# BRITISH HEAVY BOMBS SURPASS KRUPP PECEGS

## New Howitzers Used With Great Success in Capture of Brickyard.

# BLEW HOUSE IN AIR

## Storming Columns Captured Position With Little Loss, and Won Next Day.

Canadian Press Despatch.  
LONDON, Feb. 12, 7:35 p.m.—The  
British army in France is now using  
heavy howitzers, which according to  
a report from the official "eye-wit-  
ness" with the expeditionary force  
in the states, were used in succes-  
ful attacks on the German positions  
in the brickyard south of La Bassée  
Chapel a week ago tonight.

"Our heavy howitzers took part in  
this bombardment, their fire being di-  
rected on the railway triangle," the  
"eye-witness" says. "The boom of  
these pieces and the detonations of  
their shells were audible twenty  
miles above the zone of the other  
artillery, while those close at hand  
the shrieking of the great projectiles  
as they were most impressive, as  
were the volumes of smoke and debris  
thrown up. The effect of the lyddite  
shells was truly terrific, one house  
being blown bodily into the air, and  
as they burst among the brick stacks  
they created great havoc among the  
enemy."

Strong Position Taken.  
The assault was launched against  
a strong position of "keep" among  
the stacks of the railway triangle. The  
German storming columns rushed  
the work from three sides at once  
and captured it with very little loss,  
as prisoners afterwards stated,  
the noise of the bursting shells was  
so great and the clouds of smoke  
which the defenders were provided  
were so thick that they did not ob-  
serve our men advancing until too  
late. At the same time trenches to

## German Attack Repulsed in Lorraine—Artillery and Grenade Duels Elsewhere.

Special Cable to The Toronto World.  
PARIS, Feb. 12.—Active German at-  
tacks with infantry appear to have  
been transferred to the Alsace and  
Lorraine fronts where the enemy con-  
tents himself with artillery and hand  
grenade duels elsewhere.

A German attack on Lorraine was  
repulsed by the French near Arra-  
court.

In the Vosges the French light in-  
fantry gained a brilliant success in the  
capture of hill No. 957, in the region  
of Hartmann-Weilerkopf. This im-  
portance is about 150 yards from an en-  
closure of farm buildings which make  
a formidable field work when barri-  
caded and strengthened, but the occu-  
pation of the hill enables the French to  
command this position and renders it  
untenable by the Germans. The  
French carried out this operation in a  
brilliant dash thru a violent snowstorm  
and suffered small loss.

Lively artillery duels took place in  
Belgium and Champagne in the  
past twenty-four hours.

Operations have been carried on in  
the Argonne by the Germans with the  
throwing of bombs and the exploding  
of trench mines and the French have  
returned the compliment. The in-  
fantry has lain under cover in the  
trenches all this time. The chief  
focus has been the Marie Therese re-  
sult.

# DISABLED PRISONERS FREED BY GERMAN

## Hundred and Forty-Six Britons Exchanged for Hundred and Seven Teutons.

Canadian Press Despatch.  
BERLIN, Feb. 12.—The first ex-  
change of disabled prisoners of war  
under the plan of Pope Benedict were  
announced today thru the Berlin com-  
munications. One hundred and forty-six  
British prisoners unfit for further ser-  
vice, will leave Germany Feb. 16 and  
Great Britain will receive 107 Germans.  
The exchanges apparently are not on a  
numerical basis, but all those who are  
disabled will fall within the scope of  
the order eventually.

## Forty Thousand Killed in Last Attacks Thru Cold and Dense Formations.

Canadian Press Despatch.  
PARIS, Feb. 12.—An official state-  
ment given out at the war office today  
announced the complete failure of the  
German offensive in Poland. The state-  
ment followed:  
"The failure of recent attacks by the  
Germans in Poland appears to be com-  
plete. The losses of the Germans are  
unprecedented. It is reported that they  
exceed 40,000 dead.

"Cold and the frequent use of dense  
formations are among the causes given  
for the losses of the Germans. An eye-  
witness of the battle declares that the  
machine guns crowded down the ranks  
of the enemy like a steel blade.

"When the combat ended the Rus-  
sians saw hills of dead before them. At  
night, under the glare of searchlights,  
the undulating mass of wounded made  
efforts to extricate themselves. Then,  
towards 1 o'clock in the morning, they  
moved no more."

## Means Loss of Over a Million Dollars Yearly, But All Must Bear Burden.

Canadian Press Despatch.  
MONTREAL, Feb. 12.—J. Cham-  
berlain, president of the G.T.R., says the  
burden will mean about \$1,000,000 a  
year from the G.T.R. He figures that  
the G.T.R. has 1,500,000 tons of coal  
and 700,000 tons of iron ore, and  
"we must all bear our burden in an  
equal way," he said in an inter-  
view today, "but what with the usual  
heavy expenditures and the depression in  
business the situation seems sufficiently  
acute."

An increase in freight rates is needed  
badly, Mr. Chamberlain said.

