FACTURER OF

of French Perfumes, Soap

AND LAVENDER WATER.

He has begun the business of wholesale
perfumer, in connection with his other

business.

The Hair Oils, Soaps, Pomades, Hair Dyes, Perfumes, etc., which he
sells are very low in price, as well as of first quality. This business
intends to pay especial attention to, and faithfully promises to send
the very best and purest articles that can be either made or imported
and at as low prices as any article can be reasonably sold at.

R. S. invites large buyers to note his prices (which are furnished on
application), assuring all who may favor him with orders, that they will
find his goods not to be excelled, if equalled, at 25 per cent. higher
prices.

A large quantity of the finest French Pomades, Hair Oils and Hair
Perfumes on hand at all times, very low in price.

ROBERT STARK'S
ALMANAC FOR 1863

AND RECEIPT BOOK.

GENTLE READER :

Nothing can ever become great or important to the community that is carried on under a veil of mystery. I am rather of the Grecians' mind, who once a year wrote in the temple of Æsculapius all the cures they had performed, and by what means they had effected them.

The above is the reason why the medicines manufactured by ROBERT STARK, have become so much more used, and looked upon as greater cure-performing remedies than any others. He has shown forth to the world what his medicines can do, not by his own assertions merely, but by the testimony of so many thousands of his fellow countrymen and others over the whole English-speaking part of the globe. - Conjectural judgment has been done away with, and systematic knowledge has taken its place, and with it has come greater confidence in the legitimate use of the forest, garden and field remedies with which nature has so wonderfully and bountifully supplied us.

Why is it that you are so very often deceived in the medicines which you buy? it is this :

Patent Medicines have been heretofore, almost without exception, put up by ignorant persons who do not understand the first principles of the use of medicines, their combination or preparation; and, therefore, how can they be expected to give satisfaction and bring forth the results which they are expected to do?

Robert Stark.

Chemist, Druggist and Pharmaciaen, etc., Glasgow University, Scotland.

DR. NELIGAN'S ENGLISH WORM CANDY

Is improved by the addition of a new and valuable worm-destroying
plant of late discovery.

The directions, both for grown persons and children, are upon each box.

Read the following certificates from farmers, doctors, lawyers, merchants and all classes of men, who say that there was never any like it as a *worm destroyer*.

CERTIFICATES.

We have not to go *a thousand miles* for certificates, but they come from gentlemen who live among and with us, and are well known.

GUELPH, February 18, 1862.

It gives me much pleasure to certify that I have used Neligan's Worm Candy, prepared by R. Stark, Druggist and Chemist, Woodstock, in my family with uniform success. I have also taken occasion to recommend it to other parents for their children, and have not known a single case where the Candy failed to effect a cure, or left any injurious effects upon the children taking it.

WM. S. BALL,
Minister of Knox's Church, Guelph.

PRINCETON, July 8, 1860.

R. STARK, Esq., Woodstock :

Sir—I cheerfully recommend "Neligan's English Worm Candy" to the public. I have used it extensively in my practice, and have found it efficacious in almost every case. It possesses none of the nauseating qualities of "orthodox" drugs, so repugnant to children, but is pleasant to the taste, and will, no doubt, eventually supersede any other Worm medicine now in use.

DANIEL CLARK, M. D.

Mr. R. STARK, Woodstock :

Sir—I have used your Worm Candy in my practice, and have found it an effectual and pleasant remedy. It is more readily taken than any other Worm Candy; I feel no hesitation in recommending it to the public.

Yours, etc.

J. W. SANDERSON M. D., M. R. C. S.,

ENGLAND.

R. STARK'S MAGICAL PAIN KING.

R. STARK, Esq., Chemist : WHITBY, March 11th, 1861.
Sir—Your Magical Pain King is indeed magic; it is sure and safe,
and a medicine that can be trusted in.
Yours, etc., JOSEPH K. DICKSON, Farmer.

Without doubt the greatest cure in the world for Rheumatism,
Sore Throat, Pleurisy, Pain of all kinds, Cramps, Bowel Complaints,
Colds, Neuralgia, Cholera, Toothache, Burns, Frost Bites, Bruises,
Strains, and Chilblains. Prepared by R. STARK, from Glasgow Uni-
versity, Scotland. Price 25 cents per bottle, or five bottles for \$1.00.

WHY is a kiss like some sermons? Because there are two heads
and an application.

QUERY.—What is the best line to lead a man with? Crino-line.

WORM CANDY.

A man who passed 613 Worms by Neligan's English Worm Candy.

Yonge Street, TORONTO, September 5, 1862.

Mr. ROBERT STARK :

Dear Sir—I would not have sent you this certificate but for the very wonderful effects produced in my case by your Neligan's English Worm Candy. I had the best medical advice, but day by day I grew more and more emaciated ; none could tell me what was the matter with me; at last the idea struck me that it was worms, and I bought from Mr. Becket's a dollar's worth of your Neligan's Worm Candy, and to my astonishment, after taking three boxes, Six Hundred and Thirteen Worms were driven out of my body. Directly my appetite began to return, and I grew fat and felt like a new man. All my friends are surprised that I am alive, and not in my grave now as many expected.

I am gratefully yours,

PETER M. SHARP.

NAPANEE, November 19, 1860

ROBERT STARK, Esq., Woodstock :

Dear Sir—The box of Worm Candy you gave me when I was in your store last week, had a wonderful effect in eradicating worms from a child less than four years old; and what was most remarkable, the child did not detect the taste of medicine in the candies, but would have eaten all that was in the box at once, if it had been permitted.

Yours, Respectfully,

JAMES BLAKELY.

CROSSHILL, December 22, 1860.

Mr. STARK :

Sir—I cheerfully recommend, to all who require to use any Worm Medicine, Neligan's English Worm Candy, as being the best I ever used. I have a child of five or six years old, which has been unwell ever since six months old, and I have tried all Worm Teas and Vermifuges of which I ever heard, and never received any benefit whatever, at the same time convinced that the child had worms; at last I tried a box of Neligan's English Worm Candy, which really effected a miracle, passing more than a hundred worms by using less than half a box, and am very happy to say that the child is healthier than she ever was before. Also four of my other children, all of which were older than this one, except one, took each one of the cakes, on all of which it had a very good effect.

WILLIAM COURTS.

NELIGAN'S ENGLISH WORM CANDY.

A short time ago I sent a doctor (an English medical man, and a M. R. C. S. E.) a dozen boxes of Neligan's English Worm Candy. He used them and sent a certificate (which I published before) with this remark: "I like your Medicine because it is so very easily given, and I have never known it to fail; that is to say, I have in two cases found that it did not bring away worms, but in these cases I am sure there were no worms present, as I tried other worm medicines afterwards, without effect."

Sold by Druggists everywhere. None genuine without R. Stark's signature. Price 25 cents per box, 5 boxes for \$1.

THE best and most conclusive reason for an effect that we ever remember to have heard, was given by a Dutchman, in reply to a friend, who remarked: "Why, Hans, you have the most feminine cast of countenance I have ever seen." "Oh, yaw," was the reply, "I know the reason for dat—my mother was a woman."

NORTH NORWICH, 1st Con., Lot 22, Jan. 25, 1861.

Mr. ROBERT STARK, Chemist, etc.:

Dear Sir—I gave, according to the directions, your Neligan's English Worm Candy to a child of mine about 15 months old, and he passed about 150 worms, from $\frac{1}{2}$ in. to 3 inches in length; and I feel happy in giving you this testimony to what I truly believe is the best Worm Medicine ever made, namely: Neligan's English Worm Candy.

