Situation is Developing in Prairie Provinces Which is Causing Much Anxiety to Politicians of Both Parties, and Soon May Produce Startling Results.

By a Staff Reporter.

Winnipeg, Nov. 29.—A situation is developing in western Canada which is the cause of much anxiety to the politicians of both parties. It may not come to a head immediately, but this gathering at Winnipeg this week—the annual meeting of the shareholders of the Grain Growers Grain Company of Canada—has been the occasion for significant gatherings and conferences which will occupy the entire week and may soon produce somewhat startling results.

The shareholders of the Grain Company have been in session all day and will hold another meeting tomorrow. Tonight they attended a banquet at Manitoba Hall, given by the National Council of Agriculture, which is the national executive of all the farmers of Canada, including not only the grain growers, but the Ontario grain and fruit growers, and men of Nova Scotia. Tomorrow night there is to be an open meeting, under the auspices of the free trade league, and on Friday a conference between the representative grain growers and the chartered banks.

The Grain Growers Grain Company of Canada is absorbing the Alberta Co-operative Grain Elevator Company. The necessary action was adopted last week and was duly approved by the shareholders of the Grain Growers Company, altho it will be necessary to secure an amendment of the latter's charters at the coming session of parliament, to permit the consolidation. Many people believe the next step will be the absorption of the Saskatchewan Elevator Company. The companies handled 80,000 bushels of wheat during the past harvest and 38 per cent. of the entire western grain crop. United under one control, they would constitute one of the most powerful corporations on the continent. They already have 45,000 shareholders. The financial standing of the Grain Growers Company is evidenced by the fact that its net earnings for the year ending Aug. 31, 1916, were \$100,872, after paying a ten per cent. dividend to shareholders and \$10,000 for war tax, the reserves carried \$217,000 to the directors' account and credited \$150,000 to profit and loss. New Political Party.

The company is already engaged, not only in the grain business, but in buying and selling farm implements of every kind, lumber, wire, twine, salt and apples, etc. It has acquired enormous timber limits in British Columbia on the main line of the Grand Trunk Pacific and proposes to furnish lumber to farmers of the prairie provinces. The commercial standing of the grain growers and their unity of action lend color to the suggestion that they are about to launch a new political party. This will probably not be done at any time in a formal manner, nor is it likely to be directly approached at the gatherings held here this week; but developments are expected when the Grain Growers' Association of Manitoba hold their annual meeting at Brandon January 12 and whatever is done at the Brandon meeting will be followed by similar action at the annual meeting of the Saskatchewan growers and of the United Farmers of Alberta respectively.

The Conservative party, as a federal party, seems to be doomed to some thing like extinction in the prairie provinces; but the Liberal party, as now organized, will profit little thereby. The more intelligent Liberals see this and suggest the return of Sir Wilfrid Laurier and the reorganization of that party. One of them said yesterday that a populist party would carry everything before it in all three prairie provinces. Whether the Liberals can help themselves any by a change of leaders is uncertain, but it is even

The Roumanians report the situation in western Wallachia as unchanged, that is, their first army is continuing to rest...

The Russian offensive near Kilibaba will relieve the Roumanians to some extent, for the nature of the blow is such that if it were curried out in force it would turn the entire German positions in Roumania...

The aid which the British and the French are going to give Roumania is probably as direct as possible and its chief form is providing munitions for the hastening of German prisoners...

British troops have now taken over positions to the left bank of the Vardar and they have made their presence felt by carrying out an extensive raid...

On the western front the allies have settled down into the humdrum process of trench warfare, with this difference, that they are not allowing the Germans to dig free trenches on the Somme...

"IT'S GOING FINE"

George Lawrence Reports Splendid Co-Operation. The Public are Really in Earnest and are Supporting Him in His Move to Reduce the Price of Bread

Some people are making hints that I am sorry I Reduced the Price of Bread; that my losses will sicken me of my crusade, and that the public don't care enough about saving bread-money to back me up with their orders. That is false. The Public are Enthusiastic. I get letters and telephone messages, giving me orders and words of encouragement and approval. As long as the public stand by me I can stand by them.

Let us all get together and make this Bread-price Reduction a permanent one. Let thousands more people rally round the bakery which has staked its success on the loyal support of every man and woman who eats bread. Send in your orders to George Lawrence. That is the real help you can give.

