

MILITIA. THE MILITIA OF ONTARIO. THE MILITIA OF ONTARIO. THE MILITIA OF ONTARIO.

Workmen on the International Will Have to Suffer. CAN OFFER NO DEFENCE. The Minister of Railways Stirred Up a Wasps' Nest Yesterday.

At All Happened When the International Estimates Were Under Consideration—Mr. Blair Was Roundly Scolded by Sir Charles Tupper, Mr. Foster, Mr. John Ross Robertson and Others—Mr. Richardson Called Down by Mr. Wood of Hamilton—General Gascoigne's Letter to General Cameron.

Ottawa, Sept. 18.—(Special).—The spectacle of one Liberal calling another member sitting on the same side somewhat abruptly to time was one to which the House was treated early this afternoon. Last night Mr. Richardson, member for Ladang, read a list of accounts which, he alleged, were owing to the Government by various gentlemen throughout the Dominion for binder twine from Kingston Penitentiary. Included in the list was the firm of Wood, Vallis & Company of Hamilton for the sum of \$1890, the senior member of the firm being one of the representatives of Hamilton in the Commons.

On the orders of the day being called Mr. Wood rose and expressed his regret that he was not present in the House when the binder twine discussion came up. He desired to say that he did not owe the Government one cent for binder twine, and he proceeded to show by the correspondence with the department that this was the case. In conclusion, he thanked the gentlemen on the Opposition side for the house for giving him the opportunity to clear up to his firm as they did last night.

A DISMISSAL. Mr. Taylor called attention to the dismissal from the Government service of W. Augustus, sailmaker, at Kingston. Dr. Borden said the dismissal was not for political reasons, but simply that the services of the gentleman were no longer required. Mr. Augustus was employed by the day, and was given notice of discharge.

THE MILITIA ESTIMATES. The House then went into Committee of Supply, and on the militia estimates Dr. Borden asked the Minister of Militia to state the truth of newspaper reports that Lieutenant Hamilton was about to be re-elected in command of the Queen's Own. The Minister of Militia replied that the matter of the Queen's Own Regiment had not had an opportunity to be taken up by the Government, and he hoped, however, as soon as Parliament met, to be able to settle it one way or the other.

Further questions, the Minister said that of the 40,000 new rifles ordered 3000 had been distributed. He looked for the truth of the report that the new Government had cancelled the order-in-council authorizing the purchase of the Oliver patent infantry equipment for \$200,000.

The Minister answered that the order-in-council had not been revoked. He said that the department would not go back on the equipment, which was being purchased by the Government, and he said that the Government was not going to be swayed by the opposition.

Mr. Casey suggested that as there were men in the lumbering business well up in rigging heavy loads for easy carriage over a rough country, it might be worth while to have a native system of equipment.

Sir Charles Tupper explained that the order was passed to purchase the equipment, and that the Government had not yet received the equipment. He said that the Government was not going to be swayed by the opposition.

Mr. Foster severely arraigned Mr. Blair for his statement. The hon. gentleman had asserted his determination to do justice to every class in the community, but had finally admitted that for workmen there would be no hearing. The mere pipe dixit of the Liberal member or Liberal candidate would be of no avail.

MUCH ABUSED MARINERS. Sailors Kicked and Beaten by Officers of the Boat. AND A SAVAGE WOLFHOUND Was Trained to Jump Upon and Bite Them at the Officers' Bidding.

The Men Exhibit Sore from the Blows and Bites—Their Case Laid Before the British Consul at Boston—It Was the British Ship Warrior, Hailing From Nova Scotia and Commanded by a Canadian, on Which This Happened.

Boston, Sept. 18.—The crew of the British ship Warrior, which arrived here last night, appeared at the office of the English Consul here and made charges against the officers of the vessel. All are agreed that they have suffered kicks and blows from the master, second mate and steward. They tell of a savage wolfhound trained to jump on them at the command of the officers and bite them. They exhibit sores from blows and bites. They were glad to report and are reluctant to go back to the vessel, fearing more violence now that they have brought their grievances to the attention of the Consul.