Special Cable to The Toronto World.  
By a correspondent of The London  
Post and Toronto World.  
PETROGRAD, Feb. 12.—The official  
announcement that the Russians were  
retreating in East Prussia has come upon  
the public here as an unpleasant sur-  
prise, but nothing more. It is impos-  
sible, for greatly inferior numbers, than  
the Germans on their own ground, and  
the Russians are repeating their old  
manoeuvre of choosing a position for  
defence at home. After all, it is not  
miles, but men which separate the  
Russian forces from their ultimate  
goal, Berlin, and the tactics which will  
enable the largest number of Germans  
to be killed at the minimum cost to  
themselves are the only sure means for  
the allies to win this war against the  
nation that has been preparing for de-  
cades. The entire strategic front on  
this side revolves itself now into the  
centre extending between the lower and  
upper reaches of the Vistula and two  
wings, the Russian right reaching  
away northwards from the lower Vis-  
tula and the left from the upper Vis-  
tula, stretching away along the Car-  
pathians. The centre has been quite  
quiet for several days, with the excep-  
tion of some artillery duelling and the  
usual commitments between opposing  
armies. The Russian right wing has  
retired before the overwhelming new  
forces of Germans, and the Russian left  
continues to prosecute the campaign in  
the Carpathians with success.

The military body of troops re-  
garded to be the best in the whole Rus-

of which are at the front, has been  
called special honor by the emperor.  
One of these corps materially co-oper-  
ated in the defeat of the German  
army in Poland. Another corps performed  
feats of valor and endurance against  
terrible odds on several occasions dur-  
ing the second German invasion. Very  
few men are now left of these corps,  
but have decorations for valor.

## Proposal for Government to Engage in Shipping Not Favored.

Canadian Press Despatch.  
WASHINGTON, Feb. 12.—The fight  
over the government ship purchase bill  
was shifted today from the senate to  
the house. In the senate the measure,  
blocked by determined Republican op-  
position, was displaced as unfinished  
business and a closure rule designed  
to forcibly terminate the filibuster was  
taken up.

Administration forces began work on  
a compromise bill to be passed thru  
the house. Leaders on that side of the  
capital, however, were far from con-  
fident that the proposed compromise  
would undo the divided senate. Democ-  
rats or win support from Republicans.  
They declared the administration did  
not concede enough in the proposed  
compromise to secure its passage.

The administration counter-proposal,  
as it was being framed tonight, would  
organize a shipping board with ad-  
vance authority to engage in ship-  
ping for a period ending two years  
after the termination of the war. Then  
the ships would be turned over to the  
government permanently in the ship-  
ping business was the point insisted  
upon by the administration. It is also  
the provision against which the senate  
Republican filibuster is chiefly aimed.

## Sweden, Norway, Denmark Decide to Lay Down Law to Germany.

# WILEN AS TO BRITAIN

## Believe Protest of President Wilson Over Use of Neutral Flag Sufficient.

Special to The Toronto World.  
WASHINGTON, Feb. 12.—Sweden,  
Norway and Denmark will back up  
the United States note to Germany in  
the war zone decree. Before February  
18 the three powers will communicate  
to the German Imperial Foreign Of-  
fice notes regarding the violation of  
the use of neutral ensigns as fully as  
the German Imperial Foreign Of-  
fice may require. The German pro-  
clamation of a war zone in waters  
contiguous to the British Isles and  
the northern and western coasts of  
France, similar in purport, sitho  
couched in somewhat less positive  
terms than the note sent Wednesday  
to Germany by the United States.

Not to Touch Flag Issue.  
The Scandinavian kingdoms do not  
expect to take up with Great Britain  
the alleged instructions of the British  
Admiralty as to the use of neutral  
flags by British merchant vessels in  
the waters said to be in the  
German war zone. It is their belief  
that the representations made by the  
United States cover the question of  
the use of neutral ensigns as fully as  
nothing further along that line will  
be necessary and therefore utterances  
from the other involved neutrals would  
prove simply redundancies. In view of  
the disclaimers of Great Britain and  
the fact that the measure is con-  
tained under international law,  
the Scandinavians are disposed to view  
the German declaration as distinctly a  
menace to their own shipping and to  
the lives of their seamen and crew  
and are very anxious to see the  
United States bring the German pro-  
clamation to the attention of the  
international community.

Among international lawyers of  
prominence in Washington there is a  
growing feeling that the language of  
the note addressed to Germany is too  
strongly worded and that it is inad-  
visable to take any action which would  
All conceivable circumstances. There  
is said to be an impression prevalent  
that the administration has been over-  
looking the opportunity afforded by the  
German proclamation, and the wide  
publicity attached thru it upon which  
before Warsaw a political play of real  
value to the party in power.

## Consumptives and Schoolboys Not Exempt, As Medical Certificates and Letters Found on Dead Testify— Great Scarcity of Bread Causes Complaints

Canadian Press Despatch.  
LONDON, Feb. 12.—The British eye-witness says that some of the pri-  
soners captured lately have been of comparatively poor physique, and tells of  
findings in the pocket of a dead German two medical certificates stating  
that he was suffering from consumption. The certificates were accom-  
panied by an application from the soldier's father, asking that the son be  
relieved from the necessity of going into active service.

The official observer also quotes letters which he says were received  
by soldiers from home, and which were found on the bodies, complaining  
of the increasing cost of living and the scarcity of bread, and stating that  
even schoolboys were being called into military service.

The "eye-witness" tells of a German officer, who, noticing a British  
soldier who was partially buried in a trench, stopped to dig him out, and  
gave him brandy, despite the fact that he was under fire. This German  
gave him brandy, despite the fact that he was under fire. This German

## Grahame-White, Noted Aviator, Fell Into Sea Off Nieuport and Was Rescued Under Heavy Fire from German Guns—British Had No Casualties and Only Two Machines Were Damaged—Full Extent of Havoc Is Not Known to British Admiralty.