It is not right for the general public to smugly congratulate itself that the price of bread is down, in the face of everything else going up, and to take advantage of it merely as a matter of course. Such a blessing does not "just happen"; it means somebody has to exert himself and wake up and take action. I have done my part. My whole bakery is devoted to giving the people the utmost in Value and Quality. Eight cents for a loaf is a lower price than is consistent with the cost or materials under ordinary circumstances at present. We dared to lower the price because we took courage from our faith in the public's goodwill and good sense, and its readiness to take an active part in this crusade for low prices by sending all bread orders in to me. I must have the orders if I am to build up a large enough volume of trade to enable me to carry the production of bread at the price of 8 cents for a 24-ounce Loaf.

Join the "10,000" Club

Every Booster for an 8-cent Loaf is Enthusiastically Working to Get Recruits for Geo. Lawrence's Crusade to Keep Down the Price of Bread

I wish to publicly thank the hundreds of men and women who have assured me not only of sympathy, but co-operation. When I say "sympathy," I mean their hearty approval of my action and the cause I am fighting for. When I say "co-operation," I mean not only sending in their own orders, but influencing their friends to do likewise.

Will Make "Tribute Night" Great Patriotic Feature

Things are now in readiness for making "Tribute Night" one of the greatest patriotic features that Toronto has seen since the beginning of the war. It is expected that all the returned soldiers in the city who are able to do so will be among those who either line the streets, forming a guard of honor, or will later have place on the platform or ground-floor of Massey Hall. The military arrangements have been authorized by Gen. Logie, and the entire proceeds are due to the initiative of Miss Church, sister of the mayor.

Places will be reserved in the gallery for the wives, sisters and other friends of the soldiers, and apart from the places reserved other portions of the hall will be opened to women generally. A number of the returned soldiers will be among the speakers. St. John's Ambulance Brigade will be leaders, and the collection when taken up will be given to the city treasurer, to be in his charge until the club is incorporated.

TEACH DOMESTIC SCIENCE.

A somewhat unique class will be that about to be established in the King Edward School, when twenty young deaf and dumb women will be taught domestic science. The class will be held in the evening, as those who are to be its pupils are engaged during the day in the classes held in the King Edward School because the classes as the technical are already filled both for day and evening sessions.

Government to Take Stock Jointly With Borrowers in Concern.

By a Staff Reporter.

Winnipeg, Nov. 29.—"The war has enabled us to settle two questions which for a great many years perplexed the Province of Manitoba," declared Hon. Edward Brown, provincial treasurer, tonight at the banquet of the Grain Growers' Grain Company and National Council of Agriculture. "The questions," he continued, "were language and liquor. Both have been settled forever and settled right."

Mr. Brown took occasion to explain in great detail the forthcoming Manitoba legislation in respect to rural credits. The bill is closely modelled upon the federal farm loan act passed by the U. S. congress a few months ago, but differs in one essential feature.

Depends on Municipality. The unit of the Manitoba scheme is the municipality. The act only comes into effect in any municipality after a bylaw for that purpose has been submitted to and adopted by the people. The municipality becomes liable for loans made to farmers, but no loan will be made except upon the recommendation of the municipality.

An association is to be formed, some of the stock being taken by the government and the rest by borrowers. The government will be non-dividend paying, but the association will be under government control. The affairs of the association will be managed by a board of five, two to be chosen by the municipalities and three by the provinces, but both political parties will be represented.

Among other speakers at the banquet were Col. R. Z. Fraser of Burford, Ont. He spoke on behalf of the Farmers' Co-operative Association of Ontario. He said the association was doing business of \$60,000 a month.

Farmers Pay War Taxes. L. Brown of Brandon, responding to the toast of the empire, expressed his regret that Great Britain was helpless to escape from the struggle with the drink evil. He called attention to the fact that the Farmers' Co-operative Association of the prairie provinces were giving up to the government nearly \$700,000 in war taxes for two years.

Among other prominent speakers were Cecil Rice Jones, president and general manager of the Alberta Electric Company; Hon. Charles Dunning, the newly-appointed treasurer of Saskatchewan; and T. A. Crerar, president and general manager of the Grain Growers' Grain Company of Canada.

LOSES MOTION TO QUASH CONVICTION

Chief Justice Mulock Says Finding Against Hugh McEvoy Proper.

