Move Made In South of France To Revert To Provencal Tongue

PARIS, Oct. 2.—The use of any dialect in the state schools of France is being discouraged and a campaign was recently started for its abolition. The council general of the Department of War, however, in ignoring the official attitude towards the matter, adopted a resolution which states that the teaching of Provencal should be optional in the state schools, and that in the Department of War, the instructors should be authorized to use Provencal in the teaching of French. This is a vindication of the language of the troubadours and follows a strong movement in the south of France, for a reversion to its old tongue. A newspaper is now being published in the various Provencal dialects and fetes in honor of mistral are becoming more and more popular.

Ernest Lapointe, Minister of Justice, opened his electoral campaign in his own constituency.

DOUBTFUL IF PARLIAMENT WILL APPROVE

Belief Is Problem Likely Greater 5 Years Hence

LONDON CRITICAL

Finance Committee Men Think Caillaux Had Gone The Limit in Offer

PARIS, Oct. 2.—A pessimistic view of the events in Washington was manifested in official circles, where the opinion prevails that the temporary arrangement for annual payments of \$40,000,000 each for the next five years had served to complicate the whole debt situation.

It was felt that the course events had taken would make it extremely difficult for parliament to accept the provisional arrangement because of the uncertainty involved, and the belief that the termination of the five-year period would find France faced with the same or perhaps more serious problems than she is meeting now.

RESERVE OPINION.

Members of the finance committee of the Chamber of Deputies, in the sense of some of their number with M. Caillaux, in Washington served their opinion, stating only the Finance Minister himself would meet them immediately after his return and lay the entire situation before the committee.

BRITISH PRESS CRITICAL

MEIGHEN TAKES UP H. B. RAILWAY ISSUE

Says Government That Built Line Will Finish It—Attacks King.

Canadian Press. WINNIPEG, Man., Oct. 2.—During his speech last night, at a campaign rally for the four federal constituencies of Winnipeg, Hon. Arthur Meighen, Conservative leader, replied to Premier King on the Hudson's Bay Railway issue.

He repeated Mr. King's promises in regard to the railway were an affront to the people of the West, as he made their fulfillment contingent upon the return of the government supporters in the west.

"The government that built the line," he said, "will finish it. What we start we finish. It will take immediate steps to ascertain the cost of completion so as to give it a fair trial.

As soon as the country in its debt and can spend that money, I will spend it and I will be greatly disappointed if I cannot come back to you at the next election with this work done."

## F. B. M'CURDY REJECTS OFFER OF NOMINATION

Declines to Run in Colchester With Backing of Liberal Party

WORKS FOR N. S. IN  
NON-PARTISAN WAY

Says Grievances of His Own  
Province Over I. C. R.  
Are Justified

HALIFAX, Oct. 1.—Hon. F. B. McCurdy, Minister of Public Works in the Meighen administration, has decided not to accept an independent nomination, with Liberal endorsement, from Colchester, N. S., in the ensuing Federal elections, according to two statements he made public tonight, one addressed to the electors of Colchester county and the other to M. B. Archibald, of Truro, N. S., president of the Liberal Association of Colchester.

The statements follow: "To the electors of Colchester county: When it had become known that my name, as a former member and candidate, had not come before the convention of my party, I was urged by a number of political and personal friends to accept nomination as an independent candidate. I have since called on as many of them as possible to express my appreciation of the honor they would confer on me.

**LIBERAL PARTY'S OFFER**  
"The Liberal party also met in convention and passed a resolution stating that if I stood as an independent candidate on the maritime rights platform, outlined by me in pamphlets recently issued, the Liberal Association would support my candidature.

"Having been associated with the question of Nova Scotia's problems in a non-partisan way, I do not wish to enter a campaign which in the heat of election might be construed as a party fight. I have, therefore, declined the suggestion of a nomination under these circumstances and for your particular information, I append a copy of my letter addressed in that connection to the president of the Liberal Association and also a copy of my letter to the president of the Conservative Association.

## FRENCH DEBT COMMISSION OUTLINES FIRST PROPOSAL

This shows the first meeting of the French debt commission with Secretary Mellon and his colleagues at Washington, when the French submitted a tentative proposal which Mellon found unacceptable. Mellon can be seen at the back, in the left centre, and Joseph Caillaux, French Finance Minister, is seated on the extreme right.

ter to the president of the Conservative Association.

### APPRECIATES SUPPORT

"Permit me also to acknowledge my deep appreciation of the confidence repeatedly reposed in me by the people of my native county. I shall always hold in kindest remembrance the confidence and support given me while a former representative. In seeking privately but earnestly to promote the common good of the people of this province I shall continue to follow your particular interests and concern with sympathy and support."

The statement to Mr. Archibald is: "Dear Mr. Archibald: I have read the press reports of your convention and wish to acknowledge my high appreciation of the compliment paid me in offering to support me in the event of my becoming an independent candidate in the ensuing election.

### URGES UNITED ACTION.

"Since raising the question of the economic position of your province within the Dominion, I have been giving much time and attention to the subject and am persuaded that the problems of our people can be solved in all fairness to our province

without prejudice to the rest of Canada. I do not believe, however, that the present unsatisfactory and oppressive arrangements will be remedied unless and until Nova Scotians compose their party differences in pressing unitedly for appropriate redress.

### I. C. R. GRIEVANCES JUST.

"It must be apparent that the grievances of Nova Scotia in regard to the Intercolonial Railway are just. Complete disregard of the spirit and purpose of its construction constitutes, in my opinion, a breach of faith with the eastern provinces which should be righted. Likewise, and as earnestly, I believe that Nova Scotia is also suffering from the effects of the economic system of the Dominion under which we seek to live and do business. 'Maritime rights' essentially involve the question of securing a more equitable tariff to suit the peculiar needs of the east. A movement restricted largely to transportation problems will not, in my opinion, provide an adequate remedy for our economic ills.

### "A national policy that provides

a customs tariff limited principally to and protecting the manufacturers of Canada is not an equitable or national policy. An economic arrangement that primarily permits one class of industry to ride upon the backs of all other classes, increasing the cost of living and of production of our producers, is, generally speaking, unfair to the people of Nova Scotia.

### SHUNS PARTY CONTROVERSY.

"The convention of my own party having been held some days ago and a candidate having been selected, you will, I am sure, agree with me that were I now at this juncture, to announce myself as an independent candidate, my opponents would assert, regardless of facts, that I was engaging in a personal or party reprisal, a circumstance which I could not entertain and to which I could not lend color. I have no personal ambitions or interests to promote or serve. I am concerned only in having the people of all parties and creeds survey calmly the trend of conditions in these provinces and unite in an effort to secure appropriate redress without setting one party against another thereby inviting

opposition to a project which should not be regarded as controversial within the province.

### APPRECIATES HONOR.

"In declining the suggestion of my friends in both parties that I should announce myself as an independent candidate, I am none the less conscious of the great compliment they have paid me. I appreciate their encouragement and good will. I also appreciate the confidence expressed by your delegates in the proposals contained in my pamphlets and desire that you shall convey to them my warmest respects and say that the considerations to which I have referred prevent me from becoming a candidate at this time."

"I BEGAN TO EAT Fleischmann's Yeast to overcome constipation. My improvement was steady and permanent. To make a long story short: I am fighting fit in every way. Overwork does not bother me. My endurance is there. I eat and sleep like a he-man. The remarkable improvement in my health is a matter of record based on a physician's examination. Constipation? Banished forever. Fresh air, exercise and a few cakes of yeast a day did it." Walt Marsh, Belleville, Ill. A

"ABOUT EIGHTEEN MONTHS AGO I was a complete wreck. Could not eat or sleep, was anemic and my color had faded to a sickly green. My friends began to exchange pitying glances and one day an old lady insisted on giving me her seat. That was the crowning humiliation. I decided to give yeast a trial. I started eating three cakes daily. In about six weeks found I could eat a real meal once more; in two months my natural color began to return. I kept on and now, thanks to Fleischmann's Yeast, I am a well woman." Mrs. F. R. Conner, Florence, Ky.

## A Story Told by Thousands

How they corrected their ills— regained the vitality of youth— through one simple fresh food

NOT a "cure-all," not a medicine in any sense—Fleischmann's Yeast is simply a remarkable fresh food.

The millions of tiny active yeast plants in every cake invigorate the whole system. They aid digestion—clear the skin—banish the poisons of constipation. Where cathartics give only temporary relief, yeast strengthens the intestinal muscles and makes them healthy and active. And day by day it releases new stores of energy.

Eat two or three cakes regularly every day before meals: on crackers—in fruit juices or milk—or just plain. For constipation especially, dissolve one cake in hot water (not scalding) before breakfast and at bedtime. Buy several cakes at a time—they will keep fresh in a cool dry place for two or three days. All grocers have Fleischmann's Yeast. Start eating it today!

And let us send you a free copy of our latest booklet on Yeast for Health. Health Research Dept. 438. The Fleischmann Company, 208 Simcoe St., Toronto, Ont.

FLEISCHMANN'S YEAST IS MADE IN CANADA

"ON SEPTEMBER 12, 1924, I responded to the call of the War Department and found I was one of the many unfit, physically. At dinner I nibbled at my food, was nervous and irritated. When in other cities officiating at football games I was ashamed to take a shower in the same room with other officials because my back was broken out. My skin was scaly, I was not well, besides, I lacked optimism. Then I started using Fleischmann's Yeast. The results were remarkable. My appetite became normal, all traces of eruptions on my back disappeared, and I felt like a new man. It is a pleasure now to associate with other men in the locker room or club." Coach William B. Morgan, Senior High School, Sauk Centre, Minn.

A FAILURE.

The visit of the French Minister of Finance and his colleagues to Washington for the purpose of arriving at a method of paying off the war debt has ended in something like complete failure. The French mission is on its way back to Paris, and the atmosphere surrounding the matter is one of grave disappointment.

In justice to that American storky petrel, Colonel William Mitchell, who talks about the possibility of British airplanes being used against the United States, it should be said that when he testified at Washington the other day before the Coolidge investigation board he prefaced his remarks concerning Great Britain by saying that there was no reason to expect hostile action from that quarter.

**AUTHORITIES PROBE KING'S CO. SHOOTING**

**Slaying of Gideon Clain, South Branch Farmer, Believed Intentional.**

**SHOT IN BACK WHILE WORKING IN FIELDS**  
**Assailant's Identity Unknown; Inquest Ordered by Coroner**

Special to The Times-Star  
SUSSEX, Oct. 2.—There have been no new developments today in the shooting fatality at South Branch, Kings county, yesterday, in which Gideon Clain was shot dead while working in the field near his home. The matter is surrounded with suspicious circumstances, and the general belief is that the shooting was not accidental. The authorities working on the case decline to give out any further information prior to the holding of the inquest.