THOMAS MORSON.

WOODSTOCK, December 3, 1859.

Mr. R. STARK, Chemist, Woodstock:

Dear Sir—I got four boxes of Neligan's English Worm Candy from you after the first that I had, and the little girl that had the first took another box. She passed over 70 large worms, from 6 to 10 inches long. The next, aged 4 years, passed 22 after the first dose; the next, a little boy, passed 26 after the first dose, and all passed very large quantities after the first doses. I took some myself and passed 11 large worms. I am sure that my youngest little girl would not have lived if she had not taken your Worm Candy; she was quite in a fever all the time before she took the candies.

Yours, etc.

ROBERT BAIRD.

LONDON, C. W., January 12, 1860.

ROBERT STARK, Esq., Chemist, Woodstock, C. W.:

Dear Sir—My boy, aged 12 years, being very unwell, I was induced to try your Neligan's English Worm Candy; after administering one box I was astonished at the incredible number of large worms passed. I can with confidence recommend it as an invaluable worm medicine, and far before any other now in use, as I have tried them all.

Respectfully Yours,

JOHN LILLEY, 5th Ward.

TO DYE BLUE.—A splendid blue may be produced in an hour by the following process:—For each pound of wool or cloth take two and a half ounces of alum and one ounce and a half of cream of tartar. Boil these together in a brass or copper kettle for about an hour; now take sufficient warm water to cover the cloth or wool, and color it to the shade you wish with the liquid blue; put the whole into the copper pot and boil it a short time, taking care to keep it stirred; remove the cloth and rinse it in clear cold water, and hang it up to dry.

R. STARK'S MAGICAL PAIN KING.

Mr ROBERT STARK : DUMFRIES, February 12, 1861.
 Sir—You are welcome to use my name in testimony to your Magical Pain King, as I can with the greatest truth say that its powers, as a general remedy, are almost beyond belief.
 Yours Truly, JOHN HOPE BERMINGHAM.

AN ingenious gentleman, who had the marvelous gift of shaping a great many things out of orange peel, was displaying his abilities at a dinner party before Theodore Hook and Mr. Thomas Hill; succeeding in counterfeiting a pig to the admiration of the company, Mr. Hill tried the same feat, and after destroying and strewing the table with the peels of a dozen oranges, gave it up, with the exclamation: "Hang the pig, I can't make him." "Nay, Hill," exclaimed Hook, glancing at the mess on the table, "you have done well; instead of one pig, you have made a litter!"

ROBERT STARK'S MAGICAL PAIN KING.

The best remedy known for relieving pain, both inside and outside, by purifying the blood, and thus going to the root of disease.

See the certificates below. Full directions are around each bottle. It cures all cases of the following:

RHEUMATISM.—By its free use internally and externally.

WOODSTOCK, December 18, 1862.

Mr. STARK :

Dear Sir—I am sure that your Magical Pain King is a wonderfully powerful medicine. For six weeks I was in bed with Rheumatism and Neuralgia, and tried Radway's Relief, Pain Killer, Watson's Neuralgia King, and had the doctor for over a week, but my cure I owe to your Pain King entirely. It gave me relief at once, and took away all pain and swelling. As far as I have found, it far surpasses all other remedies of the kind.

Yours, Respectfully,

JOHN DICKSON, Painter.

WOODSTOCK, November 2, 1861.

ROBERT STARK :

Dear Sir—My wife has been troubled with Rheumatism very badly for years. I got a bottle of your Magical Pain King some two years ago, and she has never been troubled since. I think it the best thing for Rheumatism made.

SAM REED,

Witness, THOS. GRAY.

Wheat Buyer for Oxford Mills.

SORE THROAT.—A gargle of Pain King never fails to cure this.

WOODSTOCK, Oxford Co., June 17, 1862.

Mr. STARK :

I can bear testimony to your Pain King being a perfect cure for sore throat.

JOHN MILEMAN.

PLEURISY.—SYMPTOMS.—Rigors followed by fever, acute pain in the side called a stitch, pain in breathing and coughing, lying on the affected side, harsh cough, hot and dry skin, etc.

TREATMENT.—Rest; dose of Bartee's Pills; mustard blister over the side, and doses of Pain King. See directions on bottle.

NELIGAN'S ENGLISH WORM CANDY.

R. STARK, Esq., Chemist:

WOODSTOCK, September 16, 1859.

Sir—In reply to your inquiry, I may say that I have used in my family Neligan's English Worm Candy, and with most satisfactory results. I can confidently recommend it to the public.

ALEX. McCLENEGHAN, Editor Woodstock Times.

Sold by Druggists everywhere. None genuine without R. Stark's signature. Price 25 cents per box, 5 boxes for \$1.

"WHY do you wink at me, Sir?" said a beautiful young lady, angrily, to a stranger at a party, an evening or two since. "I beg your pardon," replied the wit, "I winked as men do when looking at the sun—your splendor dazzling my eyes."

It is less pain to learn in youth than to be ignorant in age.

MAGICAL PAIN KING.

CROUP.—SYMPTOMS—First Stage. Slight fever and thirst, cough, hoarseness, drowsiness, suffusion at the eyes, running at the nose. Second Stage. Sensation of suffocation, dry brassy cough, hurried breathing, crowing noise when breathing. Third Stage. Cold sweats, eyes dull and sunken, etc.

TREATMENT.—See directions around Pain King bottles.

ROBERT STARK:

UXBRIDGE, July 3, 1862.

That Croup can be cured by your Pain King, used as by the directions round the bottle, I can safely say, as I have tried it successfully in twelve cases.

I am, Sir, Yours, Respectfully,

JANE W. MIDDLENESS, Nurse.

ASTHMA, or DIFFICULT BREATHING.—Use Pain King and Bartee's Pills, and it will greatly relieve if not cure.

SOUTH NORWICH, August 17, 1862.

Mr. STARK. Woodstock:

I have experienced great and lasting relief from the use of your Magical Pain King in Asthma; it is in constant use with me, and is found to be superior to other remedies.

Respectfully Yours,

JONAS WHETENHALL, Brick Maker.

TIC DOLOREUX, NEURALGIA, NERVE PAIN.—

Every body knows the symptoms.

TREATMENT.—Purify the blood well by Bartee's Pills, and Pain King applied both outwardly and inwardly. They often make the most wonderful cures.

R. STARK, Chemist:

Some of my friends permitted me to try your Magical Pain King for Neuralgia; I did so, and although I had been a sufferer with it for four years, and feel a slight twinge now and again, still, yet I may say, I am an entire stranger to pain since I began the use of the medicine.

Yours, etc.

A. M. McLEAN.

SPRAINS AND STIFF JOINTS can be cured in ten minutes in simple cases, by the application of Pain King.

James Street, HAMILTON, October 23, 1860.

R. STARK, Esq.:

Dear Sir—We find your Pain King a most useful medicine for sprains, burns, corns, indigestion, in which we have tried it; in fact, we would not be without it.

Yours,

JOHN B. SMITH.

R. STARK'S MAGICAL PAIN KING.

R. STARK, Esq., Chemist :

EAST OXFORD, March 5, 1861.

Dear Sir—I have used several bottles of your Pain King, and in answer to your inquiries about it, I must say, that I find it to be the most powerful remedy that I have ever used, giving instantaneous relief and eventually curing. I have used it for various things, and in every case have found it to be a most splendid remedy.