A NOVA SCOTIA BOAT. The Warrior is a full-rigged ship of 1600 tons burden and hails from the town of N. S. Her captain, A. Kitchen, has sailed her twelve years. The crew charge that he has added to the alleged cruelty of Mate Buchanan, Second Mate William Howland and Steward James MacFarlane. The ship left Rio de Janeiro Dec. 5 and went to Cebu, in the Philippine Islands, where she was attacked by a shark. She was then driven to Cebu, where she was attacked by a shark. She was then driven to Cebu, where she was attacked by a shark.

At Cebu another member of the crew, Harry Nelson, says that he was attacked by a shark. He was then driven to Cebu, where she was attacked by a shark. She was then driven to Cebu, where she was attacked by a shark.

WHAT THE CAPTAIN SAYS. Captain Kitchen came before the British Consul this morning while the crew were gathered there. "I do not know anything about the charges," he said. "The crew gave no signs of discontent during the voyage. Of course, I did not hear the yells they were making when they were being taken to the shore."

ROUNDS FOR MR. HOPKINS. The Young Canadian Author Receives Kind Words from the Marquis of Lorne. Mr. J. Castell Hopkins, the clever young Canadian author, has just received a letter from the Marquis of Lorne, who was his reader.

Mr. Hopkins has also received from the Marquis of Lorne a letter of introduction to the Marquis of Lorne, who was his reader. The letter is characterized by eloquent and contains matters of unusual interest to Canadians with whom Lord Dufferin came into contact, while Governor-General of Canada.

THOSE HIRED MEN. Western Representatives Present Their Views on the Grain Standard—The Minister of Militia of Ontario and Niagara—The Government Want to Shelve Joe Martin on the Bench in British Columbia—Gratifying Increase in Trade—General News from the Capital.

Ottawa, Sept. 18.—(Special).—Several back benches on the Government side came in for a severe wiggling at the party caucus this morning. It was pointed out that there is altogether too much talking on the part of supporters of the Government on the back seats. They seem to forget that they are not in Opposition, and keep hammering away against Sir Charles Tupper and his followers.

THE QUESTION OF THE DURATION OF THE SESSION was discussed. General satisfaction was expressed over the fact that the session will be extended. One of the most important topics brought up was the question of the duration of the session. It was pointed out that the session will be extended.

THE CONTROLLER OF INLAND REVENUE has been waiting upon the past two or three days by representatives from Manitoba and British Columbia with reference to the proposed standard of No. 1 hard red flint. The Controller of Inland Revenue has been waiting upon the past two or three days by representatives from Manitoba and British Columbia.

MR. BORDEN, Minister of Militia, left for Toronto this morning. He will return to the city on Monday. He will return to the city on Monday. He will return to the city on Monday.

MR. RUDDICK'S MOVEMENTS. Mr. J. E. Ruddick of the Dairy Company has been waiting upon the past two or three days by representatives from Manitoba and British Columbia.

THE ST. JOHN CELEBRATION. The St. John celebration, which is here to urge the claims of that port for a winter service, had an interview with Mr. Blair to-day, and will see continued on Page 4.

THE NILE EXPEDITION. British Forces Have Passed the Third Cataract—Progress in Good Shape and the Nile Expedition is Well Advanced.

STRANGER THAN FICTION

Is the Truth Concerning John Gibbons of East London.

He Was Tortured With the Pains of Sciatic Rheumatism - Tried Doctors, All Sorts of Medicines and Went to the Hospital in Vain - Dr. Williams' Pink Pills Cured Him When All Else Had Failed.

From The London Advertiser.

There are two things in this world which Mr. John Gibbons, a resident of Queen's-avenue, east, will henceforth place implicit confidence in. One is the judgment of his wife and the other the curative qualities of Dr. Williams' Pink Pills. In his case the two went hand in hand. Mrs. Gibbons thought of the remedy, the pills did the rest, and to-day Mr. Gibbons is a well man, where last fall he was virtually a cripple.

