CROPS AND MARKETS

Hay Light, Potatoes Good But Dull
Prospects for a Market

Throughout the country generally crops are well up to the average. The backward spring and the long continued cool weather kept vigorous growth back, but July has been a full month of "great growing weather."

The hay crop is being gathered in good shape but is of rather poor quality. This is owing to cool weather in June and the abundant growth of weeds. Timothy is stunted, but there has so far been good weather for curing it. There will be less No. 1 timothy than last year, but an abundance of cattle hay as there never was a heavier clover crop.

The potato acreage is somewhat larger than ever and the stand is looking fine. Another month of favorable weather will assure a full crop. No diseases have as yet shown themselves, but the old striped bug has "come back". Paris green and spraying have pretty well done for its ravages, however.

All over Canada the potato promises a great yield. Ontario and Quebec crops are showing exceptionally good. Dealers are uneasy over the market prospects and one of the largest dealers said this was causing a good deal of alarm. Owing to the heavy Ontario crop they will have potatoes for export rather than requiring to import them. There is no chance of getting into the United States market this year.

Oats and wheat are heading out and a few weeks more warm weather will make certain a full crop.

Root crops in general are doing well. It has been a good year for pasturage and the butter yield has been good. Prices have been well maintained.

The demand for beef cattle is still heavy and cannot be supplied. It appears, however, more calves are being raised than ever before—a good sign.

The price of eggs has kept up well throughout the season.

Apples promise an excellent crop in most localities.

Glasseville

On Monday afternoon the 20th inst., the manse of Glasseville Presbyterian church was invaded by a deputation of the ladies of the district who sought to mark the natal anniversary of Mrs. Colhoun by presenting her with a kodak camera as a token of their appreciation and esteem. On behalf of the ladies Mrs. Elspet Mackenzie made the presentation and eulogized Mrs. Colhoun as having captivated all hearts by her kind and friendly manner. Mrs. Colhoun returned thanks for the gift and said it took her greatly by surprise as being wholly unexpected. Rev. Mr. Colhoun also added a few words of thanks. Sumptuous hospitality was then served by the ladies after which the conversation became general and various Irish views were displayed by the Rev. and Mrs. Colhoun. The ladies departed having given a most pleasant surprise to the manse folk.

Rev. H. C. Archer of Woodstock who recently received a call to the pastorate of the Reformed Baptist church in this town arrived in town Thursday, and on Friday evening conducted the regular Friday evening prayer meeting at the Reformed Baptist church. He also had charge of the Sunday services. It is not known as yet whether Mr. Archer will act as pastor of this church, but it is understood he will assume the pastorate for a time at least.—Fort Fairfield Review.

HOW CHILDREN GROW

Children grow by nourishment—not overloaded stomachs or rich foods but qualities that are readily converted into life-sustaining blood; too often their digestive powers cannot procure these qualities from ordinary foods which result in weakness, chilliness and sickness.

If your children are under-size, underweight, catch cold easily, are languid, backward, pale or frail, give them Scott's Emulsion which is pure medicinal nourishment. It sharpens the appetite, builds healthy flesh, firm muscles and active brains. Scott's is growing food for children. Refuse alcoholic substitutes.

VOL. 6 JULY 30, 1914 No. 7

GET READY!

On the streets, on the trains, or where any one goes one hears expressed the opinions that there will be early elections in both the province and the dominion. If the Liberals desire to win these contests they must get together and organize. First there should be a general provincial convention where the various present day issues may be made clear and a line of action formulated that will be generally acceptable. Immediately county conventions should be called, organization perfected, and the parishes interested.

The cause of defeat in the last provincial election was overconfidence and no organization, against a "purity" bait held out by Premier Flemming to the virtuous voters, and money and rum and promises of office for the kindergarten class in graft. There was a public outcry against the Flemming government so loud that really a great majority believed the election would bring about a change. But there was no unanimity of action and no clearly defined alternative policy offered the people. The huge campaign fund did the rest, and the most.

What the province needs, and what a new government should give, is an honest administration. That is what the people demand and is what they looked to Premier Flemming to give them. But they were tricked, fooled, robbed of their confidence.

Honest administration should surely be a leading plank in the Opposition platform. The Liberals from now onward must realize as never before that this is due the people. True, they have always promised this, and the record of the past shows that they succeeded better than any Conservative government has done.