Respectfully Yours,

THOMAS GIBSON.

POVERTY is often despair. A poor fellow went to hang himself. but finding a pot of gold, went merrily home. But he, who had hidden the pot, went and hung himself.

THE blacks of Hayti have a singularly delicate sense of smell. They detect by smell the presence of alloy in gold, and judge of the value of whatever they purchase by the same sense.

BURNS AND SCALDS.—No medicine yet known relieves the pain and heals the place so quickly as the Pain King.

LONDON, September 3, 1869.

Mr. STARK, Chemist, Woodstock :

Dear Sir—Last week my little girl scalded her arm very badly by spilling some boiling water from the tea-pot upon it; having some of your Pain King in the house, I immediately put a piece of cloth wet with it upon the place, and in fifteen minutes the pain was quite gone; on taking the cloth off the next morning, I found that the skin had never broken or blistered. It is the best thing for scalds or burns I have ever seen, and I would advise every one to keep it in the house.

JANE LIDDEN.

HEARTBURN AND STOMACH ACHE.—For these the Pain King is a never-failing cure. See directions.

ERAMOSA, November 25, 1869.

R. STARK, Esq :

Dear Sir—I have tried your Magical Pain King for numberless little hurts, pains in the stomach, etc., and it, without doubt, far surpasses all other remedies of those kinds known as "Ready Reliefs," "Pain Killers," etc., so much in use.

Ever Yours,

PETER JAMES KENNEDY.

CUTS AND BRUISES.—For these there is nothing so good as pure Pain King; it stops pain in a few minutes, and heals in a wonderfully short time. See directions.

WOODSTOCK, February 9, 1860.

Mr. R. STARK :

Dear Sir—I have used your Pain King for pain in the stomach, cuts and bruises, and also for a severe horse bite and kick; and in all of the above the effect was perfectly wonderful. In ten minutes the pain was gone. I have also used your Neligan's English Worm Candy, and find it a splendid remedy. In both of the above I have the greatest confidence.

CHARLES POPE.

FROST BITES.—Rub well with snow, then apply freely the Pain King, and the parts will be as well as ever in a very short time.

WELLINGHAM, March 1, 1862.

R. STARK :

Sir—I can testify to the good effects of your Pain King, as a remedy (after the use of snow or cold water) for frost bites and frozen limbs, as the lumbermen use it continually here.

Ever Yours,

ANDREW SCOTT.

NELIGAN'S ENGLISH WORM CANDY.

To Mr. STARK, Woodstock:

EAST OXFORD, 1860.

I gave Neligan's English Worm Candy to a little girl of mine who was very delicate; she passed a great number of small worms, and now appears to be quite strong and well.

Mrs. JOHN MCGEE.

TO DYE BROWN.—For each pound of wool take a quarter pound of alum and two ounces of cream of tartar, and boil for half an hour. Take half a pound of red powder, quarter pound of fustic, and two ounces of logwood, soak these at night in sufficient warm water to cover the wool; take the wool out of the alum water and boil with the woods for about half an hour. If a dark brown is wanted add about a tablespoonful of copperas.

How should love come to the door? Certainly with a ring, but not with a rap.

Mr. ROBERT STARK :

ANCASTER, January 12, 1861.

Sir—This winter your Magical Pain King has been of much use to me, as my ears were badly frost-bitten, and I have suffered much from sprains and bruises. It is a perfect cure.

GEORGE BROWN.

CHILBLAINS.—A never-failing cure. Use as by the directions.

HEADACHE.—For both simple and nervous headache there is no better medicine than this, used together with Bartee's Pills to cool the blood.

ROBERT STARK, Esq. :

BLENHEIM, September 21, 1860.

Dear Sir—We find your Magical Pain King a most useful remedy to have in the house. We use it for a great many things, such as headaches, rheumatism, sprains, cuts, etc. I often take a teaspoonful at night before going to bed, as it makes me sleep well and feel refreshed in the morning. The quickness with which it takes away pain is wonderful. We have used two boxes of Bartee's Pills, and found them the best pill we have ever used as a family medicine. I cannot say anything about their effect in curing diseases, as we have only used them as a purgative.

Yours, Truly,

P. D. ROSS.

FEVER AND AGUE—Go according to the directions, and you need never again be troubled with ague.

DYSENTERY AND DIARRHOEA.—Pain King has saved many lives this last summer of those attacked by bowel complaints. Take inwardly, and rub on the stomach.

Mr. STARK, Woodstock :

WOODSTOCK, September 24, 1861.

In the case of my infant child, the severe attack of bowel complaint with which he was troubled, and which seemed to defy any agent employed for its removal, your Pain King was highly successful. I may simply remark that nothing could by any possibility succeed, either to your expectations or my own desire, more completely than did the Pain King.

I have little faith in Patent Medicines generally, but cannot refuse to bear testimony to results such as above described, when coming under my own observation.

I am, etc.,

ALEX. McCLENEGHAN, Editor "Times."

THE TEETH.—A few drops in water, used every morning, preserves the teeth sound and white to the oldest age

R. STARK'S MAGICAL PAIN KING.

R. STARK, Esq., Chemist :

Dear Sir—We have used your Pain King in our family with much success. I can, with confidence, recommend it to the public.

JOHN QUARRY, late Mayor of Dundas.

BRANTFORD, February 15, 1861.

Dr. STARK :

Dear Sir—Your Neligan's Worm Candy and Magical Pain King are two splendid remedies, and you do not over-rate their curative properties; they act like a charm.

Yours, Truly, DAVID JAMES BARKER.

A SCOTTISH advocate who in his broad Scotch pronounced the word water, *watter*, being asked in Court by the Chancellor if he spelled water with two t's, replied, "No, my lord, but I spell mauners with two n's."

TOOTHACHE.—If curable, except by extraction, one application will effect a cure.

TORRA, August 5, 1862.

In toothache your Pain King is an excellent remedy, and seldom fails.

ANDREW D. MCGEE.

PILES.—Any case of Piles can be cured by the use of the Pain King, as by the direction round the bottles.

VESPRA, May 13, 1862.

I hereby certify that I have been troubled with piles in a most severe form, and until I tried Robert Stark's Magical Pain King could never get relief. I recommend it as a sure and certain cure for the above.

JOHN JACKSON.

INDIGESTION or DYSPEPSIA; WEAK STOMACH.

This medicine, with Bartee's Pills, seems especially adapted, above all others, for the cure of the above disease, as it gives tone to the weakest stomach, and strengthens the poorest appetite. See directions.

Mr. ROBERT STARK:

RANT, St. George County, June 1, 1861.

During the spring of 1861 I was suffering very much from indigestion, and applied to Mr. J. N. Keefer, your agent in St. George, and purchased one box of Bartee's Pills. After trial of them, as per directions, I was restored to complete health. I consider these pills as the best I ever used for the above complaint.

Yours, Truly,

JOHN W. CLINTON, Teacher.

TO DYE SCARLET.—(Very superior.)—Three ounces of cochineal, three ounces of cream of tartar, and four ounces of solution of tin; powder the cochineal and rub through a bag into blood warm water sufficient to cover the yarn; when it is a little warm put in the cream of tartar and simmer, then add the solution of tin; your yarn must be wet with clean water; steep it in the dye till the yarn is properly dyed. Dry your yarn before you wash it. This will color three pounds.

