A STATELY WELCOME TO THE CZAR AT COWES

Britain, Officially, Is Very Pleased To Have Nicholas as a Guest of Honor.
The Fleet a Symbol of Peace
'I am glad that you have had the opportunity of seeing the most powerful and the largest fleet ever assembled, but I trust your majesty will never look upon these ships as a symbol of war, but on the contrary as a protection to our coasts and commerce, and above all, as a means of upholding the interests of peace.'

COAL SOARS TO SEVEN QUARTER OFF FOR CASH

August Price Half a Dollar in Advance—July a Record for Increases.
Now rises the coal man to address a few words to the public. On and after this day the price of coal will be \$7.50 a ton, or \$6.75 if paid on delivery. This means a raise of 25 cents a ton, the net price having been \$6.50.

BUTCHERY WAS TERRIBLE

Reports Received From Scenes of Fighting With Moors.
ORAN, Algeria, Aug. 2.—The steamer 'Oran' came in here today from Mellilla, and her officers, referring to the fighting between the Spaniards and the Moors of July 27, say the former made the mistake of advancing in solid masses thru a gorge dominated on both sides by hills, when the enemy mowed by other means the ranks of the Moors. The unfortunate soldiers of Spain did not know where the fusillade came from. The butchery was terrible.

AUSTRALIA DEMANDS CONTROL

Will Not Allow Others to Direct the Army or Navy.
MELBOURNE, Australia, Aug. 2.—(C. A. P.)—The Age says that the imperial defence conference deliberations cannot lead to a successful conclusion unless Britain makes a full, intelligent provision for the diversified interests and aspirations of the colonies. Australia is unalterably determined to build her own navy and train citizens by a system of compulsory cadet service.

RIB BROKEN IN FIGHT

Man Under Arrest Says 3 Other Threw Brick First.
One man had to go to St. Michael's Hospital and another went direct to Court-street police station as a result of an altercation on the corner of Duncan and Adelaide-streets last night. A Canadian, living in Dovercourt, says he was standing at the corner when the Englishman, Alfred Duke by name, 27 West Richmond-street, came along and referred to him as "another one of those Yankee fellows" and threw a brick at him. So he sat in to show what a "real Canadian" was made of.

SPANISH CRISIS GLOOMED BY CENSORS

Not Enough of the Truth Coming Out—Conditions in Northern Spain Are Very Grave.
PARIS, Aug. 2.—The international situation in Spain to-night seems to be improving. Barcelona has emerged from her isolation and the threatened general strike in Madrid appears to have been averted, at least temporarily. The first train out of Catalonia's capital city since the beginning of the tragic events there reached the French frontier to-night, bringing censored and plainly inexact newspaper accounts of the insurrection in the outlying parts of Catalonia. The rest is shrouded in mystery.

RECIPIENTY IN TRADE AND COAL

U.S. Trade Expert Gives Reasons for Belief That Ottawa Will Soon Deal With New Tariff Provisions.
WASHINGTON, D.C., Aug. 2.—Chas. M. Pepper, who has been investigating trade conditions abroad for the department of commerce and labor, and whose expert knowledge has been used by the administration during the tariff struggle, has for several days been analyzing the effect of the Payne-Anderson bill on foreign trade, and said today:

DESTRUCTION AT BARCELONA

CEREBRE, France, Aug. 2.—The first train out of Barcelona since the trouble began there arrived here tonight, bringing copies of La Publicidad and other newspapers. After pointing out that their accounts of the fighting at Barcelona had been censored, the papers publish a list of 35 churches and convents which were burned between July 28 and July 30. After July 28 Civil Governor Calardo resigned, turning over his power to Captain-General Sanjurjo. In the first disorders of loss of life were three men and 27 wounded, while 75 civilians were buried and 127 wounded were placed in hospitals. The papers say that the number of the civilians injured in private houses is not known.

VERY GRAVE IN THE NORTH

BAYONNE, France, Aug. 2.—Reliable news regarding the situation in Spain, received here this morning from San Sebastian, represents conditions as very grave throughout the northern part of the country, where all the trades unions gave notice of the beginning of a general strike today. The government has seized all the telegraph and telephone wires in the affected provinces to prevent the leakage of news.

UNKNOWN MAN KILLED

Fell From Fast Running Car Near London Last Night.
LONDON, Aug. 2.—(Special.)—By falling from the step of a traction car at 10.30 to-night, while traveling at a high rate of speed near Tempo, an unknown man, aged about 30, was so badly injured that he died.

ST. JOHN, N.B., PROHIBITS SALE OF 'FREE SPEECH'

The police to-night arrested two Greeks for selling "Free Speech," a Montreal publication in the city. It is thought other arrests will follow, as these men are said to have been acting for others. At the time of the arrest, the city council was in the act of passing a by-law prohibiting the sale of literature of the kind in St. John.

COLLIDED WITH A KNOLL IN ENDING EXPERIMENT.
PETAWAWA CAMP, Aug. 2.—(Special.)—From the aviators' standpoint, the feature of the preliminary trials of the "Silver Dart" over Petawawa common early today was the successful working of the new motor.

F. W. BALDWIN J. A. D. McCURDY
Young Toronto aviators, who made such a splendid showing at Petawawa yesterday, but with a disastrous finish.

Britain Adopts Dirigibles For the Army and Navy

LONDON, Aug. 2.—The sub-committee of the imperial defence committee, appointed to consider matters of aviation, has given a verdict in favor of rigid dirigible balloons for naval purposes and non-rigid balloons for the army.
The aeroplane committee considers that these machines possibly may become valuable to the army, but say they must be able to ascend to a much greater height than yet has been achieved before they will be safe for reconnoitering purposes.

Former Montreal Gets Country Residence of "Condor Charlie."
MONTREAL, Aug. 2.—(Special.)—James H. Dunn, at one time a Montreal stock broker, but who has accumulated a large fortune in London dealing in Mexican and South American stocks, has purchased the magnificent country home of Lord Charles Beresford, some miles out of London.

SHIP MISSING WITH 300

Search is Being Made for Australian Passenger Steamer.
DURBAN, Natal, Aug. 2.—Three hundred persons are aboard the British steamer Waratah on route from Sydney for London, and failure to hear any report of the vessel since she sailed from here July 28 has resulted in some alarm. A search is being made.

WHEAT PRICES DECLINE

CHICAGO, Aug. 2.—The wheat market was bearishly affected today by ideal conditions for the rapidly maturing crop in the Northwest, and prices declined more than one cent on all deliveries.
C. N. R. CROP REPORT.
WINNIPEG, Aug. 2.—The Canadian Northern Railway crop report today is very optimistic. All crops are in the condition of being ready for harvest. Early cutting has started and will be in full swing in a few days. Wheat cutting in southern Manitoba will start about the 15th of this month.

# WARWICKS 15-4 DEFEAT THE INDIANS

### Rough City Championship Lacrosse Game at Scarborough Beach Before a Crowd of 7000.

Toronto and Tecumseh played a city championship game at Scarborough beach yesterday before about 7000 people. The excitement prevailed throughout the entire game, due to the rivalry existing between the two teams. Toronto played their strongest team, but were handicapped by the absence of both Querrie and Graydon, the latter being unable to play owing to injury received on Saturday at Montreal. Pickering, too, was forced to retire at half time, he also suffering from former injury.

