INTRODUCTION.

THE Calendar will be found to contain full information the course of studies pursued; but a few words pointing out its leading features may not be out of place. Our aim is that all Students shall have the opportunity of obtaining a good general education, without their attention being so distracted as to prevent their attaining proficiency in any one particular branch of study. Experience has shown that, considering the age and acquirements of most of the Students coming to College, their time will be most usefully spent-at least during their first year-in attending the complete course of lectures. There is, therefore, no option given until after the passing of the Responsions examination. If the Student has studied faithfully up to that time, he is then encouraged in selecting some one or two special subjects, and he is allowed to give his almost undivided attention to these. The subjects taught at King's College are so well known that they need not be enumerated, but the Governors would remind parents that there is every facility for a practical as well as a literary education, -Practical Chemistry, Geology, Mineralogy, and Modern Languages being constantly taught. We would call special attention to the Engineering School. Civil Engineering is Prof. Oram's speciality, and practical instruction is given on this very important subject. Williams Prizes afford direct encouragement to this class of subjects, and it is our hope to make King's College take the position of the chief School for Engineering and Mining in these Provinces.

The Governors are glad to be able to announce that they have succeeded in securing the valuable services of Dr. Stiefelhagen for the Professorship of Modern Languages. His well established reputation makes him welcome among us again.

As to the discipline of the College, the Governors—while able to say that there has been a marked improvement in this during the past year or two—are alive to the importance of making such changes in the arrangement of the College building as will facilitate the exercise of proper control. This is, however, no easy matter, and they feel that, while quite ready to make any reasonable expenditure, they should only do so after careful consideration, and with a fair prospect that the plan finally adopted will be likely to accomplish the intended object.

leading France may not be out of place. (for not is that aN Studions short the constraints of obtaining a good conversal no rote of an honorous on the motion in most hooks of the their adjusting producting the any one particular bound of study to scientificate that considering the are and arquirence to the gaileasts, it was dead their rear at the treat of the complete source of feetuars. There is, therefore, no option given until after the passing of the Maspansians examination. If the excless has sended falshfully up to that dure, he is then decouraged in what no come account we enough adjaces, and he is allowed to give his almost underlied situation to these. The adjects rangels at King's Callege are so well known that they meed not be enough retod, but the Conventors would remind parents that there is every facility for a practical as beel as a bisevery cheenfor, -- Practical Chambery, Goology, Mingraphy, and Modern Languages benny constrailly ranght. We would call queels attention to the Phylinsering School. Civil Maginacount is Prof. Oran's specialty, and practical instruction is given on this very important subject. The Williams Prizes afford direct encouragement to this chee of subjects. and it is our hope to trade King's College take the position of the chief rechool for Engineering and Mining in those Provinger.

The Governots are glad to be abild to announce that they have engeroeded in securing the valuable services of Dr. Statelohagen for the Professorship of Modern Languages. This well retablished mutation makes him wedcome among us again.

Students.

There are two classes of Students admissible to the College :-

- 1. Matriculated Students: who must pass the Matriculation Examination in one of the Universities constituted by Royal Charter, or of which the members shall be admitted to this privilege by the Governors of King's College.
- 2. Elective Students: who desire to attend during an Academical Year or Term, one, two, or more courses of Lectures.

MATRICULATION.

Every Student presenting himself for Matriculation shall be required to pass an Examination in the following subjects:—

I.—CLASSICS.

THE GREEK AND LATIN LANGUAGES.

One Greek and one Latin Book, to be selected and published by the College Board one year in advance.

Note.—By a "book" shall be meant one division of an author's work. For example, one book of Homer's Odyssey shall mean any one book out of the twenty-four into which the poem is divided.

II.—MATHEMATICS.

ARITHMETIC.

The ordinary Rules of Arithmetic: Vulgar and Decimal Fractions.

AT.GERRA

Addition, Subtraction, Multiplication, and Division of Algebraical quantities.

GEOMETRY.

The First Two Books of Euclid.

III.—THE ENGLISH LANGUAGE.

Orthography: Writing from Dictation: the Grammatical Structure of the Language.

IV.—THE FRENCH OR THE GERMAN LANGUAGE.

(At the option of the Candidate.)

One passage from some author for translation into English. The College Board to select the work and publish the name one year in advance.

Candidates shall not be approved by the Examiners unless they pass in *Two* of the above subjects, of which Classics shall be one.

It shall also be necessary to pass in Arithmetic.

Subjects for 1873-74:

Homer. Iliad. I. Horace. Odes. I. French: Charles XII. Voltaire. German: Adler's Reader, Part I.

1. Matriculated Students are required to attend the Lectures and Examinations in all the Departments of their course, and to procure from each Professor a certificate of attendance, without which they will not be allowed to proceed to the Examination held at the end of every term.

2. A certificate of Matriculation will be given to every Student who passes the Examination and pays the fees ordered by Statute.* This certificate will have to be shown to every Professor whose course of Lectures the Student desires to attend.

3. Students in Arts may obtain permission from the College Board to attend special courses of Lectures in the Science Department.

4. Matriculated Students of any recognized University may enter as Undergraduates of the same standing to which they had become entitled in such University, on producing satisfactory Certificates.

^{*}See Regulation's regarding nominations which admit students to nearly all th courses of Lectures without fees.

Attendance at all Lectures, except those which shall be announced as optional, shall be compulsory upon all Undergraduates.

Professors will register, upon the Lectures Attendance List, the presence or absence of Students immediately before beginning the Exercises of the Class; any Student entering thereafter will be noted as absent, unless a satisfactory explanation be given to the Professor.

No Student shall be allowed to absent himself from any Lecture except by special permission, obtained from the Professor.

COURSE OF STUDY.

The object aimed at is to secure a good general Education for all Matriculated Students, while every facility is afforded for the prosecution of special studies. Accordingly every Matriculated Student, except under peculiar circumstances to be approved of by the College Board, is required to attend the Lectures of all the Professors until he has passed his Responsions, which is generally done in the fourth Term of residence. After this he is at liberty to select two or more of the subjects lectured on to form the subjects of his B. A. Examination, provided that in case of Classics not forming one of the subjects thus specially selected he shall be required to attend the Classical Lectures only once in each week. If the student is desirous of taking Honours at his B. A. Examination he can do so in any one of the subjects lectured on after passing the ordinary Examination. The precise Regulations will be found under the head of Examinations.

Students who do not intend to take the Degree of B. A. are permitted to attend the Lectures of any of the Professors subject to all the usual Regulations.

The schemes of Responsions and B. A. Examination will afford a general idea of the usual Curriculum, which, within certain limits, is varied as circumstances require.

SUMMARY OF STUDIES.

CLASSICS.

Homer, Herodotus, Thucydides, Sophocles, Euripides, Æschylus, Aristotle, Longinus, Horace, Ovid, Cicero, Livy, Tacitus, Terence, Juvenal, Lucretius, Composition in Prose and Verse.

THEOLOGY.

Hebrew and Greek Scriptures, Septuagint, Bible History, Ecclesiastical History, Biblical Antiquities, Evidences, Systematic Divinity, Homiletics, Polemics, Pastoral Theology.

MATHEMATICS.

Algebra, Euclid, Trigonometry, Plane and Spherical, Natural Philosophy, Astronomy, Engineering and its applications.

Ten in number-£30 sterling, per annum.

THE DR. BINNEY EXHIBITION.

£16 Sterling per annum. Open to Students in indigent circumstances, and of exemplary conduct.

In the year 1858, Miss Binney, sister of the present Visitor, and daughter of the late Rev. Dr. Hibbert Binney, in the name and on the behalf of her father's executors, handed over to the Governors certain stock, amounting to \$1000, to found an Exhibition at King's College, to be called the "Dr. Binney Exhibition," in memory of her said father.

The design of this Scholarship is to assist poor Students who may require assistance, and who shall have commended themselves by their exemplary conduct, although their abilities and acquirements may not qualify them to be successful competitors for an open scholarship.

TERMS.—On or before the last day of May, in every year, the College Board shall nominate two Students, in their third term, at the least, whom they may deem best qualified, having regard to their poverty and the excellence of their characters: and the President shall forthwith transmit their names, together with a brief statement of their claims, to the Visitor, who shall select one of them to be the Exhibitioner, and to receive the interest accruing for the following year, commencing July 1st. Or, at his discretion, if he considers the claims of the two nominees to be equal, or nearly so, the Visitor may adjudge that the amount may be divided between them.

EXHIBITIONERS.

Prizes.

THE McCAWLEY HEBREW PRIZE

Of £9 Sterling. Open to all Members of the University who are below the standing of M.A., and who have not already gained the first premium in Hebrew.