Canadian Press Despatch.  
LONDON, Feb. 12.—Aerial warfare was waged today on the largest scale in its history and under adverse  
circumstances from the standpoint of the weather. British airmen, buffeted banks of snow in the air, swept  
over cities of Northern Belgium held by Germans and dropped bombs on Ostend, Bruges and other places.  
Thirty-four aeroplanes and seaplanes of the British, flew took part in the operations and all of them later  
returned safely to their base without casualty to their drivers altho two of the machines were damaged.  
The raid was made in order to prevent the developments of a submarine bases and establishments which might further  
endanger British warships and merchantmen.

# DVD GREAT DAMAGE.

Altho no submarines were seen the British admiralty statement indicates that the raid had satisfactory re-  
sults, for considerable damage is said to have been done to German positions, railway lines and railway stations.  
The Ostend station is reported to have been set on fire and that at Blankenberghe to have been badly damaged.  
German mine sweeping vessels at Zeebrugge also came in for a hail of bombs but the damage done to them has  
not been stated.

# GERMAN FIRE INEFFICIENT.

At various points the airmen were received by the Germans with firing from anti-aerial guns and rifles.  
None of the airmen is reported by the admiralty to have been wounded in these attacks. One of the machines  
driven by Flight Commander Claude Grahame-White, among the most intrepid of the British flyers fell into  
the sea while returning to its base after the raid was over and the aviator had a narrow escape from drowning.  
Fortunately for him a cruiser was nearby and picked him up and then towed his aeroplane into port.

# SAMSON IN COMMAND.

Wing Commander Samson who previously had made several notable visits to enemy territory in an aeroplane  
was in chief command of the raiding airmen. He was assisted by Wing Commander Longmore and Squadron  
Commander Courtney, Ports and Rathorne.

During the raid warships bombarded the German positions along the coast.  
The British admiralty's statement on the raid is as follows:

# OFFICIAL STATEMENT.

"Thirty-four naval aeroplanes raided Bruges, Zeebrugge, Ostend and Blankenberghe, (all in Belgium),  
Claude Grahame-White fell. He was rescued."  
A description of the raid was given out by the official information bureau, as follows:

"The secretary of the admiralty makes the following announcement:  
"During the last twenty-four hours combined aeroplane and seaplane operations have been carried out by  
the naval wing in Bruges, Zeebrugge, Blankenberghe and Ostend districts, with a view to preventing the develop-  
ment of submarine bases and establishments. Thirty-four naval aeroplanes and seaplanes took part.

# OSTEND STATION BURNED.

"Great damage is reported to have been done to the Ostend railway station, which, according to present in-  
formation has probably been burned to the ground. The railway station at Blankenberghe was damaged, and  
the railway lines were torn up in many places.

"Bombs were dropped on gun positions at Middlekerke and also on the power station and the German  
mine-sweeping vessels at Zeebrugge, but the damage done is unknown.

"During the attack the machines encountered heavy banks of mist. No submarines were seen.

# GRAHAME-WHITE RESCUED.

"Flight Commander Grahame-White fell into the sea off Nieuport and was rescued by a French vessel. Altho  
he was in a heavy gunfire from rifles, anti-aircraft guns, machine guns, etc. All of the pilots are safe. Two  
machines were damaged.

"The seaplanes and aeroplanes were under command of Wing Commander Samson, assisted by Wing Com-  
mander Longmore and Squadron Commander Courtney and Rathorne.

# LIKE FLOCK OF BIRDS.

Special Cable to The Toronto World.  
THE EAST COAST, England, Feb. 12.—The aircraft left the English shores shortly after daylight and as  
they passed over the sea in a long procession they resembled a flock of huge sea birds. The aeroplanes were in  
charge of skilful and daring naval and military pilots and were beautifully handled. There was a thick, low-  
lying haze overhanging the sea close into the English shores, but on the high cliff the atmosphere was very clear  
and there was an extensive view across the water. When the squadron of machines started the pilots flew high  
in order to avoid the haze and they were steering in an easterly direction when lost to view. With the speed at  
which they were flying, the crossing would be made in about 20 minutes. The pilots are understood to be  
making a short stay in France prior to returning to England.

During the debate today, Deputy

An amendment was offered making

Original Solution of Railway Problem Proposed by Rate-payers' Executive.

"That in the opinion of this executive, after reviewing different suggestions for the best method of providing the Metropolitan Radial Railroad an adequate double-track accommodation thru the city to their present terminus, we would suggest that as the company are willing to abandon Yonge street, you provide them with necessary double-track accommodation on the Mount Pleasant avenue route, proposed for the civic car line, reserving to the city full control over the city highway, and also over the right to operate the civic

car system as necessity will require from time to time."

## HOW THE NEW TAX AFFECTS TORONTO

may not regard the additional charge as a hold-up on the part of the company.

"One effect may be to stimulate Canadian industry along various lines and give greater impetus to the 'Made in Canada' movement. This will be the case, for example, in the automobile industry, according to some dealers, while others who specialize in imported cars say that it will lessen sales and raise the price of foreign-made cars, which are now taxed 30 per cent. The new tax will add another 1 1/2 per cent. Jewellery men say it will give them a chance to get possession of the domestic market.

In the case of clothing, too, a larger use of Canadian goods may follow. A large quantity of the cloth now used comes from England on a 30 per cent. preferential tariff. This will be raised to 35 per cent. and by Paul Hahn, who deals in window shades, curtains and upholstered goods, with rubber, may advance slightly in price.

