**BOURASSA AT QUEBEC CONGRESS**

For Preservation of French Language in Canada

**HE SEES A DANGER**

Says That if the French Canadians Are Anglicized They Will Become Not British But American—Urges Bi-Lingual Schools

(Canadian Press)

Quebec, June 29.—Abbe Gasthier opened the proceedings at the Congress Du Parler Francais last night by delivering a message from Anstett, Acadia. He was received with much enthusiasm when he said the descendants of the former Acadians now living in New Brunswick and Nova Scotia, claimed their full rights today as Canadians. The Acadians, he said, had suffered more by their own acts than their brethren in Quebec, but they were brethren, not rivals.

Henri Bourassa, leader of the Nationalist party in Canada, made a notable address declaring that the preservation of the French language in Canada meant the preservation of British ascendancy among the French speaking dwellers of the dominion.

"At present," he asserted, "the French Canadians love British institutions but the moment you destroy that identity by destroying their language the majority would rather throw in their lot with the million than remain under British government. This would not be the case with ideas, habits and mentally. Quebec, he said, was more Canadian and more British than Montreal. Montreal than Toronto, Toronto than Winnipeg. The reason the mass of the east were protected was because of the conservatism of the British race, which as a wall, kept out the influence of the American."

It was time, he asserted, that English-speaking Canadians opened their eyes to the danger from the invasion of American ideas, habits and mentally. Quebec, he said, was more Canadian and more British than Montreal. Montreal than Toronto, Toronto than Winnipeg. The reason the mass of the east were protected was because of the conservatism of the British race, which as a wall, kept out the influence of the American."

"I will tell you one thing," asserted Mr. Bourassa emphatically, "if you Anglicize the French Canadians they will not become British, they will become American."

He urged strongly bilingual schools. Those who opposed the teaching of French in the schools of Ontario, he said, were traitors to the constitution to their ancestors and to Canada. The maintenance and propagation of the French language in every province of Canada is the sole means by which the confederation can be preserved or the people protected from the evil influence, moral and political of Americanism.

"The confederation will not remain except in the measure that the equality of language and race is recognized."

**SUSSEX MAN IS SET UPON BY SOLDIERS**

Cowardly Attack on Harry Black Demanded Indignation and Cause for Action

(Special to Times)

Sussex, N. B., June 29.—The first act of cowardly since the militia have come to camp occurred last evening, and citizens are justly indignant concerning the matter, while the officers and more manly amongst the soldiers are not at all pleased at the result which has come to light.

The affair happened about half past ten o'clock, Harry Black, a popular employe of the Sussex Mercantile Company was proceeding to his home in Maple avenue when he was halted by three soldiers of one of the corps in camp. On asking what they wanted he was answered with a sharp blow across his arm given with a swagger stick. He was then set upon and the three gave him a severe beating.

After their cowardly action, hearing some one approaching they ran, leaving their victim to be assisted home by friends.

Chief of Police McLeod has the matter in hand and will demand an investigation from the proper authorities. It is expected that arrests will follow and the encounter may also be in none of the members of the company in question being allowed the privilege of coming to town at night. Up to last night there had been no disorderly conduct or breach of discipline and the brutal assault on Mr. Black, who is respected by a wide circle of friends, is the cause of much bitter comment.

**NEWPORT HAS NEW BEAUTY**

Newport, June 29.—Society has a new beauty. She is Miss Esther Moreland of Pittsburgh, daughter of Mr. and Mrs. A. M. Moreland, who are occupying Stoneacre, the residence of Mrs. Linda Thomas, wife of E. R. Thomas of New York. Miss Moreland has large black eyes, perfect complexion, classic features and a beautiful mouth. Already she has become a social favorite.

**THE WEATHER**

Maritime—Moderate southwesterly and westerly winds; fair and warm.

**C. F. GRANDALL TO BE THE MANAGING EDITOR OF THE STAR**

Former St. John Newspaper Man in Montreal Leaves the Herald

Montreal, June 29.—C. F. Grandall, formerly editor of the St. John Sun, later with the Halifax Echo, and for the last two years managing editor of the Montreal Herald, has been appointed managing editor of the Montreal Star. He will enter upon his new duties next week.

Mr. Grandall's friends in St. John will join those in Halifax and other parts of the lower provinces in congratulating him on his success since he entered the Montreal field of journalism. His former associates on the St. John press are especially gratified that another of the graduates from this school of newspaper work has made good in the larger arena.

**BOSTON CHURCH TO HAVE ROOF GARDEN FOR THE CHILDREN**

Will Be Playground in Day And For Open Air Services in Evening

Boston, June 29.—The first church in America to have a roof garden to be used as a playground for children during the day and for open air services in the evening will be built here in Boston.

It will be on the rebuilt Clarendon street Baptist church, corner of Clarendon and Montgomery streets. This church was badly burned last winter and it has now been decided by the trustees of the church to rebuild on the old site and to have a church up to date every detail.

The roof of the church will be flat and the steeple will be omitted. The roof will have creosoted borders and steel girders, making it a safe place for the children of the south end, to have a playground. Services will be held there in the summer time when the weather permits. Rev. James A. Francis, D. D. pastor of the church, proposes in the restored building to have every means to carry on an aggressive work. A special class will be organized for putting the Sunday school into twenty separate rooms instead of one large room. Apartments will be built off the auditorium rooms to be used by boys and girls in their club life.

Moving pictures will be brought in to increase the interest in Bible study. Doctor Francis is one of the leaders in biblical study in America and the French language in every province of Canada is the sole means by which the confederation can be preserved or the people protected from the evil influence, moral and political of Americanism.

"The confederation will not remain except in the measure that the equality of language and race is recognized."

**NAME IN SMALL TYPE; HE SUES THE DIRECTORY MAN**

Montreal Lawyer Gets Nominal Damages of \$25

Montreal, June 29.—Because his name, address and place of business were printed in small type in the Montreal city directory, Charles Auguste Archambault, a local lawyer, was yesterday awarded nominal damages of \$25 in a suit against the publisher of the directory.

The difficulty arose from the fact that the plaintiff was a subscriber to the directory of the defendants, John Lovell & Sons. It was testified that the names of all subscribers should be printed in large type in the directory. The name of the plaintiff was printed in small type.

**ARM DISABLED BUT KEEPS ON FIGHTING**

San Francisco, June 29.—"Red" Watson of Los Angeles fought four rounds with one arm here last night before the referee stopped the fight in the eighth round and gave the decision to Frankie Burns of Oakland. Watson's left arm was disabled in the third round of what was to have been a twenty round contest.

**SAMUEL NORDHEIMER OF PIANO FAME IS DEAD**

Toronto, June 29.—After a lingering illness, Samuel Nordheimer, president of the Nordheimer Piano & Music Company Ltd., and German consul, died a little before two o'clock this morning.

Mr. Nordheimer was born in Memmendorf, Bavaria, Germany, in 1824, and was educated there and in New York. The firm of A. & S. Nordheimer was founded in Kingston and later removed to Toronto.

**VALUABLE GIET TO THE INSTITUTE OF TECHNOLOGY**

Boston, June 29.—A library of 30,000 books on electricity and electrical engineering, valued at \$100,000, has been presented to the Massachusetts Institute of Technology by Theodore N. Vail of the American Telegraph & Telephone Company.

## NEW LAND POLICY FOR ENGLAND ADVOCATED

**DEMOCRATS IN DEADLOCK**

Important Step by Government In View on Account Of Emigration

**Taxation of Land Values and Settlement of Small Holders as Tenants on State-owned Lands—Opposition to Insurance Act Weak, But Employers Take Advantage to Cut Wages—King and Queen Win Hearts of All in Wales**

(Times' Special Saturday Cable)

London, June 29.—The Liberal party is contemplating a new departure in politics. An influential section of the younger men, supported by some of the cabinet, and led by Lloyd-George is now actively advancing a new land policy for England.

It aims at compulsory purchase of large estates, rebuilding of rural homes, and resettling of the country with small holders.

The authorities have for some time been seriously alarmed at the steady growth of emigration of the most desirable elements of the English population. Last year half a million of thirty, healthy, industrious people, mostly young, left England for the overseas dominions. Scotland's population is now stationary owing to migration to Canada, and the authorities are equally alarmed at the overwhelming rush of population towards the towns and this consequent depopulation in the country.

**LESSON IN RECENT LIBERAL VICTORIES**

Recently two Conservatives, H. H. Asquith and North West, Norfolk, were won by Liberal candidates who made advanced land programmes the principal planks of the election policy. This lesson has not been lost on the government.

While the government's programme is not yet settled, every influence is being used to make it adopt two main points, taxation of land values and settlement of small holders as tenants on state-owned land.

By taxation of land values it is hoped to compel owners of large estates to sell. The settlement of small holders may be undertaken under direction and instruction of official guides.

Both Unionists and Liberals are agreed that there must be a general scheme for rehabilitating the country labor. The Unionist Daily Mail has this week opened a campaign demanding this. The Unionists may bring an opposing scheme for settlement of small holders on land. While the Liberals advocate state ownership of land and settlers being made state tenants, the Unionists prefer that small holders should be enabled to purchase land from the state on a long payment plan.

**INSURANCE ACT, OPPOSITION WEAK**

Thursday's demonstration in London against the insurance act was a numerical success. 10,000 mistresses and servants crowded Albert Hall and unanimously declaring they will never submit to the new taxation. 5,000 waited outside unable to obtain admission, but as July 15 draws near the weakness of the opposition to the bill becomes more evident. Not one prominent Unionist member of parliament supported the Albert Hall protest, and the party organizations are carefully protecting themselves from it. Prominent unionist papers are disavowing it and far-sighted politicians are realizing that, despite the tremendous temporary unpopularity of the insurance act it will quickly be accepted by the mass of the people, and will be appreciated.

Perhaps the most dangerous step against the act is the policy of some employers of woman labor who are announcing a considerable reduction of wages, much more than sufficient to pay the tax. One large firm in the city, employing hundreds of women, gave notice that next week it will stop two days pay.

Much uneasiness is felt over the growing passive resistance to the shop hours act. Many employers in the drapery trades

**POLICE DOG FOR TORONTO**

Toronto, June 29.—Within the next two months Toronto's police force will be reinforced the addition of a trained police dog. A gentleman who makes a hobby of breeding and training dogs for the detection of crime has just left for the old country for the purpose of securing a trained Airedale terrier, and before he left Toronto, arranged with Chief Gallett to loan the dog to the police department for experimental purposes.

**COUNTRY MARKET**

The country market was this morning plentifully stocked with meats, vegetables, butter, eggs and other farm produce, and buying was very brisk all morning. The produce a trifle high, eggs selling from twenty-five to twenty-seven cents a dozen, butter at from twenty-two to twenty-five cents a pound, beef at twelve cents a pound, carrots at ten cents, asparagus, twenty-five to thirty-five cents, celery from ten to twelve cents, lettuce from five to six cents, radishes five cents and spinach ten cents.

**Railway Minister to West**

Toronto, June 29.—Hon. Frank Cochrane minister of railways and canals is getting ready for an extended trip through the west, when he will inspect the route of the Hudson Bay railway and give attention to the transportation needs of that part of Canada.

**WAS FEAR OF ROYAL VISIT TO WALES**

When the royal visit to South Wales was announced the courtiers were alarmed as a large part of the districts through which their Majesties were to drive are notoriously centres of labor unrest and extreme socialism. This is particularly true of Downals where labor and capital are at daggers drawn. The fact and good sense of the king and queen have turned the experiment into an overwhelming success. They have mixed freely with the pit bands; the queen has tea with a miner's wife in a miner's cottage. The monarchs got down from their carriage and went everywhere on foot. London society, which sometimes complains that Queen Mary is strict and cold, would have paused to gaze on her laughing with the grimy faced pit boys, making friends with the scarred veterans of the furnace and mine, and winning the affections of an impressive people by her unaffected cordiality.

Socialistic South Wales has suddenly become the most enthusiastically loyal corner of the Empire.

**SUFFRAGISTS MAY GO TO EXTREMES**

The suffragists have resolved on a new campaign of violence. The sporadic outbreaks of the last ten days are evidently only preliminaries to a wider militant advance. Grave fears are felt lest the most extreme suffragettes may adopt a policy of personal violence against prominent members of the cabinet. The police are well aware of this danger, and are guarding against it, but as the temper of many women is now we may awake any morning to discover that England has been disgraced by a grave political crime of type usually associated with Russian nihilism.