Toronto was at all times leaders and the game was never in doubt, the final score being 15-4. Score by quarters: First quarter 4-1, half-time 8-2, third quarter 12-3.

**First Quarter.**  
Tecumseh secured from the draw and Pelker carried down. Gilbert had a shot but missed. Ball went from end to end. West intercepted nicely at midfield and Warwick scored first goal on a nice shot from the side; time 2:25. Both teams passed badly. Stagg made a nice run down field, but ball soon went back on a run by Pelker. Harshaw intercepted nicely and Kalls scored on a neat combination play. Fitzgerald getting thru a broken field. Both teams played good soccer. Kalls nearly scored, as did Kalls a second after, Kinsman saving nicely. Ions and Braden were ruled out. Atton stopped a hot one from Gilbert on a pass from Pelker when a score looked certain. Griffiths got a rest for a body check. Play went to Toronto end and Gilbert took the ball from Fitzgerald, who tripped the Tecumseh man and got away with a rest just as Warwick scored on a pass from Kalls, in 4:51. Play remained around the Tecumseh goal and West secured the ball in 5:30 seconds. Stagg made a nice run down the field, but Fitzgerald's shot was wide. Pelker carried it back and play was around Toronto end. Gilbert scored on a pass from Durkin; time 6:17.

Ball went from end to end and Murton and Ions both saved in grand style. Warwick got ten minutes for slugging. Gilbert was hit, causing a delay. Powers got a rest for the offence, just as quarter ended. Toronto 4, Tecumseh 1.

**Second Quarter.**  
Toronto secured from draw and ball was around Tecumseh end. Ions intercepted and carried down, only to have play back again. Powers made a nice running pass to Fitzgerald, who scored in 3:16. Tecumseh rushed the ball down, and after nice combination play Pelker scored on a handy shot from the side in 1:04. Tecumseh continued to press and Hearn narrowly missed. Braden came down and Carter missed from the side. Tecumseh scored in 3:16. Toronto goal and Atton stopped some hot ones from Murton and Durkin. Play went to the other end and Fitzgerald scored an easy goal in 4:44. Carter was given a rest and also Ions. Griffiths saved nicely, as did Menary at the other end. Kinsman stopped a high one from Kalls and Braden made a nice shot, but Ions intercepted. Ball went to Tecumseh end, Griffiths got a rest. West broke up a fast Tecumseh combination and Kinsman stopped a couple of hot ones. A wrangle occurred over Ions' time, causing a delay. Play went from end to end and Warwick scored time 7:23. A delay was again caused over the time and Querrie and Murphy were put in the press stand by the referee. Thus a mistake of the timers Ions went in the field and Lally showed his refereeing knowledge by giving him one minute for no fault whatever of the player. Play was around Tecumseh end and Toronto scored the next one from a set piece in 1:15. Stagg shot and scored considerably and both horses had shots. Half-time score: Toronto 8, Tecumseh 2.

**Third Quarter.**  
Pickering was unable to play, having received a bad injury last Saturday in Montreal. Carter going off to even up. Play went from end to end and Fitzgerald scored the first goal in this quarter in one minute. Powers got a rest for hitting Adamson, and play was at Toronto end. Barnett had a nice chance, but was wide. Stagg intercepted and Barnett and Ions got a rest. Pay lagged considerably and Rowntree took a rest, followed by Green for hitting Kalls. Ball continued around the Tecumseh net and Warwick got the next in 4:20. Toronto continued to press and West got the next in 5:15. The silly dispute occurred again with the timers, causing another delay. Atton stopped a hot one from Gilbert and Kinsman had a hard one to handle. Toronto failed a fast combination and Kalls slipped one past Kinsman; time 3:26.

Torontos were still playing the old man and continued to press. Ball was around end and Atton and Rowntree missed one on a shot. Harshaw broke up the combination and West carried down, but his shot was wide. Stagg fouled Hearn up against the fence and Murton intercepted. Fitzgerald missed on a long shot and Griffiths intercepted; ball went to Toronto end. Pelker's shot being wide. Braden was put off and stopped one from Pelker. Warwick and Barnett both slugged Pelker and the latter retaliated, and they were all given 20 minutes. Just before the game started was given ten minutes. Three-quarter score: Toronto 12, Tecumseh 2.

**Fourth Quarter.**  
Play went from end to end and again the time-keeping joke caused another delay and Ions, who went on, came 25 for ten minutes. Harshaw picked out a fast one and Fitzgerald ran. C. B. Bell 2, F. Brock 1; W. Weir 2, R. Spackman 2; W. Carlyle 2, W. Thompson 2.

# MICKEY IONS.

Tecumseh Lacrosse Club Defence Player Who Committed the Assault on George Kalls.

fifts to pass, but shot wide. The game lagged and the passing was wide. Hearn got a bad crack and Powers got a rest.

Kalls had a shot from the side, but was wide, and the ball went to the other end, but soon returned. Green went off for a trip. Murton played nice crosses and Fitzgerald and Kalls only had Griffiths to pass, but failed. Ball went down and Atton stopped a nice one. West passed to Kalls, who scored in 2:25. Followed by another by the same man in 30 seconds. Tecumseh rushed, but failed. Toronto played considerable of a defence game, and Tecumseh were held well out. Finally on a pass from Murton, Hearn scored for Tecumseh. Right from the draw Braden scored the easiest kind of goal on a pass from Stagg, who carried the ball down the field. Menary intercepted well and Stagg and Powers came down, but Pelker intercepted. Green's pass was bad, and Braden came back with the ball. Ions got put off for the rest of the game for kicking Kalls when the ball was at other end of field, a very dirty piece of work by the Tecumseh player. Shortly after resumption of play Gilbert intercepted in 3:33. Kalls was unable to continue and Durkin went off to even up. Toronto attempted to play rag, but were called by Lally. Menary nearly scored, as did Kalls a second after, Kinsman saving nicely. Ions and Braden were ruled out. Atton stopped a hot one from Gilbert on a pass from Pelker when a score looked certain. Griffiths got a rest for a body check. Play went to Toronto end and Gilbert took the ball from Fitzgerald, who tripped the Tecumseh man and got away with a rest just as Warwick scored on a pass from Kalls, in 4:51. Play remained around the Tecumseh goal and West secured the ball in 5:30 seconds. Stagg made a nice run down the field, but Fitzgerald's shot was wide. Pelker carried it back and play was around Toronto end. Gilbert scored on a pass from Durkin; time 6:17.

Ball went from end to end and Murton and Ions both saved in grand style. Warwick got ten minutes for slugging. Gilbert was hit, causing a delay. Powers got a rest for the offence, just as quarter ended. Toronto 4, Tecumseh 1.