Mr. Clain was digging potatoes at the time of the rifle shot. With him in the field was Walter Buchanan, 14 years, who heard the report of a rifle in the woods and turned to see Mr. Clain fall over. Others from nearby farms also heard the shot and rushed to Mr. Clain's assistance, carrying him into the house and sending for a doctor. All their efforts were in vain, however, and he died in a few minutes. Coroner F. W. Wallace, of Sussex, was notified and made a quick trip by automobile to the scene of the tragedy. After inquiring into the circumstances considered an inquest necessary and expanded a jury as follows: C. W. Osborne, foreman; Alton Goddard, Bliss Teakles, Welton Goddard, G. H. Hall, A. B. Ferguson, and Arthur Wick. After viewing the body an adjournment was made and the inquest will be continued on Saturday evening at the store of C. W. Osborne, Penobscot.

**WAS 100 YARDS FROM WOODS.**  
The fatality occurred as Mr. Clain was about a hundred yards from the edge of the woods. Walter Buchanan, who was picking the potatoes on a few yards in front of him, heard the report of a rifle from the direction of the woods and looking up from his work, noticed Mr. Clain reel and fall to the ground. Mr. Clain was lying on his back, with his arms outstretched. William Milton, who was working on adjoining farms on hearing the shot and seeing the victim lying on the ground, rushed at once to his assistance. They picked the wounded man up and carried him to his home.

Dr. Wheaton, of Sussex, was summoned and made a hurried trip in response to the call, but the victim died ten minutes after his arrival. The rifle bullet which caused the death entered Mr. Clain's back near the spine and went through his body, lodging in the skin in front of abdomen.

The following committee conveners were appointed to organize for the campaign in the various districts: Missep, William McKee; Red Head, Oliver A. Gibson; Black River, Andrew R. **IS WELL PUT ON IN ST. ROSE'S HALL**

**Dramatic Entertainment Given by St. Rose's and Wanderers' Clubs.**  
The three act comedy drama "Mama's Lil' Wild Rose" was admirably staged and acted in St. Rose's hall, in Fairville last night under the auspices of the St. Rose's and Wanderers' Athletic Clubs in aid of the funds of the two organizations, and realized a very satisfactory sum. The hall was filled to capacity and the amateurs scored a brilliant success. The play will be repeated again this evening and is assured of another capacity attendance.

The entire action of the play takes place in the cabin doorway in the mountains of Virginia, and the scenery was most realistic. Between the acts there were much enjoyed specialties including vocal solos by Miss Josephine Viger, Charles Stackhouse and Florence Dunham, and dancing by Miss Amelia Bailey. The accompanists for the evening were James Driscoll and Mrs. J. J. O'Toole.

**HOPE TO CUT COAL BILL FOR HOSPITAL**

**Commissioners Calling For Tenders For Supply—Boiler Question Under Discussion.**  
The report of the coal committee with its recommendations regarding the purchase of a new boiler for the power house and the calling of tenders for the year's coal supply was before a special meeting of the Board of Commissioners of the General Public Hospital yesterday afternoon. M. E. Agar, president, was in the chair and others present were commissioners Mrs. J. V. McLellan, J. King Kelly and W. E. Emerson and R. H. Gale, superintendent. The need for a new boiler in the power house has been considered on several occasions and it has been felt that the additional boiler is essential to the efficient operation of the power plant at the hospital. The portion of the report dealing with the proposed new boiler was discussed informally but because of the small attendance at the meeting the matter was deferred for further consideration. Authority was given for the calling of tenders for the coal supply. It is expected that there will be a saving effected in the coal expenditures at the hospital this year as the result of successful experiments by the coal committee.

**ORPHANAGE BOARD DISCUSSES AFFAIRS**

**Children in Protestant Institution Number 198—Daily Cost Per Child 68 Cents.**  
Because so many of the members of the board of directors of the New Brunswick Protestant Orphanage were working at the fair in St. Andrew's rink there was only a small attendance at the board meeting held last evening in the Board of Trade rooms with Dr. James Manning, vice-president, in the chair in the absence of D. C. Clark, who is in California. Routine business chiefly was dealt with and it was reported that there were now 198 children in the care of the institution, the largest number in its history. The deficit on maintenance account still stood at \$26,600 and payments for the permanent home fund were reported to be coming in reasonably well. The meeting heard that the cost for maintenance had been 68 cents per child per day taking the average from May 1 to Oct. 1 and in view of the fact that the average cost for maintenance of children in similar institutions in the United States is placed at 80 cents there was general satisfaction at the excellent management of the home. It was pointed out that the 68 cent figure included interest charges on the overdraft and all expenses for schooling.  
**CARRYING CALIFORNIA GRAPES.**  
Ten thousand refrigerator cars are required to transport the grape crop from the vineyards around Lodi, Cal.

**LARGER CROWD AT FAIR FOR ORPHANS**

**Prize Winners Last Evening—Children to be Entertained Saturday Afternoon.**  
The fair in St. Andrew's Rink in aid of the New Brunswick Protestant Orphanage was attended last evening by a larger crowd than on the opening night and all the booths were well patronized. The ceremony was performed by Rev. C. S. The young people stood under an arch of autumn leaves and flowers. After the ceremony a buffet luncheon was served. Those serving were the Misses Valarie Gaunce, Alice Reed, Marion Pearson and Mary Thorne. The bride's going away costume was an ensemble suit of armand French repp and blonde, with hat, shoes and stockings to match. **Deaths**

**Charles Maber.**  
The death of Charles Maber, of 8 Millidge Place, removes from this district one of a very few who came in the old 15th regiment from England in the days of the Trent affair in 1862. Mr. Maber, who was 84 years old, died yesterday morning at his home, where he had been tenderly cared for by his daughter, Miss Annie Maber, who resided with him. He leaves also two sons, John William and Charles, of this city, and another daughter, Mrs. John McAvity, of Main street. Besides his sons and daughters, he leaves 20 grandchildren and three great-grandchildren. Two of his grandsons, Andrew and Fred McAvity, were in the Great War.  
Mr. Maber's wife, who was Miss Susan Walker, of Woodstock, died 19 years ago. Mr. Maber came to this country from Bath, England, and was in company with William Hawker, the veteran druggist. Both young men were sergeants of the British army and Mr. Maber received his honorable discharge some years ago. His commanding officers were Colonel Greison and Colonel Cole.  
Attending St. Paul's Valley church until the infirmities of age interfered, Mr. Maber was always interested in its activities. He was ill only a month, but was falling noticeably some time before his final illness. Many reminiscences did he and Mr. Hawker chat over when they met and Mr. Hawker referred with heartiness yesterday to the old days when they were sergeants together in the regiment, which came to Canada in all its glory of bright red uniforms and other regalia of the old time.  
The funeral will be held on Saturday afternoon at 2:30 o'clock from his late residence, with service conducted by Venerable Archdeacon A. H. Crowfoot. Interment will take place in Cedar Hill.

**Frederick Wallace.**  
Dr. W. B. Wallace received a cable yesterday announcing the death of his brother, Frederick Wallace, in Buenos Ayres. Mr. Wallace left here about 50 years ago and had been a resident of the South American city ever since. He was born in New York about 72 years ago and was in his youth a resident of Saint John. He is survived by his wife, two sons, Captain Graham Wallace and Lieutenant Cranston Wallace, who served during the great war in British regiments, and two daughters.

**Miss Gladys Foran.**  
NEWCASTLE, Oct. 1.—The many friends of Miss Gladys Foran, eldest daughter of Mr. and Mrs. George Foran, of Halcob, will be shocked to hear of her sudden death, which occurred at the home of her parents yesterday. The cause of her death was fever. She was 21 years of age. Besides her parents she leaves four sisters, Dora, Annie, Katie and Evelyn; three brothers, George, Michael and Yezsa. She had been employed in Blackville for three years until, through sickness, she was obliged to return home. The funeral was held today at the Catholic cemetery, Red Bank.

**Mrs. C. Fillmore.**  
SACKVILLE, Oct. 1.—Mrs. Colpitts Fillmore died yesterday at home of her daughter, Mrs. Robert Dobson, Point de Bute at the age of 79. She leaves four daughters, Mrs. George O. Siddall, Westmorland Point; Mrs. James Bulmer, in California; Mrs. R. T. Dobson, Point de Bute; Mrs. Fred Ritley, Windsor, Ont., and three sons, Arthur and Charles, in Vancouver, and Fred in Saskatoon, Sask. The funeral will be held Friday afternoon.

**JAPAN'S GENTLE WAY.**  
In Japan, when a police officer takes a man into custody, he ties a bit of string around the arrested man's wrist and then leads him by the loose end of the frail tether to the police station. So strong is the Japanese respect for the law that the piece of string holds the prisoner as securely as though he were manacled by steel.

**USE NATURAL GAS.**  
Oklahoma is the only state of the union without an artificial gas plant.

**Mice Cause Fire; Cat Gives Alarm**

**Unlucky Press.**  
LONDON, Oct. 2.—Mice are thought to be responsible for a fire at Worcester, while it is established that the alarm was given by a cat in anxiety to protect her kittens.  
The owner of the house set on fire was awakened about midnight by violent and persistent meowing from downstairs.  
Investigating he discovered that the kitchen was ablaze. When the outbreak was got under control, the limp bodies of a cat and her kittens, were discovered under the table nearly suffocated by smoke.  
It is thought that the fire was caused by mice nibbling at a box of matches.

**BREAKS RECORD**

**MONTEBAY SEINE ET OISE.**

BRITISH TRAMP HAS ODD LUCK, QUEER CARGOES

Reaches Auckland After 18 Months' Absence From Home Port

HARTFIELD'S SKIPPER HOLDS THE D. S. CROSS

Torpedoed by German Submarine and Sent Adrift in Small Boat

Into the harbor of Auckland recently came a true ocean "tramp" of the old-time sort, whose wanderings to and from "through all the seas of all the world" justified her characterization in the highest degree.

The Hartfield is owned and chartered by British firms; but Captain Hughes, who was awarded the Distinguished Service Cross for his conduct at the time a ship under his command was submerged in the Mediterranean, is one of those shipmasters of the old school, men of many parts who are instructed by their employers with the business end of running a ship as well as the navigating. And he has picked up his cargoes as he found them in many parts of the globe.

SAILED FROM HULL

His ship sailed from Hull, England, at the commencement of 1924, with coal for St. Vincent, in the Western Islands, whence she steamed in ballast all the way around the Cape of Good Hope to Durban to load several scores of motor cars for Aden. This was rather a curious cargo for the Red Sea port of bad repute, but Captain Hughes says the desert chiefs are beginning to prefer automobiles to horses.

Clearing for Chittagong and Calcutta with a miscellaneous cargo and a few remaining automobiles, the Hartfield was one of several ships to catch an appeal for assistance from an old steamer under the Turkish flag which, overcrowded with pilgrims to the holy city, had caught fire in the Red Sea. Another British ship, the Clan Maciver, was first on the spot, however, and by marvellously efficient work, had taken aboard the burning ship's crew and more than 1,000 pilgrims without the loss of a single life.