This Prize is given out of the interest of a Trust Fund in the hands of the Society for the Propagation of the Gospel in Foreign Parts. The Fund and the condition of the Prize are thus stated in the Report of the Society:—

"This Fund arises from a gift of £150 (stg.), in the British North American Bank, made by the Reverend George McCawley, D.D., Falmouth, Nova Scotia: the interest to be paid to the Student of King's College, Windsor, N. S., who shall pass the best Examination in the Hebrew Bible and Greek Testament; the Examination being under the direction of the Visitor and the President.

Subject for next Examination :-

Genesis XXXIX.-L. Hebrew and Septuagint.
Psalms XI.-XVIII.
Isaiah XI.-XX
Gospel of St. Matthew. Greek.

-

WILLIAM J. ALMON, Esq., M.D., has endowed King's College with \$400, the interest of which is to be appropriated as a prize to be competed for every June, by matriculated students, in their first year of residence. The prize is to be presented by the President in the College Hall, on the 8th September, being the anniversary of the attack upon the Redan, in which Major Welsford fell—on which day, in every year, his gallant and loyal deeds are to be commemorated in Latin. (N.B.—Day changed to first Monday in Michaelmas Term.)

If no candidate shall be deemed worthy of the prize, it will be appropriated to the purchase of books for the College library.

PRIZEMEN.

THE AKINS HISTORICAL PRIZE.

T. B. Akins, Esq., D.C.L., Barrister-at-law, and Commissioner of Public Records, has vested in the Governors, as Trustees, a sum of money sufficient to found a Prize of Thirty Dollars, annually, for the best Paper or Essay on the County History of Nova Scotia, embracing matter derived from local records, and traditions relating to the early and progressive history of each County. The Essays must be given in to the Secretary of the Governors on or before the 1st of June, 1873. The decision on the merits of the Essays to rest with the Governors, or such persons as they may appoint, and to be announced at the Encania in June.

Each Essay is to be distinguished by a motto, and to be accompanied by a sealed paper, bearing the same motto on the outside and containing the name of the writer. The subject for 1873 is the County of Digby.

The Essays when given in are the property of the College.

THE GENERAL WILLIAMS PRIZE.

Three of \$60 each, annually, during his Excellency's life, for the best scholar in—

 Mining and the Science of Mineralogy as it bears practically on these operations.

Mechanics and Civil Engineering as they bear on all matters relating to railroads, motive power for them, and all other modern aids to the human hand.

 Languages of modern Europe—German, but more especially French, as the almost universal medium of communication in Europe.

His Excellency has decreed that should no candidate be found duly qualified, the amount in that case, in any year, shall be applied to the purchase of books in that department for the College Library.

I. For the WILLIAMS PRIZE in Engineering.—That the course of study, preparatory to this competition, shall embrace, first that part of Engineering comprehended under the general name of Engineering Geodesy, which depends upon Geometrical principles alone, such as Surveying, both with the chain and by angular measurements, levelling, setting-out works, copying, enlarging and reducing plans, together with a philosophical account of all the instruments used in these operations. Second—A summary of the principles of stress, stability, and strength. Third—The principles according to which structures are combined into extensive works of Engineering, such as roads, railways, natural and artificial water channels, inland navigation, tidal and coast works.

II. The WILLIAMS PRIZE in Mineralogy applied to Mining.—That the preparation for such competition shall-be, in addition to a brief sketch of Geology, a knowledge of the general principles of Mining and a practical acquaintance with specimens of metals and minerals, particularly the natural products of the British North American Provinces, such as ores of gold, copper, iron and other metals, coal, antimony, gypsum, manganese and other useful minerals. That the candidate shall be required to produce satisfactory certificates of attendance, and attention, at lectures on chemical physics and inorganic chemistry, either in the College or elsewhere, in addition to the like satisfactory certificates of attendance at the special lectures by the Professor.

III. The WILLIAMS PRIZE in Modern Languages. That the course of study preparatory to this competition shall embrace a competent knowledge of at least French and German. French must be known grammatically, and must be correctly pronounced. Some knowledge of the best authors must be displayed. Facility in writing the language must be shown, and a readiness and fluency of conversational expression. Similarly in German, but with excellence in one language mediocrity in the others will be tolerated. Provided always, that no Student shall succeed without passing a really good examination in French.

The system of examination pursued in deciding for each prize, shall be as uniform as possible throughout them all.

STEVENSON SCHOLARSHIPS

THE REV. J. STEVENSON, M. A., (sometime Professor of Mathematics in King's College) lately deceased, has left a sum of money for the purpose of founding THREE SCHOLARSHIPS, tenable for two years, and open to Students in their second year of residence.

REGULATIONS FOR STEVENSON SCHOLARSHIPS

- 1. These Scholarships shall be competed for in the month of October, and shall be open to all students in their second year of residence.
- 2. No student shall hold more than one of these Scholarships, and in the event of two being vacant at the same time, they shall be awarded to the first and second candidates on the list who shall have attained the proper number of marks.
- 3. No student shall be admitted as a candidate who is not prepared to undergo an examination in at least two of the Departments recognized in the Professorships, and who cannot produce satisfactory certificates of moral conduct.
- 4. No Scholarships shall be awarded to any candidate who shall not have made at the Examination 50 per cent. in two Departments.

Mominations.

The following is the form of nomination of a Student to pass through the University, free of fees, and must be addressed to the Secretary of the Board of Governors:

Secretary of the Governors of King's College, Windsor.

I do hereby nominate (A.B.) to pass through the University, free of fees, by virtue of certificate No....., held by me.

(C.D.)

In case of a joint certificate, the above form must be complied with, and the same must be signed by all the holders.

Each nominee is exempt from the payment of yearly fees, amounting to \$195 for the three years' course, besides the fee for a B. A. degree. There being some eighty certificates conferring this privilege, it is easy for Students to obtain it. If a scholarship is held besides, nearly the whole yearly cost of education will be covered.

No person is entitled to nominate a Student unless he has paid up his subscription to the Endowment fund. The Governors publish below the names of all who possess the right of nomination.

NOTE.—All nominated Students must, on taking up their residence in College, file their nominations according to the above form, with the Secretary of the Governors at Halifax. Otherwise, they will be charged with the full amount of fees.

The following persons possess, individually, a right of nomination in virtue of the contribution of \$400 each to the Endowment Fund:

The Lord Bishop of Nova Scotia. Heirs of H. King, Esq. Heirs of Hon. H. H. Cogswell. Rev. R. Uniacke. Heirs of Sir Brenton Haliburton. Heirs of Rev. T. Crisp. Rev. Henry Sterns. A. M. Examinations.

TERMINAL EXAMINATIONS.

Every Student will be required to undergo an Examination at the end of each Term in all the subjects in which he has attended lectures.

Every Undergraduate, previous to presenting himself for any Terminal Examination, will have to obtain from each Professor whose lectures he has attended during the Term, a certificate of attendance and good conduct.

No Professor will grant such certificate if more than two absences without leave, during the course of the Term, are recorded against the applicant, or if his conduct shall have been in any way reprehensible.

Such certificate will then be handed in by the Undergraduate to the Vice President previous to the beginning of the Examination, and no Undergraduate shall be allowed to present himself at any Terminal Examination unless he shall have complied with these regulations.

Vestry of St.

nenburg.

a Braine. Uniacke.

gton, Esq.

tter.

ation at

attended

for any rofessor cate of

sences

gainst

repre-

The list of candidates who shall have passed the Terminal Examination shall be published in the Hall, after the close of the examination. The names shall be arranged in order of merit. Any Student whose name does not appear in this list shall forfeit the Term.

RESPONSIONS.

Every Matriculated Student is required to pass a public Examination called Responsions, for which he may offer himself as soon as he has entered upon his fourth Term, and no Term after the sixth can be reckoned until it has been passed. This Examination is held at the beginning of the Michaelmas and Lent Terms. The subjects are as follows:—

- Classics—One Greek and one Latin Book, and Latin writing.
- 2. Divinity-One Gospel or the Acts of the Apostles.
- Mathematics—Algebra to end of Quadratic Equations; Euclid, two Books.
- 4. Chemical Physics-Inorganic or Organic Chemistry.
- 5. Modern Languages—any one.

B. A. EXAMINATION.

Undergraduates presenting themselves for examination for a Degree, shall be required to produce satisfactory certificates of attendance and conduct during the whole of their three years' course. The certificates will have to be signed by the various Professors whose courses of lectures they have attended, and no

Undergraduate shall be allowed to present himself at any Degree Examination unless he shall have complied with the above regulations. Or, if they shall not have attended the whole time at King's College, they shall be required to produce similar certificates from the University they have attended.

The Examinations shall be carried on mainly by written questions and answers, but the Examiners shall at all times have the power of examining viva voce.

sl

A Public Examination for Degrees shall be held towards the end of Michaelmas and Easter Terms. Students shall not be permitted to offer themselves for this before their ninth Term, except those who intend to offer themselves for Honours who may be examined in the Ordinary Degree subjects in their seventh term, provided only that there, must be an interval of two complete Terms between the Responsions and this Examination. In such case, the Student must pass an examination in the honour-subjects chosen by him before being admitted to a Degree.