**Second Quarter.**  
Toronto secured from draw and ball was around Tecumseh end. Ions intercepted and carried down, only to have play back again. Powers made a nice running pass to Fitzgerald, who scored in 3:16. Tecumseh rushed the ball down, and after nice combination play Pelker scored on a handy shot from the side in 1:04. Tecumseh continued to press and Hearn narrowly missed. Braden came down and Carter missed from the side. Tecumseh scored in 3:16. Toronto goal and Atton stopped some hot ones from Murton and Durkin. Play went to the other end and Fitzgerald scored an easy goal in 4:44. Carter was given a rest and also Ions. Griffiths saved nicely, as did Menary at the other end. Kinsman stopped a high one from Kalls and Braden made a nice shot, but Ions intercepted. Ball went to Tecumseh end, Griffiths got a rest. West broke up a fast Tecumseh combination and Kinsman stopped a couple of hot ones. A wrangle occurred over Ions' time, causing a delay. Play went from end to end and Warwick scored time 7:23. A delay was again caused over the time and Querrie and Murphy were put in the press stand by the referee. Thus a mistake of the timers Ions went in the field and Lally showed his refereeing knowledge by giving him one minute for no fault whatever of the player. Play was around Tecumseh end and Toronto scored the next one from a set piece in 1:15. Stagg shot and scored considerably and both horses had shots. Half-time score: Toronto 8, Tecumseh 2.

**Third Quarter.**  
Pickering was unable to play, having received a bad injury last Saturday in Montreal. Carter going off to even up. Play went from end to end and Fitzgerald scored the first goal in this quarter in one minute. Powers got a rest for hitting Adamson, and play was at Toronto end. Barnett had a nice chance, but was wide. Stagg intercepted and Barnett and Ions got a rest. Pay lagged considerably and Rowntree took a rest, followed by Green for hitting Kalls. Ball continued around the Tecumseh net and Warwick got the next in 4:20. Toronto continued to press and West got the next in 5:15. The silly dispute occurred again with the timers, causing another delay. Atton stopped a hot one from Gilbert and Kinsman had a hard one to handle. Toronto failed a fast combination and Kalls slipped one past Kinsman; time 3:26.

Torontos were still playing the old man and continued to press. Ball was around end and Atton and Rowntree missed one on a shot. Harshaw broke up the combination and West carried down, but his shot was wide. Stagg fouled Hearn up against the fence and Murton intercepted. Fitzgerald missed on a long shot and Griffiths intercepted; ball went to Toronto end. Pelker's shot being wide. Braden was put off and stopped one from Pelker. Warwick and Barnett both slugged Pelker and the latter retaliated, and they were all given 20 minutes. Just before the game started was given ten minutes. Three-quarter score: Toronto 12, Tecumseh 2.

**Fourth Quarter.**  
Play went from end to end and again the time-keeping joke caused another delay and Ions, who went on, came 25 for ten minutes. Harshaw picked out a fast one and Fitzgerald ran. C. B. Bell 2, F. Brock 1; W. Weir 2, R. Spackman 2; W. Carlyle 2, W. Thompson 2.

On the plains they insist on Dominion Ammunition for shooting antelope. It is all long distance shooting—1500 to 2000 yards—and as the law forbids killing deer, which are apt to be costly. The new Dominion outfit of inspection proves every cartridge or shot shell perfect. Dominion Cartridge Co., Ltd., Montreal.

# FACTORY BOYS WIN

King's Daughter Second and Olambala Third—Boquet—Among Also Rans—Flash Stakes for Waldo.

SARATOGA, Aug. 2.—James R. Keene's Affliction, played down from 15 to 1, to 5 to 1, at the close, won the Saratoga Handicap, the feature race and a starter at the opening of the Saratoga meeting today. The victory was anticipated by the betting on the Keene filly and under a bustling ride by Martin, she managed to stagger home a winner. The meeting opened under favorable conditions. The crowd numbered 800 persons. The Saratoga Handicap, the feature race, drew out a poor lot of horses. There were two withdrawals, and King's Daughter was added. She opened at 15 to 1, but was quickly played down to 4 to 1. The start was good with Maitlie the first to show. The feature race, the King's Daughter, the latter followed by King's Daughter. The latter dashed into the lead in the run on the back stretch. She set a fast pace and took a two lengths' lead. At the far turn she pulled up by two lengths, but here Martin pulled over to the rail, and saving many lengths, managed to get an even win with the leader into the stretch. King's Daughter began to tire and Affliction, running strong, outgained her by three quarters of a length. King's Daughter second and Olambala third. Waldo, the favorite, won the \$1200 Flash Stakes.

The Saratoga Association has opened the 31 field stand, and also this year at the Metropolitan tracks. There was betting in the field stand, but only oral bets were accepted. Summary:

BRITAIN IN THE 20TH CENTURY.

When the opening of the nineteenth century in Great Britain is compared with that of the twentieth it will be found that the nineteenth century was a century of contrast. If national conditions are bad now in many important ways they were worse then and were without the pitiless depreciating self-criticism which is so marked to-day.

If the nineteenth century in Britain saw a vast political advance the twentieth century to all appearances will be devoted to social reform. Not that this was unknown to the Victorian era, but it became operative only in particularly flagrant instances of oppression and made no effort to accomplish an organic change.

NEW ORLEANS MUNICIPAL UNDERTAKINGS.

In a recent interview Mayor Martin Behrman of New Orleans declared that municipal ownership in that city had been an unqualified success. Three separate undertakings are now owned by New Orleans and each has been operated more economically and better than under private ownership.

According to the mayor, the most notable success has been the railroad. Its purpose is to handle freight cars from a given dividend to the very doors of every mercantile establishment. When the work was done by the railroad companies, it took days to get a car of freight placed and it cost \$8 a car.

The belt line has been operated for a little more than a year and the city has paid all fixed charges and made a profit on its investment. It is run in conjunction with the docks owned jointly by the state and the city, no graft has been found anywhere, the mayor declares, and the degree of efficiency is much greater than when the separate railroads did the work.

WINSTON CHURCHILL'S SUCCESS.

Mr. Lloyd-George won promotion to the post of chancellor of the exchequer, carrying with it as it does the possibility of even greater advancement, by his record as president of the board of trade. In the latter capacity he established himself in the confidence of the financial magnates of Great Britain, reorganized the administration of London harbor, averted several serious labor disputes and settled others. Success in an office closely connected with the prosperity of the country naturally brought him prominently before the public eye and he has now thoroughly established himself as leader of the militant Radical section of the Liberal party within and without the cabinet.

He was followed at the board of trade by Mr. Winston Churchill, not so long ago one of the rising hopes of the Conservative party. In the earlier stages of his political career his assertive personality and his more than usual assumption of juvenile infallibility earned him plenty of unpopularity, but he helped to carry him well to the front, but his ability enabled him to hold his place and at last follow Mr. Lloyd-George at the board of trade and in the cabinet. Much curiosity was evoked when trouble arose between the Scottish mine owners and their employees over the task set Mr. Churchill and the announcement that the dispute was now being arranged and a strike averted which threatened to cover the whole country, will considerably en-

Why You Get Full Value in Every Plug Of Shamrock Tobacco. Part of the price of Shamrock Plug does not go into the tin or package. Shamrock is made by subjecting the tobacco leaves to tremendous pressure. It is this, with an outside wrapper of tobacco, that keeps it fresh and moist. Try a pound of Shamrock Plug and, if it isn't the finest tobacco you've ever smoked, ask the dealer for the price of the pound. SHAMROCK Plug is always just right.

IN ANSWER.

The Liberal Unionists in British politics constitute a party formed in 1886 by the secession from the Liberal party of those who objected to Mr. Gladstone's home rule proposals. It had no existence prior to that year and although acting generally, and closely identified, with the Conservative party it still maintains its independent organization.