When the Hartfield came up, according to Captain Hughes, the doomed vessel was a most awfully sight, a roaring furnace, with her hull and all metal work red hot. From Calcutta Captain Hughes found it necessary to proceed to Australia for another cargo, and at Newcastle he loaded coal for Valparaiso and other Chilean ports. On the way he put in at Lyttelton, New Zealand, long enough to take aboard 150 sheep. Discharging cargo, the Hartfield made no less than 12 ports on the Chilean coast, concluding at Iquique and loading nitrates there. A long voyage now ensued, up the Pacific, through the Panama Canal, across the western ocean to the Mediterranean and Alexandria, Egypt.

Again the ship passed through the Suez Canal, and for several months traded between Calcutta, Colombo, Madras, Coccana, Allepi, ports in Cochin China, among the East Indies and back to Bombay, where she remained the quay and had to seek the drydock for a month of repairs and overhauling. She then returned to Aden, and there, as well as at Port Said and Algiers, she loaded dried fruits and other Near Eastern products for America, discharging at Boston, New York and Philadelphia. This was a western ocean passage in winter and a rough one.

LONGS FOR HOME

From Philadelphia the Hartfield stopped at Norfolk for bunker coal and then proceeded to Galveston to load 6,000 tons of sulphur for New Zealand and Australian ports, to finish at Wairoa, on the South Australian coast.

£1,517,678 IS PAID MINES FOR AUGUST

Britain's Coal Subsidy Toll Bears Out Prediction of Its Size

LONDON, Oct. 1.—The Mines Department announces that the amount paid in the mining subsidy for the month of August totalled £1,517,678, which bears out the prediction that the first estimates of a million sterling monthly would be largely exceeded. This subsidy granted by the government to enable the mine owners to maintain the rate of wages for their employees, pending a settlement of the controversy, which threatened a general strike.

BANGOR YOUTH IS ADJUDGED GUILTY

Manlaughter in Case of Boy, Thrown into Water and Drowned

BANGOR, Me., Oct. 1.—While a party of men and boys were in swimming last July at the Bangor Yacht Club float in the Penobscot River, just below the city, Forrest Pond, 19, tossed ten-year-old Irving Opton from the slip into the water. The boy sank and was drowned, the bystanders not realizing he was in trouble until too late. Pond was indicted for manslaughter and a two days' trial in the Superior Court ended today with a verdict of guilty after a deliberation of an hour and a half by the jury. Sentence will be pronounced later.

Boy Who Was Shot Is In Serious State

NEWCASTLE, Oct. 1.—The condition of Robert Williston, the nine-year-old son of Mr. and Mrs. Benjamin Williston, who was accidentally shot last Wednesday, is still serious. He is bleeding from the lung and also suffering greatly from shock, and is still too weak to have an X-ray taken.

Captain Hughes was not certain of his subsequent movements, but he hoped they would lead him home to England at last for the brief rest due a seaman now and then.

The captain said he felt himself somewhat less active than he had once been, especially since his notable battle with the submarine, when, with some of his crew, and severely wounded, he was put into a small boat by the German commander and left to his own resources. These enabled him to make a landing on the Moroccan coast, where he and his party were immediately captured by the hostile Moors and held for ransom.

Eventually, after trials enough to base a book of adventure upon, Captain Hughes reached England. "In these days of reminiscences," he observed in concluding his remarkable story, "I'm inclined to believe I might undertake mine by and by."

Adventures of the Twins

By OLIVE ROBERTS BARTON

THE BAD GAZOOKUMS MAKES TROUBLE.

The next time Grubby Woodchuck came to the filling station where the Twins sold gasoline, Grubby said, "I want some good fast gasoline, Mister Nick, the fastest high powered gasoline you have—about 70-75? Which any dealer is very high indeed. Only I haven't the least idea what it means. But if you ever see numbers like that on a gasoline pump, it means something very nice."

Nick hadn't forgotten the visit that Grubby's daddy had paid him that very morning, and how worried he was about his son's speeding. "This is the most fun I've had yet," said Nick. "But all the time he was saying to himself, 'I'll give him the gasoline, but I'll fix his car so he can't go so very fast. I'll pretend I'm fixing something else, but I'll turn the timer back.'"

So when Nick filled up the tank on Grubby's car, or rather his father's car, he did something to the timer, and away started Grubby. "For the land's sake!" cried the little woodchuck boy. "This car isn't going any faster than a garbage wagon! What can be the matter?"

He got out and lifted up the side of the hood and looked in at the engine. He examined it carefully all over. But not a thing could he see that was wrong. "Let me look at it," said a voice just then.

And didn't a bad little gazookum step up right beside Grubby's automobile and start to pound at it and shake it and knock everything to it a gazookum can possibly do.

A gazookum, since you are asking, never stood still long enough for anybody to take his picture or even get a good enough look to draw him. But he is a rascally little goblin who likes to get

ACID STOMACH IS DANGEROUS

Suffers From Indigestion or Stomach Trouble CUT THIS OUT

"Stomach trouble, dyspepsia, indigestion, sourness, gas, heartburn, food fermentation, etc., are caused nine times in ten by chronic acid stomach," says a well known authority.

Burning hydrochloric acid develops in the stomach at an alarming rate. The acids irritate and inflame the gastric lining, and often leads to gastritis accompanied by dangerous stomach ulcers. Don't dose an acid stomach with pepsin or artificial digestants that only give temporary relief from pain by driving the sour, fermenting food out of the stomach into the intestines.

LITTLE JOE

MARRIAGE IS OFTEN THE THING THAT WAKES YOU UP FROM THE SWEET DREAM OF LOVE.

THE LAST FRONTIER DID EARTH'S UPHEAVAL CAUSE EVOLUTION OF MAN

By DAVID DIETZ

The birth of the Himalayan Mountains was responsible for the birth of the human race. This is the theory suggested by Dr. Arthur Smith Woodward, one of Great Britain's foremost anthropologists.

Dr. Woodward bases his opinion upon the fact that just before man made his appearance upon earth, the forests of northern India were inhabited by a race of great apes.

At this time the Himalayan Mountains did not exist. The time of which Dr. Woodward speaks is known to the geologists as the Miocene era. That was approximately 100,000 years ago.

The trees died. Large numbers of the apes found themselves in this territory north of the mountains. Their trees gone, they were forced to live on the ground. This meant a change in habits.

And in time, thinks Dr. Woodward, man evolved from these apes who were forced to live on the ground.

House in Town and Barn and Harvested Crops at Tide Head Burn.

CAMPBELLTON, Oct. 1.—A disastrous fire occurred here this morning in the house owned by Mrs. M. P. Moore in Roseberry street and occupied by Robert Duncan and Joseph Albert. Canadian Woman Flees From Husband

NEW YORK, Oct. 1.—A despatch to the World from San Francisco says that Mrs. Hilda Betty Cooke, of Toronto, is "a fugitive from her husband, Henry James Cooke, with her five-year-old daughter, Shirley."

Mr. and Mrs. Cooke have waged a legal battle in San Francisco for the custody of the child and, according to the World, the Superior Court there yesterday decided in favor of the father. Mrs. Cooke, Shirley and the former's mother have been residing at Reno during the litigation. The World says that the wife was reported from there today as "missing."

Searching Parties Find Remains of Men Drowned in N. S. Lake.

DIGBY, Oct. 1.—The bodies of Reginald Baird and George E. Long of Clementsville, who were drowned at Lake Mulgrave yesterday afternoon at 4 o'clock, were located this afternoon by searching parties from Bear River about a half mile from the scene of the accident. Several parties searched the waters all morning with grappling irons but without success and early this afternoon a party went into Long Lake, which is an inlet of Lake Mulgrave, and after a short search brought the bodies to the surface. They were later conveyed to Bear River, where an inquest is being held this evening.

ALLEGED GAY PARTY PRECEDED SLAYING

Soldiers Testify at Murder Trial in East Cambridge—Liquor and Dancing.

NEW YORK, Oct. 2.—The slaying of Federal Prohibition Agent John Mulcahy, on Sept. 2, at a cottage on the shores of Flushing Pond, Westford, was the sequel to a riotous early morning "party" participated in by soldiers from Camp Devens and women companions, at which liquor flowed freely, according to testimony in Superior Criminal Court, East Cambridge, where Joseph Malhot, 28-year-old Lowell youth, is being tried on a charge of murder of the prohibition official.

DANCES WITH THREE GIRLS.

The government alleges that Malhot shot Mulcahy through a barred door. Mulcahy was about to participate in a raid on the Malhot camp by state police, military authorities and prohibition agents, when Malhot refused to allow the authorities entrance to the cottage, and an attempt was made to break the door down.

Edward F. Montague, one of the soldiers, testified to accompanying other soldiers from Camp Devens to Malhot's camp on the night of Sept. 1. Following a series of dances with three girls who were present, testified the soldier, Malhot served liquor, which was paid for by one of the doughboys. The party continued, stated the witness, until early morning hours, when he was driven back to Camp Devens by one "Happy" Peters.

John A. McNulty of the 18th United States Infantry, second soldier witness, testified to being present at the camp on the night in question, in company with these girls, and that liquor was dispensed by the defendant. Similar testimony was given by Frank Morris and John Minnell, also attached to Camp Devens.

**U. S. AND FRANCE IN TEMPORARY DEBT COMPACT**

Tentative Arrangement Saves Washington Parley From Failure

**MUST GET APPROVAL OF FRENCH CHAMBER**

Agreement Provides For Annuity of \$40,000,000 for Five Years

WASHINGTON, Oct. 1—The frail formula of a tentative arrangement which must be ratified by the French government today was thrust into the breach to prevent complete collapse of the Franco-United States debt funding negotiations.

Thus, one week after Finance Minister Caillaux and his associates had laid down the first French proposal for funding their government's four-billion-dollar war debt, they departed for Paris, taking with them a document intended only to fill the gap sufficiently to assure continuity of negotiations—even at long range. The arrangement, proposed by the United States Debt Commission as a final move to overcome what appeared to be insurmountable difficulties, would have France pay an annuity of forty million dollars a year for five years, and would enable the two governments to continue consideration of a program of final settlement to succeed the proposed temporary pact at its expiration.

**SMALL INTEREST CHARGE**

Further it concedes that the annuity thus paid, shall be in lieu of all interest on the debt during the time it shall run, or an interest charge approximately one per cent. a year. M. Caillaux gave United States Commissioners the hope that he believed the French government would accept the agreement. He declined to sign it as a plenipotentiary. M. Caillaux said, "The Minister of Finance can do no more than submit to his colleagues of the French cabinet in Paris the propositions which you have made today, and he will do his utmost to give an answer as soon as possible."