"It is just possible that the Consumers' Gas Company may raise the price. The company uses about 25,000 tons of coal annually and a tax of 1 cent per ton means a yearly increase in the company's expenses of \$25,000.

The first concern to pay the tax are the owners of large industrial plants and their goods. Ordinary postage stamps are being used for the present, but the words 'war tax' printed across their face.

It is understood that the tax generally will not come into effect for a few days, until the governor-general gives his assent to the act. The program will allow time for the necessary preparations and arrangements.

No word has yet been received at the postoffice, nor is it known whether the stamps will be handled there or whether a separate stamp department established at the inland revenue department.

## KNIGHTS OF COLUMBUS' CONCERT A SUCCESS

Local Artists Present Fine Program for Benefit of Belgian Relief Fund.

Toronto Council No. 1588, Knights of Columbus, gave a concert last night in Columbus Hall, under the patronage of His Grace, Archbishop McNeil, in aid of the Belgian relief fund. The program was practically in the hands of the Adina Quartet, and no better arrangement could have been made, assisted as they were by Ernest Selitz, who played two suites, one of Chopin numbers in his best style, and by Paul Hahn, who gave a cello selection.

The quartet was at its best in the arrangement of Lindsay's "The Bridge of the Voices" blending beautifully and with better balance than in Dudley Buck's "On the Sea," the first selection. Ruthven McDonald was very fine in his recital of "King Robert of Sicily." Edferne Hollingshead sang Lehmann's lovely setting of Omar Khayyam's "O Moon of My Delight," with a deep appreciation of the spirit of the poetry.

Arthur Blight and George Dixon contributed excellent solos. There was a splendid audience, which was only too appreciative, and unduly lengthened the program with encores.

## LATEST FROM SIR ROBERT CASEMENT

Charges British Government With Constringing to Kill Him.

Canadian Press Despatch.  
 BERLIN, Feb. 12.—(By wireless to Sayville.)—Sir Roger Casement, leader of the separatist faction in Ireland, published here today an open letter to Sir Edward Grey, British secretary of state for foreign affairs, alleging that he (Sir Roger) has documentary evidence to substantiate charges which he makes that the British Government is in a criminal conspiracy to have him captured or killed, says the Overseas News Agency.

Sir Roger made a statement, continuing the news agency, charging Manselot de C. Findley, British minister to Norway, with conspiring with Sir Roger's main servant, Adler Christensen, a Norwegian, for the capture or killing of Casement, for which Christensen would receive at least \$25,000.

Sir Roger showed a photographic copy of what purported to be a letter written on British legation paper at Christiania, in the minister's handwriting and over his signature. The writer promised "on behalf of the British Government" that should Sir Roger be captured, either with or without his companions, Christensen would receive "from the British Government" \$25,000, would be allowed personal immunity and would be given free passage to the United States.

Christensen personally declared, according to Sir Roger, that Mr Findley told him to lure Sir Roger to that point on the coast where a British ship could run in and get him, "or still better, to knock him in the head."

Sir Roger said that he had asked the Norwegian Government to promise him protection, and that after this promise was received he would go to Christiania immediately and lay before the government proofs of the British minister's alleged conspiracy with a Norwegian subject on Norwegian soil.

Sir Roger's letter has been submitted to the American ambassador and the representatives of other neutral countries for their governments' contribution of evidence to Washington.

## A HOBBERLIN \$15 SUIT.

Canada's Big Tailoring House Make a Generous Offer To Careful

This is to be remembered in the case of Hobberlin Tailoring for men, that the best thought of the tailoring goes into every garment. Whatever the price charged, the same high standard prevails.

The price fixed for special suitings and overcoatings at \$15 is very low, but the workmanship is not lowered. It is a case of economy in the short end and other ends of the season's trade. Not otherwise would the opportunity come to you to buy suitings and overcoatings sold regularly at \$25, \$30 and \$35 for \$15. Saturday and Monday's offer is well worth investigating and worth the time of a call at 143 Yonge street.

## QUEEN'S OWN RIFLES HOLD ANNUAL DINNER

Officers Attend in Khaki and Regiment Emblems With British Colors Formed Decorations.

More than one hundred and fifty of the warrant officers, staff-sergeants and sergeants of the Queen's Own Rifles gathered at the Hotel Chate-Ritz last night for their thirty-second annual dinner, the guests of honor being Col. Logie, Lieut.-Col. Pouchon, Major Blanford, Major Forbes and Major Le Vesconte.

The men attended in khaki, and the dining room presented a brilliant appearance. Over the guests' table was a large coat-of-arms of the regiment, surmounted by a portrait of Field Marshal Lord Kitchener, and draped with flags. At the opposite end of the room was a large illuminated Union Jack.

The usual toasts were proposed and drunk. The one proposed by Major Mitchell to Canada, "the best country in the world," was greeted with prolonged enthusiasm. Speeches were made by the guests of honor, and the evening was regarded as the most successful in the history of the regiment.