**GALLANT RESCUE MADE AT NIAGARA**

Lineman Brought from Edge of Rapids by Doctor at End of Human Chain

Niagara Falls, Ont., June 29.—George Farley, a lineman, fell from the top of a forty foot pole at the Canadian approach to the lower bridge last night and was saved from death in the raging whirlpool rapids 150 feet below by Dr. W. H. Wilson, an American physician and several others. The rescue was among the most sensational in the annals of Niagara.

Hundreds witnessed the rescue, and cheered as a human chain with Wilson brought the injured man up. Farley was so badly injured that he was taken to the General Hospital, where it was said his condition is very serious.

Farley was so near the edge when Wilson went down with the human chain it was with difficulty that the man was removed without hurting him into the torrent below.

**MRS. MEADOWS NAMED**

Sale of Tickets to the Royal Enclosure at Ascot

London, June 29.—Application which was made in the chancery division relative to the injunction recently granted to Lord Churchill as lord in waiting, to prevent the sale of tickets to the royal enclosure at Ascot, showed that the name of the woman concerned was Meadows.

Mrs. Meadows is an English woman, who is fairly well known in London society. The suggestion is made that she acted as the tool of other and better known women, with extensive relations in Anglo-American society.

**NO TIMES ON MONDAY**

The Times will not be published on Monday next, Dominion Day.

**BURNS PROMISES SENSATION WHEN HE GOES ON STAND**

Detective to Testify in the Case of Clarence S. Darrow

Los Angeles, June 29.—Some of the alleged "Higher-ups" in the so-called dynamite conspiracy case may be named when William J. Burns takes the stand for the prosecution in the trial of Clarence S. Darrow for alleged jury bribing, according to the detective.

Burns is expected to be the next witness called by the state and the first intimation of the nature of his testimony was given by him in a speech at a local hotel yesterday. He said that he would give startling evidence.

There will be no session of the trial today owing to the illness of Leavitt, a jurymen.

**NEWFOUNDLAND CABINET MINISTER GETS CLEAR BILL**

Attorney-General Morrison Exonerated in Connection With Land Transaction Charges

St. John's, Nfld., June 29.—Attorney-general Morrison, against whom charges were preferred in connection with land transactions last spring, was accorded complete vindication yesterday by Governor Sir Ralph Chompey Williams.

In a public statement, Governor Williams says that, after an exhaustive inquiry into the charges, he acquits the attorney-general of all delinquency in that connection and extends to him a continuance of entire confidence as a member of the government's cabinet.

**GUARD AGAINST FOOT AND MOUTH DISEASE**

Animals' Bedding on Ships to Canada Must Be Burned on Board

Ottawa, June 29.—A recent outbreak of the foot and mouth disease in England, has occasioned a new order from Doctor C. A. McEachran, live stock inspector for the Canadian government, that henceforth vessels carrying cattle, horses, or other domestic animals from England to this country, will be obliged to have all hay, straw and bedding used for those animals burnt on the ship.

**MALDANE'S TRIBUTE TO GERMAN EMPEROR**

Lord High Chancellor's Speech at Dinner at Which New Ambassador Was Guest

London, June 29.—Presiding at a dinner in the German Hotel in London last night at which the new German ambassador, Baron Marshall von Bieberstein was a guest, Lord High Chancellor Haldane paid a remarkable tribute to Emperor William II.

He said William II. was more than an emperor, he was a great man, gifted from the gods with the highest gifts yet bestowed. He was a true leader of his people. He had guided them through nearly a quarter of a century and preserved an unbroken peace and history would look back upon his reign as a remarkable development of the German people in every direction of intellectual and moral activity.

**DESERTS ROOSEVELT**

Former National Committeeman Ward Drops Out of the Line-up

Oyster Bay, N. Y., June 29.—Colonel Roosevelt has announced that William I. Ward, former national committeeman from New York had dropped out of the Roosevelt line-up. The colonel instanced the desertion as indicative of changes in alignment by which, in the end, he expected to profit as much if not more than he lost, through returns of deserters and acquisitions such as that of Mr. Hochhaus, former superintendent of insurance.

**FLORODORA COMPOSER IN BANKRUPT COURT**

Stuart Had Big Income But Was In Hands of Money Lenders

London, June 29.—Leslie Stuart, composer of "Florodora," and several other musical plays and songs, appeared in the bankruptcy court yesterday.

Mr. Stuart said that he had for some years been in the hands of money lenders who received the bulk of his royalties. His liabilities are \$25,000. His income has diminished to between \$30,000 and \$35,000 a year.

**MACLEAN GLANSMEN TOTALLY**

Chief Calls Them To Duart Castle For August 24

Edmonton, Alta., June 29.—Colonel Sir Fitzroy Donald Maclean, Bart., K.C.B., D.L., hereditary head of the Clan Maclean, has sent the "fiery cross" throughout the world, summoning his clansmen and clanswomen, of whom there are 25,000 in the United States and Canada, to Duart Castle, Isle of Mull, Scotland, on August 24, when he will unfurl his banner and otherwise fittingly celebrate the triumph of peace. It will be the first national gathering of any Scottish family since 1745.

Writing from London, where he passed most of his time, to members of the clan in Edmonton, Sir Fitzroy says in part: "I am happy to say the ancient stronghold of the Macleans is now my property. This important historical event is giving great satisfaction to all the Macleans in every part of the world, and I am thankful that it has happened in my day."

Duart Castle, which has been out of the family for more than 200 years, was built in the 13th century, soon after the formation of the clan, about 1290; it was repaired and enlarged by Hector Maclean, Duart, from 1523 to 1563, who was compelled to surrender it in 1601. The present chieftain, who possesses great wealth, has already entered upon the work of restoration and repair at a large expense. Sir Fitzroy paid more than \$50,000 for the castle and the surrounding grounds.

The Macleans took the leading part in the attempt to restore the Scottish family of Stuarts to the throne of Great Britain. The Highland Scottish families who adhered to the house of Stuart were scattered at the battle of Culloden on April 16, 1746. Charles Maclean, who was in command, and 200 of his clan were killed. It was a decisive victory for the government forces and was the last attempt made by the Highland Scottish families to restore the throne of Great Britain for the Stuarts.

Following the battle at Culloden one branch of the Maclean family migrated to Sweden, another branch moving to Philadelphia, Pa., going afterward to Wilmington, Del. Colonel Allan Maclean, a member of the Delaware branch, recalling the defeat at Culloden, was one of the first to oppose the British forces in the British government. His regiment was known as Allan Maclean's light infantry. Afterward, when the state of Delaware ratified the federal constitution, Colonel Maclean signed the ratification on behalf of the county of Kent.

While Colonel Allan Maclean in Delaware was doing everything within his power to oppose the British forces, another member of the family, Sir Allan Maclean, a general in the British army in charge of a Scottish regiment in eastern Canada, reached Quebec by forced marches to capture Quebec, the key to the conquest of Canada. Maclean held the city for several weeks and finally, on the last night of 1775, he defeated the invading forces, thus holding Canada for the British empire.

Duart Castle, where members of the Clan Maclean from all parts of the world will gather late next August, is situated on a promontory forming the northeastern part of the Isle of Mull, which is separated from the mainland by a narrow strait. The castle faces the sea and is built on a perpendicular rock, 100 feet in height.

It derives its name from the Scottish words, "Dubh," meaning black, and "Ain," a height of promontory. The authors called it "Dubh Ain." Later the name was combined in one word, "Duart."

**BEAT TO DEATH THE MAN WHO ROBBED THEM**

Bandit Was Knocked Into Water and Passengers Killed Him

Stockton, Cal., June 29.—A desperate robber who held up passengers on two river launches en route to Stockton, about forty miles down stream, was beaten to death after he had shot an engineer named San Griscorn through the shoulder. The body was brought here.

As the robbers were backing away Griscorn struck him and knocked him overboard. As the robber came up he pointed one pistol and shot Griscorn. The passengers picked up iron and beat the robber to death. The body was reached with grappling irons and brought here. In the pockets of the dead robber were the watches and money he had stolen.

**KNOCK-OUT IN FOURTH**

Buffalo, N. Y., June 29.—George (Tom) Davis of Buffalo, last night knocked out Joe Uvanni, of Glens Falls, in the fourth round of a fast fight. Davis had twenty pounds the better of Uvanni in weight, the men weighing in at 174 and 154.

This is an appeal to the citizens for the success of the

Back To New Brunswick OLD HOME WEEK July 9th to 14th.

Every man, woman, and child in St. John can help to make this celebration a great success if they will do it.

Let our merchants decorate their business establishments.

Keep the business houses, banks, public buildings, and private residences lighted up at night. Nothing adds more to the attractiveness of a city.

Have plenty of "Welcome" signs hung through the retail establishments and hotels.

Let our street car conductors be on the alert to assist the visitors. Remember they may not be familiar with the names of our streets, and a little extra attention creates such a favourable impression.

Special excursion rates to St. John have been arranged by the railways over Canadian Territory east of Detroit from July 6th. to 17th. inclusive.

Write your friends and relatives, inviting them to come for the week.

Have a "brighten-up week" before the celebration. Clean up the back yards, and alleys, use plenty of whitewash, get the paint brush busy.

Keep your streets extra clean that week.

This is an opportunity for every one to help in building up a greater St. John. Will you do it for your city?

Listen By RUTH CAMERON

LISTEN. No, I am not going to tell you anything startling. That's just the topic of my remarks. How few people ever willingly do much listening in all the course of their lives! And yet how much can be accomplished by clever listening at the right time. When you don't know what to say, don't say it. Don't stumble into banal commonplace or tactless "breaks," just for the sake of talking. Simply close your lips, open your ears, look wise, and— Listen! Then you will get the reputation of being tremendously reserved and of having literally unresolvable stores of wisdom hidden away in your mind. Again, when anyone says something which you do not understand, do not be too prompt to display your ignorance by asking for explanations. Instead, draw him on, make him talk some more on this subject, and— Listen! Very soon he will explain himself, and you will not have had to betray your ignorance. Somebody has said "If you cannot make a woman love you, fill her full of self love and all that runs over will be yours." In like manner, if you want to make anyone, man or woman, enamored of your wit and intelligence, fill them full to overflowing of admiration for their own cleverness, and all the good feeling that runs over will be yours. And the best way to do this is, of course, to get them talking on some congenial subject, and then just— Listen! When you are made a party to a quarrel against your will, I take it for granted that you wouldn't enter one any other way—don't think of the most cutting things you can say to wound your opponent. There is a better weapon than that ready made to your hand. Just keep control of yourself, look loftily amused if you can manage that, and— Listen! Let him say all the foolish, undignified things while you just listen and smile. You will find that no words you could think up would so enrage him as that impenetrable armour of listening which not the fiercest of his attacks can pierce, but which sends them all back unheeded. These are a few of the occasions when the listener has the better part. Only a few. To enumerate them all would take quite too long. But if you will learn the fine art of listening, you will soon find plenty of opportunities for practicing it. So whenever you don't know what else to do, and often when you think you do, close your lips, open your ears, look wise and— Listen!

LA MARQUISE DE FONTENOY King George's Valuable Collection of Medals and Coins—French Presidents Who Have Been Generous, Others Niggardly

King George's principal hobby until a few years ago, as most people are aware, was that of postage-stamp collecting, his collection being the most valuable in the United Kingdom. Since his accession he has developed another hobby, known to but few save his immediate entourage and personal friends—namely, the collection of medals and coins, especially those relating to the British Empire. The field is a large one, for it must be remembered that many of the important events in the history of the world have been commemorated by medals struck for the occasion. The King's collection, which is rapidly increasing by extra purchases, comprises among its rarities the bronze medal which Napoleon I. caused to be made in Paris to reward those of his officers and men who should distinguish themselves during his projected invasion of England. So just at present having access, and of being eventually able to distribute these medals as master of the British Empire, that the King is particularly anxious to have the medals destroyed. I know of only two others in existence besides the king's, one in the "Bibliothèque Nationale" in Paris, and another in the municipal museum in Boulogne.

