handicap from scratch. H. W. Schunk of Lafayette, La., crossed the finish record about fifteen yards behind the winner, third, Carl H. Brandt, Central H. S. The previous world's record was made in the Seventy-fourth army by H. H. H. on March 28, 1908; time, 1:13 4-5. Meredith clipped 1-8 seconds from this time, 1:12 1-5.

G. H. Goulding, walked heel and toe three miles against three men in relays, each walking one mile. Goulding made a new world's record for the two miles, bettering his own previous time, the former world's best. The time for the first mile was 6:40 1-5; second, 13:06, breaking the world's record, and third, 21:03 4-5.

The previous two-mile record was 14:01 3-5. B. A. Kappera, July 8, 1908; Cobb, Alma, and P. K. Whitman, C. Y. M. C. A., walked in that order against the world's champion, and Olympic walker, Goulding lapping the relay men in the three miles.

Albion Cricket Club Fixtures for Season

A very important meeting of the Albion Cricket Club will be held on Friday evening, April 24, at 8.30, at the Bromell House, West Queen street, opposite Trinity College grounds, where the club have secured an excellent room for their meetings. The entrance is on Queen street. Any cricketers wishing to join a good club will be made welcome or write A. Belgrave, 642 Ossington avenue, Hillcrest 139.

The grounds will be at Trinity College, which is known by cricketers to be one of the best. The following are the fixtures for the season:

May 2—Albion at Parkdale.
May 9—Albion at Woodgreen.
May 16—Albion at West Toronto.
May 23—Albion at Dovercourt.
May 30—St. Cyprian at Albion.
June 6—Albion at Bedford Park.
June 13—St. Matthias at Albion.
June 20—Albion at St. Clements.
June 27—Bedford Park at Albion.

Aug. 29—Albion at Evangella.
Sept. 5—Parkdale at Albion.
Sept. 12—East Toronto at Albion.
Sept. 19—Albion at St. Edmunds.

OLIVET CRICKET CLUB.

The Olivet Cricket Club have every evidence of a very successful season. With the exception of Captain Barford, who has returned to the old team, they have signed on all last season's regulars, and in addition one or two players who should strengthen the team materially.

One of the finds of the close season is E. Collier, who, previous to coming to Olivet, was playing for the best bowling average with the Y.M.C.A. team in Manchester, Eng. He is also a useful batsman and a good fielder and should prove a valuable acquisition to the club.

Another player who should be a great help is Worthington, who has played on the Lancashire County team.

Clarkson, last year's wonder with the ball, is anxiously awaiting the opening game, and along with Collier, Horwill and Lyons will take the brunt of the bowling.

The batting department looks to have a strong line-up with Horwill, Oakland, Collier, McCurray and Webber in good trim.

ST. DAVID'S CRICKET CLUB.

A meeting of St. David's C.C. will be held on Thursday at 8 p.m. at 589 Carleton avenue. Any new players will be made welcome. St. David's require a few games, and have several dates open.

Any clubs wishing to play apply to Muckleton, 376 Withrow avenue, secretary St. David's C.C.

ONE FINAL TO HANNA OF THE RIVERSIDES

Scored Knock Out for Light Heavy Title at Boston—Porkorni Beat Hitchins.

BOSTON, April 18.—Canada won a championship and lost another at the national amateur boxing championship tournament, which closed here tonight. W. Hanna of Toronto took the 175-pound honors across the border by winning a hard bout with Arthur Sheridan of Trinity Club, Brooklyn, half an hour after he had been defeated by Sheridan in a semi-final round bout of the heavy-weight class. Sheridan's eyes were closed, and Hanna forced him to quit in the second round of the 175-pound class final. Sheridan then went into the final of the heavy-weight class with the scarp, and, defeated by three hard previous bouts, was again bested after a slant-bang contest, by Patrick Kelley of Boston.

Hitchins of Toronto, last year's winner in the 125-pound class, was vanquished in the semi-final by Vincent Pokorni. The champions of 1914 are:

105-pound class—Johnny Downs, Cleveland.
115-pound class—Steve Phillips, Boston.
125-pound class—Vincent Pokorni, Cleveland.
135-pound class—Dick Stosh, Cleveland.
145-pound class—Max Woldman, Cleveland.
155-pound class—W. Barrett, New York.
175-pound class—W. Hanna, Toronto.
Heavyweight class—Patrick Kelley, Boston.