OSGOODE DECISIONS

Application to Remove Executors of Estate of the Late S. May.

By a Staff Reporter.

Yesterday at Osgoode Hall Chief Justice Mulock dismissed with costs the motion to quash a conviction made by G. T. Denton, police magistrate for the city of Toronto, whereby Hugh McEvoy was convicted of receiving an order for liquor for beverage purposes and was fined \$50 and costs. McEvoy, on October 7, 1916, was in charge of the store of E. J. Convey at 380 Royce avenue. A liquor business had been run in connection with this store prior to the enforcement of the Ontario Temperance Act. On the above date Charles Bruce entered the store and asked for a bottle of whiskey. McEvoy produced a blank form and asked Bruce to sign it, which he did. After Bruce had paid 35 cents as the price of the liquor, 2 cents for the payment of the express order, and 3 cents for a postage stamp, the order was forwarded to the Distillers Distributing Company of Montreal. McEvoy was convicted on section 42 of the Ontario Temperance Act.

His lordship, in giving judgment, said: "The magistrate was, I think, right in holding that in receiving the blank form from Bruce signed by him, and filled up by the defendant, the latter was guilty of the offence of receiving an order for liquor for beverage purposes within the province. It is immaterial whether the person receiving the order transmits it to another province to be filled up or makes no use of it, his offence is complete when he has received the order. I think that McEvoy was rightly convicted and this motion should be dismissed with costs."

The next sitting of a divisional court will be held the week commencing Monday, Dec. 11, 1916.

The following writs have been issued: Albert D. May versus Charles F. Wheaton and W. G. Thurston, executors of the estate of the late S. May, asking a declaration that all legacies to them are null and void. Testamentary incapacity is alleged. The plaintiff asks that the defendants be removed from office as executors, and especially that they be restrained from dealing with the stock of Dodge Manufacturing Co., Limited.

Edwin Charles Eastble is suing to recover damages from Albert T. McGuire and Cecil McGuire for the death of Daisy Grace Eastble, alleged to have been due to the negligent driving of an automobile.

RECOMMENDS THAT JAIL BE REMOVED

Controller O'Neill Would Place Governor and Deputy on Pension.

IN SUBMITTED REPORT

Suggests That Prisoners Be Accommodated at the Jail Farms.

Controller O'Neill, in a report to the board yesterday, recommended that immediate steps be taken to obtain the consent of the Ontario Government for closing the jail.

To meet the requirements for accommodation of prisoners sentenced to institutions other than the industrial farms and awaiting transfer, he would arrange for a place of detention near the courts. For the care of prisoners sentenced to jail terms the government should be petitioned to accept cottage No. 2 at the men's industrial farm and cottage No. 1 at the women's industrial farm as county jails.

He recommends remodeling Court street station to care for forty prisoners, and that all transfers to the farm be made in a motor bus.

"I recommend," he continues, "that the governor and deputy governor be superannuated and granted pensions, that the steward be transferred to the industrial farm, that the engineer be provided with a similar position in the civil service, that the competent guards be cited for in the same way, and that the medical service be transferred to the department of health."

He recommends that the jail be torn down and the land used for park purposes.

DESIRE ADOPTION OF DILUTION OF LABOR

Mark H. Irish Issues Statement Regarding Increase of Munitions Output.

Mark H. Irish M.L.A., director of the department of labor of the imperial munitions board, has issued a statement outlining some of the facts concerning the work of this department. The imperative necessity for munitions, he said, had caused the imperial munitions board in its endeavor to increase the output of the plants engaged in this work to bring to the attention of manufacturers of munitions the desirability of adopting what has been termed in England "the dilution of labor."

Under female labor it has been found that female labor is peculiarly suited to making munitions. By spreading the available male labor over either a greater period of time per day or over a greater number of machines, women under the charge of skilled men attain satisfactory results.

In reply to the communications received from several manufacturers not engaged in the work of this department, who have written stating that men leaving their employ have alleged that they were ordered into munitions factories, he stated that such an allegation was wholly without foundation.

One of the most serious impediments to efficient production, according to Mr. Irish, is the shifting of labor from one munitions plant to another, for which condition the employer is as much to blame as the worker.

That man whose name you will give us may be just waiting for this chance. Give us his name and we will write him or see him and ask him to join us. It will assist us if you will give us your reason for believing your man to be eligible.