LAWMAKERS OF WORLD CONVEENE

Interparliamentary Union Assembly in Washington Largest Since War

Report on Codification of International Law Topic of Interest—Sessions in Ottawa.

WASHINGTON, Oct. 2.—The twenty-third conference of the Interparliamentary Union convened here is the largest international gathering in the national capital since the Washington disarmament conference here in 1921.

Composed entirely of members of national parliaments throughout the world, bound together for the achievement of international peace, its session was opened by Secretary of State Kellogg and Senator William B. McKinley, of Illinois, president of the American section in the hall of the House of Representatives.

Over 275 foreign delegates and 90 American delegates are present for the meetings which will continue until October 7.

After the reply to the addresses of welcome by Baron Theodor Avelin, president of the council, today's sessions were to be devoted to presentation and discussion of the report of Dr. Christian L. Lange of Norway, secretary-general of the Union.

Lange recalled that this was the first American meeting of the Union since the St. Louis World's Fair in 1904, and summoned the present conference to remain true to the Union's stated purpose.

PROMINENT MEN.

Among the widely foreign delegates attending the conference are former Chancellor Josef-Karl Wirth of Germany, Paul Libe, Socialist president of the German Reichstag, the British delegates, Sir Robert Horne, Sir Arthur Sibley Benn, Maj. Gen. Newton J. Moore, F. W. Pettick-Lawrence, N. A. Belmont of Canada, Pierris Renard and Fernand Merlin of France, Gen. Richard Mulcahy of Ireland, and Baron Wittern van Hoogland of Holland.

Besides Senator McKinley, the American group includes Senators Swannson of Virginia, Curtis of Kansas, Robinson of Arkansas, and Representatives Burton of Ohio, Britten of Illinois, Cooper of Wisconsin, Oldfield of Arkansas, Baker of California, and Connally of Texas.

Interest in the conference centres on the Saturday session when former Secretary of State Elihu Root will present a report on codification of international law.

It was said that opposition of the League of Nations would probably prevent the American delegation from introducing a resolution inviting President Coolidge to call a world conference on law codification.

The United States Government and delegation have made elaborate preparation for entertainment of the foreign visitors, including a White House reception by President Coolidge on Tuesday and a state banquet given that evening by Secretary Kellogg. The White House reception will be followed by a pilgrimage to the home and tomb of George Washington at Mount Vernon. On Monday the visitors will be

Viscount Held Over Passing Of Bad Check

LONDON, Oct. 2.—Viscount Torrington, one of the ranking English bluebloods and a page of Queen Victoria in his boyhood, has been arrested on the estate in Kent, charged with obtaining five pounds under false pretences from a neighboring drugist.

The Viscount arraigned Thursday, was released on \$500 bail pending a hearing October 9. The drugist charged he had written a check on a bank in which he had no account.

Torrington, educated at exclusive Eton and later in Sandhurst, the English army school, served as an officer in the war.

3,423 ON TORONTO LISTS PROTESTED

Include Dead Persons or Ones Who Quit Homes, Says Candidate.

TORONTO, Oct. 1.—Objection has been filed with divisional registrars by Joseph Singer, Liberal candidate in Toronto West Centre riding, protesting against the inclusion in the voter's lists of the names of 3,423 persons.

Mr. Singer declared at a political meeting last night that his canvasser had ascertained that in practically every case the person had left the house in which he was registered or was dead.

Mr. Singer declared today he had no intention of intimating that all the names were illegally listed.

"The names on the list may have been put there with every justification," he said.

"Scotch," Made In Germany Is Shipped To U. S. From Canada

NEW YORK, Oct. 1.—The shipment of Canada of 15,000 cases of German "Scotch whisky," a synthetic product made from alcohol, coloring and flavoring chemicals, for subsequent smuggling into this country, is a discovery reported by Federal agents engaged in deciphering papers and running down clues obtained in last week's raids on a bootleg syndicate's Broadway offices.

Emory R. Buckner, United States Attorney, said that he had received verification of this information from American officials in Bremen, Germany. The shipment from that port was arranged for last March by Arthur Kraus, one of the 24 men accused of conspiring to violate the Volstead act, Mr. Buckner declared. The liquor arrived in Halifax on April 22, the prosecutor added, and was transferred to several small schooners.

According to Mr. Buckner, each of the 15,000 cases was marked "G. Sanderson & Co., Ltd., London and Glasgow, pre-war strength, 44 per cent, alcohol, pure Scotch whisky, Havana, Cuba."

The examinations are held by the special examining board composed of Chief Surveyor A. T. Murell, Chief Forester I. S. Webb and R. A. McFadden, and consist of both written and practical tests, the latter being carried out at the Victoria Mills. Candidates for licenses must be 22 years of age, British subjects, and have more than two years of scaling experience before being permitted to take the examination.

OTTAWA ON 18TH

Besides a \$50,000 congressional appropriation for the Union's conference and use of the House chamber granted by this government, the American group is paying all expenses of the foreign delegates from the time of their arrival at New York to the departure at Niagara Falls on Oct. 11. The Union will hold its last session in the Canadian House of Parliament, at Ottawa, on the 18th.

The draft resolution on codification of international law drawn by Elihu Root, and around which the chief conflict of the conference is expected to centre, follows:

"While greeting with satisfaction the labors undertaken by the committee of experts called together by the League of Nations to indicate the questions of international law suitable for progressive codification, nevertheless considers that the best method to follow would consist in establishing a general and constructive plan for such codification, based on the progress made during the recent years, with a view to finding the fundamental conditions of the regime of peace to be instituted between the nations, to providing for the judicial settlement of disputes which constitute a threat to that regime and to the application, if necessary, of methods of execution and sanction.

FOREIGN MINISTER URGED FOR CANADA

External Affairs Debates in Commons Expected by Falconer.

TORONTO, Oct. 1.—The institution of a Canadian Minister of Foreign Affairs was advocated by Sir Robert Falconer, Chancellor of the University of Toronto, who addressed the Empire Club today, and gave some impressions of his recent tour of Great Britain.

"We should a minister who could devote all his time to study foreign affairs," Sir Robert declared. "We as Canadians will be forced to take a more intelligent relation to what is going on in the world at large, through the League of Nations at Geneva. I am confident that the time is not far distant when there will have to be at every session at Ottawa a discussion of foreign affairs."

CHURCHILL BUDGET ESTIMATES ARE OFF

Income Tax Collections Drop and Fighting Services' Cost Increases.

LONDON, Oct. 1.—The first half of Winston Churchill's financial year has been disappointing. Owing to a decrease in revenue largely due to a falling off in income tax collections which are down by £9,000,000 and the increased cost of the fighting services which is up by more than seven millions, the floating debt has been increased by £32,926,000 for the first half of the year.

Officials, however, maintain that there is no cause for alarm in these figures and that they are likely to be reversed by the end of the fiscal year, although it is pointed out that already several of Churchill's budget estimates have failed to reach his predictions. He only budgeted for an increased expenditure in the fighting services of £5,813,000 for the whole year, which is considerably below the expenditure for the half year.

THE EVENING TIMES-STAR, SAINT JOHN, N. B., FRIDAY, OCTOBER 2, 1925

### NIGHT SCHOOLS GET GOOD START

Fifty-One at the Various Meeting Places for First Night

Teachers Say Many More Looked For as the Work Goes On.

In spite of the short notice there were 51 pupils on hand last night to register for the free night classes opened by the Saint John vocational committee and it is expected that there will be a considerably larger enrollment by next week.

In King Edward School, where Rex Cormier is the teacher, there were upwards of 20 pupils assembled last night for instruction in reading, writing, spelling and arithmetic and the ages of the pupils ranged from 15 to 38 years. Several had attended the night classes in previous years and others were entering for the first time. One pupil was a Swede about 25 years of age, who had had good schooling in his own country, but found the English language perplexing.

The pupils represented practically every grade from one to eight and were apparently greatly interested in taking up their studies. Mr. Cormier said last night that he had very many inquiries from students who would attend the classes later and there were several prospective students who were doing night work this week who would enter the class next week.

#### KEENER INTEREST.

Mr. Cormier believes that there is a keener interest in the night schools just now as the pupils are preparing to enter the vocational school when it opens next spring and are planning to get thoroughly prepared for the opportunities the vocational school will offer.

In the School Trustees' building where Miss Frances Traynor will teach the class of women and girls there were 11 girls enrolled last evening and seven were new pupils, the others having attended last year. Their school standing was from grade four upwards. As Thursday evening has not been a regular night for the girls' classes in the Trustees' building it is thought very likely that there will be a much larger number on hand tonight to enroll. These classes in spelling and the "Three Rs" are held on Monday, Wednesday and Friday evenings.

#### WEST SAINT JOHN.

In the New Albert School it was "girls' night" and only the pupils for the girls' and women's class put in an appearance. Their teacher is Miss Jessie Hartt and she had 10 pupils enrolled last night, all 10 being new pupils registering for night class instruction for the first time. Their standing ranged from grade five to grade 7. A number of the pupils attending her class last year have already told Miss Hartt they will be back again to continue their studies the enrollment is sure to be considerably larger.

### MEXICAN SOCIAL LEADER IN MOVIES

Dolores Del Rio, Mexican social leader, has collected an elaborate wardrobe and gone to Hollywood to enter the movies under a contract held by Edwin Carew. She is believed to be the richest girl in Mexico.

E. J. Alexander will instruct the class for men and boys which will meet in the New Albert School on the alternate nights not taken by the girls' classes.

For the classes in mechanical drawing conducted by A. G. Guter in Centennial building there were 10 pupils who registered last night. All of these pupils are employed in the daytime and they are about evenly divided as new pupils and pupils who attended last year. Which nights the mechanical drawing classes are to be held will be definitely decided later. Mr. Guter will be at the Centennial building again tonight to receive any more registrations.

#### INSPECTORS IN CHATHAM.

### Persecution Report Is Denied By Rumania

LONDON, Oct. 2.—Reports that Rumania is persecuting the inhabitants of the province of Bessarabia, as related in Vienna dispatches, are denied as "absolutely false" in a statement issued here by the Rumanian Legislation on the authority of the Bucharest Government.

"These reports are repeated periodically," the statement says, "but subsequent events always fail to confirm them."

### Warehouse Work In Moncton Begun

MONCTON, Oct. 1.—The T. Eaton Company, Limited, has awarded the contract for the erection of a new warehouse on the south side of their present building to the Parsons, Ed Company, Limited, contractors and engineers of this city. Work was started this morning on the grounds. Building operations will be rushed to completion at the earliest possible date. The building will be constructed of reinforced concrete, clad brick and structural steel, with tar and gravel roof, and will have steel sash wire glass windows and kalamein doors. It is to be 92 feet by 133 feet and one story high, although the foundations are to be strong enough to permit additional storeys to be added if necessary.