TO DYE CRIMSON.—Use one pound of lac dye together with two ounces of compound, to every two pounds of cloth yarn. Soak the lac dye over night in a brass or copper kettle; then add the compound and stir; then the cloth, and bring your dye slowly to a scalding heat; then vary the time as you wish the color; if dark, let it remain some hours, if not, one hour; then rinse it in soft spring water, without soap.

NELIGAN'S ENGLISH WORM CANDY.

Mr. ROBERT STARK, Chemist: WEST ZORRA, 7th Con., Lot 2, January 11, 1861.

Sir—I gave one box of your Neligan's English Worm Candy to a boy of mine aged 14 years, who had been complaining for some time, and I also gave my wife a box. The boy passed a very large quantity of worms, more than we could number, and my wife discharged two. I have the greatest confidence in your Candy, and believe it to be as good as any one can wish for, both from my own experience and from what my friends have told me of it. It is very pleasant to take.

Yours, etc.,

ANGUS McQUEEN.

Sold by Druggists everywhere. None genuine without R. Stark's signature. Price 25 cents per box, 5 boxes for \$1.

FOR sea sickness—stay at home. For drunkenness—drink cold water.
 For accidents—keep out of danger.

R. STARK'S MAGICAL PAIN KING.

MADE FROM ROOTS, GUMS, HERBS, BARKS, PLANTS, Etc.

This medicine is far more powerful than any of the Ready Reliefs, Pain Killers, Pain Destroyers made, and in ninety-nine cases out of a hundred a sure cure for Rheumatism, Sore Throat, Pleurisy, Pain of all kinds, Croup, Toothache, Tic, Neuralgia, Sprains, Burns and Scalds, Cuts, Heartburn, Chilblains, Headache, Chills and Fever, Ague, Bruises, Cramps, Stomachache, Dysentery, Colic, Pain in the Side and Breast, Frost Bites, Insect Bites and Lumbago. For inside pains take half or a teaspoonful in water. For outside, rub well on the painful part.

Wherever pain exists, inside or outside of the body, use Pain King, and keep it ever beside you, and it will prove your best friend in time of need.

Price, 25 and 50 cents per bottle, or five bottles will be sold for the price of four, if bought at one time.

The 50 cent bottles contain over three times as much as the 25 cent bottles do.

**Every bottle must have the signature of Robert Stark (Chemist, Druggist, and Pharmacien, of Glasgow University), thus:

Robert Stark.

Sold by all Druggists and Country Storekeepers everywhere

Wonderful Cure of Liver Complaint.

SPRINGFORD, C. W., September 25, 1862.

Mr. STARK:

My wife has been suffering from liver complaint for the last eight years; it was said to be of the worst kind, by Dr. Joy, of Tilsenburgh. Since we began using Robert Stark's Pain King, which was about a year ago, she has been gradually recovering, and for the last six months has been entirely free from the above disease. She was so far gone that we had despaired of her recovery, until we accidentally discovered the value of the Pain King, which through perseverance has, as I before said, so far, proved a complete cure.

Yours,

A. J. MUDGE.

NELIGAN'S ENGLISH WORM CANDY.

To Mr. STARK, Woodstock :

EMBRO, September 19, 1859.

I am perfectly satisfied that your Worm Candy is as good as any worm medicine can be. I have used it in my family, and can recommend it to any person requiring worm medicine.

D. R. McPHERSON.

WORM SYMPTOMS.—Variable appetite, grinding of the teeth during sleep, picking of the nose, paleness of the countenance, short dry cough, extreme thinness, slow fever, and sometimes convulsive fits.

THE criterion of true beauty is that it increases on examination; that of false, that it lessens. There is something, therefore, in true beauty that corresponds with right reason, and is not merely the creature of fancy.

THE world makes us talkers, but solitude makes us thinkers.

BARTEE'S EAST INDIAN PILLS.

PURELY VEGETABLE.

Bartee's Pills are made after a receipt of a celebrated native East Indian Doctor. They are composed of vegetable remedies most powerful to drive disease out of the human body. The mode of their discovery was as follows:—A British Officer, Sir James Willis, during one of the Indian wars, was suddenly taken ill, while in command of his troops, and unable to proceed; the surgeon who remained with him pronounced it to be a very dangerous fever, brought on by long marches, exposure and dyspepsia, and immediately gave the usual remedies, but all in vain; death seemed very near; remedy after remedy was tried, but he grew worse and worse, and his physician gave up his case as hopeless. A Hindoo, observing his state, asked leave to bring a doctor of his own country to see him; it was granted; the native doctor came in, and after a few minutes went away, but soon returned, and brought back a few pills put up in a palm leaf, which he directed should be given now and then, so as just to keep his bowels well open; in an hour or so the officer began to show signs of renewed strength, and the fever seemed to have abated; in a day or two he was as well as ever, and able to resume his situation at the head of his troops. But before leaving this great Indian Doctor he procured the receipt for the pills, and has used them ever since in his family. When he came to England, the proprietors seeing the wonderful effect of this medicine in curing disease, asked permission of Sir James Willis to use his receipt, and finding the sale in England so great, they have introduced them into this country (Canada), feeling sure that the Canadian people will, when once they find out the great and valuable qualities of the pills, use them as their family medicine.

A milder and better pill was never made; it penetrates, searches and cleanses out every part of the human body, banishing heaviness and aching of the forehead, suffused eyes, fevered and dry tongue, thirst, stoppage of the bile, constipation of the bowels, scantiness of the secretion from the kidneys, etc., causing a free flow of bile and mucous from the digestive canal and liver, which is the kind of crisis NATURE chooses in order to relieve the organs of digestion and purify the blood.

HEADACHE—Is permanently removed by a good dose of Bartee's Pills at night, and Pain King in small doses during the day.

NELIGAN'S ENGLISH WORM CANDY.

Neligan's English Worm Candy is beneficial at all times, whether worms exist or not. If you see your child suffering under even the slightest symptom, give the Worm Candy; if worms exist, it will kill them; if not, it will only act as a gentle purgative, moving the bowels gently, and benefitting the child in either case.

BAD COMPANY.—Bad company is like a nail driven into a post, which, after the first or second blow may be drawn out with little difficulty; but, being once driven up to the head, the pincers cannot take hold to draw it out—it can only be done by the destruction of the wood.

THE smallest watch in the London Exhibition is a minute affair, smaller than a pea, set in a ring for a lady's finger; it goes for six hours, and may be purchased for the pretty little sum of £250.

Mr. STARK :

OSPRAY, July 17, 1862.

My Dear Sir—As a remedy for headache, your Bartee's Pills are what they claim to be, as no person could have been more afflicted than myself with that more than disagreeable affliction. Your pills removed all headache in a most remarkable short time, and I have since been as well as man could be.

Yours, etc.,

THOMAS MATHEW.

COSTIVENESS.—The loftiest aims the most active mind leads to are often marred by torpid bowels.

Mr. ROBERT STARK :

OXFORD, Woodstock Co., August 28, 1862.

Dear Sir—I have used Bartee's East Indian Vegetable Pills, and can testify that they are a most excellent medicine.

H. B. BEARD, Deputy Judge, County of Oxford.

PILES OR HEMORRHOIDS.—

Mr. R. STARK, Chemist, Woodstock :

FLAMBOROUGH, C. W., May 18, 1862.