THURSDAY MORNING, NOV. 30.

Victory and Youth

Studies in the British admiralty are of world-wide importance. The present is by all odds the most important change in the higher commands in Britain since the war began.

When the admirals are sorted out the men mentioned will be waited upon by men of their own class, by a properly trained officer or man who knows what is required.

The public who have already done so much can assist the new plan by sending in the names of those of whom they know definitely that they are not doing their duty as citizens of the empire.

There has been an absence of any similar dash or enterprise on the part of the British navy if we are to judge by published records.

There are probably still too many old men at the top in British affairs. Attrition works in still another way than on men and munitions.

It is being sufficiently demonstrated that all plans heretofore in use to stimulate or to carry on recruiting have failed to produce the number of men needed to replace wastage.

equal the effort Canada out of her 5,000,000 English-speaking men would have to raise a force of 650,000.

A new and energetic campaign is being inaugurated today by the Queen's Own Regiment with the object of filling up the new 25th Battalion in short order.

There is to be no bullying nor any of the methods used about which bitter objection has been taken before. The cards sent in will give all necessary details of age, occupation, health and eligibility for service.

The public who have already done so much can assist the new plan by sending in the names of those of whom they know definitely that they are not doing their duty as citizens of the empire.

Registration cards are being issued by the government with the object of securing the names of those who have not enlisted and are not doing any kind of necessary and patriotic work in connection with the war.

No better answer can be had to the advice of the United States Federal Reserve authorities for banks not to accept the short notes and other unsecured paper of the entente allies.

Controlled O'Neill's report on the method of disposing of the old jail is based on good sound common sense. It costs a great deal more to keep the jail open than it will to tear it down.

It is being sufficiently demonstrated that all plans heretofore in use to stimulate or to carry on recruiting have failed to produce the number of men needed to replace wastage.

Fear Organization May Be Used as Strikebreaking Power.

The special committee on publicity, appointed by the council, failed to agree last evening on the expenditure and raising of \$50,000 per annum for advertising Toronto, and the matter was left in abeyance.

All that the committee passed was the recommendation that the greater Toronto committee, made up of representatives of various organizations as well as influential individuals, be appointed.

James Richards, representing the Trades and Labor Council, declared that in the interests of labor, the City of Toronto should provide the money to make it a success.

R. S. Coryell of the Ad Club believed the scheme would be killed if private enterprise were not permitted to create the organization.

J. W. S. Ridley thought labor should give the project every support, because it was laboring to bring to benefit largely by new industries.

Radical Schedule Proposed for International

PROMISING OUTLOOK FOR BEACHES LEAGUE

Officers Elected at Annual Meeting—Big Increase in Clubs.

The sixth annual meeting of the Beaches Hockey League was held last night at the Broadview Y.M.C.A., when about 100 delegates were on hand, being the largest annual meeting ever held by an outdoor rink league. Most of last year's clubs will again be in line, while several new ones have already applied for admission.

President F. C. Washorne was in the chair, and the vice-presidents, C. L. Mulholland and Gen. W. Cruise, and Secretary-Treasurer P. D. Smith and most of the executive committee were also in attendance.

Senior O.H.A. players are barred from playing in this league again this winter, while intermediates and Junior O.H.A. players will be allowed to compete in the senior series of the league only.

It was also decided to grant soldiers the same privileges in this league as the O.H.A., the same as last winter. This rule has already had a good effect, as applications have already been received from the 23rd Battalion, 20th Battalion and the 22nd Battalion. It is hoped to secure enough soldiers to form a complete soldier group. Any soldier teams desiring to join this league are requested to get in touch with the secretary at once.

Several additions and amendments to the constitution were brought up and dealt with as follows:

That the teams in all series be reduced to six players, after considerable discussion, left over until the next meeting.

That only one member from each club be entitled to hold office in this league was carried.

That all teams playing in the juvenile and midget series have the privilege at half time only, of substituting one or more players, the player substituted not being allowed to return to the ice under any conditions even if overtime be played. This motion was also left over.

That the intermediates and juniors be amalgamated as one, providing enough players to fill the league, was carried.

That the referee in the juvenile and midget series receive no fee was left over.