The Patowawa Trials. F. H. H. Beaton, is informed: (1) Baldwin and McCurdy are young Toronto men, graduates of the School of Practical Science, Toronto. (2) Baddeck is in Nova Scotia, or more properly, Cape Breton; (3) "aero" simply means air.

GIVES POLICE A RUN

Bert Atkins Caught After Chase on the Water Front. Athletics are not encouraged on the police force for nothing, as was learned by Bert Atkins of 132 Phipps-street yesterday. He had been wanted for some time on a warrant sworn out by Ches. Simpson, 70 Gladstone-avenue, charging the theft of a snare drum.

G.T.R. PRESIDENT IN CANADA READY TO TOUR THE WEST.

MONTREAL, Aug. 2.—(Special.)—Sir Charles Rivers-Wilson, president of the Grand Trunk Railway, reached here this evening and is the guest of C. M. Hays. Next week Sir Charles will go west accompanied by the president and vice-president of the Grand Trunk Pacific.

OLD BOYS AT PALMERSTON.

PALMERSTON, Aug. 2.—(Special.)—The second day of the Old Boys' Reunion here passed off very pleasantly. In the forenoon the visitors were formally welcomed. In the afternoon Palmerston defeated Chatham at baseball 8 to 2. This evening a garden party was held in the driving park with 2500 present.

HEAVY STORM NEAR KINGSTON.

KINGSTON, Aug. 2.—(Special.)—A heavy hailstorm at Batterssea and Mount Chesney did considerable damage to crops and smashed many windows. A cow, belonging to Albert Webb, Sunbury, was killed by lightning. It is believed that the city will do the right thing by the street railway and supply power at a rate to be decided by the arbitration committee, although the arbitration is not binding.

BYRCE AT ST. JOHN.

ST. JOHN, N. B., Aug. 2.—(Special.)—Right Hon. James Bryce, British ambassador, will be the next speaker at the Canadian Club, this city, probably within two weeks.

PLAYED INDIAN; TWO BOYS BURNED.

MONTREAL, Aug. 2.—As a result of playing Indian, two boys were burned, one badly and another slightly, at Outremont, a suburb. The two boys, who took the name of Indians, tied a younger playmate to a "torture post" as a white prisoner. Sparks from the fire set fire to one of the latter's clothes. Both "Indians" then ran away, leaving the little fellow, who was released by a neighbor.

FIREMEN'S TOURNAMENT

It Looks Like a Big Day in Northern Town To-Morrow.

PARRY SOUND, Aug. 2.—(Special.)—It is expected that 20,000 visitors will come to town on Wednesday for the fifth annual tournament of the Northern Volunteer Firemen's Association. The names of Bracebridge, Orillia, North Bay, Burk's Falls, Huntsville, Gravenhurst, Penetang, Midland and Parry Sound are represented in the association and excursions will be run from these and many other places in the north.

For the firemen's hose-wagon contests, \$100, \$50 and \$25 are offered in prizes. There is a \$10 prize for the best appearing company in parade. Band competitions are another feature with prizes of \$100, \$50 and \$25. In Class I, and \$25, \$15 and \$10 in Class II; also \$10 for best looking band on parade.

A big program of athletic events has also been arranged by the committee, of which Archie Peterson is the secretary, and Chas. Logan and the Parry Sound firemen will entertain the visiting companies in grand style.

LOOKS LIKE A RAINBOW

Circus Mandrill for Color Has a Lithograph Put Off the Boards.

The only African black-face mandrill in the show business has cast its lot with the Barnum and Bailey Greatest Show on Earth. Its make-up embraces all the colors of the rainbow. When it prances around its cage displaying its various hues it reminds one of a Sunday supplement. They have named it Joseph's Coat.

Another favorite in the menagerie is Agnes, a sweet little hippopotamus, as big as a hen house and too lazy to scratch its own back. For novelty, there is the only rhinoceros in America, three sole specimens of the giraffe, tall enough to eat the house plants from a second story window. There is also a young polar bear.

The menagerie is a complete zoological garden, embracing everything in the animal kingdom of interest. There are nearly all the elephants in America on exhibition from Berlin that do the work of the great herds of camels and dromedaries.

In the way of trained animal acts the show is remarkably attractive. There are 15 trained elephants that present a performance entirely new and by all means the most wonderful ever presented. There are a company of imported horses from Berlin that do a marvelous act, trained dogs, ponies, mules and seals.

BELLEVILLE WOMAN DROWNED.

BELLEVILLE, Aug. 2.—At Bellingham, Wash., Mrs. Guy Hudgins, aged 24, was drowned whilst bathing. She was the eldest daughter of Mr. and Mrs. Joseph Stainton of Deseronto. The fatality occurred on the first anniversary of her wedding. Mr. Hudgins is well-known in Belleville.

CHANGES AT THE PENITENTIARY.

KINGSTON, Aug. 2.—(Special.)—Changes are under way at the penitentiary. Two stone buildings are being erected on the either side of the main gate, for the warden's office, the accountant and the storekeeper. The present office wing is to be vacated, and the warden's prison built elsewhere on the grounds. The deputy warden will vacate the living rooms and be provided with a new house on the farm.

TORONTO CIVIC HOLIDAY GLORIOUS FOR OUTING

Great Crowds Throng Pleasure Resorts, While Thousands Go Across the Lake.

The many amusement centres in and about Toronto and across the lake were well patronized yesterday by Toronto civic holiday crowds. Favored with glorious weather, almost everybody was on the go. The steamer leaving the wharves was loaded down, and before the day had far advanced about 17,000 had been floated to Hamilton, Niagara Falls, St. Catharines, Port Hope, Oshawa, Beach and the other places of attraction along the southern shore.

Fully 10,000 people, including a large train load of fruit and produce men and their families, who went to Beaverton on their annual picnic, left the city by train. The parks were all well filled.

At the events, such as the golf tournament at Lambton, games at Kew Beach, and at the exhibition grounds and the various water sports, also drew many spectators and the street railway system was kept exceedingly busy moving the crowds. The main places of interest attracted the following numbers, in round figures:

Table with 2 columns: Location and Number of People. Locations include Hanlan's, Scarborough, Across the lake, Out by rail, and Dufferin Park racetrack. Numbers range from 1,000 to 40,000.

Total, 38,000. All these figures, however, do not represent the total number of persons heard the Juvenile Italian Band, under Angelo Vitale, the youngest musical director in the world, render the carnival, from the Carrousel "William Tell," "Merry Widow," "Tannehauser," Strauss, Sousa and many other composers and operas. The same large crowd also saw the Five Philoscophi perform some amusing gymnastic and juggling feats. Although the grounds were crowded some in spots, everyone was good-natured and returned home well satisfied. The street railway system which excellent ferry service was kept up all day long, and the Point was emptied by midnight.

RUN-OFF AT CROMBIE'S

Holiday Traffic on C.P.R. Owen Sound Branch Blocked.

A run-off of seven freight cars at Crombie's Station, north of Orangeville, yesterday morning, handicapped the handling of the holiday business on the Owen Sound C. P. branch all day. The cars were derailed by the breaking of a brake beam, which dropped and came in contact with a Crombie's switch as the train was rolling southward. None were injured. The track was torn up for several yards, and derailed cars jumped across the line. The regular express, due from Owen Sound last evening at 8 o'clock, was held up at the scene of the wreck, and the passengers transferred to other trains. The train did not arrive in the city until 10 p.m.