From The London Advertiser. Mr. Gibbons was met at the door by the object of his visit, and was cordially invited in. The reporter had no sooner got comfortably seated when Mr. Gibbons went into an adjoining room. The sound of clinking bottles was heard through the half-open door and when Mr. Gibbons reappeared he had in his arms a whole basket of bottles. He has to show for many an unuseful drug. As Mr. Gibbons was busy showing the bottles and decanting upon the impotency of the medicines they had contained, the reporter had abundant opportunity of marking the appearance of the man. His speech betrays his English birth and his face still bears the marks of suffering, but his frame is erect, his step light and elastic and when he tells you that he can work, run or jump with any man you cannot help but believe him. He is 39 years of age, and was born in Bow-road, Stratford, England. He came to Canada in 1882 and located at Galt, where he is well and favorably known. He worked for the Hon. Mr. Young, member of Parliament, for a long time, and seven years ago he married Miss Alice Mann, of Galt. After Mr. Gibbons returned to London he settled down near the car shops and did very well always having the strength to do it. He cared nothing about a wetting until one day a month ago he took an acute attack of sciatic rheumatism following wet feet. "I lay down on this floor," said Mr. Gibbons in telling his story, "and after a few days suffering terrible agony, I could not get up a step and my wife had to help me up from the floor. I felt the pain in my back first. It then apparently left my back and went to my legs. Doctors came here to see me. They gave me prescriptions, but none of them seemed to do me any good. The neighbors could hear me all over Queen's-avenue when I would get an attack of the pain. Last week I was taken out of this place in a hack and taken to the hospital. I remained there about three weeks. The doctors told what they could for me, but could not give me any relief. At the end of three weeks I was sent home, suffering as much as ever. My wife got hold of a pamphlet which told of a number of remarkable cures by the use of Dr. Williams' Pink Pills, and we determined to try them. I took about three boxes and the sciatic rheumatism was cured. I feel perfectly strong and have a good appetite. "No, I don't want another attack of sciatic rheumatism," said Mr. Gibbons, as he lighted the reporter to the door.

Mrs. Gibbons was not at home on the occasion of the reporter's first visit. Subsequently he called on her and received a cordial confirmation of Mr. Gibbons' story. "He was home all last summer," said Mrs. Gibbons, "and last August the pains were so severe as to bring him down his knees, and to save him he could not get up. I had to lift him off the floor many a time. He seemed powerless. The best of his health was almost all of them repeatedly filled so that the number of bottles was equal to the amount of medicine taken. Before he took the pills," concluded Mrs. Gibbons, "I thought I was going to be laid up for good. But now," she added in parting, "he is as well as ever. Dr. Williams' Pink Pills create new blood, build up the nerves, and thus drive disease from the system. In hundreds of cases they have cured after all other medicines had failed, thus establishing the claim that they are a marvel among the triumphs of modern medical science. The genuine Pink Pills are sold only in boxes bearing the trade mark, 'Dr. Williams' Pink Pills for Pale People.' Protect yourself from imitation by refusing any pill that does not bear the registered trade mark around the box.

The Green and Parade. The Royal Grenadiers held their first fall parade Tuesday evening. Col. Mason commanded, and including recruits, there were 412 men in line. The line of march was as follows: University and since to King, Yonge, to Queen, and up University to Bank.

Sunday Cars. A suggestion to the City Council and street railways, see by last night's report that the reason assigned by the company for not offering full service on all routes is the fact that Bloor-street especially there are so many churches, that Y. U. C. A. will be the disturbance. As I hope the cars will be long time people as much to church as to the street. The suggestion is that the cars should be run on the Bloor-street route, and that the cars should be run on the Bloor-street route, and that the cars should be run on the Bloor-street route.

Editor World: Just a suggestion to the City Council and street railways, see by last night's report that the reason assigned by the company for not offering full service on all routes is the fact that Bloor-street especially there are so many churches, that Y. U. C. A. will be the disturbance. As I hope the cars will be long time people as much to church as to the street. The suggestion is that the cars should be run on the Bloor-street route, and that the cars should be run on the Bloor-street route, and that the cars should be run on the Bloor-street route.