Commercial houses will again be entitled to membership in this league. It was decided to have five series, the same as last year, they being as follows: Senior and intermediate, with no age limit; junior, under the age of 20 on Jan. 1 of playing season; juvenile, under 15 on Jan. 1 of playing season; and midget, under 10 on same date.

While this league is called the Beaches Hockey League, it does not necessarily mean that teams be confined to that district, as last year's teams competed from all parts of the city, and are expected to do so again this winter.

All clubs who are counting on using the hockey courts in the different city departments at once to ensure securing suitable hours in which to play their games.

MORE PLAYERS JOIN PROFESSIONAL CLUBS

Oatman and Wilson Are New-comers at Practice—News of the Players.

The 22nd Battalion team had a good workout at the Arena yesterday morning, there being two newcomers, in addition to the regular squad. Eddie Oatman, the Tillsonburg player, who has been performing on the Pacific coast for a number of seasons, but who is now a member of the 22nd Battalion, made his initial appearance and featured the practice with his work. To say that he will be one of the sensations of the N.H.A. season is no exaggeration. He is a natural hockey player, a very speedy, and has the weight to carry himself thru the roughest defensive. Brown, a goalkeeper, formerly with North Bay, was the other newcomer out. He showed excellent form and rather surprised the ralhbirds. Progers, George and Howard McNamara, Arthur, Scudro, Duncan, Merchant and Keats were the others out. The differences between the 22nd and the Toronto over the services of Keats have not been settled. The usual time the player is working out with the soldiers in preparation for the opening of the season, no matter what team he plays with. Corbett Denny, Noble, Kyle and Claude Wilson composed the Toronto squad out yesterday morning.

A Winnipeg despatch says: The Manitoba Amateur Hockey Association, at a meeting last night preliminary to the annual meeting next Tuesday, decided to vote for Allan Cup hockey and against holding the annual meeting of the Canadian Amateur Hockey Association, favoring the continuance in office of the present officers. Senior hockey will be played this season in two leagues in Manitoba.

Senior hockey will be played this season in two leagues in Manitoba.

Capt. Edward McNamara has been elected captain of the 22nd N.H.A. team.

Gordon Meeking will be out with the 22nd Battalion early next month, as soon as he finishes his officer's course. It is now considered doubtful whether Percy Leasure will be with the 22nd or not. His military duties are such that he can hardly spare the time.

Montreal sends this: George Kennedy of the Canadian Hockey Club, Stanley Cup holder, yesterday signed up with McNamara. The habitant team in the N. H. A. is now about complete, and is an follows: Goal, George Vesina; point, Harold McNamara; cover-point, Bert Corbeau; centre, Neway Lalonde; right wing, Eddie Pitts; left wing, Jack Lavette. The world's champions will also have Louis Berlanquette, Skinner Poulin, and a couple of youngsters whom Manager Kennedy hopes to develop as spares for the forward line.

ED. BARROW HAS A SCHEME

Manager Moore of the Old Champion Tecumseh Pays Visit to London.

Ed. Barrow, manager of the Old Champion Tecumseh, is visiting in London after an absence of 36 years.

London, Ont., Nov. 29.—Ed. Moore of North Adams, Mass., is visiting in the city after an absence of 36 years. Mr. Moore came to London in 1886 to manage the Tecumseh House. He found cricket the great game here then, but hearing about baseball, he introduced the game to Londoners, managing the old-time Tecumsehs.

Later Manager Moore brought professional baseball into vogue in London, and was instrumental in bringing Fred Goldsmith, Phil Powers, Joe Horning, Bradley and a number of other good ones to this city. He managed the team when they won the international championship from the St. Louis Browns, the game being played on the old exhibition grounds. Mr. Moore took the Tecumsehs on a tour in the United States, where they made some baseball history. "It was the first to introduce the game here," he said, "and we soon discovered that the players, Johnny Jones, Billy Strong, Tom C. S. Hyman, Frank Love, Dick Southern and a score of other fellows were in the game, and they certainly learned to play that old game. I often think of the old days and wonder about the boys. There are not many of them left. I regret that I did not return here earlier, and see more of them. They were a fine lot of chaps."

INDOOR BASEBALL

The Granite Club indoor baseball season was successfully closed last night when the team manager and captain, Dr. Sander, defeated Dr. Sander's team by 25 to 16. These lines were on the series, necessitating a play-off. The Granite Club team was composed of: Laflamme, Dalton and Henderson.