NO MORE FAT PEOPLE

Valuable Food-Reducing Elements

"No one need remain fat now," states a prominent French medical journal just received here. You can dissolve every pound of the ugly, uncomfortable fat without recourse to dangerous drugs, using exercises, weakening diets, and bath salts, change to simple, harmless Resia leaves, extracted from sea plants found growing in from 10 to 15 fathoms of water off the coast of France. These plants were first eaten by peasants for their invigorating effect, and the attention of scientists was attracted to them when it was noticed that those above normal weight always lost flesh after taking them. Analyses and repeated tests show that by correcting faulty digestion and exercising a steady dissolving action on the excess fat cells, Resia leaves bring about a permanent weight reduction, and leave the flesh firm with no wrinkles or flabbiness. Hennessey Drug Store, 127 E. Beaver St., Moore's Ltd., 230 King St., or any druggist will supply you with the genuine Resia leaves as small packets, and in two or three days you will notice that you are already feeling fresher and feeling better.

DEPILATORY GRAY HAIR DYE

Try Grandmother's Old Favorite Recipe of Sage Tea and Sulphur.

Almost everyone knows that Sage Tea and Sulphur, properly compounded, brings back the natural color and lustre to the hair when faded, streaked or gray; also cures dandruff, itching scalp and stops falling hair. Years ago the only way to get this mixture was to make it at home, which was a messy and troublesome. Nowadays, by asking at any drug store for "Weyhe's Sage and Sulphur Compound," you will get a large bottle of this famous old recipe for about 50 cents.

Don't stay gray! Try it! No one can possibly tell that you have used it, as it does it so naturally and evenly. You dampen a sponge or soft brush with it and draw this through your hair, taking one small strand at a time; by morning the gray hair disappears, and after another application or two your hair becomes beautifully dark, thick and glossy.

DIES SUDDENLY. MRS. G. H. GIBSON, Feb. 12—John afternoon shortly after in a chair in a sitting Catharines House.

Weak, Wasting away, and Digestive Troubles.

Thought she could never recover.

Now cured and happy through DR. CASSELL'S TABLETS

Canadian mothers of little weak or ill-

children should read this testimony to Dr. Cassell's Tablets, given out of simple gratitude by Mrs. Worrall, 23 Alt-

streets, Liverpool, England. They will then see what a valuable health-builder they have in this great remedy.

"Dr. Cassell's Tablets have quite cured my little girl, Gladys, of extreme nervousness and digestive troubles, and I think it only right you should publish the story for the benefit of other mothers whose children may be delicate.

Gladys began to wail when she was only two years old and steadily grew weaker, though we did all we could think of to get her well. She was very restless and nervous, and would not eat any food. Sometimes she would scream for no reason at all, that we could discover, and would not be comforted by any of our usual remedies. Her appetite was very poor, and her little cheeks fell in dreadfully. Indeed, she hardly ate anything, and seemed just wasting away. We tried a lot of different things that did no good at all. Then we had advice and treatment for Gladys, but that too was of very little use. We were told she was suffering from nervous breakdown and was charged liver. After that we took her to an institution, where for nine months she was treated as an out-patient. Perhaps she was a little better for a time, but was soon as ill as ever. Next we took her to Ireland for three months, and that seemed to help her. But almost at once she relapsed into the old weak state.

For four years this had gone on, and she was as far from health as ever. At last, she was so ill that we thought she could never recover. One day, however, I was advised to give her Dr. Cassell's Tablets, and then, what an improvement the child became! She ate and drank as if she were a healthy child, and her appetite was so good that she was able to go to school. Now, in her fourth year, she is completely cured, and goes to school as well as any well and happy as any child could be."

WORLD'S GREATEST KIDNEY REMEDY

"Fruit-a-tives" Have Proved Their Value in Thousands of Cases.

WONDERFUL RECORD OF A WONDERFUL CURE

Only Remedy That Acts on All Three of the Organs Responsible for the Formation of the Uric Acid in the Blood.

Many people do not realize that the skin is one of the three great eliminators of waste matter from the body.

As a matter of fact, the skin rids the system of more urea (or waste matter) than the kidneys. When there is kidney trouble, pain in the back and acid urine, it may not be the fault of the kidneys at all, but be due to faulty skin action, or constipation of the bowels.

"Fruit-a-tives" cures weak, sore aching kidneys, not only because it strengthens these organs, but also because "Fruit-a-tives" opens the bowels, sweetens the stomach and stimulates the action of the skin.

"Fruit-a-tives" is sold in 4 oz. bottles at 50c a box, 4 for \$2.50, trial size 25c, or will be sent postpaid on receipt of price by Fruit-a-tives, Limited, Ottawa.

DAMAGES FOR EYE

Richard Doyle Awarded Half of Claim Against Foley-O'Brien.

Mr. Justice Clute at Osgoode Hall yesterday gave judgment to Richard Doyle for \$2500 damages and costs against the Foley and O'Brien Mining Company for the loss of an eye and other injuries sustained in a discharge of dynamite.

He claimed \$10,000 and stated that the accident was caused by the negligence of the defendants, but the defence held contributory negligence on the part of the plaintiff.

Mr. Justice Sutherland granted the application of Charles W. Moodie for the appearance in court of W. C. Hawkins to answer questions for discovery in connection with the affairs of the Dominion Power and Transmission Company. He claims that Hawkins, who is manager of the company, along with others of the directors, had certain salaries to which he is not entitled. The defence submitted that the bylaws of the company provide for the salaries, but it is found that no specific amounts are stated.

Refused Application. Mr. Justice Britton gave judgment in the case of Henry Bateman, insolvent, William T. Whena assignee, asked to recover a \$4000 mortgage on a farm which is in the name of the late John Bateman, who took the mortgage. The interest to be paid for the support of himself, his wife and imbecile son Charles. There was an understanding that the mortgage should expire on the death of the three named. His lordship refused the application as Charles had to depend on the interest for support.