The Fleming government is proved by evidence to be outrageously corrupt, and Mr. Fleming, his handy man, E. R. Teed, are at the present time custodians of a corruption fund of nearly seventy thousand dollars of cold cash.

The money collected from the lumbermen, the startling revelations of the Southampton railway steal, the more amazing developments of the Valley railway, and the pandering to capital and corporations, together with the sickening remembrance of promises of "purity," condemns the Fleming administration in the minds of every honest voter.

When the opportunity comes to free the people of this outfit the Opposition must faithfully and unitedly promise an honest government and one that will consider the rights of the people—the workers—equal with those moneyed interests and corporations that are always willing to contribute to a "campaign fund." And if the Opposition wins they must give what they promise as far as in them lies; and if they do not the people will know the remedy.

The main thing for the Opposition party is to know that overconfidence is fatal; that a well-defined policy is essential. The present government has in six

FLEMMING BEING SHOWN IN HIS TRUE COLORS

Of all the evidence of graft that has been adduced before the Royal Commission the worst to date came out on Tuesday when John Kennedy of Kennedy & McDonald swore that Premier Flemming went to him and asked him for money and that he gave into his hands a package of bills containing \$2000. Kennedy handed this money over to Flemming one week before Flemming's last election. Flemming will say this went to buy votes. Others think the Premier added the little present to his own bank account. Either way, the story is sickening to those who have heard Flemming's promise of purity and his eloquence in church and Sunday school.

years put affairs at Fredericton in a more disgraceful tangle than their predecessors left them after twenty-five years of office. They have done infinitely worse than the much ridiculed "old government." Therefore the duty of the people is to cast them out, and try a new government.

The Premier declares that Berry is not now drawing his salary. Does the Premier draw his, and if he does, why? It was Premier Flemming who directed the course the money should go, and who ultimately became the custodian of it. In reality Berry seems to never have seen the cash. Fleming fired him however, but he hung on to the cash—sure thing. He fired Berry—for what? He controls the boodle, and he draws his salary. For why?

On a public platform in Hartland J. K. Fleming raised his hand to heaven and swore to God Almighty that he would never in his life have anything to do with rum or money in politics. Before the Royal Commission in Fredericton he kissed the Book and swore that he had been custodian of nearly seventy thousand dollars of a "campaign fund" (contributed by people who had dealings with his department) for party purposes. Thou hypocrite!

It would be useless and out of place for The Observer to call upon Premier Fleming to resign. But throughout the provinces the people think he should, and the majority of the newspapers that have been giving him their support demand his resignation.

The Fredericton Mail says "Let Carvell finish his work." Not one Tory paper is asking the people to let Fleming finish his work!

Sackville Tribune:—The electors of the province owe Frank B. Carvell, M. P., a debt which they will never be able to repay. He has done the province a service which can never rightly be forgotten.

A. R. Gould credited himself on the books of the Valley Railway with \$1,000,000 for organizing the company, though all legal and other expenses had been paid with the proceeds of the guaranteed bonds. This million is included in the alleged cost of the railway.

Twelve months ago The Mail was the only provincial newspaper that pointed out that the sanctimonious Premier Flemming was not all he pretended to be. Now about one newspaper out of every two is demanding his resignation.

The Mail is wrong. Two years ago The Observer named Premier Fleming as an arch-hypocrite.

The whole country now looks to the colleagues of Premier Flem-

ing to intimate to him the impossibility of his continuing in the office in which the high regard of the people has placed him, and unless speedy justice is visited upon him, and the outraged confidence of the province vindicated they as well, will fall with him.

In the last four years of the Laurier Government, the total expenditure of the Dominion was increased by \$11,133,000. In the first two years of Borden rule, the expenditure was increased by \$24,285,000. "Dash away and spend the money" is the Borden policy—and the people pay.

Under Liberal rule such Labor troubles as occurred were settled by conciliation boards and the aid of the Government. The Borden way is to use the troops against the men, as witness the case of the troubles in the Vancouver Island coal mines and in St. John last week.

The Observer hastens to concur with the St. John Globe when it says "What is wanted is a clear cut policy with reference to the crown lands and an appeal to the people on that policy."

The Standard, The Press, The Gleaner and the Victoria Co. News are still firm in their allegiance to Premier Flemming. The remaining thirty odd newspapers of the province, with the exception of a significantly silent few, demand his resignation and that of his colleagues.