Every candidate for a Degree must be examined on two days in at least two of the subjects on which Lectures are delivered by the Professors, and of these the Classics must always be one. The following (or their equivalents) are the subjects for an Ordinary Degree:—

I. CLASSICS :

Greek—Two Plays and an Oration of Demosthenes;
Latin—Juvenal, Select Satires and Tacitus Agricola;
Prize Composition—In the case of candidates for
Honours in any subject except Classics there shall be
only required one Play or an Oration of Demosthenes, one Satire of Juvenal, and an Oration of
Cicero, or one Book of Livy.

II. DIVINITY:

Four Gospels-Bible History and Liturgy.

III. MATHEMATICS:

Algebra to Quadratic Equations; Euclid Six Books;

IV. CHEMISTRY:

Chemical Physics; Inorganic and Organic Chemistry.

V. MODERN LANGUAGES: Any one.

All candidates for Honours in any branch must first pass the Ordinary Degree Examination. Any Student declaring himself a candidate for Honours in one or more subjects other than Classics shall not be required, after passing Responsions, to attend Classical Lectures on more than one day in each week.

Every candidate for a Degree in Honours shall be examined in one or more of the following subjects, at his own choice:—

I. CLASSICS:

Greek—Sophocles, 7 Plays, Thucydides, 2 Books. Latin— Juvenal, Tacitus, 6 Books, Cicero de Officiis. Prose and Verse Composition.

II. DIVINITY:

Hebrew and Greek Scriptures, Evidences, Ecclesiastical History, Systematic Divinity, Church Polity and Liturgies.

III. MATHEMATICS:

Algebra, Euclid, Trigonometry, Diff. and Int. Calculus, Conic Sections, Mechanics, Optics, Acoustics, Heat, Electricity, Astronomy or Engineering.

IV. CHEMISTRY AND NATURAL HISTORY:

Chemical Physics, Inorganic and Organic Chemistry, Practical Chemistry, Qual. Analysis of Compounds and Preparations; Mineralogy, Geology, or Botany—any two.

V. Modern Languages: Any two.

Modifications in the subjects to be made with the approval of the College Board.

Undergraduates who shall have passed the Degree Examination shall be divided into four classes.

None shall be admitted into the two First Classes but those who shall have taken Honours in any subject.

sit

M

en

de

m

m

pa

m

The Third Class shall comprise those who shall have shown great proficiency in *all* the subjects of the Pass Examination, but who shall not have taken Honours.

The Fourth Class shall comprise all such as have obtained the required number of marks, but have not sufficiently distinguished themselves to qualify for a place in the first three Classes.

An Examination Fee of One Dollar (\$1) shall be paid by each candidate to meet the expenses of stationery,—for the examinations throughout the year,—which shall be provided by the University.

Elective Students may also obtain Pass Certificates, Honour Certificates, and Diplomas in lieu of Degrees, which shall entitle them to the designation of Associate of Arts.

OF EXAMINERS.

- 1. The Examiners to conduct the Degree Examinations and the Prize Examinations in each year shall be appointed by the Governors.
- These Examiners shall sign the Declaration, No. 4, in the Appendix to the present code of Statutes.
- 3. The Examinations shall be conducted by means of printed or written papers, and shall take place at such a time as shall permit of the results being made known at the Encænia of that year.

OF TERMS AND RESIDENCE.

The Academical year shall begin in October, and shall contain three terms, in which all scholastic exercises shall be performed, and all degrees conferred. Michaelmas Term shall extend from the first Saturday of October to December 22nd; Lent Term from the second Saturday of January to the Saturday before Palm Sunday; Easter Term from the Monday after Easter Monday to the last Thursday in June.

The following days shall be observed as Holidays in the University: All Saints' Day, Ash-Wednesday, Ascension Day, Whit-Monday, and the Birth-Day of the reigning Sovereign.

In order to encourage School-teachers and others, whose engagements prevent them from attending the full course, and who desire to obtain the Degree of B. A., the following special arrangements will be made:

Any such Student, on making proper application, will be permitted to come into residence during the first week of November in each year, and to remain until the end of the succeeding Lent Term, passing the regular examinations. This will be allowed to count as two Terms. After thus keeping eight Terms, he will be permitted to present himself for the B. A. Examination on any subsequent occasion.

DISCIPLINE.

The Resident Students are under the immediate charge of the Vice-President.

A Register shall be kept of the attendance of all Students at Lectures and Chapel.

No Student shall be out of College after 9.30 P.M., unless by the permission of the Vice-President.

No visitors shall be allowed to remain in College after 9.30 P.M., unless by permission.

The Vice-President is authorized to impose fines or written exercises for infraction of regulations, insubordination, or disorderly conduct; matters of a more serious nature shall be referred to the Board of Discipline, which shall meet once a week, or oftener, if required.

Extracts from the Statutes.

No Undergraduate shall resort to any inn, tavern, or public house, except for some special cause, to be approved by the President, or shall spend his time in the streets of the town.

All bills of the Undergraduates are to be sent by the tradesmen with whom the debts are incurred, to the Bursar, at the end of every term; and parents are particularly requested to refuse payment of any bills not thus sent in.

The introduction of spirituous liquors into the College is absolutely prohibited.

The University Library.

The foundation of the Library is due to the efforts of the first Bishop of Nova Scotia, and may be placed in the year 1799. Several contributions in money had previously been received, but it was not till that year that active efforts were made to obtain books.

The original fund at the disposal of the Governors was not more than £250 sterling, and was intrusted to Mr. John Inglis, son of the Bishop, and a graduate of the University, who repaired to England, in 1800, for the purpose of purchasing books. The names of Dr. Moore, Archbishop of Canterbury, Dr. Porteous, Bishop of London, Dr. Horsley, Bishop of Rochester, William Wilberforce, Sir S. Bernard Morland, John Eardley Wilmot, M.P., and others thus became connected with the early history of the Library.

Munificent gifts from the University of Oxford continued to increase the value of the collection, which was further enriched by gifts from various English gentlemen, and from others settled in Nova Scotia.

The room in the College building set apart for many years for a Library Hall, was completed in 1810 at the expense of Sir Thomas Strange, and the Archbishop of Canterbury.

Subsequently valuable works were presented by Drs. Bayard and McCulloch, and by the Society for Promoting Christian Knowledge.

Among later benefactors, must be mentioned Dr. Greswell of Worcester College, Oxford; The Smithsonian Institute; The British and Foreign Bible Society; The Dean and Chapter of Westminster; T. B. Akins, D. C. L., the author of a History of King's College, and the donor of the "Akins Library," a collec-

tion of rare and valuable works issued by the most renowned Venetian and Parisian presses; the Society of Incorporated Alumni of King's College, who have largely contributed to the increase of the Modern Languages Department of the Library; E. Binney Esq., who made a large donation of Standard Theological Works; C. Cogswell, M. D.; the present Bishop of Nova Scotia and Her

W re

of L

or

This large collection of books, now numbering over 6000 volumes, contained till the year 1870 in a single room in the College building, was then removed to the new Hall specially built for the purpose and presented to the University by the Incorporated It contains a large number of Standard works of reference in Theology which is by far the richest department in the Library-and a fair selection of the great Greek and Latin

In History and Belles-Lettres it is very poorly supplied.

In Science some recent Standard books have from time to time been added, and, next to Theology and Classics, this is the largest department. The languages of Modern Europe are not so well represented.

In spite of the many blanks, the Library is one of the largest in the Province, and contains all the elements requisite for making it a thoroughly well appointed and efficient Reference Library.

There is no special Library fund, and the collection can only be increased by grants of money from the Governors, the occasional lapsing of the General Williams Prize fund, and the benefactions

REGULATIONS FOR THE LIBRARY.

EXTRACT FROM THE STATUTES.

"The Librarian or his Deputy shall attend daily in the Library at an appointed hour. Undergraduates may use the Library when he is present, and may obtain books from him to be taken to any room within the College, and to be retained for such time as he with the sanction of the President may permit."

"Damage done to any book, plate, or other thing belonging to the Library, shall be made good by the person in whose name it is entered on the register."

REGULATIONS FOR THE ADMISSION OF THE PUBLIC TO THE LIBRARY.

The Library and Museum of King's College are open to the public from 12 o'clock noon, till 4 P. M. every Saturday during term time, under the following regulations.

1. A written application, (of which a form may be obtained at the Library) must be sent to the Librarian stating the name, residence and profession of the applicant, and the purpose for which admission is sought. If the applicant be not a householder in Windsor, he or she must be recommended by some well known resident.

2. On the application being submitted by the Librarian to the College Board and approved of, the applicant will be notified of the fact and will be admitted to the privilege of using the Library as soon as he or she shall have paid a subscription of \$4.00 for the year, dating from the date of the application.