The feature of the semi-final bouts was the elimination of Walter Hitchins of the Riverside A.C., Toronto, who fought close to the West line, but he failed to score. West's third try this time was right under the post, but he failed to score. West's third try, West of England 3 tries (9 points), Scotland 0.

Neale, Martin, Morris and Vivian, three-quarters; Bridgeman and Small, halves; Andrews, Baker, Griffin, Lister, Verdon, Masters, Penrose and Turner, forwards.

Scottish (9)—Fyall, back; A. Davis, W. Chisholm, three-quarters; Wilson and Hunter, halves; Halley, Archer, Morahan, Gray, McCullough, Roland, Urquhart and Jack, forwards.

C. W. A. ALLOTS BICYCLE MEETS

Annual Championships to Waterloo and Provincial Meet to Toronto.

The adjourned annual meeting of the Canadian Cyclists' Association was held at the Queen's Hotel Saturday afternoon and President Louis Rubenstein of Montreal presided. The meeting was a large representation of riders were on hand and the following officers were also present: Hon. president, J. W. Gibson, Waterloo; Dr. P. E. Doolittle, president of the Ontario Motor League; Vice-president, R. H. Falconer, A. E. Humphrey and F. A. O. Johnston, competition chairman of the Canadian Motorcyclists' Association, A. A. Harry E. Richard, Secretary G. L. MacKay, chairman of racing board and representative of the C.W.A. on the Ontario Olympic committee; W. Gibson and Harry Smith. The election of officers resulted as follows:

Hon. president, Waterloo; president, Louis Rubenstein, Montreal; vice-president, R. H. Falconer, Toronto; hon. treasurer, J. W. Gibson, Waterloo; secretary, Harry E. Richard, Toronto; chairman of racing board, G. L. MacKay, Toronto; competition chairman, F. A. O. Johnston, Toronto; publicity agent, W. A. Gladish, Toronto; members' secretary, R. H. Falconer, and Smith were appointed to assist Mr. Gibson.

By an unanimous vote the annual meet of the C. W. A. was given to Waterloo, to be held there on Dominion Day (July 1st). An Ontario championship meet will be held in Toronto at the motorcrome some time in September.

President Humphreys of the Canadian Motorcyclists' Association, who presided at the meeting and voiced the feeling that his association were only too ready to assist in any way possible in the holding of the "International Cyclists' Meet" presented the C. W. A. with their official license for the year. Good riders are going abroad to race must present their form instead of their national card.

Walter Andrews, who has secured that entrance fees for race meets be discontinued. A motion was put forward that the entry fee be twenty-five cents for every event and fifty cents for every championship race and that post entries be charged double fee and a date be stipulated for the closing of the entries.

SOCGER NOTES.

Stanleys and North Riverdale fought to a draw in their third division game at Vermont Park on Saturday, and a stormy fight was witnessed by the supporters by both teams. The game had not been in progress long when the Riverdale team took the lead from a nicely placed corner kick. This woke Stanleys up, and their forwards gave the 'Dales' defence plenty to do to keep their lead. A great shot by Turnbull missed by inches, but the same player had the satisfaction of giving Stanleys a goal, which was even at half-time—one each. On resuming play, Riverdale were the opponents, and but for a breakaway once in a while by the Riverdale forwards their goal was never in danger. Robertson had luck today for Stanleys when he drove a beauty against the upright, and just missed. Stanleys were the victors, one on the crossbar. The final whistle sounded with a draw of one each. Preston, Trotter and Robertson were the stars for Stanleys, and the Riverdales have a fine left wing. Next week Stanleys will meet the Riverdales again, and it will be a ding-dong struggle for the points.

HIT BY FLYING CAR.

WELLSVILLE, Ont., April 19.—Archibald, a 17-year-old boy, was struck on the head, hand and neck by a flying car when the hangar used by the section gang was struck by a freight train and hurled through the air. The flying car struck Mr. Smith, breaking his right leg.

Bowling Leaders At Atlantic City

ATLANTIC CITY, N.J., April 18.

Louis Franz, Cleveland, tonight still led the individual championship race with his score of 665 at the eighth annual congress of the N.E.A.

The Riddell-Horton team of New York took a comfortable lead in the two-man event. The pair rolled 1333, falling 22 events. The pair rolled 1333, falling 22 events. The pair rolled 1333, falling 22 events.