Abattoirs Must Stop. According to Corporation Counsel Henry the West Toronto abattoirs must stop the nuisance complained of by the health department if the companies can do so, and if not their concerns must cease to operate.

The application was resumed yesterday before Mr. Justice Riddell. Mr. Geary did not doubt the companies' motive, but believed that an order finding a nuisance and requiring its abatement would be a wise precaution. His lordship would not make the order. "I'll leave the case as it is," he said, "and you can fight it out among yourselves. If you trip over anything come to me or the judge of the way."

It was understood that the defendant companies will do all in their power to abate the nuisance, but that they will not make the order. "I'll leave the case as it is," he said, "and you can fight it out among yourselves. If you trip over anything come to me or the judge of the way."

The list for Monday is: First appellate court—Rex v. Dominion Bridge Co., Windsor v. Martin, Price v. Renaud, Noble v. Shuttleworth, Healey v. Ross, Grills v. Ottawa. Second division—Link v. C.O.P., Re Hishop Estate, Brown v. Preston, Bariso v. Curtis, Murray v. Muir, Van Zonnobell v. Gilchrist.

WAR STIMULATES GREAT ACTIVITY

Annual Meeting Local Council St. John Ambulance Association.

LIEUT. WATTS HONORED Given Insignia of the Order for Special Services.

At the annual meeting of the Ontario provincial council of the Canadian branch of the St. John Ambulance Association, held yesterday afternoon at the Canadian Institute, reports showing a great increase of activity since the outbreak of the war were read, and the pleasing ceremony of bestowing the insignia of the Order of St. John of Jerusalem Hospital upon Lieut. F. E. Watts, M.D., was performed by the lieutenant-governor of Ontario.

Col. Mason was in the chair, and the reports read by the secretary, Dr. Charles J. Copp, showed that classes of instruction had been introduced in thirty towns and villages. A feature of the year's campaign was the establishment of a centre of the association formed by members of the Order of Oddfellows.

All the members of the Army Medical Corps at the Exhibition camp in the second contingent have been instructed in classes of first aid to the injured and home nursing of the association.

A proposition was put forward by Hon. Wallace Nesbitt that the premier and minister of education be asked to have the principles of first aid introduced in the schools, and that teachers be obliged to take the certificate of the association.

The following officers were elected: President, Col. Hon. James Mason; vice-presidents, Col. E. H. Pellatt, C.V.O., D.C.L., Lt.-Col. W. M. Gartshore, W. K. George; hon. secretary-treasurer, Dr. C. J. COUNTY SEEKS POWER OF COLLECTING TAXES

York Deputation Asks for Power to Tax Church Lands and Jail Farms.

York County is seeking power to collect more taxes. With the object of gaining implemental legislation from the province, a deputation from the county council waited on Hon. W. J. Hanna yesterday and outlined their grievances.

The first thing they desired was power to collect taxes from Toronto on the jail farms now held in the county. Mr. Hanna advised them to approach the city council and attempt an amicable settlement. Legislation should never be thought of unless absolutely necessary.

The county also complained of the large amount of untaxed land held by churches throughout the county. Reeve Pugsley spoke of the Scarborough Seminary, which was of large extent. A land tax at least should be paid.

Mr. Hanna advised them to wait upon the mayor and new city council for discussion of the matter. He considered their appeal quite warranted.

JUDGMENT RESERVED. Mr. Justice Riddell, reserved judgment in the non-jury assize court at Osgoode Hall yesterday in the suit to recover \$14,412.25 damages of James L. Chalmers against the City of Toronto.

WIDOW ASKS PROBATION. Probation of the will of the late William J. Solomon, commercial traveler, who died in Toronto, January 29, 1915, has been applied for by his wife, Harriet Solomon, who, according to the will dated December 27, 1913, is sole executrix to the estate, which amounts to \$27,711.

Whether Toronto people will be carried any more quickly to their homes or not the Ontario Railway Board is going to see that those on the cars will not be unduly crowded. An order to this effect was yesterday passed by the board, from a draft to be arranged by Chairman McIntyre, cars will be allowed to carry a full seating capacity plus 50 per cent. of that number of people, and when the schedule-lion is board huge signs, "Car full" will be raised and no other person may get aboard. Conductors will have power to prevent anyone from climbing on, and if violence is offered a penalty may follow.

In spite of the opposition of Corporation Counsel Geary on the ground that the passengers would be penalized instead of the company, the board passed the order as the most feasible under the circumstances. A. B. Ingram of the board dissented at the hearing on the basis that the company by law to this effect was unworkable, and that conductors could not possibly look after the seating capacity in addition to collecting fares. His idea was that gates or bars might be used, but that the present construction made operation of the new idea impossible. All difficulties were belittled by the board.

Mr. Gage's Work Crowned

With the opening of the administration building of the National Sanitation Association this week the immensely important and helpful movement started on against lung disease in Ontario may be regarded as having become consolidated and established.

It is twenty-one years since Mr. W. J. Gage with the late Mr. Hart A. Massey and Dr. Powell, still happily surviving, began the work which has attained such splendid proportions and accomplished such happy results.

Not only by his own efforts but also by the incentive which his example has given, the association has assisted in bringing the death rate from consumption in Toronto to the lowest mark attained by any city in America or Europe...

Another Page of Belgian History

In his war the allies have been handicapped all along. This happened in its early stages because they were unprepared in a more or less degree, for the crisis precipitated by Austria's harsh ultimatum launched at Serbia.