3. Every person admitted to the privilege of using the Library shall sign a declaration to observe the Rules and Regulations ordered for the proper conduct of the Library.

Family subscription, \$10.00 per annum.

The Museum.

NATURAL HISTORY.

GEOLOGY AND MINERALOGY.

The Geological specimens, many of which are very fine, illustrate the most prominent features of general geology, but the majority have been collected in Nova Scotia and are especially adapted to shew the characters of the Fossil Flora and Fauna of the Province. There are several collections, which may be discriminated as follows:—

- 1. The Almon Collection, presented about twenty years ago by Dr. W. Almon, of Halifax, contains, with many minerals and a few shells, a considerable number of rock specimens and a few fossils, chiefly from Scotland.
- 2. The Governors' Collection consists of Coal Fossils obtained in 1860, at the expense of the Governors of the College; these were collected by Dr. How with the valuable assistance of a party headed by Richard Brown, Sr., Esq., then Agent at the Sydney Mines, who from long study was familiar with the district. Many of the specimens are exceedingly fine, and some are of large size.
- 3. The Alumni Collection consists of Silurian and Devonian Fossils chiefly from Arisaig, N. S., collected, named, and arranged stratigraphically by Dr. Honeyman; purchased and presented, in 1861, by the Alumniof King's College.
- 4. The Australian Collection consists of specimens obtained through Col. Nelson in 1863 from Sir William Denison, then Governor of New South Wales, in exchange for Nova Scotian specimens from the College Cabinet sent by Professor How. It

value tion r

5. nian, specia 1863

6. cryst:

speci

these

Hard Pool Esq. press Foss Honfrom

special specia

Rev. J. E How contains some beautiful fossils and is arranged stratigraphically: its value is increased by an accompanying large detailed coloured section made by the Government Examiner of Coal Fields under instructions from Sir W. Denison.

- 5. A Collection of British Fossils, chiefly Silurian and Devonian, obtained through the President in exchange for Nova Scotian specimens sent by Professor How from the College Cabinet, in 1863, to Captain, now Sir James, Anderson.
- 6. A Collection from Europe, illustrating chiefly the nature of crystalline and sedimentary rocks, purchased by the Governors.
- 7. Several Collections, some of which are unnamed, and single specimens, given and obtained by exchange at various times; of these it will suffice to name: Reptilian Tracks of great geological interest, presented by the widow of their discoverer, the late Dr. Harding; valuable Fossils, chiefly carboniferous, presented by H. Poole, Esq.; Silurian Fossils from Arisaig, presented by H. Hill, Esq., Sheriff of Antigonish; Coal Plants from Cumberland Co., presented by Rev. Mr. Townshend, Rector of Amherst; Cretaceous Fossils from England, presented by C. B. Bowman, Esq., and Dr. Honeyman; Silurian and Carboniferous Fossils of Nova Scotia, from Professor How.

The Mineralogical specimens represent the most important species of minerals—some of them are of great beauty. They consist of those in the Almon collection, of Zeolites collected at the expense of the Governors, and of various others obtained by gifts and exchange, as mentioned with regard to the geological department. Sir Rupert George, Rev. Dr. Robertson, Rector of Wilmot, Mr. H. Brown, Director of the Geological Survey of Victoria, formerly a distinguished student in science at this College, Rev. Mr. Ambrose, Rev. J. C. Cochran, C. B. Bowman, Esq., J. Bowman, Esq., Rev. D. W. Pickett, Hon. W. Odell, and Prof. How, have presented interesting specimens.

T

The Willis Collection consists of specimens fully illustrating Nova Scotia Mollusca, named, arranged and presented by J. R. Willis, Esq.

The department is further illustrated by a collection of foreign shells, some interesting skulls and skins, and a limited number of preserved animals.

BOTANY.

The Cogswell Herbarium, bound in five Imperial folio volumes, contains a fine systematically arranged collection of Phænogamous and Cryptogamous Plants of Great Britain, presented by Dr. C. Cogswell.

The Gossip Herbarium consists of a small number of Scottish Plants, presented by Dr. Gossip.

The Willis Herbarium consists of Nova Scotia Algæ and Terrestrial Plants, presented by J. R. Willis, Esq.

The Strange Herbarium consists of a considerable number of East Indian Plants, presented, in 1805, by Sir T. Strange.

There are also a few woods, barks, leaves, and fruits—from various sources—presented by C. B. Bowman, Esq., W. J. Almon, Esq., M.D., and other benefactors.

THE GENERAL COLLECTION.

The General Collection consists of various curiosities from different parts of the world, and a small but choice cabinet of coins.

The most interesting curiosities are the beautiful Indian pipe from Queen Charlotte's Island, the models of the Leaning Tower and the Baptistery at Pisa, and the memorials of Gen. Williams and Gen. Inglis, which include the sword worn by the former throughout the siege of Kars and that used by the latter during the defence of Lucknow. There is also a model of the Cawnpore

Memorial Cross, formed of wood from the house in the court-yard of which the women and children were massacred.

The College possesses also a number of autographs of royal and distinguished personages: one of Thomas Moore, the poet, inscribed in a copy of Lucian, presented by him to the College on the occasion of his visit.

The Coins illustrate the Numismatics of Rome and most of the countries of the modern world.

The different departments of the Museum are arranged in twentyfour flat cases, supported by the balustrade surrounding the gallery, and four large table cases, all glazed and provided with lock and key. The large specimens which could not conveniently be placed in cases are arranged on shelves or distributed in different parts of the Hall.

The friends of Science in Nova Scotia and elsewhere are respectfully requested to contribute specimens to the Museum of King's College. The steps which have been lately taken by the Governors to provide suitable cases for the arrangement and display of the contents of the Museum in the fine Hall erected at the expense of the Alumni, offer a guarantee that the liberality of donors will be carefully recognised and faithfully recorded.

It is particularly requested that donors will send their contributions of Books, Coins and Curiosities addressed to the LIBRARIAN, and of Natural History specimens to the NATURAL HISTORY CURA-TOR, King's College Museum, Windsor, N. S., in order that the receipt may be duly acknowledged and the donations recorded in the yearly calendars as heretofore.

EXAMINATION PAPERS-JUNE, 1872.

MATHEMATICS APPLIED TO ENGINEERING.

Examiner, PROFESSOR OF THE FACULTY.

QUESTIONS PROPOSED.

T.

Attempt either one of the following two questions:

1.—A Level having been set up, the following readings were taken to staves placed at A, B, C, and D, viz:—

At A, 13-41; B, 4-62; C, 6-13; D, 2-49.

The Canal has a slope of 9 inches a mile and is 30 feet wide at bed, with side slopes 1½ to 1, and the ground through which it is made has a lateral or sidelong slope of 1 in 16. Plot longitudinal, and cross sections on the former shew the line of canal bed, and mark the depths of excavation at points B, C, & D. A being a point in the bed of the finished Canal and distances AB, BC, CD, are 400, 800, 1200 feet respectively.

SCALES FOR LONGITUDINAL SECTION.

SCALE FOR CROSS SECTION.

10 ft. to an inch.

2.—Take out the quantity of rock-cutting and clay-cutting in the ac-

companying section:

3.—Two road lines meet at an angle of 143° and are to be connected by a curve of 1000 yards radius. Give the value of the following, tangent, length of curve, secant, tangential angle for a chord of 20 yards.

4. -Calculate the value of the offsets for the above curve for chords

of 20 yards.

taken to

at bed.

de has a

sections

of exca-

finished

ectively.

5.—Explain clearly the corrections necessary in reducing the sun's apparent meridian altitude, as indicated by the Transit instrument, to his true altitude.

6.—Give a page of an imaginary field book of a line of continuous

levels and reduce them to 100 feet above datum.

7.—Give a page of an imaginary field book of a chain survey.

8.—Explain briefly but accurately the various steps in making a chain survey of a plot of land of about 100 acres.

9.—Reduce the accompanying rectilinear figure to its equivalent triangle.

10.-What are contour lines and explain the operation of contouring.

II.

 Upon what fundamental geometrical principle is chain surveying based, and what check is there on the accuracy of the measurements in this system of surveying.

2.—Explain the effect upon the acreage of a piece of land of having measured it with a chain that was too long, or too short, and give an equation shewing the true acreage when the error in the chain is known.

3.—What advantage does a traverse by method of rectangular coordinates possess over a meridian traverse.

4.—Define the terms profiles, datum, bench mark.

5.—Describe the construction and adjustments of the Y Level.

6.—The sides of a rectangle measured on a map are 3-42 and 2-36 inches. Supposing the map to have shrunk ½ per cent linearly, find the real contents. The scale of the map being 6 inches to a mile.

7.—A level is set up midway between two points A & B 300 feet apart, and reads 9-27 on A, and 4-36 on B, and when placed 20 feet

from B reads 5-02 on B and 10-57 on A; state what you would infer was the condition of the instrument as regards the correctness of the

8.—Explain some good practical method of carrying the measurement of a chain line across a wide river which quite interrupts chaining but leaves vision free.