### Exhaustion Found Fatal to Woman, 71

HALIFAX, Oct. 1.—The body of an aged woman discovered in the woods near the western shores of the North-west Arm last night, was identified this morning as being that of Mrs. William Breen, 71, who disappeared while berry picking on Aug. 10, last. Hanging from the alder bushes above the body was found a wreath of faded leaves and a rudely formed cross. The coroner's jury returned a verdict of death by exhaustion.

### Grain Rush Starts At Montreal Port

MONTREAL, Oct. 1.—Today marked the commencement of the real annual grain rush through this port and from now until the close of navigation there will be a continuous stream of prairie products carried overseas via the port of Montreal. A total of 18,919,847 bushels of grain was received here during September.

### KATO GETS SCARE

TOKYO, Sept. 30.—Premier Kato, like many other Japanese officials, is in constant fear of his life. The other day while riding on a train to a political conference, an explosion shook the cars, and Kato jumped clean out of his seat. At first it was thought it was an attempt upon his life, but an investigation proved that the blast was part of a construction project, but had been improperly timed.

### STEAM SHOVEL HITS BACK.

NEWARK, N. J., Oct. 1.—When a steam shovel ran amuck here, the operator stuck to his post, and pulled his whistle cord until the machine stopped after it had smashed into a bank building.

### WOULD WIPE OUT OLD BUILDINGS

Fire Board Seeks Action for Safety in Bond's Alley

C. N. R. to Co-operate—Board Passes Resolution on Death of W. B. Snowball.

An effort to have several old and dilapidated buildings in Bond's Alley, which are owned by the C. N. R., removed is being made by the New Brunswick Fire Prevention Board and at the meeting yesterday afternoon the fire marshal, H. H. McLellan, reported that he understood the railway authorities would meet the wishes of the board. There was discussion of means to further reduce the fire losses throughout New Brunswick and steps were taken to assist J. Groves Smith, Dominion fire commissioner, who will spend his time in the province this year during fire prevention week.

The board received several requests from various parts of the province asking for the services of the fire marshal in investigating recent fires and also for the purposes of inspection of properties.

#### RESOLUTION.

The following resolution was adopted by the board previous to adjournment in respect to the death of the late W. B. Snowball, who was a member of the New Brunswick Board and keenly interested in its work:

"Resolved, that the New Brunswick Fire Prevention Board, regularly assembled, wishes to express its sense of the grave loss the board has sustained in the death of our recent associate, Mr. W. B. Snowball, ex-M. P. His ripe judgment was most helpful in the organization of the board and the services rendered by him was of great value in insuring the splendid results achieved by the board.

"And further resolved, that this resolution be recorded on the minutes of the New Brunswick Fire Prevention Board and that a copy be forwarded

to his family to whom this board wishes to convey its heart-felt sympathy."

Those present at the meeting besides Hugh H. McLellan, fire marshal, were Colonel M. B. Edwards, who presided; J. D. McKenna, J. Cecil Mitchell and R. S. Ritchie.

Much business of a routine nature was also transacted.

#### PRIZE WINNERS.

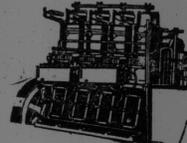

The prize winners at the Fundy chapter, I. O. D. E., bridge of 55 tables held last evening in the Admiral Beatty Hotel, were as follows: First, an "Adjusto" light, won by John G. Burke; second, brass book rack, won by Mrs. P. F. Brown; third, book, won by Miss Ethel Wilson; lucky prize fruit bowl, won by Miss Edna Shaw.

#### TAKES OFFICE.

W. R. Turnbull, newly elected president of the Board of Directors of the Home for Incapacities, took office for the first time yesterday at the regular meeting of the board. Only routine business was dealt with. There is one vacancy in the male ward at the home but the filling of the vacancy was deferred until the next meeting as there had been three applications received.

### Captain McMillan's Ship "THE BOWDOIN"

powered with a Fairbanks-Morse "C.O." Engine

When Captain MacMillan originally equipped "The Bowdoin" for her voyages to the Arctic Regions he chose as his power plant a 45 h.p. Fairbanks-Morse "C.O." Engine. This engine was put to very severe tests and was found to be perfectly reliable under every condition. It was even found to operate perfectly on whale oil.

If you require an engine for any type of boat, investigate the "C.O." It is most economical of fuel and upkeep, uses low grade fuel oils and provides immediate starting from cold.

Made in sizes from 7½ to 360 H.P.

## Discovered...

A new way to give men's socks 3 to 4 times more wear

Now you can get smart silk and wool hose that are also durable. A new discovery assures 3 to 4 times more wear than such hose ever gave before. This new type sock is called Holeproof Ex Toe.

No. 1720 Ex.—A smart new men's style, rayon blended with fine boyam yarn. Good warm weight. In combinations of white and the following colors: Oxford, brown, brown and grey. \$1.00

No. 1770 Ex.—Fine Cashmere with pure thread silk plaited on the outside. In appearance a silk hose, but with the warmth of wool. Ideal for dress or every day wear. Black and plain shades. \$1.25

Other Ex. Toe styles are: No. 1730 Ex., Rayon and wool tussled, \$1.00; No. 430 Ex., Pure Thread Silk, \$1.00, and No. 440 Ex., Fine Light, 50c. All equally stylish and durable.

THE one big drawback to silk and wool socks in the past was the fact that they wouldn't wear. This objection is now removed. You can enjoy the comfort and style of smart silk and wool socks and know that they will give long service.

No excuse now for holes at the toe. The weak spot is gone. It has become the strongest part of all through this new principle of scientific knitting.

The idea is simple—so simple one wonders it was not thought of long ago. By extra reinforcement at the tip of the toe—where nine socks out of ten wear out—wearing qualities are multiplied 3 or 4 times.

The reinforcement at the toe is hidden. No heavy, cumbersome thickness. No bunching, no discomfort. You can scarcely see it; your foot can't feel it at all.

This wonderful innovation is exclusively Holeproofs. It is offered in a variety of attractive styles. Soft, warm silk and wool, roomy in the feet, snug-fitting at the ankles.

And the cost is moderate—\$1.00 and \$1.25 for the smartest styles. Silk or lisle numbers, too, if you wish, at 50c and \$1.00.

Get a few pairs today. See how much farther they will go than ordinary kinds. Be sure you ask for Ex Toe.

Saint John Men Proposed For Position Under Prohibitory Law.

MONCTON, Oct. 1.—When the Grand Lodge of the Independent Order of Good Templars met in Moncton some time ago a resolution regarding the enforcement of the prohibition act in New Brunswick was adopted. The resolution was withheld from publication at the time. It is now announced that one paragraph was as follows: "Whereas we believe that Past National Chief Templar E. N. Stockford has qualifications eminently fitting him for the fulfilling of the duties of said office to the satisfaction of the people of this province and with honor to our organization. Therefore, resolved that we commend to the Premier and the Government the appointment of Mr. Stockford to the position of chief inspector under the Prohibitory Act of New Brunswick."

Norris Requested To Run As Liberal

WINNIPEG, Oct. 1.—Hon. T. C. Norris, former Premier of Manitoba, and present member and leader of the Liberal opposition in the Provincial Legislature, was tendered the unanimous nomination of a Liberal convention which met last night to choose a candidate for the federal constituency of South Winnipeg.

Mr. Norris expressed his gratification at the honor accorded him, but asked several days to consider the matter. WOMEN WHO LOOK OLD. In many cases they are not old in years, but because they are overworked, over-tired, nervous and run-down, ailments have developed peculiar to their sex and this condition makes them look years older than they actually are. Such women should consider the remarkable record held by Lydia E. Pinkham's Vegetable Compound. In a recent canvass among over one hundred and twenty-one thousand women who had used it, ninety-eight out of every one hundred women reported benefit from its use.

An almanac, printed in 1643, was the first book in Norway. Dented or even slightly bent rims often cause rim cutting of tires.

POLICE SUSPECT INSURANCE PLOT

Body is Taken From Cemetery, Placed in Car and Set Afire.

BINGHAMTON, N. Y., Oct. 2.—Delaware County continued its investigation today into the disappearance of Fred G. Beale, insurance underwriter, of this city, and the removal of the body from the cemetery near where, in an automobile accident Friday night, a wrecked car containing a charred body was found. An inquest was held, before which fourteen witnesses were summoned to testify. The inquest also sought to determine the identity of persons who, with canvas gloves and a shovel, dug up a body described as that of James Davis, of Hancock, who died of tuberculosis; placed it at the steering wheel of the overturned automobile, which later burned, and left the unrecognizable body.

INSURANCE PLOT HINTED. S. S. Bushfield, undertaker, of Hancock, who took charge of the body removed from the burned car, testified at the inquest that the body showed decomposition. Authorities said they believed Beale

J. R. McDONALD GETS BACK OLD PRESTIGE

Appears to Have Recovered Fighting Spirit; Wins Over Waverers.

LONDON, Oct. 1.—Ramsay MacDonald's comeback. This is the outstanding feature of the Liverpool conference, in the opinion of the majority of Labor leaders. MacDonald seems suddenly to have recovered his old form and fighting spirit and the huge majorities that endorsed all his policies during the last two days have given him a prestige which will undoubtedly strengthen him in the House of Commons and will be felt at the next conference. MacDonald has completely won over the wavering support of those who were inclined to criticize him for his inactivity and has completely recovered any setback which the Zinoviev letter gave him. On the other hand his triumph has intensified the bitterness of the opposition against him.

Important Announcement Robinson's Clothes Shops makes a Daring Departure in Policy! Starting Saturday, Oct. 3rd my entire stocks of suits will be sold at only two fixed prices. ONE and 2-Pants Suits - \$25.00 Nothing Higher \$32.59 EVERYBODY KNOWS - EVERYBODY knows that I sell only a first-class high-grade product... ROBINSON'S CLOTHES 90 KING STREET (Upstairs)

"I'm sorry.. but I'm just dead tired"

There's tragedy. Often invited. Seldom able to go. She is out of the things she loves. Day after day that tired, listless feeling forces her into an exile she loathes. Yet there is pleasant, safe, permanent relief from her trouble—for it is constipation which is sapping her strength. Kellogg's ALL-BRAN brings certain relief from this dread disease. Kellogg's ALL-BRAN travels through the system without changing its fiber. Its bulk sweeps the intestine clean, driving out the poisons of constipation, stimulating the flow of digestive juices. It induces the system to act as nature intended. How different from the action of irritating, habit-forming pills and drugs, which become less than useless unless the dose is increased. Eat two tablespoonsful of Kellogg's ALL-BRAN daily with milk or cream, sprinkled over cereals, or cooked with cereals; in soups, or made into the many recipes given on the package. Kellogg's ALL-BRAN is guaranteed to bring relief or the grocer returns the purchase price. In chronic cases, eat ALL-BRAN with every meal. Delicious with fruits, baked apple, etc.