I am now a very old man, upwards of eighty, and have for ten years been badly troubled with piles. I have tried many things, but generally without any good effect. One of my neighbors advised me to try Bartee's Pills and Pain King; I did so, and now I am as well as ever I was, and feel glad to be able to recommend them to my friends as the best medicine for one of the worst diseases.

Respectfully and gratefully yours,

JOHN LISTON.

BILIOUSNESS, LIVER COMPLAINT, JAUNDICE,

Etc.—**SYMPTOMS.**—Yellowness of the whites of the eyes and of the skin generally, yellow bitter tongue, thick saliva, acid breath, sour risings, dry, obstinate itchy skin, dull headache, somnolence, slow laboring pulse, flushing of the face, want of appetite, restlessness. Bartee's Pills banish the above as if by magic, and cause sweet, calm sleep, and a delightfully pleasant, light, happy feeling.

ROBERT STARK, Esq., Chemist, Woodstock, C. W. :

STRATHROY, August 9th, 1862.

Sir—I am, or rather was, one of the most unhappy of men, being a victim of the most severe biliousness, which kept me for days together to the house. My head ached like to split, and I felt sick at the stomach, and unfit for eating. I read of your pills in the newspaper, and got a dollar's worth from Mr. Drake, Strathroy; I used only four doses, and am now perfectly restored to my good health. I will let you know more if you wish, in which case write to

JOHN ROSS, Jr., Strathroy P. O.

NELIGAN'S ENGLISH WORM CANDY.

Neligan's English Worm Candy is prepared from ingredients in a very concentrated form, and combined with sugar into candy so pleasant and palatable that children will cry for it. It has never been known to fail. The doctors use it.

A LITTLE boy had a colt and a dog, and his generosity was often tried by visitors asking him—"jest to see what he would say"—to give them one or both of his pets. One day he told a gentleman present he might have his colt—reserving the dog, much to the surprise of his mother, who asked:

"Why, Jacky, why didn't you give him the dog?" "Say nothin', say nothin', mother, when he goes to get the colt, I'll set the dog on him."

VALUE the friendship of him who stands by you in the storm; swarms of insects will surround you in sunshine.

R. STARK, Esq :

AYLMER, Jan. 16, 1862.

I hereby certify that I firmly believe that I would not now be alive to tell my story, but for the use of Bartee's Pills. I caught cold, and it seemed to settle upon my stomach, which was continually out of order, and at last got so bad and painful that I almost cried out when I moved. I tried plasters and blisters, as well as medicines of one kind or another, but with only slight benefit, and got so weak I could not leave my bed, but got a box of Bartee's Pills, which I took every other night for a week, and rubbed in Pain King to my stomach, and in ten days I was up, and in five more as well as ever I was in my life, thanks to the above pills.

I am, Yours, etc.,

JOHN BROWING.

Mr. R. STARK :

OXFORD, August 18, 1860.

Sir—As you wish to know what I think of your Bartee's Pills, I must say that I like them, as a common purgative, better than any other I have given, and they appear to clear the skin beautifully; their action is very easy and pleasant, without the griping of most pills. In biliousness and sick headache I have seen many wonderful cures performed by them; especially an aunt of mine, who was sick for years—your pills always relieved her at once; and with my gratitude,

I am Yours,

J. MOORE.

INDIGESTION, DYSPEPSIA.—The best cure for the above in the world are Bartee's Pills. See certificate below and directions round the box.

Mr. STARK, Chemist, Woodstock :

OSPRAY, January 27, 1862.

Dear Sir—With the utmost gratitude it is that I inform you that Bartee's Pills have cured me of a bad case of indigestion, or dyspepsia; so bad was my disease that it rendered my life a burden to me, and so many things had I tried that I thought nothing would do me good; but my friend Mr. Parker, who had used these Pills, told me of them, and great was my delight to find that three boxes restored my health completely.

With respect, I am ever yours, MATTHEW MANNING.

SCROFULA, PIMPLES.—SYMPTOMS.—Swelling of the neck, pimples, sores, blotches, etc.

The earlier you use Bartee's Pills the faster will be the cure. See directions round each box of Pills.

ROBERT STARK, Esq., Woodstock :

PEEL, August 29, 1860.

Dear Sir—I deem it but just to let you know what truly wonderful effects we have found from the use of your English Bartee's Pills, in

NELIGAN'S ENGLISH WORM CANDY.

Why do you not have Neligan's English Worm Candy always in the house? A little delay when a child is taken ill may often be the cause of its death, while acting without delay, and (if it has any of the following symptoms: picking of the nose, paleness, grinding teeth, thinness, slow fever, etc.), by giving Neligan's Worm Candy immediately, you will have the pleasure of seeing your child restored to perfect health.

Sold by Druggists everywhere. None genuine without R. Stark's signature. Price 25 cents per box, 5 boxes for \$1.

SIDNEY SMITH says, marriage resembles a pair of shears, so joined together that they cannot be separated. They often move in opposite directions, yet always punish any one who comes between them.

FLATTERY, like champagne, soon gets into the head.

conjunction with the Ointment which you recommend. A little girl who lives with us, a daughter of my oldest son, has been for three years dreadfully troubled with scrofula, which broke out in large sores upon her legs and spots over her face; we tried many things, but only with slight success; we got some boxes of your pills, which we have been giving her, for some time, and the sores have been dressed with the ointment. The spots on her face have been gone for over a month, and she has a bright, clear skin, as pure looking as you would wish to see. The sores on her legs are quite dried up, and nothing left but a little scab; but we still keep on with small doses of the pills, so as to purify her blood as much as possible. In conclusion, I would say that if Bartee's Pills do not make a perfect cure in the end (which I think they will), they have a much more powerful effect than any medicine we have used before, as so far they have performed wonders.

I am gratefully yours,

PETER CONNOLLY.

FOR FEMALES these Pills are particularly suited, as they gently bring away all bad humor, cool the blood and renovate the strength.

DOSE.—Two to four.

**No Mercury contained in these Pills; they are all vegetable.

Bartee's Pills are prepared by J. Bartee, 275 New Bond Street, London, England, and are sold at 25 cents a box.

Every box must be signed by the Canadian agent, thus:

Robert Stark.

TO DYE BLACK.—On Wool, Silk or Cotton. For every pound of cloth it will require one ounce of extract of logwood, and half an ounce of blue vitriol. Prepare an iron kettle with a sufficient quantity of water to admit the yarn or cloth to be worked in the dye without being crowded; bring the water to a scalding heat, then put in the yarn or cloth a few minutes. When it is thoroughly wet, take it out and drain it; in the next place add the blue vitriol, and when dissolved, and the water skimmed carefully, put in the material to be colored, and let it remain half an hour at a scalding heat, airing it occasionally; then take it out and rinse it in soft water. The vitriol water may now be emptied into a separate vessel, and the extract of logwood dissolved in a sufficient quantity of water, brought to a scalding heat and skimmed; put in the cloth, keeping the dye at the same temperature, and let it remain half an hour, airing it frequently; then take it out and drain it; add the vitriol water to the dye, and put it in again, and let it remain fifteen minutes, airing as before. Cleanse it well.

ROBERT STARK'S CHERRY BALM.

Is a sure and certain cure for almost every case of Consumption, Coughs, Colds, Croup, Asthma, Bronchitis, and all diseases of the Throat and Lungs. From Roots and Herbs.

CERTIFICATES.

Mr. STARK :

NEAR BROCKVILLE, July 20, 1862.