Two great games of baseball were pulled off at West End Y.M.C.A. on Tuesday night. In the first game, Neilsons defeated Livingston & Scott, 23-14. The game was very exciting all thru, some innings being pulled off on both sides. McDougall started for Neilsons, while for the Livingston & Scott team, Neilsons ...

The second game was a hummer, and while not good baseball, it was a treat to watch from the spectator's standpoint. Neilson started to pitch for the fifth inning for the second time this season, being the only team to beat them this year. Neilson started to pitch for the fifth inning and gave way to Rooney in the fifth inning, when Neilson got to him for 15 batters. All the scoring was done in bunches. Neilson scored eight in two innings and five in another, while Neilson got 15 in one inning and seven in another. Mortally for Neilson, again played a peach of a game, while Price and Arnold were the best for Neilson. Neilson, in spite of a sore shoulder, pitched a swell game. The balcony was crowded with spectators, who stayed until the last batter was out. ...

New York, Nov. 29.—Brown and Colgate Universities have put the last touches to the new deers they have filed on their crests. Tomorrow they will come together in what all experts expect for the eastern championship. Just how Colgate could figure in a championship game is not stated, but it is an undisputed fact, even by Warner and Daly, that Brown stands right at the top and will continue to shoulder Pittsburg and Army around all winter and up to next fall.

Atlantic City, N.J., Nov. 29.—The Cor-days practice before the Pennsylvania game here, a practice which has been found highly beneficial in the past. Cor-Sharp said today, and the team should bring its best game of the year against the Quakers.

LIEUT. DONOVAN WOUNDED.

Jim Donovan, the well-known boxer, signed his post as adjutant of the 20th Battalion to leave with a draft of officers early in October. He was sent to France at once, and was only in the first trenches for a short time before being wounded. He is now in London with a wound in his leg, but his condition is not serious.

POST SEASON SERIES WITH THE AMERICAN

International Baseball League Likely to Adopt Radical Schedule.

New York, Nov. 29.—President Edward Barrow of the International League announced here today that he will advise his club-owners to play only a 12-game league season next year, and a post-season series of 48 games with the American Association, Class AA League, of the middle west. Barrow said he already has talked the situation over with the American Association men, and they are enthusiastic over such a series.

Barrow will recommend to his club-owners that they open the regular season on April 15 and close it on Aug. 3, three games in each American Association city, and vice versa.

Barrow said that the winning team of this post-season series would play the champion team of the Pacific Coast National Association. Barrow will put his suggestion before his club-owners at their annual meeting here Dec. 11.

Some Bonehead Baseball Players Here and There Manage to Get By

Without its full quota of "boneheads," baseball would not be baseball; it would be a mere mechanical device of hitting and catching ball. The "bones" are the players who do the right thing at the right time, and they just won games. Connie's chumps of 1902 and 1905 were a far better team than the late Babe Ruth, who was a chump of 1910, 1911, 1913 and 1914. Why? Largely because the leading asset of the former club, the late Babe Ruth, was pretty much of a "bone."

Contra Mack's great team of a few years ago was no money-maker, was because he employed no "bones." Connie's boys did the right thing at the right time, and they just won games. Connie's chumps of 1902 and 1905 were a far better team than the late Babe Ruth, who was a chump of 1910, 1911, 1913 and 1914. Why? Largely because the leading asset of the former club, the late Babe Ruth, was pretty much of a "bone."

When Merkle failed to touch second in 1908, it lost the Giants a pennant and almost wrecked the career of a great ball player. But Merkle's play was an exception; it really was not a legitimate "bone." Players had been doing what Merkle did in 1908 for years, and got away with it. Merkle was caught in a tough place and was guilty. However, he was partly to blame, as Gill, a Pittsburg player, was called out on a similar play only a few weeks previous, and the case had been given much space in the papers.

But most "bones" are of the laughable kind. There seldom is a fanning bee in the most enjoyable part of the bee. Men like Babe Schaffer, Cy Fleck, Ping Bodie, John Anderson, Babe Waddell, have their proper place in baseball. Unconsciously, such players are the light comedy men of the sport.