BIG LOCK-OUT IN SWEDEN

80,000 Mill and Foundry Employes Have No Work.

STOCKHOLM, Aug. 2.—The labor conflict in Sweden which originated in a dispute over wages in the woolen and cotton industries, is assuming large proportions.

In the beginning 13,000 men were locked-out, but the number has since become involved until today the entire players' federation declared a lock-out of the iron foundry hands numbering 20,000 men. This brings the total of the men locked out to 80,000.

\$6.00 Round Trip to Rose Point on Georgian Bay.

Is delightful fishing point and quickly reached by the new Georgian Bay Express of the Grand Trunk at 11.50 a.m. (dining car, parlor cars and coaches). The new and new steamer "Wauwau" will be used on the route. "Wauwau" winding in and around the 30,000 islands. Good hotel accommodation, and delightful select resort. Return trip at small extra charge may be made via the Muskoka Lakes, or the celebrated Algonquin Park.

National Regatta The Entry List

NEW YORK, Aug. 2.—The entries for the regatta of the National Association of Amateur Oarsmen were made known yesterday at a meeting of the organization held at the New York A.C. The meet takes place at Detroit, Mich., on Friday and Saturday next, and a glance at the list shows that it is fairly representative. The biggest delegation from any club in the east goes from the New York A.C., consisting of 12 men, including a senior four, which figures in two races, and three scullers. The Harlem Rowing Club on the list are the Harlem, Nassau and Napparel. The Vespers of Philadelphia are in evidence with a senior four, its veterans Harry De Bevoise having the job of stroking the boat.

RE-OPENING OF SHEA'S

Capacity audiences see Edna Aug and a Clever Company.

Capacity audiences crowded Shea's for the reopening performance yesterday and were well pleased with the offering of the management.

Henry and Lazel did some good dancing and tumbling.

"Wanted, a Cook," the comedietta presented by Gertrude Shipman & Co., has some situations in it that are extremely hit-producing.

A novelty that took with the audience was Melville Stoll's Little Players in "Kiddie Land." The act was liberally punctuated with musical numbers, of which "Talent" and "Garden Haul" might be specially singled out for commendation.

Edna Aug, "comedienne in types," is a very quick change artist indeed and some of her jokes were new, as for example, "if it weren't for the chorus girls who'd ever have heard of Pittsburgh?"

Henry Fox and the Millership Sisters did an unusually good thrill dance.

If you want a new thrill go and see the Flying Martins, who do things on double trapezes that are hair-raising.

The kinetograph pictures are good.

SUNDAY SOUVENIR SELLING

Lord's Day Alliance Serve Notice on Niagara Falls Dealers.

NIAGARA FALLS, Ont., Aug. 2.—(Special.)—By an explosion of gas at the American Cyanide Works this afternoon two men were injured. A. Coven is in hospital with burns on face and chest. He was working in the department where chemical gas is kept when the explosion took place, caused by dampness affecting carbide and turning ethylene gas.

The Lord's Day Alliance is busy in preparing for the annual convention on Saturday night, which ordered the proprietors to close their stores on Sunday. Only one dealer remained open. It is believed that a fight will be made by the United Liquor dealers to have been sold freely to-day as many drinks appeared on the street.

Joseph Berthelme got drunk to-day and came out to the mine enclosure flourishing a revolver. He was fined fifty dollars. The man charged with assaulting Manager Duggan was fined \$20.

The coal output fell off on Saturday, but a slight increase is reported to-day.

FIREMEN AT PARIS

Vote to Continue Hose Reel Race at Three Hundred Yards.

PARIS, Aug. 2.—(Special.)—The tenth annual convention of the Provincial Volunteer Firemen's Association of Ontario opened to-day, with President Charles Allan of Brampton presiding and upwards of sixty delegates in attendance.

From Smith's Falls to Niagara, J. H. Fisher, M.L.A., and Rev. H. B. Bingham extended a hearty welcome from the town and North Branch.

The treasurer's report showed funds in healthy condition. Budd White of Niagara Falls, counsel for the association, addressed the convention in relation with reference to applying to the legislature this coming session for an act to incorporate all firemen, paid and volunteer, into one provincial organization. This will be discussed and voted on to-morrow.

A resolution was voted down to reduce the hose reel race from 300 yards to 200 yards.

WHO BLEW UP THE HOUSE?

Two Miners on Trial, but Evidence is Not Conclusive.

BLAISE BAY, Aug. 2.—(Special.)—The trial of MacKenzie and Ross, two U. M. W. men arrested on a charge of complicity in the blowing up of Mine Manager Simpson's house last week was begun to-day.

Constable McNeil swore that when the explosion occurred he was sitting opposite MacKenzie's house, then a pistol shot rang out and McNeil ran home for his gun. Afterwards Ross ran in and fired a shot which was shot when he saw that MacKenzie was shot.

Kenneth Ferguson, a barber, a short time after the explosion saw three men standing about forty-five feet away. By their voices he recognized Ross, MacKenzie and Alphonse Burke. Ross said, "A little more to the right would have done you." MacKenzie said, "Don't speak here, somebody will hear you."

Alphonse Burke said he had met MacKenzie when Ross came up laughing and said "Hev you got any more of that stuff to make a noise with?"

Burke said, "What do you mean?" If they were mean and low enough to do such a thing, do you think we would be talking about it?" Ross and MacKenzie were partially intoxicated at the time. Liquor appears to have been sold freely to-day as many drinks appeared on the street.

Joseph Berthelme got drunk to-day and came out to the mine enclosure flourishing a revolver. He was fined fifty dollars. The man charged with assaulting Manager Duggan was fined \$20.

The coal output fell off on Saturday, but a slight increase is reported to-day.

KNIGHTS OF COLUMBUS

INITIATE ONE HUNDRED

Large Gathering of Outside Brethren at Institution of First Toronto Council.

An event of the first importance in Roman Catholic circles took place yesterday afternoon at the exhibition grounds, in the first initiation under the jurisdiction of the Toronto Council of the Knights of Columbus.

The three degrees were given to 100 candidates in the presence of 1000 members from all parts of Canada and the United States.

Grand Knight John F. Ryan presided over the ceremonies. The first degree was given by W. T. Lee, B. E. C. candidate; the second degree by J. W. Mallon and Father Fitzpatrick of Toronto, and the third degree by E. J. Boyle, district deputy, of New York City, and his degree team.

It is some three months since the Toronto council was first formed with 25 charter members. The 100 new candidates having previously had to be initiated in one of the other councils in the province. This necessity, however, now no longer exists. All the dates initiated yesterday were Toronto men.

The order in the United States is now in convention at Atlanta, Ga.

The Canadian membership is in the neighborhood of 7000.

Fifteen hundred knights attended the celebration of high mass at St. Michael's Cathedral in connection with the formation of the Toronto council.

Rev. Dr. Klod, chancellor, was the celebrant of the mass. Father Canary assisted as deacon and Father Staley as sub-deacon. The musical service, under the direction of Dr. Dickenson, the cathedral organist, was elaborate and finely rendered. It included the professional "Doce Sacerdos Magnus," by Emily Rey, Kothe's unaccompanied motet, a voice solo, "Te Deum laudis memoria" and Gounod's "Praise Ye the Father." The Introit, gradual, offertorium and communion were sung to Gregorian tones. The Kyrie and Gloria were from Brogi's third mass in C, the Credo and Agnus by Turton. Sanctus by Holmner, and Benedictus by Arnsdorfer.