J. S. says: "I was in a dreadfully weak and nervous condition, unable to rest and utterly unfit for work, and Miller's Compound Iron Pills cured me."

MR. LAURIER SHOULD TAKE CARE

Labour's Loss in the U.S. is Over \$300,000,000 Yearly owing to Cleveland's Free Trade Policies.

From The New York Press. No greater public duty has been performed during the present campaign than that of the officers of the Cambria Iron Company in making public the exact figures of the losses to their workmen and themselves consequent upon the election of Mr. Cleveland, with the attendant anticipation and realization of his free trade policy. We know from experience, an ever thoughtful person can conceive without experience, the reluctance of manufacturers on this point. They have been ready to supply their quota of information for a census of industrial loss if their names could go unpublished over their signatures the loss of time in their mills. But absolutely to show their books to the public they have naturally been reluctant. The Cambria Iron Company, doubtless relying upon the historic strength of its credit and fearless of the advantage accruing to rivals from the disclosure of its figures, has now applied the first definite figures of the effect of the Cleveland calamity upon a great industrial concern. The loss in two years amounting to \$324,844.

LOSS TO WORKINGMEN. There were \$888,404 less wages paid in 1892 than in 1891. There were \$208,410 less wages paid in 1894 than in 1893. The loss in wages in two years amounted to \$280,000.

LOSS TO COMPANY. The value of the product of the Cambria Iron Company in 1892 was \$2,000,000 less than in 1891. The value of the product of 1894 was \$420,000 less than in 1893. The shrinkage in two years amounted to \$280,000. This is the Valley of the Conemaugh and the company's Lake Superior mines—where there are four iron and steel makers. The loss in two years of the Conemaugh? Add to these losses those of the great works of Braddock, Duquesne and Homestead, and they go for only as far as Pittsburgh, only seventy miles along one great trunk railway. On one slope of the Alleghenies, in making up this catalogue of catastrophes, we have seen Pittsburgh—and what is Johnstown to Pittsburgh? Then go on west, through Youngstown, Cleveland, Chicago, Joliet, leaving out all reference to the great eastern plants, such as Sparrow Point, Md.; the steel works of the Valley of the Conemaugh, though not all as high in that class, as the Cambria works. Do not think of it as reckoning the loss of Clevelandism, without a beginning at the cost of Bryanism, and the arithmetical faculty grows numb at the thought of the calculation of losses in this single branch of trade, which was Mr. Elder, who is not merely a lawyer, but an economist of repute, says in "better off than some other countries. Prices were not compared with woolens, he might have said. Twenty-four hundred thousand dollars went to the workingmen of a single one of the thousands of the country's industrial plants! Two and a half millions from this one little town, this city of the "third-class," which would have gone, as Mr. Elder says, "to the local farmers, but all over the country—to Southern farmers for fruit and early vegetables; to Western farmers for beef, pork, lard and flour, and for corn in its solid and liquid state, and as much barley as finds its way into beer."

CRIME IN GOTHAM

Thugs Growing More Audacious in Uncle Sam's Chief City—Highway Robberies in the Park.

New York, Sept. 18.—Bolder and bolder become the criminals that infest the city of Gotham. The record of crime increases, not only in length, but in the audacity of the offenses.

Charles Palmér, an employe of St. Luke's Hospital, was held up by a burglar in Central Park yesterday afternoon when drives and walks are usually thronged. He resisted, and the burglar, who was well armed, a blow which shattered his jaw and cut his tongue nearly in half.

Another assault by a thug occurred just within the park gate at Fifty-ninth-street, shortly after 8 o'clock yesterday.

George Wisner, an infirm old man, was brutally beaten by a highway robber in Central Park yesterday afternoon when drives and walks are usually thronged.

Jersey furnished its usual story of an assault on a woman upon the highway, with the variation that the alleged assailant was caught. It was at Calton, and the farmer of the whole section turned out, and after an all-night hunt, captured their man, a stranger in the neighborhood.