KNOW THE TRUTH ABOUT BRAN To be effective, bran fiber must pass through the various digestive processes without submitting to any of them. It must pass through the entire alimentary tract without its form being changed. What happens when a bran food is eaten? After he swallows has acted upon it, it passes through the stomach and into the intestine, where every part which is not fiber is absorbed. In ALL-BRAN the quantity of fiber is so great that it furnishes bulk enough to prevent and relieve constipation. In a part-bran food, the quantity of fiber is so small that there is only a puny amount to do a herculean task. ALL-BRAN brings sure results. Demand it. Warn! Be sure to get Kellogg's ALL-BRAN. Only ALL-BRAN brings sure results. A part-bran product can, at best, be but partially effective. Kellogg's is the original and only ALL-BRAN. Doctors recommend it. Accept no other. All grocers sell it. Leading hotels and restaurants serve it. The original ALL-BRAN—ready-to-eat. RELIEVES CONSTIPATION Kellogg's ALL-BRAN DIED-KRUMBED READY TO EAT Kellogg's ALL-BRAN KELLOGG COMPANY OF CANADA LTD. LONDON CANADA

IN WALL STREET. NEW YORK, Oct. 2.—Stock prices displayed a strong tone at the opening of today's market, with buying influenced by the retention of the 4 1/2 per cent. discount rate by the New York Federal Reserve Bank, and the announcement that Finance Minister Caillaux had agreed to carry back annual payments of \$40,000,000 for five years on her debt, pending a final solution of the problem. Motors were again in brisk demand, and a better inquiry was noted for the standard industrials. United States Steel common and Baldwin each opening a point higher.

Brokers' Opinions NEW YORK, Oct. 2.—Block Maloney says the market will not advance today. He is an extended long account and the weak technicalities of the market will be replaced by a more active market. "While we remain friendly toward the market, we are not trying to assure the market of the holding of stocks against what we believe to be a strong holding of good selling against more or less speculative commission house buying and when a reversal of these conditions takes place, we will not follow suit on short notice." "Naturally, to matter what we do at the levels of the present one is bound to be in a position to take advantage of a sudden change. Also quite naturally a trading position is the best. We recommend the purchase of stocks on weakness."

Morning Stock Letter NEW YORK, Oct. 2.—Despite the rise in the immediate future of the market, still uncertain. The advance yesterday was due to the fact that the market was a time probably and will continue to be more irregular. However, to matter what the market does in the immediate future, we think a number of stocks will sell higher. A. G. R. Pfd. can still be bought. In the motor world, buy M. O. and Fisher Body on any day. Rubber stocks were the big feature yesterday. U. S. Rubber looks still higher and it also can be bought on any day. In the mail group we saw 410 bullies in Central, Southern and C. & O. Packing stocks look higher, particularly Swift.

DODD'S KIDNEY PILLS. COSTS ONLY 3 CENTS TO REMOVE YOUR WRINKLES. Better than massage for removing wrinkles and age lines, far less expensive and more effective. In a simple jar-rook mixture which any woman can prepare and apply in a jar. Almost immediately after spreading this over the face there is a pleasant, soothing sensation and the mirror shows the horrid age lines and "smugs" disappearing like magic. In less than fifteen minutes the face is as smooth and firm as a schoolgirl's. Seems almost too good to be true. All one needs is to procure an original package of tartarum from the drugist, mix a spoonful with a spoonful of lemon juice and apply with the fingers. This, of course, is perfectly harmless. It is easily washed off, leaving the face wonderfully refreshed and rejuvenated with a healthy glow. And the cost of such treatment is 3 cents!

FAVOR UNIFORM TRAFFIC RULES. Resolution Presented to Safety Congress Held in Cleveland. CLEVELAND, O., Oct. 2.—Uniform traffic regulations throughout the country should be adopted and traffic movement should be considered as a state and local problem of engineering importance in order that the tremendous toll of dead and injured in automobile accidents be cut to the minimum. This recommendation was included in those adopted by the resolutions committee of the National Safety Congress in session here. The committee declared that the thousands of accidents occurring each year could have been prevented. "Both motorist and pedestrian should take due regard of the rights of each other," the resolution continued, "and failure to recognize their respective rights is likely to result in injury."

Marks, wealthy president of the Skinner Organ Company. Mrs. Dornblaser was accused of having caused an anonymous letter, making scurrilous references to the present Mrs. Marks, to be sent to the Marks residence. The present Mrs. Marks was formerly Mrs. Margaret Hoover. A damage suit for \$250,000, charging defamation of character, which Mrs. Marks brought against Mrs. Dornblaser, is said to be pending as another outgrowth of the alleged "poison pen" letter.

DAY'S GRAIN LOAD EXCEEDS WHOLE CROP YEARS AGO. Wheat Being Marketed at Rate of Seventy-Five Bushels a Second. ELEVEN MILES OF CARS UNLOADED IN DAY. C. P. R. Statistician Gives Some Interesting Figures on Canada's Big Harvest. Special to The Times-Star. WINNIPEG, Man., Oct. 1.—If all the wheat marketed during September along the Canadian Pacific Railway were baled into bread and loaded on standard delivery wagons, each wagon to contain 1,000 loaves, and traveling at the rate of five miles an hour, it would take eight and a half weeks for these loaves to pass a given point. This is the statement given out here Thursday by the statistician of the transportation department of the railway.

GREAT MARKETING. The marketing of grain on the C. P. R. in September amounted to 62,684,967 bushels. In 25 nine-hour days, this is at the rate of 75 bushels per second. Forty years ago the wheat crop of Western Canada amounted to 3,500,000 bushels, and 25 years ago it was only 17,000,000. Today the railways in Western Canada are transporting every 24 hours an amount of wheat in excess of the entire crop of four decades ago. This heavy marketing has been met in record-breaking fashion by the C. P. R. During September 35,391 cars were loaded with 59,844,886 bushels of grain, representing a car load every 2 1/2 seconds. Of these cars, 27,400 have already gone to the lake head with 45,648,400 bushels of grain.

RECORD DAY'S WORK. In a period of 12 hours on September 28, 1,476 cars, or 2,164,116 bushels, were unloaded into elevators at the head of the lakes, on Canadian Pacific tracks alone. This is an equivalent of 60 bushels per second. If all the cars unloaded on this particular day were placed end on end, they would stretch across a distance of 11 miles.

Bride Honored at Gathering of Friends. Mr. and Mrs. S. T. Congle were host and hostess at their home in Mansueth road last evening for a party of 40 friends who came to honor their daughter, Mrs. George Whitaker, formerly Miss Muriel Congle, and recently married. The house was prettily decorated with autumn leaves and cut flowers and the reception room was centred with a huge umbrella, which was only decorated with pink roses and tied with pink ribbon that had held the bride's bouquet. Pink and white streamers held the umbrella in place and underneath were artfully concealed gifts of cut glass, linen, silver and many other useful and pretty articles. Mrs. G. S. Munford, sister of Mr. Whitaker, made the presentation. At supper Mrs. Harry Daniels presided and was assisted in serving by Mrs. Munford, Mrs. Frank Arthurs, Miss Margaret Ewart. Games and music formed a part of the evening's enjoyment.

\$8,000,000 GEMS STOLEN IN N. Y. Entrance was gained into Mrs. Donahue's room where she had placed the jewelry in a draw in her dressing table, either while she was in her bath or during the time that she took her afternoon nap until 7 p. m. Keys left dangling in the door furnished entrance. Police found two strings of imitation pearls, valued at about \$100 which had been placed in the drawer as substitutes. The robbery apparently was deliberately planned after a careful study of Mrs. Donahue's movements, they said. One of the pearl necklaces was valued at \$400,000 an the other at \$250,000.

LOCAL SQUAD IS ONE OF FINEST IN MANY YEARS

Kickoff For Opening Game Set For 3.30 o'clock

ONE of the best rugby squads put together in years is the unanimous comment of rugby fans who have been watching the pre-season practices of the Trojans on the Allison grounds and high hopes are entertained that they will defeat the University of New Brunswick fifteen here tomorrow afternoon in the opening game of the season. The kick-off has been set for 3.30 o'clock and a big crowd is expected. Dr. D. C. Maloin probably will referee.

After several weeks of intensive practice, the line-up for the Trojans tomorrow will be: Fullback, Dick Starr; three-quarters, Alan MacGowan, Jimmy Clow, Rev. C. J. Marcham, Hazen Short; halves, Eric Snow, Webster and Gordon Wilson; front line, Hollies and Millidge; centre, "Beet" Malcolm; second line, Burton and R. CAPITAL ORGANIZES

The first step toward organizing a Fredericton city rugby football club for season 1925 was taken Wednesday night at a meeting held in the Board of Trade rooms there. Quite a number of those interested were present and it is hoped to interest others. Aiden Clark acted as secretary for the time being and no attempt at permanent organization was made, but will follow shortly it is expected.

The University of N. B. has agreed to permit the City Club the use of the university athletic field when not in use by the college squad and an attempt will be made to get players out for morning practice or work-outs at other convenient times. It is hoped to start this week.

A number of men who have played college or school rugby are expected to turn out. Among the ex-university players are Aiden Clark of Acadia, "Pat" Slipp of Dalhousie, Cecil Long of U. N. B., and Joe Sears of Merion College, Oxford. Many former Fredericton High players are about.

BRIDGES AS COACH

At a meeting of a large number of football players and enthusiasts held at Moncton recently, it was decided to start on and assurance was given that a good team would be placed on the field for the opening kick-off which is expected to be on Saturday, the 10th. Gregory Bridges was present and promised to do anything in his power to help the boys along.

The players available are: Ackman, Rodd, S. Jones, Abell, Spencer, Huntington, Wilson, Rogers, Penke, Gratton, Charters, Craudell, Coates, Ferguson, Ayer, Chandler, Pidge, Crowhurst, Ganong McCready and Trimble.

ALCOHOL FROM WASTE HOPS

A new microbe has been discovered by British chemists whereby 10,000 tons of waste hops can be made to yield annually half a million gallons of alcohol suitable for motor spirit. Until this discovery English brewers paid large sums every year for the carting away of their "waste" hops.

McKenna-Quill Bout Is Set Over To October 13

The Arena management received word this morning from Jack McKenna, Cape Breton welterweight, who knocked out Joe Carbone recently, that October 23 offered him O. K. for his bout here at the Arena with Frankie Quill, and Quill has been notified to that effect. Work was received last night that McKenna would be unable to be here on Oct. 6 as planned owing to injury received in his hand in the Carbone affair.

Eighty-six entries have been received for the 31 events carded for the first schoolboy meet ever to be held on the West Side playgrounds, commencing tomorrow afternoon at 2 o'clock. Officials have worked hard to put this over and the response of the boys has been gratifying.

W. E. STIRLING TO HANDLE MEETING

Large Representation Expected From Affiliated Amateur Clubs in the City.