9.—The intersection of the cross wires of a level standing 4-67 feet from the ground coincides with the top of a tower 3 miles distant. Required the difference of level between the top of spire, and point of ground under level, curvature being taken into account.

10 .- Mention the different ways of finding the meridian, and describe any two of them-stating any advantages which may belong to the

methods selected.

11.-A person standing on the bank of a river observes the vertical angle subtended by a tree to be 60°, and when he retires 40 feet from the river's bank he finds itto be 30°; find height of tree and breadth of river. 12.-Explain the principle of the sextant.

MINERALOGY IN ITS APPLICATION TO MINING.

Examiners HENRY YOULE HIND, Esq., M.A. JOHN RUTHERFORD, Esq., C.E.

QUESTIONS PROPOSED.

1 .- State what you know concerning the Physical Conditions of Matter.

2.—Define Chemical Forces. Enumerate the laws of Chemical combination. State the Assumptions in the Atomic Theory.

Give some

3.—What is meant by the "Interior Work of Heat?" illustrations.

4.—Describe the Spectroscope, and illustrate its application.

5.—Describe the Physical Properties and Chemical Constitution of the Atmosphere.

6.—Classify the non-Metallic Elements, and describe the Properties and some of the Compounds (with Oxygen) of any one of the Pyrogens.

7.—Illustrate in detail the Theory and Constitution of Salts.

8.—Describe the Manufacture of Glass.

9.- Draw a Section of a common Blast Furnace, and describe processes for the reduction of Iron Ores and the Manufacture of Wrought Iron.

10.-State what you know respecting the Iron Ores and the Coal

Deposits of Nova Scotia.

II.

11.—Give examples of the different modes of Crystallization.

12.—State the Classification of Minerals, as adopted by Dana.

13. - Define and explain the different varieties of Structure in Massive Minerals.

14.—Explain the varieties of lustre, colour, state of aggregation, fracture, taste and odor of Minerals, and give examples.

15 .- State) the principles of action in the Ventilation of Mines and of a Furnace, a full of water and a Ventilating Fan.

16.—State and explain the different methods of working Coal.

17.- Explain the terms goat or got, adit level, slope, shaft, pillar.

18.—Sketch a section of portion of ground containing a mineral vein to illustrate the terms hade, strike, hanging wall, foot wall.

19.-Name the minerals in succession which constitute the scale of

20 .- Name the order of succession of the rock formations in Nova Scotia, and state the localities in which the different systems prevail.

21.—In what localities in Nova Scotia has Pyrolusite been found? Describe its mineral characters and uses.

Examiner, PROFESSOR OF THE FACULTY.

QUESTIONS PROPOSED.

I.

Traduisez en Anglais :-

Ce prince qui ne fit usage que de ses seules forces, détermina sa chute en formant des desseins qui ne pouvaient être exécutés que par une longue guerre; ce que son royaume ne pouvait soutenir.

Ce né'tait pas un état qui fut dans la décadence qu' il entreprit de renverser, mais un empire naissant. Les Moscovites se servirent de la guerre qu'il leur faisait comme d'une école. A chaque défaite ils s' approchaient de la victoire, et, perdant au dehors, ils apprenaient a se défendre au dedans.

Charles se croyait le maitre du monde dans les déserts de la Pologne, où il errait, et dans lesquels la Suède était comme répandue, pendant que son principal ennemi se fortifiait contre lui, le serrait, s'établissait sur la mer Baltique, détruisait ou prenait la Livonie.

La Suède ressemblait à un fleuve dont ou coupait les eaux dans sa source, pendant qu'on le détournait dans son cours.

Ce ne fut point Pultava qui perdit Charles: s'il n'avait pas été détruit dans ce lieu, il l'auraitété dans un autre. Les accidents de la fortune se réparent aisément ; on ne peut pas parer à des événements qui naissent continuellement de la nature des choses.

Mais ni la nature ni la fortune ne furent jamais si fort contre lui que lui-même.

Il ne se réglait point sur la disposition actuelle des choses, mais sur un certain modèle qu' il avait pris; encore le suivait-il très mal. n'était point Alexandre, mais il aurait été le meilleur soldat d' Alexandre .- Montesquieu.

В.

Mon Dieu! des moeurs du temps mettons-nous moins en peine, Et faisons un peu grâce a la nature humaine; Ne l'examinons point dans la grande rigueur, Et voyons ses défauts avec quelque douceur.

Il faut, parmi le monde, une vertu traitable; A force de sagesse, on peut-être blamable; La parfaite raison fuit toute extrémité. Et veut que l'on soit sage avec sobriété Cette grande roideur des vertus des vieux âges Heurte trop notre siècle et les communs usages ; Elle veut aux mortels trop de perfection : Il faut fléchir au temps sans obstination; Et c'ést une folie à nulle autre seconde, De vouloir se mêler de corriger le monde. J' observe, comme vous, cent choses tous les jours, Qui pourraient mieux aller, prenant un autre cours ; Mais, quoi qu' à chaque pas je puisse voir parâitre, En courroux, comme vous, on ne me voit point être. Je prends tout doucement les hommes comme ils sont; J' accoutume mon âme a souffrir ce qu' ils font, Et je crois qu' à la cour, de même qu' à la ville, Mon flegme est philosophe autant que votre bile.

Le Misanthrope. Moliere.

C.

Cette obscure clarté qui tombe des étoiles Enfin avec le flux nous fit voir trente voiles: L'onde s'enfle dessous, et d'un commun effort, Les Maures et la mer montent jusques au port. On les laisse passer : tout leur paraît tranquille ; Point de soldats au port, point aux murs de la ville. Notre profond silence abusant leurs esprits, Ils n' osent plus douter de nous avoir surpris: Ils abordent sans peur, ils ancrent, ils descendent, Et courent se livrer aux mains qui les attendent. Nous nous levons alors, et tous en même temps Poussons jusques au ciel mille cris éclatants. Les nôtres, à ces cris, de nos vaisseaux répondent; Ils paraissent armés, les Maures se confondent ; L'epouvante les prend à demi descendus; Avant que de combattre, ils s'estiment perdus.

Le Cid. Corneille.

II.

1.—Dans lesquels (voyez A.) Pourquoi lesquels et non pas qui?

Pourquoi le relatif dont ne s' emploie-t-il jamais au commencement d' une phrase?

 Quelque douceur (voyez B.) Enumerez les différentes fonctions de quelque, et citez des exemples.

3.—Abusant; éclatants (voyez C.) Quelle différence y'a-t-il entre un participe présent et un adjectif verbal? Le participe présent varie-t-iq de même que le participe passé?

4.—Ils se sont donné la main. Il est survenu des complications. Votre héros est resté caché les deux heures que la bataille a duré. Des historiens ont flétri la mémoire d'Alcibiade; d'autres l'ont relevées par des eloges — Donnez les règles qui régissent la variabilité on l'invariabilité du participe passé dans les phrases précédentes.

Indiquez ce que les phrases suivantes ont de vicieux, et éclaircissez-en le sens.

Je vous ai confié mon fils, en voulant faire quelque chose de bon. Je m' entretins longtemps avec le jardinier, en croyant obtenir des renseignements. Flore, en naissant, le reçut dans ses bras.

6.—Quels sont les pronoms que l'on considère toujours comme compléments directs lorsqu' ils sont employés comme partie intégrale de verbes essentiellement réfléchis? Lorsqu' un verbe neutre devient réfléchi, le pronom est-il d'ordinaire complement direct on indirect?

7.—Les auxiliaires avoir et être ont un sens général qui leur est particulier. Quel est ce sens? Quel auxiliaire, prennent la plupart des verbes neutres? Quel auxiliaire prennent les verbes réfléchis?

8.—Traduisez en français:—I will let you know if he comes.—I would be glad to know it, if it should be so. Donnez la règle.

9 — Quels sont les verbes avec lesquels on emploie ne sans pas? Quels sont ceux après lesquels on se sert de ne sans idée de uégation?

10.—Distinguez entre plus tôt et plutôt. Comment et comme : à la campagne et en campagne.

11.—Formez le feminin des adjectifs suivants:—Hébreu, mon, gras, vaduc, jumeau, malin, coi, aigre, favori, empereur.

12.—Formez le pluriel des mots suivants:—Oiseau-mouche, cassecou, bon-homme, coq-d'Inae, réveille-matin, eau-de-vie.

A.

The position of Coleridge in English literature is one of the most interesting and remarkable that can be imagined. To apportion him his place, and to justify the importance of it, are things which are easy to that true instinct which is above all criticism, but become difficult from the moment that we attempt to explain and give the reason why. The poetic priesthood, simple and austere, of Wordsworth—the wonderful mightiness and fulness of invention, and the splendid personal history of Scott—open to each of these great figures his appropriate pedestal, with a distinctness and simplicity which ease the critic from one of his most difficult labours.