Dear Sir—I must acknowledge that your Cherry Balm is a medicine of the most wonderful power in building up diseased lungs, as I was afflicted with what the doctors told me was the worst form of consumption, for full two years. I tried your Cherry Balm, and found it to do me much good, and I kept on with it and soon found that I was getting better very fast, and am now, I am glad to say, as well and strong as I can wish. I used also Cod Liver Oil, which you recommended. The above are plain statements of facts.

Respectfully Yours,

JOHN GEORGE SCOMER.

R. STARK :

WOODSTOCK, August 10, 1862.

Sir—I know your Cherry Balm well and can speak of it most highly.

A. SMITHERST.

R. STARK, Chemist :

BELLEVILLE, July 28, 1860.

Dear Sir—I have been a miserable woman for over a year, until lately; I had a cough and profuse sweats for nine months, and a gnawing and sinking at the stomach, with pain in my side, back, and chest. I have taken drops and physic from druggists and doctors, but without the smallest amount of benefit, and I gradually grew worse; my skin was constantly wet, and my breathing was very bad. Seeing your advertisement of Cherry Balm in the paper, I thought, as almost a last resource, I would try it; not finding it here, I sent to you for it, as you may remember, and following the directions (both in regard to taking the medicine and food required, etc.), round the bottle, and I am now happy to say that every symptom of disease has quite gone. I am steadily gaining in flesh and have a good appetite. I believe your medicine to be the cause of my restoration to health, now almost perfect, and for it please accept my warmest thanks.

Ever Yours,

SARAH ANN JONES.

CHERRY BALM.

Mr. R. STARK, Woodstock :

EAST OXFORD, October 7th, 1860.

Sir—When I was in town a week or two ago, I bought a bottle of your Cherry Balm; you then asked me, if it did me any good to write you out a certificate, which I now send you, and I have the greatest pleasure in recommending it to any one who has a cough or cold, for it completely cured me, when I had tried a great many other remedies which did not do me the slightest good.

SAMUEL MACDONALD.

R. STARK, Esq., Woodstock :

BLANDFORD, October 18, 1860.

Having been very much troubled with a hacking cough and pain in my side and chest, and having tried many remedies, from none of which I received any permanent benefit, I noticed your advertisement of Cherry Balm, for coughs and colds, and thought I would try a bottle of it to see if I could get any relief, and I find, after the use of two bottles, that I am restored to perfect health.

W. SWENNY.

ROBERT STARK :

BRANT Co., September 18, 1860.

Dear Sir—That your Cherry Balm has been the cause of saving me from death I most certainly believe; it brought large pieces of matter away from my lungs, after other medicines had been used with little or no effect. Now I feel perfectly well, and without any sign of disease that I see. I consider your medicine as far beyond any other I ever tried, as light is different from darkness. For common colds and coughs others as well as myself have found nothing so good.

Yours, Respectfully,

JOHN BROWN.

Price 75 and 50 cents per bottle, or five bottles for \$3 and \$2.

TO DYE YELLOW.—One pound of wool or cloth, three-quarters of a pound of fustic, quarter pound of alum; put all into an earthen vessel and pour on sufficient hot water to cover the wool and keep it warm all night; give it half an hour's boil in a brass kettle, and then rinse in cold water. A much deeper and richer yellow may be made by using turmeric powder instead of fustic, and proceeding in the same manner.

R. STARK'S
MECCA HORSE CURE

FOR
HEAVES, DIARRHŒA, COUGHS, COLDS,
GLANDERS, INDIGESTION, Etc.

An extraordinary mixture; has been used very much by the most celebrated veterinary surgeons in the world. The receipt for preparing the Mecca Powders was brought from Arabia by a Turkish soldier, and it was purchased from him in 1856, by Mr. Rodden, one of the veterinary surgeons belonging to the Dragoon Guards, and it is now used in all the English Horse Regiments. In a week or so it produces the most wonderful results, inasmuch as it restores a horse, when ill, to perfect health. It cannot injure any animal; it gives a good appetite, a fine coat, and an active gait. Every horse should have three, four, or even more, each year. It cures Mange, Broken Wind, Bots, Cough, Worms, Founders, Inflammation, Loss of Appetite, Staggers, Heaves, etc. Dose.—One tablespoonful in wet oats or bran, twice every day.

Dr. Clark, the celebrated farrier, says:—I have used the Mecca Powders and find them a most wonderful mixture.

Dr. J. B. White also says:—The Mecca Horse Powders I have found to have a most wonderful effect upon the condition and unthrifty state of the coat of horses; they appear to be composed of warm and bitter tonics, added to ingredients which promote the action of the skin and kidneys. They increase the appetite to a wonderful extent, and promote nutrition, more particularly when the animal is changing its coat. They are a most satisfactory medicine, inasmuch as they act with much greater power, quickness and certainty than any of the drugs used by veterinary surgeons; and in conclusion I would say, let every horse-owner try them—they will be surprised and delighted with their effects.

These powders are highly alterative, as they are without any sensible operation, or with a laxative or diuretic operation so gradual as not to interfere with the usual work or diet; they produce a favorable change in the system, and in common language "purify the blood." Give these powders in skin diseases, swelled legs, grease, foul humors, etc. Dose.—One tablespoonful three times a day, in wet oats or bran.

BROKEN WIND OR HEAVES.—When a horse is troubled with the above dangerous disease it does not thrive, is lean, and has a dependent belly; when the horse is exercised it shows itself by the breathing being very labored, the eyes blood-shot—which last symptom is a sure sign of impure blood in the lungs; the chest, flank and ribs, are

observed to work out and in very actively, and with spasmodic jerks. A horse with the heaves has a bad cough, of the hollow kind. The causes of this disease are not very well known; some believe it to be a disease of the heart; but others, with much more truth it is thought, regard it as a disease of the lungs, or of the tubes that lead from the lungs. In this disease the function of digestion is always much impaired, and is much worse when the horse is fed upon bad, coarse, indigestible food.

TREATMENT.—This disease can, in a great many cases, be perfectly cured; and in the worst cases, much palliated by the use of the Mecca Horse Cure, given in tablespoonful doses three times a day, and the best oats in good quantity with a small allowance of hay, free from dust and dirt, and well saved.

DIARRHŒA.—These powders have a most excellent effect upon the bowels of horses, as they correct anything that is wrong and make all pure and clean.

COUGHS, COLDS, ETC.—These powders are the very best thing that can be given for coughs, colds, heaves, etc., as they make v onderful cures; they open the skin and drive all disease off by it and the blood. The bowels should be kept open by mashes, and an occasional laxative when given for the above diseases. One tablespoonful three times a day in wet oats or bran mash.

EXHAUSTION.—Exhaustion from over exertion and weak stomachs can be cured at once by this medicine, it always does good and is never hurtful. **DOSE.**—One tablespoonful in wet bran.

FARCY AND GLANDERS.—These powders have made many cures of the above diseases, after every thing else has failed. Give them regularly for a long time, and keep the horse on good food. **DOSE**—One tablespoonful three times a day.

INDIGESTION, and where the appetite has been impaired, is always cured in the most astonishing manner by these powders.

They are a medicine that should always be kept in the stable, as they refresh and invigorate the horse, and enable it to do twice the work that it would without the powders. They are far before anything ever invented.

For Cows, after calving, the Mecca Horse Cure should always be given. Give half a package in a mash. Pigs, Sheep, etc., will get fat much sooner if they be given a spoonful every day, or every other day in their food.  Be sure and try this great new medicine.