Death of Mrs. Norman Perry of West Glassville

Early on Wednesday morning, July 22, at the home of her husband, Mrs. Norman Perry of West Glassville passed from the midst of her deeply grieved family. For the past few months she had been in failing health. Recently she consulted Dr. Commins of Bath who advised her removal to Woodstock to undergo an operation. In order to comply with this advice Mrs. Perry placed herself under the care of Dr. Prescott. Before proceeding Dr. Prescott had a consultation with an eminent specialist and decided that it would be unwise for his patient to undergo the operation. Thereupon Mrs. Perry was brought back to her home and for the few remaining days, during which she suffered greatly, she was nursed with unremitting care by her sister, Miss Susan Releeder, who is in training as a nurse, also by Mrs. Alexander Lyon. Their task was lightened by the assistance of other willing helpers. It is only fair to say that during Mrs. Perry's sojourn

HIS HEALTH IN A TERRIBLE STATE

"Fruit-a-tives" Healed His Kidneys and Cured Him

HAGERSVILLE, ONT., AUG. 26th. 1913.

"About two years ago, I found my health in a very bad state. My kidneys were not doing their work and I was all run down in condition. I felt the need of some good remedy, and having seen 'Fruit-a-tives' advertised, I decided to try them. Their effect, I found more than satisfactory.

Their action was mild and the result all that could be expected. My kidneys resumed their normal action after I had taken upwards of a dozen boxes, and I regained my old-time vitality. Today, I am enjoying the best health I have ever had."

PALE AND SICKLY BOYS AND GIRLS

Need All the Strength That Good Red Blood Can Give

Youth is the time to lay the foundation for health. Every boy and girl should have plenty of pure, red blood and strong nerves. With thin, impure blood they start life with a handicap too great to win success and happiness. Pure, red blood means healthful growth, strong nerves, a clear brain and a good digestion. In a word, pure blood is the foundation of health.

The signs of thin, impure blood are many and unmistakable. The pale, irritable boy or girl, who has no appetite or ambition, is always tired out, melancholy, short of breath, and who does not grow strong, is the victim of anaemia, or bloodlessness—the greatest enemy of youth.

There is just one thing to do for these boys and girls—build up the blood with Dr. Williams' Pink Pills for Pale People. You can't afford to experiment with other remedies for there must be no guesswork in the treatment of anaemia. Through neglect or wrong treatment anaemia gradually develops into the pernicious form which is practically incurable. Dr. Williams' Pink Pills work directly on the blood, giving it just the elements which it lacks. In this way these Pills build up every organ and nerve in the body, thus developing strong, rugged boys and girls. Miss Anna Loseko, Grand Forks, B. C., says: "I think that before taking Dr. Williams' Pink Pills I was one of the most miserable girls alive. I was hardly ever free from awful headaches, was as pale as a ghost, and could not go upstairs without stopping to rest. Now since taking the Pills the headaches have gone, my appetite is good and I am equal to almost any exertion and you may be sure I will always recommend Dr. Williams' Pink Pills."

Sold by all medicine dealers or sent by mail, post paid, at 50 cents a box or six boxes for \$2.50 by writing direct to The Dr. Williams' Medicine Co., Brockville, Ont.

denying nature, Mrs. Perry forbore complaint, and was greatly sustained by an unwavering confidence in her Saviour.

The funeral procession was very large testifying to the universal esteem in which the deceased lady was held. After appropriate services conducted by the Rev. James Calhoun (pastor of the Glassville Presbyterian church) at the house, in the church and at the graveside, interment took place on Thursday afternoon in the cemetery adjoining the Gordonsville United Baptist church.

Passing away at the comparatively early age of forty-four year Mrs. Perry leaves many relatives to mourn her loss. Those of the family circle are Mr. Norman Perry, husband; Clarence and George, sons; Alice and Gladys, daughters; her mother, Mrs. A. Caldwell; her brothers, Wesley and George Releeder; and her sisters, Mrs. A. Crane (Bath)

and the Misses Alice and Susan Releeder.

For the many acts of kindness extended to his beloved wife both at Woodstock and West Glassville Mr. Norman Perry and family desire to express their most grateful thanks.