Patricians who have always been disposed to ridicule the bourgeois appearance, manners and thrift of President Fallières and his worthy wife, are just at present having a good deal of fun in connection with his urgent demands on the national treasury for the defraying of extra expenses, to which he was put by the state visits of foreign monarchs to the French metropolis. In fact, these demands have furnished material for a good deal of sarcastic discussion in the legislature. Among the items is one for some 5,500 francs for hats for the reception of the king of Sweden and as much more on the occasion of the visit of the King of Norway. Of course the public insists that these sums represent the cost of Madame Fallières' bonnets, and the president's hats, whereas, if the truth were known, the outlay was really for the headgear of the servants, both those permanently employed at the Elysée Palace, and those temporarily engaged for the occasion. It may be remembered that both the royal visits were marred by rain, which does not improve any known variety of hat. The close fastidiousness of the Fallières during the last seven years, especially their refusal to continue the annual largesse of their predecessors to various charitable enterprises, is contrasted with the liberality of most of the previous occupants of the executive mansion. Thus, Felix Faure, with all his faults, not only drew on his own private income in maintaining his official dignity, but even mortgaged part of his property at Le Havre, so that his widow and daughter are still suffering from the results of his liberality. Faure's predecessor, Casimir-Perier, was

Now that the records of the English probate court have been given out, it is to be seen that the cabled reports to the effect that the late Marquis of Hertford had bequeathed his most precious belongings to his children, and his medals, he left to month, were, to say the least, misleading. All the late marquis' more intimate possessions, such as jewelry, the insignia of his orders and his war medals, he left to his youngest and favorite son, Lord George Seymour. The gift of a royalty, royal correspondence, his Gainsborough paintings and his sword, he has converted into family heirlooms by placing them under the entail. Every vestige of his unentailed property he left away from his eldest son, the late Marquis. The ex-husband of Alice Thaw has received nothing but the strictly entailed property which is placed on his estate, trustees, who are to furnish him with an income which they regard as sufficient to meet his wants. So he will be unable to purchase anything, and he will be unable to take his share of the family property. He remains an undischarged bankrupt; for which reason also he is unable to take his share of the family property. It is necessary to state this, since he still remains an undischarged bankrupt; for which reason also he is unable to take his share of the family property. It is necessary to state this, since he still remains an undischarged bankrupt; for which reason also he is unable to take his share of the family property.

LOW VITALITY IN THE SPRING

Vigor comes from good, red blood. All every body's blood is thin and watery in the spring. Hence the tired, languid feeling, loss of energy and ambition, and general weakness of bodily organs. You can feel yourself getting strength and vigor when Dr. Chase's Nerve Food is used. The blood is made rich and pure, the appetite is sharpened, digestion improves, and every organ in the body feels the benefit of the rich, red, self-sustaining blood.

Mr. W. J. Venner, clerk, 29 Blower street, Halifax, writes: "This spring, I felt that I needed a tonic. My blood was very much run down, and my system generally in a weakened condition. Soon after beginning the use of Dr. Chase's Nerve Food I could see that it was doing me good, as I felt very much better. This medicine gradually toned up my system, cured me of headaches from which I used to suffer, and I now take pleasure in recommending it as a grand nerve and general tonic."

Daily Hints For the Cook

OATMEAL MACAROONS. One cup of white sugar, two eggs, one tablespoon of butter, one teaspoon of baking powder, two large cups of rolled oats, one teaspoon of almond extract, one-half teaspoon salt. Beat the eggs well, and the other ingredients and beat the butter thoroughly; drop pieces the size of a walnut on well buttered tins, about two inches apart. Bake in quick oven and leave on tins a few minutes before removing. BEAN SOUP. Wash a pint of dried beans in cold water, and let soak over night. In the morning, drain, put in a soup kettle, pour over a pint of boiling water. Let boil until tender, add a quart of stock, strain the soup, and press the beans through a sieve; return the soup to the kettle, let it boil again, add a quart of stock, a dozen potatoes, cut up one lemon and two hard-boiled eggs, put them in the bottom of a tureen, pour the boiling soup over and serve. If too thick use more stock and water or a little milk. BAKED HAM. Select a good lean ham, wash and boil for one hour, lift from kettle, and take the outside skin off. Place in baking pan, with fat side up, and stick about a dozen and a half of cloves in the fat, then sprinkle all over with flour; put half a pint of boiling water in pan to keep from burning. Bake in oven. A quarrying company at Holidaysburg, Pa., has begun the harvesting of thousands of tons of ice in its quarries. During the winter the heavy dynamic blasting produced great caverns which became filled with water, and this froze into ice. The ice must be harvested before the quarries can be operated.

MISS CLARA CLINE OF ST. JOHN IS MARRIED IN CALGARY

In the Church of the Redeemer in Calgary, Alberta, at 3.30 o'clock on Wednesday afternoon last, June 26, Rev. Dean Paget united in the holy bonds of matrimony Miss Clara Elizabeth Cline, daughter of Mrs. Cline and the late Pilot Rich-

ard Cline, of St. John, and C. Henry Gilroy, of MacLeod, Alberta, conductor on the C. P. R.

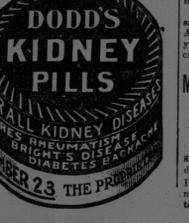

The bride, who looked charming in a pretty wedding dress of white, was given away by her brother-in-law, R. Arthur Kite, of Calgary. Miss Minnie E. Braden, of St. John, was bridesmaid and William F. Long supported the groom. The bride received numerous beautiful presents from friends and relations. After the ceremony, a dainty supper was served at the residence of the bride's sister, Mrs. Kite, 502 First street west, after which Mr. and Mrs. Gilroy, followed by the best wishes of their friends for a long and happy journey through life, left on the 6.30 train for Banff to spend their honeymoon, before returning to their future home in MacLeod. The bride's traveling dress was a pretty one of tan shade.

THE ATHERTON CASE

In the report of the sentencing of Fred W. Atherton it was stated that he was former purser of the S. S. Empress of Britain. It was the Empress of Ireland on which he was employed.

This Bon-Ton Summer Dress while inexpensive is very elegant and really good.

Made of fine soft white lawn of every good quality with brocade embroidery and baby lace inserts both in waist and skirt, the dress is in the latest style. IMMIGRATION EFFECT ON EXPORT OF FOOD STUFFS

No Butter Sent Out of Canada This Season, Say Dealers

Montreal, June 28.—The effect immigration is having on the export trade of food-stuffs of Canada, to the benefit of the home market, is particularly noticeable just now in the butter and cheese trade. There is a big falling off in cheese and butter exports so far this year when compared with 1911 and 1910.

One of the chief reasons for the decline is owing to the demand of the home market. During the last few years approximately more than half a million people have come to Canada from other countries, and a large percentage of this number are not farmers, or producers, of food-stuffs, consequently the demand for butter and cheese has increased out of proportion to the production of these necessities.

Not a pound of butter has been exported this year, principally because the selling price of twenty-five cents a pound is higher than the British buyer can pay to make a profit on, and the demands of the home market are heavy. A year ago butter sold at twenty-three cents wholesale. Last year was a particularly dry season in England and wholesalers imported a considerable quantity of cheese and butter from Canada. Exports in the two countries in question have fallen off each year since about 1903. The following table of trade figures, showing the export means of the year 1912 in each year ago 1910 up to the present, are convincing in themselves:

Boxes of cheese, 1912, 22,745. Boxes of cheese, 1911, 30,854. Cases of butter, 1912, 111,425. Cases of butter, 1911, 91,009. Cases of butter, 1910, 1,408.

NO WORD OF BOY. No word has yet been received as to the whereabouts of Frederick Clark, of Indian town, who disappeared from his home on Thursday afternoon, and whose cap was found floating in the river at Indiantown. It is believed that the lad has met a watery grave.

Saturday, June 29.

OPERA HOUSE CHANGE

Transfer of Property to Richard F. Dockrill Being Made

The Opera House property, which has been vested in the name of A. O. Skinner, is being transferred to Richard F. Dockrill, one of the heirs of the Dockrill estate. The land involved, which has a frontage of 116 feet in Union street and extends back to the rear of the building, was formerly owned by the Dockrill brothers and the building in the front was erected by J. F. Dockrill. The land in the rear on which their building is erected was leased to the Opera House Company with right of way for their main entrance. The buildings in the front and part of the land in the rear were donated to make a road to reach his place by the Nicholson estate, and were bid in by A. O. Skinner.

The Dockrill estate also held about two-thirds of the stock of the Opera House Company and by his control of the stock Mr. Skinner had control of the Opera House. Mr. Dockrill recently came to the city to take over the properties in his own name and the transfers to him are being made by Mr. Skinner as trustee.

It was said today that the change will not affect the lease under which F. G. Spencer has possession of the theatre.

JACKIE TOOK HIS MOTOR BOAT; THEN SET IT ADRIFT

Alderman Keltie of Halifax Recovered it, But Could Not Find The Man

Halifax, June 28.—(Special)—Alderman Keltie, a member of the Halifax city council, got a scare yesterday morning because of the act of a sailor of the U. S. Cruiser Chester. The alderman owns a motor boat which he keeps at one of the docks on the harbor front. The boat was missing yesterday when he went to look for it and inquiry showed that the craft had been taken by a Chester sailor who had made a rash to reach his ship before she sailed.

When the sailor got aboard he abandoned the motor boat. The alderman recovered his boat which had been picked up by a schooner. He had time to get aboard the Chester in time to get the boat, but there was little satisfaction for him there in an attempt at identification.

INSTRUMENT MAKES BLIND LOCATE LIGHT BY MEANS OF THE EAR

London, June 28.—Doctor Fourrier d'Albe, a lecturer on physics at Birmingham University, is demonstrating an instrument called the telephone, which is designed to enable those who are totally blind to locate and estimate light by means of the ear. The instrument is based on the property of selenium of changing its resistance when it is illuminated.

This change is made to cause a current which, when interrupted by a special contrivance and transmitted through a telephone receiver fitted to the head, gives an audible sound varying in loudness with the intensity of the light.

The blind are enabled to locate lamps in windows and other high lights, and to trace the outlines of large, well defined objects. The instrument makes the moon light distinctly audible and sunlight a roaring noise.

A REMARKABLE HAPPENING

An elderly gentleman of rural appearance had hardly seated himself in the cross-town street car when a young lady who had followed him in approached him.

"Sir, did you lose a five-dollar bill?" she asked.

"For a moment the farmer observed her with a surprised, curious look, then said convincingly, 'Yes, ma'am, I did.' 'Then here it is,' said she, handing the bill to him. 'I picked it up behind you from the car floor.' 'Thank you very much, young lady, for your honesty. This is a most remarkable happening!'

"Ob, I don't think so, sir. I believe every one should return the money in such a case as this. What is there so remarkable about it?"

"Why, I lost my five-dollar bill two years ago!"

A HANDY THING. A Yorkshire farmer was paid by check for some cattle he had sold. It was the first time that it had ever happened.

"What's this?" he said.

"Why, money for the beasts," said the cattle dealer.

The farmer stared and had to be assured that if he took it to the bank they would give him gold for it.

"Well," said he, "Aw'll try, but if it's a wrong 'un thou'll hear about it." The check was cashed and the farmer went home happy, but he could not sleep. He had seen a wonderful thing and it had puzzled him. As soon as day broke he went for the cattle dealer's house and woke the dealer.

"It's me," he said. "Where's the gold? I'm a bit of a paper man? Aw cud do w' half a dozen myself!"

MOOSEPATH RACES. The entries for the horse races to be held at Moosepath Park during Old Home Week closed with Secretary John Ross of the St. John Driving Club last night.

The check was cashed and the farmer went home happy, but he could not sleep. He had seen a wonderful thing and it had puzzled him. As soon as day broke he went for the cattle dealer's house and woke the dealer.

"It's me," he said. "Where's the gold? I'm a bit of a paper man? Aw cud do w' half a dozen myself!"

WIDOW OF SUICIDE IN CALIFORNIA, IS DAUGHTER OF ABDUL HAMID

San Diego, Cal., June 28.—It developed today that Mrs. Frank B. Faber, the widow of a Turkish official, is the daughter of Abdul Hamid, the deposed ruler of Turkey. They were married in Constantinople ten years ago. Dr. Faber

was then dentist to the Turkish court. Mrs. Faber's lack of knowledge of American customs led to frequent domestic quarrels, it is said, and finally resulted in a quarrel taking his life yesterday. Relatives of the woman in Turkey have been communicated with. She has been prostrated since the tragedy.

LEATHER ADVANCES WITH PRICE OF HIDES

Montreal, June 29.—Recent advances in the price of hides have been reflected in the market value of leathers. Spanish sole leathers have gone up two cents, now selling at from thirty-one to thirty-two cents a pound; saunter sole leathers, however, have advanced five cents, to 35c. No. 1 and two are up a cent, selling at from 85 to 86 cents. In addition to this, cut soles for repairing have increased in price from ten to twenty per cent.

