Dean Sir—The great benefit I have received from the use of Vegetine induces me to give my testimony in its favor. For several years my face has been covered with pimples, which caused me much annoyance, and, knowing it to be a blood disease, I consulted a number of doctors, and also tried many preparations without obtaining any benefit, until I commenced taking Vegetine, and before I had used the first bottle I saw I had the right medicine. I have used three bottles and find my health much improved, any humor entirely cured. Yours resply.

BY JOSEPHINE POLLARD. I have work enough to do
Ere the sun goes down,
For myself and kindred, too,
Ere the sun goes down,
Every idle whisper stilling,
With a purpose firm and willing,
All my daily tasks fulfilling
Ere the sun goes down.

I must overcome my wrath
Ere the sun goes down:
I must walk the heavenly path
Ere the sun goes down;
For it may be death is wending
Hither, with the night descending
And my life will have an ending
Ere the sun goes down!

Ere the sun goes down ! I must speak the loving word
Ere the sua goes down;
I must let my voice be heard
Ere the sun goes down;
Every cry of pity heeding;
For the injured interceding;
To the light the lost ones leading
Ere the sun goes down!

As I journey on my way, Ere the sun goes down,
God's commands I must obey,
Ere the sun goes down:
There are sins that need confessin
There are wrongs that need redress
If I would obtain the blessing

Public Opinion on the Letellier Matter. Later advices confirm the statement that the notice of dismissal was sent to Letellier by an ordinary hackman. The St. John Sun invented the story that it was sent by Mr. Hinsworth, Clerk of the

The Quebec Chronicle says .- "The dismissal of the Lieutenant-Governor is now an accomplished fact, and to-day the Pro vince of Quebec is without an official head. Contrary to the expectations of those who had believed the Governor-General's advisers capable of withstanding the pressure of Mr. Letellier's enemies, they have yield-ed to the exigencies of the hour, and succeeded in creating a dangerous breach in that Provincial autonomy which ought to be so close to those who respect "Notre langue, nos institutions, et nos lois." In Mr. Letellier the Province has lost an executive head whom its people, especially the citizens of Quebec, who have so often enjoyed his hospitality, have learned to love and to respect, and whose manly conduct under the trying circumstances in which he had been placed has gained for him the admiration of all right-minded men. The long delay which occurred in putting into execution the designs of Mr. Letellier's enemies led many to believe that the members of the Dominion Cabinet would succeed in showing them the injus tice of such designs. This has since prov-

The Toronto Globe's Quebec corres dent says .- "The indignation created by the dismissal of Lieutenant-Governor Letellier is very great, and exhibited itself vesterday in the groans and hisses which greeted Sir John A. His Honor, Lieut.-Governor Robitaille, took formal possession on Monday, of the office in Government House, on St. Louis street. On the fact becoming known a number of gentlemen of the city hastened to pay their respects to the newly appointed head of the Executive for the Province, the Hon. Mr. Joly and his colleagues in the ministry, Lieut.-Col. Montizambert, and other well-known citizens being amongst the number. His Honor and Mrs. Robitaille intend to remain at the St. Louis Hotel until they take up their residence at Spencer Wood.

The Ottawa Free Press says:—"The logical sequence of the Chapleau Mousseau Angers success is that Quebec is now and must henceforth be at the mercy of a Federal majority; that her vested rights under the Act of Confederation have been surrendered to the exigencies of a political faction strong enough to move the Dominion Government.

Correctly, it was either creme or cream, but the Sun's readers generally have to be lieved that when anything is colored it ceases to be white. But the Sun is so accustomed to "coloring things" that even Lady Burrard's dress could not be expected to escape the usual process at that paper's hands. It put Dr. Holden in petticoats of light green silk, trimmed with a cardinal velvet. We don't believe the Dr. appeared in any such ridiculous costume. Then we have "ink" blue and "tulle" green silk placed on some ladies, together with a number of other toilette idiosyncrasses which would have justified the Sun as to having established anything against Supervisor Walsh in his "two former letters," as every one living in this locality letters," as every one living in this locality were in, when Mr. Walsh assumed office. They had guns in their hands, and that they meant to break open and plunder the office was clear enough to Rike. He furthermore knew they would not heatate to murder him, and would probably do so to shield themselves from further identification.

Escape was impossible, unless he and Chinaman could climb a well-nigh perpendicular gravel-bank, three or four hundred feet high.

'I knew I was caught like a mouse in a trap,' Rike afterwards said, in his account of the affair. 'That iron pipe was too big round to shin up. I thought at first that I could get the carbines and pop at them from behind the office as they came up the gulch.

When I found that the office looked, I knew that the only weapon of defence I had was the dugong' (water-gun). 'And I hadn't any too much time, either, for the rascals were coming at the top of their speed.

But, though an engine of such power, the nozale, or water-gun is easily managed; and an intelligent boy of four-teem, like Rike, is able to tend it, and direct the jet wherever it is necessary, against the gravel bluff.

Hyde's Guloh was, at the time of which a my witing, a narrow ravine, made in part by the water-gun itself. On each side there were gravel-banks three or four hundred feet high. Nothing was heard in the gulch but the wits and splashing of water, as Rike turned the nowle up and down on the great eracked and fissured walls of gravel. Away down the gorge, the dumpy figures of the Chinese could be seen moving lazily about, here and there.

But as Rike happened to look in that direction, he saw an unusual commotion among them. First, they ran a few steps, then shood huddled together, looking down in the ravine. A moment, after, one of them, named, Cheng Sai, turned and ran at the top of his speed towards Rike, the other two flee-ing across the gulch to where some steps and a long ladder led up the face of the bluff.

'What's the matter now, Chengy!' Rike called out to him.

'Ghi-wee Tr-huntasi' cried the Celestial, relapsing in his terror, into his native tongue.

'None of that outlandish jabber!' exclaimed Rike. 'Talkee English-right smart, too.'