Rev. Father McCall, rector of the cathedral at Peterboro, preached from Ephesians vi, 16. The purpose of this society, he said, was similar to that of the knights of the days of chivalry, to serve God religiously, to battle for the faith, to support the rights of the weak, the widow and the orphan, and to keep faith inviolately with all.

Defenders of the Faith. The combat which was waged, today it is intellectual a war of ideas and principles. The Knights of Columbus were instituted in order to have an educated body of laymen, who thus intellectually armed would be able to defend the faith and assist the church in the work of good works.

We were confidently told in these days that faith was a weakness and blindness. It was on the contrary, the most perfect act of human nature.

Men who rejected faith and the principles of authority should, if consistent, reject all human testimony as a criterion of certainties.

By fighting the fight of the weak, liberty and equality as found in Christian nations, for Christ, the King, and the sanctity of the home and the stability of society.

If the order were to prosper, this life must be one of constant activity.

If we loved God and our neighbor we would make sacrifices for them.

LAUNDRYMAN ROBBED

Three Men Get \$2.00 After Knocking Over Lem Wl.

Lem Chong, Chinese laundryman was assaulted and robbed by three men in his place of business at 410 Congress-street, about 8:45 o'clock last night.

The trio of crooks are still at large. One stood outside on guard while two went in and asked for laundry. While Lem Chong was searching his bundles one fellow leapt the counter and snatched Lem Wl. an assistant, in the mouth, while a second man meantime lifted the till of about \$2.

The transmission of newspaper despatches has been stopped entirely, forcing a suspension of a majority of the journals. The greatest excitement reigns among the working classes.

Reports received here direct from Madrid say that King Alfonso is greatly depressed over the interior situation. He desired to throw his personal popularity in the scale and it was with difficulty that he could be dissuaded from going to Barcelona in person. Premier Mauru told him it would be equivalent to suicide to enter that hotbed of anarchy.

Some of the highest officials of the army are protesting vigorously against the maintenance of the censorship. They regard this restriction as foolish and useless and giving play to the wildest and most exaggerated stories. Gen. Lopez Dominguez and Gen. This Invention Solves the Problem

A MADE-UP PACKAGE KNOCKED DOWN FOR SHIPPING

This Package can be made up from a One Pound Package to an Apple Barrel

Of a Semi-ready Package. And it will be the nucleus of the Largest Package Industry in the Dominion. It has been the hope and dream of shippers for years to obtain a substantial shipping package that would be strong—cheap—and compact. And at the same time come to them knocked down—ready to make up as required. This Invention Solves the Problem. At no time in the history of commerce has there been such a demand for shipping packages of all kinds as at the present moment. To meet this great demand will require many factories and some money. Orders are already promised for carload after carload of these packages of all sizes. Those who wish to use them are enthusiastic, anticipating the great saving to them both in space and cost.

PROSPECTUS

A copy of this Prospectus has been filed with The Honourable the Provincial Secretary of Ontario, on the 24th day of June, A.D. 1909.

Toronto Boxbarrel Company, Limited

(Incorporated under the Ontario Companies Act, on the 13th day of May, A.D. 1909.)

Authorized Capital \$50,000.00 Divided into 1,000 Shares of the par value of \$50.00 each

BOARD OF DIRECTORS:

A. J. BELFRY, President and Managing Director. G. H. RICHARDSON, Treasurer. W. C. EDDIE AND CO., Auditors.

HEAD OFFICES, TORONTO, ONTARIO

OBJECTS—This Company was organized to acquire, take over, control, and to own undividedly the Patent of Canada number 140,311 and dated the 7th day of August, A.D. 1906, further described in this Prospectus, and to manufacture, buy, sell, lease, license, or otherwise dispose of articles, materials, chattels or merchandise, and to operate warehouses, depots and works in different parts of the Dominion as may be warranted by the growth of the Company and A. J. Belfry, of the City of Toronto, gentleman, the latter being the vendor. The agreement may be seen at the Office of the Company. Under it the Vendor agrees to accept \$15,000.00 (twelve thousand dollars), payable \$3,000.00 cash within a period of 30 days from date of incorporation, and the balance, \$12,000.00, payable in stock of the Company at its par value in order to full interest in and to the said Patent of Canada referred to.

MANAGEMENT—The Company will be under the direct management of Mr. A. J. Belfry, who possesses a practical and commercial understanding of the business, and being the founder of the business, and having

is (fifteen) years' experience as a manufacturer, his ability to control the Company will be undoubted. EFFICIENCY—The Company will handle in an efficient manner the enormous Barrel and Box trade in the different provinces on a most systematic, well organized and very efficient basis, which the great manufacturers of America have become famous throughout the world.

SHIPPING—Under Patent of Canada, number 140,311 and dated the 7th day of August, A.D. 1906, the Company is enabled to make shipment of their manufactures in knock-down fashion, that is in part, thus saving considerably in storage, shipping and freightage.

DEMAND—The market for Barrels and Boxes is unlimited, and demand increases in accordance with growing population and export trade.

CENTRAL LOCATION—Ontario, situated in the heart of the agricultural and pastoral portion of the Dominion, will positively become the centre of the packing and manufacturing industries.

PROFITS—The profits of this business are well known to be substantial, and the tremendous magnitude of the operations may be gauged from the business transacted by other manufacturers of similar kind. The profits of most of them amounting to 25 per cent on the capital invested annually. This, owing to the fact that the usual value of their products per month exceeds the amount invested in the factory itself.

INFORMATION. A—Any Shareholder may qualify for the position of Director in this Company by subscribing and paying for two or more shares. B—Ons on stock subscribed for are to be made from time to time in the discretion of the Directors, and so not to exceed 25 per cent. (twenty-five per cent.) of the purchase price thereof, with at least 10 (ten) days notice. C—Nothing has been paid or will be paid to any Promoter or Director or any other person interested in the property acquired other than A. J. Belfry, and his interest is fully set forth in this Prospectus. D—The preliminary expenses and the cost of organization is fixed at an amount not to exceed \$50,000. E—A brokerage not exceeding 10 per cent. (ten per cent.) will be paid to the duly authorized agents as commission for sale of Company's stock. F—The Company's stock will be in the hands of its shareholders, each share entitling its holder to one vote at all General or Special Meetings. G—The Company offers 500 (five hundred) shares at the par value of \$50.00 each, but reserves the right to accept subscriptions and to allot stock to the subscribers thereof, as is provided for from time to time, and to reserve all or any stock from sale.

BARCELONA STILL ISOLATED.

PARIS, Aug. 2.—Judging from the reports received here the situation in Barcelona still remains somewhat shadowed, as no correspondent yet has reached the city, which is isolated by coming out of Madrid are suspected of being over-optimistic. Nevertheless it appears certain that General Sarrat has succeeded in restoring a semblance of order in the city, and to-day a serious effort to resume work was made.

At the solicitation of the authorities the employers of Barcelona have agreed to offer a premium of a week's wages to every person coming back to-day a serious effort to resume work was made.