The leather situation is at present showing a tight. Dealers will make no concessions, and buyers give what is asked or go without. Dealers feel secure, thinking the demand from leather manufacturers and shops continues strong.

PERSONALS

Miss Louise Dooley, of 30 Paradise row, is spending a few days in St. Martins.

Dr. J. P. McInerney was reported to be resting very comfortably in the General Public Hospital this morning.

E. Elkin arrived by automobile yesterday afternoon accompanied by Captain and Mrs. H. M. Goggin, who have come from Burma to visit Mr. and Mrs. Elkin in St. John. The party are going to Cain's on a fishing trip. Mr. and Mrs. H. W. Parlee and family of St. John, are here for a day or two, having arrived last evening in their car.

Harry Holman, who is at present taking a course in forestry at the Tobique district, where he will follow the line of work that he is studying.

Miss Elizabeth Walsh and son, Arthur, have gone to St. George to spend a few days with Mrs. James O'Neil.

Mrs. W. S. Fielding and Miss Zillah Fielding arrived in the city yesterday and were registered at the Royal Hotel. J. P. Carritt, of New York, is in the city.

J. H. Doody returned yesterday from a brief visit to Boston.

J. L. Stewart, M. P. F., elect for Northumberland, was at the Dufferin yesterday and received the congratulations of many friends on his success.

St. George's (Green)—Rev. A. B. O'Reilly, of Notre Dame, Ind., who has been visiting friends and relatives at Calais and vicinity, is now the guest of his brother, Jas. O'Neil, and will likely remain for two or three weeks.

Hartland Observer.—Elisha Phillips, brother of the late Rev. Dr. Phillips, who for many years has been a resident of St. Thomas, Ont., is here to visit his sister, Mrs. E. F. Shaw at Bath, his sister-in-law, Mrs. C. T. Phillips at Jacksonville, and his uncle, H. M. Stevens at Somerville. Mr. Phillips bears a most striking resemblance to his late brother, so much so that strangers accuse him to know if he is not a relative. He has not been here for twenty-one years.

Monday is a Holiday. We will be open to supply all demands. Choicest Fruit, Confectionery and Ice Cream in all quantities for picnics. Call and get my prices. J. M. NORTHRUP 23 Paradise Row Phone Main 423-31

TODAY'S POLICE COURT

One prisoner charged with drunkenness was remanded in the police court today and another, charged with drunkenness and using profane and obscene language, was fined \$8 for each offence or six months in jail.

High Nivens, charged with assaulting his wife, said that he only shoved her, but supposed he was guilty. The wife said that she wanted to support her husband; she did not want her husband to be locked up. She only wanted peace and quietness.

The magistrate said that she was not likely to have this while her husband was around.

On one occasion, the woman said, the prisoner took her son's boots and sold them to buy liquor. She followed him on several occasions and found where he procured the liquor. The magistrate told her to go and find everybody that sold him liquor and have them brought to court, and in the meantime, the prisoner would be remanded.

One woman, on demand, charged with drunkenness was brought in and further remanded.

Leo London appeared in court, but the woman whom the police say they saw him strike, could not be found. He was sent to the police to give information as to where she could be found, and to appear again next Tuesday.

OBJECTION. Sutor—I can support her in the style which she has been accustomed to.

Wanted—A young nurse maid, one who can cook at home. Mrs. E. E. Barfoot, 19 Wellington row. 1027-7.

Wanted—A young nurse maid, one who can cook at home. Mrs. E. E. Barfoot, 19 Wellington row. 1027-7.

The Evening Times and Star

ST. JOHN, N. B., JUNE 29, 1912. The St. John Evening Times is printed at 27 and 29 Canterbury Street every evening (Sunday excepted) by the St. John Times Printing and Publishing Co., Ltd., a company incorporated under the Companies Act.

DOMINION DAY Each recurring Dominion Day finds Canada moving forward at a very rapid pace along the lines of material progress. New settlers pour in by hundreds of thousands, adding to the population, the producing power and the wealth of the country. They also add to its problems, for many of them come from parts of the old world where the language of British people and their ideals are alike unknown and disregarded.

DELINQUENT BOYS There is something peculiarly sad in the case of the youth who was sentenced yesterday to five years in Dorchester penitentiary. His record has been bad, and it seemed necessary to remove him for a definite period from the way of temptation and give him an opportunity to learn a trade. It is said, however, that this lad never had much encouragement to pursue an honest and industrious career. If it should be shown, after he has been released from prison, that he has become honest and industrious, the fact that he was not so from the beginning may fairly be charged to society for its indifference to the welfare in his early years. There are many other boys drifting as he drifted, and we do not concern ourselves very much about them. It is only when one of them becomes a criminal that we rub our eyes and lament the depravity of the age. There is a great opportunity in this city for effort in behalf of boys who are not getting a fair start in life. Existing institutions do not reach down and out to the class of boys who most need inspiration and guidance.

COMING TO CANADA The June number of the Labor Gazette contains some interesting facts in connection with immigration. It states that a larger immigration has come into Canada both by the boundary line and by ocean ports than in the same period in any previous year. The increase is not only in the number of immigrants but in the value of effects and cash brought into the country. The statistics for May are not given, but those for the month of April show that the total arrivals were 62,901, of whom 41,437 arrived by ocean ports and 21,464 from the United States. The total for April, 1911, was 61,880.

MISS ANGLIN WILL ARRIVE ON SUNDAY Coming on the Montreal Train at Noon Tomorrow - Local Address Will be Royal Hotel - Gallery Seats For All Four Performances on Sale Monday Morning - Cast of Characters Those who prefer lower priced seats for the Anglin events next week will be interested in the gallery tickets at one dollar. These go on sale Monday morning at nine o'clock at the Opera House box office for all four appearances of the famous actress. The C. P. R. suburban will be held until after the show both Monday and Tuesday evenings. Seats may be ordered for ten-thirty-five. The reserved seat sale will also continue at the box office Monday when late comers can still be provided with whatever is desired. Following is the cast of characters, and those familiar with things theatrical will recognize some of the most popular players on the stage today. Patrons are requested to be in their seats not later than eight-fifteen each evening, as the curtain will be raised at eight-fifteen sharp, thus necessitating a disagreeable wait on the part of late comers.

The Guarantee Tea Money back if you want it. KING COLE TEA

IN LIGHTER VEIN NEEDED HIM "I wish I could find out who wrote this anonymous letter," said the candidate as he passed in the work of going through his correspondence.

FLOORED, BUT NOT FOLDED "Baseball Guide, Sir," said the lad to the man who was hurrying to get a front seat at the match.

HIS FIRST MOVE It was a shy young curate who was once asked to take a class of girls about 15 or 16, which had formerly been taken by a woman. The young clergyman consented, but insisted upon being properly introduced to the class. The superintendent accordingly took him to the class for this purpose, and said:

A PERFECT CURE "Does anyone suffer from the sleep-walking habit?" asked the professional joker at a large gathering.

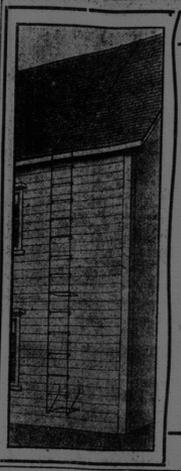

ONE HAIR IN YOUR HEAD is worth several in your hair brush. Everyone you get in your hair brush proves that conditions in your scalp are not as they should be, but they would be if you used

EAU DE QUININE Every time that your hair comes out it is a reminder that you need to use it. It is a splendid preparation for the toning of the scalp for dressing the hair and preventing the hair from falling out. Good value for you in every bottle. 50c.

Just Hold the GILLETTE Naturally

Shaving with the GILLETTE is not a fine art, nor does it require skilled labor. You may be "no good with tools," yet you can shave yourself easily and well with the Gillette Safety Razor.

Hold it lightly, as illustrated, and it falls naturally into the right shaving position, blade edge just touching the skin. Then draw it across the face, not the nose fashion, but with the Angle Stroke shown, and the keen GILLETTE blade will cut smoothly in any direction—with the grain, across it, or against it. If you want a light shave, or if your skin is tender, screw the handle tight. If you want a close shave, loosen the handle about a quarter turn. This allows the blade to spring away from the guard a little and take more hold. Buy a GILLETTE and forget your shaving troubles.

Standard Sets, \$5.00. Pocket Editions, \$5.00 to \$6.00. Combination Sets, \$6.50 up. At your Druggist's, Jeweler's or Hardware Dealer's.

### ANOTHER TRIBUTE TO THE GOOD WORK OF THE LIBERAL GOVERNMENT

#### Canada's Surplus for Last Fiscal Year Was Nearly \$38,000,000

Ottawa, June 28—Final figures of the revenue and expenditure of the dominion for the last fiscal year issued by the finance department today show a surplus of \$37,924,545, or nearly \$38,000,000 in total revenue over all expenditure on consolidated fund accounts.

The surplus comes within \$1,000,000 of paying every item of expenditure on capital account, including nearly \$25,000,000 spent during the year on the construction of the National Transcontinental Railway.

The balance sheet of assets and liabilities shows an actual decrease of \$19,250 in the net debt of the dominion, as compared with the close of the preceding fiscal year.

The whole showing is the most satisfactory annual statement of financial administration in the history of Canada and is a fitting epilogue to the long record of vigilance for which the late minister of finance, Hon. W. S. Fielding, was primarily responsible.

The total revenue for the year was \$136,130,857, an increase of over \$18,500,000, as compared with the preceding twelve months.

The total expenditure on consolidated fund account was \$98,196,309 and on capital account \$38,933,746.

The principal items of revenue were: Customs, \$86,586,142, and excise, \$19,261,061.

The surplus is nearly \$2,000,000 more than the finance minister, Hon. W. T. White, estimated in his budget statement of last February.

The total net debt of the dominion on March 31 last was \$329,882,796. Liabilities of the dominion payable in England total \$282,042,279.

Returns of revenue for the first two months of the current fiscal year show an increase of a little over \$3,000,000, as compared with April and May of last year. The revenue for the two months was \$24,656,163.

With customs and excise again contributing to the total increase, a nominal decrease of \$17,810,028 in the public debt since March 31 is shown, but many large items of expenditure are not included in the returns furnished to the finance department up to May 31.

### "NICKEL" MONDAY

This is Bill San Soud, the College Boy who in the holiday in the hot-weather craze, "Burns 'em Reddies!"

Point Aux Trembles, Que., June 28—Damage estimated at between \$75,000 and \$100,000 was done by fire which broke out here late this afternoon and raged until 11 o'clock this evening. Fifty buildings, mostly residences and small shops, were destroyed, and 2,000 people are homeless. The insurance is very small.

At one time it was feared that the entire village was doomed to destruction, but the timely arrival of a section of the Montreal Fire Brigade and three fire tugs belonging to the harbor commissioners of Montreal, finally checked the progress of the flames.

### ANOTHER QUEBEC TOWN HAS BEEN FIRE SWEEP

Point Aux Trembles, Que., June 28—Damage estimated at between \$75,000 and \$100,000 was done by fire which broke out here late this afternoon and raged until 11 o'clock this evening. Fifty buildings, mostly residences and small shops, were destroyed, and 2,000 people are homeless. The insurance is very small.

At one time it was feared that the entire village was doomed to destruction, but the timely arrival of a section of the Montreal Fire Brigade and three fire tugs belonging to the harbor commissioners of Montreal, finally checked the progress of the flames.

### The Best Treatment for Itching Scalps and Falling Hair

To allay itching and irritation of the scalp, prevent dry, thin and falling hair, remove crusts, scales and dandruff, and promote the growth and beauty of the hair, the following special treatment is most effective, agreeable and economical. On retiring, comb the hair out straight all around, then begin at the side and make a parting, gently rubbing Cuticura ointment into the parting with a bit of soft flannel held over the end of the finger. Avoid additional partings about half an inch apart until the whole scalp has been treated. The purpose being to get the Cuticura ointment on the scalp skin rather than on the hair. It is best to place a light covering over the scalp. In the next morning, shampoo with Cuticura soap and water. Shampoo is generally sufficient for use as often as agreeable, but once or twice a month is generally sufficient for this special treatment for women's hair. Note: This special treatment for women's hair and ointment are sold everywhere, those willing to try the treatment may do so without expense by sending to "Cuticura," Dept. 44, Boston, U. S. A., for a free sample of Cuticura soap and ointment, with 50p. book on skin and hair.