BRITISH RUGBY NOTES.

The Scottish British Rugby team met their Waterloo at the Exhibition Park, completely deceived the Scottish full-backs, however, were brilliant, playing together in capital fashion. Their passing was well up to standard, and their half-back, Bridgeman, threw a splendid game. Baker scored the first try, which Vivian failed to convert. Score: West 1 try (6 points), Scotland 0.

Martin raced from the centre line and made a great feat at passing, which was quite capable of doing. The West backs, however, were brilliant, playing together in capital fashion. Their passing was well up to standard, and their half-back, Bridgeman, threw a splendid game. Baker scored the first try, which Vivian failed to convert. Score: West 1 try (6 points), Scotland 0.

Condition and teamwork was the day for the North of England Rugby team in their battle with the Overseas at Riverside Park. On only two occasions were the Northern men in the lead in the match for their opponents, but they lacked drilling, especially in the pack. The score was 22 to 0.

Too much praise cannot be given to the Y.M.C.A. and the Overseas for their fine work. Although both of these teams were beaten, it was only by the small margin of nine points that the Welsh fifteen defeated the Y's. Considering the strength of their opponents, this must be an achievement.

In the case of the Overseas, the defeat might seem rather heavy, but when it is pointed out that the Welsh fifteen were at full strength the margin might have been considerably less.

A splendid game was played by the Irish and South of England teams in their battle with the Overseas at Riverside Park. On only two occasions were the Northern men in the lead in the match for their opponents, but they lacked drilling, especially in the pack. The score was 22 to 0.

Billy Hay says:

"There is one of our railways that has as its motto: 'Trust in God and haul no empties.'"

"It is a good motto to follow."

"When you go to the Semi-ready Store for your clothes you save time, you cut out waste motion, you also save money by going right to headquarters for high-class clothes."

"You haul no empties."

PORTLAND TEAM EASY FOR LEAFS

Play Errorless Ball Without Pick or O'Hara—Graham Pitches in Fine Form.

PORTLAND, Maine, April 19.—Hughes' Portland team proved an easy proposition for the Leafs, who played in real championship form, despite the fact that it was a very much patched up team, due to the absence of Pick and O'Hara, who missed the train. Graham pitched six innings, and, aside from early wildness, was most effective. Gilbert made his first appearance, but made no effort to extend himself. He seems to have a nice change of pace and a hot crossing delivery. Kroy led in the batting honors again, closely followed by Wilson, whose speed amazed the Portland fans. He scored four bases during the afternoon and gathered three hits. Small also was much in evidence with two doubles, while Sullivan, who played here a year ago, and received a splendid ovation from the fans, made the longest hit ever seen on the local grounds, driving it far over the left field fence for a home run. Score: Toronto A. B. R. H. O. A. E.

NEW YORK STOCKS MADE GOOD RALLY

In Opening Hour Selling Pressure Caused Some Sharp Declines.

INCREASE IN LOANS

Bank Statement Reflected New York City's Big Loan Last Week.

NEW YORK, April 18.—The heavy selling movement of the week came to an end with another vigorous drive early in today's market. The favorite stocks were unloaded in large amounts, and in several cases prices were hammered down one to two points.

This happened in the first half hour of trading. Then followed a quiet recovery, which proceeded steadily to the close. It was apparent that short selling had failed to bring out more real stock in any volume, and attempts of the bears to cover disclosed a scarcity of offerings at the low levels.

Bank stocks and bonds were quiet and steady and unsettled securities were inactive, except for some Porcupine Crown, heavy at par, and an odd lot of Brick at 50.

Total business, 3,702 shares, 777 rights, 2,150 mining shares and \$17,000 bonds.

MEXICAN L. AND P. EARNINGS.

March gross earnings of Mexico Light and Power, \$859,848, increase \$15,292; net earnings, \$820,612, increase \$19,064.

Lehigh Valley and Union Pacific whose weakness yesterday approached the financial situation met with support today.

Announcement of plans for caring for the New Haven and Missouri Pacific notes, which soon fall due, strengthened the stocks of these roads.

The bank statement reflected the financing incidental to flotation of New York City's \$65,000,000 loan this week.

There was an actual loan increase of more than \$25,000,000, the expected return flow of money, following the April 1 interest and dividend payments, was an offsetting influence.