Ten-Year-Old Men Want Pensions. The provisions of the present pension warrant now limit the grant of pension to men who have seen 14 years' active service. Many of the veterans consider this limitation somewhat unjust, and a meeting of the ten-year-service members of the Army and Navy Veterans was held in Temperance Hall last evening for the purpose of taking steps to have the pension extended to them. There were 19 present, Mr. J. Nunn occupying the chair. Messrs. George Blagden, the secretary, P. Cunningham, J. Lillie, and the other members were appointed a committee to draw up a petition and forward it to the British Government for the end desired. The petition was taken to obtain through Lord Aberdeen, Her Majesty's influence in their behalf. The meeting adjourned to meet again on Oct. 8 next, and in the meantime as the local lodge would like to make the movement a general one, the secretary would be desirous to communicate with the country who are interested.

West End Y.M.C.A. The opening reception of the season of the West End Y.M.C.A. will be held on Tuesday evening, Sept. 22nd, at the building, 407 Queen-st. East, and will be a special musical program by Mr. Kirby, musical director.

Fifty Years Ago. This is the stamp that the letter bore which carried the story far and wide, of certain care for the thousands sore. That bubbled up from the tainted tide of the blood below. And 'twas Ayer's name, and his his name, that was known, that was just beginning its fight of fame. With its cure of 50 years ago.

Ayer's Sarsaparilla is the original sarsaparilla. It has behind it a record for cures unequalled by any blood-purifying compound. It is the only sarsaparilla honored by a medal at the World's Fair of 1893. Others imitate the remedy; they can't imitate the record; they can't imitate the record.

TYPHOID COSTS MONEY.

Unbearable Always to Drinking Infected Water or Eating Infected Food—The Health Officers at Buffalo.

Buffalo, N.Y., Sept. 17.—At to-day's session of the American Public Health Association, Dr. Peter H. Brown of Toronto, Canada, chairman of the Committee on River Conservancy Boards of Supervision, presented the report of the committee. Dr. Wyatt Johnson of Montreal, bacteriologist to the Provincial Board of Health of Quebec, presented a paper on "The Serum Diagnosis Test for Typhoid Fever." Dr. Johnson gave the practical results of his personal work in diagnosing typhoid fever cases from drops of blood. His address was exceedingly interesting.

Dr. J. Elliot Woodbridge, of Cleveland, Ohio, presented an interesting paper on "Prophylaxis of Typhoid Fever." He stated in opening his paper, that the cost of typhoid fever in actual money was \$8,125,000 per annum in this country alone. Every fact of typhoid fever, he said, was traceable to either the drinking of infected water, or the eating of infected food. He said it was a subject that called for Government attention and to prevent the dumping of refuse into the water upon which the people are depending for drinking. He spoke of the rivers in the United States and Canada and of the means by which the water supply was contaminated through the interference of some cities to the water of other cities and towns farther down the rivers, which caught the result of the refuse dumped in upper portions of the rivers, which was carried by the current to places farther down. This municipal selfishness, he said, should be checked by Government action. It was the only way to prevent typhoid, he said, "is a water-borne disease, and to the purity of the water supply, and the prevention of only sanitary out of the terrible disease." Amongst the papers presented at the afternoon session, was one on bacteriological diagnosis as governing the admission and discharge of patients in public hospitals, by Professor E. B. Shuttleworth of Trinity Medical College, Toronto, Canada.