How Gould Milked the Valley Ry. Company

Ralph D. Hoben, accountant of the St. John and Quebec Railway was asked at the Royal commission Thursday morning, to open the ledger, at the account of A. R. Gould, president of the road. This disclosed a number of items for services of chauffeur, automobile supplies, and repairs for Mr. Gould's car, paid out of funds of the railway. The ledger showed Mr. Gould had advanced \$30,000 to pay for freight on rails, which subsequently repaid from proceeds on progress estimates.

Among other large items was one for \$15,000 and on that Mr. Carvell turned the searchlight. This had been raised in the form of an overdraft, Mr. Gould having deposited 225 shares of Maine and New Brunswick Power stock as security.

Of the \$15,000 raised, \$10,000 was paid A. R. Gould for two years' salary, ending July 15, 1913, and thus the outlay became a charge on the railway. All down the line, item by item, Mr. Gould's account was scrutinized from the first entry to January 14, 1912. His salary as president had commenced in January 1911, but the witness had never seen any minute of instruction fixing the salary of the president at \$5,000.

He had accepted the instructions of Ross Thompson, chief engineer, to pay the salary and had taken it for granted that it had been properly authorized. To the end of April, Mr. Gould had drawn on salary \$14,166. The witness estimated Mr. Gould's personal expenses at \$400 and rent for the office at Presque Isle, Maine, at \$1,800.

Mr. Carvell suggested that cheques for Mr. Winslow for \$2,000 and for advertising \$1,000 brought the amount paid to Gould up to 19,366 all of which was chargeable to the road.

Returning to the \$1,000 presumably paid to the Gleaner to which ten shares of Gleaner stock had been attached as security, Mr. Carvell wanted to know when and why the certificates had been removed from the voucher.

"When the auditor came the shares were detached and later attached again," said Mr. Carvell.

"When we were about to make our examination they again disappeared."

"Off again, on again, Finnegan!" commented Judge Wells.

The witness said he thought the auditor had seen the stock certificates.

Much Pain From Kidney Disease

Doctored in Vain Until Dr. Chase's Kidney-Liver Pills Were Used.

Kidney derangements are often associated with disorders of the liver and bowels, and under these conditions ordinary kidney medicines usually fail to effect cure. It is because of their unique, combined action on the liver, kidneys and bowels that Dr. Chase's Kidney-Liver Pills are so generally successful, even in the most complicated cases.

Mr. Emanuel Bernard, farmer, St. Paul's, Kent county, N.B., writes: "About eighteen years ago my wife was bad with kidney disease, and suffered greatly from headache, pains in bowels and stomach, and her heart was affected. For a year she was treated by her doctor, with no apparent benefit. She then used five boxes of Dr. Chase's Kidney-Liver Pills with most satisfactory results. This gave us such a good opinion of Dr. Chase's Kidney-Liver Pills that we always keep them in the house to be used for all derangements of the kidneys, liver and bowels." The Oliver Riding Cultivator

The Oliver Riding Cultivator, stands in a class by itself, by reason of the fact that it is built right, with larger range of adjustments so it can be adapted to do good work under all conditions in the potato field. Oliver quality has a name the world over.

In Aroostook County alone sixty-five per cent. of the Potato Cultivators used are Oliver's.

The feature of the Oliver cultivator that appeals to all farmers who have used it or have seen it at work, is the excellent work that this implement does. By an ingenious arrangement the gangs are held parallel, and therefore always cut a uniform distance apart, no matter how far they may be shifted to the right or to the left. On the Oliver cultivator neither of the gangs leaves an uncultivated strip between the shovels, nor does one gang cut a narrower width than the other when the cultivator is shifted to the side.

WEST SIDE NOTES

(By Nicodemus)

On every hand one hears the rattle of haying machinery. A hay Tedder is being used on the farm of H. W. Birmingham this season. This is the first Tedder to be used in this section and was procured through the Frost & Wood agency at Hartland.

Miss Helen Steeves called on many of her West Side friends last week. She is spending her vacation in Houlton and came over by auto with a party of friends.

Dr. Arthur Shaw, who is a successful dentist in Cambridge, Mass., is visiting his parents at Highland Farm and recovering his usual good health after undergoing a trying operation for appendicitis at St. Charles Hospital, Cambridge.

Miss Etta Shaw of Cambridge and Agnes Shaw of Auburn are also at Highland Farm for the vacation.