W. E. Stirling, New Brunswick vice-president of the M. P. B., will preside at the meeting called this evening at 8 o'clock for the Victoria Hotel of all the affiliated amateur clubs in this city to consider plans in connection with the annual meeting of the M. P. B. which has been called by President Millie for Halifax on Friday, October 16. The meeting is expected to voice its protest of the arbitrary manner in which this meeting has been called in the face of considerable opposition from the majority of clubs in the union and also to talk over matters that may arise at the annual meeting. Mr. Stirling has been in touch with most of the local clubs and they have promised to have delegates present.

AMHERST, N. S., Oct. 1.—Members of the Amherst Amateur Athletic Association have expressed their feeling over the action of President Millie of the M. P. B. A. U. of C. in calling the annual meeting of the association in Halifax. It is felt here, as in other quarters, that the season should have been held in Truro, Amherst or Moncton, as the leading clubs outside of Halifax, or at least the clubs sufficiently interested to send delegates to the meetings are situated in Charlottetown, Saint John, Moncton, Amherst, Springhill, Sussex, New Glasgow, Pictou, Westville and Stellarton. In the last few years none of the South Shore clubs have been represented at any of the M. P. B. meetings, while Cape Breton had delegates present in 1924.

AS THE WEEK approaches completion with the opening game of the world series drawing nearer and nearer, interest in this great autumn classic slowly mounts as the respective parties to the dispute are put under the journalistic microscope in efforts to arrive at the correct "dope" as to what the issue will be. Washington partisans point with pride to the well-known "money-playing" ability of the Senators while the Pittsburgh fans are equally enthusiastic over those 200 hitters on the Pirates' line-up. And so it goes, their men depart. The inborn love of the Americans for a great display finds plenty of room for action in yearly meeting of the National and American league winners, whose members are given all kinds of opportunity for being a goat today and a hero tomorrow. A few short months from now, the details will be forgotten and the tense thrilling plays only remembered. And so it goes until next year, only on a bigger scale. Where will it end? This is the day of millions in sport—millions of people watch and millions of dollars are made and lost.

SENATORS STRONG IN RESERVE POWER

Pirates Not So Strongly-Fortified Along The Second Line. NEW YORK, Oct. 2.—Stanley Harris, manager of the world champion Washington Senators, learned in the world's series a year ago, that there is much truth in the argument that no baseball team is stronger than its reserves. Washington has profited by the lesson, for behind the regular line-up now is a powerful squad of veterans and youngsters, ready to step in whenever a regular falls. Against the Giants, in 1924, Miller and Taylor showed poorly in the infield, after Peckinpaugh was injured, and Bluege shifted to the shortstop. Infield lapses almost cost Washington the world's title.

W. E. STIRLING TO HANDLE MEETING

Large Representation Expected From Affiliated Amateur Clubs in the City.

W. E. Stirling, New Brunswick vice-president of the M. P. B., will preside at the meeting called this evening at 8 o'clock for the Victoria Hotel of all the affiliated amateur clubs in this city to consider plans in connection with the annual meeting of the M. P. B. which has been called by President Millie for Halifax on Friday, October 16. The meeting is expected to voice its protest of the arbitrary manner in which this meeting has been called in the face of considerable opposition from the majority of clubs in the union and also to talk over matters that may arise at the annual meeting. Mr. Stirling has been in touch with most of the local clubs and they have promised to have delegates present.

ON ALL SIDES WE HEAR MANY EXPRESSIONS OF SINCERE REGRET OVER THE UNTIMELY PASSING OF "TOMMY" WILSON. HE WAS A REAL FRIEND AND GENTLEMAN AND A CREDIT TO SPORT.

CHARLOTTETOWN ABBIES, a name very familiar in Maritime sport, once more hobnob into the limelight with a team that will meet the Watermen here Saturday in the final game for the Maritime title. In a way, the Abbies are lucky to get a crack at the title without eliminating anything more powerful than local competition but that is not their fault and who can blame them in making the most of it. Next year, the island will be called on probably to play the winners of the Moncton-Charlottetown-Bathurst combination and in view of Moncton's great work this year, it is doubtful if they can hurdle that barrier, providing it is as strong next year as this. On the other side of the fence, there can be no question about the Watermen's right to the title. They have evaded through a strong City League, Sussex, Moncton, Bathurst, Springhill and now Charlottetown in convincing manner and this city should be proud to have the best team in the Maritimes within its limits. It establishes our present victory, they showed themselves as good sports and have made a name for themselves wherever they have gone.

IT'S GOING TO BE A TOUGH JOB for the sports to figure out where to go Saturday—to the U. N. B.-Trojans clash on the Allison grounds, or the Maritime baseball finals.

AS THE WEEK APPROACHES COMPLETION WITH THE OPENING GAME OF THE WORLD SERIES DRAWING NEARER AND NEARER, INTEREST IN THIS GREAT AUTUMN CLASSIC SLOWLY MOUNTS AS THE RESPECTIVE PARTIES TO THE DISPUTE ARE PUT UNDER THE JOURNALISTIC MICROSCOPE IN EFFORTS TO ARRIVE AT THE CORRECT "DOPE" AS TO WHAT THE ISSUE WILL BE.

Washington partisans point with pride to the well-known "money-playing" ability of the Senators while the Pittsburgh fans are equally enthusiastic over those 200 hitters on the Pirates' line-up. And so it goes, their men depart. The inborn love of the Americans for a great display finds plenty of room for action in yearly meeting of the National and American league winners, whose members are given all kinds of opportunity for being a goat today and a hero tomorrow. A few short months from now, the details will be forgotten and the tense thrilling plays only remembered. And so it goes until next year, only on a bigger scale. Where will it end? This is the day of millions in sport—millions of people watch and millions of dollars are made and lost.

Fitzgerald Out of Boston Campaign

John F. Fitzgerald has dropped out of the fight for Mayor of Boston and by his action has thrown the whole city campaign into a state of greater confusion than at any time during the last month. The retirement of Fitzgerald came as one of the biggest surprises of the campaign to date.

MANAGER HORNSBY MAY EQUAL RECORD

St. Louis Pilot Almost Sure to Bat Above 400 Mark This Year.

NEW YORK, Oct. 2.—Rogers Hornsby will equal a major league record of long standing, if he keeps up his present 400 hitting pace for the last few games of the season. By doing that the great Cardinal manager will equal the mark of hitting 400 or better for three seasons, first established by Jesse Burkett, of the old Cleveland Nationals, in 1895, 1896 and 1899, and duplicated by Ty Cobb in 1911, 1912 and 1922.

Hornsby has a mark of 403, and there is little likelihood of his falling below that in the short space remaining before the close of the season. NEW YORK, Oct. 2.—The Chicago White Sox today had the mathematical chance of figuring in the players' share of the world series by tying Detroit for fourth place. However, the Tigers are sure of finishing fourth, while the best the White Sox can do is to tie them for that position. Each team has two games to play and the Bengals have a two-game margin on Chicago.

All hope of the Tigers overtaking the Browns disappeared yesterday when St. Louis won the opener of a series from them, 4 to 3. The Browns may now lose their last two contests without relinquishing the third rung. George Slaughter singled for the first time in 26 times at bat. Chicago's marked pitcher Blankenship's 17th victory of the season. Wingfield limited the Senators to five bingles, while the Red Sox won 3 to 1. In the National League the Phillies tagged a third straight setback on the Robins, 6 to 5.

DEMPSEY RETAINS LAWYER CANNON

Milwaukee Attorney Engaged to Take Jack Kearns' Place. CLEVELAND, Oct. 2.—Raymond J. Cannon, a Milwaukee attorney, will be Jack Dempsey's business manager in the future, the Cleveland News says today. Dempsey made this known here, last night, after he signed a contract with Cannon, which called for the latter to serve him as "legal and business adviser."

Cannon has been Dempsey's attorney for years. He succeeds Jack Kearns, with whom the champion recently split. Kearns holds a contract to manage Dempsey until August 3, 1926. Both Cannon and Dempsey contend, however, this contract was broken by Kearns, and therefore no longer legally exists.

CHAMPIONSHIP SHIELD SHIPPED FROM HALIFAX

THE Eaton Shield, emblematic of the Maritime senior amateur baseball championship, was shipped from Halifax yesterday, and it arrives in time it will be on view at the final game for the Maritime title tomorrow afternoon on the East End grounds between the Watermen, champions of New Brunswick, and the Charlottetown Abbies, who were beaten in the first game of the finals, 10 to 2, on Wednesday at the island capital. It was announced this morning that this important game, which, if won by the Watermen will bring to Saint John the Maritime title, will start at 2.30 o'clock sharp for the convenience of football fans who may wish to see the latter part of the rugby game on the Allison grounds. The usual time of starting these games is 3 o'clock, and fans are asked to note this change and not be disappointed by walking in a half-hour late.

Game Opens Early For The Convenience of Rugby Fans

Although it appears to be a foregone conclusion that the locals will emerge triumphant Saturday afternoon in view of their decisive win at Charlottetown, a large crowd of spectators probably will be on hand to see the 1925 amateur baseball season wind up in a blaze of glory. Never before has there been so much interest aroused throughout the Maritimes and amateur baseball as this year and that the final game should be written in Saint John, the home of many fine teams, seems fitting. Saint John fans have been privileged this year to see many Maritime teams in action, including Sussex, Moncton, Bathurst, Springhill and now Charlottetown, and that they have enjoyed the series is shown by the large numbers that have thronged to the games.

In Great Shape

The local squad is in great shape for tomorrow's game. Ira Hannah will start the game for the Watermen, with Eddie Sparks behind the plate, while the other regulars will appear at their usual positions. The team came out of the Charlottetown trip unmarked and by all the laws of dope should win hands down tomorrow. They will be opposed by "Lefty" McQuaid, a gent who caused them a few anxious moments on the island. For six innings it was a real ball game and then the break came.

No Further Word Will Be Received From Montreal Authorities, and This Proposed Series Will Not Be Pushed any Further. So Tomorrow's Game Will Be the Last of the Season.

**RATE APPEAL IS CONCLUDED**

**Decision on Repeal of Board's Orders Left With Rail Commission**

**Boycott Says Majority of Members Had Objected to Proposed Action.**

OTTAWA, Oct. 1.—Decision as to whether or not the recent order signed by Chief Commissioner H. A. McKeown, calling on the railways to put into effect similar rates on grain and flour moving Westward as those now effective on these commodities moving East shall be rescinded, is now with the Railway Commission. After three days of argument for and against the order, counsel for the various interested parties concluded this evening.

Commissioner Boyce placed the circumstances leading up to the issuance of the order, before the Alberta counsel. He said that two commissioners had gone to British Columbia, held hearings, and come back to Ottawa. Then they had sat in at a meeting of the full board and stated what they proposed to do in the case.