Looking to the End

Russia, along with the other allies, has provided surprises for the Prussian war lords. This will come as a greater blow to them than the failure of their political agents to appreciate the internal unity of the nations they sought to bring under subjection.

British and German Ideals

Far removed as Canada is from the European battlefield all echoes from the distant Canadian equanimity. We hear about the war in the trenches. We are thrilled by the story of Canadian heroism, not because it is exceptional, but because it touches us more closely. That is valuable only if it enables us to realize and recognize that the whole Empire, of which Canada is the premier Dominion, is not the closest colony engaged in a European struggle.

British Naval Efficiency

Only now and again do we usually greet the event do we get a glimpse into the inside story of the war thru the screen interposed by the rigid censorship. During all these months since the British Empire declared against the domination of Prussian militarism...

A GOOD TIME TO LOCK THE STABLE DOOR.

ada, but for the preservation of the British idea of empire founded, not on force, but on voluntary co-operation.

That after all is a great conception, not only great, but capable of infinite extension. England as the predominant partner in the United Kingdom, had the same lesson to learn. A time there was when the national instincts of Scotland, of Ireland and of Wales were regarded as antagonistic to the unity of the kingdom.

British ideals will triumph because they allow of the preservation of individual nationhood. Germans want to recast the world in their own mold. They imagine that their is the final result of civilization, and that they are conferring a favor when they compel all nations to submit themselves to a German recast.

**Beware of Fake Baking Powder Tests**  
 ("THE SPICE MILL" (N.Y.), SEPTEMBER, 1913.)  
 Unscrupulous manufacturers of baking powder, in order to sell their product, sometimes resort to the old game of what is known as the "glass test." In reality it is no test at all, but in cases where the prospective buyer does not understand that the so-called "test" is a fake, pure and simple, the salesman is sometimes able to make him believe it shows conclusively that the so-called baking powder he is selling, and which of course contains egg albumen, is superior to other brands which do not contain this ingredient.

**Special Cable to the Toronto World.**  
**PETROGRAD, Feb. 12.**—The new situation in East Prussia has a connection with the subdividing of the Austro-German campaign along the Carpathians. Austria must soon lose the prop of her ally. Therefore the German staff has arrived at the conviction that the Austrians cannot be left to fight the army of hardier fighting troops from the north. It is evident that the Carpathian army will be like a torpedoed ship to its own resources, for the Germans are now throwing all their spare men to the other extreme end of the Russian position. Their determined succession of forced marches across the northern and southern lines of East Prussia has brought their right wing around the lower end of the Masurian Lakes than the Russian position.

**Both Aggressive and Defensive.**  
 This new German move has an aggressive and defensive character. The Germans have brought probably 200,000 additional men to its execution. Their task is to capture the position for the northern section of Von Hindenburg's command against the Russian invasion, while the northern section is to be used for the purpose of the prolonged battles requiring to the utmost limit its strength in the west and France. It is certain that the Germans are not secure in this impregnable East Prussia. Had they been able to circumvent the lakes and the situation would have been serious some time, but the Russians are already adjusted for the purpose now in great operations with their front unbroken for a decisive struggle for East Prussia, and a prolonged and stubborn encounter is beginning.

**Use Incendiary Shells.**  
 The Germans rely very much on incendiary shells for softening up the Armentieres they made use of projectiles of this type against the trenches and in places reaching the British trenches and in others penetrating beyond them.

**British Infantry Steady.**  
 But even when our line was broken, the continuing presence of the holding them, when assailed from the rear, remained steady, faced about and fought on in a fine and bayonet.

**Some of those in the village, who had been engaged in clearing up the debris of the houses, had got somewhat scattered until one party only fifteen remained together, when they saw that some of the enemy were established in one of our fire trenches just outside. They at once charged down the trench, led by the officer, and killed or captured all the Germans, forty in number.**

**For Chapped, Blotchy, Rough or Coarse Skin**  
 Most skins require constant grooming at this season to keep them from becoming unshiny red, blotchy, coarse, rough and cracked. It is not enough to wash to overcome it. In such cases it is particularly inadvisable to keep skin particularly dry. It is better to use a cream which will literally absorb a spoiled complexion. Apply the wax, like cold cream, before retiring, and in the morning wash it off, you will wash away fine, flour-like particles of the wax, and the skin will be left soft, smooth and beautiful as a child's. One ounce of mercolized wax, procurable at any drugstore, is all you need.

# PATRIOTISM and PRODUCTION

## The Call of the Empire to the Farmers of Canada

"Approximately twenty million men have been mobilized in Europe. A large proportion of these have been withdrawn from the farms of the countries at war. Even in neutral countries large numbers of food producers have been called from the land to be ready for emergencies. It is difficult for us to realize what will be the effect on food production through the withdrawal of several million men from all the great agricultural countries of Europe. These millions cease to be producers, they have become consumers,—worse still, they have become destroyers of food."

HON. MARTIN BURRELL, Minister of Agriculture.

Britain must have food—food this year, and food next year. Britain is looking to Canada to supply most of that food. We are sending our surplus now, but we must prepare for a larger surplus this year and next year. Patriotism and Production must go hand in hand.

At these Conferences agricultural specialists, who have studied agricultural conditions and production throughout the world, and the best means of increasing agricultural production in Canada, will give valuable information and suggestions to the farmers, live-stock men, dairymen, poultrymen, vegetable growers, and other producers of this country. The Canadian Department of Agriculture urges you to attend as many of these Conferences as possible; also to watch for other information on the subject that will be given in other announcements in this newspaper.