Miss Iva Cox, who is a nurse in training at Litchfield Hospital, Winsted, Conn., arrived at her home last week to spend the summer with her parents. Miss Cox just recently submitted to an operation for appendicitis and is still somewhat of an invalid.

Mrs. Fred Seeley, accompanied by her two children, came up on Saturday's north going express. Mrs. Seeley has been making a protracted visit among friends and relatives at her old home in York County.

Claude Seeley, C. P. R. employee on the Fredericton branch, is rusticated for a few weeks at the Seeley home and incidentally making himself useful as handy man in the hay field.

The community was startled on Wednesday morning of last week by the report of the death during the night of Mark Heywood, a well known and life-long citizen of the West Side. The deceased had been ailing for some time but was not supposed to be in a serious condition until an examination on July 13 by Drs. Curtis and Rankin revealed stomach troubles of a cancerous nature. Deceased was sixty-two years old and was a familiar character of the West Side and many friends scattered over Canada and United States will learn with sincere regret of the passing of Mark Heywood. A wife, who was Miss Jane Hayward, five sons and two daughters, one at home and the other, Mrs. Guy McMullin, living in Hartland. Of a considerably large family there are only two sisters of Mr. Heywood living, they being married and living in Spokane, Wash.

The funeral services were conducted by Rev. P. J. Trafton, Reformed Baptist, and interment was made in the family lot at Riverview cemetery. The grave and lot was beautifully arranged and decorated by friends as a fitting tribute to the one man more than any other who took an interest and pride in beautifying these grounds. In connection with this article the family asks me to convey their heartfelt thanks to the many friends who gave unstinted help and sympathy during the sickness and death of their husband and father.

Practical Dairy Work

For the next two or three weeks N. W. Eveleigh will work among the farmers in the vicinity of Hartland organizing and starting a cow testing circle to be conducted under the direction of the Provincial Agricultural Department. Efforts at different times have been made to induce the farmers to undertake this work among themselves but failing in that the Secretary of Agriculture has succeeded in evolving a plan

that will enable a practical test to be conducted with no cost to the farmer except a few cents for bottle and a little time.

Secretary D. G. Clark is convinced that the only rational manner to handle the dairy cow is to know just what she is producing in per cent. of butter fat has been unceasing in his efforts to establish an initial testing circle, and at last has succeeded in making arrangements for one to be started here under the control of his department.

In the next few days Mr. Eveleigh will call on the farmers to talk the matter over, or better still, if in Hartland call at the Frost & Wood agency and ask for information. Remember the circle is open to any individual who owns a cow or more and will devote a few minutes three times a month to weighing and saving a sample of milk.

CHAS. M. SHAW.

THE FRUITFUL VALLEY

No matter how late and discouraging the spring, New Brunswick has never had a real crop failure. Undoubtedly there is no part of North America where the general crops average more evenly from year to year. It should be ever borne in mind that never are there storms of wind or rain or hail, nor is there ever frost or drought, pests or blight that cause widespread total loss of any single crop. So accustomed are we residents on the soil to this condition that we neglect, sometimes, to be thankful. We should eternally shout the praises of our wonderful evenly productive land, not vaingloriously, but that others, elsewhere, combating with erratic weather, thin rocky soil and discouragement may come to the St. John Valley, a wonder in the world, and prosper.

Recently the writer met at various places visitors from Ontario and the States who were amazed, almost glorified, at the beauty of the Upper St. John Valley and its extraordinary advantages for agriculture. Visitors note a lack of modern methods and processes of culture, but those who visited here ten years or more ago express surprise at the improvement since their last visit. Valley farmers are now getting a reputation as progressive agriculturists. Let the good work go on.

It is not easy to comprehend how competition among farmers of one province can shorten profits, or how there can be competition at all. Farmers' customers are the people, and the greater the population the larger the markets. More farmers on the land, in turn, increase the business of stores and factories.

The great need of the St. John Valley is more farming population. The greater the influx of farmers from outside the better all around, and most particularly for those now owning land. If tomorrow an eager purchaser should come for every farm in this section the price of land would at once double.

Be a booster of the advantages of these upriver counties.

Had No Power Over the Limbs

Locomotor Ataxia, Heart Trouble and Nervous Spells Yielded to Dr. Chase's Nerve Food.