**MAJORITY PROTESTED**  
The majority of the board, said Commissioner Boyce, had protested against the proposed action.

"You are aware that it is the usual judicial proceeding for the majority to rule, and this board is a judicial body," he informed Mr. Woods.

Then he asked him if he thought the order was a proper one. Mr. Woods replied that if the majority of the board had directed that the action proposed by two members should not be taken, the subsequent order would not have been regular.

**THE GREAT AMERICAN MELTING POT**

Twenty-four nationalities are represented in this group of 24 children attending a St. John's school. The nationalities follow: Top row, left to right, German, Indian, Hebrew, Russian and Norwegian; middle row, Brazilian, Luxemburg, French, Bulgarian, American, Mexican, Danish and Polish; lower row, Rumanian, Irish, Lithuanian, Spanish, Grecian, Bohemian, Dutch, British, African, Scotch and Austrian.

This the majority had not done, however.

**MINORITY ARGUMENT**

"How could this court function when the chief commissioner was the only man who signed the order, and did it without the knowledge of the board?" asked Commissioner Boyce. "Your argument apparently is that a minority of the board can issue a judgment over the heads of the majority," he declared, at another point.

THE automobile for the River Glade Sanatorium patients was driven from Saint John to the sanatorium Wednesday and is now in use, giving great pleasure to its owners. In a letter received at The Telegraph-Journal office yesterday the thanks of the patients was expressed as follows:

"We were very glad to receive your telephone call today, stating that the required amount had been subscribed for our car. Kindly convey the sincere thanks of the patients of Jordan Memorial Sanatorium, to all those who contributed to, and helped to make our car a reality. We are also deeply grateful to The Telegraph-Journal for their kind cooperation in placing our appeal before the public and for their very generous allotment of space all through our campaign. We wish to thank Mr. Royden Thomson, manager of the Victory Garage and Supply Co., Ltd., for the exceptional low price at which he sold us a car. We first ordered a car less some of the special equipment. Mr. Thomson replied that the best was none too good for the patients, and asked us to consider the \$50 worth of extra equipment as a personal donation.

Yours sincerely,

**FOR LATE DONATIONS.**  
The Tuberculous Veterans' Association at River Glade has asked that any late donations for the fund be forwarded to the association as the additional money will be used to pay expenses incurred in the campaign and to cover insurance and other charges in connection with the maintenance of the car.

The Telegraph-Journal acknowledges the receipt of \$1 for the fund which was given by Miss Daniels, of Hazen street, and was inadvertently omitted from the last list of donations.

**ROGERS CENSURES KING CABINET WORK**

**Meighen Says One Factory—Fabrication One—Runs Overtime.**

WINNIPEG, Oct. 1.—Hon. Robert Rogers criticized the work of the Mackenzie King Government and what he called the "costly consequences of incoherent government" in the last hour.

The departure from the National policy of Macdonald and Tupper has resulted in the "most wretched conditions in Canada" during which Premier Mackenzie King, he said, has stood idly by and permitted Canada to be made the dumping ground for all other countries. Mr. Rogers referred to immigration and said the present Government had failed to keep up the standard of former years while at the same time increased expenditures to secure immigration.

Right Hon. Arthur Meighen said that there was at least one factory working overtime under the Mackenzie King administration—"The fabrication factory, which sought to show that I, Meighen, am the foe of the west when I am in the west, the foe successively of any part of the country I happen to be in, but most of all the foe of the Canadian National Railways."

The Conservative party was, he said, the parent of the National Railway, and the Liberal party was now trying to make the people believe that "the parent was trying to strangle the child."

**BAR'S RAIL MERGER**

"If I am returned to power, I shall not take your mandate to amalgamate the Canadian National with the C. P. R.," said the Conservative leader.

In 1919 and subsequent years the Liberal party had pledged itself to remove customs duties on 17 classes of articles, Mr. Meighen said. The Liberals and Progressives were elected on the same tariff policy in 1921, and the Liberal party had had a majority in the commons not of one but of 68, and yet of the 17 promised tariff removals one had actually been given.

**FISHERIES SHOW BIG INCREASE**

**Huge Catches of Cod and Herring in Atlantic Recorded**

**Herring Yield in Charlotte and N. S. Areas Reported Large.**

OTTAWA, Oct. 1.—An increase of 3,526,400 pounds, or \$88,745 in value, is shown for the total quantity of sea fish landed on both coasts of the Dominion during August, as compared with the month of August, 1924.

The amount landed on the Atlantic and Pacific coasts in August was 123,885,700 pounds, with a value to the fishermen of \$3,171,738, as against 114,459,300 pounds, valued at \$3,085,693 during August, 1924.

**INCREASES SEEN.**

The increased quality, states the Department of Marine and Fisheries, is due altogether to larger catches of cod and herring on the Atlantic coast and pickards on the Pacific coast. On the Atlantic coast, there were 45,568,700 pounds of cod, haddock, hake and pollock taken during the month of August. This is an increase of 12,416,300 pounds over August of last year when 33,152,400 pounds were taken.

**13,822,400 POUNDS OF HERRING.**

The quantity of herring taken was 13,822,400 pounds, compared with 7,621,400 pounds in the preceding August. Large quantities of these fish were taken in the waters in Charlotte county, N. B., while good catches were also recorded in southwestern Nova Scotia.

The mackerel catch shows a drop again, only 1,412,700 pounds being taken in August, compared with 2,486,700 pounds in the preceding August. The catch of sardines was 41,081 barrels, which is slightly less than in August, 1924.

**LOBSTERS.**

There were 1,208,900 pounds of lobsters taken during the month, of which 811,300 pounds were shipped in shell and the rest canned, making 3,707 cases. In the preceding August, there were 1,208,900 pounds canned of which 480,900 pounds were used fresh and the rest canned.

**INCREASE IN COD.**

The catch of cod shows a big increase of 12,539,600 pounds, which is mostly due, it is stated, to a larger number of vessels of the Lunenburg, N. S., fishing fleet returning towards the end of the month under review will full fares. Good landings of cod were also made in Gaspe and Saguenay counties, Quebec.

A child between five and nine years old is more likely to be struck by an automobile than at any other age until reaching sixty and above, according to a National Safety Council's analysis of figures from the Census Bureau, says "Popular Mechanics." The same report shows that the greatest risk from drowning occurs at an age of between 15 and 19 years, the most active swimming ages. Babies of one also show a

high mortality rate from drowning and this was held to reflect the hazard of allowing a toddling child to venture unwatched among washbasins and near creeks.

A large number of deaths from scalds and burns was noted at the ages of two and three, the survey showing 37.3 per 100,000 infants in those age groups. The total declines rapidly after four and does not rise greatly until seventy, when many of the perils of childhood again are a menace. Death from falls and from asphyxiation, as well as from auto and burns, indicated the hazards of old age. Falls alone caused 822 deaths per 100,000 persons at the age of eighty and over.

The report shows that they are, by far, the most important accident hazard for the aged. Firearms take their greatest toll at about high school age, illustrating the risk of allowing inexperienced persons to handle them. Deaths from poisoning are most numerous among babies one year old, and mechanical suffocation—that is, by pillows, blankets and the like—is almost wholly confined to infants less than one year of age.

J. J. BRADLEY OF MONTREAL DEAD

Former Saint John Man was Widely Known and Popular

News of Death Shock to Friends Here—Had Just Returned From Florida.

John J. Bradley died at his home in Westmount, Montreal, last evening after illness that must have been of brief duration, as he had been in his usual health when Saint John friends saw him a short time ago. The news of his death came in a telegram to D. J. Corr early this morning, and it caused many expressions of regret as it circulated about the city, for Mr. Bradley was widely known and numbered a great many friends here. Coupled with the words of regret were eulogies of Mr. Bradley because of his personality and of his outstanding qualities that had made him very popular. Men who knew him well spoke of his high qualities, his welcome companionship, his uprightness and of his many acts of charity unostentatiously performed. He had traveled extensively on both sides of the Atlantic.

TO MONTREAL IN 1917. Mr. Bradley was about 44 years old. He was born in Saint John and early in life entered the employ of John O'Regan as a traveler. After some years in this occupation he went into business for himself as a wholesale wine and liquor merchant in Dock street. There he continued with success until 1917 when he removed to Montreal. In the latter city his business had expanded greatly.

WIFE AND THREE SONS. Mr. Bradley is survived by his wife, who was Miss Geraldine McGowan, of Memramcook, and by three sons, John, who is a student at St. Michael's College, Toronto, and Arthur and Francis, who are attending Loyola College, Montreal. There also are two sisters of Mr. Bradley, Mrs. Gregory McDermitt, of Saint John, at present on an automobile journey in the United States, and Mrs. C. M. Scully, of Quogue, Long Island, N. Y. His father, John Bradley, died a good many years ago and his mother, Mrs. Catherine Bradley, more recently.

Mr. Bradley had been very ill from rheumatism some three years ago and there was a recurrence last winter, which affected his heart. Mr. Corr, who has been associated in business with Mr. Bradley for a number of years, will leave for Montreal on this afternoon's train.

TO SPEND MORE ON COURT HOUSE

Acoustics Not Good and \$1,460 Needed to Overcome Trouble

Dispute is Adjusted—Jail Roof to be Repaired and Fence Built.

A recommendation that the bond issue of \$85,000, the authorized appropriation in connection with the restoration of the old Court House, be increased by \$1,460 to do away with acoustics trouble experienced in the court room, was adopted at a meeting of the Buildings Committee of the Municipal Council which held its first session in the renovated building this morning.

Garrett W. Wilson, the architect, made known that the trouble encountered on the opening of the court room was typical of buildings with masonry walls and in a hard finish. He said that the trouble could be overcome considerably by installing padding between the walls and a specially prepared solution. The recommendation to increase the bond issue will come before the finance committee this afternoon. Warden R. W. Wigmore presided and other members present were Councilors John T. O'Brien and Murray Campbell, Fairville; Councillor Bowland, St. Martins and Councillor Harding, city. COST \$81,355.

The warden announced that the total cost of the restoration of the old Court House had been \$81,355.47. There had been \$800 held back from the carpenter until the linoleum in the court room had been taken up, dried thoroughly and replaced. It was said it had been laid at the carpenter's risk before the dampness had fully gone out of the building.

It was made known that there was a dispute, involving \$150, between J. S. Coughlan and the architect in regard to some coverings to pipes in the tunnel. The sub-contractor had refused to sign an absolute release of the additional amount of \$150 was forthcoming. The architect insisted that the specifications had been varied while Mr. Coughlan claimed the entire work done was contained in the original plans.

On motion of Councillor O'Brien, seconded by Councillor Campbell it was recommended that the additional amount be paid, as apparently there had been a misunderstanding.

Several minor matters in regard to furnishings of committee rooms was left in the hands of a sub-committee. Authority was granted to proceed with necessary repairs to roof of the county jail and the erection of a fence in front of the court yard adjoining the Court House, in King street east.
