CHERRY PECTORAL. COUCHS, COLDS, HOARSENESS, BRONCHITIS, WHOOPING-COUGH,

CROUP, ASTHMA, AND CONSUMPTION. We invite the attention of the public tathe ertificates appended below, and bespeak to

frankness deserves.

Jackson C. H., Jackson City, O., 20th Nov. [52]
Dr. J. C. Aven—Sir: The Cherry Pectural is much inquired after. Several of our best Physicians have used if, three of them in their own case, and always with the happiest effects. The numerous patent medicines c ways before them lead to credulity in regard to every new remedy; and it is only after undoubted evidence of value in any article, that any thine like a general conin any article, that any thing like a general con

fidence can be excited.

The unrivalled excellence of this combination of agents (in the Cherry Pectoral.) provedbeyond cavil by repeated trial and their own observation, has compiled medical men to proclaim abroad its usefulness. It is beyond all doubt the best general remedy we have for fulfillonary. Affections of this climate, at the same time sedative and expectorant—a rare, combination of proporties. fidence can be excited.

AYER'S PILLS.

POR ALL THE PURPOSES OF A

FAMILY PHYSIC.

These has long existed a public deniand for an effective purpative pill which could be relied on as suce and perfectly safe in its operation. This has been prepared to meet that desaund, and an extentive trial of its witters has conclusively shown with what a success it accomplishes the purpose designed. It is easy to make a physical-pin, but not casy to make a physical-pin, but not not make the make the control of the patient where the could respectfully submit to the public decision. It has been unfortunate for the patient hitherto that almost every purgative medicine is actinonious and irritating to the owner. This is not. Many of them produce so much griping pein and revulsion in the system as to more than counterbalance the good to be derived from them. These pills produce no irritation or principless it arise from a previously existing obstruction or decangement in the bowels. Being purely executable, no harm can arise from their use in any quantity; but it is better that any medicine should be then judiciously. Minute directions for their use in the several diseases to which they are applicable are given on the box. Among the complaint which have been speedily cured by them, we may mention Liver Compilatin, in its various forms of Jaundice, Indigestion, Languor and Loss of Appetite, Listlessness, Irritability, Bilious Headache, Bilious sheere, Fever and Arue Pain in the Side and Loss's forcin truth all these are but the conand prepare the system for the change of seasons An coasional does attitudate the stomach and borrole into healthy action, and restores the appartite and the and vigor. They purify the blood, and, by their rimulant action on the circulatory system, renorwher the attength of the borr, and ceatere the wasted or dissaged energies of the shole organism. Rience an occasional does its advantageous, even though no serious derangement exists; but an accessary doeing should never be carried too far, as every purgative, shedicine reduces the attength, when taken to excess. The thousand cases an alich a physicis sequired cannot be enumerated here, but they suggest themselves to the reason of every body; and it is confidently believed this pill will answer a better purpose than any thing which has hither been available to mankind. When their virtues are once known, the public will no longer doubt what remedy to employ when in need of a gathartic medicine.

AYER'S PILLS.

This is saike true of Colds, Feveria's good purgetive billious derangonemia. They all tend to become of produce the deep seated and formidable distempers which load the hearses all over the land. Hence a reliable family physic is of the first importance to the public health, and this Pill has been perfected with consumnate skill to mer; that demand. An extensive trial of its virtues by Physicians, Profes-ters, and Fatients, has shown results surpassing anything inther to known or any medicine. Cures-have been effected beyond belief, were they not sub-stantiated by nerasing of some

allowed to refer for these facts, are
PROF. VALENTER MOTE, the distinguished Surgeon of New York City.
DOCT. A. A. HAYES, Practical Chemist of the
Port of Boston, and Geologist for the State of Mas-

Port of Boston, and Geologist for the State of Massachusetts.

In a L. Moore, M. D., an eminent Surgeon and
Physician, of the Orty of Lowell, who has long used
them in his extensive practice.

II. C. Sourawick, Eag., one of the first merchants in New York City.

C. A. Davis, M. D., supik and Surgeon of the
United States Marine Hospital, at Chelhes, Massa.

Did space permit, we could give many hundred
such names, from all parts where the Fills have
been used, but orderes even more convincing than
the certificates of these entinent public ment is
shown in their effects upon trial.

Those Pills, the result of long investigation and
study, are offered to the public as the best and
most complete which the present state of medical
science can adopt. They are compounded not of
the drugs, themselves, but of the medicinal virtues
only of Vegetable remeties, extracted by chemical
process, in a state of purity and combinal together
in such a manners to insure the best results. This
system of composition for maticines has been found
in the Cherry Pecteral and Pills both, to produce a
more efficient remedy than had hitherto been obtained by any process. The reston is perfectly obvious. While by the old mode of composition, every medicine is burdened with more or less of acramonious and injurious qualities; by this, each indiydual virtue only that is desired for the curative vious. While by the old mode of composition, every medicine is burdehed with more or less of arrimonious and injurious qualities; by this, each individual virtue only that is desired for the curative effect is present. All the inert and obnoxious qualities of each substance employed are left behind, the curative virtues-only being retained. Hence it is self-evident the effect should prove as they have proved more purely remedials, and the Pills a surer, more powerful antidote to disease than any other meeticne known to the world.

As it is frequently expedient that my medicine should be taken under the counsel of an attending Physician, and as he could not properly judge of a steady without knowing its composition. I have seened without knowing its composition, I have supplied the accurate Formula by which both my Prestell and Pills are made to the whole body of Tractitioners in the United States shill British American Provinces. If however there should be any one, who has not received them, they will be promptly forwarded by mail to his address.

Of all the Patent Medicines that are offered, have few would be taken if their composition was known Their life consists is their mystery. I have no superiors.

internal viscera to purify the blood and stimulate it into healthy actions—requere the obstructions of the stomach, bewels, liver, and other organs of the body, restoring their irregular action to health, and by correcting wherever they extst such derangements as are the first origin of disclose.

Being surgar wrapped they are pleasant to take, and being purely vogetable, no harm can arise from their use in any quantity.

For minute directions, see the wrapper of the Box.
