Mesers. S. W. FOWLE & Co., — Gentlemen: Porceveral years past I have had a knowledge of the operation of the Oxymeration particles in seeins case of Dysperies and General Debitty. They have generally given satisfaction, and sometimes have effected a permenent cure where other remedies had been used without benefit. I do not hesitate to recommend them.

Respectfully yours,

STODDARD, N. H., Sept. 36, 144 Mosers. SETH W. POWLE & CO., — Gents.: I was for many years, a great sufferer from DYSPEPSIA on WATERBRASH, and tried almost everything within my reach, but to no benefit, until I was induced by the reacmendation of my physician, Dr. Hazelton, to make use of the OXYGENATED ETTERS. The first bettle use of the OXYGENATED BITTERS. The first bottle produced but a slight alteration in the disease, and had it not been for the ungent request of my physician , should then have discontinued their use, thinking them to be of no avail; but his confidence inspired me to persevers, and after using to the extent of half a dor bottles, I had entirely regained my health. I hope and dyspeptic persons will be induced to give them a faja nrist, being confident that this remedy is the most pa-tent, for the various forms of Dyspergia, that has be produced. Yours!

This is a remedy so universally known to surpass any other for the cure of threat and lung complaints, that it is useless here to publish the evidence of its witners. Its univalled excellence for roughs and colds, and its truly wonderful cures of palmonary disease, have made it known throughout the civilined nations of the earth. Few are the communities or even families, among the with have not some present exprisence of its effects—and String trooply in their milest of its actions over the known throughout the civilined nations of the earth, few are the communities or even families, among them who have not spine personal experience of the effects— some Niving trophy in their misses of its witness even the suited and dangerous eigenders of the throat and lange. As all know the dream'd faith's of these discovers, and, as they know, to, the effects of this second, we need took do make than to assure them that it has now all the vir-ce of the effects of this second in the con-traction of the effects of this second, which have won systemacy upon the conductor of manking.