My dear Friend,-

B.

I am sorry to say I cannot obtain for you the work you desire. I ran over the whole town yesterday and to-day, rummaging the book-sellers' shops and turning over page after page of catalogues, but in vain. Debrett, the chief bookseller here, says the book can only be got from Twine, and if you desire it, he will at once send for it. It seems to me that if you are anxious to to possess the volume, that will be the easiest way to obtain it.

I shall send you Saint-Simon's Memoirs in a fortnight at latest.

I am, as ever,

Yours sincerely,

H. B.

Traduisez en anglais :-

Se souvenir, hélas !—oublier—c'est sur terre Ce qui, selon les jours, nous fait jeunes ou vieux !

Il y a des siècles où l'opinion publique est la plus mauvaise des opinions.

Il y a des reproches qui louent, et des lonanges qui médisent.

La patience est l'art d'espérer.

GERMAN.

T

Translate into English :-

Schon stehn die beiden Sänger im hohen Säulensaal, Und auf dem Throne sitzen der König und sein Gemahl; Der König furchtbar prächtig wie blut'ger Nordlichtschein, Die Königinn süss und milde, als blickte Vollmond drein.

Da schlug der Greis die Saiten, er schlug sie wundervoll, Dass reicher, immer reicher der Klang zum Ohre schwoll, Dann strömte himmlisch helle des Jünglings Stimme vor, Des Alten Sang dazwischen wie dumpfer Geisterchor.

Sie singen von Lenz und Liebe, von sel'ger goldner Zeit, Von Freiheit, Männerwürde, von Treu' und Heiligkeit, Sie singen von allem Süssen, was Menschenbrust durchbebt, Sie singen von allem Hohen, was Menschenherz erhebt.

Die Höflingsschaar im Kreise verlernet jeden Spott, Des Königs trotz'ge Krieger sie beugen sich vor Gott, Die Königinn, zerflessen in Wehmuth und in Lust, Sie wirft den Sängern nieder die Rose von ihrer Brust.

In das friedliche Thal einreitend, seiner labender Kühle nicht achtend, waren sie kaum einige Schritte von der lebhaften Quelle des nahe fliessenden Baches herab, als die Fürstinn ganz unten im Gebüsche des Wiesenthals etwas Seltsames erblickte, das sie alsobald für den Tiger erkennte; herauspringend, wie sie ihn vor kurzem gemalt gesehen, kam er entgegen; und dieses Bild zu den furchstaren Bildern, die sie so eben beschäftigten, machte den wundersamsten Eindruck. "Flicht! gnädige Frau," rief Honerio, "Flicht!" Sie wandte das Pferd um, dem steilen Berg zu, wo sie herabgekommen waren. Der Jüngling aber, dem Unthier entgegen, zog die Pistole und schoss, als er sich nahe genug glaubte; leider jedoch war gefehlt, der Tiger sprang seitwärts, das Pferd stulzte, das ergrimmte Thier aber verfolgte seinen Weg, aufwärts unmittelbar der Furstinn nach

Schweigend sahe der Mai die bekränzte Leichtwehende Lock' im Silberbach; Röthlich war sein Kranz, wie des Aufgangs, Er sah sich und lächelte sanft.

Wüthend kamm ein Orkan am Gebirg' her ! Die Esche, die Tann' und Eiche brach, Und mit Felsen stürzte der ahorn Vomm bebenden Haupt des Gebirgs.

Ruhig schlummert am Bache der Mai ein, Liess rasen den lauten Donnersturm! Lauscht' und schlief, beweht von der Blüthe, Und wachte mit Hesperus auf.

Itzo fühlst du noch nichts von dem Elend, Wie Grazien lacht das Leben dir. Auf und waffne dich mit der Weisheit! Denn, Jüngling, die Blume verblüht!

II.

1.—Decline in the singular and plural: Dieser Reiche Kaufmann, mein Lieber Sohn, ihr altes Haus, rothes Blut.

2.—How many declensions are there in German? Distinguish between them by the classes of words they respectively contain, and any oth. haracteristics that occur to you.

3.—When is the use of sich (one another) inadmissible? What form is used instead? Translate: Charles and William walk with one another.

4.—Decline der, die, das, as article, as demonstrative pronoun, and as relative pronoun. Which is the relative pronoun, the genitive of which is supplied by der, die, das?

5.—Compare gut, hoch, nah, viel, gering, bald, gern. In what cases are participles compared?

6.—What are the two forms in which ordinal numbers may be used adverbially? Translate: To-day is the sixth of December. Edward the Sixth was the son of Henry the Eighth.

7.—How is the past participle of German verbs formed? What are the classes of verbs which do not follow the general rule?

8.—Conjugate in full the imperfect indicative and imperfect subjunctive of kommen. Which are the primitive parts of strong verbs?

9.—Give the present indicative and past participle of barg, brach, gab, ass, galt, and the infinitive and imperfect indicative of gerufen, genommen, genossen, gewusst, gezwungen, gedacht, erbliehen.

10.—Distinguish between real and quasi-compound verbs. Which are the prepositions common to both real and quasi-compound verbs?

11.—Laut, vermöge, zufolge, hinter, nebes, gegen, über, nächd, mit, durch, für.—Distribute the above prepositions according to the case or cases they govern.

12.—State as briefly as you can the order of words—a, in an independent clause,—b, in dependent clause. Name three conjunctions which affect the construction of the sentence, or three which do not.

III.

Translate into German :-

A.

The conversation took a higher tone, one fine thought called forth another: it was one of these rare seasons, when the soul expands with full freedom, and man feels himself brought near to man. Gaily in light, graceful abandonment, the friendly talk played round that circle; for the burden was rolled from every heart; the banners of ceremony, which are indeed the bands of polite living, had melted into vapour.

B

Love of pleasure is a rock on which thousands, from race to race continue to split.

Pious men are at all times disposed to look up to God and acknowledge his hand in every event of life.

As the breathing of infected air proves fatal to life; so is joy drawn from a corrupted source destructive both of virtue and true happiness.

FITZGERALD COCHRAN, Esq.

REPORT.

THE Executive Committee of the Incorporated Alumni of King's College, have great pleasure in again meeting the members of the Association, on the completion of a quarter of a century from the date of its organization.

It is gratifying to reflect, that during that period, important aid has been afforded to King's College in various ways, and especially by the adding in one year of \$40,000 to the Endowment Fund, which was effected under the auspices of this Association, and by the active exertions of several of its members.

It ought to be kept in remembrance that the very existence of the College, as regards pecuniary matters, was in jeopardy at the time this great work was undertaken; and the readiness with which its friends in all parts of the country then came forward in its support, should never fail to be recorded to their honor, and should stimulate others to similar zeal when occasion calls for it.

The Professorship of Mathematics, which was vacant at the last annual meeting, has since been filled by the appointment of Professor Oran, from the University of Galway in Ireland, who came highly recommended, and has given satisfaction.

There is now a vacancy in the important branch of Modern Languages, and the Committee understand that the Governors have taken immediate steps to fill it, in such a manner as will command the approbation of the friends of the College, and attract additional members to the Institution, for instruction in that indispensable part of Education.

Your Committee regret to have to announce an unusual number of death-vacancies during the past year, namely, Hon. M. B. Almon, Hon. Enos Collins, Rev. Charles Elliott, Henry Boggs, Esq., Joshua Snow, and Cornelius White, Esqrs. It is hoped that the places of these departed friends may speedily be more than filled by others who have never yet united with us. There are

r of

about two hundred and seventy living Alumni, of whom only about fifty have come forward as annual subscribers to this Association. In one of the previous Reports of the Executive Committee, the following remarks are found which seem to have a peculiar propriety at the present crisis:

"Where shall we look for animated effort and more vigorous exertion, if not among the ranks of those who have received their Education within the walls of the College. Every one of these, far from considering himself as done with the Institution as soon as he has B. A. attached to his name, may reasonably be expected to be an active Agent in its behalf, in whatever vocation or in whatever part of the world he may be placed, endeavoring to add to the number of its Students,—making known its wants and capabilities,—enriching its Cabinet,—contributing books to its Library, (already the largest and best in the land)—meeting unfounded misrepresentation,—and, in short, acting the part of an affectionate son towards his 'Alma Mater.'"

On the 8th April, 1872, the Governors of King's College, by Resolution requested the Associated Alumni to nominate a committee of five members of their body, to meet at Windsor as early as possible, to investigate the charges against the Visitor, Governors and Students of the College in Professor Sumichrast's letter of 12th Feb. last. A special general meeting of the Association was immediately called for the 19th April, to consider this request, and was very numerously attended, and the following Resolutions were passed:

Resolved, that a Committee of five (not necessarily from the Alumni) be appointed for the purpose mentioned in the Resolution of the Board of Governors.