### DEMOCRATS' PLATFORM: THEY WANT REVISION OF THE TARIFF DOWNWARD

Baltimore, June 28—The sixth ballot for the presidential nomination at the Democratic national convention showed little change from the first. The standing was as follows: Clark, 445; Wilson, 334; Underwood, 321; Harman, 188; Marshall, 31; Kern, 1; Bryan, 1.

The following is the platform in part: "The representatives of the Democratic party of the United States, in national convention assembled, reaffirm our devotion to the principles of Democratic government formulated by Thomas Jefferson and endorsed by a long and illustrious line of Democratic presidents.

We declare it to be a fundamental principle of the Democratic party that the federal government under the constitution has no right or power to impose or collect tariff duties, except for the purpose of revenue, and we demand that the collection of such taxes shall be limited to the necessities of government honestly and economically administered. The high Republican tariff is the principal cause of the unequal distribution of wealth; it is a system of taxation which makes the rich richer and the poor poorer; under its operations the American farmer and laboring man are the chief sufferers; it raises the cost of the necessities of life but does not protect their product or wages. The farmer sells largely in free markets and buys almost entirely in the protected markets. In the most highly protected industries, such as cotton and wool, steel and iron, the wages of the laborer are the lowest paid in any of our industries. We denounce the Republican pretense on that subject and assert that American wages are established by competitive conditions and not by the tariff.

This plank proceeds to demand immediate downward revision, insisting that material reductions be made on the necessities of life and that articles entering into competition with trust-controlled products and articles of American manufacture sold more cheaply abroad than at home be put on the free list.

Recognizing the intimate connection between the tariff and the country's business, the platform sets that legislation to attain the above ends be so enacted that legitimate industry be not injured or destroyed.

President Taft is denounced for vetoing the cotton, wool, metals and chemical schedules and farmers' free list bills, which were designed to free the people from the exaction of the tariff.

The platform asserts that the high cost of living was not due to the protected tariff, and asserts that no substantial relief can be secured for the people until import duties on the necessities of life are materially reduced and the trusts' criminal conspiracies broken up.

The platform favors vigorous enforcement of the criminal features of the anti-trust law; demands such additional legislation as may be necessary to crush private monopoly; favors prohibition of holding companies, interlocking directorates, stock watering, etc.; condemns Republican administration for "compromising with Standard Oil Company and Tobacco Trust"; regrets that the Sherman antitrust law has deprived the Sherman antitrust law of much of its efficiency; denounces as "usurpation" the efforts of

### DRUNKENNESS CAN BE CURED

#### Old Fallacy That Drunkenness Cannot Be Cured Explored

Many men drink who desire to stop the habit. Whisky, however, has undermined the constitution and created a craving that is not to be denied and the man must have whisky or something that will remove the craving and build up the system and restore the nerves.

Samaria Prescription stops the craving, steadies the nerves, builds up the general health and makes drink actually distasteful and nauseous. It is tasteless and odorless and can be given with or without the patient's knowledge in tea, coffee or food. It is used regularly by physicians and hospitals. It has cured thousands in Canada and restored happiness to hundreds of homes.

Read what Mrs. G.—of Hull says of it and what it did for her.

"It is four months today since I started to use your Remedy. I followed the directions and had the best of results. One week after I started using your remedy the patient stopped drinking and has not drunk a glass of liquor since. I hope you will accept my heartfelt thanks. Hoping God will bless your Remedy whenever tried, I remain,

MRS. G.—of Hull, Que. (Name withheld by request.)

Now if there is anyone in your town who needs this Remedy, tell them of it. Practical Philanthropy can take no better form. If you have a husband, father, brother or friend who drinks, help them help themselves. Write today.

A FREE TRIAL PACKAGE of Samaria with booklet giving full particulars, directions, testimonials, price, etc., will be sent in a plain sealed package to any one mentioning this paper. Correspondence strictly confidential. Write today: The Samaria Remedy Co., Dept. 59, 49 Colborne street, Toronto, Canada.

### DISTINGUISHED MEN AT BANQUET HERE IN OLD HOME WEEK

The council of the board of trade, at the meeting yesterday morning, decided upon holding what is expected to be one of the largest and most elaborate banquets ever given in St. John in commemoration of the official starting of work on the largest scheme of harbor development in America. The banquet will be given at the Union Club on the evening of Thursday, July 11, and the guests will include some of the most distinguished personages in the United States and Canada. Hon. W. T. White, minister of finance, has formally accepted the invitation to be present, and Hon. Wm. Pugsley, the father of Courtney Bay, will have a place of honor, besides other members of the federal cabinet who may attend the Back to New Brunswick week celebration.

Other guests, it is reported, will include George Horace Lorimer, of Philadelphia, editor of the Saturday Evening Post; Lieut-Governor Wood, Premier Flannigan and the members of the provincial cabinet; Rev. J. A. MacDonald, editor of the Toronto World; John A. Cooper, editor of the Canadian Courier; Branton A. MacNab, managing editor of the Montreal Star; Charles F. Oronelli, of the Montreal Herald; Wm. Dennis, proprietor of the Halifax Chronicle, and the editor of the Toronto Mail and Empire, and the local papers, and of the more important provincial papers.

W. Burton Stearns, P. R. Warren and G. F. Palmer, as representatives of the Norton Griffiths Co. Ltd., which has the contract for the work, will also be guests at the banquet. The arrangements were left in the hands of an efficient committee.

The banquet is only one feature of a very full week and the promoters of the movement for a Back to New Brunswick campaign feel delighted with the hearty response they are receiving from all quarters and expect a tremendous crowd to visit the city during the essential days from July 8 to 18.

City merchants are co-operating very heartily with the board of trade in the effort to make a record in the matter of street decoration and several large contracts for elaborate decoration have already been given. The dominion government and I. C. R. authorities have also been asked to do their share by the beautifying of the custom house, the post office and the railway station. At the present time there is not one discouraging element in the preparations and there seems to be little doubt that the celebration will be an unqualified success.

### DR. J. DOUGLAS TRUEMAN, ST. JOHN MAN WHO LOST HIS LIFE IN ONTARIO WATERS

### FATHER BYRNE'S PICNIC

Father Byrne and his congregation will hold their annual picnic at Norton on Tuesday, July 23.

### Brodie's Handy Ammonia

is splendid for dish washing. Softens the water, cuts the grease, makes the dishes clean and bright. Equally good for all kinds of cleaning. Be sure you get the big bottle of genuine Brodie's—it's cloudy.

**WOMEN CURED AT HOME**

Women's disorders always yield from the very beginning of the treatment to the mild, but effective, action of Orange Lily. Within two or three days after commencing its use, the improvement becomes noticeable, and the menstrual system continues until the patient is completely cured. Orange Lily is applied or local treatment, and acts directly on the nerves, and restoring perfect circulation in the diseased parts. In order to convince all suffering women of the value of this remedy, I will send a 25-cent box, enough for ten days' treatment, absolutely FREE to each lady sending me her address. MRS. FRANCES E. CURRAN, Windsor, Ont.

**SOLDIER LADS GET ALCOHOL; ONE WAS NEAR TO DEATH**

Militia Department to Investigate Case of Two Boys in Barrack Camp

Ottawa, June 28—It is understood that the military department may investigate a startling instance of two youths at the Barrackfield military camp having secured liquor, as a result of which one became critically ill.

It appears that Duncan MacDonald and Alfonso L'Abonde, aged fifteen and sixteen years while in uniform secured alcohol at a Kingston liquor store, and after drinking it, got in so bad a condition that they had to be removed from their tent in the military camp to a Kingston hospital where the use of a stomach pump was necessary to bring one of the youths back to his normal condition.

**MORE HEALTH GUARDS**

Custom of Spraying Clothes With Water From Mouth Declared Unsanitary

Montreal, June 28—An important step is to be taken by the medical health officer, Doctor Laberge, in regard to the custom of laundry men taking water in their mouths and then spraying it over shirts.

Doctor Laberge said the custom was a most unsanitary and disgusting one. "Laundrymen are liable," he said, "to be infected with germs, and to spread the same as other people, and it is a grave danger that this filthy water, which is sprayed through the mouth, should be in contact with the clothes of the public."

Orders were also given to put a stop to grocers and others displaying food, etc. on the sidewalk.

In two cases reported ice cream was found to be adulterated. In one case the ice cream contained a foreigner, made the ice cream a few feet from a man's head.

**Chiclets**  
REALLY DELIGHTFUL

**FAME COMES AT NINETY TO NATURALIST**

Mr. Fabre One of the Most Shy Old Gentlemen in All Europe

HE IS "THE INSECTS' HOMER"

**Only Way in Which He Could Be Persuaded to go to Paris For High Honor Was By Threat of Police—His Work Immortal**

(Times' Special Correspondence)

Paris, June 14.—On the outskirts of the sleepy village of Serignan, in the heart of old Provence, stands a little, weather-beaten, six-roomed cottage, half hidden behind cypress and lilac-trees. In front of it is a pond, tenanted largely by frogs. And on all sides is a waste land, they call it "harma," in this part of France—land which, to quote its owner, "no one would have a gift of heaven, since it is a 'harma,' a stony, sun-baked waste, which the flame of a match would set ablaze from one end to the other."

Yet this cottage, this pond, and this desert form the "Eden"—the expression known abroad, for I understand that a man living today. A man who, though he is nearly ninety, and though tributes to his genius have been paid in Paris by M. Serinck and by Rostand, remains all but unknown outside his own country. A man whose life-story is a record of such a game fight against adversity as seldom is heard of, a great writer, a great poet, and besides all this the greatest living entomologist, such as J. Henri Fabre, the "Insect's Homer," as the author of the "Blue Bird," called him.

It seems probable that Fabre, through his own writings soon may become better known abroad, for I understand that a complete English edition of his magisterially written "Entomological Memories" is being planned to take the place of the old French edition, which, at present, are all that are known in this country. His eighty-ninth birthday, which is to be celebrated this year, is to be celebrated fittingly in Serignan and also in the nearby town of Orange.

**A Desperate Struggle**

Forty years of what he himself describes as "a desperate struggle," was required for Fabre his "laboratory in the open field," as he calls it, in the shape of the barren sun-scorched, shale-ridden little hamlet of Serignan. But now that it has been won, the "incomparable observer," as Darwin named him, devotes his days to the study of the "harma," and of which, and their habits, he writes with a charm that has never been surpassed.

Even as a boy, the insect world had a fascination for Fabre, but poverty stood between him and the study of it. The independence that would enable him to study in the "harma," and of which, and his words on the early attainment of his desire are pathetic enough.

"It is a little late," O my pretty insect, I greatly fear that the peach is offered to me only to have no teeth wherewith to eat it. If it is the time remaining, O my dear Hymenoptera, to enable me to add yet a few more pages to your history, or my falling asleep, clear my good intentions!"

It is a queer mixture, this lovable old philosopher who is so shy and retiring that when an emperor of France wished to pay him honor he had to threaten to send a gendarme to bring him to ensure his coming, and yet who, as a struggling young pedagogue, had the cheek to undertake to teach algebra without himself knowing the first thing about that subject. But you will be able to sum Fabre up for yourself if I tell his story, which may as well begin at the beginning, in the orthodox way.

**Wonderful Life Tale**

His parents were poor, hardworking farmers, who lived at Sainte-Leone, in the department of Avignon, and here in 1823 their son was born. When he was barely five years old, the naturalist in him had begun to creep out, and he was trying to discover how the "cicada"—the French cricket—managed to chirp. At seven he was sent to school. You can imagine the kind of schooling he got from the fact that his teacher was brought face to face with a landlord, as well as local barber, bell-ringer and leader of the choir. In the winter each child had to bring a log wood as a contribution to the warming of the school-house.

As soon as he could read, the boy devoured La Fontaine's fables and read in the pictures of beasts and birds described therein. At his school the children of ten were allowed to help their teacher in his garden or on his farm, and whenever young Fabre was brought face to face with nature, he found something new to examine and investigate. Meanwhile he sang in the church choir and in return for his services received a free education at the College at Rodez. Here he learnt Latin and Virgil made a strong impression on his mind with his descriptions of the things of the field and his accounts of the bee and the turtle-dove.