Prepared by **ROBERT STARK,** Chemist and Druggist, Woodstock, C. W. Price 25 cents per packet, or five packets for \$1.00.

MECCA HORSE CURE.

HEAVES! HEAVES! HEAVES!

WOODSTOCK, November 5, 1861.

I certify, hereby, that I have made use of Mr. R. Stark's "Mecca Horse Cure" in heaves, and have also had frequent opportunities of witnessing its good effects upon poor and unthrifty animals, and in many cases, even of rather long standing, the heaves were completely removed. In bad cases, as well as in cases where the horses did not thrive well and had rough coats, it always makes the horse fit for work, and keeps the disease under in a wonderful manner.

HARRY J. WALBRIDGE.

R. STARK, Esq.:

BRIGHTON, October 1 1861.

Dear Sir—I must say that your medicines gave me more satisfaction than any I ever used before, and more especially your Mecca Horse Cure. My horses have not, of late, thrived very well, and one was troubled with heaves; I used some packages of your Horse Cure, and all the oats that I could have stuffed into them for a month would not have had half the good effect that one powder to each did in about a week; the change was very remarkable immediately.

Yours, Respectfully,

ROBERT M. JONES.

WILL PIGS PAY FOR FEEDING?

The most extraordinary saving may be effected by using the above Powders. Pigs eat it greedily, grow much larger, fatten quicker, and are much firmer than by any other means. One tablespoonful three times a week in their food is sufficient for one pig.

PREPARED BY ROBERT STARK,

(Late Student of Materia Medica, Analytical and Pharmaceutical Chemistry, Pharmacy, Dietetics, etc., Glasgow University, Scotland.)

WOODSTOCK,

C. W.

Sold by all Druggists and Medicine Dealers.

BARTEE'S EAST INDIAN PILLS.

PURELY VEGETABLE.

In simple, occasional headache the treatment is quite plain. At night, upon going to bed, the patient must take a good dose of pills, say from three to five, according to age and strength. But in severe chronic and nervous or sick headache the cure is more difficult to be accomplished; the mucous and feverish symptoms have to be removed by a good dose of pills the first night, followed by smaller doses for a few nights after, and in the day time take three doses (of thirty drops each dose) of Magical Pain King, and this treatment will never fail.

ERYSIPELAS, ROSE OR ST. ANTHONY'S FIRE.—Take a few small doses of the pills to purify and cool the blood.

COSTIVENESS.—The loftiest aims the most active mind leads to are often marred by torpid bowels. Cases which from their long standing and peculiar constitutional symptoms gave no ground for hopes of a speedy cure, are sometimes the soonest to yield to the treatment by Barte's East Indian Pills.

PILES OR HEMORRHOIDS—Are symptoms of obstructive function in some other organ; most frequently some obstacle to the free circulation of blood through the liver is the cause. The mass of blood from the whole abdomen ought to pass freely through the liver; but when any cause obstructs the passage, the blood gravitates towards the lower parts of the canal, and congestion of blood takes place in the vessels and produces heat and pain in the place. Now the proper treatment is to cause a free circulation of blood, and also to make the blood that does circulate pure and cool. To do this, use the pills to relieve the bowels, and take one teaspoonful of Pain King three times a day, and make an ointment as follows, which apply twice a day. Half an ounce of powdered galls, one teaspoonful of Pain King and three and a half ounces of lard, and a sure cure will follow.

BILIOUSNESS, LIVER COMPLAINT, JAUNDICE Etc.—These Pills (Bartee's) cure the above complaint in a wonderfully short time; they reach the liver through the stomach; they rouse the former to action by rousing the latter; they strike at the liver through the stomach; they banish, as if by magic, the following diseases;—yellowness of the white of the eye and of the skin generally, yellow bitter tongue, thick saliva, acid breath, sour risings, dry, obstinate itchy skin, dull headache, somnolence, slow laboring pulse, flushings of the face, pim-

ples, wan

BARTEE'S PILLS

ples, want of appetite, restlessness, and cause sweet, calm, quiet sleep, and a delightfully pleasant feeling. Dose.—Two to four at night.

COUGHS AND COLDS.—A good pill is a most valuable adjunct to medicines for the above, and here you have one that acts upon the blood and helps the other medicines. The Cherry Balm is an unspeakable valuable medicine, and acts like a charm upon all diseases of the throat and lungs.

INDIGESTION, DYSPEPSIA, Etc.—If the condition of the stomach be such as to preclude the digestion of food, or to produce a bad digestion of it, either no blood at all is formed, or blood of a bad kind, unfit for the purposes of nutrition, and the organs of the whole body languish or are diseased in their nutrition, so that the digestive organs may be looked upon as the primary laboratory of the blood, which is to nourish the whole frame. How important, then, to have the stomach in proper order. Never was a medicine made which produces such effect as these pills upon the organs of the stomach. One trial will satisfy you that the worst forms of the above disease can be cured. Dose.—One or two in the morning. Some persons take one after dinner.

SCROFULA, PIMPLES, Etc.—Is a disease of the constitution dreadful in its effects, and manifested by certain external signs, such as swelling of the subcutaneous lymphatic glands—especially those of the neck—pimples, blotches, sores, etc. It is caused by bad food, bad air, and hereditary influence. What is wanted is a medicine whose medicinal powers will cleanse the blood, and cause the pure fluid to run through the veins. As Bartee's Pills act almost altogether on the blood, through the stomach, unburdening it of all impurities, it has the most remarkable effect upon all sores, it makes the skin soft, clear, and beautifully transparent, and ladies will find that a few pills taken every night for a short time, with a free use of the bath and rough towel, and the application of a few drops of Tincture of Benzoin in a glass of water, which should be allowed to dry upon the face, will do more to beautify the complexion than anything they can use.

In Scrofula give from two to four Pills every night, and dress the sores with the following Ointment night and morning:—Balsam of Peru one drachm, Ol. Caryoph half a drachm, Hyd. Ammoniet half a drachm, Hyd. Oxy. Rub. half a drachm, Adipit four ounces.

LUMBAGO.—Take from two to four Pills the first night, and two every other night after that, and rub R. Stark's Magical Pain King well into the painful part three or four times a day.

TO PURIFY THE BLOOD.—To purify the blood, these pills have a wonderful effect. Take small doses of from one to three every other night.

WORMS—Can always be cured by Neligan's English Worm Candy. If the bowels are not moved enough by it, a small dose of these Pills can be given afterwards, and no worms can exist.

FOR FEMALES—These pills are particularly suited, as they gently bring away all bad humor, cool the blood, and renovate the strength.

DOSE.—Two to four.

☞ No Mercury contained in these Pills; they are all vegetable.

ROBERT STARK, WOODSTOCK,

Is sole agent in Canada for these Pills. By him all boxes of Pills sold in Canada must be signed thus :

Robert Stark.

Prepared by Dr. BARTEE, M.R.C.S.E., 275 New Bond Street, London, England. All orders for America must be sent to his Agent, Mr. Robert Stark, Woodstock, Canada.

TO DYE PINK.—For every three pounds of yarn or cloth take three and a half quarts of water, or enough to cover the articles you wish to color, two ounces of cochineal and half an ounce of cream of tartar; steep the cochineal in warm water two hours, or until the strength is entirely extracted, and add the cream of tartar; then wet the cloth in clear water, wring it out and put in the dye; bring it to a scalding heat; let it remain a few moments and it will be finished. If a lighter color is wanted, use less cochineal, if a darker one, more; the shade depending upon the quantity of cochineal used.