"That the Provincial Government be requested to appoint two of their number to meet three to be appointed by the alumni, to proceed to Windsor to investigate the charges made, and that they be informed that their expenses will be paid by the Board of Governors."

"That the members to be appointed by the alumni shall be the Hon. S. L. Shannon, Rev. John Storrs and Captain Moody—with power to fill up the number in case of a vacancy occurring.

On receipt of these Resolutions the Governors determined that the proposed Investigation should be conducted by the Rt. Revd. the Visitor, and such assessors as he might select, and accordingly his Lordship, accompanied by H. M. Attorney General, Matthew Richey, Esq., Rev. J. Storrs, and John Rutherford, Esq., opened a Court in the College Library, on the 6th and 7th of May last, when the Investigation took place, the particulars and result of which are now published, and may be had at Mr. Gossip's and Miss Katzman's Book Stores. The Executive Committee express the hope that the manner in which the proceedings of the Visitor's Court were conducted will meet with approval and give satisfaction to the friends of the College, and the public in general.

If any enquire as to the good the College has done in its day, they may well be told to look to those who have gone forth from its halls during the eighty-four years of its existence,—many of them adorning the highest stations in Society, in various parts of the globe, as good evidence that it has performed its part well and usefully in the past, as it is hoped it will continue to do in the future.

The Treasurer's account now presented is made up as usual to the 30th April, shewing at that date a balance of \$923.89 to the credit of the Association; up to 9th May \$107.00 were added. But out of this amount there will have to be deducted the following:—Salaries of Professor of Modern Languages, to 30th June, \$250.00, of Professor of Mathematics, \$250.00; \$62 00 voted at the last annual meeting for the Library Building, and \$40.00 voted for salary of Librarian: leaving an available balance at this date of about \$300, besides unpaid subscriptions.

The business calling for the immediate attention of this meeting is the Election of five Governors, in the place of the Rt. Rev. the Bishop of Fredericton and Dr. Almon, who retire by rotation, Rev. E. E. B. Nichols and Rev. J. Ambrose, who have resigned their seats, and the Hon. M. B. Almon deceased. Also the election of a Vice-President, and members of Committee who go out by rotation, but may be re-elected.

By order of the Ex. Com.

FITZGERALD COCHRAN, Secretary,

Halifax, 24th June, 1872.

At the Annual General Meeting of the Alumni of King's College held at Windsor, on Wednesday June 28th, 1871, the following notices of Resolutions to be moved at the next annual meeting were given:

BY CHARLES B. BOWMAN, Esq.-

"That the Governors be recommended to impose an annual fee of \$2.00 upon Students and all persons using the Library, towards the salary of the Librarian." Which was seconded by Rev. Mr. Ambrose.

By Prof. Hind, seconded by Prof. Hensley-

"That the Alumni consider that great advantages would be conferred on Collegiate Education in Nova Scotia if a uniform system of examination were established throughout the Province under suitable control, for degrees in Arts, Science, Medicine, Law and Music.

"The Alumni would cordially co-operate in any scheme the Governors might adopt tending to clevate the standard and secure a uniform examination for degrees in Arts, Science, Medicine, Law and Music, and while zealously guarding all the privileges now enjoyed by this University in conferring degrees in Divinity, they would gladly assent to a plan approved by the Governors for affiliating with a Central University which shall not be a teaching Incorporation, but whose powers shall be restricted to the supervision and control of the examination for all degrees in Arts, Science, Medicine, Law and Music in all Colleges in Nova Scotia receiving Government assistance, and that such Central University shall alone possess the power to confer degrees in Arts, Science, Medicine, Law and Music in any College receiving Government aid.

By Mr. CARMAN-

"That the following resolution passed at the annual meeting in June 1865 be reconsidered:

Resolved, "That any member of this Society whose annual subscription shall remain and be unpaid for three years shall cease to be a member of this Society, and can only be admitted as a new member, by being proposed and seconded and duly elected pursuant to the Bye-Laws."

By Rev. Mr. Ambrose-

Resolved, "That a Committee of the Alumni be appointed to take such steps as may be necessary to enable a retiring Governor to be re-elected."

At the same meeting, the following resolutions were passed:—
Moved by the Lord Bishar, and seconded by the Rev. Mr.
Ambrose—

"That as it appears that the Alumni will not be required to pay the amount promised towards the salary of a Mathematical Professor for the current quarter of this year, amounting to \$62.50,

"And whereas, the Governors have pledged themselves to a large expenditure in completing and beautifying the Hall.

"Resolved, that the said amount be contributed by the Alumni towards the expenditure incurred by the Governors." Passed.

Moved by Col. Poyntz, seconded by Prof. Sumichrast-

"That the Alumni desire to express to the Board of Governors the satisfaction they feel at the steps which have been taken by the Board in repairing, decorating and arranging the Library and Museum, and by the completion of the stair case in the Binney Tower, whereby the valuable collection of Books and Minerals belonging to the College are rendered secure, and that the Secretary be instructed to transmit a copy of this resolution to the President of the Board of Governors without delay." Passed.

Moved by A. M. Cochran, Esq. -

"Resolved, "That the Board of Governors be respectfully requested to lay their annual Statement of Receipts and Expenditure before the Associated Alumni, to be inserted in the annual report of the Alumni." Passed.

Moved by Rev. Mr. OWEN-

Resolved, "That the thanks of the Associate Alumni be, and are hereby given, to the Rev. Dr. Hensley for his valuable and gratuitous services as Librarian for the past 17 years." Passed.

Moved by Dr. Almon, seconded by Dr. UNIACKE-

Resolved, "That the sum of \$40 be granted to the Librarian for his services for the ensuing year, if the funds of the Association will allow it."

AN ACT TO INCORPORATE THE ALUMNI OF KING'S COLLEGE, WINDSOR.

Passed the 30th day of March, 1847.

Whereas, a number of persons have associated themselves under the name of the Alumni of King's College, Windsor, for the promotion of education, and have raised by private contribution sums of money which they are desirous to expend in aid of the funds of the said College, and the Collegiate School, at Windsor, connected therewith, in or towards the maintenance and support of the teachers therein, or in such other way as may best conduce to the end which they have in view, and they are desirous of obtaining assistance from the Legislature, by the passing of an Act of Incorporation for enabling them to hold property, and to manage their affairs with greater ease and convenience.

1. Be it therefore enacted by the Lieutenant-Governor, Council and Assembly: that John T. Twining, James B. Uniacke, Henry Pryor, Hugh Hartshone, and all and every such other person and persons as now are members of, or in the said society, and their successors, shall be and are hereby appointed a body, politic and corporate, in deed and in name, by the name of "The Alumni of King's College, Windsor," and by that name have succession and a common Seal, and by that name shall sue and be sued, plead and be in pleaded, at law and in equity, and in all courts and places, and be able and capable in law to have, hold, purchase, get, receive, take, possess, and enjoy, lands, tenements, hereditaments and rents, in fee simple or otherwise, and also goods and chattels, and all other things real, personal and mixed, and also to give, grant, sell, let, assign or convey the same or any part thereof, and to do and execute all other things in and about the same, as shall or may be thought necessary or proper; and also shall have from time to time and at all times full power, authority, and license to constitute, make and establish such Bye-Laws, Rules and Ordinances, as may be thought necessary for the rule and good management of said society, the establishing of officers proper for the management of its affairs, and declaring the extent, duration, and authority of the offices and officers of the society, and their mode

ine 24, 1872,

of appointment, and generally for promoting the objects of the society, provided such Bye-Laws, Rules and Ordinances be not contrary and repugnant to the Laws and Statutes of this Province, or those in force within the same, or to the Laws and Statutes of King's College, Windsor, respectively, at the time such Bye-Laws, Rules and Ordinances may be constituted and established, or to the provisions of this Act; and provided, also, that the said society shall not hold at any time, lands, tenements, hereditaments, goods, chattels, property or effects, of greater value than ten thousand pounds.

II. And be it enacted, that all persons paying an annual subscription of twenty shillings or upwards, or making at one time a donation of twenty pounds or upwards, shall be entitled to be members of the said society, having been duly admitted, pursuant to the Bye-Laws thereof, provided that such annual subscription or donation be actually paid into the funds of the society, and provided that no person now a member of the said society, or who, hereafter, may become a member of the same, shall, at any time hereafter, continue a member of the same, unless he shall have heretofore paid, or shall hereafter pay at one time into the funds of the said society a donation of at least twenty pounds, or shall hereafter annually, and from year to year, pay into the said funds the sum of twenty shillings or upwards: and if such annual subscription, or payment of any such annual member, shall not be paid on the first day of May in each year, such member shall thereupon cease to be a member of the said society, until such annual subscription or payment shall be actually paid, or until such person shall otherwise become a member of the said society, under some Bye-Law or Rule thereof.