No manager will purposely hire a comedy, but if a youngster shows tendencies to commit such plays he usually does not survive a training trip. But we must have our "boneheads," and, like the Chinese, they manage to get by here and there. We simply must have our "boneheads," the boys with the top-cent heads and the \$10,000 arms. Variety is the spice of life. It would not do for all

FREDERICK PALMER SILENCES CRITICS

Has No Patience With Those Who Find Fault With British Staff.

MASSEY HALL LECTURE

Famous War Correspondent Says Joffre is Master of Situation.

"I have no patience with the people who criticize and find fault with the British general staff," said Frederick Palmer, the eminent war correspondent and representative of the Associated Press with the allied forces on the French and British front, after his lecture in Massey Hall last night. He had emphasized this note in his address, and many remarks were dropped touching the same topic. The one question that evidently gets on everybody's nerves at the front is the eternal amateurish, "When will the war end?" In reply to some other idle criticisms, he was accustomed to put aside his torments with the suggestion, "Perhaps General Joffre knows more about it than we do!"

Complaints that the British had not done enough previous to July 1 were based on ignorance of the fact that the British forces were at the absolute disposal of Joffre if he wanted them. "They were ready to go to Verdun with their reserve divisions if needed," he said. His account of the German plan of campaign was of novel and striking interest. Falkenhayn had anticipated the British offensive, and had thrown 2,500,000 men on the western front, with only 1,000,000 on the east. His intention being to break the French, with the expectation that the British, whom the Germans regarded as brave, but stupid, would reinforce the French and waste the troops intended for their proposed offensive in vain slaughter at Verdun. Father Joffre, however, with some of the characteristics of the French peasant who can always reach down into his stocking, however grudgingly, and produce another franc or two, could always reach down into his military stocking and bring out a fresh division. He held Verdun and told the British to keep on with their preparations until they were ready all the while fighting bravely and bravely falling back. While Germany was trying to beat the life out of France, the British and French were getting ready, and when the day came for the big offensive it was soon known that Falkenhayn had failed. The whole military scheme of Germany was out of power, placed there by Joffre; Falkenhayn relegated to a secondary command, and Hindenburg given the command simply because he was the only unbroken general they had left.

General Haig, Mr. Palmer described as a young man at the head of the British army, who is very able, but a very quiet man who never advertises. "And there is an old man at the head of the French, who is a very wise old man—Father Joffre!" A tribute which drew forth hearty applause.

Speaking of Roumania, Mr. Palmer said that the Roumanians had not consulted their allies before cheerfully galloping into Transylvania, but he thought their retirement, which was being carried out under 100 French officers, was on the same plan as the French previous to the battle of the Marne. The Germans were being drawn out to extend their lines until the Roumanians are ready to strike back. He paid many compliments to the Canadian troops, and said they were to be credited with having introduced a new feature into modern military science. This was trench raiding, which was an idea of the Red Indians. The Germans adopted it, and they adapted everything, and would probably call it their own idea, and it had now extended all along the line. The Canadians had the nerve and the audacity to begin it. The whole rush a trench, do as much damage as possible with as little loss as possible, and get home safe today.

Mr. Palmer thinks the war will be decided on the western front, "and I think the Canadian battalions will help to decide it," he added. A splendid series of photographs and moving pictures concluded the lecture. The mayor introduced Mr. Palmer to the audience, which filled the hall.

BODY OF MAN FOUND IN RAVINE NOT IDENTIFIED

At a late hour last night, the body of the unknown man found in Rosedale ravine, near the end of East Rosboro street, yesterday morning, had not been identified. The body was found near a clump of bushes. By his side was a small bottle of carbolic acid, and around his mouth and lips were acid burns. The police believe it to be a case of suicide. The body was removed to the morgue where an inquest will be opened today.

RECIPE TO DARKEN GRAY HAIR

This Home Made Mixture Darkens Gray Hair and Relieves Dandruff. To a half pint of water add: Bay Rum... 1 oz. Orlex Compound... 1.4 oz. Glycerin... 1.4 oz. These are all simple ingredients that you can buy from any druggist at very little cost, and mix them yourself. Apply to the scalp once a day for two weeks, then once every other week until all the mixture is used. A half pint should be enough to darken the gray hair, and relieve dandruff. It does not stain the scalp, nor does it make the hair fall out, and makes harsh hair soft and glossy.

DIRECTOR'S IRE AROUSED BY PUBLICATION NOTICE

Montreal Paper Prints Questions to Be Asked Canadian Men.