☞ A cheaper, yet handsome pink, may be obtained by substituting Nicwood for Madder, in the receipt for Madder Red.

TO DYE GREEN.—For every pound of yarn or cloth add three and a half ounces of alum and one pound of fustic; steep to get the strength, but not boil; soak the cloth until it acquires a good yellow color; then throw out the chips and add the indigo compound slowly, until you have the desired shade of green.

An ounce or more of the compound is required for the above quantity, varied according to the depth of shade.

☞ The receipt for preparing the compound above mentioned is a secret; therefore I will not warrant success where any other is used than that prepared and sold only at my store.

DOVE AND SLATE COLORS OF ALL SHADES—Are made by boiling in an iron vessel a teacupful of black tea with a teaspoonful of copperas and sufficient water; dilute this till you get the shade wanted.

NELIG

Dr. Neligan is made into a student of Practical Dietetics, celebrated practitioner, but as one of the books that ev

Mr. ROBERT STARK:

Dear Sir—My child is benefited by a number of your medicines tried therefore, with preparation is to induce the effects

TH

ROBERT STARK:

Dear Sir—No surprise that I have been cured by your English Worm Candy. I was troubled with these pains, were the results of a large and small quantity of your Candy, and find it to yours.

Mr. R. STARK, Chemist

I have used your Candy, and find it

NELIGAN'S ENGLISH WORM CANDY.

Dr. Neligan, the discoverer of the celebrated Worm Medicine, which is made into a delightful and pleasant Candy, by Mr. Stark (late student of Practical and Analytical Chemistry, Materia Medica, Pharmacy, Dietetics, etc., Glasgow University, Scotland), is one of the most celebrated physicians living. He is not only celebrated as a physician, but as one of the most clever and distinguished writers of medical books that ever lived. Try the Worm Medicine that bears his name.

WHAT THE CLERGY SAY.

Mr. ROBERT STARK, Chemist, etc.:

Dear Sir—Having administered your Neligan's English Worm Candy to my child, not a year old, I have great pleasure in certifying to its beneficial effects; after a trial of the prescribed doses there were quite a number of worms discharged, and the little fellow seems much improved. I am also aware of another boy, who after all the other usual medicines tried had failed, was perfectly restored to health; I can, therefore, with considerable confidence, recommend it to parents. Your preparation is a medicine pleasant to take and well calculated to produce the effects desired.

Yours, etc., D. McDAIRMID, Free Church Minister.

THREE HUNDRED WORMS PASSED.

NORWICH, September 12, 1860.

ROBERT STARK:

Dear Sir—No words of mine can express the gratitude, wonder, and surprise that I feel in telling you of the success of your Neligan's English Worm Candy. Our whole family of six, except me, were troubled with these pests. We used your Worm Candy, and glorious indeed were the results. One child, 8 years old, passed over three hundred large and small worms, and our whole family were restored, many from death's doors to robust health. No worm medicine is to be compared to yours.

Ever Yours,

JOHN C. JONES.

SUSPENSION BRIDGE, Niagara Falls, September 10, 1859.

Mr. R. STARK, Chemist, Woodstock:

I have used your medicine for worms, viz: Neligan's English Worm Candy, and find it to be pleasant, and as good as I could wish.

MRS. THOMAS GILLMORE.

WORM CANDY.

BURFORD CO., BRANT, 4th Con., Lot 24, January 21, 1860.
Mr. STARK, Woodstock :

I never saw the like of the quantities of worms passed after the administration of your Neligan's English Worm Candy. Upon giving it to four of my children who were very bad with worms, they all passed astonishing quantities, and all the children are smart and well now, when before they were very ill. Your Worm Candy is the most astonishing medicine I ever tried.

JAMES TRUMBLE, Justice of the Peace.

THE BEST IN THIS OR ANY OTHER COUNTRY.

Mr. STARK :

I have used your Neligan's English Worm Candy in my family, and find it acts in the best possible manner. I gave just a few to my boy yesterday, and it has brought away fifteen large worms, and I believe it to be a very good medicine, in fact the best, as I have tried a great many other kinds, both in this and the old country.

D. C. MACDONALD.

EAST OXFORD, December 8, 1860.
ROBERT STARK, Esq., Chemist, Woodstock, C. W. :

Dear Sir—I bought from you, about a year ago, a box of your "Neligan's English Worm Candy," and gave it to a boy of mine eight years old; he passed OVER TWO HUNDRED WORMS, many over a foot long. I never thought that a human being could have the number of worms in them that my boy passed. Your Worm Candy is truly a wonderful medicine.

MARY JANE BELL.

Mr. STARK, Chemist, Woodstock :

SOUTH NORWICH, December 9, 1860.

Dear Sir—I wish you to send me two or three dozen of Neligan's Worm Candy by bearer. They are the best selling medicine of the kind I ever sold. In a number of cases where they were given the children have passed from twenty to forty worms. Some of my customers say that they would not be without them on any consideration, as they are a valuable and safe cure for all cases of worms.

Yours, etc.,

HENRY H. SOUTHWICK.

WORM SYMPTOMS.—Variable appetite; grinding of the teeth during sleep; picking of the nose; paleness of the countenance; short, dry cough; extreme thinness; slow fever, and sometimes convulsive fits. Sold by Druggists everywhere. None genuine without R. Stark's signature. Price 25 cents per box, 5 boxes for \$1.

English Articles under Distinguished Patronage.

THE CHERRY COUGH LOZENGE.

To parties who prefer the use of Cough Lozenges to that of a mixture, the above are confidently recommended in all cases of Pulmonic, Catarrhal, Bronchial and Asthmatic Coughs. They contain nothing of an injurious character, and are prepared from the receipt of one of the most distinguished London physicians by

JOSEPH ROOKLEDGE,

Dispensing and Pharmaceutical Chemist, 14 Haymarket, London, England.

R. STARK, American Wholesale Agent.

Sold by storekeepers and druggists generally throughout Canada.

Headland's Stimulating Hair Lotion

Promotes the growth of the hair in a wonderful manner, as well as keeping it fine, soft and clean. It was made at the suggestion of her Majesty's physician for promoting the growth of the hair and preventing its falling off. Prepared by

W. HEADLAND,

116 Great Russell St., Bloomsbury, London, England.

ROBERT STARK, American Wholesale Agent.

Sold by all druggists and storekeepers in Canada.

CAXTON'S SUPERIOR RAT POISON.

The safest, surest, and best in use. This paste is readily eaten by rats, mice and other vermin, and will never fail to destroy them.

DIRECTIONS FOR USE.—Dilute with water to the consistence of cream, and spread on thin pieces of buttered bread.

Prepared by **JAMES CAXTON, 52 Regent Street, London.**

R. STARK, American Agent.

Sold by all druggists and storekeepers.

DR. JONES' ITCH OINTMENT.

This Ointment is a sure and safe cure for all cases of Scabies or Itch, by which it can be cured in a very short time. The plan is to rub the surface of the body with soft soap in a warm bath for half an hour (at night), and afterwards with this ointment. Do this two nights.

The bed and wearing clothes, towels, and in fact everything touched by the diseased person, must be well boiled and washed with soap the next morning or you cannot expect a cure, as without that the itch will be sure to return.