It would be easy to tell you how Dr. Chase's Nerve Food cures locomotor ataxia and depangements of heart and nerves but it may be more satisfactory to you to read this letter. Mrs. Thos. Allan, R.F.D. 3, Sombra, Ont., writes: "Five years ago I suffered a complete breakdown, and frequently had palpitation of the heart. Since that illness I have had dizzy spells, had no power over my limbs (locomotor ataxia) and could not walk straight. At night I would have severe nervous spells with heart palpitation, and would shake as though I had the ague. I felt improvement after using the first box of Dr. Chase's Nerve Food, and after continuing the treatment can now walk, eat and sleep well, have no nervous spells and do not require heart medicine. I have told several of my neighbors of the splendid results obtained from the use of Dr. Chase's Nerve Food."

Mrs. A. W. Rideout, after spending the past six months with her son, Rev. A. A. Rideout, Dorchester, Mass., arrived here on Saturday for a visit with friends.

WHAT THE MARITIME BAPTIST SAYS

The following editorial comment on provincial affairs is from the Maritime Baptist, a paper that cannot be accused of partisanship. Indeed its political leanings, if any have been noticable, have always inclined toward the Conservatives and an editor of the paper was once a candidate for parliament.

This frank article cannot but impress itself strongly on the Baptist voters of the county.

The evidence adduced by the Royal Commission appointed to examine into the Dugal charges against the crown land administration of the New Brunswick Government has attracted not a little attention. The climax of public interest was reached when Premier Fleming was called to give evidence. His friends and supporters had all along claimed that he had no complicity with the affair and the vast majority of the citizens of New Brunswick were inclined to give him the benefit of the doubt. His own testimony before the Commission however, has not done him credit and sorrow is expressed on every hand that a man who had gained public favor, as Mr. Fleming has done, should have allowed himself to have become mixed up in such a discreditable transaction. He gave evidence that he believed the fund was made up as a voluntary contribution and that it originated among the lumbermen. Mr. W. H. Berry, the Government Sealer, had so informed him and he accepted his statement. He denied extorting money from the crown land licensees, and declared that had he known compulsion was used by Mr. Berry he would have put a stop to it. He did not restrain or reprimand his chief scaler for his activity in raising the fund, but named a personal friend, Mr. E. R. Teed, to be the custodian of it. For a time, during the illness of Mr. Teed, the Premier admitted he had kept the key of the strong box containing the money and at

one time obtained a loan of \$15,000 from it, which he afterwards paid back. Apart from that, he had received no personal benefit from the fund. He looked upon the money as a campaign fund contributed by the friends of the administration and saw nothing dishonorable or discreditable in the transaction.

With Mr. Fleming's view of the moral aspect of the case that part of the public, which is not inured to vicious party methods of raising funds for corrupting the electorate, will not agree. When the fund was raised the Premier was Surveyor-General of the Province and was largely responsible for shaping the crown land policy of the Government. Indeed, one of the contributors flatly declared under oath that he paid his levy because he regarded it as "good business" so to do and others made similar admissions. In other words, they paid into a political fund either because they received favors or expected to receive them from those appointed to honestly administer the public domain. If the people of New Brunswick can condone such conduct on the part of its most trusted parliamentary representative, we are greatly mistaken in their moral fibre. The Royal Commission may not find the Premier guilty of the charge of extortion which has been laid at his door, but its finding will no doubt be such as to make it impossible for Mr. Fleming to remain the First Minister of New Brunswick. No one will be surprised to hear of his resignation. It will be surprising indeed, if his resignation is not in the hands of the Lieutenant-Governor at an early date. Whatever wrong doing in public places has been condoned in the past—and much has been winked at—the time has come when honest and fair-minded people will not stand for such transactions as have just now been brought to light. With the petty affairs of political parties this journal has little concern, but it is deeply concerned with the great moral issues involved in the crown land investigation and for the honor of New Brunswick."

Mrs. William Drake

Early this morning Mrs. William Drake of Avondale died after a long illness. She leaves her husband and nine children: William of Coldstream, Howard of Mount Pleasant, John of Stickney, Colpitt of Aroostook Jet, and Kenneth, Elizabeth and Charlotte at home, Mrs. A. G. Baker, Somerville, and Mrs. Newman Black, Avondale.

The funeral will be held tomorrow at Waterville, Rev. E. C. Jenkins conducting the service.