The cash gain was unexpectedly large, amounting to nearly \$10,000,000, and in spite of the loan expansion the surplus was increased by nearly \$3,000,000.

Bonds were steady.

DULL TRADING AT MONTREAL

Net Changes on Saturday Were Trifling—C. P. R. Was Steady.

MONTREAL, April 18.—Local stocks were dull and featureless on Saturday, business being light and fluctuations narrow.

Net changes at the close were insignificant. C.P.R. at 200 showed a loss of 1-3 on actual business, but final bids were shaded to 199 3-4 against 200 3-7 on Friday.

Power ranged between 220 and 219 1-2 and finished 199 7-8, unchanged. Richelieu, the most active stock of the list, declined 1-4, but recovered to 99 and at that level was unchanged from the previous day.

Final bid at 123 and Toronto Ralls at 125 were virtually stationary. Dominion Bridge eased off 1 point to 116.

Some further liquidation of Crown Reserve drove the price down 4 points to 155, but it rallied 2 points later.

Bank stocks and bonds were quiet and steady and unsettled securities were inactive, except for some Porcupine Crown, heavy at par, and an odd lot of Brick at 50.

Total business, 3,702 shares, 777 rights, 2,150 mining shares and \$17,000 bonds.

PRICE OF CORN BROKE SHARPLY

Argentine Crop Estimates Had a Decidedly Bearish Influence at Chicago.

CHICAGO, April 18.—Faster selling than has been seen for weeks, much of it believed to be for leading bulls, swept down prices today in corn.

Argentine offers lower than ever, and ideal weather to prepare for the new domestic crop gave the greater part of the impetus. The close was weak, 3-4 to 15-c under last night.

Wheat showed a net decline of 5-8 to 7-8 and oats of 3-4 to 5-8. In provisions the outcome was an advance of 7-12 to 15c.

Corn made an almost vertical drop from start to finish. It was a day of liquidation on a broad scale and no let up in any of the months, but with the severest pressure on the May delivery.

Brokers who usually act for the principal house on the bull side were unloading apparently without limit, and with but little if any regard for the effect on prices.

Whenever there seemed likely to be a breathing place prominent bears were not slow to throw all their weight on the overburdened market.

Big Argentine Crop. Official estimates that the Argentine crop would amount to 324,500,000 bushels, as compared with 196,841,000 bushels last year, put the corn bulls at a special disadvantage.

Further, more domestic primary receipts to date exceeded to a material extent the total at the corresponding time last year, and the primary shipments were nearly 1,000,000 bushels less than then, although clearances from here by the Great Lakes began today.

General rain, particularly beyond the Missouri river, took the wheat market down grade. The timely supply of moisture virtually stopped the drought talk from both the winter and the spring crop belts.

Seeding in Dakota and Minnesota was reported as 50 to 75 per cent. complete.

Corn weakness, too, induced considerable selling, notwithstanding wheat statistics Monday were expected to favor the bulls.

In oats notwithstanding that shorts were good buyers, the market felt the effect of the setback for corn. Weak reports tended also to depress prices.

ST. LAWRENCE MARKET. Receipts of farm produce were light Saturday owing to the farmers working on the land. Eggs sold from 30 to 25 cents, butter from 28 to 35 cents, good chickens 25 cents, fowl 20 cents, and turkeys 10 to 12 cents.

Wholesale seed merchants are selling to the trade:

Young Men and Women From All Parts of Canada Are Given Instructions and Supplied With Plants and Seeds—The City Man's Garden.

Lecturer in Floriculture

It is not many days ago that troops of young men carrying bulky bundles wrapped in newspaper might be seen on the campus of the Ontario Agricultural College and on the cars and streets of Guelph. Like the first members of the class, they were dressed in the attire of the tropics. They were not here for a vacation, but to receive instruction in the art of horticulture. The City Man's Garden is the result of their efforts. The plants and seeds which they have received from the Ontario Agricultural College are now being planted in their gardens. The City Man's Garden is a beautiful sight. It is a garden of many colors and many shapes. It is a garden of many fruits and many flowers. It is a garden of many joys and many pleasures. It is a garden of many hopes and many dreams. It is a garden of many lives and many souls.