New Patents. Below will be found the only complete weekly up-to-date record of Canadian patents granted. Canadian inventors in the above countries, which is furnished us by Messrs. Farnham & Co., patent barristers, experts, etc., from whom all information can be obtained. Canadian patents: J. Ward, Jr., hose couplings; George Inman, slates; William Rutherford, butter boxes; G. Morrison, hot water heater; D. W. Gault, boxes for delivering spirits and other fluids into vineyards; D. W. Gault, boxes for delivering spirits; Joseph Talbot, wooden joints for boxes; F. Ledrig, Bartelmess, looms; G. E. Hays, apparatus for cutting wood; P. G. Larkin, packing machine; J. G. Lockwood, construction tool; A. L. Morrison, veneer machine; P. Newton, fork; J. W. Waddell, game board; M. N. Weather, rotary oven grate. British patents: American barbed wire; E. Dickson, gunpowder; A. Fongrie, nut lock; Frechette, lathe; J. A. Gregory, picking rod; P. G. Larkin, packing machine; J. G. Lockwood, construction tool; A. L. Morrison, veneer machine; P. Newton, fork; J. W. Waddell, game board; M. N. Weather, rotary oven grate. British patents: American barbed wire; E. Dickson, gunpowder; A. Fongrie, nut lock; Frechette, lathe; J. A. Gregory, picking rod; P. G. Larkin, packing machine; J. G. Lockwood, construction tool; A. L. Morrison, veneer machine; P. Newton, fork; J. W. Waddell, game board; M. N. Weather, rotary oven grate.

Young Men's Beliefs. The leading root of the Young Men's Christian Association, after having done good service at the Fair, is now at the Niagara Volunteer Camp, where it is in use as a reading room and social resort for the young men there under canvas. The association has provided writing materials, pens, and each night special gospel services for men are held by Mr. Thomas A. Hodges, the association evangelist.

Partridge Shooting in Muskoka. A letter received from Muskoka, Muskoka, says that partridge are very plentiful in the city of Muskoka. The shooting of the "Monteith House," succeeded in bagging 25 birds in a single morning's sport. Partridge and deer are reported to be plentiful in the vicinity of Muskoka.

Prohibitionists at Work. Toronto City Council, No. 2, R.T. of T., will resume weekly meetings after Oct. 1st in Temperance Hall. Last evening a committee composed of Dr. Ferguson, Messrs. W. E. Swan and D. J. Ferguson, was appointed to strike a committee of canvassers for the prohibitive campaign. This procedure is being generally followed by lodges throughout the city.

To Put in the Winner. Court Hope, A.O.F., held their quarterly meeting in Temperance Hall last evening. Seven candidates were initiated and 100 new members were taken throughout the winter. These will take the form of new members, that will be enjoyed by both members and friends.

Home Again. The pastors are returning from the mountains and the seas; And freshly, thirstily, truthfully, Will soon mingle with the breeze; Cleveland, Pa., Pa.

Fifty Years Ago.

This is the stamp that the letter bore which carried the story far and wide, of certain care for the thousands sore. That bubbled up from the tainted tide of the blood below. And 'twas Ayer's name, and his his name, that was known, that was just beginning its fight of fame. With its cure of 50 years ago.

Ayer's Sarsaparilla is the original sarsaparilla. It has behind it a record for cures unequalled by any blood-purifying compound. It is the only sarsaparilla honored by a medal at the World's Fair of 1893. Others imitate the remedy; they can't imitate the record; they can't imitate the record.

Pharmaceutical Students Organized. The '96 class at the Ontario College of Pharmacy have organized their association. A great deal of enthusiasm was displayed, and the members expressed their determination to make this class the most successful in the history of the college. Officers were elected for the term as follows: Prof. Hecker, class president; Mr. G. G. Gault, vice-president; Mr. C. E. Bell, secretary; Mr. G. G. Gault, treasurer; Mr. C. W. Field, secretary; Executive Committee, Messrs. H. G. Craig, A. Edwards, E. D. Huxtable, B. Scarf and the officers.

THE JULIET GOLD MINE.

THE BEST OPPORTUNITY YET OFFERED IN BRITISH COLUMBIA GOLD MINES

The Stock of the English-Canadian Gold Mining Company is Now for the first time offered to investors—Investors participate in all the profits of the Company, including the Juliet Mine, now owned by them—One of the Best Mining Sites in the Rossland and Trail Creek Districts—The Management in the Hands of Well-known Business Men.