Thus far the boy's life had been a pretty happy one, but now began his struggle with adversity—sometimes against actual want, that lasted for two or three years and more. His people fell on evil days, and the boy had to start working for his bread and butter. Of this part of his life he tells us little, only mentioning that he was always discovering some new creature to study and watch his habits. Meanwhile he had decided that if he had a natural bent apart from his passion for natural history, it was for mathematics, and he decided to fit himself to be a teacher of this subject, realizing that the work near to keep him. So he plunged into the study of some sections and the rest. He had no master, nor any one to guide him. He faced difficulties with dogged perseverance, and worked out the problems for himself.

His reward was the appointment as teacher of physics at the College of Ajaccio. Meanwhile he had put a curb on his natural bent for fear it would interfere with the subject in hand, but soon after all acquaintance with Mountandon, a botanist, revived all his ambition. "Leave your mathematics," said the savant, "and get to the heart and the plant, and if, as I think, you have some ardor in your veins, the world will listen to you."

**Cooking help from across the seas.**

Edward's Soups are the next best things to having an Edward's expert in your kitchen to make the Soups, Sauces, Gravies, Stews, Meat Pies and Hashes.

**EDWARD'S SOUPS**

cost only 5c. a package and are invaluable for feeding all sorts of fastidious, delicate dishes. They thicken up the thin soup—add body to the stew—enable you to use up "left-overs" in many appetizing ways. Just try Edward's Soups, and see how much work and money they can save you.

5c. a package and more inexpensive still in 15 and 25c. tins.

Edward's Soup is made in the most scientific manner. The ingredients are of the highest quality. The water used is pure vegetable water.

**WM. H. DUNN**

Representative for Quebec and the Maritime Provinces.

Fabre followed his advice. Without masters or guides, often without books, in poverty and wretchedness he persevered. He noted and went steadily on with his nature studies. But all the time, he kept going away at mathematics.

**Teaching What He Did Not Know**

The story of how he taught a young man algebra without knowing the first thing about it himself is worth telling because it is characteristic. The would-be student was preparing for his examination as a civil engineer, and was tempted, but he was one to teach what he does not know. Fabre offered himself. For, oddly enough, this was a branch of mathematics which he had neglected.

He hesitated, but he determined to try. He fixed the first lesson for the following day, thus giving twenty-four hours in which to make the sort of preparation, in French schools, and Fabre stirred up the keys of all the masters' rooms were of the same pattern. Fabre decided to break the eighth commandment, pro tem, and purloin the science-master's text-book, till he could afford to buy one of his own. In his shoes, he unlocked the door of the superior's room, helped himself to the badly-needed volume, and, in less than a time, was back in his own room and turning over the pages.

Next day he gave his first lesson. He explained the first principles to his pupil as far as he was able to grasp them himself, and he and the confiding youth worked the problems together with highly satisfactory results. And so the lessons went on—the pupil little dreaming that his master often was as much at sea as himself, until—supreme triumph—the scholar passed his examination.

This is one of the mighty few episodes that shine a smile in the story of Fabre's life for the thirty years following his start in Corsica. Still grubbing along as a pedagogue, he married and had a big family. In time he became a professor at the Lycee at Avignon. It was his dream to secure a chair of natural history in some university, but this dream he had to dismiss, having discovered that for such a position, private means were necessary. Meanwhile every hour of his spare time was spent in the museums of the fields and woods, studying the beloved nature of his childhood. In time, he gave to the world in the first three volumes of his "Entomological Memories," which attracted a lot of attention among naturalists, and particularly fascinated Darwin, leading him to christen Fabre "the incomparable observer," but they did not bring in much money.

**Let Opportunity Slip By**

Money Fabre had to have if ever he was to devote himself to his chosen work, and in the hope of getting some he turned to chemical research. The principal trade at Avignon is that in the madder-root, grown in the neighborhood and supplied to the dyers, where it is treated for dyeing purposes. Fabre's predecessor had experimented, with some success, in perfecting the process; the laboratory was fitted up in a modest way for that purpose, and Fabre decided to try his skill in the same direction.

Apparently he was incredibly shy and does not seem to have been able to realize private means were necessary. He might have found the way smoothed for him from this point on, but he failed to improve a golden opportunity for realizing his dearest ambition.

This came in the shape of an unexpected visit to Fabre's laboratory from the famous Victor Duruy, who at that time was minister of education. Evidently Duruy was all kindness and interest. He would not allow Fabre a word to take of his working day, and soon put the experimenter at ease, asking private means were necessary. He might have found the way smoothed for him from this point on, but he failed to improve a golden opportunity for realizing his dearest ambition.

pressure naively suggested that, as the Paris Zoological Gardens were under the minister of education, when the next crocodile died, the skin might be sent to him so that he could study it with straw and hang it in his laboratory, like the wizards of old.

Six months afterward, Fabre received a letter from Duruy asking him to call on him in Paris, but the naturalist was afraid the minister meant to offer him a place at some other French grammar school, so he wrote begging not to be transferred. Duruy's reply was a peremptory letter, signed by the minister, directing Fabre to call on him to come to Paris at once, failing which Duruy declared he would have him brought there by gendarmes twenty-four hours later. Fabre was in the minister's room, where he received the heartiest of greetings, was decorated with the Legion of Honor and, willy-nilly, forced to accept the sum of \$200 to cover the expenses of his journey. He protested that they did not amount to any such sum, and was told to spend the surplus on his laboratory.

Then, when he was told that he was to be presented to the emperor—Napoleon III.—that day, and that if he did not put in an appearance the gendarmes would be sent to bring him, he shyly "Homer of the insects," reluctantly allowed himself to be driven to the Tuileries, where he was rather surprised to find the emperor quite a common-place looking mortal, dressed in a simple, dark suit, with the exception of the broad ribbon of the Legion of Honor across his breast. Napoleon III. was seated as usual in his minister had done, and talked with him of his latest work, which he seemed to be following up. MAKING ESCAPE OF CRIMINAL HARPER

Trace Bullet to Gun Whence It Came JURORS VERSUS POLICE

A Verdict Which Will Minimize Fear of the Law—Tragedies of Paris—The French Courts and Some Marriage Matters

(Times Special Correspondence.) Paris, June 27.—The French scientists maintain their reputation as the most progressive experts in criminology. The system of M. Bertillon is known throughout the civilized world. Again, recently at the Paris Congress of Legal Medicine, Doctor Balthazard communicated a discovery which will render very problematic the chances of escape of the miscreant who uses firearms. By the use of a microscopic photograph of the dotting on a bullet which is unique for each individual...

AGAINST THE BLACK PERIL IN SO. AFRICA

White Help and Negro Women Hard to Get For House Work and That Makes it Necessary to Employ Native Men

An Outburst of Feeling Now in Johannesburg and Vicinity

Johannesburg, June 28.—An extraordinary outburst of feeling has occurred in this city and vicinity against what has come to be known as the "black peril" since some time ago a similar outburst was caused in Rhodesia by the action of the governor-general, who reprieved a native who was convicted of attempted outrage upon a white woman and sentenced to death. At that time it was explained to those who were unfamiliar with the South African conditions the reasons for the deep feeling which is always close to the surface of South African social life and ready to flame out on any real provocation. The basis of this feeling is the consciousness that the white race in this country is a minority of the total population, that in many districts white women have constantly to be left alone by day and night without the protection of their men-folk, and that under such conditions the only possible safeguard for the white woman is a feeling of awe and respect in the mind of the native.

At that time it was explained to those who were unfamiliar with the South African conditions the reasons for the deep feeling which is always close to the surface of South African social life and ready to flame out on any real provocation. The basis of this feeling is the consciousness that the white race in this country is a minority of the total population, that in many districts white women have constantly to be left alone by day and night without the protection of their men-folk, and that under such conditions the only possible safeguard for the white woman is a feeling of awe and respect in the mind of the native.

Johannesburg, June 28.—An extraordinary outburst of feeling has occurred in this city and vicinity against what has come to be known as the "black peril" since some time ago a similar outburst was caused in Rhodesia by the action of the governor-general, who reprieved a native who was convicted of attempted outrage upon a white woman and sentenced to death. At that time it was explained to those who were unfamiliar with the South African conditions the reasons for the deep feeling which is always close to the surface of South African social life and ready to flame out on any real provocation. FIRE-SWEPT TOWN IN QUEBEC

Chicoutimi, Quebec, showing the cathedral and residences in the picturesque French-Canadian town, which was destroyed by fire this week, when 1,000 people were rendered homeless and property loss of \$2,500,000 was caused.

RETIRED PALMIST'S CONFESIONS

Cute Tricks Used by the "Knight of the Mitt"—Women Easier to Deal With Than Men

Herbert Illingworth, in the London Daily Express, gives the following account of the confessions of a retired palmist. The story follows the recent sentence of six months' imprisonment of Professor Zodiac, an Edgware road palmist, for fraud. For nine years I had the reputation of being a clever professional "palmist" and "astrologer," and now that I have retired from this means of livelihood, it seems like a dream and a rude awakening to realize that I had been a fraud. I had no special qualifications for the study beyond a fair good memory; and the success I attained came from profiting by mistakes, and through the demands of thousands of clients whom I simply had to read right if I wanted to get my fee.

HIGH DEATH RATE IN THE SPRING

At the close of the year when all nature is awakening to new life human beings are overcome by the same conditions. It is a time of physical activity, and the death rate during the year. What can be the cause? It seems to be due to the mode of life during the cold winter months. By living cooped up in heated, ill-ventilated rooms the lungs are deprived of the life-giving oxygen, the blood becomes loaded with impurities which are not eliminated from the system as they should be by the liver and kidneys.

BEWARE OF OINTMENTS FOR CATARRH THAT CONTAIN MERCURY

As mercury will surely destroy the sense of smell and completely derange the whole system when introduced through the mucous membrane, patients should be warned to avoid such ointments. It is a common practice to use ointments containing mercury for the treatment of catarrh of the nose. However, it is a well-known fact that mercury is a powerful poison and its use in ointments is highly dangerous. Patients should be warned to avoid such ointments and to seek medical advice for the proper treatment of their condition.

THE ROYAL GARDEN PARTY AT WINDSOR

Not So Many Guests As Expected At First LONDON NEWS LETTER

Clubs Being Hit Financially—New Form of Social Service—The Labor Unrest in the Old Land—Guarding Against Typhoid Fever

(Times' Special Correspondence.) London, June 28.—The list of guests for the Royal Garden Party at Windsor, on July 18, will not be so large as first expected. The visitors for the most part will be confined to the personal friends of Their Majesties, together with the members of the official and diplomatic services. Their Majesties will receive their guests on the terrace, two of the Guards' bands will be on duty, and there will be a variety of entertainment provided for the guests. The grumber insists that the busiest part of the London season is always selected for taking the streets up, and he finds little consolation in the country, for the same rule seems to prevail with regard to the roads, which appear to be always most under repair in Easter, Whitsuntide, and during August and September, the periods when there is most traffic. There are real improvements going on all over the country, and in the course of time the taxation of motorists will provide smoother roadways and less dust. Until that is done the motorist who raises dust storms can console himself for being a nuisance only by the reflection that he pays the money and it is not his fault if it is not effectively applied. But if the road authorities could manage to get the new metal down and rolled in the intervals between the holiday seasons it would be a great boon.

CHILDHOOD DANGERS

No symptoms that indicate any of the ailments of childhood should be allowed to pass without prompt attention. The ailments may soon become serious and perhaps a little later on. It is a well-known fact that many children suffer from ailments that are easily treated if caught in time. However, if the ailments are allowed to progress, they can become very serious and even fatal. Parents should be warned to pay attention to any symptoms that their children may exhibit and to seek medical advice promptly. The ailments of childhood are often caused by poor nutrition, lack of exercise, and exposure to germs. By taking proper care of their children, parents can help to prevent these ailments and ensure that their children grow up healthy and strong.

Jeff Must Have Thought Those Chicago Politicians Were Awful Boobs By "Bud" Fisher

MARATHONS AND HOULTON ARE WINNERS

More than 600 fans were present at the Marathon grounds yesterday afternoon and saw the St. John team administer a severe trouncing to Pat Duggan's Pets, the Fredericton baseball nine. Only in the first and second innings did the visitors have any chance, and in those two innings they scored five runs. Things looked blue for the Greys, but in the third inning they started pounding Bates' offerings with the result that that went had to be taken out of the box. He was replaced by Brown, their star pitcher, but even he could not stop the onslaught. Joe Tarbell started the game for the locals and pitched good ball up till the fifth inning, when he was struck with a pitched ball in the arm and had to retire. Al Sweet then went on the mound and pitched excellent ball.