## ATTEND YOUR CONFERENCE

Because of this need of the Empire for more food, and the call to Canada in that need, the Canadian Department of Agriculture has arranged for a series of Conferences throughout the Dominion, with the object of giving suggestions as to the best ways of increasing production of the particular products needed at this time.

## Put Energy into Production of Staple Foods

The Government does not ask farmers to work harder, so much as it urges them to make their work more productive, and to produce those staple foods that the Empire most needs and that can be most easily stored and transported.

This Department has issued over two hundred bulletins. A list of bulletins is printed in a booklet entitled "Publications Available for Distribution."

Europe, and particularly Britain, will need the following staple foods from Canada more than ever before:

- Wheat, oats, corn, beans, peas, Beef, mutton, bacon, and ham. Cheese and butter. Poultry and eggs. Vegetables, such as potatoes, onions, and turnips.

ten years has doubled the average yield of the majority of her field crops largely through better seed, thorough cultivation and use of fertilizer. But in making your plans, don't let your enthusiasm and loyalty make you attempt more than you can carry through. Millions of bushels, instead of millions of acres, should be the aim of Canadian farmers.

And while the Empire's armies are busy putting down German Militarism, let us at home appropriate the best of Germany's agricultural methods for the Empire's advantage. The Government urges farmers, stockmen, dairymen and other producers to make a wider use of the Free Bulletins issued by the Canadian Department of Agriculture.

The larger the yield of these staple food products, the greater the service to the Empire. Germany in the last

ROADS CARRIED MUCH LESS GRAIN

Big Falling Off Shown in the Movement of Western Crop.

Statistics of the distribution of the grain crop of the west as carried by the railroads show a decided decrease last year from 1913. Dating from September 1 to February 7 inclusive, the comparisons show that the Canadian Northern in 1914 carried 35,296 cars of all kinds of grain as against 46,532 in 1913 for the months mentioned. This was for 1914 30 per cent of the total amount hauled, but shows a decrease of 16,933 cars.

The C.P.R. carried 66 per cent in 1913 of all the grain hauled, against 52 per cent last year. The G.P.R. carried 16,225 last year against 17,079 in 1913, a decrease of 854 cars or 11 per cent. This road carries 13 per cent of all the grain hauled in 1914.

The total decrease in cars of grain hauled in 1914 when compared with 1913 is 32,934 cars. It will be noted from the above figures that of the four railroads handling the crop, the C.N.R. has an increasing movement, an increase of 2 per cent, the G. P. P. an increased share of over 11-2 per cent, while the G.N.R. has a fractional decrease of four-tenths of one per cent. The figures also show a total decrease of the 1914 crop hauled of 44 per cent. The figures apply to all kinds of grain hauled by the four roads.

**How We Can Do It**  
By grouping a large number of transactions and dealing with them together within a fortnight, we are enabled to let members choose their merchandise now, and yet defer their payments. Adhering to our policy of one price to all, and that the lowest, we offer Club members their goods at this store's close cash prices, or at the special sale prices announced during this month of February in our departments of FURNITURE, DRAPERY, CURTAINS, CARPETS, RUGS, LINOLEUMS, CHINA, SILVERWARE, WALL PAPER, PICTURES, and ELECTRIC FIXTURES.

In so far as these are made by Canadian workmen, the Club plan will be a new stimulus to Canadian industry.

It is a continuation of the programme inaugurated by this store at the outbreak of war to give constant employment to our work people and to those employed in Canadian factories which supply us with these home-furnishings.

## Home Owners' Furnishing Club A New and Unique Feature in Our February Furnishing Sales Will Open Next Monday, Feb. 15th

(LIMITED MEMBERSHIP OF 500)

**Addressed to Those Who Usually Pay Cash**

Here is a plan by which Home Owners may proceed at once with furnishing which would otherwise be postponed. It is addressed to those who under usual conditions are accustomed to buy things for cash. But exceptional times and conditions will make this club plan very widely appreciated by Home owners who contemplate furnishing or replenishing this year. They will appreciate the convenience of making payments from time to time within the next twelve months without one cent of interest or other charge for accommodation.

**THE CLUB PLAN MEANS JUST THIS:—That you pay at once only a small percentage of the cost of your home furnishing—the rest of the purchase being arranged for in convenient future payments.**

**Expert Service**  
The service of interior decoration experts will be at the disposal of club members without extra charge. Designs will be furnished by our own artist, or you may have your architect supervise any scheme you may decide upon. We guarantee that the simplest and least expensive furnishing idea will be in correct taste, as will the more elaborate schemes of Period furniture and decoration. Details of the rules of the club and conditions of purchase will be furnished at the Club Headquarters, Fourth Floor. Each member will receive individual personal attention. Confidential exclusive treatment will characterize the dealings with each customer both as to designs and terms. This applies to the replenishing or refurnishing a single room or to supplying a house complete. Correspondence with out-of-town customers invited. Join the Home Owners' Furnishing Club on Monday.

**Make Application for Membership on Monday**  
You may take your time then, in choosing the merchandise you want, and arrange for payment on the Club plan. The headquarters of the Home Owners' Furnishing Club is on the Fourth Floor, where you may register your name and address, beginning Monday next, at 8.30 a.m. There is need at once to make your selection.