This Company has been incorporated with a capital of One Million Dollars, divided into one million shares of \$1 each. The shares are now placed on the market at 8 cents per share of \$1, fully paid stock and non-assessable. The objects of the Company are to buy, sell and deal in mines and develop and work such mines as they may procure and consider worth operating. Shareholders participate in all profits resulting from the same. This Company has already procured the Juliet Mine, which is considered one of the best mining claims in British Columbia. The Juliet consists of a full claim of about 52 acres, and is situated in the now celebrated Rossland and Trail Creek mining district, within a stone's throw of the Columbia River on the one side, with a railway on the other with a first-class tunnel site, and convenient to Trail Creek smelter. The Company hold a clear title to this property.

This property is mineralized throughout, having a heavy iron capping with red stain, which is considered by experts to be a sure indication of gold in paying quantities. The Juliet now shows large deposits of the precious metal, and from all reports obtainable the Company believe this property alone will yield to its shareholders a return equal to or greater than that of any other mining property in the Rossland district. The affairs of the Company will be amply and personally looked after by a superintendent resident at Rossland, and by officers and trustees in Toronto and Spokane. These officers are under no salary or remuneration of any kind, but are each shareholders in the Company, and depending upon future returns from the mines as a reward for their services.

BIRD'S EYE VIEW OF RED MOUNTAIN RANGE ON WHICH THE JULIET MINE IS SITUATED

The above gives a bird's eye view of the now famous Red Mountain range, on which are situated the Juliet Mine and many others. Among them and adjoining this property is the Romeo, recently bonded to an English syndicate. The Romeo is now shipping paying ore. The same vein of ore can be traced through the Juliet, running north and south. There is also another distinct vein which can be traced for a distance of 500 feet, and the ore exposed averages in value \$26.20 per ton.

Six miners are at work under the direct supervision of MR. THOMAS R. MORROW of Rossland, B.C., and work will be continued without interruption all winter. The facilities for shipping ore from the Juliet are much better than any other working mine in Trail Creek camp, as the main tunnel opens up into the Columbia River, where the ore can be dumped on a barge and floated to Trail Creek smelter, a distance of 3 1/2 miles. A railway runs directly back of the Juliet; there is also water and wood in abundance. This effects a great saving in the cost of handling ore. The Juliet ore, it is believed, can be mined and smelted for about \$13 per ton when further developed.

The promoters and largest shareholders in the company have by resolution agreed not to place any portion of their stock upon the market until sufficient treasury stock has been disposed of to properly develop the mine.

300,000 shares of the capital stock, fully paid up and non-assessable, have by-by-law of the Company been set apart for development purposes. These shares are now, until further notice, offered for sale at 8 cents per share of \$1, fully paid up and not further assessable. As these prices are likely to last but a few days intending purchasers are advised to act promptly.

The following are a few of the shareholders from whom the officers and trustees will be selected:

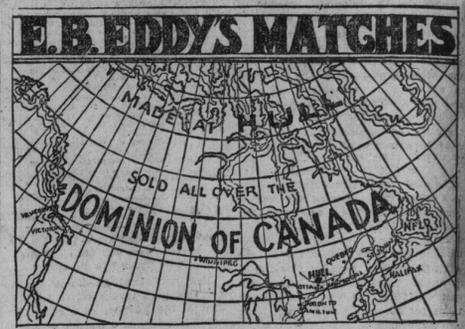

- JOHN HENDERSON, Manager Lyman Bros. & Co., Toronto.
PROF. E. B. SHUTTLEWORTH, Toronto.
WM. CROFT, JR., of Wm. Croft & Sons, Toronto.
J. A. M'KEE, President Dadds Medicine Co., Toronto.
W. J. EDMANSON, of Edmanson, Bates & Co., Toronto.
S. HARRIS, of Hough & Harris, Toronto.
J. W. LESTER, of J. W. Lester & Co., M'P's, Agents, Toronto.
GEO. H. MAURER, Manager Agricultural Ass. Co., Toronto.
J. H. DENTON, Barrister, Toronto.
IRA BATES, of Dr. Chase's Medicine Company, Toronto.
R. J. M'KEE, of McKee, Smith & Co., Toronto.
A. H. DIXON, Manf. Agent Dunlop Tire Co., Toronto.
R. GARLAND, Manager Dunlop Tire Co., Toronto.
GEORGE HOGARTH, Local Manager G. N. W. Tel. Co., Toronto.
H. G. WRIGHT, of E. T. Wright & Co., Wire Manufacturers, Hamilton.
J. H. HAMILL, of John Kent & Co., Toronto.
W. J. GOULD, Bicycle Manufacturer, Toronto.
JUDGE GEO. W. BOLT, Spokane, Wash.
JUDGE P. F. QUINN, Spokane, Wash.