What cost in life and property comparative tranquillity has been re-

stored in Barcelona, however, still remains shadowed. The various reports agree that the troops, aided with machine guns, drove the revolutionists back. The main body of the mob escaped and took refuge behind the barricades in the workmen's quarter, where they were finally expelled by shells from the guns on Fort Montjuich.

Say Thousands Are Dead. Refugees arriving at the frontier speak of the "terrible slaughter" and estimate the dead at thousands, but allowance must be made for their panic. Whether or not the ringleaders who were captured and tried and condemned by court-martial actually have been executed is not yet clear. Some reports declare that General Sarrat has not yet approved the death sentences in the cases of these men. It is known, however, that Emilio Iglesias, editor of "The Progress," was shot without trial in the fortress.

But if order has been restored in Barcelona it seems equally certain that the outlying country, especially the district north of the city, still is in the hands of the revolutionists, and the task of reducing the remainder of the province probably will entail much additional fighting and bloodshed.

A Republic Proclaimed. Even the official despatches from Madrid speak of the necessity of restoring order in the interior of the country and of the difficulty of dislodging the "anarchists" who have taken refuge in the mountains.

Some reports insist that a republic already has been proclaimed, and that a regular junta is directing the operations of the revolutionists.

A special despatch from Cerebere reiterates previous reports that a number of communists in Catalonia have proclaimed a republic, and declares that the municipality of Palmos has declared that city to be free and independent.

British Squadron Sails. LONDON, Aug. 2.—A despatch from Gibraltar says that British cruisers Lancaster and Suffolk, together with four torpedo boat destroyers, have sailed for Moroccan waters.

MILLIONS FOR NEW CARS. PITTSBURGH, Aug. 2.—Contracts were awarded to-day by the Pennsylvania Railroad Co. for freight cars to cost between \$3,000,000 and \$9,000,000. The cars will replace old equipment on the lines east of Pittsburgh and Erie.

Driven From Home, Suicides. ROCHESTER, N.Y., Aug. 2.—Becuss' parents had banished her from home, Julia York, 23 years old, went to Geneva Valley Park this afternoon and committed suicide by drowning. She had three Italian boys to rove her up the river. After proceeding about two miles she arose from her seat and leaped overboard.

Girl Dies From Burns. Three-year-old Nellie Hill of 162 De Gravit-street, who was so terribly burned Sunday noon, died in the Hospital for Sick Children at 8 o'clock yesterday morning. The little girl was playing in the yard next door to her home, and she lit some tarpaper which caught onto her dress.

Must Include Calfskin Products. WASHINGTON, D.C., Aug. 2.—It was practically conceded to-day that in order to insure the success of the tariff conference report by a safe margin, the low rates on boots and shoes and harness would have to be applied to calfskin products as well as to leather from a class of hides that are now dutiable, but which are made free by the conference report.

RESTAURATEURS UNITE AS RETAIL MERCHANTS

Fifteen Cent Dining-Room Proprietors Organize New Section and Elect A.M. Sanderson as Chair

It has been decided to organize as a section of the Retail Merchants' Association by the fifteen-cent restaurant proprietors.

The following officers were elected Sunday night: A. M. Sanderson, chairman; J. P. Sam, first vice-president; J. Blaney, second vice-president; J. Hoffman, treasurer, and J. McMahon, secretary.

A meeting was held at the Retail Merchants' Association rooms, 21 Richmond-street. The object of the meeting was some plan of co-operation in the Association by which the restaurant proprietors could purchase on a larger scale than individually.

Mr. Sanderson was of the opinion that the cost of provisions might be cut down from 10 to 15 per cent. if this could be attained it would obviate the need for raising rates. Under present conditions he feared that the increased cost of provisions and help would not only abolish a margin, but drive profit in fifteen cent restaurants, and the men in the business into insolvency. He was of the opinion that by organization and co-operation, the price of provisions could be put on a basis satisfactory alike to themselves and their patrons.

TRADE EXPERT IN CANADA

German Commercial Interests Ask for the Appointment of One

LONDON, Aug. 2.—(C.A.P.)—The German Commercial Treaties Association has memorialized the German Chancellor for the appointment of a German trade expert in Canada. The request is based upon replies received to a circular addressed by the association to a large number of firms trading with Canada, by whom such an appointment is considered highly desirable.

At the same time many firms remark that the end of the tariff war is of far greater importance, as before normal trade relations have been restored between Germany and Canada, the trade results are to be expected from the appointment of a trade expert.

\$20,000 Damage Done Port Colborne Pier—Steamer Badly Damaged

PORT COLBORNE, Aug. 2.—The steamer Glennell, owned by the Inland Navigation Company of Hamilton, struck the breakwater here early this morning, doing twenty to thirty thousand dollars' damage.

The steamer had passed thru the canal and was on her way out. When hearing the breakwater, her wheel chain became clogged. She struck the breakwater head on. Her forward compartments are full of water, and will have to be dry-docked. She was loaded with a general cargo, Montreal to Port William.

C. P. R. Makes Good Advance On New York Stock Exchange

Local Market Closed For the Holiday—Stocks Are Firm on Montreal Exchange

World Office, Monday Evening, Aug. 2. The local market was closed for the holiday today. Speculation at Montreal was in accord with the recent bullish feeling experienced on all markets, and while trading was on the easy side there was a good undertone throughout.

C. P. R. advanced half a point on the eastern exchange, in sympathy with the movement on Wall-street, where the shares were in good demand and sold up to 139 1/4, a new high record for the year.

Nova Scotia Steel was higher to-day, advancing over a point, to 71, and closing around the highest figure reached. Dominion Steel was quiet and the common stock steady. The preferred shares were higher, advancing half a point, to 123 1/2, and closing at that quotation.

Montreal Power was somewhat easier on to-day's market, declining nearly a point during the day. So sold fractionally higher, but was weaker at the close.

C. Packers were dealt in moderately to-day at steady prices. A small lot of the "A" series was traded in at 101 3/4, only fractionally below the highest figure yet reached on this movement. The "B" series was quiet at 102. The other listed issues were about unchanged.

Large increase in trust company loans feature of bank statement, showing hardening tendency of money.

Forty-three roads for third week of July show average gross increase 5.55 per cent.

In addition to 1000 steel hoppers cars recently ordered from American Car Foundry Co., the C. H. & Ohio has placed orders for 3000 more cars of the same type, which the Standard Steel Car Co. will build 2000 and Pressed Steel Car Co. 1000.

Last day for deposit of stock under Chicago G. W. reorganization plan.

Tariff bill passes the house and there is a fair chance that it may get thru the senate by Thursday.

The Carnegie Steel Co., a subsidiary of the U. S. Steel Corporation, has raised the price of bars to \$130 and plates and shapes to \$140, an advance of \$1 a ton.

Joseph says: "It will not be safe to sell Coppers short; these will surely work higher. Keep long of St. Paul; Wall Street which the Standard Steel Corporation. Specialties: Bull Consolidated Gas. Keep long of Interborough Buy Cotton."

Regular dividend on 800 common 3 per cent. and 3 1/2 per cent. on preferred.

In the most important banking circles, particularly those associated with the Carnegie Steel, the greatest confidence is felt that money rates will be made a little and probably will, will not for six weeks or more be so much higher as to be deemed a bearish argument on the stock market. The piling up of reserves in interior banks has made for a very strong position which some of the higher issues will be manipulated upward still.—Financial.