CAMPAIGN IS PLANNED

National Service Directors Seek Inventory of Country's Man-Power.

Ottawa, Nov. 29.—The premature publication in a Montreal French newspaper of the lists of questions which will be asked by the national service directors has caused considerable annoyance to R. B. Bennett, M.P., the national director, and his assistants. It is admitted that this is the official list of questions which the people of Canada will be made to sign in the campaign to ascertain the man-power of Canada. It was not intended to announce the list of questions until everything was ready to launch the whole campaign. It is understood that a week will be set aside as national service week, when every man in Canada will be asked to sign his card. In this campaign the assistance of members of parliament, public men, clergymen, lawyers, notaries and public organizations will be secured. It is understood that some two million odd of these cards are being printed by the printing bureau and will be ready for distribution as soon as the campaign is launched. The national service directors have nothing to do with recruiting, and for that reason no reference is made to the question of enlistment. The idea of the national service directors is to get an accurate inventory of the man-power of the country, so that it can be mobilized and utilized for vital industries, such as agriculture, munition making, etc. In view of the character of the questions it is hard to see how labor men could refuse to sign them, as has been suggested by some labor leaders, as they have nothing to do with recruiting, nor is there anything that could be interpreted as leading towards conscription.

Incidentally, of course, the number of men of military age available for recruitment is of great importance to the authorities. There is no compulsion about signing the cards, but the national directors trust to the patriotism of the men of Canada to fill out the necessary information. The cards signed this morning will be distributed to the sources of men.

Q. O. R. CAMPAIGN NOW UNDER WAY

Toronto Will Be Introduced to New Recruiting Methods Today.

MENINGITIS VICTIM

Pte. R. R. Reany Dies From Disease at Toronto Base Hospital.

Today the Q.O.R. commence their active campaign for men for the 285th Q.O.R. Depot Battalion, "Give Us His Name," is to be the slogan of the new unit's recruiting work. The officers point out that it will be a "dignified

campaign," and that they are avoiding anything that would be apt to create a feeling of antagonism to the regiment. The men who have a legitimate reason are not to be urged. The Q.O.R. state they will work on the presumption that each person knows some one who they think should go. Recruiting sergeants on the streets will only be used to a limited extent. Mention was made of Pte. R. R. Reany of Port Elgin died yesterday of spinal meningitis at the Toronto Base Hospital, East Gerrard street. His father was at his bedside when he passed away. Pte. Reany was admitted to the hospital on Oct. 27 from the Army Service Corps, Exhibition Camp. He was 21 years of age. In the continuation of the court-martial trial yesterday of Sgt-Major F. H. Elliott, on the charge of using the services of members of the C.E.F. for the purpose of erecting a private garage, it was admitted by the sergeant-major that he had deserted from the U. S. Army while stationed at Fort Slocum, had divorced his wife by proxy in New York City, and had married a Toronto woman without telling her that he had been married and had two children. He has purchased a motor car since enlisting in Toronto, bought, he stated, with money his wife had when they were married. Lt.-Col. J. Cooper-Mason, D.S.O., brigadier in charge of the troops taking part in the women's tribute night ceremony this evening, in honor of their march to the hall via College and Yonge streets, headed by the bands of the Q.O.R. and 109th Regiment. Queen's Own Parade. The Q.O.R. Regiment paraded 595 strong at the armories last night. The new 285th Q.O.R. active regiment has received a complete allotment of Ross rifles and bayonets. Next week's parade will be the last of the fall season. Lt.-Col. S. W. Band was in command last night. Capt. Alan Turnbull, son of James Turnbull, 45 Chestnut Park road, former general manager of the Bank of Hamilton, has been awarded the military cross for conspicuous gallantry on the firing line when he was seriously wounded. He is now in an overseas hospital and making favorable progress. Of 23 volunteers for enlistment examined yesterday only eight were found suitable for active military service. The new 285th Q.O.R. active service battalion secured two of the accepted recruits, the artillery two and the A.M.C. Veterinary Corps, 208th Battalion and C.M.R. one each. Qualify as Sergeants. The following N.C.O.'s of the 198th Battalion were announced to have qualified as sergeants: H. Cooke, L. S. Watkins, R. S. Wilkinson, H. S. Barlow, W. J. Worthington, T. C. Young, J. T. Pepper, J.