SPORT NEWS OF A DAY; AT HOME AND ABROAD

Baseball A Tie Score. An interesting game of baseball was played last evening in the Queen Square League, West End, when the contesting teams, the Rogers and Stars, tied, 19-19, in a very lively eight inning game. The batteries were for the Stars, Laray and Dalton; and for the Rogers, Morray and Fitzgerald.

Standing of East End League. Won. Lost. P.C. Glenwoods 6 2 .750. Alexia 5 3 .625. Commercial 4 4 .500. Nationals 2 6 .250.

Nova Scotia Games. Halifax, June 28 (Special)—A home run by Chisley today this afternoon in the ninth inning was one of the features of the baseball game between Westville and the Scotia. Westville was victorious after a hard fought game, by a score of 5 to 4. As Stelartio the Standards, of Halifax, defeated Stellarton, 7 to 1.

The Big League American League. Boston 4, New York 4. Cleveland 6, St. Louis 3. Philadelphia 4, Washington 3. Philadelphia 5, Washington 4. Detroit 10, Chicago 9.

National League. Boston 3, New York 10. Boston 3, New York 12. St. Louis 8, Cincinnati 5. Chicago 3, Pittsburgh 0. Brooklyn 4, Philadelphia 6.

National League. Won. Lost. P. C. New York 49 11 .815. Pittsburgh 35 23 .605. Chicago 34 24 .588.

Notes of the Game. That McGovern can peg the ball to second. That batting practice on the Greys today. Keep that kind of ball up, boys, and we will get the Boston Americans to come down and play you.

The Turf. Moncton Horse Races. Moncton, June 28 (Special)—About 500 people attended the first day's racing on the Moncton speedway this afternoon, and good sport was witnessed. The track was in good condition but a high wind prevailed, interfering to some extent with fast times, although it was considered good for the opening of the season. The events this afternoon were 217 and 229 trot and pace. Candy Girl, of Moncton, won the 217 class, and Our Protein, also of Moncton, captured first money in the 229 class. Summary:

217 Class, Trot and Pace. Candy Girl, C. Bezanon, Moncton. 1 1 2 1. Orphan Girl, F. Boutlier, Halifax. 4 4 4 4. Billie C. Hazen Chapman, Point. 3 3 1 3. Alie W. James Adams, Halifax. 2 2 2 2. Time—2:22, 2:30 1/2, 2:30, 2:25 1/2.

229 Class, Trot and Pace. Our Protein, C. F. Bezanon, Moncton. 5 5 2 1 1. Frank Powers, F. Boutlier, Halifax. 4 4 1 2 3. Achille the Great, W. H. Musgrave, Halifax. 3 3 3 3. Premier, P. A. Bellevue, Moncton. 1 1 3 4 4. Nellie Oak, C. H. 2 2 2 2 3. Lou Helen, Halifax. 2 2 2 2 3. Time—2:25, 2:25, 2:24 1/2, 2:25 1/2, 2:25 1/2.

Judge—Frank Power, starter, Halifax. Wm. Campbell, St. John; C. B. Willett, Moncton. Timers—Aval Landry, Bathurst; T. W. Bell, L. P. Aard, Moncton. The free-for-all and 225 are the classes for tomorrow.

The Rifle A Visiting Expert. Trap shooting enthusiasts will be glad of the announcement that John Bos of the Dominion Cartridge Company, and one of the best trap shots in the world, will

SOME GREAT RECORDS BY TWIRLERS

The Baseball Hall of Fame, which has recently been enriched by the addition of Rube Marquard, on the strength of his seventeen straight victories—though in one of them he pitched only one inning and in another 2 1/3, has set the old-time fans searching the records, with the result that it is convinced that the good old time held celebrating equally great—only they have been forgotten.

A few pitchers have made fame for themselves by getting into a consecutive streak that didn't amount to very much before, or after their achievement. For instance, "Jack" Luby in 1891 fell into a winner's groove and before he recovered some seventeen games were won in succession. Luby is credited by some historians with getting away with twenty straight, but no records can be found that are correct, to substantiate this claim. A careful analysis of his work shows that he was not entirely responsible for this wonderful record. The Chicago team was going well at that time and Luby was the one to be carried on to fame by being the selection for box duty on the team's lucky and winning days. "Bill" Hutchinson, then the most famous of twirlers, was the mainstay of the Cubs' team at that time, but Dan Fortune passed him up for Luby.

Loveit Was Great. A world's record in any league, for consecutive wins, was made by Thomas Lovelock, a really great pitcher, during the season of 1887. Lovelock was then pitching for Bridgeport, starting the spring training trip he won 21 straight games, every one nine innings, or over. The exhibition games were against stronger and heavier caliber teams than the clubs in his own circuit.

In the major leagues, Timothy J. Keefe holds the world's record, right in the height of the season of 1888. Timothy J. made his remarkable run of 21 consecutive victories with just one flaw, at that time it was criticized by some writers. It was remembered by Pitcher George in the fifth inning in order to save him for a game the following day, the game he considered all right.

James McCormack, the great hurler, who flourished in the big leagues during the early 80's, is credited with winning 24 straight games, but his records fail to show any such work. His best is 15 consecutive victories made while with Cincinnati in 1884. During 1888-87, McCormack held winning streaks of 12 to 14 games, respectively.

Rabourne's record of 18 straight victories made on 18 successive days is perhaps the greatest feat ever performed by any pitcher of all time.

Cushman's 25 Out of 27. Ed Cushman, a left handed fan of fame during the early days, came the nearest to winning a game pitched in, just managing to get a better shot will ever come this way again.

The gun club is in receipt of a very neat silver watch presented by the Dupont Powder Company. The dates for this will be announced later.

Longboat Operated On. Toronto, June 28.—Dr. Powell this week operated on Tom Longboat's nose and took an obstruction out of each nostril. Of course the growths interfered greatly with the Ojibwa's air supply, especially in a grueling race like he was in on Saturday night, when he was beaten off in the final sprint for the tape by both Ted Wood and Billy Quail.

With a full supply of oxygen there is no telling what the big Indian will do. When it is considered that with a plugged up nose he was able to set up a new world record for fifteen miles and to come back and hang on to the last 300 yards with the possibilities of the wonderful running machine are startling.

The operation delayed Longboat's departure for New Scotia Harry Rosenthal, ex-manager of the running/marvel, who also has the same trouble, made a compact with the Indian a month ago to be operated on at the same time Longboat faced the knife, but "Rosie" backed out at the last moment.

Modern Home Furnishers. Phone Main 1404-11.

Save the Babies. Valuable Work Done in Report on Child Welfare Endeavors in Toronto. A valuable work has been done by Dr. Helen MacMurchy, of Toronto, who has just presented a report on child welfare work to the legislative assembly of that province. In the report she points out that nineteen children under one year old were buried every day in that province during the year 1909. She points out that, looked at from the cruelest and lowest view point of the financial side this loss of children is a decidedly bad piece of business. The cost of burying a baby is about \$50. It cost the Province of Ontario about \$500 to bury these dead babies. A dead baby is a liability until its funeral is paid. But a living baby is an asset and liable to grow into a good Canadian—and what sum is a good Canadian worth to the country?

Doctor MacMurchy shows that the waste of human life can be checked and cites the example of many cities in Europe, but places particular emphasis upon the Canadian city of Port William. In discussing the work accomplished in that city she says: "Doctor Woodhouse, appointed medical health officer in 1910, found that in the months of July and August every five or six months one of our babies, or one of them from summer complaint. He made a list of the names and addresses, and for his own satisfaction went himself to see the mothers and talk to them. He found that one baby three months old, had been given half a soda biscuit with each feeding; one had been fed on some milk all day except the first feeding in the morning, and that two had had green uncooked fruit to eat. But not one of these sixty-three babies who had died in Port William in July and August had been nursed by the mother. With this information the doctor went to work. He asked for a laboratory for examination of milk and water. He also secured 14 milk by law; 2 a compulsory sewer bylaw; the appointment of a sanitary inspector; 4 the appointment of a district health visiting nurse; by this plan of campaign Doctor Woodhouse was able to carry Fort William through the hot weather of July and August, 1911, with only twenty-one deaths of infants under one year old. Twenty-one is a third of sixty-three. Such methods, if adopted in other communities, would accomplish similar results."

Montreal has many problems to grapple with and solve, but in comparison to our human life such questions as civic finances the paving of streets, the regulating of the street railway system, or of the street traffic sinks into insignificance. It is an imperative necessity that this city should remove one of all the approach of having the heaviest death rate among infants of any city on the continent and the second heaviest of any civilized city in the world.

GAVE UP HER LOVER. A number of years ago my mother died, and left my father and four of us. I was the eldest, and engaged to be married. My mother, on her death-bed, asked me to give my lover up and look after my father and sisters. I nearly broke my heart at the thought of giving Jack up, for I loved him dearly, but at last I decided to do so, seeing it would let mother die happy. Jack took it sore to heart, and went abroad. He died a year after. My father has died since. My sisters have all got married, and I am left myself. I feel lonely and sad at times, but still I'm happy at the thought of doing my duty to my mother.—Jeanie Cowie.

Suit for \$1,000,000 against Chas. W. Morse has been commenced in New York by the N. Y. Assets Realization Company on a claim assigned to them by A. P. Heine who alleged that Morse violated an agreement with regard to the sale of some copper stock thus causing Heine a loss of at least a million. Dr. J. L. Jacks and Mrs. Jacks of Oxford, have gone to Queens County. Dr. Jacks is looking for a suitable place to start a fruit farm and it is expected that he will close the purchase of the Alfred Slipp farm at Hempstead. The price is said to be \$10,000. It includes 600 acres. Toronto, June 28.—Although a motion was made to commit him for contempt of court, W. R. Traven, ex-general manager of the Farmers' Bank, today refused to divulge to Sir William Meredith, government commissioner investigating the causes of the failure of that institution, where the proceeds of a \$3,000 check marked "C" went.

In the report she points out that nineteen children under one year old were buried every day in that province during the year 1909. She points out that, looked at from the cruelest and lowest view point of the financial side this loss of children is a decidedly bad piece of business. The cost of burying a baby is about \$50. It cost the Province of Ontario about \$500 to bury these dead babies. A dead baby is a liability until its funeral is paid. But a living baby is an asset and liable to grow into a good Canadian—and what sum is a good Canadian worth to the country?

Doctor MacMurchy shows that the waste of human life can be checked and cites the example of many cities in Europe, but places particular emphasis upon the Canadian city of Port William. In discussing the work accomplished in that city she says: "Doctor Woodhouse, appointed medical health officer in 1910, found that in the months of July and August every five or six months one of our babies, or one of them from summer complaint. He made a list of the names and addresses, and for his own satisfaction went himself to see the mothers and talk to them. He found that one baby three months old, had been given half a soda biscuit with each feeding; one had been fed on some milk all day except the first feeding in the morning, and that two had had green uncooked fruit to eat. But not one of these sixty-three babies who had died in Port William in July and August had been nursed by the mother. With this information the doctor went to work. He asked for a laboratory for examination of milk and water. He also secured 14 milk by law; 2 a compulsory sewer bylaw; the appointment of a sanitary inspector; 4 the appointment of a district health visiting nurse; by this plan of campaign Doctor Woodhouse was able to carry Fort William through the hot weather of July and August, 1911, with only twenty-one deaths of infants under one year old. Twenty-one is a third of sixty-three. Such methods, if adopted in other communities, would accomplish similar results."

Montreal has many problems to grapple with and solve, but in comparison to our human life such questions as civic finances the paving of streets, the regulating of the street railway system, or of the street traffic sinks into insignificance. It is an imperative necessity that this city should remove one of all the approach of having the heaviest death rate among infants of any city on the continent and the second heaviest of any civilized city in the world.

GAVE UP HER LOVER. A number of years ago my mother died, and left my father and four of us. I was the eldest, and engaged to be married. My mother, on her death-bed, asked me to give my lover up and look after my father and sisters. I nearly broke my heart at the thought of giving Jack up, for I loved him dearly, but at last I decided to do so, seeing it would let mother die happy. Jack took it sore to heart, and went abroad. He died a year after. My father has died since. My sisters have all got married, and I am left myself. I feel lonely and sad at times, but still I'm happy at the thought of doing my duty to my mother.—Jeanie Cowie.