On Wall Street. Beatty & Glasco had the following at the close: Ignoring an unfavorable cotton report, stocks resumed the advance soon after midday and under the leadership of Southern Pacific and later of U. S. Steel, the trading broadened, with closing prices at substantial net gains. This is a natural view of the fact that some of the industrial companies report that orders are pouring in at such a rate that they expect to be swamped at no distant date. With public confidence stimulated by the expected early passage of the tariff bill, stocks may carry quite some higher. There will be extensive profit taking right along, but new orders may be

more than sufficient to offset the selling of the character noted.

Finley Barrell & Co. wired J. B. Beatty & Glasco. Pennsylvania stock moved to the front in the market this morning. It held leadership for about an hour and after establishing a high record gave way to Southern Pacific. This stock crossed 136 for the first time in its history. Reading, Baltimore and Ohio, Steel and Brooklyn Rapid Transit were other strong issues. The Steel trust announced a further increase in certain commodities for a reason. Should a reaction come it could be only temporary. We believe the bull market is just getting in full swing and favor the purchase of stocks. Steel and Southern Pacific are the popular leaders.

Chas. Head & Co. to R. R. Bondard. The stock market to-day has continued its advance, indicating that the bull campaign is under good control. New speculative favorites are sought forward when old leaders lagged under profit-taking. It was significant that the unfavorable government crop report was slurred over by traders, possibly because a comparatively few Southern Pacific was the feature of the day. There was considerable profit-taking, but this was offset by the new buying. Easy money and activity, to say nothing of fine crop prospects, as a rule stimulate outside interest and suggest higher prices before the movement ends. At the same time, we would not neglect good profits on bulges, as healthy reactions are to be expected. The closing was strong with speculation active in the railroads and industrial stocks.

R. B. Lyman & Co. wired R. B. Holden. The market opened very active, and fractionally higher. Commercial houses buying was very fair, but there was also considerable profit-taking. In some instances traders seemed inclined to sell their holdings in order to meet the market would take the cotton crop report, "selling" was very well absorbed, and when the report was issued it had no particular effect upon the stock market. We look for considerable higher prices during the week.

Metal Sold on Exchange. NEW YORK, Aug. 2.—Carrying out the reforms recommended by Governor Hughes' Wall Street Investigating Committee, the New York Stock Exchange to-day put into effect the system by which actual sales of metal were made on the floor of the exchange and quotations were given at not more than 200 tons.

INTERNAL COMMERCE REPORT. WASHINGTON, Aug. 2.—Better railway traffic conditions, showing larger movements of coke and iron ore, are indicated in the June internal commerce report. The report states that there has been a decrease in volume in the movement of live stock, grain and provisions during that period.

Shipments of bituminous coal over eight of the leading eastern coal carrying roads, 7,317,700 tons, exceeds by almost a million tons the shipments for July 1908. The coke traffic, 1,923,416 tons, shows the largest monthly total for the year. A decline in the shipments of anthracite. Improvement in the iron trade is shown from the fact that the monthly shipments from double points on the New York and Erie roads were 4,850,857 gross tons, or more than 200,000 tons above the corresponding month of last year.

LIBERAL AFRICAN POLICY SALVATION OF COLONY

Member of Cape Parliament in Toronto, Speaks Hopefully of Future of British Africa.

Charles J. Levey, M.L.A. for Cape Colony, is staying at the Prince George Hotel. He left Cape Town some time ago, and is travelling in the United States and Canada making a short study of the negro question, and agricultural subjects.

"There is not the slightest danger of any war between the white races of South Africa in the future. And British will not have a more loyal colony," he remarked. "The union parliament will shortly come into operation, and the colonies are making great strides in agriculture and pastoral farming, and will soon be able to produce sufficient for their own consumption."

"General Botha, who was the chief leader against us in the late war, has gained the confidence of all sections of the community, both British and Dutch."

"One great question which will have to be settled is the native question," said Mr. Levey, referring to the topic in which he appears to be most interested. He is much impressed with the absence of the color line in Canada, but attributes that to the comparative rarity of the colored people here. In South Africa the black people number ten to one white.

"The English colonists," he affirmed, "are not hostile to the natives, but the majority of them are opposed to their having the franchise given them at this stage of their civilization, and think that for the present a special system of administration would be the best, placing no barrier on the gradual evolution of the native."

In his journeyings Mr. Levey has visited Virginia, Hampton Institute, Booker Washington, President Taft and several United States congressmen, and has obtained much valuable information. He is a good opinion of the negro in America, and considers him to be a great economic factor in the United States.

"The negro seems to be as loyal to America as any white American," he observed to The World.

Mr. Levey will acquaint himself with the conditions of the country, and will be back in Toronto in a few days.

RELIGIOUS STRIFE IN PORTUGAL. Free Thinkers Will Demand Suppression of Clerical Orders.

LISBON, Aug. 2.—At a big public meeting of Free Thinkers from all parties, but principally Republicans, held here to-day, it was decided to organize an imposing procession to march to the houses of parliament and demand the suppression of the religious orders in Portugal and the abrogation of the existing laws against freedom of conscience.

11,300 Buildings Burned. TOKIO, Aug. 2.—An official report on the damage by the great fire at Osaka places the number of dwellings destroyed at 11,300, including eleven office buildings, eight schools, four banks, ten business blocks and twenty temples. There was but one death, due to illness, caused by the fire.

MANY ATTEND FUNERAL OF LATE FRANK TURNER

Balm Beach Sports—Fine Time at Blantyre Park—County Happenings.

BRACONDALE, AUG. 2.—(Special.)—The funeral of the late Frank Turner, C.E., took place this afternoon from his late residence here.

A very large number of prominent citizens were present at the family residence in Bracendale, where the funeral service was held.

The great popularity enjoyed by Mr. Turner was evidenced by the deep sympathy shown by those in attendance.

The immediate members of the family present were: George Turner, brother, from McEwen, Iowa; Charles Turner, nephew, from Melfort, Sask.

Mr. Turner's death cast a gloom over a large section of the community in Bracendale, where he lived; at the Albany Club, of which he was honorary vice-president, and in financial circles, where he was well known and highly respected.

His personal characteristics endeared him to all who knew him; his broad mind, warm heart, fine presence and generous disposition were well known and had made him a leader in his very large circle of friends.

NORTH TORONTO. Many Funerals in Town—Council Meets To-night.

NORTH TORONTO, Aug. 2.—(Special.)—A large circle of friends and acquaintances attended the last sad rites in connection with the tragic death of the late Mrs. Joseph Todd in St. John's Cemetery, this afternoon.

The funeral of the late Thomas Dalziel, who died on Saturday by being struck by a Metropolitan car while crossing the tracks a little south of Aurora, was held this morning from A. R. Hunt's undertaking rooms to Mount Pleasant Cemetery.

The funeral of the late Arthur Neville, the English laborer who committed suicide on Sunday afternoon, was held in Mount Pleasant Cemetery this afternoon.

The board of works took the precaution to water Yonge-street this morning, the south enders complained that they did not get their full share.

Auto and vehicular traffic up Yonge-street during a portion of the day was especially heavy. The Metropolitan handled an enormous crowd, all the suburban and thru cars being jammed.

The company for the most part gave an excellent service, no mishaps of any kind being reported.