III. And be it enacted that the said society shall be governed, and its affairs managed, by a committee of nine, comprising a President, Vice-President, and seven other members, a Secretary and Treasurer; the said committee to be henceforth called the Executive Committee, and such other officers as the said society, from time to time may think proper.

IV. And provided and be it enacted, that John T. Twining, D.D. now the President of the said society, shall after the passing of this said Act, be the President of the said society; that the Hon. Henry Hezekiah Cogswell, now the Vice-President of the said society, after the passing

of this Act; that Samuel L. Shannon, Esquire, now the Secretary and Treasurer of the said society, be the Secretary and Treasurer thereof, after the passing of this Act; and Samuel P. Fairbanks, Henry Pryor, James B. Uniacke, William J. Almon, Robert Fitzgerald Uniacke, Mather B. Almon, and Charles Twining, now the Managing committee of the said society, shall after the passing of this Act, be the executive committee of the said incorporated society, until an Executive committee be elected under this Act.

V. And be it enacted that all persons, without regard to religious denomination or difference of religious sentiment may be and at any time hereafter become members of the said incorporated society, being in all other respects entitled to be and become members of the said society, and now, and at any time hereafter, may hold any of the said appointments, or any other offices and appointments in the said incorporated society, being duly elected and appointed thereto, pursuant to the Bye-Laws thereof, any thing contained herein, or in any Rules, Regulations, or Bye-Laws of the said society, to the contrary notwithstanding.

VI. And be it enacted that the said society, incorporated as aforesaid, shall have power from time to time hereafter, to appoint the President, Vice-President, and executive committee, at some general meeting of the said society by a majority of the members of the society present, the whole number present being not less than twenty members, according to such regulations concerning such appointments as may hereafter be made by any Bye-Laws of the said society, to be made by virtue hereof.

VII. And be it enacted that the secretary and treasurer of the said society, and such other officers as may hereafter be required for the management of its affairs, shall be appointed in such manner as shall be declared by the Bye-Laws and Rules of the said society, to be passed by virtue hereof.

VIII. And be it enacted that all donations to the said incorporated society, to constitute life members or otherwise, of not less than twenty pounds, shall be invested under the direction of the executive committee as a permanent fund for the benefit of the said society, and that the funds of the said incorporated society shall from time to time, be laid out and applied by the executive committee in such way and for such purpose only as any general meet-

ng of Hon. said ssing ing of the said society may direct or appoint, and that the executive committee shall be bound and are hereby required annually to account to the society for all their acts, receipts, expenditure, and doings whatsoever, in the said office, and to make a report annually to the said society, at its general meeting, of the progress and state of the said society, and of its affairs generally

IX. And be it enacted that a general meeting of the said society shall be held once, that is to say, some time within the last ten days of the month of June, in each year, and as much oftener as may be directed by any Rule or Bye-Law of the said society.

X. And be it enacted, that the executive committee of the said society shall meet and assemble as often as there may be occasion, and any three members shall form a quorum.

OF

The Alumni of King's College, Windsor.

PASSED AT A GENERAL MEETING HELD AT HALIFAX HOTEL, JUNE 27, 1848.

- I. Besides the Annual General Meeting of the Incorporated Society, it shall be competent for the committee at any time, either of their own accord, or upon a requisition signed by at least ten of the members of the association, upon giving seven days notice in the public papers, to call a special general meeting of the association, specifying the purposes for which it is called, and in which meeting it shall be competent for the association to transact any such business as may be required. Ten members shall be deemed a quotum for the transaction of business.
- II. That the books, accounts, and papers of the association shall be open at all times for the inspection of the members, and the secretary shall furnish an account of the affairs of the association whenever required by the committee.
- III. That the treasurer and secretary, and such officers as shall be requisite for the incorporated society, shall be annually appointed by the Executive Committee.
- IV. That at the annual meeting of the association, the president and vice-president shall alternately go out of office accompanied by the first three of the committee, and that all or any of them having a majority of votes shall be eligible to be re-elected.
- V. That at any meeting, members not present may vote by proxy in writing, to be held by any other member; provided that no member shall be entitled to vote either personally or by proxy, whose dues are not all paid up for the preceding year.
- VI. That the funds of the association will be appropriated for the payment of one or more professors or lecturers, and one or

more scholarships at the University of King's College, or one or more teachers or exhibitions in the Collegiate School at Windsor, to be denominated the Alumni professorships and scholarships, respectively.

VII. That the association will scrupulously apply such donations as may be made to them, to such specific objects in aid of King's College, as may be directed by the donors respectively.

VIII. That all meetings of the incorporated society shall be opened with prayer.

IX. (Passed at general meeting of June 21st, 1849.) That the elections for members of the incorporation shall be by ballot

PASSED AT DIFFERENT TIMES, AND NOW ORDERED TO BE PUBLISHED.

That no resolution or proceeding inconsistent with or modifying any resolution or proceeding adopted by a general meeting be entertained by the executive committee in Halifax, except upon a month's notice to the committee being given by the person proposing the same, and that no such resolution or proceeding be carried into effect until the same shall have been confirmed by a general meeting to be summoned for the consideration thereof, if necessary to be arranged before the annual general meeting.

That a corresponding committee of three residents in Windsor or its neighborhood, the chairman whereof shall be, if possible, a member of the executive committee, be appointed to meet on the second Wednesday in every month, and at such other times as may be expedient, upon summons of the chairman, to confer with the officers of the College or Collegiate School upon any subject to be submitted to them either by such officers, or by the executive committee in Halifax, in reference to the College or School, and to report thereon to the executive committee.

A month's notice shall be given of all resolutions affecting the rights of members, or creating new offices or salaries.

No individual shall be entitled to vote under a parochial certificate unless he be authorized by a parish meeting.

All annual general meetings of this association shall be holden at Windsor.

That the treasurer make up his annual account to the 30th of April in each and every year.

All undergraduates, resident at College, shall be competent to compete for the prize or certificate for modern languages.

At the annual meeting held at Windsor, June 29, 1856, Dr. King moved the resolution, notice of which was given at the last annual meeting by the Rev. Dr. Twining, in reference to the mode of election of Governors, viz.: that the present mode of voting for each individual separately and in alphabetical order be discontinued, and that the usual mode of putting all the names proposed on the same ballot, out of whom those having the highest number shall be

declared elected, should be adopted; which motion was seconded by Dr. Almon. After considerable discussion, Mr. A. M. Cochran moved in amendment that the following provise be added: "Provided that no person shall be declared elected as Governor unless he have a majority of votes cast." The amendment was seconded by Nepean Clarke, Esq., and carried. The original resolution of Rev. Dr. Twining, as amended by Mr. Cochran's provise, then passed.

At the general meeting, October, 17th, 1856, it was resolved, "That the right of voting by proxy be in no way interfered with."

The following resolution was passed at the general meeting, 24th June, 1857:

Resolved, That the ballot be not sent round for any officer of this association, or of the Board of Governors, whose name has not been previously proposed and seconded by some member of the association; and that the ballot be not taken until all the names of all persons intended to be proposed for any office be given.

At the annual meeting held at Windsor, June 27, 1860, the following resolution was proposed by Dr. Almon, seconded by Rev. Dr. Robertson, and passed:

Resolved, that a prize of £5 be given to the student passing the best examination for matriculation, in June next. The day of examination and other details to be settled by the President of the College.

At the annual meeting held June 25, 1862, this grant was discontinued from the want of funds.

At the same meeting the Rev. G. W. Hill moved the following resolution, which was seconded by Dr. Almon, and passed unanimously:

Resolved, that the Executive Committee of the Associate Alumni be empowered at their monthly meetings, during the interval between one annual general meeting and the next, to elect members of the Incorporation, provided that no black beans be cast against them.

Rev. Professor Hensley moved the following resolution:

Whereas, the funds of this association are pledged, and consequently no funds are left for providing the Alumni scholarship and the usual prizes.

Resolved, that honorary certificates be granted in the several departments instead of the prizes as heretofore. Which passed.

send At the annual meeting held at Windsor, on Wednesday, 28th June, 1865, the following resolution was proposed by A. M. Uniacke, Esq., D. C. L., and seconded by Col. Poyntz, and passed:

Resolved, That any member of this society whose annual subscription shall remain and be unpaid for three years shall cease to be a member of this society, and can only be admitted as a new member by being proposed and seconded and duly elected pursuant to the bye-laws.

At the annual meeting held at Windsor, on Wednesday, 23rd June, 1869, the following resolution was proposed by A.M. Uniacke, D.C.L., seconded by Dr. Almon, and passed:—

"That the Board of Governors be requested to furnish, previous to the annual general meeting of the Associated Alumni in each year, for their information, a copy of the Treasurer's account."

At the same meeting, Rev. Charles Bowman moved the following resolution, which was seconded by Frederick Allison, and passed:

"That all officers of the Associated Alumni shall have been members of the Association, for at least one year previous to their appointment."