Suit for \$1,000,000 against Chas. W. Morse has been commenced in New York by the N. Y. Assets Realization Company on a claim assigned to them by A. P. Heine who alleged that Morse violated an agreement with regard to the sale of some copper stock thus causing Heine a loss of at least a million. Dr. J. L. Jacks and Mrs. Jacks of Oxford, have gone to Queens County. Dr. Jacks is looking for a suitable place to start a fruit farm and it is expected that he will close the purchase of the Alfred Slipp farm at Hempstead. The price is said to be \$10,000. It includes 600 acres. Toronto, June 28.—Although a motion was made to commit him for contempt of court, W. R. Traven, ex-general manager of the Farmers' Bank, today refused to divulge to Sir William Meredith, government commissioner investigating the causes of the failure of that institution, where the proceeds of a \$3,000 check marked "C" went.

Save the Babies. Valuable Work Done in Report on Child Welfare Endeavors in Toronto. A valuable work has been done by Dr. Helen MacMurchy, of Toronto, who has just presented a report on child welfare work to the legislative assembly of that province. In the report she points out that nineteen children under one year old were buried every day in that province during the year 1909. She points out that, looked at from the cruelest and lowest view point of the financial side this loss of children is a decidedly bad piece of business. The cost of burying a baby is about \$50. It cost the Province of Ontario about \$500 to bury these dead babies. A dead baby is a liability until its funeral is paid. But a living baby is an asset and liable to grow into a good Canadian—and what sum is a good Canadian worth to the country?

THE 4 C'S CREDIT CUSTOM CLOTHING

Men's and Women's Suits and Coats Made to Order 68 Mecklenburg Street St. John, N. B., June 29, 1912.

SPORT NEWS OF A DAY; AT HOME AND ABROAD

Baseball A Tie Score. An interesting game of baseball was played last evening in the Queen Square League, West End, when the contesting teams, the Rogers and Stars, tied, 19-19, in a very lively eight inning game. The batteries were for the Stars, Laray and Dalton; and for the Rogers, Morray and Fitzgerald.

Standing of East End League. Won. Lost. P.C. Glenwoods 6 2 .750. Alexia 5 3 .625. Commercial 4 4 .500. Nationals 2 6 .250.

Nova Scotia Games. Halifax, June 28 (Special)—A home run by Chisley today this afternoon in the ninth inning was one of the features of the baseball game between Westville and the Scotia. Westville was victorious after a hard fought game, by a score of 5 to 4. As Stelartio the Standards, of Halifax, defeated Stellarton, 7 to 1.

The Big League American League. Boston 4, New York 4. Cleveland 6, St. Louis 3. Philadelphia 4, Washington 3. Philadelphia 5, Washington 4. Detroit 10, Chicago 9.

National League. Boston 3, New York 10. Boston 3, New York 12. St. Louis 8, Cincinnati 5. Chicago 3, Pittsburgh 0. Brooklyn 4, Philadelphia 6.

National League. Won. Lost. P. C. New York 49 11 .815. Pittsburgh 35 23 .605. Chicago 34 24 .588.

Notes of the Game. That McGovern can peg the ball to second. That batting practice on the Greys today. Keep that kind of ball up, boys, and we will get the Boston Americans to come down and play you.

The Turf. Moncton Horse Races. Moncton, June 28 (Special)—About 500 people attended the first day's racing on the Moncton speedway this afternoon, and good sport was witnessed. The track was in good condition but a high wind prevailed, interfering to some extent with fast times, although it was considered good for the opening of the season. The events this afternoon were 217 and 229 trot and pace. Candy Girl, of Moncton, won the 217 class, and Our Protein, also of Moncton, captured first money in the 229 class. Summary:

217 Class, Trot and Pace. Candy Girl, C. Bezanon, Moncton. 1 1 2 1. Orphan Girl, F. Boutlier, Halifax. 4 4 4 4. Billie C. Hazen Chapman, Point. 3 3 1 3. Alie W. James Adams, Halifax. 2 2 2 2. Time—2:22, 2:30 1/2, 2:30, 2:25 1/2.

229 Class, Trot and Pace. Our Protein, C. F. Bezanon, Moncton. 5 5 2 1 1. Frank Powers, F. Boutlier, Halifax. 4 4 1 2 3. Achille the Great, W. H. Musgrave, Halifax. 3 3 3 3. Premier, P. A. Bellevue, Moncton. 1 1 3 4 4. Nellie Oak, C. H. 2 2 2 2 3. Lou Helen, Halifax. 2 2 2 2 3. Time—2:25, 2:25, 2:24 1/2, 2:25 1/2, 2:25 1/2.

Judge—Frank Power, starter, Halifax. Wm. Campbell, St. John; C. B. Willett, Moncton. Timers—Aval Landry, Bathurst; T. W. Bell, L. P. Aard, Moncton. The free-for-all and 225 are the classes for tomorrow.

The Rifle A Visiting Expert. Trap shooting enthusiasts will be glad of the announcement that John Bos of the Dominion Cartridge Company, and one of the best trap shots in the world, will

**LOCAL NEWS**

**THE HOLIDAY**

**A Good List of Attractions For This Afternoon and Monday**

The combination of a Saturday half holiday this afternoon and Dominion Day on Monday has made possible many plans for outings which will extend over the three days and all that is needed to make the midsummer holiday a most enjoyable one is suitable weather. Many citizens are planning to get away this afternoon to remain over Sunday and Monday, the excursion rates on all lines making this attractive.

The John Power Boat Club fleet will leave the club house this afternoon at two o'clock for Craig's Point and will proceed to Glenwood, where sports will be held on Monday morning. They will leave for the return trip to St. John on Monday afternoon at two o'clock.

Members of the Royal Kennebecis Yacht Club will also leave this afternoon for a cruise up river and on Monday the power boats of the club will race from Gagetown to Millidgeville. Special prizes have been offered for the first six boats. The start of the race was announced for eight o'clock a. m., but as some of the starters consider this too early it is possible that the race may not begin for an hour or two later. The first boat will probably arrive at Millidgeville about four hours later. The judges will be Commodore Robert Thomson, J. H. Kimball, A. E. Everett and T. T. Lantaulum and the entries are as follows:

Fairbanks—George W. Wetmore.  
Oh You—H. D. Nae.  
Cachoon—Harold W. Kinsman.  
Ogista—F. A. Dykeman.  
Keonik—Dr. J. H. Barton.  
Titer, H. W. G. Rodwell.  
Silver Spray—A. R. Cruikshank.  
Bonsel—Gandy & Allison.  
Dixie—John Prockham.

Baseball is one of the big holiday attractions and the victory of the locals yesterday has whetted the appetite of the fans for more of the same kind. The Marathons will clash with the Frederictons a second time this afternoon and on Monday there will be games with the Woodstock team at ten a. m. and three p. m. A baseball game and a series of sports has also been arranged for Monday afternoon at Seaside Park and there will be band music both afternoon and evening. Rockwood Park will be at its best and will afford a pleasant recreation ground for many of the people.

Monday will also be notable as the opening of the biggest theatrical attraction of the year, here, Margaret Anglin, the St. John actress in the play Green Stockings. The moving picture theatres have all arranged special programmes and will be open all day.

**QUESTION OF FEMALE HELP IN ST. JOHN**

**A Suggestion By A. J. Sallows—Training School For Girls**

Touching the question of female labor to which reference was made in The Times yesterday, A. J. Sallows makes a suggestion which he thinks might help to solve the problem. It is that the provincial government or the civic authorities, or these two combined, should establish in the city a practical training school where girls might learn to operate machines and fit themselves for work in factories for the manufacture of dry goods specialties, certain lines of clothing and the like. At present he says it is practically impossible to get skilled workers, and this statement is confirmed by other manufacturers whose work is along similar lines. If St. John is to become a large manufacturing centre there must be large increase in factories of this kind, giving employment to girls and one of the inducements for a manufacturer thinking of locating in St. John would be the fact that he could get skilled labor.

Mr. Sallows believes that if a training factory or school were established girls would take advantage of it where they would not otherwise be able to get it in a manufacturing establishment. He says, further, that with proper training for six months girls should be able to fit themselves to earn from \$5 to \$10 per week. He makes the further suggestion that the materials made up in the training factory could be utilized for the various public institutions, and thus it would help to pay its own way. He believes that many girls from other parts of the province would take advantage of such a training factory and so be able to earn a good living either here or in their own town.

The Times has been informed by wholesale milliners that they find difficulty in getting enough capable help, and makers of clothing for the wholesale trade tell the same story.

When Messrs. J. M. Humphrey & Co. started their shoe factory they had practically no help at all, and they obtained their own work-people, because thoroughly skilled workers were not to be had in the city.

The question, therefore, of supplying skilled workers is one of great importance to St. John and it is suggested that the board of trade take up the question.

**THE LINE-UP FOR TODAY'S BALL GAME; WINKLER VS. DINSMORE**

The Marathons and Frederictons will meet again on the baseball ground at afternoon at three o'clock in combat royal. The Woodstock team will be here on Monday for two games with the Greeks. With Winkler in the box, the Marathons hope to repeat the triumph that they gave the Fredericton team yesterday on the Marathons grounds. Rube Dinsmore who will be in the box for the victors is a good one. The Marathons have now struck their stride in the batting line, and can be counted on to give the Fredericton fielders some practice. If Winkler does not go the whole way, all Sweet will be called upon. Sweet has been pitching excellent ball lately. The game today will start at three o'clock sharp. The teams will line-up as follows:

**Marathons.**  
Catcher.....Murray  
Pitcher.....Dinsmore  
Winkler.....Dinsmore  
1st Base.....Hoyt  
2nd Base.....Hoyt  
3rd Base.....Fay  
Williams.....B. Connolly  
Short Stop.....Wildes  
Fryer.....Left Field.....Connolly  
Fraser.....Centre Field.....Connolly  
Winter.....Right Field.....Dugan  
Riley.....Empire Duffy will look after the game.

**SOME MORE CENSUS FIGURES ARE OUT**

Ottawa, June 29.—Some additional details respecting the census are set forth in a blue book just issued.

The largest gain in the period of forty years was made by Montreal, being 356,480; the second largest by Toronto, being 317,838; the third largest by Winnipeg, being 135,794. Vancouver's growth was 109,401 in less than thirty years.

Males totalled 3,821,867 and females 3,383,771; males single, numbered 2,360,160, and females, single, 1,941,514; males, married were 1,230,854, and females married, 1,231,182. Widowers totalled 80,121, and widows, 179,598. Divorces numbered 1,330. Comparing the four first classes by percentage of population in 1871 and 1911, males increased during the forty years by 2,000,708, and females by 1,602,231; single males by 1,185,373 and single females by 842,138; married males by 788,527 and married females by 706,843; widows, male by 51,634 and widowed females by 99,703.

The number of occupied dwellings in the suburbs of the Dominion in 1911 was 1,413,913, and a number of families 1,488,433 compared with 1,028,892 dwellings and 1,070,747 families in 1901. The average number of persons per dwelling in 1911 was 5.096 and per family 4.841 compared with average of 4.229 per dwelling and 5.016 per family in 1901.

**NICKEL NEXT WEEK.**  
Bill Sau Souci, the college boy with the wriggly voice, will make his debut at the Nickel Dominion Day. On Wednesday and Thursday of next week Thackeray's great story, Vanity Fair, in three reels, will be shown again at general request.

**MARRIED IN LONDON**

**Treasurer of Canada's Olympic Team Takes Bride on Way To The Games**

London, June 29.—Miss Ella McKinley, daughter of G. W. McKinley, a high official of the Vacuum Oil Company, one of the subsidiaries of the Standard Oil Company and Norton H. Crow, of Toronto, treasurer of the Canadian Olympic Team, were married in St. Mary Abbots, Kensington. The bride wore a beautiful dress of old Limerick lace, embroidered with pearls. J. G. Merrick, of Toronto, was best man and the bridemaid was Winifred Lindsay Smith, of London. At a reception at the Hotel Savoy there was a large gathering of prominent Anglo-Americans in the city. The honeymoon will be spent in Stockholm.

The bridegroom arrived in London on Sunday with the Canadian team. His bride met him at the station. The team on seeing the meeting, lined up and gave a great cheer.

**TICKET HOLDERS MUST BE PROMPT.**  
Patrons of the Opera House next Monday, Tuesday and Wednesday evenings are requested to be in their seats at eight five. The curtain will be called at eight fifteen, and late comers will not be shown to their seats until after the first act. The matinee will commence at two thirty.