Deceased was a kind and good wife and mother and much esteemed by many friends. She was a daughter of the late Samuel Walton, and was born in Wilmet 71 years ago.

Mr. and Mrs. Drake were married 21 years ago, and raising nine children to be men and women here is the first death in the family in all these years.

Report of the Hotel Physician in a Leading New York Hospital on the Cause of Brain Fatigue and Nervous Exhaustion

"A few years ago we considered that we were doing well if we cured 10 per cent of the cases of Brain Fatigue and Nervous Prostration brought to us, but since the introduction of Resistol into our hospital we cure more than 90 per cent of all the cases in its various forms brought to us. It builds new tissues, gives new energy, new life, new blood and strength to any part of the body attacked by these diseases."

Resistol is a powerful tonic nourishing food medicine, composed of valuable tonic stimulants obtained from vegetable drugs. Resistol contains no narcotics or other dangerous drugs which merely deplete pain temporarily but give no permanent relief or cure the cause of disease.

Resistol is a powerful body builder and blood maker. It is the best remedy known to the medical profession to enrich thin watery blood and supply new rich blood to the whole body.

It will be found a most valuable remedy in cases of over stimulation in which the excessive use of liquor causes depression, dullness of the faculties or intoxication; it counteracts the depressing effects and restores the system to its normal condition. FREE—To prove the wonderful merits of RESISTOL we will mail a large simple bottle for 25c in silver or stamps for postage, etc.

CAN'T LOSE HAIR

Twenty Years from Today a Baldheaded Man will be an Unusual Sight

One of the most prominent druggists of America made a statement a few weeks ago which has caused a great deal of discussion among scientists in the medical press.

He said: "If the new hair grower, Mildredina Hair Remedy, increases its sales as it has during the past year it will be used by every man, woman and child in America within eight years."

"When Mildredina Hair Remedy is used almost universally dandruff will disappear and with its departure baldness, itching scalp, splitting hair and all scalp diseases will follow, and twenty years from now a bald head will be a rarity."

There is only one way to cure dandruff and that is to kill the germs. There is only one preparation that will kill the germs and that is Mildredina Hair Remedy. This unusual hair restorer with its record of thousands of cures will grow hair on any head where there is any life left. It will cure dandruff, stop falling hair and itching of the scalp in three weeks or money back.

It is the most pleasant and invigorating tonic; is not sticky or greasy, and is used extensively by ladies of refinement who desire to have and to keep their hair soft, lustrous and luxuriant. Fifty cents for a large bottle—druggists everywhere. Mail orders filled by American Proprietary Co., Boston, Mass.

CUT THIS OUT

FREE—To show how quickly Mildredina Hair Remedy acts we will send a large sample free by return mail to anyone who sends this coupon to American Proprietary Co., Boston, Mass., with their name and address and ten cents in silver or stamps to pay postage.

Remarkable Results of the New Tissue Builder, Tonoline Tablets, in Many Cases of Run Down Men and Women

Prove it Yourself by Buying a Box of Tonoline Tablets Now.

"By George I never saw anything like the effects of that new treatment, Tonoline Tablets, for building up of weight and lost nerve force. It acted more like a miracle than a medicine," said a well-known gentleman yesterday in speaking of the revolution that had taken place in his condition. "I began to think that there was nothing on earth that could make me fat. I tried tonics, digestives, heavy eating, diets, milk, beer, and almost everything else you could think of, but without result."

Any man or woman who is thin can recover normal weight by the best new treatment, Tonoline Tablets. "I have been thin for years, and began to think it was natural for me to be that way. Finally I read about the remarkable processes brought about by use of Tonoline Tabs, so I decided to try myself. Well, when I look at myself in the mirror now, I think it is somebody else. I have put on just forty pounds during the last forty days, and never felt stronger or more 'nervy' in my life."

Tonoline Tabs are a powerful inducer to nutrition, increase cell growth food, increase the number of blood corpuscles, and as a necessary result build up muscles and solid, healthy flesh and round out the figure.

For women who can never appear stylish in anything they wear because of their thinness this remarkable treatment may prove a revelation. It is a beauty maker as well as a form builder and nerve strengthener. Tonoline Tabs cost \$1.00 for a 50 days' treatment—at druggists, or mailed by American Proprietary Co., Boston, Mass.