On Monday, Sept. 21, customers are selected from stock, from samples, now in the hands of our travelers, or by writing or by receiving all particulars, after which they can order by letter with equal advantage.

John Macdonald & Co., Wellington and Front Streets East, Toronto.

AT OSGOODE HALL A Verdict Against the City—A Case of Unusual Interest to Married Women in Ontario.

The Chancellor gave judgment against the City yesterday in a case of unusual interest to married women in Ontario. The case was brought by a woman who claimed that her husband had been left on the road by the plaintiff's buggy. She gave the plaintiff \$250 and the employee \$500 since he acted in this case to the City Commissioner was sufficient.

NOTICE TO PLUMBERS AND STEAMFITTERS. The Divisional Court, dismissed, with costs, the appeal of the defendants in Gillies v. The City of Toronto. The Divisional Court, therefore, has to pay the widow her benefits, and also the interest for the expenses of her deceased husband.

THE COURT OF APPEAL. In Young v. Ward, the Court of Appeal were asked to set aside a decision of the Divisional Court, which held that a married woman deserted by her husband is entitled, as her separate estate, to any order for protection, to moneys earned by her by letting lodgings in a house furnished by her husband, and by supplying board and other necessaries to the lodgers in her own name as moneys acquired by her in an employment.

MONDAY'S LIST. Non-jury sitting, at 11 a.m.: Smith v. Lewis, v. Toronto; Lane, B. & L. Co. v. Clarkson, Wurtel v. Hogboom, McClellan v. McClellan. Court of Appeal, at 11 a.m.: Elliott v. May, May v. Lewis, Second Division of Court of Appeal, at 11 a.m.: Anderson v. York, Madama v. City of Toronto, Small v. Thompson, Curran v. City of Toronto.

OLD UPPER CANADA. Principal Parks Issues a Statement as to Future of This Well-Known Institution—Some Funds Instituted.

Editor World: It is now a little more than a year since I took charge of Upper Canada College. This year of work and observation has enabled me to form a very definite idea as to the possibilities of the place, and of its needs. I am now firmly convinced that the college occupies a large and an important place in the life of the country.

Notice is hereby given that a Court will be held, pursuant to the Ontario Voters' Lists Act, 1886, on the 20th day of September, 1896, at 2 o'clock in the afternoon, to hear and determine the appeal of the voters of the City of Toronto, in the matter of the City of Toronto, in the matter of the City of Toronto, in the matter of the City of Toronto.

One-half of this minimum sum has already been mentioned. These gentlemen: Mr. W. H. Beatty, Mr. W. R. Brock, Mr. W. G. Gooderham, Mr. T. G. Blackstock, Mr. Nicol King, and another well-known public man who specially requested that his name should be mentioned.

Since this proportion of the whole amount asked for has been given by a very few, the remainder of the maximum asked for, and still to be raised, seems small.

In relation to the size and wealth of our country, it is not here as a work done for God, and for the highest interest of the country. It is in this spirit I ask for support, and it is in this spirit, I trust, that contributions will be given.

The public are cordially invited to call and inspect the various works, and to see the system of the most perfect in existence, and the only one, so far, erected in Canada.

I regard the work that I look forward to carrying on here as a work done for God, and for the highest interest of the country. It is in this spirit I ask for support, and it is in this spirit, I trust, that contributions will be given.