W. HUNT, Lecturer in Floriculture at the Ontario Agricultural College.

and also under other commercial firms of the greatest prominence. Canada drew him, as it did so many others, and after many years of work as a horticulturist in this country, he obtained the management of the Ingleside estate at Hamilton, belonging to the late John Stenart. He held this position for 21 years. Mr. Hunt has been organized in many Canadian churches, and if his melodies on the organ are as harmonious as the blending of his floral color schemes, then we have in our midst a Handel in disguise. For City Gardens.

As The World is read by a large number of city men and suburbanites I enquired if Mr. Hunt could give me a list of shade-loving plants suitable for gardens overshadowed by their neighbors, and in atmosphere of smoke and noxious gases. "Ferns come first, and will stand smoke well, and among other plants a can thoroughly recommend are German and Japanese iris, bleeding hearts (three varieties), bulbous lilies, i.e., lilies of the elegance type, including red lily, lilies of the valley, day lilies, foxgloves, and many others of the spirea family, usually young, and the panicle of warbling, and just one word more of warning, do not plant ferns except in early spring or in fall. It is, in my opinion, almost a crime to plant ferns in the woods of a city, and plants that are nearly certain to die, and the woods lose their beauty to no purpose. Always dig ferns while dormant," said Mr. Hunt.

He was strong on the beautification of our wild places, and has been a firm adherent of the principle of the curricula in every school. "Our teachers throughout the Dominion," said he, "should make a point of increasing the stock of wild flowers and plants that can be naturalized, rather than depleting the woods ruthlessly, as is too often the effect of misguided instruction. Children, adults, too, for that matter, should be encouraged to plant seeds in the woods of such hardy plants as gillflowers, cultivated May weed, hardy gillflowers, cowslips, garden primroses, columbines and many other border plants too numerous to mention. Bulbs also should be planted, and are usually thrown away could be used for the same purpose, including narcissus, crocus, daffodil and tulip bulbs, but the excluding Roman hyacinths, the Dutch variety grows wild indifferently.

I left Mr. Hunt beaming and cheerful, but the deep in his examination papers waiting for correction. "Good-morning," he said, "and do not say too much about me." I have obeyed him literally, but I have not said half enough.

O. A. C.—MEN FOR B. C.

The students of the Ontario Agricultural College are evidently appreciated as practical men by the British Columbia authorities, for no less than six of them have been appointed to various responsible agricultural positions. Leslie Goodman was appointed to the position of inspector of seed storage, and H. M. Scott has been appointed to the position of inspector of important horticultural experiments, as has Mr. Sanderson. The other three gentlemen will be given instructions as to what work they are to undertake on their arrival. None of the above mentioned have as yet graduated.

SPRING HINTS

Early seeding is advisable, but puddling is not.

The place for stock is in the yard till grass grows. Avoid "punching." If germinating grain crusts the land, give a light stroke with the harrow, roll and harrow again. Don't be scared!

Do not seed on a weed waste. Summer fallow. Good summer fallowing means work with a disc and plenty of it, not churning on a fence rail.

The bee man is booming sweet clover. Men who have ever had sweet clover in their fence corners will say to him, "Go to Ottawa."

The question is not whether you can catch early chicks, but whether you can raise early chicks.

Do not hatch early maturing birds too soon. If they moult in August it is unreasonable to ask for eggs in winter.

Little chicks have had a bursting meal off the yolk. It will save you money and chicks if you do not feed for 36 to 48 hours.

Good chick feed: Three meals a day of any reliable chick food, such as pinhead oatmeal and cracked wheat, two meals of a mixture of hard-boiled eggs and chopped green stuff.

You like water (perhaps). Chicks like some skim milk, and it is good for them.

Moldy litter is death on chicks.

Look out for the chicken that feathers first, it will probably be your best producer, says Prof. Graham. Of course this does not refer to cockerels.

You cannot keep rarer breeds in a city backyard. The Leghorn will suit you best in 20 ft. x 20 ft.

In backyard gardens keep to such plants as beets, lettuce, beans, carrots, onions (sets), turnips, radishes, celery, tomatoes, cucumbers are lovely eating, but how about space?

A golden rule for the city vegetable garden is to consider before planting: (1) Relative popularity of the vegetable. (2) Ease of cultivation. (3) Return for space and soil. (4) Practical usefulness of crop harvested.

Sow spinach seed in the same row as the carrots. It breaks the ground for the carrots later, and by the time the carrots are forming the spinach is ready.

J. A. Ruddick, Dominion dairy commissioner, states that creameries are being centralized to the cities, and an inferior quality butter is the result.

Point Pelee marsh is quacking again, not with duck but with the price of prospective buyers are Belgians, who should know their business.

Thirty-eight cow testers, nineteen cream planters, and the Ontario Agricultural College are busy busy busy. All passed their examination with credit. W. F. Johnson, heading the list with 968 marks out of a possible 1200.

This from the Chicago Tribune: "The First National Bank of Aurora advertises: 'Money to loan to farmers for feed and seed. Before we lend, let us see the financial situation. Eh?'

GOOD SEED SLOGAN HAS GOOD RESULTS

Nothing is Too Good for Home Market Since Seed Control Act Was Passed

We have it on the authority of E. D. Eddy, chief seed inspector, Ottawa, that the control act of 1905 is having good results, not only on the land and crops, but also on the Canadian seed trade. Before the act was passed the best seed produced in Canada was exported, while the home trade was content with low grade seed. The contrary at present is the case. The seed control act is being vigorously enforced, and the result is that the best seed is being shipped out wholesale.

In 1913 over 4,200 dealers and farmers were visited and a great extension work was done, "good seed" being a slogan on the lips of every district representative, that was shouted through the market, while the best seed was being shipped out wholesale.

But they were out for business is evidenced by the fact that there were no less than 75 prosecutions brought about at the instance of the seed department. Such enforcement of the regulations has resulted in a wider spread between high and low quality clover and timothy seed. This has worked to the great advantage of the growers who produce seed on comparatively clean land and take the trouble to hand-weed their seed crops. On the other hand, growing clover and timothy on weed-infested land has become a thing of the past, there being no home market for seed that will not grade. There is evidence too that the export market is rapidly being closed against inferior qualities.

GIVE LABORERS A SQUARE DEAL

Farmers Should Show More Consideration for Their Helpers.

POOR CLASS SENT OUT Some Discrimination Should Be Shown by the Authorities.

Coming down the line the other day I heard a farmer from Peel County remarking to a fellow traveler: "Here I get a man in Toronto on Saturday, he makes no complaint but just walks out of my place on Monday. You never can depend on these city immigrants. When you keep them all summer they are the kind you would like to get rid of, and when they are some use, well, they won't stay."

Now, I know nothing about the speaker, who may be a most estimable man, but it does seem to me that it is not always the immigrant who is to blame. We have to go further back for a cause, and it is not difficult to find. To begin with, the emigration department and the great railways seem to be entirely indifferent as to the quality of men they ship out. It is true that this country is badly in need of efficient farm laborers, but we are getting dumped in upon us city runts, clerks without a job, well-born neo-do-wells and wastrels, with a small sprinkling of efficient mechanics and perhaps a trace of qualified farm labor. It is only recently that a letter appeared in The Overseas Daily Mail, signed J. Purser, assistant superintendent of emigration, claiming there was a call for 8000 laborers in Ontario alone, and that there was ample work for all. There is no doubt as to the statement, but when he goes on to add that no previous experience is required, we see a departure from strict veracity and one of the causes to which we owe our present population, not only does it also cause the farmers to have to return disgruntled and disappointed, and thus dissuade the really efficient from emigrating, but it also causes the farmers to have to employ a large number of inefficient laborers, who are a constant drain on their resources, and who are a constant source of trouble to the farmer.

Not only do such statements lead to an influx of the useless to cities at the present population, not only does it also cause the farmers to have to return disgruntled and disappointed, and thus dissuade the really efficient from emigrating, but it also causes the farmers to have to employ a large number of inefficient laborers, who are a constant drain on their resources, and who are a constant source of trouble to the farmer.

One of the chief points to be observed in profitable sheep raising is not so much the kind of sheep kept as the care that is taken of the wool on the sheep and at shearing time. As long as our sheep are considered as a species of perambulating automatic carpet sweepers and are allowed to pick up all the filth, boot-lacks, buttons, tin cans, and other such abominations from every corner of the farm, as long as they are then turned out to feed round a stack and get their fleeces soiled with dirt and barbed wire, we cannot expect the buyer to come forward with the price. It is not reasonable to expect a good staple from a poorly cared for sheep. As the wool is the staple of the sheep, it is especially important that it should be kept clean and free from all such filth. The wool should be washed and scoured before it is put on the market. The wool should be kept clean and free from all such filth. The wool should be kept clean and free from all such filth.

It is not reasonable to expect a good staple from a poorly cared for sheep. As the wool is the staple of the sheep, it is especially important that it should be kept clean and free from all such filth. The wool should be washed and scoured before it is put on the market. The wool should be kept clean and free from all such filth.

One of the chief points to be observed in profitable sheep raising is not so much the kind of sheep kept as the care that is taken of the wool on the sheep and at shearing time. As long as our sheep are considered as a species of perambulating automatic carpet sweepers and are allowed to pick up all the filth, boot-lacks, buttons, tin cans, and other such abominations from every corner of the farm, as long as they are then turned out to feed round a stack and get their fleeces soiled with dirt and barbed wire, we cannot expect the buyer to come forward with the price. The Love Story of a Czar

In 1645, at 16 years of age, Alexis Romanow came to the throne of Russia. His was a bright outlook, except in one particular. Over him like a shadow lay the power and evil personality of his teacher and adviser, the Boyar (councillor or premier), Boris Morosoff. The cruelty and ambition of this crafty noble is the storm centre in the tragic royal romance of which the artist has seized the great moment.

According to Russian custom, the Czar must choose his wife at 18 years of age. Alexis, possessed of the great talents and personal beauty of the Romanows, must have been the cynosure of many brightest eyes, and the subject of secret hopes and fluttering ambitions among the lovely Russian girls of high family, one of whom, according to custom, would become his wife.

At the traditional time, two hundred young ladies came to Moscow. From these were chosen the six fairest, from whom the young Czar himself would select the bride. But this did not fall in with the romantic temperament of Alexis. He rebelled at the idea of marrying one he had never seen before, and persuaded his sisters to hold a concert at the palace and invite the young ladies, so that he might have a chance to observe them, himself incognito. For this purpose, he came disguised as a musician.

By accident, Eufemia, of the Province of Rjazan, took her place among the princesses. When the musicians played a tune of her native province, she looked up in delight, to meet the eyes of a young musician of singular beauty. With all the ardor of the most profound of all the races, these two fell in love at first sight. It was with the greatest difficulty that her relatives induced Eufemia to be present at the palace next day.

Meantime, the Boyar, Boris Morosoff, had arranged the place next the throne for Marie and Anna Miloslawski. He meant that the Czar should marry one, and he himself the other sister.

Here let the great painter step in. The Throne Room of the famous Kremlin is before us. Dignitaries of the Church, august advisers, and the six fairest maids in all Russia are on their feet, for on the steps of the Throne stands the young Czar, in the beauty and promise of his manhood. Absently he takes from the Boyar the cushion with ring and handkerchief, to be presented to the chosen lady. Absently his eyes pass by the lovely, conscious Marie, so close to the throne. With parted lips and downcast eyes the last of all the ladies has recognized him, as he her, and for each of them there are no others present.

Alas, for Alexis and Eufemia! Royalty is a heavy honor, and intrigue no respecter of romance. Boyar Morosoff succeeded in exiling her entire family, and, after years, in placing Marie upon the throne as the wife of Alexis, though the Czar never consented to a public marriage.

The powerful picture has portrayed the great moment of the royal love story, the rest is best forgotten. Lovers of "The Russian Wedding Feast" will find this gem of Makoffsky's no less entrancing, if more classical in treatment. It comes to us from the collection of Schumann's Sons, New York.

We cordially invite you to view the picture, early in the day, if possible, on the third floor, Richmond Street side. The canvas is 15 feet by 10 feet, entitled

Unusual Display of Seamless Rugs

For three days we are displaying in our Yonge street windows a collection of Beautiful Quality Seamless Rugs such as we think have never before been shown in Canada. Not only are these different in the matter of design and color, but the fact that every one of these rugs is woven entirely whole without a seam is a novelty which gives an added interest to the fabric display. Every rug included in this wonderful assemblage is made exclusively for us, and we believe that there is not another such collection to be seen anywhere in the Dominion of unusual rugs. The designs include lovely light French tapestry effects for drawing-room use exclusively, reproductions of the choicest Oriental as well as many novel, very artistic, pleasingly colored rugs, which are distinctive and full of interest. Prices range from \$11.00 for a small hall size, such as 4.6 x 6.7, to \$105.00 for a large rug measuring 14.10 x 11.2. See Yonge Street Windows. (Fifth Floor.)
